**Not Applicable**

**(Former name, former address and former fiscal year, if changed since last report)**

Securities registered pursuant to Section 12(b) of the Act: None

Securities registered pursuant to Section 12(g) of the Act: Common Stock, par value \$0.001

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act.

Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Edgar Filing: ANV SECURITY GROUP INC. - Form 10-K

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (s 229.405) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company filer. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated Filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes  No

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant as of December 31, 2011: \$2,214,547

The number of shares of the registrant's common stock outstanding as of December 31, 2011: 74,130,071.

## **FORWARD-LOOKING STATEMENTS**

### **CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS**

There are statements in this report that are not historical facts. These forward-looking statements can be identified by use of terminologies such as believe, hope, may, anticipate, should, intend, plan, will, expect, estimate, project, positioned, strategy and similar expressions. You should be aware that these forward-looking statements are subject to risks and uncertainties that are beyond our control. For a discussion of these risks, you should read this entire Report carefully, especially the risks discussed under Risk Factors. Although management believes that the assumptions underlying the forward looking statements included in this Report are reasonable, they do not guarantee our future performance, and actual results could differ from those contemplated by these forward looking statements. The assumptions used for purposes of the forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. To the extent that the assumed events do not occur, the outcome may vary substantially from anticipated or projected results, and, accordingly, no opinion is expressed on the achievability of those forward-looking statements. In the light of these risks and uncertainties, there can be no assurance that the results and events contemplated by the forward-looking statements contained in this Report will in fact transpire. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. We do not undertake any obligation to update or revise any forward-looking statements.

## **PART I**

References to us , we and our in this report refer to ANV Security Group, Inc together with our subsidiaries.

### **ITEM 1. BUSINESS**

#### **General Development of Business**

#### **Overview of Our Business**

ANV Security Group, Inc. and its subsidiaries (the Company or ANVS ) is specialized in new product research & development, software solutions, technologies for network video surveillance and video alarm service platforms. ANVS has developed products of IP camera and digital video server ( DVS ), as well as NVR, DVR, CCTV camera,

etc. It has also developed the first automatic video alarm platform in the world: [www.usci8.com](http://www.usci8.com). A patent for this platform was officially approved by the US Patent and Trademark Office ( USPT ) on October 22, 2009 with patent number US2009/0265747A1. This platform performs instant notification to the owner via SMS, e-mail, telephone or cellular phone when an alarm is triggered worldwide in any time zone and captures the event images in user accessible video surveillance servers.

In 2010, our business experienced an exceptional growth through a series of acquisitions in China and was successfully transformed from a start-up company into a leading video surveillance system and solution provider. We are primarily engaged, through our Chinese subsidiaries, in the developing, manufacturing and marketing of video surveillance products, systems and solutions.

In 2011 the majority of our revenues were derived from the provision of advanced IP based video surveillance solutions to a wide range of customers worldwide. Our sales network was expanded significantly in 2010. Our channel partner network enables our product to be distributed to over 50 countries worldwide. Our subsidiaries in China collectively have more than 13 branch offices and cover most of China's populated areas.

The size of our company expanded with more than 300 staff, 3 R&D centers and about 8000 square meter manufacturing base.

On February 10, 2011, our Board of Directors passed a resolution to change our fiscal year-end from March 31 to December 31. This decision to change to December 31 fiscal year-end is to align the Company with the fiscal year-ends of its principal operating subsidiaries.

Our revenue has experienced a dramatic increase in the past two years. For the fiscal year ended March 31, 2010, our revenue was \$0.02 million while for the nine-month period ended December 31, 2010, our revenue reached \$7.16 million. For the year ended December 31, 2011, our revenue increased to \$26.84 million. The primary reason for this dramatic increase was the various acquisitions effected by the Company in 2010 and 2011.

We strive to provide customer-driven, leading-edge solutions to our customers and actively pursue acquisition prospects and other strategic opportunities.

### **Organizational History**

We were originally called B.G.S. Energy, Inc. and were incorporated under the laws of the State of Nevada on May 29, 1981. We were organized to engage in, alone or in conjunction with others, the exploration for, and where warranted, the development of oil, gas and mineral properties, the sale of oil, gas and mineral related leases. We became public in 1981 in a best efforts public offering and thereafter operated various oil and gas properties. We owned various oil and gas leases in Utah, Oklahoma, Kentucky, Texas and other states from time to time in the 1980 s. In 1988 we changed our name to Dini Products Inc. and continued our oil and gas operations. Our revenues decreased and in 1992 we became dormant and did not have any operations for many years until we acquired all of the shares of Canada ANV Systems, Inc., a British Columbia corporation ( CANV ) in June 2009 and changed our name to ANV Security Group, Inc. In 2010, we finalized a series of acquisitions of video surveillance companies in China, and our business became the business of our directly and indirectly wholly-owned Chinese subsidiaries. We are currently headquartered in Shenzhen, China.

### **Business Segments**

In fiscal year 2010, we restructured our business into the following segments in order to meet our customers growing demand and to realign management and operation procedures in each segment:

The Product Segment provides design, manufacture and sale of video surveillance products, including CCTV cameras, digital video recorders, network cameras and network video storage equipment (the Product Segment );

The Solution Segment provides design, integration and sale of video surveillance system and software platforms, including mobile video surveillance solutions, video conferencing & surveillance solutions, and all-IP surveillance solutions (the Solution Segment );

The Service Segment provides network based Video-Surveillance-as-a-Service (VSaaS) (the Service Segment );

In 2011, the Product Segment contributes the major portion of our revenue. The Solution Segment and Service Segment are currently in the development stage, and the assets and operating results were not significant in 2011. However, we expect that Solution Segment will play an important role in both revenue generation and brand exposure in next couple of years.

As a pioneer of VSaaS provider in Canada, we will continue to explore and invest into more opportunities in the Service Segment in next few years, especially in China and North America two of the largest surveillance markets in the world.

Overall, with the three combined segments, we are able to provide our customers a one-stop solution and service that is powered by advanced video and network technology, which we believe many of our competitors cannot match.

## **The Video Surveillance Industry in General**

According to markets report in December 2010, the increasing need for security is driving the growth of the global video surveillance market. The video surveillance market is expected to grow from \$11.5 billion in 2008 to \$37.7 billion in 2015 at a CAGR of 20.4% from 2010 to 2015.

Cameras, storage, servers, encoders, and software are the major components of a video surveillance system. The camera accounted for almost 47% of the total video surveillance market in 2008 and is expected to grow at a CAGR of 21.1% from 2010 to 2015. The software market is expected to grow at the fastest rate with a CAGR of 21.7% from 2010 to 2015 owing to the introduction of video analytics which makes the video surveillance system intelligent. The players of video surveillance market have together introduced the concept of cloud computing in this market. Video surveillance is starting to be offered as a service to the end users. The desired location is monitored with the help of cameras and the recordings are stored by the service providers which eliminates the need for storage at each site.

China, one of the fastest growing economies in the world, is one of the largest consumers in the global surveillance market. The Chinese government is the biggest force to fuel the rapid growing of surveillance market in China.

According to the approved The 12<sup>th</sup> Five-Year Development Plan of Surveillance Industry (2011-2015) , the Chinese government is aiming to double the surveillance industry scale (including service segment) in next five years, reaching over \$80 billion in 2015.

Management believes that with the current business strategy and segments in placed in 2011, the Company is well-positioned to participate in these trends.

## **Our Products & Services**

We manufacture key components of video surveillance products, and rely on our own factory to assemble the final products utilizing our technology. All of our final products are fully branded and developed independently. We also design software and manufacture most of our hardware products independently. Our main products include embedded DVRs, mobile DVRs, CCTV cameras, and network cameras.

### 1.

#### Embedded DVRs

Our embedded DVR provides recording and compression functions. It has a pre-installed surveillance software system developed by us, upgradable hard drive, network server function, H.264 video compression, 4-36 signal input channels, and uses Microsoft's Windows operating system. As compared to our stand-alone DVR, the embedded DVR has higher capacity to accommodate the recording functions for a greater number of cameras. The primary markets for these products are large projects and community security projects.

2.

#### Mobile DVRs

Our mobile DVR is smaller in size and has a maximum of 4 ports. The mobile DVR can be installed in a vehicle and enables recording of digital video images within the vehicle's cabin. This product is easily installable, supports Global Positioning System/General Packet Radio Service, has 1 to 4 signal input channels, and has H.264 video compression. It can also be equipped with wireless transmission module (Wi-Fi/3G module), which allows the control center to supervise or monitor each vehicle remotely. The primary markets for this product are the transportation industry and governmental agencies.

3.

