ULTRAPAR PARTICIPAÇÕES S.A.

CNPJ nº 33.256.439/0001 -39

DISTRIBUTION OF DIVIDENDS

We hereby announce that the Board of Directors of Ultrapar Participações S.A., at its meeting held on February 16, 2005, approved the distribution of dividends in complementation to compulsory dividends, payable from net earnings account for the fiscal year ending December 31, 2004, in the amount of R\$ 71,773,485.03 (seventy one million, seven hundred and seventy three thousand, four hundred and eighty five reais and three centavos), to be paid from March 4, 2005 without remuneration or monetary restatement.

The holders of common and preferred shares will receive the dividend of R\$ 0.897985 per thousand shares.

The record date to establish the right to receive the dividend will be February 23, 2005 in Brazil, and February 28, 2005 in the United States of America. As from February 24, 2005, the shares will trade "ex-dividend" on both the São Paulo Stock Exchange (Bovespa) and the New York Stock Exchange (NYSE).

São Paulo, February 16, 2005.

RELEVANT NOTICE

Ultrapar announces investment in plant for fatty alcohols and derivatives

ULTRAPAR PARTICIPAÇÕES S.A. (BOVESPA:UGPA4/NYSE:UGP), a company engaged in distribution of LPG (Ultragas), production of chemicals (Oxiteno) and logistic services for chemical products and fuels (Ultracargo), hereby announces that it will invest, through Oxiteno, approximately US\$ 94 million during the next two years in the construction of a fatty alcohols production plant, with co-production of fatty acids and glycerin in the Petrochemical Complex of Camaçari, in the state of Bahia. The total production capacity should amount approximately 100,000 tons per year, considering the entire product line.

These products are currently imported and already widely used in Oxiteno's surfactants product line. In 2004, South American imports of fatty alcohol amounted to about 50,000 tons, with Brazil responsible for around 90% of this consumption. Oxiteno is the largest consumer of fatty alcohols in Brazil, and we estimate that 30% of the total volume produced by the new plant will be used by the company itself.

This plant will be a pioneer unit in Latin America for the production of fatty alcohols. Fatty alcohol is the raw material heavily used in the manufacture of specialty chemicals derived from ethylene oxide, widely used in the production of personal care products, and also has various applications in house cleaning products (cleansing agents, powder and liquid-based detergents and fabric softeners), agrochemicals and textiles, among others.

Besides adding value to this existing product line, the new plant is expected to generate additional net sales of US\$ 80 million/year when running at full capacity.

The main raw materials to be used in the new plant are of a natural origin, such as palm kernel and coconut vegetable oils.

São Paulo, 10 February 2005

BOLSA DE VALORES DE SÃO PAULO - BOVESPA

Attn: Sr. Nelson Barroso Ortega
Monitoring Management of Companies

Ref. **ULTRAPAR PARTICIPAÇÕES S.A.** S/ref. GAE/SAE 0182-05

Dear Sir,

Following the article published in the Gazeta Mercantil newspaper on February 9, 2005, entitled "Ultra's new petrochemical project ahead of schedule", we would like to add the following comments:

1. Ultrapar, based on a view of a growing Brazilian economy over the next years, with resulting potential lack in supply of petrochemical raw materials, has developed an innovative project to produce these raw materials, based on heavy Marlim oil, largely available in Brazil and currently exported. 2. This project was subsequently presented to Petrobras, which signed a memorandum of understanding for developing, jointly with Ultrapar, the studies needed to verify the feasibility of this project, which also involves participation by the BNDES. 3. At this time the project is precisely at this stage, that of undergoing feasibility studies. It is therefore far too premature to make any decision at this stage. The feasibility study should be completed during 2005 and subsequently the decisions arrived will be communicated to the capital markets at the appropriate moment. This project, if viable, would only enter into operation in 2010.

Regards,

Fabio Schvartsman

Investor Relations Officer

4th Quarter 2004

ULTRAPAR PARTICIPAÇÕES S.A.

(BOVESPA:UGPA4/NYSE: UGP)

INFORMATION AND RESULTS FOR THE FOURTH QUARTER 2004

(São Paulo, Brazil, February 16, 2005)

Ultrapar achieved a new level of results in 2004, resulting from the good positioning in its three businesses, the benefits from the integration of the operations of Shell Gás and Canamex - companies acquired at the end of 2003, the robust economy and the strong global demand for ethylene oxide derivatives.

Ø IN 2004, EBITDA AND NET EARNINGS INCREASED 48% AND 68%, RESPECTIVELY, COMPARED TO THE PREVIOUS YEAR Ø ULTRAPAR'S EBITDA AMOUNTED TO R\$ 185.9 MILLION IN THE 4Q04, AN INCREASE OF 63% COMPARED TO THE SAME PERIOD IN 2003 Ø NET EARNINGS AMOUNTED TO R\$ 109.8 MILLION, AN INCREASE OF 86% COMPARED TO THE 4Q03

1 Monthly average

- 11 -

4th Quarter 2004

- **Payment of R\$ 71.8 million in dividends** - On February 16, 2005, the Board of Directors of Ultrapar proposed the payment of R\$ 71.8 million in dividends, equivalent to R\$ 0.90 per 1000 shares, to be paid from March 04, 2005. Adding this distribution to the amount paid out in advance, in August 2004, 2004 dividend distribution amounts to R\$ 164 million, corresponding to about 40% of 2004 net income. Due to its strong cash flow, Ultrapar constantly evaluates its capital requirement for investment in assets and acquisitions and distributes excess cash to shareholders in the form of dividends.
- **Approval for investment in plant for fatty alcohols and derivatives** - Ultrapar has announced that it will investing approximately US\$ 94 million during the next two years, through Oxiteno, in the construction of a fatty alcohol plant, with co-production of fatty acids and glycerine. Total production capacity should amount approximately 100,000 tons a year, considering the entire product line.

- **Debenture issue** - At an Extraordinary General Meeting, held on February 2, 2005, a R\$ 300 million issue of debentures was approved for offer in the Brazilian market, to be used to retire outstanding debt and/or for general corporate purposes.
- **Secondary offering** - Certain shareholders of Ultra S/A, together with Monteiro Aranha S/A, intend to carry out a secondary offering of Ultrapar's preferred shares (Global Offering). The objective of the Global Offering is to increase the overall liquidity of Ultrapar's stock, and thereby meet the interests of its shareholders and analysts. To carry out this transaction, our Board of Directors approved a stock dividend in the proportion of 15 preferred shares for each 100 common or preferred shares outstanding, with such stock dividend involving the capitalization of a portion of the company's retained profit reserve and the issuance of 10.5 billion new preferred shares. Additionally, an Extraordinary General Meeting of Shareholder has been convened to consider the request for the conversion of 1.8 billion ordinary shares into an equal number of preferred shares of Ultrapar, as requested by certain shareholders, who intend to include these shares in the Global Offering. As a result, the Global Offering will amount to approximately 7.2 billion preferred shares. The number of preferred shares offered in the Global Offering may, at the request of the lead underwriters, be increased by up to 15% to cover over-allotments through the issuance of new preferred shares by Ultrapar

The latest Inflation Report published by Brazilian Central Bank indicates high levels of economic activity in this fourthquarter, but at lower growth rates than those seen since the third quarter of 2003. The pickup in consumption continued to benefit the Brazilian economy in the last quarter of 2004, principally in the food, beverages and clothing sectors. In the first nine months of 2004, Brazil's gross domestic product (GDP) grew by 5.3% and the Central Bank estimates that GDP growth in 2004 was about 5%.

