We expect to deliver the securities described herein against payment on or about the Settlement Date, which will be the fifth business day following the date of the pricing of the securities (this settlement cycle being referred to as T+5). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the securities on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the securities initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers who wish to trade the securities on the date of pricing or the next succeeding business day should consult their own advisor.