#### Digital Cameras

Digital cameras can be easily installed in most locations on a customer's site. The range of cameras that we produce and sell includes high-speed dome cameras, which can view 360 degrees, pan, zoom, and tilt, all at high speed. They include color Charge Coupled Device (CCD) cameras, indoor color CCD dome cameras, color/black and white CCD flying saucer cameras, infrared CCD multi-function cameras, mini-digital signal processing cameras, indoor stand-alone sphere CCD cameras, and network high-speed sphere CCD cameras.

4.

#### Network Cameras

Our network cameras are designed with our central management software through a built-in Web Server that allows users to access surveillance video through local area networks (LAN) or wide area network (WAN). It is equipped with zoom lens, and high-performance digital signal processing (DSP) cameras, embedded platforms, and digital decoder integrated. It is suitable for large businesses, intelligent buildings, banking security, urban roads, airport, and railway stations.

5.

#### Intelligent Central Management Software Platforms

Our intelligent central management software platforms (ICMSP) are used for the management and integration of many kinds of video surveillance and security equipment. It can be modified to meet different customer needs. With combined ICMSP and hardware equipment (e.g. DVR, camera), we can provide complete surveillance and security solutions to different industry segments. We plan to continue to strengthen our software development platform with a more organic combination of hardware and software to achieve greater market success.

#### **Customers**

Our customer base is quite diverse and our revenue does not rely on a single customer or a certain group of customers.

Geographically, China is the most important market for us since about 70 percent of our revenue is generated from this country. Besides China, we have also sold our products to more than 50 countries in the past several years. We are going to further strengthen global sales network through both channel partners and our branch offices and subsidiaries.

Our customers are primarily comprised of (1) governmental entities and their affiliates, such as municipalities, cities, provinces, customs agencies, courts, public security bureaus, and prisons; (2) non-profit organizations, including schools, museums, sports arenas, and libraries; and (3) commercial entities, such as airports, hotels, real estate, banks, mines, railways, supermarkets, and entertainment venues.

### **Competition**

The video surveillance market is highly competitive and fragmented with a number of international firms and thousands of smaller regional and local companies. However, the surveillance and safety industry is still nascent, and no company has obtained dominant position, especially in developing countries, like China. In addition, it is difficult in the surveillance and safety industry for very large companies to reap benefits from their size because most surveillance and safety projects require the product to be specially tailored to meet customers' individual requirements.

In the surveillance and safety industry, competition is based on price, product quality, ability to distribute products, and ability to provide after-sales services. Competition is also based on a company's ability to perform installations timely and successfully, the resources, capabilities and experience of the contractor, the regulatory licenses and approvals that the contractor holds, as well as other qualitative factors.

With the popularity of the broadband network application and the increased adoption of advanced video processing technology, more and more customers demand a completed system solution from vendors to reduce their safety risks. But, most of the companies in surveillance industry are with limited product portfolio or lack of capability of providing such kind of system solution.

We believe we are one of a few companies in China with enough R&D capability, manufacture capacity and distribution network to satisfy such industry trend.

### **Sales and Marketing**

Our sales and marketing force has been highly enhanced through various acquisitions in China. Currently, our sales network is able to cover most cities in China through 13 branch offices, and all major countries in North America, Europe, Middle-East and Asia through more than 100 channel partners.

We have redefined our marketing strategy with focus on product lines with higher profit margin, and eliminated several low-end product lines. Besides remaining several existed product brand inherited from acquired companies, we position ANV brand as high-end product and solution.

We have created a dedicated sales team on marketing our provisions from Solution Segment in China. Most of our sales team members have more than 10 years industry experience and have assisted our company in participating several major national-wide projects.

Several industry veterans with successful career experience from Honeywell, ADT, IBM and ZTE have been joined our management team to lead our marketing and sales team.

### **Environmental Matters**

Laws and regulations relating to protection of the environment have not had a material impact on our business.

### **Proprietary Rights**

In addition to our patent applications, we have entered into employment agreements with our key employees that require them to keep all of our proprietary information confidential and require that any invention of theirs while under our employment, except for those not related to our business, becomes our property. Our OEM Agreement provides us with similar protections. We cannot assure that such protections will prove adequate should they be challenged in litigation.

## **Research and Development**

We are dependent on continuous research and development efforts to maintain our competitive position with our products.

We have made major progress in the following aspects:

1.

Successfully launched full range of mobile DVR products that support both standalone application and 3G wireless applications;

2.

Successfully launched high-definition network cameras;

3.

Successfully launched 4- 8- 16-channel D1 DVR products; and

4.

Our mobile DVR products have been approved by our major customers in Japan.

In connection to this effort, we have set up the three R&D centers in China, and hired more than 80 engineers in total. As of December 31, 2011, the research and development expense have been incurred with approximately of 5% (2010: 5%) on total revenue.

## Government Regulation

Since all surveillance and safety products are produced in China, such as DVRs, monitors, and alarm systems must satisfy testing requirements set by the China Public Security Bureau, or CPSB, and manufacturers of such products must receive the Security Technology Protection Product Manufacturing Permit from the provincial branch of CPSB. We have permits in China ( PRC ) relating to these products from CPSB.

Because our operating subsidiaries are located in the PRC, we are regulated by the national and local laws of the PRC. In addition, we are also subject to the PRC 's foreign currency regulations.

The PRC government has control over its Renminbi ( RMB ) reserves through, among other things, direct regulation of the conversion of RMB into other foreign currencies. Although foreign currencies which are required for current account transactions can be bought freely at authorized Chinese banks, the proper procedural requirements prescribed by Chinese law must be met. At the same time, Chinese companies are also required to sell their foreign exchange earnings to authorized Chinese banks and the purchase of foreign currencies for capital account transactions still requires prior approval from the Chinese government. We believe that we are in material compliance with all registrations and requirements for the issuance and maintenance of all licenses required by the governing bodies, and that all license fees and filings are current.

## Employees

As of December 31, 2011, we had 370 employees in our offices compared to 520 employees as at December 31, 2010, all of which are full-time. None of our employees are represented by a collective bargaining unit and we consider our employee relations to be satisfactory.

The following table provides information concerning the number of the Company 's employees and their main category of activity during the year ended December 31, 2011 and the nine months ended December 31, 2010.

Main Activity	December 31, 2011	December 31, 2010
Manufacturing	78	209
Research and development	39	77
Administration	85	37
Marketing	168	197
<b>Total</b>	<b>370</b>	<b>520</b>

## Seasonality

Our operating results and operating cash flows are subject to seasonal variations. Our revenues are usually higher in the second half of the year than in the first half of the year, and the first quarter is usually the slowest quarter because fewer projects are undertaken during and around the Chinese New Year holiday.

## **Item 1A. Risk Factors**

### **Risks Relating To Our Business**

You should carefully consider the risks described below before investing in our publicly traded securities. The risks described below are not the only ones we face. Our business is also subject to the risks that affect many other companies, such as competition, technological obsolescence, labor relations, general economic conditions, geopolitical events, climate change and international operations. Additional risks not currently known to us or that we currently believe are immaterial also may impair our business operations and our liquidity.

**Our products and services often are subject to testing, inspection and approval and failure to obtain any such approval or delays in obtaining such approvals can affect our ability to receive payments due to us.**

We frequently install surveillance and safety systems, supply products and services pursuant to agreements with general contractors or government agencies. The successful completion of our obligations under these contracts is often subject to satisfactory testing, inspection and approval of such products and services. No assurance can be given that the necessary approval of our products and services will be granted on a timely basis or at all, and that we will receive any payments due to us. In some cases, we may be dependent on others to complete these projects which may also delay payments to us. Any failure to obtain these approvals and payments may have a material adverse effect on our business, our cash flow and future financial performance.

**We face risks related to general domestic and global economic conditions and to the current credit crisis.**

Our current operating cash flows, which combined with access to the credit markets, provides us with significant discretionary funding capacity. However, the current uncertainty arising out of domestic and global economic conditions, including the recent disruption in credit markets, poses a risk to the economies in which we operate; this has impacted demand for our products and services, and may impact our ability to manage normal relationships with our customers, suppliers and creditors. If the current situation deteriorates significantly, our business could be materially negatively impacted, including such areas as reduced demand for our products and services from a slow-down in the general economy, or supplier or customer disruptions resulting from tighter credit markets.

**In order to grow at the pace expected by management, we will require additional capital to support our long-term business plan. If we are unable to obtain additional capital in future years, we may be unable to proceed with our long-term business plan and we may be forced to curtail or cease our operations.**

We will require additional working capital to support our long-term business plan, which includes identifying suitable targets for horizontal or vertical mergers or acquisitions, so as to enhance the overall productivity and benefit from economies of scale. Our working capital requirements and the cash flow provided by future operating activities, if any, will vary greatly from quarter to quarter, depending on the volume of business during the period and payment terms with our customers. We may not be able to obtain adequate levels of additional financing, whether through equity financing, debt financing or other sources. Additional financings could result in significant dilution to our earnings per share or the issuance of securities with rights superior to our current outstanding securities. In addition, we may grant registration rights to investors purchasing our equity or debt securities in the future. If we are unable to raise additional financing, we may be unable to implement our long-term business plan, develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures on a timely basis, if at all. In addition, a lack of additional financing could force us to substantially curtail or cease operations.

