Pricing Supplement No. 2447BF

To underlying supplement No. 1 dated October 1, 2012,

product supplement BF dated October 5, 2012,

prospectus supplement dated September 28, 2012,

prospectus dated September 28, 2012 and

prospectus addendum dated December 24, 2014

Registration Statement No. 333-184193

Dated May 14, 2015; Rule 424(b)(2)

Deutsche Bank AG

\$2,000,000 Autocallable Securities Linked to the Lesser Performing of the Russell 2000® Index and the iShares® MSCI EAFE ETF due November 17, 2016

General

The securities are linked to the performance of the lesser performing of the Russell 2000® Index (the “**Index**”) and the iShares® MSCI EAFE ETF (the “**Fund**,” and together with the Index, each, an “**Underlying**”) and will pay Coupons on a quarterly basis at a rate of 5.50% per annum.

If the Closing Levels of **both** Underlyings on any quarterly Observation Date are greater than or equal to their respective Initial Levels, the securities will be automatically called and you will receive a cash payment per \$1,000 Face Amount of securities on the applicable Call Settlement Date equal to the Face Amount *plus* the Coupon otherwise due on such date. The securities will cease to be outstanding following an Automatic Call and no Coupon will accrue or be payable following the Call Settlement Date.

If the securities are not automatically called and the Final Level of the lesser performing Underlying, which we refer to as the “**Laggard Underlying**,” is less than its Initial Level by an amount not *greater than* the Buffer Amount of 20.00%, you will receive a cash payment per \$1,000 Face Amount of securities on the Maturity Date equal to the Face Amount *plus* the Coupon otherwise due on such date. However, if the securities are not automatically called and the Final Level of the Laggard Underlying is less than its Initial Level by an amount *greater than* the Buffer Amount of 20.00%, for each \$1,000 Face Amount of securities, while you will still receive the Coupon otherwise due on such date, you will lose 1.25% of the Face Amount for every 1.00% by which the Final Level of the Laggard Underlying is less than its Initial Level by an amount greater than 20.00%. Any payment on the securities is subject to the credit of the Issuer.

- Senior unsecured obligations of Deutsche Bank AG due November 17, 2016

• Minimum purchase of \$1,000. Minimum denominations of \$1,000 (the “**Face Amount**”) and integral multiples thereof.

•

The securities priced on May 14, 2015 (the “**Trade Date**”) and are expected to settle on May 19, 2015 (the “**Settlement Date**”).

Key Terms

Issuer: Deutsche Bank AG, London Branch
 Issue Price: 100% of the Face Amount
 Underlyings:

<u>Underlying</u>	<u>Ticker Symbol</u>	<u>Initial Level</u>
Russell 2000® Index	RTY	1,245.106
iShares® MSCI EAFE ETF	EFA	\$68.34

 The securities will pay Coupons in arrears on the quarterly Coupon Payment Dates in 6 equal installments based on the Coupon rate of 5.50% per annum. Each installment will equal \$13.75 per \$1,000 Face Amount of securities. No Coupon will accrue or be payable following an automatic call.
 Coupon: August 14, 2015, November 16, 2015, February 16, 2016, May 16, 2016, August 15, 2016 and November 14, 2016 (Final Valuation Date)
 Observation Dates³: August 19, 2015, November 19, 2015, February 19, 2016, May 19, 2016, August 18, 2016 and November 17, 2016 (Maturity Date). If the securities are automatically called prior to the Final Valuation Date, the applicable Coupon will be paid on the corresponding Call Settlement Date and no further amounts will be paid on the securities.
 Coupon Payment Dates¹: The securities will be automatically called by the Issuer if the Closing Levels of **both** Underlyings on any Observation Date are greater than or equal to their respective Initial Levels. If the securities are automatically called, you will be entitled to receive a cash payment per \$1,000 Face Amount of securities on the related Call Settlement Date equal to \$1,000 *plus* the Coupon otherwise due on such date. No Coupon will accrue or be payable following the Call Settlement Date.
 Automatic Call:

(Key Terms continued on next page)

Investing in the securities involves a number of risks. See “**Risk Factors**” beginning on page 2 of the accompanying prospectus addendum, “**Risk Factors**” beginning on page 9 of the accompanying product supplement and “**Selected Risk Considerations**” beginning on page PS-9 of this pricing supplement.

The Issuer’s estimated value of the securities on the Trade Date is \$988.30 per \$1,000 Face Amount of securities, which is less than the Issue Price. Please see “**Issuer’s Estimated Value of the Securities**” on page PS-3 of this pricing supplement for additional information.

By acquiring the securities, you will be bound by, and deemed to consent to, the imposition of any Resolution Measure (as defined below) by our competent resolution authority, which may include the write down of all, or a portion, of any payment on the securities. If any Resolution Measure becomes applicable to us, you may lose some or all of your investment in the securities. Please see “**Resolution Measures**” on page PS-4 of this pricing supplement for more information.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities or passed upon the accuracy or the adequacy of this pricing supplement or the accompanying underlying supplement, product supplement, prospectus supplement, prospectus or prospectus addendum. Any representation to the contrary is a criminal offense.

	Price to Public Discounts and Commissions⁽¹⁾		Proceeds to Us
Per Security	\$1,000.00	\$0.50	\$999.50
Total	\$2,000,000.00	\$1,000.00	\$1,999,000.00

⁽¹⁾ For more detailed information about discounts and commissions, please see “Supplemental Underwriting Information (Conflicts of Interest)” in this pricing supplement. The securities will be sold with underwriting discounts and commissions of \$0.50 per \$1,000 Face Amount of securities.

The agent for this offering is our affiliate. For more information see “Supplemental Underwriting Information (Conflicts of Interest)” in this pricing supplement.

The securities are not bank deposits and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency.

(Key Terms continued from previous page)

Call Settlement Dates ² :	The third business day following the applicable Observation Date. For the final Observation Date, the Call Settlement Date will be the Maturity Date.
Payment at Maturity:	<p>If the securities are not automatically called, you will receive a cash payment at maturity, which will depend on the performance of the Laggard Underlying on the Final Valuation Date, plus the Coupon otherwise due on the Maturity Date:</p> <ul style="list-style-type: none"> · If the Final Level of the Laggard Underlying is less than its Initial Level by an amount <i>not greater than the Buffer Amount of 20.00%</i>, you will be entitled to receive a cash payment per \$1,000 Face Amount of securities on the Maturity Date equal to the Face Amount. · If the Final Level of the Laggard Underlying is less than its Initial Level by an amount <i>greater than the Buffer Amount of 20.00%</i>, you will be entitled to receive a cash payment per \$1,000 Face Amount of securities on the Maturity Date, calculated as follows: $\\$1,000 + [\\$1,000 \times (\text{Underlying Return of the Laggard Underlying} + \text{Buffer Amount}) \times \text{Downside Participation Factor}]$ <p><i>If the securities are not automatically called and the Final Level of the Laggard Underlying is less than its Initial Level by an amount greater than the Buffer Amount of 20.00%, for each \$1,000 Face Amount of securities, you will lose 1.25% of the Face Amount for every 1.00% by which the Final Level of the Laggard Underlying is less than its Initial Level by an amount greater than 20.00%. In this circumstance, you will lose some or all of your initial investment. Any payment at maturity is subject to the credit of the Issuer.</i></p>
Buffer Amount:	20.00%
Downside Participation Factor:	125.00%
Laggard Underlying:	The Underlying with the lower Underlying Return on the Final Valuation Date. If the calculation agent determines that the two Underlyings have equal Underlying Returns, then the calculation agent will, in its sole discretion, designate either of the Underlyings as the Laggard Underlying.
Underlying Return:	<p>For each Underlying, the Underlying Return will be calculated as follows:</p> $\frac{\text{Final Level} - \text{Initial Level}}{\text{Initial Level}}$
Initial Level:	For each Underlying, the Closing Level of such Underlying on the Trade Date, as set forth in the table above.
Final Level:	For each Underlying, the Closing Level of such Underlying on the Final Valuation Date For the Index, the closing level of the Index on the relevant date of calculation.
Closing Level:	For the Fund, the closing price of one share of the Fund on the relevant date of calculation <i>multiplied</i> by the then-current Share Adjustment Factor, as determined by the calculation agent.
Share Adjustment Factor:	Initially 1.0, subject to adjustment for certain actions affecting the Fund. See “Description of Securities — Anti-Dilution Adjustments for Funds” in the accompanying product supplement.
Trade Date:	May 14, 2015
Settlement Date:	May 19, 2015
Final Valuation Date ³ :	November 14, 2016

Maturity Date²: November 17, 2016

Listing: The securities will not be listed on any securities exchange.

CUSIP / ISIN: 25152RF65 / US25152RF656

¹ If any Coupon Payment Date is not a business day, the Coupon due on such Coupon Payment Date will be paid on the first following day that is a business day, but no additional Coupon will accrue or be payable as a result of the delayed payment. If the Maturity Date is postponed, the Coupon due on the Maturity Date will be paid on the Maturity Date as postponed, with the same force and effect as if the Maturity Date had not been postponed, but no additional Coupon will accrue or be payable as a result of the delayed payment.

² If, due to a market disruption event occurring with respect to an Underlying or otherwise, an Observation Date or the Final Valuation Date for the Underlying is postponed, the scheduled Call Settlement Date or Maturity Date, as applicable, will be the third business day following the last Observation Date or Final Valuation Date, as postponed, to occur for the Underlyings. In addition, the Maturity Date is subject to postponement as described under “Description of Securities — Adjustments to Valuation Dates and Payment Dates” in the accompanying product supplement.

³ The Observation Dates (including the Final Valuation Date) for each Underlying will be separately adjusted in accordance with the provisions set forth under “Description of Securities — Adjustments to Valuation Dates and Payment Dates” in the accompanying product supplement.

Issuer's Estimated Value of the Securities

The Issuer's estimated value of the securities is equal to the sum of our valuations of the following two components of the securities: (i) a bond and (ii) an embedded derivative(s). The value of the bond component of the securities is calculated based on the present value of the stream of cash payments associated with a conventional bond with a principal amount equal to the Face Amount of securities, discounted at an internal funding rate, which is determined primarily based on our market-based yield curve, adjusted to account for our funding needs and objectives for the period matching the term of the securities. The internal funding rate is typically lower than the rate we would pay when we issue conventional debt securities on equivalent terms. This difference in funding rate, as well as the agent's commissions, if any, and the estimated cost of hedging our obligations under the securities, reduces the economic terms of the securities to you and is expected to adversely affect the price at which you may be able to sell the securities in any secondary market. The value of the embedded derivative(s) is calculated based on our internal pricing models using relevant parameter inputs such as expected interest and dividend rates and mid-market levels of price and volatility of the assets underlying the securities or any futures, options or swaps related to such underlying assets. Our internal pricing models are proprietary and rely in part on certain assumptions about future events, which may prove to be incorrect.

The Issuer's estimated value of the securities on the Trade Date (as disclosed on the cover of this pricing supplement) is less than the Issue Price of the securities. The difference between the Issue Price and the Issuer's estimated value of the securities on the Trade Date is due to the inclusion in the Issue Price of the agent's commissions, if any, and the cost of hedging our obligations under the securities through one or more of our affiliates. Such hedging cost includes our or our affiliates' expected cost of providing such hedge, as well as the profit we or our affiliates expect to realize in consideration for assuming the risks inherent in providing such hedge.

The Issuer's estimated value of the securities on the Trade Date does not represent the price at which we or any of our affiliates would be willing to purchase your securities in the secondary market at any time. Assuming no changes in market conditions or our creditworthiness and other relevant factors, the price, if any, at which we or our affiliates would be willing to purchase the securities from you in secondary market transactions, if at all, would generally be lower than both the Issue Price and the Issuer's estimated value of the securities on the Trade Date. Our purchase price, if any, in secondary market transactions will be based on the estimated value of the securities determined by reference to (i) the then-prevailing internal funding rate (adjusted by a spread) or another appropriate measure of our cost of funds and (ii) our pricing models at that time, less a bid spread determined after taking into account the size of the repurchase, the nature of the assets underlying the securities and then-prevailing market conditions. The price we report to financial reporting services and to distributors of our securities for use on customer account statements would generally be determined on the same basis. However, during the period of approximately three months beginning from the Trade Date, we or our affiliates may, in our sole discretion, increase the purchase price determined as described above by an amount equal to the declining differential between the Issue Price and the Issuer's estimated value of the securities on the Trade Date, prorated over such period on a straight-line basis, for transactions that are individually and in the aggregate of the expected size for ordinary secondary market repurchases.

PS - 3

Resolution Measures

On May 15, 2014, the European Parliament and the Council of the European Union published a directive for establishing a framework for the recovery and resolution of credit institutions and investment firms (commonly referred to as the “**Bank Recovery and Resolution Directive**”). The Bank Recovery and Resolution Directive requires each member state of the European Union to adopt and publish by December 31, 2014 the laws, regulations and administrative provisions necessary to comply with the Bank Recovery and Resolution Directive. Germany has adopted the Recovery and Resolution Act (Sanierungs- und Abwicklungsgesetz, or “**SAG**”), which went into effect on January 1, 2015. SAG may result in the Securities being subject to any Resolution Measure by our competent resolution authority if we become, or are deemed by our competent supervisory authority to have become, “non-viable” (as defined under the then applicable law) and are unable to continue our regulated banking activities without a Resolution Measure becoming applicable to us. By acquiring the securities, you will be bound by and deemed to consent to the provisions set forth in the accompanying prospectus addendum, which we have summarized below.

By acquiring the securities, you will be bound by and will be deemed to consent to the imposition of any Resolution Measure by our competent resolution authority. Under the relevant resolution laws and regulations as applicable to us from time to time, the securities may be subject to the powers exercised by our competent resolution authority to: (i) write down, including to zero, any payment (or delivery obligations) on the securities; (ii) convert the securities into ordinary shares or other instruments qualifying as core equity tier 1 capital; and/or (iii) apply any other resolution measure, including (but not limited to) any transfer of the securities to another entity, the amendment of the terms and conditions of the securities or the cancellation of the securities. We refer to each of these measures as a “**Resolution Measure**.”

Furthermore, by acquiring the securities, you:

are deemed irrevocably to have agreed, and you will agree: (i) to be bound by any Resolution Measure; (ii) that you will have no claim or other right against us arising out of any Resolution Measure; and (iii) that the imposition of any Resolution Measure will not constitute a default or an event of default under the securities, under the senior indenture dated November 22, 2006 among us, Law Debenture Trust Company of New York, as trustee, and Deutsche Bank Trust Company Americas, as issuing agent, paying agent, authenticating agent and registrar, as amended and supplemented from time to time (the “**Indenture**”), or for the purpose of the Trust Indenture Act of 1939, as amended (the “**Trust Indenture Act**”);

waive, to the fullest extent permitted by the Trust Indenture Act and applicable law, any and all claims against the trustee and the paying agent for, agree not to initiate a suit against the trustee and the paying agent in respect of, and agree that neither the trustee nor the paying agent will be liable for, any action that the trustee or the paying agent takes, or abstains from taking, in either case in accordance with the imposition of a Resolution Measure by our competent resolution authority with respect to the securities; and

will be deemed irrevocably to have (i) consented to the imposition of any Resolution Measure as it may be imposed without any prior notice by the competent resolution authority of its decision to exercise such power with respect to the Securities and (ii) authorized, directed and requested The Depository Trust Company (“**DTC**”) and any participant in DTC or other intermediary through which you hold such securities to take any and all necessary action, if required, to implement the imposition of any Resolution Measure with respect to the Securities as it may be imposed, without any further action or direction on your part or on the part of the trustee, paying agent, issuing agent, authenticating agent, registrar or calculation agent.

This is only a summary, for more information please see the accompanying prospectus addendum dated December 24, 2014, including the risk factor “The securities may be written down, be converted or become subject to other resolution measures. You may lose part or all of your investment if any such measure becomes applicable to us” on page 2 of the prospectus addendum.

<http://www.sec.gov/Archives/edgar/data/1159508/000119312512409372/d413728d424b21.pdf>

Prospectus addendum dated December 24, 2014:

http://www.sec.gov/Archives/edgar/data/1159508/000095010314009034/crt_52088.pdf

Our Central Index Key, or CIK, on the SEC website is 0001159508. As used in this pricing supplement, “we,” “us” or “our” refers to Deutsche Bank AG, including, as the context requires, acting through one of its branches.

The trustee has appointed Deutsche Bank Trust Company Americas as its authenticating agent with respect to our Series A global notes.

This pricing supplement, together with the documents listed above, contains the terms of the securities and supersedes all other prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, brochures or other educational materials of ours. You should carefully consider, among other things, the matters set forth in this pricing supplement and in “Risk Factors” in the accompanying product supplement and prospectus addendum, as the securities involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisers before deciding to invest in the securities.

Deutsche Bank AG has filed a registration statement (including a prospectus) with the Securities and Exchange Commission for the offering to which this pricing supplement relates. Before you invest, you should read the prospectus in that registration statement and the other documents relating to this offering that Deutsche Bank AG has filed with the SEC for more complete information about Deutsche Bank AG and this offering. You may obtain these documents without cost by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, Deutsche Bank AG, any agent or any dealer participating in this offering will arrange to send you the prospectus, prospectus addendum, prospectus supplement, product supplement, underlying supplement and this pricing supplement if you so request by calling toll-free 1-800-311-4409.

You may revoke your offer to purchase the securities at any time prior to the time at which we accept such offer by notifying the applicable agent. We reserve the right to change the terms of, or reject any offer to purchase, the securities prior to their issuance. We will notify you in the event of any changes to the terms of the securities, and you will be asked to accept such changes in connection with your purchase of any securities. You may also choose to reject such changes, in which case we may reject your offer to purchase the securities.

Hypothetical Examples of Amounts Payable on the Securities

The tables and hypothetical examples set forth below are for illustrative purposes only. The actual returns applicable to a purchaser of the securities will be determined on the Observation Dates or the Final Valuation Date, as applicable. The following results are based solely on the hypothetical examples cited below. You should consider carefully whether the securities are suitable to your investment goals. The numbers appearing in the tables and examples below may have been rounded for ease of analysis.

If the securities are called:

The following table illustrates the hypothetical payments on the securities (excluding the Coupon payment) upon an Automatic Call on each Observation Date.

Observation Date	Expected Call Settlement Date	Payment upon an Automatic Call (per \$1,000 Face Amount of Securities)
August 14, 2015	August 19, 2015	\$1,000.00
November 16, 2015	November 19, 2015	\$1,000.00
February 16, 2016	February 19, 2016	\$1,000.00
May 16, 2016	May 19, 2016	\$1,000.00
August 15, 2016	August 18, 2016	\$1,000.00
November 14, 2016 (Final Valuation Date)	November 17, 2016 (Maturity Date)	\$1,000.00

If the securities are called on an Observation Date, the investor will receive a cash payment per \$1,000 Face Amount of securities on the related Call Settlement Date equal to \$1,000 *plus* the Coupon otherwise due on such date. No Coupon will accrue or be payable following the Call Settlement Date.

If the securities are not called:

The table below illustrates the Payments at Maturity per \$1,000 Face Amount of securities for a hypothetical range of performances for the Laggard Underlying (excluding any Coupon) if the securities are not automatically called. Because the securities are not automatically called on the Final Valuation Date, the Final Level of at least one of the Underlyings will be less than its Initial Level.

The hypothetical Payments at Maturity set forth below reflect the Buffer Amount of 20.00% and the Downside Participation Factor of 125.00%. The actual Initial Level for each Underlying is set forth on the cover of this pricing supplement. The following results are based solely on the hypothetical examples cited. **We make no representation or warranty as to which of the Underlyings will be the Laggard Underlying for the purposes of calculating the Payment at Maturity.**

Hypothetical Underlying Return of the Laggard Underlying (%)	Hypothetical Payment at Maturity (excluding Coupon payments) (\$)	Hypothetical Return on the Securities at Maturity (excluding Coupon payments) (%)
100.00%	N/A	N/A
90.00%	N/A	N/A
80.00%	N/A	N/A
70.00%	N/A	N/A
60.00%	N/A	N/A
50.00%	N/A	N/A
40.00%	N/A	N/A
30.00%	N/A	N/A
20.00%	N/A	N/A
10.00%	N/A	N/A
0.00%	N/A	N/A
-10.00%	\$1,000.00	0.00%
-20.00%	\$1,000.00	0.00%
-30.00%	\$875.00	-12.50%
-40.00%	\$750.00	-25.00%
-50.00%	\$625.00	-37.50%
-60.00%	\$500.00	-50.00%
-70.00%	\$375.00	-62.50%
-80.00%	\$250.00	-75.00%
-90.00%	\$125.00	-87.50%
-100.00%	\$0.00	-100.00%

N/A: Not applicable because the securities will be automatically called if the Final Level of the Laggard Underlying is greater than or equal to its Initial Level.

Hypothetical Examples of Amounts Payable at Maturity

The following hypothetical examples illustrate how the returns set forth in the tables above are calculated. The examples below reflect the Coupon Rate of 5.50%.

Example 1: The Closing Levels of both Underlyings are greater than their respective Initial Levels on the first Observation Date. Because the Closing Levels of **both** Underlyings on the first Observation Date are greater than their respective Initial Levels, the securities are automatically called on the first Observation Date and the investor will receive on the related Call Settlement Date a cash payment of \$1,000.00 per \$1,000 Face Amount of securities (excluding any Coupon). Taking into account the total Coupon payments of \$13.75 over the term of the securities, the investor will receive a total of \$1,013.75 per \$1,000 Face Amount of securities.

Example 2: The Closing Levels of both Underlyings are less than their respective Initial Levels on the first and second Observation Dates and greater than their respective Initial Levels on the third Observation Date. Because the Closing Levels of **both** Underlyings on the third Observation Date are greater than their respective Initial Levels, the securities are automatically called on the third Observation Date and the investor will receive on the related Call Settlement Date a cash payment of \$1,000.00 per \$1,000 Face Amount of securities (excluding any Coupon). Taking into account the total Coupon payments of \$41.25 over the term of the securities, the investor will receive a total of \$1,041.25 per \$1,000 Face Amount of securities.

Example 3: The Closing Level of at least one Underlying is less than its Initial Level on each Observation Date prior to the final Observation Date and the Closing Levels of both Underlyings are greater than their respective Initial Levels on the final Observation Date. Because the Closing Level of at least one Underlying is less than its Initial Level on each Observation Date prior to the final Observation Date, the securities are not automatically called prior to the final Observation Date. Because the Closing Levels of **both** Underlyings on the final Observation Date are greater than their respective Initial Levels, the securities are automatically called on the final Observation Date and the investor will receive on the Maturity Date a cash payment of \$1,000.00 per \$1,000 Face Amount of securities (excluding any Coupon). Taking into account the total Coupon payments of \$82.50 over the term of the securities, the investor will receive a total of \$1,082.50 per \$1,000 Face Amount of securities.

Example 4: The Closing Level of at least one Underlying is less than its Initial Level on each Observation Date (including the final Observation Date) and the Final Level of the Laggard Underlying is less than its Initial Level by an amount not greater than the Buffer Amount of 20.00%. Because the Closing Level of at least one Underlying is less than its Initial Level on each Observation Date (including the final Observation Date), the securities are not automatically called. Because the Final Level of the Laggard Underlying is less than its Initial Level by an amount *not greater than* the Buffer Amount of 20.00%, the investor will receive on the Maturity Date a cash payment of \$1,000.00 per \$1,000 Face Amount of securities (excluding any Coupon). Taking into account the total Coupon payments of \$82.50 over the term of the securities, the investor will receive a total of \$1,082.50 per \$1,000 Face

Amount of securities.

Example 5: The Closing Level of at least one Underlying is less than its Initial Level on each Observation Date (including the final Observation Date) and the Final Level of the Laggard Underlying is less than its Initial Level by 60.00%. Because the Closing Level of at least one Underlying is less than its Initial Level on each Observation Date (including the final Observation Date), the securities are not automatically called. Because the Final Level of the Laggard Underlying is less than its Initial Level by an amount *greater than* the Buffer Amount of 20.00%, the investor will receive on the Maturity Date a cash payment of \$500.00 per \$1,000 Face Amount of securities (excluding any Coupon), calculated as follows:

$\$1,000 + [\$1,000 \times (\text{Underlying Return of the Laggard Underlying} + \text{Buffer Amount}) \times \text{Downside Participation Factor}]$

$\$1,000 + [\$1,000 \times (-60.00\% + 20.00\%) \times 125.00\%] = \500.00

Taking into account the total Coupon payments of \$82.50 over the term of the securities, the investor will receive a total of \$582.50 per \$1,000 Face Amount of securities.

Selected Purchase Considerations

THE SECURITIES OFFER A HIGHER COUPON IN EXCHANGE FOR EXPOSURE TO DOWNSIDE RISK OF THE LAGGARD UNDERLYING — The securities will pay Coupons on a quarterly basis at a rate of 5.50% per annum. This rate may be higher than the yield on debt securities of comparable maturity issued by us or an issuer with a comparable credit rating, because you are taking downside risk with respect to the Laggard Underlying if it declines by an amount greater than the Buffer Amount. Because the securities are our senior unsecured obligations, any payment on the securities is subject to our ability to satisfy our obligations as they become due.

