NOTES TO UNAUDITED

CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Interim Financial Statements

Our accompanying unaudited consolidated financial statements of Hub Group, Inc. (“we”, “us” or “our”) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements have been omitted pursuant to those rules and regulations. However, we believe that the disclosures contained herein are adequate to make the information presented not misleading.

The financial statements reflect, in our opinion, all material adjustments (which include only normal recurring adjustments) necessary to fairly present our financial position as of March 31, 2018 and results of operations for the three months ended March 31, 2018 and 2017. Certain amounts in prior periods have been reclassified to conform with current period presentation.

These unaudited consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2017. Results of operations in interim periods are not necessarily indicative of results to be expected for a full year due partially to seasonality.

Accounting Standards Update. On January 1, 2018 we adopted the Accounting Standards Codification (ASC) topic 606, Revenue from Contracts with Customers. Under this new standard our significant accounting policy for revenue is as follows:

Revenue: Revenue is recognized at the time 1) persuasive evidence of an arrangement exists, 2) services have been rendered, 3) the sales price is fixed and determinable and 4) collectability is reasonably assured. We generally recognize revenue over time because of continuous transfer of control to the customer. Since control is transferred over time, revenue and related transportation costs are recognized based on relative transit time, which is based on the extent of progress towards completion of the related performance obligation. We enter into contracts that can include various combinations of services, which are capable of being distinct and accounted for as separate performance obligations. We account for a contract when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. Taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction, that are collected by the Company from a customer, are excluded from revenue. Further, in most cases, we report our revenue on a gross basis because we are the primary obligor as we are responsible for providing the service desired by the customer. Our customers view us as responsible for fulfillment including the acceptability of the service. Services requirements may include, for example, on-time delivery, handling freight loss and damage claims, setting up appointments for pick-up and delivery and tracing shipments in transit. We have discretion in setting sales prices and as a result, the amount we earn varies. In addition, we have the discretion to select our vendors from multiple suppliers for the services ordered by our customers. These factors, discretion in setting prices and discretion in selecting vendors, further support reporting revenue on a gross basis for most of our revenue.

The Company capitalizes commissions incurred in connection with obtaining a contract. The Company capitalized commissions associated with dedicated services of \$54,000 at March 31, 2018. Capitalized commission fees are amortized based on the transfer of services to which the assets relate and are included in selling, general and administrative expenses. In 2018, the amount of amortization was \$3,278.

Costs incurred to fulfill an intermodal, truck brokerage or logistics contract are expensed as incurred according to the practical expedient that allows contract acquisition costs to be recognized immediately if the deferral period is one year or less.

The Company applied Topic 606 retrospectively using the practical expedient in paragraph 606-10-65-1(f)(3), under which the Company does not disclose the amount of consideration allocated to the remaining performance obligations or an explanation of when the Company expects to recognize that amount as revenue for all reporting periods presented before January 1, 2018. We do not generally have a remaining performance obligation due to revenue generally being recognized using relevant transit time. We only had one significant accounting policy change that is disclosed below:

Taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction and collected by Hub Group from a customer were previously recorded on a gross basis. Under Topic 606, these taxes are excluded from revenue. This change had an effect of \$0.7 million on revenue and transportation costs for the three months ending March 31, 2017.

NOTE 2. Acquisition

Hub Group Trucking (HGT), a wholly owned subsidiary of Hub Group, Inc., acquired all of the outstanding equity interests of Estenson Logistics, LLC (“Estenson”) on July 1, 2017 (the “Estenson Acquisition”). Estenson is now our wholly owned subsidiary, operating under the name Hub Group Dedicated (“HGD”). As a result of the Estenson Acquisition, HGT acquired substantially all of the assets of Estenson, which include tractors and trailers, as well as assumed certain liabilities, including equipment debt. HGD is included in the Hub segment.

As of March 31, 2018, HGD has an operating fleet of approximately 1,300 tractors and 4,500 trailers. Dedicated services have been requested by our customers and we believe HGD is an excellent service offering that we can provide to our customers.

The base purchase price for Estenson was approximately \$284.7 million, including contingent consideration related to an earn-out provision included in the Purchase Agreement, which will not exceed \$6.0 million and is based on Estenson’s EBITDA results through June 30, 2019. In accordance with the agreement, the base purchase price was adjusted by the assumed debt to arrive at the final consideration of \$171.7 million. To facilitate the acquisition, we assumed \$113.0 million of Estenson debt and paid \$165.9 million in cash, including \$55.0 million of cash which was borrowed under our credit agreement.

