American Campus Communities Operating Partnership, L.P.

Yes No

There were 104,931,996 shares of the American Campus Communities, Inc.'s common stock with a par value of \$0.01 per share outstanding as of the close of business on August 4, 2014.

EXPLANATORY NOTE

This report combines the reports on Form 10-Q for the quarterly period ended June 30, 2014 of American Campus Communities, Inc. and American Campus Communities Operating Partnership, L.P. Unless stated otherwise or the context otherwise requires, references to “ACC” mean American Campus Communities, Inc., a Maryland real estate investment trust (“REIT”), and references to “ACCOP” mean American Campus Communities Operating Partnership, L.P., a Maryland limited partnership. References to the “Company,” “we,” “us” or “our” mean collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the “Operating Partnership” mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP. The following chart illustrates the Company’s and the Operating Partnership’s corporate structure:

The general partner of ACCOP is American Campus Communities Holdings, LLC (“ACC Holdings”), an entity that is wholly-owned by ACC. As of June 30, 2014, ACC Holdings held an ownership interest in ACCOP of less than 1%. The limited partners of ACCOP are ACC and other limited partners consisting of current and former members of management and nonaffiliated third parties. As of June 30, 2014, ACC owned an approximate 98.8% limited partnership interest in ACCOP. As the sole member of the general partner of ACCOP, ACC has exclusive control of ACCOP’s day-to-day management. Management operates the Company and the Operating Partnership as one business. The management of ACC consists of the same members as the management of ACCOP. The Company is structured as an umbrella partnership REIT (“UPREIT”) and ACC contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, ACC receives a number of units of the Operating Partnership (“OP Units,” see definition below) equal to the number of common shares it has issued in the equity offering. Contributions of properties to the Company can be structured as tax-deferred transactions through the issuance of OP Units in the Operating Partnership. Based on the terms of ACCOP’s partnership agreement, OP Units can be exchanged for ACC’s common shares on a one-for-one basis. The Company maintains a one-for-one relationship between the OP Units of the Operating Partnership issued to ACC and ACC Holdings and the common shares issued to the public. The Company believes that combining the reports on Form 10-Q of ACC and ACCOP into this single report provides the following benefits:

- (1) enhances investors’ understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
 - (2) eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and
 - (3) creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.
-

ACC consolidates ACCOP for financial reporting purposes, and ACC essentially has no assets or liabilities other than its investment in ACCOP. Therefore, the assets and liabilities of the Company and the Operating Partnership are the same on their respective financial statements. However, the Company believes it is important to understand the few differences between the Company and the Operating Partnership in the context of how the entities operate as a consolidated company. All of the Company's property ownership, development and related business operations are conducted through the Operating Partnership. ACC also issues public equity from time to time and guarantees certain debt of ACCOP, as disclosed in this report. ACC does not have any indebtedness, as all debt is incurred by the Operating Partnership. The Operating Partnership holds substantially all of the assets of the Company, including the Company's ownership interests in its joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from ACC's equity offerings, which are contributed to the capital of ACCOP in exchange for OP Units on a one-for-one common share per OP Unit basis, the Operating Partnership generates all remaining capital required by the Company's business. These sources include, but are not limited to, the Operating Partnership's working capital, net cash provided by operating activities, borrowings under its credit facility, and proceeds received from the disposition of certain properties. Noncontrolling interests, stockholders' equity, and partners' capital are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The noncontrolling interests in the Operating Partnership's financial statements consist of the interests of unaffiliated partners in various consolidated joint ventures. The noncontrolling interests in the Company's financial statements include the same noncontrolling interests at the Operating Partnership level and OP Unit holders of the Operating Partnership. The differences between stockholders' equity and partners' capital result from differences in the equity issued at the Company and Operating Partnership levels.

To help investors understand the significant differences between the Company and the Operating Partnership, this report provides separate consolidated financial statements for the Company and the Operating Partnership. A single set of consolidated notes to such financial statements is presented that includes separate discussions for the Company and the Operating Partnership when applicable (for example, noncontrolling interests, stockholders' equity or partners' capital, earnings per share or unit, etc.). A combined Management's Discussion and Analysis of Financial Condition and Results of Operations section is also included that presents discrete information related to each entity, as applicable. This report also includes separate Part I, Item 4 Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of the Company and the Operating Partnership in order to establish that the requisite certifications have been made and that the Company and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

In order to highlight the differences between the Company and the Operating Partnership, the separate sections in this report for the Company and the Operating Partnership specifically refer to the Company and the Operating Partnership. In the sections that combine disclosure of the Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and joint ventures and holds assets and debt, reference to the Company is appropriate because the Company operates its business through the Operating Partnership. The separate discussions of the Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Organization and Description of Business

American Campus Communities, Inc. (“ACC”) is a real estate investment trust (“REIT”) that commenced operations effective with the completion of an initial public offering (“IPO”) on August 17, 2004. Through ACC’s controlling interest in American Campus Communities Operating Partnership, L.P. (“ACCOP”), ACC is one of the largest owners, managers and developers of high quality student housing properties in the United States in terms of beds owned and under management. ACC is a fully integrated, self-managed and self-administered equity REIT with expertise in the acquisition, design, financing, development, construction management, leasing and management of student housing properties. ACC’s common stock is publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “ACC.”

The general partner of ACCOP is American Campus Communities Holdings, LLC (“ACC Holdings”), an entity that is wholly-owned by ACC. As of June 30, 2014, ACC Holdings held an ownership interest in ACCOP of less than 1%. The limited partners of ACCOP are ACC and other limited partners consisting of current and former members of management and nonaffiliated third parties. As of June 30, 2014, ACC owned an approximate 98.8% limited partnership interest in ACCOP. As the sole member of the general partner of ACCOP, ACC has exclusive control of ACCOP’s day-to-day management. Management operates ACC and ACCOP as one business. The management of ACC consists of the same members as the management of ACCOP. ACC consolidates ACCOP for financial reporting purposes, and ACC does not have significant assets other than its investment in ACCOP. Therefore, the assets and liabilities of ACC and ACCOP are the same on their respective financial statements. References to the “Company,” “we,” “us” or “our” mean collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the “Operating Partnership” mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP. Unless otherwise indicated, the accompanying Notes to the Consolidated Financial Statements apply to both the Company and the Operating Partnership.

As of June 30, 2014, our property portfolio contained 168 properties with approximately 102,700 beds in approximately 33,300 apartment units. Our property portfolio consisted of 144 owned off-campus student housing properties that are in close proximity to colleges and universities, 18 American Campus Equity (“ACE®”) properties operated under ground/facility leases with eight university systems, five on-campus participating properties operated under ground/facility leases with the related university systems and one property containing a hotel which we plan to redevelop into a new student housing facility. Of the 168 properties, ten were under development as of June 30, 2014, and when completed will consist of a total of approximately 7,100 beds in approximately 2,100 units. Our communities contain modern housing units and are supported by a resident assistant system and other student-oriented programming, with many offering resort-style amenities.

Through one of ACC’s taxable REIT subsidiaries (“TRSs”), we also provide construction management and development services, primarily for student housing properties owned by colleges and universities, charitable foundations, and others. As of June 30, 2014, also through one of ACC’s TRSs, we provided third-party management and leasing services for 33 properties that represented approximately 25,800 beds in approximately 10,300 units. Third-party management and leasing services are typically provided pursuant to management contracts that have initial terms that range from one to five years. As of June 30, 2014, our total owned and third-party managed portfolio included 201 properties with approximately 128,500 beds in approximately 43,600 units.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements, presented in U.S. dollars, are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the date of the financial statements, and revenue and expenses during the reporting periods. Our actual results could differ from those estimates and assumptions. All material intercompany transactions among consolidated entities have been eliminated. All dollar amounts in the tables herein, except share, per share, unit and per unit amounts, are stated in thousands unless otherwise indicated. Certain prior period amounts have been reclassified to conform to the current period presentation.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2014-09 ("ASU 2014-09"), "Revenue From Contracts With Customers (Topic 606)", ASU 2014-09 outlines a single comprehensive model for

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The ASU is based on the principle that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to fulfill a contract. Entities have the option of using either a full retrospective or a modified retrospective approach for the adoption of the new standard. ASU 2014-09 is effective for the Company at the beginning of its 2017 fiscal year; early adoption is not permitted. We are currently assessing the impact that this standard will have on our consolidated financial statements.

In April 2014, the FASB issued Accounting Standards Update 2014-08 ("ASU 2014-08"), "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) - Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 changes the threshold for disclosing discontinued operations and the related disclosure requirements, requiring only disposals representing a strategic shift, such as a major line of business, a major geographical area or a major equity investment, to be presented as a discontinued operation. If the disposal does qualify as a discontinued operation under ASU 2014-08, the Company will be required to provide expanded disclosures. The guidance will be applied prospectively to new disposals and new classifications of disposal groups as held for sale after the effective date. ASU 2014-08 is effective for the Company beginning January 1, 2015 with early adoption permitted but only for disposals or classifications as held for sale which have not been reported in financial statements previously issued or available for issuance. While we have elected early adoption for our consolidated financial statements and footnote disclosures and believe future sales of our individual operating properties will no longer qualify as discontinued operations, the sale of Hawks Landing in February 2014 has continued to be presented in discontinued operations as the property was classified as held for sale in our consolidated financial statements for the year ended December 31, 2013.

Interim Financial Statements

The accompanying interim financial statements are unaudited, but have been prepared in accordance with GAAP for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements of the Company for these interim periods have been included. Because of the seasonal nature of the Company's operations, the results of operations and cash flows for any interim period are not necessarily indicative of results for other interim periods or for the full year. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments in Real Estate

Investments in real estate are recorded at historical cost. Major improvements that extend the life of an asset are capitalized and depreciated over the remaining useful life of the asset. The cost of ordinary repairs and maintenance are charged to expense when incurred. Depreciation and amortization are recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	7-40 years
Leasehold interest - on-campus participating properties	25-34 years (shorter of useful life or respective lease term)
Furniture, fixtures and equipment	3-7 years

Project costs directly associated with the development and construction of an owned real estate project, which include interest, property taxes, and amortization of deferred finance costs, are capitalized as construction in progress. Upon completion of the project, costs are transferred into the applicable asset category and depreciation commences. Interest totaling approximately \$2.7

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

million and \$3.4 million was capitalized during the three months ended June 30, 2014 and 2013, respectively, and \$4.9 million and \$5.8 million was capitalized during the six months ended June 30, 2014 and 2013, respectively. Amortization of deferred financing costs totaling approximately \$2,000 and \$25,000 was capitalized as construction in progress during the three months ended June 30, 2014 and 2013, respectively, and \$7,000 and \$0.1 million was capitalized as construction in progress during the six months ended June 30, 2014 and 2013, respectively.

Management assesses whether there has been an impairment in the value of the Company's investments in real estate whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Impairment is recognized when estimated expected future undiscounted cash flows are less than the carrying value of the property. The estimation of expected future net cash flows is inherently uncertain and relies on assumptions regarding current and future economics and market conditions. If such conditions change, then an adjustment to the carrying value of the Company's long-lived assets could occur in the future period in which the conditions change. To the extent that a property is impaired, the excess of the carrying amount of the property over its estimated fair value is charged to earnings. The Company also performs a periodic assessment to determine which long-lived assets are likely to be sold prior to the end of their estimated useful lives. For those probable sales, an impairment charge is recorded for any excess of the carrying value of the asset over the expected net proceeds from the disposal. The Company believes that there were no impairments of the carrying values of its investments in real estate as of June 30, 2014.

