## SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

---

### FORM 10-Q

ý **QUARTERLY REPORT UNDER SECTION 13 OF THE SECURITIES  
EXCHANGE ACT OF 1934**

**For the Quarter Ended September 30, 2002**

**Commission File No. 1-4290**

---

### **K2 INC.**

(exact name of registrant as specified in its charter)

**Delaware**  
(State of Incorporation)

**95-2077125**  
(I.R.S. Employer Identification No.)

**4900 South Eastern Avenue**  
**Los Angeles, California**  
(Address of principal executive offices)

**90040**  
(Zip Code)

**(323) 724-2800**  
Registrant's telephone number, including area code

**Not applicable**  
Former name, former address and former fiscal year, if changed since last report:

---

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes ý

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of October 31, 2002.

Common Stock, par value \$1 17,939,076 Shares

**K2 INC.**  
**NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS**  
**September 30, 2002**

**NOTE 1 Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine-month periods ended September 30, 2002 are not necessarily indicative of the results that may be expected for the year ended December 31, 2002.

The balance sheet at December 31, 2001 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

For further information, refer to the Consolidated Financial Statements and Notes to Financial Statements included in K2 Inc.'s ("K2's") Annual Report on Form 10-K for the year ended December 31, 2001.

**NOTE 2 Summary of Significant Accounting Policies***Accounts Receivable and Allowances*

Accounts receivable are net of allowances for doubtful accounts of \$9,484,000 at September 30, 2002 and \$5,316,000 at December 31, 2001.

*Inventories*

The components of inventory consisted of the following:

	<b>September 30 2002</b>	<b>December 31 2001</b>
	(thousands)	
Finished goods	\$ 107,944	\$ 135,623
Work in process	6,899	11,788
Raw materials	21,676	22,558
	\$ 136,519	\$ 169,969

*Newly Adopted Accounting Standards*

Effective January 1, 2002, K2 adopted new accounting standards on "Business Combinations," and "Goodwill and Other Intangible Assets." The Business Combination changes require the use of the purchase method of accounting for business combinations and eliminates the pooling-of interests method. The changes to goodwill require that goodwill and indefinite-lived intangible assets no longer be amortized to earnings, but instead reviewed at least annually for impairment, and more often when impairment indicators are present. In addition, the standard includes provisions, upon adoption, for the reclassification of certain existing recognized intangibles as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the testing for impairment of existing goodwill and other intangibles. Had K2 adopted the new goodwill accounting on the first day of 2001, third quarter 2001 and first nine months 2001 amortization expense would have been lowered by approximately \$583,000 and \$1,669,000, respectively,

## Edgar Filing: K2 INC - Form 10-Q

and the net loss for those periods would have decreased by the same amounts (or \$.03 and \$.09 per diluted share, respectively) to \$10.1 million and \$3.5 million, respectively. The adoption of SFAS No. 142 resulted in an increase in operating income through a reduction of amortization expense of approximately \$583,000 and \$1,669,000 for the three and nine months ended September 30, 2002, respectively.

In accordance with these new standards, while amortization of goodwill and assets with indefinite lives is no longer recorded, these accounts must be reviewed for impairment, at least annually, or when events indicate that an impairment exist. K2 completed the impairment tests in the first quarter of 2002 and continues to review the accounts for impairment on an on-going basis. During the 2002 third quarter, K2 included a \$465,000 charge in its recreational products segment for the write-down of goodwill related to discontinued product lines. K2 estimates the fair value of its reporting units by using a discounted cash flow analysis.

Effective January 1, 2002, K2 adopted "Accounting for the Impairment or Disposal of Long-Lived Assets." The adoption of SFAS No. 144 did not have an impact on K2's financial statements.

In 2000 and 2001, the FASB Emerging Issues Task Force issued several changes to the accounting for incentives to customers resulting in K2 recording such items as deductions from sales rather than selling expense. The impact of K2's adoption of these changes on the financial statements was immaterial.

### *Reclassifications*

Certain prior year amounts have been reclassified to conform to the current year presentation.

### **Note 3 Charges Against Earnings**

In ongoing cost reduction moves initiated in 1999, K2 completed the move of its remaining ski production to China in 2001, closing the Washington ski manufacturing facility during the 2001 third quarter. In addition, three other smaller manufacturing facilities were shut down in Minnesota and Alabama, which serviced the Stearns and Hilton operations, with most of the production also moving overseas.

The scooter market experienced explosive growth in 2000, however, orders for scooters abruptly stopped early in the 2001 first quarter. Orders for in-line skates began to decline in the 2001 second quarter in response to higher than expected retail inventory levels and remained soft throughout the remainder of 2001. K2 responded by downsizing its small-wheeled products operation and it additionally closed certain manufacturing facilities. The facility closures, coupled with the downsizing activities, resulted in the reduction of approximately 600 positions worldwide. As a result, K2 recorded a pre-tax charge to earnings in the 2001 third quarter of \$18.0 million, primarily related to severance, the write down of facilities and equipment, and the reduction in the net carrying value of small-wheeled products inventory, of which approximately \$5.0 million has or will result in a cash outlay. Approximately \$15.6 million of the charge was included in cost of sales and approximately \$2.4 million was included in general and administrative expenses in the third quarter of 2001.

