ent surplus and an increase in pricing for Australian bulk wine. Continuing drought conditions throughout most of calendar 2007 were expected to impact the size of the calendar 2008 Australian grape harvest as well. However, precipitation during the Company's fourth quarter has alleviated some of the drought conditions in key wine producing regions of Australia resulting in the expectation for the calendar 2008 Australian grape harvest to be higher than the calendar 2007 Australian grape harvest. The Company expects the supply to continue to move into balance with demand as a result of two consecutive years of lower than recent average Australian grape harvests; however, the highly competitive conditions in the U.K. and Australian markets are expected to persist. In the U.S., while the calendar 2007 U.S. grape harvest yielded lower levels than the calendar 2006 U.S. grape harvest, the Company expects that the overall supply should remain generally in balance with demand.

In the fourth quarter of fiscal 2008, pursuant to the Company's accounting policy, the Company performed its annual goodwill impairment analysis. As a result of this analysis, the Company concluded that the carrying amounts of goodwill assigned to the Constellation Wines segment's Australian and U.K. reporting units exceeded their implied fair values and recorded impairment losses of \$599.9 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statement of Operations. The impairment losses were determined by comparing the carrying value of goodwill assigned to specific reporting units within the segment as of December 31, 2007, with the implied fair value of the goodwill. In determining the implied fair value of the goodwill, the Company considered estimates of future operating results and cash flows of each of the reporting units discounted using estimated discount rates. The estimates of future operating results and cash flows were principally derived from the Company's updated long-term financial forecast, which was developed as part of the Company's strategic planning cycle conducted during the Company's fourth quarter. The decline in the implied fair value of the goodwill and resulting impairment losses were primarily driven by the updated long-term financial forecasts, which showed lower estimated future operating results primarily due to changes in market conditions in Australia and the U.K. in the fourth quarter of fiscal 2008.

Table of Contents

In addition, during the fourth quarter of fiscal 2008, the Company performed its review of indefinite lived intangible assets for impairment. The Company determined that certain intangible assets associated with the Constellation Wines segment's Australian and U.K. reporting units, primarily trademarks, were impaired primarily due to the revised lower revenue and profit forecasts associated with products incorporating these assets. The Company measured the amount of impairment by calculating the amount by which the carrying value of these assets exceeded their estimated fair values, which were based on projected discounted future net cash flows. As a result of this review, the Company recorded additional impairment losses of \$204.9 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statement of Operations. Lastly, in connection with the Company's Fiscal 2008 Plan (as defined below in Restructuring and Related Charges), the Company recorded asset impairment losses of \$7.4 million associated primarily with certain definite lived trademarks of brands to be discontinued.

For the year ended February 29, 2008 (Fiscal 2008), the Company's net sales decreased 28% over the year ended February 28, 2007 (Fiscal 2007), primarily due to accounting for the Crown Imports and Matthew Clark investments under the equity method of accounting, partially offset by net sales of products acquired in the Vincor Acquisition, Svedka Acquisition and BWE Acquisition (as defined below) and a favorable foreign currency impact. Operating (loss) income decreased over the comparable prior year period resulting primarily from (i) impairment losses, (ii) the decreased imported beer and U.K. wholesale sales discussed above and (iii) the Company's Constellation Wines segment's program to reduce distributor wine inventory levels in the U.S. during the first half of fiscal 2008 (as discussed below) without a corresponding decrease in promotional, advertising, selling and general and administrative spend within the Constellation Wines segment, partially offset by the incremental benefit from the Vincor Acquisition, Svedka Acquisition and BWE Acquisition. Net (loss) income decreased over the comparable prior year period primarily due to the factors discussed above combined with income tax provision and increased interest expense, partially offset by an increase in equity in earnings of equity method investees in connection primarily with Crown Imports.

The Company's Constellation Wines segment implemented a program to reduce distributor wine inventory levels in the U.S. during the first half of fiscal 2008, in response to the consolidation of distributors over the past few years and supply chain technology improvements. As distributors are looking to operate with lower levels of inventory while maintaining appropriate service levels to retailers, the Company has worked closely with its distributors on supply-chain efficiencies, ultimately making the Company's brands more competitive in the marketplace. The Company substantially completed its reduction of distributor inventory levels during the second quarter of fiscal 2008. This initiative had a significant impact on the Company's Fiscal 2008 financial performance, including a reduction of net sales of approximately \$110 million and a reduction in diluted earnings per share of approximately \$0.15 per share.

The following discussion and analysis summarizes the significant factors affecting (i) consolidated results of operations of the Company for Fiscal 2008 compared to Fiscal 2007, and Fiscal 2007 compared to the year ended February 28, 2006 (Fiscal 2006), and (ii) financial liquidity and capital resources for Fiscal 2008. This discussion and analysis also identifies certain acquisition-related integration costs, restructuring and related charges and net unusual costs expected to affect consolidated results of operations of the Company for Fiscal 2009. References to base branded wine net sales, base branded wine gross profit and base branded wine business exclude the impact of branded wine acquired in the Vincor Acquisition and/or the BWE Acquisition, as appropriate. References to base branded spirits net sales and base branded spirits gross profit exclude the impact of branded spirits acquired in the Svedka Acquisition. This discussion and analysis should be read in conjunction with the Company's consolidated financial statements and notes thereto included herein.

Acquisitions in Fiscal 2008 and Fiscal 2007

Acquisition of BWE

On December 17, 2007, the Company acquired all of the issued and outstanding capital stock of Beam Wine Estates, Inc. (*BWE*), an indirect wholly-owned subsidiary of Fortune Brands, Inc., together with *BWE* 's subsidiaries: Atlas Peak Vineyards, Inc., Buena Vista Winery, Inc., Clos du Bois, Inc., Gary Farrell Wines, Inc. and Peak Wines International, Inc. (the *BWE Acquisition*). As a result of the *BWE Acquisition*, the Company has acquired the U.S. wine portfolio of Fortune Brands, Inc., including certain wineries, vineyards or interests therein in the State of California, as well as various super-premium and fine California wine brands including Clos du Bois, Wild Horse and Geyser Peak.

The *BWE Acquisition* supports the Company 's strategy of strengthening its portfolio with fast-growing super-premium and above wines. The *BWE Acquisition* strengthens the Company 's position as the largest wine company in the world and the largest premium wine company in the U.S.

Total consideration paid in cash was \$888.6 million, subject to certain purchase price adjustments. In addition, the Company expects to incur direct acquisition costs of approximately \$1.3 million. The purchase price was financed with the net proceeds from the Company 's December 2007 Senior Notes and revolver borrowings under the Company 's 2006 Credit Agreement (as defined below). In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price allocation, including the third-party appraisal, is in process.

The results of operations of the *BWE* business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition. The Company expects the *BWE Acquisition* to have a material impact on the Company 's future results of operations, financial position and cash flows. In particular, the Company expects its future results of operations to be significantly impacted by, among other things, the flow through of anticipated inventory step-up, restructuring, integration and related charges, and interest expense associated with borrowings to finance the purchase price. The restructuring, integration and related charges relate to the Company 's January 2008 announcement of its plans to streamline certain of its operations in the U.S., primarily in connection with the restructuring and integration of the operations of *BWE* (the *U.S. Initiative*).

Acquisition of Svedka

On March 19, 2007, the Company acquired the SVEDKA Vodka brand (*Svedka*) in connection with the acquisition of Spirits Marque One LLC and related business (the *Svedka Acquisition*). *Svedka* is a premium Swedish vodka and is the fastest growing major imported premium vodka in the U.S. At the time of the acquisition, *Svedka* was the fifth largest imported vodka in the U.S. The *Svedka Acquisition* supports the Company 's strategy of expanding the Company 's premium spirits business. The acquisition provides a foundation from which the Company looks to leverage its existing and future premium spirits portfolio for growth. In addition, *Svedka* complements the Company 's existing portfolio of super-premium and value vodka brands by adding a premium vodka brand that has experienced rapid growth.

Total consideration paid in cash for the *Svedka Acquisition* was \$385.8 million. In addition, the Company incurred direct acquisition costs of \$1.3 million. The purchase price was financed with revolver borrowings under the Company 's June 2006 Credit Agreement (as defined below) as amended in February 2007.

Table of Contents

The results of operations of the Svedka business are reported in the Constellation Spirits segment and are included in the consolidated results of operations of the Company from the date of acquisition. The Svedka Acquisition had a significant impact on the Company's interest expense associated with the additional revolver borrowings.

Acquisition of Vincor

On June 5, 2006, the Company acquired all of the issued and outstanding common shares of Vincor International Inc. (Vincor), Canada's premier wine company (the Vincor Acquisition). Vincor is Canada's largest producer and marketer of wine. At the time of the acquisition, Vincor was the world's eighth largest producer and distributor of wine and related products by revenue and was also one of the largest wine importers, marketers and distributors in the U.K. Through this transaction, the Company acquired various additional winery and vineyard interests used in the production of premium, super-premium and fine wines from Canada, California, Washington State, Western Australia and New Zealand. In addition, as a result of the acquisition, the Company sources, markets and sells premium wines from South Africa. Well-known premium brands acquired in the Vincor Acquisition include Inniskillin, Jackson-Triggs, Sawmill Creek, Sumac Ridge, R.H. Phillips, Toasted Head, Hogue, Kim Crawford and Kumala.

The Vincor Acquisition supports the Company's strategy of strengthening the breadth of its portfolio across price segments and geographic regions to capitalize on the overall growth in the wine industry. In addition to complementing the Company's current operations in the U.S., U.K., Australia and New Zealand, the Vincor Acquisition increases the Company's global presence by adding Canada as another core market and provides the Company with the ability to capitalize on broader geographic distribution in strategic international markets. In addition, the Vincor Acquisition makes the Company the largest wine company in Canada and strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S.

Total consideration paid in cash to the Vincor shareholders was \$1,115.8 million. In addition, the Company incurred direct acquisition costs of \$9.4 million. At closing, the Company also assumed outstanding indebtedness of Vincor, net of cash acquired, of \$320.2 million, resulting in a total transaction value of \$1,445.4 million. The purchase price was financed with borrowings under the Company's June 2006 Credit Agreement. The results of operations of the Vincor business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition.

Equity Method Investments in Fiscal 2008 and Fiscal 2007

Investment in Matthew Clark

On April 17, 2007, the Company and Punch Taverns plc (Punch) commenced operations of a joint venture for the U.K. wholesale business (Matthew Clark). The U.K. wholesale business was formerly owned entirely by the Company. Under the terms of the arrangement, the Company and Punch, directly or indirectly, each have a 50% voting and economic interest in Matthew Clark. The joint venture reinforces Matthew Clark's position as the U.K.'s largest independent premier drinks wholesaler serving the on-trade drinks industry. The Company received \$185.6 million of cash proceeds from the formation of the joint venture.

Table of Contents

Upon formation of the joint venture, the Company discontinued consolidation of the U.K. wholesale business and accounts for the investment in Matthew Clark under the equity method. Accordingly, the results of operations of Matthew Clark are included in the equity in earnings of equity method investees line on the Company's Consolidated Statement of Operations from the date of investment.

Investment in Crown Imports

On July 17, 2006, Barton Beers, Ltd. (Barton), an indirect wholly-owned subsidiary of the Company, entered into an Agreement to Establish Joint Venture (the Joint Venture Agreement) with Diblo, S.A. de C.V. (Diblo), an entity owned 76.75% by Grupo Modelo, S.A.B. de C.V. (Modelo) and 23.25% by Anheuser-Busch Companies, Inc., pursuant to which Modelo's Mexican beer portfolio (the Modelo Brands) will be exclusively imported, marketed and sold in the 50 states of the U.S., the District of Columbia and Guam. In addition, the owners of the Tsingtao and St. Pauli Girl brands transferred exclusive importing, marketing and selling rights with respect to these brands in the U.S. to the joint venture. On January 2, 2007, the parties completed the closing (the Closing) of the transactions contemplated in the Joint Venture Agreement, as amended at Closing.

Pursuant to the Joint Venture Agreement, Barton established Crown Imports LLC, a wholly-owned subsidiary formed as a Delaware limited liability company. On January 2, 2007, pursuant to a Barton Contribution Agreement, dated July 17, 2006, among Barton, Diblo and Crown Imports LLC, Barton transferred to Crown Imports LLC substantially all of its assets relating to importing, marketing and selling beer under the Corona Extra, Corona Light, Coronita, Modelo Especial, Negra Modelo, Pacifico, St. Pauli Girl and Tsingtao brands and the liabilities associated therewith (the Barton Contributed Net Assets). At the Closing, GModelo Corporation, a Delaware corporation (the Diblo Subsidiary), a subsidiary of Diblo joined Barton as a member of Crown Imports LLC, and, in exchange for a 50% membership interest in Crown Imports LLC, contributed cash in an amount equal to the Barton Contributed Net Assets, subject to specified adjustments. This imported beers joint venture is referred to hereinafter as Crown Imports .

Also on January 2, 2007, Crown Imports and Extrade II S.A. de C.V. (Extrade II), an affiliate of Modelo, entered into an importer agreement, pursuant to which Extrade II granted to Crown Imports the exclusive right to import, market and sell the Modelo Brands in the territories mentioned above, and Crown Imports and Marcas Modelo, S.A. de C.V. (Marcas Modelo), entered into a Sub-license Agreement, pursuant to which Marcas Modelo granted Crown Imports an exclusive sub-license to use certain trademarks related to the Modelo Brands within this territory.

As a result of these transactions, Barton and Diblo each have, directly or indirectly, equal interests in Crown Imports and each of Barton and Diblo have appointed an equal number of directors to the Board of Directors of Crown Imports.

The importer agreement that previously gave Barton the exclusive right to import, market and sell the Modelo Brands primarily west of the Mississippi River was superseded by the transactions contemplated by the Joint Venture Agreement, as amended. The contribution by Diblo Subsidiary in exchange for a 50% membership interest in Crown Imports does not constitute the acquisition of a business by the Company.

Table of Contents

The joint venture and the related importation arrangements provide that, subject to the terms and conditions of those agreements, the joint venture and the related importation arrangements will continue for an initial term of 10 years, and renew in 10-year periods unless Diblo Subsidiary gives notice prior to the end of year seven of any term. Upon consummation of the transactions, the Company discontinued consolidation of the imported beer business and accounts for the investment in Crown Imports under the equity method. Accordingly, the results of operations of Crown Imports are included in the equity in earnings of equity method investees line on the Company's Consolidated Statement of Operations from the date of investment.

Divestiture in Fiscal 2008

In February 2008, as part of ongoing efforts to increase focus on premium wine offerings in the U.S., the Company sold its lower margin popular-priced wine brands, Almaden and Inglenook, and certain other assets for cash proceeds of \$133.7 million. The Company recorded a loss of \$27.8 million on this sale which is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Results of Operations**Fiscal 2008 Compared to Fiscal 2007***Net Sales*

The following table sets forth the net sales (in millions of dollars) by operating segment of the Company for Fiscal 2008 and Fiscal 2007.

	Fiscal 2008 Compared to Fiscal 2007		
	Net Sales		%
	2008	2007	Increase (Decrease)
Constellation Wines:			
Branded wine	\$ 3,016.9	\$ 2,755.7	(9)%
Wholesale and other	341.9	1,087.7	(69)%
Constellation Wines net sales	3,358.8	3,843.4	(13)%
Constellation Spirits net sales	414.2	329.4	26%
Constellation Beers net sales		1,043.6	(100)%
Crown Imports net sales	2,391.0	368.8	NM
Consolidations and eliminations	(2,391.0)	(368.8)	NM
Consolidated Net Sales	\$ 3,773.0	\$ 5,216.4	(28)%

NM = Not Meaningful

Net sales for Fiscal 2008 decreased to \$3,773.0 million from \$5,216.4 million for Fiscal 2007, a decrease of \$1,443.4 million, or (28%). This decrease resulted primarily from a decrease in net sales of \$1,043.6 million and \$759.8 million for the Crown Imports and Matthew Clark investments, respectively, which are accounted for under the equity method of accounting, partially offset by net sales of products acquired in the Vincor Acquisition, Svedka Acquisition and BWE Acquisition of \$202.7 million and a favorable foreign currency impact of \$133.5 million.

Table of Contents*Constellation Wines*

Net sales for Constellation Wines decreased to \$3,358.8 million for Fiscal 2008 from \$3,843.4 million in Fiscal 2007, a decrease of \$484.6 million, or (13%). Branded wine net sales increased \$261.2 million primarily due to \$140.2 million of net sales of branded wine acquired in the Vincor Acquisition and BWE Acquisition, a favorable foreign currency impact of \$108.2 million and a benefit of \$55.7 million due to branded wine net sales for the U.K. previously sold through the Company's U.K. wholesale business, partially offset by lower U.S. base branded wine net sales resulting primarily from the Company's implementation of a program to reduce distributor wine inventory levels in the U.S. Wholesale and other net sales decreased \$745.8 million primarily due to accounting for the Matthew Clark investment under the equity method of accounting, partially offset by a favorable foreign currency impact of \$25.3 million.

Constellation Spirits

Net sales for Constellation Spirits increased to \$414.2 million for Fiscal 2008 from \$329.4 million for Fiscal 2007, an increase of \$84.8 million, or 26%. This increase resulted primarily from \$55.1 million of net sales of branded spirits acquired in the Svedka Acquisition and an increase in base branded spirits net sales of \$19.9 million due primarily to higher average selling prices.

Constellation Beers

Net sales for Constellation Beers decreased \$1,043.6 million, or (100%), from Fiscal 2007 as the Crown Imports investment is accounted for under the equity method of accounting.

Gross Profit

The Company's gross profit decreased to \$1,281.5 million for Fiscal 2008 from \$1,523.9 million for Fiscal 2007, a decrease of \$242.4 million, or (16%). The Constellation Wines segment's gross profit increased \$4.9 million primarily due to increased gross profit of \$58.5 million due to the Vincor Acquisition and BWE Acquisition and a favorable foreign currency impact of \$40.6 million, partially offset by a decrease of \$77.8 million resulting from accounting for the Matthew Clark investment under the equity method of accounting and lower U.S. base branded wine gross profit resulting from the lower U.S. base branded wine net sales primarily as a result of the Company's program to reduce distributor inventory levels. The Constellation Spirits segment's gross profit increased \$36.7 million primarily due to increased gross profit of \$26.2 million due to the Svedka Acquisition and increased base branded spirits gross profit of \$9.0 million resulting from the higher average selling prices. The Constellation Beers segment's gross profit was down \$290.9 million due to accounting for the Crown Imports investment under the equity method of accounting. In addition, unusual items, which consist of certain costs that are excluded by management in their evaluation of the results of each operating segment, were lower by \$6.9 million in Fiscal 2008 versus Fiscal 2007. This decrease resulted primarily from decreased flow through of inventory step-up of \$18.8 million associated primarily with the Vincor Acquisition, partially offset by an increase in inventory write-offs and accelerated depreciation of \$9.5 million and \$5.4 million, respectively, primarily associated with the Fiscal 2008 Plan. Gross profit as a percent of net sales increased to 34.0% for Fiscal 2008 from 29.2% for Fiscal 2007 primarily due to the benefit of reporting the lower margin U.K. wholesale and imported beer businesses under the equity method of accounting, partially offset by (i) lower margins in the U.S. base branded wine business primarily due to the distributor inventory reduction program and (ii) lower margins in the U.K. branded wine business primarily due to the Company's absorption of increased duty costs.

Table of Contents***Selling, General and Administrative Expenses***

Selling, general and administrative expenses increased to \$807.3 million for Fiscal 2008 from \$768.8 million for Fiscal 2007, an increase of \$38.5 million, or 5%. This increase is due to an increase of \$76.4 million in the Constellation Wines segment, an increase of \$30.2 million in the Constellation Spirits segment, and an increase of \$24.6 million in Corporate Operations and Other, partially offset by a \$82.8 million decrease in selling, general and administrative expenses within the Constellation Beers segment as the Crown Imports investment is accounted for under the equity method of accounting, and a reduction in unusual costs which consist of certain items that are excluded by management in their evaluation of the results of each operating segment of \$9.9 million. The increase in the Constellation Wines segment's selling, general and administrative expenses is due to increased general and administrative expenses of \$43.2 million, advertising expenses of \$20.4 million and selling expenses of \$12.8 million resulting primarily from the Vincor Acquisition and BWE Acquisition and the recognition of an additional \$6.5 million of stock-based compensation expense. The increase in the Constellation Spirits segment's selling, general and administrative expenses is primarily due to increases in advertising expenses of \$14.0 million and selling expenses of \$11.8 million resulting primarily from the Svedka Acquisition. The Corporate Operations and Other segment's selling, general and administrative expenses increased primarily due to increased general and administrative expenses to support the Company's growth and the recognition of additional stock-based compensation expense in Fiscal 2008 of \$6.8 million. The decrease in unusual costs was primarily due to the recognition in Fiscal 2008 of (i) \$35.3 million of other costs associated primarily with the loss on the sale of the Company's Almaden and Inglenook wine brands and certain other assets and (ii) a \$6.6 million loss in connection with the contribution of the Company's U.K. wholesale business to the Matthew Clark joint venture, net of a \$4.8 million realized gain on a prior asset sale; partially offset by the recognition in Fiscal 2007 of (i) \$16.3 million of other costs associated with the Fiscal 2007 Wine Plan (as defined below in Restructuring and Related Charges) (primarily from the write-down of an Australian winery and certain Australian vineyards to fair value less cost to sell) and the Fiscal 2006 Plan (as defined below in Restructuring and Related Charges), (ii) a \$13.4 million loss on the sale of the Company's branded bottled water business resulting from the write-off of \$27.7 million of non-deductible intangible assets, primarily goodwill, (iii) financing costs of \$11.9 million related primarily to the Company's new senior credit facility entered into in connection with the Vincor Acquisition and (iv) foreign currency losses of \$5.4 million on foreign denominated intercompany loan balances associated with the Vincor Acquisition.