The Company allocates the purchase price of acquired properties to net tangible and identified intangible assets based on relative fair values. Fair value estimates are based on information obtained from a number of sources, including independent appraisals that may be obtained in connection with the acquisition or financing of the respective property, our own analysis of recently acquired and existing comparable properties in our portfolio, and other market data. Information obtained about each property as a result of due diligence, marketing and leasing activities is also considered. The value allocated to land is generally based on the actual purchase price adjusted to fair value (as necessary) if acquired separately, or market research/comparables if acquired as part of an existing operating property. The value allocated to building is based on the fair value determined on an "as-if vacant" basis, which is estimated using an income, or discounted cash flow, approach that relies upon internally determined assumptions that we believe are consistent with current market conditions for similar properties. The value allocated to furniture, fixtures, and equipment is based on an estimate of the fair value of the appliances and fixtures inside the units.

Loans Receivable

Loans held for investment are intended to be held to maturity and, accordingly, are carried at cost, net of unamortized loan purchase discounts, and net of an allowance for loan losses when such loan is deemed to be impaired. Loan purchase discounts are amortized over the term of the loan. The Company considers a loan impaired when, based upon current information and events, it is probable that it will be unable to collect all amounts due for both principal and interest according to the contractual terms of the loan agreement. Significant judgments are required in determining whether impairment has occurred. The Company performs an impairment analysis by comparing either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's observable current market price or the fair value of the underlying collateral to the net carrying value of the loan, which may result in an allowance and corresponding loan loss charge. Loans receivable are included in other assets on the accompanying consolidated balance sheets.

Intangible Assets

A portion of the purchase price of acquired properties is allocated to the value of in-place leases for both student and commercial tenants, which is based on the difference between (i) the property valued with existing in-place leases adjusted to market rental rates and (ii) the property valued “as-if” vacant. As lease terms for student leases are typically one year or less, rates on in-place leases generally approximate market rental rates. Factors considered in the valuation of in-place leases include an estimate of the carrying costs during the expected lease-up period considering current market conditions, nature of the tenancy, and costs to execute similar leases. Carrying costs include estimates of lost rentals at market rates during the expected lease-up period, as well as marketing and other operating expenses. The value of in-place leases is amortized over the remaining initial term of the respective leases. The purchase price of property acquisitions is not expected to be allocated to student tenant relationships, considering the terms of the leases and the expected levels of renewals.

Amortization expense related to in-place leases was approximately \$0.9 million and \$5.4 million for the three months ended June 30, 2014 and 2013, respectively and \$1.8 million and \$10.9 million for the six months ended June 30, 2014 and 2013, respectively. Accumulated amortization at June 30, 2014 and December 31, 2013 was approximately \$27.3 million and \$25.5 million, respectively. Intangible assets, net of amortization, are included in other assets on the accompanying consolidated balance

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

sheets and the amortization of intangible assets is included in depreciation and amortization expense in the accompanying consolidated statements of comprehensive income.

Mortgage Debt - Premiums and Discounts

Mortgage debt premiums and discounts represent fair value adjustments to account for the difference between the stated rates and market rates of mortgage debt assumed in connection with the Company's property acquisitions. The mortgage debt premiums and discounts are amortized to interest expense over the term of the related mortgage loans using the effective-interest method. The amortization of mortgage debt premiums and discounts resulted in a net decrease to interest expense of approximately \$3.2 million and \$3.5 million for the three months ended June 30, 2014 and 2013, respectively, and \$6.4 million and \$7.1 million for the six months ended June 30, 2014 and 2013, respectively. As of June 30, 2014 and December 31, 2013, net unamortized mortgage debt premiums were approximately \$67.5 million and \$74.6 million, respectively, and net unamortized mortgage debt discounts were approximately \$1.4 million and \$2.0 million, respectively. Mortgage debt premiums and discounts are included in secured mortgage, construction and bond debt on the accompanying consolidated balance sheets and amortization of mortgage debt premiums and discounts is included in interest expense on the accompanying consolidated statements of comprehensive income.

Unsecured Notes - Original Issue Discount

In April 2013 and again in June 2014, the Company issued \$400 million of senior unsecured notes (see Note 8) at 99.659 percent and 99.861 percent of par value, respectively, and recorded an original issue discount of approximately \$1.4 million and \$0.6 million, respectively. The total unamortized original issue discount was approximately \$1.8 million and \$1.3 million as of June 30, 2014 and December 31, 2013, respectively, and is included in unsecured notes on the accompanying consolidated balance sheets. Amortization of the original issue discounts of approximately \$30,000 and \$28,000 for the three months ended June 30, 2014 and 2013, respectively, and \$59,000 and \$28,000 for the six months ended June 30, 2014 and 2013, respectively, is included in interest expense on the accompanying consolidated statements of comprehensive income.

Pre-development Expenditures

Pre-development expenditures such as architectural fees, permits and deposits associated with the pursuit of third-party and owned development projects are expensed as incurred, until such time that management believes it is probable that the contract will be executed and/or construction will commence. Because the Company frequently incurs these pre-development expenditures before a financing commitment and/or required permits and authorizations have been obtained, the Company bears the risk of loss of these pre-development expenditures if financing cannot ultimately be arranged on acceptable terms or the Company is unable to successfully obtain the required permits and authorizations. As such, management evaluates the status of third-party and owned projects that have not yet commenced construction on a periodic basis and expenses any deferred costs related to projects whose current status indicates the commencement of construction is unlikely and/or the costs may not provide future value to the Company in the form of revenues. Such write-offs are included in third-party development and management services expenses (in the case of third-party development projects) or general and administrative expenses (in the case of owned development projects) on the accompanying consolidated statements of comprehensive income. As of June 30, 2014, the Company has deferred approximately \$4.2 million in pre-development costs related to third-party and owned development projects that have not yet commenced construction. Such costs are included in other assets on the

accompanying consolidated balance sheets.

Earnings per Share – Company

Basic earnings per share is computed using net income attributable to common shareholders and the weighted average number of shares of the Company's common stock outstanding during the period. Diluted earnings per share reflect common shares issuable from the assumed conversion of OP Units and common share awards granted. Only those items having a dilutive impact on basic earnings per share are included in diluted earnings per share.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

The following potentially dilutive securities were outstanding for the three and six months ended June 30, 2014 and 2013, but were not included in the computation of diluted earnings per share because the effects of their inclusion would be anti-dilutive.

	Three Months Ended		Six Months Ended	
	June 30, 2014	2013	June 30, 2014	2013
Common OP Units (Note 10)	1,230,219	1,133,076	1,230,219	1,133,076

Earnings per Unit – Operating Partnership

Basic earnings per OP Unit is computed using net income attributable to common unitholders and the weighted average number of common units outstanding during the period. Diluted earnings per OP Unit reflects the potential dilution that could occur if securities or other contracts to issue OP Units were exercised or converted into OP Units or resulted in the issuance of OP Units and then shared in the earnings of the Operating Partnership.

The following is a summary of the elements used in calculating basic and diluted earnings per unit:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Numerator – basic and diluted earnings per unit:				
Income from continuing operations	\$ 13,731	\$ 5,910	\$ 39,878	\$ 26,243
Income from continuing operations attributable to noncontrolling interests – partially owned properties	(88)	(483)	(176)	(995)
Income from continuing operations attributable to Series A preferred units	(45)	(43)	(87)	(86)
Amount allocated to participating securities	(263)	(220)	(584)	(492)
Income from continuing operations attributable to common unitholders, net of amount allocated to participating securities	13,335	5,164	39,031	24,670
Income from discontinued operations	—	2,756	2,720	4,804

3. Property Acquisitions

On January 10, 2014, the Company acquired the Boulder Outlook Hotel property, which is located near the University of Colorado campus, for a purchase price of approximately \$9.3 million. The seller will operate the hotel until the fourth quarter 2014 or first quarter 2015, at which point the hotel will be demolished and construction on a new student housing facility will commence.

4. Property Dispositions and Discontinued Operations

2014 Dispositions

In February 2014, the Company sold Hawks Landing, a 122-unit, 484-bed owned off-campus property located near the campus of Miami University of Ohio for a sales price of approximately \$17.3 million, including the assumption of an existing \$15.6 million mortgage loan by the purchaser, resulting in net proceeds of approximately \$1.3 million. The resulting gain on disposition of approximately \$2.8 million is included in discontinued operations on the accompanying consolidated statements of comprehensive income for the six months ended June 30, 2014.

2013 Dispositions

In 2013, the Company sold six owned off-campus properties containing 4,079 beds for a combined sales price of approximately \$184.2 million resulting in total proceeds of approximately \$180.5 million. The net income attributable to these properties is included in discontinued operations on the accompanying consolidated statements of comprehensive income for the three and six months ended June 30, 2013.

The properties discussed above are included in the wholly-owned properties segment (see Note 15). Below is a summary of the results of operations for the properties discussed above:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Total revenues	\$—	\$6,454	\$279	\$12,894

5. Investments in Wholly-Owned Properties

Wholly-owned properties consisted of the following:

	June 30, 2014	December 31, 2013
Land ⁽¹⁾ ⁽²⁾	\$ 586,623	\$ 575,944
Buildings and improvements	4,803,240	4,759,879
Furniture, fixtures and equipment ⁽²⁾	272,395	267,022
Construction in progress ⁽²⁾	243,930	121,923
	5,906,188	5,724,768
Less accumulated depreciation	(614,527) (525,760
Wholly-owned properties, net ⁽³⁾	\$ 5,291,661	\$ 5,199,008

The land balance above includes undeveloped land parcels with book values of approximately \$40.6 million as of ⁽¹⁾ both June 30, 2014 and December 31, 2013. Also includes land totaling approximately \$50.3 million and \$39.4 million as of June 30, 2014 and December 31, 2013, respectively, related to properties under development.

Land, furniture, fixtures and equipment and construction in progress as of June 30, 2014 include \$3.6 million, \$0.6 million and \$18.1 million, respectively, related to the University Walk property located in Knoxville, Tennessee that will serve students attending the University of Tennessee. In July 2013, the Company entered into a purchase and contribution agreement with a private developer whereby the Company is obligated to purchase the property as long as the developer meets certain construction completion deadlines and other closing conditions. The ⁽²⁾ development of the property is anticipated to be completed in August 2014. The entity is financed with an \$8.8 million mezzanine loan from the Company, a \$19.0 million construction loan from a third-party lender and a \$1.5 million equity contribution from the developer. The Company is responsible for leasing, management, and initial operations of the project while the third-party developer is responsible for the development of the property. The entity that owns University Walk is deemed to be a variable interest entity (“VIE”), and the Company is determined to be the primary beneficiary of the VIE. As such, the assets and liabilities of the entity owning the property are included in the Company’s and the Operating Partnership’s consolidated financial statements.

The balance above excludes the net book value of Hawks Landing which was classified as a wholly-owned property ⁽³⁾ held for sale in the accompanying consolidated balance sheet as of December 31, 2013. The property was sold in February 2014.

			150,168	130,705
Less accumulated amortization			(59,688) (57,249
On-campus participating properties, net			\$90,480	\$73,456

(1) Consists of three phases placed in service between 1996 and 1998.

(2) Consists of two phases placed in service in 2000 and 2003.

(3) Consists of two phases placed in service in 2001 and 2005.

In July 2013, construction commenced on this facility which is scheduled to be placed in service in August 2014.

(4) Due to our involvement in the construction of the facility, any fees paid to the Company/lessee for development and construction management services during the construction period are deferred and amortized to revenue over the lease term.

7. Investments in Unconsolidated Joint Ventures

As of June 30, 2014, the Company owned a noncontrolling interest in one unconsolidated joint venture that is accounted for utilizing the equity method of accounting. The investment consists of a noncontrolling equity interest in a joint venture with the United States Navy that owns military housing privatization projects located on naval bases in Norfolk and Newport News, Virginia. In 2010, the Company discontinued applying the equity method in regards to its investment in this joint venture as a result of the Company's share of losses exceeding its investment in the joint venture. Because the Company had not guaranteed any obligations of the investee and was not otherwise committed to provide further financial support to the investee, it therefore suspended recording its share of losses once the investment was reduced to zero. We also earn fees for providing management services to this joint venture, which totaled approximately \$0.4 million for each of the three month periods ended June 30, 2014 and 2013 and \$0.8 million for the each of the six month periods ended June 30, 2014 and 2013.