5

The following table summarizes the activity in 2001 and 2002:

	Facilities & Equipment	Inventory	Severance and Related	Subtotal	Other Downsizing	Total
	(Thousands)					
2001 Charges	\$ 3,179	\$ 9,266	\$ 4,389	\$ 16,834	\$ 1,166	\$ 18,000
<b>Utilized in 2001:</b>						
Cash			3,104	3,104	537	3,641
Non-cash write down		9,266		9,266		9,266
Non-cash disposal	3,179			3,179	529	3,708
	3,179	9,266	3,104	15,549	1,066	16,615
Balance December 31, 2001			1,285	1,285	100	1,385

Edgar Filing: K2 INC - Form 10-Q

	Facilities & Equipment	Inventory	Severance and Related	Subtotal	Other Downsizing	Total
<b>Utilized in 2002:</b>						
Cash			1,133	1,133	100	1,233
Balance September 30, 2002	\$	\$	\$ 152	\$ 152	\$	\$ 152

Of the remaining cash charges not utilized at September 30, 2002, K2 anticipates such amounts will be settled by the end of the 2002, resulting in a future cash outlay of \$0.2 million.

**NOTE 4 Intangible Assets**

The components of intangible assets consisted of the following:

	September 30 2002	December 31 2001
	(Thousands)	
<b>Intangibles subject to amortization:</b>		
Net carrying amount:		
Patents and Trademarks	\$ 1,762	\$ 1,616
<b>Goodwill not subject to amortization (by segment):</b>		
Net carrying amount:		
Sporting goods	37,572	35,629
Other recreational	1,059	1,524
Industrial	2,387	2,299
<b>Total intangible assets, net</b>	<b>\$ 42,780</b>	<b>\$ 41,068</b>

Amortization expense of intangible assets subject to amortization will be approximately \$400,000 per year over the next five years.

**NOTE 5 Pensions**

K2 sponsors several trustee noncontributory defined benefit pension plans covering most of its domestic employees. Pension costs and liabilities are actuarially calculated. These calculations are based on assumptions established at the beginning of 2002 related to the discount rate, projected compensation increases and expected return on assets of 7.25%, 4.00% and 9.00%, respectively. A variance in the discount rate, expected return on plan assets and rate of compensation increase could have a significant impact on the pension costs recorded.

Actual asset returns on K2's pension assets during the 2001 year did not meet K2's assumption of 2001 expected returns which has resulted in 2002 pension expense being higher than 2001 pension

expense by approximately \$300,000, or \$.01 per diluted share, which is reflected in the current year nine months general and administrative expenses. For the 2002 year, market conditions remain unsteady which may result in negative asset returns on the pension assets for the 2002 year. These negative returns may result in an increase in 2003 pension expense of \$1.0 million to \$1.5 million, or \$.04 to \$.05 per diluted share. Further, K2 expects to reduce its 2003 discount rate to 6.75% - 7.00% which will also result in an incremental increase to 2003 pension expense of approximately \$300,000 to \$500,000, or \$.01 to \$.02 per diluted share. Finally, K2 expects the accumulated benefit obligation of the pension plans to exceed the fair value of the plan assets at December 31, 2002, due to declines in the stock market during 2002. The actual

## Edgar Filing: K2 INC - Form 10-Q

amount depends on changes in the fair value of plan assets during the fourth quarter. The additional minimum liability to be recorded would be charged to Other Comprehensive Income, which is a component of K2's stockholder's equity. An estimate at the end of the third quarter would result in a charge of \$5.3 million, net of tax. The actual amount may differ significantly.

### NOTE 6 Borrowings and Other Financial Instruments

K2's principal long-term borrowing facility is a \$75 million revolving Credit Line ("Credit Line"), secured by substantially all of the assets of K2, other than domestic accounts receivable which are sold pursuant to the Purchase Facility described below. The Credit Line is due on December 31, 2003. Additionally, K2 has a five year, \$75 million accounts receivable purchase facility ("Purchase Facility").

At September 30, 2002, there were no borrowings under the Credit Line. At December 31, 2001, outstanding indebtedness under the Credit Line totaled \$26.5 million, and the effective interest rate of such borrowings was 4.68%. Pursuant to the terms of the Credit Line, \$66.7 million was available for borrowing at September 30, 2002.

The Purchase Facility is a five-year domestic accounts receivable arrangement, under which K2 can sell with limited recourse, an undivided interest in designated pools of accounts receivable in an amount not to exceed \$75 million. The originators of the receivables sell the receivables through a subsidiary of K2 to a conduit, which then issues commercial paper and charges K2 interest based on the commercial paper rate plus a spread. The interest rate, including the spread, at September 30, 2002 was 2.43%.