**We sometimes extend credit to our customers. Failure to collect the trade receivables or untimely collection could affect our liquidity.**

We extend credit to some of our customers while generally requiring no collateral. Generally, our customers pay in installments, with a portion of the payment upfront, a portion of the payment upon receipt of our products by our customers and before the installation, and a portion of the payment after the installation of our products and upon satisfaction of our customer. Sometimes, a small portion of the payment will not be paid until after a certain period following the installation. We perform ongoing credit evaluations of our customers' financial condition and generally have no difficulties in collecting our payments. However, if we encounter future problems collecting amounts due from our clients or if we experience delays in the collection of amounts due from our clients, our liquidity could be negatively affected.

**If we are unable to attract and retain senior management and qualified technical and sales personnel, our operations, financial condition and prospects will be materially adversely affected.**

Our future success depends in part on the contributions of our management team and key technical and sales personnel and our ability to attract and retain qualified new personnel. In particular, our success depends on the continuing employment of our CEO, Dr. Weixing Wang, our CFO, Mr. Kevin Su, and our VP, Mr. Xiaolin Yang. There is significant competition in our industry for qualified managerial, technical and sales personnel and we cannot provide assurance that we will be able to retain our key senior managerial, technical and sales personnel or that we will be able to attract, integrate and retain other such personnel that we may require in the future. Many engineers and technicians obtain post-graduate or professional degrees, and the increased educational time required at the post-graduate level further restricts the pool of engineers and technicians available for employment. We compete for all such personnel with other high tech companies in various fields. There can be no assurance that we will be successful in hiring or retaining such qualified personnel. If we are not able to hire and retain qualified people to fill these positions, our competitive position would be adversely affected, which would have a material adverse effect on our business, financial condition and results of operations.

If we are unable to attract and retain key personnel in the future, our business, operations, financial condition, results of operations and prospects could be materially adversely affected.

*Our growth strategy has required us to make acquisitions and to make additional acquisitions in the future, which could subject us to significant risks, any of which could harm our business.*

Our growth strategy includes identifying and acquiring or investing in suitable candidates on acceptable terms. We have from time to time acquired other companies as reported in our Current Reports on Form 8-K. In 2011, we consummated four acquisitions, and this has resulted in our integrating manufacture of our products into our operations. Over time, we may acquire or make investments in other providers of products that complement our business and other companies in the security industry. The successful integration of these companies and any other acquired businesses require us to:

1

integrate and retain key management, sales, research and development, production and other personnel

1

incorporate the acquired products or capabilities into our offerings from an engineering, sales and marketing perspective

1

coordinate research and development efforts;

1

integrate and support pre-existing supplier, distribution and customer relationships; and

1

consolidate duplicate facilities and functions and combine back office accounting, order processing and support functions.

Acquisitions involve a number of risks and present financial, managerial and operation challenges, including:

1

diversion of management's attention from running our existing business;

1

increased expenses, including travel, legal, administrative and compensation expenses resulting from newly hired employees;

1

increased costs to integrate personnel, customer base and business practices of the acquired company with our own;

1

adverse effects on our reported operating results due to possible write-down of goodwill associated with acquisitions;

1

potential disputes with sellers of acquired businesses, technologies, services, products and potential liabilities; and

1

dilution to our earnings per share if we issue common stock in any acquisition.

Moreover, performance problems with an acquired business, technology, product or service could also have a material adverse impact on our reputation as a whole. Any acquired business, technology, product or service could significantly under-perform relative to our expectations, and we may not achieve the benefits we expect from our acquisitions. Geographic distance between business operations, the compatibility of the technologies and operations being integrated and the disparate corporate cultures being combined also presents significant challenges. Acquired businesses are likely to have different standards, controls, contracts, procedures and policies, making it more difficult to implement and harmonize company-wide financial, accounting, billing, information and other systems. If we cannot overcome these challenges, we may not realize actual benefits from past and future acquisitions, which will impair our overall business results.

In fiscal 2011, the Company acquired 4 companies from different unaffiliated persons in arms-length transactions. The principals of each acquired company will receive a maximum of 2 million of our common stock on the condition of proving the value of the assets purchased is RMB 2,300,000 or approximately US\$350,000 and the acquired company contributing a net profit of RMB 1,500,000 or approximately US\$230,000 in the 12 months after the transaction closes. Accordingly, each acquisition is subject to adjustment based on an audit of the acquired company and its results. The acquired companies are (i) Jinan Hualutong Technology Co., Ltd., an electronic security product marketer located in Jinan, Shandong, China; (ii) Shijiazhuang Huilin Technology Co., Ltd., an electronic security product marketer located in Shijiazhuang, Hebei, China; (iii) TaianComins Electronic Technology Co., Ltd., an electronic security product marketer and installer located in Taian, Shandong, China; and (iv) Shenyang Huashengshiji Trading Co., Ltd., an electronic security product marketer located in Shenyang, Liaoning, China.

**Due to our rapid growth, our past results may not be indicative of our future performance so evaluating our business and prospects may be difficult.**

Our business has grown and evolved rapidly in recent years as demonstrated by our growth in sales revenue from approximately \$0.16 million for the fiscal year ended March 31, 2010, to \$7.16 million for the nine months ended December 31, 2010, to \$26.84 million for the year ended December 31, 2011. We may not be able to achieve similar growth rate in future periods, and our historical operating results may not provide a meaningful basis for evaluating our business, financial performance and prospects. Therefore, reliance on our past results or our historical rate of growth as an indication of our future performance is not advisable.

**Our facilities, or facilities of our customers or suppliers, could be susceptible to natural disasters.**

All of our manufacturing facilities, and many of the facilities of our customers and suppliers, are located in China. Natural disasters, such as floods and earthquakes, occur frequently in China, and they pose substantial threats to businesses with operations there. As a developing country, China's emergency-response ability is limited, and its ability to provide emergency reconstruction and other aid to businesses affected by natural disasters is limited. Should a natural disaster severely damage one of our facilities, or damage a major facility of one or more of our significant

customers or suppliers, our business could be materially disrupted.

**In the event that adequate insurance is not available or our insurance is not deemed to cover a claim, we could face liability.**

We carry insurances that our management considers customary and adequate. The laws of the jurisdictions in which we operate, may limit or prohibit insurance coverage for punitive or certain other types of damages or liability arising from gross negligence. If we incur increased losses related to employee acts or omissions, or system failure, or if we are unable to obtain adequate insurance coverage at reasonable rates, or if we are unable to receive reimbursements from insurance carriers, our financial condition and results of operations could be materially and adversely affected.

**Our quarterly operating results are likely to fluctuate, which may affect our stock price.**

Our quarterly revenues, expenses, operating results and gross profit margins vary from quarter to quarter. As a result, our operating results may fall below the expectations of securities analysts and investors in some quarters, which could result in a decrease in the market price of our common stock. The reasons our quarterly results may fluctuate include:

1

seasonality inherent in the surveillance and safety industry;

1

variations in profit margins attributable to product mix;

1

changes in the general competitive and economic conditions;

1

delays in, or uneven timing in the delivery of, customer orders; and

1

the introduction of new products by us or our competitors.

Period to period comparisons of our results should not be relied on as indications of future performance.

**We could face liability for our failure to respond adequately to alarm activations.**

The nature of the services we provide potentially exposes us to greater risks of liability for employee acts or omissions or system failures that may be inherent in other businesses. In the event of litigation with respect to such matters, our financial condition and results of operations could be materially and adversely affected. In addition, the costs of such litigation could have an adverse effect on us.

**Future government regulations or other standards could have an adverse effect on our operations.**

Our operations are subject to a variety of laws, regulations and licensing requirements of national and local authorities in China, Hong Kong SAR and North American. In certain jurisdictions, we are required to obtain licenses or permits and to meet certain standards in the conduct of our business. The loss of such licenses, or the imposition of conditions

to the granting or retention of such licenses, could have an adverse effect on us. In the event that these laws, regulations and/or licensing requirements change, we may be required to modify our operations or to utilize resources to maintain compliance with such rules and regulations. In addition, new regulations may be enacted that could have an adverse effect on us.