8. Debt

A summary of the Company's outstanding consolidated indebtedness, including unamortized debt premiums and discounts, is as follows:

	June 30, 2014	December 31, 2013
Debt secured by wholly-owned properties:		
Mortgage loans payable:		
Unpaid principal balance	\$1,193,090	\$1,300,371
Unamortized debt premiums	67,518	74,575
Unamortized debt discounts	(1,365) (2,021
	1,259,243	1,372,925
Construction loans payable ⁽¹⁾	56,603	44,638
	1,315,846	1,417,563
Debt secured by on-campus participating properties:		
Mortgage loan payable	31,024	31,380
Bonds payable	42,440	42,440
Construction loan payable	36,088	15,833
	109,552	89,653
Secured mortgage, construction and bond debt	1,425,398	1,507,216
Secured agency facility	87,750	87,750
Unsecured notes, net of unamortized original issue discount	798,224	398,721
Unsecured revolving credit facility	—	150,700
Unsecured term loans	600,000	600,000
Total debt	\$2,911,372	\$2,744,387

Construction loans payable as of June 30, 2014 includes \$12.0 million related to a construction loan that is partially financing the development and construction of University Walk, a VIE the Company is including in its consolidated financial statements (see Note 5). The creditor of this construction loan does not have recourse to the assets of the Company.

Unsecured Notes

In June 2014, the Operating Partnership issued an additional \$400 million in senior unsecured notes under its existing shelf registration. These 10-year notes were issued at 99.861 percent of par value with a coupon of 4.125 percent and a yield of 4.142 percent, and are fully and unconditionally guaranteed by the Company. Interest on the notes is payable semi-annually on January 1 and July 1, with the first payment beginning on January 1, 2015. The notes will mature on July 1, 2024. Net proceeds from the sale of the unsecured notes totaled approximately \$395.3 million after deducting the underwriting discount and offering expenses. The underwriting discount and offering expenses were capitalized to deferred financing costs and will be amortized over the term of the unsecured notes. The Company used \$340 million of the offering proceeds to pay down the outstanding balance on its revolving credit facility in full. The terms of the unsecured notes include certain financial covenants that require the Operating Partnership to limit the amount of total debt and secured debt as a percentage of total asset value, as defined. In addition, the Operating Partnership must maintain a minimum ratio of unencumbered asset value to unsecured debt, as well as a minimum interest coverage level. As of June 30, 2014, the Company was in compliance with all such covenants.

In connection with the issuance of unsecured notes discussed above, the Company terminated two forward starting interest rate swap contracts with notional amounts totaling \$200 million, resulting in payments to both counterparties totaling approximately \$4.1 million, which were recorded in accumulated other comprehensive loss and will be amortized to interest expense over the term of the unsecured notes. When including the effect of these interest rate swap terminations, the effective yield on the unsecured notes is 4.269%. Refer to Note 12 for more information on the interest rate swap contracts mentioned above.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Unsecured Credit Facility

The Company has an aggregate unsecured credit facility totaling \$1.1 billion which is comprised of two unsecured term loans totaling \$600 million and a \$500 million unsecured revolving credit facility, which may be expanded by up to an additional \$500 million upon the satisfaction of certain conditions. The maturity date of the unsecured revolving credit facility is March 1, 2018, and can be extended for an additional 12 months to March 1, 2019, subject to the satisfaction of certain conditions. The maturity date of the \$350 million term loan facility ("Term Loan I Facility") is January 10, 2017 and can be extended to January 10, 2019 through the exercise of two 12-month extension options, subject to the satisfaction of certain conditions. The maturity date of the \$250 million term loan ("Term Loan II Facility") is March 1, 2019.

Each loan bears interest at a variable rate, at the Company's option, based upon a base rate or one-, two-, three- or six-month LIBOR, plus, in each case, a spread based upon the Company's investment grade rating from either Moody's Investor Services, Inc. or Standard & Poor's Rating Group. As of June 30, 2014, the Term Loan II Facility bore interest at a variable rate of 1.66% per annum (0.16% + 1.50% spread). The Company has entered into multiple interest rate swap contracts with notional amounts totaling \$350 million that effectively fix the interest rate to a weighted average annual rate of 0.88% on the outstanding balance of the Term Loan I Facility. Including the current spread of 1.50%, the all-in weighted average annual rate on the Term Loan I Facility was 2.38% at June 30, 2014. Refer to Note 12 for more information on the interest rate swap contracts mentioned above.

Availability under the revolving credit facility is limited to an "aggregate borrowing base amount" equal to 60% of the value of the Company's unencumbered properties, calculated as set forth in the unsecured credit facility. Additionally, the Company is required to pay a facility fee of 0.25% per annum on the \$500 million revolving credit facility. As discussed above, in June 2014 the Company paid down the outstanding balance on its revolving credit facility in full with proceeds from a \$400 million offering of senior secured notes. As a result, availability under the revolving credit facility totaled \$500 million as of June 30, 2014.

The terms of the unsecured credit facility include certain restrictions and covenants, which limit, among other items, the incurrence of additional indebtedness, liens, and the disposition of assets. The facility contains customary affirmative and negative covenants and also contains financial covenants that, among other things, require the Company to maintain certain minimum ratios of "EBITDA" (earnings before interest, taxes, depreciation and amortization) to fixed charges and total indebtedness. The Company may not pay distributions that exceed a specified percentage of funds from operations, as adjusted, for any four consecutive quarters. The financial covenants also include consolidated net worth and leverage ratio tests. As of June 30, 2014, the Company was in compliance with all such covenants.

Secured Agency Facility

The Company has a \$125 million secured revolving credit facility with a Freddie Mac lender which is scheduled to mature on September 1, 2014 and is currently secured by 8 properties referred to as the "Collateral Pool." The facility bears interest at one- or three-month LIBOR plus a spread that varies based on the debt service ratio of the Collateral Pool. Additionally, the Company is required to pay an unused commitment fee of 1.0% per annum. As of June 30, 2014, the secured agency facility bore interest at a weighted average annual rate of 2.19%. The secured agency facility includes some, but not all, of the same financial covenants as the unsecured credit facility, described above. As of June 30, 2014, the Company was in compliance with all such covenants.

9. Stockholders' Equity / Partners' Capital

In March 2013, the Company established a new at-the-market share offering program (the “ATM Equity Program”) through which the Company may issue and sell, from time to time, shares of common stock having an aggregate offering price of up to \$500 million. Actual sales under the program will depend on a variety of factors, including, but not limited to, market conditions, the trading price of the Company’s common stock and determinations of the appropriate sources of funding for the Company. The Company has not sold any shares under the ATM Equity Program and has \$500 million available for issuance as of June 30, 2014.

10. Noncontrolling Interests

Operating Partnership

Partially-owned properties: As of June 30, 2014, the Operating Partnership consolidates three joint ventures that own and operate University Village at Sweet Home, University Centre and Villas at Chestnut Ridge owned-off campus properties. The portion of net assets attributable to the third-party partners in these joint ventures is classified as “noncontrolling interests - partially owned properties” within capital on the accompanying consolidated balance sheets of the Operating Partnership. Accordingly, the third-

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

party partners' share of the income or loss of the joint ventures is reported on the consolidated statements of comprehensive income of the Operating Partnership as "net income attributable to noncontrolling interests – partially owned properties."

As discussed in more detail in Note 5, the Company entered into a purchase and contribution agreement with a private developer whereby the Company is obligated to purchase the property (University Walk) as long as the developer meets certain construction completion deadlines and other closing conditions. The \$1.5 million equity contribution from the developer is reflected as noncontrolling interests - partially owned properties within capital on the accompanying consolidated balance sheet of the Operating Partnership as of June 30, 2014.

OP Units: For the portion of OP Units that the Operating Partnership is required, either by contract or securities law, to deliver registered common shares of ACC to the exchanging OP unit holder, or for which the Operating Partnership has the intent or history of exchanging such units for cash, we classify the units as "redeemable limited partners" in the mezzanine section of the consolidated balance sheets of the Operating Partnership. The units classified as such include Series A preferred units as well as common units that are not held by ACC or ACC Holdings. The value of redeemable limited partners on the consolidated balance sheets of the Operating Partnership is reported at the greater of fair value or historical cost at the end of each reporting period. Changes in the value from period to period are charged to limited partner's capital on the consolidated statement of changes in capital of the Operating Partnership. Below is a table summarizing the activity of redeemable limited partners for the six months ended June 30, 2014:

December 31, 2013	\$47,964	
Net income	586	
Distributions	(1,000)
Conversion of redeemable limited partner units into shares of ACC common stock	(190)
Adjustments to reflect redeemable limited partner units at fair value	5,694	
June 30, 2014	\$53,054	

During the six months ended June 30, 2014, 13,000 common OP units and 2,269 Series A preferred units were converted into an equal number of shares of ACC's common stock and during the year ended December 31, 2013, 1,500 Series A preferred units were converted into an equal number of shares of ACC's common stock. As of June 30, 2014 and December 31, 2013, approximately 1.2% and 1.3%, respectively, of the equity interests of the Operating Partnership were held by owners of common OP Units and Series A preferred units not held by ACC or ACC Holdings.

Company

The noncontrolling interests of the Company include the third-party equity interests in partially-owned properties, as discussed above, which are presented as a component of equity in the Company's consolidated balance sheets. The Company's noncontrolling interests also include the redeemable limited partners presented in the consolidated balance sheets of the Operating Partnership, which are referred to as "redeemable noncontrolling interests" in the mezzanine section of the Company's consolidated balance sheets. Noncontrolling interests on the Company's consolidated statements of comprehensive income include the income/loss attributable to third-party equity interests in partially-owned properties, as well as the income/loss attributable to redeemable noncontrolling interests (i.e. OP Units not held by ACC or ACC Holdings.)

11. Incentive Award Plan

Restricted Stock Units (“RSUs”)

Upon reelection to the Board of Directors in May 2014, all members of the Company’s Board of Directors were granted restricted stock units (“RSUs”) in accordance with the American Campus Communities, Inc. 2010 Incentive Award Plan (the “Plan”). These RSUs were valued at \$95,000 for the Chairman of the Board of Directors and at \$71,500 for all other members. The number of RSUs was determined based on the fair market value of the Company’s stock on the date of grant, as defined in the Plan. All awards vested and settled immediately on the date of grant, and the Company delivered shares of common stock and cash, as determined by the Compensation Committee of the Board of Directors. A compensation charge of approximately \$0.6 million was recorded during the six months ended June 30, 2014 related to these awards.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

A summary of ACC's RSUs under the Plan as of June 30, 2014 and activity during the six months then ended is presented below:

	Number of RSUs	
Outstanding at December 31, 2013	—	
Granted	15,457	
Settled in common shares	(9,027)
Settled in cash	(6,430)
Outstanding at June 30, 2014	—	

Restricted Stock Awards ("RSAs")

A summary of ACC's RSAs under the Plan as of June 30, 2014 and activity during the six months then ended, is presented below:

	Number of RSAs	
Nonvested balance at December 31, 2013	602,191	
Granted	292,526	
Vested	(124,883)
Forfeited ⁽¹⁾	(81,058)
Nonvested balance at June 30, 2014	688,776	

⁽¹⁾ Includes shares withheld to satisfy tax obligations upon vesting.

The fair value of RSA's is calculated based on the closing market value of ACC's common stock on the date of grant. The fair value of these awards is amortized to expense over the vesting periods, which amounted to approximately \$1.6 million for both three month periods ended June 30, 2014 and 2013 and \$3.5 million and \$3.2 million for the six months ended June 30, 2014 and 2013, respectively.

