FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)

(1) Basis of Presentation

In the opinion of management, the accompanying unaudited consolidated financial statements of First Interstate BancSystem, Inc. and subsidiaries (the "Company") contain all adjustments (all of which are of a normal recurring nature) necessary to present fairly the financial position of the Company at September 30, 2015 and December 31, 2014, and the results of operations for each of the three and nine month periods ended and cash flows for each of the nine month periods ended September 30, 2015 and 2014 in conformity with U.S. generally accepted accounting principles. The balance sheet information at December 31, 2014 is derived from audited consolidated financial statements. Certain reclassifications, none of which were material, have been made to conform prior year financial statements to the September 30, 2015 presentation. These reclassifications did not change previously reported net income or stockholders' equity.

These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. Operating results for the three and nine months ended September 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

(2) Acquisitions

Absarokee Bancorporation, Inc. On March 26, 2015, the Company entered into an agreement and plan of merger to acquire all of the outstanding stock of Absarokee Bancorporation, Inc. ("Absarokee"), a Montana-based bank holding company that operated one subsidiary bank, United Bank, with branches located in three Montana communities adjacent to the Company's existing market areas. The acquisition was completed on July 24, 2015 for cash consideration of \$7,234. Immediately subsequent to the acquisition, United Bank was merged with and into the Company's existing bank subsidiary, First Interstate Bank ("FIB"). As of the date of the acquisition, Absarokee had total assets of \$73,460, loans of \$37,520 and deposits of \$63,565.

The assets and liabilities of Absarokee were recorded in the Company's consolidated financial statements at their estimated fair values as of the acquisition date. The excess value of the consideration paid over the fair value of assets acquired and liabilities assumed is recorded as goodwill.

The following table summarizes the consideration paid, fair values of the Absarokee assets acquired and liabilities assumed and the resulting goodwill. All amounts reported are provisional pending completion of management review.

| As of July 24, 2015 | As Recorded by Absarokee | Fair Value Adjustments | | As Recorded by the Company |

Explanation of fair value adjustments:

- (1) Write down of the book value of loans to their estimated fair values. The fair value of loans was estimated using cash flow projections based on the remaining maturity and repricing terms, adjusted for estimated future credit losses and prepayments and discounted to present value using a risk-adjusted market rate for similar loans.
- (2) Adjustment to remove the Absarokee allowance for loan losses at acquisition date as the credit risk is accounted for in the fair value adjustment for loans receivable described in (1) above.
- (3) Write up of the book value of premises and equipment to their estimated fair values based upon fair value estimates developed internally based upon comparable in-market transactions.
- (4) Adjustment represents the value of the core deposit base assumed in the acquisition based upon an internal valuation based on analysis of recent acquisitions.
- (5) Adjustment consists of a reduction in the value of accrued interest receivable, the write-off of pre-existing goodwill and recording the value of mortgage servicing assets acquired.
- (6) Adjustment represents increase in the book value of a Federal Home Loan Bank borrowing to its estimated fair market value based upon interest rates of similar advances with similar characteristics on the date of acquisition.
- (7) Adjustment represents the net deferred tax liability resulting from fair value adjustments related to acquired assets, assumed liabilities, core deposit intangible assets and other purchase accounting adjustments.

The core deposit intangible asset of \$695 is being amortized using an accelerated method over the estimated useful lives of the related deposits of ten years.

Mountain West Financial Corp. On July 31, 2014, the Company acquired all of the outstanding stock of Mountain West Financial Corp ("MWFC"), a Montana-based bank holding company operating one subsidiary bank, Mountain West Bank, NA ("MWB"). MWB was merged with and into FIB in October 2014. During March 2015, the Company completed its review of MWFC tax items and finalized the fair value of acquired deferred tax assets. Finalization of provisional estimates resulted in a \$1,199 decrease in goodwill.

The Company recorded third party acquisition-related costs of \$566 and \$1,052 during the three months ended September 30, 2015 and 2014, respectively. The Company recorded third party acquisition-related costs of \$629 and \$1,649 during the nine months ended September 30, 2015 and 2014, respectively. These costs are included in acquisition expenses in the Company's consolidated statements of income.

(3) Investment Securities

The investment portfolio is evaluated quarterly for other-than-temporary declines in the market value of each individual investment security. The Company had 113 and 154 individual investment securities that were in an unrealized loss position as of September 30, 2015 and December 31, 2014, respectively. Unrealized losses as of September 30, 2015 and December 31, 2014 related primarily to fluctuations in the current interest rates. The Company does not have the intent to sell any of the available-for-sale securities in the above table and it is not likely that the Company will have to sell any such securities before a recovery in cost. No impairment losses were recorded during the three and nine months ended September 30, 2015 and 2014.

Table of Contents

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)

Maturities of investment securities at September 30, 2015 are shown below. Maturities of mortgage-backed securities have been adjusted to reflect shorter maturities based upon estimated prepayments of principal. All other investment securities maturities are shown at contractual maturity dates.

| September 30, 2015 | Available-for-Sale | | Held-to-Maturity | |
|---------------------------------------|--------------------|----------------------|------------------|----------------------|
| | Amortized Cost | Estimated Fair Value | Amortized Cost | Estimated Fair Value |
| Within one year | \$344,473 | \$348,859 | \$92,096 | \$94,244 |
| After one year but within five years | 1,119,450 | 1,130,128 | 266,554 | 271,638 |
| After five years but within ten years | 56,054 | 56,755 | 120,530 | 123,839 |
| After ten years | 9,211 | 9,351 | 43,363 | 44,912 |
| Total | \$1,529,188 | \$1,545,093 | \$522,543 | \$534,633 |

As of September 30, 2015, the Company had investment securities callable within one year with amortized costs and estimated fair values of \$82,568 and \$82,773, respectively, including callable structured notes with amortized costs and estimated fair values of \$10,000 and \$10,000, respectively. These investment securities are primarily classified as available-for-sale and included in the after one year but within five years category in the table above.

(4) Loans

The following table presents loans by class as of the dates indicated:

| | September 30, 2015 | December 31, 2014 |
|--------------------------------|-----------------------|----------------------|
| Real estate loans: | | |
| Commercial | \$1,750,797 | \$1,639,422 |
| Construction: | | |
| Land acquisition & development | 212,990 | 220,443 |
| Residential | 112,495 | 96,580 |
| Commercial | 93,775 | 101,246 |
| Total construction loans | 419,260 | 418,269 |
| Residential | 1,020,445 | 999,903 |
| Agricultural | 163,116 | 167,659 |
| Total real estate loans | 3,353,618 | 3,225,253 |
| Consumer: | | |
| Indirect consumer | 616,142 | 552,863 |
| Other consumer | 150,170 | 144,141 |
| Credit card | 65,649 | 65,467 |
| Total consumer loans | 831,961 | 762,471 |
| Commercial | 778,648 | 740,073 |
| Agricultural | 154,855 | 124,859 |
| Other, including overdrafts | 1,712 | 3,959 |
| Loans held for investment | 5,120,794 | 4,856,615 |
| Mortgage loans held for sale | 55,686 | 40,828 |
| Total loans | \$5,176,480 | \$4,897,443 |

Loans from business combinations included in the table above include certain loans that had evidence of deterioration in credit quality since origination and for which it was probable, at acquisition, that all contractually required payments would not be collected.

| Total | \$80,836 | \$860 | \$104,059 | \$825 |

The amount of interest income recognized by the Company within the period that the loans were impaired was primarily related to loans modified in a troubled debt restructuring that remained on accrual status. Interest payments received on non-accrual impaired loans are applied to principal. Interest income is subsequently recognized only to the extent cash payments are received in excess of principal due. If interest on impaired loans had been accrued, interest income on impaired loans would have been approximately \$998 and \$1,246 for the three months ended September 30,

2015 and 2014, respectively, and approximately \$2,932 and \$3,927 for the nine months ended September 30, 2015 and 2014 respectively.

Collateralized impaired loans are generally recorded at the fair value of the underlying collateral using discounted cash flows, independent appraisals and management estimates based upon current market conditions. For loans measured under the present value of cash flows method, the change in present value attributable to the passage of time, if applicable, is recognized in the provision for loan losses and thus no interest income is recognized.

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)

Modifications of performing loans are made in the ordinary course of business and are completed on a case-by-case basis as negotiated with the borrower. Loan modifications typically include interest rate concessions, interest only periods of less than twelve months, short-term payment deferrals and extension of amortization periods to provide payment relief. A loan modification is considered a troubled debt restructuring if the borrower is experiencing financial difficulties and the Company, for economic or legal reasons, grants a concession to the borrower that it would not otherwise consider. Certain troubled debt restructurings are on non-accrual status at the time of restructuring and are typically returned to accrual status after considering the borrower's sustained repayment performance in accordance with the restructuring agreement for a period of at least six months and management is reasonably assured of future performance. If the troubled debt restructuring meets these performance criteria and the interest rate granted at the modification is equal to or greater than the rate that the Company was willing to accept at the time of the restructuring for a new loan with comparable risk, then the loan will return to performing status and the accrual of interest will resume.

The Company had loans renegotiated in troubled debt restructurings of \$42,547 as of September 30, 2015, of which \$25,845 were included in non-accrual loans and \$16,702 were on accrual status. The Company had loans renegotiated in troubled debt restructurings of \$44,227 as of December 31, 2014, of which \$23,275 were included in non-accrual loans and \$20,952 were on accrual status.

The following table presents information on the Company's troubled debt restructurings that occurred during the three and nine months ended September 30, 2015.

| Three Months Ended September 30, 2015 | Number of Notes | Type of Concession | | | | Principal Balance at Restructure Date |
|--|-----------------|----------------------|--------------------------------|--------------------------|-----------|---------------------------------------|
| | | Interest only period | Extension of terms or maturity | Interest rate adjustment | Other (1) | |
| Residential Construction | 1 | \$— | \$— | \$— | \$67 | \$67 |
| Indirect consumer | 2 | — | — | — | 31 | 31 |
| Commercial | 8 | — | 8,744 | 2,959 | 463 | 12,166 |
| Total loans restructured during period | 11 | \$— | \$8,744 | \$2,959 | \$561 | \$12,264 |

(1) Other includes concessions that reduce or defer payments for a specified period of time and/or do not fit into other designated categories.

| Nine Months Ended September 30, 2015 | Number of Notes | Type of Concession | | | | Principal Balance at Restructure Date |
|--|-----------------|----------------------|--------------------------------|--------------------------|-------|---------------------------------------|
| | | Interest only period | Extension of terms or maturity | Interest rate adjustment | Other | |
| Residential Construction | 1 | \$— | \$— | \$— | \$67 | \$67 |
| Indirect Consumer | 2 | — | — | — | 31 | 31 |
| Commercial | 9 | — | 8,754 | 2,959 | 463 | 12,176 |
| Total loans restructured during period | 12 | \$— | \$8,754 | \$2,959 | \$561 | \$12,274 |

(1) Other includes concessions that reduce or defer payments for a specified period of time and/or do not fit into other designated categories.

For troubled debt restructurings that were on non-accrual status or otherwise deemed impaired before the modification, a specific reserve may already be recorded. In periods subsequent to modification, the Company continues to evaluate all troubled debt restructurings for possible impairment and recognizes impairment through the

allowance. Additionally these loans continue to work their way through the credit cycle through charge-off, pay-off or foreclosure. Financial effects of modifications of troubled debt restructurings may include principal loan forgiveness or other charge-offs directly related to the restructuring. The Company had no charge-offs directly related to modifying troubled debt restructurings during the three or nine months ended September 30, 2015 or 2014.

| Commercial | 3 | 264 | 3 | 264 |
| Total | 3 | \$264 | 4 | \$2,009 |

At September 30, 2015, there were no material commitments to lend additional funds to borrowers whose existing loans have been renegotiated or are classified as non-accrual.

As part of the on-going and continuous monitoring of the credit quality of the Company's loan portfolio, management tracks internally assigned risk classifications of loans. The Company adheres to a Uniform Classification System developed jointly by the various bank regulatory agencies to internally risk rate loans. The Uniform Classification System defines three broad categories of criticized assets, which the Company uses as credit quality indicators:

Other Assets Especially Mentioned — includes loans that exhibit weaknesses in financial condition, loan structure or documentation, which if not promptly corrected, may lead to the development of abnormal risk elements.

