INFORMATION AND RESULTS FOR THE THIRD QUARTER 2004

(São Paulo, Brazil, November 3, 2004)

NEW CONTRACTS CLOSED, THE GROWTH IN THE BRAZILIAN ECONOMY AND THE RECOVERY IN PETROCHEMICAL COMMODITY PRICES, HAVE ALL LED ULTRAPAR TO REPORT A SUBSTANTIAL INCREASE IN EBITDA

Ø **ULTRAPAR'S EBITDA IN THE THIRD QUARTER AMOUNTED TO R\$ 219.6 MILLION, AN INCREASE OF 53% COMPARED TO THE SAME PERIOD IN 2003**

Ø **NET EARNINGS IN THE PERIOD AMOUNTED TO R\$ 129.5 MILLION, AN INCREASE OF 71% IN RELATION TO THE 3Q03**

Ø **EBITDA AND NET EARNINGS SHOWED RESPECTIVE INCREASES OF 43% AND 63% IN THE 9M04, COMPARED TO THE SAME PERIOD OF THE PREVIOUS YEAR.**

□ This third quarter has seen Ultrapar consolidate its results at a new level. Much of the benefit of the acquisitions made in 2003 is already realized and our focus now is on developing new projects to generate future growth. Among these are a new specialty chemicals plant, access to ethylene at competitive prices and projects in logistics infrastructure. In addition, the conclusion of a new agreement between our controlling shareholders reflects the company's commitment to good corporate governance, ongoing refinement of its professional management and continued growth. □

Highlights

- Ø **New agreement between the shareholders of Ultra S/A** - The shareholders of Ultra S/A, the parent company of Ultrapar, have signed a new shareholders' agreement, with the fundamental aims of maintaining a defined and stable controlling shareholder block in Ultrapar, ensuring it continues to be driven by professional management and improving the company's corporate governance principles (the Shareholders' Agreement 2004). The Shareholders' Agreement 2004 establishes, among other things: (i) principles for decision-making; and (ii) liquidity mechanisms for the shares of Ultra S/A. This agreement has a validity of five years counting from December 16, 2004.

Ultrapar and the macroeconomic environment

Since the beginning of the year, the Brazilian economy has been more dynamic, reflected in the GDP growth of 4.2% in the first half of 2004. The third quarter of this year has followed the same trend, of particular the industrial production, which grew by 13.1% in August, in relation to the same period of the previous year, according to the *IBGE - Brazilian Institute for Geography and Statistics*.

Due to the wide range of sectors served by its products, Oxiteno is well-positioned and has been able to capture the benefits of the growth in the Brazilian economy. A more dynamic economy, allied to the closing of new contracts, and consequent expansion of market share, led to 23% growth in the volume of domestic sales. Furthermore, the strong world demand for ethylene oxide derivatives vis-à-vis supply, helped to push up international prices and stimulate sales abroad, which were up 37% this quarter, compared to the same period of last year. Oxiteno has reported an EBITDA increase of 114%, with the EBITDA margin widening to 26%, an increase of 6 percentage points in relation to the same period last year.

At Ultragas, the acquisition of Shell Gás and the resulting benefits from gains in scale were the principal factors that leveraged the company's results in the 3Q04, with EBITDA increasing by 6% in comparison with the 3Q03, and practically at the same level to the historical record of the 2Q04.

Ultracargo has reported EBITDA of R\$ 11.5 million for the 3Q04. The winning of new clients, together with the expansion of operations at the newly-built Tatuí Terminal, which this quarter has already operated at 85% of capacity, contributed to Ultracargo's EBITDA growth of 6% in relation to the 3Q03 and of 15% compared to the 2Q04.

Hence, Ultrapar has ended the third quarter with a reported EBITDA of R\$ 219.6 million, the best performance in the company's history.

Operational Performance

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Ultragaz. Brazil's LPG market has grown by 1%, comparing third quarters, less than the increase seen in the first half of the year. This is partially influenced by the different comparison base, as in the first half of 2003, Brazil's LPG market shrank by 8% in terms of sales volume, with a recovery getting under way in the third quarter of 2003. Differences in the number of working days also affected the sales volume □ on a comparable basis, the market grew by 2%.

Ultragaz has seen sales volume growth of 6% in this period, basically due to the acquisition of Shell Gás, which took place in August 2003.

The bottled gas segment, served principally by 13 kg gas cylinders, reported an increase of 7%, or 17,000 tons in sales volume, compared to the third quarter of 2003. This increase basically reflects the volume added with the acquisition of Shell Gás. We draw attention here to the fact that the figures for Shell Gás have been entered into Ultragaz's balance sheet from August 2003.

In the bulk segment, comprising mainly of commercial and industrial consumers, sales volume in 3Q04 saw an increase of 4% in relation to 3Q03, principally due to the UltraSystem expansion.

Oxitenó. Oxitenó is the sole producer of ethylene oxide and its main derivatives in the Southern Cone region of South America, as well as being a major producer of specialty chemicals. Oxitenó's products are used in various industrial sectors, such as PET packaging, polyester, textiles, paint, cosmetics, detergents and agrichemicals.