Unlike the asset securitization program which was in effect prior to March 2002, financing obtained pursuant to the Purchase Facility is treated in K2's financial statements as a borrowing. As of September 30, 2002, financings under the Purchase Facility totaled \$20.7 million and are classified as long-term debt as K2 believes the amount outstanding at September 30, 2002 is equal to or less than the minimum amount expected to be outstanding during the next twelve months. As of December 31, 2001, accounts receivable of \$51.8 million were sold under the prior asset securitization program, with the related assets and liabilities for the receivables securitized by the facility treated as off balance sheet.

The credit facilities currently prohibit the payment of cash dividends and stock repurchases by K2.

### NOTE 7 Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss includes the cumulative foreign currency translation adjustments related to long-term investments in foreign subsidiaries and unrealized gains or losses on derivative instruments.

7

The components of accumulated other comprehensive loss are as follows:

	Currency Translation Adjustments	Derivative Financial Instruments Gains / (Losses)	Total
	(Thousands)		
Balance at December 31, 2001	\$ (21,238)	\$ 439	\$ (20,799)
Currency Translation Adjustment	7,464		7,464
Reclassification adjustment for amounts recognized in cost of sales		(439)	(439)
Change in fair value of derivatives, net of (\$82) taxes		(154)	(154)
Balance at September 30, 2002	\$ (13,774)	\$ (154)	\$ (13,928)

Total comprehensive income was \$5.0 million and \$18.4 million for the three and nine months ended September 30, 2002, respectively. Total comprehensive loss was \$10.3 million and \$7.6 million for the three and nine months ended September 30, 2001, respectively. Total comprehensive income or loss includes the net change in accumulated other comprehensive loss for the period.

### NOTE 8 Earnings Per Share Data

## Edgar Filing: K2 INC - Form 10-Q

Basic earnings per share ("EPS") are determined by dividing net income by the weighted average number of shares outstanding during the period. Diluted EPS reflects the potential dilutive effects of stock options, using the treasury stock method. For the three and nine month periods ended September 30, 2002, computation of diluted EPS included the dilutive effects of 981,000 and 593,000 stock options, respectively, and excluded 928,000 and 1,306,000 stock options outstanding, respectively, since their inclusion would have been antidilutive. For the three and nine month periods ended September 30, 2001, computation of diluted EPS excluded effects of 1,950,000 and 1,960,000 stock options, respectively, since their inclusion would have been antidilutive.

### NOTE 9 Segment Information

The segment information presented below is for the three months ended September 30:

	Net Sales to Unaffiliated Customers		Intersegment Sales		Operating Profit (Loss)		
	2002	2001	2002	2001	2002	2001

- (c) 2001 includes a charge of \$0.3 million for restructuring and downsizing costs

**NOTE 10 Contingencies**

K2 is subject to various legal actions and proceedings in the normal course of business. While the ultimate outcome of these matters cannot be predicted with certainty, management does not believe these matters will have a material adverse effect on K2's financial statements.

K2 is one of several named potentially responsible parties ("PRP") in three Environmental Protection Agency ("EPA") matters involving discharge of hazardous materials at old waste sites in South Carolina and Michigan. Although environmental laws technically impose joint and several liability upon each PRP at each site, the extent of K2's required financial contribution to the cleanup of these sites is expected to be limited based upon the number and financial strength of the other named PRPs and the volume and types of waste involved which might be attributable to K2.

Environmental and related remediation costs are difficult to quantify for a number of reasons including the number of parties involved, the difficulty in determining the extent of the contamination, the length of time remediation may require, the complexity of environmental regulation and the continuing advancement of remediation technology. K2 accrues for liabilities of this nature when it is probable a liability has been incurred and the amount can be reasonably estimated. At September 30, 2002 and December 31, 2001, K2 had recorded an estimated liability of approximately \$938,000 and \$745,000, respectively, for environmental liabilities and made no provision for expected insurance recovery. The estimates are based on K2's share of the costs to remediate as provided by the PRP's consultants and in ongoing discussions with the EPA or other environmental agencies.

The ultimate outcome of these matters cannot be predicted with certainty, however, management does not believe these matters will have a material adverse effect on K2's financial statements.

**ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*Comparative Third Quarter Results of Operations*

Net sales for the three months ended September 30, 2002 increased \$1.7 million to \$149.8 million from \$148.1 million in the year-earlier period. Net income for the third quarter of 2002 improved \$14.5 million or 135.5%, to \$3.9 million, or \$.21 per diluted share, from a net loss of \$10.7 million, or \$.59 per diluted share, in the third quarter a year ago. The 2001 third quarter's net loss included \$11.7 million, or \$0.65 per share, in after-tax charges for restructuring and downsizing.