12. Derivative Instruments and Hedging Activities

The Company is exposed to certain risk arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's investments and borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps and forward starting swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash

flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Forward starting swaps are used to protect the Company against adverse fluctuations in interest rates by reducing its exposure to variability in cash flows relating to interest payments on a forecasted issuance of debt. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in other comprehensive income (outside of earnings) and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings. Ineffectiveness resulting from the derivative instruments summarized below was immaterial for both three and six month periods ended June 30, 2014 and 2013.

In February 2014, the Company renewed the Cullen Oaks Phase I and Phase II mortgage loans and extended the maturity date to February 15, 2021. The renewed loans bear interest at a rate of LIBOR plus 1.75% and require monthly payments of principal and interest. In connection with these loan renewals, the Company terminated the existing interest rate swap contract scheduled to mature on February 15, 2014, and entered into two new interest rate swap contracts described in the table above. Upon termination, the existing interest rate swap had a negative fair value of approximately \$0.2 million, which the Company settled by structuring the financing into the terms of new interest rate swaps (commonly referred to as a "blend and extend"). As a result, the two new interest rate swaps had a negative fair value of approximately \$0.2 million at inception of the hedging relationship.

In March 2014, the Company entered into two forward starting interest rate swap contracts with notional amounts totaling \$200 million designated to hedge the Company's exposure to increasing interest rates related to interest payments on an anticipated issuance of unsecured notes. As discussed in Note 8, in connection with the issuance of unsecured notes in June 2014, the Company terminated both swap contracts resulting in payments to both counterparties totaling approximately \$4.1 million, which were recorded in accumulated other comprehensive loss and will be amortized to interest expense over the term of the unsecured notes. Amortization of the loss totaled approximately \$15,000 for both the three and six months ended June 30, 2014.

The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the consolidated balance sheets as of June 30, 2014 and December 31, 2013:

Description	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	Fair Value as of June 30, 2014	Fair Value as of December 31, 2013	Balance Sheet Location	Fair Value as of June 30, 2014	Fair Value as of December 31, 2013
Interest rate swaps contracts	Other assets	\$—	\$31	Other liabilities	\$3,329	\$1,466
Total derivatives designated as hedging instruments		\$—	\$31		\$3,329	\$1,466

13. Fair Value Disclosures

The following table presents information about the Company's financial instruments measured at fair value on a recurring basis as of June 30, 2014 and December 31, 2013, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access. Fair values determined by Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability, such as interest rates and yield curves observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

In instances in which the inputs used to measure fair value may fall into different levels of the fair value hierarchy, the level in the fair value hierarchy within which the fair value measurement in its entirety has been determined is based on the lowest level input

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Disclosures concerning financial instruments measured at fair value are as follows:

	Fair Value Measurements as of June 30, 2014				December 31, 2013			
	Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total	Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets:								
Derivative financial instruments	\$—	\$—	\$ —	\$—	\$—	\$31	\$ —	\$31
Liabilities:								
Derivative financial instruments	\$—	\$3,329	\$ —	\$3,329	\$—	\$1,466	\$ —	\$1,466
Mezzanine: Redeemable noncontrolling interests (Company)/Redeemable limited partners (Operating Partnership)	\$—	\$53,054	\$ —	\$53,054	\$—	\$47,964	\$ —	\$47,964

The Company uses derivative financial instruments, specifically interest rate swaps and forward starting swaps for nontrading purposes. The Company uses interest rate swaps to manage interest rate risk arising from previously unhedged interest payments associated with variable rate debt and forward starting swaps to reduce exposure to variability in cash flows relating to interest payments on forecasted issuances of debt. Through June 30, 2014, derivative financial instruments were designated and qualified as cash flow hedges. Derivative contracts with positive net fair values inclusive of net accrued interest receipts or payments are recorded in other assets. Derivative contracts with negative net fair values, inclusive of net accrued interest payments or receipts, are recorded in other liabilities. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves.

The Company incorporates credit valuation adjustments to appropriately reflect its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds and guarantees.

Although the Company has determined the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by the Company and its counterparty. However, as of June 30, 2014 and December 31, 2013, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of the Company's derivative financial instruments. As a result, the Company has determined each of its derivative valuations in its entirety is classified in Level 2 of the fair value hierarchy.

Redeemable noncontrolling interests in the Operating Partnership have a redemption feature and are marked to their redemption value. The redemption value is based on the fair value of the Company's common stock at the redemption date, and therefore, is calculated based on the fair value of the Company's common stock at the balance sheet date. Since the valuation is based on observable inputs such as quoted prices for similar instruments in active markets, redeemable noncontrolling interests in the Operating Partnership are classified in Level 2 of the fair value hierarchy.

Other Fair Value Disclosures

Cash and Cash Equivalents, Restricted Cash, Student Contracts Receivable, Mezzanine Loans Receivable, Other Assets, Accounts Payable and Accrued Expenses and Other Liabilities: The Company estimates that the carrying amount approximates fair value, due to the short maturity of these instruments.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

Secured Agency Facility, Unsecured Term Loan Facility II, Unsecured Revolving Credit Facility and Construction Loans: The fair value of these instruments approximates carrying values due to the variable interest rate feature of these instruments.

Loans Receivable: The fair value of loans receivable is based on a discounted cash flow analysis consisting of scheduled cash flows and discount rate estimates to approximate those that a willing buyer and seller might use. These financial instruments utilize Level 3 inputs.

Unsecured Notes: In calculating the fair value of unsecured notes, interest rate and spread assumptions reflect current creditworthiness and market conditions available for the issuance of unsecured notes with similar terms and remaining maturities. These financial instruments utilize Level 2 inputs.

Mortgage Loans Payable: The fair value of mortgage loans payable is based on the present value of the cash flows at current market interest rates through maturity. The Company has concluded the fair value of these financial instruments are Level 2, as the majority of the inputs used to value these instruments fall within Level 2 of the fair value hierarchy.

Bonds Payable: The fair value of bonds payable is based on quoted prices in markets that are not active due to the unique characteristics of these financial instruments; as such, the Company has concluded the inputs used to measure fair value fall within Level 2 of the fair value hierarchy.

The table below contains the estimated fair value and related carrying amounts for the Company's financial instruments as of June 30, 2014 and December 31, 2013:

	June 30, 2014		December 31, 2013	
	Estimated Fair Value	Carrying Amount	Estimated Fair Value	Carrying Amount
Assets:				
Loans receivable	\$49,154	\$52,701	\$49,154	\$51,192
Liabilities:				
Unsecured notes	\$797,534	\$798,224	\$372,420	\$398,721
Mortgage loans	1,277,087	1,290,267	1,382,773	1,404,305
Bonds payable	47,039	42,440	44,908	42,440

14. Commitments and Contingencies

Commitments

Development-related guarantees: For its third-party development projects, the Company commonly provides alternate housing and project cost guarantees, subject to force majeure. These guarantees are typically limited, on an aggregate basis, to the amount of the projects' related development fees or a contractually agreed-upon maximum exposure amount. Alternate housing guarantees typically expire five days after construction is complete and generally require the Company to provide substitute living quarters and transportation for students to and from the university if the project is not complete by an agreed-upon completion date. Under project cost guarantees, the Company is responsible for the construction cost of a project in excess of an approved budget. The budget consists primarily of

costs included in the general contractors' guaranteed maximum price contract ("GMP"). In most cases, the GMP obligates the general contractor, subject to force majeure and approved change orders, to provide completion date guarantees and to cover cost overruns and liquidated damages. In addition, the GMP is typically secured with payment and performance bonds. Project cost guarantees expire upon completion of certain developer obligations, which are normally satisfied within one year after completion of the project. The Company's estimated maximum exposure amount under the above guarantees is approximately \$1.5 million as of June 30, 2014.

In the normal course of business, the Company enters into various development-related purchase commitments with parties that provide development-related goods and services. In the event that the Company was to terminate development services prior to the completion of projects under construction, the Company could potentially be committed to satisfy outstanding purchase orders with such parties. At June 30, 2014, management did not anticipate any material deviations from schedule or budget related to third-party development projects currently in progress.

(unaudited)

In August 2013, the Company entered into an agreement to convey fee interest in a parcel of land, on which one of our student housing properties resides, to Drexel University (the "University"). Concurrent with the land conveyance, the Company as lessee entered into a ground lease agreement with the University as lessor for an initial term of 40 years, with three 10-year extensions, at the Company's option. As part of the ground lease agreement, the Company committed to spend a minimum of \$22.3 million in renovation and capital improvement costs over a five year period to improve the unit finishes, expand and improve amenity space and upgrade the exterior façade and other systems. In addition, the Company also agreed to convey the building and improvements to the University at an undetermined date in the future and to pay real estate transfer taxes not to exceed \$2.4 million. The Company paid approximately \$0.6 million in real estate transfer taxes upon the conveyance of land to the University, leaving approximately \$1.8 million to be paid by the Company upon the transfer of the building and improvements to the University.

Contingencies

Litigation: The Company is subject to various claims, lawsuits and legal proceedings, including the matter discussed below as well as other matters that have not been fully resolved and that have arisen in the ordinary course of business. While it is not possible to ascertain the ultimate outcome of such matters, management believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on the consolidated financial position or results of operations of the Company. However, the outcome of claims, lawsuits and legal proceedings brought against the Company is subject to significant uncertainty. Therefore, although management considers the likelihood of such an outcome to be remote, the ultimate results of these matters cannot be predicted with certainty.

Letters of Intent: In the ordinary course of the Company's business, the Company enters into letters of intent indicating a willingness to negotiate for acquisitions, dispositions, joint ventures, or other investment transactions. Such letters of intent are non-binding, and neither party to the letter of intent is obligated to pursue negotiations unless and until a definitive contract is entered into by the parties. Even if definitive contracts are entered into, the letters of intent relating to the acquisition and disposition of real property and resulting contracts generally contemplate that such contracts will provide the acquirer with time to evaluate the property and conduct due diligence, during which periods the acquirer will have the ability to terminate the contracts without penalty or forfeiture of any deposit or earnest money. There can be no assurance that definitive contracts will be entered into with respect to any matter covered by letters of intent or that the Company will consummate any transaction contemplated by any definitive contract. Furthermore, due diligence periods for real property are frequently extended as needed. Once the due diligence period expires, the Company is then at risk under a real property acquisition contract, but only to the extent of any earnest money deposits associated with the contract.

Environmental Matters: The Company is not aware of any environmental liability with respect to the properties that would have a material adverse effect on the Company's business, assets or results of operations. However, there can be no assurance that such a material environmental liability does not exist. The existence of any such material environmental liability could have an adverse effect on the Company's results of operations and cash flows.

15. Segments

The Company defines business segments by their distinct customer base and service provided. The Company has identified four reportable segments: Wholly-Owned Properties, On-Campus Participating Properties, Development

Services, and Property Management Services. Management evaluates each segment's performance based on operating income before depreciation, amortization, minority interests and allocation of corporate overhead. Intercompany fees are reflected at the contractually stipulated amounts.

16. Subsequent Events

Distributions: On July 30, 2014, the Company declared a second quarter 2014 distribution per share of \$0.38 which will be paid on August 29, 2014 to all common stockholders of record as of August 15, 2014. At the same time, the Operating Partnership will pay an equivalent amount per unit to holders of Common Units, as well as the quarterly cumulative preferential distribution to holders of Series A Preferred Units (see Note 10).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and assumptions made by, and information currently available to, management. When used, the words "anticipate," "believe," "expect," "intend," "may," "might," "plan," "estimate," "project," "should," "will," "result" and similar expressions, do not relate solely to historical matters and are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. We caution you that forward-looking statements are not guarantees of future performance and will be impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they were made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following: general risks affecting the real estate industry; risks associated with changes in University admission or housing policies; risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments; failure to manage effectively our growth and expansion into new markets or to integrate acquisitions successfully; risks and uncertainties affecting property development and construction; risks associated with downturns in the national and local economies, volatility in capital and credit markets, increases in interest rates, and volatility in the securities markets; costs of compliance with the Americans with Disabilities Act and other similar laws; potential liability for uninsured losses and environmental contamination; risks associated with our Company's potential failure to qualify as a REIT under the Internal Revenue Code of 1986 (the "Code"), as amended, and possible adverse changes in tax and environmental laws; and the other factors discussed in the "Risk Factors" contained in Item 1A of our Form 10-K for the year ended December 31, 2013.

