SHAREHOLDER LETTER

FIRST TRUST VALUE LINE(R) DIVIDEND FUND (FVD)
ANNUAL REPORT
MAY 31, 2005

Dear Shareholders:

We are pleased to report that the First Trust Value Line(R) Dividend Fund (the "Fund") delivered substantial upside to shareholders for the 12-month period ended May 31, 2005, relative to its benchmark. Based on market price, the Fund's total return was 15.5%. Its net asset value ("NAV") total return was 16.1%. The S&P 500 Index gained 8.2% for the same period. FVD also outperformed the dividend-paying companies within the S&P 500, which returned 14.0% according to Standard & Poor's. Despite the good returns, the Fund traded at a 15.1% discount to its NAV on May 31, 2005.

FVD will celebrate its second anniversary in August 2005. Though we are disappointed that FVD's market price continues to trade at a double-digit discount to its NAV, we are pleased that the strategy is building a solid performance track record. Since the Fund began trading on August 29, 2003, FVD has posted a cumulative NAV total return of 33.6%, compared to a gain of 21.9% for the S&P 500. The Fund's market price closed at \$14.64 per share on May 31, 2005, below its IPO price of \$15.00 per share.

In regards to dividend payouts, the Fund's regularly scheduled quarterly distribution for June 2005 will be \$0.10 per share, which is up from its very first regularly scheduled distribution of \$0.085 per share back in March 2004. The distribution rate on FVD has been tracking around 60-70 basis points higher than the dividend yield on the S&P 500.

Since the start of 2003, companies in the S&P 500 have been distributing less than 35% of their earnings via dividends to shareholders, well below the long-term average of 54%, according to Standard & Poor's. Hypothetically, if these companies were paying out at the historical average of 54%, the yield on the S&P 500 would be approaching or slightly higher than 3.0%, rather than the 2.0% level it is at today. This implies there is room for further dividend increases in companies comprising the S&P 500.

We believe that dividend-paying stocks offer investors an attractive alternative to other income-oriented investment vehicles. With interest rates still hovering near 40-year lows, most securities that generate income of a fixed-rate nature are vulnerable to rising rates. In addition to the dividend increases mentioned above, we have seen a marked increase in the number of S&P 500 companies initiating dividends. That number has risen from 351 in 2002 to 384 today. We still have a long way to go to match the 469 companies that paid a dividend back in 1980.

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

We continue to appreciate your interest in the Fund and encourage you to read the commentary section from Bob Carey, Chief Investment Officer at First Trust.

Sincerely,

/S/JAMES A. BOWEN

James A. Bowen

President of the First Trust Value Line(R) Dividend Fund

A COMMENTARY ON THE FIRST TRUST VALUE LINE (R) DIVIDEND FUND

A REVIEW OF THE FUND'S INVESTMENT STRATEGY

The investment objective of the Fund is to provide total return through a combination of current income and capital appreciation. The Fund will invest substantially all, but in no event less than 80% of its net assets in the stocks that are selected through application of a disciplined investment strategy applied to the universe of stocks which Value Line(R) gives a SafetyTM Ranking of #1 and #2 in the Value Line(R) SafetyTM Ranking System. The Fund seeks to achieve its investment objective by investing in common stocks that pay above-average dividends and have the potential for capital appreciation. Upon commencement of the Fund's investment operations, the Fund invested equal amounts in each of the stocks selected through application of the Fund's investment strategy. Thereafter, on the last Friday of each month, the Fund's investment advisor, First Trust Advisors L.P., will reapply the Fund's investment strategy and, on or about such date, will make portfolio adjustments to match any changes made to the common stocks selected through this application of the investment strategy and reweight the portfolio as of such date. The Fund does not employ leverage.

PERFORMANCE OF THE FUND

The Fund posted some impressive returns for the most recent fiscal year. Based on market price, the Fund's total return was 15.5% for the 12-month period ended May 31, 2005. Its net asset value ("NAV") total return was 16.1%. Over the same period, the S&P 500 Index gained 8.2%. According to Standard & Poor's, the dividend-paying stocks within the S&P 500 returned 14.0% for the 12-month period ended May 31, versus 5.9% for the non-dividend paying stocks. FVD carried a beta

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

of 0.77 as of May 31, according to Bloomberg. FVD traded at a 15.1% discount to its NAV on May 31, 2005. Its daily share volume throughout the fiscal year averaged 127,425.

DIVIDEND DISTRIBUTIONS

The Fund distributed \$0.3675 per share in ordinary income for the 12-month period ended May 31, 2005. The Fund also distributed a short-term capital gain of \$0.81 per share and a long-term capital gain of \$0.11 in December 2004. The Fund's distribution rate, based on market share price, was 2.6% as of May 31, 2005.

THE COMPOSITION OF THE FUND

The Fund is usually comprised of 165-175 equity holdings. It held 171 issues on May 31, 2005. Over the past fiscal year, 55 stocks were sold and 53 were bought. As of May 31, 2005, the AVERAGE MARKET CAPITALIZATION of the stocks in the portfolio was \$26.9 billion, up from \$25.2 billion a year ago. The LARGEST MARKET CAPITALIZATION holding in the portfolio was \$386.7 billion, up from \$317.4 billion a year ago. The smallest was \$993.0 million, down from \$1.1 billion a year ago.