The total 3Q04 sales volume for Oxitenó amounted to 159 thousand tons, an increase of 28% compared to the same period in 2003. This growth was mainly a reflection of (i) the winning of new clients, partly through import substitution; (ii) greater sales concentration in specialty chemicals; (iii) stronger demand as a result of the growth in the Brazilian economy; and (iv) the export of products stocked in 2Q04, which could not be shipped due to the lack of vessels.

In the domestic market, sales totaled 93 thousand tons, 23% higher than the volume sold in the third quarter of 2003. All Oxitenó's sales segments saw volume growth during this quarter, the strongest performances coming from the agrichemicals, textiles, PET, automotive and footwear segments.

Exports in the period amounted to 66 thousand tons, 37% higher than in the same period of 2003. Important factors in this increase were the recovery of the Argentine economy, the sales volume from Canamex (the Mexican specialty chemicals plant acquired in December 2003) and the shipment delays occurred in 2Q04. Exports to Mercosur, where margins are very similar to those in the Brazilian market, increased by 62% between third quarters, reaching 22 thousand tons in the 3Q04.

Ultracargo. Ultracargo is the Brazilian market leader in chemical products and fuels logistics. The company offers transportation solutions using its own and third-party fleets as well as storage services through warehousing facilities at port terminals and rail junctions for the transportation of chemical products. Transportation services include integrated multi-modal transportation as well as receiving and dispatching customers' goods. The company also offers ship loading and unloading services, pipeline operations, logistics programming and installation engineering.

Ultracargo's average storage levels of liquids and gases increased by 2%, comparing the third quarters, as a result of new clients won and increased economic activity. Storage levels of solid chemicals saw an increase of 38% in relation to the 3Q03, mainly due to the startup of the Tatuí Terminal. The number of kilometers traveled increased by 2% in relation to the 3Q03, as a result of the winning of new contracts.

Economic Financial Performance

Net Revenue. Ultrapar's consolidated net revenue in the 3Q04 amounted to R\$ 1.3 billion, an increase of 24% in relation to the 3Q03. In the 9M04, consolidated net revenue amounted to R\$ 3.6 billion, up by 22% compared to the same period in 2003.

Ultragas Ultragas's net revenue amounted to R\$ 769.8 million in the 3Q04, an increase of 7% in relation to the 3Q03. This increase in revenue is largely due to the 6% rise in sales volume.

Oxiteno Net revenue in the 3Q04 amounted to R\$ 509.1 million, 65% higher than that of the 3Q03. This increase was a consequence of (i) growth in volume sold; (ii) the recovery of petrochemical commodities prices in the international market; and (iii) the acquisition of Canamex, which added R\$ 15.9 million to net revenue for the quarter.

Ultracargo Ultracargo's net revenue in the 3Q04 amounted to R\$ 52.3 million, 12% higher than in the 3Q03 as a result of the increased volume of operations and contractual tariff increases.

Cost of Goods Sold. Ultrapar's consolidated cost of goods sold amounted to R\$ 997.8 million in the 3Q04, an increase of 18% relation to the 3Q03. The 9M04 cost of goods sold amounted to R\$ 2,738.2 million, an increase of 18% in relation to the same period in 2003.

Ultragas The cost of goods sold in the 3Q04 rose by 7% in relation to the 3Q03, as a result of the higher volume sold, collective wage agreements and higher freight costs.

Oxiteno The cost of goods sold in the 3Q04 increased by 52% in relation to the 3Q03, as a consequence of higher sales volume, combined with the addition of Canamex and the higher unit cost of ethylene, reflecting the new level of oil prices.

Ultracargo □ The cost of services rendered increased by 9% in the 3Q04, in comparison with the same period of the previous year, principally a reflection of higher fuel prices and third-party freight costs.

Sales, General and Administrative Expenses □ Consolidated sales, general and administrative expenses in the 3Q04 amounted to R\$ 145.9 million, 25% higher than the R\$ 116.3 million reported for the same period of 2003. In the first nine months of 2004, Ultrapar registered sales, general and administrative expenses of R\$ 408.3 million, 26% higher than those of the same period in 2003.

Ultragaz □ Sales, general and administrative expenses of Ultragaz amounted to R\$ 76.9 million in the quarter, R\$ 11.2 million higher than those for the third quarter of 2003. This increase was the result of a R\$ 3.9 million increase in depreciation expenses and a R\$ 6.9 million increase in sales expenses, the last mainly due to collective wage agreements, the incorporation of the Shell Gás sales structure and non-recurring restructuring expenses of R\$ 2.4 million.

Oxitenó □ Sales, general and administrative expenses of Oxitenó amounted to R\$ 57.8 million, an increase of R\$ 15.6 million in relation to the third quarter of 2003. Sales expenses rose by R\$ 8.5 million, due to (i) increased freight expenses, in line with higher sales volume; and (ii) the reversion of R\$ 3.0 million in provision for doubtful accounts in the third quarter of 2003, due to the recovery of debts from clients in Argentina. Administrative expenses increased by R\$ 6.9 million, comparing the third quarters, as a result of (i) higher personnel expenses, as a result of annual collective wage agreements in 2003 and an increase in the provision for employee profit-sharing, in line with the company's improved performance; and (ii) the incorporation of R\$ 2.6 million in expenses from Canamex.