Our Company and Our Business

Overview

American Campus Communities, Inc. ("ACC") is a real estate investment trust ("REIT") that commenced operations effective with the completion of an initial public offering ("IPO") on August 17, 2004. Through ACC's controlling interest in American Campus Communities Operating Partnership, L.P. ("ACCOP"), ACC is one of the largest owners, managers and developers of high quality student housing properties in the United States in terms of beds owned and under management. ACC is a fully integrated, self-managed and self-administered equity REIT with expertise in the acquisition, design, financing, development, construction management, leasing and management of student housing properties. ACC's common stock is publicly traded on the New York Stock Exchange ("NYSE") under the ticker symbol "ACC." References to the "Company," "we," "us" or "our" mean collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the "Operating Partnership" mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP. Unless otherwise indicated, the accompanying discussion applies to both the Company and the Operating Partnership.

Property Portfolio

As of June 30, 2014, our total owned property portfolio contained 168 properties, consisting of owned off-campus student housing properties that are in close proximity to colleges and universities, American Campus Equity (“ACE®”) properties operated under ground/facility leases with university systems, on-campus participating properties operated under ground/facility leases with the related university systems, and one property containing a hotel which we plan to redevelop into a new student housing facility. Of the 168 properties, ten were under development as of June 30, 2014, and when completed will consist of a total of approximately 7,100 beds in approximately 2,100 units. Our communities contain modern housing units and are supported by a resident assistant system and other student-oriented programming, with many offering resort-style amenities.

As of June 30, 2014, through ACC's taxable REIT subsidiary ("TRS") entities, we provided third-party management and leasing services for 33 properties, bringing our total owned and third-party managed portfolio to 201 properties. Third-party management and leasing services are typically provided pursuant to management contracts that have initial terms that range from one to five years. Below is a summary of our property portfolio as of June 30, 2014:

Property portfolio:	Properties	Units	Beds
Wholly-owned operating properties:			
Off-campus properties ⁽¹⁾	139	25,780	79,327
On-campus ACE	15	3,610	11,735
Subtotal – operating properties	154	29,390	91,062
Wholly-owned properties under development:			
Off-campus properties ⁽²⁾	6	1,141	4,119
On-campus ACE	3	711	2,428
Subtotal – properties under development	9	1,852	6,547
Total wholly-owned properties	163	31,242	97,609
On-campus participating properties:			
Operating properties	4	1,863	4,519
Properties under development	1	224	567
Total on-campus participating properties	5	2,087	5,086
Total owned property portfolio	168	33,329	102,695
Managed properties	33	10,281	25,760
Total property portfolio	201	43,610	128,455

Includes a hotel we acquired in January 2014 that is being operated by the seller until the fourth quarter 2014 or ⁽¹⁾ first quarter 2015, at which time the hotel will be demolished and construction on a new student housing facility will commence. This property currently has no units or beds included in the totals above.

Includes University Walk, a 177-unit, 526-bed property we did not own as of June 30, 2014, but are obligated to ⁽²⁾ purchase as long as the developer meets certain construction completion deadlines and other closing conditions. The development of the property is anticipated to be completed in August 2014.

Owned development activity

In June 2014, we completed the final stages of construction on Merwick Stanworth Phase I, an on-campus ACE property located in Princeton, New Jersey, which contains 214 beds in 127 units and primarily serves faculty and staff members of Princeton University. Total development costs incurred for this project were approximately \$34.3 million.

Projects under construction: At June 30, 2014, we were in the process of constructing three on-campus ACE properties, five owned off-campus properties and one on-campus participating property. In addition, a third-party developer was in the process of constructing an off-campus property located in Knoxville, Tennessee (University Walk) that we did not own as of June 30, 2014, but are obligated to purchase as long as the developer meets certain construction completion deadlines and other closing conditions. These properties are summarized in the table below:

Edgar Filing: AMERICAN CAMPUS COMMUNITIES INC - Form 10-Q

(1) We did not own this property as of June 30, 2014 but are obligated to purchase the property as long as the developer meets certain construction completion deadlines and other closing conditions.

(2) In July 2013, we entered into long-term ground and facility leases with the University to finance, construct and manage this on-campus participating property. Under the terms of the leases, title to the constructed facility will be held by the University/lessor and the University will receive 50% of defined net cash flows on an annual basis through the term of the leases.

Acquisitions

As discussed in more detail in Note 3 in the accompanying Notes to Consolidated Financial Statements contained in Item 1, during the six months ended June 30, 2014, we acquired one property containing an existing hotel that we plan to redevelop into a student housing community.

Third-Party Development Services

Through ACC's TRS entities, we provide development and construction management services for student housing properties owned by colleges and universities, charitable foundations and others. As of June 30, 2014, we were under contract on a total of two third-party development projects that are currently in progress and whose fees range from \$2.1 million to \$3.2 million. As of June 30, 2014, fees of approximately \$1.6 million remained to be earned by us with respect to these projects, which have scheduled completion dates ranging from August 2014 through August 2015.

As of June 30, 2014, we were also under contract on one on-campus participating property that is currently in progress with fees of \$2.4 million and a scheduled completion date of August 2014. Due to our involvement in the construction of this on-campus participating property, development and construction management fees paid during the construction period are deferred and amortized to income over the term of the ground lease.

Results of Operations

Comparison of the Three Months Ended June 30, 2014 and June 30, 2013

The following table presents our results of operations for the three months ended June 30, 2014 and 2013, including the amount and percentage change in these results between the two periods.

	Three Months Ended June 30,				
	2014	2013	Change (\$)	Change (%)	
Revenues					
Wholly-owned properties	\$163,056	\$145,598	\$17,458	12.0	%

Net income attributable to common shareholders	\$13,438	\$8,049	\$5,389	67.0	%

Same Store and New Property Operations

We define our same store property portfolio as wholly-owned properties that were owned and/or operating for both of the entire periods being compared, and which are not conducting or planning to conduct substantial development or redevelopment activities or are classified as Held for Sale in accordance with generally accepted accounting principles.

Same store revenues are defined as revenues generated from our same store portfolio and consist of rental revenue earned from student leases as well as other income items such as utility income, damages, parking income, summer conference rent, application and administration fees, income from retail tenants, and income earned by one of our taxable REIT subsidiaries (“TRS”) from ancillary activities such as the provision of food services.

Same store operating expenses are defined as operating expenses generated from our same store portfolio and include usual and customary expenses incurred to operate a property such as payroll, maintenance, utilities, marketing, general and administrative costs, insurance, property taxes, and bad debt. Same store operating expenses also include an allocation of payroll and other administrative costs related to corporate management and oversight.

A reconciliation of our same store and new property operations to our consolidated statements of comprehensive income is set forth below:

	Same Store Properties		New Properties ⁽¹⁾		Total - All Properties	
	Three Months Ended June 30,		Three Months Ended June 30,		Three Months Ended June 30,	
	2014	2013	2014	2013	2014	2013
Number of properties	140	140	14	—	154	140
Number of beds	83,537	83,537	7,525	—	91,062	83,537
Revenues ⁽²⁾	\$146,831	\$145,675	\$16,833	\$355	\$163,664	\$146,030
Operating expenses	68,281	68,874	7,753	48	76,034	68,922

Does not include properties under construction as of June 30, 2014. Number of properties and number of beds also ⁽¹⁾ excludes properties undergoing redevelopment as of June 30, 2014, although the results of operations of those properties are included in revenues and operating expenses prior to commencement of redevelopment activities.

⁽²⁾ Includes revenues which are reflected as resident services revenue on the accompanying consolidated statements of comprehensive income.

Same Store Properties. The increase in revenue from our same store properties was due to an increase in average rental rates for the 2013/2014 academic year and an increase in average occupancy from 92.5% during the three months ended June 30, 2013 to 93.3% during the three months ended June 30, 2014. Future revenues will be dependent on our ability to maintain our current leases in effect for the 2013/2014 academic year and our ability to obtain appropriate rental rates and desired occupancy for the 2014/2015 academic year at our various properties.

The decrease in operating expenses for our same store properties was primarily a result of reductions in most major operating expense categories, including a 34.3% decrease in marketing expense as a result of expense control efforts and improved leasing progress for the upcoming academic year, offset by an increase in utility costs associated with an unusually cold winter as well as an increase in property taxes. We anticipate that operating expenses for our same store property portfolio for 2014 will increase slightly as compared with 2013 as a result of general inflation.

New Property Operations. Our new properties for the three months ended June 30, 2014 consist of the following: (i) 7th Street Station, acquired in July 2013, (ii) The Lodges of East Lansing Phase II, an additional phase at an existing property previously subject to a pre-sale agreement that we acquired in July 2013, (iii) Townhomes at Newtown Crossing, a property previously subject to a pre-sale agreement that we acquired in September 2013, (iv) seven owned development projects that opened for occupancy in August and September 2013, (v) Park Point, acquired in October 2013, (vi) U Centre at Fry Street and Cardinal Towne, both acquired in November 2013, (vii) Boulder Outlook Hotel, acquired in January 2014, and (viii) Merwick Stanworth Phase I, an owned development project that opened for occupancy in June 2014.

Third-Party Development Services Revenue

Third-party development services revenue increased by approximately \$1.0 million, from \$0.6 million during the three months ended June 30, 2013 to \$1.6 million for the three months ended June 30, 2014. This increase was primarily due to the closing of bond financing and commencement of construction in June 2014 on a third-party on-campus development project containing 492 beds at the University of Toledo, resulting in \$1.1 million of revenue recognized during three months ended June 30, 2014. During the three months ended June 30, 2014, we had two projects in progress with an average contractual fee of approximately \$2.7 million, as compared to the three months ended June 30, 2013 in which we had three projects in progress with an average contractual fee of approximately \$2.7 million.

Development services revenues are dependent on our ability to successfully be awarded such projects, the amount of the contractual fee related to the project and the timing and completion of the development and construction of the project. In addition, to the extent projects are completed under budget, we may be entitled to a portion of such savings, which are recognized as revenue when performance has been agreed upon by all parties, or when performance has been verified by an independent third-party. It is possible that projects for which we have deferred pre-development costs will not close and that we will not be reimbursed for such costs. The pre-development costs associated therewith will ordinarily be charged against income for the then-current period.

Third-Party Development and Management Services Expenses

Third-party development and management services expenses increased by approximately \$0.3 million, from \$2.4 million during the three months ended June 30, 2013 to \$2.7 million for the three months ended June 30, 2014. This increase was primarily a result of payroll and benefits, branding initiatives and general inflation. We anticipate that third-party development and management services expenses will increase in 2014 as a result of the timing of new management contracts awarded in 2013 along with expected contracts to be awarded in 2014, as well as general inflation.

General and Administrative

General and administrative expenses increased by approximately \$0.4 million, from \$4.6 million during the three months ended June 30, 2013 to \$5.0 million for the three months ended June 30, 2014. This increase was primarily due to additional salary, health care and benefits expense, public company costs and other general inflationary factors.

Depreciation and Amortization

Depreciation and amortization increased by approximately \$1.3 million, from \$47.1 million during the three months ended June 30, 2013 to \$48.4 million for the three months ended June 30, 2014. This increase was primarily a result of additional depreciation and amortization expense of approximately \$3.0 million recorded during the three months ended June 30, 2014 related to properties acquired during 2013 and 2014. In addition, the completion of construction and opening of seven owned development properties in August and September 2013 and one owned development property in June 2014 contributed an additional \$3.4 million of depreciation and amortization expense during the three months ended June 30, 2014. These increases were offset by a decrease in the amortization of in-place leases of approximately \$5.1 million related to the purchase of 40 properties in 2012. The value assigned to in-place leases upon acquisition of these properties was fully amortized by the end of 2013. We expect depreciation and amortization expense to increase in 2014 for the reasons discussed above, as well as the anticipated completion of four owned development projects in August 2014, the completion of one on-campus participating property in August 2014, and the anticipated purchase of a property in August 2014 which is subject to a pre-sale arrangement.