*Net Sales.* In the sporting goods segment, net sales for the 2002 third quarter improved \$1.5 million to \$115.4 million from \$113.9 million in the 2001 third quarter. The overall improvement resulted from increases in sales of Shakespeare fishing tackle of \$2.3 million, Stearns

## Edgar Filing: K2 INC - Form 10-Q

outdoor products of \$2.6 million and in-line skates of \$0.7 million. The improvement in sales of in-line skates reflects K2's strong market position in the performance skate segment coupled with the benefits of a market consolidating around a handful of brands and stronger market conditions than in the prior year's quarter. Shakespeare fishing tackle sales benefited from market share gains, led by higher sales of new fishing reels, Ugly Stik fishing rods, and kits and combos. Higher sales of Stearns outdoor products were the result of the popularity of children's flotation devices and new applications for the Navy. During the 2002 quarter, worldwide sales of skis and snowboard products declined by \$1.0 million and \$3.4 million, respectively, due to lower preseason orders reflecting cautious purchasing by retailers.

In the other recreational products segment, net sales for the third quarter were \$8.5 million as compared with \$9.4 million in the prior year's quarter reflecting lower apparel sales to the advertising specialty market in continued sluggish market conditions, and lower sales of skateboard shoes over the prior year's quarter.

Net sales of the two businesses in the industrial products group for the third quarter improved to \$25.9 million from \$24.8 million in the prior year's quarter. The sales increase reflected higher shipments of Shakespeare monofilament products of \$0.5 million including cutting line and resins, as well as increased sales of military and marine antennas of \$0.5 million.

*Gross profit.* Gross profit for the third quarter of 2002 was \$47.5 million, or 31.7% of net sales, as compared with \$30.5 million, or 20.6% of net sales, in the year ago quarter. Gross profit in the 2001 third quarter included charges for restructuring and downsizing of \$15.6 million (a discussion regarding an additional \$2.4 million which was charged against general and administrative expenses is included below). During the 2001 third quarter, K2 closed the Washington ski manufacturing facility and moved its production to China. K2 also shut down three other smaller manufacturing facilities in Minnesota and Alabama which serviced the Stearns and Hilton operations, with most of the production also moving overseas. In addition to the factory closures, K2 experienced an industry-wide slowdown in sales of small-wheeled products, necessitating a downsizing of K2's small-wheeled products operation. The downsizing of the small-wheeled products business, the shutdown of the domestic manufacturing facilities and additional cost reduction measures resulted in charges to cost of products sold of \$15.6 million primarily related to severance, the write down of facilities and equipment, and the reduction in the net carrying value of small-wheeled products inventory. The improvement in gross profit dollars and margins for the 2002 quarter was attributable to the 2001 third quarter restructuring and downsizing charges discussed above, higher sales volume and reduced product costs obtained from selling products manufactured in China, partially offset by an additional \$1.0 million adjustment to the carrying value of the scooter inventory in the current period.

*Costs and Expenses.* Selling expenses decreased \$4.1 million or 15.0%, to \$23.3 million, or 15.6% of net sales, from \$27.4 million, or 18.5% of net sales, in the prior year's quarter. The dollar decrease

10

---

and reduction as a percentage of net sales was attributable to cost reduction efforts initiated by K2 during 2001.

General and administrative expenses were \$16.0 million, or 10.7% of net sales as compared with \$16.8 million, or 11.3% of net sales, in the 2001 third quarter. The 2001 third quarter included expenses for downsizing charges of \$2.4 million, primarily for severance and the write down of facilities associated with the downsizing of the small-wheeled products operation. General and administrative expenses before the 2001 third quarter expenses for downsizing were higher in the 2002 third quarter due primarily to additional allowances recorded for doubtful accounts, higher pension expense and higher insurance costs. In the 2002 fourth quarter, K2 will record a payment related to the resignation of K2's CEO under the terms of his employment contract, of approximately \$1.5 million, of which approximately \$1.2 million will be expensed in the 2002 fourth quarter.

Beginning in the 2002 first quarter, in accordance with K2's adoption of new accounting pronouncements, amortization expense of goodwill is no longer being recorded against earnings. This resulted in reduction of general and administrative expenses of approximately \$583,000 in the 2002 third quarter as compared with the second quarter in the prior year.

*Operating Income.* Operating income for the third quarter improved to \$8.1 million or 5.4% of net sales, as compared to an operating loss of \$13.7 million, in the year ago quarter. The 2001 third quarter included \$18.0 million of restructuring and downsizing charges as discussed above. The increase in operating income reflects the impact of the 2001 third quarter restructuring and downsizing charges, increased sales volume, higher gross profit margins and lower selling expenses, partially offset by higher general and administrative expenses.

*Interest Expense.* Interest expense decreased \$0.8 million to \$2.3 million in the third quarter of 2002 compared to \$3.1 million in the year-earlier period. The decrease for the quarter was due to lower average borrowings during the quarter as compared to the prior year.