Selling, general and administrative expenses as a percent of net sales increased to 21.4% for Fiscal 2008 as compared to 14.7% for Fiscal 2007 primarily due to (i) the reporting of the imported beer and U.K. wholesale businesses under the equity method of accounting, (ii) the percent increase in general and administrative expenses supporting the Company's growth within the Corporate Operations and Other segment and the Constellation Wines segment growing at a faster rate than the increase in the respective segment's net sales (including a combined increase of \$13.3 million of stock-based compensation expense for those segments) and (iii) the lower net sales associated with the reduction in the distributor wine inventory levels without a corresponding decrease in selling, general and administrative expenses within the U.S. branded wine business.

Table of Contents

Impairment of Goodwill and Intangible Assets

The Company recorded \$812.2 million of impairment losses for Fiscal 2008, consisting of impairments of goodwill and intangible assets of \$599.9 million and \$212.3 million, respectively, as more fully discussed in the Overview above.

Acquisition-Related Integration Costs

Acquisition-related integration costs decreased to \$11.8 million for Fiscal 2008 from \$23.6 million for Fiscal 2007. Acquisition-related integration costs for Fiscal 2008 consisted of costs recorded primarily in connection with the Company's plan to restructure and integrate the operations of Vincor (the Vincor Plan) and the Company's plan to streamline certain of its international operations and costs associated with the consolidation of certain spirits production processes in the U.S., collectively with the U.S. Initiative, the Fiscal 2008 Plan. These costs included \$4.8 million of employee-related costs and \$7.0 million of facilities and other costs. Acquisition-related integration costs for Fiscal 2007 consisted of costs recorded primarily in connection with the Vincor Plan.

For Fiscal 2009, the Company expects to incur total acquisition-related integration costs of \$10.3 million primarily in connection with the Fiscal 2008 Plan.

Restructuring and Related Charges

The Company recorded \$6.9 million of restructuring and related charges for Fiscal 2008 associated primarily with the Company's Fiscal 2008 Plan and the Company's worldwide wine reorganizations announced during Fiscal 2006 and the Company's program to consolidate certain west coast production processes in the U.S. (collectively, the Fiscal 2006 Plan) of \$12.0 million, partially offset by the reversal of prior accruals related primarily to the Vincor Plan of \$5.1 million. Restructuring and related charges included \$10.2 million of employee termination benefit costs, (\$3.4) million of contract termination costs and \$0.1 million of facility consolidation/relocation costs. In addition, in connection with the Fiscal 2008 Plan, the Company's plan to invest in new distribution and bottling facilities in the U.K. and to streamline certain Australian wine operations (collectively, the Fiscal 2007 Wine Plan), the Fiscal 2006 Plan and the Vincor Plan, the Company recorded (i) \$12.0 million of accelerated depreciation and \$10.1 million of inventory write-downs, (ii) \$7.4 million of intangible asset impairments and (iii) \$2.2 million of other costs which were recorded in the cost of product sold line, impairment of goodwill and intangible assets line and selling, general and administrative expenses line, respectively, within the Company's Consolidated Statements of Operations. The Company recorded \$32.5 million of restructuring and related charges for Fiscal 2007 associated primarily with the Company's Fiscal 2007 Wine Plan and Fiscal 2006 Plan.

For Fiscal 2009, the Company expects to incur total restructuring and related charges of \$16.7 million associated primarily with the Fiscal 2008 Plan and the Fiscal 2006 Plan. In addition, with respect to the Fiscal 2008 Plan, Fiscal 2007 Wine Plan and the Vincor Plan, the Company expects to incur \$14.7 million and \$8.1 million of charges in selling, general and administrative expenses and cost of product sold, respectively, related primarily to duplicative facility costs in the U.K. and accelerated depreciation, respectively.

Table of Contents***Operating (Loss) Income***

The following table sets forth the operating (loss) income (in millions of dollars) by operating segment of the Company for Fiscal 2008 and Fiscal 2007.

	Fiscal 2008 Compared to Fiscal 2007 Operating (Loss) Income		
	2008	2007	% Increase (Decrease)
Constellation Wines	\$ 558.4	\$ 629.9	(11)%
Constellation Spirits	72.0	65.5	10%
Constellation Beers		208.1	(100)%
Corporate Operations and Other	(85.5)	(60.9)	40%
Crown Imports	509.0	78.4	NM
Consolidations and eliminations	(509.0)	(78.4)	NM
Total Reportable Segments	544.9	842.6	(35)%
Acquisition-Related Integration Costs, Restructuring and Related Charges and Unusual Costs	(901.6)	(143.6)	528%
Consolidated Operating (Loss) Income	\$ (356.7)	\$ 699.0	(151)%

As a result of the factors discussed above, consolidated operating (loss) income decreased to an operating loss of \$356.7 million for Fiscal 2008 from operating income of \$699.0 million for Fiscal 2007, a decrease of \$1,055.7 million, or (151%). Acquisition-related integration costs, restructuring and related charges and unusual costs of \$901.6 million for Fiscal 2008 consist of certain costs that are excluded by management in their evaluation of the results of each operating segment. These costs represent impairment losses of goodwill and intangible assets primarily associated with the Company's Australian and U.K. businesses of \$812.2 million; other costs associated primarily with the sale of the Company's Almaden and Inglenook wine brands and certain other assets of \$35.3 million; accelerated depreciation associated primarily with the Fiscal 2007 Wine Plan and Fiscal 2008 Plan of \$12.0 million; acquisition-related integration costs and inventory write-offs associated primarily with the Vincor Plan and Fiscal 2008 Plan of \$11.8 million and \$10.1 million; the flow through of inventory step-up associated primarily with the Company's Vincor Acquisition and BWE Acquisition of \$11.4 million; restructuring and related charges associated primarily with the Fiscal 2008 Plan of \$6.9 million; the loss on the contribution of the U.K. wholesale business of \$6.6 million; and the flow through of adverse grape cost of \$0.1 million associated with the acquisition of The Robert Mondavi Corporation (Robert Mondavi); partially offset by a \$4.8 million realized gain on a prior asset sale. Acquisition-related integration costs, restructuring and related charges and unusual costs of \$143.6 million for Fiscal 2007 represent restructuring and related charges of \$32.5 million associated primarily with the Fiscal 2007 Wine Plan and Fiscal 2006 Plan; the flow through of inventory step-up of \$30.2 million associated primarily with the Company's Vincor Acquisition; acquisition-related integration costs of \$23.6 million associated primarily with the Vincor Plan; other costs of \$16.3 million associated with the Fiscal 2007 Wine Plan and Fiscal 2006 Plan; loss on the sale of the branded bottled water business of \$13.4 million; financing costs of \$11.9 million related primarily to the Company's new senior credit facility entered into in connection with the Vincor Acquisition; foreign currency losses of \$5.4 million on foreign denominated intercompany loan balances associated with the Vincor Acquisition; the flow through of adverse grape cost of \$3.1 million associated with the acquisition of Robert Mondavi; and accelerated depreciation and the write-down of certain inventory of \$6.6 million and \$0.6 million, respectively, associated primarily with the Fiscal 2006 Plan and Fiscal 2007 Wine Plan.

Table of Contents

Equity in Earnings of Equity Method Investees

The Company's equity in earnings of equity method investees increased to \$257.9 million in Fiscal 2008 from \$49.9 million in Fiscal 2007. This increase is primarily due to the January 2, 2007, consummation of the Crown Imports joint venture and the reporting of the results of operations of that joint venture since that date under the equity method of accounting of \$255.1 million.

Gain on Change in Fair Value of Derivative Instrument

In April 2006, the Company entered into a foreign currency forward contract in connection with the Vincor Acquisition to fix the U.S. dollar cost of the acquisition and the payment of certain outstanding indebtedness. For Fiscal 2007, the Company recorded a gain of \$55.1 million in connection with this derivative instrument. Under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended, a transaction that involves a business combination is not eligible for hedge accounting treatment. As such, the gain was recognized separately on the Company's Consolidated Statements of Operations.

Interest Expense, Net

Interest expense, net of interest income of \$5.7 million and \$5.4 million, for Fiscal 2008 and Fiscal 2007, respectively, increased to \$341.8 million for Fiscal 2008 from \$268.7 million for Fiscal 2007, an increase of \$73.1 million, or 27%. The increase resulted primarily from higher average borrowings in Fiscal 2008 as a result of the funding of the Vincor Acquisition, Svedka Acquisition and BWE Acquisition, and the \$500.0 million of share repurchases, partially offset by \$185.6 million of net proceeds from the formation of the U.K. wholesale joint venture.

Provision for Income Taxes

The Company's effective tax rate was (39.2%) for Fiscal 2008 as compared to 38.0% for Fiscal 2007. The change in the Company's effective tax rate for Fiscal 2008 is primarily due to a non-deductible portion of the impairment losses related to goodwill and certain other intangible assets of \$599.9 million and \$177.0 million, respectively. In addition, the Company recorded a valuation allowance against net operating loss carryforwards in Australia of \$51.7 million for Fiscal 2008. In Fiscal 2007, the Company sold its branded bottled water business that resulted in the write-off of \$27.7 million of non-deductible intangible assets, primarily goodwill. The provision for income taxes on the sale of the branded bottled water business increased the Company's effective tax rate for Fiscal 2007.

Net (Loss) Income

As a result of the above factors, net (loss) income decreased to a net loss of \$613.3 million for Fiscal 2008 from net income of \$331.9 million for Fiscal 2007, a decrease of \$945.2 million.

Table of Contents**Fiscal 2007 Compared to Fiscal 2006*****Net Sales***

The following table sets forth the net sales (in millions of dollars) by operating segment of the Company for Fiscal 2007 and Fiscal 2006.

	Fiscal 2007 Compared to Fiscal 2006 Net Sales		
	2007	2006	% Increase
Constellation Wines:			
Branded wine	\$ 2,755.7	\$ 2,263.4	22%
Wholesale and other	1,087.7	972.0	12%
Constellation Wines net sales	3,843.4	3,235.4	19%
Constellation Spirits net sales	329.4	324.6	1%
Constellation Beers net sales	1,043.6	1,043.5	N/A
Crown Imports net sales	368.8		N/A
Consolidations and eliminations	(368.8)		N/A
Consolidated Net Sales	\$ 5,216.4	\$ 4,603.5	13%

Net sales for Fiscal 2007 increased to \$5,216.4 million from \$4,603.5 million for Fiscal 2006, an increase of \$612.9 million, or 13%. This increase was due primarily to \$405.8 million of net sales of products acquired in the Vincor Acquisition, an increase in base branded wine net sales of \$95.7 million (on a constant currency basis) and a favorable foreign currency impact of \$66.2 million.

Constellation Wines

Net sales for Constellation Wines increased to \$3,843.4 million for Fiscal 2007 from \$3,235.4 million in Fiscal 2006, an increase of \$608.0 million, or 19%. Branded wine net sales increased \$492.3 million primarily due to \$379.9 million of net sales of branded wine acquired in the Vincor Acquisition and increased base branded wine net sales for North America (primarily the U.S.) of \$118.9, partially offset by decreased base branded wine net sales for Europe (primarily the U.K.) of \$27.4 million (on a constant currency basis). The increase in base branded wine net sales for the U.S. was driven by both higher average selling prices as the consumer continues to trade up to higher priced premium wines as supported by volume gains in both the premium and super-premium categories as well as volume gains in the wine with fruit category. The decrease in base branded wine net sales for the U.K. was driven primarily by lower pricing due to the highly competitive pricing market for private label and branded wine resulting from the significant oversupply of Australian wine and highly concentrated retail market place. Wholesale and other net sales increased \$115.7 million primarily due to an increase of \$51.0 million (on a constant currency basis) in the Company's U.K. wholesale business as a result of a shift in the mix of sales towards higher priced products, a favorable foreign currency impact of \$48.9 million and \$25.9 million of net sales of non-branded products acquired in the Vincor Acquisition.

Constellation Beers

Net sales for Constellation Beers remained comparable for Fiscal 2007 at \$1,043.6 million from \$1,043.5 million for Fiscal 2006. This is due to the formation of Crown Imports on January 2, 2007, and the accounting for this investment under the equity method of accounting. As such, Fiscal 2007 net sales include only ten months of net sales versus Fiscal 2006 net sales which include twelve months of net sales. However, on a similar year over year period, with ten months of net sales for Fiscal 2006, the Constellation Beers net sales increased 15% primarily due to volume growth in the Company's Mexican beer portfolio from increased retail consumer demand.

Table of Contents

Constellation Spirits

Net sales for Constellation Spirits increased slightly to \$329.4 million for Fiscal 2007 from \$324.6 million for Fiscal 2006, an increase of \$4.8 million, or 1%. This increase resulted primarily from an increase in branded spirits net sales of \$9.9 million partially offset by a decrease in bulk spirits net sales of \$5.1 million.

Gross Profit

The Company's gross profit increased to \$1,523.9 million for Fiscal 2007 from \$1,324.6 million for Fiscal 2006, an increase of \$199.3 million, or 15%. The Constellation Wines segment's gross profit increased \$199.1 million primarily from gross profit of \$166.8 million due to the Vincor Acquisition and the additional gross profit of \$36.8 million associated with the increased base branded wine net sales for North America. These amounts were partially offset by a \$14.7 million decrease in U.K. and Australia gross profit resulting from the increased competition and promotional activities among suppliers in the U.K. and Australia, reflecting, in part, the effects of the oversupply of Australian wine and the retailer consolidation in the U.K., plus a late March 2006 increase in duty costs in the U.K. The Constellation Beers segment's gross profit was comparable with prior year due to ten months of gross profit for Fiscal 2007 versus twelve months for Fiscal 2006. The Constellation Spirits segment's gross profit was down slightly primarily due to increased material costs for spirits. In addition, unusual items, which consist of certain costs that are excluded by management in their evaluation of the results of each operating segment, were lower by \$3.8 million in Fiscal 2007 versus Fiscal 2006. This decrease resulted primarily from decreased flow through of adverse grape cost associated with the acquisition of Robert Mondavi of \$19.9 million and decreased accelerated depreciation of \$6.8 million associated with the Fiscal 2006 Plan and Fiscal 2007 Wine Plan, partially offset by increased flow through of inventory step-up of \$22.3 million associated primarily with the Vincor Acquisition. Gross profit as a percent of net sales increased to 29.2% for Fiscal 2007 from 28.8% for Fiscal 2006 primarily as a result of the factors discussed above.

Table of Contents***Selling, General and Administrative Expenses***

Selling, general and administrative expenses increased to \$768.8 million for Fiscal 2007 from \$612.4 million for Fiscal 2006, an increase of \$156.4 million, or 26%. This increase is due primarily to an increase of \$99.7 million in the Constellation Wines segment and a \$43.5 million increase in unusual costs which consist of certain items that are excluded by management in their evaluation of the results of each operating segment. The increase in the Constellation Wines segment's selling, general and administrative expenses is primarily due to increased advertising expenses of \$28.0 million, selling expenses of \$40.8 million and general and administrative expenses of \$30.9 million resulting primarily from the Vincor Acquisition and the recognition of stock-based compensation expense of \$8.4 million. The Constellation Beers segment's selling, general and administrative expenses increased \$12.1 million primarily due to increased advertising expenses of \$12.1 million and general and administrative expenses of \$2.7 million, partially offset by decreased selling expenses of \$2.5 million and the impact of ten months of selling, general and administrative expenses for Fiscal 2007 compared to twelve months of selling, general and administrative expenses for Fiscal 2006. The Constellation Spirits segment's selling, general and administrative expenses were up slightly primarily due to the recognition of stock-based compensation expense of \$1.5 million. The Corporate Operations and Other segment's selling, general and administrative expenses were down slightly, primarily due to costs recognized in Fiscal 2006 associated with professional service fees incurred in connection with the Company's tender offer for Vincor that expired in December 2005 of \$4.3 million and lower annual management incentive compensation expense in Fiscal 2007, partially offset by the recognition of stock-based compensation expense in Fiscal 2007 of \$4.3 million and expenses associated with the formation of Crown Imports of \$1.5 million. The increase in unusual costs was primarily due to the recognition of (i) \$16.3 million of other costs associated with the Fiscal 2007 Wine Plan (primarily from the write-down of an Australian winery and certain Australian vineyards to fair value less cost to sell) and the Fiscal 2006 Plan, (ii) a \$13.4 million loss on the sale of the Company's branded bottled water business resulting from the write-off of \$27.7 million of non-deductible intangible assets, primarily goodwill, (iii) financing costs of \$11.9 million related primarily to the Company's new senior credit facility entered into in connection with the Vincor Acquisition and (iv) foreign currency losses of \$5.4 million on foreign denominated intercompany loan balances associated with the Vincor Acquisition. Selling, general and administrative expenses as a percent of net sales increased to 14.7% for Fiscal 2007 as compared to 13.3% for Fiscal 2006 primarily due to the increase in unusual costs and the recognition of stock-based compensation expense of \$16.5 million.

Acquisition-Related Integration Costs

Acquisition-related integration costs increased to \$23.6 million for Fiscal 2007 from \$16.8 million for Fiscal 2006, an increase of \$6.8 million, or 40%. Acquisition-related integration costs consisted of costs recorded primarily in connection with the Vincor Plan. Acquisition-related integration costs included \$9.8 million of employee-related costs and \$13.8 million of facilities and other costs. The Company recorded \$16.8 million of acquisition-related integration costs for Fiscal 2006 in connection with the Company's plan to restructure and integrate the operations of Robert Mondavi (the Robert Mondavi Plan).

Table of Contents***Restructuring and Related Charges***

The Company recorded \$32.5 million of restructuring and related charges for Fiscal 2007 associated primarily with the Company's Fiscal 2007 Wine Plan and Fiscal 2006 Plan. Restructuring and related charges included \$5.9 million of employee termination benefit costs (net of reversal of prior accruals of \$2.0 million), \$25.6 million of contract termination costs and \$1.0 million of facility consolidation/relocation costs (net of reversal of prior accruals of \$0.3 million). In addition, in connection with the Fiscal 2007 Wine Plan, the Fiscal 2006 Plan and the Vincor Plan, the Company recorded (i) \$6.6 million of accelerated depreciation and \$0.6 million of inventory write-downs and (ii) \$16.3 million of other costs which were recorded in the cost of product sold line and selling, general and administrative expenses line, respectively, within the Company's Consolidated Statements of Operations. The Company recorded \$29.3 million of restructuring and related charges for Fiscal 2006 associated primarily with the Fiscal 2006 Plan.

Operating Income

The following table sets forth the operating income (loss) (in millions of dollars) by operating segment of the Company for Fiscal 2007 and Fiscal 2006.

	Fiscal 2007 Compared to Fiscal 2006		
	Operating Income (Loss)		%
	2007	2006	Increase (Decrease)
Constellation Wines	\$ 629.9	\$ 530.4	19%
Constellation Spirits	65.5	73.4	(11)%

Consolidated Operating Income	\$ 699.0	\$ 666.1	5%

Table of Contents

As a result of the factors discussed above, consolidated operating income increased to \$699.0 million for Fiscal 2007 from \$666.1 million for Fiscal 2006, an increase of \$32.9 million, or 5%. Acquisition-related integration costs, restructuring and related charges and unusual costs of \$143.6 million for Fiscal 2007 consist of certain costs that are excluded by management in their evaluation of the results of each operating segment. These costs represent restructuring and related charges of \$32.5 million associated primarily with the Fiscal 2007 Wine Plan and Fiscal 2006 Plan; the flow through of inventory step-up of \$30.2 million associated primarily with the Company's Vincor Acquisition; acquisition-related integration costs of \$23.6 million associated primarily with the Vincor Plan; other costs of \$16.3 million associated with the Fiscal 2007 Wine Plan and Fiscal 2006 Plan; loss on the sale of the branded bottled water business of \$13.4 million; financing costs of \$11.9 million related primarily to the Company's new senior credit facility entered into in connection with the Vincor Acquisition; foreign currency losses of \$5.4 million on foreign denominated intercompany loan balances associated with the Vincor Acquisition; the flow through of adverse grape cost of \$3.1 million associated with the acquisition of Robert Mondavi; and accelerated depreciation and the write-down of certain inventory of \$6.6 million and \$0.6 million, respectively, associated primarily with the Fiscal 2006 Plan and Fiscal 2007 Wine Plan. Acquisition-related integration costs, restructuring and related charges and unusual costs of \$93.9 million for Fiscal 2006 represent restructuring and related charges of \$29.3 million associated primarily with the Fiscal 2006 Plan and the Robert Mondavi Plan; the flow through of adverse grape cost, acquisition-related integration costs, and the flow through of inventory step-up associated primarily with the Company's acquisition of Robert Mondavi of \$23.0 million, \$16.8 million, and \$7.9 million, respectively; accelerated depreciation and other costs of \$13.4 million and \$0.1 million, respectively, associated with the Fiscal 2006 Plan; and costs associated with professional service fees incurred for due diligence in connection with the Company's evaluation of a potential offer for Allied Domecq of \$3.4 million.

Equity in Earnings of Equity Method Investees

The Company's equity in earnings of equity method investees increased to \$49.9 million in Fiscal 2007 from \$0.8 million in Fiscal 2006, an increase of \$49.1 million. This increase is primarily due to (i) the January 2, 2007, consummation of the Crown Imports joint venture and the reporting of the results of operations of that joint venture since that date under the equity method of accounting of \$38.9 million, and (ii) an increase of \$8.1 million associated with the Company's investment in Ruffino S.r.l. (Ruffino) due primarily to the write-down in Fiscal 2006 of certain pre-acquisition Ruffino inventories.

Gain on Change in Fair Value of Derivative Instrument

In April 2006, the Company entered into a foreign currency forward contract in connection with the Vincor Acquisition to fix the U.S. dollar cost of the acquisition and the payment of certain outstanding indebtedness. For Fiscal 2007, the Company recorded a gain of \$55.1 million in connection with this derivative instrument. Under SFAS No. 133, a transaction that involves a business combination is not eligible for hedge accounting treatment. As such, the gain was recognized separately on the Company's Consolidated Statements of Operations.