Oxiteno continued to capture the benefits from the increasing domestic economic activity, which affected practically all the markets which it serves, notably the polyester (industrial textiles and PET packaging), agrichemical and cosmetic sectors. Oxiteno's results were leveraged by the high volume of sales to the domestic market and by an improved mix of products sold. In addition, strong global demand for ethylene oxide derivatives, *vis-a-vis* the level of supply, continued to push up international prices. As a result, Oxiteno's EBITDA soared 84% in the fourth quarter, over the same quarter in 2003, with EBITDA/ton rising from R\$ 499/ton in the 4Q03 to R\$ 878/ton in the 4Q04, up 76%. In 2004, Oxiteno's EBITDA amounted to R\$ 421 million, a 73% increase compared to 2003, while EBITDA/ton rose during the period from R\$ 513/ton to R\$ 812/ton, an increase of 58%. The winning of new clients and the acquisition of Canamex also contributed to increasing EBITDA.

Ultragaz, which in the fourth quarter of 2003 faced a strongly competitive environment and incurred expenses involving the integration of Shell Gás, reported an increase of 52% in EBITDA, which in this quarter amounted to R\$ 63 million. The gains in scale achieved through the incorporation of the sales volume from Shell Gás, added to efforts to reduce costs, resulted in an improvement in EBITDA/ton from R\$ 109/ton in the 4Q03 to R\$ 167/ton in the 4Q04. Compared with the 3Q04, the profitability of Ultragaz saw a decline of R\$ 16/ton, basically as a result of the lower sales that are typical of this period of the year, as a consequence of the higher average temperatures and the effect

- 12 -

4th Quarter 2004

of the holiday season. Ultragaz ended 2004 with EBITDA of R\$ 269 million, 29% higher than in 2003, and EBITDA/ton of R\$ 174/ton, R\$ 21/ton greater than in 2003.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Ultracargo benefited, principally from the second half of 2004, from the winning over of new clients and expansion of its operations, as a function of the growth in the Brazilian economy and the inauguration of its two new terminals, at Tatuí and Montes Claros. However, structural adjustments due to the company's expansion of the past few years, added to collective wage increases, resulted in EBITDA at Ultracargo remaining at the same level as in the 4Q03. For the full year 2004, Ultracargo reported EBITDA of R\$ 41 million, consolidating the level achieved in 2003.

Ultrapar closed 2004 at a new earnings level, achieved through the good positioning of its three businesses, the benefits arising from the integration of the Shell Gás and Canamex operations, the growth in the economy and strong global demand for ethylene oxide derivatives. This performance enabled Ultrapar to report consolidated EBITDA of R\$ 737 million and net earnings of R\$ 414 million, an increase of 48% and 68%, respectively, compared to 2003.

Ultragas. Brazil's LPG market saw a 1.5% expansion, on a fourth quarter basis, which was less than the 3.1% average expansion in the first three quarters of the year, due basically to the fewer working days in the period. On a comparable basis (ie: based on the same number of working days) the market expanded by 4% in the 4Q04. After three consecutive years of decline, the market ended 2004 with an increase of 2.7% .

In the 4Q04, Ultragas recorded a 1% decline in its sales volume compared to the 4Q03, or an increase of 2% on a comparable basis - lower than that of the market, principally due to (i) weaker seasonal sales in the bulk segment, in which Ultragas has a higher market share than the average for LPG distribution companies, and (ii) a restructure in its independent dealers network, which had an impact on sales volume in some regions. Ultragas ended 2004 with a 14% higher sales volume, compared to 2003, basically due to the acquisition of Shell Gás, in August 2003, and the 2.7% expansion in the LPG market.

The bottled gas segment, served principally by 13 kg gas cylinders, declined by 1%, or 2,9 thousand tons, in relation to the fourth quarter of 2003, as a result of the restructuring of our representative base in certain regions in Brazil. The bulk segment, where the main sectors served are commercial and industrial, saw a retraction of 1%, or 0,9 thousand tons, compared to the same period in 2003, due to the conversion of industrial clients to natural gas during 2004.

- 13 -

4th Quarter 2004

Oxitenó. Oxitenó is the only producer in Mercosur region of ethylene oxide and its main derivatives, as well as one of the main producers of specialty chemicals. Oxitenó's products are used in various industrial sectors, such as PET packaging, polyester, textiles, paints, cosmetics, detergents and agrichemicals.

Oxitenó's sales volume amounted to 127 thousand tons in the 4Q04, an increase of 4% compared to the 4Q03. In the domestic market, sales amounted to 93,000 tons, 23% higher than the volume sold in the fourth quarter of 2003. This increase was principally the result of (i) the winning of new clients, including through substitution of imports; (ii) the growth in the economy; and (iii) the good performance in the textile, PET packaging, agrichemical and cosmetics sectors. Sales to the international market amounted to 35 thousand tons, 25% lower than those reported in the fourth quarter of 2003, as a result of a concentration of shipments in the 3Q04 and the redirection of sales to the domestic market. Approximately 56% of exports went to the Mercosur region, where margins are similar to those in the domestic market. Additionally, sales by Canamex amounted to 5 thousand tons in the 4Q04, compared to 966 tons in December 2003, when the company was acquired by Oxitenó.

In 2004, Oxiteno's sales volume reached 518 thousand tons, an increase of 9% compared to 2003. Excluding the acquisition of Canamex, this growth occurred in the domestic market, mainly as a result of (i) the winning of new clients; and (ii) growth in demand as a result of economic recovery, leading sales in the domestic market to account for 66% of the total in 2004, 6 percentage points higher than in 2003.

- 14 -

4th Quarter 2004

Ultracargo. Ultracargo is Brazil's leading provider of integrated logistics – road transportation and storage services - for chemical products and fuels. Among the solutions provided by the company are road transportation facilities, for which the company operates its own and third party fleet, and storage services through warehousing facilities at port terminals and rail junctions.

Ultracargo's average volume of liquids and gases in storage increased by 6%, on a fourth quarter basis, as a result of the increased economic activity and operational start up at the Montes Claros Fuel Terminal. The storage of solid chemicals increased by 45%, as a result of new clients won over and the beginning of operations at the Tatuí terminal. Kilometres travelled in the 4Q04 increased by 6%, also as a result of winning new clients and the higher level of economic activity in this quarter. For 2004 as a whole, the volume of liquids and gases stored increased by 4%, while the stored volume of solids rose by 47%, compared to 2003. The kilometres recorded for the year as a whole were practically the same as the level in 2003, the winning of new clients offsetting the closing down of various long-distance routes by certain clients.

Net Sales and Services - Ultrapar's consolidated net sales and services in the 4Q04 amounted to R\$ 1.2 billion, an increase of 14% compared to the 4Q03. In 2004 as a whole, Ultrapar's net sales and services amounted to R\$ 4.8 billion, 20% higher than the net sales and services obtained in 2003.

Ultragaz – Net sales and services at Ultragaz amounted to R\$ 726 million in the 4Q04, an increase of 1% compared to the 4Q03. This growth was the result of continuous efforts, in collaboration with the independent dealers network, to improve the efficiency of the distribution chain. In 2004, Ultragaz's net sales and services amounted to R\$ 3 billion, an increase of 13%, compared to 2003. The net sales and services expansion in 2004 is largely the result of the 14% increase in sales volume during the period.

Oxiteno – Net sales and services in the 4Q04 amounted to R\$ 453 million, 44% higher than the net sales and services reported in the 4Q03. The increase in net sales and services was a consequence of (i) an improved geographical mix, as a result of increased sales to the domestic market and the Mercosur area; (ii) a strong increase in the reference prices for Oxiteno's products; (iii) an improved product mix, with increased sales of specialty chemicals; and (iv) the acquisition of Canamex, which added R\$ 18 million to net sales and services in the 4Q04. In 2004, net sales and services at Oxiteno totalled R\$ 1,663 million, an increase of 34%, compared to 2003.