Ground/Facility Leases

Ground/facility leases expense increased by approximately \$0.4 million, from \$1.2 million during the three months ended June 30, 2013 to \$1.6 million for the three months ended June 30, 2014. This increase was primarily due to the timing of ACE development projects placed into service during 2013. We anticipate ground/facility leases expense to increase in 2014 as compared to 2013 for the reason discussed above as well as the recently completed ACE development project placed into service in June 2014 and the planned completion of construction and commencement of operations of two ACE development projects and one on-campus participating property in August 2014.

Interest Expense

Interest expense increased by approximately \$1.6 million, from \$19.4 million during the three months ended June 30, 2013 to \$21.0 million for the three months ended June 30, 2014. In December 2013, we borrowed \$250 million under a new term loan facility ("Term Loan II Facility") which resulted in approximately \$1.0 million of additional interest expense for the three months

ended June 30, 2014. Interest expense increased by approximately \$0.9 million as a result of a decrease in capitalized interest due to the timing and volume of construction activities on our owned development projects during the comparable three month periods. In addition, interest expense increased by approximately \$0.8 million during the three months ended June 30, 2014 related to an increase in borrowings under our unsecured revolving credit facility during the comparable periods. We also incurred additional interest expense of approximately \$0.9 million during the three months ended June 30, 2014 related to loans assumed in connection with 2013 property acquisitions. Lastly, interest expense increased by approximately \$0.3 million during three months ended June 30, 2014 related to our \$400 million offering of senior unsecured notes which closed on June 24, 2014. These increases were offset by a decrease of approximately \$1.7 million during the three months ended June 30, 2014 related to the payoff of mortgage loans during the past 15 months. In addition, interest expense decreased by approximately \$0.2 million during the three months ended June 30, 2014 as a result of the refinancing of our Cullen Oaks Phase I and Phase II mortgage loans in February 2014. Lastly, interest expense decreased by approximately \$0.1 million during the three months ended June 30, 2014 in connection with a reduction to the interest rate spread on our existing \$350 million term loan facility ("Term Loan I Facility") in December 2013. We anticipate interest expense will increase significantly in 2014 for the reasons discussed above along with the timing of our \$400 million offering of senior unsecured notes in April 2013.

Discontinued Operations

Discontinued operations on the accompanying consolidated statements of comprehensive income includes the following wholly-owned properties: (i) Hawks Landing, sold in February 2014 for a sales price of \$17.3 million, (ii) University Mills, sold in November 2013 for a sales price of \$14.5 million, (iii) Campus Ridge, sold in October 2013 for a sales price of \$12.3 million, and (iv) State College Park, University Pines, The Village at Blacksburg and Northgate Lakes, wholly-owned properties sold in July 2013 for a combined sales price of \$157.4 million. Refer to Note 4 in the accompanying Notes to Consolidated Financial Statements contained in Item 1 for a table summarizing the results of operations of the properties classified within discontinued operations.

Edgar Filing: AMERICAN CAMPUS COMMUNITIES INC - Form 10-Q

Comparison of the Six Months Ended June 30, 2014 and June 30, 2013

The following table presents our results of operations for the six months ended June 30, 2014 and 2013, including the amount and percentage change in these results between the two periods.

	Six Months Ended June 30,		Change (\$)	Change (%)	
	2014	2013

Wholly-Owned Properties Operations

A reconciliation of our same store and new property operations to our consolidated statements of comprehensive income is set forth below:

	Same Store Properties		New Properties ⁽¹⁾		Total - All Properties	
	Six Months Ended June 30,		Six Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013	2014	2013
Number of properties	140	140	14	—	154	140
Number of beds	83,537	83,537	7,525	—	91,062	83,537
Revenues ⁽²⁾	\$300,518	\$298,471	\$35,969	\$431	\$336,487	\$298,902
Operating expenses	136,025	134,914	15,817	65	151,842	134,979

Does not include properties under construction as of June 30, 2014. Number of properties and number of beds also ⁽¹⁾ excludes properties undergoing redevelopment as of June 30, 2014, although the results of operations of those properties are included in revenues and operating expenses prior to commencement of redevelopment activities.

⁽²⁾ Includes revenues which are reflected as resident services revenue on the accompanying consolidated statements of comprehensive income.

Same Store Properties. The increase in revenue from our same store properties was primarily due to an increase in average rental rates for the 2013/2014 academic year and an increase in average occupancy from 94.7% during the six months ended June 30, 2013 to 95.1% during the six months ended June 30, 2014. The increase in operating expenses for our same store properties was primarily due to an increase in utility costs associated with an unusually cold winter as well as an increase in property taxes, partially offset by a decrease in marketing costs as a result of expense control efforts and improved leasing progress for the upcoming academic year.

New Property Operations. Our new properties for the six months ended June 30, 2014 consist of the following: (i) 7th Street Station, acquired in July 2013, (ii) The Lodges of East Lansing Phase II, an additional phase at an existing property previously subject to a pre-sale agreement that we acquired in July 2013, (iii) Townhomes at Newtown Crossing, a property previously subject to a pre-sale agreement that we acquired in September 2013, (iv) seven owned development projects that opened for occupancy in August and September 2013, (v) Park Point, acquired in October 2013, (vi) U Centre at Fry Street and Cardinal Towne, both acquired in November 2013, (vii) Boulder Outlook Hotel, acquired in January 2014, and (viii) Merwick Stanworth Phase I, an owned development project that opened for occupancy in June 2014.

On-Campus Participating Properties (“OCPP”) Operations

We had four participating properties containing 4,519 beds which were operating during the six months ended June 30, 2014 and 2013 (one on-campus participating property was under construction as of June 30, 2014). Revenues from our participating properties increased approximately \$0.1 million to \$12.9 million during the six months ended June 30, 2014 from \$12.8 million for the six months ended June 30, 2013. This change was primarily a result of an increase in average rental rates for the 2013/2014 academic year, offset by a decrease in average occupancy from 68.8% for the six months ended June 30, 2013 to 61.1% for the six months ended June 30, 2014. Occupancy at our on-campus participating properties is low during the summer months due to the expiration of the 9-month leases concurrent with the end of the spring semester.

At these properties, operating expenses decreased by approximately \$0.2 million, from \$5.4 million for the six months ended June 30, 2013 to \$5.2 million for the six months ended June 30, 2014. This decrease was primarily a result of a decrease in utility costs associated with a decline in average occupancy during the comparable six month periods.

Third-Party Development Services Revenue

Third-party development services revenue increased by approximately \$0.7 million, from \$1.0 million during the six months ended June 30, 2013 to \$1.7 million for the six months ended June 30, 2014. This increase was primarily due to the closing of bond financing and commencement of construction in June 2014, on a third-party on-campus development project containing 492 beds at the University of Toledo, resulting in \$1.1 million of revenue recognized during six months ended June 30, 2014. During the six months ended June 30, 2014, we had two projects in progress with an average contractual fee of approximately \$2.7 million,

as compared to the six months ended June 30, 2013 in which we had three projects in progress with an average contractual fee of approximately \$2.7 million.

Third-Party Management Services Revenue

Third-party management services revenue increased by approximately \$0.4 million, from \$3.6 million during the six months ended June 30, 2013 to \$4.0 million for the six months ended June 30, 2014. This increase was primarily a result of the recognition of incentive management fees from two of our third-party management contracts during the six months ended June 30, 2014.

Third-Party Development and Management Services Expenses

Third-party development and management services expenses increased by approximately \$0.8 million, from \$4.7 million during the six months ended June 30, 2013 to \$5.5 million for the six months ended June 30, 2014. This increase was primarily a result of payroll and benefits, branding initiatives and general inflation.

General and Administrative

General and administrative expenses increased by approximately \$0.9 million, from \$8.4 million during the six months ended June 30, 2013 to \$9.3 million for the six months ended June 30, 2014. This increase was primarily due to additional salary, health care and benefits expense, public company costs and other general inflationary factors.

Depreciation and Amortization

Depreciation and amortization increased by approximately \$3.9 million, from \$92.7 million during the six months ended June 30, 2013 to \$96.6 million for the six months ended June 30, 2014. This increase was primarily a result of additional depreciation and amortization expense of approximately \$5.9 million recorded during the six months ended June 30, 2014 related to properties acquired during 2013 and 2014. In addition, completion of construction and opening of seven owned development properties in August and September 2013 and one owned development property in June 2014 contributed an additional \$6.7 million of depreciation and amortization expense during the six months ended June 30, 2014. These increases were partially offset by a decrease in the amortization of in-place leases of approximately \$10.5 million related to the purchase of 40 properties in 2012. The value assigned to in-place leases upon acquisition of these properties was fully amortized by the end of 2013.

Ground/Facility Leases

Ground/facility leases expense increased by approximately \$0.8 million, from \$2.4 million during the six months ended June 30, 2013 to \$3.2 million for the six months ended June 30, 2014. This increase was primarily due to the timing of ACE development projects placed into service during 2013.

Interest Income

Interest income increased by approximately \$0.7 million, from \$1.4 million during the six months ended June 30, 2013 to \$2.1 million during the six months ended June 30, 2014. This increase was primarily a result of our purchase of \$52.8 million in loans receivable on April 22, 2013 which contributed an additional \$1.0 million of interest income during the six months ended June 30, 2014, as well as the assumption of a loan receivable in connection with our purchase of Cardinal Towne in November 2013 which contributed an additional \$0.5 million of interest income during the six months ended June 30, 2014. These increases were offset by a \$0.8 million decrease to interest income related to a loan to a noncontrolling partner that was paid off in July 2013.

Interest Expense

Interest expense increased by approximately \$5.3 million, from \$36.8 million during the six months ended June 30, 2013 to \$42.1 million for the six months ended June 30, 2014. We incurred additional interest expense of approximately \$4.1 million during the six months ended June 30, 2014 related to the timing of our two recent offerings of senior unsecured notes which closed on April 2, 2013 and June 24, 2014, respectively. In December 2013, we borrowed \$250 million under our new Term Loan II Facility which resulted in approximately \$2.1 million of additional interest expense for the six months ended June 30, 2014. We also incurred additional interest expense of approximately \$1.8 million during the six months ended June 30, 2014 related to loans assumed in connection with 2013 property acquisitions. In addition, interest expense increased by approximately \$1.1 million as a result of a decrease in capitalized interest due to the timing and volume of construction activities on our owned development projects during the comparable six month periods. Lastly, interest expense increased by approximately \$0.4 million during the six months ended June 30, 2014 related to an increase in borrowings under our unsecured revolving credit facility during the

comparable periods. These increases were offset by a decrease of approximately \$3.0 million during the six months ended June 30, 2014 related to the payoff of mortgage loans during the past 15 months. Interest expense decreased by approximately \$0.4 million during the six months ended June 30, 2014 in connection with a reduction to the interest rate spread on our existing \$350 million Term Loan I Facility in December 2013 and a reduction to the interest rate spread in May 2013 on a construction loan used to finance the development of two on-campus ACE properties. In addition, interest expense decreased by approximately \$0.4 million during the six months ended June 30, 2014 as a result of the refinancing of our Cullen Oaks Phase I and Phase II mortgage loans in February 2014. Lastly, interest expense decreased by approximately \$0.1 million during the six months ended June 30, 2014 related to decreased borrowings under our secured agency facility during the comparable periods.

