Consolidated Financial Statements for the

Years Ended December 31, 2013 and 2012 and

Independent Auditors Report

REPRESENTATION LETTER

The entities that are required to be included in the combined financial statements of Taiwan Semiconductor Manufacturing Company Limited as of and for the year ended December 31, 2013, under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with the Statement of Financial Accounting Standards No. 7, Consolidated Financial Statements. In addition, the information required to be disclosed in the combined financial statements is included in the consolidated financial statements. Consequently, Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries do not prepare a separate set of combined financial statements.

Very truly yours,

TAIWAN SEMICONDUCTOR MANUFACTURING COMPANY LIMITED

By

MORRIS CHANG

Chairman

INDEPENDENT AUDITORS REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have audited the accompanying consolidated balance sheets of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of December 31, 2013 and 2012 and January 1, 2012 and the related consolidated statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2013 and 2012. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of December 31, 2013 and 2012 and January 1, 2012, and the results of their consolidated operations and their consolidated cash flows for the years then ended in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the International Financial Reporting Standards, International Accounting Standards, interpretation as well as related guidance translated by Accounting Research and Development Foundation endorsed by the Financial Supervisory Commission of the Republic of China with the effective dates.

We have also audited, in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China, the parent company only financial statements of Taiwan Semiconductor Manufacturing Company Limited as of and for the years ended December 31, 2013 and 2012 on which we have issued an unqualified opinion.

February 18, 2014

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is

any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and consolidated financial statements shall prevail.

(Concluded)

Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

1. GENERAL

Taiwan Semiconductor Manufacturing Company Limited (TSMC), a Republic of China (R.O.C.) corporation, was incorporated on February 21, 1987. TSMC is a dedicated foundry in the semiconductor industry which engages mainly in the manufacturing, selling, packaging, testing and computer-aided design of integrated circuits and other semiconductor devices and the manufacturing of masks.

On September 5, 1994, TSMC's shares were listed on the Taiwan Stock Exchange (TWSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

The address of its registered office and principal place of business is No. 8, Li-Hsin Rd. 6, Hsinchu Science Park, Taiwan. The principal operating activities and operating segments information of TSMC and its subsidiaries (collectively as the Company) are described in Notes 4 and 42.

2. THE AUTHORIZATION OF FINANCIAL STATEMENTS

The accompanying consolidated financial statements were approved and authorized for issue by the Board of Directors on February 18, 2014.

3. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRSs)

On May 14, 2009, the Financial Supervisory Commission (FSC) announced the roadmap of IFRSs adoption for R.O.C. companies. Accordingly, starting 2013, companies with shares listed on the TWSE or traded on the Taiwan GreTai Securities Market or Emerging Stock Market should prepare the consolidated financial statements in accordance with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the IFRSs, International Accounting Standards (IASs), interpretations as well as related guidance translated by Accounting Research and Development Foundation (ARDF) endorsed by the FSC with the effective dates (collectively, Taiwan-IFRSs).

a. New and revised standards, amendments and interpretations in issue but not yet effective
As of the date that the accompanying consolidated financial statements were authorized for issue, the new, revised or amended IFRSs, IASs, interpretations and related guidance in issue but not yet adopted by the Company as well as the effective dates issued by the International Accounting Standards Board (IASB), are stated as follows; however, the initial adoption to the following standards and interpretations is still subject to the effective date to be published by the FSC except that the standards and interpretation included in the 2013 Taiwan-IFRSs version should be adopted by the

Company starting 2015.

New, Revised or Amended Standards and Interpretations Included in the 2013 Taiwan-IFRSs version	Effective Date Issued by IASB (Note)
Amendments to IFRSs Improvements to IFRSs 2009 - Amendment to IAS 39	January 1, 2009 or January 1, 2010
Amendment to IAS 39 Embedded Derivatives	Effective in fiscal year ended on or after June 30, 2009
Improvements to IFRSs 2010	July 1, 2010 or January 1, 2011
Annual Improvements to IFRSs 2009 - 2011 Cycle	January 1, 2013
Amendments to IFRS 1 Limited Exemption from Comparative IFRS 7 Disclosures for First - time Adopters	July 1, 2010
Amendments to IFRS 1 Severe Hyperinflation and Removal of Fixed Dates for First - time Adopters	July 1, 2011
Amendments to IFRS 1 Government Loans	January 1, 2013
Amendment to IFRS 7 Disclosures - offsetting Financial Assets and Financial Liabilities	January 1, 2013
Amendment to IFRS 7 Disclosures - Transfers of Financial Assets	July 1, 2011
IFRS 10 Consolidated Financial Statements	January 1, 2013
IFRS 11 Joint Arrangements	January 1, 2013
IFRS 12 Disclosure of Interests in Other Entities	January 1, 2013
Amendments to IFRS 10, IFRS 11 and IFRS 12 Consolidated financial Statements, Joint Arrangements, and Disclosure of Interests in Other Entities: Transition Guidance	January 1, 2013
Amendments to IFRS 10, IFRS 12 and IAS 27 Investment Entities	January 1, 2014
IFRS 13 Fair Value Measurement	January 1, 2013
Amendment to IAS 1 Presentation of Items of Other Comprehensive Income	July 1, 2012
Amendment to IAS 12 Deferred Tax: Recovery of Underlying Assets	January 1, 2012
Amendment to IAS 19 Employee Benefits	January 1, 2013
Amendment to IAS 27 Separate Financial Statements	January 1, 2013
Amendment to IAS 28 Investments in Associates and Joint Ventures	January 1, 2013
Amendment to IAS 32 Offsetting of Financial Assets and Financial Liabilities	January 1, 2014
IFRIC 20 Stripping Costs in the Production Phase of A Surface Mine	January 1, 2013
<u>Not included in the 2013 Taiwan-IFRSs version</u>	
Annual Improvements to IFRSs 2010 - 2012 Cycle	July 1, 2014 or transactions on or after July 1, 2014
Annual Improvements to IFRSs 2011 - 2013 Cycle	July 1, 2014
IFRS 9 Financial Instruments	Not yet determined
Amendments to IFRS 9 and IFRS 7 Mandatory Effective Date and Transition Disclosure	Not yet determined
IFRS 14 Regulatory Deferral Accounts	January 1, 2016
Amendment to IAS 19 Defined Benefit Plans: Employee Contributions	July 1, 2014
Amendment to IAS 36 Recoverable Amount Disclosures for Non-Financial Assets	January 1, 2014
Amendment to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting	January 1, 2014
IFRIC 21 Levies	January 1, 2014

Note: The aforementioned new, revised or amended standards or interpretations are effective after fiscal year beginning on or after the effective dates, unless specified otherwise.

- b. Significant changes in accounting policy resulted from new and revised standards, amendments and interpretations in issue but not yet effective

Except for the following items, the Company believes that the adoption of aforementioned standards or interpretations will not have a significant effect on the Company's accounting policies.

1) IFRS 9, Financial Instruments

Under IFRS 9, all recognized financial assets currently in the scope of IAS 39, Financial Instruments: Recognition and Measurement, will be subsequently measured at either the amortized cost or the fair value. If the objective of the Company's business model is to hold the financial asset to collect the contractual cash flows which are solely for payments of principal and interest on the principal amount outstanding, such assets are measured at the amortized cost. All other financial assets must be measured at the fair value through profit or loss as of the end of the reporting period.

The main change in IFRS 9 is the increase of the eligibility of hedge accounting. It allows reporters to reflect risk management activities in the financial statements more closely as it provides more opportunities to apply hedge accounting. A fundamental difference to IAS 39 is that IFRS 9 (a) increases the scope of hedged items eligible for hedge accounting. For example, the risk components of non-financial items may be designated as hedging accounting; (b) revises a new way to account for the gain or loss recognition arising from hedging derivative financial instruments, which results in a less volatility in profit or loss; and (c) is necessary for there to be an economic relationship between the hedged item and hedging instrument instead of performing the retrospective hedge effectiveness testing.

The amendment to IFRS 9 issued by IASB introduces the new hedge accounting model and removed the original mandatory effective date of January 1, 2015 (on and after). IASB will reconsider the appropriate effective date once the standard is complete with a new impairment model and the finalization of any limited amendments to classification and measurement.

2) IFRS 12, Disclosure of Interests in Other Entities

IFRS 12 is a standard that requires a broader disclosure in an entity's interests in subsidiaries, joint arrangements, associates and unconsolidated entities. The objective of IFRS 12 is to specify the disclosure information provided by the entity that enables the users of financial statements in evaluating the nature of, and risks associated with, its interests in other entities and the effects of those interests on the entity's financial assets and liabilities, as well as the involvement of the owners of noncontrolling interests towards the entity. The Company expects the application of IFRS 12 will result in more extensive disclosures of interests in other entities in the financial statements.

3) IFRS 13, Fair Value Measurement

IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. It defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The disclosure requirements in IFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only will be extended by IFRS 13 to cover all assets and liabilities within its scope.

4) Amendments to IAS 1, Presentation of Items of Other Comprehensive Income

The amendments to IAS 1 introduce a new disclosure terminology for other comprehensive income, which require additional disclosures in other comprehensive income. The items of other comprehensive income will be grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that will be reclassified subsequently to profit or loss when specific conditions are met. In addition, income tax on items of other comprehensive income is also required to be allocated on the same basis. The Company expects the aforementioned amendments will change the Company's presentation on the statement of comprehensive income.

5) Amendments to IAS 19, Employee Benefits

The amendments to IAS 19 change the accounting for defined benefit plans, which require the Company to recognize changes in defined benefit obligations or assets, to disclose the components of the defined benefit costs, to eliminate the corridor approach and to accelerate the recognition of past service cost. According to the amendments, all actuarial gains and losses will be recognized immediately through other comprehensive income; the past service cost, on the other hand, will be expensed immediately when it incurs and no longer be amortized over the average period before vested on a straight-line basis. In addition, the amendment also requires a broader disclosure in defined benefit plans.

6) Amendments to IAS 36, Recoverable Amount Disclosures for Non-Financial Assets

The amendments to IAS 36 clarify that the Company is only required to disclose the recoverable amount in the year of impairment accrual or reversal. Moreover, if the recoverable amount of impaired assets is based on fair value less costs of disposal, the Company should also disclose the discount rate used. The Company expects the aforementioned amendments will result in a broader disclosure of recoverable amount for non-financial assets.

c. Impact of the application of the new and revised standards, amendments and interpretations in issue but not yet effective on the consolidated financial statements of the Company

As of the date that the accompanying consolidated financial statements were approved and authorized for issue, the Company continues in evaluating the impact on its financial position and financial performance as a result of the initial adoption of the above standards or interpretations. The related impact will be disclosed when the Company completes the evaluation.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements are the first Taiwan-IFRSs annual consolidated financial statements prepared for the year ended December 31, 2013. The Company's date of transition to Taiwan-IFRSs is January 1, 2012, and the effect of the transition to Taiwan-IFRSs is disclosed in Note 43.

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language consolidated financial statements shall prevail.

Significant accounting policies are summarized as follows:

Statement of Compliance

The accompanying consolidated financial statements have been prepared in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the IFRSs, IASs, interpretations as well as related guidance translated by the ARDF endorsed by the FSC with the effective dates.

Basis of Preparation

The accompanying consolidated financial statements have been prepared on the historical cost basis except for financial instruments that are measured at fair values, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The opening balance sheet at the date of transition is prepared in accordance with the recognition and measurement required by IFRS 1. According to IFRS 1, the Company is required to apply each effective IFRS retrospectively in its opening balance sheet at the date of transition to Taiwan-IFRSs; except for optional exemptions and mandatory exceptions to such retrospective application provided under IFRS 1. The main optional exemptions the Company adopted are described in Note 43.

Basis of Consolidation

The basis for the consolidated financial statements

The consolidated financial statements incorporate the financial statements of TSMC and entities controlled by TSMC (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Income and expenses of subsidiaries acquired or disposed of are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate. Total comprehensive income of subsidiaries is attributed to the shareholders of the parent and to the noncontrolling interests even if this results in the noncontrolling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Changes in the Company's ownership interests in subsidiaries that do not result in the Company losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Company's interests and the noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the noncontrolling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to shareholders of the parent.