- 15 -

4th Quarter 2004

Ultracargo □ Net sales and services in the 4Q04 amounted to R\$ 53 million, 15% higher than in the 4Q03. This expansion was the result of greater operational volume, as well as contractual tariff readjustments. In 2004, Ultracargo's net sales and services amounted to R\$ 197 million, an increase of 11%, compared to 2003.

Cost of Sales and Services - Ultrapar's cost of sales and services amounted to R\$ 932 million in the 4Q04, an increase of 8% compared to the 4Q03. In 2004 Ultrapar's cost of sales and services amounted to R\$ 3,670 million, an increase of 15%, compared to 2003.

Ultragaz □ The cost of sales and services in the 4Q04 was 2% lower, compared to the 4Q03, mainly due to a reduction in sales volume. For 2004, Ultragaz's cost of sales and services rose by 12%, basically as a result of increased sales volume.

Oxiteno □ The cost of sales and services in the 4Q04 increased by 35%, compared to the 4Q03, as a consequence of (i) an increase in the unit cost of ethylene; (ii) increased sales volume; and (iii) the absorption of Canamex's production cost, amounting to R\$ 12 million. In 2004, cost of sales and services increased 24%, compared to 2003.

Ultracargo □ The cost of sales and services in the 4Q04 amounted to R\$ 35 million, an increase of 18%, compared to the 4Q03. This was the result of increased operational volume and the higher price of fuels and nitrogen, used for cleaning the tanks. In 2004, the cost of sales and services provided by Ultracargo increased by 10%, compared to 2003.

Sales, General and Administrative Expenses (SG&A) □ Consolidated SG&A expenses at Ultrapar amounted to R\$ 148 million in the 4Q04, 9% higher than the R\$ 135 million reported in the same period of 2003. In 2004, Ultrapar reported R\$ 556 million in sales, general and administrative expenses, 21% higher than in 2003.

Ultragaz □ SG&A expenses at Ultragaz amounted to R\$ 77 million in the fourth quarter of 2004, the same level as in the 4Q03. The optimization of the sales structure offset the rise in administrative expenses, which was principally due to (i) higher personnel costs, the result of collective wage agreement celebrated in September 2004; and (ii) consultancy services expenses, part of it being non-recurring. In 2004, SG&A expenses at Ultragaz amounted to R\$ 298 million, an increase of 17%, compared to 2003.

Oxiteno □ SG&A expenses amounted to R\$ 58 million in the 4Q04, an increase of R\$ 10 million, on a fourth quarter basis. Administrative expenses were up R\$ 9 million, mainly due to the collective wage agreement celebrated in the 4Q04 and increased provisions for employee profit-sharing, in line with the improved performance of the company's results in 2004. For 2004 as a whole, SG&A expenses at Oxiteno amounted to R\$ 213 million, an increase of 24%, compared to 2003.

Ultracargo □ In the 4Q04, Ultracargo's SG&A expenses amounted to R\$ 14 million, an increase of R\$ 3 million in comparison to the 4Q03, the consequence of collective wage agreements celebrated in the second half of 2004 and expansion of the workforce. For 2004 as a whole, Ultracargo's SG&A expenses amounted to R\$ 51 million, an increase of 29%, compared to 2003.

EBITDA □ Ultrapar's consolidated Earnings Before Interest, Taxes, Depreciation and Amortisation (EBITDA) in the fourth quarter of 2004 amounted to R\$ 186 million, an increase of 63%, compared to the 4Q03. This EBITDA growth was accompanied by a widening of the EBITDA margin, from 11% to 15%. Ultrapar's EBITDA for 2004 amounted to R\$ 737 million, an increase of 48%, compared to 2003. During this period, the company's EBITDA margin widened from 12% to 15%.

Ultragaz □ Ultragaz reported EBITDA of R\$ 63 million, 52% higher than the EBITDA reported in the 4Q03. For the year, Ultragaz's EBITDA amounted to R\$ 269 million, an increase of 29%, compared to 2003. In both cases, the increase was principally due to (i) the acquisition of Shell Gás and the resulting gains in scale; and (ii) the LPG market expansion.

Oxiten □ EBITDA at Oxiten amounted to R\$ 112 million, an increase of 84%, compared to the 4Q03. This EBITDA growth was accompanied by a 76% rise in EBITDA/ton, from R\$ 499 in the 4Q03 to R\$ 878 in the 4Q04. For the year, Oxiten's EBITDA amounted to R\$ 421 million, an increase of 73% in relation to 2003, due to (i) higher sales volume; (ii) higher value-added sales; and (iii) an increase in the international market price of ethylene oxide derivatives. Furthermore, Canamex also contributed positively to EBITDA growth at Oxiten.

- 16 -

4th Quarter 2004

Ultracargo □ Ultracargo reported EBITDA of R\$ 9 million in the 4Q04 and R\$ 41 million for 2004, thus maintaining the same levels seen in the 4Q03 and in 2003, respectively.

Financial Result □ Ultrapar's financial result recorded a net expense of R\$ 10 million in the 4Q04, an improvement of R\$ 4 million compared to the same quarter in 2003, due basically to (i) the reduction to zero, from August 2004, of the rates of the PIS and COFINS taxes on financial revenues; and (ii) a reduction in the company's foreign currency position, thereby reducing expenses related to exchange variation. Ultrapar ended 2004 with a net cash position of R\$ 46 million, the result of the company's strong cash flow. A breakdown of Ultrapar's debt, with details of interests and maturity dates, as well as the company's cash position, can be found on the last page of this report.

Net Income □ Consolidated net income in the fourth quarter of 2004 amounted to R\$ 110 million, an increase of 86%, compared to the 4Q03. In 2004, Ultrapar's net income amounted to R\$ 414 million, an increase of 68%, compared to 2003.

Investments □ Capital Expenditures totalled R\$ 73 million in the 4Q04, allocated as follows:

- At Ultragas, capital expenditures were mainly directed to expanding the company's small bulk segment (UltraSystem), equipment maintenance and increasing capacity at the Canoas and Mataripe bases
- At Oxiten, capital expenditures was concentrated mainly on increasing the production capacity for specialty chemicals, modernization of the company's plants and on safety
- At Ultracargo, capital expenditures went principally into the construction of the Santos Intermodal Terminal and fleet expansion

During the fourth quarter 2004, Ultrapar invested R\$ 10 million in the acquisition of a 7.3% stake of Cia Ultragas, a subsidiary of Ultragas Participações, held by Nacional Investimentos S/A.

- 17 -

4th Quarter 2004

In addition, we hereby announce that Ultrapar's capital expenditure (CAPEX) budget for 2005 amounts to R\$ 299 million. Most of this amount will be spent on expanding business, with the remaining being spent on modernization of the company's assets.

Ultragaz 83 28% Oxiteno 181 60% Ultracargo 35 12% **Ultrapar 299 100%**

*Net of disposals

At Ultragaz, capital expenditure will be largely directed towards expanding the company's small bulk segment (UltraSystem), modernization of the company's gas bottling structure and renewing its fleet of vehicles and gas cylinders. At Oxiteno, investment will be spent on the expansion of its specialty chemical production capacity, including the fatty alcohol plant, with a view to increasing the flexibility of Oxiteno's product sales, as well as achieving a higher value-added sales mix, thus optimizing the use of the ethylene oxide produced by the company. As well as investing in expanding capacity, investment will also be made in plant modernization and process quality, as well as environmental control. At Ultracargo, investment will be made in the expansion and renewal of the company's vehicle fleet, maintenance of existing terminals and the expansion of storage capacity. The Santos Intermodal Terminal is scheduled to begin operations at the beginning of 2005, with investment in this project in 2004 amounting to approximately R\$ 60 million.

The investments outlined above do not include possible acquisitions. Ultrapar believes that the investments mentioned above will create substantial value for its shareholders, in line with the company's criteria for return on capital invested and profitability.

