(Address of Principal Executive Offices)

(Zip Code)

Registrant's Telephone Number, Including Area Code: (800) 354-7993

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Name of each exchange on which registered

Common Stock, par value \$0.0001 per share

The Nasdaq Global Select Market

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer
(Do not check if a smaller reporting company)

Smaller reporting company

Large accelerated filer Accelerated filer Non-accelerated filer
(Do not check if a smaller reporting company)

Edgar Filing: Echo Global Logistics, Inc. - Form 10-K

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The aggregate market value of the common equity held by non-affiliates of the registrant as of June 30, 2015, the last business day of the registrant's most recent completed second quarter, was \$912,545,581 (based upon closing price of these shares on the Nasdaq Global Select Market).

The number of shares of the registrant's common stock outstanding as of the close of business on February 25, 2016 was 30,041,412.

Documents incorporated by reference:

Portions of the Registrant's Proxy Statement for its Annual Meeting of Stockholders are incorporated by reference into Part III of this Annual Report on Form 10-K, provided that if such Proxy Statement is not filed with the Securities and Exchange Commission (the "SEC") within 120 days after the end of the fiscal year covered by this Form 10-K, an amendment to this Form 10-K shall be filed no later than the end of such 120-day period.

Part I

Item 1. Business

Unless otherwise indicated or the context otherwise requires, references in this Annual Report on Form 10-K to "Echo Global Logistics," "Echo," the "Company," "we," "us" or "our" are to Echo Global Logistics, Inc., a Delaware corporation and subsidiaries.

Certain statements in this Annual Report on Form 10-K are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These statements involve a number of risks, uncertainties and other factors that could cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Factors which could materially affect such forward-looking statements can be found in Part I, Item 1 "Business," Part I, Item 1A "Risk Factors" and Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Annual Report on Form 10-K. Investors are urged to consider these factors carefully in evaluating any forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are only made as of the date hereof and we undertake no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

Our Company

Echo Global Logistics is a leading provider of technology-enabled transportation and supply chain management solutions. We utilize a proprietary technology platform to compile and analyze data from our multi-modal network of transportation providers to satisfy the transportation and logistics needs of our clients. This model enables us to quickly adapt to and offer efficient and cost-effective solutions for our clients' shipping needs. We focus primarily on arranging transportation by truckload ("TL") and less than truckload ("LTL") carriers. We also offer intermodal (which involves moving a shipment by rail and truck), small parcel, domestic air, expedited and international transportation services. Our core logistics services include rate negotiation, shipment execution and tracking, carrier management, routing compliance and performance management reporting.

The success of our model and its ability to deliver a competitive value proposition to shippers has been the main driver behind our historical growth and we believe will serve as the basis for our continued expansion. Our market share has grown rapidly within this market segment in recent years, primarily through organic growth with the addition of new customers, the expansion of relationships with existing customers, the addition of new services, the development of a training program that enables better client service and the hiring of additional salespeople. We also have supplemented our organic growth through selective acquisitions.

On June 1, 2015, we acquired Command Transportation, LLC ("Command"), one of the largest privately held TL brokers and non-asset based transportation providers in the United States, for approximately \$409 million in cash and shares of Echo's common stock. We believe that the Command acquisition has made us a leading provider of technology-enabled transportation management solutions with enhanced scale in the TL market, and allows us to offer greater capacity and a broader network to our clients.

We were formed as a Delaware limited liability company in January 2005 and converted our legal form to a Delaware corporation in June 2006. In October 2009, we completed an initial public offering of our shares of common stock.

Our common stock is listed on the Nasdaq Global Select Market under the symbol "ECHO."

Our Clients

We procure transportation and provide logistics services for clients across a wide range of industries, such as manufacturing, construction, food and beverage, consumer products and retail. Our clients fall into two categories: Transactional and Managed Transportation.

Transactional Clients

We service Transactional clients on a shipment-by-shipment basis. Pricing is often quoted according to pre-existing price agreements maintained with our LTL carriers, or pricing procured in the spot market for TL carriers. It is the objective of our

Table of Contents

sales representatives to expand client relationships by increasing the shipper's percentage of total freight spend directed to Echo. Transactional clients benefit from their access to our advanced technology, service quality and competitive pricing.

Our revenue from Transactional clients has continued to increase annually, totaling \$616.6 million in 2013, \$871.3 million in 2014 and \$1,225.3 million in 2015. Revenue from Transactional clients as a percentage of total revenue was 70%, 74% and 81% in 2013, 2014 and 2015, respectively.

Managed Transportation Clients

We typically enter into multi-year contracts with our Managed Transportation clients, generally with terms of one to three years, to satisfy some, or substantially all, of their transportation management needs. Each Managed Transportation client is assigned one or more dedicated account executives. In limited instances, a Managed Transportation client will request that its account executives work on-site at the client's location.

Dedicated account executives, together with account management and technology staff, form our Solutions and Integration team that initiates the on-boarding process for each new Managed Transportation client. This team reviews the client's existing business processes, develops a preliminary freight management plan and targets a percentage cost savings achievable for the client over the life of the contract. The team then develops an integration plan that links the client's back office processes to our proprietary technology platform.

The Managed Transportation relationship is initially predicated on a high level of personalized service, cost savings and the improved efficiency, transparency and reporting achieved through reliance on our systems. Each client's dedicated account team seeks to become more knowledgeable about the client's supply chain operations through an ongoing series of quarterly business reviews. Through this process, additional opportunities for efficiency gains, operating improvements and cost savings are identified and recommended by account managers who generally have significant industry experience.

Managed Transportation contracts often are on an exclusive basis for a certain transportation mode or point of origin and may apply to one or many modes used by the client. These contractual exclusivity provisions help ensure, but do not guarantee, that we receive a significant portion of a Managed Transportation client's transportation spend. In our experience, compliance with such provisions varies from client to client and over time. We work with our Managed Transportation clients and expect them to maintain and improve compliance with any applicable exclusivity provisions.

We also provide small parcel consulting services to a limited number of our Managed Transportation clients. Under these arrangements, we review the client's small parcel shipping contracts and shipment data analyzing their volumes, distribution, rates and savings opportunities, prepare negotiation strategies and directly or indirectly participate in negotiations with carriers to improve the client's rates, charges, services and commitments.

Our revenue from Managed Transportation clients was \$267.6 million in 2013, \$302.1 million in 2014 and \$287.0 million in 2015. Revenue from Managed Transportation clients as a percentage of total revenue was 30%, 26% and 19% in 2013, 2014 and 2015, respectively.

Our Proprietary Technology

Our proprietary technology platform ("Optimizer") is fundamental to our operating system and solutions offering. We run our business on a technology platform engineered and built from the ground up and believe its proprietary nature differentiates us from our competition in a number of critical ways. All parties to each transaction (clients, carriers and Echo employees) are unified on a single platform through access portals customized to each party's needs. We believe such integration yields critical synergies throughout our organization as well as with our clients and our carriers. Equally important, internal integration ensures speed and accuracy of data capture, information exchange, shipment execution and back-end reporting capabilities.

We believe our web-based suite of applications connects clients with every function required to run an efficient transportation and logistics program. Transportation solutions developed for Managed Transportation clients often involve back-end systems integration, and both the solution and the specific integration requirements vary by client. Optimizer affords us the flexibility to support the supply chain needs of each client, regardless of specifications of the client's own system.

When communicating their transportation needs to us, clients have the flexibility to do so electronically through our web portal ("EchoTrak"), by other computer protocols or by phone. Our system generates price and carrier options for our clients based on either rates pre-negotiated with preferred carriers or historical price and capacity data stored in our system. If a client enters its own shipment, EchoTrak automatically alerts the appropriate account executive. Once the carrier is selected, the client's account executive uses our system to manage all aspects of the shipping process through the life cycle of the shipment. Our clients use Optimizer's "track and trace" tools to monitor shipment status through EchoTrak.

Table of Contents

As our business has grown, our technology platform has continued to evolve in order to incorporate new multi-modal capabilities. We believe the agility of Optimizer is essential to keep pace with the changing needs of our business and offers us a critical advantage in the competitive transportation marketplace. Each mode involves different vendors exchanging unique order and price data that must be shared with multiple parties to any given transaction. Our technology engineers build mode-specific requirements into our system that support our ability to sell and service that mode on an enterprise-wide basis. In 2015, 2014 and 2013, we spent approximately \$8.2 million, \$9.6 million and \$8.4 million, respectively, on the development of Optimizer and related technologies.

We rely primarily on a combination of copyright, trademark and trade secret laws, license agreements and other contractual provisions to protect our intellectual property rights and other proprietary rights. Some of our intellectual property rights relate to proprietary business process enhancements. It is our practice to enter into confidentiality and invention assignment agreements with all of our employees and independent contractors. Such agreements include a confidentiality undertaking by the employee or independent contractor; ensure that all new intellectual property developed in the course of our relationship with employees or independent contractors is assigned to us; and require the employee or independent contractor to cooperate with us to protect our intellectual property during and after his or her relationship with us.

Our Transportation Solutions

We satisfy the market demand for freight transportation solutions by delivering a competitive value proposition that combines advanced technology, excellent client service, competitive pricing and highly customized transportation solutions to businesses seeking external transportation management expertise. As a non-asset-based provider of technology enabled transportation and logistics services, our solutions offerings take many forms, including multi-modal transportation brokerage and logistics services.

Mode-Specific Offerings

For our Transactional clients, Echo offers a wide array of shipping options from which to choose:

Truckload. We provide TL service across all TL segments, including dry van, temperature-controlled and flatbed trucks. Our Truckload Quoting Tool technology uses our predictive pricing algorithms, industry relationships and historical lane-specific price and capacity data to quickly satisfy our clients' TL needs.

Less than Truckload. We maintain relationships with, and utilize the vast majority of, LTL carriers in the market. Using our innovative RateIQ 2.0 technology, we obtain real-time price and transit time information for every LTL shipment we broker.

Small Parcel. We provide small parcel services for packages of all sizes. Using our EchoPak technology, we often are able to deliver cost saving opportunities to those clients with significant small parcel freight spend.

Intermodal. Intermodal transportation is the shipping of freight by multiple modes. We offer intermodal transportation services for our clients that utilize a combination of truck and rail. Our dedicated intermodal team can select the combination of truck and rail service that best satisfies each client's individual price and shipment criteria.

Domestic Air and Expedited Services. We provide domestic air and expedited shipment services for our clients whose delivery requirements cannot be satisfied by traditional over the road service.

International. For clients seeking the ease of a comprehensive international delivery option, we provide air and ocean transportation services. Dedicated account teams are able to consolidate shipments, coordinate routing, prearrange custom clearance and organize local pick-up and delivery, all in an effort to minimize the time and economic burdens associated with international shipping.

Logistics Services Offering

Many clients prefer a comprehensive and customized freight management solution that maximizes system wide efficiencies as well as cost savings. In these instances, the shippers outsource their freight management needs to us. For these shippers, often part of our Managed Transportation group, we develop a plan involving a wide range of multi-modal freight brokerage services that often includes the redesign and re-engineering of distribution networks that connect a client to its suppliers and customers.

Transportation management and logistics services that we provide to such clients can include:

• Rate negotiation;

Table of Contents

Procurement of transportation, both contractually and in the spot market;
Shipment execution and tracking;
Carrier management, selection, reporting and compliance;
Executive dashboard presentations and detailed shipment reports;
Freight bill audit and payment;
Claims processing and service refund management;
Design and management of inbound client freight programs;
Individually configured web portals and self-service data warehouses;
Enterprise resource planning ("ERP") integration with transactional shipment data;
Integration of shipping applications into client e-commerce sites; and
Back-end reports customized to the internal reporting needs of the business

Our Employees

As of December 31, 2015, Echo had 2,335 employees, of which 1,620 were sales employees and agents. Our sales representatives and agents are located in more than thirty offices throughout the United States. Sales representatives are employees focused on identifying and growing relationships with shippers (our clients) and carriers. Sales agents work independently or in station offices and tend to be experienced industry sales professionals managing their own client relationships. Both sales employees and sales agents are primarily responsible for managing and servicing the client relationships whose business they secure. Candidates for employment are identified and screened through traditional means, such as career fairs, search firms, job postings, advertisements in industry publications and referrals. The majority of hires within our sales and service organization are recent college graduates. We invest extensively in their training and ongoing development to ensure their long term success as a part of our organization. Employees who join Echo as a result of an acquisition also participate in training tailored to their needs. We are confident that our employee training and development efforts contribute to longer tenure, increased productivity and a greater commitment to client satisfaction. We consider our employee relations to be good.

Our Carrier Network

In 2015, we continued to enhance our vast carrier network of motor, rail and air freight transportation providers. The acquisition of Command in June 2015 added significant depth to our carrier network. We select our carriers on the basis of their capabilities, geographic coverage, quality of service and price. Carriers selected to join our network provide physical transportation services to our clients. In our capacity as intermediary, we track our clients' shipments from origin to destination. Because we do not own any transportation equipment and do not employ those directly involved in the delivery of our clients' shipments, the nature of our carrier relationships is essential to our success. We believe we provide value to our carriers through our proprietary technology, which gives our carriers the flexibility to adjust pricing and freight by lane or season. Our carriers benefit by gaining access to our clients and our carrier communication tools, which allow us to match our clients' freight with our carriers' excess capacity. We maintain the quality of our carrier network by obtaining documentation from each carrier that ensures the carrier is properly licensed and insured and satisfies our safety requirements. Additionally, we continuously monitor data from our network on capacity, price trends, reliability, quality control standards and overall client service. We believe this quality control program helps to ensure shippers the highest quality service, regardless of the specific carrier selected for an individual shipment. The carriers in our network range in size from large national trucking companies to owner-operators of single trucks. We are not dependent on any one carrier. Our largest carrier accounted for approximately 4% of our total 2015 transportation costs.

Table of Contents

Competition

We operate in the highly competitive and fragmented market for commercial freight transportation and third-party logistics services. Primary competitors to our services include other national non-asset based third-party logistics companies, as well as regional or niche freight brokerages, asset-based carriers offering brokerage and/or logistics services, wholesale intermodal transportation service providers and rail carriers. In addition, we may from time to time compete against carriers' internal sales forces or shippers' internal transportation departments. We also buy transportation services from, and sell to, some of the companies with which we compete.

We believe we compete for business on the basis of service, reliability and price. Some of our competitors may have more and larger clients, more resources, and possibly greater expertise in a single transportation mode. We compete successfully with these companies by delivering a multi-modal solution using advanced technology combined with excellent client service, competitive pricing and highly customized transportation solutions.

Our clients may choose not to outsource their transportation business to us in the future by performing formerly outsourced services for themselves, either in-house or through external partnerships or other arrangements. We believe our key advantage over in-house operations is our ability to simplify the transportation process for our clients by delivering volume-based pricing and service superior to what our clients can secure independent of Echo. In short, we provide companies the opportunity to focus on their core operations by providing our transportation buying power and expertise.

Government Regulation

We are licensed by the U.S. Department of Transportation as a broker authorized to arrange for the transportation of general commodities by motor vehicle. Subject to applicable federal and state regulation, we arrange for the transportation of most types of freight to and from any point in the United States. We arrange transportation for United States domestic shipments by land that are mostly governed by federal regulation, such as the Federal Motor Carrier Safety Administration (the "FMCSA"), which is an agency of the Department of Transportation; some shipments are also regulated by various state agencies. The FMCSA has broad regulatory powers in areas such as safety and insurance relating to interstate motor-carrier and property broker operations. The transportation industry is subject to possible changes in the governing law (such as the possibility of more stringent environmental, safety regulations or limits on vehicle weight and size) that could impact the economics of the industry.

Our international operations are impacted by a wide variety of United States regulations from various government departments, such as the State Department, Department of Commerce and Treasury Department. Regulations set by these departments may cover matters such as the type of commodities that may be shipped and how certain commodities may be shipped. These departments also issue regulations regarding unfair international trade practices and limitations on entities with which we may engage in business.

We contract with indirect air carriers who have been approved by the Transportation Security Administration (the "TSA") and the Department of Transportation to arrange for transportation by air for our customers. The air freight industry is subject to regulatory and legislative changes that could affect the economics of the industry by requiring changes in operating practices or influencing the demand for, and the costs of providing, services to clients.

Our ocean transportation business in the United States is subject to regulation by the Federal Maritime Commission (the "FMC"). We are not licensed as an ocean freight forwarder or a non-vessel operating common carrier operator. However, we do engage in business with entities who are licensed in ocean transportation so that we may arrange for transportation by sea for our customers.

Although Congress enacted legislation in 1994 that substantially preempts the authority of states to exercise economic regulation of motor-carriers and property brokers, some intrastate shipments for which we arrange transportation may be subject to additional licensing registration or permit requirements. Generally, we contractually require the carrier transporting the shipment to ensure compliance with these types of requirements. Although compliance with the regulations governing licenses in these areas has not had a material adverse effect on our operations or financial condition in the past, there can be no assurance that such regulations or changes will not adversely impact our operations in the future. Violation of these regulations could also subject us to fines as well as increased claims liability.

Risk Management and Insurance

If a shipment is damaged during the delivery process, our customer may file a claim for the damaged shipment with us, which we will pursue directly with the carrier on our client's behalf. In the cases where we have agreed (either contractually or otherwise) to pay for claims for damage to freight while in transit, we may pay the claim to our client while we independently

7

Table of Contents

pursue reimbursement from the carrier. If we are unable to recover all or any portion of the claim amount from our carrier, we may bear the financial loss of such claim. We mitigate this risk by using our quality control program to carefully select carriers with adequate insurance, quality control procedures and safety ratings. We also take steps to ensure that the coverage we provide to our clients for damaged shipments is substantially similar to the coverage that our carriers provide. In addition, we carry our own insurance to protect us against client claims for damaged shipments in certain situations where the damages may not be recovered from the responsible motor-carrier.

We extend credit to certain clients as part of our business model. These clients are subject to an approval process prior to any extension of credit or increase in their current credit limit. Our finance department reviews each credit request and considers, among other factors, payment history, current billing status, recommendations by various rating agencies and capitalization. Clients that pass our credit review may receive a line of credit or an increase in their existing credit amount. We believe this review and approval process helps mitigate the risk of client defaults on extensions of credit and any related bad debt expense. Additionally, the Company maintains a credit insurance policy for certain accounts.

We require all motor carriers we work with to carry at least \$1,000,000 in auto liability insurance and \$100,000 in cargo insurance. We also maintain a broad cargo liability insurance policy to protect us against cargo damages that may not be recovered from the responsible motor-carrier. We carry various other liability insurance policies, including auto and general liability. Our collective insurance policies that relate to the transportation of goods have a cap of \$17,500,000.

Our Website

Our website is <http://www.echo.com>. We make available, free of charge through our website, our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, including exhibits and any amendments to those reports, filed with or furnished to the SEC. We make these reports available through our website as soon as reasonably practical after our electronic filing of such materials with, or the furnishing of them to, the SEC. The information contained on our website is not a part of this Annual Report on Form 10-K and shall not be deemed incorporated by reference into this Annual Report on Form 10-K or any other public filing made by us with the SEC.

