SALIENT DATES AND TIMES

Last day for lodging forms of proxy for the general meeting (by 11:00 South African time) on

Thursday, 6 April 2006

General meeting to be held at 11:00 at The Country Club Johannesburg, Napier Road,

Auckland Park, Johannesburg, South Africa, on

Monday, 10 April 2006

Results of the general meeting

– released on SENS and other stock exchanges' news services on

Monday, 10 April 2006

– published in the South African press on

Tuesday, 11 April 2006

Shareholders are reminded that shares in companies listed on the JSE can no longer be bought or sold on that exchange unless

they have been dematerialised onto the STRATE system. It is therefore suggested that certificated shareholders on AngloGold

Ashanti's South African share register should consider dematerialising their shares and replacing them with electronic records

of ownership. In this regard shareholders may contact either their own stockbroker or a preferred CSDP, details of which are

available from STRATE at queries@strate.co.za or telephone +27 11 759 5300 or fax +27 11 759 5505.

The dates and times in this circular are subject to change and any changes will be announced in the South African press and

through SENS and other stock exchanges' news services. All times in this circular are South African local times unless otherwise stated.

CERTAIN FORWARD-LOOKING STATEMENTS

This circular includes "forward-looking information" within the meaning of Section 27A of the Securities Act, and Section 21E

of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical

fact are, or may be deemed to be, forward-looking statements, including, without limitation those concerning: the economic

outlook for the gold mining industry; expectations regarding gold prices; production; costs and other operating results; growth

prospects and outlook of the AngloGold Ashanti's operations, individually or in the aggregate, including the completion and

commencement of commercial operations at AngloGold Ashanti's exploration and production projects; AngloGold Ashanti's

liquidity and capital resources and expenditure; and the outcome and consequences of any pending litigation proceedings.

These forward-looking statements are not based on historical facts, but rather reflect AngloGold Ashanti's current expectations

concerning future results and events and generally may be identified by the use of forward-looking words or phrases such as

"believe", "aim", "expect", "anticipate", "intend", "foresee", "forecast", "likely", "should", "planned", "may", "estimated", "p" or other similar words and phrases. Similarly, statements that describe AngloGold Ashanti's objectives, plans or goals are or

may be forward-looking statements.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause AngloGold

Ashanti's actual results, performance or achievements to differ materially from the anticipated results, performance or

achievements expressed or implied by these forward-looking statements. Although AngloGold Ashanti believes that the expectations reflected in these forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct.

For a discussion of such risk factors, shareholders should refer to the annual report on Form 20-F for the year ended 31 December 2005, which was filed with the Securities and Exchange Commission ("SEC") on 20 March 2006. These factors are not necessarily all of the important factors that could cause AngloGold Ashanti's actual results to differ materially from those expressed in any forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on future results.

1.

PURPOSE OF THIS CIRCULAR

The directors propose to raise approximately US\$500 million by offering for subscription for cash, that number of AngloGold

Ashanti shares which, at the subscription price, will equate to a raising of a maximum of US\$500 million in the aggregate,

net of all underwriters commissions and fees but before all other issue costs, which assuming the ruling market price of an

AngloGold Ashanti ADS at close of trading on the NYSE on 10 March 2006 of US\$48.62 per AngloGold Ashanti ADS and

assuming the maximum discount as described below and underwriting commissions and fees of US\$10 million, as well as

issue costs of US\$10 million, as described in paragraph 9, would equate to a maximum issue of 11,654,479 AngloGold

Ashanti shares. The offer will be made to selected investors at such discount per AngloGold Ashanti share, based upon

the offer subscription price relative to the ruling market price of an AngloGold Ashanti ADS at the close of trading on the

NYSE on the day before the formal announcement of the pricing of the offer, as the directors in their discretion may determine; provided that such discount shall not exceed 10%. Anglo Capital has agreed that it will not participate in the offer.

The net proceeds of the issue will be utilised by AngloGold Ashanti for project development, capital expenditure and other

general corporate purposes. Pending such possible use, AngloGold Ashanti intends to reduce its short-term borrowings

and the borrowings on its revolving credit facility. Existing and proposed project development includes:

- the Siguiri carbon in pulp plant in Guinea, which has been commissioned and has allowed for an increase in gold production;
- the Cuiabá expansion which will increase gold production and extend the life of this Brazilian operation;
- the development of the Boddington mine in Australia, in which AngloGold Ashanti holds a 33.33% interest which, once developed, will be a large, long-life gold producer;
- three projects at the TauTona mine in South Africa, comprising the Carbon Leader Reef shaft pillar project, the Ventersdorp Contact Reef development project and the TauTona below 120 level project, which projects are expected to extend the life of TauTona mine by an estimated 8 years to 2017;
- the final development of the Moab Khotsong mine in South Africa which AngloGold Ashanti believes, in the medium-term, will become a major producer of gold and help to replace production as production declines at its more mature South African operations;
- two projects at the Geita mine in Tanzania, comprising the transition to owner-mining that includes the purchase of a mining fleet that should enhance margins and profitability levels in this long-life mine, as well as the proposed purchase of further earthmoving equipment to increase production from the mine to 80Mtpa over the next three years, which is

anticipated to result in further increases in gold production and profitability levels;

- the Sunrise Dam underground feasibility study that could allow for the extension of the life of this Australian operation once mining in the current open-pit comes to an end; and

- further exploration of, and feasibility studies for, the potential development of Obuasi Deeps. Should Obuasi Deeps be developed, this project could significantly extend the life of the Obuasi mine in Ghana by 35 years.