When the Company loses control of a subsidiary, a gain or loss is recognized in profit or loss and is calculated as the difference between:

- a. the aggregate of the fair value of consideration received and the fair value of any retained interest at the date when control is lost; and
- b. the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any noncontrolling interest.

The Company shall account for all amounts recognized in other comprehensive income in relation to the subsidiary on the same basis as would be required if the Company had directly disposed of the related assets and liabilities.

The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the cost on initial recognition of an investment in an associate.

The subsidiaries in the consolidated financial statements

The detail information of the subsidiaries at the end of reporting period was as follows:

Name of Investor	Name of Investee	Main Businesses and Products	Establishment and Operating Location	Percentage of Ownership			Note
				December 31, 2013	December 31, 2012	January 1, 2012

Note a: This is an immaterial subsidiary for which the consolidated financial statements are not audited by the Company's independent accountants.

Note b: TSMC has no power to govern the financial and operating policies of Xintec starting June 2013 due to the loss of power to cast the majority of votes at meetings of the Board of Directors. As a result, Xintec is no longer consolidated and is accounted for using the equity method. Please refer to Note 34.

Foreign Currencies

The financial statements of each individual consolidated entity were expressed in the currency which reflected its primary economic environment (functional currency). The functional currency of TSMC and presentation currency of the consolidated financial statements are both New Taiwan Dollars (NT\$). In preparing the consolidated financial statement, the operating results and financial positions of each consolidated entity are translated into NT\$.

In preparing the financial statements of each individual consolidated entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Such exchange differences are recognized in profit or loss in the year in which they arise. Non-monetary items measured at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Exchange differences arising on the retranslation of non-monetary items are included in profit or loss for the year except for exchange differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income, in which case, the exchange differences are also recognized directly in other comprehensive income. Non-monetary items that are measured in terms of historical cost in foreign currencies are not retranslated.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Company's foreign operations are translated into NT\$ using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognized in other comprehensive income and accumulated in equity (attributed to noncontrolling interests as appropriate).

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the end of the reporting period. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the end of the reporting period. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Cash equivalents, for the purpose of meeting short-term cash commitments, consist of highly liquid time deposits and investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial Instruments

Financial assets and liabilities shall be recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially recognized at fair values. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial

liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss. Fair value is determined in the manner described in Note 36.

Financial Assets

Financial assets are classified into the following specified categories: Financial assets at fair value through profit or loss (FVTPL), held-to-maturity financial assets, available-for-sale financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognized and derecognized on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Financial assets at fair value through profit or loss

Derivative financial instruments that do not meet the criteria for hedge accounting are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss.

Held-to-maturity financial assets

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity dates that the Company has the positive intent and ability to hold to maturity. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortized cost using the effective interest method less any impairment.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated as available-for-sale or are not classified as (a) loans and receivables, (b) held-to-maturity financial assets or (c) financial assets at fair value through profit or loss.

Stocks and money market funds held by the Company that are traded in an active market are classified as available-for-sale financial assets and are stated at fair value at the end of each reporting period.

Interest income from available-for-sale monetary financial assets and dividends on available-for-sale equity investments are recognized in profit or loss. Other changes in the carrying amount of available-for-sale financial assets are recognized in other comprehensive income. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognized in other comprehensive income is reclassified to profit or loss.

Dividends on available-for-sale equity instruments are recognized in profit or loss when the Company's right to receive the dividends is established.

Available-for-sale equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost less any identified impairment losses at the end of each reporting period. Such equity instruments are subsequently remeasured at fair value when their fair value can be reliably measured, and the difference between the carrying amount and fair value is recognized in profit or loss or other comprehensive income.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables including cash and cash equivalents, notes and accounts receivable and other receivables are measured at amortized cost using the effective interest method, less any impairment, except for those loans and receivables with immaterial discounted effect.

Impairment of financial assets

Financial assets, other than those carried at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Those financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, their estimated future cash flows have been affected.

For financial assets carried at amortized cost, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. The Company assesses the collectability of receivables by performing the account aging analysis and examining current trends in the credit quality of its customers.

For financial assets carried at amortized cost, the amount of the impairment loss is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets measured at amortized cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the financial assets at the date the impairment loss is reversed does not exceed what the amortized cost would have been had the impairment loss not been recognized.

When an available-for-sale financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income are reclassified to profit or loss in the year.

In respect of available-for-sale equity instruments, impairment losses previously recognized in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to the recognition of an impairment loss is recognized in other comprehensive income and accumulated under the heading of unrealized gains or losses from available-for-sale financial assets.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account.

Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the financial asset to another entity.

On derecognition of a financial asset in its entirety, the difference between the financial asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss.

Financial Liabilities and Equity Instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Financial liabilities

Financial liabilities are subsequently measured either at amortized cost using effective interest method or at FVTPL.

Financial liabilities measured at FVTPL are derivative financial instruments that do not meet the criteria for hedge accounting, and they are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss.

Financial liabilities other than those held for trading purposes and designated as at FVTPL are subsequently measured at amortized cost at the end of each reporting period.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Derivative Financial Instruments

The Company enters into a variety of derivative financial instruments to manage its market risk exposure to foreign exchange rate, interest rate and equity price fluctuation, including forward exchange contracts, cross currency swap contracts, interest rate swaps and forward stock contracts.

Derivative financial instruments are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative financial instrument is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

Changes in the fair value of derivative financial instruments that are designated and qualify as fair value hedges are recognized in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

The effective portion of changes in the fair value of derivative financial instruments that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated under the heading of cash flow hedges reserve. Amounts previously recognized in other comprehensive income and accumulated in equity are reclassified to profit or loss in the period when the hedged item is recognized in profit or loss.

Inventories

Inventories are stated at the lower of cost or net realizable value. Inventories are recorded at standard cost and adjusted to approximate weighted-average cost at the end of the reporting period. Net realizable value represents the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale.

Investments Accounted for Using Equity Method

Investments accounted for using the equity method include investments in associates and interests in joint ventures.

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a contractual arrangement whereby the Company and other parties undertake an economic activity that is subject to joint control (i.e. when the strategic financial and operating policy decisions relating to the activities of the joint venture require the unanimous consent of the parties sharing control). Joint venture arrangements that involve the establishment of a separate entity in which each venturer has an interest are referred to as jointly controlled entities.

The operating results and assets and liabilities of associates and jointly controlled entities are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, an investment in an associate or a jointly controlled entity is initially recognized in the consolidated statement of financial position at cost and adjusted thereafter to recognize the Company's share of profit or loss and other comprehensive income of the associate and jointly controlled entity as well as the distribution received. The Company also recognized its share in the changes in the associates and jointly controlled entity.

Any excess of the cost of acquisition over the Company's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of an associate or a jointly controlled entity recognized at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment. Any excess of the Company's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The Company discontinues the use of the equity method from the date when the Company ceases to have significant influence over an associate. When the Company retains an interest in the former associate, the Group measures the retained interest at fair value at that date. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Company shall account for all amounts recognized in other comprehensive income in relation to that associate on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

When the Company subscribes to additional shares in an associate or jointly controlled entity at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differs from the amount of the Company's proportionate interest in the net assets of the associate or jointly controlled entity. The Company records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus. If the Company's ownership interest is reduced due to the additional subscription to the shares of associate or joint controlled entity by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate or jointly controlled entity shall be reclassified to profit or loss on the same basis as would be required if the associate or jointly controlled entity had directly disposed of the related assets or liabilities.

When a consolidated entity transacts with an associate or a joint controlled entity, profits and losses resulting from the transactions with the associate or jointly controlled entity are recognized in the Company's consolidated financial statements only to the extent of interests in the associate or jointly controlled entity that are not owned by the Company.

Property, Plant and Equipment

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment. Costs include any incremental costs that are directly attributable to the construction or acquisition of the item of property, plant and equipment.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognized impairment loss. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognized so as to write off the cost of the assets less their residual values over their useful lives, and it is computed using the straight-line method over the following estimated useful lives: land improvements - 20 years; buildings - 10 to 20 years; machinery and equipment - 3 to 5 years; office equipment - 3 to 15 years; and leased assets - 20 years. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimates accounted for on a prospective basis. Land is not depreciated.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the assets. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

Leases

Leases are classified as finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Company as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease.

The Company as lessee

Assets held under finance lease are initially recognized as assets of the Company at the fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated balance sheet as an obligation under finance lease.

Lease payments are apportioned between finance expense and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term.

Intangible Assets

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

Other intangible assets

Other separately acquired intangible assets with finite useful lives are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized using the straight-line method over the following estimated useful lives: Technology license fees - the estimated life of the technology or the term of the technology transfer contract; software and system design costs - 2 to 5 years; patent and others - the economic life or contract period. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Impairment of Tangible and Intangible Assets

Goodwill

Goodwill is not amortized and instead is tested for impairment annually, or more frequently when there is an indication that the cash generating unit may be impaired. For the purpose of impairment testing, goodwill is allocated to each of the Company's cash-generating units or groups of cash-generating units that are expected to benefit from the synergies of the combination. If the recoverable amount of a cash-generating unit is less than its carrying amount, the difference is allocated first to reduce the carrying amount of any goodwill allocated to such cash generating unit and then to the other assets of the cash generating unit pro rata based on the carrying amount of each asset in the cash generating unit. Any impairment loss for goodwill is recognized directly in profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

Other tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

Provision

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Sale of goods

Revenue from the sale of goods is recognized when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;

The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;

The amount of revenue can be measured reliably;

It is probable that the economic benefits associated with the transaction will flow to the Company; and

The costs incurred or to be incurred in respect of the transaction can be measured reliably. In principle, payment term granted to customers is due 30 days from the invoice date or 30 days from the end of the month of when the invoice is issued. Due to the short term nature of the receivables from sale of goods with the immaterial discounted effect, the Company measures them at the original invoice amounts without discounting.

Royalties, dividend and interest income

Revenue from royalties is recognized on an accrual basis in accordance with the substance of the relevant agreement (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably).

Dividend income from investments is recognized when the shareholder's right to receive payment has been established, provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Retirement Benefits

For defined contribution retirement benefit plans, payments to the benefit plan are recognized as an expense when the employees have rendered service entitling them to the contribution. For defined benefit retirement benefit plans, the cost of providing benefit is recognized based on actuarial calculations.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial calculations being carried out at year end. Actuarial gains and losses are reported in retained earnings in the period that they are recognized as other comprehensive income.

Share-based Payment Arrangements

The Company elected to take the optional exemption under IFRS 1 for the share-based payment transactions granted and vested before the date of transition to Taiwan-IFRSs. There were no stock options granted prior to but unvested at the date of transition. Please refer to the description in Note 43 b.

The compensation costs of employee stock options that were granted after January 1, 2012 are measured at the fair value of the stock options at the grant date. The fair value of the stock option granted determined at the grant date of the stock options is expensed on a straight-line basis over the vesting period, based on the Company's estimate of the number of stock options that will eventually vest, with a corresponding increase in capital surplus employee stock option. The estimate is revised if subsequent information indicates that the number of stock options expected to vest differs from original estimates.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Income tax on unappropriated earnings (excluding earnings from foreign consolidated subsidiaries) at a rate of 10% is expensed in the year the shareholders approved the appropriation of earnings which is the year subsequent to the year the earnings are generated.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences, net operating loss carryforwards and unused tax credits to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be recovered. The deferred tax assets which originally not recognized is also reviewed at the end of each reporting period and recognized to the extent that it is probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the year in which the liability is settled or the asset is realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION AND UNCERTAINTY

In the application of the Company's accounting policies, which are described in Note 4, the directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

The following are the critical judgments, apart from those involving estimations, that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements.

