The accompanying notes to interim condensed consolidated financial statements are an integral part of these financial statements.

Note 1. SIGNIFICANT ACCOUNTING POLICIES:

We, the management of National Health Investors, Inc., believe that the unaudited financial statements to which these notes are attached include all normal, recurring adjustments which are necessary to fairly present the financial position, results of operations and cash flows of National Health Investors, Inc. ("NHI" or the "Company"). We assume that users of these interim financial statements have read or have access to the audited December 31, 2005 financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations and that the adequacy of additional disclosure needed for a fair presentation, except in regard to material contingencies, may be determined in that context. Accordingly, footnotes and other disclosures which would substantially duplicate the disclosure contained in our most recent annual report to stockholders have been omitted. This interim financial information is not necessarily indicative of the results that may be expected for a full year for a variety of reasons including, but not limited to, acquisitions and dispositions, changes in interest rates, rents and the timing of debt and equity financings. Our audited December 31, 2005 financial statements are available at our web site: www.nhinvestors.com.

Note 2. NEW ACCOUNTING PRONOUNCEMENTS:

In December 2004, the FASB has issued FASB Statement No. 123 (Revised 2004), *Share-Based Payment* ("Statement 123R"). The new FASB rule requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost is measured based on the fair value of the equity or liability instruments issued. The Company adopted Statement 123R beginning January 1, 2006. The scope of Statement 123R includes a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. The adoption of Statement 123R has not had a significant impact on its financial statements other than the recording of compensation charges for option holders.

In May 2005, the FASB issued FASB Statement No. 154, *Accounting for Changes and Error Corrections*. This new standard replaces APB Opinion No. 20, *Accounting Changes* and FASB Statement No. 3, *Reporting Accounting Changes in Interim Financial Statements*. Statement 154 requires that a voluntary change in accounting principle be applied retrospectively with all prior period financial statements presented on the new accounting principle, unless it is impracticable to do so. Statement 154 also provides that (1) a change in method of depreciating or amortizing a long-lived nonfinancial asset be accounted for as a change in estimate (prospectively) that was effected by a change in accounting principle, and (2) correction of errors in previously issued financial statements should be termed a "restatement". The new standard is effective for accounting changes and correction of errors made in fiscal years beginning after December 15, 2005. The adoption of this pronouncement has not had an impact on the Company's financial statements.

Note 3. SHARE-BASED PAYMENTS

In May 2005, our shareholders approved the 2005 Stock Option, Restricted Stock and Stock Appreciation Rights Plan ("the 2005 Plan") pursuant to which 1,500,000 shares of our common stock are available to grant as share-based payments to employees, officers, directors or consultants. Options for 50,000 shares and Restricted Stock for 50,000 shares have been granted under the 2005 Plan during the three months ended March 31, 2006, leaving 1,400,000 shares available for future grants. The restricted stock granted vests over five years and the options granted vest over three years. The term of the options outstanding under the 2005 Plan is five years.

The NHI 1997 Stock Option Plan ("the 1997 Plan") provides for the granting of options to key employees and directors of NHI to purchase shares of common stock at a price no less than the market value of the stock on the date the option is granted. Options to purchase 135,000 shares are currently outstanding to the Board of Directors under the 1997 Stock Option Plan. All of the currently outstanding options under the 1997 stock option plan vested immediately upon grant and may be exercised at any time prior to expiration. The term of the options outstanding under the 1997 stock option plan is five years. The following table summarizes option activity:

	Number of <u>Shares</u>	Weighted Average <u>Exercise Price</u>
Outstanding December 31, 2003	257,500	15.789
Options granted	60,000	23.900
Options expired	2,500	14.500
Options exercised	<u>88,271</u>	18.023
Outstanding December 31, 2004	226,729	17.080
Options granted	63,000	26.200
Options exercised	<u>154,729</u>	15.188
Outstanding December 31, 2005	135,000	23.502
Options granted	<u>50,000</u>	26.100
Outstanding March 31, 2006	185,000	24.200
Exercisable March 31, 2006	135,000	23.502

<u>Options</u> <u>Outstanding</u>	<u>Exercise</u> <u>Price</u>	<u>Remaining Contractual</u> <u>Life in Years</u>
30,000	\$16.35	2.083
45,000	23.90	3.083
60,000	26.78	4.167

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

<u>50,000</u>	26.10	4.917
185,000		

The weighted average remaining contractual life of options outstanding at March 31, 2006 is 3.77 years. NHI's Board of Directors has authorized an additional 1,652,800 shares of common stock that may be issued under the share-based payments plans.

The weighted average fair value per share of options granted was \$2.06 and \$2.51 for 2006 and 2005, respectively. For purposes of pro forma disclosures of net income and earnings per share as required by SFAS 123, as amended, the estimated fair value of the options is amortized to expense over the options' vesting period. The fair value of each grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions used for grants in 2006 and 2005:

Grant Date	<u>3/09/06</u>	<u>5/03/05</u>
Dividend yield	8.19%	8.80%
Expected volatility	22.41%	21.69%
Expected lives	3 years	5 years
Risk-free interest rate	4.67%	3.81%

In December 2004, the FASB issued SFAS No. 123R, "Share-Based Payment," which revises SFAS No. 123 and supersedes APB Opinion No. 25. This statement focuses primarily on accounting for transactions in which a company obtains employee services in share-based payment transactions, including employee stock purchase plans under certain conditions, but does not change the accounting guidance for share-based payment transactions with parties other than employees. This statement requires all share-based payment to employees to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. This statement became effective for the Company beginning January 1, 2006.

SFAS No. 123R permits public companies to adopt its requirements using one of two methods:

* A "modified prospective" method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS 123R for all share-based payments granted after the effective date and (b) based on the requirements of SFAS No. 123 for all awards granted to employees prior to the effective date of SFAS No. 123R that remain unvested on the effective date.

* A "modified retrospective" method which includes the requirements of the modified prospective method described above, but also permits entities to restate, based on the amounts previously recognized under SFAS No. 123 for purposes of pro forma disclosures, either (a) all prior periods presented or (b) prior interim periods of the year of adoption.

The company adopted SFAS No. 123R using the modified prospective method. The compensation expense reported for stock-based payments related to the 2005 Plan and the 1997 Plan totaled \$13,000 for the three months ended March 31, 2006, which is included in general and administrative expense in the consolidated statements of income.