Substandard — includes loans that are inadequately protected by the current sound worth and paying capacity of the borrower. Although the primary source of repayment for a substandard loan is not currently sufficient; collateral or other sources of repayment are sufficient to satisfy the debt. Continuance of a substandard loan is not warranted unless positive steps are taken to improve the worthiness of the credit.

Doubtful — includes loans that exhibit pronounced weaknesses to a point where collection or liquidation in full, on the basis of currently existing facts, conditions and values, is highly questionable and improbable. Doubtful loans are required to be placed on non-accrual status and are assigned specific loss exposure.

Company management undertakes the same process for assigning risk ratings to acquired loans as it does for originated loans. Acquired loans rated as substandard or lower or that were on non-accrual status or designated as troubled debt restructurings at the time of acquisition are deemed to be acquired credit impaired loans accounted for under ASC Topic 310-30, regardless of whether they are classified as performing or non-performing loans.

The Company performs a quarterly assessment of the adequacy of its allowance for loan losses in accordance with generally accepted accounting principles. The methodology used to assess the adequacy is consistently applied to the Company's loan portfolio and consists of three elements: (1) specific valuation allowances based on probable losses on impaired loans; (2) historical valuation allowances based on loan loss experience for similar loans with similar characteristics and trends; and (3) general valuation allowances determined based on changes in the nature of the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends, general economic conditions and other qualitative risk factors both internal and external to the Company.

Specific allowances are established for loans where management has determined that probability of a loss exists by analyzing the borrower's ability to repay amounts owed, collateral deficiencies and any relevant qualitative or economic factors impacting the loan. Historical valuation allowances are determined by applying percentage loss factors to the credit exposures from outstanding loans. For commercial, agricultural and real estate loans, loss factors are applied based on the internal risk classifications of these loans. For consumer loans, loss factors are applied on a portfolio basis. For commercial, agriculture and real estate loans, loss factor percentages are based on a migration analysis of our historical loss experience, designed to account for credit deterioration. For consumer loans, loss factor percentages are based on a one-year loss history. General valuation allowances are determined by evaluating, on a quarterly basis, changes in the nature and volume of the loan portfolio, overall portfolio quality, industry concentrations, current economic and regulatory conditions and the estimated impact of these factors on historical loss rates.

An allowance for loan losses is established for loans acquired credit impaired and for which the Company projects a decrease in the expected cash flows in periods subsequent to the acquisition of such loans. As of September 30, 2015 and December 31, 2014, the Company's allowance for loan losses included \$344 and \$287, respectively, related to acquired loans.

Foreclosed residential real estate properties of \$1,810 were included in other real estate owned as of September 30, 2015. The Company did not have any consumer mortgage loans collateralized by residential real estate property that were in the process of foreclosure as of September 30, 2015.

(7) Derivatives and Hedging Activities

For asset and liability management purposes, the Company has entered into interest rate swap contracts to hedge against changes in forecasted cash flows due to interest rate exposures. Interest rate swaps are contracts in which a series of interest payments are exchanged over a prescribed period. The notional amount upon which the interest payments are based is not exchanged. The swap agreements are derivative instruments and convert a portion of the Company's forecasted variable rate debt to a fixed rate (i.e., cash flow hedge) over the payment term of the interest rate swap. The effective portion of the gain or loss on cash flow hedging instruments is initially reported as a component of other comprehensive income and subsequently reclassified into earnings in the same period during which the transaction affects earnings. The ineffective portion of the gain or loss on derivative instruments, if any, is recognized in earnings. The Company does not enter into interest rate swap agreements for trading or speculative purposes.

The Company also enters into certain interest rate swap contracts that are not designated as hedging instruments. These derivative contracts relate to transactions in which the Company enters into an interest rate swap with a customer while at the same time entering into an offsetting interest rate swap with a third party financial institution. Because the Company acts as an intermediary for the customer, changes in the fair value of the underlying derivative contracts for the most part offset each other and do not significantly impact the Company's results of operations.

The notional amounts and estimated fair values of the Company's interest rate swap contract are presented in the following table. Fair value estimates are obtained from third parties and are based on pricing models.

| | September 30, 2015 | | December 31, 2014 | |
|--|--------------------|----------------------|-------------------|----------------------|
| | Notional Amount | Estimated Fair Value | Notional Amount | Estimated Fair Value |
| Derivatives designated as hedges: | | | | |
| Interest rate swap-liabilities | \$100,000 | \$436 | \$— | \$— |
| Non-hedging interest rate derivatives: | | | | |
| Interest rate swap-assets | 9,456 | 918 | 3,149 | 61 |

| | | | | |
|--------------------------------|-------|-----|-------|----|
| Interest rate swap-liabilities | 9,456 | 964 | 3,149 | 59 |

Table of Contents

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)

On September 22, 2015, the Company entered into an interest rate swap derivative liability with a notional amount of \$100,000 that was designated as a cash flow hedge. Under the terms of the interest rate swap contract, the Company pays a fixed interest rate of 1.94% and the counterparty pays to the Company a variable interest rate equal to the three-month LIBOR. No cash is exchanged until the effective date, which begins on September 15, 2017 and ends on September 15, 2020. The Company designated the interest payments related to Federal Home Loan Bank borrowings as the cash flow hedge. The hedge was fully effective during the current period. As such, no amount of ineffectiveness was included in the Company's income statement for the three or nine months ended September 30, 2015. The fair value of the interest rate swap is included in other liabilities in the Company's balance sheet with changes in fair value recorded in other comprehensive income. The Company expects the hedge to remain highly effective during the remaining term of the interest rate swap.

The following table presents the pre-tax gains or losses related to the interest rate swap derivative contracts recorded in accumulated other comprehensive income and other non-interest income in the Company's statement of income:

| | Three months ended | | Nine months ended | |
|---|-----------------------|-----------------------|-----------------------|-----------------------|
| | September 30, 2015 | September 30, 2014 | September 30, 2015 | September 30, 2014 |
| Derivatives designated as hedges: | | | | |
| Amount of loss recognized in other comprehensive income (effective portion) | \$436 | \$— | \$436 | \$— |
| Non-hedging interest rate derivatives: | | | | |
| Amount of loss recognized in other non-interest income | 31 | — | 48 | — |

(8) Long-Term Debt

On January 29, 2015, the Company borrowed \$4,960 on a 2.28% note payable maturing July 29, 2022, with interest payable monthly and principal due at maturity. The note is collateralized by the Company's equity interest in Universal Sub CDE, LLC, a community development entity owned 99.9% by the Company.

(9) Capital Stock

The Company had 21,583,324 shares of Class A common stock and 23,761,683 shares of Class B common stock outstanding as of September 30, 2015. The Company had 21,928,932 shares of Class A common stock and 23,859,483 shares of Class B common stock outstanding as of December 31, 2014.

During the nine months ended September 30, 2015, the Company repurchased and retired 765,875 shares of its Class A common stock in open market transactions at an aggregate purchase price of \$19,921. During the nine months ended September 30, 2014, the Company repurchased and retired 325,418 shares of its Class A common stock in a privately negotiated transaction at an aggregate purchase price of \$8,143. The repurchases were made pursuant to stock repurchase programs approved by the Company's Board of Directors. Under the terms of the current stock repurchase program, the Company may repurchase up to an additional 1,000,000 shares of its Class A common stock. All other stock repurchases during the three and nine months ended September 30, 2015 and 2014 were redemptions of vested restricted shares tendered in lieu of cash for payment of income tax withholding amounts by participants of the Company's 2006 Equity Compensation Plan.

On April 3, 2015, the Company filed a Registration Statement on Form S-8 to register an additional 2,000,000 shares of Class A common stock to be issued pursuant to the Company's 2015 Equity and Incentive Plan.

 (Dollars in thousands, except share and per share data)

(10) Earnings per Common Share

Basic earnings per common share is calculated by dividing net income by the weighted average number of common shares outstanding during the period presented, excluding unvested restricted stock. Diluted earnings per share is calculated by dividing net income by the weighted average number of common shares determined for the basic earnings per share computation plus the dilutive effects of stock-based compensation using the treasury stock method.

The following table sets forth the computation of basic and diluted earnings per share for the three and nine month periods ended September 30, 2015 and 2014.

| | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|--|----------------------------------|------------|---------------------------------|------------|
| | 2015 | 2014 | 2015 | 2014 |
| Net income | \$20,162 | \$19,155 | \$63,364 | \$61,625 |
| Weighted average common shares outstanding for basic earnings per share computation | 45,150,104 | 44,911,858 | 45,223,988 | 44,321,326 |
| Dilutive effects of stock-based compensation | 428,874 | 548,430 | 481,636 | 562,667 |
| Weighted average common shares outstanding for diluted earnings per common share computation | 45,578,978 | 45,460,288 | 45,705,624 | 44,883,993 |
| Basic earnings per common share | \$0.45 | \$0.43 | \$1.40 | \$1.39 |
| Diluted earnings per common share | \$0.44 | \$0.42 | \$1.39 | \$1.37 |

The Company had 165,489 and 102,529 shares of unvested restricted stock as of September 30, 2015 and 2014, respectively, that were not included in the computation of diluted earnings per common share because performance conditions for vesting had not been met. The Company had 5,884 shares of unvested restricted stock outstanding as of September 30, 2015 that were not included in the computation of diluted earnings per common shares because their effect would be anti-dilutive. The Company had no anti-dilutive equity instruments outstanding as of September 30, 2014.

(11) Regulatory Capital

On July 2, 2013, the Board of Governors of the Federal Reserve Bank issued a final rule implementing a revised regulatory capital framework for U.S. banks in accordance with the Basel III international accord and satisfying related mandates under the Dodd-Frank Wall Street Reform and Consumer Protection Act. The revised regulatory capital framework ("Basel III") includes a more stringent definition of capital and introduces a new common equity tier 1, or CET1, capital requirement, sets forth a comprehensive methodology for calculating risk-weighted assets, introduces a conservation buffer and sets out minimum capital ratios and overall capital adequacy standards. As a banking organization subject to the standardized approach, Basel III became effective for us on January 1, 2015. Certain deductions and adjustments to regulatory capital began to phase in starting January 1, 2015 and will be fully implemented on January 1, 2018. The capital conservation buffer phases in beginning January 1, 2016 and will be fully implemented on January 1, 2019.

CET1 capital predominantly includes common shareholders' equity, less certain deductions for goodwill, intangible assets and deferred tax assets that arise from net operating losses and tax credit carry-forwards. The Company has elected to permanently exclude accumulated other comprehensive income from CET1 capital. Certain deductions and adjustments to CET1 capital, tier 1 capital and tier 2 capital are subject to phase-in through December 31, 2017.

Table of Contents

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)

As of September 30, 2015 and December 31, 2014, the Company exceeded all capital adequacy requirements to which it is subject. Actual capital amounts and ratios for the Company and its bank subsidiary, as of September 30, 2015 and December 31, 2014 are presented in the following tables:

| | Actual Amount | Ratio | | Adequately Capitalized Amount | Ratio | | Well Capitalized (1) Amount | Ratio | |
|--|------------------|-------|---|----------------------------------|-------|---|--------------------------------|-------|---|
| September 30, 2015 | | | | | | | | | |
| Total risk-based capital: | | | | | | | | | |
| Consolidated | \$931,352 | 15.3 | % | \$487,670 | 8.0 | % | \$609,588 | 10.0 | % |
| FIB | 868,800 | 14.3 | | 486,925 | 8.0 | | 608,656 | 10.0 | |
| Tier 1 risk-based capital: | | | | | | | | | |
| Consolidated | 843,096 | 13.8 | | 365,753 | 6.0 | | 487,670 | 8.0 | |
| FIB | 788,544 | 13.0 | | 365,194 | 6.0 | | 486,925 | 8.0 | |
| Common equity tier 1 risk-based capital: | | | | | | | | | |
| Consolidated | 763,096 | 12.5 | | 274,315 | 4.5 | | 396,232 | 6.5 | |
| FIB | 788,544 | 13.0 | | 273,895 | 4.5 | | 395,626 | 6.5 | |
| Leverage capital ratio: | | | | | | | | | |
| Consolidated | 843,096 | 10.1 | | 332,961 | 4.0 | | 416,202 | 5.0 | |
| FIB | 788,544 | 9.5 | | 332,071 | 4.0 | | 415,089 | 5.0 | |
| | Actual Amount | Ratio | | Adequately Capitalized Amount | Ratio | | Well Capitalized (1) Amount | Ratio | |
| December 31, 2014 | | | | | | | | | |
| Total risk-based capital: | | | | | | | | | |
| Consolidated | \$897,769 | 16.2 | % | \$444,685 | 8.0 | % | \$555,856 | 10.0 | % |
| FIB | 832,907 | 15.1 | | 442,468 | 8.0 | | 553,085 | 10.0 | |
| Tier 1 risk-based capital: | | | | | | | | | |
| Consolidated | 807,229 | 14.5 | | 222,343 | 4.0 | | 333,514 | 6.0 | |
| FIB | 754,708 | 13.7 | | 221,234 | 4.0 | | 331,851 | 6.0 | |
| Leverage capital ratio: | | | | | | | | | |
| Consolidated | 807,229 | 9.6 | | 335,897 | 4.0 | | 419,871 | 5.0 | |
| FIB | 754,708 | 9.2 | | 330,006 | 4.0 | | 412,507 | 5.0 | |

The ratios for the well-capitalized requirement are only applicable to FIB. However, the Company manages its (1) capital position as if the requirement applies to the consolidated entity and has presented the ratios as if they also applied on a consolidated basis.