Ultracargo □ Sales, general and administrative expenses at Ultracargo amounted to R\$ 12.7 million, an increase of R\$ 2.7 million in relation to the third quarter of 2003, as a consequence of collective wage agreements celebrated in the second half of 2003 and higher headcount. In relation to the 2Q04, sales, general and administrative expenses remained at practically the same level.

EBITDA □ Consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) in the third quarter of 2004 amounted to R\$ 219.6 million, an increase of 53% in relation to the 3Q03. This EBITDA growth was accompanied by a widening in EBITDA margin, from 14% in the 3Q03 to 17% in the 3Q04. In the first nine months of 2004 Ultrapar's EBITDA amounted to R\$ 550.8 million, 43% higher than the reported in the same period in 2003.

Ultragaz □ Ultragaz posted EBITDA of R\$ 73.3 million, 6% higher than the figure for the 3Q03, and practically same level as the record EBITDA reported in the 2Q04. Ultragaz's accumulated EBITDA in the 9M04 amounted to R\$ 205.5 million, representing an increase of 23% in relation to the same period of 2003. Defining factors behind this growth were: (i) the acquisition of Shell Gás and the ensuing gains in scale; and (ii) the growth seen in Brazil's LPG market.

Oxitenó □ Oxitenó's EBITDA amounted to R\$ 133.2 million, representing an increase of 114% in relation to the 3Q03. This performance reflects (i) a 28% increase in sales volume, due to new contracts closed, the Brazilian economic growth, the improved performance of the Camaçari plant, the greater sales focus on specialty chemicals and the high volume of exports; and (ii) improved prices for petrochemical commodities. In relation to the 2Q04, EBITDA at Oxitenó saw an increase of 23%, principally due to a 29% increase in sales volume, partially offset by a stronger average exchange rate and the higher unit cost of ethylene. Nevertheless, profitability in dollar terms, as measured by EBITDA/ton, remained at the high levels seen in the 2Q04. Oxitenó's 9M04 EBITDA amounted to R\$ 309.3 million, an increase of 70% in relation to the same period of 2003.

Ultracargo □ Ultracargo reported EBITDA of R\$ 11.5 million, 6% higher than the figure for the 3Q03 and 15% higher than that posted in the 2Q04 - the result of new clients won and the expansion of operations.

Net Financial Income (Expenses) □ Ultrapar reported net financial expenses of R\$ 14.6 million in the third quarter of 2004, compared to a net financial expense of R\$ 12.3 million in the third quarter of 2003. This result reflects the impact of an 8% appreciation in the Brazilian *real* on the net worth of our investments outside Brazil, and was partially offset by lower interest rates and by a reduction in the company's net debt. We ended the 3Q04 with a net debt of R\$ 25.0 million, whereas at the end of the 3Q03, net debt amounted to R\$ 108.7 million.

Net Earnings □ Due to the abovementioned results, consolidated net earnings in the third quarter 2004 amounted to R\$ 129.5 million, an increase of 71% in relation to the same period of 2003. For the 9M04 period, net earnings amounted to R\$ 304.7 million, representing an increase of 63% in relation to the same period of 2003.

Investments □ Capital expenditure totaled R\$ 71.8 million in the 3Q04, allocated as follows:

- At Ultragas, capital expenditure was principally in expansion of the bulk segment (UltraSystem) and fixed asset modernization;

-
- At Oxiteno, capital expenditure was focused on expanding the production capacity for specialty chemicals and modernizing its industrial plants;
 - At Ultracargo, capital expenditure was concentrated in the construction of the Santos Intermodal Terminal and in the expansion of the company's transport fleet.

CAPEX 3Q04	R\$ m	% of total
Ultragas	22.3	31%
Oxiteno	20.9	29%

Ultrapar in the capital markets

Share buyback □ In the third quarter 2004, Ultrapar bought back a total of 13.7 million shares.

Share Performance □ The shares of Ultrapar appreciated by 39% in the third quarter of 2004. In the same period, the Ibovespa and IBX indexes appreciated by 10% and 16%, respectively. Ultrapar's average daily traded volume amounted to R\$ 4.5 million in this quarter, an increase of 332% in relation to the third quarter 2003.

Outlook

The year 2004 is seeing Ultrapar's results attain a new level. We continue to work towards ensuring sustained growth in all our businesses. At Oxiteno, approximately US\$ 25 million is being invested in expanding the capacity of specialty chemicals and this, together with the economic growth and the recovery in petrochemical commodity prices, is likely to provide significantly improved profitability in the sector. The Santos Intermodal Terminal is expected to come into operation at the beginning of 2005, leveraging the results of Ultracargo. Additional growth opportunities have been identified and are being pursued, always with the central aim of generating value for the shareholders.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Shareholders and Management of
Ultrapar Participações S.A.
São Paulo - SP

1. We have performed a special review of the accompanying interim financial statements of Ultrapar Participações S.A. and subsidiaries as of and for the quarter and nine-month periods ended September 30, 2004, prepared in accordance with Brazilian accounting practices and under the responsibility of the Company's management, consisting of the balance sheets (Company and consolidated), the related statements of income and the performance report.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material modifications that should be made to the financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

4. We had previously reviewed the Company and consolidated balance sheets as of June 30, 2004 and the Company and consolidated statements of income for the nine-month period ended September 30, 2003, presented for comparative purposes, and issued unqualified special review reports thereon, dated July 30, 2004 and October 28, 2003, respectively.
5. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.