LIMITED PROTECTION AGAINST LOSS — If the securities are not automatically called and the Final Level of the Laggard Underlying is less than its Initial Level by an amount *not greater than* the Buffer Amount, you will receive \$1,000 per Face Amount of securities at maturity *plus* the Coupon otherwise due on such date. However, if the Final Level of the Laggard Underlying is less than its Initial Level by an amount *greater than* the Buffer Amount, for each \$1,000 Face Amount of securities, while you will still receive the Coupon otherwise due on such

PS - 7

date, you will lose 1.25% of the Face Amount for every 1.00% by which the Final Level of the Laggard Underlying is less than its Initial Level by an amount *greater than* the Buffer Amount of 20.00%. For example, an Underlying Return of the Laggard Underlying of -40.00% will result in a 25.00% loss of your initial investment. In these circumstances, you could lose up to 100.00% of your investment. **You will lose some or all of your investment if the securities are not automatically called and the Final Level of the Laggard Underlying is less than its Initial Level by an amount greater than the Buffer Amount.**

POTENTIAL EARLY EXIT AS A RESULT OF AUTOMATIC CALL FEATURE — While the original term of the securities is eighteen months, the securities will be automatically called before maturity if the Closing Levels of both Underlyings are greater than or equal to their respective Initial Levels on any Observation Date, and you will be entitled to receive a cash payment per \$1,000 Face Amount of securities on the Call Settlement Date equal to the Face Amount *plus* the Coupon otherwise due on such date. No Coupon will accrue or be payable following the Call Settlement Date.

COUPON PAYMENTS — Unless the securities are previously called, the securities will pay Coupons quarterly in arrears on the Coupon Payment Dates in 6 equal installments based on the Coupon rate of 5.50% per annum. Each installment will equal \$13.75 per \$1,000 Face Amount of securities. The Coupon Payment Dates are August 19, 2015, November 19, 2015, February 19, 2016, May 19, 2016, August 18, 2016 and November 17, 2016.

RETURN LINKED TO THE LESSER PERFORMING OF THE TWO UNDERLYINGS — The return on the securities, which may be positive, zero or negative, is linked to the lesser performing of the Russell 2000[®] Index and the iShares[®] MSCI EAFE ETF, as described herein. If the securities are not automatically called, the payment you receive at maturity will be determined solely by reference to the performance of the Laggard Underlying.

Russell 2000[®] Index

The Russell 2000[®] Index is designed to track the performance of the small capitalization segment of the U.S. equity market. The Russell 2000[®] Index measures the composite price performance of stocks of approximately 2,000 companies domiciled in the U.S. and its territories and consists of the smallest 2,000 companies included in the Russell 3000[®] Index. The Russell 2000[®] Index represents approximately 10% of the total market capitalization of the Russell 3000[®] Index. As of June 2014, business development companies are no longer eligible for inclusion in the Russell 2000[®] Index. Exchange traded funds and mutual funds are also excluded. Russell Investments will evaluate multiple share classes of a company independently for inclusion in the Russell 2000[®] Index. In order for a share class to be included independently of the company's primary share class (the "**primary vehicle**"), it must meet market capitalization, average daily dollar trading value and float requirements. Where an additional share class does not meet the requirements, the shares will be aggregated with the primary vehicle. If a company distributes an additional share class to existing shareholders through a mandatory corporate action or to the public through an IPO, the additional share class will be reviewed for independent inclusion at the time of distribution. If such share class is not eligible at the time of distribution, it will be aggregated with the primary vehicle and reviewed again for independent inclusion at the next reconstitution. *This is just a summary of the Russell 2000[®] Index. For more information on the Russell 2000[®]*

Index, including information concerning its composition, calculation methodology and adjustment policy, please see the section entitled “The Russell Indices – The Russell 2000 Index” in the accompanying underlying supplement No. 1 dated October 1, 2012.

iShares® MSCI EAFE ETF

The iShares® MSCI EAFE ETF is an exchange-traded fund managed by iShares® Trust, a registered investment company. The iShares® Trust consists of numerous separate investment portfolios, including the iShares® MSCI EAFE ETF. The iShares® MSCI EAFE ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of publicly traded securities in the European, Australasian and Far Eastern markets, as measured by the MSCI EAFE® Index (the “**Tracked Index**”). The iShares® MSCI EAFE ETF trades on NYSE Arca under the ticker symbol “EFA.” It is possible that the iShares® MSCI EAFE ETF may not fully replicate or may in certain circumstances diverge significantly from the performance of the Tracked Index due to the temporary unavailability of certain securities in the secondary markets, the performance of any derivative instruments contained in the iShares® MSCI EAFE ETF, the fees and expenses of the iShares® MSCI EAFE ETF or due to other circumstances. MSCI Inc. (“**MSCI**”), the sponsor of the Tracked Index, announced on January 15, 2015 that, effective with the November 2015 semi-annual index review, securities traded outside of their issuer’s country of classification (i.e., “foreign listings”) may become eligible for inclusion in certain MSCI Country Investable Market Indices within the MSCI Global Investable Market Indices. A MSCI Country Investable Market Index is eligible to include foreign listings if it meets the Foreign Listing Materiality Requirement. To meet the “**Foreign Listing Materiality Requirement**,” the aggregate market capitalization of all securities represented by foreign listings should represent at least (i) 5% of the free float-adjusted market capitalization of the relevant MSCI Country Investable Market Index and (ii) 0.05% of the free-float adjusted market capitalization of the MSCI All Country World Index Investable Market Index. MSCI expects that for the November 2015 semi-annual index review, Hong Kong, which is covered by the Tracked Index, will

meet the Foreign Listing Materiality Requirement. *This section is only a summary of the iShares® MSCI EAFE ETF. For more information on the iShares® MSCI EAFE ETF, including information concerning calculation methodology and adjustment policy, please see the section entitled “Exchange Traded Funds – iShares® MSCI EAFE ETF” in the accompanying underlying supplement No. 1 dated October 1, 2012. For more information on the MSCI EAFE® Index, please see the section entitled “The MSCI Indices – The MSCI EAFE® Index” in the accompanying underlying supplement No. 1 dated October 1, 2012. On July 1, 2013, the iShares® MSCI EAFE Index Fund was renamed the iShares® MSCI EAFE ETF. All references to the iShares® MSCI EAFE Index Fund in the accompanying underlying supplement No. 1 dated October 1, 2012 are deemed to refer to the iShares® MSCI EAFE ETF.*

TAX CONSEQUENCES — Due to the lack of direct legal authority, there is substantial uncertainty regarding the U.S. federal income tax consequences of an investment in the securities. Our special tax counsel, Davis Polk & Wardwell LLP, believes that it is reasonable to treat a security for U.S. federal income tax purposes as a put option (the “**Put Option**”) written by you to us with respect to the Laggard Underlying, secured by a cash deposit equal to the Issue Price of the security (the “**Deposit**”), which will have an annual yield based on our cost of borrowing. Our special tax counsel has advised, however, that it is unable to conclude that it is more likely than not that this treatment will be upheld, and that alternative treatments are possible that could materially and adversely affect the timing and character of income or loss on your securities. Generally, if this treatment is respected, only a portion of each Coupon payment will be attributable to interest on the Deposit; the remainder will represent premium attributable to your grant of the Put Option (“**Put Premium**”). Interest on the Deposit will be taxed as ordinary interest income, while the Put Premium will not be taken into account prior to the taxable disposition of the securities (including pursuant to an automatic call or at maturity).

In 2007, the U.S. Treasury Department and the Internal Revenue Service (the “**IRS**”) released a notice requesting comments on various issues regarding the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments. While it is not clear whether the securities would be viewed as similar to the typical prepaid forward contract described in the notice, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the securities, possibly with retroactive effect.

You should review carefully the section of the accompanying product supplement entitled “U.S. Federal Income Tax Consequences.” The preceding discussion, when read in combination with that section, constitutes the full opinion of our special tax counsel regarding the material U.S. federal income tax consequences of owning and disposing of the securities.

Under current law, the United Kingdom will not impose withholding tax on payments made with respect to the securities.

For a discussion of certain German tax considerations relating to the securities, you should refer to the section in the accompanying prospectus supplement entitled “Taxation by Germany of Non-Resident Holders.”

You should consult your tax adviser regarding the U.S. federal tax consequences of an investment in the securities (including possible alternative treatments and the issues presented by the 2007 notice), as well as tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

Consistent with the position described above, the Deposit will have an annual yield based on our cost of borrowing of 0.96%, paid quarterly.

Selected Risk Considerations

An investment in the securities involves significant risks. Investing in the securities is not equivalent to investing directly in either or both of the Underlyings or in any of the components of the Underlyings. In addition to these selected risk considerations, you should review the “Risk Factors” sections of the accompanying product supplement and prospectus addendum.

YOUR INVESTMENT IN THE SECURITIES MAY RESULT IN A LOSS — The return on the securities at maturity is linked to the performance of the Laggard Underlying. If the securities are not automatically called, for each \$1,000 Face Amount of securities, you will lose 1.25% of the Face Amount for every 1.00% by which the Final Level of the Laggard Underlying is less than its Initial Level by an amount *greater than* the Buffer Amount. **In this circumstance, you will lose some or all of your initial investment. Any payment on the securities is subject to our ability to satisfy our obligations as they become due.**

YOUR RETURN ON THE SECURITIES IS LIMITED TO THE FACE AMOUNT PLUS COUPON PAYMENTS AND YOU SHOULD NOT EXPECT TO PARTICIPATE IN ANY INCREASE IN THE LEVEL OR PRICE, AS APPLICABLE, OF EITHER UNDERLYING — The securities will not pay more than the Face Amount, in addition to the Coupon payments, for each \$1,000 Face Amount of securities. You will not participate in any increase in the level or price, as applicable, of either Underlying even if the Final Levels of both Underlyings are greater than or equal to their respective Initial Levels. The maximum payment upon an Automatic Call or at maturity will be \$1,000 per \$1,000 Face Amount of securities (excluding Coupon payments), regardless of any increase in the level or price, as applicable, of either Underlying, which may be significant.

IF THE SECURITIES ARE NOT AUTOMATICALLY CALLED, YOUR PAYMENT AT MATURITY WILL BE DETERMINED SOLELY BY THE PERFORMANCE OF THE LAGGARD UNDERLYING — If the securities are not automatically called, the Payment at Maturity will be determined solely by reference to the performance of the Laggard Underlying, without taking into consideration the performance of the other Underlying.

REINVESTMENT RISK — If your securities are automatically called, the term of the securities may be reduced to as short as three months. There is no guarantee that you would be able to reinvest the proceeds from an investment in the securities at a comparable return for a similar level of risk in the event the securities are automatically called prior to the Maturity Date.

THE SECURITIES ARE SUBJECT TO THE CREDIT OF DEUTSCHE BANK AG — The securities are senior unsecured obligations of Deutsche Bank AG and are not, either directly or indirectly, an obligation of any third party. Any payment(s) to be made on the securities depends on the ability of Deutsche Bank AG to satisfy its obligations as they come due. An actual or anticipated downgrade in Deutsche Bank AG's credit rating or increase in the credit spreads charged by the market for taking the credit risk of Deutsche Bank AG will likely have an adverse effect on the value of the securities. As a result, the actual and perceived creditworthiness of Deutsche Bank AG will affect the value of the securities and in the event Deutsche Bank AG were to default on its obligations or become subject to a Resolution Measure, you might not receive any amount(s) owed to you under the terms of the securities and you could lose your entire investment.

THE SECURITIES MAY BE WRITTEN DOWN, BE CONVERTED OR BECOME SUBJECT TO OTHER RESOLUTION MEASURES. YOU MAY LOSE SOME OR ALL OF YOUR INVESTMENT IF ANY SUCH MEASURE BECOMES APPLICABLE TO US — On May 15, 2014, the European Parliament and the Council of the European Union published the Bank Recovery and Resolution Directive for establishing a framework for the recovery and resolution of credit institutions and investment firms. The Bank Recovery and Resolution Directive requires each member state of the European Union to adopt and publish by December 31, 2014 the laws, regulations and administrative provisions necessary to comply with the Bank Recovery and Resolution Directive. Germany has adopted the Recovery and Resolution Act (or SAG), which went into effect on January 1, 2015. SAG may result in the securities being subject to the powers exercised by our competent resolution authority to impose a Resolution Measure on us, which may include: writing down, including to zero, any payment on the securities; converting the securities into ordinary shares or other instruments qualifying as core equity tier 1 capital; or applying any other resolution measure, including (but not limited to) transferring the securities to another entity, amending the terms and conditions of the securities or cancelling of the securities. Imposition of a Resolution Measure would likely occur if we become, or are deemed by our competent supervisory authority to have become, “non-viable” (as defined under the then applicable law) and are unable to continue our regulated banking activities without a Resolution Measure becoming applicable to us. **You may lose some or all of your investment in the securities if a Resolution Measure becomes applicable to us.**

By acquiring the securities, you would have no claim or other right against us arising out of any Resolution Measure, and we would have no obligation to make payments under the securities following the imposition of a Resolution Measure. In particular, the imposition of any Resolution Measure will not constitute a default or an event of default under the securities, under the Indenture or for the purpose of the Trust Indenture Act. Furthermore, because the securities are subject to any Resolution Measure, secondary market trading in the securities may not follow the trading behavior associated with similar types of securities issued by other financial institutions which may be or have been

subject to a Resolution Measure.

In addition, by your acquisition of the securities, you waive, to the fullest extent permitted by the Trust Indenture Act and applicable law, any and all claims against the trustee and the paying agent for, agree not to initiate a suit against the trustee and the paying agent in respect of, and agree that neither the trustee nor the paying agent will be liable for, any action that the trustee or the paying agent takes, or abstains from taking, in either case in accordance with the imposition of a Resolution Measure by our competent resolution authority with respect to the securities. **Accordingly, you may have limited or circumscribed rights to challenge any decision of our competent resolution authority to impose any Resolution Measure.**

THE ISSUER'S ESTIMATED VALUE OF THE SECURITIES ON THE TRADE DATE WILL BE LESS THAN THE ISSUE PRICE OF THE SECURITIES — The Issuer's estimated value of the securities on the Trade Date (as disclosed on the cover of this pricing supplement) is less than the Issue Price of the securities. The difference between the Issue Price and the Issuer's estimated value of the securities on the Trade Date is due to the inclusion in the Issue Price of the agent's commissions, if any, and the cost of hedging our obligations under the securities through one or more of our affiliates. Such hedging cost includes our or our affiliates' expected cost of providing such hedge, as well as the profit we or our affiliates expect to realize in consideration for assuming the risks inherent in providing such hedge. The Issuer's estimated value of the securities is determined by reference

PS - 10

to an internal funding rate and our pricing models. The internal funding rate is typically lower than the rate we would pay when we issue conventional debt securities on equivalent terms. This difference in funding rate, as well as the agent's commissions, if any, and the estimated cost of hedging our obligations under the securities, reduces the economic terms of the securities to you and is expected to adversely affect the price at which you may be able to sell the securities in any secondary market. In addition, our internal pricing models are proprietary and rely in part on certain assumptions about future events, which may prove to be incorrect. If at any time a third party dealer were to quote a price to purchase your securities or otherwise value your securities, that price or value may differ materially from the estimated value of the securities determined by reference to our internal funding rate and pricing models. This difference is due to, among other things, any difference in funding rates, pricing models or assumptions used by any dealer who may purchase the securities in the secondary market.

INVESTING IN THE SECURITIES IS NOT THE SAME AS INVESTING IN THE UNDERLYINGS OR THE SECURITIES COMPOSING THE UNDERLYINGS — The return on your securities may not reflect the return you would have realized if you had directly invested in the Underlyings or the securities composing the Underlyings. For instance, you will not participate in any potential increase in the level or price, as applicable, of either Underlying, which could be significant, even though at maturity you may be exposed to the negative performance of the Laggard Underlying.

IF THE LEVELS OR PRICES, AS APPLICABLE, OF THE UNDERLYINGS CHANGE, THE VALUE OF YOUR SECURITIES MAY NOT CHANGE IN THE SAME MANNER — Your securities may trade quite differently from the levels or prices, as applicable, of the Underlyings. Changes in the levels or prices, as applicable, of the Underlyings may not result in comparable changes in the value of your securities.

NO DIVIDEND PAYMENTS OR VOTING RIGHTS — As a holder of the securities, you will not have any voting rights or rights to receive cash dividends or other distributions or other rights that holders of shares of the Fund or holders of securities composing the Underlyings would have.

YOUR INVESTMENT IS EXPOSED TO A DECLINE IN THE LEVEL OF PRICE, AS APPLICABLE, OF EACH UNDERLYING — Your return on the securities is not linked to a basket consisting of the Underlyings. Rather, any payment on the securities will be determined by reference to the performance of each individual Underlying. Unlike an instrument with a return linked to a basket, in which risk is mitigated and diversified among all of the basket components, you will be exposed equally to the risks related to each of the Underlyings, and your return will be based on the lesser performing of the Underlyings, as measured on each Observation Date (including the Final Valuation Date). A negative performance by either of the Underlyings over the term of the securities will adversely affect your return on the securities and will not be offset or mitigated by a positive performance by the other Underlying.

THE SECURITIES ARE SUBJECT TO RISKS ASSOCIATED WITH SMALL-CAPITALIZATION COMPANIES — The stocks composing the Index are issued by companies with relatively small market capitalization. These companies often have greater stock price volatility, lower trading volume and less liquidity than large-capitalization companies and therefore the level of the Index may be more volatile than the levels of indices that consist of large-capitalization stocks. Stock prices of small-capitalization companies are also generally more vulnerable than those of large-capitalization companies to adverse business and economic developments, and the

stocks of small-capitalization companies may be thinly traded. In addition, small-capitalization companies are typically less well-established and less stable financially than large-capitalization companies and may depend on a small number of key personnel, making them more vulnerable to loss of personnel. Such small-capitalization companies tend to have lower revenues, less diverse product lines, smaller shares of their product or service markets, fewer financial resources and less competitive strengths than large-capitalization companies and are more susceptible to adverse developments related to their products. These companies may also be more susceptible to adverse developments related to their products or services.

THE INDEX REFLECTS THE PRICE RETURN OF THE STOCKS COMPOSING THE INDEX, NOT A TOTAL RETURN — The Index reflects the changes in the market prices of the stocks composing the Index. The Index is not, however, a “total return” index, which, in addition to reflecting the price returns of its component stocks, would also reflect all dividends and other distributions paid on such component stocks.

development of new technologies or products on a timely basis or that meet the needs of our customers as fully as competitive offerings. In addition, the markets for our products may not develop or grow as we currently anticipate. The failure of our technologies or products to gain market acceptance due to more attractive offerings by our competitors could significantly reduce our revenues and adversely affect our competitive standing and prospects.

Protecting our intellectual property is critical to our innovation efforts.

We own or are licensed under a large number of U.S. and non-U.S. patents and patent applications, trademarks and copyrights. Our intellectual property rights may expire or be challenged, invalidated or infringed upon by third parties or we may be unable to maintain, renew or enter into new licenses of third party proprietary intellectual property on commercially reasonable terms. In some non-U.S. countries, laws affecting intellectual property are uncertain in their application, which can affect the scope or enforceability of our patents and other intellectual property rights. Any of these events or factors could diminish or cause us to lose the competitive advantages associated with our intellectual property, subject us to judgments, penalties and significant litigation costs, and/or temporarily or permanently disrupt our sales and marketing of the affected products or services.

An increasing percentage of our sales and operations is in non-U.S. jurisdictions and is subject to the economic, political, regulatory and other risks of international operations.

Our international operations, including U.S. exports, comprise a growing proportion of our operating results. Our strategy calls for increasing sales to and operations in overseas markets, including developing markets such as Mexico, China, India, the Middle East and Eastern Europe. In 2009, 51 percent of our total sales (including products manufactured in the U.S. and in international locations) were outside of the U.S. including 28 percent in Europe and 11 percent in Asia. Risks related to international operations include exchange control regulations, wage and price controls, employment regulations, foreign investment laws, import, export and other trade restrictions (such as embargoes and trade restrictions), changes in regulations regarding transactions with state-owned enterprises, nationalization of private enterprises, government instability, and our ability to hire and maintain qualified staff and maintain the safety of our employees in these regions. The cost of compliance with increasingly complex and often conflicting regulations worldwide can also impair our flexibility in modifying product, marketing, pricing or other strategies for growing our businesses, as well as our ability to improve productivity and maintain acceptable operating margins.

As we continue to grow our businesses internationally, our operating results could be increasingly affected by the relative strength of the European and Asian economies and the impact of exchange rate fluctuations. We do have a policy to reduce the risk of volatility through hedging activities, but such activities bear a financial cost and may not always be available to us and may not be successful in eliminating such volatility.

We may be required to recognize impairment charges for our long-lived assets or available for sale investments.

At December 31, 2009, the net carrying value of long-lived assets (property, plant and equipment, goodwill and other intangible assets) and available for sale securities totaled approximately \$17.5 billion and \$0.1 billion, respectively. In accordance with generally accepted accounting principles, we periodically assess these assets to determine if they are impaired. Significant negative industry or economic trends, disruptions to our business, unexpected significant changes or planned changes in use of the assets, divestitures and market capitalization declines may result in impairments to goodwill and other long-lived assets. An other than temporary decline in the market value of our available for sale securities may also result in an impairment charge. Future impairment charges could significantly affect our results of operations in the periods recognized. Impairment charges would also reduce our consolidated shareowners' equity and increase our debt-to-total-capitalization ratio, which could negatively impact our credit rating and access to the public debt and equity markets.

A change in the level of U.S. Government defense and space funding or the mix of programs to which such funding is allocated could adversely impact sales of Aerospace's defense and space-related product and services.

Sales of our defense and space-related products and services are largely dependent upon government budgets, particularly the U.S. defense budget. Sales as a prime contractor and subcontractor to the U.S. Department of Defense comprised approximately 32 and 11 percent of Aerospace and total sales, respectively, for the year ended December 31, 2009. Although U.S. defense spending increased in 2009 and is expected to increase again in 2010, we cannot predict the extent to which total funding and/or funding for individual programs will be included, increased or reduced as part of the 2011 and subsequent budgets ultimately approved by Congress, or be included in the scope of separate supplemental appropriations. We also cannot predict the impact of potential changes in priorities due to military transformation and planning and/or the nature of war-related activity on existing, follow-on or replacement programs. A shift in defense or space spending to programs in which we do not participate and/or reductions in funding for or termination of existing programs could adversely impact our results of operations.

As a supplier of military and other equipment to the U.S. Government, we are subject to unusual risks, such as the right of the U.S. Government to terminate contracts for convenience and to conduct audits and investigations of our operations and performance.

In addition to normal business risks, companies like Honeywell that supply military and other equipment to the U.S. Government are subject to unusual risks, including dependence on Congressional appropriations and administrative allotment of funds, changes in governmental procurement legislation and regulations and other policies that reflect military and political developments, significant changes in contract scheduling, complexity of designs and the rapidity with which they become obsolete, necessity for constant design improvements, intense competition for U.S. Government business necessitating increases in time and investment for design and development, difficulty of forecasting costs and schedules when bidding on developmental and highly sophisticated technical work, and other factors characteristic of the industry, such as contract award protests and delays in the timing of contract approvals. Changes are customary over the life of U.S. Government contracts, particularly development contracts, and generally result in adjustments of contract prices.

Our contracts with the U.S. Government are subject to audits. Like many other government contractors, we have received audit reports that recommend downward price adjustments to certain contracts or changes to certain accounting systems or controls to comply with various government regulations. We have made adjustments and paid voluntary refunds in appropriate cases and may do so in the future.

U.S. Government contracts are subject to termination by the government, either for the convenience of the government or for our failure to perform under the applicable contract. In the case of a termination for convenience, we are typically entitled to reimbursement for our allowable costs incurred, plus termination costs and a reasonable profit. If a contract is terminated by the government for our failure to perform we could be liable for additional costs incurred by the government in acquiring undelivered goods or services from any other source and any other damages suffered by the government.

We are also subject to government investigations of business practices and compliance with government procurement regulations. If Honeywell or one of its businesses were charged with wrongdoing as a result of any such investigation or other government investigations (including violations of certain environmental or export laws), it could be suspended from bidding on or receiving awards of new government contracts, suspended from contract performance pending the completion of legal proceedings and/or have its export privileges suspended. The U.S. Government also reserves the right to debar a contractor from receiving new government contracts for fraudulent, criminal or other egregious misconduct. Debarment generally does not exceed three years.

Our reputation and ability to do business may be impacted by the improper conduct of employees, agents or business partners.

We cannot ensure that our extensive compliance controls, policies and procedures will in all instances protect us from reckless or criminal acts committed by our employees, agents or business partners that would violate the laws of the jurisdictions in which the Company operates, including laws governing payments to government officials, competition and data privacy. Any improper actions could subject us to civil or criminal investigations, monetary and non-monetary penalties and could adversely impact our ability to conduct business, results of operations and reputation.

Changes in legislation or government regulations or policies can have a significant impact on our results of operations.

The sales and margins of each of our segments are directly impacted by government regulations. Safety and performance regulations (including mandates of the Federal Aviation Administration and other similar international regulatory bodies requiring the installation of equipment on aircraft), product certification requirements and government procurement practices can impact Aerospace sales, research and development expenditures, operating costs and profitability. The demand for and cost of providing Automation and Control Solutions products, services and solutions can be impacted by fire, security, safety, health care, environmental and energy efficiency standards and regulations. Specialty Materials results of operations can be affected by environmental (e.g. government regulation of fluorocarbons), safety and energy efficiency standards and regulations, while emissions and energy efficiency standards and regulations can impact the demand for turbochargers in our Transportation Systems segment. Legislation or regulations regarding areas such as labor and employment, employee benefit plans, tax, health and safety matters, import, export and trade, intellectual property, product certification, product liability and environmental remediation may impact the results of each of our operating segments and our consolidated results.

Completed acquisitions may not perform as anticipated or be integrated as planned, and divestitures may not occur as planned.