SECTOR DIVERSIFICATION

The following breakdown illustrates the major economic sector weightings according to S&P's Global Industry Classification Standard for FVD as of May 31, 2004, and MAY 31, 2005: Basic Materials (4.0%; 4.0%); Consumer Discretionary (4.1%; 5.8%); Consumer Staples (11.2%; 12.0%); Energy (6.8%; 5.2%); Financial Services (28.6%; 26.6%); Health Care (5.1%; 4.6%); Industrials (6.2%; 6.3%); REITs (12.2%; 11.7%); Telecommunications (2.7%; 2.9%); Utilities (18.3%; 19.8%); and Cash & Equivalents (0.8%; 1.1%).

THE STATE OF THE ECONOMY

While the U.S. economy continues to enjoy solid economic growth, perhaps the most noteworthy influence impacting our current expansion is the price of oil. Oil closed at \$51.97 per barrel on May 31, 2005, but was as high as \$57.27 over the past 12 months. In our opinion, it is clear that the high price of crude oil has tempered economic growth since the second

Page 2

A COMMENTARY ON THE FIRST TRUST VALUE LINE(R) DIVIDEND FUND - (CONTINUED)

half of 2004. For every \$10 of sustained price increase for a barrel of oil, Gross Domestic Product ("GDP") growth will slow by about 0.5%, according to Desmond Lachman, economist at the American Enterprise Institute. The price of a barrel of oil surged from \$35.76 on March 31, 2004, to \$55.40 on March 31, 2005. That is essentially a \$20 move to the upside, which means that GDP growth should have retrenched by about 1.0%. Sure enough, it did. GDP growth in the first quarter of 2004 was 4.5%, versus 3.5% in the first quarter of 2005. Higher energy costs, particularly gas prices, have been offset to some degree by rising income levels in the workplace. Personal income rose about 7% in the U.S. over the past 12 months through April. Also, more people are now working. U.S. companies added 3.5 million workers to their payrolls over the past 24 months.

It was reported in April that since the end of the recession in 2001, U.S. household liabilities have increased by \$2.7 trillion, versus a rise in aftertax income of just \$1.4 trillion, according to BUSINESSWEEK. The good news is that household assets, which include such things as home values, securities and

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

retirement accounts, have surged by \$10 trillion over the same period.

Low interest rate levels continue to be a boon for real estate. Home sales and home ownership in the U.S. are at record levels. Though some analysts fear that a pricing bubble may be forming in real estate, they seem to be in agreement that it is probably limited to the east and west coasts. It is likely that the high price of oil has helped keep intermediate and long-term rates lower than they normally would be in an expanding economy such as this one. Higher gasoline prices, home heating costs in the winter season and energy costs to operate a business, particularly in the manufacturing sector, tap the discretionary spending of individuals and businesses alike. That helps keep a lid on our core inflation rate, which excludes food and energy, and that is exactly the climate that bond investors desire.

The following question looms large: How much longer can intermediate and long-term rates remain near 40-year lows while the Federal Reserve continues to ratchet up short-term rates? The National Association for Business Economics ("NABE") announced that its panel of 50 forecasters sees the yield on the 10-year T-Note rising to 4.9% by the end of 2005, up from 4.0% as of May 31, 2005.

AN OVERVIEW OF THE EQUITIES MARKETS

The companies in the S&P 500 Index posted their 12th consecutive quarter of double-digit earnings growth in the first quarter of 2005, according to Standard & Poor's. Most analysts had predicted earnings growth closer to 6% to 9%, but the latest estimate put Q1 earnings growth at 13%. The current estimates for 2005 reflect earnings growth of 10.9% for the S&P 500.

Value investing outpaced growth investing for the 12-month period ended May 31, 2005, as measured by Standard & Poor's. The S&P Value Index gained 11.9%, versus a 4.58% return for the S&P Barra Growth Index. For the 5-year period ended in May, the S&P Barra Value Index posted a cumulative gain of 11.6%, vs. a cumulative loss of 27.3% for the S&P Barra Growth Index.

Corporate America, in our opinion, is as healthy today as it has been in a long time. Perhaps the most compelling evidence we can offer is the record amount of cash that S&P 500 companies are holding at the present time. As of the end of the first quarter, S&P 500 companies had a record \$2.46 trillion in cash and equivalents. The \$632 billion held by the old industrial companies in the S&P 500, or non-financial firms, is also a record. Companies are utilizing some of their cash to increase dividend payouts. Year-to-date through May 31, 2005, 163 companies in the S&P 500 have increased their dividend payouts, eight companies have initiated dividends, five have decreased their payouts and one dividend has been suspended, according to Standard & Poor's. A total of 384 companies within the index pay a dividend, versus 116 that do not.