(12) Commitments and Contingencies

Legal Proceedings. The Company's wholly owned banking subsidiary, FIB, was a defendant in a lender liability lawsuit, Kelly Logging Inc. v. First Interstate Bank ("the case"). The case was settled on August 31, 2015. Legal and settlement costs related to the case of \$5,000 and \$4,000 during the three and nine months ended September 30, 2015 and 2014, respectively, are included in loss contingency expenses in the accompanying statements of income.

In the normal course of business, the Company is involved in various other claims and litigation. In the opinion of management, following consultation with legal counsel, the ultimate liability or disposition thereof of all other claims and litigation is not expected to have a material adverse effect on the consolidated financial condition, results of operations or liquidity of the Company.

Table of Contents

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

Other Commitments. As of September 30, 2015, the Company had commitments under construction agreements of \$3,020.

(13) Financial Instruments with Off-Balance Sheet Risk

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the commitment contract. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. At September 30, 2015, commitments to extend credit to existing and new borrowers approximated \$1,591,054, which included \$545,636 on unused credit card lines and \$374,148 with commitment maturities beyond one year.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. At September 30, 2015, the Company had outstanding standby letters of credit of \$59,721. The estimated fair value of the obligation undertaken by the Company in issuing the standby letters of credit is included in other liabilities in the Company's consolidated balance sheet.

(14) Supplemental Disclosures to Consolidated Statement of Cash Flows

The Company transferred loans of \$5,380 and \$4,797 to OREO during the nine months ended September 30, 2015 and 2014, respectively.

The Company transferred internally originated mortgage servicing rights of \$2,709 and \$2,005 from loans to mortgage servicing assets during the nine months ended September 30, 2015 and 2014, respectively.

The Company transferred loans of \$10,619 to loans held for sale during the nine months ended September 30, 2015.

The Company transferred bank buildings and land pending disposal with book values of \$1,805 to other assets during the nine months ended September 30, 2015.

During the nine months ended September 30, 2014, the Company issued 1,378,230 shares of its Class A common stock valued at \$35,972 as partial consideration for the acquisition of MWFC.

| Derivative assets: | | | | |
| Interest rate swaps | 61 | — | 61 | — |
| Derivative liabilities: | | | | |
| Interest rate swaps | 59 | — | 59 | — |

There were no changes in valuation methodologies or transfers between levels of the fair value hierarchy during the nine months ended September 30, 2015 or 2014.

The methodologies used by the Company in determining the fair values of each class of financial instruments are based primarily on the use of independent, market-based data to reflect a value that would be reasonably expected in an orderly transaction between market participants at the measurement date.

The Company obtains fair value measurements for investment securities and derivative financial instruments from independent pricing services. The vendors chosen by the Company are widely recognized vendors whose evaluations support the pricing functions of financial institutions, investment and mutual funds, and portfolio managers. The

Company has documented and evaluated the pricing methodologies used by the investment securities pricing vendors and maintains internal processes that regularly test valuations. These internal processes include obtaining and reviewing available reports on internal controls, evaluating the prices for reasonableness given market changes, obtaining and evaluating the inputs used in the model for a sample of securities, investigating anomalies and confirming determinations through discussions with the vendor. For investment securities, if needed, a broker may be utilized to determine the reported fair value. Further details on the methods used to estimate the fair value of each class of financial instruments above are discussed below.

Table of Contents

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)

Investment Securities Available-for-Sale. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the investment's terms and conditions, among other things.

Derivative Liabilities. Fair values for interest rate swap derivative liabilities are based upon the estimated amounts to settle the contracts considering current interest rates and are calculated using discounted cash flows that are observable or that can be corroborated by observable market data. The inputs used to determine fair value include the 3 month LIBOR forward curve to estimate variable rate cash inflows and the Fed Funds Effective Swap Rate to estimate the discount rate. The estimated variable rate cash inflows are compared to the fixed rate outflows and such difference is discounted to a present value to estimate the fair value of the interest rate swaps.

Additionally, from time to time, certain assets are measured at fair value on a non-recurring basis. Adjustments to fair value generally result from the application of lower-of-cost-or-market accounting or write-downs of individual assets due to impairment.

The following table presents information about the Company's assets and liabilities measured at fair value on a non-recurring basis.

| As of September 30, 2015 | Balance | Fair Value Measurements at Reporting Date Using | | |
|---|----------|--|---|---|
| | | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Impaired loans | \$44,940 | \$ — | \$ — | \$44,940 |
| Other real estate owned | 4,067 | — | — | 4,067 |
| Long-lived assets to be disposed of by sale | 2,083 | — | — | 2,083 |

| As of December 31, 2014 | Balance | Fair Value Measurements at Reporting Date Using | | |
|---|----------|--|---|---|
| | | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Impaired loans | \$30,494 | \$ — | \$ — | \$30,494 |
| Other real estate owned | 4,554 | — | — | 4,554 |
| Long-lived assets to be disposed of by sale | 1,083 | — | — | 1,083 |

Impaired Loans. Collateralized impaired loans are reported at the fair value of the underlying collateral if repayment is expected solely from collateral. The impaired loans are reported at fair value through specific valuation allowance allocations. In addition, when it is determined that the fair value of an impaired loan is less than the recorded investment in the loan, the carrying value of the loan is adjusted to fair value through a charge to the allowance for loan losses. Collateral values are estimated using independent appraisals and management estimates of current market conditions. As of September 30, 2015, certain impaired loans with a carrying value of \$47,502 were reduced by specific valuation allowance allocations of \$8,573 and partial loan charge-offs of \$11,134 resulting in a reported fair value of \$27,795. As of December 31, 2014, certain impaired loans with a carrying value of \$45,046 were reduced by

specific valuation allowance allocations of \$5,792 and partial loan charge-offs of \$8,760 resulting in a reported fair value of \$30,494.

OREO. The fair values of OREO are estimated using independent appraisals and management estimates of current market conditions. Upon initial recognition, write-downs based on the foreclosed asset's fair value at foreclosure are reported through charges to the allowance for loan losses. Periodically, the fair value of foreclosed assets is remeasured with any subsequent write-downs charged to OREO expense in the period in which they are identified. Write-downs of \$179 during the nine months ended September 30, 2015 included \$106 directly related to receipt of updated appraisals and 73 based on management estimates of the current fair value of properties. Write downs of \$87 during the nine months ended September 30, 2014 were based on management's estimate of the current fair value of the properties.

Table of Contents

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)

Long-lived Assets to be Disposed of by Sale. Long-lived assets to be disposed of by sale are carried at the lower of carrying value or fair value less estimated costs to sell. The fair values of long-lived assets to be disposed of by sale are based upon observable market data and management estimates of current market conditions. As of September 30, 2015, the Company had long-lived assets to be disposed of by sale with carrying values aggregating \$3,590 that were reduced by write-downs of \$1,507 resulting in an aggregate fair value of \$2,083. As of December 31, 2014, the Company had long-lived assets to be disposed of by sale with carrying values aggregating \$1,785 that were reduced by write-downs of \$702 resulting in an aggregate fair value of \$1,083.

In addition, mortgage loans held for sale are required to be measured at the lower of cost or fair value. The fair value of mortgage loans held for sale is based upon binding contracts or quotes or bids from third party investors. As of September 30, 2015 and December 31, 2014, all mortgage loans held for sale were recorded at cost.

The following table presents additional quantitative information about assets measured at fair value on a non-recurring basis and for which the Company has utilized Level 3 inputs to determine fair values:

| As of September 30, 2015 | Fair Value | Valuation Technique | Unobservable Inputs | Range (Weighted Average) |
|---|------------|---------------------|----------------------|--------------------------|
| Impaired loans | \$44,940 | Appraisal | Appraisal adjustment | 0% - 51% (19%) |
| Other real estate owned | 4,067 | Appraisal | Appraisal adjustment | 0% - 50% (15%) |
| Long-lived assets to be disposed of by sale | 2,083 | Appraisal | Appraisal adjustment | 0% - 9% (5%) |

| As of December 31, 2014 | Fair Value | Valuation Technique | Unobservable Inputs | Range (Weighted Average) |
|---|------------|---------------------|----------------------|--------------------------|
| Impaired loans | \$30,494 | Appraisal | Appraisal adjustment | 0% - 51% (19%) |
| Other real estate owned | 4,554 | Appraisal | Appraisal adjustment | 0% - 50% (15%) |
| Long-lived assets to be disposed of by sale | 1,083 | Appraisal | Appraisal adjustment | 0% - 9% (5%) |

The Company is required to disclose the fair value of financial instruments for which it is practical to estimate fair value. The methodologies for estimating the fair value of financial instruments that are measured at fair value on a recurring or non-recurring basis are discussed above. The methodologies for estimating the fair value of other financial instruments are discussed below. For financial instruments bearing a variable interest rate where no credit risk exists, it is presumed that recorded book values are reasonable estimates of fair value.

Financial Assets. Carrying values of cash, cash equivalents and accrued interest receivable approximate fair values due to the liquid and/or short-term nature of these instruments. Fair values for investment securities held-to-maturity are obtained from an independent pricing service, which considers observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the investment's terms and conditions, among other things. Fair values of fixed rate loans and variable rate loans that reprice on an infrequent basis are estimated by discounting future cash flows using current interest rates at which similar loans with similar terms would be made to borrowers of similar credit quality. Carrying values of variable rate loans that reprice frequently, and with no change in credit risk, approximate the fair values of these instruments.

Financial Liabilities. The fair values of demand deposits, savings accounts, securities sold under repurchase agreements and accrued interest payable are the amounts payable on demand at the reporting date. The fair values of

fixed-maturity certificates of deposit are estimated using external market rates currently offered for deposits with similar remaining maturities. The fair values of derivative liabilities are obtained from an independent pricing service, which considers observable data that may include the three-month LIBOR forward curve, the federal funds effective swap rate and cash flows, among other things. The carrying values of the interest bearing demand notes to the United States Treasury are deemed an approximation of fair values due to the frequent repayment and repricing at market rates. The fixed and floating rate subordinated debentures, floating rate subordinated term loan, notes payable to the FHLB, fixed rate subordinated term debt, and capital lease obligation are estimated by discounting future cash flows using current rates for advances with similar characteristics.

 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share and per share data)

Commitments to Extend Credit and Standby Letters of Credit. The fair value of commitments to extend credit and standby letters of credit, based on fees currently charged to enter into similar agreements, is not significant.

The estimated fair values of financial instruments that are reported in the Company's consolidated balance sheets, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value, are as follows:

| As of September 30, 2015 | Carrying Amount | Estimated Fair Value | Fair Value Measurements at Reporting Date Using | | |
|---|-----------------|----------------------|--|---|---|
| | | | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

(17) Recent Authoritative Accounting Guidance

ASU 2014-04 “Receivables-Troubled Debt Restructurings by Creditors (Subtopic 310-40): Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure.” The amendments in ASU 2014-04 clarify that an in-substance repossession or foreclosures occurs, and a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan, upon either (i) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (ii) the borrower conveying all interest in the residential real estate property to the creditor to satisfy the loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. The amendments in ASU 2014-04 also require interim and annual disclosure of both (i) the amount of foreclosed residential real estate property held by the creditor and (ii) the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure. The Company adopted the amendments in ASU 2014-04 effective January 1, 2015 using a prospective transition method. Adoption of the amendments in ASU 2014-04 did not have a material impact on the Company’s consolidated financial statements, results of operations or liquidity.

