#### ITEM 8.01 Other Events

On April 5, 2006, Cordia Corporation ( Cordia ) Cordia held a conference call, the topic of which was its year end 2005 results. The conference call contained reference to Cordia s EBIDTA for the twelve months ended December 31, 2005.

Consistent with Securities and Exchange and Commission's Regulation G, the following table provides a reconciliation of Cordia's EBITDA for year end 2005, to the Generally Accepted Accounting Principles (GAAP) measure of net income (loss). EBITDA is not a measure under GAAP, is not meant to be a replacement for GAAP and should not be considered as an alternative to net income (loss) as a measure of performance or to cash flows as a measure of liquidity. We have included EBITDA data to assist in understanding our operating results. EBITDA is a measure commonly used in the telecommunications industry, and many securities analysts use EBITDA as a way of evaluating our financial performance.