IN CLOSING

As we pointed out in last year's commentary, the Jobs & Growth Tax Relief Reconciliation Act of 2003 lowered the maximum tax rate on qualified stock dividends to 15% through 2008. According to THE WEEKLY STANDARD, President Bush stated publicly on the campaign trail last year as well as during many speaking engagements since his re-election his desire to make the tax cuts passed in 2003 a permanent part of the tax code before finishing his second term. Changes in the tax code can influence how investors allocate capital.

For example, in 1997, the top tax rate on capital gains was lowered from 28% to 20%. As a result, many U.S. companies adopted growth-oriented business strategies. The number of companies in the S&P 500 Index that paid a dividend to shareholders declined from 428 in 1996 to 351 in 2001, according to Standard & Poor's. Investors favored growth stocks

A COMMENTARY ON THE FIRST TRUST VALUE LINE(R) DIVIDEND FUND - (CONTINUED)

over value stocks from the start of 1997 through the peak in the market in March 2003, as measured by Standard & Poor's. The S&P 500 Barra Growth Index posted a cumulative return of 158.95% over that period, versus 68.32% for the S&P 500 Barra Value Index.

In 2003, 370 companies in the S&P 500 distributed a dividend, up from 351 in 2002. Today, that number has risen to 384, but remains well below the most recent high of 469 posted in 1980. In our opinion, the Jobs & Growth Tax Relief Reconciliation Act of 2003 has clearly influenced how corporations perceive dividends. We encourage investors to monitor this developing story.

 NOTES TO FINANCIAL STATEMENTS

FIRST TRUST VALUE LINE (R) DIVIDEND FUND
 MAY 31, 2005

1. FUND DESCRIPTION

First Trust Value Line(R) Dividend Fund (the "Fund") is a diversified closed-end management investment company organized as a Massachusetts business trust on June 11, 2003, and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FVD on the American Stock Exchange.

The Fund's investment objective is to provide total return through a combination of current income and capital appreciation. The Fund seeks to accomplish its objective by investing in common stocks that pay above-average dividends and have the potential for capital appreciation. Such common stocks will be selected through the application of a disciplined investment strategy implemented by the Fund's investment advisor, First Trust Advisors L.P. ("First Trust"). There can be no assurance that the Fund's investment objective will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

PORTFOLIO VALUATION:

The Fund determines the net asset value ("NAV") of its shares daily, as of the close of regular session trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. The NAV is computed by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses and dividends declared but unpaid), by the total number of shares outstanding.

The Fund's investments are valued at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities trading on the NASDAQ, are valued at the closing bid prices. Short-term investments that mature in 60 days or less are valued at amortized cost.

Foreign securities traded outside the United States are generally valued as of the time their trading is complete, which is usually different from the close of the NYSE. Occasionally, events affecting the value of such securities may occur between such times and the close of the NYSE that will not always be reflected in such securities' value. If events materially affecting the value of such securities occur during such period, these securities will be valued at their fair value according to procedures adopted by the Fund's Board of Trustees. All securities and other assets of the Fund denominated in foreign currencies will be converted to U.S. dollars using exchange rates in effect at the time of valuation.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such securities is not accrued until settlement date. The Fund instructs the custodian to segregate assets of the Fund with a current value at least equal to the amount of its when-issued purchase commitments.

FIRST TRUST VALUE LINE (R) DIVIDEND FUND
MAY 31, 2005

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

Dividends from net investment income of the Fund are declared and paid quarterly or as the Board of Trustees may determine from time to time. Distributions of any net capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. Permanent differences incurred during the year ended May 31, 2005, resulting in book and tax accounting differences, have been reclassified at year end to reflect a decrease in undistributed net investment income by \$514,042 and an increase in accumulated net realized gain on investments sold by \$514,042. Net assets were not affected by this reclassification.

The tax character of distributions paid during the fiscal year ended May 31, 2005 and the period ended May 31, 2004 is as follows:

	2005	2004
	----	----
Distributions paid from:		
Ordinary Income	\$ 38,151,000	\$10,154,160
Long-term Capital Gains	3,564,000	--

As of May 31, 2005, the components of distributable earnings on a tax basis are as follows:

Undistributed Ordinary Income	\$	9,111,242
Undistributed Long-term Capital Gains	\$	24,331,110
Net Unrealized Appreciation	\$	61,785,344

INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

EXPENSES:

The Fund will pay all expenses directly related to its operations. First Trust has entered into a non-exclusive license agreement with Value Line(R) Publishing, Inc. which allows for the use by First Trust of the Value Line(R) Safety(TM) Ranking System and certain trademarks and trade names of Value Line(R) Publishing, Inc. The Fund is a sub-licensee to this license agreement. In exchange, Value Line(R) Publishing, Inc. receives an annual fee, payable on a quarterly basis, equal to 0.10% of the Fund's gross daily assets during such calendar quarter. This license fee is paid by the Fund to First Trust, which pays Value Line(R) Publishing, Inc. The terms of the license agreement provide that it shall continue in effect for a term of one year and will be automatically renewed for successive one-year terms unless either party elects not to renew the agreement.