Item 1A. Risk Factors

Set forth below are certain risk factors that could harm our business, results of operations and financial condition. You should carefully read the following risk factors, together with the financial statements, related notes and other information contained in this Annual Report on Form 10-K. Our business, financial condition and operating results may suffer if any of the following risks are realized. If any of these risks or uncertainties occur, the trading price of our common stock could decline and you might lose all or part of your investment. This Annual Report on Form 10-K contains forward-looking statements that contain risks and uncertainties. Please refer to the discussion of "Forward-Looking Statements" on page three of this Annual Report on Form 10-K in connection with your consideration of the risk factors and other important factors that may affect future results described below.

Risks Related to Our Business

If our carriers do not meet our needs or expectations, or those of our clients, our business could suffer.

The success of our business depends to a large extent on our relationships with our clients and our reputation for providing high-quality technology enabled transportation and logistics services. We do not own or control the transportation assets that deliver our clients' freight, and we do not employ the people directly involved in delivering the freight. We rely on independent third parties to provide TL, LTL, small parcel, intermodal, domestic air, expedited and international carrier services and to report certain information to us, including information relating to delivery status and freight claims. This reliance could cause delays in providing our clients with important service data and in the financial reporting of certain events, including recognizing revenue and recording claims. If we are unable to secure sufficient transportation services to meet our commitments to our clients, our operating results could be

adversely affected, and our clients could utilize the services of our competitors temporarily or permanently. Many of these risks are beyond our control and difficult to anticipate, including:

- changes in rates charged by transportation providers;
- supply shortages in the transportation industry, particularly among TL carriers;
- interruptions in service or stoppages in transportation as a result of labor disputes; and
- changes in regulations impacting transportation.

Table of Contents

If any of the third parties we rely on do not meet our needs or expectations, or those of our clients, our professional reputation may be damaged and our business could be harmed.

Higher carrier prices may result in decreased net revenue margin.

Carriers may charge higher prices if market conditions warrant, or to cover higher operating expenses. Our net revenues and income from operations may decrease if we are unable to correspondingly increase our pricing to our customers. Increased demand for TL services and pending changes in regulations may reduce available capacity and increase carrier pricing.

Competition could substantially impair our business and our operating results.

The transportation services industry is highly competitive. We compete against other national non-asset based third-party logistics companies, as well as regional or niche freight brokerages, asset-based carriers offering brokerage and/or logistics services, wholesale intermodal transportation service providers and rail carriers. In addition, we may from time to time compete against carriers' internal sales forces and shippers' transportation departments. At times, we buy transportation services from, and sell to, our competitors. Historically, competition has created a downward pressure on freight rates and continuation of this rate pressure may adversely affect our revenue and income from operations.

In addition, a software platform and database similar to Optimizer could be created over time by a competitor with sufficient financial resources and comparable experience in the transportation services industry. If our competitors are able to offer comparable services, we could lose clients, and our market share and profit margin could decline. Our competitors may also establish cooperative relationships to increase their ability to address client needs. Increased competition may lead to revenue reductions, reduced profit margins or a loss of market share, any one of which could harm our business.

We are reliant on technology to operate our business and our continued success is dependent on our systems continuing to provide the necessary support to service our customers effectively.

We rely heavily on Optimizer to track and store externally and internally generated market data, analyze the capabilities of our carrier network and recommend cost-effective carriers in the appropriate transportation mode. To keep pace with changing technologies and client demands, we must correctly interpret and address market trends and enhance the features and functionality of our Optimizer platform in response to these trends, which may lead to significant ongoing research and development costs. We may be unable to accurately determine the needs of our clients and the trends in the transportation services industry or to design and implement the appropriate features and functionality of our Optimizer platform in a timely and cost-effective manner, which could result in decreased demand for our services and a corresponding decrease in our revenue. Despite testing, we may be unable to detect defects in existing or new versions of our proprietary software, or errors may arise in our software. Any failure to identify and address such defects or errors could result in loss of revenue or market share, liability to clients or others, diversion of resources, injury to our reputation, and increased service and maintenance costs. Correction of such errors could prove to be impossible or very costly, and responding to resulting claims or liability could similarly involve substantial cost. The success of our business depends upon our ability to deliver time-sensitive, up-to-date data and information. We rely on our Internet access, computer equipment, software applications, database storage facilities and other office equipment, which are mainly located in our Chicago headquarters. Our operations and those of our carriers and clients are vulnerable to interruption by fire, earthquake, power loss, telecommunications failure, terrorist attacks, wars, computer viruses, hacker attacks, equipment failure, physical break-ins and other events beyond our control, including disasters affecting Chicago. We attempt to mitigate these risks through various means, including system backup and security measures, but our precautions will not protect against all potential problems. We maintain fully redundant off-site backup facilities for our Internet access, computer equipment, software applications, database storage and network equipment, but these facilities could be subject to the same interruptions that could affect our headquarters. If we suffer a database or network facility outage, our business could experience disruption, and we could suffer reduced revenue and the loss of clients.

Our ability to deliver our services depends upon the capacity, reliability and security of services provided to us by our telecommunication service providers, our electronic delivery systems and the Internet. We have no control over the operation, quality or maintenance of these services or whether the vendors will improve their services or continue to

provide services that are essential to our business. In addition, our telecommunication service providers may increase their prices at which they provide services, which would increase our costs. If our telecommunication service providers were to cease to provide essential services or to significantly increase their prices, we could be required to find alternative vendors for these services. With a limited number of vendors, we could experience significant delays in obtaining new or replacement services, which could significantly harm our reputation and could cause us to lose clients and revenue. Moreover, our ability to deliver information using the Internet may be impaired because of infrastructure failures, service outages at third-party Internet providers or increased government regulation. If disruptions, failures or slowdowns of our electronic delivery systems or the Internet occur,

Table of Contents

our ability to effectively provide technology enabled transportation and supply chain management services and to serve our clients may be impaired.

We have not registered any patents or trademarks on our proprietary technology to date, and our inability to protect our intellectual property rights may impair our competitive position.

Our failure to adequately protect our intellectual property and other proprietary rights could harm our competitive position. We rely on a combination of copyright, trademark and trade secret laws, as well as license agreements and other contractual provisions to protect our intellectual property and other proprietary rights. In addition, we attempt to protect our intellectual property and proprietary information by requiring all of our employees and independent contractors to enter into confidentiality and invention assignment agreements. To date, we have not pursued patent protection for our technology. We currently have seven registered trademarks to protect our brands. We cannot be certain that the steps we have taken to protect our intellectual property rights will be adequate or will prevent third parties from infringing or misappropriating our rights, imitating or duplicating our technology, services or methodologies, including Optimizer, or using trademarks similar to ours. Should we need to resort to litigation to enforce our intellectual property rights or to determine the validity and scope of the rights of others, such litigation could be time-consuming and costly, and the result of any litigation is subject to uncertainty. In addition, Optimizer incorporates open source software components that are licensed to us under various public domain licenses. Although we believe that we have complied with our obligations under the various applicable licenses for the open source software that we use, there is little or no legal precedent governing the interpretation of many of the terms of these licenses, and the potential impact of such terms on our business is, therefore, difficult to predict.

We have extensive selling and implementation cycles to secure a new Managed Transportation contract, which require significant investments of resources.

We typically face extensive selling and implementation cycles to secure a new Managed Transportation contract, which requires significant investment of resources and time by both our clients and us. Before committing to use our services, potential Managed Transportation clients require us to spend time and resources educating them on the value of our services and assessing the feasibility of integrating our systems and processes with theirs. Our clients then evaluate our services before deciding whether to use them. Therefore, our Managed Transportation selling cycle, which can take up to six months, is subject to many risks and delays over which we have little control, including our clients' decisions to choose alternatives to our services (such as other providers or in-house resources) and the timing of our clients' budget cycles and approval processes.

Implementing our Managed Transportation services, which can take from one to six months, involves a significant commitment of resources over an extended period of time from both our clients and us. Depending on the scope and complexity of the processes being implemented, these time periods may be significantly longer. Our current and future clients may not be willing or able to invest the time and resources necessary to implement our services, and we may fail to close sales with potential clients to which we have devoted significant time and resources, which could have a material adverse effect on our business, results of operations, financial condition and cash flows, as we do not recognize significant revenue until after we have completed the implementation phase.

Our clients may terminate their relationships with us on short notice with limited or no penalties, and our clients are not obligated to spend a minimum amount with us.

Our Transactional clients, which accounted for 81% and 74% of our revenue in 2015 and 2014, respectively, use our services on a shipment-by-shipment basis rather than under long-term contracts. These clients have no obligation to continue using our services and may stop using them at any time without penalty or with only limited penalties. Our contracts with Managed Transportation clients typically have terms of one to three years and are subject to termination provisions negotiated on a contract-by-contract basis. If we fail to adhere to the terms of the contract or provide the negotiated level of cost savings, the client can terminate the relationship. Managed Transportation contracts accounting for 7.4% and 5.7% of our total 2015 revenue are scheduled to expire (subject to possible renewal) in 2016 and 2017, respectively.

The volume and type of services we provide each client may vary from year to year and could be reduced if the client were to change its outsourcing or shipping strategy. Our Managed Transportation clients generally are not obligated to spend any particular amount with us, although our Managed Transportation contracts are typically exclusive with

respect to point of origin or one or more modes of transportation, meaning that the client is obligated to use us if it ships from the point of origin or uses those modes. These contractual exclusivity provisions help ensure, but do not guarantee, that we receive a significant portion of the amount that our Managed Transportation clients spend on transportation in the applicable mode or modes or from the applicable point of origin. In our experience, compliance with such provisions varies from client to client and over time. Our clients' failure to comply with these exclusivity provisions may adversely affect our revenue.

Table of Contents

If a significant number of our Transactional or Managed Transportation clients elect to terminate or not renew their engagements with us, or if the shipping volume of a significant number of our clients decreases, our business, operating results and financial condition could suffer. If we are unable to renew our Managed Transportation contracts at favorable rates, our revenue may decline.

We may not be able to successfully integrate and manage Command's business and operations.

On June 1, 2015, we acquired Command. As a result of this acquisition, the size of our business has increased significantly beyond our historical Echo business. Our future success depends, in part, upon our ability to manage this expanded business. This will pose substantial challenges for our management, including challenges related to the management and monitoring of additional operations and associated increased costs and complexity. Our future success also depends, in part, on our ability to successfully integrate Command's business and operations, including the integration of Command's existing information technology platform and the development of a uniform compensation structure across both businesses. If we are unable to achieve these objectives, the anticipated benefits and potential synergies of the Command acquisition may not be realized fully or at all, or may take longer to realize than expected. Any failure to manage our expanded business or to realize anticipated benefits of the Command acquisition would have a material adverse effect on our business, operating results, and financial condition.

We may not be able to identify suitable acquisition candidates, effectively integrate newly acquired businesses or achieve expected profitability from acquisitions.

Part of our growth strategy is to increase our revenue and the market regions that we serve through the acquisition of complementary businesses. There can be no assurance that suitable candidates for acquisitions can be identified or, if suitable candidates are identified, that acquisitions can be completed on acceptable terms, if at all. Even if suitable candidates are identified, any future acquisitions may entail a number of risks that could adversely affect our business and the market price of our common stock, including the integration of the acquired operations, diversion of management's attention, risks of entering new market regions in which we have limited experience, adverse short-term effects on our reported operating results, the potential loss of key employees of acquired businesses and risks associated with unanticipated liabilities.

We may use our common stock to pay for acquisitions. If the owners of potential acquisition candidates are not willing to receive our common stock in exchange for their businesses, our acquisition prospects could be limited. Future acquisitions could also result in accounting charges, potentially dilutive issuances of equity securities and increased debt and contingent liabilities, including liabilities related to unknown or undisclosed circumstances, any of which could have a material adverse effect on our business and the market price of our common stock.

Changes in fuel prices may change carrier prices, and volatility in fuel prices may make it more difficult to pass through this cost to our clients, which may impair our operating results.

Fuel prices can be volatile and difficult to predict. Fuel prices have declined significantly over the last two years. Our clients expect these savings to be passed along through lower prices. If carriers do not lower their prices to reflect the decrease in fuel costs, this could negatively impact our shipment volume, as our clients would seek other shipping options. This decrease in volume would negatively impact our gross profits and income from operations.

Despite the recent decline in fuel prices, there is a risk that fuel prices could rise significantly in future periods. In the event fuel prices rise, carriers can be expected to charge higher prices to cover higher operating expenses, and our gross profits and income from operations may decrease if we are unable to continue to pass through to our clients the full amount of these increased costs. Higher fuel costs could also cause material shifts in the percentage of our revenue by transportation mode, as our clients may elect to utilize alternative transportation modes. In addition, increased volatility in fuel prices may affect our gross profits and income from operations if we are not able to pass through to our clients any higher costs associated with such volatility. Any material shifts to transportation modes with respect to which we realize lower gross profit margins could impair our operating results.

A decrease in levels of excess capacity in the U.S. transportation services industry could have an adverse impact on our business.

We believe that, historically, the U.S. transportation services industry has experienced significant levels of excess capacity. Our business seeks to capitalize on imbalances between supply and demand in the transportation services

industry by obtaining favorable pricing terms from carriers in our network through a competitive bid process. Reduced excess capacity in the transportation services industry generally, and in our carrier network specifically, could have an adverse impact on our ability to execute our business strategy and on our business results and growth prospects.

Table of Contents

A decrease in the number of carriers participating in our network could adversely affect our business. In 2015, we continued to enhance our sizable carrier network of motor, rail and air freight transportation providers. We expect to continue to rely on these carriers to fulfill our shipping orders in the future. However, these carriers are not contractually required to continue to accept orders from us. If shipping capacity at a significant number of these carriers becomes unavailable, we will be required to use fewer carriers, which could significantly limit our ability to serve our clients on competitive terms. The transportation industry has also experienced consolidation among carriers in recent years and further consolidations could result in a decrease in the number of carriers, which may impact our ability to serve our clients on competitive terms. In addition, we rely on price bids provided by our carriers to populate our database. If the number of our carriers decreases significantly, we may not be able to obtain sufficient pricing information for Optimizer, which could affect our ability to obtain favorable pricing for our clients. Our obligation to pay our carriers is not contingent upon receipt of payment from our clients, and we extend credit to certain clients as part of our business model. In most cases, we take full risk of credit loss for the transportation services we procure from carriers. Our obligation to pay our carriers is not contingent upon receipt of payment from our clients. If any of our key clients fail to pay for our services, our profitability would be negatively impacted. We extend credit to certain clients in the ordinary course of business as part of our business model. By extending credit, we increase our exposure to uncollected receivables. A deterioration in the global or domestic economy could drive an increase in business failures, downsizing and delinquencies, which could cause an increase in our credit risk. If we fail to monitor and manage effectively any increased credit risk, our immediate and long-term liquidity may be adversely affected. In addition, if one of our key clients defaults in paying us, our profitability would be negatively impacted. We are subject to claims arising from our transportation operations. We use the services of thousands of transportation companies and their drivers in connection with our transportation operations. From time to time, these drivers are involved in accidents or goods carried by these drivers are lost or damaged and the carriers may not have adequate insurance coverage. Although these drivers are not our employees and all of these drivers are employees or independent contractors working for carriers or are owner-operators, from time to time, claims may be asserted against us for their actions, or for our actions in retaining them. Claims against us may exceed the amount of our insurance coverage, or may not be covered by insurance at all. If a shipment is lost or damaged during the delivery process, a client may file a claim for the damaged shipment with us and we will bear the risk of recovering the claim amount from the carrier. If we are unable to recover all or any portion of the claim amount from the carrier, and to the extent each claim exceeds the amount which may be recovered from our own insurance, we may bear the financial loss. A material increase in the frequency or severity of accidents, claims for lost or damaged goods, liability claims or workers' compensation claims, or unfavorable resolutions of claims, could materially adversely affect our operating results. Significant increases in insurance costs or the inability to purchase insurance as a result of these claims could also reduce our profitability. Our industry is subject to seasonal sales fluctuations. If our business experiences seasonality, it could have an adverse effect on our operating results and financial condition. Our industry is subject to some degree of seasonal sales fluctuations as shipments generally are lower during and after the winter holiday season because many of our retail clients ship goods and stock inventories prior to the winter holiday season. If we were to experience lower than expected revenue during any such period, whether from a general decline in economic conditions or other factors beyond our control, our expenses may not be offset, which would have a disproportionately adverse impact on our operating results and financial condition for that period. Our ability to appropriately staff and retain sales representatives and agents is important to our business. Our ability to expand our business will depend, in part, on our ability to attract additional sales representatives and agents with established client relationships. Competition for qualified sales representatives and agents can be intense, and we may be unable to hire such persons. Any difficulties we experience in expanding the number of our sales representatives and agents could have a negative impact on our ability to expand our client base, increase our revenue and continue our growth.

In addition, we must retain our current sales representatives and agents and properly incentivize them to obtain new clients and maintain existing client relationships. If a significant number of our sales representatives and agents leave us, our revenue could be negatively impacted. We have entered into agreements with our sales representatives and agents that contain non-compete provisions to mitigate this risk, but we may need to litigate to enforce our rights under these agreements, which could

Table of Contents

be time-consuming, expensive and ineffective. A significant increase in the turnover rate among our current sales representatives and agents could also increase our recruiting costs and lead to a decline in the demand for our services. Our business depends on compliance with many government regulations.

International and domestic transportation of goods is subject to a number of governmental regulations, including licensing and financial security requirements, import and export regulations, security requirements, packaging regulations and notification requirements. These regulations and requirements are subject to change based on new legislation and regulatory initiatives, which could affect the economics of the transportation industry by requiring changes in operating practices or influencing the demand for, and the cost of providing, transportation services.

We are licensed by the U.S. Department of Transportation as a broker authorized to arrange for the transportation of general commodities by motor vehicle. We must comply with certain insurance and surety bond requirements to act in this capacity.

We are currently providing customs broker services through contacts with licensed customs brokers. We have registered as an indirect air carrier with the TSA, and as a registered indirect air carrier we are required to comply with air security regulations imposed by the TSA. In addition, our ocean transportation business is subject to regulation by the FMC.

We may experience an increase in operating costs, such as security costs, as a result of governmental regulations that have been and will be adopted in response to terrorist activities and potential terrorist activities. No assurances can be given that we will be able to pass these increased costs on to our clients in the form of rate increases or surcharges.

From time to time, we arrange for the movement of hazardous materials at the request of our clients. As a result, we are subject to various environmental laws and regulations relating to the handling, transport and disposal of hazardous materials. If our clients or carriers are involved in a spill or other accident involving hazardous materials, or if we are found to be in violation of applicable laws or regulations, we could be subject to substantial fines or penalties, response or remediation costs and civil and criminal liability, any of which could have an adverse effect on our business and results of operations. In addition, current and future national laws and multilateral agreements relating to carbon emissions and the effects of global warming can be expected to have a significant impact on the transportation sector generally and the operations and profitability of some of our carriers in particular, which could adversely affect our business and results of operations.

Our ability to raise capital in the future may be limited, and our failure to raise capital when needed could prevent us from growing.

We may in the future be required to raise capital through public or private financing or other arrangements. Such financing may not be available on acceptable terms, or at all, and our failure to raise capital when needed could harm our business. Additional equity financing may dilute the interests of our common stockholders, and debt financing, if available, may involve restrictive covenants.

Our insurance coverage and self-insurance reserves may not cover future claims.