**Our limited ability to protect our intellectual properties, and the possibility that our technologies could inadvertently infringe technologies owned by others, may adversely affect our ability to compete.**

We rely on a combination of trademarks, patent, copyrights, trade secret laws, confidentiality procedures and licensing arrangements to protect our intellectual property rights. A successful challenge to the ownership of our technologies could materially damage our business prospects. Our competitors may assert that our technologies or products infringe on their patents or proprietary rights. We may be required to obtain from others licenses that may not be available on commercially reasonable terms, if at all. Problems with intellectual property rights could increase the cost of our products or delay or preclude our new product development and commercialization. If infringement claims against us are deemed valid, we may not be able to obtain appropriate licenses on acceptable terms or at all. Litigation could be costly and time-consuming but may be necessary to protect our technology license positions or to defend against infringement claims. We have applied for a United States patent for our web based security systems. No assurance can be given that we will be granted a patent, that, if granted, any patent will provide us with meaningful protection from infringement by others or that any patent that we may be granted will not be held by a court to infringe on the rights of others. The loss of patent protection could materially adversely affect our business.

**Product Failure, Marketplace Reputation and Liability**

Through our wholesalers, dealers, installers, franchisees and direct operations we intend to install hundreds and eventually thousands of security systems. Should any of our systems fail to perform as promised due to a product defect or a faulty installation, our reputation could be marred by adverse publicity. We could be liable for damages suffered by our customers. Consequently our operating results and stock price could suffer.

**Competition**

We face a variety of competitive challenges from other security and surveillance companies in every market where we operate or plan to operate. Many of our competitors will be large multinational or market dominant companies that have greater financial and marketing resources than we do and may be able to adapt to changes in consumer preferences or requirements more quickly, devote greater resources to the marketing and sale of their products or adopt more aggressive pricing policies than we can.

**Control by Management**

Our company is effectively controlled by management, specifically Weixing Wang and Tinyi Li who beneficially as at December 31, 2011 owned an aggregate of 11,178,396 shares or 15.08% of our 74,130,071 issued and outstanding shares of common stock. Accordingly, they will be able to elect our board of directors and control our corporate affairs for the foreseeable future.

**RISKS RELATED TO OUR INDUSTRY**

**Our success relies on our management's ability to understand the highly evolving network surveillance and safety industry.**

The network surveillance and safety industry is nascent and rapidly evolving. Therefore, it is critical that our management is able to understand industry trends and make good strategic business decisions. If our management is unable to identify industry trends and act in response to such trends in a way that is beneficial to us, our business will suffer.

**If we are unable to respond to the rapid changes in our industry and changes in our customer's requirements and preferences, our business, financial condition and results of operations could be adversely affected.**

If we are unable, for technological, legal, financial or other reasons, to adapt in a timely manner to changing market conditions or customer requirements, we could lose customers and market share. The network surveillance and safety industry is characterized by rapid technological changes. Sudden changes in customer requirements and preferences, the frequent introduction of new products and services embodying new technologies and the emergence of new industry standards and practices could render our existing products, services and systems obsolete. The emerging nature of products and services in the network surveillance and safety industry and their rapid evolution will require that we continually improve the performance, features and reliability of our products and services. Our success will depend, in part, on our ability to:

1

enhance our products and services;

1

anticipate changing customer requirements by designing, developing, and launching new products and services that address the increasingly sophisticated and varied needs of our current and prospective customers; and

1

respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis.

The development of additional products and services involves significant technological and business risks and requires substantial expenditures and lead time. If we fail to introduce products with new technologies in a timely manner, or adapt our products to these new technologies, our business, financial condition and results of operations could be adversely affected. We cannot assure that even if we are able to introduce new products or adapt our products to new technologies that our products will gain acceptance among our customers. In addition, from time to time, we or our competitors may announce new products, product enhancements or technological innovations that have the potential to replace or shorten the life cycles of our existing products and that may cause customers to refrain from purchasing our existing products, resulting in inventory obsolescence.

**We may not be able to maintain or improve our competitive position of strong competition in the network surveillance and safety industry, and we expect this competition to continue to intensify.**

The North American and Chinese network surveillance and safety industry is highly competitive, we also face competition from international competitors. Some of our international competitors are larger than us and possess greater name recognition, assets, personnel, sales and financial resources. These entities may be able to respond more quickly to changing market conditions by developing new products and services that meet customer requirements or are otherwise superior to our products and services and may be able to more effectively market their products than we can because they have significantly greater financial, technical and marketing resources than we do. They may also be able to devote greater resources than we can to the development, promotion and sale of their products. Increased competition could require us to reduce our prices, result in fewer customer orders and loss of market share. We cannot assure that we will be able to distinguish ourselves in a competitive market. To the extent that we are unable to successfully compete against existing and future competitors, our business, operating results and financial condition could be materially adversely affected.

**Our business and reputation as an OEM manufacturer of high quality surveillance products may be adversely affected by product defects or performance.**

We believe that we offer high quality products that are reliable and competitively priced. If our products do not perform to specifications, we might be required to redesign or recall those products or pay substantial damages. Such an event could result in significant expenses, disrupt sales and affect our reputation and that of our products. In addition, product defects could result in substantial product liability. We do not have product liability insurance. If we face significant liability claims, our business, financial condition, and results of operations would be adversely affected.

**Our product offerings involve a lengthy sales cycle and we may not anticipate sales levels appropriately, which could impair our profitability.**

Some of our products and services are designed for medium to large commercial, industrial and governmental facilities desiring to protect valuable assets and/or prevent intrusion into high security facilities. Given the nature of our products and the customers that purchase them, sales cycles can be lengthy as customers conduct intensive investigations and deliberate between competing technologies and providers. For these and other reasons, the sales cycle associated with some of our products and services is typically lengthy and subject to a number of significant risks over which we have little or no control. If sales in any period fall significantly below anticipated levels, our financial condition and results of operations could suffer.

## **RISKS RELATED TO DOING BUSINESS IN CHINA**

**Adverse changes in political and economic policies of the PRC government could impede the overall economic growth of China, which could reduce the demand for our products and damage our business.**

Our growth strategy includes acquiring or investing in suitable candidates on acceptable terms in China. We have also from time to time entered into letters of intent to acquire several other companies in China. We also produce our products through an OEM in China. Accordingly, our business, financial condition, results of operations and prospects are affected significantly by economic, political and legal developments in China. The PRC economy differs from the economies of most developed countries in many respects, including:

1

higher level of government involvement;

1

early stage of development of the market-oriented sector of the economy;

1

rapid growth rate;

1

higher level of control over foreign exchange; and

1

allocation of resources.

As the Chinese economy has been transitioning from a planned economy to a more market-oriented economy, the Chinese government has implemented various measures to encourage economic growth and guide the allocation of resources. While these measures may benefit the overall Chinese economy, they may also have a negative effect on us.

Although the Chinese government has in recent years implemented measures emphasizing the utilization of market forces for economic reform, the Chinese government continues to exercise significant control over economic growth in Chinese through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and imposing policies that impact particular industries or companies in different ways.

Any adverse change in the economic conditions or government policies in China could have a material adverse effect on the overall economic growth and the level of surveillance and safety investments and expenditures in China, which in turn could lead to a reduction in demand for our products and consequently have a material adverse effect on our business and prospects.

**Uncertainties with respect to the Chinese legal system could limit the legal protections available to you and us.**

Our operating subsidiaries are generally subject to laws and regulations applicable to foreign investments in China and, in particular, laws applicable to foreign-invested enterprises. The Chinese legal system is based on written statutes, and prior court decisions may be cited for reference, but have limited precedential value. Since 1979, a series of new Chinese laws and regulations have significantly enhanced the protections afforded to various forms of foreign investments in China. However, since the Chinese legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules are not always uniform and enforcement of these laws, regulations and rules involve uncertainties, which may limit legal protections available to you and us. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention.

**Chinese government exerts substantial influence over the manner in which we conduct our business activities.**

Chinese government has exercised and continues to exercise substantial control over virtually every sector of the Chinese economy through regulation and state ownership. Our ability to operate in China may be harmed by changes in its laws and regulations, including those relating to taxation, import and export tariffs, environmental regulations, land use rights, property and other matters. We believe that our operations in China are in material compliance with all applicable legal and regulatory requirements. However, the central or local governments of the jurisdictions in which we operate may impose new, stricter regulations or interpretations of existing regulations that would require additional expenditures and efforts on our part to ensure our compliance with such regulations or interpretations.

Accordingly, government actions in the future, including any decision not to continue to support recent economic reforms and to return to a more centrally planned economy or regional or local variations in the implementation of economic policies, could have a significant effect on economic conditions in China or particular regions thereof and could require us to divest ourselves of any interest we then hold in Chinese properties or joint ventures.