Had compensation cost for our stock option plans been determined based on the fair value at the grant date of awards for the three months ended March 31, 2005, consistent with the provisions of SFAS 123, our net income and earnings per share would have been as follows:

	Three Months Ended <u>3/31/05</u>
<i>(dollars in thousands, except per share amounts)</i>

Foreclosure Properties

New England Properties - During 1999, we took over the operations of seven New England facilities. During 2001, we sold the properties to a not-for-profit entity and provided 100% financing consisting of 6.9% first mortgage proceeds totaling \$40,526,000, maturing August, 2011. For financial reporting purposes, we have not recorded the sale of the assets and continue to record the results of operations of these properties each period. For tax reporting purposes, the sale has been recorded. Any sale proceeds received from the buyer will be reported as a deposit until the down payment and continuing investment criteria of Statement of Financial Accounting Standards No. 66, "Accounting for Sales of Real Estate" ("SFAS 66") are met, at which time we will report the sale under the full accrual method. Management believes that the carrying amount of these real estate properties at March 31, 2006 of \$25,685,000 is realizable.

Amounts included in the consolidated financial statements applicable to the New England facilities are summarized as follows: (*in thousands*)

	<u>Three Months Ended</u>	
	<u>March 31</u>	
Income Statement:	<u>2006</u>	<u>2005</u>
Facility operating revenue	\$ <u>13,704</u>	\$ <u>12,931</u>
Facility operating expenses	12,715	11,949

Depreciation	<u>657</u>	<u>621</u>
Total Expenses	<u>13,374</u>	<u>12,685</u>
Net income	\$ 330	\$ 246
Balance Sheet:	March 31,	December 31,
	<u>2006</u>	<u>2005</u>
Real estate properties, net	\$25,685	\$25,969

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

Cash	2,478	3,045
Accounts receivable	3,629	3,241
Other assets	10,812	9,157
Accounts payable and other accrued expenses	7,552	6,689

The operating results of these properties and the asset or liability generated from the cumulative net income (loss) have been considered in our assessment that the carrying amount of these properties at March 31, 2006 is realizable. The asset or liability generated from the cumulative net income (loss) associated with these properties will be recognized, along with the deferred gain, as a gain or a loss at the time the sale is recorded. Our continuing involvement with these properties is as a creditor.

Kansas and Missouri Properties - In July 2001 we took over the operations of nine nursing homes in Kansas and Missouri and have included the operating results of these facilities in our consolidated financial statements since that date. During 2004, we sold the properties to a not-for-profit entity for \$33,585,000 and provided 100% financing. Proceeds consisted of an 8.5% note for \$20,585,000 maturing December 31, 2014, and a note for \$13,000,000 with interest at 3% through December 31, 2007 and at prime plus 1% thereafter, maturing December 31, 2014. For financial reporting purposes, we have not recorded the sale of the assets and continue to record the results of operations of these properties each period. For tax purposes, the sale has been recorded. Any sale proceeds received from the buyer will be reported as a deposit until the down payment and continuing investment criteria of Statement of Financial Accounting Standards No. 66, "Accounting for Sale of Real Estate" ("SFAS 66") are met, at which time we will account for the sale under the full accrual method.

During the three months ended March 31, 2006, we received \$5,482,000 from the sale by the current owner of a nursing facility in Town & Country, Missouri. The carrying amount of this facility was \$5,358,000 composed of net realty of \$6,520,000, reduced by net liabilities of \$1,162,000. As a result of having received final proceeds related to this facility, we have recognized the December 2004 sale of this property and recognized a \$124,000 gain.

Management believes that the carrying amount of the remaining real estate properties at March 31, 2006 of \$14,046,000 is realizable.

Amounts included in the consolidated financial statements applicable to the Kansas and Missouri facilities are summarized as follows: (*in thousands*)

	Three Months Ended <u>March 31</u>	
Income Statement:	<u>2006</u>	<u>2005</u>
Facility operating revenue	\$7,517	\$7,632
Facility operating expenses	7,649	7,426
Interest (income) expense	(4)	34
Depreciation	166	87
Total Expenses	7,811	7,547
Net income (loss)	\$ (294)	\$ 85
Balance Sheet:	March 31, <u>2006</u>	December 31, <u>2005</u>
Real estate properties, net	\$14,046	\$20,544
Cash	3,019	3,422
Accounts receivable	2,095	2,946
Other assets	1,122	492
Accounts payable and other accrued expenses	7,596	9,579

The operating results of these properties and the asset or liability generated from the cumulative net income (loss) have been considered in our assessment that the carrying amount of these properties at March 31, 2006 is realizable. The asset or liability generated from the cumulative net income (loss) associated with these properties will be recognized, along with the deferred gain, as a gain or a loss at the time the sale is recorded. Our continuing involvement with these properties is as a creditor.

Midwest Nursing Home Investors, Inc. ("Midwest") - An approximate \$8,735,000 first mortgage loan was secured by two nursing homes in Kansas and one in Wisconsin. Management's analysis of the future expected cash flows consistent with SFAS 114, historical occupancy and operating income of the project resulted in the recording of a \$2,000,000 writedown of this mortgage loan value during 2002 and an additional

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

writedown of \$2,000,000 during 2003. Payments to NHI were past due and the properties were foreclosed on in October 2004, resulting in our recording of real estate with a carrying value of \$4,324,000. The remaining carrying value of \$4,092,000 at March 31, 2006, is believed by management to be realizable. The average recorded investment in these properties was \$4,208,000 and \$4,324,000 for the three months ended March 31, 2006 and 2005, respectively. Rental income of \$145,000 and \$116,000 was recognized on the Kansas properties for the three months ended March 31, 2006 and 2005, respectively. Lease Terminations and Sales of Property

Manor House of Charlotte - In January 2005, this facility was sold generating net proceeds of \$3,546,000, and a gain of \$1,599,000, which is included in discontinued operations.

Marriott Senior Living Services - In July 2003, we reached an agreement with Marriott Senior Living Services ("Marriott") to terminate their leases with us on four assisted living facilities, two of which are located in Florida, one in Texas and one in New Jersey. The four facilities were leased to new operators.

Based on our impairment analysis, as a result of further defaults of covenants in the facility leases and continued deferred maintenance of the facilities, we recorded an impairment of \$2,550,000 during the first quarter of 2005 on the two Florida facilities. Further maintenance analysis resulted in the recording of an additional \$2,852,000 of accrued maintenance expense in the third quarter of 2005 on the two Florida facilities attributable to mold remediation. We had previously recorded an impairment of \$5,400,000 during the third quarter of 2003 on one of the Florida facilities.

Lease income of \$325,000 and \$491,000 was recognized on these four facilities for the three months ended March 31, 2006 and 2005, respectively. In February 2005, the facility in Dallas, Texas was sold for proceeds of \$7,911,000 and a loss of \$851,000, which is included in discontinued operations. We believe that the carrying amount of these remaining three properties at March 31, 2006 of \$24,844,000 is realizable.

Note 5. MORTGAGE AND OTHER NOTES RECEIVABLE:

American Medical Associates, Inc. ("AMA") - On May 1, 2004, NHI financed the purchase of three Florida-based nursing homes formerly owned by American Medical Associates, Inc. and previously financed by NHI. The amount of the new mortgage loans total \$14,500,000 and the notes mature May 14, 2009. We are also committed to funding up to \$1,700,000 in working capital loans to the purchaser.