The shares of Ultrapar appreciated by 11% in the fourth quarter of 2004, while the Ibovespa and IBX indexes appreciated by 13% and 16%, respectively. In 2004, as a whole, the Ultrapar's shares appreciated by 37%. In the same period, the Ibovespa and the IBX indexes appreciated by 18% and 30%, respectively. Ultrapar's average daily trading volume in 2004 amounted to R\$ 3.7 million, an increase of 133% on 2003.

4th Quarter 2004

In 2005, Ultragas will concentrate its efforts on achieving gains in productivity and in the constant innovation of its services. At Oxiteno, investments in expanding production capacity should, together with the growth in the economy and the improvement in petrochemical commodity prices, result in outstanding profitability for the sector. Moreover, Oxiteno intends to expand its operations in Mexico, increasingly using them as a platform for international growth. The Santos Intermodal Terminal is scheduled to become operational at the beginning of 2005, thereby leveraging the results at Ultracargo. We continue to examine and identify healthy growth opportunities in the company's business areas, remaining alert to trends of the global petrochemical sector, global changes in the LPG distribution sector and opportunities arising from the need for logistics infrastructure in Brazil.

Conference Call / Webcast for Market Analysts: February 18, 2005

Ultrapar will be holding a conference call for analysts on February 18, 2005 to comment on the company's performance in the 4th quarter of 2004 and the prospects for 2005. The presentation will be available for downloading in the company's website one hour prior to the conference call.

Brazilian conference: 8:30 am (US EST) / 11:30 am (Brazil)

Telephone number for registration: **55 11 2103-1686**

Address for registration: **conferencecall@wittel.com.br**

Code: Ultrapar

Please dial your connection five minutes before the conference call is due to start, to ++55 11 2101-1490

International conference: 11:00 am (US EST) / 2:00 pm (Brazil)

Participants in Brazil: **0-800-891-3951**

Participants in the US: **1-800-322-0079**

Other International participants: **+1 (973) 935-2100**

Code: 5563970 or Ultrapar

WEBCAST: live broadcast through the Internet at the site www.ultra.com.br. Please connect to the website 15 minutes in advance.

INDEPENDENT AUDITORS' REPORT

To the Stockholders and Management of
Ultrapar Participações S.A.
São Paulo - SP

1. We have audited the accompanying individual (Company) and consolidated balance sheets of Ultrapar Participações S.A. and subsidiaries (Companies) as of December 31, 2004 and 2003, and the related statements of income, changes in stockholders' equity (Company), and changes in financial position for the years then ended, all expressed in Brazilian reais and prepared under the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements. 2. Our audits were conducted in accordance with auditing standards in Brazil and comprised: (a) planning of the work, taking into consideration the significance of the balances, volume of transactions, and the accounting and internal control systems of the Companies; (b) checking, on a test basis, the evidence and records that support the amounts and accounting information disclosed; and (c) evaluating the significant accounting practices and estimates adopted by Companies' management, as well as the presentation of the financial statements taken as a whole. 3. In our opinion, the financial statements referred to above present fairly, in all material respects, the financial positions, Company and consolidated, of Ultrapar Participações S.A. and subsidiaries as of December 31, 2004 and 2003, and the results of their operations, the changes in stockholders' equity (Company), and the changes in their financial positions for the years then ended in conformity with Brazilian accounting practices. 4. The accompanying financial statements have been translated into English for the convenience of readers outside Brazil. São Paulo, February 4, 2005

(Convenience Translation into English from the Original Previously Issued in Portuguese) ULTRAPAR PARTICIPAÇÕES S.A. AND SUBSIDIARIES NOTES TO THE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2004 AND 2003 (Amounts in thousands of Brazilian reais - R\$, unless otherwise stated)

1. OPERATIONS The Company invests in commercial and industrial activities, including subscription or purchase of shares of other companies with similar activities. Through its subsidiaries, the Company is engaged in the distribution of liquefied petroleum gas - LPG (Ultragaz), production and sale of chemical and petrochemical products (Oxiten), and logistic services for chemicals and fuels (Ultracargo). 2. PRESENTATION OF FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING PRACTICES The accounting practices adopted to record transactions and prepare the financial statements are those established by accounting practices adopted in Brazil and the Brazilian Securities Commission (CVM). a) Results of operations Determined on the accrual basis of accounting. b) Current and non-current assets Temporary cash investments are stated at cost, plus accrued income (on a *pro rata temporis* basis), which approximate market value. The allowance for doubtful accounts is based on estimated losses and is considered by management to be sufficient to cover potential losses on accounts receivable. Inventories are stated at the lower of average cost of acquisition or production, or at market or net realizable value. Other assets are stated at the lower of cost or probable realizable values, including, when applicable, accrued income and monetary variations or net of allowances for potential losses.

c) Permanent assets Stated at cost monetarily restated through December 31, 1995, and at nominal amounts from that date, combined with the following aspects: • Significant investments in subsidiary and affiliated companies are recorded under the equity method, as shown in Note 10. • Property, plant and equipment include revaluation write-ups based on appraisal reports issued by independent appraisers. • Depreciation is calculated on a straight-line basis at the annual rates described in Note 11, based on the economic useful lives of the assets. • Deferred charges mainly comprise costs incurred in the implementation of projects to install equipment at customers' facilities, projects to modernize systems, and goodwill on acquisition of subsidiaries, as mentioned in Note 12. d) Current and long-term liabilities Stated at known or estimated amounts including, when applicable, accrued charges and monetary variations. The provision for income tax includes tax incentives, when applicable. Deferred income and social contribution taxes on temporary differences are recorded as set forth by CVM Resolution No. 273/98. e) Basis for translation of the financial statements of foreign subsidiaries The financial statements of foreign subsidiaries are translated into Brazilian reais at the current exchange rate. The criteria for preparation of the financial statements have been adapted to conform to accounting practices adopted in Brazil. f) The balance sheet information of 2003 related to other current assets and other taxes payable have been reclassified for better year to year comparison. 3.

CONSOLIDATION PRINCIPLES The consolidated financial statements have been prepared in accordance with

42

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Ltda. into Ultragaz Participações Ltda., Ultracargo Participações Ltda. into Oleoquímica do Nordeste Ltda., and the latter into Ultracargo - Operações Logísticas e Participações Ltda. On December 29, 2004, the Company acquired, through its subsidiary Ultragaz Participações Ltda., an additional 7.31% of Companhia Ultragaz S.A. total share capital. This acquisition amounted to R\$10,000, with a goodwill of R\$1,813 based on its expected future profitability to be amortized over five years beginning January 2005. 4. TEMPORARY CASH INVESTMENTS These investments, contracted with leading banks, are substantially comprised of fixed-income securities and funds linked to the interbank deposit certificates (CDI) rate and currency hedges, and are stated at cost plus accrued income (on a pro rata temporis basis). Company Consolidated

The loan balances with Química da Bahia Indústria e Comércio S.A. and Cia. Termelétrica do Planalto Paulista - TPP are adjusted based on the Brazilian long-term interest rate (TJLP). Other loans are not subject to financial charges. Purchase and sale transactions refer principally to purchases of raw materials, other materials and storage services, carried out at market prices and conditions. The loan agreement with Ultracargo - Operações Logísticas e Participações Ltda. results from the sale of shares issued by Oxiteno S.A. - Indústria e Comércio to the Company, so as to avoid a reciprocal shareholding resulting from a corporate restructuring conducted in 2002.