Revenue Recognition

The Company recognizes revenue when the conditions described in Note 4 are satisfied. The Company also records a provision for estimated future returns and other allowances in the same period the related revenue is recorded. Provision for estimated sales returns and other allowances is generally made and adjusted at a specific percentage based on historical experience and any known factors that would significantly affect the allowance, and our management periodically reviews the adequacy of the percentage used.

Impairment of Tangible and Intangible Assets Other than Goodwill

In the process of evaluating the potential impairment of tangible and intangible assets other than goodwill, the Company is required to make subjective judgments in determining the independent cash flows, useful lives, expected future revenue and expenses related to the specific asset groups with the consideration of the nature of semiconductor industry. Any changes in these estimates based on changed economic conditions or business strategies could result in significant impairment charges or reversal in future years.

Impairment of Goodwill

The assessment of impairment of goodwill requires the Company to make subjective judgment to determine the identified cash-generating units, allocate the goodwill to relevant cash-generating units and estimate the recoverable amount of relevant cash-generating units.

Impairment Assessment on Investment Using Equity Method

The Company assesses the impairment of investments accounted for using the equity method whenever triggering events or changes in circumstances indicate that an investment may be impaired and carrying value may not be recoverable. The Company measures the impairment based on a projected future cash flow of the investees, including the underlying assumptions of sales growth rate and capacity utilization rate formulated by such investees' internal management team. The Company also takes into account market conditions and the relevant industry trends to ensure the reasonableness of such assumptions.

Realization of Deferred Income Tax Assets

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which those deferred tax assets can be utilized. Assessment of the realization of the deferred tax assets requires the Company's subjective judgment and estimate, including the future revenue growth and profitability, tax holidays, the amount of tax credits can be utilized and feasible tax planning strategies. Any changes in the global economic environment, the industry trends and relevant laws and regulations could result in significant adjustments to the deferred tax assets.

Valuation of Inventory

Inventories are stated at the lower of cost or net realizable value, and the Company use judgment and estimate to determine the net realizable value of inventory at the end of each reporting period.

Due to the rapid technological changes, the Company estimates the net realizable value of inventory for obsolescence and unmarketable items at the end of reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions of future demand within a specific time horizon.

Recognition and Measurement of Defined Benefit Plans

Accrued pension liabilities and the resulting pension expenses under defined benefit pension plans are calculated using the Projected Unit Credit Method. Actuarial assumptions comprise the discount rate, rate of employee turnover, and long-term average future salary increase. Changes in economic circumstances and market conditions will affect these assumptions and may have a material impact on the amount of the expense and the liability.

6. CASH AND CASH EQUIVALENTS

	December 31, 2013	December 31, 2012	January 1, 2012
Cash and deposits in banks	\$ 238,014,580	\$ 140,072,294	\$ 139,637,363
Repurchase agreements collateralized by short-term commercial paper	2,395,644	349,341	
Repurchase agreements collateralized by corporate bonds	1,809,344	2,691,042	
Repurchase agreements collateralized by government bonds	475,879	297,911	3,834,914
	\$ 242,695,447	\$ 143,410,588	\$ 143,472,277

7. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

	December 31, 2013	December 31, 2012	January 1, 2012
<u>Derivative financial assets</u>			
Forward exchange contracts	\$ 90,353	\$ 38,607	\$ 15,360
Cross currency swap contracts		947	
	\$ 90,353	\$ 39,554	\$ 15,360
<u>Derivative financial liabilities</u>			
Forward exchange contracts	\$ 29,573	\$ 12,174	\$ 13,623
Cross currency swap contracts	4,177	3,451	119
	\$ 33,750	\$ 15,625	\$ 13,742

The Company entered into derivative contracts to manage exposures due to fluctuations of foreign exchange rates. The derivative contracts entered into by the Company did not meet the criteria for hedge accounting. Therefore, the Company did not apply hedge accounting treatment for derivative contracts.

Outstanding forward exchange contracts consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
<u>December 31, 2013</u>		
Sell NT\$/Buy EUR	January 2014	NT\$4,514,314/EUR110,000

Noncurrent portion	58,721,959	38,751,245	
	\$ 59,482,752	\$ 41,161,880	\$ 3,308,770

In October 2012, the Company acquired 5% of the outstanding equity of ASML Holding N.V. (ASML) for EUR837,816 thousand with a lock-up period of 2.5 years starting from the acquisition date. (Note 40e)

In the second quarter of 2012, the Company recognized an impairment loss on some of the foreign publicly traded stocks in the amount of NT\$2,677,529 thousand due to the significant decline in fair value.

9. HELD-TO-MATURITY FINANCIAL ASSETS

	December 31, 2013	December 31, 2012	January 1, 2012
Commercial paper	\$ 1,795,949	\$	\$
Corporate bonds		5,056,973	8,614,527

Current portion	\$ 1,795,949	\$ 5,056,973	\$ 3,825,680
Noncurrent portion			5,243,167
	\$ 1,795,949	\$ 5,056,973	\$ 9,068,847

10. HEDGING DERIVATIVE FINANCIAL INSTRUMENTS

	December 31, 2013	December 31, 2012	January 1, 2012
<u>Financial liabilities</u>			

Current

Cash flow hedges

Interest rate swap contracts	\$	\$	\$	232
------------------------------	----	----	----	-----

Financial liabilities

Noncurrent

Fair value hedges

Stock forward contracts	\$	5,481,616	\$	\$
-------------------------	----	-----------	----	----

The Company's investments in publicly traded stocks are exposed to the risk of market price fluctuations. Accordingly, the Company entered into stock forward contracts to sell shares at a contracted price in a specific future period in order to hedge the fair value risk caused by changes in equity prices.

The outstanding stock forward contracts consisted of the following:

Contract Amount (In Thousands)	Contract Price
<u>December 31, 2013</u>	
NT\$37,431,626	Determined by the specific percentage of spot price on the trade date

(US\$1,256,095)

In addition, the Company's long-term bank loans bear floating interest rates; therefore, changes in the market interest rate may cause future cash flows to be volatile. Accordingly, the Company entered into an interest rate swap contract in order to hedge cash flow risk caused by floating interest rates. The interest rate swap contract of the Company was due in August 2012. The contract information was as follows:

Contract Amount	Maturity Date	Range of Interest Rates Paid	Range of Interest Rates Received
(In Thousands)			
<u>January 1, 2012</u>			
NT\$80,000	August 31, 2012	1.38%	0.63%-0.86%

For the year ended December 31, 2012, the amount recognized in other comprehensive income and accumulated under the heading of cash flow hedges reserve from the above interest rate swap contract amounted to a net gain of NT\$5 thousand; the amount reclassified from equity and recognized as a loss from the above interest rate swap contract amounted to a net loss of NT\$227 thousand, which was included under finance costs in the consolidated statements of comprehensive income.

11. NOTES AND ACCOUNTS RECEIVABLE, NET

	December 31,	December 31,	January 1,
	2013	2012	2012
Notes and accounts receivable	\$ 72,136,514	\$ 58,257,798	\$ 46,321,240
Allowance for doubtful receivables	(486,588)	(480,212)	(490,952)
Notes and accounts receivable, net	\$ 71,649,926	\$ 57,777,586	\$ 45,830,288

In principle, the payment term granted to customers is due 30 days from the invoice date or 30 days from the end of the month of when the invoice is issued. The allowance for doubtful receivables is assessed by reference to the collectability of receivables by performing the account aging analysis, historical experience and current financial condition of customers.

Except for those impaired, for the rest of the notes and accounts receivable, the account aging analysis at the end of the reporting period is summarized in the following table. Notes and accounts receivable include amounts that are past due but for which the Company has not recognized a specific allowance for doubtful receivables after the assessment since there has not been a significant change in the credit quality of its customers and the amounts are still considered recoverable.

Aging analysis of notes and accounts receivable, net

	December 31, 2013	December 31, 2012	January 1, 2012

Provision	9,436	450
Write-off		(11,083)
Effect of deconsolidation of subsidiary	(3,157)	
Effect of exchange rate changes	97	(107)
Balance, end of year	\$ 486,588	\$ 480,212

Aging analysis of accounts receivable that is individually determined to be impaired

	December 31, 2013	December 31, 2012	January 1, 2012
Not past due	\$ 38	\$ 160,354	\$ 81,017
Past due 1-30 days	276	2,863	24,351
Past due 31-60 days	80		4,684
Past due 61-120 days	158		
Past due over 121 days	7,824	3,157	9,769
	\$ 8,376	\$ 166,374	\$ 119,821

The Company held bank guarantees and other credit enhancements as collateral for certain impaired accounts receivables. As of December 31, 2013 and 2012 and January 1, 2012, the amount of the bank guarantee and other credit enhancements were US\$11 thousand, US\$1,000 thousand and US\$2,962 thousand, respectively.

12. INVENTORIES

	December 31,	December 31,	January 1,
	2013	2012	2012
Finished goods	\$ 7,245,209	\$ 6,244,824	\$ 3,347,849
Work in process	26,033,625	25,713,217	17,940,960
Raw materials	2,435,269	3,864,105	1,808,615
Supplies and spare parts	1,780,790	2,008,352	1,743,158
	\$ 37,494,893	\$ 37,830,498	\$ 24,840,582

Write-down of inventories to net realizable value in the amount of NT\$664,662 thousand and NT\$1,558,915 thousand, respectively, were included in the cost of revenue for the years ended December 31, 2013 and 2012.

13. FINANCIAL ASSETS CARRIED AT COST

	December 31, 2013	December 31, 2012	January 1, 2012
Non-publicly traded stocks	\$ 1,865,078	\$ 3,314,713	\$ 4,004,314
Mutual funds	280,513	290,364	310,691
	\$ 2,145,591	\$ 3,605,077	\$ 4,315,005

Since there is a wide range of estimated fair values of the Company's investments in non-publicly traded stocks, the Company concludes that the fair value cannot be reliably measured and therefore should be measured at the cost less any impairment.

The Company recognized impairment loss on financial assets carried at cost in the amount of NT\$1,538,888 thousand and NT\$367,399 thousand for the years ended December 31, 2013 and 2012, respectively.

14. INVESTMENTS ACCOUNTED FOR USING EQUITY METHOD

Investments accounted for using the equity method consisted of the following:

	December 31, 2013	December 31, 2012	January 1, 2012
Associates	\$ 24,823,807	\$ 20,325,277	\$ 22,033,567
Jointly controlled entities	3,492,453	3,035,641	2,853,364
	\$ 28,316,260	\$ 23,360,918	\$ 24,886,931

a. Investments in associates
Associates consisted of the following:

Place of Incorporation and Operation	Carrying Amount	% of Ownership and Voting Rights Held by the Company
		65

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

Name of Associate	Principal Activities		December 31,	December 31,	January	December	December	January 1,
			2013	2012	2012	2013	2012	2012
Vanguard International Semiconductor Corporation (VIS)	Research, design, development, manufacture, packaging, testing and sale of memory integrated circuits, LSI, VLSI and related parts	Hsinchu, Taiwan	\$ 10,556,348	\$ 9,406,597	\$ 8,985,340	39%	40%	39%
Systems on Silicon Manufacturing Company Pte Ltd. (SSMC)	Fabrication and supply of integrated circuits	Singapore	7,457,733	6,710,956	6,289,429	39%	39%	39%
Motech Industries, Inc. (Motech)	Manufacturing and sales of solar cells, crystalline silicon solar cell, and test and measurement instruments and design and construction of solar power systems	Taipei, Taiwan	3,887,462	2,992,899	5,609,002	20%	20%	20%
Xintec	Wafer level chip size packaging service	Taoyuan, Taiwan	1,866,123				40%	
Global Unichip Corporation (GUC)	Researching, developing, manufacturing, testing and marketing of integrated circuits	Hsinchu, Taiwan	1,056,141	1,214,825	1,149,796	35%	35%	35%
Mcube Inc. (Mcube)	Research, development, and sale of micro-semiconductor device	Delaware, U.S.A.						25% 25%
			\$ 24,823,807	\$ 20,325,277	\$ 22,033,567			

In the fourth quarter of 2012, the Company recognized an impairment loss in the amount of NT\$1,186,674 thousand, due to the lower estimated recoverable amount compared with the carrying amount of its investments in stocks traded on the Taiwan GreTai Securities Market. Subsequently, as the recoverable amount of the aforementioned investments was higher than its carrying amount, the impairment loss of NT\$1,186,674 thousand recognized in prior year was reversed in the fourth quarter of 2013.