Management's analysis of the future expected cash flows consistent with SFAS 114, historical occupancy and operating income of the project resulted in the recording of a \$2,000,000 writedown of these mortgage loans in the second quarter of 2005. The notes were recorded net of the \$5,200,000 recorded loss on notes to AMA in 2002. Management believes that the remaining carrying amount of \$5,858,000 at March 31, 2006 is supported by the value of the collateral. The average recorded investment in the loans was \$5,895,000, and \$8,176,000 for the three months ended March 31, 2006 and 2005, respectively. The related amount of interest income recognized on the loans was \$288,000, and \$271,000 for the three months ended March 31, 2006 and 2005, respectively.

Miracle Hill Nursing and Convalescent Center ("Miracle Hill") - In September 1996, NHI provided financing to Miracle Hill. Management's analysis of the future expected cash flows consistent with SFAS 114, past, current and anticipated operating income of the project and liquidity of the facility, resulted in the recording of a \$2,000,000 writedown of this mortgage loan in the second quarter of 2005. Management believes that the remaining carrying amount of \$2,669,000 at March 31, 2006 is supported by the value of the collateral. The average recorded investment in the Miracle Hill loan was \$2,693,000, and \$4,866,000 for the three months ended March 31, 2006 and 2005, respectively. The related amount of interest income recognized (representing cash received) on the loan was \$123,000, and \$128,000 for the three months ended March 31, 2006 and 2005, respectively.

Allgood HealthCare, Inc. ("Allgood") - We had two loans secured by five Georgia nursing home properties which are operated by Allgood. In January 2003, the borrowers filed for bankruptcy protection. We reported a \$2,000,000 writedown of this mortgage loan in the first quarter of 2005 as a result of our adverse court ruling about our priority position as creditor.

In December 2005, two of these facilities were converted to a Chapter 7 reorganization and sold by the Bankruptcy Trustee. Prior to the sale, NHI assigned its right to credit bid its mortgages to a third party operator who was the successful purchaser of these facilities. NHI provided the purchaser with \$4,000,000 of first mortgage financing and agreed to loan up to a total of \$800,000 of working capital (working capital balance is \$149,000 at March 31, 2006). NHI has a first lien on all assets of the borrowers, including accounts receivable. Management believes that the carrying amount of \$3,046,000 at March 31, 2006 is supported by the value of the collateral.

Management believes that the carrying amount of the remaining three facilities of \$10,819,000 at March 31, 2006 is supported by the value of the collateral.

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

National Health Realty, Inc. - On February 3, 2006, the \$10,450,000 bank term loan of National Health Realty, Inc. was acquired by assignment from the bank to NHI. The assigned loan as amended requires monthly interest payments at the interest rate of 30 days LIBOR plus 1.00%. Principal of \$425,000 was paid during the quarter. The unpaid principal (\$10,025,000 at March 31, 2006) is due at maturity (January 2, 2008).

Note 6. INVESTMENTS IN MARKETABLE SECURITIES:

Our investments in marketable securities include available for sale securities. Unrealized gains and losses on available for sale securities are recorded in stockholders' equity in accordance with SFAS 115. Realized gains and losses from securities sales are determined based upon specific identification of the securities.

Marketable securities consist of the following:

(in thousands)

	<u>3/31/06</u>		<u>12/31/05</u>	
	Amortized <u>Cost</u>	Fair <u>Value</u>	Amortized <u>Cost</u>	Fair <u>Value</u>
Available for sale	\$7,731	\$21,450	\$7,731	\$19,553

Gross unrealized gains and gross unrealized losses related to available for sale securities are as follows:

(in thousands)

	<u>3/31/06</u>	<u>12/31/05</u>
Gross unrealized gains	\$13,825	\$11,941
Gross unrealized losses	<u>(106)</u>	<u>(119)</u>
	\$13,719	\$11,822

Our available for sale marketable securities consist of the common stock of other publicly traded REITs. None of these available for sale marketable securities have stated maturity dates.

During the three months ended March 31, 2006 and 2005, we received and recognized \$1,148,000 and \$1,108,000, respectively, of dividend income from our marketable securities. Such income is included in non-operating income in the consolidated statements of income.

Proceeds from the sale of investments in available for sale securities during the three months ended March 31, 2005 were \$10,308,000. Gross investment gains of \$9,072,000 were realized on these sales during the three months ended March 31, 2005, \$5,022,000 of which is included in security recoveries and \$4,050,000 of which is included in non-operating income in the consolidated statements of income. When this security was called by ALC in 2005, we reported the recovery portion of the total gain in the same line in the income statement as the previously recorded impairment in 2001.

Note 7. DEBT

Early payoff of debt in January 2005 included a non-recourse mortgage bank note of \$25,637,000 with a weighted average interest rate of 6.0% that matured in 2007, and first mortgage notes totaling \$8,224,000 with a weighted average interest rate of 5.0% and maturing in 2006 and 2021.

Note 8. COMMITMENTS, GUARANTEES AND CONTINGENCIES:

At March 31, 2006, we were committed, subject to due diligence and financial performance goals, to fund approximately \$1,181,000 in health care real estate projects, all of which are expected to be funded within the next 12 months. The commitments include additional mortgage investments for six long-term health care centers and one assisted living facility, at interest rates ranging from 6.0% to prime plus 2.0%.

As described in Note 5 for Allgood HealthCare, Inc., two of the previous Allgood properties were purchased by new operators using NHI financing. As a part of these transactions, NHI agreed to contingently guarantee up to \$113,000 of Utility Deposit Bonds and Resident Trust Fund Bonds.

We believe that we have operated our business so as to qualify as a REIT under Section 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code") and we intend to continue to operate in such a manner, but no assurance can be given that we will be able to qualify at all times. If we qualify as a REIT, we will generally not be subject to federal corporate income taxes on our net income that is currently

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

distributed to our stockholders. This treatment substantially eliminates the "double taxation" (at the corporate and stockholder levels) that typically applies to corporate dividends. Our failure to continue to qualify under the applicable REIT qualification rules and regulations would cause us to owe state and federal income taxes and would have a material adverse impact on our financial position, results of operations and cash flows.

Note 9. EARNINGS PER COMMON SHARE:

Basic earnings per share is based on the weighted average number of common shares outstanding during the reporting period.

Diluted earnings per share assumes, if dilutive, the conversion of convertible subordinated debentures and the exercise of stock options using the treasury stock method. Net income is increased for interest expense on the convertible subordinated debentures, if dilutive.

The following table summarizes the average number of common shares and the net income used in the calculation of basic and diluted earnings per share.