Interest Expense, Net

Interest expense, net of interest income of \$5.4 million and \$4.2 million for Fiscal 2007 and Fiscal 2006, respectively, increased to \$268.7 million for Fiscal 2007 from \$189.6 million for Fiscal 2006, an increase of \$79.1 million, or 41.7%. The increase resulted from both higher average borrowings in Fiscal 2007 (primarily as a result of the financing of the Vincor Acquisition) and higher average interest rates.

Table of Contents

Provision for Income Taxes

The Company's effective tax rate increased to 38.0% for Fiscal 2007 from 31.8% for Fiscal 2006, an increase of 6.2%. In Fiscal 2007, the Company sold its branded bottled water business that resulted in the write-off of \$27.7 million of non-deductible intangible assets, primarily goodwill. The provision for income taxes on the sale of the branded bottled water business increased the Company's effective tax rate for Fiscal 2007. In addition, the effective tax rate for Fiscal 2006 reflected the benefits recorded for adjustments to income tax accruals of \$16.2 million in connection with the completion of various income tax examinations as well as the preliminary conclusion regarding the impact of the American Jobs Creation Act of 2004 on planned distributions of certain foreign earnings.

Net Income

As a result of the above factors, net income increased to \$331.9 million for Fiscal 2007 from \$325.3 million for Fiscal 2006, an increase of \$6.6 million, or 2%.

Financial Liquidity and Capital Resources

The Company's principal use of cash in its operating activities is for purchasing and carrying inventories and carrying seasonal accounts receivable. The Company's primary source of liquidity has historically been cash flow from operations, except during annual grape harvests when the Company has relied on short-term borrowings. In the U.S. and Canada, the annual grape crush normally begins in August and runs through October. In Australia and New Zealand, the annual grape crush normally begins in February and runs through May. The Company generally begins taking delivery of grapes at the beginning of the crush season with payments for such grapes beginning to come due one month later. The Company's short-term borrowings to support such purchases generally reach their highest levels one to two months after the crush season has ended. Historically, the Company has used cash flow from operating activities to repay its short-term borrowings and fund capital expenditures. The Company will continue to use its short-term borrowings to support its working capital requirements. The Company believes that cash provided by operating activities and its financing activities, primarily short-term borrowings, will provide adequate resources to satisfy its working capital, scheduled principal and interest payments on debt, and anticipated capital expenditure requirements for both its short-term and long-term capital needs.

Table of Contents**Fiscal 2008 Cash Flows*****Operating Activities***

Net cash provided by operating activities for Fiscal 2008 was \$519.8 million, which resulted primarily from a net loss of \$613.3 million and net payments of \$32.1 million associated with the change in operating assets and liabilities (net of effects from purchases and sales of businesses), partially offset by \$1,165.2 million of net non-cash items charged to the Company's Consolidated Statements of Operations. The net change in operating assets and liabilities was primarily driven by a \$37.8 million increase in inventories and \$29.2 million of other items, partially offset by a decrease in accounts receivable, net, of \$56.2 million. The increase in inventories was due primarily to a delay in the release of the Canadian icewine vintage and an increase in U.S. wine inventory balances as a result of the Company's program to reduce distributor wine inventory levels. The other items consist primarily of \$24.7 million of losses on cash settlement of derivative instruments designed to economically hedge foreign currency risk associated with foreign currency denominated intercompany balances. These losses offset non-cash gains in the Company's Consolidated Statements of Operations associated with the foreign currency denominated intercompany balances. The decrease in accounts receivable, net, is due to lower U.S. sales in the fourth quarter of fiscal 2008 in connection with the Company's program to reduce distributor wine inventory levels and collection of accounts receivable balances acquired in the BWE Acquisition, partially offset by increased U.K. accounts receivable in connection with sales to Matthew Clark. The net non-cash items consisted primarily of impairment losses of goodwill and intangible assets, depreciation of property, plant and equipment and deferred tax provision.

Investing Activities

Net cash used in investing activities for Fiscal 2008 was \$1,112.9 million, which resulted primarily from the use of \$1,274.1 million, net of cash acquired, for the Svedka Acquisition and BWE Acquisition, and \$143.8 million of capital expenditures, partially offset by \$185.6 million of net proceeds from the formation of the U.K. wholesale joint venture and \$133.7 million from the sale of the Company's Almaden and Inglenook wine brands and certain other assets.

Financing Activities

Net cash provided by financing activities for Fiscal 2008 was \$584.9 million resulting primarily from proceeds from issuance of long-term debt of \$1,212.9 million and from notes payable of \$219.4 million, partially offset by purchases of treasury stock of \$500.0 million and principal payments of long-term debt of \$374.9 million.

Fiscal 2007 Cash Flows***Operating Activities***

Net cash provided by operating activities for Fiscal 2007 was \$313.2 million, which resulted from \$331.9 million of net income, plus \$199.8 million of net non-cash items charged to the Company's Consolidated Statements of Operations, less \$163.4 million representing the net change in the Company's operating assets and liabilities and \$55.1 million of proceeds from maturity of derivative instrument reflected in investing activities.

Table of Contents

The net non-cash items consisted primarily of depreciation of property, plant and equipment, the deferred tax provision and equity in earnings of equity method investments. The net change in operating assets and liabilities resulted primarily from a decrease in other accrued expenses and liabilities of \$157.2 million and an increase in inventories of \$85.1 million, partially offset by a decrease in prepaid expenses and other current assets of \$44.3 million. The decrease in other accrued expenses and liabilities is primarily due to the settlement of an outstanding marketing accrual in connection with the Company's prior Mexican beers distribution agreement, settlement of restructuring accruals, increased income tax payments, and payments of non-recurring liabilities assumed in connection with the Vincor Acquisition. The increase in inventories was primarily due to the build-up of the imported beer inventories prior to the Company's contribution of the beer business to Crown Imports. As Crown Imports began selling and importing in the 50 states of the United States of America, the District of Columbia and Guam on January 2, 2007, it was necessary to increase inventory levels in order to ensure there were adequate inventory levels to support the additional territories. The decrease in prepaid expenses and other current assets is primarily due to a decrease in prepaid marketing expense due to the settlement of the outstanding marketing accrual in connection with the Company's prior Mexican beers distribution agreement noted above.

Investing Activities

Net cash used in investing activities for Fiscal 2007 was \$1,197.1 million, which resulted primarily from \$1,093.7 million for the purchase of a business and \$192.0 million of capital expenditures, partially offset by \$55.1 million of proceeds from maturity of derivative instrument entered into to fix the U.S. dollar cost of the Vincor Acquisition.

Financing Activities

Net cash provided by financing activities for Fiscal 2007 was \$925.2 million resulting primarily from proceeds from issuance of long-term debt of \$3,705.4 million, net proceeds of \$63.4 million from the exercise of employee stock options and net proceeds of \$47.1 million from notes payable partially offset by principal payments of long-term debt of \$2,786.9 million and purchases of treasury stock of \$100.0 million.

Share Repurchase Programs

During February 2006, the Company's Board of Directors replenished a June 1998 Board of Directors authorization to repurchase up to \$100.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock. During Fiscal 2007, the Company repurchased 3,894,978 shares of Class A Common Stock at an aggregate cost of \$100.0 million, or at an average cost of \$25.67 per share. The Company used revolver borrowings under the June 2006 Credit Agreement to pay the purchase price for these shares. No shares were repurchased during Fiscal 2006. During February 2007, the Company's Board of Directors authorized the repurchase of up to \$500.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock. During Fiscal 2008, the Company repurchased 21,332,468 shares of Class A Common Stock pursuant to this authorization at an aggregate cost of \$500.0 million, or an average cost of \$23.44 per share, through a combination of open market transactions and an accelerated share repurchase (ASR) transaction that was announced in May 2007. The repurchased shares include 933,206 shares of Class A Common Stock that were received by the Company in July 2007 in connection with the early termination of the calculation period for the ASR transaction by the counterparty to the ASR transaction. The Company used revolver borrowings under the 2006 Credit Agreement to pay the purchase price for the repurchased shares. The repurchased shares have become treasury shares.

Table of Contents**Debt**

Total debt outstanding as of February 29, 2008, amounted to \$5,257.5 million, an increase of \$1,072.0 million from February 28, 2007. The ratio of total debt to total capitalization increased to 65.5% as of February 29, 2008, from 55.1% as of February 28, 2007, primarily as a result of the additional borrowings to finance the Svedka Acquisition and the BWE Acquisition, the \$500.0 million of share repurchases and the impairment losses of goodwill and intangible assets of \$812.2 million.

Senior Credit Facility***2006 Credit Agreement***

In connection with the Vincor Acquisition, on June 5, 2006, the Company and certain of its U.S. subsidiaries, JPMorgan Chase Bank, N.A. as a lender and administrative agent, and certain other agents, lenders, and financial institutions entered into a new credit agreement (the June 2006 Credit Agreement). On February 23, 2007, and on November 19, 2007, the June 2006 Credit Agreement was amended (collectively, the 2007 Amendments). The June 2006 Credit Agreement together with the 2007 Amendments is referred to as the 2006 Credit Agreement. The 2006 Credit Agreement provides for aggregate credit facilities of \$3.9 billion, consisting of a \$1.2 billion tranche A term loan facility due in June 2011, a \$1.8 billion tranche B term loan facility due in June 2013, and a \$900 million revolving credit facility (including a sub-facility for letters of credit of up to \$200 million) which terminates in June 2011. Proceeds of the June 2006 Credit Agreement were used to pay off the Company's obligations under its prior senior credit facility, to fund the Vincor Acquisition and to repay certain indebtedness of Vincor. The Company uses its revolving credit facility under the 2006 Credit Agreement for general corporate purposes, including working capital, on an as needed basis.

As of February 29, 2008, the required principal repayments of the tranche A term loan and the tranche B term loan for each of the five succeeding fiscal years and thereafter are as follows:

	Tranche A Term Loan	Tranche B Term Loan	Total
<i>(in millions)</i>			
2009	\$ 210.0	\$ 2.0	\$ 212.0
2010	270.0	4.0	274.0
2011	300.0	4.0	304.0
2012	150.0	4.0	154.0
2013		1,426.0	1,426.0
	\$ 930.0	\$ 1,440.0	\$ 2,370.0

The rate of interest on borrowings under the 2006 Credit Agreement is a function of LIBOR plus a margin, the federal funds rate plus a margin, or the prime rate plus a margin. The margin is fixed with respect to the tranche B term loan facility and is adjustable based upon the Company's debt ratio (as defined in the 2006 Credit Agreement) with respect to the tranche A term loan facility and the revolving credit facility. As of February 29, 2008, the LIBOR margin for the revolving credit facility and the tranche A term loan facility is 1.25%, while the LIBOR margin on the tranche B term loan facility is 1.50%.

The February 23, 2007, amendment amended the June 2006 Credit Agreement to, among other things, (i) increase the revolving credit facility from \$500.0 million to \$900.0 million, which increased the aggregate credit facilities from \$3.5 billion to \$3.9 billion; (ii) increase the aggregate amount of cash payments the Company is permitted to make in respect or on account of its capital stock; (iii) remove certain limitations on the incurrence of senior unsecured indebtedness and the application of proceeds thereof; (iv) increase the maximum permitted total Debt Ratio and decrease the required minimum Interest Coverage Ratio; and (v) eliminate the Senior Debt Ratio covenant and the Fixed Charges Ratio covenant. The November 19, 2007, amendment clarified certain provisions governing the incurrence of senior unsecured indebtedness and the application of proceeds thereof under the June 2006 Credit Agreement, as previously amended.

The Company's obligations are guaranteed by certain of its U.S. subsidiaries. These obligations are also secured by a pledge of (i) 100% of the ownership interests in certain of the Company's U.S. subsidiaries and (ii) 65% of the voting capital stock of certain of the Company's foreign subsidiaries.

The Company and its subsidiaries are also subject to covenants that are contained in the 2006 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, disposition or acquisition of property, the payment of dividends, transactions with affiliates and the making of certain investments, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to maximum total debt coverage ratios and minimum interest coverage ratios.

As of February 29, 2008, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$930.0 million bearing an interest rate of 5.7%, tranche B term loans of \$1,440.0 million bearing an interest rate of 6.6%, revolving loans of \$308.0 million bearing an interest rate of 4.4%, outstanding letters of credit of \$35.8 million, and \$556.2 million in revolving loans available to be drawn.

As of April 25, 2008, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$885.0 million bearing an interest rate of 4.9%, tranche B term loans of \$1,440.0 million bearing an interest rate of 4.9%, revolving loans of \$354.0 million bearing an interest rate of 4.0%, outstanding letters of credit of \$37.1 million, and \$508.9 million in revolving loans available to be drawn.

In March 2005, the Company replaced its then outstanding five year interest rate swap agreements with new five year delayed start interest rate swap agreements effective March 1, 2006, which are outstanding as of February 29, 2008. These delayed start interest rate swap agreements extended the original hedged period through fiscal 2010. The swap agreements fixed LIBOR interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt at an average rate of 4.1% over the five year term. The Company received \$30.3 million in proceeds from the unwinding of the original swaps. This amount will be reclassified from Accumulated Other Comprehensive Income (AOCI) ratably into earnings in the same period in which the original hedged item is recorded in the Consolidated Statements of Operations. For Fiscal 2008 and Fiscal 2007, the Company reclassified \$7.1 million and \$5.9 million, net of income tax effect, respectively, from AOCI to interest expense, net on the Company's Consolidated Statement of Operations. This non-cash operating activity is included in the other, net line in the Company's Consolidated Statements of Cash Flows.

Senior Notes

In August 1999, the Company issued \$200.0 million aggregate principal amount of 8 5/8% Senior Notes due August 2006 (the August 1999 Senior Notes). On August 1, 2006, the Company repaid the August 1999 Senior Notes with proceeds from its revolving credit facility under the June 2006 Credit Agreement.

In February 2001, the Company issued \$200.0 million aggregate principal amount of 8% Senior Notes due February 2008 (the February 2001 Senior Notes). On February 15, 2008, the Company repaid the February 2001 Senior Notes with proceeds from its revolving credit facility under the 2006 Credit Agreement.

As of February 29, 2008, the Company had outstanding £1.0 million (\$2.0 million) aggregate principal amount of 8 1/2% Series B Senior Notes due November 2009 (the Sterling Series B Senior Notes). In addition, as of February 29, 2008, the Company had outstanding £154.0 million (\$306.1 million, net of \$0.2 million unamortized discount) aggregate principal amount of 8 1/2% Series C Senior Notes due November 2009 (the Sterling Series C Senior Notes). The Sterling Series B Senior Notes and Sterling Series C Senior Notes are currently redeemable, in whole or in part, at the option of the Company.

On August 15, 2006, the Company issued \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due September 2016 at an issuance price of \$693.1 million (net of \$6.9 million unamortized discount, with an effective interest rate of 7.4%) (the August 2006 Senior Notes). The net proceeds of the offering (\$685.6 million) were used to reduce a corresponding amount of borrowings under the Company's June 2006 Credit Agreement. The August 2006 Senior Notes are redeemable, in whole or in part, at the option of the Company at any time at a redemption price equal to 100% of the outstanding principal amount and a make whole payment based on the present value of the future payments at the adjusted Treasury Rate plus 50 basis points. As of February 29, 2008, the Company had outstanding \$693.9 million (net of \$6.1 million unamortized discount) aggregate principal amount of August 2006 Senior Notes.

On May 14, 2007, the Company issued \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due May 2017 (the Original May 2007 Senior Notes). The net proceeds of the offering (\$693.9 million) were used to reduce a corresponding amount of borrowings under the revolving portion of the Company's 2006 Credit Agreement. The Original May 2007 Senior Notes are redeemable, in whole or in part, at the option of the Company at any time at a redemption price equal to 100% of the outstanding principal amount, plus accrued and unpaid interest to the redemption date, plus a make whole payment based on the present value of the future payments at the applicable Treasury Rate plus 50 basis points. In January 2008, the Company exchanged \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due May 2017 (the May 2007 Senior Notes) for all of the Original May 2007 Senior Notes. The terms of the May 2007 Senior Notes are substantially identical in all material respects to the Original May 2007 Senior Notes, except that the May 2007 Senior Notes are registered under the Securities Act of 1933, as amended. As of February 29, 2008, the Company had outstanding \$700.0 million aggregate principal amount of May 2007 Senior Notes.

Table of Contents

On December 5, 2007, the Company issued \$500.0 million aggregate principal amount of 8 3/8% Senior Notes due December 2014 at an issuance price of \$496.7 million (net of \$3.3 million unamortized discount, with an effective interest rate of 8.5%) (the December 2007 Senior Notes). The net proceeds of the offering (\$492.2 million) were used to fund a portion of the purchase price of BWE. The December 2007 Senior Notes are redeemable, in whole or in part, at the option of the Company at any time at a redemption price equal to 100% of the outstanding principal amount, plus a make whole payment based on the present value of the remaining scheduled payments of principal and interest on the notes at a discount rate equal to the Treasury Rate plus 50 basis points. As of February 29, 2008, the Company had outstanding \$496.8 million (net of \$3.2 million unamortized discount) aggregate principal amount of December 2007 Senior Notes.

Senior Subordinated Notes

As of February 29, 2008, the Company had outstanding \$250.0 million aggregate principal amount of 8 1/8% Senior Subordinated Notes due January 2012 (the January 2002 Senior Subordinated Notes). The January 2002 Senior Subordinated Notes are currently redeemable, in whole or in part, at the option of the Company.

Subsidiary Credit Facilities

In addition to the above arrangements, the Company has additional credit arrangements totaling \$397.0 million as of February 29, 2008. These arrangements primarily support the financing needs of the Company's domestic and foreign subsidiary operations. Interest rates and other terms of these borrowings vary from country to country, depending on local market conditions. As of February 29, 2008, amounts outstanding under these arrangements were \$130.7 million.

Contractual Obligations and Commitments

The following table sets forth information about the Company's long-term contractual obligations outstanding at February 29, 2008. It brings together data for easy reference from the consolidated balance sheet and from individual notes to the Company's consolidated financial statements. See Notes 8, 9, 10, 11, 12, and 13 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K for detailed discussion of items noted in the following table.

Table of Contents

- (1) Interest payments on notes payable to banks include interest on both revolving loans under the Company's senior credit facility and on foreign subsidiary facilities. The weighted average interest rate on the revolving loans under the Company's senior credit facility was 4.4% as of February 29, 2008. Interest rates on foreign subsidiary facilities range from 1.9% to 8.7% as of February 29, 2008.
- (2) Interest rates on long-term debt obligations range from 4.4% to 8.5%. Interest payments on long-term debt obligations include amounts associated with the Company's outstanding interest rate swap agreements to fix LIBOR interest rates on \$1,200.0 million of the Company's

floating LIBOR rate debt. Interest payments on long-term debt do not include interest related to capital lease obligations or certain foreign credit arrangements, which represent approximately 1.2% of the Company's total long-term debt, as amounts are not material.

- (3) Other long-term liabilities include \$25.9 million associated with expected payments for unrecognized tax benefit liabilities as of February 29, 2008, including \$5.5 million in the less than one year period. The payments are reflected in the period in which the Company believes they will ultimately be settled based on the Company's experience in these matters. Other long-term liabilities do not include payments for unrecognized tax benefit liabilities of \$105.2 million

due to the uncertainty of the timing of future cash flows associated with these unrecognized tax benefit liabilities. In addition, other long-term liabilities do not include expected payments for interest and penalties associated with unrecognized tax benefit liabilities as amounts are not material. See Note 10 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K for a detailed discussion of these items.

- (4) Total unconditional purchase obligations consist of \$17.3 million for contracts to purchase various spirits over the next four fiscal years, \$3,071.7 million for contracts to purchase grapes over the next seventeen fiscal years,

\$62.2 million for contracts to purchase bulk wine over the next five fiscal years and \$30.8 million for processing contracts over the next four fiscal years. See Note 13 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K for a detailed discussion of these items.

Capital Expenditures

During Fiscal 2008, the Company incurred \$143.8 million for capital expenditures. The Company plans to spend from \$150 million to \$170 million for capital expenditures in Fiscal 2009. In addition, the Company continues to consider the purchase, lease and development of vineyards and may incur additional expenditures for vineyards if opportunities become available. See Business Sources and Availability of Raw Materials under Item 1 of this Annual Report on Form 10-K. Management reviews the capital expenditure program periodically and modifies it as required to meet current business needs.

Effects of Inflation and Changing Prices

The Company's results of operations and financial condition have not been significantly affected by inflation and changing prices. The Company has been able, subject to normal competitive conditions, to pass along rising costs through increased selling prices and identifying on-going cost savings initiatives. There can be no assurances, however, that the Company will continue to be able to pass along rising costs through increased selling prices.

Table of Contents**Critical Accounting Policies**

The Company's significant accounting policies are more fully described in Note 1 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K. However, certain of the Company's accounting policies are particularly important to the portrayal of the Company's financial position and results of operations and require the application of significant judgment by the Company's management; as a result they are subject to an inherent degree of uncertainty. In applying those policies, the Company's management uses its judgment to determine the appropriate assumptions to be used in the determination of certain estimates. Those estimates are based on the Company's historical experience, the Company's observance of trends in the industry, information provided by the Company's customers and information available from other outside sources, as appropriate. On an ongoing basis, the Company reviews its estimates to ensure that they appropriately reflect changes in the Company's business. The Company's critical accounting policies include:

Accounting for promotional activities. Sales reflect reductions attributable to consideration given to customers in various customer incentive programs, including pricing discounts on single transactions, volume discounts, promotional and advertising allowances, coupons, and rebates. Certain customer incentive programs require management to estimate the cost of those programs. The accrued liability for these programs is determined through analysis of programs offered, historical trends, expectations regarding customer and consumer participation, sales and payment trends, and experience with payment patterns associated with similar programs that had been previously offered. If assumptions included in the Company's estimates were to change or market conditions were to change, then material incremental reductions to revenue could be required, which would have a material adverse impact on the Company's financial statements. Promotional costs were \$733.7 million, \$635.6 million and \$501.9 million for Fiscal 2008, Fiscal 2007 and Fiscal 2006, respectively. Accrued promotion costs were \$143.9 million and \$150.3 million as of February 29, 2008, and February 28, 2007, respectively.