These projects will allow AngloGold Ashanti to increase its gold production in the short to medium term and assist in maintaining gold production in the medium to long term. AngloGold Ashanti considers that the US\$500 million in cash, as

proposed to be raised in the issue, to be important in assisting it to achieve these growth and production objectives while

maintaining its balance sheet gearing at acceptable levels.

The offer will be undertaken in conjunction with an offering by Anglo Capital (AngloGold Ashanti's immediate holding

company), which is in turn a wholly-owned subsidiary of Anglo American plc (AngloGold Ashanti's ultimate holding company) of some of its shareholding in AngloGold Ashanti. Such offering will be undertaken pursuant to Anglo American

plc's announcement of 22 February 2006 of its intention to reduce its shareholding in AngloGold Ashanti. In order to provide for more orderly dispositions of AngloGold Ashanti shares by Anglo American plc, AngloGold Ashanti entered into

a registration rights agreement with Anglo Capital on 23 March 2006. This agreement provides that, subject to certain limitations, AngloGold Ashanti will file registration statements with the SEC that will allow Anglo Capital, as an affiliate of

AngloGold Ashanti as defined by the SEC, to effect a broad distribution of all or part of the AngloGold Ashanti shares that

it owns, including to persons resident within the United States through registered offerings. In order for the AngloGold

Ashanti shares held by Anglo Capital to be freely tradable in the United States, it is necessary that such AngloGold Ashanti

shares are sold in accordance with a registered offering using a registration statement. Pursuant to the registration rights

agreement in the event that Anglo Capital offers and sells AngloGold Ashanti shares in an underwritten offering, AngloGold

Ashanti has agreed to give the underwriter or underwriters representations, warranties and indemnities customary in that

context. In addition, AngloGold Ashanti has agreed to indemnify Anglo Capital, but only to the fullest extent permitted by

7

any applicable law, including South African law, for certain liabilities that could arise under the Securities Act. Anglo Capital

has agreed to pay or reimburse AngloGold Ashanti for all reasonable, out-of-pocket expenses it may incur in connection

with the filing with these registration statements with the SEC, as well as the registration by the SEC of the offerings pursuant to these registration statements. However, in the case of the initial registration statement in respect of which AngloGold Ashanti also intends to implement the offer, the costs of the offer as well as the simultaneous offering of AngloGold Ashanti shares, as registered pursuant to the initial registration statement, by Anglo Capital will firstly, in respect

of costs that can be assigned directly to either AngloGold Ashanti or Anglo Capital, be borne by either AngloGold Ashanti

or Anglo Capital respectively, and secondly, in respect of costs that cannot be assigned directly, will be borne in proportion

to the number of AngloGold Ashanti shares issued in the issue, relative to the number of AngloGold Ashanti shares that

Anglo Capital sells pursuant to its offering of AngloGold Ashanti shares as registered pursuant to the initial registration statement.

At the annual general meeting of AngloGold Ashanti held on 29 April 2005, the directors were granted a general authority

in accordance with the Listings Requirements of the JSE to allot and issue not more than 10% of the unissued AngloGold

Ashanti shares remaining after setting aside so many AngloGold Ashanti shares as may be required to be allotted and issued by AngloGold Ashanti, pursuant to the AngloGold Limited Share Incentive Scheme and for purposes of the conversion of the 2.375% Guaranteed Convertible Bonds due 2009 issued by AngloGold Ashanti Holdings plc, a wholly-

owned subsidiary of AngloGold Ashanti. In terms of the approval gained at the annual general meeting the maximum discount at which such shares may be issued is 10% of the weighted average traded price of such equity securities measured over the 30 business days prior to the date that the price of the issue is determined or agreed by the directors of AngloGold Ashanti. AngloGold Ashanti's share price can be subject to significant volatility within a short time period. This

can be caused by a number of factors such as movements in the gold price or the exchange rate between the US dollar and the South African Rand. Over the last two years AngloGold Ashanti's share price has, on average, moved 1.6% on a

daily basis. This means that the trading price of AngloGold Ashanti can vary substantially from the 30 business day weighted average price. This may place significant practical constraints on AngloGold Ashanti's ability to issue shares for

cash under its general authority. If, for example, AngloGold Ashanti's share price was trading at a 10-15% discount to the

30 business day trading average, it would mean that AngloGold Ashanti shares could only be placed at a 0-5% premium

to the trading price, which is unlikely to be possible. There is therefore a risk that the restriction on pricing an issue of shares

for cash at a 10% discount to the 30 business day weighted average price, as per the general authority, may act to prevent

AngloGold Ashanti from having the financial flexibility to issue shares for cash on a commercially reasonable basis. The

directors are therefore seeking, by way of a separate specific authority in accordance with the Listings Requirements of the

JSE, the ability to issue shares for cash at a maximum 10% discount to the ruling market price of AngloGold Ashanti ADSs

at the close of trading on the NYSE on the day before the formal announcement of the pricing of the offer.