We regularly review our portfolio of businesses and pursue growth through acquisitions and seek to divest non-core businesses. We may not be able to complete transactions on favorable terms, on a timely basis or at all. In addition, our results of operations and cash flows may be adversely impacted by (i) the failure of acquired businesses to meet or exceed expected returns, (ii) the discovery of unanticipated issues or liabilities, (iii) the failure to integrate acquired businesses into Honeywell on schedule and/or to achieve synergies in the planned amount or within the expected timeframe, (iv) the inability to dispose of non-core assets and businesses on satisfactory terms and conditions and within the expected timeframe, and (v) the degree of protection provided by indemnities from sellers of acquired companies and the obligations under indemnities provided to purchasers of our divested businesses.

We cannot predict with certainty the outcome of litigation matters, government proceedings and other contingencies and uncertainties.

We are subject to a number of lawsuits, investigations and disputes (some of which involve substantial amounts claimed) arising out of the conduct of our business, including matters relating to commercial transactions, government contracts, product liability (including asbestos), prior acquisitions and divestitures, employment, employee benefits plans, intellectual property, import and export matters and environmental, health and safety matters. Resolution of these matters can be prolonged and costly, and the ultimate results or judgments are uncertain due to the inherent uncertainty in litigation and other proceedings. Moreover, our potential liabilities are subject to change over time due to new developments, changes in settlement strategy or the impact of evidentiary requirements, and we may be required to pay damage awards or settlements, or become subject to damage awards or settlements, that could have a material adverse effect on our results of operations, cash flows and financial condition. While we maintain insurance for certain risks, the amount of our insurance coverage may not be adequate to cover the total amount of all insured

claims and liabilities. It also is

not possible to obtain insurance to protect against all our operational risks and liabilities. The incurrence of significant liabilities for which there is no or insufficient insurance coverage could adversely affect our results of operations, cash flows, liquidity and financial condition.

Our operations and the prior operations of predecessor companies expose us to the risk of material environmental liabilities.

Mainly because of past operations and operations of predecessor companies, we are subject to potentially material liabilities related to the remediation of environmental hazards and to claims of personal injuries or property damages that may be caused by hazardous substance releases and exposures. We have incurred remedial response and voluntary clean-up costs for site contamination and are a party to lawsuits and claims associated with environmental and safety matters, including past production of products containing hazardous substances. Additional lawsuits, claims and costs involving environmental matters are likely to continue to arise in the future. We are subject to various federal, state, local and foreign government requirements regulating the discharge of materials into the environment or otherwise relating to the protection of the environment. These laws and regulations can impose substantial fines and criminal sanctions for violations, and require installation of costly equipment or operational changes to limit emissions and/or decrease the likelihood of accidental hazardous substance releases. We incur, and expect to continue to incur capital and operating costs to comply with these laws and regulations. In addition, changes in laws, regulations and enforcement of policies, the discovery of previously unknown contamination or new technology or information related to individual sites, or the imposition of new clean-up requirements or remedial techniques could require us to incur costs in the future that would have a negative effect on our financial condition or results of operations.

Our expenses include significant costs related to employee and retiree health benefits.

With approximately 122,000 employees, including approximately 54,000 in the U.S., our expenses relating to employee health and retiree health benefits are significant. In recent years, we have experienced significant increases in certain of these costs, largely as a result of economic factors beyond our control, in particular, ongoing increases in health care costs well in excess of the rate of inflation. Continued increasing health-care costs, legislative or regulatory changes, and volatility in discount rates, as well as changes in other assumptions used to calculate retiree health benefit expenses, may adversely affect our financial position and results of operations.

Risks related to our defined benefit pension plans may adversely impact our results of operations and cash flow.

Significant changes in actual investment return on pension assets, discount rates, and other factors could adversely affect our results of operations and pension contributions in future periods. U.S. generally accepted accounting principles require that we calculate income or expense for the plans using actuarial valuations. These valuations reflect assumptions about financial markets and interest rates, which may change based on economic conditions. Funding requirements for our U.S. pension plans may become more significant. However, the ultimate amounts to be contributed are dependent upon, among other things, interest rates, underlying asset returns and the impact of legislative or regulatory changes related to pension funding obligations. For a discussion regarding the significant assumptions used to estimate pension expense, including discount rate and the expected long-term rate of return on plan assets, and how our financial statements can be affected by pension plan accounting policies, see *Critical Accounting Policies* included in *Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations*.

Additional tax expense or additional tax exposures could affect our future profitability.

We are subject to income taxes in both the United States and various non-U.S. jurisdictions, and our domestic and international tax liabilities are dependent upon the distribution of income among these different jurisdictions. In 2009, our tax expense represented 26.5 percent of our income before

tax, and includes estimates of additional tax which may be incurred for tax exposures and reflects various estimates and assumptions, including assessments of future earnings of the Company that could effect the valuation of our deferred tax assets. Our future results could be adversely affected by changes in the effective tax rate as a result of a change in the mix of earnings in countries with differing statutory tax rates, changes in the overall profitability of the Company, changes in tax legislation, changes in the valuation of deferred tax assets and liabilities, the results of audits and examinations of previously filed tax returns and continuing assessments of our tax exposures.

Volatility of credit markets or macro-economic factors could adversely affect our business.

Changes in U.S. and global financial and equity markets, including market disruptions, limited liquidity, and interest rate volatility, may increase the cost of financing as well as the risks of refinancing maturing debt. In addition, our borrowing costs can be affected by short and long-term ratings assigned by independent rating agencies. A decrease in these ratings could increase our cost of borrowing.

Delays in our customers' ability to obtain financing, or the unavailability of financing to our customers, could adversely affect our results of operations and cash flow. The inability of our suppliers to obtain financing could result in the need to transition to alternate suppliers, which could result in significant incremental cost and delay, as discussed above. Lastly, disruptions in the U.S. and global financial markets could impact the financial institutions with which we do business.

Item 1B. Unresolved Staff Comments

Not Applicable

Item 2. Properties

We have approximately 1,300 locations consisting of plants, research laboratories, sales offices and other facilities. Our headquarters and administrative complex is located at Morris Township, New Jersey. Our plants are generally located to serve large marketing areas and to provide accessibility to raw materials and labor pools. Our properties are generally maintained in good operating condition. Utilization of these plants may vary with sales to customers and other business conditions; however, no major operating facility is significantly idle. We own or lease warehouses, railroad cars, barges, automobiles, trucks, airplanes and materials handling and data processing equipment. We also lease space for administrative and sales staffs. Our properties and equipment are in good operating condition and are adequate for our present needs. We do not anticipate difficulty in renewing existing leases as they expire or in finding alternative facilities.

Our principal plants, which are owned in fee unless otherwise indicated, are as follows:

Aerospace

Anniston, AL (leased)	South Bend, IN	Greer, SC
Glendale, AZ (leased)	Olathe, KS	Toronto, Canada
Phoenix, AZ	Minneapolis, MN (partially leased)	Raunheim, Germany
Tempe, AZ	Plymouth, MN	Penang, Malaysia
Tucson, AZ	Rocky Mount, NC	Singapore (leased)
Torrance, CA	Albuquerque, NM	Yeovil, UK (leased)
Clearwater, FL	Urbana, OH	

Automation and Control Solutions

Phoenix, AZ (leased)	Skaneateles Falls, NY	Juarez, Mexico (partially leased)
San Diego, CA (leased)	Suzhou, China	Tijuana, Mexico (leased)

Northford, CT

Freeport, IL

St. Charles, IL (leased)

Golden Valley, MN

Mosbach, Germany

Neuss, Germany (leased)

Schonaich, Germany (leased)

Pune, India (leased)

Emmen, Netherlands

Newhouse, Scotland

Chihuahua, Mexico

Specialty Materials

Mobile, AL	Geismar, LA	Colonial Heights, VA
Des Plaines, IL	Shreveport, LA	Hopewell, VA
Metropolis, IL	Pottsville, PA	Spokane, WA
Baton Rouge, LA	Orange, TX	Seelze, Germany
	Chesterfield, VA	

Transportation Systems

Shanghai, China	Atessa, Italy	Mexicali, Mexico (partially leased)
Conde, France	Kodama, Japan	Bucharest, Romania
Glinde, Germany	Ansan, Korea (leased)	Barcelona, Spain
Waterford, Ireland		

Item 3. Legal Proceedings

We are subject to a number of lawsuits, investigations and claims (some of which involve substantial amounts) arising out of the conduct of our business. See a discussion of environmental, asbestos and other litigation matters in Note 21 of Notes to Financial Statements in Item 8. Financial Statements and Supplementary Data.

Environmental Matters Involving Potential Monetary Sanctions in Excess of \$100,000

The United States Environmental Protection Agency and the United States Department of Justice (federal authorities) are investigating whether the storage of certain sludges generated during uranium hexafluoride production at our Metropolis, Illinois facility has been in compliance with the requirements of the Resource Conservation and Recovery Act. The federal authorities have convened a grand jury in this matter. This storage issue was previously voluntarily disclosed to the Illinois Environmental Protection Agency, with whom Honeywell has been working to resolve the matter. The Company has met with the federal authorities and is cooperating fully with the investigation. Although the outcome of this matter cannot be predicted with certainty, we do not believe that it will have a material adverse effect on our consolidated financial position, consolidated results of operations or operating cash flows.

Item 4. Submission of Matters to a Vote of Security Holders

Not Applicable.

Executive Officers of the Registrant

The executive officers of Honeywell, listed as follows, are elected annually by the Board of Directors. There are no family relationships among them.

Name, Age, Date First Elected an Executive Officer	Business Experience
David M. Cote (a), 57 2002	Chairman of the Board and Chief Executive Officer since July 2002.
Alexandre Ismail, 44 2009	President and Chief Executive Officer Transportation Systems since April 2009. President Turbo Technologies from November 2008 to April 2009. President Global Passengers Vehicles from August 2006 to November 2008. Vice President and General Manager Turbo Technologies EMEA & India from September 2003 to August 2006.
Roger Fradin, 56 2004	President and Chief Executive Officer Automation and Control Solutions since January 2004.
Timothy O. Mahoney, 53 2009	President and Chief Executive Officer Aerospace since September 2009. Vice President Aerospace Engineering and Technology and Chief Technology Officer from March 2007 to August 2009. President of Air Transport and Regional from July 2005 to March 2007. Vice President and General Manager Aviation Aftermarket Services from July 2004 to July 2005.
Andreas C. Kramvis, 57 2008	President and Chief Executive Officer Specialty Materials since March 2008. President of Environmental and Combustion Controls from September 2002 to February 2008.
David J. Anderson, 60 2003	Senior Vice President and Chief Financial Officer since June 2003.
Larry E. Kittelberger, 61 2001	Senior Vice President Technology and Operations since October 2006. Senior Vice President Administration and Chief Information Officer from August 2001 to October 2006.
Katherine L. Adams, 45 2009	Senior Vice President and General Counsel since April 2009. Vice President and General Counsel from September 2008 to April 2009. Vice President and General Counsel for Specialty Materials from February 2005 to September 2008.
Mark R. James, 48 2007	Senior Vice President Human Resources and Communications since November 2007. Vice President of Human Resources and Communications for Aerospace from October 2004 to November 2007. Vice President of Human Resources for Aerospace Electronic Systems from March 2001 to October 2004.

(a)

Also a
Director.

Part II.

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market and dividend information for Honeywell's common stock is included in Note 26 of Notes to Financial Statements in Item 8. Financial Statements and Supplementary Data.

The number of record holders of our common stock at December 31, 2009 was 64,617.

Honeywell did not purchase any of its common stock, par value \$1 per share, for the year ending December 31, 2009. Under the Company's previously reported \$3.0 billion share repurchase program, \$1.3 billion remained available as of December 31, 2009 for additional share repurchases. The amount and timing of future repurchases may vary depending on market conditions and the level of operating and other investing activities.

Performance Graph

The following graph compares the five-year cumulative total return on our Common Stock to the total returns on the Standard & Poor's 500 Stock Index and a composite of Standard & Poor's Aerospace and Defense and Industrial Conglomerates indices, on an equally weighted basis (the Composite Index). The selection and weighting of the Aerospace and Defense component of the Composite Index was deemed appropriate in light of the fact that Honeywell's Aerospace segment has accounted for, on average, approximately 50% of our aggregate segment profit over the past three completed fiscal years. The selection and weighting of the Industrial Conglomerates component of the Composite Index reflects the diverse and distinct range of non-aerospace businesses conducted by Honeywell and their contribution to our overall segment profits. The annual changes for the five-year period shown in the graph are based on the assumption that \$100 had been invested in Honeywell stock and each index on December 31, 2004 and that all dividends were reinvested.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the reader understand the results of operations and financial condition of Honeywell International Inc. (Honeywell) for the three years ended December 31, 2009. All references to Notes relate to Notes to the Financial Statements in Item 8 Financial Statements and Supplementary Data .

CONSOLIDATED RESULTS OF OPERATIONS

Net Sales

	2009	2008	2007
	(Dollars in millions)		
Net sales	\$ 30,908	\$ 36,556	\$ 34,589
% change compared with prior year	(15)%	6 %	

The change in net sales in 2009 and 2008 is attributable to the following:

	2009 Versus 2008	2008 Versus 2007
Volume	(14)%	%
Foreign Exchange	(2)	1
Acquisitions/Divestitures	1	3
Price		2
	(15)%	6 %

A discussion of net sales by segment can be found in the Review of Business Segments section of this MD&A.

Cost of Products and Services Sold

	2009	2008	2007
	(Dollars in millions)		
Cost of products and services sold	\$ 23,185	\$ 27,994	\$ 26,300
% change compared with prior period	(17)%	6 %	
Gross margin %	25.0 %	23.4 %	24.0 %

Cost of products and services sold decreased by \$4,809 million or 17 percent in 2009 compared with 2008. The decrease is primarily due to lower sales as a result of the factors discussed within the Review of Business Segments section of this MD&A, lower material costs, reduced labor costs (reflecting reduced census, work scheduled reductions, benefits from prior repositioning actions and lower incentive compensation), the positive impact of indirect cost savings initiatives across each of our Business Segments and lower repositioning charges.

Gross margin increased by 1.6 percent in 2009 compared with 2008 primarily due to increases of 2.9 and 0.6 percent, respectively in our Specialty Materials and Automation & Controls Solutions segments, as a result of the cost savings initiatives discussed above and lower repositioning charges, partially offset by lower margins in our Transportation Systems and Aerospace Solutions segments of 3.2 and 0.7 percent, respectively, due to lower sales partially offset by the impact of cost savings initiatives.

Cost of products and services sold increased by \$1,694 million or 6 percent in 2008 compared with 2007. The increase is primarily due to higher sales as a result of the factors discussed within the Review of Business Segments section of this MD&A, acquisitions and higher repositioning charges, partially offset by lower pension and other post retirement benefits expense.

Gross margin decreased by 0.6 of a percentage point in 2008 compared with 2007 primarily due to (i) higher repositioning charges and (ii) decreases of 2.2 and 1.4 percent, respectively, in our Transportation Systems and Specialty Materials segments, primarily due to lower sales volume, partially offset by (i) lower pension and other post retirement benefits expense, (ii) higher margins in our Automation and Controls Solutions segment of 0.8 of a percentage point mainly resulting from productivity savings, and (iii) higher margins in our Aerospace segment of 0.2 of a percentage point mainly resulting from sales volume growth and increased prices.

Selling, General and Administrative Expenses

	2009	2008	2007
	(Dollars in millions)		
Selling, general and administrative expenses	\$ 4,341	\$ 5,033	\$ 4,565
Percent of sales	14.0 %	13.8 %	13.2 %

Selling general and administrative expenses (SG&A) as a percentage of sales increased by 0.2 of a percentage point in 2009 compared with 2008. The increase as a percentage of sales was driven by lower sales volumes, substantially offset by i) the positive impact of indirect cost savings initiatives across each of our Business Segments, ii) reduced labor costs (reflecting reduced census, work schedule reductions, benefits from prior repositioning actions and lower incentive compensation) and iii) lower repositioning charges, resulting in decreased SG&A expense of \$692 million.

SG&A as a percentage of sales increased by 0.6 of a percentage point in 2008 compared with 2007. The increase was primarily due to higher SG&A in our Automation and Control Solutions segment mainly due to acquisitions, partially offset by decreases in SG&A in our Specialty Materials and Aerospace segments mainly due to cost savings initiatives

and the positive impact of prior repositioning actions.

Other (Income)/Expense

	2009	2008	2007
	(Dollars in millions)		
Gain on sale of non-strategic businesses and assets	\$ (87)	\$ (635)	\$ (19)
Equity (income)/loss of affiliated companies	(26)	(63)	(10)
Interest income	(33)	(102)	(81)
Foreign exchange	45	52	34
Other (net)	46		7
Total	\$ (55)	\$ (748)	\$ (69)

Other income decreased by \$693 million in 2009 compared to 2008 primarily due to i) a lower gain on sale of non-strategic businesses and assets due to the gain on the sale of our Consumables Solutions business in 2008 partially offset by a gain related to the deconsolidation of a subsidiary within our Automation and Control Solutions segment in 2009 (See Note 4 to the financial statements) and ii) lower interest income primarily due to lower interest rates on cash balances.

Other income increased by \$679 million in 2008 compared to 2007 primarily due to a higher gain on sale of non-strategic businesses and assets representing the sale of our Consumables Solutions business and higher income from equity method investments (mainly in our Specialty Material segment).

Interest and Other Financial Charges

	2009	2008	2007
	(Dollars in millions)		
Interest and other financial charges	\$ 459	\$ 456	\$ 456
% change compared with prior year	1 %	%	

Interest and other financial charges increased 1 percent in 2009 compared with 2008 due to lower debt balances offset by higher borrowing costs on term debt. Interest and other financial charges were flat in 2008 compared to 2007 due to higher debt balances offset by lower borrowing costs.

Tax Expense

	2009	2008	2007
	(Dollars in millions)		
Tax expense	\$ 789	\$ 1,009	\$ 877
Effective tax rate	26.5 %	26.4 %	26.3 %

The effective tax rate increased by 0.1 of a percentage point in 2009 compared with 2008 due principally to a decreased impact from the settlement of audits, partially offset by increased benefits from (i) U.S. manufacturing incentives, (ii) U.S. tax credits and (iii) employee stock ownership plan dividends. The effective tax rate was lower than the U.S. statutory rate of 35 percent primarily due to earnings taxed at lower foreign rates.

The effective tax rate increased by 0.1 of a percentage point in 2008 compared with 2007 due principally to a higher overall state effective tax rate and a decreased impact from the settlement of audits, partially offset by a decrease in the foreign effective tax rate. The effective tax rate was lower than the U.S. statutory rate of 35 percent primarily due to earnings taxed at lower foreign tax rates.

In 2010, the effective tax could change based upon the Company's operating results and the outcome of tax positions taken regarding previously filed tax returns currently under audit by various Federal, State and foreign tax authorities, several of which may be finalized in the foreseeable future. The Company believes that it has adequate reserves for these matters, the outcome of which could materially impact the results of operations and operating cash flows in the period they are resolved.

Net Income Attributable to Honeywell

	2009	2008	2007
	(Dollars in millions, except per share amounts)		
Net income attributable to Honeywell	\$ 2,153	\$ 2,792	\$ 2,444
Earnings per share of common stock assuming dilution	\$ 2.85	\$ 3.76	\$ 3.16

The decrease of \$0.91 in earnings per share of common stock assuming dilution in 2009 compared with 2008 primarily relates to a decrease in segment profit in each of our business segments, decreased Other (Income) Expense, as discussed above, and an increase in the number of shares outstanding partially offset by lower repositioning charges.

The increase of \$0.60 in earnings per share of common stock assuming dilution in 2008 compared with 2007 primarily relates to (i) the gain on sale of the Consumables Solutions business, (ii) lower pension and other post retirement expense, (iii) an increase in segment profit (most significantly in Automation and Control Solutions and Aerospace, partially offset by a decline in Transportation Systems segment profit) and (iv) a reduction in the number of shares outstanding due to share repurchases, partially offset by increased repositioning costs.

For further discussion of segment results, see [Review of Business Segments](#) .

BUSINESS OVERVIEW

This Business Overview provides a summary of Honeywell and its four reportable operating segments (Aerospace, Automation and Control Solutions, Specialty Materials and Transportation Systems), including their respective areas of focus for 2010 and the relevant economic and other factors impacting their results, and a discussion of each segment's results for the three years ended December 31, 2009. Each of these segments is comprised of various product and service classes that serve multiple end markets. See Note 23 to the financial statements for further information on our reportable segments and our definition of segment profit.

Economic and Other Factors

In addition to the factors listed below with respect to each of our operating segments, our consolidated operating results are principally driven by:

- Impact of global economic growth rates (U.S., Europe and emerging regions) and industry conditions on demand in our key end markets;

- Overall sales mix, in

particular the
mix of
Aerospace
original
equipment
and
aftermarket
sales and the
mix of
Automation
and Control
Solutions
(ACS)
products and
services sales;

The extent to
which cost
savings from
productivity
actions are
able to offset
or exceed the
impact of
material and
non-material
inflation;

The impact of
the pension
discount rate
on pension
expense and
pension asset
returns on
funding
requirements;
and

The impact of
changes in
foreign
currency
exchange rate,
particularly
the U.S.
dollar-Euro
exchange rate.

Areas of Focus for 2010

The areas of focus for 2010, which are generally applicable to each of our operating segments, include:

Driving profitable growth by building innovative products that address customer needs;

Achieving sales growth, technological excellence and manufacturing capability through global expansion, especially focused on emerging regions in China, India and the Middle East;

Proactively managing raw material costs through formula and long term supply agreements, price increases and hedging activities, where feasible;

Driving cash flow conversion through effective working capital management and capital investment in our businesses, thereby enabling liquidity, repayment of debt, strategic acquisitions, and the ability to return value to shareholders;

Actively monitoring trends in short-cycle end markets, such as the Transportations Systems Turbo business, ACS Products businesses, Aerospace commercial aftermarket and Specialty Materials resins and chemicals, and continuing to take proactive cost actions;

Aligning and prioritizing investments in long-term growth vs. short-term demand volatility;

Driving
productivity
savings through
execution of
repositioning
actions;

Maintaining
reduced
discretionary
spending levels
with focus on
non-customer
related costs;

Ensuring
preparedness to
maximize
performance in
response to the
end of customer
inventory
de-stocking
and/or
improving end
market
conditions
while
controlling
costs by
proactively
managing
capacity
utilization,
supply chain
and inventory
demand;

Utilizing our
enablers
Honeywell
Operating
System (HOS),
Functional
Transformation
and Velocity
Product
Development
(VPD) to
standardize the
way we work,

increase quality and reduce the costs of product manufacturing, reduce costs and enhance the quality of our administrative functions and improve business operations through investments in systems and process improvements;

Monitoring both suppliers and customers for signs of liquidity constraints, limiting exposure to any resulting inability to meet delivery commitments or pay amounts due, and identifying alternate sources of supply as necessary; and

Managing Corporate costs, including costs incurred for asbestos and environmental matters, pension and other post-retirement expenses and our tax expense.

Review of Business Segments

	2009	2008	2007
	(Dollars in millions)		
Net Sales			
Aerospace	\$ 10,763	\$ 12,650	\$ 12,236
Automation and Control Solutions	12,611	14,018	12,478
Specialty Materials	4,144	5,266	4,866
Transportation Systems	3,389	4,622	5,009
Corporate	1		
	\$ 30,908	\$ 36,556	\$ 34,589
Segment Profit			
Aerospace	\$ 1,893	\$ 2,300	\$ 2,197
Automation and Control Solutions	1,588	1,622	1,405
Specialty Materials	605	721	658
Transportation Systems	156	406	583
Corporate	(145)	(204)	(189)
	\$ 4,097	\$ 4,845	\$ 4,654

A reconciliation of segment profit to income from continuing operations before taxes follows:

	2009	2008	2007
	(Dollars in millions)		
Segment profit	\$ 4,097	\$ 4,845	\$ 4,654
Other income (expense)(1)	29	685	69
Interest and other financial charges	(459)	(456)	(456)
Stock compensation expense(2),(3)	(118)	(128)	(65)
Pension and other postretirement benefits expense(2)	(93)	(113)	(322)
Repositioning and other charges(2)	(478)	(1,012)	(543)
Income from continuing operations before taxes	\$ 2,978	\$ 3,821	\$ 3,337

- (1) Equity income/(loss) of affiliated companies was included in Segment Profit, on a prospective basis, commencing January 1, 2008. Other income/(expense) as presented above includes equity income of affiliated companies of \$10 million for the year ended December 31, 2007.
- (2) Amounts included in cost of products and services sold and selling, general and administrative expenses.

- (3) Costs associated with restricted stock units (RSU) were excluded from Segment Profit, on a prospective basis, commencing January 1, 2008. Stock compensation expense, including RSU expense, totaled \$112 million for the year ended December 31, 2007. Stock option expense is included for all periods presented.

Aerospace

Overview

Aerospace is a leading global supplier of aircraft engines, avionics, and related products and services for aircraft manufacturers, airlines, aircraft operators, military services, and defense and space contractors. Our Aerospace products and services include auxiliary power units, propulsion engines, environmental control systems, engine controls, flight safety, communications, navigation, radar and surveillance systems, aircraft lighting, management and technical services, advanced systems and instruments, aircraft wheels and brakes and repair and overhaul services. Aerospace sells its products to original equipment (OE) manufacturers in the air transport, regional, business and general aviation aircraft segments, and provides spare parts and repair and maintenance services for the aftermarket (principally to aircraft operators). The United States Government is also a major customer for our defense and space products.

Economic and Other Factors

Aerospace operating results are principally driven by:

New aircraft production rates and delivery schedules set by commercial air transport, regional jet, business and general aviation OE

manufacturers,
as well as
airline
profitability
and retirement
of aircraft from
service;

Global demand
for commercial
air travel as
reflected in
global flying
hours and
utilization rates
for corporate
and general
aviation
aircraft, as well
as the demand
for spare parts
and
maintenance
and repair
services for
aircraft
currently in
use;

Level and mix
of U.S.
Government
appropriations
for defense and
space programs
and military
activity; and

Availability
and price
volatility of
raw materials
such as
titanium and
other metals.