*Comparative Nine-Month Results of Operations*

## Edgar Filing: K2 INC - Form 10-Q

Net sales for the nine months ended September 30, 2002 were \$454.5 million as compared with \$462.7 million in the year-earlier period. Net income for the first nine months of 2002 improved to \$11.5 million, or \$.64 per diluted share, as compared with a net loss of \$5.2 million, or \$.29 per diluted share, in the first nine months of 2001. The 2001 nine month's net loss included \$11.7 million, or \$0.65 per share, in after-tax charges for restructuring and downsizing.

*Net Sales.* In the sporting goods segment, net sales for the first nine months were \$343.0 million, down from \$348.3 million in the 2001 period. The overall decrease resulted from lower sales of in-line skates of \$5.8 million, and lower sales of skis and snowboards of \$2.7 million and \$6.9 million, respectively, partially offset by higher sales of Shakespeare fishing tackle of \$8.6 million and Stearns outdoor products of \$6.8 million. During the period, sales of Shakespeare fishing tackle benefited from domestic market share gains, led by higher sales of rods, new fishing reels and kits and combos, especially of Warner Brothers licensed kits and accessories. Sales of Stearns products improved due to higher sales of children's flotation devices and other industrial and military applications. During 2002, worldwide sales of skis and snowboard products declined due to lower preseason orders reflecting cautious ordering by retailers.

In the other recreational products segment, net sales for the first nine months were \$26.9 million as compared with \$28.9 million in the prior year. The decrease was attributable mainly to lower apparel sales to the advertising specialty market in continued sluggish market conditions.

11

---

Net sales of the two businesses in the industrial products group were \$84.6 million for the first nine months of 2002 as compared with \$85.5 million in the prior year. The sales decrease reflects reduced sales of composite light poles and marine antennas of \$1.1 million.

*Gross profit.* Gross profit for the first nine months of 2002 was \$134.9 million, or 29.7% of net sales, as compared with \$124.7 million, or 27.0% of net sales, in the prior year period. Gross profit in the 2001 nine months included charges for restructuring and downsizing of \$15.6 million (a discussion regarding an additional \$2.4 million that was charged against general and administrative expenses is included below). During the 2001 third quarter, K2 closed the Washington ski manufacturing facility and moved its production to China. K2 also shut down three other smaller manufacturing facilities in Minnesota and Alabama which serviced the Stearns and Hilton operations, with most of the production also moving overseas. In addition to the factory closures, K2 experienced an industry-wide slowdown in sales of small-wheeled products, necessitating a downsizing of K2's small-wheeled products operation. The downsizing of the small-wheeled products business, the shutdown of the domestic manufacturing facilities and additional cost reduction measures resulted in charges to cost of products sold of \$15.6 million primarily related to severance, the write down of facilities and equipment, and the reduction in the net carrying value of small-wheeled products inventory. The increase in gross profit dollars for the 2002 first nine months was attributable to 2001 third quarter charges as discussed above partially offset by lower margins. The decline in margins resulted mainly from K2's inventory reduction initiatives, which helped to reduce overall inventory levels from the prior year. In addition, K2 record an additional \$1.0 million adjustment to the carrying value of the scooter inventory in the current period.

*Costs and Expenses.* Selling expenses decreased \$13.9 million or 17.6%, to \$65.2 million, or 14.3% of net sales, from \$79.1 million, or 17.1% of net sales, in the prior year. The dollar and percentage decline was attributable to the decline in sales volume for the nine months as compared to the prior year's nine months, and K2's cost reduction programs initiated in the during 2001.

General and administrative expenses were \$44.9 million, or 9.9% of net sales as compared with \$44.7 million or 9.7% of net sales, in the prior year. The 2001 nine months included expenses for downsizing charges of \$2.4 million, primarily for severance and the write down of facilities associated with the downsizing of the small-wheeled products operation. The increase in general and administrative expenses was primarily attributable to additional allowances recorded for doubtful accounts, higher pension expense and increased insurance costs. In the 2002 fourth quarter, K2 will record a payment related to the resignation of K2's CEO under the terms of his employment contract, of approximately \$1.5 million, of which approximately \$1.2 million will be expensed in the 2002 fourth quarter.

Beginning in the 2002 first quarter, in accordance with K2's adoption of new accounting pronouncements, amortization expense of goodwill is no longer being recorded against earnings. This resulted in reduction of general and administrative expenses of approximately \$1,669,000 in the 2002 first nine months as compared with the first nine months in the prior year.

*Operating Income.* Operating income for the first nine months improved to \$24.8 million, or 5.5% of net sales as compared with \$0.9 million, or 0.2% of net sales in the prior year. The 2001 nine months included \$18.0 million of restructuring and downsizing charges as discussed above. The improvement in operating income reflects the impact of the 2001 restructuring and downsizing charges and lower selling expenses, partially offset by lower sales volume, lower gross profit margins and higher general and administrative expenses.