Amortization of Deferred Financing Costs

Amortization of deferred financing costs increased approximately \$0.2 million, from \$2.7 million during the six months ended June 30, 2013 to \$2.9 million for the six months ended June 30, 2014. This increase was primarily due to an additional \$0.2 million of finance cost amortization during the six months ended June 30, 2014 in connection with the December 2013 closing of our new \$250 million Term Loan II Facility. We also incurred an additional \$0.1 million of finance cost amortization during the six months ended June 30, 2014 resulting from offering costs paid in connection with our \$400 million unsecured notes offering, which closed on April 2, 2013. We anticipate amortization of deferred financing costs will increase in 2014 for the reasons discussed above along with our June 2014 offering of senior unsecured notes.

Other Nonoperating Expense

During the six months ended June 30, 2013, we recognized litigation settlement costs of \$2.8 million related to a lawsuit that was settled and dismissed in April 2013.

Discontinued Operations

Discontinued operations on the accompanying consolidated statements of comprehensive income includes the following wholly-owned properties: (i) Hawks Landing, sold in February 2014 for a sales price of \$17.3 million, (ii) University Mills, sold in November 2013 for a sales price of \$14.5 million, (iii) Campus Ridge, sold in October 2013 for a sales price of \$12.3 million, and (iv) State College Park, University Pines, The Village at Blacksburg and Northgate Lakes, wholly-owned properties sold in July 2013 for a combined sales price of \$157.4 million. Refer to Note 4 in the accompanying Notes to Consolidated Financial Statements contained in Item 1 for a table summarizing the results of operations of the properties classified within discontinued operations.

Liquidity and Capital Resources

Cash Balances and Cash Flows

As of June 30, 2014, excluding our on-campus participating properties, we had \$86.0 million in cash and cash equivalents and restricted cash as compared to \$63.2 million in cash and cash equivalents and restricted cash as of December 31, 2013. Restricted cash primarily consists of escrow accounts held by lenders and resident security deposits, as required by law in certain states, and funds held in escrow in connection with potential acquisition and development opportunities. The following discussion relates to changes in cash due to operating, investing and financing activities, which are presented in our consolidated statements of cash flows included in Item 1 herein.

Operating Activities: For the six months ended June 30, 2014, net cash provided by operating activities was approximately \$113.3 million, as compared to approximately \$104.7 million for the six months ended June 30, 2013, an increase of \$8.6 million. This increase in cash provided by operating activities was primarily due to operating cash

flows provided from the timing of the acquisition of five properties and an additional phase at an existing property in 2013 and the completion of construction and opening of seven owned development projects in August and September 2013.

Investing Activities: Investing activities utilized approximately \$175.0 million and \$227.9 million for the six months ended June 30, 2014 and 2013, respectively. The \$52.9 million decrease in cash utilized in investing activities was primarily a result of the following: (i) a \$23.5 million decrease in cash used to fund the construction of our wholly-owned development properties, as 10 wholly-owned properties were under construction during the six months ended June 30, 2013, of which seven completed construction in August and September 2013, as compared to nine wholly-owned properties that were under construction during the six months ended June 30, 2014, of which one completed construction in June 2014 and another four are scheduled for completion in August 2014; (ii) the purchase of \$49.2 million in loans receivable during the six months ended June 30, 2013; (iii) a \$3.0 million increase in proceeds received from the disposition of real estate as one wholly-owned property and one land parcel were sold during the six months ended June 30, 2014; and (iv) the repayment of a \$3.0 million loan by a third-party developer

during the six months ended June 30, 2014. These decreases were primarily offset by (i) \$20.3 million in cash used during the six months ended June 30, 2014 to fund the construction of an on-campus participating property located in Morgantown, West Virginia, scheduled to open for occupancy in August 2014; and (ii) an \$11.3 million increase in cash paid to acquire properties and undeveloped land as we acquired a site containing an existing hotel in Boulder, Colorado and one land parcel located in Auburn, Alabama during the six months ended June 30, 2014, compared to minimal activity for the six months ended June 30, 2013.

Financing Activities: Cash provided by financing activities totaled approximately \$87.3 million and \$127.3 million for the six months ended June 30, 2014 and 2013, respectively. The \$40.0 million decrease in cash provided by financing activities was primarily a result of the following: (i) a \$61.6 million increase in cash used to pay off maturing mortgage debt during the six months ended June 30, 2014; (ii) a \$4.6 million increase in distributions to stockholders during the six months ended June 30, 2014 as a result of two increases to the quarterly dividend per share of common stock since May 2013; and (iii) the termination of two forward starting interest rate swaps in connection with our issuance of unsecured notes in June 2014, resulting in cash payments to counterparties totaling \$4.1 million. These decreases were partially offset by a \$10.1 million decrease in paydowns (net of proceeds) on our revolving credit facilities during the six months ended June 30, 2014 and a \$20.3 million increase in construction loan proceeds as the development and construction of one on-campus participating property was financed with a construction loan during the six months ended June 30, 2014.

Liquidity Needs, Sources and Uses of Capital

As of June 30, 2014, our short-term liquidity needs included, but were not limited to, the following: (i) anticipated distribution payments to our common and restricted stockholders totaling approximately \$160.5 million based on an assumed annual cash distribution of \$1.52 per share based on the number of our shares outstanding as of June 30, 2014, (ii) anticipated distribution payments to our Operating Partnership unitholders totaling approximately \$2.0 million based on an assumed annual distribution of \$1.52 per common unit and a cumulative preferential per annum cash distribution rate of 5.99% on our Series A preferred units based on the number of units outstanding as of June 30, 2014, (iii) pay-off of approximately \$188.7 million of outstanding fixed-rate mortgage debt and \$44.6 million of variable rate construction debt scheduled to mature during the next 12 months, (iv) pay down outstanding borrowings of approximately \$87.8 million under our secured agency facility scheduled to mature in September 2014, (v) estimated development costs over the next 12 months totaling approximately \$274.5 million for our wholly-owned properties currently under construction, (vi) funds for other development projects scheduled to commence construction during the next 12 months, and (vii) potential future property acquisitions, including mezzanine financed developments.

We expect to meet our short-term liquidity requirements by (i) borrowing under our existing credit facilities discussed below, (ii) issuing securities, including common stock, under our \$500 million at-the-market share offering program (“ATM Equity Program”) discussed below, (iii) exercising debt extension options to the extent they are available, (iv) potentially disposing of properties depending on market conditions, and (v) utilizing current cash on hand and net cash provided by operations.

We may seek additional funds to undertake initiatives not contemplated by our business plan or obtain additional cushion against possible shortfalls. We also may pursue additional financing as opportunities arise. Future financings may include a range of different sizes or types of financing, including the incurrence of additional secured debt and the sale of additional debt or equity securities. These funds may not be available on favorable terms or at all. Our ability to obtain additional financing depends on several factors, including future market conditions, our success or lack of success in penetrating our markets, our future creditworthiness, and restrictions contained in agreements with our investors or lenders, including the restrictions contained in the agreements governing our revolving credit facilities, term loan and unsecured notes. These financings could increase our level of indebtedness or result in dilution to our equity holders.

ATM Equity Program

In March 2013, we established a new ATM Equity Program under which we may sell shares of our common stock into the existing trading market at current market prices with an aggregate offering price of up to \$500 million. We have not sold any shares under the ATM Equity Program and have \$500 million available for issuance as of June 30, 2014.

Senior Unsecured Notes

As discussed in more detail in Note 8 in the accompanying Notes to Consolidated Financial Statements contained in Item 1, in June 2014, we issued \$400 million of 10-year senior unsecured notes at 99.861 percent of par value with a coupon of 4.125 percent and a yield of 4.142 percent. Net proceeds from the sale of the unsecured notes totaled approximately \$395.3 million after deducting the underwriting discount and offering expenses and we used \$340 million of the offering proceeds to pay down the outstanding

balance on our revolving credit facility in full. The terms of the unsecured notes include certain financial covenants that require the Operating Partnership to limit the amount of total debt and secured debt as a percentage of total asset value, as defined. In addition, the Operating Partnership must maintain a minimum ratio of unencumbered asset value to unsecured debt, as well as a minimum interest coverage level. As of June 30, 2014, we were in compliance with all such covenants.

Unsecured Credit Facility

As discussed in more detail in Note 8 in the accompanying Notes to Consolidated Financial Statements contained in Item 1, we have an aggregate unsecured credit facility totaling \$1.1 billion, which is comprised of two unsecured term loans totaling \$600 million and a \$500 million unsecured revolving credit facility.

As discussed above, in June 2014 we paid down the outstanding balance on our revolving credit facility in full with proceeds from our \$400 million offering of senior unsecured notes. As a result, availability under our revolving credit facility totaled \$500 million as of June 30, 2014. The terms of the unsecured credit facility include certain restrictions and covenants, as discussed more fully in Note 8 in the accompanying Notes to Consolidated Financial Statements contained in Item 1, including covenants that restrict the amount of distributions that we can pay. As of June 30, 2014, we were in compliance with all such covenants.

Secured Agency Facility

As discussed in more detail in Note 8 in the accompanying Notes to Consolidated Financial Statements contained in Item 1, we also have a \$125 million secured revolving credit facility with a Freddie Mac lender which is scheduled to mature in September 2014. As of June 30, 2014, the balance outstanding on the facility totaled \$87.8 million, bearing interest at a weighted average annual rate of 2.19%. The secured agency facility includes some, but not all, of the same financial covenants as the Credit Facility, as described above. As of June 30, 2014, we were in compliance with all such covenants.

Distributions

We are required to distribute 90% of our REIT taxable income (excluding capital gains) on an annual basis in order to qualify as a REIT for federal income tax purposes. Distributions to common stockholders are at the discretion of the Board of Directors. We may use borrowings under our unsecured revolving credit facility to fund distributions. The Board of Directors considers a number of factors when determining distribution levels, including market factors and our Company's performance in addition to REIT requirements.

On July 30, 2014, we declared a second quarter 2014 distribution per share of \$0.38, which will be paid on August 29, 2014 to all common stockholders of record as of August 15, 2014. At the same time, the Operating Partnership will pay an equivalent amount per unit to holders of Common Units, as well as the quarterly cumulative preferential distribution to holders of Series A Preferred Units.

Pre-Development Expenditures

Our third-party and owned development activities have historically required us to fund pre-development expenditures such as architectural fees, permits and deposits. The closing and/or commencement of construction of these development projects is subject to a number of risks such as our inability to obtain financing on favorable terms and delays or refusals in obtaining necessary zoning, land use, building, and other required governmental permits and authorizations. As such, we cannot always predict accurately the liquidity needs of these activities. We frequently incur these pre-development expenditures before a financing commitment and/or required permits and authorizations have been obtained. Accordingly, we bear the risk of the loss of these pre-development expenditures if financing

cannot ultimately be arranged on acceptable terms or we are unable to successfully obtain the required permits and authorizations. Historically, our third-party and owned development projects have been successfully structured and financed; however, these developments have at times been delayed beyond the period initially scheduled, causing revenue to be recognized in later periods. As of June 30, 2014, we have deferred approximately \$4.2 million in pre-development costs related to third-party and owned development projects that have not yet commenced construction.

Indebtedness

As of June 30, 2014, we had approximately \$2,845.2 million of outstanding consolidated indebtedness (excluding net unamortized mortgage debt premiums and debt discounts of approximately \$67.5 million and \$1.4 million, respectively), comprised of \$798.2 million of 10-year unsecured notes (net of original issue discount), a \$600.0 million balance on our unsecured term loans, an \$87.8 million balance on our secured agency facility, \$1,249.7 million in mortgage and construction loans secured by our wholly-owned properties, a \$31.0 million balance in mortgage loans secured by two phases of an on-campus participating property, \$42.4 million in bond issuances secured by three of our on-campus participating properties and a \$36.1 million balance on a construction loan used to finance the development of an on-campus participating property which is scheduled for completion in August 2014. The weighted average interest rate on our consolidated indebtedness as of June 30, 2014 was 4.07% per annum. As of June 30, 2014, approximately 13.9% of our total consolidated indebtedness was variable rate debt, comprised of our secured agency facility, unsecured revolving credit facility, Term Loan Facility II and two construction loans discussed below.