Results of Operations

	2009	2008	2007
	(Dollars in millions)		
Net sales	\$ 10,763	\$ 12,650	\$ 12,236
% change compared with prior year	(15)%	3 %	
Segment profit	\$ 1,893	\$ 2,300	\$ 2,197
% change compared with prior year	(18)%	5 %	

Aerospace sales by major customer end-markets were as follows:

Customer End-Markets	% of Aerospace Sales			% Change in Sales	
	2009	2008	2007	2009 Versus 2008	2008 Versus 2007
Commercial:					
Air transport and regional original equipment	13 %	14 %	16 %	(21)%	(6)%
Air transport and regional aftermarket	22	23	22	(16)	4
Business and general aviation original equipment	7	11	11	(51)	5
Business and general aviation aftermarket	8	10	10	(27)	6
Defense and Space	50	42	41		6
Total	100 %	100 %	100 %	(15)%	3 %

2009 compared with 2008

Aerospace sales decreased by 15 percent in 2009. Details regarding the decrease in sales by customer end-markets are as follows:

Air transport and regional original equipment (OE) sales decreased by 21 percent in 2009. The decrease is driven by lower sales to

our OE
customers,
consistent with
production
rates and
platform mix,
and the impact
of divesting
our
Consumables
Solutions
business,
partially offset
by a 12
percent
increase in the
fourth quarter
of 2009 mainly
due to the
absence of a
strike at a
major OEM in
the fourth
quarter of
2008.

Air transport
and regional
aftermarket
sales
decreased by
16 percent in
2009 primarily
due to
decreased
sales of spare
parts and
lower
maintenance
activity driven
by the impact
of higher
parked aircraft
part utilization,
customer
inventory
reduction
initiatives and
decreased
flying hours of
approximately

2 percent, including a 1 percent increase in the fourth quarter. While we expect global flying hours to increase slightly in 2010, we expect aftermarket sales to remain soft in the first half of 2010 due to the continuation of inventory destocking and the rising number of parked aircraft.

Business and general aviation OE sales decreased by 51 percent in 2009 due to the decrease in new business jet deliveries reflecting rescheduling and cancellations of deliveries by OE customers.

Business and general aviation aftermarket sales decreased by 27 percent in 2009. The decrease was

primarily due to decreased sales of spare parts and lower revenue associated with maintenance service agreements, consistent with the decrease in business jet utilization. We started to see an increase in business jet utilization rates in the fourth quarter of 2009 and expect stabilization at these levels.

Defense and space sales were essentially unchanged in 2009, primarily due to higher sales of logistics services and original equipment for military platforms in the first nine months of 2009 offset by program completions. Delays in defense and space programs could impact the timing of sales in this

end- market
over the course
of 2010.

Aerospace segment profit decreased by 18 percent in 2009 compared to 2008 due primarily to lower sales as a result of the factors discussed above and inflation, partially offset by volume related material cost reductions and reduced labor costs (reflecting reduced census, work schedule reductions,

benefits from prior repositioning actions and lower incentive compensation), the positive impact of cost savings initiatives and increased prices.

2008 compared with 2007

Aerospace sales increased by 3 percent in 2008. Details regarding the net increase in sales by customer end-markets are as follows:

Air transport and regional original equipment (OE) sales decreased by 6 percent in 2008. The decrease was driven by the sale of our Consumables Solutions business, partially offset by increased deliveries to our air transport customers, notwithstanding a decrease in total aircraft production rates at major OEMs mainly due to a strike at a major OEM, which was settled in the fourth quarter of 2008.

Air transport and regional aftermarket sales increased by 4 percent in 2008 primarily due to increased volume, the price of spare parts and aftermarket growth driven

by flight hour growth. The growth rate in global flying hours slowed to 3 percent in 2008, including a 2 percent decline in the fourth quarter.

Business and general aviation OE sales increased by 5 percent in 2008 due to continued demand in the business jet end market as evidenced by an increase in new business jet deliveries, improved pricing and continued additions to the fractional ownership and charter fleets. In 2008, sales to this end- market primarily consisted of sales of Primus Epic integrated avionics systems and the TFE 731 and HTF 7000 engines.

Business and general aviation aftermarket sales increased by 6 percent in 2008. The increase was primarily due to increased

revenue under
maintenance
service
agreements and
higher sales of
spare parts.

Defense and
space sales
increased by 6
percent in 2008.
The increase
was primarily
due to logistics
services
(including the
positive impact
of the
acquisition of
Dimensions
International, a
defense logistics
business),
helicopter OE
sales, an
increase in
government
funded
engineering
related to the
Orion (CEV)
program, higher
sales of
specialty foam
insulation,
certain surface
systems and
classified space
programs.

Aerospace segment profit increased by 5 percent in 2008 compared to 2007 due primarily to increased prices, productivity and sales volume growth. These increases are partially offset by inflation, the Consumables Solutions divestiture and higher spending to support new platform growth.

2010 Areas of Focus

Aerospace's primary areas of focus for 2010 include:

Focus on cost
structure
initiatives to

maintain
profitability in
the face of
challenging
commercial
aerospace
conditions;

Aligning
inventory,
production and
research and
development
with customer
demand and
production
schedules;

Expanding
sales and
operations in
international
locations;

Pursuit of new
defense and
space
platforms;

Continuing to
design
equipment that
enhances the
safety,
performance
and durability
of aerospace
and defense
equipment,
while reducing
weight and
operating costs;

Delivering
world-class
customer
service and
achieving cycle
and lead time
reduction to
improve

responsiveness
to customer
demand; and

Continued
deployment of
our common
enterprise
resource
planning (ERP)
system.

Automation and Control Solutions (ACS)

Overview

ACS provides innovative products and solutions that make homes, buildings, industrial sites and infrastructure more efficient, safe and comfortable. Our ACS products and services include controls for heating, cooling, indoor air quality, ventilation, humidification, lighting and home automation; advanced software applications for home/building control and optimization; sensors, switches, control systems and instruments for measuring pressure, air flow, temperature and electrical current; security, fire and gas detection; personal protection equipment; access control; video surveillance; remote patient monitoring systems; products for automatic identification and data collection, installation, maintenance and upgrades of systems that keep buildings safe, comfortable and productive; and automation and control solutions for industrial plants, including advanced software and automation systems that integrate, control and monitor complex processes in many types of industrial settings as well as equipment that controls, measures and analyzes natural gas production and transportation.

Economic and Other Factors

ACS's operating results are principally driven by:

Global
commercial
construction
(including
retrofits and
upgrades);

Demand for
residential
security and
environmental
control
retrofits and
upgrades;

Demand for
energy
efficient
products and
solutions;

Industrial
production;

Government
and public
sector
spending;

U.S. and
European

economic conditions;

Economic growth rates in developed (U.S. and Europe) and emerging markets;

The strength of capital and operating spending on process (including petrochemical and refining) and building automation;

Inventory levels in distribution channels; and

Changes to energy, fire, security, health care, safety and environmental concerns and regulations.

Results of Operations

	2009	2008	2007
	(Dollars in millions)		
Net sales	\$ 12,611	\$ 14,018	\$ 12,478
% change compared with prior year	(10)%	12 %	
Segment profit	\$ 1,588	\$ 1,622	\$ 1,405
% change compared with prior year	(2)%	15 %	

2009 compared with 2008

ACS sales decreased by 10 percent in 2009 compared with 2008, primarily due to decreased sales volume (reflecting slower global economic growth) and an unfavorable impact of foreign exchange of 4 percent, partially offset by a 3 percent growth from acquisitions.

Sales in our Products businesses decreased by 11 percent, including (i) lower volumes of sales in each of our businesses (excluding the impact of acquisitions) and (ii) the unfavorable impact of foreign exchange. Softness in residential and industrial end-markets was partially offset by the positive impact of acquisitions, most significantly Norcross Safety Products.

Sales in our Solutions businesses decreased by 9 percent primarily due to the unfavorable impact of foreign exchange and volume decreases largely due to softening demand as a

result of
customer
deferral of
capital and
operating
expenditures.
Orders
decreased
while backlog

increased in
2009.

Decreased
orders are
primarily
due to the
unfavorable
impact of
foreign
exchange,
softening
demand (as
noted above)
and order
timing and
delays.

Higher
backlog is
primarily
due to longer
duration
projects. The
impact of
these factors
was partially
offset by the
positive
impact of
acquisitions,
most
significantly
the RMG
Group.

ACS segment profit decreased by 2 percent in 2009 compared with 2008 principally due to the negative impact of lower sales as a result of the factors discussed above and inflation, partially offset by lower material costs, reduced labor costs (reflecting reduced census, work schedule reductions, benefits from prior repositioning actions and lower incentive compensation) and the positive impact of indirect cost savings initiatives. In the fourth quarter of 2009 these factors more than offset the impact of lower sales described above resulting in a 5 percent increase in segment profit.

2008 compared with 2007

ACS sales increased by 12 percent in 2008 compared with 2007, including 10 percent net growth from acquisitions and divestitures. Although foreign exchange had minimal impact on full year sales, there was a 9 percent negative impact of foreign exchange on fourth quarter sales.

Sales in our
Products
businesses
grew by 15
percent,

including (i)
the positive
impact of
acquisitions,
most
significantly
Norcross
Safety
Products,
Metrologic
Instruments,
Hand Held
Products Inc
and Maxon
Corporation,
(ii) continued
strong demand
for life safety
products,
particularly
fire systems
and sensors
and (iii)
increased sales
of our
environmental
and
combustion
products,
driven by new
products and
demand for
energy
efficient
controls,
including
growth across
all regions.
These factors
were partially
offset by
decreases in
sales volumes
of our security
(reflecting
U.S. and
European
residential
construction
softness) and
sensing and

controls
products (most
notably
automotive
customers),
reflecting
softness in the
U.S. and
Europe.

Sales in our
Solutions
businesses
increased by 8
percent
primarily due
to (i) volume
growth, driven
by continued
orders growth
and strong
conversion to
sales from our
orders backlog
and (ii) the
positive
impact of
acquisitions,
most
significantly
Enraf Holding
B.V.

ACS segment profit increased by 15 percent in 2008 compared with 2007 principally due to increased productivity savings, acquisitions, and improved pricing, partially offset by inflation.

2010 Areas of Focus

ACS's primary areas of focus for 2010 include:

Products and
solutions for
energy
efficiency and
asset
management;

Extending
technology
leadership:
lowest total

installed cost
and integrated
product
solutions;

Defending and
extending our
installed base
through
customer
productivity
and
globalization;

Sustaining
strong brand
recognition
through our
brand and
channel
management;

Centralization
and
standardization
of global
software
development
capabilities;

Continuing to
identify,
execute and
integrate
acquisitions in
or adjacent to
the markets
which we
serve;

Continuing to
establish and
grow emerging
markets
presence and
capability;

Continuing to
invest in new
product
development

and
introductions;
and

Continued
deployment of
our common
ERP system.

Specialty Materials

Overview

Specialty Materials develops and manufactures high-purity, high-quality and high-performance chemicals and materials for applications in the refining, petrochemical, automotive, healthcare, agricultural, packaging, refrigeration, appliance, housing, semiconductor, wax and adhesives

segments. Specialty Materials also provides process technology, products and services for the petroleum refining, gas processing technology, petrochemical and other industries. Specialty Materials product portfolio includes fluorocarbons, caprolactam, ammonium sulfate for fertilizer, specialty films, advanced fibers, customized research chemicals and intermediates, electronic materials and chemicals, catalysts, and adsorbents.

Economic and Other Factors

Specialty Materials operating results are principally driven by:

Level and timing of capital spending and capacity and utilization rates in refining and petrochemical end markets;

Degree of pricing volatility in raw materials such as benzene (the key component in phenol), fluorspar, natural gas, ethylene and sulfur;

Impact of environmental and energy efficiency regulations;

Extent of change in order rates from global semiconductor customers;

Global demand for non-ozone depleting Hydro fluorocarbons

(HFC s);

Condition of
the U.S.
residential
housing
industry;

Global demand
for
commodities
such as
caprolactam
and
ammonium
sulfate; and

Increasing
demand for
renewable
energy and
biofuels.

Results of Operations

	2009	2008	2007
	(Dollars in millions)		
Net sales	\$ 4,144	\$ 5,266	\$ 4,866
% change compared with prior year	(21)%	8 %	5 %
Segment profit	\$ 605	\$ 721	\$ 658
% change compared with prior year	(16)%	10 %	16 %

2009 compared with 2008

Specialty Materials sales decreased by 21 percent in 2009 compared to 2008 primarily driven by (i) a 32 percent decrease in Resins and Chemicals sales due to substantial price declines arising from pass through of lower raw materials costs, partially offset by increased volume (most notably in the fourth quarter), (ii) a 19 percent decrease in UOP sales due to customer deferrals of projects as a result of reduced demand for additional capacity in the refining and petrochemical industries as well as lower catalyst sales, (iii) a 22 percent decrease in Specialty Products sales most significantly due to continued demand softness across key customer end-markets, and (iv) an 11 percent decrease in Fluorine Products sales due to lower volume sales of refrigerants and insulating materials principally driven by customer inventory reduction initiatives and soft construction and original equipment manufacturing end markets, partially offset by price increases.

Specialty Materials segment profit decreased by 16 percent in 2009 compared with 2008. This decrease is principally due to lower sales as a result of the factors discussed above, partially offset by lower material costs, reduced labor costs (reflecting reduced census, work schedule reductions and lower incentive compensation), the positive impact of indirect cost savings initiatives and increased prices. In the fourth quarter of 2009 these factors more than offset the impact of lower sales described above resulting in a 56 percent increase in segment profit.

2008 compared with 2007

Specialty Materials sales increased by 8 percent in 2008 compared to 2007 primarily driven by (i) increased pricing reflecting the pass-through of higher raw material costs and other pricing actions (including benefits from formula based pricing arrangements), most significantly in Resins and

Chemicals and Fluorine Products, and (ii) an 8 percent increase in UOP sales as a result of higher volume sales in its products and projects businesses. Full year 2008 sales growth was partially offset by a 12 percent sales decline in revenue during the fourth quarter, primarily in our Resins and Chemicals business due to sharp declines in global demand for commodities such as caprolactam and ammonium sulfate.

Specialty Materials segment profit increased by 10 percent in 2008 compared with 2007. This increase is due principally to increased UOP, Fluorine Products and Resins and Chemicals sales as a result of the factors discussed above and higher income from our joint ventures, partially offset by the impacts of hurricanes Gustav and Ike and the fourth quarter sales decline noted below. Overall, the effects of increased pricing reflecting the pass-through of higher raw material costs and other pricing actions (including benefits from formula based pricing arrangements) and productivity gains more than offset raw material (most significantly sulfur) and other inflation.

2010 Areas of Focus

Specialty Materials primary areas of focus for 2010 include:

Continue to develop new processes, products and technologies that address energy efficiency, renewable energy sources, global warming, security regulations and position the portfolio for higher value;

Commercialize new products and technologies in the petrochemical, gas processing and refining industries;

Drive sales and marketing excellence and expand local presence in fast growing

emerging
markets;

Execution of
awarded
government
stimulus
projects and
pursuit of
additional
projects;

Manage
exposure to
raw material
commodity
fluctuations;
and

Prioritize
critical
investment to
increase plant
reliability and
attainment,
productivity,
quality and
operational
excellence.

Transportation Systems

Overview

Transportation Systems provides automotive products that improve the performance, efficiency, and appearance of cars, trucks, and other vehicles through state-of-the-art technologies, world class brands and global solutions to customers' needs. Transportation Systems' products include turbochargers and charge-air and thermal systems; car care products including anti-freeze (Prestone(R)), filters (Fram(R)), spark plugs (Autolite(R)), and cleaners, waxes and additives (Holts(R)); and brake hard parts and other friction materials (Bendix(R) and Jurid(R)). Transportation Systems sells its products to original equipment (OE) automotive and truck manufacturers (e.g., BMW, Caterpillar, Daimler, Renault, Ford, and Volkswagen), wholesalers and distributors and through the retail aftermarket.

Economic and Other Factors

Transportation Systems operating results are principally driven by:

Financial
strength and
stability of
automotive OE
manufacturers;

Global demand
for automobile
and truck
production;

Turbo
penetration
rates for new
engine
platforms;

Global
consumer
preferences for
boosted diesel
passenger cars;

Degree of
volatility in
raw material
prices,
including
nickel and
steel;

New
automobile
production
rates and the
impact of
customer
inventory
levels on
demand for our
products;

Automotive aftermarket trends such as consumer confidence, miles driven, and consumer preference for branded vs. private label aftermarket and car care products;

Regulations mandating lower emissions and improved fuel economy; and

Consumers ability to obtain financing for new vehicle purchases.

Results of Operations

	2009	2008	2007
	(Dollars in millions)		
Net sales	\$ 3,389	\$ 4,622	\$ 5,009
% change compared with prior year	(27)%	(8)%	
Segment profit	\$ 156	\$ 406	\$ 583
% change compared with prior year	(62)%	(30)%	

2009 compared with 2008

Transportation Systems sales decreased by 27 percent in 2009 compared with 2008, primarily due to lower volumes (driven by the ongoing challenging global automotive industry conditions) and the negative impact of foreign exchange in the first nine months of 2009.

Turbo Technologies sales decreased by 34 percent primarily due to lower sales volumes to both our commercial and light vehicle engine manufacturing customers and the negative impact of foreign exchange. Diesel penetration rates in Western Europe declined in the first nine months of 2009 and there was a shift in consumer preference towards lower displacement engines. Full year 2009 sales decline was partially offset by a 22 percent sales increase during the fourth quarter primarily due to the positive impact of foreign exchange and higher sales volumes to our light vehicle engine manufacturing customers. We

expect increased volumes to continue as we benefit from new platform launches scheduled in 2010.

CPG sales decreased by 8 percent primarily due to lower prices (primarily pass through of ethylene glycol cost decreases), lower volumes, and the negative impact of foreign exchange.

Friction Materials sales decreased by 24 percent primarily due to continued declines in sales volumes and the unfavorable impact of foreign exchange.

Transportation Systems segment profit decreased by 62 percent in 2009 compared with 2008 due principally to lower sales volume as a result of the factors discussed above partially offset by lower material costs, reduced labor costs (reflecting reduced census, work schedule reductions, benefits from prior repositioning actions and lower incentive compensation) and the positive impact of indirect cost savings initiatives. In the fourth quarter of 2009 these factors and increased Turbo Technologies volumes resulted in a \$66 million increase in Transportation Systems segment profit. We anticipate that new platform launches will translate into increased segment profit in 2010.

2008 compared with 2007

Transportation Systems sales decreased by 8 percent in 2008 compared with 2007, primarily due to lower volumes, most significantly in the second half of 2008, partially offset by the favorable impact of foreign exchange.

Turbo Technologies sales decreased by 9 percent primarily due to decreased volume from a broad decline in vehicle production due to challenging automotive industry conditions in the U.S. and Europe, which accelerated in the second half of 2008, impacting sales to both our commercial and light vehicle engine manufacturers, partially offset by the favorable impact of foreign exchange.

Consumer Products Group (CPG) sales decreased by 10 percent primarily due to lower sales of automotive aftermarket products reflecting lower miles driven and the impact of lower consumer confidence on discretionary

spending,
partially offset
by higher
prices
(including the
pass through of
ethylene glycol
cost increases).

Friction
Materials
sales were
essentially
unchanged,
primarily
due to the
favorable
impact of
foreign
exchange
and
increased
pricing
offset by
lower
original
equipment
and
aftermarket
product
sales
volume.

Transportation Systems segment profit decreased by 30 percent in 2008 compared with 2007 primarily due to volume declines, as discussed above, material and non-material cost inflation and investments in product development to support future Turbo platforms. These factors were partially offset by increased productivity and the favorable impact of foreign exchange.

2010 Areas of Focus

Transportation Systems primary areas of focus in 2010 include:

Sustaining
superior
turbocharger
technology
through
successful
platform
launches;

Maintaining
the high
quality of
current
products
while
executing new
product

introductions;

Increasing
global
penetration
and share of
diesel and
gasoline
turbocharger
OEM
demand;

Increasing
plant
productivity
to address
capacity
challenges
generated by
volatility in
product
demand and
OEM
inventory
levels;

Aligning cost
structure with
current
economic
outlook, and
successful
execution of
repositioning
actions;

Aligning
development
efforts and
costs with
new turbo
platform
launch
schedules; and

Continuing
global
expansion and
extension of
established
strong product

brands in
CPG.

Repositioning and Other Charges

See Note 3 to the financial statements for a discussion of repositioning and other charges incurred in 2009, 2008 and 2007. Our repositioning actions are expected to generate incremental pretax savings of approximately \$300 million in 2010 compared with 2009 principally from planned workforce reductions. Cash expenditures for severance and other exit costs necessary to execute our repositioning actions were \$200, \$157 and \$92 million in 2009, 2008 and 2007, respectively. Such expenditures for severance and other exit costs have been funded principally through operating cash flows. Cash expenditures for severance and other exit costs necessary to execute the remaining actions are expected to approximate \$225 million in 2010 and will be funded through operating cash flows.

The following tables provide details of the pretax impact of total net repositioning and other charges by segment.

	Years Ended December 31,		
	2009	2008	2007
	(Dollars in millions)		
Aerospace			
Net repositioning charge	\$ 31	\$ 84	\$ 37

	Years Ended December 31,		
	2009	2008	2007
	(Dollars in millions)		
Automation and Control Solutions

Other	7	(3)	18
	\$ 195	\$ 489	\$ 246

LIQUIDITY AND CAPITAL RESOURCES

The Company continues to manage its businesses to maximize operating cash flows as the primary source of liquidity. In addition to our available cash and operating cash flows, additional sources of liquidity include committed credit lines, short-term debt from the commercial paper market, long-term borrowings, and access to the public debt and equity markets, as well as the ability to sell trade accounts receivables. We continue to balance our cash and financing uses through investment in our existing core businesses, acquisition activity, share repurchases and dividends.

Cash Flow Summary

Our cash flows from operating, investing and financing activities, as reflected in the Consolidated Statement of Cash Flows for the years ended December 31, 2009, 2008 and 2007 are summarized as follows:

	2009	2008	2007
	(Dollars in millions)		
Cash provided by (used for):			
Operating activities	\$ 3,946	\$ 3,791	\$ 3,911
Investing activities	(1,133)	(2,023)	(1,782)
Financing activities	(2,152)	(1,370)	(1,574)
Effect of exchange rate changes on cash	75	(162)	50
Net increase in cash and cash equivalents	\$ 736	\$ 236	\$ 605

2009 compared with 2008

Cash provided by operating activities increased by \$155 million during 2009 compared with 2008 primarily due to a favorable impact from working capital of \$577 million (primarily due to lower inventory), lower cash taxes of \$449 million, and \$155 million from the sale of long term receivables partially offset by decreased earnings, receipts from the sale of insurance receivables of \$82 million in 2008 and higher repositioning payments of \$43 million.

Cash used for investing activities decreased by \$890 million during 2009 compared with 2008 primarily due to a \$1,713 million decrease in cash paid for acquisitions (most significantly the acquisition of Norcross and Metrolgic in 2008) and a \$275 million decrease in expenditures for property, plant, and equipment, partially offset by a \$908 million decrease in proceeds from sales of businesses (most significantly the divestiture of Consumables Solutions in 2008).

Cash used for financing activities increased by \$782 million during 2009 compared with 2008 primarily due to a net repayment of debt (including commercial paper) in 2009 of \$1,272 million compared to net proceeds (including commercial paper) of \$733 million in 2008, partially offset by a decrease in repurchases of common stock of \$1,459 million.

2008 compared with 2007

Cash provided by operating activities decreased by \$120 million during 2008 compared with 2007 primarily due to a decrease in accrued liabilities of \$475 million (decreased advances from customers and deferred income) and higher cash tax payments of \$336 million (most significantly due to the sale of the Consumables Solutions business) partially offset by increased earnings, lower cash payments for asbestos of \$121 million, and a decrease in working capital

(lower accounts and other receivable offset by higher accounts payable).

Cash used for investing activities increased by \$241 million during 2008 compared with 2007 due primarily to higher spending for acquisitions partially offset by higher proceeds from sales of businesses. In 2008, cash paid for acquisitions, net of cash acquired was \$2,181 million primarily for Safety Products Holding, Inc. (Norcross) and Metrologic Instruments, Inc. compared to \$1,150 million in 2007, primarily for our acquisitions of Dimensions International, Enraf Holding B.V., Hand Held Products, Inc, and Maxon Corporation. Cash proceeds from divestitures were \$909 million in 2008, compared to \$51 million in 2007 primarily due to the sale of Consumables Solutions.

Cash used for financing activities decreased by \$204 million during 2008 compared with 2007 primarily due to a \$2,527 million decrease in repurchases of common stock partially offset by decreases in net proceeds from debt (including commercial paper) of \$1,797 million and a decrease in proceeds from issuance of common stock primarily related to stock option exercises of \$457 million.

Liquidity

Each of our businesses is focused on implementing strategies to improve working capital turnover in 2010 to increase operating cash flows. Considering the current economic environment in which each of our businesses operate and our business plans and strategies, including our focus on growth, cost reduction and productivity initiatives, we believe that our cash balances and operating cash flows will remain our principal source of liquidity. In addition to our available cash and operating cash flows, additional sources of liquidity include committed credit lines, short term debt from the commercial paper markets, long-term borrowings, and access to the public debt and equity markets, as well as our ability to sell trade accounts receivables.