Since TSMC did not participate in Mcube's issuance of new shares in the third quarter of 2013, the Company's percentage of ownership in Mcube decreased to 18%. As a result, the Company evaluated and concluded that the Company did not exercise significant influence over Mcube. Therefore Mcube is no longer accounted for using the equity method. Further, such investment was reclassified to financial assets carried at cost. The Company also measured the fair value of retained interest in Mcube when the significant influence was lost, which has no difference with the carrying amount; accordingly, the Company did not recognize any gain or loss.

TSMC has no power to govern the financial and operating policies of Xintec starting June 2013 due to the loss of power to cast the majority of votes at meetings of the Board of Directors. As a result, Xintec is no longer consolidated and is accounted for using the equity method. Please refer to Note 34.

The summarized financial information in respect of the Company's associates is set out below. The summarized financial information below represents amounts shown in the associates' financial statements prepared in accordance with IFRSs, IASs, interpretations as well as related guidance translated by the ARDF endorsed by the FSC with the effective dates, which is also adjusted by the Company using the equity method of accounting.

The significant part of the Company's buildings includes main plants, mechanical and electrical power equipment and clean rooms, and the related depreciation is calculated using the estimated useful lives of 20 years, 10 years and 10 years, respectively.

For the year ended December 31, 2012, the Company recognized impairment loss of NT\$444,505 thousand related to property, plant and equipment of the foundry reportable segment since the carrying amount of some of property, plant and equipment is expected to be unrecoverable.

The Company entered into agreements to lease buildings from December 2003 to November 2018 that qualify as finance leases.

Future minimum lease gross payments were as follows:

	December 31, 2013	December 31, 2012	January 1, 2012
<u>Minimum lease payments</u>			
Not later than 1 year	\$ 28,376	\$ 27,042	\$
Later than 1 year and not later than 5 years	850,703	108,168	223,296
Later than five years		729,566	780,962
	879,079	864,776	1,004,258
Less: Future finance expenses	94,040	108,471	133,265
Present value of minimum lease payments	\$ 785,039	\$ 756,305	\$ 870,993
<u>Present value of minimum lease payments</u>			
Not later than 1 year	\$ 27,684	\$ 26,382	\$
Later than 1 year and not later than 5 years	757,355	100,821	213,411
Later than five years		629,102	657,582
	\$ 785,039	\$ 756,305	\$ 870,993
Current portion	\$ 8,809	\$ 8,190	\$
Noncurrent portion	776,230	748,115	870,993
	\$ 785,039	\$ 756,305	\$ 870,993

There was no capitalization of borrowing costs for the year ended December 31, 2013. During the year ended December 31, 2012, the Company capitalized the borrowing costs directly attributable to the acquisition or construction of property, plant and equipment. For the year ended December 31, 2012, the amount of capitalized borrowing costs was NT\$6,442 thousand and the capitalized interest rate was 1.08%-1.20%.

The Company's goodwill has been tested for impairment at the end of the annual reporting period and the recoverable amount is determined based on the value in use. The value in use was calculated based on the cash flow forecast from the financial budgets covering the future five-year period, and the Company used annual discount rate of 8.50% and 9.00% in its test of impairment as of December 31, 2013 and 2012, respectively, to reflect the relevant specific risk in

the cash-generating unit.

For the years ended December 31, 2013 and 2012, the Company did not recognize any impairment loss on goodwill.

Provisions for sales returns and allowances are estimated based on historical experience, management judgment, and any known factors that would significantly affect the returns and allowances, and are recognized as a reduction of revenue in the same year of the related product sales.

The provision for warranties represents the present value of the Company's best estimate of the future outflow of the economic benefits that will be required under the Company's obligations for warranties. The estimate has been made on the basis of historical warranty trends of business and may vary as a result of new materials, altered manufacturing processes or other events affecting product quality.

20. BONDS PAYABLE

	December 31, 2013	December 31, 2012	January 1, 2012
Domestic unsecured bonds	\$ 166,200,000	\$ 80,000,000	\$ 22,500,000
Overseas unsecured bonds	44,700,000		
	210,900,000	80,000,000	22,500,000
Less: Discounts on bonds payable	132,375		
Total	\$ 210,767,625	\$ 80,000,000	\$ 22,500,000

	\$ 40,000	\$ 1,487,500	\$ 1,650,000

As of December 31, 2013, in relation to the deconsolidation of Xintec in June 2013 (refer to Note 34), long-term bank loans of Xintec have been derecognized.

22. OTHER LONG-TERM PAYABLES

	December 31, 2013	December 31, 2012	January 1, 2012
Payables for software and system design costs	\$ 54,000	\$ 113,000	\$

Payables for acquisition of property, plant and equipment		825,447	3,399,855
Payables for technology transfer		29,038	
	\$ 54,000	\$ 967,485	\$ 3,399,855
Current portion (classified under accrued expenses and other current liabilities)	\$ 18,000	\$ 913,485	\$ 3,399,855
Noncurrent portion	36,000	54,000	
	\$ 54,000	\$ 967,485	\$ 3,399,855

TSMC entered into an agreement with a counterparty in 2003 whereby TSMC China purchased in 2004 certain property, plant and equipment. The obligations under the aforementioned agreement were fully paid in July 2013.

23. RETIREMENT BENEFIT PLANS

a. Defined contribution plans

The plan under the Labor Pension Act (the Act) is deemed a defined contribution plan. Pursuant to the Act, TSMC, Xintec, Mutual-Pak, TSMC SSL and TSMC Solar have made monthly contributions equal to 6% of each employee's monthly salary to employees' pension accounts. Furthermore, TSMC North America, TSMC China, TSMC Europe, TSMC Canada, TSMC Technology, TSMC Solar NA and TSMC Solar Europe GmbH also make monthly contributions at certain percentages of the basic salary of their employees. Accordingly, the Company recognized expenses of NT\$1,590,414 thousand and NT\$1,403,507 thousand in the consolidated statements of comprehensive income for the years ended December 31, 2013 and 2012, respectively.

b. Defined benefit plans

TSMC, Xintec, TSMC SSL and TSMC Solar have defined benefit plans under the Labor Standards Law that provide benefits based on an employee's length of service and average monthly salary for the six-month period prior to retirement. The aforementioned companies contribute an amount equal to 2% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the Committee's name in the Bank of Taiwan. TSMC revised its defined benefit plan in the fourth quarter of 2013 to set the employee's mandatory retirement age. Such plan changes have reflected in the actuarial results as of December 31, 2013.

The actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out by qualified actuaries. The principal assumptions of the actuarial valuation were as follows:

	Measurement Date		
	December 31,	December 31,	
	2013	2012	2012
Discount rate	2.15%	1.50%-1.75%	1.75%
Future salary rate increase	3.00%	2.00%-3.00%	2.50%-3.00%
Expected rate of return on plan assets	1.25%	1.75%-2.00%	2.00%

The pension costs of the defined benefit plans recognized in profit or loss were as follows:

	Years Ended December 31	
	2013	2012
Current service cost	\$ 134,762	\$ 129,217
Interest cost	175,563	160,018
Expected return on plan assets	(67,324)	(63,279)
Past service cost	(7,240)	(7,239)

	\$ 235,761	\$ 218,717
--	------------	------------

- 41 -

The pension costs of the aforementioned defined benefit plans were recognized in profit or loss by the following categories:

	Years Ended December 31	
	2013	2012
Cost of revenue	\$ 152,512	\$ 137,857
Research and development expenses	60,864	57,536
General and administrative expenses	18,080	18,923
Marketing expenses	4,305	4,401
	\$ 235,761	\$ 218,717

For the years ended December 31, 2013 and 2012, the pre-tax actuarial loss recognized in other comprehensive income were NT\$662,074 thousand and NT\$685,978 thousand, respectively. As of December 31, 2013 and 2012, the pre-tax accumulated actuarial loss recognized in other comprehensive income were NT\$1,348,052 thousand and NT\$685,978 thousand, respectively.

The amounts arising from the defined benefit obligation of the Company in the consolidated balance sheets were as follows:

	December 31,	December 31,	January 1,
	2013	2012	2012
Present value of defined benefit obligation	\$ 10,329,510	\$ 10,133,361	\$ 9,214,125
Fair value of plan assets	(3,527,847)	(3,352,567)	(3,120,665)
Funded status	6,801,663	6,780,794	6,093,460
Unrecognized prior service cost	788,263	140,440	147,564
Accrued pension cost	\$ 7,589,926	\$ 6,921,234	\$ 6,241,024

Movements in the present value of the defined benefit obligation were as follows:

	Years Ended December 31	
	2013	2012
Balance, beginning of year	\$ 10,133,361	\$ 9,214,125
Current service cost	134,762	129,217
Interest cost	175,563	160,018
Effect of plan changes	(655,179)	
Benefits paid from plan assets	(50,508)	(26,119)
Benefits paid directly by the Company	(7,011)	
Actuarial loss	638,071	656,120
Effect of deconsolidation of subsidiary	(39,549)	

Balance, end of year	\$ 10,329,510	\$ 10,133,361
----------------------	---------------	---------------

- 42 -

Movements in the fair value of the plan assets were as follows:

	Years Ended December 31	
	2013	2012
Balance, beginning of year	\$ 3,352,567	\$ 3,120,665
Expected return on plan assets	67,324	63,279
Actuarial loss	(24,003)	(29,858)
Contributions from employer	219,062	224,600
Benefits paid	(50,508)	(26,119)
Effect of deconsolidation of subsidiary	(36,595)	
Balance, end of year	\$ 3,527,847	\$ 3,352,567

The percentage of the fair value of the plan assets by major categories at the end of reporting period was as follows:

	Fair Value of Plan Assets (%)		
	December 31,	December 31,	January 1,
	2013	2012	2012
Cash	23	25	24
Equity instruments	45	38	41
Debt instruments	32	37	35
	100	100	100

The overall expected rate of return on plan assets was based on the historical return trends, analysts' predictions of the market over the life of related obligation, reference to the performance of the Funds operated by the Committee and the consideration of the effect that the minimum return should not be less than the average interest rate on a two-year time deposit published by the local banks. For the years ended December 31, 2013 and 2012, the actual return on plan assets were NT\$43,321 thousand and NT\$33,421 thousand, respectively.

The Company elects to disclose the historical information of experience adjustments from the adoption of Taiwan-IFRSs, which is as follows:

	December 31,	December 31,	January 1,
	2013	2012	2012
Experience adjustments on plan liabilities	\$ 1,294,538	\$ 396,616	\$
Experience adjustments on plan assets	\$ (24,003)	\$ (29,858)	\$

The Company expects to make contributions of NT\$223,524 thousand to the defined benefit plans in the next year starting from December 31, 2013.

24. EQUITY

a. Capital stock

	December 31,	December 31,	January 1,
	2013	2012	2012
Authorized shares (in thousands)	28,050,000	28,050,000	28,050,000
Authorized capital	\$ 280,500,000	\$ 280,500,000	\$ 280,500,000
Issued and paid shares (in thousands)	25,928,617	25,924,435	25,916,222
Issued capital	\$ 259,286,171	\$ 259,244,357	\$ 259,162,226

A holder of issued common shares with par value of NT\$10 per share is entitled to vote and to receive dividends.

The authorized shares include 500,000 thousand shares allocated for the exercise of employee stock options.