**Restrictions on currency exchange may limit our ability to receive and use our sales revenue effectively.**

Majority of our sales revenue and/or expenses are or will occur in China and be denominated in RMB. Under PRC law, the RMB is currently convertible under the current account, which includes dividends and trade and service-related foreign exchange transactions, but not under the capital account, which includes foreign direct investment and loans. In the future, our Chinese operating subsidiaries may purchase foreign currencies for settlement of current account transactions, including payments of dividends to us, without the approval of the State Administration of Foreign Exchange (the SAFE), by complying with certain procedural requirements. However, the relevant Chinese governmental authorities may limit or eliminate our ability to purchase foreign currencies in the future. Since a significant amount of our future revenue will be denominated in RMB, any existing and future restrictions on currency exchange may limit our ability to utilize revenue generated in RMB to fund our business activities outside China that are denominated in foreign currencies.

Foreign exchange transactions by Chinese operating subsidiaries under the capital account continue to be subject to significant foreign exchange controls and require the approval of or need to register with PRC government authorities, including SAFE. In particular, if our Chinese operating subsidiaries borrow foreign currency through loans from us or other foreign lenders, these loans must be registered with SAFE, and if we finance the subsidiaries by means of additional capital contributions, these capital contributions must be approved by certain government authorities, including the Ministry of Commerce, or their respective local counterparts. These limitations could affect our Chinese operating subsidiaries' ability to obtain foreign exchange through debt or equity financing.

**We may be unable to complete a business combination transaction efficiently or on favorable terms due to complicated merger and acquisition regulations which became effective on September 8, 2006.**

On August 8, 2006, six PRC regulatory agencies, including the CSRC, promulgated the Regulation on Mergers and Acquisitions of Domestic Companies by Foreign Investors, which became effective on September 8, 2006. This new regulation, among other things, governs the approval process by which a Chinese company may participate in an acquisition of assets or equity interests. Depending on the structure of the transaction, the new regulation will require the Chinese parties to make a series of applications and supplemental applications to the government agencies. In some instances, the application process may require the presentation of economic data concerning a transaction, including appraisals of the target business and evaluations of the acquirer, which are designed to allow the government to assess the transaction. Government approvals will have expiration dates by which a transaction must be completed and reported to the government agencies. Compliance with the new regulations is likely to be more time consuming and expensive than in the past and the government can now exert more control over the combination of two businesses. Accordingly, due to the new regulation, our ability to engage in business combination transactions has become significantly more complicated, time consuming and expensive, and we may not be able to negotiate a transaction that is acceptable to our stockholders or sufficiently protect their interests in a transaction.

The new regulation allows Chinese government agencies to assess the economic terms of a business combination transaction. Parties to a business combination transaction may have to submit to the Ministry of Commerce and other relevant government agencies an appraisal report, an evaluation report and the acquisition agreement, all of which form part of the application for approval, depending on the structure of the transaction. The regulations also prohibit a transaction at an acquisition price obviously lower than the appraised value of the Chinese business or assets and in certain transaction structures, require that consideration must be paid within defined periods, generally not in excess of a year. The regulation also limits our ability to negotiate various terms of the acquisition, including aspects of the initial consideration, contingent consideration, holdback provisions, indemnification provisions and provisions relating to the assumption and allocation of assets and liabilities. Transaction structures involving trusts, nominees and similar entities are prohibited. Therefore, such regulation may impede our ability to negotiate and complete a business combination transaction on financial terms that satisfy our investors and protect our stockholders' economic interests.

In addition to the above risks, in many instances, we will seek to structure transactions in a manner that avoids the need to make applications or a series of applications with Chinese regulatory authorities under these new mergers and acquisition ( M&A ) regulations. If we fail to effectively structure an acquisition in a manner that avoids the need for such applications or if the Chinese government interprets the requirements of the new M&A regulations in a manner different from our understanding of such regulations, then acquisitions that we have effected may be unwound or subject to rescission. Also, if the Chinese government determines that our structure of any of our acquisitions does not comply with these new regulations, then we may also be subject to fines and penalties.

**Fluctuations in exchange rates could adversely affect our business and the value of our securities.**

The value of our common stock will be indirectly affected by the foreign exchange rate between U.S. dollars and the RMB and between those currencies and other currencies in which our sales may be denominated. Because substantial portion of our earnings and cash assets are dominated in RMB and our financial results are reported in U.S. dollars, fluctuations in the exchange rate between the U.S. dollar and the RMB will affect our balance sheet and our earnings per share in U.S. dollars. In addition, appreciation or depreciation in the value of the RMB relative to the U.S. dollar would affect our financial results reported in U.S. dollar terms without giving effect to any underlying change in our business or results of operations. Fluctuations in the exchange rate will also affect the relative value of any dividend we issue that will be exchanged into U.S. dollars and earnings from, and the value of, any U.S. dollar-denominated investments we make in the future.

Since July 2005, the RMB has no longer been pegged to the U.S. dollar. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the RMB may appreciate or depreciate significantly in value against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future the Chinese authorities may lift restrictions on fluctuations in the RMB exchange rate and lessen intervention in the foreign exchange market.

Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may enter into hedging transactions in the future, the availability and effectiveness of these transactions may be limited, and we may not be able to successfully hedge our exposure at all. In addition, our foreign currency exchange losses may be magnified by China exchange control regulations that restrict our ability to convert RMB into foreign currencies.

Currently, some of our raw materials, components and major equipment are imported. In the event that the U.S. dollars appreciate against RMB, our costs will increase. If we cannot pass the resulting cost increases onto our customers, our profitability and operating results will suffer.

### **Risks Relating to Our Common Stock**

#### **Limitations upon Broker-Dealers Effecting Transactions in "Penny Stocks"**

Trading in our common stock is subject to material limitations as a consequence of regulations which limits the activities of broker-dealers effecting transactions in "penny stocks." Pursuant to Rule 3a51-1 under the Exchange Act, our common stock is a "penny stock" because it (i) is not listed on any national securities exchange or The NASDAQ Stock Market, (ii) has a market price of less than \$5.00 per share, and (iii) its issuer (the Company) has net tangible assets less than \$2,000,000 (if the issuer has been in business for at least three (3) years) or \$5,000,000 (if the issuer has been in business for less than three (3) years).

Rule 15g-9 promulgated under the Exchange Act imposes limitations upon trading activities on "penny stocks", which makes selling our common stock more difficult compared to selling securities which are not "penny stocks." Rule 15a-9 restricts the solicitation of sales of "penny stocks" by broker-dealers unless the broker first (i) obtains from the purchaser information concerning his financial situation, investment experience and investment objectives, (ii) reasonably determines that the purchaser has sufficient knowledge and experience in financial matters that the person is capable of evaluating the risks of investing in "penny stocks", and (iii) delivers and receives back from the purchaser a manually signed written statement acknowledging the purchaser's investment experience and financial sophistication.

Rules 15g-2 through 15g-6 promulgated under the Exchange Act require broker-dealers who engage in transactions in "penny stocks" first to provide their customers with a series of disclosures and documents, including (i) a standardized risk disclosure document identifying the risks inherent in investing in "penny stocks", (ii) all compensation received by the broker-dealer in connection with the transaction, (iii) current quotation prices and other relevant market data, and (iv) monthly account statements reflecting the fair market value of the securities.

There can be no assurance that any broker-dealer which initiates quotations for the Common Stock will continue to do so, and the loss of any such broker-dealer likely would have a material adverse effect on the market price of our common stock.

### **No Active or Regular Market**

Although our common stock has been quoted on the Pink Sheets since October 31, 1985 and since January 13, 2010, has been included in the OTCBB, there has been only limited and sporadic trading in our stock. Companies quoted for trading on the OTCBB must be reporting issuers under Section 12 of the Exchange Act and must be current in their reports under Section 13 of the Exchange Act, in order to maintain price quotation privileges on the OTCBB. If our common stock is quoted on the OTCBB, and we fail to remain current on our reporting requirements, we could be removed from the OTCBB. As a result, the market liquidity for our securities could be severely and adversely affected by limiting the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market. In addition, we may be unable to regain our quotation privileges on the OTCBB, which may have an adverse material effect on our business.

Accordingly, there can be no assurance as to the liquidity of any present or future markets that may develop for our common stock, the ability of holders of our common stock to sell our common stock, or the prices at which holders may be able to sell our common stock.

### **Shares Eligible for Future Sale**

The sale of a substantial number of shares of our common stock, or the perception that such sales could occur, could adversely affect prevailing market prices for our common stock. In addition, any such sale or perception could make it more difficult for us to sell equity, or equity-related securities in the future at a time and price that we deem appropriate. If and when this registration statement becomes effective and we become subject to the reporting requirements of the Exchange Act, we might elect to adopt a stock option plan and file a registration statement under the Securities Act registering the shares of common stock reserved for issuance thereunder. Following the effectiveness of any such registration statement, the shares of common stock issued under such plan, other than shares held by affiliates, if any, would be immediately eligible for resale in the public market without restriction.