The following table summarizes the total purchase price allocated to the net assets acquired (in thousands):

Cash paid	\$ 165,945
Consideration payable	1,081
Contingent consideration, fair value	4,703
Total consideration	171,729
Equipment debt assumed	112,962
Total base purchase price	\$284,691

The following table summarizes the allocation of the total consideration to the assets acquired and liabilities assumed as of the date of the acquisition (in thousands):

The Estenson acquisition was accounted for as a purchase business combination in accordance with ASC 805 “Business Combinations.” Assets acquired and liabilities assumed were recorded in the accompanying consolidated balance sheet at their estimated fair values as of July 1, 2017 with the remaining unallocated purchase price recorded as goodwill. The goodwill recognized in the Estenson acquisition was primarily attributable to potential expansion and future development of the acquired business. The fair value assigned to the customer relationships identifiable intangible was determined using an income approach based on management’s estimates and assumptions. The fair value assigned to the property and equipment was determined based on a market approach. A probability weighted expected return model was used to estimate the value of the contingent consideration. Equipment debt was valued using a discounted cash flow analysis whereby future contractual principal repayments and interest payments for each instrument were discounted to the purchase date at a risk-adjusted discount rate.

The components of “Other intangibles” listed in the above table as of the acquisition date are as follows (in thousands):

	Amount	Accumulated Amortization	Balance at March 31, 2018	Estimated Useful Life
Customer relationships	\$66,000	\$ 3,300	\$62,700	15 years
Trade name	\$400	\$ 400	\$0	3 months

The above intangible assets are amortized using the straight-line method. Amortization expense related to this acquisition for the three month period ended March 31, 2018 was \$1.1 million. The intangible assets have a weighted average useful life of approximately 14 years. Amortization expense related to HGD for the next five years is as follows (in thousands):

Remainder 2018	\$3,300
2019	4,400
2020	4,400
2021	4,400
2022	4,400

The following unaudited pro forma consolidated results of operations for 2017 assume that the acquisition of Estenson was completed as of January 1, 2017 (in thousands, except for per share amounts):

	Three Months Ended March 31, 2017
Revenue	\$947,344
Net income	\$11,603
Earnings per share	
Basic	\$0.35
Diluted	\$0.35

The unaudited pro forma consolidated results for the three month period was prepared using the acquisition method of accounting and are based on the historical financial information of Hub Group and HGD. The historical financial information has been adjusted to give effect to the pro forma adjustments that are: (i) directly attributable to the acquisition, (ii) factually supportable and (iii) expected to have a continuing impact on the combined results. The unaudited pro forma consolidated results are not necessarily indicative of what our consolidated results of operations actually would have been had we completed the acquisition on January 1, 2017.

NOTE 3. Business Segments

We report two distinct business segments. The first segment is Mode, which includes the Mode Transportation, LLC (“Mode LLC”) business only. The second segment is Hub, which is all business other than Mode.

Hub offers comprehensive multimodal solutions including intermodal, truck brokerage, logistics and dedicated services. Our employees operate the freight through a network of operating centers located in the United States, Canada and Mexico. Each operating center is strategically located in a market with a significant concentration of shipping customers and one or more railheads. Hub has full time employees located throughout the United States, Canada and Mexico.

Mode LLC has Independent Business Owners (“IBOs”) who sell and operate the business throughout North America, as well as sales only agents. Mode LLC also has a corporate office in Dallas, TX, a temperature protected services division, Temstar, located in Oak Brook, IL and a corporate office in Memphis, TN.

Mode LLC markets and operates its freight transportation services, consisting of intermodal, truck brokerage and logistics, primarily through agents who enter into contractual arrangements with Mode LLC.

Our transportation services for both Hub and Mode segments can be broadly placed into the following categories:

Intermodal. As an intermodal provider, we arrange for the movement of our customers' freight in containers and trailers, typically over long distances of 750 miles or more. We contract with railroads to provide transportation for the long-haul portion of the shipment and with local trucking companies, known as "drayage companies," for pickup and delivery. As part of our intermodal services, we negotiate rail and drayage rates, electronically track shipments in transit, consolidate billing and handle claims for freight loss or damage on behalf of our customers.

Truck Brokerage (Highway Services). We are one of the largest truck brokers in the United States, providing customers with a highway service option for their transportation needs. We match the customers' needs with carriers' capacity to provide the most effective service and price combination. We have contracts with a substantial base of carriers allowing us to meet the varied needs of our customers. As part of the truck brokerage services, we negotiate rates, track shipments in transit and handle claims for freight loss and damage on behalf of our customers.

Logistics and Other Services. Hub's logistics business operates under the name of Unyson Logistics. Unyson Logistics is comprised of a network of logistics professionals dedicated to developing, implementing and operating customized logistics solutions for customers. Unyson Logistics offers a wide range of transportation management services and technology solutions including shipment optimization, load consolidation, mode selection, carrier management, load planning and execution and web-based shipment visibility. Unyson Logistics operates throughout North America, providing services through its main operating location in St. Louis with additional support locations in the Boston, Chicago, Cleveland and Minneapolis metro areas. In addition, certain Mode LLC agents also provide logistics services. Our multi-modal transportation capabilities for both the Hub and Mode segments include small parcel, heavyweight, expedited, less-than-truckload, truckload, intermodal, railcar and international shipping.

Dedicated: Our dedicated service line, HGD, contracts with customers who wish to outsource a portion of their transportation needs. We offer a dedicated fleet of equipment and drivers to each customer, as well as the management and infrastructure to operate according to the customer's high service expectations.