	Three Months Ended <u>March 31</u>	
	<u>2006</u>	<u>2005</u>
BASIC:		
Weighted average common shares	27,843,217	27,580,665
Income from continuing operations	\$12,576,000	\$16,107,000
Discontinued operations	<u>44,000</u>	<u>687,000</u>
Net income	\$12,620,000	\$16,794,000
Income from continuing operations per common share	\$.45	\$.58
Discontinued operations per common share	==	<u>.03</u>
Net income per common share	\$.45	\$.61
DILUTED:		
Weighted average common shares	27,843,217	27,580,665
Stock options	16,073	37,717
Convertible subordinated debentures	==	<u>156,572</u>
Average common shares outstanding	27,859,290	27,774,954
Income from continuing operations	\$12,576,000	\$16,107,000
Interest on convertible subordinated debentures	==	<u>28,000</u>
Income from continuing operations	12,576,000	16,135,000
Discontinued operations	<u>44,000</u>	<u>687,000</u>
Net income assuming conversion of convertible subordinated debentures to common stock, if dilutive	\$12,620,000	\$16,822,000
Income from continuing operations per common share	\$.45	\$.58
Discontinued operations per common share	==	<u>.03</u>
Net income per common share	\$.45	\$.61
Incremental Shares Excluded Since Anti-dilutive:		
Options	60,000	--

In accordance with Statement of Financial Accounting Standards No. 128, "Earnings per Share", the above incremental shares were excluded from the computation of diluted earnings per share, since inclusion of these incremental shares in the calculation would have been anti-dilutive.

Note 10 - NON-OPERATING INCOME

Non-operating income is outlined in the table below:

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

	Three Months Ended	
	<u>March 31</u>	
	<u>2006</u>	<u>2005</u>
<i>(in thousands)</i>		
Dividends	\$1,148	\$1,108
Realized gains on securities	--	4,050
Interest income	1,223	749
Other	<u>31</u>	<u>47</u>
	\$2,402	\$5,954

Note 11. DISCONTINUED OPERATIONS

During the three months ended March 31, 2006 we received \$5,482,000 from the sale by the current owner of a nursing facility in Town & Country, Missouri. The carrying amount of this facility was \$5,358,000 composed of net realty of \$6,520,000, reduced by net liabilities of \$1,162,000. This property was sold in December 2004 to a not-for-profit entity and we provided 100% financing. As a result of having received final proceeds related to this facility, we have recognized the December 2004 sale of this property and recognized a \$124,000 gain.

During the three months ended March 31, 2005, we sold two assisted living facilities with carrying amounts totaling \$10,709,000 for proceeds of \$11,457,000. We recognized a gain of \$748,000 on the sale of these facilities.

For the three months ended March 31, 2006 and 2005, we have reclassified the operations, including the net gain on the sale of these facilities, as discontinued operations in accordance with SFAS 144.

Income from discontinued operations related to these facilities are as follows:

	Three Months Ended	
	<u>March 31</u>	
	<u>2006</u>	<u>2005</u>
<i>(in thousands, except per share amounts)</i>		
Revenues:		
Facility operating revenue	<u>\$2,059</u>	<u>\$2,077</u>
	<u>2,059</u>	<u>2,077</u>
Expenses:		
Depreciation	61	120
Facility operating expenses	<u>2,078</u>	<u>2,018</u>
	<u>2,139</u>	<u>2,138</u>

Gain on sale of assets	<u>124</u>	<u>748</u>
Total discontinued operations	\$ 44	\$ 687
Discontinued operations per common share:		
Basic	\$ --	\$.03
Diluted	\$ --	\$.03

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Executive Overview

National Health Investors, Inc. ("NHI" or the "Company"), a Maryland corporation, is a real estate investment trust ("REIT") that invests primarily in income producing health care properties with emphasis on the long-term care sector. As of March 31, 2006, we had interests in real estate owned, and investments in mortgages, preferred stock and marketable securities resulting in total invested assets of \$437,946,000. Founded in 1991, our mission is to invest in health care real estate which generates current income that will be distributed to stockholders. We have pursued this mission by making mortgage loans and acquiring properties to lease nationwide primarily in the long-term health care industry.

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

Portfolio

As of March 31, 2006, we had investments in 155 health care facilities located in 18 states consisting of 112 long-term care facilities, one acute care hospital, four medical office buildings, 15 assisted living facilities, six retirement centers and 17 residential projects for the developmentally disabled. These investments consisted of approximately \$114,194,000 aggregate carrying value amount of loans to 16 borrowers and \$254,144,000 of real estate investments with 16 lessees. Of these 155 facilities, 16 were acquired through foreclosure and are operated by us. These 16 facilities have been sold, but we have not yet met the accounting criteria to record the sales.

Our largest customer is National HealthCare Corporation ("NHC"). Of our 155 facilities, 41 are leased to NHC. These 41 facilities include four centers leased to other parties, the lease payments of which are guaranteed to us by NHC. Also, the 16 properties operated by us are managed by subsidiaries of NHC. NHC was our investment advisor until November 1, 2004. Consistent with our strategy of diversification, we have increased our portfolio so that the portion of our portfolio operated by NHC has been reduced from 100% of our total portfolio on October 17, 1991 (the date we began operations) to 11.4% of total portfolio on March 31, 2006, based on the net book value of these properties. In 1991, these assets were transferred by NHC to NHI at their then current net book value, in a non-taxable exchange. Many of these assets were substantially depreciated as a result of having been carried on NHC's books for as many as 20 years. As a result, we believe that the fair market value of these assets is significantly in excess of their net book value. To illustrate, rental income in 2005 from these facilities was \$33,328,000 or approximately 66% of our net book value. Therefore, NHC properties represent a smaller percentage of the portfolio. Subsequent additions to the portfolio related to non-NHC investments reflect their higher value based on existing costs at the date the investment was made.

As with all assets in our portfolio, we monitor the financial and operating results of each of these properties on a quarterly basis. In addition to reviewing the consolidated financial results of NHC, the individual center financial results are reviewed including their occupancy, patient mix, state survey results and other relevant information.

At March 31, 2006, 25.46% of the total invested assets of the health care facilities were operated by publicly-traded operators, 62.15% by regional operators, and 12.39% by small operators.

The following tables summarize our portfolio as of March 31, 2006:

Portfolio Statistics

	<u>Properties</u>	<u>Investment</u>	<u>Investment Percentage</u>

Total Public Operators	25.46%	\$93,778,000

Operators who collectively operate more than 3% of our total real estate investments are as follows: NHC, THI of Baltimore, Inc., Sunrise Senior Living Services, Inc., Health Services Management, Inc., Community Health Systems, Inc., ElderTrust of Florida, Inc., RGL Development, LLC, Regal Holdings, LLC, American HealthCare, LLC, SeniorTrust of Florida, Inc., and Senior Living Management Corporation.