The sales of shares of our common stock which are not registered under the Securities Act, known as restricted shares, typically are effected under Rule 144. At December 31, 2011 we had outstanding an aggregate of 63,584,610 shares of restricted common stock. All of our shares of common stock, except those issued in the last six months, might be sold under Rule 144. No prediction can be made as to the effect, if any, that future sales of restricted shares of our common stock, or the availability of such shares for future sale, will have on the market price of our common stock or our ability to raise capital through an offering of our equity securities.

### **No Dividends**

We have never paid any dividends on our common stock and we do not intend to pay any dividends in the foreseeable future.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None

**ITEM 2. PROPERTIES**

Our principal executive offices comprised of 1,564.15 square meters (approximately 16,770 square feet) at a rental of RMB 97,759.39 (approximately US\$15,515). The lease, a copy of which is filed as an exhibit to this Report, further allocates certain obligations and rights between the parties and grants the Company a right of first refusal as to re-letting the premises after the lease term. Management believes that the new offices are adequate for the Company's needs during the next fiscal year and that the Company can locate additional suitable space in the vicinity if required.

Our principal manufacturing and showroom facility in Shenzhen, China is located in approximately 4,200 square meters (45,664 square feet) in a high tech industrial district. We lease these facilities under a lease expiring January 20, 2013 with renewal option for a rental of approximately RMB 82,583 (approximately US\$13,106) per month. Management believes that the facilities are adequate for our present needs and that if required we could find suitable additional space.

Our leased premises are presently adequate for our needs. However, if our business expands we may be required to seek larger premises. Management believes that other suitable premises are available at reasonable cost in proximity to our present offices.

### **ITEM 3. LEGAL PROCEEDINGS**

We currently have no legal proceedings pending nor have any legal proceeding been threatened against us or any of our officers, directors or control persons of which we are aware.

### **ITEM 4. REMOVED AND RESERVED**

## PART II

## ITEM 5. MARKET for REGISTRANT'S COMMON EQUITY and ISSUER PURCHASES of EQUITY SECURITIES

*Market Information*

Since January 13, 2010, our common stock has trades on the Over the Counter Bulletin Board ( OTCBB ) under the symbol ANVS . During the year ended December 31, 2011, the high and low closing bid prices were \$0.45 and \$0.19. Prior to January 13, 2010, our common stock was quoted on the Pink Sheets, but had not traded for several years.

The following table sets forth the quarterly high and low sales prices of a share of our common stock as reported by the OTCBB for the periods indicated. The quotations listed below reflect inter-dealer prices, without retail mark-ups, mark-downs or commissions and may not necessarily represent actual transactions.

	Closing Bid Prices			
		High		Low
<b><i>Year Ended December 31, 2011</i></b>				
1st Quarter	\$	0.45	\$	0.20
2nd Quarter		0.45		0.19
3rd Quarter		0.20		0.20
4th Quarter		0.22		0.20
<b><i>Year Ended December 31, 2010</i></b>				
1st Quarter	\$	N/A	\$	N/A
2nd Quarter		1.05		0.35
3rd Quarter		0.75		0.20
4th Quarter		0.45		0.20

***Reports to Shareholders***

We plan to furnish our shareholders with an annual report for each fiscal year ended December 31 contains financial statements audited by our independent certified public accountants. Additionally, we may, in our sole discretion, issue unaudited quarterly or other interim reports to our shareholders when we deem appropriate. We intend to maintain compliance with the periodic reporting requirements of the Securities Exchange Act of 1934.

***Holdings***

As of December 31, 2011, we had 284 shareholders of record and 74,130,071 common shares issued and outstanding. The number of holders does not include the shareholders for whom shares are held in a "nominee" or "street" name.

***Dividend Policy***

We have not declared or paid any dividends on our common stock to date. We anticipate that any future earnings will be retained as working capital and used for business purposes. Accordingly, it is unlikely that we will declare or pay any such dividends in the foreseeable future.

*Securities Authorized for Issuance under Equity Compensation Plans*

On October 1, 2008, the board of directors adopted the Company's Stock Option Plan. The Company has reserved 1,000,000 shares of common stock for issuance upon exercise of options granted from time to time under the stock option plan. The stock option plan is intended to assist the Company in securing and retaining key employees, directors and consultants by allowing them to participate in the Company's ownership and growth through the grant of incentive and non-qualified options. Under the stock option plan, the Company may grant incentive stock options only to key employees and employee directors, or the Company may grant non-qualified options to employees, officers, directors and consultants. The stock option plan is currently administered by the Company's board of directors. Subject to the provisions of the stock option plan, the board will determine who shall receive options, the number of shares of common stock that may be purchased under the options. As at December 31, 2011, the Company has granted 140,000 shares options.

*Recent Sales of Unregistered Securities*

We did not sell any equity securities during the fiscal year ended December 31, 2011 that were not previously disclosed in a quarterly report on Form 10-Q or a current report on Form 8-K that was filed during the 2011 fiscal year.

**ITEM 6. SELECTED FINANCIAL DATA**

Because the Company is a smaller reporting company, it does not need to provide the information required by this Item 6.

**ITEM 7. MANAGEMENT'S DISCUSSION and ANALYSIS of FINANCIAL CONDITIONS and RESULTS OF OPERATION**

*Overview*

We caution that reliance on any forward-looking statement involves risks and uncertainties, and that although we believe the assumptions on which our forward-looking statements are based upon are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions could be incorrect. In light of these and other uncertainties, it should not be concluded that we will necessarily achieve any plans and objectives or projected financial results referred to in any of the forward-looking statements.

We do not undertake to release the results of any revisions of these forward-looking statements to reflect future events or circumstances.

**RESULTS OF OPERATIONS**

**Financial Performance Highlights of year ended December 31, 2011**

For the year ended December 31, 2011, our financial results include substantial operations in China that were not a part of our operations in the same period prior year. Therefore direct comparisons are not useful or relevant.

On June 1, 2010, the Company has completed the acquisition of 100% shares of Flybit international Ltd. Thereafter on September 30, 2010, another equity acquisition of Shenzhen Angesi Technology Co., Ltd has also been closed. The two newly acquired wholly own subsidiaries have substantially contributed to the Chinese operations to the Company with its strong research & development, equipped manufacturing facilities and effective marketing video cameras throughout the Greater China.

In 2011, the Company completed the acquisitions of four companies from different unaffiliated persons in arms-length transactions. The principals of each acquired company will receive a maximum of 2 million of our common stock on the condition of proving the value of the assets purchased is RMB 2,300,000 or approximately US\$350,000 and the acquired company contributing a net profit of RMB 1,500,000 or approximately US\$230,000 in the 12 months after the transaction closes. Accordingly, each acquisition is subject to adjustment based on an audit of the acquired company and its results. The acquired companies are (i) Jinan Hualutong Technology Co., Ltd., an electronic security product marketer located in Jinan, Shandong, China; (ii) Shijiazhuang Huilin Technology Co., Ltd., an electronic security product marketer located in Shijiazhuang, Hebei, China; (iii) TaianComins Electronic Technology Co., Ltd., an electronic security product marketer and installer located in Taian, Shandong, China; and (iv) Shenyang Huashengshiji Trading Co., Ltd., an electronic security product marketer located in Shenyang, Liaoning, China.

These acquisitions are part of the Company's strategy to increase its marketing and sales capacity.

Revenues in 2011 year were \$26.8 million, which were driven by the business of surveillance product and systems. The surveillance and security product market in China continued to expand. However, the business environment remains competitive and challenging. Management would continue focusing on management controls and improving operating and manufacturing efficiencies via the restructuring process to reach the positive synergy upon completion of the acquisitions.

The following are some financial highlights for the year ended December 31, 2011:

*l*

*Revenues:* Revenues recorded \$26,839,133.

*l*

*Gross margin:* Gross margin was 18.89%

*l*

*Operation loss:* Operating loss was (\$3,846,142)

*l*

*Operating margin:* Operating loss margin was (14.33%)

*l*

*Net loss attributable to the Company: Net loss attributable to the Company was (\$4,725,778)*

*l*

*Net margin: Net loss margin was (17.61%)*

## **LIQUIDITY AND CAPITAL RESOURCES**

We had cash and cash equivalents of \$1,388,743 as of December 31, 2011, as compared to \$4,398,282 as of December 31, 2010, a decrease of \$3,009,539. The decrease in cash and cash equivalents during the year ended December 31, 2011 was primarily attributable to cash used in operations of \$2,266,873, purchases of equipment and furniture of \$289,283, purchases of subsidiaries of \$772,736 and repayment to related parties of \$296,372.

Net cash used in operating activities was \$2,266,873 for the year ended December 31, 2011, as compared to \$1,700,121 for the nine months ended December 31, 2010. The increase in cash used in operating activities was primarily attributable to our net loss, as well as changes in working capital for the year ended December 31, 2011.