## Edgar Filing: K2 INC - Form 10-Q

*Interest Expense.* Interest expense decreased \$2.7 million to \$7.1 million for the first nine months of 2002, as compared with \$9.8 million in the year-earlier period. Lower average borrowings and

12

declining interest rates reduced interest expense by approximately \$1.6 million and \$1.1 million, respectively.

### *Liquidity and Sources of Capital*

K2's operating activities provided \$15.7 million of cash in the current year's first nine months as compared to \$12.5 million provided by operations in the first nine months of 2001. K2 has a \$75 million accounts receivable purchase facility ("Purchase Facility"), that was placed in effect in March 2002 replacing an asset securitization program. The prior asset securitization program was accounted for as a sale of accounts receivable and accordingly, received off-balance sheet treatment. The current Purchase Facility is treated as a borrowing under long-term debt. As a result, the cash used in operating activities in the current year includes \$51.8 million used to repurchase the receivables under the prior asset securitization program, funded by borrowings under the Purchase Facility included in financing activities and other cash flow provided by operations. Beginning with the 2002 second quarter, K2 reclassified the repurchase of the receivables from financing activities to operating activities, and similarly reclassified the prior year's periods. Cash from operating activities benefited from a higher net income, and a reduction in inventories, partially offset by lower accounts payable.

In March 2002, K2 completed amendments to its credit facilities and notes. Pursuant to the amendments, K2 has granted security interests to the lenders under the Credit Line and the notes in substantially all of its assets, except for certain domestic trade accounts receivable which are utilized in the Purchase Facility as discussed above. As a result of the amendments, there have been modifications in certain financial covenants.

Net cash used for investing activities decreased \$5.9 million, to \$8.4 million in the current year's first nine months, compared to \$14.3 million in the prior year. The 2001 first nine months reflected the purchase of the assets of an industrial business for a net \$4.6 million in cash. Additionally, capital expenditures in the 2002 period were \$4.8 million lower compared to the 2001 first nine months. There were no material commitments for capital expenditures at September 30, 2002.

Net cash used in financing activities was \$11.3 million in the 2002 first nine months as compared with no cash provided or used in financing activities in the corresponding year-ago nine months. The increase in cash used in financing activities in the 2002 period was due to higher repayments of long-term debt, partially offset by borrowings under the accounts receivable purchase facility in 2002. The higher repayments of long-term debt in the 2002 period were attributable to the improvement in cash provided by operating activities and the decrease in cash used in investing activities in the 2002 period. As described above, K2 completed amendments of its senior credit facilities and entered into a new asset securitization in March 2002.

K2's principal long-term borrowing facilities are a \$75 million Credit Line ("Credit Line"), secured by certain assets of K2, which becomes due on December 31, 2003, and the \$75 million accounts receivable purchase facility ("Purchase Facility") as described above, which expires in 2007. The Credit Line is also utilized for the issuances of letters of credit. At September 30, 2002, there were no borrowings under the credit line, \$8.3 million of outstanding letter of credit issuances and \$66.7 million of available borrowing capacity. At September 30, 2002, borrowings under the Purchase Facility totaled \$20.7 million with an additional \$34.9 million of borrowing availability. K2 also had \$13.4 million of 8.89% secured senior notes due through 2004, payable in three remaining equal principal payments, and \$50.0 million of 9.01% secured notes due through 2009, payable in seven equal principal payments commencing in 2003. At September 30, 2002, K2 had \$13.4 million outstanding under foreign lending arrangements.

13

The following summarizes the outstanding borrowings and long-term contractual obligations of K2 at September 30, 2002 and the effects such obligations are expected to have on liquidity and cash flow in future periods.

Contractual Obligations	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
(Thousands)					

Edgar Filing: K2 INC - Form 10-Q

Contractual Obligations	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Long-term debt	\$ 89,676	\$ 8,798	\$ 24,462	\$ 34,988	\$ 21,428
Operating leases	8,742	3,934	4,198	321	289
<b>Total contractual cash obligations</b>	<b>\$ 98,418</b>	<b>\$ 12,732</b>	<b>\$ 28,660</b>	<b>\$ 35,309</b>	<b>\$ 21,717</b>

K2 believes that the credit availability under the Credit Line and Purchase Facility, together with cash flow from operations, will be sufficient for K2's business needs during 2002. K2's ability to arrange debt financing from other sources, should such additional financing become necessary, could be limited by the fact that substantially all of K2's assets, other than accounts receivable sold pursuant to the Purchase Facility, are the subject of security interests pursuant to existing indebtedness.

### Critical Accounting Policies

K2's discussion and analysis of its financial condition and results of operations are based upon K2's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires K2 to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities.

Discussed below are several significant accounting policies which require the use of judgments and estimates that may materially affect the consolidated financial statements.