As of December 31, 2013, 1,082,959 thousand ADSs of TSMC were traded on the NYSE. The number of common shares represented by the ADSs was 5,414,794 thousand shares (one ADS represents five common shares).

b. Capital surplus

	December 31,	December 31,	January 1,
	2013	2012	2012
Additional paid-in capital	\$ 24,017,363	\$ 23,934,607	\$ 23,774,250
From merger	22,804,510	22,804,510	22,804,510
From convertible bonds	8,892,847	8,892,847	8,892,847
From differences between equity purchase price and carrying amount arising from acquisition or disposal of subsidiaries	100,827	40,733	
From share of changes in equities of associates and joint venture	43,024	2,588	
Donations	55	55	55
	\$ 55,858,626	\$ 55,675,340	\$ 55,471,662

Under the Company Law, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds, the surplus from treasury stock transactions and the differences between equity purchase price and carrying amount arising from acquisition or disposal of subsidiaries) may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or stock dividends up to a certain percentage of TSMC's paid-in capital.

c. Retained earnings and dividend policy

TSMC's Articles of Incorporation provide that, when allocating the net profits for each fiscal year, TSMC shall first offset its losses in previous years and then set aside the following items accordingly:

- 1) Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve equals TSMC's paid-in capital;

- 2) Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;
- 3) Bonus to directors and profit sharing to employees of TSMC of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of TSMC are not entitled to receive the bonus to directors. TSMC may issue profit sharing to employees in stock of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;

4) Any balance left over shall be allocated according to the resolution of the shareholders' meeting. TSMC's Articles of Incorporation also provide that profits of TSMC may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are subject to shareholders' approval in the following year.

TSMC accrued profit sharing to employees based on certain percentage of net income during the period, which amounted to NT\$12,634,665 thousand and NT\$11,115,240 thousand for the years ended December 31, 2013 and 2012, respectively. Bonuses to members of the Board of Directors were expensed based on estimated amount payable. If the actual amounts subsequently approved by the shareholders differ from the amounts estimated, the differences are recorded in the year such bonuses are approved by the shareholders as a change in accounting estimate. If profit sharing approved for distribution to employees is in the form of common shares, the number of shares is determined by dividing the amount of profit sharing by the closing price (after considering the effect of dividends) of the shares on the day preceding the shareholders' meeting.

The appropriation for legal capital reserve shall be made until the reserve equals the Company's paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends in cash or stocks for the portion in excess of 25% of the paid-in capital if the Company incurs no loss.

Pursuant to existing regulations, the Company is required to set aside additional special capital reserve equivalent to the net debit balance of the other components of stockholders' equity, such as the accumulated balance of foreign currency translation reserve, unrealized valuation gain/loss on available-for-sale financial assets, gain/loss from changes in fair value of hedging instruments in cash flow hedges, etc. For the subsequent decrease in the deduction amount to stockholders' equity, any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of 2012 and 2011 earnings have been approved by TSMC's shareholders in its meetings held on June 11, 2013 and on June 12, 2012, respectively. The appropriations and dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	For Fiscal Year 2012	For Fiscal Year 2011	For Fiscal Year 2012	For Fiscal Year 2011
Legal capital reserve	\$ 16,615,880	\$ 13,420,128		
Special capital reserve	(4,820,483)	1,172,350		

Cash dividends to shareholders	77,773,307	77,748,668	\$ 3.00	\$ 3.00
	\$ 89,568,704	\$ 92,341,146		

- 45 -

TSMC's profit sharing to employees and bonus to members of the Board of Directors in the amounts of NT\$11,115,240 thousand and NT\$71,351 thousand in cash for 2012, respectively, and profit sharing to employees and bonus to members of the Board of Directors in the amounts of NT\$8,990,026 thousand and NT\$62,324 thousand in cash for 2011, respectively, had been approved by the shareholders in its meetings held on June 11, 2013 and June 12, 2012, respectively. The aforementioned approved amount is the same as the one approved by the Board of Directors in its meetings held on February 5, 2013 and February 14, 2012, respectively, and the same amount had been charged against earnings for the years ended December 31, 2012 and 2011, respectively.

The appropriations of earnings, payment of profit sharing to employees and bonus to members of the Board of Directors for the year ended December 31, 2012 approved by the Board of Directors of TSMC were based on the financial statements for the year ended December 31, 2012 prepared under the R.O.C. GAAP and in accordance with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers issued by the FSC before amendment.

TSMC's appropriations of earnings for 2013 had been approved in the meeting of the Board of Directors held on February 18, 2014. The appropriations and dividends per share were as follows:

	Appropriation of Earnings For Fiscal Year 2013	Dividends Per Share (NT\$) For Fiscal Year 2013
Legal capital reserve	\$ 18,814,679	
Special capital reserve	(2,785,741)	
Cash dividends to shareholders	77,785,851	\$ 3.00
	\$ 93,814,789	

The Board of Directors of TSMC also approved the profit sharing to employees and bonus to members of the Board of Directors in the amounts of NT\$12,634,665 thousand and NT\$104,136 thousand in cash for payment in 2013, respectively. There is no significant difference between the aforementioned approved amounts and the amounts charged against earnings of 2013.

The appropriations of earnings, profit sharing to employees and bonus to members of the Board of Directors for 2013 are to be presented for approval in the TSMC's shareholders' meeting to be held on June 24, 2014 (expected).

The information about the appropriations of TSMC's profit sharing to employees and bonus to members of the Board of Directors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, the R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by TSMC on earnings generated since January 1, 1998.

d. Others

Changes in others were as follows:

	Year Ended December 31, 2013			
	Foreign Currency Translation Reserve	Unrealized Gain/Loss from Available- for-sale Financial Assets	Cash Flow Hedges Reserve	Total
Balance, beginning of year	\$ (10,753,806)	\$ 7,973,321	\$	\$ (2,780,485)

Balance, end of year	\$ (10,753,806)	\$ 7,973,321	\$	\$ (2,780,485)

(Concluded)

The exchange differences arising on translation of foreign operation's net assets from its functional currency to TSMC's presentation currency are recognized directly in other comprehensive income and also accumulated in the foreign currency translation reserve.

Unrealized gain/loss on available-for-sale financial assets represents the cumulative gains or losses arising from the fair value measurement on available-for-sale financial assets that are recognized in other comprehensive income, excluding the amounts recognized in profit or loss for the effective portion from changes in fair value of the hedging instruments. When those available-for-sale financial assets have been disposed of or are determined to be impaired subsequently, the related cumulative gains or losses in other comprehensive income are reclassified to profit or loss.

The cash flow hedges reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of the hedging instruments entered into as cash flow hedges. The cumulative gain or loss arising on changes in fair value of the hedging instruments that are recognized and accumulated in cash flow hedges reserve will be reclassified to profit or loss only when the hedge transaction affects profit or loss.

e. Noncontrolling interests

25. SHARE-BASED PAYMENT

a. Optional exemption from applying IFRS 2 Share-based Payment (IFRS 2)

The Company elected to take the optional exemption from applying IFRS 2 retrospectively for share-based payment transactions granted and vested before January 1, 2012. The plans are described as follows:

TSMC's Employee Stock Option Plans, consisting of the TSMC 2004 Plan, TSMC 2003 Plan and TSMC 2002 Plan, were approved by the Securities and Futures Bureau (SFB) on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of stock options authorized to be granted under the TSMC 2004 Plan, TSMC 2003 Plan and TSMC 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each stock option eligible to subscribe for one common share of TSMC when exercised. The stock options may be granted to qualified employees of TSMC or any of its domestic or foreign subsidiaries, in which TSMC's shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The stock options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the stock options are granted at an exercise price equal to the closing price of TSMC's common shares quoted on the TWSE on the grant date.

Stock options of the plans that had never been granted or had been granted but subsequently canceled had expired as of December 31, 2013.

Information about TSMC's outstanding stock options for the years ended December 31, 2013 and 2012 was as follows:

	Number of Stock Options (In Thousands)	Weighted- average Exercise Price (NT\$)
Year ended December 31, 2013		
Balance, beginning of year	5,945	\$ 34.6
Stock options exercised	(4,182)	29.8
Balance, end of year	1,763	45.9
Year ended December 31, 2012		
Balance, beginning of year	14,293	\$ 31.4
Stock options exercised	(8,213)	29.5
Stock options canceled	(135)	34.6
Balance, end of year	5,945	34.6

The numbers of outstanding stock options and exercise prices have been adjusted to reflect the distribution of earnings by TSMC in accordance with the plans.

Information about TSMC's outstanding stock options was as follows:

Range of Exercise Price (NT\$)	December 31, 2013 Weighted-average		December 31, 2012 Weighted-average		January 1, 2012 Weighted-average	
	Remaining Contractual Life (Years)	Range of Exercise Price (NT\$)	Remaining Contractual Life (Years)	Range of Exercise Price (NT\$)	Remaining Contractual Life (Years)	Range of Exercise Price (NT\$)
\$43.2-\$47.2	1.0	\$ 20.2-\$28.3	0.4	\$ 20.9-\$29.3	1.2	
		\$ 38.0-\$50.1	2.0	\$ 38.0-\$50.1	2.9	

As of December 31, 2013, all of the above outstanding stock options were exercisable.

b. Application of IFRS 2

The Company applied IFRS 2 for the following plans as the shared-based payment transactions were granted and vested on or after January 1, 2012. The plans are described as follows:

The Board of Directors of TSMC SSL approved on December 18, 2012 and November 21, 2011 the issuance of new shares and allocated 17,000 thousand shares and 17,175 thousand shares for 2013 and 2012 stock option plan, respectively, for their employees to subscribe to, according to the Company Law. The aforementioned stock options

were fully vested on the grant date.

- 50 -

Information about TSMC SSL's employee stock options related to the aforementioned new shares issued was as follows:

	Number of Stock Options (In Thousands)	Weighted- average Exercise Price (NT\$)
<u>Year ended December 31, 2013</u>		
Balance, beginning of year		\$
Stock options granted	17,000	10.0
Stock options exercised	(17,000)	10.0
Balance, end of year		
<u>Year ended December 31, 2012</u>		
Balance, beginning of year		\$
Stock options granted	17,175	10.0
Stock options exercised	(17,175)	10.0
Balance, end of year		

The grant dates of aforementioned stock options were April 10, 2013 and January 9, 2012, respectively. TSMC SSL used the Black-Scholes model to determine the fair value of the stock options. The valuation assumptions were as follows:

	2013 Stock Option Plan	2012 Stock Option Plan
Valuation assumptions:		
Stock price on grant date (NT\$/share)	\$4.6	\$8.9
Exercise price (NT\$/share)	\$10.0	\$10.0
Expected volatility	51.68%	40.32%
Expected life	31 days	40 days
Risk free interest rate	0.60%	0.76%

The stock price of TSMC SSL on grant date was determined based on the cost approach. The expected volatility was calculated using the historical rate of return based on the TWSE Optoelectronic Index.

The fair value of the aforementioned stock options was close to nil, and accordingly, no compensation cost was recognized.

The Board of Directors of TSMC Solar approved on November 21, 2011 the issuance of new shares and allocated 12,341 thousand shares for stock option plan for their employees to subscribe to, according to the Company Law. The aforementioned stock options were fully vested on the grant date.

Information about TSMC Solar's employee stock options related to the aforementioned new shares issued was as follows:

	Number of Stock Options (In Thousands)	Weighted- average Exercise Price (NT\$)
Year ended December 31, 2012		
Balance, beginning of year		\$
Stock options granted	12,341	10.0
Stock options exercised	(12,341)	10.0
Balance, end of year		

The grant date of aforementioned stock options was January 9, 2012. TSMC Solar used the Black-Scholes model to determine the fair value of the stock options. The valuation assumptions were as follows:

Valuation assumptions:	
Stock price on grant date (NT\$/share)	\$9.0
Exercise price (NT\$/share)	\$10.0
Expected volatility	40.32%
Expected life	40 days
Risk free interest rate	0.76%

The stock price of TSMC Solar on grant date was determined based on the cost approach. The expected volatility was calculated using the historical rate of return based on the TWSE Optoelectronic Index.