Accordingly, the general meeting, notice of which forms part of this circular, has been convened to consider and, if deemed

fit, pass resolutions:

-

granting a specific authority to the directors in terms of the Listings Requirements of the JSE to issue for cash, that number of AngloGold Ashanti shares which, at the subscription price, will equate to a raising of a maximum of US\$500 million in the aggregate, net of all underwriters commissions and fees but before all other issue costs, provided

that the discount of the subscription price to the ruling market price of an AngloGold Ashanti ADS at the close of trading

on the NYSE on the day before the formal announcement of the pricing of the offer shall not exceed 10%; and

-

subject to the resolution being passed to approve the specific authority to issue AngloGold Ashanti shares for cash in terms of the Listings Requirements of the JSE, as referred to above, to place sufficient AngloGold Ashanti shares under

the control of the directors with specific authority to allot and issue such shares pursuant to the offer.

The approvals and authorities referred to above are in addition to the existing general authority granted at AngloGold Ashanti's annual general meeting held on 29 April 2005, which general authority will continue to remain in place until the

next annual general meeting of AngloGold Ashanti to be held in 2006.

In terms of the Listings Requirements of the JSE, in order for it to be effective, the ordinary resolution approving the specific

authority to issue AngloGold Ashanti shares for cash, pursuant to the issue, must be passed by a 75% majority of the votes

cast by shareholders present or represented by proxy at the general meeting. Pursuant to the registration rights agreement,

Anglo Capital, the holder of 134,788,099 AngloGold Ashanti shares (representing 50.84% of the total issued share capital

of AngloGold Ashanti at 10 March 2006), has undertaken to be present, in person or by proxy, at any meeting where any

resolutions required to approve and implement the issue are considered and to vote its entire holding of AngloGold Ashanti

shares in favour of such resolutions. Anglo Capital has also undertaken to ensure that any affiliate of Anglo Capital, to

8

which it may sell, assign or transfer any or all of the AngloGold Ashanti shares that it holds, to similarly be present, in person or by proxy, at any meeting where the resolutions required to approve the issue are considered and to vote its entire holding of AngloGold Ashanti shares in favour of such resolutions.

2.

BUSINESS OF ANGLOGOLD ASHANTI

AngloGold Ashanti conducts gold mining operations in Africa, North and South America and Australia and undertakes exploration activities worldwide. In addition, AngloGold Ashanti is involved in the manufacturing, marketing and selling of

gold products, as well as the development of markets for gold.

AngloGold Ashanti, headquartered in Johannesburg, South Africa, is a global gold company with a portfolio of long-life, relatively low-cost assets and differing orebody types in key gold producing regions. As at 31 December 2005, AngloGold

Ashanti had gold reserves of 63.3Moz. For the year ended 31 December 2005, AngloGold Ashanti had total revenues, in accordance with International Financial Reporting Standards, of US\$2,730 million and gold production of 6.166Moz, produced at a total cash cost of US\$281/oz.

AngloGold Ashanti (formerly AngloGold Limited) (Registration number 1944/017354/06) was incorporated in the Republic

of South Africa in 1944 under the name of Vaal Reefs Exploration and Mining Company Limited and in South Africa, is

subject to the South African Companies Act 61 of 1973, as amended. AngloGold Ashanti resulted from the consolidation

of the gold interests of Anglo American Corporation of South Africa Limited into a single company in 1998. At the time

AngloGold Ashanti's production and reserve base were primarily located in South Africa (96.6% of 1997 production and

99% of reserves as at 31 December 1997), and one of AngloGold Ashanti's primary objectives was to achieve greater geographic and orebody diversity. Through a combination of merger, acquisition and disposal initiatives as well as organic

growth activities, AngloGold Ashanti has developed a high quality, well diversified asset portfolio resulting in:

-

Production from 21 operations in ten countries – Argentina, Australia, Brazil, Ghana, Guinea, Mali, Namibia, South Africa, Tanzania and the United States of America;

-

For the year ended 31 December 2005, 57% of production and 58% of reserves being from outside of South Africa; and

-

Production from a broad variety of orebody types with open-pit and underground mines.

On 26 April 2004, AngloGold acquired the entire issued share capital of Ashanti at an exchange ratio of 0.29 AngloGold

Ashanti shares for every Ashanti share pursuant to a scheme of arrangement which was confirmed by the High Court in

Ghana. AngloGold changed its name to AngloGold Ashanti on the same day. AngloGold Ashanti's offices are detailed on

page 2 under corporate information.

AngloGold Ashanti will continue to pursue a strategy of enhancing shareholder value through defending its profit margins, optimising its existing ore bodies, finding tomorrow's production ounces and identifying opportunities to sustain a healthy market for gold. Anglo American plc's recent announcement that it intends to reduce its shareholding in AngloGold Ashanti while still remaining a significant shareholder in the medium term provides AngloGold Ashanti strategic flexibility in considering any such opportunities.

AngloGold Ashanti's strategy is currently focused on the following key initiatives:

Defending profit margins: AngloGold Ashanti seeks to enhance margins by managing costs through a number of continuing initiatives, including:

- Increased efficiency by way of optimised material usage, enhanced productivity, rationalisation of overhead structures and facilities, management and reductions in the use of contractors; and

- A focused procurement strategy aimed at reductions in purchases prices, reductions in internal costs (including logistics, warehousing and administration), reductions or optimisation of external costs (through joint research and development, substitution and increased productivity).

Optimising existing orebodies: Furthermore, AngloGold Ashanti remains focused on seeking to optimise and maximise the value to be derived from its existing assets through various initiatives and investments, including:

- Fully funding organic growth projects designed and assessed against a strict set of financial criteria with the objective of enhancing shareholder value. Examples of current and proposed projects are included in paragraph 1 above;

- Turning around assets in transition. In particular this includes various initiatives to re-capitalise the operation, increase development and mining flexibility and ultimately gold production from current levels at the Obuasi mine in Ghana; and

- Managing near-end-of-life mines to cost effective socially and environmentally responsible mine closures.