We maintain various insurance policies for employee health, worker's compensation, general liability, property damage and auto liability. Since January 2014, we have been self-insured for our employee health plans.

For policies under which we are responsible for losses, we record a liability that represents our estimated cost of claims incurred and unpaid as of the balance sheet date. Our estimated liability is not discounted and is based on a number of assumptions and factors, including historical trends, actuarial assumptions and economic conditions, and is closely monitored and adjusted when warranted by changing circumstances. Our history of claims experience is short and our significant growth rate could affect the accuracy of estimates based on historical experience. If a greater amount of claims occurs compared to what we estimated, or if medical costs increase beyond what we expected, our accrued liabilities might not be sufficient and we may be required to record additional expense. Unanticipated changes may also produce materially different amounts of expense than reported under these programs, which could adversely impact our results of operations.

Risks Related to Ownership of Our Common Stock

The trading price of our common stock has been and may continue to be volatile.

Since our initial public offering in October 2009 through February 25, 2016, the closing sale price of our common stock as reported by the Nasdaq Global Select Market has ranged from a low of \$10.04 on November 11, 2010 to a high of \$34.14 on June 23, 2015.

Table of Contents

Certain factors may continue to cause the market price of our common stock to fluctuate, including:

- fluctuations in our quarterly financial results or the quarterly financial results of companies perceived to be similar to us;
- changes in market valuations of similar companies;
- success of competitors' products or services;
- changes in our capital structure, such as future issuances of debt or equity securities;
- our integration of Command's business and operations;
- announcements by us, our competitors, our clients or our suppliers of significant products or services, contracts, acquisitions or strategic alliances;
- regulatory developments in the United States or foreign countries;
- litigation involving our company, our general industry or both;
- additions or departures of key personnel;
- investors' general perception of us;
- changes in general economic, industry and market conditions; and
- the impact of our common stock and convertible note repurchase program.

In addition, if the stock market experiences a loss of investor confidence, the trading price of our common stock could decline for reasons unrelated to our business, financial condition or results of operations. If any of the foregoing occurs, it could cause our stock price to fall and may expose us to class action lawsuits that, even if unsuccessful, could be costly to defend and distracting to management. As a result, you could lose all or part of your investment. Our quarterly results are difficult to predict and may vary from quarter to quarter, which may result in our failure to meet the expectations of investors and increased volatility of our stock price.

The degree to which our clients continue to use our services depends in part on the business activities of our clients and our ability to continue to meet their cost saving needs. A significant percentage of our revenue is subject to the discretion of our Transactional clients, who may stop using our services at any time. In addition, the transportation industry in which we operate is subject to some degree of seasonal sales fluctuation, as shipments generally are lower during and after the winter holiday season because many of our retail clients ship goods and stock inventories prior to the winter holiday season. Therefore, the number, size and profitability of shipments may vary significantly from quarter to quarter. As a result, our quarterly operating results are difficult to predict and may fall below the expectations of current or potential investors in some future quarters, which could lead to a significant decline in the market price of our stock and volatility in our stock price.

We do not currently intend to pay dividends, which may limit the return on your investment in us.

We currently intend to retain all available funds and any future earnings for use in the operation and expansion of our business and do not anticipate paying any cash dividends in the foreseeable future.

If our board of directors authorizes the issuance of preferred stock, holders of our common stock could be diluted and harmed.

Our board of directors has the authority to issue up to 2,500,000 shares of preferred stock in one or more series and to establish the preferred stock's voting powers, preferences and other rights and qualifications without any further vote or action by the stockholders. The issuance of preferred stock could adversely affect the voting power and dividend liquidation rights of the holders of common stock. In addition, the issuance of preferred stock could have the effect of making it more difficult for a third-party to acquire, or discouraging a third-party from acquiring, a majority of our outstanding voting stock or otherwise adversely affect the market price of our common stock. It is possible that we may need, or find it advantageous, to raise capital through the sale of preferred stock in the future.

Table of Contents

We may not have the ability to raise the funds necessary to settle conversions of our 2.50% convertible notes due 2020 (the "Notes") or to repurchase the Notes upon a fundamental change, and our future debt may contain limitations on our ability to pay cash upon conversion or repurchase of the Notes.

Holders of our Notes have the right to require us to repurchase their Notes upon the occurrence of a fundamental change at a fundamental change repurchase price equal to 100% of the principal amount of the Notes to be repurchased, plus accrued and unpaid interest, if any. In addition, upon conversion of our Notes, unless we elect to deliver solely shares of our common stock to settle such conversion (other than paying cash in lieu of delivering any fractional share), we will be required to make cash payments in respect of the Notes being converted. However, we may not have enough available cash or be able to obtain financing at the time we are required to make repurchases of Notes surrendered therefor or Notes being converted. In addition, our ability to repurchase the Notes or to pay cash upon conversions of the Notes may be limited by law, by regulatory authority or by agreements governing our future indebtedness. Our failure to repurchase Notes at a time when the repurchase is required by the related indenture or to pay any cash payable on future conversions of the Notes as required by the related indenture would constitute a default under such indenture. A default under the indenture or the fundamental change itself could also lead to a default under agreements governing our current and future indebtedness. If the repayment of the related indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness and repurchase the Notes or make cash payments upon conversions thereof. See "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" for additional information about our Notes.

The conditional conversion feature of the Notes, if triggered, may adversely affect our financial condition and operating results.

In the event certain conversion features of the Notes are triggered, holders of the Notes will be entitled to convert the Notes at any time during specified periods at their option. If one or more holders elect to convert their Notes, unless we elect to satisfy our conversion obligation by delivering solely shares of our common stock (other than paying cash in lieu of delivering any fractional share), we would be required to settle a portion or all of our conversion obligation through the payment of cash, which could adversely affect our liquidity. In addition, even if holders do not elect to convert their Notes, we could be required under applicable accounting rules to reclassify all or a portion of the outstanding principal of the Notes as a current rather than long-term liability, which would result in a material reduction of our net working capital.

The fundamental change repurchase feature of the Notes may delay or prevent an otherwise beneficial attempt to take over our company.

The terms of the Notes require us to repurchase the Notes in the event of a fundamental change. A takeover of our Company would trigger options by the respective holders of the applicable Notes to require us to repurchase such Notes. This may have the effect of delaying or preventing a takeover of our Company that would otherwise be beneficial to our stockholders.

Item 1B. Unresolved staff comments

None.

Table of Contents

Item 2. Properties

Our corporate headquarters are located in Chicago, Illinois. As of December 31, 2015, we leased approximately 90,000 square feet for our corporate headquarters. We also leased space at two office buildings in Skokie, Illinois, the former headquarters of Command, totaling approximately 50,000 square feet.

As of December 31, 2015, we also operated 34 branch sales offices and two data centers located across the contiguous United States. All of these facilities are leased, and none is larger than 20,000 square feet.

We consider these properties to be in good condition. We believe that our facilities are adequate for our operations and provide sufficient capacity to meet our anticipated requirements.

Table of Contents

Item 3. Legal Proceedings

In the normal course of business, we are subject to potential claims and disputes related to our business, including claims for freight lost or damaged in transit. Some of these matters may be covered by our insurance and risk management programs or may result in claims or adjustments with our carriers.

In August 2012, we discovered that the revenue and profitability of Shipper Direct Logistics, Inc. ("Shipper Direct"), a truckload transportation brokerage we acquired in July 2012, were not as expected based on representations contained in the Asset Purchase Agreement. In January 2013, we filed a lawsuit against Shipper Direct and its founders in Illinois federal court alleging, among other things, breach of contract and fraud. In November 2014, we obtained a judgment against Shipper Direct and its founders for \$3,013,831 in compensatory damages and \$2,044,420 in punitive damages. We have not received the awarded damages and have not recorded a gain related to this ruling as of December 31, 2015.

Management does not believe that the outcome of any of the legal proceedings to which we are a party will have a material adverse effect on our financial position or results of operations.

Item 4. Mine Safety Disclosures

Not applicable.

Part II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

Our common stock is traded on the Nasdaq Global Select Market under the symbol "ECHO." The following table sets forth the high and low sales price for our common stock as reported by the Nasdaq Global Select Market for each of the periods listed.

2015	High	Low
First Quarter	\$29.94	\$24.11
Second Quarter	\$34.35	\$24.07
Third Quarter	\$33.56	\$19.43
Fourth Quarter	\$24.85	\$16.56
2014	High	Low
First Quarter	\$21.97	\$15.54
Second Quarter	\$20.49	\$16.34
Third Quarter	\$27.20	\$18.92
Fourth Quarter	\$30.18	\$22.46

Holders

As of February 26, 2016, there were nine holders of record of our common stock. The holders of our common stock are entitled to one vote per share.

Dividends

We currently do not intend to pay any dividends on our common stock in the foreseeable future. We intend to retain all available funds and any future earnings for use in the operation and the expansion of our business. Any determination in the future to pay dividends will depend on our financial condition, capital requirements, operating results and other factors deemed relevant by our board of directors, including any contractual or statutory restrictions on our ability to pay dividends.

Issuer Purchases of Equity Securities

The table below gives information on a monthly basis regarding purchases made by us of our common stock and the number of shares delivered to us by employees to satisfy the mandatory tax withholding requirement upon vesting of restricted stock during the fourth quarter of 2015.

Period	Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(1)	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs(1)
10/1/15-10/31/15	11,578	\$22.40	—	\$—
11/1/15-11/30/15	1,240	\$22.76	—	\$—
12/1/15-12/31/15	38,013	\$20.68	37,937	\$49,215,171
Total	50,831	\$21.12	37,937	\$49,215,171

On December 29, 2015, the Board of Directors authorized a repurchase program for up to an aggregate of \$50 million of the Company's outstanding common stock and 2.50% convertible senior notes due 2020 prior to its expiration on December 31, 2017. The timing and amount of any repurchases will be determined based on market conditions and other factors, and the program may be discontinued or suspended at any time.

Securities Authorized For Issuance Under Equity Compensation Plan

Plan Category	(a) Number of Securities to be Issued Upon Exercise of Outstanding Options	Weighted Average Exercise Price of Outstanding Options	Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (Excluding Securities Reflected in Column (a))	
Equity compensation plans approved by security holders ⁽¹⁾	769,528	\$ 9.76	968,354	(2)
Equity compensation plans not approved by security holders ⁽³⁾	—	—	—	
Total	769,528	\$ 9.76	968,354	

(1) Includes our 2005 Stock Option Plan, which was merged with our 2008 Stock Incentive Plan.

(2) Includes shares remaining available for future issuance under our 2008 Stock Incentive Plan.

(3) In connection with the Command acquisition, on June 1, 2015, the Company adopted the 2015 Inducement and Retention Stock Plan for Command Employees pursuant to NASDAQ Stock Market Listing Rule 5635(c)(4), which provides an exception to the NASDAQ shareholder approval requirements for the issuance of securities with regard to grants to prospective employees of the Company, including without limitation grants to prospective employees in connection with a merger or other acquisition (the "Inducement Plan"). As of December 31, 2015, there were no securities available for future issuance under the Inducement Plan.

Item 6. Selected Financial Data

The following table presents selected consolidated financial and other data as of and for the periods indicated. You should read the following information together with the more detailed information contained in "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements and the accompanying notes included elsewhere in this Annual Report on Form 10-K.

Edgar Filing: Echo Global Logistics, Inc. - Form 10-K

	Year ended December 31,				
	2015	2014	2013	2012	2011
(in thousands, except per share data)					
Consolidated statements of operations data:					
Revenue	\$1,512,299	\$1,173,383	\$884,193	\$757,688	\$602,764
Transportation costs	1,222,035	965,165	728,544	614,563	485,547
Net revenue ⁽¹⁾	290,264	208,218	155,649	143,125	117,217
Operating expenses:					
Commissions	85,957	57,678	39,481	40,392	35,872
Selling, general and administrative expenses	157,056	106,974	82,298	70,702	54,327
Acquisition related impairment loss	—	—	—	2,491	—
Contingent consideration expense (benefit)	201	2,160	101	(130)	(246)
Depreciation and amortization	24,143	13,876	10,565	9,139	8,330

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are a leading provider of technology-enabled transportation and supply chain management solutions. We utilize a proprietary technology platform to compile and analyze data from our multi-modal network of transportation providers to satisfy the transportation and logistics needs of our clients. This model enables us to quickly adapt to and offer efficient and cost-effective solutions for our clients' shipping needs. We focus primarily on arranging transportation by TL and LTL carriers. We also offer intermodal (which involves moving a shipment by rail and truck), small parcel, domestic air, expedited and international transportation services. Our core logistics services include rate negotiation, shipment execution and tracking, carrier management, routing compliance and performance management reporting.

We procure transportation and provide logistics services for clients across a wide range of industries, such as manufacturing, construction, food and beverage, consumer products and retail. Our clients fall into two categories, Managed Transportation and Transactional. We typically enter into multi-year contracts with our Managed Transportation clients, which are often on an exclusive basis for a specific transportation mode or point of origin. As part of our value proposition, we also provide core logistics services to these clients. We provide transportation and logistics services to our Transactional clients on a shipment-by-shipment basis, typically with individual, or spot market, pricing.

⁽¹⁾ Net revenue is a non-GAAP measure calculated as revenue less transportation costs. See Item 6 for a reconciliation of net revenue to revenue, the most comparable GAAP measure.

Table of Contents

Revenue

We generate revenue through the sale of transportation and logistics services to our clients. Revenue is recognized when the client's product is delivered by a third-party carrier. Our revenue was \$1,512.3 million, \$1,173.4 million and \$884.2 million for the years ended December 31, 2015, 2014 and 2013, respectively, reflecting growth rates of 29% and 33% in 2015 and 2014, respectively, compared to the corresponding prior year.

Our revenue is generated from two different types of clients: Managed Transportation and Transactional. Our Managed Transportation accounts typically generate higher dollar amounts and volume than our Transactional relationships. We categorize a client as a Managed Transportation client if we have a contract with the client for the provision of services on a recurring basis. Our contracts with Managed Transportation clients typically have a multi-year term and are often exclusive for a certain transportation mode or point of origin. In several cases, we provide substantially all of a client's transportation and logistics requirements. We categorize all other clients as Transactional clients. We provide services to our Transactional clients on a shipment-by-shipment basis. For the years ended December 31, 2015, 2014 and 2013, Managed Transportation clients accounted for 19%, 26% and 30% of our revenue, respectively, and Transactional clients accounted for 81%, 74% and 70% of our revenue, respectively. We expect to continue to expand both our Managed Transportation and Transactional client base in the future, although the rate of growth for each type of client will vary depending on opportunities in the marketplace.

Revenue recognized per shipment will vary depending on the transportation mode, fuel prices, shipment weight, density and mileage of the product shipped. The primary modes of shipment that we transact in are TL, LTL and intermodal. Other transportation modes include domestic air, expedited services, international and small parcel. Material shifts in the percentage of our revenue by transportation mode could have a significant impact on our revenue growth. In 2015, TL accounted for 64% of our revenue, LTL accounted for 29% of our revenue, intermodal accounted for 5% of our revenue and other transportation accounted for 2% of our revenue.

The transportation industry has historically been subject to seasonal sales fluctuations as shipments generally are lower during and after the winter holiday season because many companies ship goods and stock inventories prior to the winter holiday season. While we experience some seasonality, differences in our revenue between periods have been driven primarily by growth in our client base.

Transportation costs and net revenue

We act primarily as a service provider to add value and expertise in the procurement and execution of transportation and logistics services for our clients. Our pricing structure is primarily variable, although we have entered into a limited number of fixed fee arrangements that represent an insignificant portion of our revenue. Net revenue is a non-GAAP measure equal to revenue minus transportation costs. Our transportation costs consist primarily of the direct cost of transportation paid to the carrier.

Net revenue is considered by management to be an important measurement of our success in the marketplace. Our transportation costs are typically lower for an LTL shipment than for a TL shipment. Our net revenue margin is typically higher for an LTL shipment than for a TL shipment. Material shifts in the percentage of our revenue by transportation mode, including small parcel, could have a significant impact on our net revenue. The discussion of our results of operations below focuses on changes in our net revenue and expenses as a percentage of net revenue. In 2015, 2014 and 2013, our net revenue was \$290.3 million, \$208.2 million and \$155.6 million, respectively, reflecting growth rates of 39% and 34% in 2015 and 2014, respectively, compared to the corresponding prior year.

Operating expenses

Our costs and expenses, excluding transportation costs, consist of commissions paid to our sales personnel, general and administrative expenses to run our business, changes related to contingent consideration and depreciation and amortization.

Commissions paid to our sales personnel, including employees and agents, are a significant component of our operating expenses. These commissions are based on the net revenue we collect from the clients for which the sales personnel have primary responsibility. In 2015, 2014 and 2013, commission expense was \$86.0 million, \$57.7 million and \$39.5 million, respectively. In 2015, 2014 and 2013, commission expense as a percentage of net revenue was 29.6%, 27.7% and 25.4%, respectively. The increase in 2015 is primarily due to a shift in the composition of our net revenue by mode to include more TL shipments, due to the acquisition of Command and organic TL growth at Echo. TL shipments typically have higher commission percentages than other modes. The percentage of net revenue paid as commissions varies depending on the type of

Table of Contents

client, composition of the sales team and mode of transportation. Commission expense, stated as a percentage of net revenue, could increase or decrease in the future depending on the composition of our revenue growth and the relative impact of changes in sales teams and service offerings.

We accrue for commission expense when we recognize the related revenue. Some of our sales personnel receive a monthly advance to provide them with a more consistent income stream. Cash paid to our sales personnel in advance of commissions earned is recorded as a prepaid expense. As our sales personnel earn commissions, a portion of their commission payment is withheld and offset against their prepaid commission balance, if any. Prepaid commissions and accrued commissions are presented on a net basis on our balance sheet.

Our selling, general and administrative expenses, which exclude commission expense and contingent consideration expense, consist of compensation costs for our sales, operations, information systems, finance and administrative support employees as well as occupancy costs, professional fees, acquisition-related deal costs, stock compensation expense and other general and administrative expenses. In 2015, 2014 and 2013, our selling, general and administrative expenses were \$157.1 million, \$107.0 million and \$82.3 million, respectively. In 2015, 2014 and 2013, selling, general and administrative expenses as a percentage of net revenue were 54.1%, 51.4% and 52.9%, respectively.

Our contingent consideration expense is the change in the fair value of our contingent consideration liability. The contingent consideration liability consists of the fair value of expected earn-out payments that will be payable to the sellers of certain acquired businesses upon the achievement of certain performance measures. The fair value of the contingent consideration liability is evaluated on a quarterly basis, and the change in fair value is included in selling, general and administrative expenses in our consolidated statements of operations. In 2015, 2014 and 2013, we recorded expense of \$0.2 million, \$2.2 million and \$0.1 million, respectively, due to fair value adjustments to our contingent consideration liability.

Our depreciation expense is primarily attributable to our depreciation of computer hardware and software, equipment, leasehold improvements, furniture and fixtures and internally developed software. In 2015, 2014 and 2013, depreciation expense was \$12.4 million, \$10.0 million and \$8.2 million, respectively.

Our amortization expense is attributable to our amortization of intangible assets acquired from business combinations, including customer relationships, carrier relationships, trade names and non-compete agreements. In 2015, 2014 and 2013, amortization expense was \$11.7 million, \$3.9 million and \$2.4 million, respectively.

Critical Accounting Policies

Revenue Recognition

In accordance with Accounting Standards Codification ("ASC") Topic 605-20 Revenue Recognition - Services, transportation revenue and related transportation costs are recognized when the shipment has been delivered by a third-party carrier. Fee for service revenue is recognized when the services have been rendered. At the time of delivery or rendering of services, as applicable, our obligation to fulfill a transaction is complete and collection of revenue is reasonably assured.

In accordance with ASC Topic 605-45 Revenue Recognition - Principal Agent Considerations, we generally recognize revenue on a gross basis, as opposed to a net basis similar to a commission arrangement, because we bear the risks and benefits associated with revenue-generated activities by, among other things: (1) acting as a principal in the transaction; (2) establishing prices; (3) managing all aspects of the shipping process, including selection of the carrier; and (4) taking the risk of loss for collection, delivery, and returns. Certain transactions to provide specific services are recorded at the net amount charged to the client due to the following key factors: (a) we do not have latitude in establishing pricing; and (b) we have credit risk for only the net revenue earned from our client while the carrier has credit risk for the transportation costs. Net revenue equals revenue minus transportation costs.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are uncollateralized customer obligations due under normal trade terms. Invoices require payment within 30 to 90 days from the invoice date. Accounts receivable are stated at the amount billed to the customer.

Customer account balances with invoices past due 90 days are considered delinquent. We generally do not charge interest on past due amounts.

The carrying amount of accounts receivable is reduced by an allowance for doubtful accounts that reflects management's best estimate of amounts that will not be collected. The allowance is based on historical loss experience and any specific risks

Table of Contents

identified in client collection matters. Accounts receivable are charged off against the allowance for doubtful accounts when it is determined that the receivable is uncollectible.

Goodwill and Other Intangibles

Goodwill represents the excess of consideration transferred over the value assigned to the net tangible and identifiable intangible assets of businesses acquired. In accordance with ASC Topic 350 Intangibles - Goodwill and Other: Testing Goodwill for Impairment, goodwill is not amortized, but instead is tested for impairment annually, or more frequently if circumstances indicate a possible impairment may exist. In September 2011, the Financial Accounting Standards Board ("FASB") approved ASU No. 2011-08, "Intangibles-Goodwill and Other: Testing Goodwill for Impairment." This ASU permits an entity to first assess qualitative factors to determine whether it is more likely than not (a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying amount. After assessing qualitative factors, if an entity determines that it is more likely than not that the fair value of the reporting unit is greater than its carrying amount, no further testing is necessary. We test goodwill for impairment at the reporting unit level. In accordance with ASC 350, we first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. In 2015, we concluded that it is more likely than not that the fair value of each reporting unit exceeds its carrying amount. Absent any special circumstances that could require an interim test, we have elected to test for goodwill impairment during the fourth quarter of each year.

ASC Topic 350 also requires that intangible assets with finite lives be amortized over their respective estimated useful lives and reviewed for impairment whenever impairment indicators exist in accordance with ASC Topic 360 Property, Plant and Equipment. Our intangible assets consist of customer relationships, carrier relationships, noncompete agreements and trade names, which are being amortized on an accelerated basis over their estimated weighted-average useful lives of 14.8 years, 17.0 years, 6.7 years and 4.0 years, respectively.

Stock-Based Compensation

We account for stock-based compensation in accordance with ASC Topic 718 Compensation - Stock Compensation which requires all share-based payments to employees, including grants of stock options, to be recognized in the income statement based upon their fair values. Share-based employee compensation costs are recognized as a component of selling, general and administrative expense in the consolidated statements of operations. For more information about our stock-based compensation programs, see "Note 14—Stock-Based Compensation Plans."

Income Taxes

We account for income taxes in accordance with ASC Topic 740 Income Taxes, under which deferred assets and liabilities are recognized based upon anticipated future tax consequences attributable to differences between financial statement carrying values of assets and liabilities and their respective tax bases. A valuation allowance is established to reduce the carrying value of deferred tax assets if it is considered more likely than not that such assets will not be realized. Any change in the valuation allowance would be charged to income in the period such determination was made.

We recognize the tax benefit from an uncertain tax position only if it is more likely than not the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement.

Comparison of years ended December 31, 2015 and 2014

Revenue

Revenue was \$1,512.3 million in 2015, an increase of 28.9% from \$1,173.4 million in 2014. The increase in revenue was attributable to an increase in shipment volume and net revenue margin. Included in this increase was \$11.8 million and \$286.4 million of revenue from our 2015 acquisitions Xpress Solutions, Inc. ("Xpress") and Command, respectively.

Revenue from Managed Transportation clients was \$287.0 million in 2015, a decrease of 5.0% from \$302.1 million in 2014. This decrease was driven by lower fuel costs and the effect of restructuring contracts with two Managed Transportation clients. In 2015, 19% of our revenue was generated from Managed Transportation clients, a decrease from 26% in 2014. This decrease was driven by the addition of Transactional revenue from Command and Xpress, as well as by the overall decrease in Managed Transportation revenue discussed above.

Table of Contents

Revenue from Transactional clients was \$1,225.3 million in 2015, an increase of 40.6% from \$871.3 million in 2014. Our percentage of revenue from Transactional clients was 81% in 2015, an increase from 74% in 2014. The increase in Transactional revenue was driven by increases in both the number and productivity of sales employees as well as by the addition of Transactional revenue from Command and Xpress.

Transportation costs

Transportation costs were \$1,222.0 million in 2015, an increase of 26.6% from \$965.2 million in 2014. The growth in the total number of shipments, including the shipments attributable to our 2015 acquisitions, drove the increase in our transportation costs during this period. Our transportation costs as a percentage of revenue decreased to 80.8% in 2015 from 82.3% in 2014, due to an increase in TL margins and a decrease in fuel prices across all modes.

Net revenue

Net revenue was \$290.3 million in 2015, an increase of 39.4% from \$208.2 million in 2014. The growth in the total number of shipments, including the shipments attributable to our 2015 acquisitions, accounted for most of the increase in our net revenue during this period. Net revenue margins increased to 19.2% in 2015 from 17.7% in 2014, due to an increase in TL margins and a drop in fuel prices across all modes.

Operating expenses

Commission expense was \$86.0 million in 2015, an increase of 49.0% from \$57.7 million in 2014. This increase was primarily attributable to the increase in net revenue, including the net revenue attributable to our 2015 acquisitions. For 2015 and 2014, commission expense was 29.6% and 27.7%, respectively, of our net revenue. The increase in commission expense as a percentage of net revenue was due to the fluctuation in the composition of our net revenue by mode, as TL shipments typically have higher commission percentages than other modes. The increase in TL net revenue as a percent of total net revenue was driven by the acquisition of Command and by organic TL growth at Echo.

Selling, general and administrative expenses were \$157.1 million in 2015, an increase of 46.8% from \$107.0 million in 2014. As a percentage of net revenue, selling, general and administrative expenses increased to 54.1% in 2015 from 51.4% in 2014. These increases are due primarily to acquisition-related transaction costs associated with the Command acquisition, the Command selling, general and administrative expenses included in our statements of operations since June 2015, and the hiring of additional sales and operational personnel to drive the continued growth of our business and to support the growth in customers and shipment volume.

The contingent consideration fair-value adjustment resulted in expenses of \$0.2 million and \$2.2 million in 2015 and 2014, respectively. In both the current and prior year, the expense was due to the improved financial performance of certain acquired businesses, as well as the effect of the time value of money. The fair value of the contingent consideration obligation for each acquisition reflects updated probabilities as of December 31, 2015.

Depreciation expense was \$12.4 million in 2015, an increase of 24.7% from \$10.0 million in 2014. The increase in depreciation expense was primarily attributable to depreciation on purchases of computer hardware and software, equipment, leasehold improvements, furniture and fixtures, and internally developed software. Amortization expense in 2015 was \$11.7 million, an increase of 199.0% from \$3.9 million in 2014. The increase in amortization expense was attributable to the amortization of intangible assets related to the acquisitions of Xpress and Command.

Income from operations

Income from operations was \$22.9 million in 2015, a decrease of 16.8% from \$27.5 million in 2014. The decrease in income from operations was primarily due to acquisition-related expenses incurred in 2015 for the Command acquisition.

Interest expense

Interest expense was \$11.2 million in 2015, an increase from \$0.1 million in 2014. The substantial increase in interest expense was primarily related to our Notes issued in May 2015 and the ABL Facility we entered into in June 2015. In addition, we recorded \$2.0 million of one-time interest expense in 2015 related to the Term Loan Facility we entered into in April 2015. The Term Loan Facility was never utilized.

Table of Contents

Income tax expense

Income tax expense was \$3.7 million in 2015, a decrease from \$10.5 million in 2014. This decrease was due to the decrease in income before taxes in the current year. Our effective tax rate decreased from approximately 38.5% in 2014 to 31.9% in 2015. Our effective tax rate decreased due to the impact of the research and development credit on lower income before taxes in 2015, as well as due to changes in state apportionment percentages.

Net Income

Net income was \$7.8 million in 2015, a decrease of 53.3% from \$16.8 million in 2014 as a result of the items previously discussed.

Comparison of years ended December 31, 2014 and 2013

Revenue

Revenue was \$1,173.4 million in 2014, an increase of 32.7% from \$884.2 million in 2013. The increase was attributable to the increase in the number of our clients, and the total number of shipments executed on behalf of, and services provided to, these clients. Included in this increase was \$119.9 million of additional revenue generated in 2014 from the acquisitions of Online Freight Services, Inc. ("OFS"), Comcar Logistics, LLC ("Comcar") and One Stop Logistics, Inc. ("One Stop").

Revenue from Managed Transportation clients was \$302.1 million in 2014, an increase of 12.9% from \$267.6 million in 2013. This increase was driven by increases in the number of Managed Transportation clients, shipments executed on behalf of these clients and transportation rates. In 2014, 26% of our revenue was generated from Managed Transportation clients, a decrease from 30% in 2013. This percentage decreased because of the significant growth in transactional revenue discussed below.

Revenue from Transactional clients was \$871.3 million in 2014, an increase of 41.3% from \$616.6 million in 2013. Our percentage of revenue from Transactional clients was 74% in 2014, an increase from 70% in 2013. The increase in Transactional revenue was driven by increases in both the number and productivity of sales employees as well as by the acquisitions of OFS, Comcar and One Stop.

Transportation costs

Transportation costs were \$965.2 million in 2014, an increase of 32.5% from \$728.5 million in 2013. The growth in the total number of shipments accounted for most of the increase in our transportation costs during this period. Our transportation costs as a percentage of revenue decreased to 82.3% in 2014 from 82.4% in 2013. This slight improvement in margin was due to capacity constraints in the TL market which allowed us to pass along additional costs to our clients.

Net revenue

Net revenue was \$208.2 million in 2014, an increase of 33.8% from \$155.6 million in 2013. The growth in the total number of shipments executed on behalf of our clients accounted for most of the increase in our net revenue during this period. Net revenue margins increased to 17.7% in 2014 from 17.6% in 2013. This slight improvement in margin was due to capacity constraints in the truckload market which allowed us to pass along additional costs to our clients.

Operating expenses

Commission expense was \$57.7 million in 2014, an increase of 46.1% from \$39.5 million in 2013. This increase was primarily attributable to the increase in net revenue. Commission expense as a percentage of net revenue increased to 27.7% in 2014 from 25.4% in 2013. This increase was due to the higher percentage of our net revenue derived from TL shipments in 2014 compared to 2013, as TL shipments typically have higher commission percentages than shipments in other modes.

Selling, general and administrative expenses were \$107.0 million in 2014, an increase of 30.0% from \$82.3 million in 2013. The increase was primarily the result of hiring sales personnel to drive continued growth of our business, hiring operational personnel to support our growth in customers and shipment volume, and acquisition-related transaction costs for our 2014 acquisitions. Selling, general and administrative expenses as a percentage of net revenue decreased to 51.4% in 2014 from 52.9% in 2013. The decrease, as a percentage of net revenue, was primarily attributable to the increased productivity of our sales representatives and to the strong operating ratios of the three businesses we acquired in 2014.

Table of Contents

The contingent consideration fair-value adjustment resulted in expenses of \$2.2 million and \$0.1 million for the years ended December 31, 2014 and 2013, respectively. The increase in contingent consideration expense in 2014 was due to a greater probability of certain acquisitions achieving EBITDA earn-out targets due to strong financial performance of these acquired businesses in 2014. The primary drivers of the increase were Sharp Freight Systems and OFS.

Depreciation expense was \$10.0 million in 2014, an increase of 21.4% from \$8.2 million in 2013. The increase in depreciation expense was primarily attributable to the depreciation of property and equipment related to the expansion of our Chicago headquarters. Amortization expense was \$3.9 million in 2014, an increase of 65.5% from \$2.4 million in 2013. The increase in amortization expense was attributable to the amortization of intangible assets related to our 2014 acquisitions.

Income from operations

Income from operations was \$27.5 million in 2014, an increase of 18.6% from \$23.2 million in 2013. The increase in income from operations is attributable to the increase in net revenue in excess of the increase in operating expenses.

Income tax expense

Income tax expense was \$10.5 million in 2014, an increase from \$8.6 million in 2013. Our effective tax rate increased from approximately 37.8% in 2013 to 38.5% in 2014. The increase in the effective tax rate is primarily due to the timing and reenactment of the research and development tax credit which occurred in early 2013 for both the 2012 and 2013 tax years.

Net Income

Net income was \$16.8 million in 2014, an increase of 18.2% from \$14.2 million in 2013 as a result of the items previously discussed.

Quarterly Results of Operations

The following table represents our unaudited statement of operations data for our most recent eight fiscal quarters. You should read the following table in conjunction with our consolidated financial statements and related notes appearing elsewhere in this Annual Report on Form 10-K. The results of operations of any quarter are not necessarily indicative of the results that may be expected for any future period.

	Three Months Ended							
	Dec. 31, 2015	Sept. 30, 2015	June 30, 2015	Mar. 31, 2015	Dec. 31, 2014	Sept. 30, 2014	June 30, 2014	Mar. 31, 2014
	(in thousands, except per share data) (unaudited)							
Revenue	\$407,171	\$449,993	\$371,642	\$283,492	\$300,027	\$320,566	\$305,120	\$247,670

Liquidity and Capital Resources

As of December 31, 2015, we had \$56.5 million in cash and cash equivalents, \$123.4 million in working capital and \$153.7 million available under our ABL Facility. In addition, as of December 31, 2015, we had \$230.0 million aggregate principal amount of our Notes outstanding.

Table of Contents

Cash provided by operating activities

For the year ended December 31, 2015, \$70.8 million of cash was provided by operating activities. This was an increase compared to \$32.4 million and \$24.8 million of cash provided by operating activities for the years ended December 31, 2014 and 2013, respectively. In 2015, we generated \$51.1 million in cash from net income, adjusted for non-cash operating items, an increase from \$38.0 million in 2014 and \$28.8 million in 2013. Changes in working capital primarily relate to changes in accounts receivable, accounts payable and accrued expense balances.

Cash used in investing activities

Cash used in investing activities was \$405.1 million, \$48.9 million and \$11.2 million for the years ended December 31, 2015, 2014 and 2013, respectively. In 2015, the primary investing activity was the cash consideration used for the acquisition of Command. Cash was also used for the acquisition of Xpress and capital expenditures. In 2014, the primary investing activities were the cash consideration transferred for the acquisitions of OFS, Comcar and One Stop, as well as capital expenditures. In 2013, the primary investing activities were the cash consideration transferred for the acquisition of Open Mile and capital expenditures.

Our capital expenditures were \$14.7 million, \$15.2 million and \$9.2 million for the years ended December 31, 2015, 2014 and 2013, respectively. Our capital expenditures are primarily the procurement of computer hardware and software from third party vendors, as well as the internal development of computer software.

Cash provided by (used in) financing activities

Cash provided by financing activities was \$358.3 million in 2015. Cash used in financing activities was \$3.4 million and \$2.9 million in 2014 and 2013, respectively. During 2015, we generated \$223.1 million in cash from the issuance of our Notes (net of underwriting discounts and commissions) and \$158.4 million from the issuance of our common stock (net of underwriting discounts and commissions). See the "Convertible Notes" section below for a description of our Notes. We also drew \$40.0 million on our ABL Facility and \$34.8 million on our LOC Facility, all of which was repaid as of December 31, 2015. See the "Credit Agreement" section below for descriptions of our ABL Facility and LOC Facility. This cash generation was partially offset by payments of \$17.5 million to the former owners of One Stop Logistics, \$4.1 million of debt and equity issuance costs, \$2.9 million to settle contingent consideration obligations and activities related to the exercise of employee stock options.

In 2014 and 2013, the cash used in financing activities primarily related to contingent consideration payments.

Credit Agreement

On June 1, 2015, we entered into a Revolving Credit and Security Agreement with PNC Bank (the "New Credit Agreement"). The New Credit Agreement replaced our previous Credit Agreement dated May 2, 2014 with PNC Bank (the "LOC Facility"). The New Credit Agreement provides for a senior secured revolving credit facility in an initial aggregate principal amount of up to \$200 million (the "ABL Facility"). Our obligations under the ABL Facility are secured, on a first lien priority basis, by certain working capital assets.

Interest is payable at a rate per annum equal to, at our option, any of the following, plus, in each case, an applicable margin: (a) a base rate determined by reference to the highest of (1) the federal funds effective rate, plus 0.50%, (2) the base commercial lending rate of PNC Bank, National Association and (3) a daily LIBOR rate, plus 1.00%; or (b) a LIBOR rate determined by reference to the costs of funds for deposits in the relevant currency for the interest period relevant to such borrowing adjusted for certain additional costs. The applicable margin will be 0.25% to 0.75% for borrowings at the base rate and 1.25% to 1.75% for borrowings at the LIBOR rate, in each case, based on the excess

availability under the ABL Facility. We will also be required to pay a commitment fee in respect of the unutilized commitments under the revolving credit facility in an amount between 0.25% and 0.375%, based on the excess availability for the prior calendar quarter under the ABL Facility.

At December 31, 2015, there was no outstanding balance on the ABL Facility. The issuance of letters of credit under the ABL Facility also reduces available borrowings. At December 31, 2015, there were \$0.8 million of letters of credit outstanding. The total draw allowed under the ABL Facility at December 31, 2015, as determined by the working capital assets pledged as collateral, was \$154.5 million. After adjusting for the letters of credit, our remaining availability under the ABL Facility at December 31, 2015 was \$153.7 million.

Table of Contents

Convertible Notes

On May 5, 2015, we issued \$230.0 million aggregate principal amount of 2.50% convertible senior notes due 2020 in a registered public offering. We used all of the net proceeds from the Notes offering (together with proceeds from the sale of common stock and borrowings under the ABL Facility) to finance the acquisition of Command.

The Notes bear interest at a rate of 2.50% per year payable semiannually in arrears in cash on May 1 and November 1 of each year, beginning on November 1, 2015. The Notes will mature on May 1, 2020, unless earlier converted or repurchased in accordance with the terms discussed below. The Notes are our senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the Notes; equal in right of payment to any of our unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities (including trade payables) of our subsidiaries. The Notes will be convertible, under certain circumstances and during certain periods, into cash, shares of our common stock, or a combination of cash and shares of common stock at our election, at an initial conversion rate of 25.5428 shares of common stock per \$1,000 principal amount of Notes, which is equivalent to an initial conversion price of approximately \$39.15 per share of common stock.

Holders may convert their Notes at their option at any time prior to the close of business on the business day immediately preceding January 1, 2020 only under the following circumstances: (1) during any calendar quarter commencing after the calendar quarter ending on June 30, 2015 (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day; (2) during the five business day period after any five consecutive trading day period (the “measurement period”) in which the trading price per \$1,000 principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day; (3) if we call the Notes for redemption, at any time prior to the close of business on the business day immediately preceding the redemption date; or (4) upon the occurrence of specified corporate events.

If we undergo a fundamental change, subject to certain conditions, holders of the Notes may require us to purchase for cash all or a part of their Notes at a repurchase price equal to 100% of the principal amount of Notes to be repurchased, plus accrued and unpaid interest. In addition, following certain corporate events that occur prior to maturity, we may increase the conversion rate for a holder who elects to convert its Notes in connection with such a corporate event in certain circumstances. In such event, the conversion rate could increase to a maximum of 34.4827 shares of common stock per \$1,000 principal amount of Notes.

On or after January 1, 2020 until the close of business on the business day immediately preceding the maturity date, holders may convert their Notes at any time, regardless of the foregoing circumstances. Upon conversion, we will pay or deliver cash, shares of our common stock, or a combination of cash and shares of our common stock, at our election. Our intent and policy will be to settle the \$230.0 million principal amount of Notes in cash, and any excess conversion premium in shares of common stock. As such, the principal amount of the Notes will not be included in the calculation of diluted net income per share, but any conversion premium that exists will be included in the calculation of diluted net income per share using the treasury stock method. As of December 31, 2015, none of the conditions allowing holders of the Notes to convert have been met, and no conversion spread exists. As such, the notes did not have a dilutive impact on diluted net income per share for the year ended December 31, 2015.

Anticipated uses of cash

Our priority is to continue to grow our revenue and net revenue. We anticipate that our operating expenses and planned expenditures will constitute material uses of cash, and we expect to use available cash to expand our sales force, to enhance our technology, to acquire or make strategic investments in complementary businesses, to integrate our technology and business with the technology and business of Command, to make debt service payments, and for working capital and other general corporate purposes. We expect to use available cash to make approximately \$2.3 million of potential earn-out payments in 2016 due in connection with our acquisitions. We will use \$5.8 million of cash to satisfy the semi-annual Note coupon payments due May 1, 2016 and November 1, 2016. We also currently expect to use up to \$26.0 million for capital expenditures in 2016. As discussed in Footnote 12 (Stockholders' Equity), we may also opt to use cash to repurchase up to an aggregate of \$50.0 million of our common stock and Notes. The timing and amount of any repurchases will be determined based on market conditions and other factors. We expect our use of cash for working capital purposes and other purposes to be offset by the cash flow generated from operating activities during the same period.

Table of Contents

Historically, our average accounts receivable life cycle has been longer than our average accounts payable life cycle, meaning that we have used cash to pay carriers in advance of collecting from our clients. We elect to provide this benefit to foster strong relationships with our clients and carriers. As our business grows, we expect this use of cash to continue. The amount of cash we use will depend on the growth of our business.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

32

Table of Contents

Contractual Obligations

As of December 31, 2015, we had the following contractual obligations (in thousands):

	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Operating leases	\$26,643	\$6,551	\$11,162	\$7,730	\$1,200
Senior convertible notes, including interest	255,875	5,750	11,500	238,625	—
Contingent consideration obligations ⁽¹⁾	5,646	2,446	1,850	1,350	—
Total	\$288,164	\$14,747	\$24,512	\$247,705	\$1,200

This represents the maximum undiscounted contingent consideration obligations that may become payable in each period. The actual payouts will be determined at the end of the applicable performance periods based on the (1) acquired entities' achievement of the targets specified in the purchase agreements. See Footnote 5 in the notes to the consolidated financial statements for a discussion of the fair-values of these contingent consideration obligations as of December 31, 2015.

Recent Accounting Pronouncements

ASU 2015-17, Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes ("ASU 2015-17"). This guidance requires companies to classify all deferred tax assets and liabilities as noncurrent on the balance sheet, instead of separating deferred taxes into current and noncurrent amounts. ASU 2015-17 may be adopted on either a prospective or retrospective basis, and is effective for financial statements issued for annual periods beginning after December 15, 2016. Early adoption is permitted. We have early adopted ASU 2015-17, effective with this Form 10-K filing for the period ended December 31, 2015. This change in accounting principle allows us to comply with the new guidance going forward. We are applying the new guidance on a prospective basis. As such, prior periods are not retrospectively adjusted. The change in balance sheet presentation due to the adoption of ASU 2015-17 had no impact on the current or prior period statements of operations.

ASU 2015-16, Simplifying the Accounting for Measurement-Period Adjustments

In September 2015, the FASB issued ASU 2015-16, Simplifying the Accounting for Measurement-Period Adjustments ("ASU 2015-16"). This guidance eliminates the requirement for an acquirer in a business combination to account for measurement-period adjustments retrospectively. Instead, acquirers must recognize measurement-period adjustments during the period in which they determine the amounts, including the effect on earnings of any amounts that would have been recorded in previous periods if the accounting had been completed at the acquisition date. The guidance is effective for fiscal years beginning after December 15, 2015, but early adoption is permitted.

We early adopted ASU 2015-16, effective with the Form 10-Q filing for the period ended September 30, 2015. This change in accounting principle allowed us to record an immaterial measurement-period adjustment to amortization expense in the third quarter of 2015. As of June 30, 2015, we had recorded a preliminary estimated fair value of the intangible assets acquired from Command. The intangible asset valuation was updated in the third quarter of 2015, and an adjustment was recorded to reflect the updated fair value of the intangible assets. Per the guidance in ASU 2015-16, we recognized the change in amortization expense in the third quarter of 2015, rather than accounting for the adjustment retrospectively. For the quarter ended September 30, 2015, this resulted in an immaterial measurement-period adjustment to depreciation and amortization in the statement of operations and a \$26.1 million increase to goodwill (and corresponding decrease to intangible assets) on the balance sheet for the quarter ended September 30, 2015.

ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs ("ASU 2015-03"). ASU 2015-03 requires debt issuance costs to be presented on the balance sheet as a deduction from the carrying amount of the related debt liability instead of as a deferred asset. ASU 2015-03 is effective as of January 1, 2016, but early adoption is permitted. ASU 2015-03 must be applied on a full retrospective basis, with all prior periods restated for the new presentation.

We have early adopted ASU 2015-03, effective with the Form 10-Q filing for the period ended June 30, 2015. Early adoption allowed us to record the significant debt issuance costs incurred in the second quarter of 2015 in accordance with ASU 2015-03, instead of waiting until 2016 to adopt ASU 2015-03 and then retrospectively restating the 2015 numbers.

Table of Contents

Effective with the Form 10-Q filing for the period ended June 30, 2015, we present debt issuance costs related to the Notes on the balance sheet as a contra-liability that reduces the carrying amount of the Note liability, rather than as a deferred asset. Our policy with regard to debt issuance costs incurred related to the ABL Facility is to present these costs as a contra-liability in periods when there is a related ABL Facility debt liability on the balance sheet. If there is no outstanding draw on the ABL Facility at period end, and thus no liability is recorded on the balance sheet, these debt issuance costs are presented as a deferred asset. After we adopted this policy, the FASB issued ASU 2015-15, Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements in August 2015. This ASU was meant to clarify the guidance in ASC 2015-03, and stated that the SEC staff would not object to a company presenting debt issuance costs related to a line-of-credit arrangement on the balance sheet as a deferred asset, regardless of whether there were any outstanding borrowings at period-end. ASU 2015-15 does not require this presentation as a deferred asset, and thus we will continue to follow the accounting policy adopted in the second quarter of 2015.

ASU 2015-03 requires retrospective application to prior periods. The only debt issuance costs recorded at December 31, 2014 were an insignificant amount related to the Company's previous revolving credit facility with PNC Bank. No amounts were drawn on such revolving credit facility at December 31, 2014. Accordingly, the prior year presentation as a deferred financing asset is also the appropriate presentation after adoption of ASU 2015-03 and no change to the prior period balance sheet is necessary. The change in balance sheet presentation due to the adoption of ASU 2015-03 had no impact on the current or prior period statements of operations. Debt issuance costs are amortized to interest expense using the effective interest method over the useful life of the debt instrument, both before and after the adoption of ASU 2015-03.

Other Recent Accounting Pronouncements

In February 2015, the FASB issued ASU 2015-02, Amendments to the Consolidation Analysis, which amends the present guidance regarding the consolidation analysis performed by reporting entities that are involved with VIEs, particularly those that have decision maker or service provider fee arrangements and related-party relationships. This new accounting standard is effective as of January 1, 2016, and is not expected to have a material impact on our financial statements.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern, which requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date of issuance of the entity's financial statements. This accounting standard is effective for annual and interim periods beginning after December 15, 2016. Early adoption is permitted.

The adoption of this accounting standard is not expected to have a material impact on our financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, to clarify the principles used to recognize revenue for all entities. The guidance is effective for annual and interim periods beginning after December 15, 2017. Two methods of adoption are permitted - a full retrospective method that applies the new standard to each prior reporting period presented, or a modified retrospective approach that recognizes the cumulative effect of applying the new standard at the date of initial application. Early adoption is not permitted. We are evaluating the effects, if any, that the adoption of this guidance will have on our consolidated financial statements.

Table of Contents

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Commodity Risk

We pass through fluctuations in fuel prices to our clients. As a result, we believe that there is no material risk exposure to fluctuations in fuel prices.

Interest Rate Risk

We have exposure to changes in interest rates on our ABL Facility. Borrowings bear interest at one of the following, plus an applicable margin: (1) the federal funds rate, (2) the base commercial lending rate of PNC Bank, or (3) the LIBOR rate, based on the Company's election for each tranche of borrowing. The interest rate on our line of credit fluctuates based on the rates described above. Assuming the \$200 million ABL Facility was fully drawn, a 1.0% increase in the interest rate selected would increase our annual interest expense by \$2.0 million.

Our interest income is sensitive to changes in the general level of U.S. interest rates, in particular because all of our investments are in cash equivalents. Due to the short-term nature of our investments, we believe that there is no material risk exposure.

We do not use derivative financial instruments for speculative trading purposes.

Impact of Inflation

We believe that our results of operations are not materially impacted by moderate changes in the inflation rate. Inflation and changing prices did not have a material impact on our operations in 2015, 2014 and 2013.

Management's Assessment of
Internal Control Over Financial Reporting

The Company's management is responsible for the preparation, integrity and objectivity of the financial statements and other financial information presented in this Annual Report. The financial statements have been prepared in conformity with accounting principles generally accepted in the United States and reflect the effects of certain estimates and judgments made by management.

The Company's management is also responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended. Under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, the Company conducted an evaluation of the effectiveness of its internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework).

The Company acquired Command Transportation, LLC ("Command") on June 1, 2015. Management did not include Command in its annual evaluation of internal control over financial reporting as of December 31, 2015. The Company will incorporate Command into its annual evaluation of internal control over financial reporting for the year ending December 31, 2016. Command constituted 57% of the Company's total assets as of December 31, 2015, including the goodwill and intangible assets recorded as part of the purchase accounting, and 19% and 14% of the Company's revenue and net income, respectively, for the year then ended.

Based on the Company's evaluation under the framework in Internal Control - Integrated Framework, management concluded that internal control over financial reporting was effective as of December 31, 2015. The effectiveness of internal control over financial reporting as of December 31, 2015 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their attestation report, which is included herein.

Echo Global Logistics, Inc.
February 26, 2016

Table of Contents

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of
Echo Global Logistics, Inc. and Subsidiaries

We have audited Echo Global Logistics, Inc. and Subsidiaries' internal control over financial reporting as of December 31, 2015, based on criteria established in the Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). Echo Global Logistics, Inc. and Subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Assessment of Internal Control Over Financial Reporting. Our responsibility is to express an opinion on Echo Global Logistics, Inc. and Subsidiaries' internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As indicated in the accompanying Management's Assessment of Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Command Transportation, LLC ("Command"), which is included in the 2015 consolidated financial statements of Echo Global Logistics. Command constituted 57% of total assets as of December 31, 2015 and 19% and 14% of revenue and net income, respectively, for the year then ended.

In our opinion, Echo Global Logistics, Inc. and Subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on the COSO criteria.

Edgar Filing: Echo Global Logistics, Inc. - Form 10-K

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Echo Global Logistics, Inc. and Subsidiaries as of December 31, 2015 and 2014, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2015 of Echo Global Logistics, Inc. and Subsidiaries, and our report dated February 26, 2016, expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of
Echo Global Logistics, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of Echo Global Logistics, Inc. and Subsidiaries as of December 31, 2015 and 2014, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2015. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Echo Global Logistics, Inc. and Subsidiaries at December 31, 2015 and 2014, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2015, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Echo Global Logistics, Inc. and Subsidiaries' internal control over financial reporting as of December 31, 2015, based on criteria established in the Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 26, 2016, expressed an unqualified opinion thereon.

Echo Global Logistics, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Years Ended December 31, 2015, 2014 and 2013

1. Description of Business

Echo Global Logistics, Inc. ("the Company") is a leading provider of technology-enabled transportation and supply chain management services. These services are delivered on a proprietary technology platform that serves the transportation and logistics needs of the Company's clients. The Company provides services across all major transportation modes, including truckload ("TL"), less-than-truckload ("LTL"), small parcel, intermodal, domestic air, and international. The Company's core logistics services include rate negotiation, shipment execution and tracking, carrier selection and management, routing compliance, freight bill audit, and payment and performance management and reporting functions, including executive dashboard tools.

The Company's common stock is listed on the Nasdaq Global Select Market under the symbol "ECHO."

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements include the accounts of Echo Global Logistics, Inc. and its subsidiaries (the Company). All significant intercompany accounts and transactions have been eliminated in the consolidation. The consolidated statements of operations include the results of entities or assets acquired from the effective date of the acquisition for accounting purposes.

Preparation of Financial Statements and Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results can differ from those estimates.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments, which consist of cash and cash equivalents, accounts receivable and accounts payable, approximate their fair values due to their short term nature. The fair value of the due to seller liabilities are determined based on the likelihood of contingent earn-out payments. The fair value of the liability component of the Notes (as defined in Footnote 9 (Long-Term Debt)) was determined using the discounted cash flow analysis discussed in Footnote 9.

Revenue Recognition

In accordance with Accounting Standards Codification ("ASC") Topic 605-20 Revenue Recognition - Services, transportation revenue and related transportation costs are recognized when the shipment has been delivered by a third-party carrier. Fee for service revenue is recognized when the services have been rendered. At the time of delivery or rendering of services, as applicable, the Company's obligation to fulfill a transaction is complete and collection of revenue is reasonably assured.

In accordance with ASC Topic 605-45 Revenue Recognition - Principal Agent Considerations, the Company generally recognizes revenue on a gross basis, as opposed to a net basis similar to a commission arrangement, because it bears the risks and benefits associated with revenue-generated activities by, among other things: (1) acting as a principal in the transaction; (2) establishing prices; (3) managing all aspects of the shipping process; and (4) taking the risk of loss for collection, delivery, and returns. Certain transactions to provide specific services are recorded at the net amount charged to the client due to the following key factors: (a) the Company does not have latitude in establishing pricing; and (b) the Company has credit risk for only the net revenue earned from its client while the carrier has credit risk for the transportation costs. Net revenue equals revenue minus transportation costs.

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Consolidated Financial Statements
 Years Ended December 31, 2015, 2014 and 2013

Rebates

The Company has entered into agreements with certain clients to rebate to them a portion of the costs that they pay to the Company for transportation services, based on certain conditions and/or pricing schedules that are specific to each individual agreement, but that are typically constructed as a percentage of the costs that its clients incur.

Rebates are recognized at the same time that the related transportation revenue is recognized and are recorded as a reduction of transportation revenue.

Segment Reporting

The Company applies the provisions of ASC Topic 280 Segment Reporting, which establishes accounting standards for segment reporting.

The Company's chief operating decision-maker assesses performance and makes resource allocation decisions for the Company's operating segments, which aggregate to one reportable segment for reporting purposes. The Company has provided all enterprise wide disclosures required by this guidance.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are uncollateralized customer obligations due under normal trade terms. Invoices require payment within 30 to 90 days from the invoice date. Accounts receivable are stated at the amount billed to the customer.

Customer account balances with invoices 90 days past due are considered delinquent. The Company generally does not charge interest on past due amounts.

The carrying amount of accounts receivable is reduced by an allowance for doubtful accounts that reflects management's best estimate of amounts that will not be collected. The allowance is based on historical loss experience and any specific risks identified in client collection matters. Accounts receivable are charged off against the allowance for doubtful accounts when it is determined that the receivable is uncollectible. The Company recorded \$1,427,983, \$1,937,227 and \$1,229,134 of bad debt expense for the years ended December 31, 2015, 2014 and 2013, respectively.

Property and Equipment

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets. The estimated useful lives, by asset class, are as follows:

Computer equipment and software	3 years
Office equipment	5 years
Furniture and fixtures	5 - 7 years
Internal Use Software	

The Company has adopted the provisions of ASC Topic 350-40 Internal Use Software. Accordingly, certain costs incurred in the planning and evaluation stage of internal use computer software are expensed as incurred. Costs incurred during the application development stage are capitalized and included in property and equipment. Capitalized internal use software costs are amortized over the expected economic life of three years using the straight-line method. The total amortization expense for the years ended December 31, 2015, 2014 and 2013 was \$8,648,096, \$7,572,309 and \$6,394,788, respectively. At December 31, 2015 and 2014, the net book value of internal use software costs was \$14,649,370 and \$13,687,293, respectively.

Goodwill and Other Intangibles

Goodwill represents the excess of consideration transferred over the value assigned to the net tangible and identifiable intangible assets of businesses acquired. In accordance with ASC Topic 350 Intangibles - Goodwill and Other, goodwill is not amortized, but instead is tested for impairment annually, or more frequently if circumstances indicate a possible impairment may exist. In September 2011, the Financial Accounting Standards Board ("FASB") approved Accounting Standard Update

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Years Ended December 31, 2015, 2014 and 2013

("ASU") No. 2011-08, Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment. This ASU permits an entity to first assess qualitative factors to determine whether it is more likely than not (a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying amount. After assessing qualitative factors, if an entity determines that it is more likely than not that the fair value of the reporting unit is greater than its carrying amount, no further testing is necessary. The Company tests goodwill for impairment at the reporting unit level. In accordance with ASC 350, the Company first assesses qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. In 2015, we concluded that it is more likely than not that the fair value of each reporting unit exceeds its carrying amount. Absent any special circumstances that could require an interim test, the Company has elected to test for goodwill impairment during the fourth quarter of each year.

Topic 350 also requires that intangible assets with finite lives be amortized over their respective estimated useful lives and reviewed for impairment whenever impairment indicators exist in accordance with ASC Topic 360 Property, Plant and Equipment. The Company's intangible assets consist of customer relationships, carrier relationships, non-compete agreements, and trade names, which are being amortized on an accelerated basis over their estimated weighted-average useful lives of 14.8 years, 17.0 years 6.7 years and 4.0 years, respectively. See Note 7.

Income Taxes

The Company accounts for income taxes in accordance with ASC Topic 740 Income Taxes, under which deferred assets and liabilities are recognized based upon anticipated future tax consequences attributable to differences between financial statement carrying values of assets and liabilities and their respective tax bases. A valuation allowance is established to reduce the carrying value of deferred tax assets if it is considered more likely than not that such assets will not be realized. Any change in the valuation allowance would be charged to income in the period such determination was made.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC Topic 718 Compensation - Stock Compensation which requires all share-based payments to employees, including grants of stock options, to be recognized in the income statement based upon their fair values. Share-based employee compensation costs are recognized as a component of selling, general and administrative expense in the consolidated statements of operations. See Note 14—Stock-Based Compensation Plans for a description of the Company's accounting for stock-based compensation plans.

Self-Insurance Liability

Since January 2014, the Company has been self-insured for its employee health plans and records a liability that represents its estimated cost of claims incurred and unpaid as of the balance sheet date. The Company's estimated liability is not discounted and is based on a number of assumptions and factors, including historical trends, actuarial assumptions and economic conditions, and is closely monitored and adjusted when warranted by changing circumstances. The total estimated self-insurance liabilities at December 31, 2015 and 2014 were \$995,024 and \$725,743, respectively.

3. New Accounting Pronouncements

ASU 2015-17, Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes ("ASU 2015-17"). This guidance requires companies to classify all deferred tax assets and liabilities as noncurrent on the balance sheet, instead of separating deferred taxes into current and noncurrent amounts. ASU 2015-17 may be adopted on either a prospective or retrospective basis, and is effective for financial statements issued for annual periods beginning after December 15, 2016. Early adoption is permitted. The Company has early adopted ASU 2015-17, effective with this Form 10-K filing for the period ended December 31, 2015. This change in accounting principle allows the Company to comply with the new guidance going forward. The Company is applying the new guidance on a prospective basis. As such, prior periods are not retrospectively adjusted. The change in balance sheet presentation due to the adoption of ASU 2015-17 had no impact on the current or prior period statements of operations.

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Years Ended December 31, 2015, 2014 and 2013

ASU 2015-16, Simplifying the Accounting for Measurement-Period Adjustments

In September 2015, the FASB issued ASU 2015-16, Simplifying the Accounting for Measurement-Period Adjustments ("ASU 2015-16"). This guidance eliminates the requirement for an acquirer in a business combination to account for measurement-period adjustments retrospectively. Instead, acquirers must recognize measurement-period adjustments during the period in which they determine the amounts, including the effect on earnings of any amounts that would have been recorded in previous periods if the accounting had been completed at the acquisition date. The guidance is effective for fiscal years beginning after December 15, 2015, but early adoption is permitted.

The Company early adopted ASU 2015-16, effective with the Form 10-Q filing for the period ended September 30, 2015. This change in accounting principle allowed the Company to record an immaterial measurement-period adjustment to amortization expense in the third quarter of 2015. As of June 30, 2015 the Company had recorded a preliminary estimated fair value of the intangible assets acquired from Command Transportation, LLC. The intangible asset valuation was updated in the third quarter of 2015, and an adjustment was recorded to reflect the updated fair value of the intangible assets. Per the guidance in ASU 2015-16, the Company recognized the change in amortization expense in the third quarter of 2015, rather than accounting for the adjustment retrospectively. For the quarter ended September 30, 2015, this resulted in an immaterial measurement-period adjustment to depreciation and amortization in the statement of operations and a \$26.1 million increase to goodwill (and corresponding decrease to intangible assets) on the balance sheet for the quarter ended September 30, 2015.

ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs ("ASU 2015-03"), requiring debt issuance costs to be presented on the balance sheet as a deduction from the carrying amount of the related debt liability instead of as a deferred asset. ASU 2015-03 is effective as of January 1, 2016, but early adoption is permitted. ASU 2015-03 must be applied on a full retrospective basis, with all prior periods restated for the new presentation.

The Company early adopted ASU 2015-03, effective with the Form 10-Q filing for the quarter ended June 30, 2015. Early adoption allowed the Company to record the significant debt issuance costs incurred in the second quarter of 2015 in accordance with ASU 2015-03, instead of waiting until 2016 to adopt ASU 2015-03 and then retrospectively restating the 2015 numbers. Effective with the Form 10-Q filing for the period ended June 30, 2015, the Company presents debt issuance costs related to the Notes (as defined in Footnote 9 (Long-Term Debt)) on the balance sheet as a contra-liability that reduces the carrying amount of the Note liability, rather than as a deferred asset. The Company's policy with regard to debt issuance costs incurred related to the Company's ABL Facility (as defined in Footnote 9 (Long-Term Debt)) is to present these costs as a contra-liability in periods when there is a related ABL Facility debt liability on the balance sheet. If there is no outstanding draw on the ABL Facility at period end, and thus no liability is recorded on the balance sheet, these debt issuance costs are presented as a deferred asset. After the Company had adopted this policy, the FASB issued ASU 2015-15, Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements in August 2015. This ASU was meant to clarify the guidance in ASC 2015-03, and stated that the SEC staff would not object to a company presenting debt issuance costs related to a line-of-credit arrangement on the balance sheet as a deferred asset, regardless of whether there were any outstanding borrowings at period-end. ASU 2015-15 does not require this presentation as a deferred asset, and thus the Company will continue to follow the accounting policy adopted in the second quarter of 2015.

ASU 2015-03 requires retrospective application to prior periods. The only debt issuance costs recorded at December 31, 2014 were an insignificant amount related to the Company's previous revolving credit facility with PNC Bank. No amounts were drawn on such revolving credit facility at December 31, 2014. Accordingly, the prior year presentation as a deferred financing asset is also the appropriate presentation after adoption of ASU 2015-03 and no change to the prior period balance sheet is necessary. The change in balance sheet presentation due to the adoption of ASU 2015-03 had no impact on the current or prior period statements of operations. Debt issuance costs are amortized to interest expense using the effective interest method over the useful life of the debt instrument, both before and after the adoption of ASU 2015-03.

Other New Accounting Pronouncements

In February 2015, the FASB issued ASU 2015-02, Amendments to the Consolidation Analysis, which amends the guidance regarding the consolidation analysis performed by reporting entities that are involved with VIEs, particularly those

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Years Ended December 31, 2015, 2014 and 2013

that have decision maker or service provider fee arrangements and related-party relationships. This new accounting standard is effective as of January 1, 2016, and is not expected to have a material impact on the Company's financial statements.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern, which requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date of issuance of the entity's financial statements. The accounting standard is effective for annual and interim periods beginning after December 15, 2016. Early adoption is permitted. The adoption of this standard is not expected to have a material impact on the Company's financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, to clarify the principles used to recognize revenue for all entities. The guidance is effective for annual and interim periods beginning after December 15, 2017. Two methods of adoption are permitted - a full retrospective method that applies the new standard to each prior reporting period presented, or a modified retrospective approach that recognizes the cumulative effect of applying the new standard at the date of initial application. Early adoption is not permitted. The Company is evaluating the effects, if any, that the adoption of this guidance will have on the Company's financial statements.

4. Acquisitions

2015 Acquisitions

Xpress Solutions, Inc.

On February 1, 2015, the Company acquired Xpress Solutions, Inc. ("Xpress"), a non-asset based TL and LTL transportation brokerage based in Frankfort, Illinois, and the results of Xpress have been included in the Company's consolidated financial statements since the acquisition date. The Company purchased the assets and assumed certain liabilities of Xpress for \$6,054,937 in cash, subject to working capital adjustments, and an additional \$3,000,000 in contingent consideration that may become payable upon the achievement of certain performance measures on or prior to January 31, 2019. As a result of the purchase accounting for the acquisition, the Company recorded \$4,081,407 of goodwill, \$1,500,000 as the estimated opening balance sheet fair value of the contingent consideration obligation, and \$3,000,000 of customer relationship intangible assets. The amount of goodwill deductible for U.S. income tax purposes is \$2,581,407, which excludes the opening balance sheet fair value of the contingent consideration obligation.

The Company has recognized a \$40,000 increase in the fair value of the contingent consideration obligation since the acquisition date, resulting in a contingent consideration obligation of \$1,540,000 at December 31, 2015.

The amounts of revenue and net income of Xpress included in the Company's consolidated statements of operations from the acquisition date to December 31, 2015 are \$11.8 million and \$0.3 million, respectively.

Command Transportation, LLC

On June 1, 2015, the Company completed the acquisition of all of the outstanding membership units of Command Transportation, LLC ("Command"), one of the largest privately held TL brokers and non-asset based transportation providers in the United States. Command is headquartered in Skokie, Illinois, with satellite locations in Texas, Missouri and Kansas.

The Company financed the cash purchase price for the Command acquisition, in part, with the proceeds from the sale of 5,750,000 shares of common stock and \$230,000,000 aggregate principal amount of 2.50% convertible senior notes due 2020 (the "Notes"). The Company financed the remainder of the cash purchase price for the Command acquisition with drawings under its ABL Facility (see Note 9). Additionally, a portion of the purchase price consisted of shares of Echo common stock issued to one of the sellers. The fair value of the total consideration transferred was as follows:

Cash	\$394,279,778
Echo common stock, fair value	14,746,000
Working capital adjustment, December 2015	(142,969)
Total consideration transferred	\$408,882,809

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Consolidated Financial Statements
 Years Ended December 31, 2015, 2014 and 2013

The equity portion of the purchase price consisted of 503,829 unregistered shares of Echo common stock issued to Paul Loeb, the former owner of Command, on June 1, 2015. The closing price of Echo common stock on June 1, 2015 was \$32.52 per share. As these shares were unregistered, the Company applied a 10% marketability discount to determine the fair value of the consideration transferred. There is no contingent consideration associated with the purchase of Command.

The following table summarizes the preliminary allocation of the total consideration transferred for the acquisition of Command:

Cash	\$9,495,246
Accounts receivable, net	62,398,350
Property and equipment	3,667,615
Prepaid expenses	818,903
Goodwill	226,480,985
Intangible assets	125,400,000
Total assets acquired	\$428,261,099
Accounts payable	\$11,172,240
Accrued expenses	8,206,050
Total liabilities assumed	\$19,378,290
Total consideration transferred	\$408,882,809

Goodwill of \$226,480,985, which is approximately the amount of goodwill deductible for U.S. income tax purposes, represents the premium the Company paid over the fair value of the net tangible and identifiable intangible assets it acquired. The Company paid this premium because the acquisition of Command will, among other things, significantly enhance the Company's national scale and density in the highly fragmented truckload market. In addition, Echo paid this premium to acquire an experienced sales force with established customer and carrier relationships, and Command executives with significant experience in the transportation industry. The allocation of the purchase price to the assets and liabilities above is subject to change as the Company finalizes purchase accounting. The Company is in the process of finalizing the valuation of certain acquired accounts receivable, accounts payable, property and equipment, and intangible assets.

The fair values assigned to the intangible assets acquired were as follows:

Intangible Asset	Value	Useful Life
Customer relationships	\$97,200,000	17 years
Carrier relationships	18,300,000	17 years
Trade names	5,000,000	4 years
Noncompete agreements	4,900,000	5-8 years
	\$125,400,000	

The customer relationships are being amortized using an accelerated method, as an accelerated method best approximates the distribution of cash flows generated by the acquired customer relationships. The carrier relationships, trade names and noncompete agreements are being amortized using the straight-line method.

On June 1, 2015, the Company issued 335,882 shares of restricted common stock to 33 Command employees as employment inducement awards pursuant to NASDAQ Listing Rule 5635(c)(4). This restricted common stock vests after 1 year and is being recognized as compensation expense over the vesting period. Additionally, at the closing, the Company issued 100,766 and 67,178 shares of restricted common stock and performance stock, respectively, to two

of the sellers who entered into new employment agreements with the Company as employment inducement awards pursuant to NASDAQ Listing Rule 5635(c)(4). This restricted common stock and performance stock vests over 3 years and is being recognized as compensation expense over the vesting period. The stock compensation expense related to these issuances recorded within selling, general and administrative expense in the statement of operations from the issuance date to December 31, 2015 is \$7.3 million.

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Consolidated Financial Statements
 Years Ended December 31, 2015, 2014 and 2013

The Company recognized \$6.5 million of Command acquisition-related transaction costs in selling, general and administrative expense in the statement of operations in 2015.

The amounts of revenue and net income of Command included in the Company's consolidated statement of operations from the acquisition date to December 31, 2015 are \$286.4 million and \$1.1 million, respectively. This net income includes the stock compensation expense for the restricted stock granted to former Command employees, but excludes the interest expense and Command-related transaction costs recorded in the statement of operations in 2015.

The following unaudited pro forma information presents a summary of the Company's pro forma consolidated revenue and net income for the twelve months ended December 31, 2015 and 2014, as if the Company had acquired Command as of January 1, 2014. This unaudited pro forma supplemental information includes the historical financial results of the Company and Command, adjusted to record the following pro forma adjustments:

(1) Intangible asset amortization as if the acquisition had occurred on January 1, 2014, at approximately \$3.0 million per quarter.

(2) Income tax expense as if Command had been paying the Company's effective tax rate since January 1, 2014.

(3) Interest expense of approximately \$3.3 million per quarter (and related tax benefit), as if the convertible senior note offering and draw on the ABL Facility used to fund the acquisition had occurred on January 1, 2014. This includes the amortization of debt issuance costs and underwriting discounts and commissions, as well as the amortization of the Note discount.

(4) Stock compensation expense of approximately \$2.7 million per quarter (and the related tax benefit) in 2014. If the Company had acquired Command on January 1, 2014, the stock compensation expense related to the 335,882 shares of restricted common stock granted to former Command employees on the acquisition date would have been expensed in 2014. The amount recognized in the Company's historical 2015 results is also removed as a pro forma adjustment.

(5) Pro forma adjustment to remove \$6.5 million of transaction-related expenses and \$2.0 million of Term Loan Facility (as defined in Footnote 9 (Long-Term Debt)) commitment fees (and the related tax benefit of both) recorded in the Company's historical statement of operations in 2015. If the acquisition had occurred on January 1, 2014, these transaction costs and Term Loan Facility commitment fees would have been expensed in fiscal year 2013.

The unaudited pro forma results do not reflect any operating efficiencies or potential cost savings which may result from the consolidation of the operations of the Company and Command. These unaudited pro forma results are not necessarily indicative of what would have occurred if the Command acquisition had been in effect for the periods presented or future results.

	Year Ended December 31,	
	2015	2014
Echo revenue, as reported	\$ 1,512,298,686	\$ 1,173,382,760
Command revenue ⁽¹⁾	221,422,040	561,059,709
Pro forma revenue	\$ 1,733,720,726	\$ 1,734,442,469
Echo net income, as reported	\$ 7,845,674	\$ 16,787,558
Command net income ⁽¹⁾	9,719,680	21,583,380
Pro forma adjustments	(131,383) (30,480,546
Pro forma net income	\$ 17,433,971	\$ 7,890,392

(1) The pro forma Command amounts for the twelve months ended December 31, 2015 include only five months of Command results. Command revenue and net income from June 1, 2015 through December 31, 2015 are included in Echo reported revenue and net income.

 Notes to Consolidated Financial Statements
 Years Ended December 31, 2015, 2014 and 2013

2014 Acquisitions

Online Freight Services, Inc.

In January 2014, the Company acquired Online Freight Services, Inc. ("OFS"), a non-asset based truckload transportation brokerage based in Mendota Heights, Minnesota, and the results of OFS have been included in the consolidated financial statements since the acquisition date. The Company agreed to purchase the assets and assume certain liabilities of OFS for \$9,460,742 in cash payable at closing and an additional \$1,500,000 in cash consideration that may become payable upon achievement of certain performance measures on or prior to December 31, 2017. As a result of the purchase accounting for the acquisition, the Company recorded \$4,309,146 of goodwill, of which \$880,000 is related to contingent consideration, and \$4,850,000 of intangible assets, which primarily consists of customer relationships and trade names. The amount of goodwill deductible for U.S. income tax purposes is \$3,429,146, which excludes the opening balance sheet fair-value of the contingent consideration obligation.

Comcar Logistics, LLC

In February 2014, the Company acquired Comcar Logistics, LLC ("Comcar"), a non-asset based truckload brokerage with offices in Jacksonville, Florida and Denver, Colorado, and the results of Comcar have been included in the consolidated financial statements since the acquisition date. The Company agreed to purchase the assets and assume certain liabilities of Comcar for \$4,900,930 in cash. There is no contingent consideration associated with the purchase of Comcar. As a result of the purchase accounting for the acquisition, the Company recorded \$2,342,265 of goodwill, which is approximately the amount of goodwill deductible for U.S. income tax purposes, and \$2,500,000 of intangible assets, which primarily consists of customer relationships.

One Stop Logistics, Inc.

In May 2014, the Company acquired One Stop Logistics, Inc. ("One Stop"), a non-asset based brokerage headquartered in Watsonville, California. One Stop provides both truckload and less-than-truckload solutions, and has offices throughout the country. The Company agreed to purchase the assets and assume certain liabilities of One Stop for total consideration of \$37,490,924 in cash, which includes a working capital payment made during the third quarter of 2014. This \$37,490,924 was paid in four separate payments, as follows:

Fair value of consideration transferred:

Cash payment made at closing	\$ 19,262,980
Working capital payment made in September 2014	720,444
Cash payment made in January 2015	13,782,500
Cash payment made in May 2015	3,725,000
Total	\$ 37,490,924

The payments made in January 2015 and May 2015 were recorded as other current liabilities on the opening balance sheet. There is no contingent consideration associated with the purchase of One Stop. The acquisition provided the Company with strategic growth and added an assembled workforce with strong sales talent and an established network of shippers and carriers.

The following table summarizes the allocation of the total consideration transferred for the acquisition of One Stop:

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Consolidated Financial Statements
 Years Ended December 31, 2015, 2014 and 2013

Cash	\$—
Accounts receivable	5,369,508
Property and equipment	17,137
Other assets	12,446
Goodwill	19,626,724
Intangible assets	16,800,000
Total assets acquired	\$41,825,815
Accounts payable	\$4,197,058
Accrued expenses	137,833
Total liabilities assumed	\$4,334,891
Total consideration transferred	\$37,490,924

Goodwill of \$19,626,724, which is approximately the amount of goodwill deductible for U.S. income tax purposes, represents the premium the Company paid over the fair value of the net tangible and identifiable intangible assets it acquired. The Company paid this premium because One Stop, among other things, expanded the Company's presence in the TL and LTL markets, especially in California, and added an experienced sales force with established customer relationships. The intangible assets are primarily customer relationships, which have a useful life of twelve years.

5. Fair Value Measurement

The Company applies ASC Topic 820 Fair Value Measurements and Disclosures for its financial assets and financial liabilities. The guidance requires disclosures about assets and liabilities measured at fair value. The Company's financial liabilities primarily relate to contingent earn-out payments of \$4,086,697 as of December 31, 2015. The potential earnout payments and performance are defined in the individual purchase agreement for each acquisition. EBITDA is the performance target defined and measured to determine the earnout payment due, if any, after each defined measurement period.

ASC Topic 820 includes a fair value hierarchy that is intended to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy is based on observable or unobservable inputs to valuation techniques that are used to measure fair value. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon its own market assumptions. The fair value hierarchy consists of the following three levels:

Level 1: Inputs are quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs are quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable and market-corroborated inputs, which are derived principally from or corroborated by observable market data.

Level 3: Inputs that are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable.

The significant inputs used to derive the fair value of the amounts due to seller include financial forecasts of future operating results, the probability of reaching the forecast and an appropriate discount rate for each contingent liability. Probabilities are estimated by reviewing financial forecasts and assessing the likelihood of reaching the required performance measures based on factors specific to each acquisition as well as the Company's historical experience

with similar arrangements. If an acquisition reaches the required performance measure, the estimated probability would be increased to 100% and would still be classified as a contingent liability on the balance sheet. If the measure is not reached, the probability would be reduced to reflect the amount earned, if any, depending on the terms of the agreement. Discount rates used in determining the fair value of the contingent consideration ranged between 3% and 7%. Historical results of the respective acquisitions serve as the basis for the financial forecasts used in the valuation.

Quantitative factors are also considered in these forecasts, including acquisition synergies, growth and sales potential and potential operational efficiencies gained. Changes to the significant inputs used in determining the fair value of the contingent consideration could result in a change in the fair value of the contingent consideration. However, the correlation and inverse

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Consolidated Financial Statements
 Years Ended December 31, 2015, 2014 and 2013

relationship between higher projected financial results to the discount rate applied and probability of meeting the financial targets mitigates the effect of any changes to the unobservable inputs.

The following table sets forth the Company's financial assets and liabilities measured at fair value on a recurring basis and the basis of measurement as of December 31, 2015 and 2014:

	Fair Value Measurements as of December 31, 2015			
	Total	Level 1	Level 2	Level 3
Liabilities:				
Contingent consideration obligation	\$(4,086,697)	\$—	\$—	\$(4,086,697)
	Fair Value Measurements as of December 31, 2014			
	Total	Level 1	Level 2	Level 3
Liabilities:				
Contingent consideration obligation	\$(5,331,078)	\$—	\$—	\$(5,331,078)

The following table provides a reconciliation of the beginning and ending balances for the liabilities measured at fair value using significant unobservable inputs (Level 3):

	Due to Seller	
Balance at January 1, 2014	\$(7,150,432)	
OFS acquisition, acquisition date fair value	(880,000)	
Change in fair value	(2,160,316)	
Payment of contingent consideration	4,859,670	
Balance at December 31, 2014	(5,331,078)	
Xpress acquisition, acquisition date fair value	(1,500,000)	
Change in fair value	(201,452)	
Payment of contingent consideration	2,945,833	
Balance at December 31, 2015	\$(4,086,697)	

For the years ended December 31, 2015 and 2014, the Company recognized expense of \$201,452 and \$2,160,316, respectively, in selling, general, and administrative expense due to the change in fair value determined by a level three valuation technique. These changes in fair value resulted from using revised forecasts that took into account the most recent performance at each acquired business, as well as from the effect of the time value of money.

For the years ended December 31, 2015 and 2014, the Company made contingent earn-out payments of \$2,945,833 and \$4,859,670, respectively.

6. Property and Equipment

Property and equipment at December 31, 2015 and 2014, consisted of the following:

	December 31, 2015	December 31, 2014
Computer equipment	\$13,518,440	\$10,063,187
Software, including internal use software	56,211,129	46,303,704
Furniture, fixtures and office equipment	12,516,254	8,254,664
	82,245,823	64,621,555
Less accumulated depreciation	(54,941,349)	(43,344,846)

\$27,304,474 \$21,276,709

Table of Contents

Depreciation expense, including amortization of capitalized internal use software, was \$12,403,273, \$9,950,256 and \$8,192,981 for the years ended December 31, 2015, 2014 and 2013, respectively.

7. Intangibles and Other Assets

The following is a summary of goodwill as of December 31:

Balance as of January 1, 2014	\$51,650,060
OFS acquisition, goodwill acquired	4,309,146
Comcar acquisition, goodwill acquired	2,342,265
One Stop acquisition, goodwill acquired	19,608,066
Balance as of December 31, 2014	77,909,537
One Stop, purchase accounting adjustment	18,659
Xpress acquisition, goodwill acquired	4,081,407
Command acquisition, goodwill acquired	226,480,985
Balance as of December 31, 2015	\$308,490,588

The following is a summary of amortizable intangible assets as of December 31, 2015 and December 31, 2014:

	December 31, 2015	December 31, 2014	Weighted- Average Life
Customer relationships	\$145,138,979	\$44,938,979	14.8 years
Carrier relationships	18,300,000	—	17.0 years
Noncompete agreements	5,239,000	339,000	6.7 years
Trade names	5,640,000	640,000	4.0 years
	174,317,979	45,917,979	14.4 years
Less accumulated amortization	(26,785,810) (15,046,556)
Intangible assets, net	\$147,532,169	\$30,871,423	

Amortization expense related to intangible assets was \$11,739,254, \$3,925,823, and \$2,371,676 for the years ended December 31, 2015, 2014 and 2013, respectively.

The estimated amortization expense for the next five years and thereafter is as follows:

2016	\$15,804,429
2017	14,243,799
2018	12,861,305
2019	11,470,909
2020	10,638,587
Thereafter	82,513,140
	\$147,532,169

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Consolidated Financial Statements
 Years Ended December 31, 2015, 2014 and 2013

8. Accrued Expenses and Other Noncurrent Liabilities

The components of accrued expenses at December 31, 2015 and December 31, 2014 are as follows:

	December 31, 2015	December 31, 2014
Accrued compensation	\$17,937,504	\$11,359,446
Accrued rebates	2,535,606	2,572,544
Accrued employee benefits	2,809,239	1,643,713
Accrued professional service fees	1,837,749	868,649
Accrued interest	1,463,880	27,320
Deferred rent	400,809	293,853
Other	3,298,275	2,730,475
Total accrued expenses	\$30,283,062	\$19,496,000

The other noncurrent liability of \$2,940,435 at December 31, 2015 is the portion of deferred rent in excess of twelve months and the long-term uncertain tax liability. The other noncurrent liability of \$1,502,019 at December 31, 2014 is the portion of deferred rent in excess of twelve months.

9. Long-Term Debt

ABL Facility

On June 1, 2015, the Company and Command, as co-borrowers, entered into a Revolving Credit and Security Agreement (the "New Credit Agreement") with PNC Bank, National Association, as administrative agent, Bank of America, N.A. and JPMorgan Chase Bank, N.A., each as co-syndication agents, and the lenders from time to time party thereto. The New Credit Agreement replaced the Company's previous Credit Agreement, dated as of May 2, 2014, by and among the Company, the lenders party thereto, and PNC Bank, National Association, as administrative agent. During the first five months of 2015, we drew and fully repaid \$34.8 million on this previous Credit Agreement. The New Credit Agreement provides for a senior secured revolving credit facility in an initial aggregate principal amount of up to \$200 million (the "ABL Facility"). The initial aggregate principal amount under the ABL Facility may be increased from time to time by an additional \$100 million to a maximum aggregate principal amount of \$300 million; provided, however, that only four increases are permitted during the life of the loan and, for each increase, certain requirements are satisfied. The Company's obligations under the New Credit Agreement are secured, on a first lien priority basis, by certain working capital assets.

Interest is payable at a rate per annum equal to, at the option of the Company, any of the following, plus, in each case, an applicable margin: (a) a base rate determined by reference to the highest of (1) the federal funds effective rate, plus 0.50%, (2) the base commercial lending rate of PNC Bank, National Association and (3) a daily LIBOR rate, plus 1.00%; or (b) a LIBOR rate determined by reference to the costs of funds for deposits in the relevant currency for the interest period relevant to such borrowing adjusted for certain additional costs. The applicable margin will be 0.25% to 0.75% for borrowings at the base rate and 1.25% to 1.75% for borrowings at the LIBOR rate, in each case, based on the excess availability under the ABL Facility.

The Company will also be required to pay a commitment fee in respect to the unutilized commitments under the ABL Facility in an amount between 0.25% and 0.375%, based on the excess availability for the prior calendar quarter under the ABL Facility. At December 31, 2015, the Company's commitment fee was calculated at a rate of 0.375%.

The terms of the ABL Facility include various covenants, including a covenant that requires the Company to maintain a consolidated fixed charge coverage ratio at any time (a) a specified default occurs or (b) if excess availability falls below certain specified levels. As of December 31, 2015, neither of the events that would require the Company to maintain the fixed charge coverage ratio occurred, and the Company is in compliance with all covenants related to the ABL.

During 2015, the Company drew \$40 million on the ABL Facility. This entire amount was repaid during the year, and no amounts were outstanding on the ABL Facility as of December 31, 2015.

Table of Contents

The issuance of letters of credit under the ABL Facility reduces available borrowings. At December 31, 2015, there were \$0.8 million of letters of credit outstanding. The total draw allowed on the ABL Facility at December 31, 2015, as determined by the working capital assets pledged as collateral, was \$154.5 million. After adjusting for the letters of credit, the Company's remaining availability under the ABL Facility at December 31, 2015 was \$153.7 million.

The Company incurred issuance costs of \$3.1 million related to the ABL Facility. These issuance costs are being amortized to interest expense using the effective interest method over the 5 year life of the ABL Facility. From the date it entered into the ABL Facility through December 31, 2015, the Company has recorded \$0.4 million of interest expense related to ABL Facility issuance costs. As there is no outstanding draw on the ABL Facility at December 31, 2015, the unamortized issuance costs are presented as a deferred asset on the balance sheet.

Convertible Senior Notes

On May 5, 2015, the Company issued \$230 million aggregate principal amount of 2.50% convertible senior notes due 2020 in a registered public offering. The proceeds from the Company's sale of the Notes, net of underwriting discounts and commissions, were \$223.1 million. The Company used all of the net proceeds from the Notes offering (together with proceeds from the sale of common stock and borrowings under the ABL Facility) to finance the acquisition of Command.

The Notes bear interest at a rate of 2.50% per year payable semiannually in arrears in cash on May 1 and November 1 of each year, beginning on November 1, 2015. The Notes will mature on May 1, 2020, unless earlier converted or repurchased in accordance with the terms discussed below. The Notes are the Company's senior unsecured obligations and rank senior in right of payment to any of the Company's indebtedness that is expressly subordinated in right of payment to the Notes; equal in right of payment to any of the Company's unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of the Company's secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities (including trade payables) of the Company's subsidiaries.

The Notes will be convertible, under certain circumstances and during certain periods, into cash, shares of the Company's common stock, or a combination of cash and shares of common stock at the Company's election, at an initial conversion rate of 25.5428 shares of common stock per \$1,000 principal amount of Notes, which is equivalent to an initial conversion price of approximately \$39.15 per share of common stock.

Holders may convert their Notes at their option at any time prior to the close of business on the business day immediately preceding January 1, 2020 only under the following circumstances: (1) during any calendar quarter commencing after the calendar quarter ending on June 30, 2015 (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day; (2) during the five business day period after any five consecutive trading day period (the "measurement period") in which the trading price per \$1,000 principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of the Company's common stock and the conversion rate on each such trading day; (3) if the Company calls the Notes for redemption, at any time prior to the close of business on the business day immediately preceding the redemption date; or (4) upon the occurrence of specified corporate events.

If the Company undergoes a fundamental change, subject to certain conditions, holders of the Notes may require the Company to purchase for cash all or a part of their Notes at a repurchase price equal to 100% of the principal amount of Notes to be repurchased, plus accrued and unpaid interest. In addition, following certain corporate events that occur prior to maturity, the Company may increase the conversion rate for a holder who elects to convert its Notes in

connection with such a corporate event in certain circumstances. In such event, the conversion rate could increase to a maximum of 34.4827 shares of common stock per \$1,000 principal amount of Notes.

On or after January 1, 2020 until the close of business on the business day immediately preceding the maturity date, holders may convert their Notes at any time, regardless of the foregoing circumstances. Upon conversion, the Company will pay or deliver cash, shares of the Company's common stock, or a combination of cash and shares of the Company's common stock, at the Company's election.

The Company's intent and policy will be to settle the \$230 million principal amount of Notes in cash, and any excess conversion premium in shares of common stock. As such, the principal amount of the Notes will not be included in the calculation of diluted net income per share, but any conversion premium that exists will be included in the calculation of diluted net income per share using the treasury stock method. As of December 31, 2015, none of the conditions allowing

Table of Contents

holders of the Notes to convert have been met, and no conversion spread exists. As such, the notes did not have a dilutive impact on diluted net income per share for the year ended December 31, 2015.

The accounting guidance in ASC 470-20, Debt with Conversion and Other Options, requires that the principal amount of the Notes be separated into liability and equity components at issuance. The value assigned to the liability component is the estimated fair value, as of the issuance date, of a similar debt instrument without the conversion feature. The difference between the principal amount of the Notes and the estimated fair value of the liability component, representing the value of the conversion premium assigned to the equity component, is recorded as a debt discount on the issuance date. The fair value of the liability component of the Notes was determined using a discounted cash flow analysis, in which the projected interest and principal payments were discounted back to the issuance date of the Notes at an estimated market yield for a similar debt instrument without the conversion feature. The Company estimated the straight debt yield using a combination of inputs observable in the marketplace, including the credit spread indicated by the terms of the Company's ABL Facility, LIBOR rates, and U.S. Treasury bonds. This represents a Level 2 valuation technique. The Company estimated the straight debt borrowing rates at issuance to be 5.75% for similar debt to the Notes without the conversion feature, which resulted in a fair value of the liability component of \$198.5 million and a fair value of the equity component of \$31.5 million. The fair value of the equity component was recorded as a debt discount, with the offset recorded as a credit to additional paid-in capital within stockholders' equity. The \$31.5 million debt discount and Note issuance costs are being amortized to interest expense under the effective interest method over the 5 year life of the Notes, using an effective interest rate of 6.33%.

The Company allocated the total issuance costs related to the Notes to the liability and equity components based on their relative fair values. Issuance costs attributable to the liability component were recorded on the consolidated balance sheets as a contra-liability that reduces the carrying amount of the convertible note liability. This amount is being amortized to interest expense over the term of the Notes using the effective interest method and an effective interest rate of 6.33%. Issuance costs attributable to the equity component were recorded as a charge to additional paid-in capital within stockholders' equity.

As of December 31, 2015, the carrying amount of the Notes on the balance sheet is \$196.7 million, calculated as follows:

	December 31, 2015
Convertible senior notes, principal amount	\$230,000,000
Unamortized debt discount	(27,835,387)
Unamortized debt issuance costs	(5,505,259)
Convertible senior notes, net	\$196,659,354

The Notes are carried on the balance sheet at their principal amount, net of the unamortized debt discount and unamortized debt issuance costs, and are not marked to market each period. The approximate fair value of the Notes as of December 31, 2015 was \$204.8 million. The fair value of the Notes was estimated based on the trading price of the Notes at December 31, 2015. As trading volume is low, these are quoted prices for identical instruments in markets that are not active, and thus are Level 2 in the fair value hierarchy.

The Company has recognized interest expense related to the Notes of \$8.1 million from the issuance date through December 31, 2015, consisting of \$3.8 million of contractual coupon interest, \$3.6 million of debt discount amortization and \$0.7 million of debt issuance cost amortization.

The undiscounted interest and principal payments due in relation to the Notes from December 31, 2015 to the maturity of the Notes on May 1, 2020 are as follows:

Total	2016	2017	2018	2019	2020
\$255,875,000	5,750,000	5,750,000	5,750,000	5,750,000	\$232,875,000

Senior convertible notes, including
interest

Term Loan Facility

On April 20, 2015, the Company entered into a \$300 million senior secured term loan facility commitment (the "Term Loan Facility") with Morgan Stanley Senior Funding, Inc., PNC Capital Markets LLC, PNC Bank, National Association, Credit Suisse AG and Credit Suisse Securities (USA) LLC. The purpose of the Term Loan Facility was to ensure that the Company had committed funding to consummate the Command acquisition if the Notes and common stock offerings did not raise sufficient cash to fund the acquisition. As the Notes and common stock offerings were successfully completed, the Company

57

Table of Contents

did not draw any amounts on the Term Loan Facility. The Term Loan Facility commitment expired after the successful issuance of the Notes and common stock, and thus the \$2.0 million paid to secure the Term Loan Facility commitment was charged to interest expense in the second quarter of 2015.

10. Commitments and Contingencies

Leases

In April 2007, the Company entered into an operating lease agreement for an office facility, which was amended in 2013. The amended lease agreement expires in November 2020 and has escalating base monthly rental payments, plus an additional monthly payment for real estate taxes and common area maintenance fees related to the building.

During 2015 and 2014, the Company also assumed contractual operating lease obligations through acquisitions, which consisted primarily of building operating leases expiring at various dates through 2020.

The Company recognizes operating lease rental expense on a straight-line basis over the term of the lease. The total rental expense for the years ended December 31, 2015, 2014 and 2013 was \$5,620,731, \$4,361,734 and \$3,821,934, respectively.

Future minimum annual rental payments for the next five years and thereafter are as follows:

	Operating Leases
2016	\$6,551,203
2017	6,238,739
2018	4,923,271
2019	4,103,449
2020	3,626,337
Thereafter	1,199,501
	\$26,642,500

11. Income Taxes

The Company accounts for income taxes and related uncertain tax positions in accordance with ASC Topic 740. For the years ended December 31, 2015 and 2014, the Company recognized a net decrease and increase of \$112,599 and \$182,385, respectively, in unrecognized tax benefits. The Company's policy is to recognize interest and penalties on unrecognized tax benefits as a component of income tax expense. The Company has recorded interest on its unrecognized tax benefits in 2015 and 2014. The following is a reconciliation of the total amounts of unrecognized tax benefits excluding interest and penalties for the years ended December 31, 2015 and 2014:

	2015	2014
Balance at January 1	\$595,938	\$337,983
Gross (decrease)/increase — current period tax positions	(175,029) 257,955
Balance at December 31	\$420,909	\$595,938

The Company does not believe it will have any significant changes in the amount of unrecognized tax benefits in the next 12 months. The total amount of the unrecognized tax benefits, if recognized, for the years ended December 31, 2015 and 2014, respectively, would affect the effective tax rate. The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal examinations by tax authorities for years before 2009, and state and local income tax examinations, by tax authorities for years before 2009.

The provision for income taxes consists of the following components for the years ended December 31, 2015, 2014 and 2013:

	2015	2014	2013
Current:			
Federal	\$3,889,649	\$8,326,480	\$6,928,141
State	(202,270) 1,435,511	1,084,663
Total current	3,687,379	9,761,991	8,012,804
Deferred:			
Federal	(23,265) 560,345	404,395
State	18,143	169,255	228,289
Total deferred	(5,122) 729,600	632,684
Income tax expense	\$3,682,257	\$10,491,591	\$8,645,488

The provision for income taxes for the years ended December 31, 2015, 2014 and 2013 differs from the amount computed by applying the U.S. federal income tax rate of 35% to pretax income because of the effect of the following items:

	2015	2014	2013
Tax expense at U.S. federal income tax rate	\$4,034,776	\$9,547,702	\$7,996,836
State income taxes, net of federal income tax effect	36,308	951,284	751,257
Nondeductible expenses and other	119,705	176,878	71,282
Effect of state rate change on deferred items	(25,338) 8,402	18,570
Research and development credit	(364,050) (360,584) (449,679
Changes in unrecognized tax benefits	(112,599) 182,385	166,432
Provision to return adjustments	(6,545) (14,476) 90,790
	\$3,682,257	\$10,491,591	\$8,645,488

As discussed in Footnote 3 (New Accounting Pronouncements), the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes ("ASU 2015-17") in November 2015. This guidance requires companies to classify all deferred tax assets and liabilities as noncurrent on the balance sheet, instead of separating deferred taxes into current and noncurrent amounts. The Company is applying the new guidance on a prospective basis. As such, prior periods are not retrospectively adjusted.

At December 31, 2015, the Company's noncurrent deferred tax assets and liabilities, after applying the new guidance, consisted of the following:

	2015
Noncurrent deferred tax assets:	
Reserves and allowances	\$2,142,123
Stock options	6,063,284
Total noncurrent deferred tax assets	8,205,407
Noncurrent deferred tax liabilities:	
Prepaid and other expenses	1,342,674
Intangible assets	1,631,816
Property and equipment	7,529,641
Convertible debt	10,221,324
Total noncurrent deferred tax liabilities	20,725,455
Net deferred tax liability	\$(12,520,048)

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
 Notes to Consolidated Financial Statements
 Years Ended December 31, 2015, 2014 and 2013

At December 31, 2014, the Company's deferred tax assets and liabilities consisted of the following:

	2014	
Current deferred tax assets:		
Reserves and allowances	\$2,018,366	
Noncurrent deferred tax assets:		
Intangible assets	474,638	
Stock options	2,450,556	
Total noncurrent deferred tax assets	2,925,194	
Total deferred tax assets	4,943,560	
Total current deferred tax liability:		
Prepaid and other expenses	1,023,195	
Noncurrent deferred tax liabilities:		
Property and equipment	6,738,462	
Research and development credit	520,367	
Total noncurrent deferred tax liabilities	7,258,829	
Total deferred tax liabilities	8,282,024	
Net deferred tax liability	\$(3,338,464)

As of December 31, 2015, the Company does not have a net operating loss carryforward.

Table of Contents

12. Stockholders' Equity

Preferred Stock

The Board of Directors has the authority to issue up to 2,500,000 shares of preferred stock in one or more series and to establish the preferred stock's voting powers, preferences and other rights and qualifications without any further vote or action by the stockholders. As of December 31, 2015, there was no preferred stock outstanding.

Treasury Stock

On December 29, 2015, the Board of Directors authorized a repurchase program for up to an aggregate of \$50.0 million of the Company's outstanding common stock and Notes through December 31, 2017. The timing and amount of any repurchases will be determined based on market conditions and other factors, and the program may be discontinued or suspended at any time.

As of December 31, 2015, the Company has repurchased 37,937 shares of common stock at a cost of \$784,829.

13. Earnings Per Share

Basic earnings per common share is calculated by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share is calculated by dividing net income by the weighted average shares outstanding plus share equivalents that would arise from the exercise of share options and the vesting of restricted stock. There were no employee stock options excluded from the calculation of diluted earnings per share for the years ended December 31, 2015, 2014, and 2013. The computation of basic and diluted earnings per common share for the years ended December 31, 2015, 2014 and 2013 are as follows:

	Year Ended December 31,		
	2015	2014	2013
Numerator:			
Net income	\$7,845,674	\$16,787,558	\$14,202,614
Denominator:			
Denominator for basic earnings per share - weighted-average shares	27,473,054	23,044,029	22,860,661
Effect of dilutive securities:			
Employee stock options	636,495	590,312	543,322
Denominator for dilutive earnings per share	28,109,549	23,634,341	23,403,983
Basic net income per common share	\$0.29	\$0.73	\$0.62
Diluted net income per common share	\$0.28	\$0.71	\$0.61

Years Ended December 31, 2015, 2014 and 2013

14. Stock-Based Compensation Plans

In March 2005, the Company adopted the 2005 Stock Option Plan providing for the issuance of stock options of Series A common shares. During the fourth quarter of 2009, the Company adopted the 2008 Stock Incentive Plan ("the 2008 Plan"). Upon adoption, the 2005 Stock Option Plan was merged into the 2008 Plan and ceased to separately exist. Outstanding awards under the 2005 Stock Option Plan are now subject to the 2008 Plan and no additional awards may be made under the 2005 Stock Option Plan on or after the effective date of the 2008 Plan. A total of 1,400,000 shares of common stock have been reserved for issuance under the 2008 Plan. The 2008 Plan is administered by the Board of Directors who determine the type of award, exercise price of options, the number of options to be issued, and the vesting period. As specified in the 2008 Plan, the exercise price per share shall not be less than the fair market value on the effective date of grant. Upon exercise of a stock option under the 2008 Plan, new stock is issued. The term of an option does not exceed 10 years, and the options generally vest ratably over one to five years from the date of grant. Under the 2008 Plan, two types of stock incentives have been issued: stock option awards and restricted stock awards.

In 2015, the Company awarded 677,091 shares of restricted stock to certain employees and directors, of which 355,532 will vest ratably over one year, 12,631 will vest ratably over two years, 2,144 will vest ratably over 2.5 years, 102,523 will vest ratably over three years and 204,261 will vest ratably over 4 years based on the employees' continued employment. The grant date fair value of the restricted stock granted ranged from \$21.50 to \$32.52.

In 2014, the Company awarded 184,157 shares of restricted stock to certain employees and directors, of which 10,312 will vest ratably over 2.5 years and 173,845 will vest ratably over 4 years based on the employees' continued employment. The grant date fair value of the restricted stock granted ranged from \$16.10 to \$27.48.

There was \$17,729,906 and \$8,068,512 of total unrecognized compensation cost related to the stock-based compensation granted under the plans as of December 31, 2015 and 2014, respectively. This cost is expected to be recognized over a weighted-average period of 2.96 years.

In June 2015, the Company adopted the 2015 Inducement and Retention Stock Plan for Command Employees, providing for the issuance of 335,882 shares of restricted common stock of the Company to 33 employees of Command and 100,766 shares of restricted common stock and 67,178 shares of performance stock to two of the sellers who entered into new employment agreements with the Company, each as employment inducement awards pursuant to NASDAQ Listing Rule 5635(c)(4). These restricted stock grants are included in the 677,091 shares of restricted stock mentioned above.

Stock Option Awards

There were no stock options granted during 2015 and 2014. The Company's 2013 stock option grant and all previous stock option grants were valued using the Black-Scholes-Merton option valuation model. The Company recorded \$226,050, \$479,921 and \$664,909 in compensation expense with corresponding tax benefits of \$88,160, \$187,169 and \$259,314 for stock option awards for the years ended December 31, 2015, 2014 and 2013, respectively.

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Years Ended December 31, 2015, 2014 and 2013

A summary of stock option activity is as follows:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2013	1,244,876	\$9.01	6.0	\$11,145,479
Granted	3,000	17.94		
Exercised	(112,990)) 10.00		1,296,867
Forfeited or canceled	(35,660)) 11.99		
Outstanding at December 31, 2013	1,099,226	\$8.83	5.0	\$13,899,986
Granted	—	—		
Exercised	(173,727)) 6.20		3,995,095
Forfeited or canceled	(3,610)) 12.20		
Outstanding at December 31, 2014	921,889	\$9.32	4.2	\$18,329,554
Granted	—	—		
Exercised	(150,701)) 7.02		2,014,921
Forfeited or canceled	(1,660)) 12.01		
Outstanding at December 31, 2015	769,528	\$9.76	3.36	\$8,178,882
Options vested and exercisable at December 31, 2015	747,478	\$9.69	3.31	\$7,997,359

The following table provides information about stock options granted and vested in the years ended December 31:

	2015	2014	2013
Options granted:			
Exercise price per share of options granted	—	—	\$17.94
Options vested/exercisable:			
Grant date fair value of options vested	\$2,950,446	\$3,250,365	\$3,059,084
Aggregate intrinsic value of options vested and exercisable at end of period	\$7,997,359	\$17,827,707	\$12,640,576

The aggregate intrinsic value of options outstanding represents the total pretax intrinsic value (the difference between the fair value of the Company's stock on the last day of each fiscal year and the exercise price, multiplied by the number of options where the exercise price exceeds the fair value) that would have been received by the option holders had all option holders exercised their options as of December 31, 2015, 2014 and 2013, respectively. These amounts change based on the fair market value of the Company's stock, which was \$20.39, \$29.20 and \$21.48 on the last business day of the years ended December 31, 2015, 2014 and 2013, respectively. The weighted-average grant-date fair market value for 2013 option grants was \$6.29.

Restricted Stock Awards

In 2015, the Company awarded restricted shares to certain key employees that vest based on their continued employment. The value of these awards was established by the market price on the grant date and is being expensed ratably over the vesting period of the awards. The following table summarizes these non-vested restricted share grants as of December 31, 2015:

	Number of Restricted Shares	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2014	563,695	\$17.73
Granted	677,091	30.80

Edgar Filing: Echo Global Logistics, Inc. - Form 10-K

Vested	(209,510) 17.49
Forfeitures	(80,490) 19.97
Non-vested at December 31, 2015	950,786	\$ 26.90

63

Table of Contents

Echo Global Logistics, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Years Ended December 31, 2015, 2014 and 2013

In 2015, 2014 and 2013, the Company recorded \$11,821,382, \$3,520,439 and \$2,673,769 in compensation expense with corresponding tax benefits of \$4,610,339, \$1,372,971 and \$1,042,770 for restricted stock awards, respectively.

Performance Based Shares

In 2015, the Company granted 67,178 shares of performance stock at a grant date fair value of \$32.52 to two of the sellers of Command, who entered into new employment agreements with the Company. In accordance with ASC 718-10-20 Compensation - Stock Compensation, the Company evaluated whether the shares would be earned at December 31, 2015. The Company does expect the financial targets, which need to be achieved in order for the shares to vest, to be met. As a result, the Company recognized \$424,789 in stock compensation expense with corresponding tax benefits of \$165,668 for the year ended December 31, 2015.

The Company granted 34,328 shares of performance stock to key executives during the year ended December 31, 2013. In accordance with ASC 718-10-20 Compensation - Stock Compensation, the Company evaluated whether the shares would be earned at December 31, 2015 and December 31, 2014. The Company does not expect the financial targets, which need to be achieved in order for the shares to vest, to be met. As a result, none of the performance based shares will be earned and there was no expense recognized for the years ended December 31, 2015 and December 31, 2014.

Performance and Market-Based Stock

In 2014, the Company initiated a performance and market-based stock incentive plan for certain executives that provides vesting based on specific financial and market-based performance measurements. The Company granted 69,213 and 43,437 shares of performance and market-based stock at a grant date fair value of \$32.84 and \$23.74 during the years ended December 31, 2015 and December 31, 2014, respectively.

The Company recorded \$1,380,449 and \$405,066 in compensation expense with corresponding tax benefits of \$538,375 and \$157,976 in 2015 and 2014, respectively.

15. Benefit Plans

The Company adopted a 401(k) savings plan effective September 1, 2005, covering all of the Company's employees upon hiring date. Employees may contribute a percentage of eligible compensation on both a before-tax basis and an after-tax basis. The Company has the right to make discretionary contributions to the plan. For the years ended December 31, 2015, 2014 and 2013, the Company contributed \$1,182,094, \$564,407 and \$320,775, respectively.

16. Significant Customer Concentration

For the years ended December 31, 2015, 2014 and 2013, all revenue consisted of sales generated from customers that were individually less than 10% of the Company's total revenue.

Basic	\$0.11	\$0.18	\$0.24	\$0.20
Diluted	\$0.10	\$0.18	\$0.23	\$0.20

(1) The Company acquired Xpress in February 2015 and the financial results of this acquisition are included in the consolidated financial statements beginning February 1, 2015.

(2) The Company acquired Command in June 2015 and the financial results of this acquisition are included in the consolidated financial statements beginning June 1, 2015.

(3) The Company acquired OFS in January 2014 and Comcar in February 2014. The financial results of these acquisition are included in the consolidated financial statements beginning on their respective acquisition dates.

(4) The Company acquired One Stop in May 2014 and the financial results of this acquisition are included in the consolidated financial statements beginning May 12, 2014.

18. Legal Matters

In the normal course of business, the Company is subject to potential claims and disputes related to its business, including claims for freight lost or damaged in transit. Some of these matters may be covered by the Company's insurance and risk management programs or may result in claims or adjustments with the Company's carriers.

In August 2012, the Company discovered that the revenue and profitability of Shipper Direct Logistics, Inc. ("Shipper Direct"), a truckload transportation brokerage acquired by the Company in July 2012, were not as expected based on representations contained in the Asset Purchase Agreement. In January 2013, the Company filed a lawsuit against Shipper Direct and its founders in Illinois federal court alleging, among other things, breach of contract and fraud. In November 2014, the Company obtained a judgment against Shipper Direct and its founders for \$3,013,831 in compensatory damages and \$2,044,420 in punitive damages. The Company has not received the awarded damages and has not recorded a gain related to this ruling as of December 31, 2015.

Management does not believe that the outcome of any of the legal proceedings to which the Company is a party will have a material adverse effect on its financial position or results of operations.

Echo Global Logistics, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
Years Ended December 31, 2015, 2014 and 2013

19. Common Stock Offering

On May 5, 2015, the Company sold 5,000,000 shares of the Company's common stock in an underwritten registered public offering at a price of \$29.00 per share. On May 12, 2015, the Company sold an additional 750,000 shares of common stock at a price of \$29.00 per share pursuant to an over-allotment option exercised by the underwriters in the common stock offering. The net proceeds from the sale of common stock, after deducting underwriting discounts and commissions and offering expenses payable by the Company, was \$157.8 million. The Company used all of the net proceeds from the sale of common stock (together with proceeds from the Notes offering and borrowings under the ABL Facility) to finance the Command acquisition.

20. Related Parties

As of the closing of the Command acquisition on June 1, 2015, the Company leases the Command office building headquarters in Skokie, Illinois from a company owned by Paul Loeb, the former owner of Command who joined the Echo Board of Directors in June 2015. The lease requires monthly rental payments of \$54,638 for the duration of the lease, which ends on December 31, 2018. The Company is obligated to pay real estate taxes, insurance, and all building maintenance costs in addition to the minimum rental payments for the facility related to this lease. The total rental expense related to this lease included in the Company's statements of operations from the acquisition date through December 31, 2015 was \$382,466. All amounts due under the lease were paid as of December 31, 2015, and thus there was no liability due to the related party at December 31, 2015.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2015. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of December 31, 2015, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

Internal Control over Financial Reporting

We acquired Command Transportation ("Command") on June 1, 2015. Management did not include Command in its annual evaluation of internal control over financial reporting as of December 31, 2015. We will incorporate Command into our annual evaluation of internal control over financial reporting for the year ending December 31, 2016. Command constituted 57% of Echo's total assets as of December 31, 2015, including the goodwill and intangible assets recorded as part of the purchase accounting, and 19% and 14% of Echo's revenue and net income, respectively,

for the year then ended.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Our internal control system was designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the consolidated financial statements for external purposes in accordance with generally accepted accounting principles. Based on its evaluation, management concluded that our internal controls over financial reporting were effective as of December 31, 2015. As required under this Item 9A, the management's report titled "Management's Assessment of Internal Control Over Financial Reporting" is set forth in "Item 8 - Financial Statements and Supplementary Data" and is incorporated herein by reference.

Table of Contents

Attestation Report of the Registered Public Accounting Firm

As required under this Item 9A, the auditor's attestation report titled "Report of Independent Registered Public Accounting Firm" is set forth in "Item 8 - Financial Statements and Supplementary Data" and is incorporated herein by reference.

Changes in Internal Control Over Financial Reporting

With the exception of the Command acquisition, there have been no changes in our internal control over financial reporting during the quarterly period ended December 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part III

Item 10. Directors, Executive Officers and Corporate Governance

Certain information required by this Item 10 relating to our directors and executive officers is incorporated by reference herein from our 2016 proxy statement to be filed with the SEC not later than 120 days after the close of our fiscal year ended December 31, 2015 or an amendment to this Form 10-K filed within such 120-day period.

We have adopted a code of ethics, which is posted in the Investor section on our website at <http://www.echo.com>. We intend to include on our website any amendments to, or waivers from, a provision of the code of ethics that applies to our principal executive officer, principal financial officer, or controller that relates to any element of the code of ethics definition contained in Item 406(b) of SEC Regulation S-K.

Item 11. Executive Compensation

Certain information required by this Item 11 relating to remuneration of directors and executive officers and other transactions involving management is incorporated by reference herein from our 2016 proxy statement to be filed with the SEC not later than 120 days after the close of our fiscal year ended December 31, 2015 or an amendment to this Form 10-K filed within such 120-day period.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Certain information required by this Item 12 relating to security ownership of certain beneficial owners and management is incorporated by reference herein from our 2016 proxy statement to be filed with the SEC not later than 120 days after the close of our fiscal year ended December 31, 2015 or an amendment to this Form 10-K filed within such 120-day period.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Certain information required by this Item 13 relating to certain relationships and related transactions and director independence is incorporated by reference herein from our 2016 proxy statement to be filed with the SEC not later than 120 days after the close of our fiscal year ended December 31, 2015 or an amendment to this Form 10-K filed within such 120-day period.

Item 14. Principal Accounting Fees and Services

Certain information required by this Item 14 regarding principal accounting fees and services is incorporated by reference herein from the section entitled "Matters Concerning Our Independent Registered Public Accounting Firm" in our 2016 proxy statement to be filed with the SEC not later than 120 days after the close of our fiscal year ended December 31, 2015 or an amendment to this Form 10-K filed within such 120-day period.

PART IV. OTHER INFORMATION

Item 15. Exhibits, Financial Statement Schedules

(a)(1) Financial Statements: Reference is made to the Index to Financial Statements and Notes to Consolidated Financial Statements in the section entitled "Financial Statements and Supplementary Data" in Part II, Item 8 of this Annual Report on Form 10-K.

(2) Financial Statement Schedule: The financial statement schedule required by this item is listed below and included in this report. Schedules not listed are omitted because they are not required or because the required information is given in the consolidated financial statements or notes thereto.

Schedule II - Valuation and Qualifying Accounts for the years ended December 31, 2015, 2014 and 2013.

(3) Exhibits: Exhibits are as set forth in the section entitled "Exhibit Index" which follows the section entitled "Signatures" in this Annual Report on Form 10-K. Certain of the exhibits listed in the Exhibit Index have been previously filed with the Securities and Exchange Commission pursuant to the requirements of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended. Such exhibits are identified by the parenthetical references following the listing of each such exhibit and are incorporated by reference.

Exhibits which are incorporated herein by reference can be inspected and copied at the public reference rooms maintained by the SEC in Washington, D.C., New York, New York, and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information on the public reference rooms. SEC filings are also available to the public from commercial document retrieval services and at the Web site maintained by the SEC at <http://www.sec.gov>.