The fair value of the aforementioned stock options was close to nil, and accordingly, no compensation cost was recognized.

26. NET REVENUE

The analysis of the Company's net revenue was as follows:

	Years Ended December 31	
	2013	2012
Net revenue from sale of goods	\$ 596,516,949	\$ 506,248,580
Net revenue from royalties	507,248	496,654

- d. The investment tax credits, operating loss carryforward and deductible temporary differences for which no deferred income tax assets have been recognized in the consolidated financial statements

The information of the investment tax credits for which no deferred income tax assets have been recognized was as follows:

Expiry year	December 31,	December 31,	January 1,
	2013	2012	2012
2012	\$	\$	\$ 11,254
2013		33,089	5,493,620
2014	3,019,880	5,830,285	4,915,861
2015		22,864	23,590
	\$ 3,019,880	\$ 5,886,238	\$ 10,444,325

The information of the operating loss carryforward for which no deferred tax assets have been recognized was as follows:

	December 31, 2013	December 31, 2012	January 1, 2012
Expiry year			
2014 - 2018	\$ 41,894	\$ 41,894	\$ 41,894
2019 - 2023	5,773,037	5,402,683	7,558,917
	\$ 5,814,931	\$ 5,444,577	\$ 7,600,811

As of December 31, 2013 and 2012 and January 1, 2012, the aggregate deductible temporary differences for which no deferred income tax assets have been recognized amounted to NT\$8,673,160 thousand, NT\$13,589,292 thousand and NT\$14,893,317 thousand, respectively.

e. Unused investment tax credits, operating loss carryforward and tax-exemption information
As of December 31, 2013, investment tax credits of TSMC and TSMC SSL consisted of the following:

Law/Statute	Item	Remaining Creditable Amount	Expiry Year
Statute for Upgrading Industries	Purchase of machinery and equipment	\$ 4,493,509	2014
		482,351	2015
		\$ 4,975,860	

As of December 31, 2013, operating loss carryforward of TSMC Solar, TSMC SSL, Mutual-Pak and WaferTech consisted of the following:

Remaining Creditable Amount	Remaining Creditable Amount
Expiry Year	
2014 - 2018	\$ 41,894
2019 - 2023	9,052,631
	\$ 9,094,525

As of December 31, 2013, the profits generated from the following projects of TSMC are exempt from income tax for a five-year period:

	Tax-exemption Period
Construction and expansion of 2005 by TSMC	2010 to 2014
Construction and expansion of 2006 by TSMC	2011 to 2015
Construction and expansion of 2007 by TSMC	2014 to 2018

f. The information of unrecognized deferred income tax liabilities associated with investments As of December 31, 2013 and 2012 and January 1, 2012, the aggregate taxable temporary differences associated with investments in subsidiaries not unrecognized as deferred income tax liabilities amounted to NT\$28,035,340 thousand, NT\$20,516,999 thousand and NT\$15,074,593 thousand, respectively.

g. Integrated income tax information

	December 31, 2013	December 31, 2012	January 1, 2012
Balance of the Imputation Credit Account - TSMC	\$ 15,242,724	\$ 8,130,060	\$ 4,003,228

The estimated and actual creditable ratio for distribution of TSMC's earnings of 2013 and 2012 were 9.80% and 7.75 %, respectively.

Under the Rule No.10204562810 issued by the Ministry of Finance, when calculating the creditable ratio in the year of first-time adoption of Taiwan-IFRSs, the Company has included the adjustments to retained earnings from the effect of transition to Taiwan-IFRSs in the accumulated unappropriated earnings.

The imputation credit allocated to shareholders is based on its balance as of the date of the dividend distribution. The estimated creditable ratio may change when the actual distribution of the imputation credit is made.

All of TSMC's earnings generated prior to December 31, 1997 have been appropriated.

h. Income tax examination

The tax authorities have examined income tax returns of TSMC through 2010. All investment tax credit adjustments assessed by the tax authorities have been recognized accordingly.

32. EARNINGS PER SHARE

	Years Ended December 31	
	2013	2012
Basic EPS	\$ 7.26	\$ 6.42
Diluted EPS	\$ 7.26	\$ 6.41

EPS is computed as follows:

	Amounts (Numerator)	Number of Shares (Denominator) (In Thousands)	EPS (NT\$)
<u>Year ended December 31, 2013</u>			
Basic EPS			
Net income available to common shareholders of the parent	\$ 188,146,790	25,927,778	\$ 7.26

Effect of dilutive potential common shares				1,825
--	--	--	--	-------

Diluted EPS

Net income available to common shareholders of the parent (including effect of dilutive potential common shares)	\$ 188,146,790	25,929,603	\$	7.26
--	----------------	------------	----	------

(Continued)

	Amounts (Numerator)	Number of Shares (Denominator) (In Thousands)	EPS (NT\$)
<u>Year ended December 31, 2012</u>			
Basic EPS			
Net income available to common shareholders of the parent	\$ 166,318,286	25,920,735	\$ 6.42
Effect of dilutive potential common shares		7,201	
Diluted EPS			
Net income available to common shareholders of the parent (including effect of dilutive potential common shares)	\$ 166,318,286	25,927,936	\$ 6.41

(Concluded)

If the Company may settle the obligation by cash, by issuing shares, or in combination of both cash and shares, profit sharing to employees which will be settled in shares should be included in the weighted average number of shares outstanding in calculation of diluted EPS, if the shares have a dilutive effect. The number of shares is estimated by dividing the amount of profit sharing to employees in stock by the closing price (after considering the dilutive effect of dividends) of the common shares on the end of the reporting period. Such dilutive effect of the potential shares needs to be included in the calculation of diluted EPS until profit sharing to employees to be settled in the form of common stocks are approved by the shareholders in the following year.

33. ADDITIONAL INFORMATION OF EXPENSES BY NATURE

Net income included the following items:

	Years Ended December 31	
	2013	2012
a. Depreciation of property, plant and equipment		
Recognized in cost of revenue	\$ 141,002,263	\$ 118,313,581
Recognized in operating expenses	12,952,464	10,848,277
Recognized in other operating income and expenses	25,120	6,656
	\$ 153,979,847	\$ 129,168,514
b. Amortization of intangible assets		
Recognized in cost of revenue	\$ 1,154,698	\$ 1,344,819
Recognized in operating expenses	1,047,324	835,956
	\$ 2,202,022	\$ 2,180,775
	\$ 48,118,165	\$ 40,383,195

c. Research and development costs expensed as incurred

- 59 -

	Years Ended December 31	
	2013	2012
d. Employee benefits expenses		
Post-employment benefits (Note 23)		
Defined contribution plans	\$ 1,590,414	\$ 1,403,507
Defined benefit plans	235,761	218,717
	1,826,175	1,622,224
Equity-settled share-based payments	5,312	6,219
Other employee benefits	65,514,082	59,668,232
	\$ 67,345,569	\$ 61,296,675
Employee benefits expense summarized by function		
Recognized in cost of revenue	\$ 40,245,628	\$ 35,561,523
Recognized in operating expenses	27,099,941	25,735,152
	\$ 67,345,569	\$ 61,296,675

34. DECONSOLIDATION OF SUBSIDIARY

Starting June 2013, the Company has no power to govern the financial and operating policies of Xintec due to the loss of power to cast the majority of votes at meetings of the Board of Directors; accordingly, the Company derecognized related assets, liabilities and noncontrolling interests of Xintec.

a. Consideration received

The Company did not receive any consideration in the deconsolidation of Xintec.

b. Analysis of assets and liabilities over which the Company lost control

	June 30,
	2013
Current assets	
Cash and cash equivalents	\$ 979,910
Accounts receivable	564,364
Inventories	213,133
Others	110,766
Noncurrent assets	
Property, plant and equipment	5,595,040
Others	164,311
Current liabilities	
Accounts payable	(1,571,289)
Others	(291,715)

Net assets deconsolidated	\$ 3,796,423
---------------------------	--------------

- 60 -

c. Gain on deconsolidation of subsidiary

	Six Months Ended June 30,
	2013
Fair value of interest retained	\$ 1,816,848
Less: Carrying amount of interest retained	
Net assets deconsolidated	3,796,423
Noncontrolling interests	(2,273,153)
	1,523,270
Gain on deconsolidation of subsidiary	\$ 293,578

Gain on deconsolidation of subsidiary was included in other gains and losses for the year ended December 31, 2013.

d. Net cash outflow arising from deconsolidation of the subsidiary

	Six Months Ended June 30,
	2013
The balance of cash and cash equivalents deconsolidated	\$ 979,910

35. CAPITAL MANAGEMENT

The Company requires significant amounts of capital to build and expand its production facilities and acquire additional equipment. In consideration of the industry dynamics, the Company manages its capital in a manner to ensure that it has sufficient and necessary financial resources to fund its working capital needs, capital asset purchases, research and development activities, dividend payments, debt service requirements and other business requirements associated with its existing operations over the next 12 months.

36. FINANCIAL INSTRUMENTS

	\$ 351,992,142	\$ 186,776,501	\$ 109,130,412

(Concluded)

Note: Including financial assets carried at cost.

b. Financial risk management objectives

The Company seeks to ensure sufficient cost-efficient funding readily available when needed. The Company manages its exposure to foreign currency risk, interest rate risk, equity price risk, credit risk and liquidity risk with the objective to reduce the potentially adverse effects the market uncertainties may have on its financial performance.

The plans for material treasury activities are reviewed by Audit Committees and/or Board of Directors in accordance with procedures required by relevant regulations or internal controls. During the implementation of such plans, Corporate Treasury function must comply with certain treasury procedures that provide guiding principles for overall financial risk management and segregation of duties.

c. Market risk

The Company is exposed to the market risks arising from changes in foreign exchange rates, interest rates and the prices in equity investments, and utilizes some derivative financial instruments to reduce the related risks.

Foreign currency risk

Most of the Company's operating activities are denominated in foreign currencies. Consequently, the Company is exposed to foreign currency risk. To protect against reductions in value and the volatility of future cash flows caused by changes in foreign exchange rates, the Company utilizes derivative financial instruments, including currency

forward contracts and cross currency swaps, to hedge its currency exposure. These instruments help to reduce, but do not eliminate, the impact of foreign currency exchange rate movements.

The Company also holds short-term borrowings in foreign currencies in proportion to its expected future cash flows. This allows foreign-currency-denominated borrowings to be serviced with expected future cash flows and provides a partial hedge against transaction translation exposure.

The Company's sensitivity analysis to foreign currency risk mainly focuses on the foreign currency monetary items at the end of the reporting period. Assuming an unfavorable 10% movement in the levels of foreign exchanges against the New Taiwan dollar, the net income for the years ended December 31, 2013 and 2012 would have decreased by NT\$171,961 thousand and NT\$719,882 thousand, respectively, after taking into consideration of the hedging contracts and the hedged items.

Interest rate risk

The Company is exposed to interest rate risk arising from borrowing at both fixed and floating interest rates. All of the Company's long-term bonds have fixed interest rates and are measured at amortized cost. As such, changes in interest rates would not affect the future cash flows. On the other hand, because interest rates of the Company's long-term bank loans are floating, changes in interest rates would affect the future cash flows but not the fair value. To reduce the cash flow risk caused by floating interest rates, the Company utilized an interest rate swap contract to partially hedge its exposure.

Assuming the amount of floating interest rate bank loans at the end of the reporting period had been outstanding for the entire period and all other variables were held constant, a hypothetical increase in interest rates of 100 basis point (1%) would have resulted in an increase in the interest expense, net of tax, by approximately NT\$332 thousand and NT\$12,346 thousand for the years ended December 31, 2013 and 2012, respectively.

Other price risk

The Company is exposed to equity price risk arising from available-for-sale equity investments. To reduce the equity price risk, the Company utilized some stock forward contracts to partially hedge its exposure.

