TF FINANCIAL CORPORATION AND SUBSIDIARIES
 NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - PRINCIPLES OF CONSOLIDATION

The consolidated financial statements as of March 31, 2002 (unaudited) and December 31, 2001 and for the three-month periods ended March 31, 2002 and 2001 (unaudited) include the accounts of TF Financial Corporation (the "Company") and its wholly owned subsidiaries Third Federal Savings Bank (the "Bank"), TF Investments Corporation, Penns Trail Development Corporation and Teragon Financial Corporation. The Company's business is conducted principally through the Bank. All significant intercompany accounts and transactions have been eliminated in consolidation.

NOTE 2 - BASIS OF PRESENTATION

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include all of the disclosures or footnotes required by accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting of normal recurring accruals, necessary for fair presentation of the consolidated financial statements have been included. The results of operations for the period ended March 31, 2002 are not necessarily indicative of the results which may be expected for the entire fiscal year or any other period. For further information, refer to consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2001.

NOTE 3 - CONTINGENCIES

The Company, from time to time, is a party to routine litigation that arises in the normal course of business. In the opinion of management, the resolution of this litigation, if any, would not have a material adverse effect on the Company's consolidated financial condition or results of operations.

NOTE 4 - OTHER COMPREHENSIVE INCOME (LOSS)

The Company's other comprehensive income consists of net unrealized gains on investment securities and mortgage-backed securities available for sale. Total comprehensive income for the three-month periods ended March 31, 2002 and 2001 was \$720,000 and \$2,041,000, net of applicable income tax of \$127,000 and \$849,000, respectively.

NOTE 5- RECLASSIFICATIONS

Certain prior year amounts have been reclassified to conform to the current period presentation.

NOTE 6- NEW ACCOUNTING PRONOUNCEMENTS

On January 1, 2002, the Company adopted Financial Accounting Standards Board Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations", SFAS No. 142, "Goodwill and Intangible Assets", and SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". The adoption of these statements did not have a material impact on the financial condition or results of operations of the Company.

On January 1, 2002, the Company also adopted Statement of Position (SOP) 01-6, "Accounting by Certain Entities That Lend to or Finance the Activities of Others", which reconciles and conforms existing differences in the accounting and financial reporting guidance in the AICPA Audit and Accounting Guides, Banks and Savings Institutions, Audits of Credit Unions, and Audits of Finance Companies. It also carries forward accounting guidance for practices deemed to be unique to certain financial institutions. The adoption of this SOP had no impact on the Company's financial position or results of operations.

TF FINANCIAL CORPORATION AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

TF Financial Corporation may from time to time make written or oral

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

"forward-looking statements", including statements contained in the Company's filings with the Securities and Exchange Commission (including this Quarterly Report on Form 10-Q and the exhibits thereto), in its reports to stockholders and in other communications by the Company, which are made in good faith by the Company pursuant to the "Safe Harbor" Provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements involve risks and uncertainties, such as statements of the Company's plans, objectives, expectations, estimates and intentions that are subject to change based on various important factors (some of which are beyond the Company's control). The following factors, among others, could cause the Company's financial performance to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements: the strength of the United States economy in general and the strength of the local economies in which the Company conducts operations; the effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System, inflation, interest rate, market and monetary fluctuations; the timely development of and acceptance of new products and services of the Company and the perceived overall value of these products and services by users, including the features, pricing and quality compared to competitors' products and services; the willingness of users to substitute competitors' products and services for the Company's products and services; the success of the Company in gaining regulatory approval of its products and services, when required; the impact of changes in financial services' laws and regulations (including laws concerning taxes, banking, securities and insurance); technological changes, acquisitions; changes in consumer spending and saving habits; and the success of the Company at managing the risks involved in the foregoing.

The Company cautions that the foregoing list of important factors is not exclusive. The Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company.

Financial Condition

The Company's total assets at March 31, 2002 and December 31, 2001 were \$720.8 million and \$711.2 million, respectively, an increase of \$9.6 million, or 1.3%, during the three-month period. The increase in total assets was the direct result of the deployment of deposit growth into various earning asset categories. Cash and cash equivalents increased by \$2.0 million. Investment securities held to maturity increased by \$6.8 million due to the purchases of such securities. Mortgage-backed securities available for sale increased by \$23.6 million as \$33.8 million in purchases of such securities more than off-set the principal paydowns received from these securities. Mortgage-backed securities held to maturity decreased by \$13.2 million due to the high rate of prepayments of the mortgages underlying these pass-through securities. Similarly, high prepayments of existing mortgages in the loans receivable portfolio more than off-set new loans closed and purchased, causing a net decrease of \$9.1 million in loans receivable.

Total liabilities increased by \$9.4 million due to \$10.2 million in deposit growth. Non-interest bearing demand deposits grew by \$3.0 million while savings and money market accounts grew by \$9.7 million. Certificates of deposit decreased by \$1.4 million and interest-bearing checking accounts decreased by \$1.1 million.

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

Total consolidated stockholders' equity of the Company was \$58.2 million or 8.08% of assets at March 31, 2002, compared to \$54.1 million or 7.74% of assets at March 31, 2001. During the first quarter of 2002 the Company repurchased 12,200 shares of its common stock and issued 8,700 shares pursuant to the exercise of stock options. As of March 31, 2002, there were approximately 118,800 shares available for repurchase under the previously announced share repurchase plan, and the Company will continue to repurchase shares as share availability and market conditions permit.