NOTES TO THE INTERIM FINANCIAL STATEMENTS
AS OF SEPTEMBER 30 AND JUNE 30, 2004 INCLUDING UNAUDITED INFORMATION
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2004 AND 2003
(Amounts in thousands of Brazilian reais - R\$, unless otherwise indicated)

1. OPERATIONS

The Company invests in commercial and industrial activities, including subscription or purchase of shares of other companies with similar activities.

Through its subsidiaries, the Company is engaged in the distribution of liquefied petroleum gas - LPG (Ultragaz), production and sale of chemicals (Oxiten), and logistics services for chemicals and fuels (Ultracargo).

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

2. PRESENTATION OF INTERIM FINANCIAL STATEMENTS

As established by Brazilian Securities Commission (CVM) Instruction No. 248, of March 29, 1996, and CVM Guidance Opinion No. 29, of April 11, 1996, the interim financial statements are being presented in accordance with Brazilian corporate law.

3. ACCOUNTING PRACTICES AND CONSOLIDATION PRINCIPLES

In the preparation of the interim financial statements, the Company has applied the same accounting practices adopted in the preparation of the financial statements as of December 31, 2003, which are in accordance with the standards established by the CVM and accounting practices adopted in Brazil.

3.1. Consolidation Principles and Ownership interests

The consolidated financial statements have been prepared in accordance with the basic consolidation principles established by Brazilian corporate law and by the CVM, and include the following direct and indirect subsidiaries:

Intercompany investments, asset and liability balances, income and expenses, as well as the effects arising from significant intercompany transactions, were eliminated. Minority interest in subsidiary companies is presented separately in the financial statements.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

On August 8, 2003, the Company acquired, through the subsidiary Companhia Ultragas S.A., the LPG distribution business of Shell in Brazil (SPGás Distribuidora de Gás Ltda.). This acquisition amounted to R\$ 170,566, involving 100% of the company's shares, without assumption of any debt. The financial statements for 2003 contain the balances and values of the acquired business since its acquisition in August 2003. The goodwill of R\$ 24,427 on this acquisition is based on the expected future profitability and is being amortized over five years beginning August 2003.

On December 4, 2003, the Company acquired, through the subsidiary Barrington S.L., the chemicals business of the Berci Group in Mexico (Canamex Químicos S.A. de C.V.). This acquisition amounted to US\$ 10,250, without assumption of any debt. The financial statements contain the balances and values of the acquired business since its acquisition in December 2003.

On December 31, 2003, in order to rationalize costs, the Company merged the subsidiaries Ultratecno Participações Ltda. into Ultragas Participações Ltda., Ultracargo Participações Ltda. into Oleoquímica do Nordeste Ltda., and Oleoquímica do Nordeste Ltda. into Ultracargo - Operações Logísticas e Participações Ltda. (new name of Ultraquímica Participações Ltda.).

4. TEMPORARY CASH INVESTMENTS

The loan balances with Química da Bahia Indústria e Comércio S.A. and Cia. Termelétrica do Planalto Paulista - TPP are adjusted based on the Brazilian long-term interest rate (TJLP). The other loans are not subject to financial charges. Purchase and sale transactions refer principally to purchases of raw material, other materials and storage and transportation services, carried out at usual market prices and conditions.

The loan agreement with Ultracargo - Operações Logísticas e Participações Ltda. results from the sale of shares issued by Oxiteno S.A. - Indústria e Comércio to the Company, so as to avoid the reciprocal shareholdings resulting from the corporate restructuring conducted in October 2002.

9. INCOME AND SOCIAL CONTRIBUTION TAXES

a) Deferred income and social contribution taxes

The Company and its subsidiaries recognize tax assets and liabilities, which do not expire, arising from tax loss carryforwards, temporary add-backs, revaluation of property, plant and equipment, and others. The tax credits are based on continuing profits from operations. Management expects to realize these tax credits over a maximum period of three years. Deferred income and social contribution taxes are presented in the following principal categories:

	Company		Consolidated	
	09/30/04	06/30/04	09/30/04	06/30/04

Terminal Químico de Aratu S.A. - Tequimar	Aratu Terminal (*)	25	2008
	Suape Terminal (storage of acetic acid and butadiene byproducts)	100	2005

(*) In December 2003, the tax exemption of these units expired and requests were filed with the Northeast Development Agency (ADENE), the agency in charge of managing this tax incentive program, requesting a 75% reduction in income tax. On April 30, 2004, the Northeast Development Agency (ADENE) issued reports approving the income tax reduction for the Mataripe and Aratu units of the subsidiaries Bahiana Distribuidora de Gás Ltda. and Terminal Químico de Aratu S.A. - Tequimar until 2013 and 2012, respectively. These reports were submitted for approval by the Federal Revenue Service on June 29, 2004 and August 24, 2004, respectively, and the Federal Revenue Service should issue its opinion within 120 days. If such opinion is not issued after this period, the reductions are considered as approved (net income for the quarter ended September 30, 2004 does not take into consideration these income tax reductions). Should they not be approved by the Federal Revenue Service, the income tax reduction of these units will be 25% until 2008 and 12.5% from 2009 to 2013.