Areas of Focus

Reflecting our improving outlook for the healthcare industry, we anticipate making new investments in 2006 while continuing to monitor and improve our existing properties. Even as we make new investments, however, we expect to maintain a relatively low level of debt vs. equity compared to our historical levels. New investments may be funded by our liquid investments and, if needed, by external financing. We will make new investments where we believe the spreads over our cost of capital will generate returns to our investors.

We have focused on lowering our debt. Our debt to capitalization ratio on March 31, 2006 was 21.5%, the lowest level in our 14 year history. Our liquidity is also strong with cash and marketable securities of \$150,702,000 exceeding our total debt outstanding of \$116,593,000 at March 31, 2006.

On December 27, 2005, we reached an agreement with NHC to extend through December 31, 2021 our current lease on 41 of our real estate properties. These 41 facilities include four centers leased to other parties, and three retirement centers. This extension assures an ongoing relationship with our largest customer.

Critical Accounting Policies

We prepare our financial statements in conformity with accounting principles generally accepted in the United States. These accounting principles require us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and cause our reported net income to vary significantly from period to period. If actual experience differs from the assumptions and other considerations used in estimating amounts reflected in our consolidated financial statements, the resulting changes could have a material adverse effect on our consolidated results of operations, liquidity and/or financial condition.

We consider an accounting estimate or assumption critical if:

* the nature of the estimates or assumptions is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change; and

* the impact of the estimates and assumptions on financial condition or operating performance is material.

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

Please refer to Note 1 of our audited consolidated financial statements for December 31, 2005 for further information on significant accounting policies that impact us. There have been no material changes to these policies in 2006.

Our significant accounting policies and the associated estimates, judgments and the issues which impact these estimates are as follows:

1) Valuations and impairments to our investments - The majority of our tenants and borrowers are in the long-term health care industry and derive their revenues primarily from Medicare, Medicaid and other government programs. Amounts paid under these government programs are subject to legislative and government budget constraints. From time to time, there may be material changes in government reimbursement. In the past, the long-term health care industry has at times experienced material reductions in government reimbursement.

The long-term health care industry has also experienced a dramatic increase in professional liability claims and in the cost of insurance to cover such claims. These factors have combined to cause a number of bankruptcy filings, bankruptcy court rulings and court judgments about refinancing for our lessees and mortgagees. We have determined that impairment of certain of our investments have occurred as the result of these events.

Decisions about valuations and impairments of our investments require significant judgments and estimates on the part of management. For real estate properties, the need to recognize an impairment is evaluated on a property by property basis in accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment and Disposal of Long-Lived Assets" ("SFAS 144"). Recognition of an impairment is based upon estimated undiscounted future cash flows from a property compared to the carrying amount of the property and may be affected by management's plans, if any, to dispose of the property.

For notes receivable, impairment recognition is based upon an evaluation of the estimated collectibility of loan payments and general economic conditions on a specific loan basis in accordance with Statement of Financial Accounting Standards No. 114, "Accounting by Creditors for Impairment of a Loan - An Amendment of FASB Statements No. 5 and 15" ("SFAS 114"). On a quarterly basis, NHI reviews its notes receivable for recoverability when events or circumstances, including the non-receipt of principal and interest payments, significant deteriorations of the financial condition of the borrower and significant adverse changes in general economic conditions, indicate that the carrying amount of the note receivable may not be recoverable. If necessary, an impairment is measured as the amount by which the carrying amount exceeds the discounted cash flows expected to be received under the note receivable or, if foreclosure is probable, the fair value of the collateral securing the note receivable.

We evaluate our marketable securities for other-than-temporary impairments consistent with the provisions of Statement of Financial Accountant Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities" ("SFAS 115") as amended by EITF 03-01 "The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments". An impairment of a marketable security would be considered "other-than-temporary" unless we have the ability and intent to hold the investment for a period of time sufficient for a forecasted market price recovery up to (or beyond) the cost of the investment and evidence indicates the cost of the investment is recoverable within a reasonable period of time.

While we believe that the carrying amounts of our properties, notes receivable, marketable securities and other investments are realizable, it is possible that future events could require us to make significant adjustments or revisions to these estimates.

2) Revenue recognition - mortgage interest and rental income - We collect interest and rent from our customers. Generally our policy is to recognize revenues on an accrual basis as earned. However, there are certain of our customers for which we have determined, based on insufficient historical collections and the lack of expected future collections, that revenue for interest or rent is not realizable. For these nonperforming investments, our policy is to recognize interest or rental income when assured, which we consider to be the period the amounts are collected. We identify investments as nonperforming if a required payment is not received within 30 days of the date it is due. This policy could cause our revenues to vary significantly from period to period. Revenue from minimum lease payments under our leases is recognized on a straight-line basis as required under SFAS 13 to the extent that future lease payments are considered collectible. Lease payments that depend on a factor directly related to future use of the property, such as an increase in annual revenues over a base year revenues, are considered to be contingent rentals and are excluded from minimum lease payments in accordance with SFAS 13.

3) REIT status and taxes - We believe that we have operated our business so as to qualify as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code") and we intend to continue to operate in such a manner, but no assurance can be given that we will be able to qualify at all times. If we qualify as a REIT, we will generally not be subject to federal corporate income taxes on our net income that is currently distributed to our stockholders. This treatment substantially eliminates the "double taxation" (at the corporate and stockholder levels) that typically applies to corporate dividends. Our failure to continue to qualify under the applicable REIT qualification rules and regulations would cause us to owe state and federal income taxes and would have a material adverse impact on our financial position, results of operations and cash flows.

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

4) Revenue recognition - third party payors - Approximately two-thirds of our facility operating revenues are derived from Medicare, Medicaid, and other government programs. Amounts earned under these programs are subject to review by the third party payors. In our opinion, adequate provision has been made for any adjustments that may result from these reviews. Any differences between our estimates of settlements and final determinations are reflected in operations in the year finalized.

Liquidity and Capital Resources

Sources and Uses of Funds

Our primary sources of cash include rent and interest receipts, the revenues of facilities we operate, proceeds from the sales of real property and principal payments on loans receivable. Our primary uses of cash include dividend distributions, the expenses of facilities we operate, debt service payments (including principal and interest), real property acquisitions and general and administrative expenses. These sources and uses of cash are reflected in our Consolidated Statements of Cash Flows and are discussed in further detail below. The following is a summary of our sources and uses of cash flows (dollars in thousands):

	Three Months Ended		Three Month Change	
	<u>March 31</u>		\$	%
	<u>2006</u>	<u>2005</u>		
Cash and Cash equivalents at beginning of period	\$132,469	\$161,215	\$(28,746)	-18%
Cash provided from operating activities	9,549	18,083	(8,534)	-47%
Cash provided from (used in) investing activities	605	(4,652)	5,257	113%
Cash provided from (used in) financing activities	<u>(13,371)</u>	<u>(48,593)</u>	<u>35,222</u>	<u>72%</u>
Cash and cash equivalents at end of period	\$129,252	\$126,053	\$3,199	3%

Operating Activities - Net cash from operating activities generally includes net income adjusted for non-cash items such as depreciation and amortization, working capital changes, investment writedowns and recoveries, and gain on asset disposals. The \$9,549,000 net cash provided from operating activities for the three months ended March 31, 2006 is composed of increases due to net income of \$12,620,000 and depreciation of \$3,084,000. These amounts were offset primarily by working capital increases of \$6,031,000 and gains on sale of real estate of \$124,000.