ORGANIZATIONAL AND OFFERING COSTS:

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

Organization costs consist of costs incurred to establish the Fund and enable it to legally do business. These costs include filing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consist of legal fees pertaining to the Fund's shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust has paid all organizational expenses and offering costs of the Fund (other than sales load) that exceeded \$0.03 per Common Share. The Fund's estimated share of Common Share offering costs, \$577,705, were recorded as a reduction of the proceeds from the sale of Common Shares during the period ended May 31, 2004.

During the year ended May 31, 2005, it was determined that actual offering costs from the initial public offering of the Fund's Common Shares in August 2003 were more than the estimated offering cost by \$75,000. Therefore, paid-in-capital in excess of par value of Common Shares has been decreased by this amount.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment adviser to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for implementing the Fund's overall investment strategy, including the allocation and periodic reallocation of the portion of the Fund's assets to be invested in common stocks, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these services, First Trust is entitled to a monthly fee calculated at an annual rate of 0.65% of the Fund's average daily net assets.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

Effective June 7, 2004, the Trustees of the Fund approved a revised compensation plan. Under the revised plan, the Fund pays each Trustee who is not an officer or employee of First Trust or any of its affiliates an annual retainer of \$10,000 which includes compensation for all regular quarterly board meetings and regular committee meetings. No additional meeting fees are paid in connection with regular quarterly board meetings or regular committee meetings. Additional fees of \$1,000 and \$500 are paid to non-interested Trustees for special board meetings and non-regular committee meetings, respectively. These additional fees are shared by the funds in the First Trust fund complex that participate in the particular meeting and are not per fund fees. Trustees are also reimbursed for travel and out-of-pocket expenses in connection with all meetings. The Trustees adopted the revised plan because the increase in the number of funds in the First Trust fund complex had the effect of rapidly increasing their compensation

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

under the previous arrangements. Prior to June 7, 2004, the Fund paid each Trustee who was not an officer or employee of First Trust or any of its affiliates \$10,000 per annum plus \$1,000 per regularly scheduled meeting attended, \$500 per committee meeting attended and reimbursement for travel and out-of-pocket expenses.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of investment securities, excluding short-term investments, for the year ended May 31, 2005, aggregated amounts were \$308,699,760 and \$339,838,565, respectively.

As of May 31, 2005, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$68,429,510 and the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$6,644,166.

5. SUBSEQUENT EVENT

On May 20, 2005, the Fund declared a dividend of \$0.10 per share which represents a dividend from net investment income to Common Shareholders of record June 3, 2005, payable June 15, 2005.

FIRST TRUST VALUE LINE(R) DIVIDEND FUND MAY 31, 2005

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by PFPC (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC, as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If the Common Shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) net asset value per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If the Common Shares are trading below net asset value at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the American Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

You may withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above. Consult your financial advisor for more information.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

Adviser has full responsibility for proxy voting and related duties. In fulfilling these duties, the Adviser and Funds have adopted the following policies and procedures:

1. It is the Adviser's policy to seek to ensure that proxies for securities held by a Fund are voted consistently and solely in the best economic interests of the respective Fund.
2. The Adviser shall be responsible for the oversight of a Fund's proxy voting process and shall assign a senior member of its staff to be responsible for this oversight.
3. The Adviser has engaged the services of Institutional Shareholder Services, Inc. ("ISS") to make recommendations to the Adviser on the voting of proxies related to securities held by a Fund. ISS provides voting recommendations based on established guidelines and practices. The Adviser has adopted these ISS Proxy Voting Guidelines.

In addition, if the Adviser has actual knowledge of any other type of material conflict of interest between itself and the respective Fund with respect to the voting of a proxy, the Adviser shall vote the applicable proxy in accordance with the ISS recommendations to avoid such conflict of interest.
6. If a Fund requests the Adviser to follow specific voting guidelines or additional guidelines, the Adviser shall review the request and follow such guidelines, unless the Adviser determines that it is unable to follow such guidelines. In such case, the Adviser shall inform the Fund that it is not able to follow the Fund's request.
7. The Adviser may have clients in addition to the Funds which have provided the Adviser with discretionary authority to vote proxies on their behalf. In such cases, the Adviser shall follow the same policies and procedures.

1. OPERATIONAL ITEMS

ADJOURN MEETING

Generally vote AGAINST proposals to provide management with the authority to adjourn an annual or special meeting absent compelling reasons to support the proposal.

Vote FOR proposals that relate specifically to soliciting votes for a merger or transaction for which ISS has recommended a FOR vote. Vote AGAINST proposals if the wording is too vague or if the proposal includes "other business."

AMEND QUORUM REQUIREMENTS

Vote AGAINST proposals to reduce quorum requirements for shareholder meetings below a majority of the shares outstanding unless there are compelling reasons to support the proposal.

AMEND MINOR BYLAWS

Vote FOR bylaw or charter changes that are of a housekeeping nature (updates or corrections).

CHANGE COMPANY NAME

Vote FOR proposals to change the corporate name.

CHANGE DATE, TIME, OR LOCATION OF ANNUAL MEETING

Vote FOR management proposals to change the date/time/location of the annual meeting unless the proposed change is unreasonable.