9

Finding tomorrow's production ounces: In addition to organic growth via the development of projects designed to enhance shareholder value at new and existing operations, AngloGold Ashanti also intends to grow via a focused exploration and acquisition strategy:

•

Greenfields/brownfields exploration: AngloGold Ashanti has a well-established exploration capability. In 2005 there was expenditure of US\$37 million on greenfields exploration in 12 countries and US\$42 million on brownfields exploration across 10 countries. Its greenfields exploration activity extends to various "New Frontier" regions including the Democratic Republic of Congo, Colombia, Alaska, the Philippines, Mongolia, Russia, China and Laos;

•

Mergers and Acquisitions: In addition to the many large transforming mergers and acquisitions which AngloGold Ashanti has undertaken since 1998 including the acquisition of its assets in North and South America from Minorco SA, the acquisition of Acacia Resources which established its base in Australia, the acquisition of its interests in the Morila mine in Mali, the initial acquisition of a 50% interest in the Geita mine in Tanzania and ultimately the merger with Ashanti (which merger, amongst acquiring other assets, also resulted in AngloGold Ashanti owning 100% of Geita), AngloGold

Ashanti continues to consider and assess potential acquisitions against a set of financial criteria designed to enhance shareholder value which it believes could result in the growth of its business both in the regions where it currently operates as well as in its "New Frontier" regions; and

•

Partnerships and alliances: AngloGold Ashanti has developed a strategy of working with smaller companies in order to explore opportunities in prospective areas. Partnerships established to date include the acquisition of minority interests in Red 5 Limited, with assets in the Philippines, and Trans-Siberian Gold plc, with assets in Russia and Dynasty Gold Corporation, with assets in China, as well as exploration alliance agreements with Oxiana Limited in Laos and with Eurasia plc in respect of the Chita and Buryat regions of Russia.

Sustaining a healthy market for gold: AngloGold Ashanti is committed to supporting the growth of existing markets for gold as well as the development of new markets for gold via various gold marketing and market development initiatives.

UNAUDITED PRO FORMA FINANCIAL INFORMATION RELATING TO ANGLOGOLD ASHANTI

The unaudited pro forma financial information of AngloGold Ashanti was prepared in order to show the effects of the issue,

assuming that the issue took place to its full extent on 1 January 2005 for purposes of the income statement for the year

ended and as at 31 December 2005 for purposes of the balance sheet. The information is the responsibility of the directors

of AngloGold Ashanti and has been prepared for illustrative purposes only and may not, because of its nature, give a true

picture of the financial position of AngloGold Ashanti. It does not purport to be indicative of what the results or financial

results would have been if the issue had actually occurred at an earlier date. The net share issue proceeds are assumed to be US\$490 million, being share issue proceeds of US\$510 million less the US\$20 million of underwriting cost and issue

expenses.

The unaudited pro forma financial information of AngloGold Ashanti should be read in conjunction with the Notes thereto

and the report of Ernst & Young (Annexure A).

Notes:

1.

Net asset value per share is computed by dividing total equity by the number of shares in issue. Net tangible asset value per share is computed by dividing total equity (excluding intangible assets) by the number of shares in issue.

2.

The cash gross profit per share computation has been based on the weighted average number of shares in issue.

3.

Basic loss per share is computed by dividing net loss by the weighted average number of shares in issue.

4.

The diluted loss per share is computed by dividing net loss by the weighted average diluted number of shares in issue. The impact on diluted loss per share is anti-dilutive and therefore the diluted loss per share and basic loss per share is the same.

5.

Headline loss removes items of a capital nature from the calculation of loss per share. Headline loss per share is computed by dividing headline loss by the weighted average number of shares in issue.

6.

Headline loss adjusted for the effect of unrealised non-hedge derivatives, fair value adjustment on convertible bonds and interest rate swaps divided by the weighted average number of shares in issue.

7.

The weighted average number of AngloGold Ashanti shares in issue was 264,635,634 for the year ended 31 December 2005 and as a result of the issuance of 11,654,479 AngloGold Ashanti shares (assuming an issue price of US\$48.62 per share and assuming that the maximum discount of 10% is applied), the weighted average number of AngloGold Ashanti shares in issue for that period would have been 276,290,113.

8.

The weighted average diluted number of AngloGold Ashanti shares in issue for the year ended 31 December 2005 does not assume the effect of

601,315 shares issuable upon the exercise of the share incentive options as well as 15,384,615 shares issuable upon the conversion of the convertible bonds, as their effects are anti-dilutive.

9.

The number of AngloGold Ashanti shares in issue as at 31 December 2005 was 264,938,432 and, as a result of the issue, the number of AngloGold

Ashanti shares in issue as at that date would have been 276,768,811.

10.

Net debt includes both long-term and short-term debt and is net of cash. Net capital employed is calculated as shareholders' equity adjusted for other comprehensive income and deferred taxation, plus minority interests, interest bearing debt, less cash.

PROSPECTS AND RECENT DEVELOPMENTS

Production for the first quarter of 2006 has been impacted by the drought in Tanzania, which has reduced water supply to the Geita Mine; by the earlier commencement of the planned restructuring at the Tau Lekoa mine in South Africa, and by lower than expected grades at the Cripple Creek & Victor mine in Colorado, USA. As a result of these factors we expect production for the quarter to be in the region of 1.347Moz (previous guidance being 1.4Moz). The Company expects to recover all but 23,000 ounces (at Geita) by the end of 2006, with production for the year still seen in the range of 5.8Moz to 6.1Moz.