Net cash used in investing activities was \$787,758 for the year ended December 31, 2011, as compared to \$744,320 for the nine months ended December 31, 2010. Main components of cash flows from investing activities for the year ended December 31, 2011 included cash of \$289,283 used in purchases of equipment and furniture and \$772,736 of purchase of subsidiary, net of cash acquired. Main components of cash flows from investing activities for the nine months ended December 31, 2010 included purchase of equipment and furniture of \$151,564 and \$592,756 of purchase of subsidiary, net of cash acquired.

Net cash used in financing activities was \$46,372 for the year ended December 31, 2011 as compared to net cash provided by financing activities of \$6,665,728 for the nine months ended December 31, 2010. Significant components of cash flows from financing activities for the year ended December 31, 2011 included \$250,000 of proceeds from common stock subscription receivable, offset by \$296,372 of repayment to related parties.

Cash flows from financing activities for the nine months ended December 31, 2010 consisted \$6,717,444 of proceeds from the issuance of our common stock and \$51,716 of repayment to related parties.

We have funded our activities to date primarily through the sales of surveillance and safety products and systems and the issuance of equity securities.

### ***Critical Accounting Policies***

The preparation of our consolidated financial statements and related disclosures is in conformity with accounting principles generally accepted in the United States which requires management to make estimates and judgments that affect our reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an on-going basis, we evaluate our estimates and assumptions based upon historical experience and various other factors and circumstances. Management believes that our estimates and assumptions are reasonable under the circumstances; however, actual results may vary from these estimates and assumptions under different future circumstances. We have identified the following critical accounting policies that affect the more significant judgments and estimates used in the preparation of our consolidated financial statements.

For further discussion of our significant accounting policies, refer to Note 2 Summary of Significant Accounting Policies of our consolidated financial statements.

### **Allowance for doubtful accounts**

Accounts and notes receivable balance is recorded net of allowances for amounts not expected to be collected from customers. Because the Company's accounts and notes receivable are typically unsecured, the Company periodically evaluates the collectability of accounts based on a combination of factors, including a particular customer's ability to pay as well as the age of the receivables. To evaluate a specific customer's ability to pay, the Company analyzes financial statements, payment history, third-party credit analysis reports and various information or disclosures by the customer or other publicly available information. In cases where the evidence suggests a customer may not be able to satisfy its obligation to the Company, a specific allowance that is determined to be appropriate for the perceived risk would be established. If the financial condition of customers deteriorates, resulting in an impairment of their ability to make payments, additional allowances may be required.

### ***Off-Balance Sheet Arrangements***

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

**ITEM 7A. QUANTITATIVE and QUALITATIVE DISCLOSURES about MARKET RISK**

Not applicable.

**ITEM 8. FINANCIAL STATEMENTS and SUPPLEMENTARY DATA**

Our financial statements for the year ended December 31, 2011 and for the nine months ended December 31 2010 and the reports thereon of Stan J.H. Lee, CPA, respectively are included in this annual report.

**ITEM 9. CHANGES in and DISAGREEMENTS with ACCOUNTANTS on ACCOUNTING and FINANCIAL DISCLOSURE**

None.

## **ITEM 9A. CONTROLS and PROCEDURES**

### *Disclosure Controls and Procedures*

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that are designed to ensure that information that would be required to be disclosed in Exchange Act reports is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including to our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15 under the Exchange Act, our management, including our chief executive officer and our chief financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2011. Based on that evaluation, our officers concluded that as of December 31, 2011, and as of the date that the evaluation of the effectiveness of our disclosure controls and procedures was completed, our disclosure controls and procedures were effective to satisfy the objectives for which they are intended.

### *Management's Annual Report on Internal Control over Financial Reporting*

Section 404 of the Sarbanes-Oxley Act of 2002 requires that management document and test the Company's internal control over financial reporting and include in this Annual Report on Form 10-K a report on management's assessment of the effectiveness of our internal control over financial reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. Under the supervision and with the participation of our management, including Weixing Wang, our chief executive officer and chief financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based upon the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on that evaluation, our management concluded that our internal control over financial reporting is effective, as of December 31, 2011.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this annual report.

***Changes in Internal Controls over Financial Reporting***

During the fiscal year ended December 31, 2011, there were no changes in our internal control over financial reporting identified in connection with the evaluation performed during the fiscal year covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**ITEM 9B. OTHER INFORMATION**

We do not have any information that was required to be reported on Form 8-K during the quarter ended December 31, 2011.

**PART III****ITEM 10. DIRECTORS, EXECUTIVE OFFICERS and CORPORATE GOVERNANCE**

Our directors and officers as of December 31, 2011 are:

<b>Name</b>	<b>Age</b>	<b>Position(s)</b>
Weixing Wang	48	Chairman of the Board, Director, and Chief Executive Officer
Kevin Su	41	Chief Financial Officer
Tingyi Li	39	Vice President and Director
Xiaolin Yang	50	Vice President
Jonathan Zeng	43	Member of the Board of Directors
Daniel Sze-Yuen Lee	63	Member of the Board of Directors
Yiquan Song	45	Member of the Board of Directors

**Weixing (Wilson) Wang** has served as a director, CEO and Chairman of the Board since our acquisition of Canada ANV System Inc. ( CANVSI ) in May 2009. He was a founder of CANVSI and its chairman of the Board since its founding in 2006. Prior thereto and since 1992 he was the founder, president and CEO of Z&A Pharmaceutical Group in China. Dr. Wang received a BS in Preventative Medicine from Shandong Medical University in China in 1986; a MD in Nutrition from Tianjin Medical University in China in 1989; and did post-doctoral work in Diabetes at Freiburg University in Germany until 1992.

**Kevin Su**, has over 19 years experience in accounting, auditing and finance, which includes 4 years auditing experience in a big four accounting firm in Canada. Mr. Su holds a Bachelor degree in accounting. He is a licensed CPA in Colorado and a CGA in Canada and British Colombia. Mr. Su has served as CFO and acting CFO for several TSX venture and OTCBB listing companies to oversee their accounting and financial reporting functions.

**Tingyi Li**, has over 10 years experience in R&D, Market & Sales and manufacture of security products and solutions in China. He was the founder, president and primary shareholder of Shenzhen ANGESI Science Co., Ltd.

**Xiaolin (Tiger) Yang** has served as Vice President Sales & Marketing since June 2009. From 2001 to 2007, he was CEO of Qingdao Comins Electronics Co., Ltd and commencing January 2008 until he joined our Company, he was a sales representative for ADT Security Services. Mr. Yang holds a BA in Management Engineering awarded by Xi'an Communication University in 1986.

**Jonathan Zeng** has served as a director since August 20, 2010. He is the founder of Flybit which the Company acquired in 2010. He is an electronics industry veteran with more than 15 years of operational experience in the video surveillance, telecommunications and semiconductor fields. Before founding Flybit, Mr. Zeng served in several senior management roles in Hisilicon Technologies Inc., and successfully helped to create its video surveillance business division which grew to be the top video surveillance chip vendor in the world. Prior to Hisilicon, Mr. Zeng held various management positions at STMicroelectronics in Europe and at Nortel Networks in North America, with the responsibilities in engineering, operations, marketing and sales. Mr. Zeng received his B.E. from Tsinghua University, China, and M.A.Sc. from the University of British Columbia, Canada.

**Daniel Sze-Yuen Lee** has served as a non-executive director since our acquisition of CANVSI in May 2009. He was appointed a non-executive director of CANVSI in January 2008. Since 2003 he has been president of Canada China Foundation for the promotion of trade and cultural development and since 1986 he has been president of C&L Associates International Management Consultants Group Inc. in Vancouver. Mr. Lee studied accounting at Vancouver Community College.

**Yiquan Song**, has served on our Board of Directors since October 5, 2010. He has established several corporations spanning several industries such as a farm, a textile mill, a trading company, a beverage company, a real estate company, a number of hotels and an investment company. He has also served several positions such as factory director, general manager, chairman of the board, deputies to the local People's Congress by means of practical work and fighting spirit in business. In 2009, he finally set up the Zhejiang Yiquan holding group Co. Ltd, which has been one of the well-known enterprises in Shaoxing.

### **Family Relationships**

There are no family relationships, or other arrangements or understandings between or among any of the directors, executive officers or other person pursuant to which such person was selected to serve as a director or officer.

### **Involvement in certain legal proceedings**

Our directors, executive officers and control persons have not been involved in any of the following events during the past five years:

.

any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;

.

any conviction in a criminal proceeding or being subject to a pending criminal proceeding (excluding traffic violations and other minor offenses);

.

being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his

involvement in any type of business, securities or banking activities; or

being found by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended, or vacated.

***Term of Office***

The term of office of the current directors shall continue until new directors are elected or appointed at an annual meeting of shareholders.