Inventory valuation. Inventories are stated at the lower of cost or market, cost being determined on the first-in, first-out method. The Company assesses the valuation of its inventories and reduces the carrying value of those inventories that are obsolete or in excess of the Company's forecasted usage to their estimated net realizable value. The Company estimates the net realizable value of such inventories based on analyses and assumptions including, but not limited to, historical usage, future demand and market requirements. Reductions to the carrying value of inventories are recorded in cost of product sold. If the future demand for the Company's products is less favorable than the Company's forecasts, then the value of the inventories may be required to be reduced, which could result in material additional expense to the Company and have a material adverse impact on the Company's financial statements. Inventories were \$2,179.5 million and \$1,948.1 million as of February 29, 2008, and February 28, 2007, respectively.

Table of Contents

Accounting for business combinations. The acquisition of businesses is an important element of the Company's strategy. Under the purchase method, the Company is required to record the net assets acquired at the estimated fair value at the date of acquisition. The determination of the fair value of the assets acquired and liabilities assumed requires the Company to make estimates and assumptions that affect the Company's financial statements. For example, the Company's acquisitions typically result in goodwill and other intangible assets; the value and estimated life of those assets may affect the amount of future period amortization expense for intangible assets with finite lives as well as possible impairment charges that may be incurred. Amortization expense for amortizable intangible assets was \$4.8 million, \$2.8 million and \$1.9 million for Fiscal 2008, Fiscal 2007 and Fiscal 2006, respectively. Amortizable intangible assets were \$68.5 million and \$39.3 million as of February 29, 2008, and February 28, 2007, respectively.

Impairment of goodwill and intangible assets with indefinite lives. Intangible assets with indefinite lives consist primarily of trademarks as well as agency relationships. The Company is required to analyze its goodwill and other intangible assets with indefinite lives for impairment on an annual basis as well as when events and circumstances indicate that an impairment may have occurred. Certain factors that may occur and indicate that an impairment exists include, but are not limited to, operating results that are lower than expected and adverse industry or market economic trends. The impairment testing requires management to estimate the fair value of the assets or reporting unit and record an impairment loss for the excess of the carrying value over the fair value. The estimate of fair value of the assets is generally determined on the basis of discounted future cash flows. The estimate of fair value of the reporting unit is generally determined on the basis of discounted future cash flows supplemented by the market approach. In estimating the fair value, management must make assumptions and projections regarding such items as future cash flows, future revenues, future earnings and other factors. The assumptions used in the estimate of fair value are generally consistent with the past performance of each reporting unit and other intangible assets and are also consistent with the projections and assumptions that are used in current operating plans. Such assumptions are subject to change as a result of changing economic and competitive conditions. If these estimates or their related assumptions change in the future, the Company may be required to record an impairment loss for these assets. The recording of any resulting impairment loss could have a material adverse impact on the Company's financial statements. The most significant assumptions used in the discounted future cash flows calculation to determine the fair value of the Company's reporting units and the fair value of intangible assets with indefinite lives in connection with impairment testing are: (i) the discount rate, (ii) the expected long-term growth rate and (iii) the annual cash flow projections.

If the Company used a discount rate that was 50 basis points higher or used an expected long-term growth rate that was 50 basis points lower or used annual cash flow projections that were 100 basis points lower in its impairment testing of goodwill, then the changes individually, for only the discount rate and the expected long-term growth rate, would have resulted in the carrying value of the net assets of two of the reporting units, including their goodwill, exceeding their fair value, which would indicate the potential for impairment and the requirement to measure the amount of impairment, if any. If the Company used a discount rate that was 50 basis points higher or used an expected long-term growth rate that was 50 basis points lower or used annual cash flow projections that were 100 basis points lower in its impairment testing of intangible assets with indefinite lives, then each change individually would not have resulted in any unit of accounting's carrying value exceeding its fair value. For this sensitivity analysis, the Company excluded reporting units and units of accounting acquired during Fiscal 2008.

Table of Contents

In the fourth quarter of fiscal 2008, pursuant to the Company's accounting policy, the Company performed its annual goodwill impairment analysis. As a result of this analysis, the Company concluded that the carrying amounts of goodwill assigned to the Constellation Wines segment's Australian and U.K. reporting units exceeded their implied fair values and recorded impairment losses of \$599.9 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statement of Operations. No impairment losses were recorded for Fiscal 2007 and Fiscal 2006. Goodwill was \$3,123.9 million and \$3,083.9 million as of February 29, 2008, and February 28, 2007, respectively.

In addition, during the fourth quarter of fiscal 2008, the Company performed its review of indefinite lived intangible assets for impairment. The Company determined that certain intangible assets associated with the Constellation Wines segment, primarily trademarks, were impaired. Accordingly, the Company recorded additional impairment losses of \$204.9 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statement of Operations. The Company recorded an immaterial impairment loss for Fiscal 2007 for intangible assets with indefinite lives associated with assets held-for-sale. No impairment loss for intangible assets with indefinite lives was recorded in Fiscal 2006. Intangible assets with indefinite lives were \$1,121.5 million and \$1,096.1 million as of February 29, 2008, and February 28, 2007, respectively.

Accounting for Stock-Based Compensation. The Company adopted the fair value recognition provisions of SFAS No. 123(R) using the modified prospective transition method on March 1, 2006. Under the fair value recognition provisions of SFAS No. 123(R), stock-based compensation cost is calculated at the grant date based on the fair value of the award and is recognized as expense, net of estimated pre-vesting forfeitures, ratably over the vesting period of the award. In addition, SFAS No. 123(R) requires additional accounting related to the income tax effects and disclosure regarding the cash flow effects resulting from stock-based payment arrangements. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107, which provided supplemental implementation guidance for SFAS No. 123(R). The Company selected the Black-Scholes option-pricing model as the most appropriate fair value method for its awards granted after March 1, 2006. The calculation of fair value of stock-based awards requires the input of assumptions, including the expected term of the stock-based awards and the associated stock price volatility. The assumptions used in calculating the fair value of stock-based awards represent the Company's best estimates, but these estimates involve inherent uncertainties and the application of management judgment. As a result, if factors change and the Company uses different assumptions, then stock-based compensation expense could be materially different in the future. If the Company used an expected term for its stock-based awards that was one year longer, the fair value of stock-based awards granted during Fiscal 2008 and Fiscal 2007 would have increased by \$14.2 million, resulting in an increase of \$3.0 million of stock-based compensation expense for Fiscal 2008. If the Company used an expected term of the stock-based awards that was one year shorter, the fair value of the stock-based awards granted during Fiscal 2008 and Fiscal 2007 would have decreased by \$17.5 million, resulting in a decrease of \$3.1 million of stock-based compensation expense for Fiscal 2008. The total amount of stock-based compensation recognized under SFAS No. 123(R) for Fiscal 2008 was \$33.6 million, of which \$30.4 million was expensed for Fiscal 2008 and \$3.2 million was capitalized in inventory as of February 29, 2008. The total amount of stock-based compensation recognized under SFAS No. 123(R) for Fiscal 2007 was \$18.1 million, of which \$16.5 million was expensed for Fiscal 2007 and \$1.6 million was capitalized in inventory as of February 28, 2007.

Accounting Pronouncements Not Yet Adopted

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 (SFAS No. 157), Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing the asset or liability. The Company is required to adopt SFAS No. 157 for fiscal years and interim periods beginning March 1, 2008. The adoption of SFAS No. 157 on March 1, 2008, did not have a material impact on the Company's consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158 (SFAS No. 158), Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires companies to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The Company adopted this provision of SFAS No. 158 and provided the required disclosures as of February 28, 2007. SFAS No. 158 also requires companies to measure the funded status of a plan as of the date of the company's fiscal year-end (with limited exceptions), which provision the Company is required to adopt as of February 28, 2009. The Company uses a December 31 measurement date for its defined benefit pension and other post-retirement plans and has elected to transition to a fiscal year-end measurement date utilizing the second alternative prescribed by SFAS No. 158. Accordingly, on March 1, 2008, the Company recognized adjustments to its opening retained earnings, accumulated other comprehensive income, net of income tax effect, and pension and other post-retirement plan assets or liabilities. These adjustments did not have a material impact on the Company's consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159 (SFAS No. 159), The Fair Value Option for Financial Assets and Financial Liabilities—Including an Amendment of FASB Statement No. 115. SFAS No. 159 permits companies to choose to measure many financial instruments and certain other items at fair value. Most of the provisions in SFAS No. 159 are elective; however, the amendment to Statement of Financial Accounting Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities, applies to all entities with available-for-sale and trading securities. The fair value option established by SFAS No. 159 allows companies to choose to measure eligible items at fair value at specified election dates. The Company will report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. The fair value option: (i) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (ii) is irrevocable (unless a new election date occurs); and (iii) is applied only to entire instruments and not to portions of instruments. The Company is required to adopt SFAS No. 159 for fiscal years beginning March 1, 2008. The adoption of SFAS No. 159 on March 1, 2008, did not have a material impact on the Company's consolidated financial statements.

Table of Contents

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) (SFAS No. 141(R)), Business Combinations. SFAS No. 141(R), among other things, establishes principles and requirements for how the acquirer in a business combination (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired business, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The Company is required to adopt SFAS No. 141(R) for all business combinations for which the acquisition date is on or after March 1, 2009. Earlier adoption is prohibited.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 (SFAS No. 160), Noncontrolling Interests in Consolidated Financial Statements – An Amendment of ARB No. 51. SFAS No. 160 amends Accounting Research Bulletin No. 51 (ARB No. 51), Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement also amends certain of ARB No. 51's consolidation procedures for consistency with the requirements of SFAS No. 141(R). In addition, SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The Company is required to adopt SFAS No. 160 for fiscal years beginning March 1, 2009. Earlier adoption is prohibited. The Company is currently assessing the financial impact of SFAS No. 160 on its consolidated financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities – An Amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires enhanced disclosures about an entity's derivative and hedging activities to enable investors to better understand their effects on an entity's financial position, financial performance, and cash flows. The Company is required to adopt SFAS No. 161 for its interim period beginning December 1, 2008, with earlier application encouraged. The Company is currently assessing the financial impact of SFAS No. 161 on its consolidated financial statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The Company, as a result of its global operating, acquisition and financing activities, is exposed to market risk associated with changes in foreign currency exchange rates and interest rates. To manage the volatility relating to these risks, the Company periodically purchases and/or sells derivative instruments including foreign currency exchange contracts and interest rate swap agreements. The Company uses derivative instruments solely to reduce the financial impact of these risks and does not use derivative instruments for trading purposes.

Foreign currency derivative contracts are or may be used to hedge existing foreign currency denominated assets and liabilities, forecasted foreign currency denominated sales both to third parties as well as intercompany sales, intercompany principal and interest payments, and in connection with acquisitions or joint venture investments outside the U.S. As of February 29, 2008, the Company had exposures to foreign currency risk primarily related to the Australian dollar, euro, New Zealand dollar, British pound sterling, Canadian dollar and Mexican peso.

Table of Contents

As of February 29, 2008, and February 28, 2007, the Company had outstanding foreign exchange derivative instruments with a notional value of \$2,473.5 million and \$2,383.3 million, respectively. Approximately 70% of the Company's total exposures were hedged as of February 29, 2008. Using a sensitivity analysis based on estimated fair value of open contracts using forward rates, if the contract base currency had been 10% weaker as of February 29, 2008, and February 28, 2007, the fair value of open foreign exchange contracts would have been decreased by \$156.5 million and \$161.8 million, respectively. Losses or gains from the revaluation or settlement of the related underlying positions would substantially offset such gains or losses on the derivative instruments.

The fair value of fixed rate debt is subject to interest rate risk, credit risk and foreign currency risk. The estimated fair value of the Company's total fixed rate debt, including current maturities, was \$2,507.2 million and \$1,589.3 million as of February 29, 2008, and February 28, 2007, respectively. A hypothetical 1% increase from prevailing interest rates as of February 29, 2008, and February 28, 2007, would have resulted in a decrease in fair value of fixed interest rate long-term debt by \$124.7 million and \$69.6 million, respectively.

As of February 29, 2008, and February 28, 2007, the Company had outstanding interest rate swap agreements to minimize interest rate volatility. The swap agreements fix LIBOR interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt at an average rate of 4.1% through fiscal 2010. A hypothetical 1% increase from prevailing interest rates as of February 29, 2008, and February 28, 2007, would have increased the fair value of the interest rate swaps by \$23.6 million and \$36.7 million, respectively.

In addition to the \$2,507.2 million and \$1,589.3 million estimated fair value of fixed rate debt outstanding as of February 29, 2008, and February 28, 2007, respectively, the Company also had variable rate debt outstanding (primarily LIBOR based) as of February 29, 2008, and February 28, 2007, of \$2,749.5 million and \$2,688.7 million, respectively. Using a sensitivity analysis based on a hypothetical 1% increase in prevailing interest rates over a 12-month period, the approximate increase in cash required for interest as of February 29, 2008, and February 28, 2007, is \$27.5 million and \$26.9 million, respectively.

Constellation Brands, Inc.:

We have audited the accompanying consolidated balance sheets of Constellation Brands, Inc. and subsidiaries (the Company) as of February 29, 2008 and February 28, 2007, and the related consolidated statements of operations, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended February 29, 2008. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Constellation Brands, Inc. and subsidiaries as of February 29, 2008 and February 28, 2007, and the results of their operations and their cash flows for each of the years in the three-year period ended February 29, 2008, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2, the Company adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*—an interpretation of FASB Statement No. 109, effective March 1, 2007. As discussed in Note 1, the Company adopted Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*, effective March 1, 2006.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Constellation Brands, Inc.'s internal control over financial reporting as of February 29, 2008, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated April 29, 2008 expressed an unqualified opinion on the effectiveness of Constellation Brands, Inc.'s internal control over financial reporting.

Constellation Brands, Inc.:

We have audited Constellation Brands, Inc.'s (the Company) internal control over financial reporting as of February 29, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Constellation Brands, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Constellation Brands, Inc. maintained, in all material respects, effective internal control over financial reporting as of February 29, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Table of Contents

Management conducted an evaluation of the effectiveness of the system of internal control over financial reporting based on the framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this evaluation, management concluded that the Company's system of internal control over financial reporting was effective as of February 29, 2008. This evaluation excluded the internal control over financial reporting of the Fortune Brands U.S. wine business, which the Company acquired on December 17, 2007. As of February 29, 2008, total assets, net sales and loss before income taxes of the Fortune Brands U.S. wine business not evaluated with respect to the effectiveness of internal control over financial reporting comprised 9.6%, 0.4%, and 1.5% of the consolidated total assets, net sales, and loss before income taxes of the Company. Our audit of internal control over financial reporting of Constellation Brands, Inc. also excluded an evaluation of the internal control over financial reporting of the Fortune Brands U.S. wine business.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Constellation Brands, Inc. and subsidiaries as of February 29, 2008 and February 28, 2007, and the related consolidated statements of operations, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended February 29, 2008, and our report dated April 29, 2008 expressed an unqualified opinion on those consolidated financial statements.

Management's Annual Report on Internal Control Over Financial Reporting

Management of Constellation Brands, Inc. (together with its subsidiaries, the Company) is responsible for establishing and maintaining an adequate system of internal control over financial reporting. This system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements. Because of its inherent limitations, a system of internal control over financial reporting can provide only reasonable assurance and may not prevent or detect misstatements. Further, because of changes in conditions, effectiveness of internal controls over financial reporting may vary over time. Our system contains self-monitoring mechanisms, and actions are taken to correct deficiencies as they are identified.

Management conducted an evaluation of the effectiveness of the system of internal control over financial reporting based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this evaluation, management concluded that the Company's system of internal control over financial reporting was effective as of February 29, 2008. This evaluation excluded the internal control over financial reporting of the Fortune Brands U.S. wine business, which the Company acquired on December 17, 2007. As of February 29, 2008, total assets, net sales and loss before income taxes of the Fortune Brands U.S. wine business not evaluated with respect to the effectiveness of internal control over financial reporting comprised 9.6%, 0.4%, and 1.5% of the consolidated total assets, net sales, and loss before income taxes of the Company.

The effectiveness of the Company's internal control over financial reporting has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report which is included herein.

CONSTELLATION BRANDS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FEBRUARY 29, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Description of business

Constellation Brands, Inc. and its subsidiaries (the Company) operate primarily in the beverage alcohol industry. The Company is a leading international producer and marketer of beverage alcohol with a broad portfolio of brands across the wine, spirits and imported beer categories. The Company has the largest wine business in the world and is the largest multi-category supplier of beverage alcohol in the United States (U.S.); a leading producer and exporter of wine from Australia and New Zealand; the largest producer and marketer of wine in Canada; and a major supplier of beverage alcohol in the United Kingdom (U.K.). In North America, the Company distributes its products through wholesale distributors. In addition, the Company imports, markets and sells the Modelo Brands (as defined in Note 7) and certain other imported beer brands through the Company's joint venture, Crown Imports (as defined in Note 7). In Australia, the Company distributes its products directly to off-premise accounts, such as major retail chains, on-premise accounts, such as hotels and restaurants, and large wholesalers. In the U.K., the Company distributes its products directly to off-premise accounts, such as major retail chains, and to other wholesalers and, through its investment in Matthew Clark (as defined in Note 7), the Company distributes its branded products and those of other major drinks companies to on-premise accounts: pubs, clubs, hotels and restaurants.

Principles of consolidation

The consolidated financial statements of the Company include the accounts of the Company and its majority-owned subsidiaries and entities in which the Company has a controlling financial interest after the elimination of intercompany accounts and transactions. The Company has a controlling financial interest if the Company owns a majority of the outstanding voting common stock or has significant control over an entity through contractual or economic interests in which the Company is the primary beneficiary.

Equity investments

If the Company is not required to consolidate its investment in another company, the Company uses the equity method if the Company can exercise significant influence over the other company. Under the equity method, investments are carried at cost, plus or minus the Company's equity in the increases and decreases in the investee's net assets after the date of acquisition and certain other adjustments. The Company's share of the net income or loss of the investee is included in equity in earnings of equity method investees on the Company's Consolidated Statements of Operations. Dividends received from the investee reduce the carrying amount of the investment. Equity investments are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the investments may not be recoverable. The Company recorded an impairment loss on its investment in Ruffino S.r.l (Ruffino) of \$15.1 million for the year ended February 29, 2008. This impairment loss is included in equity in earnings of equity method investees on the Company's Consolidated Statements of Operations. No instances of impairment were noted on the Company's equity method investments for the years ended February 28, 2007, and February 28, 2006.

Management's use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents*Revenue recognition*

Sales are recognized when title passes to the customer, which is generally when the product is shipped. Amounts billed to customers for shipping and handling are classified as sales. Sales reflect reductions attributable to consideration given to customers in various customer incentive programs, including pricing discounts on single transactions, volume discounts, promotional and advertising allowances, coupons, and rebates.

Cost of product sold

The types of costs included in cost of product sold are raw materials, packaging materials, manufacturing costs, plant administrative support and overheads, and freight and warehouse costs (including distribution network costs). Distribution network costs include inbound freight charges and outbound shipping and handling costs, purchasing and receiving costs, inspection costs, warehousing and internal transfer costs.

Selling, general and administrative expenses

The types of costs included in selling, general and administrative expenses consist predominately of advertising and non-manufacturing administrative and overhead costs. Distribution network costs are not included in the Company's selling, general and administrative expenses, but are included in cost of product sold as described above. The Company expenses advertising costs as incurred, shown or distributed. Prepaid advertising costs at February 29, 2008, and February 28, 2007, were not material. Advertising expense for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, was \$180.4 million, \$182.7 million and \$142.4 million, respectively.

Foreign currency translation

The functional currency of the Company's subsidiaries outside the U.S. is the respective local currency. The translation from the applicable foreign currencies to U.S. dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate for the period. The resulting translation adjustments are recorded as a component of Accumulated Other Comprehensive Income (Loss) (AOCI). Gains or losses resulting from foreign currency denominated transactions are included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations. The Company engages in foreign currency denominated transactions with customers and suppliers, as well as between subsidiaries with different functional currencies. Aggregate foreign currency transaction net (losses) gains were (\$15.3) million, (\$9.9) million and \$5.1 million for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, respectively.

Cash investments

Cash investments consist of highly liquid investments with an original maturity when purchased of three months or less and are stated at cost, which approximates market value. The amounts at February 29, 2008, and February 28, 2007, are not significant.

Allowance for doubtful accounts

The Company records an allowance for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. The majority of the accounts receivable balance is generated from sales to independent distributors with whom the Company has a predetermined collection date arranged through electronic funds transfer. The allowance for doubtful accounts was \$7.6 million and \$14.4 million as of February 29, 2008, and February 28, 2007, respectively.

Table of Contents*Fair value of financial instruments*

To meet the reporting requirements of Statement of Financial Accounting Standards No. 107, Disclosures about Fair Value of Financial Instruments, the Company calculates the fair value of financial instruments using quoted market prices whenever available. When quoted market prices are not available, the Company uses standard pricing models for various types of financial instruments (such as forwards, options, swaps, etc.) which take into account the present value of estimated future cash flows.

The carrying amount and estimated fair value of the Company's financial instruments are summarized as follows:

	February 29, 2008		February 28, 2007	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
<i>(in millions)</i>				
Assets:				
Cash and cash investments	\$ 20.5	\$ 20.5	\$ 33.5	\$ 33.5
Accounts receivable	\$ 731.6	\$ 731.6	\$ 881.0	\$ 881.0
Currency forward contracts	\$ 87.6	\$ 87.6	\$ 27.4	\$ 27.4
Liabilities:				
Notes payable to banks	\$ 379.5	\$ 379.5	\$ 153.3	\$ 153.3
Accounts payable	\$ 349.4	\$ 349.4	\$ 376.1	\$ 376.1
Long-term debt, including current portion	\$4,878.0	\$4,877.2	\$4,032.2	\$4,124.7
Currency forward contracts	\$ 81.3	\$ 81.3	\$ 27.5	\$ 27.5
Interest rate swap contracts	\$ 57.2	\$ 57.2	\$ 0.9	\$ 0.9

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and cash investments, accounts receivable and accounts payable: The carrying amounts approximate fair value due to the short maturity of these instruments.