Net cash provided from operating activities decreased from \$18,083,000 in the three months ended March 31, 2005 to \$9,549,000 in the three months ended March 31, 2006 due primarily to a \$9,330,000 increase in working capital change between periods, and a \$796,000 increase in items affecting net income in the three months ended March 31, 2006 as compared to the prior period. The \$18,083,000 net cash provided from operating activities for the three months ended March 31, 2005 is composed of increases due to net income of \$16,794,000, depreciation of \$3,212,000, and working capital decreases of \$3,347,000. These amounts were offset by the following: (1) net loan, realty, and security recoveries of \$472,000, (2) gain on sale of real estate of \$748,000, and (3) gain on sale of marketable securities of \$4,050,000.

Investing Activities - Cash flows provided from investing activities during the three months ended March 31, 2006 included collections on mortgage and other notes receivable of \$5,291,000 compared to \$1,131,000 for the prior period. The \$5,291,000 collections on mortgage and other notes receivable include \$3,590,000 as a result of the early payoff from two Florida-based nursing facilities, and \$1,701,000 of routine collections. Disposition of property and equipment provided \$6,644,000 of proceeds for the three months ended March 31, 2006. The \$6,644,000 property proceeds is attributable to accounting for the sale of the Town & Country, Missouri nursing facility under the full accrual method as required by SFAS No. 66. During the three months ended March 31, 2006, we received proceeds from the sale of this facility by the current owner in March 2006. This property was sold in December 2004 to a not-for-profit entity and we provided 100% financing. (See Note 4).

In the prior period of 2005, proceeds from the disposition of property and equipment were \$11,457,000 and marketable securities were \$10,308,000.

Cash flows used in investing activities during the three months ended March 31, 2006 included investments in real estate properties of \$620,000 and in mortgage and other notes receivable of \$10,710,000. The \$620,000 investment in real estate properties is attributable to improvements of current operating facilities. The \$10,710,000 investment in mortgage and other notes receivable includes \$260,000 to current borrowers and \$10,450,000 to NHR. On February 3, 2006, the \$10,450,000 bank term loan of National Health Realty, Inc. was assigned to NHI. The assigned loan as amended requires monthly interest payments at the interest rate of 30 days LIBOR plus 1.00%. The unpaid principal (\$10,025,000 at March 31, 2006) is due at maturity (January 2, 2008). Cash flows used in investing activities in the prior period included investments in real estate properties of \$5,757,000 and in mortgage and other notes receivable of \$21,791,000.

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

Financing Activities - Net cash used in financing activities during the three months ended March 31, 2006 totaled \$13,371,000 compared to \$48,593,000 in the prior period. Cash flows used in financing activities for the three months ended March 31, 2006 included routine principal payments on debt of \$659,000, subordinated convertible debentures redeemed of \$201,000, and dividends paid to stockholders of \$12,524,000. This compares to the corresponding prior period activity of principal payments on debt of \$34,470,000 and dividends paid to stockholders of \$15,838,000.

Contractual Obligations and Contingent Liabilities

As of March 31, 2006, our contractual payment obligations and contingent liabilities were as follows:

Contractual Obligations (in thousands)	Total	Less than 1 Year	2-3 Years	4-5 Years	After 5 Years
Debt principal	\$116,593	\$ 3,759	\$108,376	\$4,190	\$268
Debt interest	13,045	8,112	4,710	210	13
Loan commitments	1,181	1,181	--	--	--
Management fees to NHC	6,885	6,885	--	--	--
Advisory fees	1,199	1,199	--	--	--
Guarantee to insurance companies	<u>113</u>	<u>113</u>	<u>--</u>	<u>--</u>	<u>--</u>
	\$139,016	\$21,249	\$113,086	\$4,400	\$281

Off Balance Sheet Arrangements

We currently have no outstanding guarantees or letters of credit except for those disclosed in Note 8. We may or may not elect to use financial derivative instruments to hedge interest rate exposure. At March 31, 2006, we did not participate in any such financial instruments.

Liquidity and Capital Resources

At March 31, 2006, our liquidity is strong, with cash and marketable securities of \$150,702,000 exceeding \$116,593,000 of total debt outstanding. Further, our debt to book capitalization ratio declined to 21.5%, the lowest level in our 14 year history.

Our next significant debt maturity of our \$100 million 7.3% unsecured public notes is on June 16, 2007.

We intend to comply with REIT dividend requirements that we distribute 90% of our taxable income for the year ended December 31, 2006 and thereafter. NHI declared a dividend of 48 cents per common share to shareholders of record on March 31, 2006 payable on May 10, 2006. The 2005 fourth quarter dividend of \$.45 per share was paid on January 10, 2006.

Commitments

At March 31, 2006, we were committed, subject to due diligence and financial performance goals, to fund approximately \$1,181,000 in health care real estate projects, all of which are expected to be funded within the next 12 months. The commitments include additional mortgage investments for six long-term health care centers and one assisted living facility at interest rates ranging from 6% to prime plus 2%.

We currently have sufficient liquidity to finance current investments for which we are committed as well as to repay or refinance borrowings at or prior to their maturity.

Real Estate and Mortgage Writedowns (Recoveries)

Our borrowers, tenants and the properties we operate as foreclosure properties have experienced financial pressures and difficulties similar to those experienced by the health care industry in general since 1997. Governments at both the federal and state levels have enacted legislation to lower or at least slow the growth in payments to health care providers. Furthermore, the costs of professional liability insurance have increased significantly during this same period.

A number of our real estate property operators and mortgage loan borrowers have experienced bankruptcy. Others have been forced to surrender properties to us in lieu of foreclosure and have otherwise failed to make timely payments on their obligations to us.

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

The following table summarizes our writedowns and recoveries for the three months ended March 31, 2006 and 2005, recorded in accordance with the provisions of SFAS 114 and SFAS 144:

Writedowns(in thousands)Three Months Ended March 31~~2006~~2005Real estate\$ ---\$2,550Mortgages --- 2,000\$ ---\$4,550

See Notes 4 and 5 to the financial statements for details of the properties identified as impaired real estate investments and non-performing loans.