Vote AGAINST shareholder proposals to change the date/time/location of the annual meeting unless the current scheduling or location is unreasonable.

RATIFYING AUDITORS

Vote FOR proposals to ratify auditors, unless any of the following apply:

- o An auditor has a financial interest in or association with the company, and is therefore not independent
- o Fees for non-audit services are excessive, or
- o There is reason to believe that the independent auditor has rendered an opinion which is neither accurate nor indicative of the company's financial position.

Vote CASE-BY-CASE on shareholder proposals asking companies to prohibit or limit their auditors from engaging in non-audit services.

Vote CASE-BY-CASE on shareholder proposals asking for audit firm rotation, taking into account the tenure of the audit firm, the length of rotation specified in the proposal, any significant audit-related issues at the company, the number of Audit Committee meetings held each year, the number of financial experts serving on the

committee, and whether the company has a periodic renewal process where the auditor is evaluated for both audit quality and competitive price.

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

TRANSACT OTHER BUSINESS

Vote AGAINST proposals to approve other business when it appears as voting item.

VOTING ON DIRECTOR NOMINEES IN UNCONTESTED ELECTIONS

Votes on director nominees should be made on a CASE-BY-CASE basis, examining the following factors: composition of the board and key board committees, attendance at board meetings, corporate governance provisions and takeover activity, long-term company performance relative to a market index, directors' investment in the company, whether the chairman is also serving as CEO, and whether a retired CEO sits on the board. However, there are some actions by directors that should result in votes being withheld. These instances include directors who:

- o Attend less than 75 percent of the board and committee meetings without a valid excuse
- o Implement or renew a dead-hand or modified dead-hand poison pill
- o Adopt a poison pill without shareholder approval since the company's last annual meeting and there is no requirement to put the pill to shareholder vote within 12 months of its adoption
- o Ignore a shareholder proposal that is approved by a majority of the shares outstanding
- o Ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years
- o Failed to act on takeover offers where the majority of the shareholders tendered their shares
- o Are inside directors or affiliated outsiders and sit on the audit, compensation, or nominating committees
- o Are inside directors or affiliated outsiders and the full board serves as the audit, compensation, or nominating committee or the company does not have one of these committees
- o Are audit committee members and the non -audit fees paid to the auditor are excessive.

In addition, directors who enacted egregious corporate governance policies or failed to replace management as appropriate would be subject to recommendations to withhold votes.

- o Are inside directors or affiliated outside directors and the full board is less than majority independent
- o Sit on more than six public company boards, or on more than two public boards in addition to their own if they are CEOs of public companies.
- o Are on the compensation committee when there is a negative correlation between chief executive pay and company performance
- o Have failed to address the issue(s) that resulted in any of the directors receiving more than 50% withhold votes out of those cast at the previous board election

AGE LIMITS

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors either through term limits or mandatory retirement ages.

BOARD SIZE

Vote FOR proposals seeking to fix the board size or designate a range for the board size.

Vote AGAINST proposals that give management the ability to alter the size of the board outside of a specified range without shareholder approval.

CLASSIFICATION/DECLASSIFICATION OF THE BOARD

Vote AGAINST proposals to classify the board.

Vote FOR proposals to repeal classified boards and to elect all directors annually.

CUMULATIVE VOTING

Vote AGAINST proposals to eliminate cumulative voting.

Vote proposals to restore or permit cumulative voting on a CASE-BY-CASE basis based on the extent that shareholders have access to the board through their own nominations.

DIRECTOR AND OFFICER INDEMNIFICATION AND LIABILITY PROTECTION

Proposals on director and officer indemnification and liability protection should be evaluated on a CASE-BY-CASE basis, using Delaware law as the standard.

Vote AGAINST proposals to eliminate entirely directors' and officers' liability for monetary damages for violating the duty of care.

Vote AGAINST indemnification proposals that would expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness.

Vote FOR only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if both of the following apply:

- o The director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company, and
- o Only if the director's legal expenses would be covered.

ESTABLISH/AMEND NOMINEE QUALIFICATIONS

Vote CASE-BY-CASE on proposals that establish or amend director qualifications. Votes should be based on how reasonable the criteria are and to what degree they may preclude dissident nominees from joining the board. Vote AGAINST shareholder proposals requiring two candidates per board seat.

FILLING VACANCIES/REMOVAL OF DIRECTORS

Vote AGAINST proposals that provide that directors may be removed only for cause.

Vote FOR proposals to restore shareholder ability to remove directors with or

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

without cause.

Vote AGAINST proposals that provide that only continuing directors may elect replacements to fill board vacancies.

Vote FOR proposals that permit shareholders to elect directors to fill board vacancies.

INDEPENDENT CHAIRMAN (SEPARATE CHAIRMAN/CEO)

Generally vote FOR shareholder proposals requiring the position of chairman be filled by an independent director unless there are compelling reasons to recommend against the proposal, such as a counterbalancing governance structure. This should include all of the following:

- o Designated lead director, elected by and from the independent board members with clearly delineated and comprehensive duties. (The role may alternatively reside with a presiding director, vice chairman, or rotating lead director).
- o Two-thirds independent board
- o All-independent key committees
- o Established governance guidelines

Additionally, the company should not have under-performed its peers.