Earnings per common share - basic	\$0.48	\$0.31
Earnings per common share - diluted	\$0.48	\$0.31

NOTE 5. Fair Value Measurement

The carrying value of cash and cash equivalents, accounts receivable and accounts payable approximated fair value as of March 31, 2018 and December 31, 2017. At March 31, 2018 and December 31, 2017 the fair value of the Company's fixed-rate borrowings was \$3.5 million and \$2.4 million less than the historical carrying value of \$244.6 million and \$247.1 million. The fair value of the fixed-rate borrowings was estimated using an income approach based on current interest rates available to the Company for borrowings on similar terms and maturities.

We consider as cash equivalents all highly liquid instruments with an original maturity of three months or less. As of March 31, 2018 and December 31, 2017, our cash and temporary investments were with high quality financial institutions in Demand Deposit Accounts (DDAs) and Savings Accounts.

Restricted investments, as of March 31, 2018 of \$23.3 million and December 31, 2017 of \$24.2 million, included mutual funds which are reported at fair value.

Our assets and liabilities measured at fair value are based on valuation techniques which consider prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. These valuation methods are based on either quoted market prices (Level 1) or inputs, other than quoted prices in active markets, that are observable either directly or indirectly (Level 2). Cash and cash equivalents, accounts receivable and accounts payable are defined as "Level 1", while long term debt is defined as "Level 2" of the fair value hierarchy in the Fair Value Measurements and Disclosures Topic of the Codification.

NOTE 6. Long-Term Debt and Financing Arrangements

At March 31, 2018, we were authorized to borrow up to \$350 million under a revolving line of credit. At March 31, 2018, we had \$30.0 million outstanding.

We have standby letters of credit that expire at various dates in 2018. As of March 31, 2018, our letters of credit were \$21.2 million.

Our unused and available borrowings under our bank revolving line of credit were \$298.8 million as of March 31, 2018 and \$284.9 million as of December 31, 2017. We were in compliance with our debt covenants as of March 31, 2018 and December 31, 2017.

We have entered into various Equipment Notes (“Notes”) for the purchase of tractors and containers. The Notes are secured by the underlying equipment financed in the agreements.

NOTE 7. Commitments and Contingencies

In November 2016, we committed to acquire 4,000 53' containers. As of March 31, 2018 we received 2,947 containers, which were financed with debt, and we expect to receive the remaining 1,053 units from April to July of 2018. We expect to finance these units with debt.

Since January 1, 2018 we have committed to acquire 787 tractors for \$98.5 million. As of April 2018 we received 54 tractors, which are being financed with debt, and we expect to receive the remaining 733 tractors from April to December of 2018. We expect to finance these tractors with debt.

Since January 1, 2018 we have committed to acquire 535 trailers for \$16.9 million. As of April 2018 we received 10 trailers, which will be financed with debt, and we expect to receive the remaining 525 trailers from April to December of 2018. We expect to finance these trailers with debt.

NOTE 8. Legal Matters

Robles

On January 25, 2013, a complaint was filed in the U.S. District Court for the Eastern District of California (Sacramento Division) by Salvador Robles against our subsidiary Hub Group Trucking, Inc ("HGT"). The action is brought on behalf of a class comprised of present and former California-based truck drivers for HGT who were classified as independent contractors, from January 2009 to August 2014. It alleges HGT has misclassified such drivers as independent contractors and that such drivers were employees. It asserts various violations of the California Labor Code and claims that HGT has engaged in unfair competition practices. The complaint seeks, among other things, declaratory and injunctive relief, monetary damages and attorney's fees. In May 2013, the complaint was amended to add similar claims based on Mr. Robles' status as an employed company driver. These additional claims are only on behalf of Mr. Robles and not a putative class.

The Company believes that the California independent contractor truck drivers were properly classified as independent contractors at all times. Nevertheless, because lawsuits are expensive, time-consuming and could interrupt our business operations, HGT decided to make settlement offers to individual drivers with respect to the claims alleged in this lawsuit, without admitting liability. As of December 31, 2017, 96% of the California drivers have accepted the settlement offers. In late 2014, HGT decided to convert its model from independent contractors to employee drivers in California (the "Conversion"). In early 2016, HGT closed its operations in Southern California.

On April 3, 2015, the Robles case was transferred to the U.S. District Court for the Western District of Tennessee (Western Division) in Memphis. On May 15, 2015, Plaintiffs filed a Second Amended Complaint ("SAC") which names 334 current and former HGT drivers as "interested putative class members." In addition to reasserting their existing claims, the SAC includes claims post-Conversion, added two Plaintiffs (who had signed the settlement agreement above) and seeks a judicial declaration that the settlement agreements are unenforceable. On June 8, 2015, HGT filed a motion to dismiss the SAC and on July 19, 2016, HGT's motion to dismiss was granted in part, and denied in part, by the District Court. The motion to dismiss was granted for the claims of all purported class members who have signed settlement agreements and for the plaintiffs' claims based on quantum merit. It was denied with respect to federal preemption and choice of law. On August 11, 2016, Plaintiffs filed a motion to clarify whether the Court's dismissal of the claims of all purported class members who signed settlement agreements was with or without prejudice and, if the dismissal was with prejudice, Plaintiffs moved the Court to revise and reconsider the

order. Plaintiffs' motion for clarification/reconsideration has been fully briefed and the parties are awaiting a decision by the Court.

