For years prior to 2011, the average month-end stock price is determined for the calendar year. For 2011 and later, the average month-end stock price is determined for the twelve months ended October 31, which is consistent with the calculation used for the annual 6% minimum distribution rate commitment adopted in September 2011.

Shareholders may elect to receive the year-end distribution in stock or cash. In connection with this distribution, all shareholders of record are sent a dividend announcement notice and an election card in mid-November. **Shareholders holding shares in "street" or brokerage accounts may make their election by notifying their brokerage house representative.**

Proxy Voting Policies and Record

Short Sales of Securities

The Board of Directors has approved a change to the Fund's investment policy on making short sales of securities that expands the Fund's practice on when it may engage in short selling. With the change, the Fund may engage in short sales as part of an investment strategy that involves "paired trades" in which the Fund opportunistically sells short a security and takes a corresponding long position in another security in order to take advantage of market inefficiencies in the pricing of the two securities.