MAJORITY OF INDEPENDENT DIRECTORS/ESTABLISHMENT OF COMMITTEES

Vote FOR shareholder proposals asking that a majority or more of directors be independent unless the board composition already meets the proposed threshold by ISS's definition of independence.

Vote FOR shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors if they currently do not meet that standard.

OPEN ACCESS

Vote CASE-BY-CASE on shareholder proposals asking for open access taking into account the ownership threshold specified in the proposal and the proponent's rationale for targeting the company in terms of board and director conduct.

STOCK OWNERSHIP REQUIREMENTS

Generally vote AGAINST shareholder proposals that mandate a minimum amount of stock that directors must own in order to qualify as a director or to remain on the board. While ISS favors stock ownership on the part of directors, the company should determine the appropriate ownership requirement.

Vote CASE-BY-CASE shareholder proposals asking that the company adopt a holding or retention period for its executives (for holding stock after the vesting or exercise of equity awards), taking into account any stock ownership requirements or holding period/retention ratio already in place and the actual ownership level of executives.

TERM LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

directors either through term limits or mandatory retirement ages.

Vote AGAINST proposals to increase the number of blank check preferred stock authorized for issuance when no shares have been issued or reserved for a specific purpose.

Vote CASE-BY-CASE on proposals to increase the number of blank check preferred shares after analyzing the number of preferred shares available for issue given a company's industry and performance in terms of shareholder returns.

Vote FOR management proposals to implement a reverse stock split when the number of authorized shares will be proportionately reduced.

Votes on the creation of tracking stock are determined on a CASE-BY-CASE basis, weighing the strategic value of the transaction against such factors as: adverse governance changes, excessive increases in authorized capital stock, unfair method of distribution, diminution of voting rights, adverse conversion features, negative impact on stock option plans, and other alternatives such as spinoff.

8. EXECUTIVE AND DIRECTOR COMPENSATION

Votes with respect to equity-based compensation plans should be determined on a CASE-BY-CASE basis. Our methodology for reviewing compensation plans primarily focuses on the transfer of shareholder wealth (the dollar cost of pay plans to shareholders instead of simply focusing on voting power dilution). Using the expanded compensation data disclosed under the SEC's rules, ISS will value every award type. ISS will include in its analyses an estimated dollar cost for the proposed plan and all continuing plans. This cost, dilution to shareholders' equity, will also be expressed as a percentage figure for the transfer of shareholder wealth, and will be considered along with dilution to voting power. Once ISS determines the estimated cost of the plan, we compare it to a company-specific dilution cap.

Our model determines a company-specific allowable pool of shareholder wealth that may be transferred from the company to plan participants, adjusted for:

- o Long-term corporate performance (on an absolute basis and relative to a standard industry peer group and an appropriate market index),

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

- o Cash compensation, and
- o Categorization of the company as emerging, growth, or mature.

These adjustments are pegged to market capitalization.

Vote AGAINST plans that expressly permit the repricing of underwater stock options without shareholder approval.

Generally vote AGAINST plans in which (1) there is a disconnect between the CEO's pay and company performance (an increase in pay and a decrease in performance) and the main source of the pay increase (over half) is equity-based and (2) the CEO is the participant of the equity proposal. A decrease in performance is based on negative one- and three-year total shareholder returns. An increase in pay is based on the CEO's total direct compensation (salary, cash bonus, present value of stock options, face value of restricted stock, face value of long-term incentive plan payouts, and all other compensation) increasing over the previous year. Also may WITHHOLD votes from the Compensation Committee members.

Generally vote AGAINST plans if the company's most recent three-year burn rate exceeds one standard deviation in excess of the industry mean and is over two percent of common shares outstanding. See Table 1 for details.

A company with high three-year average burn rates may avoid triggering the burn rate policy by committing to the industry average over the next years.

However, the above general voting guidelines for pay for performance may change if the compensation committee members can demonstrate that they have improved committee performance based on additional public filing such as an DEFA 14A or 8K. The additional filing needs to present strong and compelling evidence of improved performance with new information that has not been disclosed in the original proxy statement. The reiteration of the compensation committee report will not be sufficient evidence of improved committee performance.

Evidence of improved compensation committee performance includes all of the following:

- o The compensation committee has reviewed all components of the CEO's compensation, including the following:
 - Base salary, bonus, long-term incentives
 - Accumulative realized and unrealized stock option and restricted stock gains
 - Dollar value of perquisites and other personal benefits to the CEO and the cost to the company
 - Earnings and accumulated payment obligations under the company's nonqualified deferred compensation program
 - Actual projected payment obligations under the company's supplemental executive retirement plan (SERPs)

A tally sheet setting forth all the above components was prepared and reviewed affixing dollar amounts under the various payout scenarios.