Adame

On August 5, 2015, the Plaintiffs' law firm in the Robles case filed a lawsuit in state court in San Bernardino County, California on behalf of 63 named Plaintiffs against HGT and five Hub and HGT employees. The lawsuit alleges claims similar to those being made in Robles and seeks penalties under California's Private Attorneys General Act ("PAGA"). Of the 63 named Plaintiffs, at least 58 signed settlement agreements.

On October 29, 2015, Defendants filed a notice of removal to move the case from state court in San Bernardino to federal court in the Central District of California. On November 19, 2015, Plaintiffs filed a motion to remand the case back to state court, claiming that the federal court lacks jurisdiction over the case because there is not complete diversity of citizenship between the parties and the amount in controversy threshold is not satisfied. The court granted Plaintiffs' motion to remand to the state court in San Bernardino County on April 7, 2016.

On July 11, 2016, Defendants filed dismissal papers in state court, asking the court to dismiss Plaintiffs' suit for various reasons, including that the agreement between HGT and its former California owner operators requires that this action be brought in

Memphis, Tennessee, or stay the action pending the outcome of Robles. Defendants also asked the court to dismiss the individual defendants because PAGA's language does not allow for individual liability. During a hearing on October 5, 2016, the judge issued an oral tentative ruling stating that the choice of forum provision was unenforceable. On February 17, 2017, with the stipulation of the parties, the Court entered an order dismissing, without prejudice, all of the individual Defendants and accepting the parties' agreement that jurisdiction and venue are proper in the San Bernardino Superior Court and that Defendants will not seek to remove the case to federal district court. On April 12, 2017, the Court denied Defendant's motion to dismiss based on insufficiency of the PAGA letter notice. On October 19, 2017, Plaintiffs filed an amended complaint, dismissing the previously named individuals as Defendants. On December 4, 2017, Defendants filed an Answer to Plaintiffs' First Amended Complaint and a Memorandum of Points and Authorities in Support of their Motion for Judgment on the Pleadings arguing that judgement should be entered for Defendants because Plaintiffs' claims are preempted by the Federal Truth-In-Leasing regulations. On January 31, 2018, a hearing was held on the motion to dismiss, and on February 1, 2018, the motion was denied. On March 27, 2018, Defendants filed a petition for a writ of mandate with the Court of Appeals. There is no timetable for when the Court of Appeals will decide if it will hear the appeal.

NOTE 9. Income Taxes

The provision for income taxes decreased to \$4.8 million in 2018 from \$6.1 million in 2017. We provided for income taxes using an effective rate of 23.0% in 2018 and an effective rate of 37.0% in 2017. The 2018 effective tax rate was lower primarily due to the enactment of the U.S. Tax Cuts and Jobs Act (the "Act") on December 22, 2017, which reduced the US federal corporate tax rate from 35% to 21%. We expect our effective tax rate for the remainder of 2018 will range from 24.5% to 25.5%.

Due to the complexities involved in accounting for the enactment of the Act, the SEC Staff Accounting Bulletin No. 118 ("SAB No. 118") allows for a one-year period, from the date of enactment, to complete the related income tax accounting for the Act and allows for the use of provisional amounts until that accounting is complete.

The Company recorded provisional amounts in earnings for the year ended December 31, 2017 as certain deferred tax assets and liabilities were remeasured based on the rates at which they are expected to reverse in the future, which is generally 21%. However, we are still analyzing aspects of the Act and refining our calculations, which could potentially affect the measurement of these balances or potentially give rise to new deferred tax amounts until the federal income tax return for 2017 is filed later this year.

NOTE 10. New Pronouncements

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805) Clarifying the Definition of a Business. This ASU clarifies the definition of a business when evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. This standard was adopted on January 1, 2018. Any impact would apply to future acquisitions.

In 2016, the FASB issued new guidance that requires credit losses on financial assets measured at amortized cost basis to be presented at the net amount expected to be collected, not based on incurred losses. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018 is permitted. We are evaluating the impact of adopting this new accounting guidance on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases, which requires lessees to recognize a right-to-use asset and a lease obligation for all leases. Lessees are permitted to make an accounting policy election to not recognize an asset and liability for leases with a term of twelve months or less. The new standard will become effective beginning with the first quarter of 2019. Early adoption of the standard is permitted. We plan to adopt this standard January 1, 2019, as required. We are currently reviewing our leases and evaluating the impact the adoption of this accounting guidance will have on the consolidated financial statements.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this quarterly report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "expects," "hopes," "believes," "intends," "estimates," "anticipates," "predicts," "projects," "potential," "may," "could," "might," "should," and variations of these words and similar expressions are intended to identify these forward-looking statements. Forward-looking statements are inherently uncertain and subject to risks. Such statements should be viewed with caution. They are based on our beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Actual results or experience could differ materially from the forward-looking statements as a result of many factors. All forward-looking statements are based upon information available to us on the date of this report. Except as required by law, we expressly disclaim any obligations to publicly release any revisions to forward-looking statements to reflect events after the date of this report. Factors that could cause our actual results to differ materially include:

- the degree and rate of market growth in the domestic intermodal, truck brokerage, dedicated and logistics markets served by us;
- deterioration in our relationships, service conditions or provision of equipment with existing railroads or adverse changes to the railroads' operating rules;
- further consolidation of railroads;
- the impact of competitive pressures in the marketplace, including entry of new competitors, direct marketing efforts by the railroads or marketing efforts of asset-based carriers;
- unanticipated changes in rail, drayage and trucking company capacity or costs of services;
- increases in costs related to any reclassification or change in our treatment of drivers or owner-operators due to regulatory, judicial and legal changes;
- labor unrest in the rail, drayage or trucking company communities;
- significant deterioration in our customers' financial condition, particularly in the retail, consumer products and durable goods sectors;
- fuel shortages or fluctuations in fuel prices;
- increases in interest rates;
- acts of terrorism and military action and the resulting effects on security;
- difficulties in maintaining or enhancing our information technology systems, implementing new systems or protecting against cyber-attacks;
- increases in costs associated with changes to or new governmental regulations;
- significant increases to employee health insurance costs;
- loss of several of our largest customers;
- awards received during annual customer bids not materializing;
- inability to recruit or loss of Mode LLC sales/operating agents known as IBOs and sales-only agents;
- inability to recruit and retain company drivers and owner-operators;
- changes in insurance costs and claims expense;
- union organizing efforts and changes to current laws which will aid in these efforts;
- inability to identify, close and successfully integrate any future business combinations;
 - imposition of new tariffs or trade barriers or withdrawal from or renegotiation of existing free trade agreements which could reduce international trade and economic activity and

Losses sustained on insured matters where the liability materially exceeds available insurance proceeds.

EXECUTIVE SUMMARY

Hub Group, Inc. (“we”, “us” or “our”) reports two distinct business segments. The first segment is “Mode,” which includes the acquired Mode LLC business only. The second segment is “Hub,” which is all business other than Mode. Hub Group (as opposed to just Hub), refers to the consolidated results for the whole company, including both the Mode and Hub segments. For the segment financial results, refer to Note 3 to the unaudited consolidated financial statements.

We are a world class provider of multimodal logistics solutions. We offer comprehensive intermodal, truck brokerage, dedicated and logistics services. We operate through a nationwide network of operating centers and independent business owners.

Through our network, we arrange for the movement of our customers’ freight in containers and trailers over long distances. We contract with railroads to provide transportation for the long-haul portion of the shipment and with local trucking companies, known as “drayage companies,” for local pickup and delivery. As part of the intermodal services, we negotiate rail and drayage rates, electronically track shipments in transit, consolidate billing and handle claims for freight loss or damage on behalf of our customers.

As of March 31, 2018, our subsidiary, HGT accounted for 54% of Hub’s drayage needs by assisting us in providing reliable, cost effective intermodal services to our customers. As of March 31, 2018, HGT leased or owned approximately 1,000 tractors and 300 trailers, employed approximately 1,100 drivers and contracted with approximately 1,400 owner-operators.

We also arrange for the transportation of freight by truck, providing customers with another option for their transportation needs. We match the customers’ needs with carriers’ capacity to provide the most effective service and price combinations. As part of our truck brokerage services, we negotiate rates, track shipments in transit and handle claims for freight loss or damage on behalf of our customers.

Our logistics service consists of complex transportation management services, including load consolidation, mode optimization and carrier management. These service offerings are designed to take advantage of the increasing trend for shippers to outsource all or a greater portion of their transportation needs.

Our dedicated service line, HGD, contracts with customers looking to outsource a portion of their transportation needs. We offer a dedicated fleet of equipment and drivers to each customer, as well as the management and infrastructure to operate according to the customer’s high service expectations.

Hub has full time marketing representatives throughout North America who service local, regional and national accounts. We believe that fostering long-term customer relationships is critical to our success and allows us to better understand our customers’ needs and specifically tailor our transportation services to them.

Hub’s yield management group works with pricing, account management and operations to enhance Hub’s customer margins. We are working on margin enhancement projects including matching up inbound and outbound loads, reducing empty miles, improving our recovery of accessorial costs, reducing our drayage costs, and reviewing and improving low contribution freight.

Hub’s top 50 customers represent 67.6% of the Hub segment revenue for the three months ended March 31, 2018. We use various performance indicators to manage our business. We closely monitor margin and gains and losses for our top 50 customers. We also evaluate on-time performance, cost per load and daily sales outstanding by customer account. Vendor cost changes and vendor service issues are also monitored closely.