Currency forward contracts: The fair value is estimated based on quoted market prices.

Interest rate swap contracts: The fair value is estimated based on quoted market prices.

Notes payable to banks: These instruments are variable interest rate bearing notes for which the carrying value approximates the fair value.

Long-term debt: The senior credit facility is subject to variable interest rates which are frequently reset; accordingly, the carrying value of this debt approximates its fair value. The fair value of the remaining long-term debt, which is all fixed rate, is estimated by discounting cash flows using interest rates currently available for debt with similar terms and maturities.

Derivative instruments

As a multinational company, the Company is exposed to market risk from changes in foreign currency exchange rates and interest rates that could affect the Company's results of operations and financial condition. The amount of volatility realized will vary based upon the effectiveness and level of derivative instruments outstanding during a particular period of time, as well as the currency and interest rate market movements during that same period.

Table of Contents

The Company enters into derivative instruments, primarily interest rate swaps and foreign currency forwards, to manage interest rate and foreign currency risks. In accordance with Statement of Financial Accounting Standards No. 133 (SFAS No. 133), Accounting for Derivative Instruments and Hedging Activities, as amended, the Company recognizes all derivatives as either assets or liabilities on the balance sheet and measures those instruments at fair value. The fair values of the Company's derivative instruments change with fluctuations in interest rates and/or currency rates and are expected to offset changes in the values of the underlying exposures. The Company's derivative instruments are held solely to hedge economic exposures. The Company follows strict policies to manage interest rate and foreign currency risks, including prohibitions on derivative market-making or other speculative activities. As of February 29, 2008, and February 28, 2007, the Company had foreign exchange contracts outstanding with a notional value of \$2,473.5 million and \$2,383.3 million, respectively. In addition, as of February 29, 2008, and February 28, 2007, the Company had interest rate swap agreements outstanding with a notional value of \$1,200.0 million (see Note 9).

To qualify for hedge accounting under SFAS No. 133, the details of the hedging relationship must be formally documented at inception of the arrangement, including the risk management objective, hedging strategy, hedged item, specific risk that is being hedged, the derivative instrument, how effectiveness is being assessed and how ineffectiveness will be measured. The derivative must be highly effective in offsetting either changes in the fair value or cash flows, as appropriate, of the risk being hedged. Effectiveness is evaluated on a retrospective and prospective basis based on quantitative measures.

Certain of the Company's derivative instruments do not qualify for SFAS No. 133 hedge accounting treatment; for others, the Company chooses not to maintain the required documentation to apply hedge accounting treatment. These instruments are used to hedge the Company's exposure to fluctuations in the value of foreign currency denominated receivables and payables, foreign currency investments, primarily consisting of loans to subsidiaries, and cash flows related primarily to repatriation of those loans or investments. Forward contracts, generally less than 12 months in duration, are used to hedge some of these risks. The Company's derivative policy permits the use of non-SFAS No. 133 hedging when the hedging instrument is settled within the fiscal quarter or offsets a recognized balance sheet exposure. In these circumstances, the mark to fair value is reported currently through earnings in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Furthermore, when it is determined that a derivative instrument which qualifies for hedge accounting treatment is not, or has ceased to be, highly effective as a hedge, the Company discontinues hedge accounting prospectively. The Company discontinues hedge accounting prospectively when (i) the derivative is no longer highly effective in offsetting changes in the cash flows of a hedged item; (ii) the derivative expires or is sold, terminated, or exercised; (iii) it is no longer probable that the forecasted transaction will occur; or (iv) management determines that designating the derivative as a hedging instrument is no longer appropriate.

Table of Contents*Cash flow hedges:*

The Company is exposed to foreign denominated cash flow fluctuations in connection with sales to third parties, intercompany sales, and intercompany financing arrangements. Foreign currency forward contracts are used to hedge certain of these risks. In addition, the Company utilizes interest rate swaps to manage its exposure to changes in interest rates. Derivatives managing the Company's cash flow exposures generally mature within three years or less, with a maximum maturity of five years. Throughout the term of the designated cash flow hedge relationship, but at least quarterly, a retrospective evaluation and prospective assessment of hedge effectiveness is performed. In the event the relationship is no longer effective, the fair market value of the hedging derivative instrument is recognized immediately in the Company's Consolidated Statements of Operations. In conjunction with its effectiveness testing, the Company also evaluates ineffectiveness associated with the hedge relationship. Resulting ineffectiveness, if any, is recognized immediately in the Company's Consolidated Statements of Operations.

The Company records the fair value of its foreign exchange contracts qualifying for cash flow hedge accounting treatment in its consolidated balance sheet with the related gain or loss on those contracts deferred in stockholders equity (as a component of AOCI). These deferred gains or losses are recognized in the Company's Consolidated Statements of Operations in the same period in which the underlying hedged items are recognized, and on the same line item as the underlying hedged items. However, to the extent that any derivative instrument is not considered to be perfectly effective in offsetting the change in the value of the hedged item, the amount related to the ineffective portion of this derivative instrument is immediately recognized in the Company's Consolidated Statements of Operations in selling, general and administrative expenses.

The Company expects \$8.5 million of losses, net of income tax effect, to be reclassified from AOCI to earnings within the next 12 months. The amount of hedge ineffectiveness associated with the Company's designated cash flow hedge instruments recognized in the Company's Consolidated Statements of Operations for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, was not material. All components of the Company's derivative instruments' gains or losses are included in the assessment of hedge effectiveness. In addition, the amount of net gains reclassified into earnings as a result of the discontinuance of cash flow hedge accounting due to the probability that the original forecasted transaction would not occur by the end of the originally specified time period was not material for the years ended February 29, 2008, February 28, 2007, and February 28, 2006.

Fair value hedges:

Fair value hedges are hedges that offset the risk of changes in the fair values of recorded assets and liabilities, and firm commitments. The Company records changes in fair value of derivative instruments which are designated and deemed effective as fair value hedges, in earnings offset by the corresponding changes in the fair value of the hedged items. The Company did not designate any derivative instruments as fair value hedges for the years ended February 29, 2008, February 28, 2007, and February 28, 2006.

Table of Contents*Net investment hedges:*

Net investment hedges are hedges that use derivative instruments or non-derivative instruments to hedge the foreign currency exposure of a net investment in a foreign operation. The Company manages currency exposures resulting from its net investments in foreign subsidiaries principally with debt denominated in the related foreign currency. Gains and losses on these instruments are recorded as foreign currency translation adjustments in AOCI. Currently, the Company has designated the Sterling Senior Notes and the Sterling Series C Senior Notes (as defined in Note 9) totaling £155.0 million aggregate principal amount as a hedge against the net investment in the Company's U.K. subsidiary. For the years ended February 29, 2008, February 28, 2007, and February 28, 2006, net (losses) gains of (\$3.9) million, (\$32.6) million and \$25.9 million, respectively, are included in foreign currency translation adjustments within AOCI.

Counterparty credit risk:

Counterparty credit risk relates to losses the Company could incur if a counterparty defaults on a derivative contract. The Company manages exposure to counterparty credit risk by requiring specified minimum credit standards and diversification of counterparties. The Company enters into master agreements with its counterparties that allow netting of certain exposures in order to manage this risk. All of the Company's counterparty exposures are with counterparties that have investment grade ratings. The Company has procedures to monitor the credit exposure for both mark to market and future potential exposures.

Inventories

Inventories are stated at the lower of cost (computed in accordance with the first-in, first-out method) or market. Elements of cost include materials, labor and overhead and are classified as follows:

	February 29, 2008	February 28, 2007
<i>(in millions)</i>		
Raw materials and supplies	\$ 115.2	\$ 106.5
In-process inventories	1,392.0	1,264.4
Finished case goods	672.3	577.2
	\$ 2,179.5	\$ 1,948.1

A substantial portion of barreled whiskey and brandy will not be sold within one year because of the duration of the aging process. All barreled whiskey and brandy are classified as in-process inventories and are included in current assets, in accordance with industry practice. Bulk wine inventories are also included as in-process inventories within current assets, in accordance with the general practices of the wine industry, although a portion of such inventories may be aged for periods greater than one year. Warehousing, insurance, ad valorem taxes and other carrying charges applicable to barreled whiskey and brandy held for aging are included in inventory costs.

The Company assesses the valuation of its inventories and reduces the carrying value of those inventories that are obsolete or in excess of the Company's forecasted usage to their estimated net realizable value. The Company estimates the net realizable value of such inventories based on analyses and assumptions including, but not limited to, historical usage, future demand and market requirements. Reductions to the carrying value of inventories are recorded in cost of product sold. If the future demand for the Company's products is less favorable than the Company's forecasts, then the value of the inventories may be required to be reduced, which would result in additional expense to the Company and affect its results of operations.

Table of Contents*Property, plant and equipment*

Property, plant and equipment is stated at cost. Major additions and betterments are charged to property accounts, while maintenance and repairs are charged to operations as incurred. The cost of properties sold or otherwise disposed of and the related accumulated depreciation are eliminated from the accounts at the time of disposal and resulting gains and losses are included as a component of operating income. During the year ended February 29, 2008, the Company changed its policy related to dispensing equipment in the U.K. to be expensed as incurred. In connection with this policy change, the Company recognized an immaterial loss in selling, general and administrative expenses for the year ended February 29, 2008, in connection with the write-off of previously capitalized dispensing equipment in the U.K.

Depreciation

Depreciation is computed primarily using the straight-line method over the following estimated useful lives:

	Depreciable Life in Years
Land improvements	15 to 32
Vineyards	16 to 26
Buildings and improvements	10 to 44
Machinery and equipment	3 to 35
Motor vehicles	3 to 7

Goodwill and other intangible assets

In accordance with Statement of Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets, the Company reviews its goodwill and indefinite lived intangible assets annually for impairment, or sooner, if events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company uses December 31 as its annual impairment test measurement date. Indefinite lived intangible assets consist principally of trademarks. Intangible assets determined to have a finite life, primarily customer relationships, are amortized over their estimated useful lives and are subject to review for impairment in accordance with the provisions of SFAS No. 144 (as defined below). Note 6 provides a summary of intangible assets segregated between amortizable and nonamortizable amounts.

In the fourth quarter of fiscal 2008, pursuant to the Company's accounting policy, the Company performed its annual goodwill impairment analysis. As a result of this analysis, the Company concluded that the carrying amounts of goodwill assigned to the Constellation Wines segment's Australian and U.K. reporting units exceeded their implied fair values and recorded impairment losses of \$599.9 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. The impairment losses were determined by comparing the carrying value of goodwill assigned to specific reporting units within the segment as of December 31, 2007, with the implied fair value of the goodwill. In determining the implied fair value of the goodwill, the Company considered estimates of future operating results and cash flows of each of the reporting units discounted using estimated discount rates. The estimates of future operating results and cash flows were principally derived from the Company's updated long-term financial forecast, which was developed as part of the Company's strategic planning cycle conducted during the Company's fourth quarter. The decline in the implied fair value of the goodwill and resulting impairment losses were primarily driven by the updated long-term financial forecasts, which showed lower estimated future operating results primarily due to changes in market conditions in Australia and the U.K. in the fourth quarter of fiscal 2008. No instances of impairment were noted on the Company's goodwill for the years ended February 28, 2007, and February 28, 2006.

Table of Contents

In addition, during the fourth quarter of fiscal 2008, the Company performed its review of indefinite lived intangible assets for impairment. The Company determined that certain intangible assets associated with the Constellation Wines segment's Australian and U.K. reporting units, primarily trademarks, were impaired primarily due to the revised lower revenue and profit forecasts associated with products incorporating these assets. The Company measured the amount of impairment by calculating the amount by which the carrying value of these assets exceeded their estimated fair values, which were based on projected discounted future net cash flows. As a result of this review, the Company recorded additional impairment losses of \$204.9 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. The Company recorded an immaterial impairment loss for the year ended February 28, 2007, for indefinite lived intangible assets associated with assets held-for-sale. No instances of impairment were noted on the Company's indefinite lived intangible assets for the year ended February 28, 2006.

Other assets

Other assets include the following: (i) investments in equity method investees which are carried under the equity method of accounting (see Note 7); (ii) deferred financing costs which are stated at cost, net of accumulated amortization, and are amortized on an effective interest basis over the term of the related debt; (iii) deferred tax assets which are stated at cost, net of valuation allowances (see Note 10); and (iv) derivative assets which are stated at fair value (see discussion above).

Long-lived assets impairment

In accordance with Statement of Financial Accounting Standards No. 144 (SFAS No. 144), Accounting for the Impairment or Disposal of Long-Lived Assets, the Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its fair value. Assets held for sale are reported at the lower of the carrying amount or fair value less costs to sell and are no longer depreciated. Total assets held for sale as of February 29, 2008, and February 28, 2007, are not material.

Pursuant to this policy, for the year ended February 29, 2008, in connection with the Company's Fiscal 2008 Plan (as defined in Note 19), the Company recorded asset impairment losses of \$7.4 million associated primarily with certain definite lived trademarks of brands to be discontinued. These asset impairment losses are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. For the year ended February 28, 2007, in connection with the Constellation Wines segment's Fiscal 2007 Wine Plan (as defined in Note 19), the Company recorded an asset impairment loss of \$11.8 million in connection with the write-down of certain winery and vineyard assets which satisfied the conditions necessary to be classified as held-for-sale. These assets were written down to a value based on the Company's estimate of fair value less cost to sell. This impairment loss is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations. No instances of impairment were noted on the Company's long-lived assets for the year ended February 28, 2006.

Income taxes

The Company uses the asset and liability method of accounting for income taxes. This method accounts for deferred income taxes by applying statutory rates in effect at the balance sheet date to the difference between the financial reporting and tax bases of assets and liabilities.

Table of Contents*Environmental*

Environmental expenditures that relate to current operations or to an existing condition caused by past operations, and which do not contribute to current or future revenue generation, are expensed. Liabilities for environmental risks or components thereof are recorded when environmental assessments and/or remedial efforts are probable, and the cost can be reasonably estimated. Generally, the timing of these accruals coincides with the completion of a feasibility study or the Company's commitment to a formal plan of action. Liabilities for environmental costs were not material at February 29, 2008, and February 28, 2007.

Earnings per common share

The Company has two classes of outstanding common stock: Class A Common Stock and Class B Convertible Common Stock (see Note 14). With respect to dividend rights, the Class A Common Stock is entitled to cash dividends of at least ten percent higher than those declared and paid on the Class B Convertible Common Stock. Accordingly, the Company uses the two-class method for the computation of earnings per common share—basic and earnings per common share—diluted. The two-class computation method for each period reflects the amount of allocated undistributed earnings per share computed using the participation percentage which reflects the minimum dividend rights of each class of stock. Earnings per common share—basic has been computed using the two-class method. Earnings per common share—diluted for Class A Common Stock has been computed using the more dilutive of the if-converted method or the two-class method. Earnings per common share—diluted for Class B Convertible Common Stock has been computed using the two-class method (see Note 15).

Basic earnings per common share excludes the effect of common stock equivalents and is computed using the two-class computation method. Diluted earnings per common share for Class A Common Stock reflects the potential dilution that could result if securities or other contracts to issue common stock were exercised or converted into common stock. Diluted earnings per common share for Class A Common Stock assumes the exercise of stock options using the treasury stock method and the conversion of Class B Convertible Common Stock and Preferred Stock (as defined in Note 14) using the more dilutive if-converted method. Diluted earnings per common share for Class B Convertible Common Stock is presented without assuming conversion into Class A Common Stock and is computed using the two-class computation method.

Stock-based employee compensation plans

Effective March 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004) (SFAS No. 123(R)), Share-Based Payment, for its four stock-based employee compensation plans, which are described more fully in Note 14. SFAS No. 123(R) replaces Statement of Financial Accounting Standards No. 123 (SFAS No. 123), Accounting for Stock-Based Compensation, and supersedes Accounting Principles Board Opinion No. 25 (APB Opinion No. 25), Accounting for Stock Issued to Employees. SFAS No. 123(R) requires the cost resulting from all share-based payment transactions be recognized in the financial statements. In addition, SFAS No. 123(R) establishes fair value as the measurement objective in accounting for share-based payment arrangements and requires all entities to apply a grant date fair-value-based measurement method in accounting for share-based payment transactions. SFAS No. 123(R) also amends Statement of Financial Accounting Standards No. 95 (SFAS No. 95), Statement of Cash Flows, to require that excess tax benefits be reported as a financing cash inflow rather than as a reduction of taxes paid. SFAS No. 123(R) applies to all awards granted, modified, repurchased, or cancelled by the Company after March 1, 2006. On March 29, 2005, the Securities and Exchange Commission (SEC) staff issued Staff Accounting Bulletin No. 107 (SAB No. 107), Share-Based Payment, to express the views of the staff regarding the interaction between SFAS No. 123(R) and certain SEC rules and regulations and to provide the staff's views regarding the valuation of share-based payment arrangements for public companies. The SAB No. 107 guidance was taken into consideration with the implementation of SFAS No. 123(R).

Table of Contents

Prior to March 1, 2006, the Company applied the intrinsic value method described in Accounting Principles Board Opinion No. 25 (APB No. 25), Accounting for Stock Issued to Employees, and related interpretations in accounting for its stock-based employee compensation plans. In accordance with APB No. 25, the compensation cost for stock options was recognized in income based on the excess, if any, of the quoted market price of the stock at the grant date of the award or other measurement date over the amount an employee must pay to acquire the stock. Options granted under the Company's stock option plans have an exercise price equal to the market value of the underlying common stock on the date of grant; therefore, no incremental compensation expense has been recognized for grants made to employees under the Company's stock option plans. The Company utilized the disclosure-only provisions of Statement of Financial Accounting Standards No. 123 (SFAS No. 123), Accounting for Stock-Based Compensation, as amended.

The following table illustrates the effect on net income and earnings per share for the year ended February 28, 2006, as if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation:

	For the Year Ended February 28, 2006
<i>(in millions, except per share data)</i>	
Net income, as reported	\$ 325.3
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	4.8
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(38.7)
Pro forma net income	\$ 291.4
Earnings per common share basic:	
Class A Common Stock, as reported	\$ 1.44
Class B Convertible Common Stock, as reported	\$ 1.31
Class A Common Stock, pro forma	\$ 1.29
Class B Convertible Common Stock, pro forma	\$ 1.17
Earnings per common share diluted:	
Class A Common Stock, as reported	\$ 1.36
Class B Convertible Common Stock, as reported	\$ 1.25
Class A Common Stock, pro forma	\$ 1.21
Class B Convertible Common Stock, pro forma	\$ 1.11

The Company adopted SFAS No. 123(R) using the modified prospective transition method. Under the modified prospective transition method, the Company is required to record stock-based compensation expense for all awards granted after the adoption date and for the unvested portion of previously granted awards outstanding on the adoption date. Compensation cost related to the unvested portion of previously granted awards is based on the grant-date fair value estimated in accordance with the original provisions of SFAS No. 123. Compensation cost for awards granted after the adoption date is based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123(R). Results for prior periods have not been restated and do not reflect the recognition of stock-based compensation in accordance with the provisions of SFAS No. 123(R).

Table of Contents

Stock-based awards, primarily stock options, granted by the Company are subject to specific vesting conditions, generally time vesting, or upon retirement, disability or death of the employee (as defined by the stock option plan), if earlier. Under APB No. 25, as the exercise price is equal to the market value of the underlying common stock on the date of grant, no compensation expense is recognized for the granting of these stock options. Under the disclosure only provisions of SFAS No. 123, for stock-based awards that specify an employee vests in the award upon retirement, the Company accounts for the compensation expense ratably over the stated vesting period. If the employee retires, becomes disabled or dies before the end of the stated vesting period, then any remaining unrecognized compensation expense is accounted for at the date of the event. The Company continues to apply this policy for any awards granted prior to the Company's adoption of SFAS No. 123(R) on March 1, 2006, and for the unrecognized compensation expense associated with the remaining portion of the then unvested outstanding awards. The remaining portion of the unvested outstanding awards as of the Company's adoption date of SFAS No. 123(R) on March 1, 2006, was not material. The unrecognized compensation expense associated with the remaining portion of the March 1, 2006, unvested outstanding awards, is included in the Company's Consolidated Statements of Operations for the year ended February 28, 2007.

With the Company's adoption of SFAS No. 123(R) on March 1, 2006, the Company revised its approach for recognition of compensation expense for all new stock-based awards that accelerate vesting upon retirement. Under this revised approach, compensation expense will be recognized immediately for awards granted to retirement-eligible employees or over the period from the date of grant to the date of retirement-eligibility if that is expected to occur during the requisite service period.

Prior to the adoption of SFAS No. 123(R), the Company reported all tax benefits resulting from the exercise of stock options as operating cash flows in the Consolidated Statements of Cash Flows. SFAS No. 123(R) requires cash flows resulting from the tax deductions in excess of the related compensation cost recognized in the financial statements (excess tax benefits) to be classified as financing cash flows. In accordance with SFAS No. 123(R), excess tax benefits recognized in periods after the adoption date have been properly classified as financing cash flows. Excess tax benefits recognized in periods prior to the adoption date are classified as operating cash flows.

Total compensation cost for stock-based awards is as follows:

	For the Years Ended		
	February 29, 2008	February 28, 2007	February 28, 2006
<i>(in millions)</i>			
Total compensation cost for stock-based awards recognized in the Consolidated Statements of Income	\$ 32.0	\$ 16.5	\$ 7.5
Total income tax benefit recognized in the Consolidated Statements of Operations for stock-based compensation	\$ 9.2	\$ 4.5	\$ 2.7
Total compensation cost for stock-based awards capitalized in inventory in the Consolidated Balance Sheets	\$ 3.2	\$ 1.6	\$

In March 2007, the Company's Board of Directors approved the accelerated vesting of certain unvested stock options held by approximately 70 employees of the Company who transferred to Matthew Clark on April 17, 2007, effective as of the end of the day on the date preceding the formation of the joint venture, April 16, 2007. The total incremental compensation cost associated with this modification was \$1.0 million.