ASU 2014-09 "Revenue from Contracts with Customers." The amendments in ASU 2014-09 introduce a new five-step revenue recognition model in which an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 also requires disclosures sufficient to enable users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative disclosures about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. ASU 2015-14 was released in August of 2015 and the amendments defer the effective date of 2014-09 for all entities by one year. Public companies, certain not-for-profit and certain employee benefit plans should apply the guidance to annual reporting period beginning after December 15, 2017. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016. The Company is continuing to evaluate the new guidance to determine the impact it will have on its consolidated financial statements, results of operations or liquidity.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

ASU 2014-11 "Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures." The amendments in ASU 2014-11 expand secured borrowing treatment for certain repurchase agreements. Under the amendments in ASU 2014-11, repurchase-to-maturity transactions and repurchase agreements executed as repurchase financing transactions are required to be accounted for as secured borrowings. ASU 2014-11 requires additional disclosures about certain transactions accounted for as a sale in which the transferor retains substantially all of the exposure to the economic return on the transferred financial assets through an agreement with the same counterparty. ASU 2014-11 also requires disclosure of the types of collateral pledged and liabilities associated with an entity's repurchase agreements, securities lending transactions and repurchase-to-maturity transactions accounted for as secured borrowings. The Company adopted the amendments in ASU 2014-11 are effective January 1, 2015. The adoption did not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

ASU 2014-12 "Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could be Achieved after the Requisite Service Period." ASU 2014-12 amends Accounting Standards Codification ("ASC") Topic 718, Compensation-Stock Compensation, to clarify that a performance target that affects the vesting of a share-based payment award and that could be achieved after the requisite service period should be treated as a performance condition that affects the vesting of the award. ASU 2014-12 further clarifies that the requisite service period ends when the employees can cease rendering service and still be eligible to vest in the award if the performance target is achieved. The amendments in ASU 2014-12 are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. The amendments in ASU 2014-12 may be applied prospectively to all awards granted or modified after the effective date or retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. The amendments in ASU 2014-12 will not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

ASU 2014-14 "Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure." ASU 2014-14 updates ASC Subtopic 310-40, Receivables-Troubled Debt Restructurings by Creditors, to require that a mortgage loan be derecognized and that a separate other receivable be recognized upon foreclosure if (i) the loan has a government guarantee that is not separable from the loan before foreclosure; (ii) at the time of foreclosure, the creditor has the intent to convey the real estate property to the guarantor and make a claim on the guarantee, and the creditor has the ability to recover under that claim; and, (iii) any amount of the claim that is determined on the basis of the fair value of the real estate is fixed at the time of foreclosure. ASU 2014-14 provides that, upon foreclosure, the separate other receivable should be measured based on the amount of the loan balance (principal and interest) expected to be recovered from the guarantor. The Company adopted the amendments in ASU 2014-14 effective January 1, 2015, using a prospective transition method. Adoption of the amendments in ASU 2014-12 did not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

ASU 2014-16 "Determining Whether the Host Contract in a Hybrid Financial Instrument Issued in the Form of a Share is More Akin to Debt or to Equity." The amendments in ASU 2014-16 clarify that an entity should consider all relevant terms and features-including the embedded derivative feature being evaluated for bifurcation-in evaluating the nature of the host contract within a hybrid financial instrument. The amendments further clarify that no single term or feature would necessarily determine the economic characteristics and risk of the host contract. Rather, the nature of the host contract depends upon the economic characteristics and risk of the entire hybrid financial instrument. The amendments in ASU 2014-16 are effective for the Company for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. The effects of initially adopting the amendments in ASU 2014-16

should be applied on a modified retrospective basis to existing hybrid financial instruments issued in the form of a share as of the beginning of the fiscal year for which the amendments are effective. Retrospective application is permitted to all relevant prior periods. The amendments in ASU 2014-16 will not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

ASU 2015-02 "Amendments to the Consolidation Analysis." The amendments in ASU 2015-02 (i) modify the evaluation of whether limited partnerships and similar legal entities are variable interest entities or voting interest entities, (ii) eliminate the presumption that a general partner should consolidate a limited partnership, (iii) affect the consolidation analysis of reporting entities that are involved with variable interest entities, particularly those that have fee arrangements and related party relationships, and (iv) provide scope exceptions from consolidation guidance for

Table of Contents

FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share and per share data)

reporting entities with interest in legal entities that are required to comply or operate in accordance with requirements of the Investment Company Act of 1940 for registered market funds. The amendments in ASU 2015-02 are effective for public entities for fiscal years, and interim periods within those years, beginning after December 15, 2015, with early adoption permitted. The amendments in ASU 2015-02, which may be adopted using a retrospective or modified retrospective approach, will not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

ASU 2015-03 "Simplifying the Presentation of Debt Issuance Costs." The amendments in ASU 2015-03 require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, rather than as a deferred charge. The guidance in Update 2015-03 did not address presentation or subsequent measurement of debt issues costs related to line-of-credit arrangements. ASU 2015-15 addresses this gap. ASU 2015-15 adds that the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The amendments in ASU 2015-03 are effective for public entities for fiscal years, and interim periods within those years, beginning after December 15, 2015, and should be applied on a retrospective basis. The amendments in ASU 2015-03 will not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

ASU 2015-05 "Intangibles-Goodwill and Other Internal-Use Software." The amendments in ASU 2015-05 (i) provide guidance about whether a cloud computing arrangement includes a software license. Under the guidance in ASU 2015-05, if a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The guidance in ASU 2015-05 does not change generally accepted accounting principles for a customer's accounting for service contracts. The amendments in ASU 2015-05 are effective for public entities for annual periods, including interim periods within those annual periods, beginning after December 15, 2015, with early adoption permitted. The amendments in ASU 2015-05, which may be adopted retrospectively or prospectively to all arrangements entered into or materially modified after the effective date. Adoption of the amendments in ASU 2015-05 will not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

ASU 2015-10 "Technical Corrections and Improvements." The amendments in ASU 2015-10 represent changes to clarify the codification, correct unintended application of guidance, or make minor improvements to the codification that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. The amendments in ASU 2015-10 that require transition guidance are effective for all entities for fiscal years, and interim periods within those years, beginning after December 15, 2015, with early adoption permitted. All other amendments in ASU 2015-10 became effective in June 2015. The amendments in ASU 2015-03 will not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

ASU 2015-16 "Business Combinations-Simplifying the Accounting for Measurement-Period Adjustments." The amendments in ASU 2015-16 eliminate the requirement to retrospectively account for adjustments made to provisional amounts recognized as part of a business combination. Under the amendments in ASU 2015-16, an acquirer must recognize adjustments to the provisional amounts that are identified during the measurement period in

the reporting period in which the adjustment amounts are determined. The amendments in ASU 2015-16 require that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. ASU 2015-16 is effective for the Company for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The amendments in ASU 2015-16, which are applied prospectively to adjustments to provisional amounts that occur after the effective date, will not have a material impact on the Company's consolidated financial statements, results of operations or liquidity.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2014, including the audited financial statements contained therein, filed with the Securities and Exchange Commission, or SEC.

When we refer to "we," "our," and "us" in this report, we mean First Interstate BancSystem, Inc. and our consolidated subsidiaries, unless the context indicates that we refer only to the parent company, First Interstate BancSystem, Inc.

Cautionary Note Regarding Forward-Looking Statements and Factors that Could Affect Future Results

"Forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Rule 175 promulgated thereunder, and Section 21E of the Securities Exchange Act of 1934, as amended, and Rule 3b-6 promulgated thereunder, that involve inherent risks and uncertainties. Any statements about our plans, objectives, expectations, strategies, beliefs, or future performance or events constitute forward-looking statements. Such statements are identified as those that include words or phrases such as "believes," "expects," "anticipates," "plans," "trend," "objective," "continue" or similar expressions or future or conditional verbs such as "will," "would," "should," "could," "might," "may" or similar expressions. Forward-looking statements involve known and unknown risks, uncertainties, assumptions, estimates and other important factors that could cause actual results to differ materially from any results, performance or events expressed or implied by such forward-looking statements. The following factors, among others, may cause actual results to differ materially from current expectations in the forward-looking statements, including those set forth in this report: continuing or worsening business and economic conditions, adverse economic conditions affecting Montana, Wyoming and western South Dakota, credit losses, lending risk, adequacy of the allowance for loan losses, impairment of goodwill, failure to manage growth, access to low-cost funding sources, changes in interest rates, dependence on the Company's management team, ability to attract and retain qualified employees, governmental regulation and changes in regulatory, tax and accounting rules and interpretations, failure of technology, cyber-security, unfavorable resolution of pending litigation, inability to meet liquidity requirements, environmental remediation and other costs, ineffective internal operational controls, competition, reliance on external vendors, litigation pertaining to fiduciary responsibilities, failure to effectively implement technology-driven products and services, soundness of other financial institutions, inability of our bank subsidiary to pay dividends, implementation of new lines of business or new product or service offerings, change in dividend policy, volatility of Class A common stock, decline in market price of Class A common stock, dilution as a result of future equity issuances, uninsured nature of any investment in Class A common stock, voting control of Class B stockholders, anti-takeover provisions, controlled company status, and, subordination of common stock to Company debt.

A more detailed discussion of each of the foregoing risks is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, filed February 27, 2015. These factors and the other risk factors described in the Company's periodic and current reports filed with the SEC from time to time, however, are not necessarily all of the important factors that could cause the Company's actual results, performance or achievements to differ materially from those expressed in or implied by any of the Company's forward-looking statements. Other unknown or unpredictable factors also could harm the Company's results. Investors and others are encouraged to read the more detailed discussion of the Company's risks contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made and we do not undertake or assume any obligation to update publicly any of these statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Executive Overview

We are a financial holding company headquartered in Billings, Montana. As of September 30, 2015, we had consolidated assets of \$8,605 million, deposits of \$7,036 million, loans of \$5,176 million and total stockholders' equity of \$939 million. We currently operate 81 banking offices, including detached drive-up facilities, in 45 communities located in Montana, Wyoming and South Dakota. Through our bank subsidiary, First Interstate Bank, or FIB, we deliver a comprehensive range of banking products and services to individuals, businesses, municipalities and other entities throughout our market areas. Our customers participate in a wide variety of industries, including energy, tourism, agriculture, healthcare, professional services, education, governmental services, construction, mining, retail and wholesale trade.

Table of Contents

Our Business

Our principal business activity is lending to and accepting deposits from individuals, businesses, municipalities and other entities. We derive our income principally from interest charged on loans and, to a lesser extent, from interest and dividends earned on investments. We also derive income from non-interest sources such as fees received in connection with various lending and deposit services; trust, employee benefit, investment and insurance services; mortgage loan originations, sales and servicing; merchant and electronic banking services; and from time to time, gains on sales of assets. Our principal expenses include interest expense on deposits and borrowings, operating expenses, provisions for loan losses and income tax expense.

Our loan portfolio consists of a mix of real estate, consumer, commercial, agricultural and other loans, including fixed and variable rate loans. Our real estate loans comprise commercial real estate, construction (including residential, commercial and land development loans), residential, agricultural and other real estate loans. Fluctuations in the loan portfolio are directly related to the economies of the communities we serve. While each loan originated generally must meet minimum underwriting standards established in our credit policies, lending officers are granted discretion within pre-approved limits in approving and pricing loans to assure that the banking offices are responsive to competitive issues and community needs in each market area. We fund our loan portfolio primarily with the core deposits from our customers, generally without utilizing brokered deposits and with minimal reliance on wholesale funding sources.