Tax benefits from the income tax reduction for activities eligible for tax incentives were recorded in a specific capital reserve account in stockholders' equity of the beneficiary subsidiaries, and recognized in the Company's Equity in subsidiary and affiliated companies.

Construction in progress refers mainly to construction of the Santos Intermodal Terminal -TIS and the Montes Claros Intermodal Terminal, both owned by Tequimar, and expansion and renovations of the industrial complexes of the other subsidiaries.

Other refers to computer equipment in the amount of R\$ 17,928 (as of June 30, 2004 -R\$ 18,616), software in the amount of R\$ 29,035 (as of June 30, 2004 - R\$ 30,298), and commercial property rights, mainly those described below:

- On July 11, 2002, the subsidiary Terminal Químico de Aratu S.A. - Tequimar won the auction and signed a contract for use of the site on which it operates the Aratu Terminal for another 20 years, renewable for the same period. The price paid by Tequimar amounted to R\$ 12,000 and will be amortized over 40 years, equivalent to annual amortization of R\$ 300.
- Further, the subsidiary Terminal Químico de Aratu S.A. - Tequimar has a lease contract for the area adjacent to the Port of Santos for 20 years beginning December 2002, renewable for the same period, which allows it to build and operate a terminal for the reception storage, movement and distribution of liquid bulk cargo. The price paid by Tequimar was R\$ 3,803 and will be amortized over a period of 20 years from the start of its operation, expected for November 2004.

12. DEFERRED CHARGES (CONSOLIDATED)

Represented substantially by costs incurred in the implementation of systems modernization projects in the amount of R\$ 1,803 (as of June 30, 2004 - R\$ 1,567), to be amortized over five to ten years, and for the installation of Ultrasystem equipment on customers premises in the amount of R\$ 54,490 (as of June 30, 2004 - R\$ 54,434), to be amortized over the periods of the LPG supply contracts with these customers. Deferred charges also include the goodwill from the acquisition of SPGás Distribuidora de Gás Ltda., as mentioned in Note 3.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

In June 1997, the subsidiary Companhia Ultragas S.A. issued Eurobonds in the total amount of US\$ 60 million, maturing in 2005, with put/call options in 2002, and guaranteed by Ultrapar Participações S.A. and Ultragas Participações Ltda. In June 2002, the subsidiary LPG International Inc. exercised the call option for these securities using funds from a loan in the same amount, maturing in August 2004. However, in January 2004, the subsidiary LPG International Inc. issued Eurobonds in the total amount of US\$ 60 million, maturing in June 2005 and with an annual interest rate of 3.5%. The funds from the issuance were used to settle the loan.

The Eurobonds are guaranteed by the Company and its subsidiary Ultragas Participações Ltda., which are subject to covenants that provide for restrictions on, among other things, its ability to incur indebtedness, pay dividends and other distributions, and conduct merger and acquisition transactions. None of these covenants have restricted our ability to conduct our business.

A part of financing is collateralized by liens on property, plant and equipment, shares, promissory notes and guarantees provided by the Company and its subsidiaries, as shown below:

	09/30/04	06/30/04
Amount of borrowings secured by:		
Property, plant and equipment	30,034	32,434
Shares of affiliated companies	15,006	16,407
Minority stockholders guarantees	15,006	16,407
	<u>60,046</u>	<u>65,248</u>

Other loans are collateralized by guarantees and promissory notes issued by the Company and by the future flow of exports. The Company is responsible for sureties and guarantees offered on behalf of its subsidiaries, amounting to R\$ 686,816 (as of June 30, 2004 - R\$ 710,525).

The subsidiaries issued guarantees to financial institutions related to amounts owed to those institutions by some of their customers (vendor financing). Should any subsidiary be requested to make any payment related to these guarantees, the subsidiary may recover the amount paid directly from its customers through trade collection. Maximum future payments related to these guarantees amount to R\$ 38,120 (as of June 30, 2004 - R\$ 20,973), with maturities from 30 to 210 days. As of September 30, 2004, the Company has not recorded any liability related to these guarantees.

14. STOCKHOLDERS EQUITY

a) Capital

The Company is a listed corporation with shares traded on the São Paulo and New York Stock Exchanges. Subscribed and paid-up capital is represented by 69,691,269 thousand shares without par value, comprised of 51,264,622 thousand common and 18,426,647 thousand preferred shares.

As of September 30, 2004, 3,705,347 thousand preferred shares were outstanding abroad, in the form of American Depositary Receipts (ADRs).

Preferred shares, not convertible into common shares, do not entail voting rights, and have priority in capital redemption, without premium, in the event of liquidation of the Company.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Until May 18, 2004, preferred shares entitled their holders to dividends at least 10% higher than those attributable to common shares. On that date the Special Meeting of Preferred Stockholders and the Extraordinary Stockholders Meeting of Ultrapar approved to equalize the dividends of common and preferred shares.

b) Treasury shares

The Company was authorized to acquire its own shares at market price, without capital reduction, for holding in treasury and subsequent disposal, in accordance with the provisions of Brazilian Securities Commission (CVM) Instructions No. 10, of February 14, 1980, and No. 268, of November 13, 1997.