Local producer currencies have been higher than the rates anticipated for the first quarter of \$/R6.25 and BRL/\$2.29 and the Company anticipates that total cash costs for the first quarter of 2006 will be in the region of US\$320/oz, 3% higher than the forecast of US\$311/oz. Total cash costs for 2006 are anticipated to be between US\$285/oz and US\$293/oz based

on the following exchange rate assumptions: \$/R6.50, A\$/0.76, BRL/\$2.40 and Argentinean peso/\$2.96.

Based on current business planning, in 2007 AngloGold Ashanti expects its gold production to increase to between 6.3Moz

and 6.5Moz. The projected growth in AngloGold Ashanti's production in 2007 as compared to 2006, is expected to be driven

primarily by forecast increased production at the following operations:

- in South Africa, production at Moab Khotsong is expected to increase by approximately 80% in line with the development plan;

- in Australia, Sunrise Dam production should increase by approximately 25% as the higher grade GQ lobe is accessed;

- in Brazil at AngloGold Ashanti Mineração, production is anticipated to increase by approximately 40% as a consequence of the Cuiabá expansion project;

- in Ghana, both Iduapriem and Obuasi should see planned increases in production of between some 10% and 15% respectively; and

- in Tanzania at the Geita mine, production is forecast to rise by approximately 50% due to mining in the higher grade Nyankanga Cut 4.

These forecast increases in production are expected to offset anticipated reduced production at Tau Lekoa in South Africa,

Bibiani in Ghana, Yatela in Mali and Cripple Creek & Victor in the United States.

Total cash costs in 2007 are projected to be between \$261/oz and \$271/oz, based upon the following exchange rate assumptions: \$/R6.75, A\$/0.75, BRL/\$2.67 and Argentinean peso/\$3.05.

Based on the exchange rate assumptions referred to above, capital expenditure for 2006, is estimated at between US\$786 million and US\$818 million and for 2007 is estimated to be between \$850 million and \$884 million. Capital expenditure for 2008 is estimated to be between \$592 million and \$616 million, based on the following exchange rate assumptions: \$/R7.00, A\$/0.73, BRL/\$2.84 and Argentinean peso/\$3.13. Development of the Boddington project in Australia forms a significant proportion of the anticipated capital expenditure in these three years. The capital

expenditures

referred to above also includes the Company's other principal projects namely, the Cuiabá expansion in Brazil; the final

development of the Moab Khotsong mine in South Africa; three projects at the TauTona mine in South Africa comprising

the Carbon Leader Reef shaft pillar project, the Ventersdorp Contact Reef development project and the development below

120 level; two initiatives at the Geita mine in Tanzania comprising the transition to owner-mining and the purchase of further

earth-moving equipment to increase production from this mine to 80 million tonnes per annum over the next three years

and the underground feasibility study for Sunrise Dam in Australia, as well as stay-in-business capital expenditure and Ore

Reserve development at the Company's operations.

AngloGold Ashanti's attributable Proved & Probable Ore Reserves amounted to 78.9Moz as at 31 December 2004 based

on the requirements of the SEC. In accordance with this requirement, the company's Ore Reserves were estimated using

the three-year historical average of gold prices of \$375/oz, A\$536/oz and R94,765/kg respectively. AngloGold Ashanti

reviews and updates its estimates of Ore Reserves annually and publishes them in the first quarter of each year.

In accordance with the preferred position of the SEC, and disclosed in the 2005 Annual Report, based on the estimated average of gold price and exchange rates for the three years ended 31 December 2005, which yields gold prices of around

\$400/oz, A\$556/oz and R86,808/kg, AngloGold Ashanti's Proved and Probable Ore Reserves have been determined to be

63.3Moz as at 31 December 2005. The reduction in the company's Ore Reserves, as compared to those at 31 December 2004, amounted to 15.6Moz, 7.0Moz of which is due to depletion, 6.4Moz is due to the use of the lower rand gold price of

R86,808/kg and the remaining 2.2Moz reduction is due to geological model and scope changes. These reductions in Proved and Probable Ore Reserves are primarily at three of the South African mines, namely Moab Khotsong, Mponeng

and Tau Lekoa, for reasons detailed below:

16

-
- in the case of Moab Khotsong a reduction of 5.4Moz is due to:
-
- the removal of 1.3Moz from the existing project as a result of a reduction in the mine call factor, and
-
- the removal of the “Moab Khotsong Phase 2 Project” (4.1Moz) following the use of the lower rand gold price;
-
- in the case of Mponeng a reduction of 1.7Moz is due to:
-
- the removal of 0.4Moz as a result of a reduction in the mine call factor, and
-
- the removal of the “Mponeng below 120 level Ventersdorp Contact Reef Project” (1.3Moz) following the use of the lower rand gold price; and
-
- in the case of Tau Lekoa, a reduction of 1.6Moz is primarily due to the use of the lower rand gold price.

A sensitivity analysis has been carried out on the company’s Ore Reserves, using gold prices that reflect more recent spot prices (\$530/oz, A\$700/oz and R105,000/kg). This analysis, together with the anticipated reserve ounces expected to be generated by the 2006 exploration programmes, indicates that the current Ore Reserve position could be increased by some 9Moz, thereby more than replacing depletion in 2006.