A source of liquidity is our ability to issue short-term debt in the commercial paper market. Commercial paper notes are sold at a discount and have a maturity of not more than 365 days from date of issuance. Borrowings under the commercial paper program are available for general corporate purposes as well as for financing potential acquisitions. There was \$298 million of commercial paper outstanding at December 31, 2009.

Our ability to access the commercial paper market, and the related cost of these borrowings, is affected by the strength of our credit rating and market conditions. Our credit ratings are periodically reviewed by the major independent debt-rating agencies. As of December 31, 2009, Standard and Poor's (S&P) Fitch and Moody's have ratings on our long-term debt of A and A and A2 respectively, and short-term debt of A-1, F1 and P1 respectively. S&P and Moody's have maintained Honeywell's ratings outlook as stable. Fitch's rating outlook is negative. In 2010, we will support our credit rating through debt repayments. To date, the company has not experienced any limitations in our ability to access these sources of liquidity. We maintain \$2.8 billion of committed bank revolving credit facilities in support of our commercial paper program, which is secured through mid-May 2012.

In May 2007 Honeywell entered into a \$2.8 billion Amended and Restated Five-Year Credit Agreement (Credit Agreement) with a syndicate of banks. Commitments under the Credit Agreement can be increased pursuant to the terms of the Credit Agreement to an aggregated amount not to exceed \$3.5 billion. This credit facility contains a \$700 million sub-limit for the issuance of letters of credit. The Credit Agreement is maintained for general corporate purposes, including support for the issuance of commercial paper. At December 31, 2009, there were no borrowings or letters of credit issued under the credit facility. The Credit Agreement does not restrict Honeywell's ability to pay dividends, nor does it contain financial covenants.

In February 2009, the Company issued \$600 million 3.875% Senior Notes due 2014 and \$900 million 5.00% Senior Notes due 2019 (collectively, the 2009 Senior Notes). The 2009 Senior Notes are senior unsecured and unsubordinated obligations of Honeywell and rank equally with all of Honeywell's existing and future senior unsecured debt and senior to all of Honeywell's subordinated debt. The offering resulted in gross proceeds of \$1.5 billion, offset by \$12 million in discount and issuance costs. Proceeds from the Senior Notes were used to repay outstanding commercial paper.

In August 2009, the Company completed the acquisition of the RMG Group (RMG Regel + Messtechnik GmbH), a natural gas measuring and control products, services and integrated solutions company which will be integrated into our Automation and Control Solutions segment. The purchase price, net of cash acquired, was approximately \$416 million and was funded using available cash.

We also have a current shelf registration statement filed with the Securities and Exchange Commission under which we may issue additional debt securities, common stock and preferred stock that may be offered in one or more

offerings on terms to be determined at the time of the offering. Net proceeds of any offering would be used for general corporate purposes, including repayment of existing indebtedness, capital expenditures and acquisitions.

We sell interests in designated pools of trade accounts receivables to third parties. In April 2009, we modified the terms of the trade accounts receivable program to permit the repurchase of receivables from the third parties at our discretion. This modification provides additional flexibility in the management of the receivable portfolio and also requires the receivables in the program to remain on the Company balance sheet. As a result, \$500 million of program receivables were reflected as Accounts, notes and other receivables with a corresponding amount recorded as Short-term borrowings in the Consolidated Balance Sheet. These short-term borrowings were repaid as of December 31, 2009.

We monitor the third-party depository institutions that hold our cash and cash equivalents on a daily basis. Our emphasis is primarily on safety of principal and secondarily on maximizing yield on those funds. We diversify our cash and cash equivalents among counterparties to minimize exposure to any one of these entities.

Current global economic conditions or the current tightening of credit could adversely affect our customers or suppliers ability to obtain financing, particularly in our long-cycle businesses and airline and automotive end markets. Customer or supplier bankruptcies, delays in their ability to obtain financing, or the unavailability of financing could adversely affect our cash flow or results of operations. To date we have not experienced material impacts from customer or supplier bankruptcy or liquidity issues. We continue to monitor and take measures to limit our exposure.

In addition to our normal operating cash requirements, our principal future cash requirements will be to fund capital expenditures, debt repayments, dividends, employee benefit obligations, environmental remediation costs, asbestos claims, severance and exit costs related to repositioning actions, share repurchases and any strategic acquisitions.

Specifically, we expect our primary cash requirements in 2010 to be as follows:

Capital expenditures we expect to spend approximately \$700 million for capital expenditures in 2010 primarily for cost reduction, maintenance, replacement, growth, and production and capacity expansion.

Debt repayments there are \$1,018 million of scheduled long-term debt maturities in 2010. We expect to refinance these maturities during 2010 utilizing

short-term debt
and reduce overall
debt balances.

Share
repurchases Under
the Company's
previously
announced \$3.0
billion share
repurchase
program, \$1.3
billion remained
available as of
December 31,
2009 for
additional share
repurchases. The
amount and timing
of repurchases
may vary
depending on
market conditions
and the level of
operating and
other investing
activities. We do
not anticipate any
share repurchases
during 2010.

Dividends we
expect to pay
approximately
\$940 million in
dividends on our
common stock in
2010, reflecting a
4 percent increase
in the number of
shares
outstanding.

Asbestos
claims we expect
our cash spending
for asbestos
claims and our
cash receipts for
related insurance
recoveries to be

approximately \$654 and \$62 million, respectively, in 2010. See Asbestos Matters in Note 21 to the financial statements for further discussion.

Pension contributions In 2010, we are not required to make any contributions to our U.S. pension plans to satisfy minimum statutory funding requirements. However, we presently anticipate making voluntary contributions of approximately \$400 million of Honeywell common stock to the U.S. plan in 2010 to improve the funded status of our plans. We also expect to make contributions to our non-U.S. plans of approximately \$150 million in 2010. See Note 22 to the financial statements for further discussion of pension contributions.

Repositioning actions we expect that cash spending for severance and

other exit costs
necessary to
execute the
previously
announced
repositioning
actions will
approximate \$225
million in 2010.

Environmental
remediation
costs we expect to
spend
approximately
\$285 million in
2010 for remedial
response and
voluntary clean-up
costs. See
Environmental
Matters in Note 21
to the financial
statements for
additional
information.

We continuously assess the relative strength of each business in our portfolio as to strategic fit, market position, profit and cash flow contribution in order to upgrade our combined portfolio and identify business units that will most benefit from increased investment. We identify acquisition candidates that will further our strategic plan and strengthen our existing core businesses. We also identify businesses that do not fit into our long-term strategic plan based on their market position, relative profitability or growth potential. These businesses are considered for potential divestiture, restructuring or other repositioning actions subject to regulatory constraints. In 2008 we realized \$909 million in cash proceeds from sales of non-strategic businesses.

In July 2008, the Company completed the sale of its Consumables Solutions business to B/E Aerospace (B/E) for \$1.05 billion, consisting of approximately \$901 million in cash and six million shares of B/E common stock. As discussed in Note 3 to the financial statements, this transaction resulted in a pre- tax gain of \$623 million, \$417 million net of tax. These proceeds, along with our other sources and uses of liquidity, as discussed above, were utilized to invest in our existing core businesses and fund acquisition activity, share repurchases and dividends.

Based on past performance and current expectations, we believe that our operating cash flows will be sufficient to meet our future cash needs. Our available cash, committed credit lines, access to the public debt and equity markets as well as our ability to sell trade accounts receivables, provide additional sources of short-term and long-term liquidity to fund current operations, debt maturities, and future investment opportunities. Based on our current financial position and expected economic performance, we do not believe that our liquidity will be adversely impacted by an inability to access our sources of financing.

Contractual Obligations and Probable Liability Payments

Following is a summary of our significant contractual obligations and probable liability payments at December 31, 2009:

	Total(6)	Payments by Period			Thereafter
		2010	2011- 2012	2013- 2014	
			(Dollars in millions)		
Long-term debt, including capitalized leases(1)	\$ 7,264	\$ 1,018	\$ 926	\$ 1,211	\$ 4,109
Interest payments on long-term debt, including capitalized leases	3,140	297	489	374	1,980
Minimum operating lease payments	1,213	313	419	225	256
Purchase obligations(2)	1,595	806	481	211	97
Estimated environmental liability payments(3)	779	285	290	160	44
Asbestos related liability payments(4)	1,694	654	563	266	211
Asbestos insurance recoveries(5)	(1,003)	(62)	(113)	(100)	(728)

\$ 14,682 \$ 3,311 \$ 3,056 \$ 2,344 \$ 5,971

- (1) Assumes all long-term debt is outstanding until scheduled maturity.
- (2) Purchase obligations are entered into with various vendors in the normal course of business and are consistent with our expected requirements.
- (3) The payment amounts in the table only reflect the environmental liabilities which are probable and reasonably estimable as of December 31, 2009. See Environmental Matters in Note 21 to the financial statements for additional information.
- (4) These amounts are estimates of asbestos related cash payments for

NARCO and Bendix based on our asbestos related liabilities which are probable and reasonably estimable as of December 31, 2009. NARCO estimated payments are based on the terms and conditions, including evidentiary requirements, specified in the definitive agreements or agreements in principle and pursuant to Trust Distribution Procedures. Bendix payments are based on our estimate of pending and future

claims.

Projecting future events is subject to many uncertainties that could cause asbestos liabilities to be higher or lower than those projected and recorded. See Asbestos Matters in Note 21 to the financial statements for additional information.

- (5) These amounts represent probable insurance recoveries through 2018 based on our insurance recoveries that are deemed probable for asbestos related liabilities as of December 31, 2009. See Asbestos Matters in Note 21 to the financial statements for additional information.

- (6) The table excludes

\$720 million
of uncertain
tax positions.
See Note 6 to
the financial
statements.

The table also excludes our pension and other postretirement benefits (OPEB) obligations. During 2010, we plan to make additional voluntary contributions of Honeywell common stock to our U.S. plans to improve the funded status of our plans. We also expect to make contributions to our non-U.S. plans of approximately \$150 million in 2010. Beyond 2010, minimum statutory funding requirements for our U.S. pension plans may become significant. However, the actual amounts required to be contributed are dependent upon, among other things, interest rates, underlying asset returns and the impact of legislative or regulatory actions related to pension funding obligations. Payments due under our OPEB plans are not required to be funded in advance, but are paid as medical costs are incurred by covered retiree populations, and are principally dependent upon the future cost of retiree medical benefits under our plans. We expect our OPEB payments to approximate \$200 million in 2010 net of the benefit of approximately \$14 million from the Medicare prescription subsidy. See Note 22 to the financial statements for further discussion of our pension and OPEB plans.

Off-Balance Sheet Arrangements

Following is a summary of our off-balance sheet arrangements:

Guarantees We have issued or are a party to the following direct and indirect guarantees at December 31, 2009:

	Maximum Potential Future Payments (Dollars in millions)
Operating lease residual values	\$ 35
Other third parties financing	4
Unconsolidated affiliates financing	30
Customer financing	16
	\$ 85

We do not expect that these guarantees will have a material adverse effect on our consolidated results of operations, financial position or liquidity.

In connection with the disposition of certain businesses and facilities we have indemnified the purchasers for the expected cost of remediation of environmental contamination, if any, existing on the date of disposition. Such expected costs are accrued when environmental assessments are made or remedial efforts are probable and the costs can be reasonably estimated.

Retained Interests in Factored Pools of Trade Accounts Receivables As a source of liquidity, we sell interests in designated pools of trade accounts receivables to third parties. The sold receivables (\$500 million at December 31,

2008) are over-collateralized and we retain a subordinated interest in the pool of receivables representing that over-collateralization as well as an undivided interest in the balance of the receivables pools. The over-collateralization provides credit support to the purchasers of the receivable interest by limiting their losses in the event that a portion of the receivables sold becomes uncollectible. In April 2009, we modified the terms of the trade accounts receivable program to permit the repurchase of receivables from the third parties at our discretion. This modification provides additional flexibility in the management of the receivable portfolio and also requires the receivables in the program to remain on the Company balance sheet. As a result, \$500 million of program receivables were reflected as Accounts, notes and other receivables with a

corresponding amount recorded as Short-term borrowings in the Consolidated Balance Sheet. These short-term borrowings were repaid as of December 31, 2009.

Environmental Matters

We are subject to various federal, state, local and foreign government requirements relating to the protection of the environment. We believe that, as a general matter, our policies, practices and procedures are properly designed to prevent unreasonable risk of environmental damage and personal injury and that our handling, manufacture, use and disposal of hazardous substances are in accordance with environmental and safety laws and regulations. However, mainly because of past operations and operations of predecessor companies, we, like other companies engaged in similar businesses, have incurred remedial response and voluntary cleanup costs for site contamination and are a party to lawsuits and claims associated with environmental and safety matters, including past production of products containing hazardous substances. Additional lawsuits, claims and costs involving environmental matters are likely to continue to arise in the future.

With respect to environmental matters involving site contamination, we continually conduct studies, individually or jointly, with other potentially responsible parties, to determine the feasibility of various remedial techniques to address environmental matters. It is our policy (see Note 1 to the financial statements) to record appropriate liabilities for environmental matters when remedial efforts or damage claim payments are probable and the costs can be reasonably estimated. Such liabilities are based on our best estimate of the undiscounted future costs required to complete the remedial work. The recorded liabilities are adjusted periodically as remediation efforts progress or as additional technical or legal information becomes available. Given the uncertainties regarding the status of laws, regulations, enforcement policies, the impact of other potentially responsible parties, technology and information related to individual sites, we do not believe it is possible to develop an estimate of the range of reasonably possible environmental loss in excess of our recorded liabilities. We expect to fund expenditures for these matters from operating cash flow. The timing of cash expenditures depends on a number of factors, including the timing of litigation and settlements of remediation liability, personal injury and property damage claims, regulatory approval of cleanup projects, execution timeframe of projects, remedial techniques to be utilized and agreements with other parties.

Remedial response and voluntary cleanup payments were \$318, \$320 and \$267 million in 2009, 2008 and 2007, respectively, and are currently estimated to be approximately \$285 million in 2010. We expect to fund such expenditures from operating cash flow.

Remedial response and voluntary cleanup costs charged against pretax earnings were \$151, \$466 and \$230 million in 2009, 2008 and 2007, respectively. At December 31, 2009 and 2008, the recorded liabilities for environmental matters was \$779 and \$946 million, respectively. In addition, in 2009 and 2008 we incurred operating costs for ongoing businesses of approximately \$73 and \$69 million, respectively, relating to compliance with environmental regulations.

Although we do not currently possess sufficient information to reasonably estimate the amounts of liabilities to be recorded upon future completion of studies, litigation or settlements, and neither the timing nor the amount of the ultimate costs associated with environmental matters can be determined, they could be material to our consolidated results of operations or operating cash flows in the periods recognized or paid. However, considering our past experience and existing reserves, we do not expect that environmental matters will have a material adverse effect on our consolidated financial position.

See Note 21 to the financial statements for a discussion of our commitments and contingencies, including those related to environmental matters and toxic tort litigation.

Financial Instruments

As a result of our global operating and financing activities, we are exposed to market risks from changes in interest and foreign currency exchange rates and commodity prices, which may adversely affect our operating results and financial position. We minimize our risks from interest and foreign currency exchange rate and commodity price fluctuations through our normal operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. We do

not use derivative financial instruments for trading or other speculative purposes and do not use leveraged derivative financial instruments. A summary of our accounting policies for derivative financial instruments is included in Note 1 to the financial statements. We also hold investments in marketable equity securities, which exposes us to market volatility, as discussed in Note 16 to the financial statements.

We conduct our business on a multinational basis in a wide variety of foreign currencies. Our exposure to market risk from changes in foreign currency exchange rates arises from international financing activities between subsidiaries, foreign currency denominated monetary assets and liabilities and anticipated transactions arising from international trade. Our objective is to preserve the economic value of non-functional currency cash flows. We attempt to hedge transaction exposures with natural offsets to the fullest extent possible and, once these opportunities have been exhausted, through foreign currency forward and option agreements with third parties. Our principal currency exposures relate to the U.S. dollar, Euro, British pound, Canadian dollar, Hong Kong dollar, Mexican peso, Swiss franc, Czech koruna, Chinese renminbi, Indian rupee, and Singapore dollar.

Our exposure to market risk from changes in interest rates relates primarily to our net debt and pension obligations. As described in Notes 14 and 16 to the financial statements, we issue both fixed and variable rate debt and use interest rate swaps to manage our exposure to interest rate movements and reduce overall borrowing costs.

Financial instruments, including derivatives, expose us to counterparty credit risk for nonperformance and to market risk related to changes in interest or currency exchange rates. We manage our exposure to counterparty credit risk through specific minimum credit standards, diversification of counterparties, and procedures to monitor concentrations of credit risk. Our counterparties are substantial investment and commercial banks with significant experience using such derivative instruments. We monitor the impact of market risk on the fair value and expected future cash flows of our derivative and other financial instruments considering reasonably possible changes in interest and currency exchange rates and restrict the use of derivative financial instruments to hedging activities.

The following table illustrates the potential change in fair value for interest rate sensitive instruments based on a hypothetical immediate one-percentage-point increase in interest rates across all maturities, the potential change in fair value for foreign exchange rate sensitive instruments based on a 10 percent weakening of the U.S. dollar versus local currency exchange rates across all maturities, and the potential change in fair value of contracts hedging commodity purchases based on a 20 percent decrease in the price of the underlying commodity across all maturities at December 31, 2009 and 2008.

	Face or Notional Amount	Carrying Value(1)	Fair Value(1)	Estimated Increase (Decrease) In Fair Value
(Dollars in millions)				
December 31, 2009				
Interest Rate Sensitive Instruments				
Long-term debt (including current maturities)	\$ (7,264)	\$ (7,262)	\$ (7,677)	\$ (421)
Interest rate swap agreements	600	(2)	(2)	(23)
Foreign Exchange Rate Sensitive Instruments				
Foreign currency exchange contracts(2)	2,959	8	8	79

**Commodity Price Sensitive
Instruments**

--------------------------------	---	------	------	------

43

- (1) Asset or (liability).
- (2) Changes in the fair value of foreign currency exchange contracts are offset by changes in the fair value or cash flows of underlying hedged foreign currency transactions.
- (3) Changes in the fair value of forward commodity contracts are offset by changes in the cash flows of underlying hedged commodity transactions.

The above discussion of our procedures to monitor market risk and the estimated changes in fair value resulting from our sensitivity analyses are forward-looking statements of market risk assuming certain adverse market conditions occur. Actual results in the future may differ materially from these estimated results due to actual developments in the global financial markets. The methods used by us to assess and mitigate risk discussed above should not be considered projections of future events.

CRITICAL ACCOUNTING POLICIES

The preparation of our consolidated financial statements in accordance with generally accepted accounting principles is based on the selection and application of accounting policies that require us to make significant estimates and assumptions about the effects of matters that are inherently uncertain. We consider the accounting policies discussed below to be critical to the understanding of our financial statements. Actual results could differ from our estimates and assumptions, and any such differences could be material to our consolidated financial statements.

We have discussed the selection, application and disclosure of these critical accounting policies with the Audit Committee of our Board of Directors and our Independent Registered Public Accountants. New accounting standards effective in 2009 which had a material impact on our consolidated financial statements are described in the Recent Accounting Pronouncements section in Note 1 to the financial statements.

Contingent Liabilities We are subject to a number of lawsuits, investigations and claims (some of which involve substantial dollar amounts) that arise out of the conduct of our global business operations or those of previously owned entities. These contingencies primarily relate to product liabilities (including asbestos), contractual matters, and environmental, health and safety matters. We recognize a liability for any contingency that is probable of occurrence and reasonably estimable. We continually assess the likelihood of any adverse judgments or outcomes to our contingencies, as well as potential amounts or ranges of probable losses, and recognize a liability, if any, for these contingencies based on a careful analysis of each matter with the assistance of outside legal counsel and, if applicable, other experts. Such analysis includes making judgments concerning matters such as the costs associated with environmental matters, the outcome of negotiations, the number and cost of pending and future asbestos claims, and the impact of evidentiary requirements. Because most contingencies are resolved over long periods of time, liabilities may change in the future due to new developments (including new discovery of facts, changes in legislation and outcomes of similar cases through the judicial system), changes in assumptions or changes in our settlement strategy. For a discussion of our contingencies related to environmental, asbestos and other matters, including management's judgment applied in the recognition and measurement of specific liabilities, see Notes 1 and 21 to the financial statements.

Asbestos Related Contingencies and Insurance Recoveries We are a defendant in personal injury actions related to products containing asbestos (refractory and friction products). We recognize a liability for any asbestos related contingency that is probable of occurrence and reasonably estimable. Regarding North American Refractories Company (NARCO) asbestos related claims, we accrue for pending claims based on terms and conditions, including evidentiary requirements, in definitive agreements or agreements in principle with current claimants. We also accrued for the probable value of future NARCO asbestos related claims through 2018 based on the disease criteria and payment values contained in the NARCO trust as described in Note 21 to the financial statements. In light of the inherent uncertainties in making long term projections regarding claims filing rates and disease manifestation, we do not believe that we have a reasonable basis for estimating NARCO asbestos claims beyond 2018. Regarding Bendix asbestos related claims, we accrue for the estimated value of

pending claims based on expected claim resolution values and historic dismissal rates. We also accrue for the estimated cost of future anticipated claims related to Bendix for the next five years based on our assessment of additional claims that may be brought against us and anticipated resolution values in the tort system. We value Bendix pending and future claims using the average resolution values for the previous four years. We will continue to update the expected resolution values used to estimate the cost of pending and future Bendix claims during the fourth quarter each year. For additional information see Note 21 to the financial statements. We continually assess the likelihood of any adverse judgments or outcomes to our contingencies, as well as potential ranges of probable losses and recognize a liability, if any, for these contingencies based on an analysis of each individual issue with the assistance of outside legal counsel and, if applicable, other experts.

In connection with the recognition of liabilities for asbestos related matters, we record asbestos related insurance recoveries that are deemed probable. In assessing the probability of insurance recovery, we make judgments concerning insurance coverage that we believe are reasonable and consistent with our historical experience with our insurers, our knowledge of any pertinent solvency issues surrounding insurers, various judicial determinations relevant to our insurance programs and our consideration of the impacts of any settlements with our insurers. At December 31, 2009, we have recorded insurance receivables of \$831 million that can be specifically allocated to NARCO related asbestos liabilities. We also have \$1.9 billion in coverage remaining for Bendix related asbestos liabilities although there are gaps in our coverage due to insurance company insolvencies, certain uninsured periods and insurance settlements. Our insurance is with both the domestic insurance market and the London excess market. While the substantial majority of our insurance carriers are solvent, some of our individual carriers are insolvent, which has been considered in our analysis of probable recoveries. Projecting future events is subject to various uncertainties that could cause the insurance recovery on asbestos related liabilities to be higher or lower than that projected and recorded. Given the inherent uncertainty in making future projections, we reevaluate our projections concerning our probable insurance recoveries in light of any changes to the projected liability, our recovery experience or other relevant factors that may impact future insurance recoveries. See Note 21 to the financial statements for a discussion of management's judgments applied in the recognition and measurement of insurance recoveries for asbestos related liabilities.

Defined Benefit Pension Plans We maintain defined benefit pension plans covering a majority of our employees and retirees. For financial reporting purposes, net periodic pension expense is calculated based upon a number of actuarial assumptions, including a discount rate for plan obligations and an expected long-term rate of return on plan assets. We determine the expected long-term rate of return on plan assets utilizing historic and expected plan asset returns over varying long-term periods combined with current market conditions and broad asset mix considerations (see Note 22 to the financial statements for details on the actual various asset classes and targeted asset allocation percentages for our pension plans). The discount rate reflects the market rate on December 31 (measurement date) for high-quality fixed-income investments with maturities corresponding to our benefit obligations and is subject to change each year. Further information on all our major actuarial assumption is included in Note 22 to the financial statements.

The key assumptions used in developing our 2009, 2008 and 2007 net periodic pension expense for our U.S. plans included the following:

	2009	2008	2007
Discount rate	6.95 %	6.50 %	6.00 %
Assets:			
Expected rate of return	9 %	9 %	9 %
Actual rate of return	20 %	(29 %)	9 %
Actual 10 year average annual compounded rate of return	4 %	4 %	9 %

The discount rate can be volatile from year to year because it is determined based upon prevailing interest rates as of the measurement date. We will use a 5.75 percent discount rate in 2010, reflecting the decrease in the market interest

rate environment since December 31, 2008. We plan to continue to use an expected rate of return on plan assets of 9 percent for 2010 as this is a long-term rate based on historical plan asset returns over varying long-term periods combined with current market conditions and broad asset mix considerations. The net losses for our pension plans were \$7.6 billion at December

31, 2009 compared with \$6.0 billion at December 31, 2008. This increase of \$1.6 billion is due primarily to lower discount rates in our plans partially offset by asset gains due to the performance of the equity markets in 2009. The net losses at December 31, 2009 principally result from lower discount rates in 2009 and actual plan asset returns below expected rates of return in 2008. As discussed in detail in Note 22 to the financial statements such losses have been recognized as a component of other comprehensive income (loss), net of tax. In the future we will continue to systematically recognize such net losses in net periodic pension expense. We use the market-related value of plan assets reflecting changes in the fair value of plan assets over a three-year period. Further, net losses in excess of 10 percent of the greater of the market-related value of plan assets or the plans' projected benefit obligation (the corridor) are recognized over a six-year period.

Changes in net periodic pension expense may occur in the future due to changes in our expected rate of return on plan assets and discount rate resulting from economic events. The following table highlights the sensitivity of our U.S. pension obligations and expense to changes in these assumptions, assuming all other assumptions remain constant:

Change in Assumption	Impact on Annual Pension Expense	Impact on PBO
0.25 percentage point decrease in discount rate	Increase \$50 million	Increase \$350 million
0.25 percentage point increase in discount rate	Decrease \$50 million	Decrease \$350 million
0.25 percentage point decrease in expected rate of return on assets	Increase \$27 million	
0.25 percentage point increase in expected rate of return on assets	Decrease \$27 million	

Net periodic pension expense for our pension plans is expected to be approximately \$820 million in 2010, a \$712 million increase from 2009 due principally to an increase in the amortization of net losses in our U.S. plans. The increase in the amortization of net losses results principally from asset losses due to the poor performance of the equity markets in 2008.