11

Ultrapar Participações S.A. and Subsidiaries 9. INCOME AND SOCIAL CONTRIBUTION TAXES a)
 Deferred income and social contribution taxes The Company and its subsidiaries recognize tax assets and liabilities, which do not expire, arising from tax loss carryforwards, temporary add-backs, revaluation of property, plant and equipment, and other procedures. The tax credits are based on continuing profitability from operations. Management expects to realize these tax credits over a maximum period of three years. Deferred income and social contribution taxes are presented in the following principal categories: Company Consolidated

<u>2004</u> <u>2003</u> <u>2004</u> <u>2003</u> Non-current assets- Accruals which are tax deductible only when Income and social contribution tax loss	Deferred income and social contribution taxes on: expenses are incurred 2,687 2,576 51,171 48,574 carryforwards - - 12,103 12,793

Construction in progress refers mainly to the construction of the Santos Intermodal Terminal (TIS) of subsidiary Terminal Químico de Aratu S.A. -Tequimar, as well as improvements of other subsidiaries' plants.

Other refers to computer equipment in the amount of R\$17,242 (2003 - R\$19,596), software in the amount of R\$27,740 (R\$2003 - R\$29,901), and commercial property rights, mainly those described below:

- ◆ On July 11, 2002, the subsidiary Terminal Químico de Aratu S.A. - Tequimar won the auction and signed a contract for use of the site on which it operates the Aratu Terminal for another 20 years, renewable for the same period. The price paid by Tequimar amounted to R\$12,000, and is being amortized over 40 years, equivalent to annual amortization of R\$300.
- ◆ Further, Terminal Químico de Aratu S.A. - Tequimar has a 20 year lease of an area adjacent to the Santos harbor which allows it to build, operate and exploit the terminal, intended for the distribution of liquid bulk. The price paid by Tequimar was R\$3,803 and will be amortized until December 31, 2022 from the start of its operation, expected for April 2005.

12. DEFERRED CHARGES (CONSOLIDATED)

Represented substantially by costs incurred in the implementation of systems modernization projects in the amount of R\$2,052 (2003 - R\$3,203), amortized over five to ten years, and for the installation of Ultrasystem equipment on customers' premises in the amount of R\$55,954 (2003 - R\$56,836), amortized over the terms of the LPG supply contracts with these customers. Deferred charges also include the goodwill from acquisitions, as stated in Note 3.

16

Current liabilities (293,039) (325,877)

Long-term liabilities 258,091 306,269

(*) MX\$ = Mexican peso; TIIE = Mexican break-even interbank interest rate. (**) UMBNDES = BNDES monetary unit. This is a [basket] of currencies representing the composition of the BNDES debt in foreign currency, 84% of which is linked to the U.S. dollar.

The long-term portion matures as follows:

2004 2003 2005 - 160,770 2006 109,338 94,656 2007 57,304 34,599 2008 36,920
15,280 2009 54,529 964

258,091 306,269

In June 1997, subsidiary Companhia Ultragas S.A. issued eurobonds in the total amount of US\$60 million, maturing in 2005, with put/call options in 2002, and guaranteed by Ultrapar Participações S.A. and Ultragas Participações Ltda. In June 2002, subsidiary LPG International Inc. exercised the call option for these securities using funds from a loan in the same amount, maturing in August 2004. However, in January 2004, LPG International Inc. issued eurobonds in the total amount of US\$60 million, maturing in June 2005 and with an annual interest rate of 3.5%. The proceeds from the issuance were used to settle the loan.

17

The eurobonds are guaranteed by the Company and its subsidiary Ultragas Participações Ltda., which are subject to covenants that provide for restrictions on, among other things, their ability to incur indebtedness, pay dividends and other distributions, and conduct merger and acquisition transactions. None of these covenants have restricted our ability to conduct our business.

A portion of the financing is collateralized by liens on property, plant and equipment, shares, promissory notes and guarantees provided by the Company and its subsidiaries, as shown below:

<u>2004</u>	<u>2003</u>	Amount of financing secured by:	Property, plant and equipment	39,007
34,256	Shares of affiliated companies	15,549	17,128	Minority stockholders' guarantees
15,549	17,642			

70,105 69,026

Other loans are collateralized by guarantees issued by the Company and by the future flow of exports. The Company is responsible for sureties and guarantees offered on behalf of its subsidiaries, amounting to R\$533,126. Certain subsidiaries have issued guarantees to financial institutions related to amounts owed to those institutions by certain of their customers (vendor financing). There are no recourse provisions or collaterals that would enable the Company or its subsidiaries to recover any amounts paid to the financial institutions under these agreements. In the event such payments are made, the subsidiaries may recover such amounts paid directly from their customers. Maximum future payments related to these guarantees amount to R\$45,230 (2003 - R\$19,792), with terms ranging up to 210 days. As of December 31, 2004, the Company and its subsidiaries have not suffered any losses related to these guarantees, neither recorded any liability related to them. 14.

STOCKHOLDERS' EQUITY a) Capital The Company is a listed corporation with shares traded on the São Paulo and New York Stock Exchanges. Subscribed and paid-up capital is represented by 69,691,268,828

shares without par value, comprised of 51,264,621,778 common and 18,426,647,050 preferred shares. As of December 31, 2004, 4,984,044,000 preferred shares were outstanding abroad, in the form of American Depositary Receipts - ADRs. Preferred shares are not convertible into common shares, do not entail voting rights, and have priority in capital redemption, without premium, in the event of liquidation of the Company. Until May 18, 2004, preferred shares entitled their holders to dividends at least 10% higher than those attributable to common shares. On that date the Special Meeting of Preferred Stockholders and the Extraordinary Stockholders' Meeting of Ultrapar approved to equalize the dividends of common and preferred shares.

18

b) **Treasury shares** The Company was authorized to acquire its own shares at market price, without capital reduction, for holding in treasury and subsequent disposal or cancellation, in accordance with the provisions of Brazilian Securities Commission (CVM) Instructions No. 10, of February 14, 1980, and No. 268, of November 13, 1997. In 2004, 219,600,000 preferred shares were acquired at the average unit cost of R\$30.19 with a minimum cost of R\$27.50 and a maximum cost of R\$34.80 per thousand shares. As of December 31, 2004, the Company's financial statements record 182,699,760 preferred shares and 6,616,359 common shares in treasury, which were acquired at the average cost of R\$30.14 and R\$19.30 per thousand shares, respectively. The consolidated financial statements record 327,699,760 preferred shares and 6,616,359 common shares in treasury, which were acquired at the average cost of R\$28.08 and R\$19.30 per thousand shares, respectively. The market price of shares issued by the Company as of December 31, 2004 on the São Paulo Stock Exchange (BOVESPA) was R\$51.00 per thousand shares.

c) **Capital reserve** The capital reserve in the amount of R\$1,855 reflects the goodwill on sale of shares from the Company to certain subsidiaries, at the average cost of R\$38.27 per thousand shares. Executives of these subsidiaries were given the usufruct of such shares, as described in Note 21.

d) **Revaluation reserve** This reserve reflects the revaluation write-up of assets of subsidiaries and is realized based upon depreciation, write-off or sale of revalued assets, including the related tax effects. In some cases, taxes on the revaluation reserve of certain subsidiaries are recognized only upon the realization of this reserve, since the revaluations occurred prior to the publication of CVM Resolution No. 183/95. Taxes on these reserves are R\$7,769 (2003 - R\$7,641).

e) **Retention of profits reserve** This reserve is supported by the investment program, in conformity with article 196 of Brazilian corporate law, and includes both a portion of net income and the realization of the revaluation reserve.

f) **Realizable profits reserve** This reserve is established in conformity with article 197 of Brazilian corporate law, based on the equity pick-up in subsidiaries and affiliated companies. Realization of the reserve usually occurs upon receipt of dividends, sale and write-off of investments.