- o A tally sheet with all the above components should be disclosed for the following termination scenarios:
 - Payment if termination occurs within 12 months: \$_____
 - Payment if "not for cause" termination occurs within 12 months: \$_____
 - Payment if "change of control" termination occurs within 12 months: \$_____

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

- o The compensation committee is committed to provide additional information on the named executives' annual cash bonus program and/or long-term incentive cash plan for the current fiscal year. The compensation committee will provide full disclosure of the qualitative and quantitative performance criteria and hurdle rates used to determine the payouts of the cash program. From this disclosure, shareholders will know the minimum level of performance required for any cash bonus to be delivered as well as the maximum cash bonus payable for superior performance.

The repetition of the compensation committee report does not meet ISS' requirement of compelling and strong evidence of improved disclosure. The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the annual cash bonus and/or long-term incentive cash plan based on the additional disclosure.

- o The compensation committee is committed to grant a substantial portion of performance-based equity awards to the named executive officers. A substantial portion of performance-based awards would be at least 50 percent of the shares awarded to each of the named executive officers. Performance-based equity awards are earned or paid out based on the achievement of company performance targets. The company will disclose the details of the performance criteria (e.g., return on equity) and the hurdle rates (e.g., 15 percent) associated with the performance targets. From this disclosure, shareholders will know the minimum level of performance required for any equity grants to be made. The performance-based equity awards do not refer to non-qualified stock options(1) or performance-accelerated grants(2). Instead, performance-based equity awards are performancecontingent grants where the individual will not receive the equity grant by not meeting the target performance and vice versa.

The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the performance-based equity awards based on the additional disclosure.

- o The compensation committee has the sole authority to hire and fire outside compensation consultants. The role of the outside compensation consultant is to assist the compensation committee to analyze executive pay packages or contracts and understand the company's financial measures.

BASED ON THE ADDITIONAL DISCLOSURE OF IMPROVED PERFORMANCE OF THE COMPENSATION COMMITTEE, ISS WILL GENERALLY VOTE FOR THE COMPENSATION COMMITTEE MEMBERS UP FOR ANNUAL ELECTION AND VOTE FOR THE EMPLOYEE-BASED STOCK PLAN IF THERE IS ONE ON THE BALLOT. HOWEVER, ISS IS NOT LIKELY TO VOTE FOR THE COMPENSATION COMMITTEE MEMBERS AND/OR THE EMPLOYEE-BASED STOCK PLAN IF ISS BELIEVES THE COMPANY HAS NOT PROVIDED COMPELLING AND SUFFICIENT EVIDENCE OF TRANSPARENT ADDITIONAL DISCLOSURE OF EXECUTIVE COMPENSATION BASED ON THE ABOVE REQUIREMENTS.

DIRECTOR COMPENSATION

Votes on compensation plans for directors are determined on a CASE-BY-CASE basis, using a proprietary, quantitative model developed by ISS.

On occasion, director stock plans that set aside a relatively small of shares when combined with employee or executive stock compensation plans exceed the allowable cap. In such cases, starting proxy season 2005, ISS will supplement the analytical approach with a qualitative review of board compensation for companies, taking into consideration:

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

- o Director stock ownership guidelines
- A minimum of three times the annual cash retainer.
- o Vesting schedule or mandatory holding/deferral period
- A minimum vesting of three years for stock options or restricted stock, or
- Deferred stock payable at the end of a three-year deferral period.
- o Mix between cash and equity
- A balanced mix of cash and equity, for example 40% cash/60% equity or 50% cash/50% equity.
- If the mix is heavier on the equity component, the vesting schedule or deferral period should be more stringent, with the lesser of five years or the term of directorship.

- (1) Non-qualified stock options are not performance-based awards unless the grant or the vesting of the stock options is tied to the achievement of a pre-determined and disclosed performance measure. A rising stock market will generally increase share prices of all companies, despite of the company's underlying performance.
- (2) Performance-accelerated grants are awards that vest earlier based on the achievement of a specified measure. However, these grants will ultimately vest over time even without the attainment of the goal(s).
- o Retirement/Benefit and Perquisites programs
- No retirement/benefits and perquisites provided to non-employee directors.
- o Quality of disclosure
- Provide detailed disclosure on cash and equity compensation delivered to each non-employee director for the most recent fiscal year in a table. The column headers for the table may include the following: name of each non-employee director, annual retainer, board meeting fees, committee retainer, committee-meeting fees, and equity grants.

For ISS to recommend a vote FOR director equity plans based on the above qualitative features, a company needs to demonstrate that it meets all the above qualitative features in its proxy statement.

STOCK PLANS IN LIEU OF CASH

Votes for plans which provide participants with the option of taking all or a portion of their cash compensation in the form of stock are determined on a CASE-BY-CASE basis.

Vote FOR plans which provide a dollar-for-dollar cash for stock exchange.

Votes for plans which do not provide a dollar-for-dollar cash for stock exchange should be determined on a CASE-BY-CASE basis using a proprietary, quantitative model developed by ISS. In cases where the exchange is not dollar-for-dollar, the request for new or additional shares for such equity program will be considered in the quantitative model. However, the cost would be lower than full-value awards since part of the deferral compensation is in-lieu-of cash

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

Vote AGAINST retirement plans for nonemployee directors.