Table of Contents

On December 21, 2006, the Human Resources Committee of the Company's Board of Directors approved the accelerated vesting of certain unvested stock options held by approximately 100 employees of the Company who transferred to Crown Imports on January 2, 2007, effective as of the end of the day on the date preceding the formation of the joint venture, January 1, 2007. The total incremental compensation cost associated with this modification was \$1.8 million.

On February 16, 2006, the Company's Board of Directors approved the accelerated vesting of certain unvested stock options previously awarded under the Company's Long-Term Stock Incentive Plan and Incentive Stock Option Plan. Nearly all of the accelerated vesting was for stock options awarded with a performance-based acceleration feature. The acceleration of these stock options enabled the Company to more accurately forecast future compensation expense and to reduce related earnings volatility. As a result of the accelerated vesting, options to purchase 5,130,778 shares of the Company's Class A Common Stock, of which 98.7% were in-the-money, became fully exercisable. The acceleration eliminated future compensation expense of approximately \$38.8 million that would have otherwise been recognized in the Company's Consolidated Statements of Operations beginning March 1, 2006, through February 28, 2010. Also on February 16, 2006, the Company announced its worldwide wines reorganization (see Note 19). As a result of these foregoing actions, the Company recorded \$7.3 million of stock-based employee compensation expense for the year ended February 28, 2006, of which \$6.9 million is recorded as restructuring and related charges and \$0.4 million is recorded as selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

2. RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENT:

Effective March 1, 2007, the Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN No. 48), Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109. FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109. FIN No. 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Additionally, FIN No. 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition (see Note 10).

3. ACQUISITIONS:

Acquisition of BWE

On December 17, 2007, the Company acquired all of the issued and outstanding capital stock of Beam Wine Estates, Inc. (BWE), an indirect wholly-owned subsidiary of Fortune Brands, Inc., together with BWE's subsidiaries: Atlas Peak Vineyards, Inc., Buena Vista Winery, Inc., Clos du Bois, Inc., Gary Farrell Wines, Inc. and Peak Wines International, Inc. (the BWE Acquisition). As a result of the BWE Acquisition, the Company has acquired the U.S. wine portfolio of Fortune Brands, Inc., including certain wineries, vineyards or interests therein in the State of California, as well as various super-premium and fine California wine brands including Clos du Bois, Wild Horse and Geyser Peak. The BWE Acquisition supports the Company's strategy of strengthening its portfolio with fast-growing super-premium and above wines. The BWE Acquisition strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S.

Table of Contents

Total consideration paid in cash was \$888.6 million, subject to certain purchase price adjustments. In addition, the Company expects to incur direct acquisition costs of approximately \$1.3 million. The purchase price was financed with the net proceeds from the Company's December 2007 Senior Notes and revolver borrowings under the Company's 2006 Credit Agreement (as defined in Note 9). In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price was based primarily on the estimated future operating results of the BWE business, including the factors described above.

The results of operations of the BWE business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition.

The following table summarizes the Company's estimated fair values of the assets acquired and liabilities assumed in the BWE Acquisition at the date of acquisition. The allocation of the purchase price is preliminary and subject to change. Estimated fair values at December 17, 2007, are as follows:

(in millions)

Current assets	\$ 283.6
Property, plant and equipment	242.4
Goodwill	320.1
Trademarks	133.3
Other assets	10.2
 Total assets acquired	 989.6
 Current liabilities	 98.5
Long-term liabilities	1.2
 Total liabilities assumed	 99.7
 Net assets acquired	 \$ 889.9

The trademarks are not subject to amortization. All of the goodwill is expected to be deductible for tax purposes.

Acquisition of Svedka

On March 19, 2007, the Company acquired the SVEDKA Vodka brand ("Svedka") in connection with the acquisition of Spirits Marque One LLC and related business (the "Svedka Acquisition"). Svedka is a premium Swedish vodka. The Svedka Acquisition supports the Company's strategy of expanding the Company's premium spirits business. The acquisition provides a foundation from which the Company looks to leverage its existing and future premium spirits portfolio for growth. In addition, Svedka complements the Company's existing portfolio of super-premium and value vodka brands by adding a premium vodka brand.

Total consideration paid in cash for the Svedka Acquisition was \$385.8 million. In addition, the Company incurred direct acquisition costs of approximately \$1.3 million. The purchase price was financed with revolver borrowings under the Company's June 2006 Credit Agreement (as defined in Note 9), as amended in February 2007. In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price was based primarily on the estimated future operating results of the Svedka business, including the factors described above.

The results of operations of the Svedka business are reported in the Constellation Spirits segment and are included in the consolidated results of operations of the Company from the date of acquisition.

Table of Contents

The following table summarizes the Company's fair values of the assets acquired and liabilities assumed in the Svedka Acquisition at the date of acquisition.

The trademark is not subject to amortization. Approximately \$87 million of the goodwill is expected to be deductible for tax purposes.

Acquisition of Vincor

On June 5, 2006, the Company acquired all of the issued and outstanding common shares of Vincor International Inc. (Vincor), Canada's premier wine company (the Vincor Acquisition). Vincor is Canada's largest producer and marketer of wine. At the time of the acquisition, Vincor was the world's eighth largest producer and distributor of wine and related products by revenue and was also one of the largest wine importers, marketers and distributors in the U.K. Through this transaction, the Company acquired various additional winery and vineyard interests used in the production of premium, super-premium and fine wines from Canada, California, Washington State, Western Australia and New Zealand. In addition, as a result of the acquisition, the Company sources, markets and sells premium wines from South Africa. Well-known premium brands acquired in the Vincor Acquisition include Inniskillin, Jackson-Triggs, Sawmill Creek, Sumac Ridge, R.H. Phillips, Toasted Head, Hogue, Kim Crawford and Kumala.

The Vincor Acquisition supports the Company's strategy of strengthening the breadth of its portfolio across price segments and geographic regions to capitalize on the overall growth in the wine industry. In addition to complementing the Company's current operations in the U.S., U.K., Australia and New Zealand, the Vincor Acquisition increases the Company's global presence by adding Canada as another core market and provides the Company with the ability to capitalize on broader geographic distribution in strategic international markets. In addition, the Vincor Acquisition makes the Company the largest wine company in Canada and strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S.

Total consideration paid in cash to the Vincor shareholders was \$1,115.8 million. In addition, the Company incurred direct acquisition costs of \$9.4 million. At closing, the Company also assumed outstanding indebtedness of Vincor, net of cash acquired, of \$320.2 million. The purchase price was financed with borrowings under the Company's June 2006 Credit Agreement. In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price was based primarily on the estimated future operating results of the Vincor business, including the factors described above, as well as an estimated benefit from operating cost synergies.

Table of Contents

In connection with the Vincor Acquisition, the Company entered into a foreign currency forward contract to fix the U.S. dollar cost of the acquisition and the payment of certain outstanding indebtedness in April 2006. During the year ended February 28, 2007, the Company recorded a gain of \$55.1 million in connection with this derivative instrument. Under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended, a transaction that involves a business combination is not eligible for hedge accounting treatment. As such, the gain was recognized separately on the Company's Consolidated Statements of Operations.

The results of operations of the Vincor business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition.

The following table summarizes the fair values of the assets acquired and liabilities assumed in the Vincor Acquisition at the date of acquisition:

(in millions)

Current assets	\$ 389.1
Property, plant and equipment	241.4

 Current liabilities	 413.6
Long-term liabilities	237.0
 Total liabilities assumed	 650.6
 Net assets acquired	 \$ 1,125.2

The trademarks are not subject to amortization. None of the goodwill is expected to be deductible for tax purposes.

During the year ended February 29, 2008, the Company completed its acquisition of several immaterial businesses for a total combined purchase price of \$27.4 million. During the year ended February 28, 2006, the Company completed its acquisition of two immaterial businesses for a total combined purchase price of \$48.2 million.

Table of Contents

The following table sets forth the unaudited pro forma results of operations of the Company for the years ended February 29, 2008, and February 28, 2007, respectively. The unaudited pro forma results of operations for the year ended February 29, 2008, give effect to the BWE Acquisition as if it occurred on March 1, 2006. The unaudited pro forma results of operations for the year ended February 29, 2008, are not presented to give effect to the Svedka Acquisition as if it had occurred on March 1, 2006, as it is not significant. The unaudited pro forma results of operations for the year ended February 28, 2007, give effect to the BWE Acquisition, the Svedka Acquisition and the Vincor Acquisition as if they occurred on March 1, 2006. The unaudited pro forma results of operations are presented after giving effect to certain adjustments for depreciation, amortization of certain intangible assets and deferred financing costs, interest expense on the acquisition financing, interest expense associated with adverse grape contracts, and related income tax effects. The unaudited pro forma results of operations are based upon currently available information and certain assumptions that the Company believes are reasonable under the circumstances. The unaudited pro forma results of operations for the year ended February 28, 2007, do not reflect total pretax nonrecurring charges of \$29.5 million (\$0.09 per share on a diluted basis) related to transaction costs, primarily for the acceleration of vesting of stock options, legal fees and investment banker fees, all of which were incurred by Vincor prior to the acquisition. The unaudited pro forma results of operations do not purport to present what the Company's results of operations would actually have been if the aforementioned transactions had in fact occurred on such date or at the beginning of the period indicated, nor do they project the Company's financial position or results of operations at any future date or for any future period.

The Constellation Spirits segment's purchase accounting allocations totaling \$362.7 million consist primarily of purchase accounting allocations associated with the Svedka Acquisition. The Constellation Wines segment's purchase accounting allocations totaling \$309.3 million consist primarily of purchase accounting allocations of \$320.1 million associated with the BWE Acquisition, partially offset by a reduction of \$17.3 million in connection with an adjustment to income taxes payable acquired in a prior acquisition. Disposal of businesses within the Constellation Wines segment consist of \$143.4 million related to the Company's reduction of goodwill in connection with the Company's contribution of its U.K. wholesale business associated with the formation of a joint venture with Punch Taverns plc (Punch) (see Note 7) and \$37.0 million related to the Company's reduction of goodwill in connection with the Company's sale of the Almaden and Inglenook wine brands and certain other assets. In February 2008, as part of ongoing efforts to increase focus on premium wine offerings in the U.S., the Company sold its lower margin popular-priced wine brands, Almaden and Inglenook, and certain other assets for cash proceeds of \$133.7 million. The Company recorded a loss of \$27.8 million on this sale which is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Table of Contents*Investment in equity method investees**Matthew Clark:*

On April 17, 2007, the Company and Punch commenced operations of a joint venture for the U.K. wholesale business (Matthew Clark). The U.K. wholesale business was formerly owned entirely by the Company. Under the terms of the arrangement, the Company and Punch, directly or indirectly, each have a 50% voting and economic interest in Matthew Clark. The Company received \$185.6 million of cash proceeds from the formation of the joint venture.

Upon formation of the joint venture, the Company discontinued consolidation of the U.K. wholesale business and accounts for the investment in Matthew Clark under the equity method. Accordingly, the results of operations of Matthew Clark are included in the equity in earnings of equity method investees line on the Company's Consolidated Statements of Operations from the date of investment. As of February 29, 2008, the Company's investment in Matthew Clark was \$75.8 million. The Company did not receive any cash distributions from Matthew Clark for the year ended February 29, 2008.

Amounts sold to Matthew Clark for the year ended February 29, 2008, were not material. As of February 29, 2008, amounts receivable from Matthew Clark were not material.

Crown Imports:

On January 2, 2007, Barton Beers, Ltd. (Barton), an indirect wholly-owned subsidiary of the Company, and Diblo, S.A. de C.V. (Diblo), an entity owned 76.75% by Grupo Modelo, S.A.B. de C.V. (Modelo) and 23.25% by Anheuser-Busch Companies, Inc., completed the formation of Crown Imports LLC (Crown Imports), a joint venture in which Barton and Diblo each have, directly or indirectly, equal interests. Crown Imports has the exclusive right to import, market and sell Modelo's Mexican beer portfolio (the Modelo Brands) in the 50 states of the U.S., the District of Columbia and Guam. In addition, the owners of the Tsingtao and St. Pauli Girl brands have transferred exclusive importing, marketing and selling rights with respect to those brands in the U.S. to the joint venture. The importer agreement that previously gave Barton the exclusive right to import, market and sell the Modelo Brands primarily west of the Mississippi River was superseded by the transactions consummated by the newly formed joint venture.

Upon commencement of operations of the joint venture, the Company discontinued consolidation of the imported beer business and accounts for the investment in Crown Imports under the equity method. Accordingly, the results of operations of Crown Imports are included in the equity in earnings of equity method investees line on the Company's Consolidated Statements of Operations from the date of investment. As of February 29, 2008, and February 28, 2007, the Company's investment in Crown Imports was \$150.5 million and \$163.4 million, respectively. The carrying amount of the investment is greater than the Company's equity in the underlying assets of Crown Imports by \$13.6 million due to the difference in the carrying amounts of the indefinite lived intangible assets contributed to Crown Imports by each party. The Company received \$268.0 million of cash distributions from Crown Imports for the year ended February 29, 2008, all of which represent distributions of equity in earnings. The Company did not receive any cash distributions from Crown Imports for the year ended February 28, 2007.

Barton provides certain administrative services to Crown Imports. Amounts related to the performance of these services for the years ended February 29, 2008, and February 28, 2007, were not material. In addition, as of February 29, 2008, and February 28, 2007, amounts receivable from Crown Imports were not material.

Table of Contents*Other:*

In connection with prior acquisitions, the Company acquired several investments which are being accounted for under the equity method. The primary investment consists of Opus One, a 50% owned joint venture arrangement. As of February 29, 2008, and February 28, 2007, the Company's investment in Opus One was \$63.7 million and \$63.1 million, respectively. The percentage of ownership of the remaining investments ranges from 20% to 50%.

In addition, the Company has a 40% interest in Ruffino, the well-known Italian fine wine company. The Company does not have a controlling interest in Ruffino or exert any managerial control. The Company accounts for the investment in Ruffino under the equity method; accordingly, the results of operations of Ruffino are included in the equity in earnings of equity method investees line on the Company's Consolidated Statements of Operations from the date of investment. As of February 29, 2008, and February 28, 2007, the Company's investment in Ruffino was \$84.5 million and \$86.3 million, respectively.

As of February 1, 2005, the Company's Constellation Wines segment began distribution of Ruffino's products in the U.S. Amounts purchased from Ruffino under this arrangement for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, were not material. As of February 29, 2008, and February 28, 2007, amounts payable to Ruffino were not material.

Table of Contents*Senior credit facility*

In connection with the Vincor Acquisition, on June 5, 2006, the Company and certain of its U.S. subsidiaries, JPMorgan Chase Bank, N.A. as a lender and administrative agent, and certain other agents, lenders, and financial institutions entered into a new credit agreement (the June 2006 Credit Agreement). On February 23, 2007, and on November 19, 2007, the June 2006 Credit Agreement was amended (collectively, the 2007 Amendments). The June 2006 Credit Agreement together with the 2007 Amendments is referred to as the 2006 Credit Agreement. The 2006 Credit Agreement provides for aggregate credit facilities of \$3.9 billion, consisting of a \$1.2 billion tranche A term loan facility due in June 2011, a \$1.8 billion tranche B term loan facility due in June 2013, and a \$900 million revolving credit facility (including a sub-facility for letters of credit of up to \$200 million) which terminates in June 2011. Proceeds of the June 2006 Credit Agreement were used to pay off the Company's obligations under its prior senior credit facility, to fund the Vincor Acquisition and to repay certain indebtedness of Vincor. The Company uses its revolving credit facility under the 2006 Credit Agreement for general corporate purposes, including working capital, on an as needed basis.

As of February 29, 2008, the required principal repayments of the tranche A term loan and the tranche B term loan for each of the five succeeding fiscal years and thereafter are as follows:

	Tranche A Term Loan	Tranche B Term Loan	Total
<i>(in millions)</i>			
2009	\$ 210.0	\$ 2.0	\$ 212.0
2010	270.0	4.0	274.0
2011	300.0	4.0	304.0
2012	150.0	4.0	154.0
2013		1,426.0	1,426.0
	\$ 930.0	\$ 1,440.0	\$ 2,370.0

The rate of interest on borrowings under the 2006 Credit Agreement is a function of LIBOR plus a margin, the federal funds rate plus a margin, or the prime rate plus a margin. The margin is fixed with respect to the tranche B term loan facility and is adjustable based upon the Company's debt ratio (as defined in the 2006 Credit Agreement) with respect to the tranche A term loan facility and the revolving credit facility. As of February 29, 2008, the LIBOR margin for the revolving credit facility and the tranche A term loan facility is 1.25%, while the LIBOR margin on the tranche B term loan facility is 1.50%.

The February 23, 2007, amendment amended the June 2006 Credit Agreement to, among other things, (i) increase the revolving credit facility from \$500.0 million to \$900.0 million, which increased the aggregate credit facilities from \$3.5 billion to \$3.9 billion; (ii) increase the aggregate amount of cash payments the Company is permitted to make in respect or on account of its capital stock; (iii) remove certain limitations on the incurrence of senior unsecured indebtedness and the application of proceeds thereof; (iv) increase the maximum permitted total Debt Ratio and decrease the required minimum Interest Coverage Ratio; and (v) eliminate the Senior Debt Ratio covenant and the Fixed Charges Ratio covenant. The November 19, 2007, amendment clarified certain provisions governing the incurrence of senior unsecured indebtedness and the application of proceeds thereof under the June 2006 Credit Agreement, as previously amended.

The Company's obligations are guaranteed by certain of its U.S. subsidiaries. These obligations are also secured by a pledge of (i) 100% of the ownership interests in certain of the Company's U.S. subsidiaries and (ii) 65% of the voting capital stock of certain of the Company's foreign subsidiaries.

Table of Contents

The Company and its subsidiaries are also subject to covenants that are contained in the 2006 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, disposition or acquisition of property, the payment of dividends, transactions with affiliates and the making of certain investments, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to maximum total debt coverage ratios and minimum interest coverage ratios.

As of February 29, 2008, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$930.0 million bearing an interest rate of 5.7%, tranche B term loans of \$1,440.0 million bearing an interest rate of 6.6%, revolving loans of \$308.0 million bearing an interest rate of 4.4%, outstanding letters of credit of \$35.8 million, and \$556.2 million in revolving loans available to be drawn.

In March 2005, the Company replaced its then outstanding five year interest rate swap agreements with new five year delayed start interest rate swap agreements effective March 1, 2006, which are outstanding as of February 29, 2008. These delayed start interest rate swap agreements extended the original hedged period through fiscal 2010. The swap agreements fixed LIBOR interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt at an average rate of 4.1% over the five year term. The Company received \$30.3 million in proceeds from the unwinding of the original swaps. This amount will be reclassified from Accumulated Other Comprehensive Income (AOCI) ratably into earnings in the same period in which the original hedged item is recorded in the Consolidated Statements of Operations. For the years ended February 29, 2008, February 28, 2007, and February 28, 2006, the Company reclassified \$7.1 million, \$5.9 million and \$3.6 million, net of income tax effect, respectively, from AOCI to interest expense, net on the Company's Consolidated Statements of Operations. This non-cash operating activity is included in the other, net line in the Company's Consolidated Statements of Cash Flows.

The net proceeds of the offering (\$685.6 million) were used to reduce a corresponding amount of borrowings under the Company's June 2006 Credit Agreement. Interest on the August 2006 Senior Notes is payable semiannually on March 1 and September 1 of each year, beginning March 1, 2007. As of February 29, 2008, and February 28, 2007, the Company had outstanding \$693.9 million (net of \$6.1 million unamortized discount) and \$693.4 million (net of \$6.6 million unamortized discount), respectively, aggregate principal amount of August 2006 Senior Notes.

On May 14, 2007, the Company issued \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due May 2017 (the Original May 2007 Senior Notes). The net proceeds of the offering (\$693.9 million) were used to reduce a corresponding amount of borrowings under the revolving portion of the Company's 2006 Credit Agreement. Interest on the Original May 2007 Senior Notes is payable semiannually on May 15 and November 15 of each year, beginning November 15, 2007. In January 2008, the Company exchanged \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due May 2017 (the May 2007 Senior Notes) for all of the Original May 2007 Senior Notes. The terms of the May 2007 Senior Notes are substantially identical in all material respects to the Original May 2007 Senior Notes, except that the May 2007 Senior Notes are registered under the Securities Act of 1933, as amended. As of February 29, 2008, the Company had outstanding \$700.0 million aggregate principal amount of May 2007 Senior Notes.

On December 5, 2007, the Company issued \$500.0 million aggregate principal amount of 8 3/8% Senior Notes due December 2014 at an issuance price of \$496.7 million (net of \$3.3 million unamortized discount, with an effective interest rate of 8.5%) (the December 2007 Senior Notes). The net proceeds of the offering (\$492.2 million) were used to fund a portion of the purchase price of BWE. Interest on the December 2007 Senior Notes is payable semiannually on June 15 and December 15 of each year, beginning June 15, 2008. As of February 29, 2008, the Company had outstanding \$496.8 million (net of \$3.2 million unamortized discount) aggregate principal amount of December 2007 Senior Notes.

The senior notes described above are redeemable, in whole or in part, at the option of the Company at any time at a redemption price equal to 100% of the outstanding principal amount and a make whole payment based on the present value of the future payments at the adjusted Treasury Rate or adjusted Gilt rate plus 50 basis points. The senior notes are senior unsecured obligations and rank equally in right of payment to all existing and future senior unsecured indebtedness of the Company. Certain of the Company's significant U.S. operating subsidiaries guarantee the senior notes, on a senior unsecured basis.