During third quarter of 2004, 13,700 thousand preferred shares were acquired at the average cost of R\$ 30.91 per thousand shares, with a minimum cost of R\$ 30.50 and a maximum cost of R\$ 31.10 per thousand shares.

As of September 30, 2004, the Company's financial statements record 223,700 thousand preferred shares and 6,616 thousand common shares in treasury, which were acquired at the average cost of R\$ 30.07 and R\$ 19.30 per thousand shares, respectively. The consolidated financial statements record 327,700 thousand preferred shares and 6,616 thousand common shares in treasury, which were acquired at the average cost of R\$ 28.08 and R\$ 19.30 per thousand shares, respectively.

The market price of shares issued by the Company on September 30, 2004 on the São Paulo Stock Exchange (BOVESPA) was R\$ 45.99 per thousand shares.

c) Capital reserve

The capital reserve in the amount of R\$ 1,152 reflects the goodwill on disposal of shares to be held in treasury in the Company's subsidiaries, at the price of R\$ 34.87 per thousand shares. Executives of these subsidiaries were given the beneficial interest in such shares, as described in Note 20.

d) Revaluation reserve

This reserve reflects the revaluation write-up of assets of subsidiaries and affiliated companies, and is realized based upon depreciation, write-off or sale of revalued assets, including the related tax effects.

In some cases, taxes on the revaluation reserve of certain subsidiaries and affiliated companies are recognized only upon realization of this reserve, since the revaluations occurred prior to the publication of CVM Resolution No. 183/95. Taxes on these reserves are R\$ 7,889 (as of June 30, 2004 - R\$ 7,418).

e) Reserve for retention of profits

This reserve is part of the investment program, in conformity with article 196 of Brazilian corporate law, and includes both a portion of net income and realization of the revaluation reserve.

f) Realizable profits reserve

This reserve is established in conformity with article 197 of Brazilian corporate law, based on the equity in subsidiary and affiliated companies. Realization of the reserve normally occurs upon receipt of dividends, sale and write-off of investments.

g) Reconciliation of stockholders' equity - Company and consolidated

16. SEGMENT INFORMATION

The Company has three reportable segments: gas, chemicals and logistics. The gas segment distributes LPG to retail, commercial and industrial consumers, mainly in the South, Southeast and Northeast regions of Brazil. The chemicals segment produces primarily ethylene oxide, ethylene glycols, ethanalamines and glycol ethers. Operations in the logistics segment include storage and transportation of chemicals and fuels, mainly in the Southeast and Northeast regions of the country. Reportable segments are strategic business units that provide different products and services. Intersegment sales are transacted at prices approximating those that the selling entity is able to obtain on external sales.

The principal financial information about each of the Company's reportable segments is as follows:

17. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operational and economic/financial aspects. Strategic/operational risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. The subsidiaries Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio held R\$ 2,333 (as of June 30, 2004 - R\$ 3,411) and the subsidiaries of Ultragas Participações S.A. held R\$ 21,869 (as of June 30, 2004 - R\$ 23,014) in allowances for potential losses on receivables.
- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. The temporary cash investments of the Company and its subsidiaries substantially comprise transactions linked to interbank deposit (CDI) rates, as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Funds obtained originate from BNDES financing and foreign currency loans, as mentioned in Note 13.

- Exchange rate - The Company's subsidiaries use foreign currency swap (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such swaps have amounts, periods and indexes equivalent to the assets and liabilities in foreign currency, to which they are linked. The following summary shows the assets and liabilities in foreign currency, translated into Brazilian reais at September 30, 2004:

	Book value
Assets:	
Investments in foreign currency and swaps	323,144
Cash and banks and foreign financial investments	107,923
Receivables from foreign customers, net of advances on export contracts	28,206

Given the characteristics of the financial instruments described, the management of the Company and its subsidiaries believe that market values approximate book values of these financial instruments. The exchange variation related to cash and banks, temporary cash investments and subsidiaries' foreign financial investments was recorded as financial expense in the consolidated statement of income as of September 30, 2004, in the amount of R\$ 1,135 (financial expense in the amount of R\$ 22,169 as of September 30, 2003). Other financial instruments recorded in the interim financial statements as of September 30, 2004 were determined in conformity with the accounting criteria and practices described in the respective notes.

19. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

a) Civil, tax and labor lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed a compliance lawsuit against the subsidiary in 1990, demanding compliance with the adjustments established in collective labor agreements, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of September 30, 2004.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, State of São Paulo. Such lawsuits involve: (i) individual lawsuits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering, (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company, and (iii) a class

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

action lawsuit seeking indemnification for material damages and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragas's on-site LPG storage facilities did not contribute to the explosion. It has obtained a favorable judgment in all lawsuits that have been judged to date. Further, Ultragas also believes that its insurance coverage is sufficient to cover the aggregate amount of all claims filed.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9718/98 in its original version. The questioning refers to the levy of these taxes on other revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$ 32,946 (as of June 30, 2004 - R\$ 32,101).

The main tax discussions of the Company and subsidiaries refer to the taxation of PIS and COFINS (as detailed in the preceding paragraph) and the taxation of income earned abroad (as stated in Note 9.a)).