20

g) **Dividends and appropriation of net income** According to the Company's bylaws, the stockholders are entitled to a minimum annual dividend of 50% of adjusted net income, calculated according to the terms of accounting practices adopted in Brazil. Proposed dividends as shown in the Company's financial statements, subject to approval at the Stockholders' Annual Meeting, are as follows:

2004 Net income 414,479 Legal reserve (20,724) Retention of profits reserve (196,878) Realization of realizable profits reserve 85,622

Mandatory dividends 282,499 Realizable profits reserve (118,343) Interim dividends (R\$1.330000 per thousand common and preferred shares) (92,383) Proposed dividends payable (R\$1.032683 per thousand common and preferred shares) (71,773) Management proposes to retain the balance of profits for the year in the retention of profits reserve to support the business expansion project set forth in its investment program. h) Reconciliation of stockholders' equity - Company and consolidated Stockholders' equity - Company 1,605,611 Treasury shares held by subsidiaries, net of realization (3,396) Capital reserve arising from sale of treasury shares to subsidiaries, net of realization (1,713)

Stockholders' equity - consolidated 1,600,502

15. NONOPERATING (EXPENSES) INCOME, NET (CONSOLIDATED) Refers principally to the result on sales of permanent assets, especially cylinders, as well as the write-off, in 2004, of the investment in the affiliate Extracta Moléculas Naturais S.A.

22

16. RECONCILIATION OF EBITDA (CONSOLIDATED)

The EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) is calculated by the Company, as shown below:

2004 2003

<u>Ultragaz</u>	<u>Oxiteno</u>	<u>Ultracargo</u>	<u>Other</u>	<u>Consolidated</u>	<u>Consolidated</u>		
117,559	455,501	35,619	3,787	612,466	346,229	(-) Equity in subsidiary and affiliated companies	(+) Financial income
			(expense) 42,442	13,779	(9,184)	(2,055)	44,982
				116,238	38,086	17,530	837
				172,691	146,870		
				EBITDA 268,896	421,026	40,527	6,188
				736,637	498,453		

17. SEGMENT INFORMATION The Company has three reportable segments: gas, chemicals and logistics. The gas segment distributes LPG to retail, commercial and industrial consumers mainly in the South, Southeast and Northeast Regions of Brazil. The chemicals segment primarily produces ethylene oxide derivatives. Operations in the logistics segment include storage and transportation, mainly in the Southeast and Northeast Regions of the country. Reportable segments are strategic business units that offer different products and services. Intersegment sales are transacted at prices approximating those that the selling entity is able to obtain with third parties.

The principal financial information about each of the Company's reportable segments is as follows:

2004 2003

<u>Ultragaz</u>	<u>Oxiteno</u>	<u>Ultracargo</u>	<u>Other</u>	<u>Consolidated</u>	<u>Consolidated</u>		
2,967,651	1,662,886	153,624	88	4,784,249	4,000,309	Net sales, net of related-party transactions

(44,982) (57,248)

19. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED) The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

- ◆ Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. On December 31, 2004, the subsidiaries Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio maintained R\$2,077 (2003 - R\$3,522) and the subsidiaries of Ultragaz Participações Ltda. maintained R\$23,062 (2003 - R\$17,367) as an allowance for doubtful accounts receivable.
- ◆ Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. The temporary cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to the interbank deposit (CDI) rate, as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Funds obtained originate from BNDES and foreign currency financing, as mentioned in Note 13.
- ◆ Exchange rate - The Company's subsidiaries use hedge (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange rate variation effects on their results. Such hedges have amounts, periods and indexes equivalent to the assets and liabilities in foreign currency, to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian reais at December 31, 2004:

Carrying amount	Fair value			
		Assets:	Investments abroad and hedges	266,619 275,613
			Cash and temporary cash investments	108,977 108,977
			Receivables from foreign customers, net of advances on export contracts	35,002 35,002
<hr/>				
410,598	419,592			
<hr/>				
		Liabilities:	Foreign currency financing	346,809 350,318
			Import payables	12,294 12,294
<hr/>				
359,103	362,612			
<hr/>				
<hr/>				
Net asset position		51,495	56,980	
<hr/>				
<hr/>				

The exchange rate variation related to cash and banks, temporary cash investments and investments abroad was recorded as financial expense in the statement of income for 2004, in the amount of R\$10,995 (2003 - financial expense of R\$24,251). Other financial instruments recorded in the financial statements as of December 31, 2004 were determined in conformity with the accounting criteria and practices described in the respective notes, at amounts which approximate their fair value.

20. CONTINGENCIES AND COMMITMENTS

(CONSOLIDATED) a) Labor, civil and tax lawsuits The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in collective labor agreements, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of December 31, 2004. The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, state of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for material damages and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragaz's on-site LPG storage facilities did not contribute to the explosion. It has obtained a favorable judgment in all lawsuits which have been judged to date. The subsidiary has insurance for this contingency; the uninsured amount is R\$36,720. The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9,718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$33,699 (2003 - R\$30,498). The main tax discussions of the Company and subsidiaries refer to the taxation of PIS and COFINS (as detailed in the preceding paragraph) and the taxation of income earned abroad (as stated in Note 9.a)). The potential losses on these discussions are accrued in long-term liabilities as other taxes and deferred income and social contribution taxes, respectively.

The subsidiary Oxiteno S.A. - Indústria e Comércio recorded an accrual of R\$7,346 for an ICMS tax assessment under judgment at the administrative level. The subsidiary currently awaits a decision on its appeal filed in July 2004.

The subsidiary Utingás Armazenadora S.A. has been challenging in court an ISS tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The updated amount of the contingency as of December 31, 2004 is R\$25,405.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks of these proceedings as possible or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Although there is no assurance that the Company will prevail in all cases, management does not believe that the ultimate resolution of tax, civil and labor contingencies not provided for will have a material effect on the Company's financial position or results of operations. Escrow deposits and provisions are summarized below:

2004 2003

<i>Escrow</i>									
<u>deposits</u>	<u>Provision</u>	<u>Escrow</u>							
		Social contribution tax on net income -		2,910	31	2,917	Labor claims		9,904
2,016	7,433	914	PIS and COFINS on other revenues	58	33,699	58	30,498	ICMS	538 9,435 - -
	Other	3,603	4,009	2,382	6,570				
14,103		52,069		9,904		40,899			

b) **Contracts** The subsidiary Terminal Químico de Aratu S.A - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment. As of December 31, 2004, such rates were R\$3.67 and R\$3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since the inception of the contracts.

The subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the years ended December 31, 2004 and 2003, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the

current ethylene price for the quantity not purchased.

Minimum purchase	<u>Actual demand</u>	<u>commitment</u>	<u>2004</u>	<u>2003</u>	In tons	137,900	192,439
188,850							

c) Insurance coverage for subsidiaries It is the subsidiaries' practice to maintain insurance policies in amounts considered sufficient to cover potential losses on assets, as well as for civil responsibility for involuntary, material damages and/or bodily harm caused to third parties arising from their industrial and commercial operations, considering the nature of their activities and the advice of their insurance consultants. 21.

STOCK COMPENSATION PLAN (CONSOLIDATED) The Extraordinary Stockholders' Meeting held on November 26, 2003 approved a compensation plan for management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed, and (ii) the transfer of the beneficial ownership of the shares after ten years of the initial concession provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. The total value granted to executives until December 2004, including taxes, was R\$7,654 (2003 - R\$4,960). Such value is being amortized over a period of ten years and the amortization related to the year ended December 31, 2004, in the amount of R\$567 (2003 - R\$42), was recorded as an operating expense of the period. 22. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED) The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name at Ultraprev; or (ii) a fixed monthly amount which will deplete the fund accumulated in the participant's name in a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt of the retirement benefit. In 2004, the Company and its subsidiaries contributed R\$3,991 (2003 - R\$3,355) to Ultraprev, which was charged to income for the year. The total number of participating employees as of December 31, 2004 was 5,503, with no participants retired to date. Additionally, Ultraprev has 1 active participant and 33 former employees receiving defined benefits according to the policies of a previous plan. 23. SUBSEQUENT EVENTS a) The Extraordinary Stockholders' Meeting held on February 2, 2005 approved the issuance by the Company and the public distribution in a single block of 30,000 (thirty thousand) non-convertible debentures with nominal unit value of R\$10,000.00 (ten thousand reais), resulting in a total amount of R\$300,000.00 (three hundred thousand reais). The proceeds obtained from these debentures will be used to retire short-term debt and/or other general corporate purposes. b) According to the press release issued on February 3, 2005 Monteiro Aranha S.A. and certain shareholders of Ultra S.A. disclosed their intention to undertake a secondary public distribution of Ultrapar shares. The request for this offer was filed with the Brazilian Securities Commission (CVM) and the Securities and Exchange Commission - SEC, and is subject to the approval of both agencies. To prepare this offering, the Board of Directors approved on February 2, 2005 a stock dividend,

effected through the capitalization of part of the Company's reserve for retention of profits, with the issuance of 10.5 billion of new preferred shares, to be distributed to shareholders in the proportion of 15 new preferred shares, for each of 100 common or preferred shares held.