Mode has 172 agents, consisting of 99 sales/operating agents, known as IBOs, who sell and operate the business throughout North America and 73 sales only agents. Mode also has a corporate office in Dallas, TX, a temperature protected services division, Temstar, located in Oak Brook, IL and a corporate office in Memphis, TN. Mode's top 20 customers represent 40% of the Mode segment revenue for the three months ended March 31, 2018. We closely monitor revenue and margin for these customers. We believe Mode brings us highly complementary service offerings, more scale and a talented sales channel that allows us to better reach small and midsize customers.

RESULTS OF OPERATIONS

Three Months Ended March 31, 2018 Compared to the Three Months Ended March 31, 2017

The following table summarizes our revenue by segment and business line (in thousands) for the three months ended March 31:

Hub Group's revenue increased 22.8% to \$ 1,096.0 million in 2018 from \$892.8 million in 2017.

The Hub segment revenue increased 22.9% to \$831.6 million. Intermodal revenue increased 13.7% to \$482.5 million due to a 5.5% increase in intermodal volume, an increase in fuel revenue, and increases in customer prices. Truck brokerage revenue increased 13.0% to \$120.0 million. Truck brokerage handled 0.7% less loads, and fuel, mix and price combined were up 13.7%. Logistics revenue increased 15.6% to \$168.7 million due primarily to growth with new customers on-boarded in 2017 and growth with existing customers. Dedicated revenue was \$60.4 million for the three months ended March 31, 2018.

Mode's revenue increased 19.0% to \$287.9 million in 2018 from \$241.8 million in 2017 due to increases in all three business lines. Intermodal revenue increased 6.2%, truck brokerage revenue increased 28.9%, and logistics revenue increased 38.4%.

Transportation Costs

Hub Group's transportation costs increased 23.0% to \$973.2 million in 2018 from \$791.2 million in 2017. Transportation costs in 2018 consisted of purchased transportation costs of \$835.1 million and equipment and driver related costs of \$138.1 million compared to 2017 purchased transportation costs of \$700.4 million and equipment and driver related costs of \$90.8 million.

The Hub segment transportation costs increased 22.6% to \$741.2 million in 2018 from \$604.7 million in 2017. Hub segment transportation costs in 2018 included \$604.1 million in purchased transportation, up from \$514.8 million in 2017. The 17% increase in purchased transportation costs was due primarily to rail cost increases, an increase in fuel costs, higher third party carrier costs and higher volumes. Equipment and driver related costs increased 52.5% to \$137.1 million in 2018 from \$89.9 million in 2017 due primarily to the equipment and driver related costs of HGD.

The Mode segment transportation costs increased 20.5% to \$255.5 million in 2018 from \$212.1 million in 2017. Mode segment transportation costs are primarily purchased transportation costs which increased due to higher rail costs, fuel costs and increased business levels in all three lines of business.

Gross Margin

Hub Group's gross margin increased 20.9% to \$122.8 million in 2018 from \$101.6 million in 2017. Hub Group's gross margin as a percentage of sales decreased to 11.2% as compared to last year's 11.4% margin.

The Hub segment gross margin increased 25.9% to \$90.4 million. The Hub segment margin increase of \$18.6 million resulted from the addition of HGD and growth in intermodal and truck brokerage, partially offset by a decrease in logistics. Intermodal gross margin increased due primarily to higher customer prices than last year and volume growth, partially offset by higher rail transportation cost increases and drayage cost increases for driver pay and third party carriers. Truck brokerage margin increased as a result of growth with targeted customer accounts. Logistics margin decreased due to tighter truck capacity that resulted in higher purchased transportation costs, changes in customer mix and headwinds from the liquidation of a customer.

As a percentage of revenue, the Hub segment gross margin increased to 10.9% in 2018 from 10.6% in 2017. Intermodal gross margin as a percentage of sales increased 20 basis points because of higher customer prices than last year partially offset by rail and drayage transportation cost increases. Truck brokerage gross margin as a percentage of sales was up 30 basis points due to changes in customer mix and increased spot market opportunities. Logistics gross margin as a percentage of sales was down 280 basis points due to higher purchased transportation costs and changes in customer mix.

Mode's gross margin increased to \$32.4 million in 2018 from \$29.8 million in 2017 due to margin growth in logistics and truck brokerage. Mode's gross margin as a percentage of revenue decreased to 11.3% in 2018 from 12.3% in 2017 due to year-over-year yield declines of 80 basis points in intermodal, 230 basis points in logistics and 140 basis points in truck brokerage.

CONSOLIDATED OPERATING EXPENSES

The following table includes certain items in the consolidated statements of income as a percentage of revenue:

Edgar Filing: Hub Group, Inc. - Form 10-Q

Three Months
 Ended
 March 31,
 2018 2017

Revenue	100.0%	100.0%
Transportation costs	88.8	88.6
Gross margin	11.2	11.4
Costs and expenses:		
Salaries and benefits	5.1	4.8
Agent fees and commissions	1.7	2.0
General and administrative	1.9	2.4
Depreciation and amortization	0.4	0.3
Total costs and expenses	9.1	9.5
Operating income	2.1	1.9

Salaries and Benefits

Hub Group's salaries and benefits increased to \$56.0 million in 2018 from \$43.2 million in 2017. As a percentage of revenue, Hub Group's salaries and benefits increased to 5.1% in 2018 from 4.8% in 2017.