Recent Developments

On March 26, 2015, the Company entered into an agreement and plan of merger to acquire all of the outstanding stock of Absarokee Bancorporation, Inc., or Absarokee, a Montana-based bank holding company that operated one wholly-owned subsidiary bank, United Bank, with branches located in three Montana communities adjacent to the Company's existing market areas. The acquisition was completed on July 24, 2015. Pursuant to the terms of the Agreement and Plan of Merger to acquire Absarokee, the Company paid cash consideration of \$7.2 million. As of the acquisition date, Absarokee had total assets of \$73 million, loans of \$38 million and deposits of \$64 million. Immediately subsequent to the acquisition, the Company merged United Bank with and into its existing banking subsidiary, FIB. For additional information regarding the acquisition, see "Note 2 – Acquisitions" in the accompanying "Notes to Unaudited Consolidated Financial Statements" included in this report.

On July 2, 2013, the Board of Governors of the Federal Reserve Bank issued a final rule implementing a revised regulatory capital framework for U.S. banks in accordance with the Basel III international accord. As a banking organization subject to the standardized approach, the revised regulatory capital framework, or Basel III, became effective for us on January 1, 2015. Basel III includes a more stringent definition of capital and introduces a new common equity tier 1, or CET1, capital requirement, sets forth a comprehensive methodology for calculating risk-weighted assets, introduces a conservation buffer and sets out minimum capital ratios and overall capital adequacy standards. Certain deductions and adjustments to regulatory capital phase in starting January 1, 2015 and will be fully implemented on January 1, 2018. The capital conservation buffer phases in beginning January 1, 2016 and will be fully implemented on January 1, 2019. As of September 30, 2015 and December 31, 2014, we had capital levels that, in all cases, exceeded the well-capitalized guidelines. For additional information regarding our capital levels, see "Capital Resources and Liquidity Management" included herein and "Note 11 – Regulatory Capital" in the accompanying "Notes to Unaudited Consolidated Financial Statements" included in this report.

Primary Factors Used in Evaluating Our Business

As a banking institution, we manage and evaluate various aspects of both our financial condition and our results of operations. We monitor our financial condition and performance on a monthly basis at our holding company, at the

Bank and at each banking office. We evaluate the levels and trends of the line items included in our balance sheet and statements of income, as well as various financial ratios that are commonly used in our industry. We analyze these ratios and financial trends against both our own historical levels and the financial condition and performance of comparable banking institutions in our region and nationally.

Results of Operations

Principal factors used in managing and evaluating our results of operations include return on average equity, net interest income, non-interest income, non-interest expense and net income. Net interest income is affected by the level of interest rates, changes in interest rates and changes in the volume and composition of interest earning assets and interest bearing liabilities. The most significant impact on our net interest income between periods is derived from the interaction of changes in the rates earned or paid on interest earning assets and interest bearing liabilities, which we refer to as interest rate spread. The volume of loans, investment securities and other interest earning assets, compared to the volume of interest bearing deposits and indebtedness, combined with the interest rate spread, produces changes in our net interest income between periods. Non-interest bearing sources of funds, such as demand deposits and stockholders' equity, also support earning assets.

Table of Contents

The impact of free funding sources is captured in the net interest margin, which is calculated as net interest income divided by average earning assets. We evaluate our net interest income on factors that include the yields on our loans and other earning assets, the costs of our deposits and other funding sources, the levels of our net interest spread and net interest margin and the provisions for loan losses required to maintain our allowance for loan losses at an adequate level.

We seek to increase our non-interest income over time and we evaluate our non-interest income relative to the trends of the individual types of non-interest income in view of prevailing market conditions.

We manage our non-interest expenses in consideration of growth opportunities and our community banking model that emphasizes customer service and responsiveness. We evaluate our non-interest expense on factors that include our non-interest expense relative to our average assets, our efficiency ratio and the trends of the individual categories of non-interest expense.

Finally, we seek to increase our net income and provide favorable shareholder returns over time, and we evaluate our net income relative to the performance of other bank holding companies on factors that include return on average assets, return on average equity, total shareholder return and growth in earnings.

Financial Condition

Principal areas of focus in managing and evaluating our financial condition include liquidity, the diversification and quality of our loans, the adequacy of our allowance for loan losses, the diversification and terms of our deposits and other funding sources, the re-pricing characteristics and maturities of our assets and liabilities, including potential interest rate exposure and the adequacy of our capital levels. We seek to maintain sufficient levels of cash and investment securities to meet potential payment and funding obligations, and we evaluate our liquidity on factors that include the levels of cash and highly liquid assets relative to our liabilities, the quality and maturities of our investment securities, the ratio of loans to deposits and any reliance on brokered certificates of deposit or other wholesale funding sources.

We seek to maintain a diverse and high quality loan portfolio and evaluate our asset quality on factors that include the allocation of our loans among loan types, credit exposure to any single borrower or industry type, non-performing assets as a percentage of total loans and OREO, and loan charge-offs as a percentage of average loans. We seek to maintain our allowance for loan losses at a level adequate to absorb probable losses inherent in our loan portfolio at each balance sheet date, and we evaluate the level of our allowance for loan losses relative to our overall loan portfolio and the level of non-performing loans and potential charge-offs.

We seek to fund our assets primarily using core customer deposits spread among various deposit categories, and we evaluate our deposit and funding mix on factors that include the allocation of our deposits among deposit types, the level of our non-interest bearing deposits, the ratio of our core deposits (i.e. excluding time deposits above \$100,000) to our total deposits and our reliance on brokered deposits or other wholesale funding sources, such as borrowings from other banks or agencies. We seek to manage the mix, maturities and re-pricing characteristics of our assets and liabilities to maintain relative stability of our net interest rate margin in a changing interest rate environment, and we evaluate our asset-liability management using models to evaluate the changes to our net interest income under different interest rate scenarios.

Finally, we seek to maintain adequate capital levels to absorb unforeseen operating losses and to help support the growth of our balance sheet. We evaluate our capital adequacy using the regulatory and financial capital ratios including leverage capital ratio, tier 1 risk-based capital ratio, total risk-based capital ratio, common equity tier 1

risk-based capital ratio and tangible common equity to tangible assets.

Critical Accounting Estimates and Significant Accounting Policies

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States and follow general practices within the industries in which we operate. Application of these principles requires management to make estimates, assumptions and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes. The most significant accounting policies we follow are summarized in Note 1 of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Our critical accounting estimates are summarized below. Management considers an accounting estimate to be critical if: (1) the accounting estimate requires management to make particularly difficult, subjective and/or complex judgments about matters that are inherently uncertain and (2) changes in the estimate that are reasonably likely to occur from period to period, or the use of different estimates that management could have reasonably used in the current period, would have a material impact on our consolidated financial statements, results of operations or liquidity.

Table of Contents

Allowance for Loan Losses

The provision for loan losses creates an allowance for loan losses known and inherent in the loan portfolio at each balance sheet date. The allowance for loan losses represents management's estimate of probable credit losses inherent in the loan portfolio.

We perform a quarterly assessment of the risks inherent in our loan portfolio, as well as a detailed review of each significant loan with identified weaknesses. Based on this analysis, we record a provision for loan losses in order to maintain the allowance for loan losses at appropriate levels. In determining the allowance for loan losses, we estimate losses on specific loans, or groups of loans, where the probable loss can be identified and reasonably determined. Determining the amount of the allowance for loan losses is considered a critical accounting estimate because it requires significant judgment and the use of subjective measurements, including management's assessment of the internal risk classifications of loans, historical loan loss rates, changes in the nature of the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends and the impact of current local, regional and national economic factors on the quality of the loan portfolio. Changes in these estimates and assumptions are possible and may have a material impact on our allowance, and therefore our consolidated financial statements or results of operations. The allowance for loan losses is maintained at an amount we believe is sufficient to provide for estimated losses inherent in our loan portfolio at each balance sheet date, and fluctuations in the provision for loan losses result from management's assessment of the adequacy of the allowance for loan losses. Management monitors qualitative and quantitative trends in the loan portfolio, including changes in the levels of past due, internally classified and non-performing loans. Note 1 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2014 describes the methodology used to determine the allowance for loan losses. A discussion of the factors driving changes in the amount of the allowance for loan losses is included herein under the heading "Asset Quality."

Goodwill

The excess purchase price over the fair value of net assets from acquisitions, or goodwill, is evaluated for impairment at least annually and on an interim basis if an event or circumstance indicates that it is likely impairment has occurred. In any given year, the Company may elect to perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is in excess of its carrying value. If it is not more likely than not that the fair value of the reporting unit is in excess of the carrying value, or if the Company elects to bypass the qualitative assessment, a two-step quantitative impairment test is performed. In performing a quantitative test for impairment, the fair value of net assets is estimated based on an analysis of our market value, discounted cash flows and peer values. Determining the fair value of goodwill is considered a critical accounting estimate because of its sensitivity to market-based economics. In addition, any allocation of the fair value of goodwill to assets and liabilities requires significant management judgment and the use of subjective measurements. Variability in market conditions and key assumptions or subjective measurements used to estimate and allocate fair value are reasonably possible and could have a material impact on our consolidated financial statements or results of operations. Note 1 of the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2014 describes our accounting policy with regard to goodwill.

Our annual evaluation of goodwill for impairment is performed as of July 1st each year. Upon completion of the most recent evaluation, it was determined that the estimated fair value of net assets was greater than the carrying value of the Company. We will continue to monitor our performance and evaluate our goodwill for impairment annually or more frequently as needed.

Fair Values of Loans Acquired in Business Combinations

Loans acquired in business combinations are initially recorded at fair value with no carryover of the related allowance for credit losses. Determining the fair value of the loans involves estimating the amount and timing of principal and interest cash flows initially expected to be collected on the loans and discounting those cash flows at an appropriate market rate of interest. Going forward, the Company continues to evaluate reasonableness of expectations for the timing and the amount of cash to be collected. Subsequent decreases in expected cash flows may result in changes in the amortization or accretion of fair market value adjustments, and in some cases may result in the loan being considered impaired. For collateral dependent loans with deteriorated credit quality, the Company estimates the fair value of the underlying collateral of the loans. These values are discounted using market derived rates of return, with consideration given to the period of time and costs associated with the foreclosure and disposition of the collateral. Note 1 of the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2014 describes our accounting policy with regard to acquired loans.

Table of Contents

Results of Operations

The following discussion and analysis is intended to provide greater details of the results of our operations and financial condition.

Net Interest Income. Our net interest income on a fully taxable equivalent, or FTE, basis increased \$1.3 million, or 1.9%, to \$67.4 million during the three months ended September 30, 2015, as compared to \$66.1 million for the same period in 2014, and \$13.0 million, or 7.0%, to \$199.2 million during the nine months ended September 30, 2015, as compared to \$186.2 million for the same period in 2014. These increases were primarily attributable to growth in average interest earning assets as a result of the July 2014 acquisition of Mountain West Financial Corp, or Mountain West, in which we acquired cash and cash equivalents totaling \$74 million, loans totaling \$360 million and investment securities totaling \$105 million. In addition, we experienced organic growth in total loans of approximately 6.6% from September 30, 2014 through September 30, 2015, which also positively impacted our quarter-to-date and year-to-date net FTE interest income.

Also positively impacting our net interest income during the three and nine months ended September 30, 2015, as compared to the same periods in the prior year, was interest accretion related to the fair valuation of acquired loans. Interest accretion related to the fair valuation of acquired loans was \$1.4 million during the three months ended September 30, 2015, of which \$307 thousand was the result of early loan payoffs, and \$4.1 million during the nine months ended September 30, 2015, of which \$1.1 million was the result of early loan payoffs. This compares to \$1.4 million during the three and nine months ended September 30, 2014, of which \$747 thousand was the result of early loan payoffs.

Despite increases in our net interest income, our net FTE interest margin ratio decreased 8 basis points to 3.47% for the three months ended September 30, 2015, as compared to 3.55% for the same period in 2014, and 9 basis points to 3.45% for the nine months ended September 30, 2015, as compared to 3.54% during the same period in 2014. Decreases in net FTE interest margin ratio during the three and nine months ended September 30, 2015, as compared to the same periods in 2014, were primarily due to lower yields earned on loans and investment securities, which were partially offset by increases in the average outstanding interest earning assets and reductions in funding costs. Exclusive of the fair value accretion resulting from the early payoff of acquired loans and recoveries of previously charged-off interest, our net interest margin ratio was 3.42% during the three months ended September 30, 2015, as compared to 3.47% for the same period in 2014, and 3.40% during the nine months ended September 30, 2015, as compared to 3.47% during the same period in 2014.