Table of Contents*Senior subordinated notes*

On January 23, 2002, the Company issued \$250.0 million aggregate principal amount of 8 1/8% Senior Subordinated Notes due January 2012 (January 2002 Senior Subordinated Notes). Interest on the January 2002 Senior Subordinated Notes is payable semiannually on January 15 and July 15. The January 2002 Senior Subordinated Notes are redeemable at the option of the Company, in whole or in part, at any time on or after January 15, 2007. The January 2002 Senior Subordinated Notes are unsecured and subordinated to the prior payment in full of all senior indebtedness of the Company, which includes the senior credit facility. The January 2002 Senior Subordinated Notes are guaranteed, on a senior subordinated unsecured basis, by certain of the Company's significant U.S. operating subsidiaries. As of February 29, 2008, and February 28, 2007, the Company had outstanding \$250.0 million aggregate principal amount of January 2002 Senior Subordinated Notes.

Trust Indentures

Certain of the Company's Trust Indentures relating to the senior notes and senior subordinated notes contain certain covenants, including, but not limited to: (i) limitation on indebtedness; (ii) limitation on restricted payments; (iii) limitation on transactions with affiliates; (iv) limitation on senior subordinated indebtedness; (v) limitation on liens; (vi) limitation on sale of assets; (vii) limitation on issuance of guarantees of and pledges for indebtedness; (viii) restriction on transfer of assets; (ix) limitation on subsidiary capital stock; (x) limitation on dividends and other payment restrictions affecting subsidiaries; and (xi) restrictions on mergers, consolidations and the transfer of all or substantially all of the assets of the Company to another person. The limitation on indebtedness covenant is governed by a rolling four quarter fixed charge ratio requiring a specified minimum.

Subsidiary credit facilities

In addition to the above arrangements, the Company has additional credit arrangements totaling \$397.0 million as of February 29, 2008. These arrangements primarily support the financing needs of the Company's domestic and foreign subsidiary operations. Interest rates and other terms of these borrowings vary from country to country, depending on local market conditions. As of February 29, 2008, and February 28, 2007, amounts outstanding under these arrangements were \$130.7 million and \$188.0 million, respectively.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some or all of the deferred tax assets will not be realized. Management considers the reversal of deferred tax liabilities and projected future taxable income in making this assessment. Based upon this assessment, management believes it is

more likely than not that the Company will realize the benefits of these deductible differences, net of any valuation allowances. During the fourth quarter of fiscal 2008, lower estimates of future operating results and cash flows impacted the Company's assessment regarding the realizability of certain net operating losses and intangible assets. As a result of this assessment, the Company determined that additional valuation allowances were required as of February 29, 2008.

Operating loss carryforwards totaling \$425.9 million at February 29, 2008, are being carried forward in a number of U.S. and foreign jurisdictions where the Company is permitted to use tax operating losses from prior periods to reduce future taxable income. Of these operating loss carryforwards, \$46.1 million will expire in 2011 through 2025 and \$379.8 million of operating losses in foreign jurisdictions may be carried forward indefinitely. In addition, certain tax credits generated of \$5.2 million are available to offset future income taxes. These credits will expire, if not utilized, in 2015 through 2016.

On October 22, 2004, the American Jobs Creation Act (AJCA) was signed into law. The AJCA includes a special one-time 85% dividends received deduction for certain foreign earnings that are repatriated. For the year ended February 28, 2006, the Company repatriated \$95.7 million of earnings under the provisions of the AJCA. Deferred taxes had previously been provided for a portion of the dividends remitted. The reversal of deferred taxes offset the tax costs to repatriate the earnings and the Company recorded a net benefit of \$6.8 million.

The Company is subject to ongoing tax examinations and assessments in various jurisdictions. Accordingly, the Company provides for additional tax expense based on probable outcomes of such matters. While it is often difficult to predict the final outcome or the timing of resolution of any particular tax matter, the Company believes the reserves reflect the probable outcome of known tax contingencies. Unfavorable settlement of any particular issue would require use of cash. Favorable resolution would be recognized as a reduction to the effective tax rate in the year of resolution. During the year ended February 28, 2006, various federal, state, and international examinations were finalized. A tax benefit of \$16.2 million was recorded primarily related to the resolution of certain tax positions in connection with those examinations.

A reconciliation of the total tax provision to the amount computed by applying the statutory U.S. Federal income tax rate to (loss) income before provision for income taxes is as follows:

	February 29, 2008		For the Years Ended February 28, 2007		February 28, 2006

Effective March 1, 2007, the Company adopted FIN No. 48. The adoption of FIN No. 48 did not impact the amount of the Company's liability for unrecognized tax benefits. Upon adoption, the liability for income taxes associated with uncertain tax positions, excluding interest and penalties, was \$100.2 million. As of February 29, 2008, the liability for income taxes associated with uncertain tax positions, excluding interest and penalties, was \$131.1 million. A reconciliation of the beginning and ending unrecognized tax benefit liabilities is as follows:

Balance, March 1, 2007	\$ (100.2)
Increases in unrecognized tax benefit liabilities as a result of tax positions taken during a prior period	(22.0)
Decreases in unrecognized tax benefit liabilities as a result of tax positions taken during a prior period	14.1
Increases in unrecognized tax benefit liabilities as a result of tax positions taken during the current period	(25.1)
Decreases in unrecognized tax benefit liabilities related to lapse of applicable statute of limitations	2.1
Balance, February 29, 2008	\$ (131.1)

As of February 29, 2008, the Company has \$142.5 million of non-current unrecognized tax benefit liabilities, including interest and penalties, recorded in other liabilities on the Company's Consolidated Balance Sheet. These liabilities are recorded as non-current as payment of cash is not anticipated within one year of the balance sheet date.

As of March 1, 2007, and February 29, 2008, the Company had \$61.3 million and \$87.3 million, respectively, of unrecognized tax benefits that, if recognized, would decrease the effective tax rate.

In accordance with the Company's accounting policy, the Company recognizes interest and penalties related to unrecognized tax benefits as a component of the provision for income taxes on the Company's Consolidated Statements of Operations. This policy did not change as a result of the adoption of FIN No. 48. For the year ended February 29, 2008, the Company recorded \$8.3 million of interest expense, net of income tax effect, and penalties. As of February 29, 2008, \$16.9 million, net of income tax effect, was included in the liability for uncertain tax positions for the possible payment of interest and penalties.

Various U.S. federal, state, and foreign income tax examinations are currently in progress. It is reasonably possible that the liability associated with the Company's unrecognized tax benefits will increase or decrease within the next twelve months as a result of these examinations or the expiration of statutes of limitation. As of February 29, 2008, the Company estimates that unrecognized tax benefits could change by a range of zero to \$55 million. The Company files U.S. federal income tax returns and various state, local and foreign income tax returns. Major tax jurisdictions where the Company is subject to examination by tax authorities include Australia, Canada, New Zealand, the U.K. and the U.S. With few exceptions, the Company is no longer subject to U.S. federal, state, local or foreign income tax examinations for fiscal years prior to February 28, 2003.

12. DEFINED CONTRIBUTION AND DEFINED BENEFIT PLANS:*Defined contribution plans*

The Company's retirement and profit sharing plan, the Constellation Brands, Inc. 401(k) and Profit Sharing Plan (the Plan), covers substantially all U.S. employees, excluding those employees covered by collective bargaining agreements. The 401(k) portion of the Plan permits eligible employees to defer a portion of their compensation (as defined in the Plan) on a pretax basis. Participants may defer up to 50% of their compensation for the year, subject to limitations of the Plan. The Company makes a matching contribution of 50% of the first 6% of compensation a participant defers. The amount of the Company's contribution under the profit sharing portion of the Plan is a discretionary amount as determined by the Board of Directors on an annual basis, subject to limitations of the Plan. Company contributions under the Plan were \$15.1 million, \$15.2 million and \$15.9 million for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, respectively.

In addition to the Plan discussed above, the Company has the Hardy Wine Company Superannuation Plan (the Hardy Plan) which covers substantially all of its salaried Australian employees. The Hardy Plan has a defined benefit component and a defined contribution component. The Company also has a statutory obligation to provide a minimum defined contribution on behalf of any Australian employees who are not covered by the Hardy Plan. In addition, the Company has a defined contribution plan that covers substantially all of its U.K. employees and a defined contribution plan that covers certain of its Canadian employees. Lastly, in connection with the Vincor Acquisition, the Company acquired the Retirement Plan for Salaried Employees of Vincor International Inc. (the Vincor Retirement Plan) which covers substantially all of its salaried Canadian employees. The Vincor Retirement Plan has a defined benefit component and a defined contribution component. Company contributions under the defined contribution component of the Hardy Plan, the Australian statutory obligation, the U.K. defined contribution plan, the Canadian defined contribution plan and the defined contribution component of the Vincor Retirement Plan aggregated \$9.8 million, \$9.3 million and \$7.7 million for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, respectively.

Table of Contents*Defined benefit pension plans*

The Company also has defined benefit pension plans that cover certain of its non-U.S. employees. These consist of a Canadian plan, an U.K. plan, the defined benefit components of the Hardy Plan and the Vincor Retirement Plan, and two defined benefit pension plans acquired in connection with the Vincor Acquisition which cover substantially all of its hourly Canadian employees. For the year ended February 28, 2006, the Company's net periodic benefit cost included \$6.4 million of recognized net actuarial loss due to an adjustment in the Company's defined benefit U.K. pension plan. Of that amount, \$2.7 million represented current year expense. The Company uses a December 31 measurement date for all of its plans. The Company adopted the recognition and related disclosure provisions of Statement of Financial Accounting Standards No. 158 (SFAS No. 158), *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*—an amendment of FASB Statements No. 87, 88, 106, and 132(R), as of February 28, 2007 (see Note 22). Net periodic benefit cost reported in the Consolidated Statements of Operations for these plans includes the following components:

Table of Contents

The following table sets forth the weighted average assumptions used in developing the net periodic pension expense:

	For the Years Ended	
	February 29, 2008	February 28, 2007
Rate of return on plan assets	8.08%	7.64%
Discount rate	5.07%	4.89%
Rate of compensation increase	4.00%	3.84%

The following table sets forth the weighted average assumptions used in developing the benefit obligation:

	February 29, 2008	February 28, 2007
Discount rate	5.65%	5.12%
Rate of compensation increase	4.30%	4.07%

The Company's weighted average expected long-term rate of return on plan assets is 8.08%. The Company considers the historical level of long-term returns and the current level of expected long-term returns for each asset class, as well as the current and expected allocation of assets when developing its expected long-term rate of return on assets assumption. The expected return for each asset class is weighted based on the target asset allocation to develop the expected long-term rate of return on assets assumption for the Company's portfolios.

The following table sets forth the weighted average asset allocations by asset category:

Asset Category:	February 29, 2008	February 28, 2007
Equity securities	41.1%	42.5%
Debt securities	22.3%	18.1%
Real estate	0.5%	1.2%
Other	36.1%	38.2%
Total	100.0%	100.0%

For each of its Canadian, U.K. and Australian defined benefit plans, the Company employs an investment return approach whereby a mix of equities and fixed income investments are used (on a plan by plan basis) to maximize the long-term rate of return on plan assets for a prudent level of risk. From time to time, the Company will target asset allocation on a plan by plan basis to enhance total return while balancing risks. The established weighted average target allocations across all of the Company's plans are approximately 37% equity securities, 21% fixed income securities, 3% real estate and 39% other. The other component results primarily from investments held by the Company's U.K. plan and consists primarily of U.K. hedge funds which have characteristics of both equity and fixed income securities. Risk tolerance is established separately for each plan through careful consideration of plan liabilities, plan funded status, and corporate financial condition. The individual investment portfolios contain a diversified blend of equity and fixed-income investments. Equity investments are diversified across each plan's local jurisdiction stocks as well as international stocks, and across multiple asset classifications, including growth, value, and large and small capitalizations. Investment risk is measured and monitored for each plan separately on an ongoing basis through periodic investment portfolio reviews and annual liability measures.

Defined benefit postretirement plans

The Company currently sponsors multiple unfunded defined benefit postretirement benefit plans for certain of its Constellation Spirits and Constellation Wines segment employees. As of February 29, 2008, and February 28, 2007, the Company's benefit obligation was \$7.9 million and \$7.4 million, respectively. Net periodic benefit cost for these plans reported in the Consolidated Statements of Operations was \$0.7 million, \$0.6 million, and \$0.4 million, for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, respectively.

13. COMMITMENTS AND CONTINGENCIES:

Operating leases

Step rent provisions, escalation clauses, capital improvement funding and other lease concessions, when present in the Company's leases, are taken into account in computing the minimum lease payments. The minimum lease payments for the Company's operating leases are recognized on a straight-line basis over the minimum lease term. Future payments under noncancelable operating leases having initial or remaining terms of one year or more are as follows during the next five fiscal years and thereafter:

(in millions)

2009	\$ 80.4
2010	69.5
2011	58.2
2012	52.9
2013	46.5
Thereafter	398.7
	\$ 706.2

Rental expense was \$88.6 million, \$79.6 million and \$70.5 million for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, respectively.

Purchase commitments and contingencies

The Company has agreements with suppliers to purchase various spirits of which certain agreements are denominated in British pound sterling. The maximum future obligation under these agreements, based upon exchange rates at February 29, 2008, aggregate \$17.3 million for contracts expiring through the year ending February 29, 2012.

Table of Contents

In connection with previous acquisitions as well as with the BWE Acquisition, the Vincor Acquisition and the acquisition of all of the outstanding capital stock of The Robert Mondavi Corporation (Robert Mondavi), the Company has assumed grape purchase contracts with certain growers and suppliers. In addition, the Company has entered into other grape purchase contracts with various growers and suppliers in the normal course of business. Under the grape purchase contracts, the Company is committed to purchase all grape production yielded from a specified number of acres for a period of time from one to seventeen years. The actual tonnage and price of grapes that must be purchased by the Company will vary each year depending on certain factors, including weather, time of harvest, overall market conditions and the agricultural practices and location of the growers and suppliers under contract. The Company purchased \$417.8 million and \$364.2 million of grapes under contracts for the years ended February 29, 2008, and February 28, 2007, respectively. Based on current production yields and published grape prices, the Company estimates that the aggregate purchases under these contracts over the remaining terms of the contracts will be \$3,071.7 million.

In connection with previous acquisitions as well as with the BWE Acquisition, the Vincor Acquisition and the Robert Mondavi acquisition, the Company established a liability for the estimated loss on firm purchase commitments assumed at the time of acquisition. As of February 29, 2008, the remaining balance on this liability is \$44.4 million.

The Company's aggregate obligations under bulk wine purchase contracts will be \$62.2 million over the remaining terms of the contracts which extend through the year ending February 28, 2013.

In connection with a previous acquisition, the Company assumed certain processing contracts which commit the Company to utilize outside services to process and/or package a minimum volume quantity. In addition, the Company has a processing contract utilizing outside services to process a minimum volume of brandy at prices which are dependent on the processing ingredients provided by the Company. The Company's aggregate obligations under these processing contracts will be \$30.8 million over the remaining terms of the contracts which extend through the year ending February 29, 2012.

Employment contracts

The Company has employment contracts with certain of its executive officers and certain other management personnel with either automatic one year renewals or an indefinite term of employment unless terminated by either party. These employment contracts provide for minimum salaries, as adjusted for annual increases, and may include incentive bonuses based upon attainment of specified management goals. These employment contracts also provide for severance payments in the event of specified termination of employment. In addition, the Company has employment arrangements with certain other management personnel which provide for severance payments in the event of specified termination of employment. As of February 29, 2008, the aggregate commitment for future compensation and severance, excluding incentive bonuses, was \$13.5 million, none of which was accruable at that date.

Employees covered by collective bargaining agreements

Approximately 31% of the Company's full-time employees are covered by collective bargaining agreements at February 29, 2008. Agreements expiring within one year cover approximately 16% of the Company's full-time employees.

Legal matters

In the course of its business, the Company is subject to litigation from time to time. Although the amount of any liability with respect to such litigation cannot be determined, in the opinion of management, such liability will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Table of Contents**14. STOCKHOLDERS EQUITY:***Common stock*

Through December 5, 2007, the Company had two classes of common stock: Class A Common Stock and Class B Convertible Common Stock. Class B Convertible Common Stock shares are convertible into shares of Class A Common Stock on a one-to-one basis at any time at the option of the holder. Holders of Class B Convertible Common Stock are entitled to ten votes per share. Holders of Class A Common Stock are entitled to one vote per share and a cash dividend premium. If the Company pays a cash dividend on Class B Convertible Common Stock, each share of Class A Common Stock will receive an amount at least ten percent greater than the amount of the cash dividend per share paid on Class B Convertible Common Stock. In addition, the Board of Directors may declare and pay a dividend on Class A Common Stock without paying any dividend on Class B Convertible Common Stock. However, under the terms of the Company's senior credit facility, the Company is currently constrained from paying cash dividends on its common stock. In addition, the indentures for the Company's outstanding senior notes and senior subordinated notes may restrict the payment of cash dividends on its common stock under certain circumstances.

Effective December 6, 2007, the Company filed a Restated Certificate of Incorporation (the "Restated Certificate") which created a new class of common stock consisting of 15,000,000 shares of Class 1 Common Stock, \$0.01 par value per share (the "Class 1 Common Stock"). The Restated Certificate increased the aggregate number of authorized shares of the Company's common and preferred stock to 361,000,000 shares. While the aggregate number of authorized shares of the Company's common and preferred stock has been increased by the Restated Certificate, the Company's ability to actually issue more shares has not been increased. Because shares of Class 1 Common Stock are convertible into shares of Class A Common Stock, for each share of Class 1 Common Stock issued, the Company must reserve one share of Class A Common Stock for issuance upon the conversion of the share of Class 1 Common Stock. This requirement effectively reduces the number of shares of Class A Common Stock that the Company may issue by the number of shares of Class 1 Common Stock that the Company issues. Because the number of authorized shares of Class A Common Stock was not increased by the Restated Certificate, the aggregate number of shares that the Company is able to issue has not been increased.

Shares of Class 1 Common Stock do not generally have voting rights. Class 1 Common Stock shares are convertible into shares of Class A Common Stock on a one-to-one basis at any time at the option of the holder, provided that the holder immediately sells the Class A Common Stock acquired upon conversion. Holders of Class 1 Common Stock do not have any preference as to dividends, but may participate in any dividend if and when declared by the Board of Directors. If the Company pays a cash dividend on Class 1 Common Stock, each share of Class A Stock will receive an amount at least ten percent greater than the amount of cash dividend per share paid on Class 1 Common Stock. In addition, the Board of Directors may declare and pay a dividend on Class A Common Stock without paying a dividend on Class 1 Common Stock. The cash dividends declared and paid on Class B Stock and Class 1 Stock must always be the same.

In July 2007, the stockholders of the Company approved an increase in the number of authorized shares of Class A Common Stock from 300,000,000 shares to 315,000,000 shares, thereby increasing the aggregate number of authorized shares of the Company's common and preferred stock to 346,000,000 shares.

In July 2005, the stockholders of the Company approved an increase in the number of authorized shares of Class A Common Stock from 275,000,000 shares to 300,000,000 shares, thereby increasing the aggregate number of authorized shares of the Company's common and preferred stock to 331,000,000 shares.

Table of Contents

At February 29, 2008, there were 192,275,858 shares of Class A Common Stock and 23,777,154 shares of Class B Convertible Common Stock outstanding, net of treasury stock. There were no shares outstanding of Class 1 Common Stock at February 29, 2008.

Stock repurchases

In February 2007, the Company's Board of Directors authorized the repurchase of up to \$500.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock. During the year ended February 29, 2008, the Company repurchased 21,332,468 shares of Class A Common Stock pursuant to this authorization at an aggregate cost of \$500.0 million, or an average cost of \$23.44 per share, through a combination of open market transactions and an accelerated share repurchase (ASR) transaction that was announced in May 2007. The repurchased shares include 933,206 shares of Class A Common Stock that were received by the Company in July 2007 in connection with the early termination of the calculation period for the ASR transaction by the counterparty to the ASR transaction. The Company used revolver borrowings under the 2006 Credit Agreement to pay the purchase price for the repurchased shares. The repurchased shares have become treasury shares.

In February 2006, the Company's Board of Directors replenished a June 1998 Board of Directors authorization to repurchase up to \$100.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock. During the year ended February 28, 2007, the Company repurchased 3,894,978 shares of Class A Common Stock at an aggregate cost of \$100.0 million, or at an average cost of \$25.67 per share. The Company used revolver borrowings under the June 2006 Credit Agreement to pay the purchase price for these shares. No shares were repurchased during the year ended February 28, 2006. The repurchased shares have become treasury shares.

Preferred stock

During the year ended February 29, 2004, the Company issued 5.75% Series A Mandatory Convertible Preferred Stock (Preferred Stock). Dividends were cumulative and payable quarterly, if declared, in cash, shares of the Company's Class A Common Stock, or a combination thereof, at the discretion of the Company. Dividends were payable, if declared, on the first business day of March, June, September, and December of each year, commencing on December 1, 2003. On September 1, 2006, the Preferred Stock was converted into 9,983,066 shares of the Company's Class A Common Stock. The September 1, 2006, conversion includes both mandatory conversions as well as optional conversions initiated during August 2006. No fractional shares of the Company's Class A Common Stock were issued in the conversions.

Long-term stock incentive plan

Under the Company's Long-Term Stock Incentive Plan, nonqualified stock options, stock appreciation rights, restricted stock and other stock-based awards may be granted to employees, officers and directors of the Company. The aggregate number of shares of the Company's Class A Common Stock and Class 1 Common Stock available for awards under the Company's Long-Term Stock Incentive Plan is 94,000,000 shares. The exercise price, vesting period and term of nonqualified stock options granted are established by the committee administering the plan (the

Committee). The exercise price of any nonqualified stock option may not be less than the fair market value of the Company's Class A Common Stock on the date of grant. Nonqualified stock options generally vest and become exercisable over a four-year period from the date of grant. Nonqualified stock options expire at the times established by the Committee, but not later than ten years after the grant date.