Vote FOR shareholder proposals to eliminate retirement plans for nonemployee directors.

- o The number of shares allocated to the plan is ten percent or less of the outstanding shares

Vote AGAINST qualified employee stock purchase plans where any of the following apply:

- o Purchase price is less than 85 percent of fair market value, or
- o Offering period is greater than 27 months, or
- o The number of shares allocated to the plan is more than ten percent of the outstanding shares

Votes on nonqualified employee stock purchase plans should be determined on a CASE-BY-CASE basis.

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

- o Broad-based participation (i.e., all employees of the company with the exclusion of individuals with 5 percent or more of beneficial ownership of the company).
- o Limits on employee contribution, which may be a fixed dollar amount or expressed as a percent of base salary.
- o Company matching contribution up to 25 percent of employee's contribution, which is effectively a discount of 20 percent from market value.
- o No discount on the stock price on the date of purchase since there is a company matching contribution.

Vote AGAINST nonqualified employee stock purchase plans when any of the plan features do not meet the above criteria.

INCENTIVE BONUS PLANS AND TAX DEDUCTIBILITY PROPOSALS (OBRA-RELATED COMPENSATION PROPOSALS)

Vote FOR proposals that simply amend shareholder-approved compensation plans to include administrative features or place a cap on the annual grants any one participant may receive to comply with the provisions of Section 162(m).

Vote FOR proposals to add performance goals to existing compensation plans to comply with the provisions of Section 162(m) unless they are clearly inappropriate.

Votes to amend existing plans to increase shares reserved and to qualify for favorable tax treatment under the provisions of Section 162(m) should be considered on a CASE-BY-CASE basis using a proprietary, quantitative model developed by ISS.

401(K) EMPLOYEE BENEFIT PLANS

Vote FOR proposals to implement a 401(k) savings plan for employees.

SHAREHOLDER PROPOSALS REGARDING EXECUTIVE AND DIRECTOR PAY

Generally, vote FOR shareholder proposals seeking additional disclosure of executive and director pay information, provided the information requested is relevant to shareholders' needs, would not put the company at a competitive disadvantage relative to its industry, and is not unduly burdensome to the company.

Vote AGAINST shareholder proposals seeking to set absolute levels on compensation or otherwise dictate the amount or form of compensation.

Vote AGAINST shareholder proposals requiring director fees be paid in stock only.

Edgar Filing: FIRST TRUST VALUE LINE DIVIDEND FUND - Form N-CSR

Generally vote FOR shareholder proposals asking the company to expense stock options, unless the company has already publicly committed to expensing options by a specific date.

PERFORMANCE-BASED AWARDS

Generally vote FOR shareholder proposals advocating the use of performance-based awards like indexed, premium-priced, and performance-vested options or performance-based shares, unless:

- o The proposal is overly restrictive (e.g., it mandates that awards to all employees must be performance-based or all awards to top executives must be a particular type, such as indexed options)
- o The company demonstrates that it is using a substantial portion of performance-based awards for its top executives

GOLDEN PARACHUTES AND EXECUTIVE SEVERANCE AGREEMENTS

Vote FOR shareholder proposals to require golden parachutes or executive severance agreements to be submitted for shareholder ratification, unless the proposal requires shareholder approval prior to entering into employment contracts.

Vote on a CASE-BY-CASE basis on proposals to ratify or cancel golden parachutes. An acceptable parachute should include the following:

- o The triggering mechanism should be beyond the control of management
- o The amount should not exceed three times base amount (defined as the average annual taxable W-2 compensation during the five years prior to the year in which the change of control occurs)
- o Change-in-control payments should be double-triggered, i.e., (1) after a change in control has taken place, and (2) termination of the executive as a result of the change in control. ISS defines change in control as a change in the company ownership structure.

PENSION PLAN INCOME ACCOUNTING

Generally vote FOR shareholder proposals to exclude pension plan income in the calculation of earnings used in determining executive bonuses/compensation.

SUPPLEMENTAL EXECUTIVE RETIREMENT PLANS (SERPS)

Generally vote FOR shareholder proposals requesting to put extraordinary benefits contained in SERP agreements to a shareholder vote unless the company's executive pension plans do not contain excessive benefits beyond what is offered under employee-wide plans.

Vote CASE-BY-CASE on proposals asking the company to implement price restraints on pharmaceutical products, taking into account:

- o Whether the proposal focuses on a specific drug and region
- o Whether the economic benefits of providing subsidized drugs (e.g., public goodwill) outweigh the costs in terms of reduced profits, lower R&D spending, and harm to competitiveness
- o The extent that reduced prices can be offset through the company's marketing budget without affecting R&D spending
- o Whether the company already limits price increases of its products
- o Whether the company already contributes life -saving pharmaceuticals to the needy and Third World countries
- o The extent that peer companies implement price restraints

GENETICALLY MODIFIED FOODS

Vote AGAINST proposals asking companies to voluntarily label genetically engineered (GE) ingredients in their products or alternatively to provide interim labeling and eventually eliminate GE ingredients due to the costs and feasibility of labeling and/or phasing out the use of GE ingredients.