The Hub segment salaries and benefits increase of \$12.5 million was primarily due to the addition of HGD employees. Additional increases include employee bonus of \$3.5 million, commissions sales expense of \$0.8 million, restricted stock compensation of \$0.8 million, payroll taxes of \$0.7 million, and employee benefit expense of \$0.6 million.

Mode's salaries and benefits expense increased to \$3.9 million in 2018 from \$3.6 million in 2017. The \$0.3 million increase was primarily due to an increase in employee bonus expense.

Hub's headcount as of March 31, 2018 and 2017 was 1,890 and 1,643 respectively, which excludes drivers, as driver costs are included in transportation costs. The increase in Hub's headcount is due to the acquisition of HGD, which has 273 employees, excluding drivers, at March 31, 2018. As of March 31, 2018 and 2017, Mode had 119 and 113 employees, respectively.

Agent Fees and Commissions

Hub Group's agent fees and commissions increased to \$19.1 million in 2018 from \$18.0 million in 2017. As a percentage of revenue, these expenses decreased to 1.7% in 2018 from 2.0% in 2017.

The Mode segment agent fees and commissions increase of \$1.2 million was due primarily to the increase in gross margin.

General and Administrative

Hub Group's general and administrative expenses decreased to \$20.5 million in 2018 from \$20.8 million in 2017. These expenses, as a percentage of revenue, decreased to 1.9% in 2018 from 2.4% in 2017.

The Hub segment decrease of \$0.1 million was due to decreases in travel and entertainment of \$0.9 million, due diligence and costs related to potential acquisitions of \$0.9 million, outside services, primarily IT consulting services and legal fees, of \$0.9 million, office and miscellaneous expense of \$0.5 million, decrease in IT maintenance expense of \$0.2 million, decrease in bad debt expense of \$0.2 million, and a decrease in training expenses of \$0.1 million. These were offset by the general and administrative expenses related to the acquisition of HGD.

Mode's general and administrative expenses decreased to \$2.1 million in 2018 from \$2.3 million in 2017. The decrease of \$0.2 million was due primarily to the reduction of bad debt expense of \$0.4 million partially offset by an increase in outside services of \$0.2 million.

Depreciation and Amortization

Hub Group's depreciation and amortization increased to \$4.0 million in 2018 from \$2.4 million 2017. As a percentage of revenue, these expenses increased to 0.4% in 2018 from 0.3% in 2017.

The Hub segment depreciation expense increased to \$3.8 million in 2018 from \$2.1 million in 2017. This increase was related primarily to the amortization of the HGD customer relationships as well as depreciation of additional computer software.

Mode's depreciation expense decreased to \$0.2 million in 2018 from \$0.3 million in 2017.

Other Income (Expense)

Total other expense increased to \$2.1 million in 2018 from \$0.8 million in 2017 due to the additional interest costs related to the acquisition of HGD, our equipment debt and a decrease in foreign currency translation gains in 2018.

Provision for Income Taxes

The provision for income taxes decreased to \$4.8 million in 2018 from \$6.1 million in 2017. We provided for income taxes using an effective rate of 23.0% in 2018 and an effective rate of 37.0% in 2017. The 2018 effective tax rate was lower primarily due to the enactment of the U.S. Tax Cuts and Jobs Act (the "Act") on December 22, 2017, which reduced the U.S. federal corporate tax rate from 35% to 21%. We expect our effective tax rate for the remainder of 2018 will range from 24.5% to 25.5%.

Due to the complexities involved in accounting for the enactment of the Act, the SEC Staff Accounting Bulletin No. 118 (“SAB No. 118”) allows for a one-year period, from the date of enactment, to complete the related income tax accounting for the Act and allows for the use of provisional amounts until that accounting is complete.

The Company recorded provisional amounts in earnings for the year ended December 31, 2017 as certain deferred tax assets and liabilities were remeasured based on the rates at which they are expected to reverse in the future, which is generally 21%. However, we are still analyzing aspects of the Act and refining our calculations, which could potentially affect the measurement of these balances or potentially give rise to new deferred tax amounts until the federal income tax return for 2017 is filed later this year.

Net Income

Net income increased to \$16.2 million in 2018 from \$10.3 million in 2017 due primarily to increased margin and lower taxes in 2018, partially offset by the increase in operating costs.

LIQUIDITY AND CAPITAL RESOURCES

During the first three months of 2018, we funded operations, capital expenditures, capital leases, repayments of debt and stock buy backs related to employee withholding upon vesting of restricted stock through cash flows from operations, proceeds from the issuance of long-term debt and cash on hand. We believe that our cash, cash flows from operations and borrowings available under our Credit Agreement will be sufficient to meet our cash needs for at least the next twelve months.