The potential losses on these discussions are accrued in long-term liabilities as other taxes and deferred income and social contribution taxes.

In the quarter, an accrual of R\$ 6,800 was recognized for the ICMS tax assessment of the subsidiary Oxiteno S.A., under judgment at the administrative level. The subsidiary currently awaits a decision on its appeal filed in July 2004.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks of these proceedings as possible or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

Although there is no assurance that the Company will prevail in all cases, management does not believe that the ultimate resolution of tax, civil and labor contingencies not provided for will have a material effect on the Company's financial position or results of operations.

Escrow deposits and provisions are summarized below:

	09/30/04		06/30/04

b) Contracts

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

The subsidiary Terminal Químico de Aratu S.A. - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with its port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment. As of September 30, 2004, such rates were R\$ 3.67 and R\$ 3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since the inception of the contracts.

Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the periods ended September 30, 2004 and 2003, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary is liable for a fine of 40% of the current ethylene price for the quantity not purchased.

Minimum purchase commitment	Accumulated demand for the third quarter	
	2004	2003
In tons	137,900	232,761 140,570

c) Insurance coverage for subsidiaries

It is the subsidiaries' practice to maintain insurance policies in amounts considered sufficient to cover potential losses on assets, as well as for civil responsibility for involuntary, material damages and/or bodily harm caused to third parties arising from their industrial and commercial operations, considering the nature of their activities and the advice of their insurance consultants.

20. STOCK OPTION PLAN (CONSOLIDATED)

At the Extraordinary Stockholders' Meeting held on November 26, 2003, a benefit plan was approved for the management of the Company and its subsidiaries, which provides for: (i) the initial grant of shares issued by the Company and held in treasury by subsidiaries in which the beneficiary executives are registered, and (ii) the transfer of the beneficial ownership of the shares after ten years from the initial concession, provided that the professional relationship between the beneficiary executive and the Company and subsidiaries is not interrupted. The total amount granted to executives, including tax charges, was R\$ 4,960. This amount is being amortized over a period of 10 years and recorded as operating expenses of each period.

21. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. Adoption of this plan, managed by Ultraprev - Associação de Previdência Complementar, was approved at the Board of Directors' Meeting on February 15, 2001. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

the fund accumulated in their name at Ultraprev, or (ii) a fixed monthly amount which will deplete the fund accumulated in the participant's name during a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt for the participants who retire under this plan. As of September 30, 2004, the Company and its subsidiaries contributed R\$ 2,902 (as of September 30, 2003 - R\$ 2,414) to Ultraprev, which was charged to income. The total number of participating employees as of September 30, 2004 was 5,382 (as of September 30, 2003 - 5,049), with no participants retired to date. Additionally, Ultraprev has 1 active participant and 33 former employees receiving benefits according to the policies of a previous plan.

Ultrapar Participações S.A. and subsidiaries

(Convenience Translation into English from the Original Previously Issued in Portuguese)

ULTRAPAR PARTICIPAÇÕES S.A. AND SUBSIDIARIES

MANAGEMENT COMMENTS ON CONSOLIDATED PERFORMANCE
FOR THE QUARTERS ENDED SEPTEMBER 30, 2004 AND 2003
(Amounts in thousands of Brazilian reais - R\$, unless otherwise indicated)

Net revenues: Ultrapar's consolidated net revenue in the 3Q04 amounted to R\$ 1.3 billion, an increase of 24% in relation to the 3Q03. In the 9M04, consolidated net revenue amounted to R\$ 3.6 billion, up by 22% compared to the same period in 2003.

Ultragaz: Brazil's LPG market has grown by 1%, comparing third quarters, less than the increase seen in the first half of the year. This is partially influenced by the different comparison base, as in the first half of 2003, Brazil's LPG market shrank by 8% in terms of sales volume, with a recovery only getting under way in the third quarter of 2003. In addition, differences in the number of working days also affected the sales volume - on a comparable basis, the market grew by 2%. In this period, Ultragaz has seen sales volume growth of 6%, basically due to the acquisition of Shell Gás, which took place in August 2003. Ultragaz's net revenue amounted to R\$ 769.8 million in the 3Q04, an increase of 7% in relation to the 3Q03. This increase in revenue is largely due to the 6% rise in sales volume.

Oxiten: The total 3Q04 sales volume for Oxiten amounted to 159,000 tons, an increase of 28% compared to the same period in 2003. This growth was mainly a reflection of (i) the winning of new clients, inclusive through import substitution; (ii) greater sales concentration in specialty chemicals; (iii) stronger demand as a result of the growth in the Brazilian economy; and (iv) the export of products in stock in 2Q04, which could not be embarked due to the lack of ships for export. Net revenue in the 3Q04 amounted to R\$ 509.1 million, 65% higher than that of the 3Q03. This increase was a consequence of (i) growth in volume sold; (ii) the recovery of petrochemical commodities prices in the international market; and (iii) the acquisition of Canamex, which added R\$ 15.9 million to net revenue for the quarter.

Ultracargo: Ultracargo's net revenue in the 3Q04 amounted to R\$ 52.3 million, 12% higher than in the 3Q03. This growth was the result of the increased volume of operations, together with contractual readjustments.