MANAGEMENT REPORT 2004

Dear Shareholders,

The Management of ULTRAPAR PARTICIPAÇÕES S.A. (Ultrapar) is pleased to present the following Management Report, Balance Sheet and other Financial Statements for the fiscal year ending December 31, 2004. All data herein has been prepared according to Brazilian corporate law and is accompanied by an independent auditor's report.

ECONOMIC BACKGROUND

The year 2004 was characterised by a more favourable macroeconomic environment, both in Brazil and worldwide. The domestic economy benefited from the expressive increase in exports, and at the end of 2003, after a period of low industrial activity, the economy started to show signs of recovery. Estimates are that during 2004 GDP grew approximately 5%, with reflections in increased income, employment and consumption. The external macroeconomic scenario was extremely favourable to the Brazilian economic growth, with the largest global GDP expansion in the last 20 years, stimulating exports and increasing Brazil's trade surplus. In addition, international interest rates remained low and the US dollar depreciated gradually against the world's major currencies. The year ended with a continuing appreciation of the Real, bringing risks to the future macroeconomic performance of Brazil.

ULTRAPAR IN 2004

Highlights of the year

For Ultrapar, two major events stood out in the year 2004 (i) a significant increase in the level of the company's results, and (ii) the conclusion of a new agreement between the shareholders of Ultra S.A., the company's controlling shareholder, so as to consolidate a stable and defined controlling block in Ultrapar. The new level of results was achieved through good positioning in the three businesses in which Ultrapar operates, the benefits arising from the integration of the operations of Shell Gás and Canamex - companies acquired at the end of 2003 - the economic growth, and through the strong world demand for ethylene oxide derivatives. For Ultragas, the year 2004 saw the benefits from the higher operational scale as a result of acquiring Shell Gás in 2003 and from the recovery in Brazil's LPG market, which, after shrinking for three years, presented growth of 2.7%. At Oxiteno, the focus on meeting clients needs allowed the company to increase its results in 2004, by meeting the growing demand in the domestic market and achieving a higher added-value sales mix. Furthermore, the strong worldwide demand for ethylene oxide derivatives has consequently improved international prices. Additionally, Oxiteno consolidated its operation in Mexico and announced the acquisition of the assets of Rhodia Especialidades Químicas in July 2004. Ultracargo consolidated the level of results achieved in 2003 and began operations at the Tatuí and Montes Claros terminals, this latter inaugurating storage services for Brazil's main fuel distributors. This performance led Ultrapar to end 2004 with consolidated EBITDA of R\$ 737 million and net earnings of R\$ 414 million, representing an increase of 48% and 68%, respectively, compared to 2003.

The signing of a new agreement between the shareholders of Ultra S.A., the company's controlling shareholder, was another significant event in 2004, representing the consolidation of a stable and defined controlling shareholder block in Ultrapar, determination to continue to be driven by the professional management, and improvement in the company's corporate governance principles.

32

Moreover, Ultrapar ended the year with the certainty of having taken significant steps towards continuation of its sustainable long-term development, among which we highlight (i) the start-up of operations at the Santos Intermodal Terminal – scheduled for the first half of 2005 – with the capacity to store 112,000 m³ of chemical products, alcohol and vegetable oils; (ii) the expansion of company's capacity to produce specialty chemicals, with particular emphasis on the construction of a fatty alcohol plant; and (iii) a feasibility study for the production of basic petrochemicals, including ethylene, from heavy oil.

In 2004 Oxiteno founded its own –Science and Technology Council–, with six of the world's major specialists in tensoactives being members. The Council, which first met in December 7 to 10, 2004, analysed critically the company's R&D projects' portfolio, as well as the methodology used. Many recommendations will enable the company to increase its efficiency in R&D, as well as enlarge its partnerships with international entities.

Investments

Ultrapar's decisions on investments follow strict criteria regarding returns over cost of capital, with EVA (Economic Value Added) being one of its main tools. This discipline in the allocation of capital, allied to a strategic vision focused on those businesses in which we believe we have competitive advantages, has resulted in growing returns on capital, as can be seen in the chart below. In 2004, net investments totalled R\$ 284 million. At Ultragas, R\$ 99 million was invested, mainly in expanding the small-bulk delivery system (UltraSystem), in the replacement of fleet and cylinders, and in the acquisition of minority shareholdings. At Oxiteno, investment totalled R\$ 86 million, and were focused on the modernisation of the company's industrial plants and expanding the production capacity of specialty chemicals, aiming at the growing domestic demand and increasing sales flexibility at Oxiteno. Investment at Ultracargo amounted to R\$ 92 million in 2004 and were directed mainly to the construction of the Santos Intermodal Terminal and expansion of the company's fleet.

Corporate Governance

The concept of corporate governance was introduced at Ultrapar back in the Seventies, with the professionalization of the Company's management, which up to that time had been family-managed. Over the years, Ultrapar has moved to become a company with shared control between executives and the founding family. At the end of 2004, the successful conclusion of a new agreement between the controlling shareholders of Ultrapar ratified this control structure and constituted an important step in the evolution of the company's corporate governance. In addition, Ultrapar has improved its existing mechanisms of corporate governance, adding tag-along rights to the company's bylaws, for all shareholders, at 100% of the offer price, a right which

was already conceived through a shareholder agreement. The company's efforts to carry out its activities with a high degree of transparency and respect for minority shareholders were recognised with the awarding of prize for Best Firm in Corporate Governance and Second Best Firm in Investor Relations in the Oil, Gas and Petrochemicals segment, for the 2004 Latin American Ranking, produced by the *Institutional Investor Research Group*.

Capital Markets

On 18 May 2004, at an Extraordinary General Shareholders Meeting, the Company approved the equalisation of dividend distribution to the holders of common and preferred shares. This proposal had been

previously submitted to a Special Meeting of Preferred Shareholders and approved by 70% of the Company's preferred shareholders.

We declared dividends of R\$ 164 million in 2004, representing 40% of net earnings for the year and a *dividend yield* of 4.6%, taking the share price of R\$ 51.00/thousand shares as of December 30, 2004. Additionally, the shares of Ultrapar appreciated by 37% in 2004. During this same period, the Ibovespa and IBX indexes appreciated by 18% and 30%, respectively. Shares issued by the company experienced a significant increase in liquidity in 2004. Some 11.4 thousand trades were made on the São Paulo Stock Exchange (Bovespa), an increase of 73% over the previous year. These transactions resulted in an average daily trading volume of R\$ 2.8 million, an increase of 155% in relation to 2003. The company's ADRs (American Depositary Receipts, representing the company's preferred shares traded on the New York Stock Exchange) presented an average daily trading volume of R\$ 0.9 million in 2004, an increase of 84% in relation to 2003.

