MIRADOR MILL EQUIPMENT AGREEMENT SIGNED WITH METSO

Delivery schedule meets development timeline

Vancouver, BC., November 01, 2006 - Corriente announced today that it has signed a Letter of Intent (LOI) with Metso Brasil Industria e Comercio Ltda. to supply the major components of the processing facility at the Mirador copper-gold project in Ecuador. The LOI quotes an equipment package totaling over US\$27 Million, which includes a crusher, SAG mill and Ball mill. Signing of this critical LOI allows Corriente to stay on its path to complete construction of the Mirador project in late 2008 with commissioning by the end of the year. According to Ken Shannon, CEO of Corriente, "The availability of key mill components is one of the major bottlenecks facing new mine developments around the world. We are pleased to be able to reach reasonable economic terms with Metso and at the same time to be assured the equipment will be delivered to meet the scheduled mine start-up at the end of 2008."

ABOUT METSO

Metso Brasil Industria e Comercio Ltda. is an operating unit of the Metso Minerals business area of Metso Corporation. Metso Minerals is the global market leader in rock and minerals processing systems as well as in recycling systems for metals and construction materials. Its offerings cover crushing and screening from unit crushers, screens and conveyors to complete fixed and mobile plants. Minerals processing products include grinding mills, minerals enrichment and upgrading equipment, pumps and materials handling. Metso Minerals also delivers metal recycling systems, as well as spare and wear parts and aftermarket services. Metso is a global engineering and technology corporation with 2005 net sales of approximately EUR 4.2 billion. Its 22,000 employees in more than 50 countries serve customers in the pulp and paper industry, rock and minerals processing, the energy industry and selected other industries. www.metso.com

ABOUT CORRIENTE

Corriente is a copper-gold development company moving towards construction of a starter operation at its Mirador copper-gold operation. Corriente has completed an Environmental Impact Assessment for initial operations at Mirador and in May 2006 completed a major equity financing for the project. Mirador is one of the few new, sizeable copper projects available for near-term production. Corriente controls a 100% interest in over 60,000 hectares located within the Corriente Copper Belt, Ecuador. The Belt currently contains three copper and copper-gold porphyry deposits: Mirador, Panantza and San Carlos, as well as the Mirador Norte prospect currently under development. Additional exploration activities are ongoing, as six additional copper and copper-gold exploration targets have been identified in the Corriente Copper Belt to date.