Table of Contents

The following tables present, for the periods indicated, condensed average balance sheet information, together with interest income and yields earned on average interest earning assets and interest expense and rates paid on average interest bearing liabilities.

| Less FTE adjustments (2) | | (1,070) | | | (1,047) | |
| Net interest income from consolidated statements of income | | \$66,330 | | | \$65,082 | |
| Interest rate spread | | | 3.39 % | | | 3.47 % |
| Net FTE interest margin (3) | | | 3.47 % | | | 3.55 % |
| Cost of funds, including non-interest bearing demand deposits (4) | | | 0.24 % | | | 0.26 % |

(1) Average loan balances include non-accrual loans. Interest income on loans includes amortization of deferred loan fees net of deferred loan costs, which is not material.

(2) Interest income and average rates for tax exempt loans and securities are presented on an FTE basis.

Net FTE interest margin during the period equals (i) the difference between annualized interest income on interest

(3) earning assets and the annualized interest expense on interest bearing liabilities, divided by (ii) average interest earning assets for the period.

(4) Calculated by dividing total annualized interest on interest bearing liabilities by the sum of total interest bearing liabilities plus non-interest bearing deposits.

Table of Contents

The table below sets forth, for the periods indicated, a summary of the changes in interest income and interest expense resulting from estimated changes in average asset and liability balances (volume) and estimated changes in average interest rates (rate). Changes which are not due solely to volume or rate have been allocated to these categories based on the respective percent changes in average volume and average rate as they compare to each other.

Analysis of Interest Changes Due to Volume and Rates

Provision for Loan Losses. During the three months ended September 30, 2015, we recorded a provision for loan losses of \$1.1 million, as compared to \$261 thousand during the same period in 2014. For the nine months ended September 30, 2015, we recorded a provision for loan losses of \$3.5 million, as compared to the reversal of provision for loan losses of \$6.7 million during the same period in 2014. The increase in provision is reflective of loan growth, increases in specific reserves on impaired loans and lower levels of recoveries of previously charged-off loans. For information regarding our non-performing loans, see “Non-Performing Assets” included herein.

Non-interest Income. Our principal sources of non-interest income include other service charges, commissions and fees; income from the origination and sale of loans; wealth management revenues; and, service charges on deposit accounts. Non-interest income increased \$1.1 million, or 3.8%, to \$30.5 million for the three months ended September 30, 2015, as compared to \$29.4 million for the same period in 2014, and \$10.0 million, or 12.5%, to \$90.0 million for the nine months ended September 30, 2015, as compared to \$80.0 million during the same period in 2014. Significant components of these increases are discussed below.

Other service charges, commissions and fees primarily include debit and credit card interchange income, mortgage loan servicing fee income, insurance and other commissions and ATM service charge revenues. Other service charges, commissions and fees increased \$637 thousand, or 6.1%, to \$11.1 million during the three months ended September 30, 2015, as compared to \$10.5 million for the same period in 2014, and \$2.8 million, or 9.6%, to \$32.1 million for the nine months ended September 30, 2015, as compared to \$29.3 million during the same period in 2014. These increases were primarily due to additional interchange revenue resulting from higher debit and credit card transaction volumes.

Income from the origination and sale of loans increased \$637 thousand, or 8.7%, to \$8.0 million during the three months ended September 30, 2015, as compared to \$7.3 million during the same period in 2014, and \$4.3 million, or 23.4%, to \$22.7 million during the nine months ended September 30, 2015, as compared to \$18.4 million during the same period in 2014. During second quarter 2015, we sold \$10.6 million of seasoned portfolio loans at an aggregate gain of \$410 thousand. The remaining quarter-to-date and year-to-date increases in income from the origination and sale of loans, as compared to the same periods in 2014, were primarily the result of increased demand in our market areas for both refinancing loans and loans for home purchases.

Table of Contents

Our total mortgage loans production increased approximately 30% during the nine months ended September 30, 2015, as compared to the same period in 2014, with loans originated for home purchases accounting for approximately 66% of our mortgage loan production, as compared to approximately 76% during the same period in 2014.

Wealth management revenues are comprised principally of fees earned for management of trust assets and investment services revenues. Fees earned for management of trust assets are generally based on the market value of assets managed. Wealth management revenues increased \$76 thousand, or 1.5%, to \$5.2 million during the three months ended September 30, 2015, as compared to \$5.2 million during the same period in 2014. Exclusive of one-time close-out fees of \$407 thousand related to the settlement of three estates recognized during third quarter 2014, wealth management revenues increased \$483 thousand, or 10.2%, to \$5.2 million during the three months ended September 30, 2015, as compared to \$4.8 million for the same period in the prior year, primarily due to the addition of new customers. Wealth management revenues increased \$846 thousand, or 5.9%, to \$15.1 million during the nine months ended September 30, 2015, as compared to \$14.2 million during the same period in 2014, due to the combined impact of the addition of new wealth management customers and increases in the market values of assets under trust management.

Other income decreased \$310 thousand, or 14.9%, to \$1.8 million during the three months ended September 30, 2015, as compared to \$2.1 million during the same period in 2014, primarily due to lower earnings on assets held under deferred compensation plans.

Other income increased \$1.8 million, or 30.2%, to \$7.7 million during the nine months ended September 30, 2015, as compared to \$5.9 million during the same period in 2014. During second quarter 2015, we recorded a gain of \$863 thousand on the sale of land, and during first quarter 2015, we reached a settlement on and reversed a \$1.0 million accrual related to secondary investor claims assumed as part of the July 2014 acquisition of Mountain West.

Non-interest Expense. Non-interest expense increased \$544 thousand, or 0.8%, to \$65.5 million for the three months ended September 30, 2015, as compared to \$65.0 million for the same period in 2014, and \$11.9 million, or 6.8%, to \$187.1 million during the nine months ended September 30, 2015, as compared to \$175.2 million in the same period in 2014. Significant components of these increases are discussed below.

Salaries and wages expense decreased \$454 thousand, or 1.8%, to \$25.5 million during the three months ended September 30, 2015, as compared to \$25.9 million during the same period in 2014, primarily due to a \$1.3 million decrease in incentive compensation accruals, which were partially offset by higher salaries and wages expense.

Salaries and wages expense increased \$4.1 million, or 5.6%, to \$76.9 million during the nine months ended September 30, 2015, as compared to \$72.8 million during the same period in 2014. Year-to-date increases in salaries and wages expense, as compared to the prior year, were primarily the result of increased personnel costs associated with the Mountain West acquisition in July 2014, inflationary wage increases and higher commissioned pay reflective of increased mortgage loan origination during the first nine months of 2015.

Employee benefits expense decreased \$529 thousand, or 6.7%, to \$7.3 million for the three months ended September 30, 2015, as compared to \$7.8 million during the same period in 2014, due to lower earnings on assets held under deferred compensation plans. Employee benefits expense decreased \$156 thousand, or 0.7%, to \$23.2 million during the nine months ended September 30, 2015, as compared to \$23.3 million during the same period in 2014. Decreases due to lower earnings on assets held under deferred compensation plans during the nine months ended September 30, 2015, as compared to the same period in 2014, were largely offset by increased benefits costs associated with the Mountain West acquisition.

Furniture and equipment expense increased \$511 thousand, or 15.3%, to \$3.8 million for the three months ended September 30, 2015, as compared to \$3.3 million during the same period in 2014, and \$1.6 million, or 17.0%, to \$11.3 million during the nine months ended September 30, 2015, as compared to \$9.7 million during the same period in the prior year. These increases were primarily due to additional software costs associated with the implementation of new systems placed into service during the last half of 2014 to assist in accounting for acquired loans, process mortgage loans and automate certain reconciliation functions.

Net OREO income increased to \$720 thousand during the three months ended September 30, 2015, as compared to \$58 thousand during the same period in 2014. For the nine months ended September 30, 2015, net OREO income increase \$1.4 million to \$1.6 million, as compared to \$211 thousand in the same period in 2014. Quarter-to-date and year-to-date increases were primarily due to increases in net gains recognized on the sale of OREO properties. During the three and nine months ended September 30, 2015, we recorded net gains on the sale of OREO properties of \$1.1 million and \$2.9 million, respectively, as compared to net gains on the sale of OREO properties of \$551 thousand and \$1.3 million recorded during the same respective periods in 2014.

Table of Contents

Professional fees increased \$683 thousand, or 55.4%, to \$1.9 million during the three months ended September 30, 2015, as compared to \$1.2 million during the same period in 2014, and \$850 thousand, or 21.9%, to \$4.7 million during the nine month ended September 30, 2015, as compared to \$3.9 million during the same period in 2014. Quarter-over-quarter and year-over-year increases primarily relate to professional fees incurred in conjunction with identifying and executing strategies for revenue enhancement and changing trust data platforms.

Core deposit intangible amortization expense increased \$154 thousand, or 22.4%, to \$842 thousand during the three months ended September 30, 2015, as compared to \$688 thousand during the same period in 2014, and \$1.1 million, or 82.7%, to \$2.6 million during the nine months ended September 30, 2015, as compared to \$1.4 million during the same period in 2014. Increases in core deposit amortization expense were due to the amortization of core deposit intangible assets recorded in conjunction with the acquisitions of Absarokee in July 2015 and Mountain West in July 2014.

Other expense increased \$245 thousand, or 2.0%, to \$12.6 million during the three months ended September 30, 2015, as compared to \$12.4 million during the same period in 2014, and \$4.3 million, or 12.8%, to \$38.0 million during the nine months ended September 30, 2015, as compared to \$33.7 million for the same period in 2014. During third quarter 2015, we recorded write-downs aggregating \$806 thousand in the fair value of two vacated bank buildings held for sale. In addition, during second quarter 2015 we recorded a one-time contract termination fee of \$876 thousand related to a change in payment service provider. Also contributing to the year-over-year increase were fraud losses, which increased \$505 thousand, or 53.3%, to \$1.5 million during the nine months ended September 30, 2015, as compared to \$946 thousand the same period in 2014 primarily due to unusually high fraudulent credit card activity during the first half of 2015. The remaining year-to-date increase in other expenses were primarily due to the additional operating costs associated with branches acquired in the July 2014 acquisition of Mountain West, increases in advertising costs due to fluctuations in the timing of advertising campaigns and higher travel and legal costs.

During the third quarters of 2015 and 2014, we recorded loss contingency expenses of \$5.0 million and \$4.0 million, respectively, related to a lender liability lawsuit that was settled on August 31, 2015. For additional information regarding this litigation, see "Note 12 - Commitments and Contingencies" in the accompany "Notes to Unaudited Consolidated Financial Statements" included in this report.

Acquisition expenses of \$566 thousand and \$629 thousand recorded during the three and nine months ended September 30, 2015, respectively, included legal and professional fees related to the Absarokee acquisition in July 2015. Non-core acquisition expenses of \$1.0 million and \$1.6 million recorded during the three and nine months ended September 30, 2014, respectively, included legal and professional fees, employee retention payments and travel expenses related to the Mountain West acquisition in July 2014. For additional information regarding acquisitions, see "Recent Developments" included herein and "Note 2 – Acquisitions" in the accompanying "Notes to Unaudited Consolidated Financial Statements" included in this report.

Income Tax Expense. Our effective federal income tax rate was 29.4% for the nine months ended September 30, 2015 and 30.6% for the nine months ended September 30, 2014. State income tax applies primarily to pretax earnings generated within Montana and South Dakota. Our effective state tax rate was 4.2% for the nine months ended June, 2015 and 2014. Decreases in effective federal income tax rates are primarily due to tax credits received on investments in low income housing projects during 2015 and the last half of 2014.

Financial Condition

Total assets decreased \$5.4 million, or less than 1.0%, to \$8,605 million as of September 30, 2015, from \$8,610 million as of December 31, 2014. Absent meaningful deposit growth during the first nine months of 2015, loan growth was funded through available funds resulting in decreases in cash, interest bearing deposits in banks and investment securities from December 31, 2014 to September 30, 2015. Significant fluctuations in balance sheet accounts are discussed below.

Loans. Total loans increased \$279 million, or 5.7%, to \$5,176 million as of September 30, 2015, as compared to \$4,897 million December 31, 2014. Approximately \$37 million of the increase was attributable to the Absarokee acquisition. The most notable organic growth occurred in commercial, commercial real estate, indirect consumer and agricultural loans.