The estimates described below are reviewed from time to time and are subject to change if the circumstances so indicate. The effect of any such change is reflected in results of operations for the period in which the change is made. Establishment of the reserves affecting inventories and the allowance for doubtful accounts are among the most important.

#### Revenue Recognition

K2 recognizes revenue from product sales upon shipment to its customers, net of reserves for estimated returns. As a general matter, customers have no right of return, however returns do occur from time to time for a variety of reasons, including local business practices in one of the foreign countries in which K2 does business. Reserves for estimated returns are established based upon historical return rates and recorded as reductions of revenue.

#### Warranty

K2 records the estimated cost of product warranties at the time revenue is recognized. K2 estimates warranty obligation by reference to historical product warranty return rates, material usage and service delivery costs incurred in correcting the product. Should actual product warranty return rates, material usage or service delivery costs differ from the historical rates, revisions to the estimated warranty liability would be required.

#### Allowance for Doubtful Accounts

K2 evaluates the collectibility of accounts receivable based on a combination of factors. In circumstances where there is knowledge of a specific customer's inability to meet its financial obligations, a specific reserve is recorded against amounts due to reduce the net recognized receivable

to the amount that is reasonably believed to be collected. For all other customers, reserves are established based on historical bad debts, customer payment patterns and current economic conditions. The establishment of these reserves requires the use of judgment and assumptions regarding the potential for losses on receivable balances. If the financial condition of K2's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required resulting in an additional charge to expenses when made. During the nine months ended September 30, 2002, certain customers of K2 in the United States, Europe and Japan experienced financial deterioration resulting in an increase in the allowance for doubtful accounts of \$4.2 million.

*Inventories*

Inventories are valued at the lower of cost or market. Cost is determined by the first-in, first-out (FIFO) method, including material, labor and factory overhead. K2 records adjustments to its inventory for estimated obsolescence or diminution in market value equal to the difference between the cost of inventory and the estimated market value, based on market conditions from time to time. These adjustments are estimates, which could vary significantly, either favorably or unfavorably, from actual experience if future economic conditions, levels of consumer demand, customer inventory levels or competitive conditions differ from expectations. In the 2001 third quarter, K2 recorded a total charge of approximately \$9.3 million, relating to the write-down in the value of small wheeled products as the result of a significant softening of the market for such products during the year, and for inventory disposals resulting from the closure of certain manufacturing facilities and an additional \$1.0 million in the 2002 third quarter.

*Income Taxes*

Income taxes are recorded using the liability method. K2 estimates actual current tax exposure together with temporary differences that result from differing treatment of items for tax and accounting purposes. These temporary differences result in deferred tax assets and liabilities. K2 then assesses the likelihood that deferred tax assets will be recovered from future taxable income and to the extent that recovery is unlikely, a valuation allowance must be established. A significant portion of K2's deferred tax assets relate to net operating loss carryforwards for both domestic and foreign purposes. The realization of these assets is based upon estimates of future taxable income. In those jurisdictions where the realization of these carryforwards is not likely, a valuation allowance has been established. If actual results are less favorable than those projected by management, additional income tax expense may be required.

*Pensions*

K2 sponsors several trustee noncontributory defined benefit pension plans covering most of its domestic employees. Pension costs and liabilities are actuarially calculated. These calculations are based on assumptions established at the beginning of 2002 related to the discount rate, projected compensation increases and expected return on assets of 7.25%, 4.00% and 9.00%, respectively. A variance in the discount rate, expected return on plan assets and rate of compensation increase could have a significant impact on the pension costs recorded.

Actual asset returns on K2's pension assets during the 2001 year did not meet K2's assumption of 2001 expected returns which has resulted in 2002 pension expense being higher than 2001 pension expense by approximately \$300,000, or \$.01 per diluted share, which is reflected in the current year nine months general and administrative expenses. For the 2002 year, market conditions remain unsteady which may result in negative asset returns on the pension assets for the 2002 year. These negative returns may result in an increase in 2003 pension expense of \$1.0 million to \$1.5 million, or \$.04 to \$.05 per diluted share. Further, K2 expects to reduce its 2003 discount rate to 6.75% 7.00% which will also result in an incremental increase to 2003 pension expense of approximately \$300,000 to

\$500,000, or \$.01 to \$.02 per diluted share. Finally, K2 expects the accumulated benefit obligation of the pension plans to exceed the fair value of the plan assets at December 31, 2002, due to declines in the stock market during 2002. The actual amount depends on changes in the fair value of plan assets during the fourth quarter. The additional minimum liability to be recorded would be charged to Other Comprehensive Income, which is a component of K2's stockholder's equity. An estimate at the end of the third quarter would result in a charge of \$5.3 million, net of tax. The actual amount may differ significantly.