Asset Quality

Subsequent to the first quarter of 2002, the Company placed a portion of its purchased lease portfolio on non-performing status because it had ceased receiving the payments to which it was entitled. At the present time the Company believes that the collectibility of approximately \$600,000 of these payments may be in doubt. Because all of the facts surrounding this matter are still being developed and are not known, the Company cannot estimate at this time the amount or timing of eventual loss, if any. The ultimate resolution of this issue may result in an increase in the allowance for loan and lease losses in future periods and impact the Company's earnings. Other than the foregoing, the Company has not experienced any significant deterioration in its asset quality during the first quarter of 2002.

The following table sets forth information regarding the Company's asset quality (dollars in thousands):

	March 31, 2002	December 31, 2001	March 31, 2001
Non-performing loans	\$3,904	\$3,776	\$1,302

Foreclosed property to total assets	0.03%	0.01%	0.03%
Ratio of total non-performing assets to total assets	0.57%	0.54%	0.21%

Management maintains an allowance for loan and lease losses at levels that are believed to be adequate; however, there can be no assurances that further additions will not be necessary or that losses inherent in the existing loan and lease portfolios will not exceed the allowance. The following table sets forth the activity in the allowance for loan and lease losses during the periods indicated (in thousands):

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2002 AND 2001

Net Income. The Company recorded net income of \$1,203,000, or \$0.44 per diluted share, for the three months ended March 31, 2002 as compared to \$1,258,000, or \$0.48 per diluted share, for the three months ended March 31, 2001.

Average Balance Sheet

The following table sets forth information relating to the Company's average balance sheet and reflects the average yield on assets and average cost of liabilities for the periods indicated. The yields and costs are computed by dividing income or expense by the average daily balance of interest-earning assets or interest-bearing liabilities, respectively, for the periods indicated.

(5) Rate/Volume Analysis

The following table presents, for the periods indicated, the change in interest income and interest expense (in thousands) attributed to (i) changes in volume (changes in the weighted average balance of the total interest earning asset and interest bearing liability portfolios multiplied by the prior year rate), and (ii) changes in rate (changes in rate multiplied by prior year volume). Changes attributable to the combined impact of volume and rate have been allocated proportionately based on the absolute value of changes due to volume and changes due to rate.

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

Net change in net interest income

\$364	(883)	(\$519)
-------	-------	---------

Total Interest Income. Total interest income decreased by \$1.7 million or 14.1% to \$10.6 million for the three months ended March 31, 2002 compared with the first quarter of 2001 primarily because of the consequences of a substantial decrease in market interest rates. Since the beginning of the first quarter of 2001, the Federal Reserve Board lowered the federal funds rate eleven times from 6.50% to 1.75%. Longer term market interest rates also decreased significantly. As a result the Company's callable investment securities were called, higher coupon mortgage-related securities were paid down at an accelerated rate, and loans receivable were refinanced by borrowers at lower rates, or away from the Bank, resulting in large paydowns of higher yielding loans. In addition, the interest rates on the Company's adjustable rate loans adjusted downward. Thus, each component of the Company's earning assets produced less interest income because of declining market interest rates. In addition, the Company's cash and cash equivalents were significantly higher during the 2002 period, while the rate earned on these assets, the federal funds rate minus 25 basis points, was substantially lower during the 2002 period. At March 31, 2002 cash and cash equivalents totaled \$71.2 million.

Total Interest Expense. Total interest expense decreased by \$1.2 million to \$5.9 million for the three-month period ended March 31, 2002. The increase in the average balance of deposits was more than offset by lower market interest rates during the period and the lower rates paid on the Company's renewing certificates of deposit that had been originated when market interest rates were higher. In addition, during the fourth quarter of 2001 and the first quarter of 2002, the Company lowered the interest rates paid on several of its other deposit products in order to keep them in line with short term market interest rates, mainly the federal funds rate.

Non-interest income. Total non-interest income was \$540,000 for the three-month period ended March 31, 2002 compared with \$400,000 for the same period in 2001. The increase is due to the increase in the cash surrender value of bank-owned life insurance which was purchased during the third quarter of 2001.

Non-interest expense. Total non-interest expense decreased by \$280,000 to \$3.5 million for the three months ended March 31, 2002 compared to the same period in 2001. Compensation and benefits expense would have been slightly higher except for a \$93,000 reduction in pension expense caused by participants who had very high balances leaving the plan. Occupancy and equipment expense decreased in part because the Company sold one of its branch offices during the fourth quarter of 2001, and also because maintenance expenses were unusually high during the first quarter of 2001 due to inclement weather. Professional fees were lower during the first quarter of 2002 compared to the year earlier period mainly due to \$60,000 of costs incurred during the first quarter of 2001 associated with the implementation of in-house item processing and statement rendering capabilities. The Company's effective tax rate during the first quarter of 2002 was 23.8% compared with 26.1% during the first quarter of 2001. The decrease is due to the purchase of bank-owned life insurance during the third quarter of 2001.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

The Company's liquidity is a measure of its ability to fund loans, pay withdrawals of deposits, and other cash outflows in an efficient, cost-effective manner. The Company's short-term sources of liquidity include maturity, repayment and sales of assets, excess cash and cash equivalents, new deposits, broker deposits, other borrowings, and new advances from the Federal Home Loan Bank. There has been no material adverse change during three-month period ended March 31, 2002 in the ability of the Company and its subsidiaries to fund their operations.

At March 31, 2002, the Company had commitments outstanding under letters of credit of \$1.6 million, commitments to originate loans of \$12.1 million, and commitments to fund undisbursed balances of closed loans and unused lines of credit of \$27.6 million.

Capital Requirements

The Bank is in compliance with all of its capital requirements as of March 31, 2002.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Asset and Liability Management

The Company's market risk exposure is predominately caused by interest rate risk, which is defined as the sensitivity of the Company's current and future earnings, the values of its assets and liabilities, and the value of its capital to changes in the level of market interest rates. Management of the Company believes that there has not been a material adverse change in market risk during the three months ended March 31, 2002.