In 2009, 2008 and 2007 we were not required to make contributions to satisfy minimum statutory funding requirements in our U.S. pension plans. However, we made voluntary contributions of \$740, \$242 and \$42 million to our U.S. pension plans in 2009, 2008 and 2007, respectively, primarily to improve the funded status of our plans which deteriorated during 2008 due to the significant asset losses resulting from the poor performance of the equity markets. During 2010, we plan to make additional voluntary contributions of Honeywell common stock to our U.S. plans to improve the funded status of our plans. Beyond 2010, minimum statutory funding requirements for our U.S. pension plans may become significant. However, the actual amounts required to be contributed are dependent upon, among other things, interest rates, underlying asset returns and the impact of legislative or regulatory changes related to pension funding obligations. We also expect to contribute approximately \$150 to our non-U.S. defined benefit pension plans in 2010 to satisfy regulatory funding standards.

Long-Lived Assets (including Tangible and Definite-Lived Intangible Assets) To conduct our global business operations and execute our business strategy, we acquire tangible and intangible assets, including property, plant and equipment and definite-lived intangible assets. At December 31, 2009, the net carrying amount of these long-lived assets totaled \$6.6 billion. The determination of useful lives (for depreciation/amortization purposes) and whether or not these assets are impaired involves the use of accounting estimates and assumptions, changes in which could materially impact our financial condition or operating performance if actual results differ from such estimates and assumptions. We periodically evaluate the recoverability of the carrying amount of our long-lived assets whenever events or changes in circumstances indicate that the carrying amount of a long-lived asset group may not be fully recoverable. The principal factors we consider in deciding when to perform an impairment review are as follows:

significant under-performance (i.e., declines in sales, earnings or cash flows) of a business or product line in relation to expectations;

annual operating plans or five-year strategic plans that indicate an unfavorable trend in operating performance of a business or product line;

significant negative industry or economic trends;
and

significant
changes
or
planned
changes
in our use
of the
assets.

Once it is determined that an impairment review is necessary, recoverability of assets is measured by comparing the carrying amount of the asset grouping to the estimated future undiscounted cash flows. If the carrying amount exceeds the estimated future undiscounted cash flows, the asset grouping is considered to be impaired. The impairment is then measured as the difference between the carrying amount of the asset grouping and its fair value. We endeavor to utilize the best information available to measure fair value, which is usually either market prices (if available), level 1 or level 2 in the fair value hierarchy or an estimate of the future discounted cash flow, level 3 of the fair value hierarchy. The key estimates in our discounted cash flow analysis include expected industry growth rates, our assumptions as to volume, selling prices and costs, and the discount rate selected. As described in more detail in Note 16 to the financial statements, we have recorded impairment charges related to long-lived assets of \$28 and \$78 million in 2009 and 2008, respectively, principally related to manufacturing plant and equipment in facilities scheduled to close or be downsized.

Goodwill Impairment Testing Goodwill represents the excess of acquisition costs over the fair value of the net tangible assets and identifiable intangible assets acquired in a business combination. Goodwill is not amortized, but is subject to impairment testing. Our Goodwill balance, \$10.5 billion as of December 31, 2009, is subject to impairment testing annually as of March 31, or whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. This testing compares carrying values to fair values and, when appropriate, the carrying value is reduced to fair value. The fair value of our reporting units is estimated utilizing a discounted cash flow approach utilizing cash flow forecasts in our five year strategic and annual operating plans adjusted for terminal value assumptions. This impairment test involves the use of accounting estimates and assumptions, changes in which could materially impact our financial condition or operating performance if actual results differ from such estimates and assumptions. To address this uncertainty we perform sensitivity analysis on key estimates and assumptions.

We completed our annual impairment test as of March 31, 2009 and determined that there was no impairment as of that date. Given the significant changes in the business climate and decline in mid-range forecasts for certain of our reporting units we re-tested goodwill for impairment in the second half of 2009. No impairment was indicated by this interim test. However, significant negative industry or economic trends, disruptions to our business, unexpected significant changes or planned changes in use of the assets, divestitures and market capitalization declines may have a negative effect on the fair value of our reporting units.

Income Taxes Deferred tax assets and liabilities are determined based on the difference between the financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Our provision for income taxes is based on domestic and international statutory income tax rates in the jurisdictions in which we operate. Significant judgment is required in determining income tax provisions as well as deferred tax asset and liability balances, including the estimation of valuation allowances and the evaluation of tax positions.

As of December 31, 2009, we recognized a net deferred tax asset of \$3,028 million, less a valuation allowance of \$578 million. Net deferred tax assets are primarily comprised of net deductible temporary differences, net operating loss carryforwards and tax credit carryforwards that are available to reduce taxable income in future periods. The determination of the amount of valuation allowance to be provided on recorded deferred tax assets involves estimates regarding (1) the timing and amount of the reversal of taxable temporary differences, (2) expected future taxable

income, and (3) the impact of tax planning strategies. A valuation allowance is established to offset any deferred tax assets if, based upon the available evidence it is more likely than not that some or all of the deferred tax asset will not be realized. In assessing the need for a valuation allowance, we consider all available positive and negative evidence, including past operating results, projections of future taxable income and the feasibility of ongoing tax planning strategies. The projections of future taxable income include a number of estimates and assumptions regarding our volume, pricing and costs. Additionally, valuation allowances related to deferred tax assets can be impacted by changes to tax laws.

Our net deferred tax asset of \$3,028 million is comprised of \$2,132 million related to U.S. operations and \$896 million related to non-U.S. operations. The U.S. net deferred tax asset of \$2,132

million is comprised of net deductible temporary differences, tax credit carryforwards and state tax net operating losses which we believe will more likely than not be realized through the generation of future taxable income in the U.S. and tax planning strategies. We maintain a valuation allowance of \$8 million against such asset related to state net operating losses. The non-U.S. net deferred tax asset of \$896 million is comprised principally of net operating and capital loss carryforwards, mainly in Germany, Luxembourg, Netherlands and the United Kingdom. We maintain a valuation allowance of \$570 million against these deferred tax assets reflecting our historical experience and lower expectations of taxable income over the applicable carryforward periods. As more fully described in Note 6 to the financial statements, our valuation allowance increased by \$133 million in 2009 and decreased by \$45 million and \$26 million in 2008 and 2007, respectively. In the event we determine that we will not be able to realize our net deferred tax assets in the future, we will reduce such amounts through a charge to income in the period such determination is made. Conversely, if we determine that we will be able to realize net deferred tax assets in excess of the carrying amounts, we will decrease the recorded valuation allowance through a credit to income in the period that such determination is made.

Significant judgment is required in determining income tax provisions and in evaluating tax positions. We establish additional provisions for income taxes when, despite the belief that tax positions are fully supportable, there remain certain positions that do not meet the minimum probability threshold, as defined by the authoritative guidance for uncertainty in income taxes, which is a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority. In the normal course of business, the Company and its subsidiaries are examined by various Federal, State and foreign tax authorities. We regularly assess the potential outcomes of these examinations and any future examinations for the current or prior years in determining the adequacy of our provision for income taxes. We continually assess the likelihood and amount of potential adjustments and adjust the income tax provision, the current tax liability and deferred taxes in the period in which the facts that give rise to a revision become known.

Sales Recognition on Long-Term Contracts In 2009, we recognized approximately 15 percent of our total net sales using the percentage-of-completion method for long-term contracts in our Automation and Control Solutions, Aerospace and Specialty Materials segments. These long-term contracts are measured on the cost-to-cost basis for engineering-type contracts and the units-of-delivery basis for production-type contracts. Accounting for these contracts involves management judgment in estimating total contract revenue and cost. Contract revenues are largely determined by negotiated contract prices and quantities, modified by our assumptions regarding contract options, change orders, incentive and award provisions associated with technical performance and price adjustment clauses (such as inflation or index-based clauses). Contract costs are incurred over a period of time, which can be several years, and the estimation of these costs requires management judgment. Cost estimates are largely based on negotiated or estimated purchase contract terms, historical performance trends and other economic projections. Significant factors that influence these estimates include inflationary trends, technical and schedule risk, internal and subcontractor performance trends, business volume assumptions, asset utilization, and anticipated labor agreements. Revenue and cost estimates are regularly monitored and revised based on changes in circumstances. Anticipated losses on long-term contracts are recognized when such losses become evident. We maintain financial controls over the customer qualification, contract pricing and estimation processes to reduce the risk of contract losses.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS
(Dollars in millions, except per share amounts)

Note 1 Summary of Significant Accounting Policies

Accounting Principles The financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America. The following is a description of the significant accounting policies of Honeywell International Inc.

Principles of Consolidation The consolidated financial statements include the accounts of Honeywell International Inc. and all of its subsidiaries and entities in which a controlling interest is maintained. Our consolidation policy requires the consolidation of entities where a controlling financial interest is obtained as well as consolidation of variable interest entities in which we bear a majority of the risk to the entities' potential losses or stand to gain from a majority of the entities' expected returns. All intercompany transactions and balances are eliminated in consolidation.

Cash and Cash Equivalents Cash and cash equivalents include cash on hand and on deposit and highly liquid, temporary cash investments with an original maturity of three months or less.

Inventories Inventories are valued at the lower of cost or market using the first-in, first-out or the average cost method and the last-in, first-out (LIFO) method for certain qualifying domestic inventories.

Investments Investments in affiliates over which we have a significant influence, but not a controlling interest, are accounted for using the equity method of accounting. Other investments are carried at market value, if readily determinable, or at cost. All equity investments are periodically reviewed to determine if declines in fair value below cost basis are other-than-temporary. Significant and sustained decreases in quoted market prices or a series of historic and projected operating losses by investees are strong indicators of other-than-temporary declines. If the decline in fair value is determined to be other-than-temporary, an impairment loss is recorded and the investment is written down to a new carrying value.

Property, Plant and Equipment Property, plant and equipment are recorded at cost, including any asset retirement obligations, less accumulated depreciation. For financial reporting, the straight-line method of depreciation is used over the estimated useful lives of 10 to 50 years for buildings and improvements and 2 to 16 years for machinery and equipment. Recognition of the fair value of obligations associated with the retirement of tangible long-lived assets is required when there is a legal obligation to incur such costs. Upon initial recognition of a liability, the cost is capitalized as part of the related long-lived asset and depreciated over the corresponding asset's useful life. See Note 11 and Note 17 for additional details.

Goodwill and Indefinite-Lived Intangible Assets Goodwill represents the excess of acquisition costs over the fair value of tangible net assets and identifiable intangible assets of businesses acquired. Goodwill and certain other intangible assets deemed to have indefinite lives are not amortized. Intangible assets determined to have definite lives are amortized over their useful lives. Goodwill and indefinite lived intangible assets are subject to impairment testing annually as of March 31, or whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. This testing compares carrying values to fair values and, when appropriate, the carrying value of these assets is reduced to fair value. We completed our annual goodwill impairment test as of March 31, 2009 and determined that there was no impairment as of that date. See Note 12 for additional details on goodwill balances.

Other Intangible Assets with Determinable Lives Other intangible assets with determinable lives consist of customer lists, technology, patents and trademarks and other intangibles and are amortized over their estimated useful lives, ranging from 2 to 24 years.

Long-Lived Assets We periodically evaluate the recoverability of the carrying amount of long-lived assets (including property, plant and equipment and intangible assets with determinable lives) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable. We evaluate events or changes in circumstances based on a number of factors including operating results, business plans and forecasts, general and industry trends and, economic

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

projections and anticipated cash flows. An impairment is assessed when the undiscounted expected future cash flows derived from an asset are less than its carrying amount. Impairment losses are measured as the amount by which the carrying value of an asset exceeds its fair value and are recognized in earnings. We also continually evaluate the estimated useful lives of all long-lived assets and periodically revise such estimates based on current events.

Sales Recognition Product and service sales are recognized when persuasive evidence of an arrangement exists, product delivery has occurred or services have been rendered, pricing is fixed or determinable, and collection is reasonably assured. Service sales, principally representing repair, maintenance and engineering activities in our Aerospace and Automation and Control Solutions segments, are recognized over the contractual period or as services are rendered. Sales under long-term contracts in the Aerospace and Automation and Control Solutions segments are recorded on a percentage-of-completion method measured on the cost-to-cost basis for engineering-type contracts and the units-of-delivery basis for production-type contracts. Provisions for anticipated losses on long-term contracts are recorded in full when such losses become evident. Revenues from contracts with multiple element arrangements are recognized as each element is earned based on the relative fair value of each element provided the delivered elements have value to customers on a standalone basis. Amounts allocated to each element are based on its objectively determined fair value, such as the sales price for the product or service when it is sold separately or competitor prices for similar products or services.

Allowance for Doubtful Accounts We maintain allowances for doubtful accounts for estimated losses as a result of customer's inability to make required payments. We estimate anticipated losses from doubtful accounts based on days past due, as measured from the contractual due date, historical collection history and incorporate changes in economic conditions that may not be reflected in historical trends for example, customers in bankruptcy, liquidation or reorganization. Receivables are written-off against the allowance for doubtful accounts when they are determined uncollectible. Such determination includes analysis and consideration of the particular conditions of the account, including time intervals since last collection, success of outside collection agencies activity, solvency of customer and any bankruptcy proceedings.

Environmental Expenditures Environmental expenditures that relate to current operations are expensed or capitalized as appropriate. Expenditures that relate to an existing condition caused by past operations, and that do not provide future benefits, are expensed as incurred. Liabilities are recorded when environmental remedial efforts or damage claim payments are probable and the costs can be reasonably estimated. Such liabilities are based on our best estimate of the undiscounted future costs required to complete the remedial work. The recorded liabilities are adjusted periodically as remediation efforts progress or as additional technical, regulatory or legal information becomes available. Given the uncertainties regarding the status of laws, regulations, enforcement policies, the impact of other potentially responsible parties, technology and information related to individual sites, we do not believe it is possible to develop an estimate of the range of reasonably possible environmental loss in excess of our recorded liabilities.

Asbestos Related Contingencies and Insurance Recoveries Honeywell is a defendant in personal injury actions related to products containing asbestos (refractory and friction products). We recognize a liability for any asbestos related contingency that is probable of occurrence and reasonably estimable. Regarding North American Refractories Company (NARCO) asbestos related claims, we accrue for pending claims based on terms and conditions, including evidentiary requirements, in definitive agreements or agreements in principle with current claimants. We also accrue for the probable value of future NARCO asbestos related claims through 2018 based on the disease criteria and payment values contained in the NARCO trust as described in Note 21. In light of the inherent uncertainties in making long term projections regarding claims filing rates and disease manifestation, we do not believe that we have a reasonable basis for estimating NARCO asbestos claims beyond

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

2018. Regarding Bendix asbestos related claims, we accrue for the estimated value of pending claims based on expected claim resolution values and historic dismissal rates. We also accrue for the estimated cost of future anticipated claims related to Bendix for the next five years based on our assessment of additional claims that may be brought against us and anticipated resolution values in the tort system. We value Bendix pending and future claims using average resolution values for the previous four years. We will continue to update the expected resolution values used to estimate the cost of pending and future Bendix claims during the fourth quarter each year. For additional information see Note 21. We continually assess the likelihood of any adverse judgments or outcomes to our contingencies, as well as potential ranges of probable losses and recognize a liability, if any, for these contingencies based on an analysis of each individual issue with the assistance of outside legal counsel and, if applicable, other experts.

In connection with the recognition of liabilities for asbestos related matters, we record asbestos related insurance recoveries that are deemed probable. In assessing the probability of insurance recovery, we make judgments concerning insurance coverage that we believe are reasonable and consistent with our historical experience with our insurers, our knowledge of any pertinent solvency issues surrounding insurers, various judicial determinations relevant to our insurance programs and our consideration of the impacts of any settlements with our insurers.

Aerospace Sales Incentives We provide sales incentives to commercial aircraft manufacturers and airlines in connection with their selection of our aircraft equipment, predominately wheel and braking system hardware and auxiliary power units, for installation on commercial aircraft. These incentives principally consist of free or deeply discounted products, but also include credits for future purchases of product and upfront cash payments. These costs are recognized in the period incurred as cost of products sold or as a reduction to sales, as appropriate. For aircraft manufacturers, incentives are recorded when the products are delivered; for airlines, incentives are recorded when the associated aircraft are delivered by the aircraft manufacturer to the airline.

Research and Development Research and development costs for company-sponsored research and development projects are expensed as incurred. Such costs are principally included in Cost of Products Sold and were \$1,330, \$1,543 and \$1,459 million in 2009, 2008 and 2007, respectively.

Stock-Based Compensation Plans The principal awards issued under our stock-based compensation plans, which are described in Note 20, include non-qualified stock options and restricted stock units (RSUs). The cost for such awards is measured at the grant date based on the fair value of the award. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods (generally the vesting period of the equity award) and is included in selling, general and administrative expense in our Consolidated Statement of Operations. Forfeitures are required to be estimated at the time of grant in order to estimate the portion of the award that will ultimately vest. The estimate is based on our historical rates of forfeiture.

Pension and Other Postretirement Benefits We sponsor both funded and unfunded U.S. and non-U.S. defined benefit pension plans covering the majority of our employees and retirees. We also sponsor postretirement benefit plans that provide health care benefits and life insurance coverage to eligible retirees. For our U.S. defined benefit pension plans we use the market-related value of plan assets reflecting changes in the fair value of plan assets over a three-year period. Further, net actuarial (gains) or losses in excess of 10 percent of the greater of the market-related value of plan assets or the plans' projected benefit obligation (the corridor) are recognized over a six-year period.

Foreign Currency Translation Assets and liabilities of subsidiaries operating outside the United States with a functional currency other than U.S. dollars are translated into U.S. dollars using year-end exchange rates. Sales, costs and expenses are translated at the average exchange rates in effect during the year. Foreign currency translation gains

and losses are included as a component of Accumulated Other Comprehensive Income (Loss). For subsidiaries operating in highly inflationary

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

environments, inventories and property, plant and equipment, including related expenses, are remeasured at the exchange rate in effect on the date the assets were acquired, while monetary assets and liabilities are remeasured at year-end exchange rates. Remeasurement adjustments for these subsidiaries are included in earnings.

Derivative Financial Instruments As a result of our global operating and financing activities, we are exposed to market risks from changes in interest and foreign currency exchange rates and commodity prices, which may adversely affect our operating results and financial position. We minimize our risks from interest and foreign currency exchange rate and commodity price fluctuations through our normal operating and financing activities and, when deemed appropriate through the use of derivative financial instruments. Derivative financial instruments are used to manage risk and are not used for trading or other speculative purposes and we do not use leveraged derivative financial instruments. Derivative financial instruments used for hedging purposes must be designated and effective as a hedge of the identified risk exposure at the inception of the contract. Accordingly, changes in fair value of the derivative contract must be highly correlated with changes in fair value of the underlying hedged item at inception of the hedge and over the life of the hedge contract.

All derivatives are recorded on the balance sheet as assets or liabilities and measured at fair value. For derivatives designated as hedges of the fair value of assets or liabilities, the changes in fair values of both the derivatives and the hedged items are recorded in current earnings. For derivatives designated as cash flow hedges, the effective portion of the changes in fair value of the derivatives are recorded in Accumulated Other Comprehensive Income (Loss) and subsequently recognized in earnings when the hedged items impact earnings. Cash flows of such derivative financial instruments are classified consistent with the underlying hedged item.

Transfers of Financial Instruments Sales, transfers and securitization of financial instruments are accounted for under authoritative guidance for the transfers and servicing of financial assets and extinguishments of liabilities. We sell interests in designated pools of trade accounts receivables to third parties. The receivables are removed from the Consolidated Balance Sheet at the time they are sold. The value assigned to our subordinated interests and undivided interests retained in trade receivables sold is based on the relative fair values of the interests retained and sold. The carrying value of the retained interests approximates fair value due to the short-term nature of the collection period for the receivables.

Income Taxes Deferred tax liabilities or assets reflect temporary differences between amounts of assets and liabilities for financial and tax reporting. Such amounts are adjusted, as appropriate, to reflect changes in tax rates expected to be in effect when the temporary differences reverse. A valuation allowance is established to offset any deferred tax assets if, based upon the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. The determination of the amount of a valuation allowance to be provided on recorded deferred tax assets involves estimates regarding (1) the timing and amount of the reversal of taxable temporary differences, (2) expected future taxable income, and (3) the impact of tax planning strategies. In assessing the need for a valuation allowance, we consider all available positive and negative evidence, including past operating results, projections of future taxable income and the feasibility of ongoing tax planning strategies. The projections of future taxable income include a number of estimates and assumptions regarding our volume, pricing and costs. Additionally, valuation allowances related to deferred tax assets can be impacted by changes to tax laws.

Significant judgment is required in determining income tax provisions and in evaluating tax positions. We establish additional provisions for income taxes when, despite the belief that tax positions are fully supportable, there remain certain positions that do not meet the minimum probability threshold, as defined by the authoritative guidance for uncertainty in income taxes, which is a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority. In the normal course of business, the Company and its subsidiaries are examined by

various

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Federal, State and foreign tax authorities. We regularly assess the potential outcomes of these examinations and any future examinations for the current or prior years in determining the adequacy of our provision for income taxes. We continually assess the likelihood and amount of potential adjustments and adjust the income tax provision, the current tax liability and deferred taxes in the period in which the facts that give rise to a revision become known.

In June 2006, the Financial Accounting Standards Board (FASB) issued guidance for accounting for uncertainty in income taxes, which establishes a single model to address accounting for uncertain tax positions. The guidance clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. The guidance also provides guidance on derecognition, measurement classification, interest and penalties, accounting in interim periods, disclosure and transition. Upon adoption as of January 1, 2007, we reduced our existing reserves for uncertain tax positions by \$33 million, largely related to a reduction in state income tax matters, partially offset by a net increase for federal and international tax reserves.

Earnings Per Share Basic earnings per share is based on the weighted average number of common shares outstanding. Diluted earnings per share is based on the weighted average number of common shares outstanding and all dilutive potential common shares outstanding.

Use of Estimates The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the financial statements and related disclosures in the accompanying notes. Actual results could differ from those estimates. Estimates and assumptions are periodically reviewed and the effects of revisions are reflected in the consolidated financial statements in the period they are determined to be necessary.

Reclassifications Certain prior year amounts have been reclassified to conform to the current year presentation.

Recent Accounting Pronouncements In September 2006, the Financial Accounting Standards Board (FASB) issued new accounting guidance on fair value measurements. This guidance establishes a common definition for fair value to be applied to U.S. GAAP requiring use of fair value, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements. It is effective for financial assets and financial liabilities for fiscal years beginning after November 15, 2007. Issued in February 2008, a FASB staff position removed leasing transactions from the scope of the new fair value guidance. Also in February 2008, the FASB issued authoritative guidance deferring the effective date of the fair value guidance for all nonfinancial assets and nonfinancial liabilities to fiscal years beginning after November 15, 2008.

In September 2009, the FASB issued additional guidance on measuring the fair value of liabilities effective for the first reporting period (including interim periods) beginning after issuance. Implementation did not have a material impact on our consolidated financial position and results of operations.

The implementation of the fair value guidance for nonfinancial assets and nonfinancial liabilities, effective January 1, 2009, did not have a material impact on our consolidated financial position and results of operations. See Note 16 for additional fair value information and disclosure for financial and nonfinancial assets and liabilities.

In December 2007, the FASB issued new guidance on business combinations. The new standard provides revised guidance on how acquirors recognize and measure the consideration transferred, identifiable assets acquired, liabilities assumed, noncontrolling interests, and goodwill acquired in a business combination. The new standard also expands required disclosures surrounding the nature and financial effects of business combinations. The standard is effective,

on a prospective basis, for fiscal years beginning after December 15, 2008. Upon adoption, this standard did not have a material

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

impact on our consolidated financial position and results of operations. However, if the Company enters into any business combinations after the adoption of the new guidance on business combinations, a transaction may significantly impact the Company's consolidated financial position and results of operations as compared to the Company's recent acquisitions, accounted for under prior GAAP requirements, due to the changes described above.

In April 2009, the FASB issued a staff position amending and clarifying the new business combination standard to address application issues associated with initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. The staff position is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In December 2007, the FASB issued new guidance on noncontrolling interests which establishes requirements for ownership interests in subsidiaries held by parties other than the Company (sometimes called minority interests) to be clearly identified, presented, and disclosed in the consolidated statement of financial position within equity, but separate from the parent's equity. All changes in the parent's ownership interests are required to be accounted for consistently as equity transactions and any noncontrolling equity investments in unconsolidated subsidiaries must be measured initially at fair value. The new guidance is effective, on a prospective basis, for fiscal years beginning after December 15, 2008. However, presentation and disclosure requirements must be retrospectively applied to comparative financial statements. Upon adoption of the new guidance on noncontrolling interest the Company reclassified \$82 million and \$71 million of noncontrolling interest from other liabilities to noncontrolling interest as a separate component of shareholders' equity in our consolidated balance sheet as of December 31, 2008 and 2007, respectively and \$20 million and \$16 million of noncontrolling interest expense to net income attributable to noncontrolling interest in our statement of operations for the years ended December 31, 2008 and 2007, respectively. See statement of shareholders' equity for additional disclosures regarding noncontrolling interest components of other comprehensive income. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In November 2008, the FASB ratified an issue providing guidance for accounting for defensive intangible assets subsequent to their acquisition in accordance with the new business combination and fair value standards, including the estimated useful life that should be assigned to such assets. The new guidance is effective for intangible assets acquired on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In April 2009, the FASB issued a staff position which changes the method for determining whether an other-than-temporary impairment exists for debt securities and the amount of the impairment to be recorded in earnings. The guidance is effective for interim and annual periods ending after June 15, 2009. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In May 2009, the FASB issued new guidance on subsequent events. The standard provides guidance on management's assessment of subsequent events and incorporates this guidance into accounting literature. The standard is effective prospectively for interim and annual periods ending after June 15, 2009. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations. The Company has evaluated subsequent events through February 12, 2010, the date of issuance of our consolidated financial statements.