The information in this circular that relates to Mineral Resources and Ore Reserves has been extracted from AngloGold Ashanti’s 2005 Annual Report, which was signed off by the competent persons listed below, who are either members of the Australian Institute of Mining and Metallurgy (AusIMM) or recognised overseas professional organisations. They are all full-time employees of AngloGold Ashanti.

The competent persons responsible for the reporting of AngloGold Ashanti’s Mineral Resources, as defined under the Australasian Code for Reporting of Mineral Resources and Ore Reserves are:

-
- V A Chamberlain: MSc (Mining Engineering), BSc (Hons) (Geology), MAusIMM;
-
- M F O’Brien: MSc (Mining Economics) , BSc (Hons) (Geology), Dip Data, Pr. Sci. Nat., MAusIMM.

The competent persons in respect of AngloGold Ashanti’s Ore Reserves are:

-
- C E Brechtel: MSc (Mining Engineering), BSc (Geological Engineering), MAusIMM, MSAIMM, MSME;
-
- D L Worrall: ACSM, MAusIMM;
-
- J van Zyl Visser: BSc (Mineral Resource Management), PLATO.

The competent persons consent to the inclusion of the Mineral Resource and Ore Reserve information in this circular, in the form and context in which it appears.

7.

CORPORATE GOVERNANCE

Disclosures policy: AngloGold Ashanti subscribes to a policy of full, accurate and consistent communication in respect of both its financial and operating affairs. To this end, AngloGold Ashanti has adopted a Disclosures Policy, the object of which

is to ensure compliance with the rules of the various exchanges on which it is listed and provide timely, accurate and reliable information fairly to all stakeholders including investors (and potential investors), regulators and analysts.

Compliance with JSE Listings Requirements: AngloGold Ashanti has a Nominations Committee and a Remuneration

Committee which committees comprise solely of non-executive directors, the majority of whom are independent, and are

chaired by the independent board chairman.

Codes of ethics and whistle-blowing policy: In order to comply with AngloGold Ashanti's obligations in terms of the Sarbanes-Oxley Act of the United States and the King Code of South Africa, and in the interests of good governance, AngloGold Ashanti has adopted a code of ethics for employees, a code of ethics for senior financial officers, and a whistle-

blowing policy that encourages employees and other stakeholders to confidentially report acts of an unethical or illegal

nature affecting AngloGold Ashanti's interests. Both codes and the whistle-blowing policy are available on the AngloGold

Ashanti website.

Access to information: AngloGold Ashanti has complied with its obligations in terms of the South African Promotion of

Access to Information Act of 2000. AngloGold Ashanti's access to information manual is available from its website and the

company secretarial department.

For further information, refer to the 2005 AngloGold Annual Report or the company's website on www.anglogoldashanti.com

Sponsor: UBS acts as sponsor to AngloGold Ashanti in compliance with the Listings Requirements of the JSE.

8.

LITIGATION

There are no legal or arbitration proceedings in which any member of the AngloGold Ashanti Group is or has been engaged, including any such proceedings which are pending or threatened of which AngloGold Ashanti is aware, which

may have, or have had during the 12 months preceding the date of this circular, a material effect on the financial position

of the AngloGold Ashanti Group.

9.

EXPENSES AND COSTS IN RELATION TO THE ISSUE

It is estimated that the total amount of the expenses of the issue, payable in respect of listing fees, for printing and postage

of the circular and documents pertaining to the offer, to sponsors, to financial advisers, to corporate advisers, to legal advisers, to independent auditors, to investment and commercial bankers and other advisers involved in the issue is US\$10 million. In addition, the underwriters' commissions and fees are estimated to be US\$10 million.

10. DIRECTORS' RESPONSIBILITY

The directors, whose names are given in paragraph 6.1 on page 17 of this circular, collectively and individually, accept full

responsibility for the accuracy of the information given and certify that, to the best of their knowledge and belief, there are

no facts that have been omitted which would make any statement false or misleading, and that all reasonable enquiries to

ascertain such facts have been made and that the circular contains all information required by the Listings

Requirements

of the JSE.

11. LISTINGS OF THE ANGLOGOLD ASHANTI SHARES PURSUANT TO THE ISSUE

AngloGold Ashanti shares are listed on the JSE, the LSE, Euronext Paris, the ASX in the form of AngloGold Ashanti CDIs,

the NYSE in the form of AngloGold Ashanti ADSs, the GhSE in the form of both ordinary shares and GhDSs and are quoted on Euronext Brussels in the form of IDRs.

Applications will be made for the listing and/or quotation of the AngloGold Ashanti shares, the subject of the issue, immediately following the closing date of the offer on all of the stock exchanges where AngloGold Ashanti shares are listed

as set out above.

12. GENERAL MEETING

Attached to and forming part of this circular is a notice convening a general meeting to be held at 11:00 on Monday, 10 April 2006 at The Country Club Johannesburg, Napier Road, Auckland Park, Johannesburg, South Africa, in order to

consider and, if deemed fit, pass, with or without modification, resolutions necessary for the approval and implementation

by AngloGold Ashanti of the issue, details of which are contained in such notice.