Table of Contents

Grants of stock appreciation rights, restricted stock and other stock-based awards may contain such vesting, terms, conditions and other requirements as the Committee may establish. The purchase price for an award of restricted stock is \$0.00 per share. Restricted stock awards based on service generally vest for one to four years from the date of grant. During the years ended February 29, 2008, February 28, 2007, and February 28, 2006, no stock appreciation rights were granted.

Incentive stock option plan

Under the Company's Incentive Stock Option Plan, incentive stock options may be granted to employees, including officers, of the Company. Grants, in the aggregate, may not exceed 8,000,000 shares of the Company's Class A Common Stock. The exercise price of any incentive stock option may not be less than the fair market value of the Company's Class A Common Stock on the date of grant. The vesting period and term of incentive stock options granted are established by the Committee. Incentive stock options generally vest and become exercisable over a four-year period from the date of grant. Incentive stock options expire at the times established by the Committee, but not later than ten years after the grant date. Under the current terms of the Incentive Stock Option Plan, no additional grants of incentive stock options are permitted.

The fair value of options is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	For the Years Ended		
	February 29, 2008	February 28, 2007	February 28, 2006
Expected life	5.6 years	5.5 years	5.0 years
Expected volatility	30.2%	31.7%	31.3%
Risk-free interest rate	4.5%	4.8%	4.1%
Expected dividend yield	0.0%	0.0%	0.0%

For the years ended February 29, 2008, February 28, 2007, and February 28, 2006, the Company used a projected expected life for each award granted based on historical experience of employees' exercise behavior for similar type grants. Expected volatility for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, is based on historical volatility levels of the Company's Class A Common Stock. The risk-free interest rate for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, is based on the implied yield currently available on U.S. Treasury zero coupon issues with a remaining term equal to the expected life.

Employee stock purchase plans

The Company has a stock purchase plan under which 9,000,000 shares of Class A Common Stock may be issued. Under the terms of the plan, eligible employees may purchase shares of the Company's Class A Common Stock through payroll deductions. The purchase price is the lower of 85% of the fair market value of the stock on the first or last day of the purchase period. During the years ended February 29, 2008, February 28, 2007, and February 28, 2006, employees purchased 343,868 shares, 265,295 shares and 249,507 shares, respectively, under this plan.

The weighted average fair value of purchase rights granted during the years ended February 29, 2008, February 28, 2007, and February 28, 2006, was \$5.22, \$5.49 and \$6.23, respectively. The fair value of purchase rights granted is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	For the Years Ended		
	February 29, 2008	February 28, 2007	February 28, 2006
Expected life	0.5 years	0.5 years	0.5 years

The Company has a stock purchase plan under which 2,000,000 shares of the Company's Class A Common Stock may be issued to eligible employees and directors of the Company's U.K. subsidiaries. Under the terms of the plan, participants may purchase shares of the Company's Class A Common Stock through payroll deductions. The purchase price may be no less than 80% of the closing price of the stock on the day the purchase price is fixed by the committee administering the plan. During the years ended February 29, 2008, February 28, 2007, and February 28, 2006, employees purchased 463 shares, 52,842 shares and 92,622 shares, respectively, under this plan.

Table of Contents

The weighted average fair value of purchase rights granted during the years ended February 29, 2008, and February 28, 2007, was \$9.73 and \$11.22, respectively. During the year ended February 28, 2006, there were no purchase rights granted. The maximum number of shares which can be purchased under purchase rights granted during the years ended February 29, 2008, and February 28, 2007, is 73,987 shares and 396,803 shares, respectively. The fair value of the purchase rights granted is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	For the Years Ended	
	February 29, 2008	February 28, 2007
Expected life	4.0 years	3.9 years

During the year ended February 28, 2006, the Company changed the structure of certain of its cash flow hedges of forecasted foreign currency denominated transactions. As a result, the Company received \$18.5 million in proceeds from the early termination of related foreign currency derivative instruments. As the forecasted transactions are still probable, this amount was recorded to AOCI and will be reclassified from AOCI into earnings in the same periods in which the original hedged items are recorded in the Consolidated Statements of Operations. See Note 9 for discussion of \$30.3 million cash proceeds received from the early termination of interest rate swap agreements in March 2005.

17. SIGNIFICANT CUSTOMERS AND CONCENTRATION OF CREDIT RISK:

Sales to the five largest customers represented 32.8%, 21.7% and 21.1% of the Company's sales for the years ended February 29, 2008, February 28, 2007, and February 28, 2006, respectively. Sales to the Company's largest customer, Southern Wine and Spirits, represent 12.3% of the Company's sales for the year ended February 29, 2008, of which 85.6% is reported within the Constellation Wines segment and 14.4% is reported within the Constellation Spirits segment. No single customer was responsible for greater than 10% of sales for the years ended February 28, 2007, and February 28, 2006. Accounts receivable from the Company's largest customer represented 9.0%, 13.0% and 11.0% of the Company's total accounts receivable as of February 29, 2008, February 28, 2007, and February 28, 2006, respectively. Sales to the Company's five largest customers are expected to continue to represent a significant portion of the Company's revenues. The Company's arrangements with certain of its customers may, generally, be terminated by either party with prior notice. The Company performs ongoing credit evaluations of its customers' financial position, and management of the Company is of the opinion that any risk of significant loss is reduced due to the diversity of customers and geographic sales area.

18. ACQUISITION-RELATED INTEGRATION COSTS:

For the year ended February 29, 2008, the Company recorded \$11.8 million of acquisition-related integration costs associated primarily with the Vincor Plan (as defined in Note 19) and the Fiscal 2008 Plan. The Company defines acquisition-related integration costs as nonrecurring costs incurred to integrate newly acquired businesses after a business combination which are incremental to those of the Company prior to the business combination. As such, acquisition-related integration costs include, but are not limited to, (i) employee-related costs such as salaries and stay bonuses paid to employees of the acquired business that will be terminated after their integration activities are completed, (ii) costs to relocate fixed assets and inventories, and (iii) facility costs and other costs such as external services and consulting fees. For the year ended February 29, 2008, acquisition-related integration costs included \$4.8 million of employee-related costs and \$7.0 million of facilities and other costs. For the years ended February 28, 2007, and February 28, 2006, the Company recorded \$23.6 million of acquisition-related integration costs associated primarily with the Vincor Plan and \$16.8 million of acquisition-related integration costs associated with the Robert Mondavi Plan (as defined in Note 19), respectively.

Table of Contents**19. RESTRUCTURING AND RELATED CHARGES:**

The Company has several restructuring plans within its Constellation Wines segment as follows:

Fiscal 2004 Plan

During fiscal 2004, the Company announced a plan to further realign business operations and a plan to exit the commodity concentrate product line in the U.S. (the Fiscal 2004 Plan). The Fiscal 2004 Plan consists of exiting the commodity concentrate product line located in Madera, California, and selling the Company's Escalon facility located in Escalon, California. The decision to exit the commodity concentrate product line resulted from the fact that the line was facing declining sales and profits and was not part of the Company's core beverage alcohol business. By exiting the commodity concentrate line, the Company was able to free up capacity at its winery in Madera, and move production and storage from Escalon to Madera, and forego further investment in its aging Escalon facility. The Fiscal 2004 Plan includes the renegotiation of existing grape contracts associated with commodity concentrate inventory, asset write-offs and severance-related costs. The Fiscal 2004 Plan has been completed as of February 29, 2008.

Robert Mondavi Plan

In January 2005, the Company announced a plan to restructure and integrate the operations of Robert Mondavi (the Robert Mondavi Plan). The objective of the Robert Mondavi Plan is to achieve operational efficiencies and eliminate redundant costs resulting from the December 22, 2004, acquisition of Robert Mondavi. The Robert Mondavi Plan includes the elimination of certain employees, the consolidation of certain field sales and administrative offices, and the termination of various contracts. The Company does not expect any additional costs associated with the Robert Mondavi Plan to be recognized in its Consolidated Statements of Operations. The Company expects related cash expenditures to be completed by February 29, 2012.

Fiscal 2006 Plan

During fiscal 2006, the Company announced a plan to reorganize certain worldwide wine operations and a plan to consolidate certain west coast production processes in the U.S. (collectively, the Fiscal 2006 Plan). The Fiscal 2006 Plan's principal features are to reorganize and simplify the infrastructure and reporting structure of the Company's global wine business and to consolidate certain west coast production processes. This Fiscal 2006 Plan is part of the Company's ongoing effort to enhance its administrative, operational and production efficiencies in light of its ongoing growth. The objective of the Fiscal 2006 Plan is to achieve greater efficiency in sales, administrative and operational activities and to eliminate redundant costs. The Fiscal 2006 Plan includes the termination of employment of certain employees in various locations worldwide, the consolidation of certain worldwide wine selling and administrative functions, the consolidation of certain warehouse and production functions, the termination of various contracts, investment in new assets and the reconfiguration of certain existing assets. The Company expects all costs associated with the Fiscal 2006 Plan to be recognized in its Consolidated Statements of Operations by February 28, 2009, with related cash expenditures to be completed by February 28, 2009.

Vincor Plan

In July 2006, the Company announced a plan to restructure and integrate the operations of Vincor (the Vincor Plan). The objective of the Vincor Plan is to achieve operational efficiencies and eliminate redundant costs resulting from the June 5, 2006, Vincor Acquisition, as well as to achieve greater efficiency in sales, marketing, administrative and operational activities. The Vincor Plan includes the elimination of certain employment redundancies, primarily in the U.S., U.K. and Australia, and the termination of various contracts. The Company expects all costs associated with the Vincor Plan to be recognized in its Consolidated Statements of Operations by February 28, 2009, with related cash expenditures to be completed by February 29, 2012.

Table of Contents*Fiscal 2007 Wine Plan*

In August 2006, the Company announced a plan to invest in new distribution and bottling facilities in the U.K. and to streamline certain Australian wine operations (collectively, the Fiscal 2007 Wine Plan). The U.K. portion of the plan includes new investments in property, plant and equipment and certain disposals of property, plant and equipment and is expected to increase wine bottling capacity and efficiency and reduce costs of transport, production and distribution. The U.K. portion of the plan also includes costs for employee terminations. The Australian portion of the plan includes the buy-out of certain grape supply and processing contracts and the sale of certain property, plant and equipment. The initiatives are part of the Company's ongoing efforts to maximize asset utilization, further reduce costs and improve long-term return on invested capital throughout its international operations. The Company expects all costs associated with Fiscal 2007 Wine Plan to be recognized in its Consolidated Statements of Operations by February 28, 2011, with related cash expenditures to be completed by February 28, 2011.

Fiscal 2008 Plan

During November 2007, the Company initiated its plans to streamline certain of its international operations, including the consolidation of certain winemaking and packaging operations in Australia, the buy-out of certain grape processing and wine storage contracts in Australia, equipment relocation costs in Australia, and certain employee termination costs. In addition, the Company incurred certain other restructuring and related charges during the third quarter of fiscal 2008 in connection with the consolidation of certain spirits production processes in the U.S. In January 2008, the Company announced its plans to streamline certain of its operations in the U.S., primarily in connection with the restructuring and integration of the operations acquired in the BWE Acquisition (the U.S. Initiative). These initiatives will collectively be referred to as the Fiscal 2008 Plan. The Fiscal 2008 Plan is part of the Company's ongoing efforts to maximize asset utilization, further reduce costs and improve long-term return on invested capital throughout its domestic and international operations. The Company expects all costs associated with Fiscal 2008 Plan to be recognized in its Consolidated Statements of Operations by February 28, 2010, with related cash expenditures to be completed by February 28, 2010.

Restructuring and related charges consisting of employee termination benefit costs, contract termination costs, and other associated costs are accounted for under either SFAS 112 or SFAS 146, as appropriate. Employee termination benefit costs are accounted for under SFAS 112, as the Company has had several restructuring programs which have provided employee termination benefits in the past. The Company includes employee severance, related payroll benefit costs such as costs to provide continuing health insurance, and outplacement services as employee termination benefit costs. Contract termination costs, and other associated costs including, but not limited to, facility consolidation and relocation costs are accounted for under SFAS 146. Per SFAS 146, contract termination costs are costs to terminate a contract that is not a capital lease, including costs to terminate the contract before the end of its term or costs that will continue to be incurred under the contract for its remaining term without economic benefit to the entity. The Company includes costs to terminate certain operating leases for buildings, computer and IT equipment, and costs to terminate contracts, including distributor contracts and contracts for long-term purchase commitments, as contract termination costs. Per SFAS 146, other associated costs include, but are not limited to, costs to consolidate or close facilities and relocate employees. The Company includes employee relocation costs and equipment relocation costs as other associated costs.

Table of Contents**20. CONDENSED CONSOLIDATING FINANCIAL INFORMATION:**

The following information sets forth the condensed consolidating balance sheets as of February 29, 2008, and February 28, 2007, the condensed consolidating statements of operations and cash flows for each of the three years in the period ended February 29, 2008, for the Company, the parent company, the combined subsidiaries of the Company which guarantee the Company's senior notes and senior subordinated notes ("Subsidiary Guarantors") and the combined subsidiaries of the Company which are not Subsidiary Guarantors (primarily foreign subsidiaries) ("Subsidiary Nonguarantors"). The Subsidiary Guarantors are wholly owned and the guarantees are full, unconditional, joint and several obligations of each of the Subsidiary Guarantors. Separate financial statements for the Subsidiary Guarantors of the Company are not presented because the Company has determined that such financial statements would not be material to investors. The accounting policies of the parent company, the Subsidiary Guarantors and the Subsidiary Nonguarantors are the same as those described for the Company in the Summary of Significant Accounting Policies in Note 1 and include the recently adopted accounting pronouncement described in Note 2. There are no restrictions on the ability of the Subsidiary Guarantors to transfer funds to the Company in the form of cash dividends, loans or advances.

21. BUSINESS SEGMENT INFORMATION:

As a result of the Company's investment in Crown Imports, the Company has changed its internal management financial reporting to consist of three business divisions, Constellation Wines, Constellation Spirits and Crown Imports. Prior to the investment in the joint venture, the Company's internal management financial reporting included the Constellation Beers business division. Consequently, the Company reports its operating results in five segments: Constellation Wines (branded wine, and wholesale and other), Constellation Spirits (distilled spirits), Constellation Beers (imported beer), Corporate Operations and Other and Crown Imports (imported beer). Segment results for Constellation Beers are for the period prior to January 2, 2007, and segment results for Crown Imports are for the period on and after January 2, 2007. Amounts included in the Corporate Operations and Other segment consist of general corporate administration and finance expenses. These amounts include costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations, global information technology and global strategic sourcing. Any costs incurred at the corporate office that are

applicable to the segments are allocated to the appropriate segment. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in the chief operating decision maker's evaluation of the operating income performance of the other operating segments.

The business segments reflect how the Company's operations are managed, how operating performance within the Company is evaluated by senior management and the structure of its internal financial reporting.

Table of Contents

In addition, the Company excludes acquisition-related integration costs, restructuring and related charges and unusual items that affect comparability from its definition of operating income for segment purposes as these items are not reflective of normal continuing operations of the segments. The Company excludes these items as segment operating performance and segment management compensation is evaluated based upon a normalized segment operating income. As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

For the year ended February 29, 2008, acquisition-related integration costs, restructuring and related charges and unusual costs included in operating (loss) income consist of impairment losses of goodwill and intangible assets primarily associated with the Company's Australian and U.K. businesses of \$812.2 million; other costs associated primarily with the sale of the Company's Almaden and Inglenook wine brands and certain other assets of \$35.3 million; accelerated depreciation associated primarily with the Fiscal 2007 Wine Plan and Fiscal 2008 Plan of \$12.0 million; acquisition-related integration costs and inventory write-offs associated primarily with the Vincor Plan and Fiscal 2008 Plan of \$11.8 million and \$10.1 million, respectively; the flow through of inventory step-up associated primarily with the Company's Vincor Acquisition and BWE Acquisition of \$11.4 million; restructuring and related charges associated primarily with the Fiscal 2008 Plan of \$6.9 million; the loss on the contribution of the U.K. wholesale business of \$6.6 million; and the flow through of adverse grape cost (as described below) of \$0.1 million associated with the acquisition of Robert Mondavi; partially offset by a \$4.8 million realized gain on a prior asset sale. For the year ended February 29, 2008, acquisition-related integration costs, restructuring and related charges and unusual costs included in equity in earnings of equity method investees consist of an impairment loss of the Company's investment in Ruffino of \$15.1 million and the flow through of inventory step-up associated with the Opus One investment of \$0.9 million. Adverse grape cost represents the amount of historical inventory cost on Robert Mondavi's balance sheet that exceeds the Company's estimated ongoing grape cost and is primarily due to the purchase of grapes by Robert Mondavi prior to the acquisition date at above-market prices as required under the terms of their existing grape purchase contracts.

For the year ended February 28, 2007, acquisition-related integration costs, restructuring and related charges and unusual costs included in operating (loss) income consist of restructuring and related charges of \$32.5 million associated primarily with the Fiscal 2007 Wine Plan and Fiscal 2006 Plan; the flow through of inventory step-up of \$30.2 million associated primarily with the Company's Vincor Acquisition; acquisition-related integration costs of \$23.6 million associated primarily with the Vincor Plan; other costs of \$16.3 million associated with the Fiscal 2007 Wine Plan and Fiscal 2006 Plan; loss on the sale of the branded bottled water business of \$13.4 million; financing costs of \$11.9 million related primarily to the Company's new senior credit facility entered into in connection with the Vincor Acquisition; foreign currency losses of \$5.4 million on foreign denominated intercompany loan balances associated with the Vincor Acquisition; the flow through of adverse grape cost of \$3.1 million associated with the acquisition of Robert Mondavi; and accelerated depreciation and the write-down of certain inventory of \$6.6 million and \$0.6 million, respectively, associated primarily with the Fiscal 2006 Plan and Fiscal 2007 Wine Plan. For the year ended February 28, 2007, acquisition-related integration costs, restructuring and related charges and unusual costs included in equity in earnings of equity method investees consist of the flow through of inventory step-up associated primarily with the Opus One investment of \$2.8 million.

Table of Contents

For the year ended February 28, 2006, acquisition-related integration costs, restructuring and related charges and unusual costs included in operating (loss) income consist of restructuring and related charges associated primarily with the Fiscal 2006 Plan and the Robert Mondavi Plan of \$29.3 million; the flow through of adverse grape cost, acquisition-related integration costs and the flow through of inventory step-up associated primarily with the Company's acquisition of Robert Mondavi of \$23.0 million, \$16.8 million, and \$7.9 million, respectively; accelerated depreciation and other costs associated with the Fiscal 2006 Plan of \$13.4 million and \$0.1 million, respectively; and costs associated with professional service fees incurred for due diligence in connection with the Company's evaluation of a potential offer for Allied Domecq of \$3.4 million. For the year ended February 28, 2006, acquisition-related integration costs, restructuring and related charges and unusual costs included in equity in earnings of equity method investees consist of the flow through of inventory step-up associated with the Ruffino and Opus One investments of \$9.7 million.

The Company evaluates performance based on operating income of the respective business units. The accounting policies of the segments are the same as those described for the Company in the Summary of Significant Accounting Policies in Note 1 and include the recently adopted accounting pronouncement described in Note 2. Transactions between segments consist mainly of sales of products and are accounted for at cost plus an applicable margin.

22. ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED:

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 (SFAS No. 157), Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing the asset or liability. The Company is required to adopt SFAS No. 157 for fiscal years and interim periods beginning March 1, 2008. The adoption of SFAS No. 157 on March 1, 2008, did not have a material impact on the Company's consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158 (SFAS No. 158), Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires companies to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The Company adopted this provision of SFAS No. 158 and provided the required disclosures as of February 28, 2007. SFAS No. 158 also requires companies to measure the funded status of a plan as of the date of the company s fiscal year-end (with limited exceptions), which provision the Company is required to adopt as of February 28, 2009. The Company uses a December 31 measurement date for its defined benefit pension and other post-retirement plans and has elected to transition to a fiscal year-end measurement date utilizing the second alternative prescribed by SFAS No. 158. Accordingly, on March 1, 2008, the Company recognized adjustments to its opening retained earnings, accumulated other comprehensive income, net of income tax effect, and pension and other post-retirement plan assets or liabilities. These adjustments did not have a material impact on the Company s consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159 (SFAS No. 159), The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115. SFAS No. 159 permits companies to choose to measure many financial instruments and certain other items at fair value. Most of the provisions in SFAS No. 159 are elective; however, the amendment to Statement of Financial Accounting Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities , applies to all entities with available-for-sale and trading securities. The fair value option established by SFAS No. 159 allows companies to choose to measure eligible items at fair value at specified election dates. The Company will report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. The fair value option: (i) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (ii) is irrevocable (unless a new election date occurs); and (iii) is applied only to entire instruments and not to portions of instruments. The Company is required to adopt SFAS No. 159 for fiscal years beginning March 1, 2008. The adoption of SFAS No. 159 on March 1, 2008, did not have a material impact on the Company s consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) (SFAS No. 141(R)), Business Combinations. SFAS No. 141(R), among other things, establishes principles and requirements for how the acquirer in a business combination (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired business, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The Company is required to adopt SFAS No. 141(R) for all business combinations for which the acquisition date is on or after March 1, 2009. Earlier adoption is prohibited.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 (SFAS No. 160), Noncontrolling Interests in Consolidated Financial Statements – An Amendment of ARB No. 51. SFAS No. 160 amends Accounting Research Bulletin No. 51 (ARB No. 51), Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement also amends certain of ARB No. 51's consolidation procedures for consistency with the requirements of SFAS No. 141(R). In addition, SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The Company is required to adopt SFAS No. 160 for fiscal years beginning March 1, 2009. Earlier adoption is prohibited. The Company is currently assessing the financial impact of SFAS No. 160 on its consolidated financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities – An Amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires enhanced disclosures about an entity's derivative and hedging activities to enable investors to better understand their effects on an entity's financial position, financial performance, and cash flows. The Company is required to adopt SFAS No. 161 for its interim period beginning December 1, 2008, with earlier application encouraged. The Company is currently assessing the financial impact of SFAS No. 161 on its consolidated financial statements.
