Purchase Plan, the option is ultimately exercisable for an exercise price which is the lower of 100% of the market value on the grant date or 85% of the market value on the day prior to the exercise date. The number of shares exercised is based on the option amount divided by the lower of 100% of the market value on the grant date or 85% of the market value on the day prior to the exercise date.

- The option will be exercisable for that number of shares equal to the option amount (25% of the optionee's quarterly salary less \$6,250)
- (5) divided by the lesser of the market value of the common stock on the grant date or 85% of the market value on the day prior to the exercise date.