Continuing business expansion in our market areas and the movement of completed commercial construction projects from construction loans to permanent financing resulted in increases in the commercial and commercial real estate loan portfolios. Commercial loans increased \$39 million, or 5.2%, to \$779 million as of September 30, 2015, from \$740 million as of December 31, 2014, with approximately \$4 million of the increase attributable to the Absarokee acquisition. Commercial real estate loans increased \$111 million, or 6.8%, to \$1.8 billion as of September 30, 2015, from \$1.6 billion as of December 31, 2014, with approximately \$12 million of the increase attributable to the Absarokee acquisition.

Table of Contents

Indirect consumer loans grew organically \$63 million, or 11.4%, to \$616 million as of September 30, 2015, from \$553 million as of December 31, 2014. Management attributes this increase to the combined impact of heightened consumer demand for recreational vehicles and increased dealer volume resulting from expansion efforts within our existing market areas.

Agricultural loans increased \$30 million, or 24.0%, to \$155 million as of September 30, 2015, from \$125 million as of December 31, 2014, with approximately \$7 million of the increase attributable to the Absarokee acquisition. Management attributes the remaining increase to seasonal increases in agricultural credit lines that typically occur during the second and third quarters of each year.

Non-performing Assets. Non-performing assets include non-accrual loans, loans contractually past due 90 days or more and still accruing interest and OREO. The following table sets forth information regarding non-performing assets as of the dates indicated:

Nonperforming Assets and Troubled Debt

Restructurings

| (Dollars in thousands) | September 30, 2015 | June 30, 2015 | March 31, 2015 | December 31, 2014 | September 30, 2014 | |
|---|-----------------------|------------------|-------------------|----------------------|-----------------------|---|
| Non-performing loans: | | | | | | |
| Non-accrual loans | \$66,359 | \$70,848 | \$73,941 | \$62,182 | \$71,915 | |
| Accruing loans past due 90 days or more | 3,357 | 2,153 | 5,175 | 2,576 | 1,348 | |
| Total non-performing loans | 69,716 | 73,001 | 79,116 | 64,758 | 73,263 | |
| OREO | 8,031 | 11,773 | 15,134 | 13,554 | 18,496 | |
| Total non-performing assets | \$77,747 | \$84,774 | \$94,250 | \$78,312 | \$91,759 | |
| Troubled debt restructurings not included above | \$16,702 | \$15,127 | \$16,070 | \$20,952 | \$20,956 | |
| Non-performing loans to total loans | 1.35 | % 1.43 | % 1.61 | % 1.32 | % 1.51 | % |
| Non-performing assets to total loans and OREO | 1.50 | % 1.66 | % 1.91 | % 1.59 | % 1.88 | % |
| Non-performing assets to total assets | 0.90 | % 1.01 | % 1.11 | % 0.91 | % 1.08 | % |

Non-performing loans. Non-performing loans include non-accrual loans and loans contractually past due 90 days or more. We monitor and evaluate collateral values on non-performing loans quarterly. Appraisals are required on all non-performing loans every 18-24 months, or sooner as conditions necessitate. We monitor real estate values by market for our larger market areas. Based on trends in real estate values, adjustments may be made to the appraised value based on time elapsed between the appraisal date and the impairment analysis or a new appraisal may be ordered. Appraised values in our smaller market areas may be adjusted based on trends identified through discussions with local realtors and appraisers. Appraisals are also adjusted for selling costs. The adjusted appraised value is then compared to the loan balance and any resulting shortfall is recorded in the allowance for loan losses as a specific valuation allowance. Overall increases in specific valuation allowances will result in higher provisions for loan losses. Provisions for loan losses are also impacted by changes in the historical or general valuation elements of the allowance for loan losses.

Table of Contents

The following table sets forth the allocation of our non-performing loans among our various loan categories as of the dates indicated:

Non-Performing Loans by Loan Type

| (Dollars in thousands) | September 30, 2015 | Percent of Total | | December 31, 2014 | Percent of Total | |
|----------------------------------|-----------------------|---------------------|---|----------------------|---------------------|---|
| Real estate: | | | | | | |
| Commercial | \$23,237 | 33.4 | % | \$27,700 | 42.9 | % |
| Construction: | | | | | | |
| Land acquisition and development | 9,146 | 13.1 | % | 8,252 | 12.7 | % |
| Commercial | 329 | 0.5 | % | 2,564 | 4.0 | % |
| Residential | 983 | 1.4 | % | 272 | 0.4 | % |
| Total construction | 10,458 | 15.0 | % | 11,088 | 17.1 | % |
| Residential | 3,332 | 4.8 | % | 4,554 | 7.0 | % |
| Agricultural | 6,792 | 9.7 | % | 6,842 | 10.6 | % |
| Total real estate | 43,819 | 62.9 | % | 50,184 | 77.5 | % |
| Consumer | 2,133 | 3.1 | % | 1,282 | 2.0 | % |
| Commercial | 22,722 | 32.6 | % | 12,846 | 19.8 | % |
| Agricultural | 731 | 1.0 | % | 446 | 0.7 | % |
| Other | 311 | — | % | — | — | % |
| Total non-performing loans | \$69,716 | 100.0 | % | \$64,758 | 100.0 | % |

Non-accrual loans. We generally place loans, excluding acquired credit impaired loans, on non-accrual when they become 90 days past due, unless they are well secured and in the process of collection. When a loan is placed on non-accrual status, any interest previously accrued but not collected is reversed from income. If all loans on non-accrual had been current in accordance with their original terms, gross income of approximately \$2.3 million and \$3.2 million would have been accrued for the nine months ended September 30, 2015 and 2014, respectively. Non-accrual loans increased \$4 million, or 6.7%, to \$66 million as of September 30, 2015, from \$62 million as of December 31, 2014, primarily due to the placement of the loans of one commercial borrower on non-accrual status.

OREO. OREO consists of real property acquired through foreclosure on the collateral underlying defaulted loans. We initially record OREO at fair value less estimated selling costs. Any excess of loan carrying value over the fair value of the real estate acquired is recorded as a charge against the allowance for loan losses. Estimated losses that result from the ongoing periodic valuation of these properties are charged to earnings in the period in which they are identified. The fair values of OREO properties are estimated using appraisals and management estimates of current market conditions. OREO properties are appraised every 18-24 months unless deterioration in local market conditions indicates the need to obtain new appraisals sooner. OREO properties are evaluated by management quarterly to determine if additional write-downs are appropriate or necessary based on current market conditions. Quarterly evaluations include a review of the most recent appraisal of the property and reviews of recent appraisals and comparable sales data for similar properties in the same or adjacent market areas. Commercial and agricultural OREO properties are listed with unrelated third party professional real estate agents or brokers local to the areas where the marketed properties are located. Residential properties are typically listed with local realtors, after any redemption period has expired. We rely on these local real estate agents and/or brokers to list the properties on the local multiple listing system, to provide marketing materials and advertisements for the properties and to conduct open houses.

OREO decreased \$6 million, or 40.7%, to \$8 million as of September 30, 2015, from \$14 million as of December 31, 2014. During the nine months ended September 30, 2015, we recorded OREO additions of \$5 million and sold OREO with a book value of \$11 million at a net gain of \$2.9 million. As of September 30, 2015, the composition of OREO

properties was 46% land and land development, 26% commercial, 23% residential real estate, 1% construction and 4% agricultural.

Table of Contents

Allowance for Loan Losses. The Company performs a quarterly assessment of the adequacy of its allowance for loan losses in accordance with generally accepted accounting principles. The methodology used to assess the adequacy is consistently applied to the Company's loan portfolio. The allowance for loan losses is established through a provision for loan losses based on our evaluation of known and inherent risk in our loan portfolio at each balance sheet date. In determining the allowance for loan losses, we estimate losses on specific loans, or groups of loans, where the probable loss can be identified and reasonably determined. The balance of the allowance for loan losses is based on internally assigned risk classifications of loans, historical loan loss rates, changes in the nature of the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends, current economic factors and the estimated impact of current economic conditions on certain historical loan loss rates. See the discussion under "Critical Accounting Estimates and Significant Accounting Policies — Allowance for Loan Losses."

The allowance for loan losses is increased by provisions charged against earnings and net recoveries of charged-off loans and is reduced by negative provisions credited to earnings and net loan charge-offs. The allowance for loan losses consists of three elements:

Specific valuation allowances associated with impaired loans. Specific valuation allowances are determined based on assessment of the fair value of the collateral underlying the loans as determined through independent appraisals, (1) the present value of future cash flows, observable market prices and any relevant qualitative or environmental factors impacting the loan. No specific valuation allowances are recorded for impaired loans that are adequately secured.

Historical valuation allowances based on loan loss experience for similar loans with similar characteristics and trends. Historical valuation allowances are determined by applying percentage loss factors to the credit exposures from outstanding loans. For commercial, agricultural and real estate loans, loss factors are applied based on the (2) internal risk classifications of these loans. For consumer loans, loss factors are applied on a portfolio basis. For commercial, agriculture and real estate loans, loss factor percentages are based on a migration analysis of our historical loss experience, designed to account for credit deterioration. For consumer loans, loss factor percentages are based on a one-year loss history.

General valuation allowances determined based on changes in the nature of the loan portfolio, overall portfolio (3) quality, industry concentrations, delinquency trends, general economic conditions and other qualitative risk factors both internal and external to us.

Based on the assessment of the adequacy of the allowance for loan losses, management records provisions for loan losses to maintain the allowance for loan losses at appropriate levels.

Loans acquired in business combinations are recorded at fair value with no allowance for loan losses on the date of acquisition. Subsequent to the acquisition date, an allowance for loan loss is recorded for the emergence of new probable and estimable losses on loans acquired without evidence of credit impairment. Loans acquired with evidence of credit impairment are regularly monitored and to the extent that the performance has deteriorated from management's expectations at the date of acquisition, an allowance for loan losses is established. As of September 30, 2015, management determined that an allowance for loan losses related to acquired loans of \$344 thousand was required under generally accepted accounting principles.

Loans, or portions thereof, are charged-off against the allowance for loan losses when management believes that the collectability of the principal is unlikely, or, with respect to consumer installment loans, according to an established delinquency schedule. Generally, loans are charged-off when (1) there has been no material principal reduction within the previous 90 days and there is no pending sale of collateral or other assets, (2) there is no significant or pending

event which will result in principal reduction within the upcoming 90 days, (3) it is clear that we will not be able to collect all or a portion of the loan, (4) payments on the loan are sporadic, will result in an excessive amortization or are not consistent with the collateral held and (5) foreclosure or repossession actions are pending. Loan charge-offs do not directly correspond with the receipt of independent appraisals or the use of observable market data if the collateral value is determined to be sufficient to repay the principal balance of the loan.

If the impaired loan is adequately collateralized, a specific valuation allowance is not recorded. As such, significant changes in impaired and non-performing loans do not necessarily correspond proportionally with changes in the specific valuation component of the allowance for loan losses. Additionally, management expects the timing of charge-offs will vary between quarters and will not necessarily correspond proportionally to changes in the allowance for loan losses or changes in non-performing or impaired loans due to timing differences among the initial identification of an impaired loan, recording of a specific valuation allowance for the impaired loan and any resulting charge-off of uncollectible principal.