Certificated shareholders and dematerialised "own name" shareholders whose names appear on the sub-register maintained by their CSDP or stockbroker, who are unable to attend the general meeting and wish to be represented thereat,

must complete and return the attached form of proxy in accordance with the instructions contained therein, so as to reach

the share registrars in South Africa, the United Kingdom, Australia or Ghana by no later than 11:00 (South African time) on

Thursday, 6 April 2006. The addresses of the share registrars are set out on the outside cover of this circular.

Dematerialised shareholders (other than dematerialised own name shareholders) must advise their CSDP or stockbroker

of their voting instructions should they wish to be represented at the general meeting. If, however, such shareholders wish

to attend the general meeting in person, they will need to request their CSDP or stockbroker to provide them with the necessary authority in terms of the custody agreement.

13. CONSENTS

The legal advisers, auditors and reporting accountants, sponsor, United Kingdom secretaries, share registrars and ADS depositary to AngloGold Ashanti have consented in writing to act in the capacity stated and to their reports, if any, and their

names being included in this circular and have not withdrawn their consent prior to publication of this circular.

14. DOCUMENTS AVAILABLE FOR INSPECTION

Edgar Filing: ANGLOGOLD ASHANTI LTD - Form 6-K

The following documents, or copies thereof, will be available for inspection by shareholders from the date of this circular,

24 March 2006, up to and including Monday, 10 April 2006, during normal business hours on weekdays (excluding official

public holidays) at the undermentioned locations:

ANNEXURE A

INDEPENDENT REPORTING ACCOUNTANTS' ASSURANCE REPORT ON THE UNAUDITED PRO FORMA FINANCIAL INFORMATION OF ANGLOGOLD ASHANTI LIMITED

The Directors
AngloGold Ashanti Limited
11 Diagonal Street
Johannesburg
2001

Dear Sirs

INDEPENDENT REPORTING ACCOUNTANTS' ASSURANCE REPORT ON THE UNAUDITED PRO FORMA CONSOLIDATED BALANCE SHEET AND INCOME STATEMENT AND THE PRO FORMA FINANCIAL EFFECTS ("the pro forma financial information") OF ANGLOGOLD ASHANTI LIMITED ("AngloGold Ashanti") REGARDING SPECIFIC AUTHORITY TO ISSUE SHARES FOR CASH ("the issue")

We have performed our limited assurance engagement in respect of the pro forma financial information set out on pages 10 to 14 of the circular dated 24 March 2006 issued in connection with the proposed raising of approximately US\$500 million, by way of an offering for subscription for shares for cash that is the subject of this circular of AngloGold Ashanti. The pro forma financial information has been prepared in accordance with the Listings Requirements of the JSE, for illustrative purposes only, to provide information about how the specific authority to issue shares for cash might have affected the reported historical financial information presented, had the corporate action been undertaken at the commencement of the period or at the date of the pro forma balance sheet being reported on.

Directors' responsibility

The directors are responsible for the compilation, contents and presentation of the pro forma financial information contained in the circular and for the financial information from which it has been prepared. Their responsibility includes determining that: the pro forma financial information has been properly compiled on the basis stated; the basis is consistent with the accounting policies of AngloGold Ashanti; and the pro forma adjustments are appropriate for the purposes of the pro forma financial information disclosed in terms of the JSE Listings Requirements.

Reporting accountants' responsibility

Our responsibility is to express our limited assurance conclusion on the pro forma financial information included in the circular to AngloGold Ashanti shareholders. We conducted our assurance engagement in accordance with the International Standard on Assurance Engagements applicable to *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* and the *Guide on Pro Forma Financial Information* issued by the South African Institute of Chartered Accountants.

The standard requires us to obtain sufficient appropriate audit evidence on which to base our conclusion.

We do not accept any responsibility for any reports previously given by us on any financial information used in the compilation of the pro forma financial information beyond that owed to those to whom those reports were addressed by us at the dates of their issue.

Sources of information and work performed

Our procedures consisted primarily of comparing the unadjusted financial information with the source documents, considering the pro forma adjustments in light of the accounting policies of AngloGold Ashanti, the issuer, considering the evidence supporting the pro forma adjustments and discussing the adjusted pro forma financial information with the directors of the company in respect of the corporate actions that are the subject of this circular. In arriving at our conclusion, we have relied upon financial information prepared by the directors of AngloGold Ashanti and other information from various public, financial and industry sources.

23

While our work performed has involved an analysis of the historical published audited financial information and other information

provided to us, our assurance engagement does not constitute an audit or review of any of the underlying financial information

conducted in accordance with *International Standards on Auditing* or *International Standards on Review Engagements* and

accordingly, we do not express an audit or review opinion.

In a limited assurance engagement, the evidence-gathering procedures are more limited than for a reasonable assurance

engagement and therefore less assurance is obtained than in a reasonable assurance engagement. We believe our evidence

obtained is sufficient and appropriate to provide a basis for our conclusion.

Conclusion

Based on our examination of the evidence obtained, nothing has come to our attention, which causes us to believe that, in terms

of the section 8.17 and 8.30 of the JSE Listings Requirements:

- the pro forma financial information has not been properly compiled on the basis stated,
- such basis is inconsistent with the accounting policies of the issuer, and
- the adjustments are not appropriate for the purposes of the pro forma financial information as disclosed.