Cost of sales and services: Ultrapar's consolidated cost of sales and services amounted to R\$ 997.8 million in the 3Q04, an increase of 18% relation to the 3Q03. The 9M04 cost of sales and services amounted to R\$ 2,738.2 million, an increase of 18% in relation to the same period in 2003.

Ultragaz: The cost of goods sold in the 3Q04 rose by 7% in relation to the 3Q03, as a result of the higher volume sold, collective wage agreements and higher freight costs.

Oxiten: The cost of goods sold in the 3Q04 increased by 52% in relation to the 3Q03, as a consequence of higher sales volume, combined with the addition of Canamex and the higher unit cost of ethylene, reflecting the new level of oil prices.

Ultracargo: The cost of services rendered increased by 9% in the 3Q04, in comparison with the same period of the previous year, principally a reflection of higher fuel prices and third-party freight costs.

Ultrapar Participações S.A. and Subsidiaries

Gross profit: Ultrapar's 3Q04 gross profit was R\$ 321.7 million, 46% higher than the R\$ 220.1 million in the 3Q03. In the 9M04, gross profit reached R\$ 826.0 million an increase of 38%, compared to the same period of the previous year.

Sales, general and administrative expenses: Consolidated sales, general and administrative expenses in the 3Q04 amounted to R\$ 145.9 million, 25% higher than the R\$ 116.3 million reported for the same period of 2003. In the first nine months of 2004, Ultrapar registered sales, general and administrative expenses of R\$ 408.3 million, 26% higher than those of the same period in 2003.

Ultragaz: Sales, general and administrative expenses of Ultragaz amounted to R\$ 76.9 million in the quarter, R\$ 11.2 million higher than those for the third quarter of 2003. This increase was the result of a R\$ 3.9 million increase in depreciation expenses and a R\$ 6.9 million increase in sales expenses, mainly due to collective wage agreements, the incorporation of the Shell Gás sales structure and non-recurring expenses of R\$ 2.4 million for sales restructuring.

Oxitenó: Sales, general and administrative expenses of Oxitenó amounted to R\$ 57.8 million, an increase of R\$ 15.6 million in relation to the third quarter of 2003. Sales expenses rose by R\$ 8.5 million, due to (i) increased freight expenses, in line with higher sales volume; and (ii) the reversion of R\$ 3.0 million in provision for doubtful accounts constituted in the third quarter of 2003, due to the recovery of credits related to clients in Argentina. Administrative expenses increased by R\$ 6.9 million comparing the third quarters, as a result of (i) higher personnel expenses, as a result of collective wage agreements in 2003 and an increase in the provision for employee profit-sharing, in line with the company's improved performance; and (ii) the incorporation of R\$ 2.6 million in expenses from Canamex.

Ultracargo: Sales, general and administrative expenses at Ultracargo amounted to R\$ 12.7 million, an increase of R\$ 2.7 million in relation to the third quarter of 2003, as a consequence of collective wage agreements celebrated in the second half of 2003 and the need to hire new employees. In relation to the 2Q04, sales, general and administrative expenses remained at practically the same level.

Operating income: Ultrapar's operating income amounted to R\$ 177.1 million in 3Q04, an increase of 69% in relation to 3Q03. For the first nine months of 2004, Ultrapar's operating income amounted to R\$ 422.1 million, an increase of 51% in relation to the same period in 2003.

Net financial expenses: Ultrapar reported net financial expenses of R\$ 14.6 million in the third quarter of 2004, compared to a net financial expense of R\$ 12.3 million in the third quarter of 2003. This result reflects the impact of an 8% appreciation in the Brazilian *real* on the net worth of our investments outside Brazil, and was partially offset by lower interest rates and by a reduction in the company's net debt. We ended the 3Q04 with a net debt of R\$ 25.0 million, whereas at the end of the 3Q03, net debt amounted to R\$ 108.7 million.

Equity income: Equity income totaled R\$ 28.1 million in the third quarter of 2004, 91% higher than that reported in 3Q03. This result is composed basically of income tax incentives, principally for the Oxitenó's Camaçari plant. The increase in the tax incentive was compatible with the growth in Oxitenó's operational results.

Nonoperating results: In the third quarter 2004, Ultrapar obtained a negative nonoperating result of R\$ 3.3 million, an increase of R\$ 4.7 million compared to the third quarter 2003. This result is basically due to the scrapping of storage cylinders at Ultragaz.

Income taxes and social contribution: Income tax and social contribution expenses amounted to R\$ 55.5 million in the third quarter 2004, in line with taxable results evolution.

Net income: Consolidated net income in the third quarter 2004 amounted to R\$ 129.5 million, an increase of 71% in relation to the same period of 2003. For the 9M04 period, net income amounted to R\$ 304.7 million, representing an increase of 63% in relation to the same period of 2003.

EBITDA: Consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) in the third quarter of 2004 amounted to R\$ 219.6 million, an increase of 53% in relation to the 3Q03. This EBITDA growth was accompanied by a widening in EBITDA margin, from 14% in the 3Q03 to 17% in the 3Q04. In the first nine months of 2004 Ultrapar's EBITDA amounted to R\$ 550.8 million, 43% higher than the reported in the same period in 2003.