***Committees of the Board and Financial Expert***

We do not have a separately-designated audit or compensation committee of the Board or any other Board-designated committee. Audit and compensation committee functions are performed by our Board of Directors. We will form such committees in the future as the need for such committees may arise. In addition, at this time we have determined that we do not have an audit committee financial expert as defined by the SEC on our Board.

***Code of Ethics***

Due to its small size, the Company has not adopted a code of ethics. The Company will adopt a code of ethics for our senior officers, including our principal executive officer, principal financial officer, principal accounting officer or controller and any person who may perform similar functions. As required by SEC rules, we will report the nature of any change or waiver of our code of ethics.

**ITEM 11. EXECUTIVE COMPENSATION***Compensation of Executive Officers*

## Executive Compensation

The following table sets forth all compensation earned during the year ended December 31, 2011 and the nine months ended December 31, 2010, by (i) our Chief Executive Officer (principal executive officer), (ii) our Chief Financial Officer (principal financial officer), (iii) the three most highly compensated executive officers other than our CEO and CFO who were serving as executive officers at the end of our last completed fiscal year, whose total compensation exceeded \$100,000 during such fiscal year ends, and (iv) up to two additional individuals for whom disclosure would have been provided but for the fact that the individual was not serving as an executive officer at the end of our last completed fiscal year, whose total compensation exceeded \$100,000 during such fiscal year ends. We refer to all of these officers collectively as our named executive officers .

*Summary Compensation Table*

Name & Principal Position	Year	Salary	Bonus	Stock Awards	Option Awards	Non-Equity Incentive Plan	Other Comp.	All Other Comp.
Weixing Wang- CEO	12/31/10	\$34,998	\$0	\$0	\$0	\$0	\$0	\$0
	12/31/11	\$69,996	\$0	\$0	\$0	\$0	\$0	\$0
Paul Lau- CFO*	12/31/10	\$0	\$0	\$0	\$0	\$0	\$0	\$0

Jonathan Zeng COO***	12/31/10	\$29,165	\$0	\$0	\$0	\$0	\$0	\$0
	12/31/11	\$69,996	\$0	\$0	\$0	\$0	\$0	\$0
Xiaolin Yang- Vice President	12/31/10	\$11,667	\$0	\$0	\$0	\$0	\$0	\$0
	12/31/11	\$48,996	\$0	\$0	\$0	\$0	\$0	\$0

\* Paul Lau resigned as CFO on November 1, 2011

\*\* Kevin Su became CFO on November 1, 2011

\*\*\* Jonathan Zeng re resigned as COO on December 31, 2011

*Compensation of Directors*

The Company has no standard arrangements in place or currently contemplated to compensate the Company's directors for their service as directors or as members of any committee of directors.

*Employment Agreements*

We do not have employment agreements with any of our executive officers or directors. We have verbal understandings with our executive officers regarding monthly retainers and reimbursement for actual out-of-pocket expenses.

***Termination of Employment***

There are no compensatory plans or arrangements, including payments to be received from the Company, with respect to any person named in the Summary Compensation Table set forth above that would in any way result in payments to any such person because of his or her resignation, retirement or other termination of such person's employment with us.

***Indemnification of Directors and Executive Officers and Limitation of Liability***

Nevada law generally permits us to indemnify our directors, officers, employees and agents. Pursuant to the provisions of Nevada Revised Statutes 78.7502, we, as a corporation organized in Nevada, may indemnify our directors, officers, employees and agents in accordance with the following:

(a) A corporation may indemnify any person who was or is a party or is threatened to be made a party to any action, except an action by or in the right of the corporation, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation, against expenses, actually and reasonably incurred by him in connection with the action, suit or proceeding if he: (a) is not liable for breach of his fiduciary duties as a director or officer pursuant to Nevada Revised Statutes 78.138; or (b) acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

(b) A corporation may indemnify any person who was or is a party or is threatened to be made a party to any action by or in the right of the corporation to procure a judgment in its favor, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation against expenses actually and reasonably incurred by him in connection with the defense or settlement of the action or suit if he: (a) is not liable for breach of his fiduciary duties pursuant to Nevada Revised Statutes 78.138; or (b) acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation. Indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals there from, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

(c) To the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding, or in defense of any claim, issue or matter therein, the corporation shall indemnify him against expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense.

Charter Provisions, Bylaws and Other Arrangements of the Registrant

Our Certificate of Incorporation, as amended, does not contain any specific language enhancing or limiting the Nevada statutory provisions referred to above.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy and is, therefore, unenforceable.

**ITEM 12. SECURITY OWNERSHIP of CERTAIN BENEFICIAL OWNERS and MANAGEMENT and RELATED STOCKHOLDER MATTERS.***Security Ownership of Certain Beneficial Owners*

The following table sets forth, as of December 31, 2011, the stock ownership of (i) each of our named executive officers and directors, (ii) all executive officers and directors as a group, and (iii) each person known by us to be a beneficial owner of 5% or more of our common stock. No person listed below has any option, warrant or other right to acquire additional securities from us, except as may be otherwise noted. We believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them except as stated therein.

Name and address	Number of shares owned	Percent of Class (3)
Weixing Wang (1)	7,270,000	9.8%
Kevin Su(1)	-	0.0%
Jonathan Zeng (1)	3,000,000	4.0%
Yan Wang (2)	6,620,000	8.9%
Xiaolin Yang (1)	-	0.0%
Daniel Sze-Yuen Lee (1)	-	0.0%
Yiquan Song (1)	4,000,000	5.4%
Ming Li 7-10111 Gilbert Road Richmond, BC, Canada	4,750,000 (4)	6.4%
Tingyi Li (1)	3,908,396	5.3%

(1) Each person named is an executive officer or a director. The address of each such beneficial owner is c/o ANV Security Group, Inc., 8th Floor, Block B, R&D Building, Tsinghua Hi-Tech Park, North Area of Shenzhen Hi-Tech & Industrial Park, Nanshan District, Shenzhen, China 518057.

(2) The address of Yan Wang is c/o ANV Security Group, Inc., 8th Floor, Block B, R&D Building, Tsinghua Hi-Tech Park, North Area of Shenzhen Hi-Tech & Industrial Park, Nanshan District, Shenzhen, China 518057.

(3) Applicable percentage ownership is based on 74,130,071 shares of our common stock outstanding as of December 31, 2011. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities.

(4) Includes 3,100,000 shares owned by Advanced Network Video Inc., a corporation owned by Mr. Li. Mr Li is Chief consultant of the Company.

***Changes in Control***

We know of no contractual arrangements which may at a subsequent date result in a change of control in the Company.

**ITEM 13. CERTAIN RELATIONSHIPS and RELATED TRANSACTIONS, and DIRECTOR INDEPENDENCE**

Upon its formation in 2006, CANVSI acquired certain intangible assets consisting of technical know-how and software and non-compete agreements from Canada Landmark Enterprise Group, Inc., a corporation owned by Weixing Wang and Yan Wang for 13,890 shares of CANVSI common stock. In July 2009, these shares were exchanged for the same number of shares of the Company upon the closing of a reorganization agreement described below.

In May 2009, the Company and CANVSI and all of the shareholders of CANVSI entered into an agreement (the Securities Purchase Agreement ) that provided that all of the holders of CANVSI would exchange their shares for shares of the Company on a one for one basis so that CANVSI would become a wholly owned subsidiary of the Company. Weixing Wang and Yan Wang became shareholders, officers and directors of the Company by reason of the Securities Purchase Agreement closing in July 2009.

**Director Independence**

We believe that the following director of our company is considered independent under Rule 400(a)(15) of the National Association of Securities Dealers listing standards: Daniel Sze-Yuen Lee.

**ITEM 14. PRINCIPAL ACCOUNTANT FEES and SERVICES.**

***Audit Fees***

The aggregate fees billed by the Company's auditors for professional services rendered in connection with the audit of the Company's annual financial statements and reviews of the financial statements included in the Company's Form 10-Q or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for fiscal year ended December 31, 2011 was \$98,000.

***Audit Related Fees***

None

***Tax Fees***

None

***All Other Fees***

None

***Pre-Approval Policies and Procedures***

The board of directors has not adopted any pre-approval policies and approves all engagements with the Company's auditors prior to performance of services by them.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders  
ANV Security Group, Inc.

We have audited the accompanying balance sheet of ANV Security Group, Inc. as of December 31, 2011 and 2010 and the related statements of operation, changes in shareholders' deficit and cash flows for the year ended December 31, 2011 and nine-month period ended December 31, 2010, respectively. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ANV Security Group, Inc. as of December 31, 2011 and 2010 and the results of its operation and its cash flows for the aforementioned periods in conformity with U.S. generally accepted accounting principles.