Quality, Safety and the Environment

In 2004 Ultrapar, through its subsidiaries, continued its program of improving aspects of quality, safety and the environment, involving not only the company's operations, but also external agents, such as clients, suppliers and the community. In addition, the company has benefited from the investment in increasing productivity, made in 2003. Ultragas, in recognition of its results and operational standards, was the first Brazilian company invited to participate in the Board of the World LPG Association, a body which brings together the world's leading companies in the LPG sector, thus demonstrating the advances made by the company in meeting its target of "Being a Global LPG Benchmark". Ultragas has also dedicated itself to extending its ISO 9001 certification program, adapting its procedures and installations at facilities which had still not been certified. Furthermore, Ultragas has carried out activities in the community, publishing guidelines on the safe uses of LPG and the prevention of accidents. Oxiten, reinforcing its commitment to quality, safety and the environment, directed efforts towards recertification of all standards to which must comply, also altering the certifying company, a process which was concluded by the end of 2004. In this process, as well as the updating of certain standards, others were improved - for example: alteration of the certification required by the automotive industry, from QS-9000, which covers just three vehicle assemblers, to ISO/TS 16949, which extends to all the clients in the sector. In recognition of the company's responsible

conduct, Oxiten's largest plant, located at Camaçari - Bahia, received five stars at the Safety, Industrial Hygiene, Environmental, and Occupational Health awards, presented by the Camaçari Petrochemical Complex. Finally,

Ultracargo began in 2004 a new process for certifying its facilities, already certified for management quality under ISO 9001, that now includes ISO 14001 certification, the first being the Paulínia Intermodal Terminal in the state of São Paulo. In addition, the Aratu Terminal was submitted to an audit by the CDI-T (*Chemical Distribution Institute* □ *Terminals*), a rigorous system of terminal evaluation, representing the best global quality practices. Awards from clients were also received, in recognition of the quality and safety in services provided.

Personnel Management and Social Responsibility

The guidelines to which Ultrapar adheres in conducting its operations - based on ethics, personnel appreciation, sound management and consistency - are the same as those applied to its employees, suppliers, consumers, communities and the preservation of the environment. Internally, Ultrapar has developed a human resources policy focused on attracting, developing and retaining talent. To this end, the company runs annually trainee and apprenticeship to graduate students programs and invests in the specialisation of its employees and in expanding their professional horizons. In 2004, the company provided approximately 68,000 hours in training sessions. Variable remuneration is also an important instrument in achieving growing levels of efficiency and is linked to meeting annual EVA□ (*Economic Value Added*) and BSC (*Balanced ScoreCard*) performance indicator targets. With the aim of providing benefits that are complementary to those provided under the government pension scheme, Ultrapar maintains a private pension fund whose net worth, as at December 31, 2004, amounted to R\$ 69 million. Outside the company, the relationships with suppliers and dealers is based on the principles of partnership and commitment to environmental preservation. Ultrapar's social initiatives are based on the belief that everyone has much to contribute to the transformation of society. Thus, in addition to funding activities devoted to improving the quality of life in the community, the company seeks to involve its employees to this end, the main focus of which is education.

Value Added

Ultrapar generated "Value Added" of R\$ 1.2 billion, 37% higher than in 2003, distributed as shown in the chart below:

Note: According to the model developed by Fipecafi (the São Paulo University Institute for Accounting, Actuarial and Financial Research)

Independent Auditors

Ultrapar's dealings with its independent auditors as regards services unrelated to external auditing are based on the principle of preserving the auditors' independence. During the year 2004, the amount paid for services not related to external audit amounted to less than 5% of the fees paid to the Independent Auditors.

OUTLOOK

Ultrapar will continue to direct its resources to achieving sustainable growth in its businesses. Ultragas shall concentrate its efforts in 2005 on achieving gains in productivity, in the constant innovation of its services and in a closer relationship with its clients. At Oxiteno, investment in the expansion of production capacity, together with economic growth and the continued strengthening of petrochemical commodity prices, should result in an outstanding level of profitability in the sector. In addition, Oxiteno expects to expand its operations in Mexico, increasingly using them as a platform for international expansion. Early in 2005, the

Santos Intermodal Terminal will begin operations, leveraging the results of Ultracargo. Opportunities in our three businesses are constantly being evaluated, with the focus always on sustainable growth and creating shareholder value. Finally, we thank all those who have helped to achieve another year of important conquests for the company.

EBITDA2 737 269 421 41 498 208 243 40

1 Operating profit before financial income (expenses) and equity income. 2 EBITDA is a measure used to approximate the company's ability to generate cash. For a better understanding of the EBITDA calculation, see Note 16 in the consolidated financial statements.

Sales Volume ¶The economic growth and the improvement in the population's average income level in 2004 contributed to the 2.7% growth in sales volume in the LPG distribution market. In this period, Ultragas's sales volume saw an increase of 14% in relation to 2003, partly due to the growth in the LPG market and partly due to the acquisition of Shell Gás in August 2003. Total sales volume at Oxiteno amounted to 518,000 tons in 2004, an increase of 9% compared to 2003. This increase was mainly due to (i) the acquisition of new clients, through import substitution; (ii) sales more concentrated in specialty chemicals; and (iii) the growth in the Brazilian economy.

36

Net Revenue In 2004, Ultrapar's net revenue amounted to R\$ 4,784 million, 20% higher than the net revenue reported in 2003. Ultragaz reported net revenue of R\$ 2,968 million, an increase of 13% in relation to 2003, due principally to the higher sales volume. Oxiteno reported net revenue of R\$ 1,663 million, 34% higher than in 2003, due to (i) increased demand in the domestic market; (ii) higher petrochemical commodity prices in international markets; and (iii) the acquisition of Canamex. At Ultracargo, investment in the new terminals at Tatuí and Montes Claros, as well as the economic recovery, enabled net revenue to increase by 11%, amounting to R\$ 197 million in 2004.

Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) Ultrapar reported EBITDA of R\$ 737 million in 2004, an increase of 48% in relation to 2003. Ultragaz reported EBITDA of R\$ 269 million, 29% higher than in 2003, resulting from increased volume and gains in scale following the acquisition of Shell Gás. Ultragaz's EBITDA/ton increased from R\$ 153 in 2003 to R\$ 174 in 2004. Oxiteno reported EBITDA growth of 73%, with EBITDA margin widening to 25%, an increase of 5 percentage points compared to the previous year. Factors underlying the improvement in EBITDA at Oxiteno included (i) a more value-added-sales mix, the result of increased sales of specialty chemicals, and increased sales to the domestic market; and (ii) higher petrochemical commodities in the international markets. Ultracargo reported EBITDA of R\$ 41 million, consolidating the level achieved in 2003.

Net Earnings Consolidated net earnings in 2004 amounted to R\$ 414 million, an increase of 68% compared to 2003, basically due to increased EBITDA.

Financial Liabilities and Debt We ended 2004 with a debt of R\$ 551 million. Of this total, R\$ 204 million was in the form of *real*-denominated loans, principally from BNDES National Bank for Economic and Social Development. The average weighted cost of this debt, as at December 31, 2004, was approximately 67% of CDI (Interbank Certificate Deposit Rate). Foreign currency denominated loans amounted to R\$ 347 million, comprising for the most part of export prepayments and eurobonds, at an average weighted cost of 5.3% above the exchange rate variation. Ultrapar's cash position as at December 31, 2004 amounted to R\$ 597 million, resulting therefore in net cash of R\$ 46 million.

Cash Flow The statement below shows the company's cash flow, including long and short-term cash and cash equivalents, in 2003 and 2004. In 2004, cash flows before financing activities increased by R\$ 350 million, basically as a result of the growth in cash flows from operating activities (R\$ 242 million). Additionally, the lack of significant acquisitions in 2004 resulted in a reduction in cash flow from investing activities of R\$ 108 million for the year.

CONSOLIDATED CASH FLOW STATEMENT*(Amounts expressed in R\$ million)***As of December 31,**
