PROSPECTUS SUMMARY

This is a summary of our business and this offering. For a more complete understanding of our business and this offering, you should read the entire prospectus, the prospectus supplement and the documents incorporated by reference. In this prospectus, references to “we,” “our,” “us,” the “Company” or “Palatin” means Palatin Technologies, Inc. and its subsidiary.

Palatin’s Business

We are a biopharmaceutical company developing targeted, receptor-specific peptide therapeutics for the treatment of diseases with significant unmet medical need and commercial potential. Our programs are based on molecules that modulate the activity of the melanocortin and natriuretic peptide receptor systems. Our primary product in clinical development is bremelanotide for the treatment of female sexual dysfunction (FSD). In addition, we have drug candidates or development programs for obesity, erectile dysfunction, pulmonary diseases, cardiovascular diseases and inflammatory diseases.

The following drug development programs are actively under development:

- Bremelanotide, a peptide melanocortin receptor agonist, for treatment of FSD. This drug candidate has completed a Phase 2B clinical trial, and we have announced top-line results.
- Melanocortin receptor-based compounds for treatment of obesity, under development by AstraZeneca AB (AstraZeneca) pursuant to our research collaboration and license agreement.
- PL-3994, a peptide mimetic natriuretic peptide receptor A (NPR-A) agonist, for treatment of cardiovascular and pulmonary indications.

The following chart shows the status of our drug development programs.

On November 8, 2012, we reported positive top-line results, including the successful achievement of statistical significance for the primary endpoint and key secondary endpoints in our Phase 2B clinical trial evaluating the efficacy and safety of bremelanotide for treatment of FSD. The primary endpoint data analysis of 327 pre-menopausal women with female sexual arousal disorder, hypoactive sexual desire disorder, or a combination of both disorders, the most common types of FSD, demonstrate that women taking bremelanotide showed statistically significant increases in the number of Satisfying Sexual Events and also showed statistically significant improved measures of overall sexual functioning and distress related to sexual dysfunction, compared to placebo. Bremelanotide was well-tolerated during the trial. The most common types of treatment-emergent adverse events reported more frequently in the bremelanotide arms were facial flushing, nausea and emesis, which were mainly mild-to-moderate in severity. Adverse events that most commonly led to discontinuation were nausea and emesis. No serious adverse events were attributable to bremelanotide during the trial. Based on the results of discussions with the U.S. Food and Drug Administration and external advisors regarding the results of this trial and further development steps, Phase 3 activities are anticipated to start in the second-half of calendar year 2013.

We have initiated preclinical studies with new peptide drug candidates for a number of indications, primarily inflammatory disease related, and are continuing preclinical development with a next generation peptide for FSD and erectile dysfunction.

On July 3, 2012, we closed on a private placement of 3,873,000 shares of our common stock, Series A 2012 warrants to purchase up to 31,988,151 shares of our common stock, and Series B 2012 warrants to purchase up to 35,488,380 shares of our common stock. The 35,488,380 shares of our common stock included in this prospectus are shares issuable on exercise of the Series B 2012 warrants sold in the private placement. Aggregate gross proceeds to us were \$35,000,000, with net proceeds, after deducting estimated offering expenses, of \$34,407,446. The Series B 2012 warrants are exercisable starting September 27, 2012, the date on which our stockholders increased the number of authorized shares of our common stock, at an exercise price of \$0.01 per share, and expire on September 27, 2022.

Key elements of our business strategy include: using our technology and expertise to develop and commercialize innovative therapeutic products; entering into alliances and partnerships with pharmaceutical companies to facilitate the development, manufacture, marketing, sale and distribution of product candidates that we are developing; and, partially funding our product development programs with the cash flow generated from our license agreement with AstraZeneca and any other companies.

We incorporated in Delaware in 1986 and commenced operations in the biopharmaceutical area in 1996. Our corporate offices and research and development facility are located at 4B Cedar Brook Drive, Cranbury, New Jersey 08512 and our telephone number is (609) 495-2200. We maintain an Internet site at <http://www.palatin.com>, where among other things, we make available free of charge on and through this website our Forms 3, 4 and 5, annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) and Section 16 of the Securities Exchange Act of 1934 as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission (the “SEC”). Our website and the information contained in it or connected to it are not incorporated into this prospectus.

The Offering

Selling stockholders identified in this prospectus may sell up to 35,488,380 shares of our common stock, \$0.01 par value. The selling stockholders may sell their shares according to the plan of distribution described on page 7 of this prospectus. We will not receive any proceeds from the sale of these shares. We have paid certain expenses related to the registration of the common stock.