Table of Contents

The following table sets forth information regarding our allowance for loan losses as of and for the periods indicated.
Allowance for Loan Losses

| (Dollars in thousands) | Three Months Ended | | | | | |
|--|-----------------------|------------------|-------------------|----------------------|-----------------------|---|
| | September 30, 2015 | June 30, 2015 | March 31, 2015 | December 31, 2014 | September 30, 2014 | |
| Balance at beginning of period | \$76,552 | \$75,336 | \$74,200 | \$74,231 | \$78,266 | |

| Consumer | 653 | 520 | 640 | 686 | 495 | |
| Commercial | 113 | 438 | 270 | 162 | 484 | |
| Agricultural | — | 1 | — | 1 | — | |
| Total recoveries | 1,153 | 1,384 | 1,902 | 2,155 | 1,978 | |
| Net charge-offs | 3,394 | 124 | (41 |) 149 | 4,296 | |
| Balance at end of period | \$74,256 | \$76,552 | \$75,336 | \$74,200 | \$74,231 | |
| Period end loans | \$5,176,480 | \$5,103,946 | \$4,927,306 | \$4,897,443 | \$4,854,382 | |
| Average loans | 5,141,484 | 4,991,416 | 4,895,146 | 4,870,509 | 4,751,928 | |
| Net loans charged-off to average loans, annualized | 0.26 | % 0.01 | % — | % 0.01 | % 0.36 | % |
| Allowance to period end loans | 1.43 | % 1.50 | % 1.53 | % 1.52 | % 1.53 | % |

Our allowance for loan losses as a percentage of period end loans declined to 1.43% as of September 30, 2015, as compared to 1.52% as of December 31, 2014, primarily due to loan growth, changes in loss factors and the acquisition of Absarokee loans, which were initially recorded at fair value with no carryover of the related allowance for loan losses. The decrease in our allowance for loan losses as a percentage of period end loans to 1.53% as of September 30, 2014, from 1.74% as of June 30, 2014, was due to the acquisition of Mountain West loans, which were initially recorded at fair value with no carryover of the related allowance for loan losses.

Although we have established our allowance for loan losses in accordance with accounting principles generally accepted in the United States and we believe that our allowance for loan losses is adequate to provide for known and inherent losses in the portfolio at all times, future provisions will be subject to on-going evaluations of the risks in the

loan portfolio. If the economy declines or asset quality deteriorates, material additional provisions could be required.

Investment Securities. We manage our investment portfolio to obtain the highest yield possible, while meeting our risk tolerance and liquidity guidelines and satisfying the pledging requirements for deposits of state and political subdivisions and securities sold under repurchase agreements. Investment securities decreased \$219 million, or 9.6%, to \$2,068 million, or 24.0% of total assets, as of September 30, 2015, from \$2,287 million, or 26.6% of total assets, as of December 31, 2014. During the first nine months of 2015, proceeds from maturities, calls and pay-downs of investment securities were used to fund loan growth.

Table of Contents

We evaluate our investment portfolio quarterly for other-than-temporary declines in the market value of individual investment securities. This evaluation includes monitoring credit ratings; market, industry and corporate news; volatility in market prices; and, determining whether the market value of a security has been below its cost for an extended period of time. As of September 30, 2015, we had investment securities with fair values aggregating \$249 million that had been in a continuous loss position more than twelve months. Gross unrealized losses on these securities of \$2 million as of September 30, 2015, were attributable to changes in interest rates. No impairment losses were recorded during the three and nine months ended September 30, 2015 and 2014.

Cash and Cash Equivalents. Cash and cash equivalents decreased \$91 million, or 11.3%, to \$708 million as of September 30, 2015, from \$799 million as of December 31, 2014. During the first nine months of 2015, loan growth was funded through available funds resulting in decreases in cash and cash equivalents from December 31, 2014 to September 30, 2015. Remaining decreases in cash and cash equivalents occurred during the normal course of business and are not reflective of changes in business plan or strategy.

Goodwill. Goodwill decreased \$1 million to \$204 million as of September 30, 2015, from \$205 million as of December 31, 2014. During third quarter 2015, we recorded goodwill of \$34 thousand in conjunction with the Absarokee acquisition. This increase was offset by a \$1 million decrease in recorded goodwill resulting from the finalization of the fair valuation of deferred tax assets acquired in the Mountain West acquisition.

Company-Owned Life Insurance. Company-owned life insurance increased \$32 million, or 20.9%, to \$186 million as of September 30, 2015, from \$154 million as of December 31, 2014. This increase was due to the second quarter 2015 purchase of an additional \$23 million of life insurance covering selected officers of FIB and increases in cash surrender value of existing policies.

Deferred Tax Asset/Liability. As of September 30, 2015, we had a net deferred tax liability of \$13 million, as compared to a net deferred tax asset of \$5 million as of December 31, 2014. The shift in deferred taxes from a net asset to a net liability was primarily due to decreases in deferred tax assets related to unrealized losses on available-for sale investment securities and the removal of deferred tax assets upon the disposal of real property acquired as part of the Mountain West acquisition. The shift in the deferred taxes from a net asset to a net liability was also impacted by decreases in deferred tax assets related to tax deductible goodwill from previous acquisitions.

Deposits. Our deposits consist of non-interest bearing and interest bearing demand, savings, individual retirement and time deposit accounts. Total deposits increased \$30 million, or less than 1.0%, to \$7,036 million as of September 30, 2015, from \$7,006 million as of December 31, 2014. The following table summarizes our deposits as of the dates indicated:

Deposits

| (Dollars in thousands) | September 30, 2015 | Percent of Total | December 31, 2014 | Percent of Total | |
|-----------------------------|-----------------------|---------------------|----------------------|---------------------|---|
| Non-interest bearing demand | \$1,832,535 | 26.0 | % \$1,791,364 | 25.5 | % |
| Interest bearing: | | | | | |
| Demand | 2,134,203 | 30.3 | 2,133,273 | 30.5 | |
| Savings | 1,918,724 | 27.3 | 1,843,355 | 26.3 | |
| Time, \$100 and over | 496,539 | 7.1 | 520,125 | 7.4 | |
| Time, other (1) | 653,793 | 9.3 | 718,095 | 10.2 | |
| Total interest bearing | 5,203,259 | 74.0 | 5,214,848 | 74.5 | |
| Total deposits | \$7,035,794 | 100.0 | % \$7,006,212 | 100.0 | % |

(1) Included in Time, other are Certificate of Deposit Account Registry Service, or CDAR, deposits of \$33 million as of September 30, 2015 and \$40 million as of December 31, 2014.

Securities Sold Under Repurchase Agreements. In addition to deposits, repurchase agreements with commercial depositors, which include municipalities, provide an additional source of funds. Under repurchase agreements, deposit balances are invested in short-term U.S. government agency securities overnight and are then repurchased the following day. All outstanding repurchase agreements are due in one day. Repurchase agreement balances decreased \$65 million, or 12.9%, to \$438 million as of September 30, 2015, from \$502 million as of December 31, 2014, due to fluctuations in the liquidity of our customers.

Table of Contents

Long-Term Debt. Long-term debt increased \$5 million, or 13.2%, to \$43 million as of September 30, 2015, from \$38 million as of December 31, 2014. On January 29, 2015, the Company borrowed \$5 million on a 2.28% note payable maturing July 29, 2022, with interest payable monthly and principal due at maturity. The note is collateralized by the Company's equity interest in Universal Sub CDE, LLC, a community development entity owned 99.9% by the Company.

Accounts Payable and Accrued Expenses. Accounts payable and accrued expenses decreased \$17 million, or 26.4%, to \$49 million as of September 30, 2015, from \$66 million as of December 31, 2014. This decrease is due to fluctuations in the timing of corporate income tax payments and the reclassification of deferred tax assets to current taxes payable.

Capital Resources and Liquidity Management

Stockholders' equity is influenced primarily by earnings, dividends, sales and redemptions of common stock and changes in the unrealized holding gains or losses, net of taxes, on available-for-sale investment securities. Stockholders' equity increased \$30 million, or 3.3%, to \$939 million as of September 30, 2015, from \$909 million as of December 31, 2014, primarily due to the retention of earnings, which was partially offset by the redemption and retirement of Class A common shares.

During the nine months ended September 30, 2015, we repurchased and retired 765,875 shares of our Class A common stock in open market transactions at an aggregate purchase price of \$20 million. The repurchases were made pursuant to a stock repurchase program approved by our Board of Directors. For additional information regarding the repurchase, see "Note 9 – Capital Stock" in the accompanying "Notes to Unaudited Consolidated Financial Statements" included in this report.

On July 2, 2013, the Board of Governors of the Federal Reserve Bank issued a final rule implementing a revised regulatory capital framework for U.S. banks in accordance with the Basel III international accord and satisfying related mandates under the Dodd-Frank Wall Street Reform and Consumer Protection Act. The revised regulatory capital framework ("Basel III ") includes a more stringent definition of capital and introduces a new common equity tier 1, or CET1, capital requirement; sets forth a comprehensive methodology for calculating risk-weighted assets, introduces a conservation buffer and sets out minimum capital ratios and overall capital adequacy standards. As a banking organization subject to the standardized approach, Basel III became effective for us on January 1, 2015. Certain deductions and adjustments to regulatory capital began to phase in starting January 1, 2015 and will be fully implemented on January 1, 2018. The capital conservation buffer phases in beginning January 1, 2016 and will be fully implemented on January 1, 2019.

As of September 30, 2015 and December 31, 2014, we had capital levels that, in all cases, exceeded the well-capitalized guidelines. For additional information regarding our capital levels, see "Note 11 – Regulatory Capital" in the accompanying "Notes to Unaudited Consolidated Financial Statements" included in this report.

Liquidity. Liquidity measures our ability to meet current and future cash flow needs on a timely basis and at a reasonable cost. We manage our liquidity position to meet the daily cash flow needs of customers, while maintaining an appropriate balance between assets and liabilities to meet the return on investment objectives of our shareholders. Our liquidity position is supported by management of liquid assets and liabilities and access to alternative sources of funds. Liquid assets include cash, interest bearing deposits in banks, federal funds sold, available-for-sale investment securities and maturing or prepaying balances in our held-to-maturity investment and loan portfolios. Liquid liabilities include core deposits, federal funds purchased, securities sold under repurchase agreements and borrowings. Other sources of liquidity include the sale of loans, the ability to acquire additional national market funds through non-core

deposits, the issuance of additional collateralized borrowings such as FHLB advances, the issuance of debt securities, additional borrowings through the Federal Reserve's discount window and the issuance of preferred or common securities.

Our short-term and long-term liquidity requirements are primarily to fund on-going operations, including payment of interest on deposits and debt, extensions of credit to borrowers, capital expenditures and shareholder dividends. These liquidity requirements are met primarily through cash flow from operations, redeployment of prepaying and maturing balances in our loan and investment portfolios, debt financing and increases in customer deposits. For additional information regarding our operating, investing and financing cash flows, see the unaudited "Consolidated Statements of Cash Flows," included in Part I, Item 1.

As a holding company, we are a corporation separate and apart from the Bank and, therefore, we provide for our own liquidity. Our main sources of funding include management fees and dividends declared and paid by the Bank and access to capital markets. There are statutory, regulatory and debt covenant limitations that affect the ability of our subsidiary bank to pay dividends to us. Management believes that such limitations will not impact our ability to meet our ongoing short-term cash obligations.

Table of Contents

Management continuously monitors our liquidity position and adjustments are made to the balance between sources and uses of funds as deemed appropriate. Our management is not aware of any events that are reasonably likely to have a material adverse effect on our liquidity, capital resources or operations. In addition, our management is not aware of any regulatory recommendations regarding liquidity, which if implemented, would have a material adverse effect on us.

Recent Accounting Pronouncements

See “Note 17 – Recent Authoritative Accounting Guidance” in the accompanying “Notes to Unaudited Consolidated Financial Statements” included in this report for details of recently issued accounting pronouncements and their expected impact on our financial statements.

Item 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of September 30, 2015, there have been no material changes in the quantitative and qualitative information about market risk provided pursuant to Item 305 of Regulation S-K as presented in our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4.

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining effective disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Exchange Act. As of September 30, 2015, an evaluation was performed, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of September 30, 2015, were effective in ensuring that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods required by the SEC’s rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting for the quarter ended September 30, 2015, that have materially affected, or are reasonably likely to materially affect, such control.

Limitations on Controls and Procedures

The effectiveness of our disclosure controls and procedures and our internal control over financial reporting is subject to various inherent limitations, including cost limitations, judgments used in decision making, assumptions about the likelihood of future events, the soundness of our systems, the possibility of human error, and the risk of fraud. Moreover, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may

become inadequate because of changes in conditions and the risk that the degree of compliance with policies or procedures may deteriorate over time. Because of these limitations, any system of disclosure controls and procedures or internal control over financial reporting may not be successful in preventing all errors or fraud or in making all material information known in a timely manner to the appropriate levels of management.

PART II.

OTHER INFORMATION

Item 1. Legal Proceedings

There have been no material changes in legal proceedings as described in our Annual Report on Form 10-K for the year ended December 31, 2014.

Table of Contents

Item 1A. Risk Factors

There have been no material changes in risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