We believe that the carrying amounts of our real estate properties and notes receivable, including those identified as impaired or non-performing, are realizable and supported by the value of the underlying collateral. However, it is possible that future events could require us to make significant adjustments to these carrying amounts. Security Recoveries

The following table summarizes our security recoveries for the three months ended March 31, 2006 and 2005, recorded in accordance with the provisions of SFAS 115:

Recoveries(in thousands)Three Months Ended March 31~~2006~~2005Securities\$ --\$5,022

Assisted Living Concepts, Inc. (ALC) common stock was called in January 2005 resulting in a gain of \$9,072,000 (\$5,022,000 of which is included in recoveries). These securities were previously identified as impaired in 2001. When this security was called by ALC in 2005, we reported the recovery portion of the total gain in the same line item in the income statement as the previously recorded impairment in 2001.

We believe that the carrying amounts of our investments in securities are realizable. However, future events could require us to make significant adjustments to our carrying amounts.

Results of Operations

Three Months Ended March 31, 2006 Compared to Three Months Ended March 31, 2005

Certain financial information for the three months ended March 31, 2005 has been restated for the presentation of operations discontinued during 2006 and 2005.

Net income for the three months ended March 31, 2006 is \$12,620,000 versus net income of \$16,794,000 for the same period in 2005, a decrease of 24.9%. Diluted earnings per common share increased 16 cents or 26.2% to 45 cents in the 2006 period from 61 cents in the 2005 period.

Total revenues for the three months ended March 31, 2006 increased \$898,000 or 2.5% to \$36,905,000 from \$36,007,000 for the three months ended March 31, 2005. Revenues from mortgage interest income decreased \$260,000, or 6.7%, when compared to the same period in 2005. Revenues from rental income increased \$499,000, or 4.3% in the 2006 period as compared to the 2005 period. Facility operating revenue increased \$659,000 or 3.2% in the 2006 period compared to the 2005 period.

Of the \$260,000 net decrease in mortgage interest income, increases totaling \$274,000 are related to the increased income from new loans, and \$108,000 is attributable to prepayment fees in 2006 from two Florida nursing facilities. Decreases in mortgage interest income relate primarily to mortgage loans paid off in 2005.

The \$499,000 increase in rental income in 2006 resulted primarily from \$675,000 increased rent from certain Alterra assisted living facilities offset by \$176,000 reduced rent from two Marriott assisted living facilities.

The \$659,000 increase in facility operating revenues is due primarily to the improved government payment rates and census at our foreclosure properties in Massachusetts and New Hampshire for the three months ended March 31, 2006. The increase in facility operating revenues is attributable to a \$773,000 increase in our Massachusetts and New Hampshire operating facilities and a \$115,000 decrease in our Kansas and Missouri operating facilities.

Total expenses for the three months ended March 31, 2006 increased \$877,000 or 3.4% to \$26,731,000 from \$25,854,000 for the 2005 period. Interest expense decreased \$442,000 or 17.9% in the three months ended March 31, 2006 as compared to the 2005 period. Facility operating expense increased by \$985,000 or 5.1% in the three months ended March 31, 2006 compared to the 2005 period.

Interest expense for the three months ended March 31, 2006 decreased primarily due to the payment of debt of \$38,040,000 since December 2004. This debt was repaid with cash that was earning less than the cost of the repaid debt and as a result, was immediately accretive to earnings.

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

The \$985,000 increase in facility operating expense relates primarily to the improved facility census in Massachusetts and New Hampshire facilities. The increase in facility operating expense is attributable to an increase of \$766,000 in our Massachusetts and New Hampshire operating facilities and an increase of \$223,000 in our Kansas and Missouri operating facilities. Expenses at these facilities increased also because of inflation and service improvements to enhance census.

Non-Operating Income -

Non-operating income for the three months ended March 31, 2006 decreased \$3,552,000 or 59.7% compared to the same period in 2005. Non-operating income for the three months ended March 31, 2006 includes \$1,148,000 of dividend income from marketable securities compared to \$1,108,000 in the prior periods. Non-operating income for the three months ended March 31, 2006 included interest income of \$1,223,000 compared to \$749,000 in the prior period. The prior period of 2005 included a gain of \$4,050,000 on the sale, as a result of merger, of ALC common stock for cash (after \$5,022,000 of the ALC common sale proceeds is treated as a recovery.) When this security was called by ALC in 2005, we were required to report the "recovery" portion of the total gain in the same line item in the income statement as the previously recorded loss in 2001.

Discontinued Operations -

During the three months ended March 31, 2006 we received proceeds from the sale by the current owner in March 2006 of one nursing facility in Town & Country, Missouri. The carrying amount of this facility was \$5,358,000 composed of net realty of \$6,520,000, reduced by net liabilities of \$1,162,000. Proceeds were \$5,482,000. This property was sold in December 2004 to a not-for-profit entity and we provided 100% financing. As a result of having received final proceeds related to this facility, in March 2006, we have accounted for the December 2004 sale of this property under the full accrual method as required by SFAS No. 66. We recognized a \$124,000 gain on the sale of this facility.

During the three months ended March 31, 2005, we sold two assisted living facilities with carrying amounts totaling \$10,709,000 for proceeds of \$11,457,000. We recognized a gain of \$748,000 on the sale of these facilities.

For the three months ended March 31, 2006 and 2005, we have reclassified the operations, including the net gain on the sale of these facilities, as discontinued operations in accordance with SFAS 144.

Funds From Operations

Our funds from operations ("FFO") for the three months ended March 31, 2006, on a diluted basis was \$15,268,000, a decrease of \$3,662,000 as compared to \$18,930,000 for the same period in 2005. FFO represents net earnings available to common stockholders, excluding the effects of asset dispositions, plus depreciation associated with real estate investments. Diluted FFO assumes, if dilutive, the conversion of convertible subordinated debentures and the exercise of stock options using the treasury stock method.

We believe that funds from operations is an important supplemental measure of operating performance for a real estate investment trust. Because the historical cost accounting convention used for real estate assets requires straight-line depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen and fallen with market conditions, presentations of operating results for a real estate investment trust that uses historical cost accounting for depreciation could be less informative, and should be supplemented with a measure such as FFO. The term FFO was designed by the real estate investment trust industry to address this issue. Our measure may not be comparable to similarly titled measures used by other REITs. Consequently, our funds from operations may not provide a meaningful measure of our performance as compared to that of other REITs. Since other REITs may not use our definition of FFO, caution should be exercised when comparing our Company's FFO to that of other REITs. Funds from operations in and of itself does not represent cash generated from operating activities in accordance with GAAP (funds from operations does not include changes in operating assets and liabilities) and therefore should not be considered an alternative to net earnings as an indication of operating performance, or to net cash flow from operating activities as determined by GAAP in the United States, as a measure of liquidity and is not necessarily indicative of cash available to fund cash needs.

We have complied with the SEC's interpretation that recurring impairments taken on real property may not be added back to net income in the calculation of FFO. The SEC's position is that recurring impairments on real property are not an appropriate adjustment.