*Foreign Currency Translation*

The functional currency for most foreign operations is the local currency. The financial statements of foreign subsidiaries have been translated into United States dollars. Asset and liability accounts have been translated using the exchange rate in effect at the balance sheet date. Revenue and expense accounts have been translated using the average exchange rate for the year. The gains and losses associated with the translation of the financial statements resulting from the changes in exchange rates from year to year have been reported in the other comprehensive income or loss account in shareholders' equity. To the extent assets and liabilities of the foreign operations are realized or the foreign operations pay back intercompany debt, amounts previously reported in other comprehensive income or loss account would be included in net income or loss in the period in which the transaction occurs. Transaction gains or losses, other than those related to intercompany accounts and investments deemed to be of a long-term nature, are included in net income or loss in the period in which they occur.

*Statement Regarding Forward-Looking Disclosure*

## Edgar Filing: K2 INC - Form 10-Q

This Form 10-Q contains certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which represent K2's expectations concerning future events, including, but not limited to, the following: statements regarding market trends of products sold by K2, foreign exchange fluctuations, debt reduction, inventory levels at retail, product acceptance and demand, growth efforts, cost reduction efforts, margin enhancement efforts, product development efforts, success of new product introductions and overall market trends which involve substantial risks and uncertainties. K2 cautions these statements are further qualified by important factors that could cause actual results to differ materially from those in the forward-looking statements, including, but not limited to, weather, economic conditions, the financial condition of K2's customers, unfavorable political developments, rapid changes in marketing strategies, product design, styles and tastes, competitive pricing and the impact of foreign exchange on product costs, and other risks described in K2's Annual Report on Form 10-K filed with the Securities and Exchange Commission.

### ITEM 3 Quantitative and Qualitative Disclosures of Market Risk

K2's earnings and cash flow are subject to fluctuations due to changes in foreign currency exchange rates. K2 manages its exposures to changes in foreign currency exchange rates on certain firm purchase commitments and anticipated, but not yet committed purchases, by entering into some foreign currency forward contracts. K2's risk management objective is to reduce its exposure to the effects of changes in exchange rates on the cost of products sold over quarterly time horizons. Foreign currency exchange rate movements also affect K2's competitive position, as exchange rate changes may affect business practices and/or pricing strategies of non-U.S. based competitors and may affect the profitability and pricing strategies of K2 as well. K2's foreign currency risk policies entail entering into foreign currency derivative instruments only to manage risk of currency fluctuations over a given period of time, not for speculative investments.

16

---

Considering both the anticipated cash flows from firm purchase commitments and anticipated purchases for the next quarter and the foreign currency derivative instruments in place, a hypothetical 10% weakening of the U.S. dollar relative to other currencies would not materially adversely affect expected fourth quarter 2002 earnings or cash flows. This analysis is dependent on actual purchases during the next quarter occurring within 90% of budgeted forecasts. The effect of the hypothetical change in exchange rates ignores the effect this movement may have on other variables including competitive risk. If it were possible to accurately quantify this competitive impact, the results could well be different than the sensitivity effects shown above. In addition, it is unlikely currencies would uniformly strengthen or weaken relative to the U.S. dollar. In reality, some currencies may weaken while others may strengthen.

K2 has not experienced any significant delays in delivering orders for products in the United States as a result of the recent closure of west coast ports. Until the labor issues leading to the port closures are resolved, it is unclear when the current transportation backlog will be eliminated and the ports will return to normal operation which could affect delivery of future shipments of K2 products. These delivery delays could affect the timing of revenues, or if more prolonged, may result in order cancellations.

### ITEM 4 Controls and Procedures

Within the 90 days prior to the date of this report, an evaluation was carried out under the supervision and with the participation of K2's management, including K2's Chief Executive Officer and Senior Vice President Finance, of the effectiveness of the design and operation of K2's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Chief Executive Officer and the Senior Vice President Finance have concluded that K2's disclosure controls and procedures are effective in timely alerting them to material information relating to K2 (including its consolidated subsidiaries) required to be included in K2's periodic SEC filings. Subsequent to the date of their evaluation, there were no significant changes in K2's internal controls or in other factors that could significantly affect these controls.

17

### CERTIFICATIONS

I, Richard J. Heckman, Chairman and Chief Executive Officer of K2 Inc., certify that:

1. I have reviewed this quarterly report on Form 10-Q of K2 Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

Edgar Filing: K2 INC - Form 10-Q

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
- a. designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - b. evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
  - c. presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
- a. all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
  - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

I, John J. Rangel, Senior Vice President Finance of K2 Inc., certify that:

- 7. I have reviewed this quarterly report on Form 10-Q of K2 Inc.;
- 8. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which statements were made, not misleading with respect to the period covered by this quarterly report;
- 9.

## Edgar Filing: K2 INC - Form 10-Q

Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

10.

The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:

- a. designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
- b. evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
- c. presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

11.

The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

- a. all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
- b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

12.

The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Date: November 14, 2002