Assuming a hypothetical decrease of 5% in equity prices of the equity investments at the end of the reporting period, the net income for the years ended December 31, 2013 and 2012 would have been unaffected as they were classified as available-for-sale; however, the other comprehensive income for the years ended December 31, 2013 and 2012 would have decreased by NT\$931,881 thousand and NT\$2,217,457 thousand, respectively.

d. Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is exposed to credit risk from operating activities, primarily trade receivables, and from financing activities, primarily deposits, fixed-income investments and other financial instruments with banks. Credit risk is managed separately for business related and financial related exposures. As of the end of the reporting period, the Company's maximum credit risk exposure is mainly from the carrying amount of financial assets recognized in the consolidated balance sheet.

Business related credit risk

The Company has considerable trade receivables outstanding with its customers worldwide. A substantial majority of the Company's outstanding trade receivables are not covered by collateral or credit insurance. While the Company has procedures to monitor and limit exposure to credit risk on trade receivables, there can be no assurance such procedures will effectively limit its credit risk and avoid losses. This risk is heightened during periods when economic conditions

worsen.

- 63 -

As of December 31, 2013 and 2012 and January 1, 2012, the Company's ten largest customers accounted for 68%, 68% and 64% of accounts receivable, respectively. The Company believes the concentration of credit risk is insignificant for the remaining accounts receivable.

Financial credit risk

The Company regularly monitors and reviews the transaction limit applied to counterparties and adjusts the concentration limit according to market conditions and the credit standing of the counterparties. The Company mitigates its exposure by selecting counterparties with investment-grade credit ratings.

e. Liquidity risk management

The objective of liquidity risk management is to ensure the Company has sufficient liquidity to fund its business requirements associated with existing operations over the next 12 months. The Company manages its liquidity risk by maintaining adequate cash and banking facilities.

As of December 31, 2013 and 2012 and January 1, 2012, the unused of financing facilities of the Company amounted to NT\$76,689,543 thousand, NT\$53,422,331 thousand and NT\$63,708,014 thousand, respectively.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments, including principles and interests.

f. Fair value of financial instruments

1) Fair value of financial instruments carried at amortized cost

Except as detailed in the following table, the Company considers that the carrying amounts of financial assets and financial liabilities recognized in the consolidated financial statements approximate their fair values.

	December 31, 2013		December 31, 2012		January 1, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value
<u>Financial assets</u>

2) Fair value measurements recognized in the consolidated balance sheets

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between Level 1 and 2 for the years ended December 31, 2013 and 2012, respectively.

There were no purchases and disposals for assets on Level 3 for the years ended December 31, 2013 and 2012, respectively.

3) Valuation techniques and assumptions used in fair value measurement

The fair values of financial assets and financial liabilities are determined as follows:

The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices (includes publicly traded stocks and money market funds).

Forward exchange contracts and cross currency swap contracts are measured using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts; interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates; and stock forward contracts are measured at the difference between the present value of stock forward price discounted based on the applicable yield curve derived from quoted interest rates and the stock spot price.

The fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

37. RELATED PARTY TRANSACTIONS

Intercompany balances and transactions between TSMC and its subsidiaries, which are related parties of TSMC, have been eliminated upon consolidation; therefore those items are not disclosed in this note. The following is a summary of transactions between the Company and other related parties:

a. Net Revenue

<u>Related Party Categories</u>	Net Revenue from Sale of Goods		Net Revenue from Royalties

The sales prices and payment terms to related parties were not significantly different from those of sales to third parties. For other related party transactions, price and terms were determined in accordance with mutual agreements.

The Company leased machinery and equipment from Xintec. The lease terms and prices were determined in accordance with mutual agreements. The rental expense was paid quarterly and the related expense was classified under manufacturing expenses.

The Company deferred the disposal gain/loss derived from sales of property, plant and equipment to related parties (transactions with associates and joint venture), and then recognized such gain/loss over the depreciable lives of the disposed assets.

h. Compensation of key management personnel

The compensation to directors and other key management personnel were as follows:

	Years Ended December 31	
	2013	2012
Short-term employee benefits	\$ 1,356,119	\$ 1,417,358
Post-employment benefits	9,064	3,896
	\$ 1,365,183	\$ 1,421,254

The compensation to directors and other key management personnel were determined by the Compensation Committee of TSMC in accordance with the individual performance and the market trends.

38. PLEDGED ASSETS

The Company provided certificate of deposits recorded in other financial assets as collateral mainly for building lease agreements. As of December 31, 2013 and 2012 and January 1, 2012, the aforementioned other financial assets amounted to NT\$120,566 thousand, NT\$119,710 thousand and NT\$121,140 thousand, respectively.

39. SIGNIFICANT OPERATING LEASE ARRANGEMENTS

The Company leases several parcels of land, factory and office premises from the Science Park Administration and entered into lease agreements for its office premises and certain office equipment located in the United States, Europe,

Japan, Shanghai and Taiwan. These operating leases expire between January 2014 and December 2032 and can be renewed upon expiration.

- 70 -

The Company expensed the lease payments as follows:

	Years Ended December 31	
	2013	2012
Minimum lease payments	\$ 902,439	\$ 689,198

Future minimum lease payments under the above non-cancellable operating leases are as follows:

	December 31,	December 31,	January 1,
	2013	2012	2012
Not later than 1 year	\$ 859,070	\$ 693,758	\$ 627,882
Later than 1 year and not later than 5 years	3,053,029	2,478,443	2,258,302
Later than 5 years	5,534,848	4,221,524	3,870,728
	\$ 9,446,947	\$ 7,393,725	\$ 6,756,912

40. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

Significant contingent liabilities and unrecognized commitments of the Company as of the end of the reporting period, excluding those disclosed in other notes, were as follows:

- a. Under a technical cooperation agreement with Industrial Technology Research Institute, the R.O.C. Government or its designee approved by TSMC can use up to 35% of TSMC's capacity provided TSMC's outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice. In 2013 and 2012, the R.O.C. Government did not involve such right.
- b. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. TSMC's equity interest in SSMC was 32%. Nevertheless, in September 2006, Philips spun-off its semiconductor subsidiary which was renamed as NXP B.V. Further, TSMC and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, TSMC and NXP B.V. currently own approximately 39% and 61% of the SSMC shares, respectively. TSMC and NXP B.V. are required, in the aggregate, to purchase at least 70% of SSMC's capacity, but TSMC alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC falls below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs. There was no default from the aforementioned commitment as of December 31, 2013.

- c. In June 2010, Keranos, LLC. filed a complaint in the U.S. District Court for the Eastern District of Texas alleging that TSMC, TSMC North America, and several other leading technology companies infringe three expired U.S. patents. In response, TSMC, TSMC North America, and several co-defendants in the Texas case filed a lawsuit against Keranos in the U.S. District Court for the Northern District of California in November 2010, seeking a judgment declaring that they did not infringe the asserted patents, and that those patents are invalid. These two litigations have been consolidated into a single lawsuit in the U.S. District Court for the Eastern District of Texas. The outcome cannot be determined and the Company cannot make a reliable estimate of the contingent liability at this time.

- d. In December 2010, Ziptronix, Inc. filed a complaint in the U.S. District Court for the Northern District of California accusing TSMC, TSMC North America and one other company of infringing several U.S. patents. The outcome cannot be determined and the Company cannot make a reliable estimate of the contingent liability at this time.
- e. TSMC joined the Customer Co-Investment Program of ASML and entered into the investment agreement in August 2012. The agreement includes an investment of EUR837,816 thousand by TSMC Global to acquire 5% of ASML's equity with a lock-up period of 2.5 years. TSMC Global has acquired the aforementioned equity on October 31, 2012. Both parties also signed the research and development funding agreement whereby TSMC shall provide EUR276,000 thousand to ASML's research and development programs from 2013 to 2017. For the year ended December 31, 2013, TSMC paid EUR55,078 thousand to ASML under the research and development funding agreement.
- f. In December 2013, Tela Innovations, Inc. filed complaints in the U.S. District Court for the District of Delaware and in the United States International Trade Commission accusing TSMC and TSMC North America of infringing one U.S. patent. In January 2014, TSMC filed a lawsuit against Tela for trade secret misappropriation and breach of contract. The outcome cannot be determined and the Company cannot make a reliable estimate of the contingent liability at this time.
- g. Amounts available under unused letters of credit as of December 31, 2013 and 2012 and January 1, 2012 were NT\$89,400 thousand, NT\$99,671 thousand and NT\$263,880 thousand, respectively.

41. EXCHANGE RATE INFORMATION OF FOREIGN-CURRENCY FINANCIAL ASSETS AND LIABILITIES

(Concluded)

Note: Exchange rate represents the number of N.T. dollars for which one foreign currency could be exchanged.

42. OPERATING SEGMENTS INFORMATION

a. Operating segments

The Company's only reportable segment is the foundry segment. The foundry segment engages mainly in the manufacturing, selling, packaging, testing and computer-aided design of integrated circuits and other semiconductor devices and the manufacturing of masks. The Company also had other operating segments that did not exceed the quantitative threshold for separate reporting. These segments mainly engage in the researching, developing, designing, manufacturing and selling of solid state lighting devices and renewable energy and efficiency related technologies and products.

The Company uses the income from operations as the measurement for segment profit and the basis of performance assessment. There was no material differences between the accounting policies of the operating segment and the accounting policies described in Note 4.

b. Segment revenue and operating results

	Foundry	Others	Elimination	Total
Year ended December 31, 2013

Customer A	\$ 130,563,982	22	\$ 85,880,132	17

43. FIRST-TIME ADOPTION OF TAIWAN-IFRSs

- a. Basis of preparation for financial information under Taiwan-IFRSs

The Company prepares consolidated financial statements for the year ended December 31, 2013 under Taiwan-IFRSs. As the basis of the preparation, the Company not only follows the significant accounting policies stated in Note 4 but also applies IFRS 1.

- b. Exemptions from IFRS 1

IFRS 1 establishes the procedures for the Company's first consolidated financial statements prepared in accordance with Taiwan-IFRSs. According to IFRS 1, the Company is required to determine the accounting policies under Taiwan-IFRSs and retrospectively apply those accounting policies in its opening balance sheet at the date of transition to Taiwan-IFRSs; except for optional exemptions and mandatory exceptions to such retrospective application provided under IFRS 1. The main optional exemptions the Company adopted are summarized as follows:

- 1) Business combinations. The Company elected not to apply IFRS 3, Business Combinations, retrospectively to business combinations that occurred before January 1, 2012. Therefore, in the opening balance sheet, the amount of goodwill generated from past business combinations was the same as the carrying amount of goodwill under R.O.C. GAAP as of January 1, 2012.
- 2) Employee benefits. The Company elected to recognize all cumulative actuarial gains and losses in retained earnings as of January 1, 2012. In addition, the Company elected to apply the exemption disclosure requirement provided by IFRS 1, in which the amounts of present value of defined benefit obligations, the fair value of plan assets, the surplus or deficit in the plan and the experience adjustments are determined for each accounting period prospectively from the transition date.
- 3) Share-based payment. The Company elected to take the optional exemption from applying IFRS 2 retrospectively for the share-based payment transactions granted and vested before January 1, 2012.

- c. Effect of transition to Taiwan-IFRSs

After transition to Taiwan-IFRSs, the effect on the Company's consolidated balance sheets as of December 31, 2012 and January 1, 2012 (the transition date) as well as the consolidated statements of comprehensive income for the year ended December 31, 2012, is stated as follows:

1) Reconciliation of consolidated balance sheet as of December 31, 2012

4) Significant reconciliation differences in consolidated statements of cash flows for the year ended December 31, 2012

The Company prepared the statement of cash flows using the indirect method under R.O.C. GAAP, in which the interest received is not required to be disclosed separately; instead, the interest received and the interest paid are included within the operating activities in the statement of cash flows. However, according to IAS No. 7, Statement of Cash Flows, for the year ended December 31, 2012, the interest received of NT\$1,719,026 thousand should be disclosed separately in the investing activities; and the interest paid of NT\$736,607 thousand should be disclosed in

the financing activities based on their nature, respectively.