The following table reconciles net income to funds from operations:

	Three Months Ended	
	<u>March 31</u>	
	<u>2006</u>	<u>2005</u>
<i>(in thousands, except share and per share amounts)</i>		

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

Shares for basic funds from operations per share	27,843,217	27,580,665
Shares for diluted funds from operations per share	27,859,290	27,774,954

Impact of Inflation

Inflation may affect us in the future by changing the underlying value of our real estate or by impacting our cost of financing our operations.

Our revenues are generated primarily from long-term investments and the operation of long term care facilities. Inflation has remained relatively low during recent periods. There can be no assurance that future Medicare, Medicaid or private pay rate increases will be sufficient to offset future inflation increases. Certain of our leases require increases in rental income based upon increases in the revenues of the tenants.

New Accounting Pronouncements

In December 2004, the FASB has issued FASB Statement No. 123 (Revised 2004), *Share-Based Payment* ("Statement 123R"). The new FASB rule requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments issued. The Company adopted Statement 123R beginning January 1, 2006. The scope of Statement 123R includes a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. The adoption of Statements 123R has not had a significant impact on its financial statements other than the recording of compensation charges for option holders.

In May 2005, the FASB issued FASB Statement No. 154, *Accounting for Changes and Error Corrections*. This new standard replaces APB Opinion No. 20, *Accounting Changes* and FASB Statement No. 3, *Reporting Accounting Changes in Interim Financial Statements*. Statement 154 requires that a voluntary change in accounting principle be applied retrospectively with all prior period financial statements presented on the new accounting principle, unless it is impracticable to do so. Statement 154 also provides that (1) a change in method of depreciating or amortizing a long-lived nonfinancial asset be accounted for as a change in estimate (prospectively) that was effected by a change in accounting principle, and (2) correction of errors in previously issued financial statements should be termed a "restatement". The new standard is effective for accounting changes and correction of errors made in fiscal years beginning after December 15, 2005. The adoption of this pronouncement has not had an impact on the Company's financial statements.

Forward Looking Statements

References throughout this document to the Company include National Health Investors, Inc. and its wholly-owned subsidiaries. In accordance with the Securities and Exchange Commission's "Plain English" guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In this document, the words "we", "our", "ours" and "us" refer only to National Health Investors, Inc. and its wholly-owned subsidiaries and not any other person.

This Quarterly Report on Form 10-Q and other information we provide from time to time, contains certain "forward-looking" statements as that term is defined by the Private Securities Litigation Reform Act of 1995. All statements regarding our expected future financial position, results of operations, cash flows, funds from operations, continued performance improvements, ability to service and refinance our debt obligations, ability to finance growth opportunities, and similar statements including, without limitations, those containing words such as "believes", "anticipates", "expects", "intends", "estimates", "plans", and other similar expressions are forward-looking statements.

Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected or contemplated in the forward-looking statements as a result of, but not limited to, the following factors:

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

- * national and local economic conditions, including their effect on the availability and cost of labor, utilities and materials;
- * the effect of government regulations and changes in regulations governing the healthcare industry, including compliance with such regulations by us and our borrowers and/or lessees;
- * changes in Medicare and Medicaid payment levels and methodologies and the application of such methodologies by the government and its fiscal intermediaries to our borrowers and/or lessees;
- * the ability to pay when due or refinance certain debt obligations maturing within the next 12 months;
- * the availability and terms of capital to fund investments;
- * the competitive environment in which we operate;

See the notes to the Annual Financial Statements, and "Item 1. Business and Item 1A. Risk Factors" therein for a discussion of various governmental regulations and other operating factors relating to the healthcare industry and the risk factors inherent in them. You should carefully consider these risks before making any investment decisions in the Company. These risks and uncertainties are not the only ones facing the Company. There may be additional risks that we do not presently know of or that we currently deem immaterial. If any of the risks actually occur, our business, financial condition or results of operations could be materially adversely affected. In that case, the trading price of our shares of stock could decline, and you may lose all or part of your investment. Given these risks and uncertainties, we can give no assurances that these forward-looking statements will, in fact, occur and, therefore, caution investors not to place undue reliance on them.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

Our cash and cash equivalents consist of highly liquid investments with an original maturity of less than three months when purchased. All of our mortgage and other notes receivable bear interest at fixed interest rates. Our investment in preferred stock represents an investment in the preferred stock of another real estate investment trust and bears interest at a fixed rate of 8.5%. As a result of the short-term nature of our cash instruments and because the interest rates on our investments in notes receivable and preferred stock are fixed, a hypothetical 10% change in market interest rates would have no impact on our future earnings and cash flows related to these instruments.

As of March 31, 2006, \$100,090,000 of our debt bears interest at fixed interest rates. Because the interest rates of these instruments are fixed, a hypothetical 10% change in interest rates would have no impact on our future earnings and cash flows related to these instruments. The remaining \$16,503,000 of our debt bear interest at variable rates. A hypothetical 10% increase in interest rates would reduce our future earnings and cash flows related to these instruments by \$19,000. A hypothetical 10% decrease in interest rates would increase our future earnings and cash flows related to these instruments by \$19,000.

We do not use derivative instruments to hedge interest rate risks. The future use of such instruments will be subject to strict approvals by our senior officers.

Equity Price Risk

We consider our investments in marketable securities as available for sale securities and unrealized gains and losses are recorded in stockholders' equity in accordance with SFAS 115. The investments in marketable securities are recorded at their fair market value based on quoted market prices. Thus, there is exposure to equity price risk, which is the potential change in fair value due to a change in quoted market prices. Hypothetically, a 10% change in quoted market prices would result in a related \$2,145,000 change in the fair value of our investments in marketable securities. **Item 4. Controls and Procedures.**

As of March 31, 2006, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer ("CEO") and Principal Accounting Officer ("PAO"), of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the CEO and PAO, concluded that the Company's disclosure controls and procedures were effective as of March 31, 2006. There have been no significant changes in the Company's internal control over financial reporting or in other factors that could significantly affect or are reasonably likely to significantly affect internal controls during the quarter ended or subsequent to March 31, 2006.

PART II. OTHER INFORMATION

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

Item 1. Legal Proceedings. None other than in the normal course of business.

Item 1A. Risk Factors.

During the quarter ended March 31, 2006, there were no material changes to the risk factors that were disclosed in Item 1A of National Health Investors, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2005.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds. Not applicable

Item 3. Defaults Upon Senior Securities.

Item 4. Submission of Matters to a Vote of Security Holders.

(a) The annual meeting of the shareholders was held on May 2, 2006.

(b) Matters voted upon at the meeting were as follows:

PROPOSAL NO. 1: Re-election of Robert T. Webb to serve as a director for a term of three years or until his successor has been duly elected and qualified.

<u>Nominee</u>	<u>Voting For</u>	<u>Withholding Authority</u>
Robert T. Webb	25,179,129	677,274