Wholly-Owned Properties

Mortgage debt: The weighted average interest rate of the \$1,193.1 million of wholly-owned mortgage debt was 5.24% per annum as of June 30, 2014. Each of the mortgage loans is a non-recourse obligation subject to customary exceptions. The loans generally may not be prepaid prior to maturity; in certain cases prepayment is allowed, subject to prepayment penalties.

Construction loans: The development and construction of two on-campus ACE properties (The Suites and Hilltop Townhomes), were partially financed on a combined basis with a \$45.4 million construction loan. We have the option of choosing the Prime rate or one-, two-, three-, or six-month LIBOR plus 1.45%. The loan requires payments of interest only during the term of the loan and any accrued interest and outstanding borrowings become due on the maturity date of May 16, 2015. The term of the loan can be extended through May 2016 by exercising the remaining 12-month extension option available to us. As of June 30, 2014, the balance outstanding on the construction loan totaled \$44.6 million, bearing interest at a rate per annum of 1.6%.

In addition, as discussed in more detail in Note 5 in the accompanying Notes to Consolidated Financial Statements contained in Item 1, we are consolidating one variable interest entity ("VIE") that owns University Walk, a property under construction located in Knoxville, Tennessee. As a result, our construction loans payable balance as of June 30, 2014 includes \$12.0 million related to a construction loan that is partially financing the development and construction of this property. The total amount of this construction loan is \$19.0 million bearing interest at a rate per annum of 2.9% as of June 30, 2014, and the loan matures in December 2015. As we are not legally a party to this loan, and are only including the loan in our consolidated financial statements to comply with accounting guidance related to VIE's, the creditors of this construction loan do not have recourse to our assets.

On-Campus Participating Properties

Bonds: As discussed in Note 8 in the Notes to Consolidated Financial Statements contained in Item 1, three of our on-campus participating properties are 100% financed with project-based taxable bonds. As of June 30, 2014, the bonds carry a balance of \$42.4 million and bear interest at a weighted average rate per annum of 7.55%. The loans encumbering the leasehold interests are non-recourse, subject to customary exceptions.

Mortgage loans: The Cullen Oaks Phase I and Phase II on-campus participating properties are currently encumbered by mortgage loans with balances as of June 30, 2014 of approximately \$15.4 million and \$15.6 million, respectively. The loans mature in February 2021 and bear interest at a rate of LIBOR plus 1.75%. In connection with these loans, we entered into two interest rate swap contracts effective February 18, 2014 through February 15, 2021,

that are designated to hedge our exposure to fluctuations on interest payments attributed to changes in interest rates associated with payments on the loans. Under the terms of the interest rate swap contracts, we pay a fixed rate of 2.275% per annum and receive a floating rate of 1-month LIBOR. We have guaranteed payment of a portion of this property's indebtedness.

Construction loan: The development and construction of an on-campus participating property located in Morgantown, West Virginia, which is scheduled to complete construction and open for occupancy in August 2014, is financed with a \$44.2 million construction loan which has an outstanding balance of \$36.1 million as of June 30, 2014. The loan matures in July 2045, bears interest at a rate of 3.85% per annum for the first five years and one-month LIBOR plus 2.5% for the remaining term of the loan. The loan requires payments of interest only during the first two years and principal and interest payments begin in August 2015.

Funds From Operations (“FFO”)

The National Association of Real Estate Investment Trusts (“NAREIT”) currently defines FFO as net income or loss attributable to common shares computed in accordance with generally accepted accounting principles (“GAAP”), excluding gains or losses from depreciable operating property sales, impairment charges and real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. We present FFO because we consider it an important supplemental measure of our operating performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO excludes GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. We therefore believe that FFO provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, and interest costs, among other items, providing perspective not immediately apparent from net income. We compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002), which may differ from the methodology for calculating FFO utilized by other equity REITs and, accordingly, may not be comparable to such other REITs.

We also believe it is meaningful to present a measure we refer to as FFO-Modified, or FFOM, which reflects certain adjustments related to the economic performance of our on-campus participating properties and other nonrecurring items. Under our participating ground leases, we and the participating university systems each receive 50% of the properties’ net cash available for distribution after payment of operating expenses, debt service (which includes significant amounts towards repayment of principal) and capital expenditures. A substantial portion of our revenues attributable to these properties is reflective of cash that is required to be used for capital expenditures and for the amortization of applicable property indebtedness. These amounts do not increase our economic interest in these properties or otherwise benefit us since our interest in the properties terminates upon the repayment of the applicable property indebtedness. Therefore, unlike the ownership of our wholly-owned properties, the unique features of our ownership interest in our on-campus participating properties cause the value of these properties to diminish over time. For example, since the ground/facility leases under which we operate the participating properties require the reinvestment from operations of specified amounts for capital expenditures and for the repayment of debt while our interest in these properties terminates upon the repayment of the debt, such capital expenditures do not increase the value of the property to us and mortgage debt amortization only increases the equity of the ground lessor. Accordingly, we believe it is meaningful to modify FFO to exclude the operations of our on-campus participating properties and to consider their impact on our performance by including only that portion of our revenues from those properties that are reflective of our share of net cash flow and the management fees that we receive, both of which increase and decrease with the operating performance of the properties. We also include development and construction management fees received from on-campus participating properties in FFOM similar to other third-party development projects. This narrower measure of performance measures our profitability for these properties in a manner that is similar to the measure of our profitability from our services business where we similarly incur no initial or ongoing capital investment in a property and derive only consequential benefits from capital expenditures and debt amortization. We believe, however, that this narrower measure of performance is inappropriate in traditional real estate ownership structures where debt amortization and capital expenditures enhance the property owner’s long-term profitability from its investment. When calculating FFOM, we also exclude losses from early extinguishment of debt incurred in connection with property dispositions and other non-cash gains or losses, as appropriate.

Our FFOM may have limitations as an analytical tool because it reflects the contractual calculation of net cash flow from our on-campus participating properties, which is unique to us and is different from that of our owned off-campus properties. Companies that are considered to be in our industry may not have similar ownership structures; and therefore those companies may not calculate FFOM in the same manner that we do, or at all, limiting its usefulness as a comparative measure. We compensate for these limitations by relying primarily on our GAAP and FFO results and using FFOM only supplementally. Further, FFO and FFOM do not represent amounts available for management’s

discretionary use because of needed capital replacement or expansion, debt service obligations or other commitments and uncertainties. FFO and FFOM should not be considered as alternatives to net income or loss computed in accordance with GAAP as an indicator of our financial performance, or to cash flow from operating activities computed in accordance with GAAP as an indicator of our liquidity, nor are these measures indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions.

The following table presents a reconciliation of our net income attributable to common shareholders to FFO and FFOM:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Net income attributable to American Campus Communities, Inc. and Subsidiaries	\$13,438	\$8,049	\$41,836	\$29,639
Noncontrolling interests ⁽¹⁾	293	235	762	617
Gain from disposition of real estate	—	—	(2,843) —
Real estate related depreciation and amortization	47,884	47,269	95,652	93,799
Funds from operations (“FFO”)	61,615	55,553	135,407	124,055
Elimination of operations of on-campus participating properties:				
Net loss (income) from on-campus participating properties	880	1,159	(1,991) (1,495
Amortization of investment in on-campus participating properties	(1,228) (1,182) (2,440) (2,356
	61,267	55,530	130,976	120,204
Modifications to reflect operational performance of on-campus participating properties:				
Our share of net cash flow ⁽²⁾	650	520	1,277	1,059
Management fees	209	214	584	590
On-campus participating properties development fees ⁽³⁾	191	—	428	—
Impact of on-campus participating properties	1,050	734	2,289	1,649
Non-cash litigation settlement expense ⁽⁴⁾	—	—	—	2,800
Funds from operations – modified (“FFOM”)	\$62,317	\$56,264	\$133,265	\$124,653
FFO per share – diluted	\$0.58	\$0.52	\$1.27	\$1.16
FFOM per share – diluted	\$0.58	\$0.53	\$1.25	\$1.17
Weighted average common shares outstanding – diluted	106,947,442	106,637,886	106,923,696	106,624,997

Excludes \$0.4 million and \$0.8 million for the three and six months ended June 30, 2013, respectively, of income attributable to the noncontrolling partner in The Varsity, a property purchased in December 2011 from a seller that retained a 20.5% noncontrolling interest in the property. Effective July 1, 2013, the Company acquired the noncontrolling partner’s interest and now owns 100% of the property.

⁽²⁾ 50% of the properties’ net cash available for distribution after payment of operating expenses, debt service (including repayment of principal) and capital expenditures. Represents amounts accrued for the interim periods, which is included in ground/facility leases expense in the consolidated statements of comprehensive income.

Represents development and construction management fees related to the West Virginia University on-campus participating property, which is currently under construction and scheduled for completion in August 2014. Although the Company is including this project in its consolidated financial statements for accounting purposes, ⁽³⁾ similar to our other on-campus participating properties, we view the economic benefit of such properties as limited to the development/construction management fees, property management fees and the 50% share of net cash flow that we receive. As such, for purposes of calculating FFOM, we are recognizing the fees received for this project similar to other third-party development projects.

⁽⁴⁾

On April 22, 2013, the Company acquired a note and subrogation rights from National Public Finance Guarantee Corporation (formerly known as MBIA Insurance Corp. of Illinois) for an aggregate of \$52.8 million, which are secured by a lien on, and the cash flows from, two student housing properties in close proximity to the University of Central Florida and currently under a ground lease with the UCF Foundation. The instruments carry an interest rate of 5.123 percent. The acquisition facilitated the settlement of litigation related to a third-party management agreement for the properties with a GMH entity that was acquired by the company's 2008 merger with GMH. The acquisition resulted in a non-cash settlement charge of \$2.8 million to reflect the fair market valuation of the instruments. Management believes it is appropriate to exclude this non-cash charge from FFOM in order to more accurately present the operating results of the Company on a comparative basis during the periods presented.

Inflation

Our student leases do not typically provide for rent escalations. However, they typically do not have terms that extend beyond 12 months. Accordingly, although on a short term basis we would be required to bear the impact of rising costs resulting from inflation, we have the opportunity to raise rental rates at least annually to offset such rising costs. However, a weak economic environment or declining student enrollment at our principal universities may limit our ability to raise rental rates.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss from adverse changes in market prices and interest rates. Our future earnings and cash flows are dependent upon prevailing market rates. Accordingly, we manage our market risk by matching projected cash inflows from operating, investing and financing activities with projected cash outflows for debt service, acquisitions, capital expenditures, distributions to stockholders and unitholders, and other cash requirements. The majority of our outstanding debt has fixed interest rates, which minimizes the risk of fluctuating interest rates. Our exposure to market risk includes interest rate fluctuations in connection with our revolving credit facilities and variable rate construction loans and our ability to incur more debt without stockholder approval, thereby increasing our debt service obligations, which could adversely affect our cash flows. No material changes have occurred in relation to market risk since our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 4. Controls and Procedures

American Campus Communities, Inc.

(a) Evaluation of Disclosure Controls and Procedures

As required by SEC Rule 13a-15(b), we have carried out an evaluation, under the supervision of and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures for the quarter covered by this report were effective at the reasonable assurance level.

(b) Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

American Campus Communities Operating Partnership, L.P.

(a) Evaluation of Disclosure Controls and Procedures

As required by SEC Rule 13a-15(b), we have carried out an evaluation, under the supervision of and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures for the quarter covered by this report were effective at the reasonable assurance level.

(b)Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to various claims, lawsuits and legal proceedings that arise in the ordinary course of business. While it is not possible to ascertain the ultimate outcome of such matters, management believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on the our consolidated financial position or our results of operations.

Item 1A. Risk Factors

There have been no material changes to the risk factors that were discussed in Part 1, Item 1A of the Company's and the Operating Partnership's Annual Report on Form 10-K for the year ended December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