Except for the above differences, there are no other significant differences between R.O.C. GAAP and Taiwan-IFRSs in the consolidated statement of cash flows.

d. Notes to the reconciliation of the significant differences:

a) Allowance for sales returns and others

Under R.O.C. GAAP, provisions for estimated sales returns and others are recognized as a reduction in revenue in the year the related revenue is recognized based on historical experience. The corresponding allowance for sales returns and others is presented as a reduction in accounts receivable. Under Taiwan-IFRSs, the allowance for sales returns and others is a present obligation with uncertain timing and an amount that arises from past events and is therefore reclassified as provisions in accordance with IAS No. 37, Provisions, Contingent Liabilities and Contingent Assets.

As of December 31, 2012 and January 1, 2012, the amounts reclassified from allowance for sales returns and others to provisions were NT\$6,038,003 thousand and NT\$5,068,263 thousand, respectively.

b) Classifications of deferred income tax asset/liability and valuation allowance

Under R.O.C. GAAP, a deferred tax asset and liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred income tax asset or liability does not relate to an asset or liability in the financial statements, it is classified as either current or noncurrent based on the expected length of time before it is realized or settled. Under Taiwan-IFRSs, a deferred tax asset and liability is classified as noncurrent asset or liability.

In addition, under R.O.C. GAAP, valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. In accordance with IAS No. 12, Income Taxes, deferred tax assets are only recognized to the extent that it is probable that there will be sufficient taxable profits and the valuation allowance account is no longer used.

As of December 31, 2012 and January 1, 2012, the amounts reclassified from deferred income tax assets to noncurrent assets were NT\$8,001,202 thousand and NT\$5,936,490 thousand, respectively.

c) The classification of assets leased to others and idle assets

Under R.O.C. GAAP, assets leased to others and idle assets are classified under other assets. Under Taiwan-IFRSs, the aforementioned items are classified as property, plant and equipment according to their nature. In accordance with IAS No. 40, Investment Property, investment properties are defined as properties held to earn rentals or for capital appreciation; however, the Company's assets leased to others are mainly housing facilities leased to employees and manufacturing facilities leased to suppliers. The housing facilities leased to employees are not classified as investment properties; and manufacturing facilities leased to suppliers are not considered as investment properties since they cannot be sold separately and comprise only an insignificant portion of the entire facility.

As of December 31, 2012 and January 1, 2012, the amounts reclassified from assets leased to others and idle assets to property, plant and equipment were NT\$32,742 thousand and NT\$47,237 thousand, respectively.

d) Employee benefits

The Company had recognized the pension cost and retirement benefit obligation under its defined benefit plans based on actuarial valuations performed in conformity with R.O.C. GAAP. Under Taiwan-IFRSs, the Company should carry out actuarial valuation on defined benefit obligation in accordance with IAS No. 19, Employee Benefits.

In addition, under R.O.C. GAAP, it is not allowed to recognize actuarial gains and losses from defined benefit plans directly to equity; instead, actuarial gains and losses should be accounted for under the corridor approach which resulted in the deferral of such actuarial gains and losses. When using the corridor approach, actuarial gains and losses is amortized over the expected average remaining working lives of the participating employees.

Under IAS No. 19, Employee Benefits, the Company elects to recognize actuarial gains and losses immediately in full in the period in which they occur, as other comprehensive income. The subsequent reclassification to earnings is not permitted.

At the transition date, the Company performed the actuarial valuation under IAS No. 19, Employee Benefits, and recognized the valuation difference directly to retained earnings under the requirement of IFRS 1. For the year ended December 31, 2012, total actuarial gains and losses were also recognized to other comprehensive income in accordance with actuarial valuation carried out in 2012.

In addition, under R.O.C. GAAP, a minimum pension liability should be recognized in the balance sheet. If the accrued pension cost is less than the minimum pension liability, the difference should be recognized as an additional liability. Under Taiwan-IFRSs, there is no aforementioned requirement to recognize minimum pension liability.

As of December 31, 2012 and January 1, 2012, accrued pension cost of the Company was adjusted for an increase of NT\$2,941,693 thousand and NT\$2,332,516 thousand, respectively; deferred income tax assets were adjusted for an increase of NT\$351,002 thousand and NT\$231,011 thousand, respectively; noncontrolling interests were adjusted for a decrease of NT\$12,759 thousand and NT\$13,388 thousand, respectively. As of December 31, 2012, net loss not recognized as pension cost was adjusted for a decrease of NT\$4,416 thousand. For the year ended December 31, 2012, pension cost and income tax expense of the Company were adjusted for a decrease of NT\$72,385 thousand and NT\$37,633 thousand, respectively; actuarial loss from defined benefit plans and income tax benefit related to components of other comprehensive income were recognized in the amount of NT\$685,978 thousand and NT\$82,358 thousand, respectively.

e) Investments accounted for using the equity method

The Company has evaluated significant differences between current accounting policies and Taiwan-IFRSs for the Company's associates and joint ventures accounted for using the equity method. The significant difference is mainly due to the adjustment to employee benefits.

In addition, if the investor subscribes to additional shares of associates and joint ventures that is disproportionate to its existing ownership percentage and results in a decrease in the investor's ownership percentage in the associate and joint venture, the resulting carrying amount of the investment differs from the amount of the investor's share in the equity of the associates and joint venture. Under R.O.C. GAAP, the investor records such a difference as an adjustment to the carrying amount of the investment with the corresponding amount charged or credited to capital surplus. Under Taiwan-IFRSs, such a difference is still adjusted to carrying amount of the investment and capital surplus. If the investor's ownership interest in an associate and joint venture decreases, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate and joint venture shall be reclassified to profit or loss on the same basis as would be required if the associate and joint venture had directly disposed of the related assets or liabilities.

As of December 31, 2012 and January 1, 2012, as a result of the differences mentioned above, investment accounted for using the equity method was adjusted for a decrease of NT\$69,102 thousand and NT\$13,401 thousand, respectively; foreign currency translation reserve was adjusted for a decrease of NT\$43 thousand and an increase of NT\$5 thousand, respectively; capital surplus was adjusted for a decrease of NT\$462,469 thousand and NT\$374,695 thousand, respectively. As of December 31, 2012, net loss not recognized as pension cost was adjusted for a decrease of NT\$883 thousand. In addition, equity in earnings of equity method investees and share of other comprehensive income of associates and joint venture were adjusted for an increase of NT\$45,118 thousand and a decrease of NT\$18,905 thousand for the year ended December 31, 2012, respectively; other gains and losses was adjusted for a gain of NT\$4,977 thousand for the year ended December 31, 2012.

f) The reclassification of line items in the consolidated statement of comprehensive income

In accordance with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers before its amendment due to the adoption of Taiwan-IFRSs, income from operations in the consolidated income statement only includes net revenue, cost of revenue and operating expenses. Under Taiwan-IFRSs, based on the nature of operating transactions, technical service income is reclassified under net revenue; rental revenue, depreciation of rental assets, net gain or loss on disposal of property, plant and equipment and other assets, and impairment loss on idle assets, are

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K
reclassified under other operating income and expenses, which are included in income from operations.

- 82 -

Under Taiwan-IFRSs, based on the nature of operating transactions, for the year ended December 31, 2012, the Company reclassified technical service income of NT\$496,654 thousand to net revenue, rental revenue of NT\$808 thousand, net gain on disposal of property, plant and equipment and other assets of NT\$103 thousand, other income of NT\$886 thousand, depreciation of rental assets of NT\$6,656 thousand and impairment loss on idle assets of NT\$444,505 thousand to other operating income and expenses. In addition, interest income of NT\$1,645,036 thousand and dividend income of NT\$71,057 thousand were also reclassified to other income; settlement income of NT\$883,845 thousand, net gain on disposal of financial assets of NT\$541,089 thousand, others of NT\$499,903 thousand (under non-operating income and gains), net valuation loss on financial instruments of NT\$252,530 thousand, impairment loss of financial assets of NT\$4,231,602 thousand as well as others of NT\$297,992 thousand (under non-operating expenses and losses) were reclassified to other gains and losses for the year ended December 31, 2012.

44. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for TSMC:

- a. Financings provided: Please see Table 1 attached;
- b. Endorsement/guarantee provided: Please see Table 2 attached;
- c. Marketable securities held (excluding investments in subsidiaries, associates and jointly controlled entities): Please see Table 3 attached;
- d. Marketable securities acquired and disposed of at costs or prices of at least NT\$300 million or 20% of the paid-in capital: Please see Table 4 attached;
- e. Acquisition of individual real estate properties at costs of at least NT\$300 million or 20% of the paid-in capital: Please see Table 5 attached;
- f. Disposal of individual real estate properties at prices of at least NT\$300 million or 20% of the paid-in capital: None;
- g. Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paid-in capital: Please see Table 6 attached;
- h. Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 7 attached;
- i. Information about the derivative financial instruments transaction: Please see Notes 7 and 10;

- j. Others: The business relationship between the parent and the subsidiaries and between each subsidiary, and significant transactions between them: Please see Table 8 attached;

- k. Names, locations, and related information of investees over which TSMC exercises significant influence: Please see Table 9 attached;

- 83 -

1. Information on investment in Mainland China

1) The name of the investee in Mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, income (losses) of the investee, share of profits/losses of investee, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 10 attached.

2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in Mainland China on financial reports: Please see Table 8 attached.

Note 1: The total amount for lending to a company for funding for a short-term period shall not exceed ten percent (10%) of the net worth of TSMC Partners and TSMC Development, respectively. In addition, the total amount lendable to any one borrower shall be no more than thirty percent (30%) of the borrower's net worth. The above restriction does not apply to the offshore subsidiaries whose voting shares are 100% owned, directly or indirectly, by TSMC (offshore 100% owned subsidiaries) or the subsidiaries whose voting shares are 90% and up owned, directly or indirectly, by TSMC (90% and up owned subsidiaries). However, the respective lending limit for offshore 100% owned subsidiaries shall not exceed the net worth of TSMC Partners and TSMC Development, respectively, and the aggregate amounts lendable to 90% and up owned subsidiaries and the total amount lendable to one such borrower in 90% and up owned subsidiaries shall not exceed forty percent

(40%) of the net worth of TSMC Partners and TSMC Development, respectively.

Note 2: The total amount available for lending purpose shall not exceed the net worth of TSMC Partners and TSMC Development, respectively.

Note 3: The maximum balance for the period and ending balance represent the amounts approved by the Board of Directors.

Note 4: The amount was determined based on the audited financial statements in accordance with local accounting principles.

TABLE 2**Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries****ENDORSEMENTS/GUARANTEES PROVIDED****FOR THE YEAR ENDED DECEMBER 31, 2013**

(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

Guaranteed Party	Nature of Relationship	Limits on Endorsement/ Guarantee Amount Provided to Each Guaranteed Party (Notes 1 and 2)	Maximum Balance for the Period (US\$ in Thousands) (Note 3)	Ending Balance (US\$ in Thousands) (Note 3)	Amount Actually Drawn (US\$ in Thousands) (Note 3)	Ratio of Accumulated Endorsement/ Guarantee to Amount Net of Equity (Latest Financial Statements)	Maximum Endorsement/ Guarantee Amount Allowable (Note 2)	Guarantee Provided to Other Parties
Global	Subsidiary	\$ 211,877,064	\$ 44,700,000	\$ 44,700,000	\$ 44,700,000	5.3%	\$ 211,877,064	Y
			(US\$ 1,500,000)	(US\$ 1,500,000)	(US\$ 1,500,000)			

Note 1: The total amount of the guarantee provided by TSMC to any individual entity shall not exceed ten percent (10%) of TSMC's net worth, or the net worth of such entity. However, subsidiaries whose voting shares are 100% owned, directly or indirectly, by TSMC are not subject to the above restrictions after the approval of the Board of Directors.

Note 2: The total amount of guarantee shall not exceed twenty-five percent (25%) of TSMC's net worth.

Note 3: The maximum balance for the period and ending balance represent the amounts approved by the Board of Directors.