Cash provided by operating activities for the three months ended March 31, 2018 was \$33.2 million, which resulted from income of \$16.2 million adjusted for non-cash charges of \$26.7 million less a decrease in operating assets and liabilities of \$9.7 million.

Cash provided by operating activities decreased \$14.5 million in 2018 versus 2017. The decrease was due to a change in operating assets and liabilities of \$26.7 million which included a decrease in the change of accounts receivable of \$43.0 million and accounts payable of \$6.3 million partially offset by an increase in the change of accrued expenses of \$15.1 million. This decrease was partially offset by an increase in non-cash charges of \$6.3 million related primarily to depreciation and amortization expense and an increase in net income of \$5.8 million.

Net cash used in investing activities for the three months ended March 31, 2018 was \$21.7 million. Capital expenditures of \$22.2 million related primarily to tractors of \$10.3 million, transportation equipment of \$5.1 million, technology investments of \$4.1 million and \$2.7 million for containers. Net cash used in investing activities for the quarter ended March 31, 2017 was \$5.5 million. The increase in net cash used in investing activities of \$16.2 million in 2018 versus 2017 was due primarily to higher tractor and transportation equipment purchases in 2018 partially offset by a decrease in proceeds from the sale of equipment of \$0.6 million.

We estimate our capital expenditures will range from \$190 million to \$210 million in 2018. We expect equipment purchases to range from \$160 million to \$170 million and technology investments will range from \$30 million to \$40 million.

The net cash used in financing activities for the three months ended March 31, 2018 was \$22.1 million, which resulted from the repayment of long-term debt of \$34.3 million, stock tendered for payments of withholding taxes of \$3.9 million and capital lease payments of \$0.7 million partially offset by proceeds from the issuance of long-term debt of \$16.8 million.

Edgar Filing: Hub Group, Inc. - Form 10-Q

The decrease in net cash used in financing activities of \$6.4 million in 2018 versus 2017 was primarily due to a \$22.5 million decrease in the repayments of long-term debt and stock tendered for payments of withholding taxes of \$0.7 million partially offset by increased proceeds from the issuance of long-term debt of \$16.8 million.

As a result of anticipated favorable timing differences related to depreciation, we expect our cash paid for income taxes in 2018 to be significantly less than our income tax expense.

At March 31, 2018, we were authorized to borrow up to \$350 million under a revolving line of credit. At March 31, 2018, we had \$30.0 million outstanding.

We have standby letters of credit that expire at various dates in 2018. As of March 31, 2018, our letters of credit were \$21.2 million.

Our unused and available borrowings under our bank revolving line of credit were \$298.8 million as of March 31, 2018 and \$284.9 as of December 31, 2017. We were in compliance with our debt covenants as of March 31, 2018.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk related to changes in interest rates on our bank line of credit which may adversely affect our results of operations and financial condition. Although we conduct business in foreign countries, international operations are not material to our consolidated financial position, results of operations, or cash flows. Additionally, foreign currency transaction gains and losses were not material to our results of operations for the three months ended March 31, 2018. Accordingly, we are not currently subject to material foreign currency exchange rate risks from the effects that exchange rate movements of foreign currencies would have on our future costs or on future cash flows we would receive from our foreign investment. To date, we have not entered into any foreign currency forward exchange contracts or other derivative financial instruments to hedge the effects of adverse fluctuations in foreign currency exchange rates. We do not use financial instruments for trading purposes.

We have both fixed and variable rate debt as described in Note 6 to the unaudited consolidated financial statements. Any material increase in market interest rates would not have a material impact on the results of operations for the quarter ended March 31, 2018.

As of March 31, 2018, we had \$30.0 million of borrowings under our bank revolving line of credit and our unused and available borrowings were \$298.8 million. As of December 31, 2017, we had \$45.0 million of borrowings under our bank revolving line of credit and our unused and available borrowings were \$284.9 million.

Item 4. CONTROLS AND PROCEDURES

As of March 31, 2018, an evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of March 31, 2018. There have been no changes in our internal control over financial reporting identified in connection with such evaluation that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

On July 1, 2017, we completed the acquisition of HGD. We are currently integrating processes, employees, technologies and operations. Management will continue to evaluate our internal controls over financial reporting as we complete our integration.

PART II. Other Information

Item 1. Legal Proceedings

During the three months ended March 31, 2018, there have been no material developments from the legal proceedings disclosed in our Annual Report on Form 10-K for our fiscal year ended December 31, 2017, except those disclosed in Note 8 to the unaudited consolidated financial statements under “Legal Matters,” which is incorporated herein by reference.

Item 1A. Risk Factors

Edgar Filing: Hub Group, Inc. - Form 10-Q

During the three months ended March 31, 2018, there have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K for our year ended December 31, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

We do not currently have a share repurchase plan in place. During the first quarter of 2018, we purchased 79,475 shares at a weighted average price of \$48.98 per share related to employee withholding upon vesting of restricted stock.

Item 6. Exhibits