ANGLOGOLD ASHANTI LIMITED

(Incorporated in the Republic of South Africa)

(Registration number 1944/017354/06)

ISIN: ZAE000043485 JSE share code: ANG

(“AngloGold Ashanti” or “the Company”)

NOTICE OF GENERAL MEETING

Notice is hereby given that a general meeting of shareholders of AngloGold Ashanti will be held at 11:00 (South African time)

on Monday, 10 April 2006, at The Country Club Johannesburg, Napier Road, Auckland Park, Johannesburg, South Africa, for

the purpose of considering and, if deemed fit, passing, with or without modification, the following ordinary resolutions:

ORDINARY RESOLUTION NUMBER 1

Specific authority to issue of shares for cash

“Resolved as an ordinary resolution and as a specific authority to issue securities for cash in terms of the Listings Requirements of the JSE Limited (“JSE”), that

1.

the allotment and issue by the Company, for cash, of that number of ordinary shares of R0.25 each in the capital of the Company (“ordinary shares”) which, at the offer subscription price after applying the discount (if any) referred to below, will

equate to a raising of a maximum of US\$500 million in the aggregate after deducting all underwriters commissions and

fees but not all other issue costs; and

2.

the offer for subscription (“the offer”) to be made to selected investors may be made at such discount per ordinary share (based upon the offer subscription price for an AngloGold Ashanti share represented by an AngloGold Ashanti American

Depository Share (“ADS”) relative to the ruling market price of an AngloGold Ashanti ADS at the close of trading on the

New York Stock Exchange on the day before the formal announcement of the pricing of the offer) and on such other terms

and conditions as the directors of the Company may, in their discretion, deem fit, provided that such discount shall not exceed 10%;

be and is hereby approved.”

ORDINARY RESOLUTION NUMBER 2

Directors’ authority to allot and issue shares for cash subject to specific authority

“Resolved as an ordinary resolution that, subject to ordinary resolution number 1 being passed at the general meeting at

which this resolution will be proposed, by the requisite majority in terms of the Listings Requirements of the JSE Limited, a

sufficient number of ordinary shares be and are hereby placed under the control of the directors of the Company, with specific

authority to allot and issue such ordinary shares for cash, which at the offer subscription price will equate to a raising of a

maximum of US\$500 million in the aggregate after deducting all underwriters commissions and fees but not all other issue

costs, and on such other terms and conditions as the directors may, in their discretion, deem fit provided that the offer shall not

be made at a discount per ordinary share (based upon the offer subscription price for an AngloGold Ashanti share represented

by an AngloGold Ashanti ADS relative to the ruling market price of an AngloGold Ashanti ADS at the close of trading on the New York Stock Exchange on the day before the formal announcement of the pricing of the offer) of more than 10%.”

VOTING AND PROXIES

In terms of the Listings Requirements of the JSE, in order for it to be effective, ordinary resolution number 1 must be passed

by a 75% majority of the votes cast by shareholders present or represented by proxy at the general meeting.

Certificated shareholders and dematerialised “own name” shareholders (whose name appears on the sub-register maintained

by their CSDP or stockbroker), who are unable to attend the general meeting and wish to be represented thereat, must complete

and return the attached form of proxy in accordance with the instructions contained therein, so as to reach the Company’s share

registrars in South Africa, the United Kingdom, Australia or Ghana by no later than 11:00 (South African time) on Thursday,

6 April 2006. The addresses of the share registrars are on the cover of this circular.

Dematerialised shareholders (other than those dematerialised “own name” shareholders) must advise their CSDP or stockbroker of their voting instructions should they wish to be represented at the general meeting. If, however, such shareholders wish to attend the general meeting in person, they will need to request their CSDP or stockbroker to provide them

with the necessary authority in terms of the custody agreement entered into between the dematerialised shareholder and the

CSDP or stockbroker.

Ghanaian Depositary Shares.

NOTES:

1. A signatory to this form of proxy may insert the name of a proxy or the name of an alternative proxy of the signatory's choice in the blank spaces provided with or without deleting "the chairman of the general meeting", but any such deletion must be signed in full by the signatory.
Any insertion or deletion not complying with the foregoing will be deemed not to have been validly effected. The person present at the general meeting whose name appears first on the list of names on the face hereof, shall be the validly appointed proxy for the shareholder concerned at the general meeting.
2. A shareholder's instructions to the proxy must be indicated in the appropriate spaces provided. A shareholder or the proxy is not obliged to use all the votes exercisable by the shareholder or by the proxy, or to cast all those votes in the same way, but the total of votes cast, and in respect whereof abstention is directed, may not exceed the total of the votes exercisable by the shareholder or the proxy. Failure to comply with the above or to provide voting instructions or the giving of contradictory instructions will be deemed to authorise the proxy to vote or abstain from voting at the general meeting as he/she deems fit in respect of all the shareholder's votes exercisable at the general meeting.
3. Any alteration or correction made to this form of proxy must be signed in full and not initialled by the signatory.
4. Documentary evidence establishing the authority of a person signing this form of proxy in a representative capacity must be attached to this form of proxy unless previously recorded by the share registrars in South Africa, the United Kingdom, Australia or Ghana.
5. When there are joint holders of shares, any one holder may sign this form of proxy.
6. The completion and lodging of this form of proxy will not preclude the shareholder who grants the proxy from attending the general meeting and speaking and voting in person thereat to the exclusion of any proxy appointed in terms hereof should such shareholder wish to do so.
7. The chairman of the general meeting may reject or accept any form of proxy which is completed and/or received otherwise than in accordance with these notes, provided that he is satisfied as to the manner in which the shareholder concerned wishes to vote.

8. Completed forms of proxy should be returned to one of the undermentioned addresses by no later than 11:00 (South African time) on Thursday, 6 April 2006:
