NATIONAL BEVERAGE CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

National Beverage Corp. develops, manufactures, markets and distributes a complete portfolio of multi-flavored soft drinks, juice drinks, water and specialty beverages. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. When used in this report, the terms “we,” “us,” “our,” “Company” and “National Beverage” mean National Beverage Corp. and its subsidiaries.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and rules and regulations of the Securities and Exchange Commission for interim financial information. The financial statements do not include all information and notes required by GAAP for complete financial statements. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Results for the interim periods presented are not necessarily indicative of results which might be expected for the entire fiscal year.

These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended April 30, 2011.

Derivative Financial Instruments

We use derivative financial instruments to partially mitigate our exposure to changes in raw material costs. All derivative financial instruments are recorded at fair value in our Condensed Consolidated Balance Sheets. The estimated fair value of derivative financial instruments is calculated based on market rates to settle the instruments. We do not use derivative financial instruments for trading or speculative purposes. See Note 5.

Inventories

Inventories are stated at the lower of first-in, first-out cost or market. Inventories at January 28, 2012 are comprised of finished goods of \$21,827,000 and raw materials of \$16,331,000. Inventories at April 30, 2011 are comprised of finished goods of \$20,215,000 and raw materials of \$13,138,000.

2. PROPERTY, PLANT AND EQUIPMENT

Property consists of the following:

	(In thousands)	
	January 28, 2012	April 30, 2011
Land	\$ 9,779	\$ 9,779
Buildings and improvements	47,587	47,374
Machinery and equipment	137,891	132,709
Total	195,257	189,862
Less accumulated depreciation	(140,164)	(134,525)
Property – net	\$ 55,093	\$ 55,337

Depreciation expense was \$2,064,000 and \$6,399,000 for the three-month and nine-month periods ended January 28, 2012, respectively, and \$2,430,000 and \$7,552,000 for the three-month and nine-month periods ended January 29, 2011, respectively.

3. DEBT

At January 28, 2012, a subsidiary of the Company maintained unsecured revolving credit facilities with banks aggregating \$75,000,000 (the "Credit Facilities"). The Credit Facilities expire through July 8, 2013 and, currently, any borrowings would bear interest at .3% to .9% above LIBOR or, at our election, .5% below the banks' reference rate. At January 28, 2012, \$2,639,000 of the Credit Facilities was used for standby letters of credit and \$72,361,000 was available for borrowings.

The Credit Facilities require the subsidiary to maintain certain financial ratios, principally debt to net worth and debt to EBITDA (as defined in the loan agreements), and contain other restrictions, none of which are expected to have a material effect on our operations or financial position. At January 28, 2012, we were in compliance with all loan covenants and approximately \$1,320,000 of retained earnings was restricted from distribution.

4. STOCK-BASED COMPENSATION

During the nine months ended January 28, 2012, options to purchase 3,000 shares of common stock were granted (weighted average exercise price of \$6.14 per share), options to purchase 48,100 shares were exercised (weighted average exercise price of \$2.08 per share), and options to purchase 12,660 shares were cancelled (weighted average exercise price of \$9.34 per share). At January 28, 2012, options to purchase 543,860 shares (weighted average exercise price of \$7.30 per share) were outstanding and stock-based awards to purchase 2,960,944 shares of common stock were available for grant.

5. DERIVATIVE FINANCIAL INSTRUMENTS

We have entered into aluminum swap contracts to partially mitigate our exposure to changes in the cost of aluminum cans through April 2013. The financial instruments are designated and accounted for as a cash flow hedge. Accordingly, gains or losses attributable to the effective portion of the cash flow hedge are reported in Accumulated Other Comprehensive Income ("AOCI") and reclassified into earnings through cost of sales in the period in which the hedged transaction affects earnings. The ineffective portion of the change in fair value of our cash flow hedge was immaterial. The following summarizes the gains (losses) recognized in AOCI and the Condensed Consolidated Statements of Income relative to the cash flow hedge for the third quarter and nine months ended January 28, 2012 and January 29, 2011:

	(In thousands)			
	Third Quarter Ended		Nine Months Ended	
	2012	2011	2012	2011
Recognized in AOCI:				
Gain (loss) before income taxes	\$697	\$1,627	\$(3,239)	\$2,059
Less income tax provision (benefit)	265	579	(1,169)	733
Net	\$432	\$1,048	\$(2,070)	\$1,326
Reclassified from AOCI to cost of sales:				
Gain (loss) before income taxes	\$(711)	\$133	\$1,008	\$(1,260)
Less income tax provision (benefit)	(270)	47	342	(449)
Net	\$(441)	\$86	\$666	\$(811)
Net change to AOCI	\$873	\$962	\$(2,736)	\$2,137

As of January 28, 2012, the notional amount of our outstanding aluminum swap contracts was \$23,417,000 and, assuming no change in the commodity prices, \$304,000 of unrealized net loss (before tax) will be reclassified from AOCI and recognized in earnings over the next twelve months. See Notes 1 and 6.

As of January 28, 2012 and April 30, 2011, the fair value of the derivative asset was \$24,000 and \$4,271,000, respectively, which was included in Prepaid and other assets. Such valuation does not entail a significant amount of judgment and the inputs that are significant to the fair value measurement are Level 2 in the fair value hierarchy as they are observable market based inputs or unobservable inputs that are corroborated by market data.

6. COMPREHENSIVE INCOME

Comprehensive income for the third quarter and nine months ended January 28, 2012 and January 29, 2011 was comprised of net income and changes in the fair value of our cash flow hedges (see Note 5 above) as follows:

	(In thousands)			
	Third Quarter Ended		Nine Months Ended	
	2012	2011	2012	2011
Net income	\$ 7,904	\$ 7,407	\$ 32,462	\$ 29,667
Cash flow hedges, net of tax	873	962	(2,736)	2,137
Comprehensive income	\$ 8,777	\$ 8,369	\$ 29,726	\$ 31,804

7. CASH DIVIDEND

On February 14, 2011, the Company paid a special cash dividend of \$2.30 per share, aggregating \$106,314,000, to shareholders of record on December 16, 2010.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

National Beverage Corp. develops, manufactures, markets and distributes a complete portfolio of quality beverage products primarily in North America. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. In this report, the terms “we,” “us,” “our,” “Company” and “National Beverage” mean National Beverage Corp. and its subsidiaries.

We consider ourselves to be a leader in the development and sale of flavored beverage products in the United States, offering a wide selection of flavored soft drinks, juices, sparkling waters, energy drinks and nutritionally-enhanced waters. Our flavor development spans over 100 years originating with our flagship brands, Shasta® and Faygo®, each of which has over 50 flavor varieties. We also offer the health-conscious consumer a diverse line of flavored beverage products, including Everfresh®, Home Juice®, and Mr. Pure® 100% juice and juice-based products; LaCroix®, Crystal Bay® and ClearFruit® flavored, sparkling, and spring water products; and ÀSanté® nutritionally-enhanced waters. In addition, we produce and market Rip It® energy drinks, Ohana® fruit-flavored drinks and St. Nick's® holiday soft drinks. We refer to energy drinks, waters and juices as our “premium brands”. Substantially all of our brands are produced in twelve manufacturing facilities that are strategically located near major metropolitan markets throughout the continental United States. To a lesser extent, we develop and produce soft drinks for certain retailers and beverage companies (“allied brands”).

Our strategy promotes the growth of our products by (i) offering a branded beverage portfolio of proprietary flavors with distinctive packaging and broad demographic appeal, (ii) supporting the franchise value of regional brands, (iii) developing and acquiring innovative products tailored toward healthy lifestyles, and (iv) appealing to the “quality-value” expectations of the family consumer. We believe the “regional share dynamics” of our brands results in more retailer sponsored promotional activities which perpetuate consumer loyalty within local markets.

We continue to focus on increasing penetration of our brands in the convenience channel through Company-owned and independent distributors to benefit from the higher retail prices and margins that typically prevail in this market. The convenience channel consists of convenience stores, gas stations and other smaller “up-and-down-the-street” accounts. We have undertaken several measures to expand convenience channel distribution including developing new products and packaging specifically targeted for this market.

The majority of our sales are seasonal with the highest volume typically realized during the summer months. As a result, our operating results from one fiscal quarter to the next may not be comparable. Additionally, our operating results are subject to numerous factors, including fluctuations in the costs of raw materials, changes in consumer preference for beverage products and competitive pricing in the marketplace.

RESULTS OF OPERATIONS

Three Months Ended January 28, 2012 (third quarter of fiscal 2012) compared to
Three Months Ended January 29, 2011 (third quarter of fiscal 2011)

Net sales for the third quarter of fiscal 2012 increased 3.4% to \$136,401,000 compared to \$131,926,000 for the third quarter of fiscal 2011. The sales improvement is due to case volume growth of 6.1% for our premium brands and 5.1% for carbonated soft drinks. The sales improvement was partially offset by a 1.8% decline in unit pricing due primarily to product mix changes.

Gross profit approximated 33.2% of net sales for the third quarter of fiscal 2012 compared to 37.5% of net sales for the third quarter of fiscal 2011. The gross profit decline was due primarily to higher raw material costs and product mix changes. Cost of sales increased 5.0% on a per unit basis.

Selling, general & administrative expenses were \$33,415,000 or 24.5% of net sales for the third quarter of fiscal 2012 compared to \$38,013,000 or 28.8% of net sales for the third quarter of fiscal 2011. The decrease in expenses was due to lower marketing and administrative expenses.

Other income includes interest income of \$18,000 for the third quarter of fiscal 2012 and \$39,000 for the third quarter of fiscal 2011.

The Company's effective income tax rate, based upon estimated annual income tax rates, was 32.9% for the third quarter of fiscal 2012 and 35.6% for the third quarter of fiscal 2011. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effect of state income taxes and the manufacturing deduction.

Nine Months Ended January 28, 2012 (first nine months of fiscal 2012) compared to
Nine Months Ended January 29, 2011 (first nine months of fiscal 2011)

Net sales for the first nine months of fiscal 2012 increased 3.4% to \$463,455,000 compared to \$448,083,000 for the first nine months of fiscal 2011. The sales improvement is due to case volume growth of 9.3% for our premium brand portfolio and a 2.5% increase in unit pricing. The higher unit pricing is due to product mix changes and price increases implemented to mitigate higher raw material costs. The sales improvement was partially offset by a 1.7% decline in carbonated soft drink volume.

Gross profit approximated 34.6% of net sales for the first nine months of fiscal 2012 compared to 36.7% of net sales for the first nine months of fiscal 2011. The gross profit decline was due primarily to higher raw material costs partially offset by higher unit pricing. Cost of sales increased 5.8% on a per unit basis.

Selling, general & administrative expenses were \$110,686,000 or 23.9% of net sales for the first nine months of fiscal 2012 compared to \$118,252,000 or 26.4% of net sales for the first nine months of fiscal 2011. The decrease in expenses was due to lower marketing and administrative expenses.

Other income includes interest income of \$41,000 for the first nine months of fiscal 2012 and \$120,000 for the first nine months of fiscal 2011.

The Company's effective income tax rate, based upon estimated annual income tax rates, was 34.5% for the first nine months of fiscal 2012 and 35.6% for the first nine months of fiscal 2011. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effect of state income taxes and the manufacturing deduction.

LIQUIDITY AND FINANCIAL CONDITION

Liquidity and Capital Resources

Our principal source of funds is cash generated from operations, which may be supplemented by borrowings available under our credit facilities. We maintain unsecured revolving credit facilities aggregating \$75,000,000, of which \$2,639,000 was used for standby letters of credit at January 28, 2012. We believe that existing capital resources will be sufficient to meet our liquidity and capital requirements for the foreseeable future.

Cash Flows

The Company's cash position for the first nine months of fiscal 2012 increased \$12,589,000 to \$19,961,000 at January 28, 2012.

Net cash provided by operating activities for the first nine months of fiscal 2012 amounted to \$18,501,000 compared to \$36,343,000 for the similar 2011 fiscal period. For the first nine months of fiscal 2012, cash flow was principally generated by net income of \$32,462,000 and depreciation and amortization of \$7,963,000. Net cash was also impacted by a decrease in trade receivables of \$5,726,000, an increase in inventory of \$4,805,000 and a decrease in accounts payable of \$12,346,000.

Net cash used in investing activities for the first nine months of fiscal 2012, principally capital expenditures, amounted to \$6,143,000 compared to \$7,475,000 for the similar 2011 fiscal period.

Financial Position

During the first nine months of fiscal 2012, working capital increased \$29,501,000 to \$60,431,000 due to cash generated from operations. Trade receivables and accounts payable decreased due to lower seasonal volume. Inventories increased partially due to higher raw material costs while prepaid and other assets decreased due to a decline in derivative assets. The current ratio was 2.1 to 1 at January 28, 2012 and 1.4 to 1 at April 30, 2011.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risks from those reported in our Annual Report on Form 10-K for the fiscal year ended April 30, 2011.

ITEM 4. CONTROLS AND PROCEDURES