In June 2009, the FASB issued an amendment to the accounting and disclosure requirements for transfers of financial assets. The guidance requires additional disclosures for transfers of financial

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

assets and changes the requirements for derecognizing financial assets. The guidance is effective for fiscal years beginning after November 15, 2009. The implementation of this standard will not have a material impact on our consolidated financial position and results of operations.

In June 2009, the FASB issued an amendment to the accounting and disclosure requirements for the consolidation of variable interest entities. The guidance affects the overall consolidation analysis and requires enhanced disclosures on involvement with variable interest entities. The guidance is effective for fiscal years beginning after November 15, 2009. The implementation of this standard will not have a material impact on our consolidated financial position and results of operations.

In October 2009, the FASB issued amendments to the accounting and disclosure for revenue recognition. These amendments, effective for fiscal years beginning on or after June 15, 2010 (early adoption is permitted), modify the criteria for recognizing revenue in multiple element arrangements and the scope of what constitutes a non-software deliverable. The Company has elected to early adopt this guidance, on a prospective basis for applicable transactions originating or materially modified after January 1, 2010. The implementation of this amended accounting guidance is not expected to have a material impact on our consolidated financial position and results of operations.

Note 2 Acquisitions and Divestitures

We acquired businesses for an aggregate cost of \$468, \$2,181 and \$1,190 million in 2009, 2008 and 2007, respectively. For all of our acquisitions the acquired businesses were recorded at their estimated fair values at the dates of acquisition. Significant acquisitions made in these years are discussed below.

In August 2009, the Company completed the acquisition of the RMG Group (RMG Regel + Messtechnik GmbH), a natural gas measuring and control products, services and integrated solutions company, for a purchase price of approximately \$416 million, net of cash acquired. The purchase price for the acquisition was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date. The Company has assigned \$174 million to identifiable intangible assets, predominantly customer relationships, existing technology and trademarks. These intangible assets are being amortized over their estimated lives using straight-line and accelerated amortization methods. The excess of the purchase price over the estimated fair values of net assets acquired (approximating \$225 million), was recorded as goodwill. This goodwill is non-deductible for tax purposes. This acquisition was accounted for by the acquisition method, and, accordingly, results of operations are included in the consolidated financial statements from the date of acquisition. The results from the acquisition date through December 31, 2009 are included in the Automation and Control Solutions segment and were not material to the consolidated financial statements. As of December 31, 2009, the purchase accounting for the RMG Group is still subject to adjustment primarily for useful lives of intangible assets, amounts allocated to intangible assets and goodwill, and for certain pre-acquisition contingencies.

In May 2008, the Company completed the acquisition of Safety Products Holding, Inc, which through its subsidiary Norcross Safety Products L.L.C. (Norcross) is a leading manufacturer of personal protective equipment. The purchase price, net of cash acquired, was approximately \$1.2 billion and was allocated to tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

The following table summarizes the estimated fair values of the assets and liabilities acquired as of the acquisition date.

Accounts and other receivables	\$ 102
Inventories	118
Other current assets	28
Property, plant and equipment	65
Intangible assets	702
Other assets and deferred charges	3
Accounts payable	(27)
Accrued liabilities	(74)
Deferred income taxes	(274)
Other long-term liabilities	(26)
Net assets acquired	617
Goodwill	604
Purchase price	\$ 1,221

The Company has assigned \$702 million to intangible assets, predominantly customer relationships, trade names, and technology. These intangibles assets are being amortized over their estimated lives using straight line and accelerated amortization methods. The value assigned to the trade names of approximately \$257 million is classified as an indefinite lived intangible. The excess of the purchase price over the estimated fair values of net assets acquired (approximately \$604 million) was recorded as goodwill. This goodwill is non-deductible for tax purposes. This acquisition was accounted for by the purchase method, and, accordingly, results of operations are included in the consolidated financial statements from the date of acquisition. The results from the acquisition date through December 31, 2008 are included in the Automation and Control Solutions segment and were not material to the consolidated financial statements.

In July 2008, the Company completed the sale of its Consumables Solutions business to B/E Aerospace (B/E) for \$1.05 billion, consisting of approximately \$901 million in cash and six million shares of B/E common stock. In connection with the completion of the sale, the Company and B/E entered into, among other things, exclusive supply and license agreements and a stockholder agreement. Because of the extent of the Company's cash flows associated with the supply and license agreements, the Consumables Solutions business is not classified as discontinued operations. The provisions of the license and supply agreements were determined to be at-market. As such, we have not allocated any portion of the proceeds to these agreements. The pre-tax gain of \$623 million was classified as Other (Income)/Expense in our Statement of Operations. The gain on sale was approximately \$417 million net of tax. The sale of the Consumables Solutions business, within the Aerospace segment, is consistent with the Company's strategic focus on core product areas utilizing advanced technologies.

In July 2008, the Company completed the acquisition of Metrologic Instruments, Inc. (Metrologic), a leading manufacturer of data capture and collection hardware and software, for a purchase price of approximately \$715

million, net of cash acquired. The purchase price for the acquisition was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at acquisition date. The Company has assigned \$248 million to identifiable intangible assets, predominantly customer relationships, technology and trademarks. These intangible assets are being amortized over their estimated lives which range from 1-15 years using straight line and accelerated amortization methods. The excess of the purchase price over the estimated fair values of net assets acquired (approximately \$440 million) was recorded as goodwill. This goodwill is non-deductible for tax purposes. This acquisition was accounted for by the purchase method, and, accordingly, results of operations are included in the consolidated financial statements from the date of

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

acquisition. The results from the acquisition date through December 31, 2008, are included in the Automation and Control Solutions segment and were not material to the consolidated financial statements.

In December 2007, the Company, specifically the Automation and Control Solutions segment, completed the acquisition of Maxon Corporation, a leading industrial combustion business, for a purchase price of approximately \$185 million. The purchase price for the acquisition was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at acquisition date. The Company has assigned \$70 million to identifiable intangible assets, predominantly customer relationships and trademarks. These intangible assets are being amortized over their estimated lives which range from 7-20 years using straight line and accelerated amortization methods. The value assigned to the trade marks of approximately \$10 million is classified as an indefinite lived intangible. The excess of the purchase price over the estimated fair values of net assets acquired approximating \$114 million, was recorded as goodwill. This goodwill is non-deductible for tax purposes. This acquisition was accounted for by the purchase method, and, accordingly, results of operations are included in the consolidated financial statements from the date of acquisition. The results from the acquisition date through December 31, 2007 were not material to the consolidated financial statements.

In December 2007, the Company, specifically the Automation and Control Solutions segment, completed the acquisition of Hand Held Products, Inc. a privately held automatic identification and data collection company, for a purchase price of approximately \$390 million. The purchase price for the acquisition was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date. The Company has assigned \$101 million to identifiable intangible assets, predominantly customer relationships and existing technology. These intangible assets are being amortized over their estimated lives which range from 1 to 15 years using straight-line and accelerated amortization methods. The excess of the purchase price over the estimated fair values of net assets acquired approximating \$257 million, was recorded as goodwill. This goodwill is non-deductible for tax purposes. This acquisition was accounted for by the purchase method, and, accordingly, results of operations are included in the consolidated financial statements from the date of acquisition. The results from the acquisition date through December 31, 2007 were not material to the consolidated financial statements.

In July 2007, the Company completed the acquisition of Dimensions International, a defense logistics business, for a purchase price of approximately \$233 million. The purchase price for the acquisition was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date. The Company has assigned \$21 million to identifiable intangible assets, predominantly contractual relationships. These intangible assets are being amortized over their estimated life of 5 years using straight-line and accelerated amortization methods. The excess of the purchase price over the estimated fair values of net assets acquired approximating \$183 million, was recorded as goodwill. Goodwill will be deducted over a 15 year period for tax purposes. This acquisition was accounted for by the purchase method, and, accordingly, results of operations are included in the consolidated financial statements from the date of acquisition. The results from the acquisition date through December 31, 2007 are included in the Aerospace segment and were not material to the consolidated financial statements.

In July 2007, the Company completed the acquisition of Enraf Holding B.V., a provider of comprehensive solutions for the control and management of transportation, storage and blending operations in the oil and gas industry, for a purchase price of approximately \$264 million, including the assumption of approximately \$40 million of debt. The purchase price for the acquisition was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition date. The Company has assigned \$90 million to identifiable intangible assets, predominantly customer relationships, existing technology and trademarks. The

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

remaining intangible assets are being amortized over their estimated life of 8-15 years using straight-line and accelerated amortization methods. The value assigned to the trademarks of approximately \$27 million is classified as an indefinite lived intangible. The excess of the purchase price over the estimated fair values of net assets acquired approximating \$167 million, was recorded as goodwill. This goodwill is non-deductible for tax purposes. This acquisition was accounted for by the purchase method, and, accordingly, results of operations are included in the consolidated financial statements from the date of acquisition. The results from the acquisition date through December 31, 2007 are included in the Automation and Control Solutions segment and were not material to the consolidated financial statements.

In connection with all acquisitions in 2009, 2008 and 2007, the amounts recorded for transaction costs and the costs of integrating the acquired businesses into Honeywell were not material.

The pro forma results for 2009, 2008 and 2007, assuming these acquisitions had been made at the beginning of the year, would not be materially different from consolidated reported results.

Note 3 Repositioning and Other Charges

A summary of repositioning and other charges follows:

	Years Ended December 31,		
	2009	2008	2007
Severance	\$ 206	\$ 333	\$ 186
Asset impairments	8	78	14
Exit costs	10	33	9
Reserve adjustments	(53)	(20)	(18)
Total net repositioning charge	171	424	191
Asbestos related litigation charges, net of insurance	155	125	100
Probable and reasonably estimable environmental liabilities	145	465	225
Business impairment charges			9
Other	7	(2)	18
Total net repositioning and other charges	\$ 478	\$ 1,012	\$ 543

The following table summarizes the pretax distribution of total net repositioning and other charges by income statement classification.

	Years Ended December 31,		
	2009	2008	2007
Cost of products and services sold	\$ 411	\$ 908	\$ 495

Selling, general and administrative expenses	67	104	48
	\$ 478	\$ 1,012	\$ 543

The following table summarizes the pretax impact of total net repositioning and other charges by segment.

	Years Ended December 31,		
	2009	2008	2007
Aerospace	\$ 31	\$ 84	\$ 37
Automation and Control Solutions	70	164	127
Specialty Materials	9	42	14
Transportation Systems	173	233	119
Corporate	195	489	246
	\$ 478	\$ 1,012	\$ 543

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

In 2009, we recognized repositioning charges totaling \$224 million primarily for severance costs related to workforce reductions of 4,423 manufacturing and administrative positions mainly in our Automation and Control Solutions, Transportation Systems and Aerospace segments. The workforce reductions were primarily related to the adverse market conditions experienced by many of our businesses, cost savings actions taken in connection with our ongoing functional transformation initiative, the planned downsizing or shutdown of certain manufacturing facilities, and organizational realignments of portions of our Aerospace and Transportation Systems segments. Also, \$53 million of previously established accruals, primarily for severance at our Automation and Control Solutions, Aerospace, and Transportation Systems segments, were returned to income in 2009 due to fewer employee separations than originally planned associated with prior severance programs and changes in the scope of previously announced repositioning actions.

In 2008, we recognized repositioning charges totaling \$444 million including severance costs of \$333 million related to workforce reductions of 7,480 manufacturing and administrative positions across all of our segments. The workforce reductions primarily relate to the planned downsizing or shutdown of certain manufacturing facilities in our Aerospace, Automation and Control Solutions and Transportation Systems segments, the rationalization of non-manufacturing infrastructure, outsourcing of non-core components, managing capacity utilization to address product demand volatility and our functional transformation initiative. The repositioning charge also included asset impairments of \$78 million principally related to manufacturing plant and equipment in facilities scheduled to close or be downsized and certain administrative facilities, and information technology equipment in our Corporate segment. Also, \$20 million of previously established accruals, primarily for severance at our Automation and Control Solutions segment were returned to income in 2008 due mainly to fewer employee separations than originally planned associated with prior severance programs.

In 2007, we recognized repositioning charges totaling \$209 million primarily for severance costs related to workforce reductions of 3,408 manufacturing and administrative positions mainly in our Automation and Control Solutions and Aerospace segments. Also, \$18 million of previously established accruals, primarily for severance at our Transportation Systems and Aerospace segments, were returned to income in 2007 due mainly to changes in the scope of previously announced severance programs and due to fewer employee separations than originally planned associated with prior severance programs.

The following table summarizes the status of our total repositioning reserves.

	Severance Costs	Asset Impairments	Exit Costs	Total
Balance at December 31, 2006	\$ 118	\$	\$ 9	\$ 127
2007 charges	186	14	9	209
2007 usage	(85)	(14)	(7)	(106)
Adjustments	(18)			(18)
Balance at December 31, 2007	201		11	212
2008 charges	333	78	33	444
2008 usage	(149)	(78)	(8)	(235)

Adjustments	(20)			(20)
Balance at December 31, 2008	365		36	401
2009 charges	206	8	10	224
2009 usage	(193)	(8)	(7)	(208)
Adjustments	(51)		(2)	(53)
Divestitures(1)	(24)			(24)
Balance at December 31, 2009	\$ 303	\$	\$ 37	\$ 340

(1) relates to businesses divested during 2009 included in Gain on Sale of Non-Strategic Businesses and Assets see Note 4, Other (Income) Expense.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Certain repositioning projects in our Aerospace, Automation and Control Solutions and Transportation Systems segments included exit or disposal activities, the costs related to which, will be recognized in future periods when the actual liability is incurred. The nature of these exit or disposal costs principally includes product recertification and requalification and employee training and travel. The following table summarizes by segment, expected, incurred and remaining exit and disposal costs related to 2008 repositioning actions which we were not able to recognize at the time the actions were initiated. The exit and disposal costs related to the 2009 repositioning actions which we were not able to recognize at the time the actions were initiated were not significant.

	Aerospace	Automation and Control Solutions	Transportation Systems	Total
Expected exit and disposal costs	\$ 96	\$ 27	\$ 6	\$ 129
Costs incurred year ended December 31, 2008	(12)		(1)	(13)
Costs incurred year ended December 31, 2009	(44)	(1)	(2)	(47)
Remaining exit and disposal costs at December 31, 2009	\$ 40	\$ 26	\$ 3	\$ 69

In 2009, we recognized a charge of \$145 million for environmental liabilities deemed probable and reasonably estimable during the year. We recognized asbestos related litigation charges, net of insurance, of \$155 million. Environmental and Asbestos Matters are discussed in detail in Note 21.

In 2008, we recognized a charge of \$465 million for environmental liabilities deemed probable and reasonably estimable during the year, of which \$309 million was recognized in the third quarter which included:

\$100 million related to the resolution of technical design issues regarding the remediation plan for Onondaga Lake (Lake) (as previously reported, the ultimate cost of the remediation of the Lake

depended upon
the resolution
of these
issues);

\$90 million for
the estimated
cost of
proposed
remedial
actions to be
taken at other
sites located in
Syracuse, New
York in
accordance
with
remediation
plans
submitted to
state
environmental
regulators;

\$38 million
primarily
related to
changes in cost
estimates (due
to, among
other things,
increases in
the cost of
steel, waste
transportation
and disposal
costs) and
settlement
costs relating
to the
remediation of
the New Jersey
Chrome sites
known as
Study Areas 5,
6 and 7.

We also recognized asbestos related litigation charges, net of insurance, of \$125 million.

In 2007, we recognized a charge of \$225 million for environmental liabilities deemed probable and reasonably estimable during the year. We recognized asbestos related litigation charges, net of insurance, of \$100 million. We recognized other charges of \$18 million for a business sales tax related to a prior divestiture (\$8 million) and for

contemplated settlements of certain legal matters (\$10 million). We also recognized impairment charges of \$9 million related to the write-down of property, plant and equipment held for sale in our Specialty Materials segment.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Note 4 Other (Income)/Expense

	Years Ended December 31,		
	2009	2008	2007
Gain on sale of non-strategic businesses and assets	\$ (87)	\$ (635)	\$ (19)
Equity (income)/loss of affiliated companies	(26)	(63)	(10)
Interest income	(33)	(102)	(81)
Foreign exchange	45	52	34
Other (net)	46	0	7
	\$ (55)	\$ (748)	\$ (69)

Gain on sale of non-strategic businesses and assets for 2009 includes a \$50 million pre-tax gain, \$42 million net of tax, related to the deconsolidation of a subsidiary within our Automation and Control Solutions segment. The subsidiary achieved contractual milestones at December 31, 2009 and as a result, we are no longer the primary beneficiary, resulting in deconsolidation. We continue to hold a non-controlling interest which was recorded at its estimated fair value of \$67 million upon deconsolidation. The fair value was estimated using a combination of a market and income approaches utilizing observable market data for comparable businesses and discounted cash flow modeling. Our non-controlling interest, classified within Investments and long-term receivables on our Balance Sheet will be accounted for under the equity method on a prospective basis.

Other (net) for 2009 includes an other-than-temporary impairment charge of \$62 million recognized in the second quarter of 2009. See Note 16, Financial Instruments and Fair Value Measures for further details.

Gain on sale of non-strategic businesses and assets for 2008 includes a \$623 million pre-tax gain related to the sale of our Consumables Solutions business. See Note 2 for further details.

Note 5 Interest and Other Financial Charges

	Years Ended December 31,		
	2009	2008	2007
Total interest and other financial charges	\$ 474	\$ 482	\$ 478
Less capitalized interest	(15)	(26)	(22)
	\$ 459	\$ 456	\$ 456

The weighted average interest rate on short-term borrowings and commercial paper outstanding at December 31, 2009 and 2008 was 1.47 percent and 1.63 percent, respectively.

Note 6 Income Taxes

Income from continuing operations before taxes

	2009	2008	2007
The U.S. statutory federal income tax rate is reconciled to our effective income tax rate as follows:			
Statutory U.S. federal income tax rate	35.0 %	35.0 %	35.0 %
Taxes on foreign earnings below U.S. tax rate(1)	(6.2)	(6.5)	(4.7)
State income taxes(1)	1.7	1.8	.9

Manufacturing incentives	(1.0)	(.7)	(.8)
ESOP dividend tax benefit	(.8)	(.5)	(.5)
Tax credits	(1.2)	(1.0)	(.6)
Audit settlements	(.5)	(1.5)	(2.9)
All other items net	(.5)	(.2)	(.1)
	26.5 %	26.4 %	26.3 %

- (1) Net of changes in valuation allowance.

The effective tax rate increased by 0.1 of a percentage point in 2009 compared with 2008 due principally to a decreased impact from the settlement of audits, partially offset by increased benefits from (i) U.S. manufacturing incentives, (ii) U.S. tax credits and (iii) employee stock ownership plan (ESOP) dividends.

Deferred tax assets (liabilities)

Deferred income taxes represent the future tax effects of transactions which are reported in different periods for tax and financial reporting purposes. The tax effects of temporary differences and tax carryforwards which give rise to future income tax benefits and payables are as follows:

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

	December 31,	
	2009	2008
Property, plant and equipment basis differences	\$ (888)	\$ (605)
Postretirement benefits other than pensions and post employment benefits	785	876
Investment and other asset basis differences	(758)	(598)
Other accrued items	3,035	2,477
Net operating and capital losses	818	740
Tax credits	137	87
Undistributed earnings of subsidiaries	(40)	(40)
All other items net	(61)	(175)
	3,028	2,762
Valuation allowance	(578)	(445)
	\$ 2,450	\$ 2,317

There were \$1 million of U.S. federal tax net operating losses available for carryforward at December 31, 2009 which were generated by certain subsidiaries prior to their acquisition and have expiration dates through 2024. The use of pre-acquisition operating losses is subject to limitations imposed by the Internal Revenue Code. We do not anticipate that these limitations will affect utilization of the carryforwards prior to their expiration. The Company has state tax net operating loss carryforwards of \$2.8 billion at December 31, 2009 with varying expiration dates through 2024. We also have foreign net operating and capital losses of \$2.8 billion which are available to reduce future income tax payments in several countries, subject to varying expiration rules.

We have state tax credit carryforwards of \$58 million at December 31, 2009, including carryforwards of \$32 million with various expiration dates through 2024 and tax credits of \$26 million which are not subject to expiration.

The valuation allowance against deferred tax assets increased by \$133 million in 2009 and decreased by \$45 million and \$26 million in 2008 and 2007, respectively. The 2009 increase in the valuation allowance was primarily due to increased foreign net operating losses related to Germany, Luxembourg, and the Netherlands. The 2008 decrease in the valuation allowance was primarily due to a decrease in the valuation allowance related to federal and state capital loss carryforwards partially offset by increased foreign net operating losses. The 2007 decrease in the valuation allowance was primarily due to a decrease in valuation allowances related to state and foreign net operating losses partially offset by a valuation allowance against U.S. capital losses.

Federal income taxes have not been provided on undistributed earnings of the majority of our international subsidiaries as it is our intention to reinvest these earnings into the respective subsidiaries. At December 31, 2009 Honeywell has not provided for U.S. federal income and foreign withholding taxes on approximately \$5.1 billion of such earnings of our non-U.S. operations. It is not practicable to estimate the amount of tax that might be payable if some or all of such earnings were to be repatriated, and foreign tax credits would be available to reduce or eliminate the resulting U.S. income tax liability.

We had \$720 million, \$671 million and \$666 million of unrecognized tax benefits as of December 31, 2009, 2008, and 2007 respectively. If recognized, \$720 million would be recorded as a component of income tax expense as of December 31, 2009. For the years ended December 31, 2009 and 2008, the Company increased its unrecognized tax benefits by \$49 million and \$5 million, respectively, due to additional reserves for various international and U.S. tax audit matters, partially offset by adjustments related to our ongoing assessments of the likelihood and amount of potential outcomes of current and future examinations, the expiration of various statute of limitations, and settlements with tax authorities. The following table summarizes the activity related to our unrecognized tax benefits:

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

	2009	2008	2007
Change in unrecognized tax benefits:			
Balance at beginning of year	\$ 671	\$ 666	\$ 744
Gross increases related to current period tax positions	86	81	68
Gross increases related to prior periods tax positions	86	106	100
Gross decreases related to prior periods tax positions	(77)	(54)	(167)
Decrease related to settlements with tax authorities	(44)	(42)	(101)
Expiration of the statute of limitations for the assessment of taxes	(8)	(64)	
Foreign currency translation	6	(22)	22
Balance at end of year	\$ 720	\$ 671	\$ 666

In many cases our uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. The following table summarizes these open tax years by major jurisdiction as of December 31, 2009:

Jurisdiction	Open Tax Year			
	Examination in progress		Examination not yet initiated	
United States(1)	1998	2007	2005	2008
United Kingdom	2002	2007	2008	2009
Canada(1)	2004	2008	2009	
Germany(1)	2004	2008	2009	
France	N/A		2000	2009
Netherlands	N/A		2007	2009
Australia	2005	2007	2008	2009
China	2007	2008	2009	
India	1999	2007	2008	2009

(1) includes federal as well as state, provincial or similar local jurisdictions, as applicable

Based on the outcome of these examinations, or as a result of the expiration of statute of limitations for specific jurisdictions, it is reasonably possible that the related unrecognized tax benefits for tax positions taken regarding previously filed tax returns will materially change from those recorded as liabilities for uncertain tax positions in our financial statements. In addition, the outcome of these examinations may impact the valuation of certain deferred tax assets (such as net operating losses) in future periods. Based on the number of tax years currently under audit by the relevant U.S federal, state and foreign tax authorities, the Company anticipates that several of these audits may be finalized in the foreseeable future. However, based on the status of these examinations, the protocol of finalizing audits by the relevant taxing authorities, and the possibility that the Company might challenge certain audit findings (which could include formal legal proceedings) at this time it is not possible to estimate the impact of any amount of such changes, if any, to previously recorded uncertain tax positions.

Unrecognized tax benefits for the above listed examinations in progress were \$261 million, \$249 million and \$199 million, as of December 31, 2009, 2008, and 2007, respectively. These increases are primarily due to an increase in tax examinations and fewer settlements during the year. Estimated interest and penalties related to the underpayment of income taxes are classified as a component of Tax Expense in the Consolidated Statement of Operations and totaled \$13 million, \$19 million and \$20 million for the years ended December 31, 2009, 2008, and 2007 respectively. Accrued interest and penalties were \$150 million, \$137 million and \$118 million, as of December 31, 2009, 2008, and 2007, respectively.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Note 7 Earnings (Loss) Per Share

The following table sets forth the computations of basic and diluted earnings (loss) per share:

Basic	2009	2008	2007
Net income attributable to Honeywell	\$ 2,153	\$ 2,792	\$ 2,444
Weighted average number of common shares outstanding	752,620,148	736,763,174	764,543,613
Earnings per share of common stock	\$ 2.86	\$ 3.79	\$ 3.20

Assuming Dilution	2009	2008	2007
Net income attributable to Honeywell	\$ 2,153	\$ 2,792	\$ 2,444

Average Shares

Weighted average number of common shares outstanding	\$ 752,620,148	\$ 736,763,174	\$ 764,543,613
Dilutive securities issuable in connection with stock plans	3,100,413	6,767,253	9,683,868
Total weighted average number of common shares outstanding	755,720,561	743,530,427	774,227,481
Earnings (loss) per share of common stock	\$ 2.85	\$ 3.76	\$ 3.16

The diluted earnings per share calculation excludes the effect of stock options when the options exercise prices exceed the average market price of the common shares during the period. In 2009, 2008 and 2007, the number of stock options not included in the computation were 33,962,053, 17,825,720 and 8,599,620, respectively. These stock options were outstanding at the end of each of the respective years.