RISK FACTORS

Investing in our securities involves risks which you should consider carefully. We have set forth below risk factors related specifically to this offering. For risks related to our business operations, see “Risk Factors” in our quarterly report on Form 10-Q for the quarter ended September 30, 2012, and all subsequent reports that we file with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934. We have incorporated those reports by reference into this prospectus. See “Incorporation of Information by Reference” and “Where You Can Find More Information” below.

RISKS RELATED TO THE OFFERING

Investors in this offering may suffer immediate dilution.

As of September 30, 2012, we had a net tangible book value of \$33 million which yields a net tangible book value of \$0.84 per share of common stock, assuming the conversion of all then convertible preferred stock and no exercise of any warrants or options. If you pay more than the net tangible book value per share for stock in this offering, you will suffer immediate dilution.

As of December 5, 2012, there were 95,235,243 shares of common stock underlying outstanding convertible preferred stock, options, restricted stock units and warrants. Stockholders may experience dilution from the conversion of preferred stock, exercise of outstanding options and warrants and vesting of restricted stock units.

As of December 5, 2012, holders of our outstanding dilutive securities had the right to acquire the following amounts of underlying common stock:

- 52,834 shares issuable on the conversion of immediately convertible Series A Convertible preferred stock, subject to adjustment, for no further consideration;
- 2,758,633 shares issuable on the exercise of stock options, at exercise prices ranging from \$0.65 to \$42.10 per share;
- 472,500 shares issuable under restricted stock units which vest on dates between June 22, 2013 and July 17, 2014, subject to the fulfillment of service conditions; and
- 91,951,276 shares issuable on the exercise of warrants at exercise prices ranging from \$0.01 to \$3.30 per share, which includes warrants issued in our 2012 private placement for 67,476,531 shares issuable at an exercise price of \$0.01 per share.

If the holders convert, exercise or receive these securities, or similar dilutive securities we may issue in the future, stockholders may experience dilution in the net tangible book value of their common stock. In addition, the sale or availability for sale of the underlying shares in the marketplace could depress our stock price. We have registered or agreed to register for resale substantially all of the underlying shares listed above. Holders of registered underlying shares could resell the shares immediately upon issuance, which could result in significant downward pressure on our stock price.

We expect to sell additional equity securities, which will cause dilution.

We expect to sell additional equity securities, and may sell additional securities at a discount to the market price. Any future sales of equity will dilute the holdings of existing stockholders, possibly reducing the value of their investment.

NOTE CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus, and the information incorporated by reference, contain forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, that involve risk and uncertainties. Any statements contained in this prospectus that are not statements of historical fact may be forward-looking statements. When we use the words “anticipate,” “plan,” “expect” and similar expressions, we are identifying forward-looking statements. Forward-looking statements involve risks and uncertainties which may cause our actual results, performance or achievements to be materially different from those expressed or implied by forward-looking statements. These factors include, among others:

- current or future financial performance,
- management’s plans and objectives for future operations,
 - ability to raise capital or repay debt, if required,
- uncertainties associated with product research and development,
 - clinical trials and results,
- uncertainties associated with dependence upon the actions of our collaborators and of government regulatory agencies,
 - product plans and performance,

- management's assessment of market factors, and
- statements regarding our strategy and plans and those of our strategic partners.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause our actual results to be materially different from our historical results or from any results expressed or implied by forward-looking statements. Our future operating results are subject to risks and uncertainties and are dependent upon many factors, including, without limitation, the risks identified under the caption "Risk Factors," and in our other SEC filings. The statements we make in this prospectus are as of the date of this prospectus.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as may be required by law, we do not intend to update any of the forward-looking statements for any reason after the date of this prospectus to conform such statements to actual results or if new information becomes available.

All forward-looking statements attributable to us, or to persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements.

USE OF PROCEEDS

We will not receive any proceeds from the sale of stock under this prospectus. The selling stockholders will receive any and all proceeds from the sale of stock under this prospectus. See “Selling Stockholders” and “Plan of Distribution” below.

SELLING STOCKHOLDERS

Pursuant to a registration rights agreement between us and selling stockholders, we are required to use our reasonable best efforts to register shares issuable on exercise of the selling stockholders’ Series B 2012 warrants issued in our 2012 private placement on a shelf registration statement. The registration statement containing this prospectus will satisfy our obligations to register these shares. Except for the acquisition of the securities issued in our 2012 private placement, the selling stockholders have not had any material relationship with us within the past three years.

This prospectus covers the selling stockholders’ offers and sales of the following shares of common stock:

- 35,488,380 shares underlying Series B 2012 ten-year warrants exercisable starting September 27, 2012, which expire September 27, 2022, issued pursuant to our 2012 private offering of stock and warrants, with an exercise price of \$0.01 per share.

The following table sets forth the names of the selling stockholders, their current beneficial ownership of our securities (but see the limitation on exercise described in the footnotes below), the number of shares offered for each stockholder's account, and the amount and percentage of their beneficial ownership after this offering, assuming that the selling stockholders were to exercise (subject to the limitation on exercise described in the footnotes to this table) all of their Series B 2012 warrants in full and sell all of the offered shares. The selling stockholders may from time to time offer and sell any or all of the shares pursuant to this prospectus. Because the selling stockholders are not obligated to sell the shares, we cannot estimate how many shares they will hold upon consummation of any such sales. “Beneficial ownership” here means direct or indirect voting or investment power over outstanding stock and stock which a person currently has the right to acquire or has the right to acquire within 60 days after the date of this prospectus. It therefore includes stock issuable on exercise of the warrants described above (but see the limitation on exercise described in the footnotes to the table). The information in the table is from the selling stockholders, reports furnished to us under rules of the SEC and our stock ownership records, as of the date of this prospectus. Information concerning the selling stockholders may change from time to time and any changed information will be set forth in supplements to this prospectus to the extent required.

(4) Exercise of each of the Series A 2012 warrants and the Series B 2012 warrants is subject to a blocker provision restricting the exercise of the warrants if, as a result of exercise, the beneficial ownership of the holder and its affiliates and any other party that could be deemed to be a group with the holder would exceed 9.99% of the outstanding common stock (as may be adjusted to the extent set forth in the Series A 2012 warrants and the Series B 2012 warrants). Beneficial ownership in the table above does not exclude Series A 2012 warrants and Series B 2012 warrants which are not currently exercisable because of that restriction.

PLAN OF DISTRIBUTION

Each selling stockholder of the common stock and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock covered hereby on the NYSE MKT or any other stock exchange, market or trading facility on which the shares are traded or in private transactions from time to time directly or through one or more underwriters, broker-dealers or agents. These sales may be in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale or negotiated prices. A selling stockholder may use any one or more of the following methods when selling shares:

- on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;

- in the over-the-counter market;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
 - purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
 - an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
 - short sales;
- in transactions through broker-dealers that agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
 - a combination of any such methods of sale; or
 - any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 under the Securities Act of 1933, if available, rather than under this prospectus.

Broker-dealers engaged by the selling stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the common stock or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The selling stockholders may also sell shares of the common stock short and deliver these securities to close out their short positions and to return borrowed shares in connection with such short sales, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling stockholders may pledge or grant a security interest in some or all of the warrants or shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933, amending, if necessary, the list of selling stockholder to include the pledgee, transferee or other successors in interest as selling shareholders under this prospectus. The selling stockholders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act of 1933 in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act of 1933. Each selling stockholder has informed us that it does not have any written or oral agreement or understanding, directly or

indirectly, with any person to distribute our common stock. In no event shall any broker-dealer receive fees, commissions and markups which, in the aggregate, would exceed eight percent (8%).

We are required to pay certain fees and expenses we have incurred incident to the registration of the shares. We have also agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act of 1933.

The selling stockholders have advised us that there is no underwriter or coordinating broker acting in connection with the proposed sale of the resale shares by the selling stockholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by the selling stockholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for us to be in compliance with the current public information under Rule 144 under the Securities Act of 1933 or any other rule of similar effect, or (ii) all of the shares have been sold pursuant to this prospectus or Rule 144 under the Securities Act of 1933 or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares of our common stock covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Securities Exchange Act of 1934, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the selling stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of the common stock by the selling stockholders or any other person. We will make copies of this prospectus available to the selling stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act of 1933).

Once sold under the registration statement, of which this prospectus forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

LEGAL MATTERS

Unless otherwise specified in the applicable prospectus supplement, the validity of the securities covered by this prospectus will be passed upon for us by Thompson Hine LLP, New York, New York.

EXPERTS

The consolidated financial statements of Palatin Technologies, Inc. and subsidiary as of June 30, 2012 and 2011, and for each of the years in the three-year period ended June 30, 2012, have been incorporated by reference herein and in the registration statement in reliance upon the report of KPMG LLP, independent registered public accounting firm, incorporated by reference herein, and upon the authority of said firm as experts in accounting and auditing.

The audit report covering the June 30, 2012 consolidated financial statements contains an explanatory paragraph that states that Palatin Technologies, Inc. has incurred recurring net losses and negative cash flows from operations and will require additional financing to continue to fund its planned development activities. The private placement completed in July 2012 contains certain contractual obligations to redeem certain warrants upon request by the investors at the then fair value of the underlying common stock in the event the number of authorized shares is not increased by June 30, 2013. These conditions raise substantial doubt about the ability of the Company to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.