Note 8 Accounts, Notes and Other Receivables

	December 31,	
	2009	2008
Trade	\$ 6,183	\$ 5,893
Other	326	422
	6,509	6,315
Less Allowance for doubtful accounts	(235)	(186)

\$	6,274	\$	6,129
----	-------	----	-------

Trade Accounts Receivable includes \$1,167 and \$1,195 million of unbilled balances under long-term contracts as of December 31, 2009 and 2008, respectively. These amounts are billed in accordance with the terms of the customer contracts to which they relate.

We sell interests in designated pools of trade accounts receivables to third parties. The sold receivables (\$500 million at December 31, 2008) were over-collateralized and we retained a subordinated interest in the pool of receivables representing that over-collateralization as well as an undivided interest in the balance of the receivables pools. The over-collateralization provides credit support to the purchasers of the receivable interest by limiting their losses in the event that a portion of the receivables sold becomes uncollectible. In April 2009, we modified the terms of the trade accounts receivable program to permit the repurchase of receivables from the third parties at our discretion. This modification provides additional flexibility in the management of the receivable portfolio and also requires the receivables in the program to remain on the Company balance sheet. As a result, \$500 million of program receivables were reflected as Accounts, notes and other receivables with a corresponding amount recorded as Short-term borrowings in the Consolidated Balance Sheet. These short-term borrowings were repaid as of December 31, 2009. This modification also results in the

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

program costs being recognized as Interest and other financial charges in the Consolidated Statement of Operations on a prospective basis.

Note 9 Inventories

	December 31,	
	2009	2008
Raw materials	\$ 1,291	\$ 1,644
Work in process	832	952
Finished products	1,484	1,415
	3,607	4,011
Less		
Progress payments		(3)
Reduction to LIFO cost basis	(161)	(160)
	\$ 3,446	\$ 3,848

Inventories valued at LIFO amounted to \$211 and \$269 million at December 31, 2009 and 2008, respectively. Had such LIFO inventories been valued at current costs, their carrying values would have been approximately \$161 and \$160 million higher at December 31, 2009 and 2008, respectively.

During the year ended December 31, 2009, the quantity of inventory valued using the last-in, first-out (LIFO) method in our Specialty Materials segment declined. This reduction resulted in a liquidation of LIFO inventory quantities carried at lower costs prevailing in prior years as compared with the cost of 2009 purchases, the effect of which decreased cost of products sold by \$12 million during the year ended December 31, 2009.

Note 10 Investments and Long-Term Receivables

	December 31,	
	2009	2008
Investments	\$ 262	\$ 153
Long-term trade and other receivables	175	209
Long-term financing receivables	142	308
	\$ 579	\$ 670

Long-Term Trade and Other Receivables includes \$27 and \$36 million of unbilled balances under long-term contracts as of December 31, 2009 and 2008, respectively. These amounts are billed in accordance with the terms of the

customer contracts to which they relate.

Note 11 Property, Plant and Equipment

	December 31,	
	2009	2008
Land and improvements	\$ 513	\$ 475
Machinery and equipment	9,982	10,075
Buildings and improvements	2,621	2,429
Construction in progress	405	407
	13,521	13,386
Less Accumulated depreciation and amortization	(8,674)	(8,452)
	\$ 4,847	\$ 4,934

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Depreciation expense was \$707, \$702 and \$675 million in 2009, 2008 and 2007, respectively.

Note 12 Goodwill and Other Intangibles Net

The change in the carrying amount of goodwill for the years ended December 31, 2009 and 2008 by segment are as follows:

	December 31, 2008	Acquisitions	Divestitures	Currency Translation Adjustment	December 31, 2009
Aerospace	\$ 1,882	\$	\$	\$ 9	\$ 1,891
Automation and Control Solutions	6,638	253	(1)	28	6,918
Specialty Materials	1,151	10		3	1,164
Transportation Systems	514			7	521
	\$ 10,185	\$ 263	\$ (1)	\$ 47	\$ 10,494

	December 31, 2007	Acquisitions	Divestitures	Currency Translation Adjustment	December 31, 2008
Aerospace	\$ 1,939	\$ 60	\$ (72)	\$ (45)	\$ 1,882
Automation and Control Solutions	5,529	1,149		(40)	6,638
Specialty Materials	1,156			(5)	1,151
Transportation Systems	551			(37)	514
	\$ 9,175	\$ 1,209	\$ (72)	\$ (127)	\$ 10,185

Intangible assets are comprised of:

	December 31, 2009			December 31, 2008		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Intangible assets with determinable lives:						

Patents and technology	\$ 1,053	\$ (595)	\$ 458	\$ 1,030	\$ (494)	\$ 536
Customer relationships	1,359	(282)	1,077	1,250	(175)	1,075
Trademarks	164	(62)	102	164	(50)	114
Other	514	(406)	108	501	(362)	139
	3,090	(1,345)	1,745	2,945	(1,081)	1,864
Trademarks with indefinite lives	429		429	403		403
	\$ 3,519	\$ (1,345)	\$ 2,174	\$ 3,348	\$ (1,081)	\$ 2,267

Intangible assets amortization expense was \$250, \$201 and \$162 million in 2009, 2008 and 2007, respectively. Estimated intangible assets amortization expense for each of the next five years approximates \$245 million in 2010, \$227 million in 2011, \$215 million in 2012, \$192 million in 2013 and \$173 million in 2014.

2014	606
Thereafter	4,109
	7,264
Less current portion	(1,018)
	\$ 6,246

We maintain a \$2.8 billion five year committed revolving credit facility with a group of banks, arranged by Citigroup Global Markets Inc. and J.P.Morgan Securities Inc. which is in place through mid-May 2012. This credit facility contains a \$700 million sub-limit for the issuance of letters of credit. The \$2.8 billion credit facility is maintained for general corporate purposes, including support for the issuance of commercial paper. We had no borrowings outstanding or letters of credit issued under the credit facility at December 31, 2009.

The credit agreement does not restrict our ability to pay dividends and contains no financial covenants. The failure to comply with customary conditions or the occurrence of customary events default contained in the credit agreement would prevent any further borrowings and would generally require the repayment of any outstanding borrowings under the credit agreement. Such events of default include: (a) non-payment of credit agreement debt, interest or fees; (b) non-compliance with the terms of the credit agreement covenants; (c) cross-default to other debt in certain circumstances; (d) bankruptcy; and (e) defaults upon obligations under Employee Retirement Income Security Act. Additionally, each of the banks has the right to terminate its commitment to lend additional funds or issue letters of credit under the agreement if any person or group acquires beneficial ownership of 30 percent or more of our voting stock, or, during any 12-month period, individuals who were directors of Honeywell at the beginning of the period cease to constitute a majority of the Board of Directors (the Board).

Loans under the credit facility are required to be repaid no later than May 14, 2012. We have agreed to pay a facility fee of 0.05 percent per annum on the aggregate commitment.

Interest on borrowings under the credit facility would be determined, at Honeywell's option, by (a) an auction bidding procedure; (b) the highest of the floating base rate publicly announced by Citibank, N.A., 0.5 percent above the average CD rate, or 0.5 percent above the Federal funds rate; or (c) the Eurocurrency rate plus 0.15 percent (applicable margin).

The facility fee, the applicable margin over the Eurocurrency rate and the letter of credit issuance fee, are subject to change, based upon a grid determined by our long term debt ratings. The credit agreement is not subject to termination based upon a decrease in our debt ratings or a material adverse change.

In February 2009, the Company issued \$600 million 3.875% Senior Notes due 2014 and \$900 million 5.00% Senior Notes due 2019 (collectively, the 2009 Senior Notes). The 2009 Senior Notes are senior unsecured and unsubordinated obligations of Honeywell and rank equally with all of Honeywell s existing and future senior unsecured debt and senior to all of Honeywell s subordinated debt. The offering resulted in gross proceeds of \$1.5 billion, offset by \$12 million in discount and issuance costs.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

In the first quarter of 2009, the Company repaid \$493 million of its floating rate notes. In the third quarter of 2009, the Company repaid \$500 million of its floating rate notes and \$100 million of its zero coupon bonds and money multiplier notes.

Note 15 Lease Commitments

Future minimum lease payments under operating leases having initial or remaining noncancellable lease terms in excess of one year are as follows:

	At December 31, 2009
2010	\$ 313
2011	245
2012	174
2013	125
2014	100
Thereafter	256
	\$ 1,213

We have entered into agreements to lease land, equipment and buildings. Principally all our operating leases have initial terms of up to 25 years, and some contain renewal options subject to customary conditions. At any time during the terms of some of our leases, we may at our option purchase the leased assets for amounts that approximate fair value. We do not expect that any of our commitments under the lease agreements will have a material adverse effect on our consolidated results of operations, financial position or liquidity.

Rent expense was \$371, \$383 and \$365 million in 2009, 2008 and 2007, respectively.

Note 16 Financial Instruments and Fair Value Measures

Credit and Market Risk Financial instruments, including derivatives, expose us to counterparty credit risk for nonperformance and to market risk related to changes in interest and currency exchange rates and commodity prices. We manage our exposure to counterparty credit risk through specific minimum credit standards, diversification of counterparties, and procedures to monitor concentrations of credit risk. Our counterparties in derivative transactions are substantial investment and commercial banks with significant experience using such derivative instruments. We monitor the impact of market risk on the fair value and cash flows of our derivative and other financial instruments considering reasonably possible changes in interest rates, currency exchange rates and commodity prices and restrict the use of derivative financial instruments to hedging activities.

We continually monitor the creditworthiness of our customers to which we grant credit terms in the normal course of business. The terms and conditions of our credit sales are designed to mitigate or eliminate concentrations of credit risk with any single customer. Our sales are not materially dependent on a single customer or a small group of

customers.

Foreign Currency Risk Management We conduct our business on a multinational basis in a wide variety of foreign currencies. Our exposure to market risk for changes in foreign currency exchange rates arises from international financing activities between subsidiaries, foreign currency denominated monetary assets and liabilities and transactions arising from international trade. Our objective is to preserve the economic value of non-functional currency denominated cash flows. We attempt to hedge transaction exposures with natural offsets to the fullest extent possible and, once these opportunities have been exhausted, through foreign currency exchange forward and option contracts with third parties.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

We hedge monetary assets and liabilities denominated in non-functional currencies. Prior to conversion into U.S. dollars, these assets and liabilities are remeasured at spot exchange rates in effect on the balance sheet date. The effects of changes in spot rates are recognized in earnings and included in Other (Income) Expense.

We partially hedge forecasted sales and purchases, which predominantly occur in the next twelve months and are denominated in non-functional currencies, with currency forward contracts. Changes in the forecasted non-functional currency cash flows due to movements in exchange rates are substantially offset by changes in the fair value of the currency forward contracts designated as hedges. Market value gains and losses on these contracts are recognized in earnings when the hedged transaction is recognized.

Open foreign currency exchange forward contracts mature predominantly in the next twelve months. At December 31, 2009 and 2008, we had contracts with notional amounts of \$2,959 and \$3,030 million, respectively to exchange foreign currencies, principally the U.S. dollar, Euro, British pound, Canadian dollar, Hong Kong dollar, Mexican peso, Swiss franc, Czech koruna, Chinese renminbi, Indian rupee and Singapore dollar.

Commodity Price Risk Management Our exposure to market risk for commodity prices can result in changes in our cost of production. We primarily mitigate our exposure to commodity price risk through the use of long-term, fixed-price contracts with our suppliers and formula price agreements with suppliers and customers. We also enter into forward commodity contracts with third parties designated as hedges of anticipated purchases of several commodities. Forward commodity contracts are marked-to-market, with the resulting gains and losses recognized in earnings when the hedged transaction is recognized. At December 31, 2009 and 2008, we had contracts with notional amounts of \$52 and \$8 million, respectively, related to forward commodity agreements, principally base metals and natural gas.

Interest Rate Risk Management We use a combination of financial instruments, including long-term, medium-term and short-term financing, variable-rate commercial paper, and interest rate swaps to manage the interest rate mix of our total debt portfolio and related overall cost of borrowing. At December 31, 2009, interest rate swap agreements designated as fair value hedges effectively changed \$600 million of fixed rate debt at a rate of 3.875 percent to LIBOR based floating debt. Our interest rate swaps mature in 2014. At December 31, 2008, we had no interest rate swap agreements.

Fair Value of Financial Instrument The FASB's accounting guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The FASB's guidance classifies the inputs used to measure fair value into the following hierarchy:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, or
Unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or
Inputs other than quoted prices that are observable for the asset or liability
- Level 3 Unobservable inputs for the asset or liability

The Company endeavors to utilize the best available information in measuring fair value. Financial and nonfinancial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company has determined that our financial assets and

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

liabilities are level 2 in the fair value hierarchy. The following table sets forth the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of December 31, 2009 and 2008:

	December 31,	
	2009	2008
Assets:		
Foreign currency exchange contracts	\$ 11	\$ 7
Available for sale investments	141	23
Interest rate swap agreements	1	
Forward commodity contracts	4	
Liabilities:		
Foreign currency exchange contracts	\$ 3	\$ 34
Interest rate swap agreements	3	
Forward commodity contracts		4

The foreign currency exchange contracts, interest rate swap agreements, and forward commodity contracts are valued using broker quotations, or market transactions in either the listed or over-the-counter markets. As such, these derivative instruments are classified within level 2. The Company also holds investments in marketable equity securities that are designated as available for sale and are valued using market transactions in over-the-counter markets. As such, these investments are classified within level 2.

The carrying value of cash and cash equivalents, trade accounts and notes receivables, payables, commercial paper and short-term borrowings contained in the Consolidated Balance Sheet approximates fair value. The following table sets forth the Company's financial assets and liabilities that were not carried at fair value:

	December 31,			
	2009		2008	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Long-term receivables	\$ 317	\$ 303	\$ 517	\$ 471
Cost method marketable equity securities			74	18
Liabilities:				
Long-term debt and related current maturities.	\$ 7,262	\$ 7,677	\$ 6,888	\$ 7,082

At December 31, 2009, the Company had assets with a net book value of \$72 million, specifically property, plant and equipment and intangible assets, which were accounted for at fair value on a nonrecurring basis. These assets were tested for impairment and based on the fair value of these assets the Company recognized losses of \$28 million in 2009. The Company has determined that the fair value measurements of these nonfinancial assets are level 3 in the fair value hierarchy.

The Company holds investments in marketable equity securities that are designated as available for sale securities. The Company considers duration of the unrealized loss position, stability of the liquidity positions and financial conditions of the investees, and the Company's intent and ability to hold these investments for a reasonable period of time sufficient for a forecasted recovery of fair value, in determining other than temporary impairments. As a result of an other-than-temporary decline in fair value of these investments, the Company recognized an impairment charge of \$62 million in the second quarter of 2009 that is included in Other (Income) Expense.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

The derivatives utilized for risk management purposes as detailed above are included on the Consolidated Balance Sheet and impacted the Statement of Operations as follows:

Fair value of asset derivatives consist of the following:

Designated as a Hedge	Balance Sheet Location	December 31,	
		2009	2008
	Accounts, notes and other receivables	\$ 8	\$ 2
Foreign currency exchange contracts			
Interest rate swap agreements	Other assets	1	
	Accounts, notes and other receivables	4	
Commodity contracts			

Not Designated as a Hedge	Balance Sheet Location		
	Accounts notes and other receivables	\$ 3	\$ 5
Foreign currency exchange contracts			

Fair value of liability derivatives consist of the following:

Designated as a Hedge	Balance Sheet Location	December 31,	
		2009	2008
Foreign currency exchange contracts	Accrued liabilities	\$ 1	\$ 19
Interest rate swap agreements	Accrued liabilities	3	
Commodity contracts	Accrued liabilities		4
Not Designated as a Hedge	Balance Sheet Location		
Foreign currency exchange contracts	Accrued liabilities	\$ 3	\$ 14

Gains (losses) recognized in OCI consist of the following:

	December 31,	
Designated as a Cash Flow Hedge	2009	
Foreign currency exchange contracts	\$	18
Commodity contracts		(1)

Gains (losses) reclassified from AOCI to income (Effective Portions) consist of the following:

Designated as a Cash Flow Hedge	Income Statement Location	December 31,	
		2009	
Foreign currency exchange contracts	Product sales	\$	54
	Cost of products sold		(44)
	Selling general and administrative		(1)
Commodity contracts	Cost of products sold		(7)

Ineffective portions of commodity derivative instruments designated in cash flow hedge relationships were less than \$1 million in 2009 and are located in cost of products sold. Foreign currency exchange contracts in cash flow hedge relationships qualify as critical matched terms hedge relationships and as a result have no ineffectiveness.

Interest rate swap agreements are designated as hedge relationships with gains or (losses) on the derivative recognized in Interest and other financial charges offsetting the gains and losses on the underlying debt being hedged. Losses on interest rate swap agreements recognized in earnings were \$2 million in 2009. These losses were fully off-set by gains on the underlying debt being hedged.

We also economically hedge our exposure to changes in foreign exchange rates principally with forward contracts. These contracts are marked-to-market with the resulting gains and losses similarly recognized in earnings offsetting the gains and losses on the non-functional currency denominated monetary assets and liabilities being hedged. For the year ended December 31, 2009, we recognized \$85 million of expense in Other (income) expense.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Note 17 Other Liabilities

Other liabilities consist of the following:

	December 31,	
	2009	2008
Pension and other employee related	\$ 4,842	\$ 4,307
Environmental	465	603
Income taxes	476	448
Insurance	207	175
Asset retirement obligations(1)	85	90
Deferred income	106	120
Other	300	289
	\$ 6,481	\$ 6,032

- (1) Asset retirement obligations primarily relate to costs associated with the future retirement of nuclear fuel conversion facilities in our Specialty Materials segment and the future retirement of facilities in our Automation

and Control
Solutions
segment.

A reconciliation of our liability for asset retirement obligations for the year ended December 31, 2009, is as follows:

	2009	2008
Change in asset retirement obligations:		
Balance at beginning of year	\$ 90	\$ 93
Liabilities settled	(3)	(7)
Adjustments	(5)	2
Accretion expense	3	2
Balance at end of year	\$ 85	\$ 90

Note 18 Capital Stock

We are authorized to issue up to 2,000,000,000 shares of common stock, with a par value of one dollar. Common shareowners are entitled to receive such dividends as may be declared by the Board, are entitled to one vote per share, and are entitled, in the event of liquidation, to share ratably in all the assets of Honeywell which are available for distribution to the common shareowners. Common shareowners do not have preemptive or conversion rights. Shares of common stock issued and outstanding or held in the treasury are not liable to further calls or assessments. There are no restrictions on us relative to dividends or the repurchase or redemption of common stock.

Under the Company's previously reported \$3.0 billion share repurchase program, \$1.3 billion remained available as of December 31, 2009 for additional share repurchases. The amount and timing of repurchases may vary depending on market conditions and the level of operating and other investing activities.

We are authorized to issue up to 40,000,000 shares of preferred stock, without par value, and can determine the number of shares of each series, and the rights, preferences and limitations of each series. At December 31, 2009, there was no preferred stock outstanding.

HONEYWELL INTERNATIONAL INC.

Note 20 Stock-Based Compensation Plans

We have stock-based compensation plans available to grant non-qualified stock options, incentive stock options, stock appreciation rights, restricted units and restricted stock to key employees. Under the 2006 Stock Incentive Plan of Honeywell International Inc. and its Affiliates (the Plan), a maximum of 43 million shares of Honeywell common stock may be awarded. Additionally, under the 2006 Stock Plan for Non-Employee Directors of Honeywell International Inc. (the Directors Plan) 500,000 shares of Honeywell common stock may be awarded.

Stock Options The exercise price, term and other conditions applicable to each option granted under our stock plans are generally determined by the Management Development and Compensation Committee of the Board. The exercise price of stock options is set on the grant date and may not be less than the fair market value per share of our stock on that date. The fair value is recognized as an expense over the employee's requisite service period (generally the vesting period of the award). Options generally vest over a four-year period and expire after ten years.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

The fair value of each option award is estimated on the date of grant using the Black-Scholes option-pricing model. Expected volatility is based on implied volatilities from traded options on Honeywell common stock. We used a Monte Carlo simulation model to derive an expected term. Such model uses historical data to estimate option exercise activity and post-vest termination behavior. The expected term represents an estimate of the time options are expected to remain outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. treasury yield curve in effect at the time of grant.

Compensation cost on a pre-tax basis related to stock options recognized in operating results (included in selling, general and administrative expenses) in 2009, 2008 and 2007 was \$39, \$51 and \$65 million, respectively. The associated future income tax benefit recognized in 2009, 2008 and 2007 was \$13, \$19 and \$25 million, respectively.

The following table sets forth fair value per share information, including related weighted-average assumptions, used to determine compensation cost:

	Years Ended December 31,		
	2009	2008	2007
Weighted average fair value per share of options granted during the year(1)	\$ 6.73	\$ 13.81	\$ 10.27
Assumptions:			
Expected annual dividend yield	4.26 %	1.88 %	2.09 %
Expected volatility	35.78 %	26.35 %	20.18 %
Risk-free rate of return	2.53 %	3.09 %	4.66 %
Expected option term (years)	5.8	5.2	5.3

(1) Estimated on date of grant using Black-Scholes option-pricing model.

The following table summarizes information about stock option activity for the three years ended December 31, 2009:

	Number of Options	Weighted Average Exercise Price
Outstanding at December 31, 2006	54,232,677	\$ 39.98
Granted	5,963,500	47.59

Exercised	(16,037,530)		36.95
Lapsed or canceled	(2,761,278)		45.74
Outstanding at December 31, 2007	41,397,369		41.88
Granted	5,024,820		58.46
Exercised	(3,577,707)		37.40
Lapsed or canceled	(1,910,960)		49.16
Outstanding at December 31, 2008	40,933,522		43.97
Granted	9,159,650		28.40
Exercised	(645,201)		31.66
Lapsed or canceled	(8,537,598)		53.90
Outstanding at December 31, 2009	40,910,373	\$	38.58
Vested and expected to vest at December 31, 2009(1)	38,189,089	\$	38.82
Exercisable at December 31, 2009	27,427,023	\$	38.85

(1) The expected to vest options are the result of applying the pre-vesting forfeiture rate assumption to total outstanding options.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

The following table summarizes information about stock options outstanding and exercisable at December 31, 2009:

Range of exercise prices	Options Outstanding				Options Exercisable			
	Number Outstanding	Weighted Average Life(1)	Weighted Average Exercise Price	Aggregate Intrinsic Value	Number Exercisable	Weighted Average Exercise Price	Aggregate Intrinsic Value	
\$21.75 \$32.99	10,926,098	7.76	\$ 27.46	\$ 128	2,535,198	\$ 24.34	\$ 38	
\$33.00 \$39.99	13,638,879	3.62	35.77	47	13,638,879	35.77	47	
\$40.00 \$49.99	11,834,401	5.94	44.61		9,812,601	44.07		
\$50.00 \$74.95	4,510,995	8.02	58.18		1,440,345	57.90		
	40,910,373	5.89	38.58	\$ 175	27,427,023	38.85	\$ 85	

(1) Average remaining contractual life in years.

There were 30,314,667 and 28,624,279 options exercisable at weighted average exercise prices of \$41.40 and \$41.14 at December 31, 2008 and 2007, respectively. There were 30,000,541 shares available for future grants under the terms of our stock option plans at December 31, 2009.

The total intrinsic value of options (which is the amount by which the stock price exceeded the exercise price of the options on the date of exercise) exercised during 2009, 2008 and 2007 was \$4, \$76 and \$281 million, respectively. During 2009, 2008 and 2007, the amount of cash received from the exercise of stock options was \$20, \$134 and \$592 million, respectively, with an associated tax benefit realized of \$1, \$28 and \$101 million, respectively. In 2009, 2008 and 2007 we classified \$1, \$21 and \$86 million, respectively, of this benefit as a financing cash inflow in the Consolidated Statement of Cash Flows, and the balance was classified as cash from operations.

At December 31, 2009, there was \$82 million of total unrecognized compensation cost related to non-vested stock option awards which is expected to be recognized over a weighted-average period of 2.49 years. The total fair value of options vested during 2009, 2008 and 2007 was \$51, \$63 and \$83 million, respectively.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Restricted Stock Units Restricted stock unit (RSU) awards entitle the holder to receive one share of common stock for each unit when the units vest. RSUs are issued to certain key employees at fair market value at the date of grant as compensation. RSUs typically become fully vested over periods ranging from three to seven years and are payable in Honeywell common stock upon vesting.

The following table summarizes information about RSU activity for the three years ended December 31, 2009:

	Number of Restricted Stock Units	Weighted Average Grant Date Fair Value Per Share
Non-vested at December 31, 2006	4,751,999	\$ 35.85
Granted	1,980,850	54.47
Vested	(372,105)	32.48
Forfeited	(503,747)	37.93
Non-vested at December 31, 2007	5,856,997	42.18
Granted	2,087,934	54.56
Vested	(694,660)	35.82
Forfeited	(424,554)	41.94
Non-vested at December 31, 2008	6,825,717	46.63
Granted	3,691,129	30.16
Vested	(1,313,975)	40.44
Forfeited	(940,094)	44.51
Non-vested at December 31, 2009	8,262,777	\$ 40.49

As of December 31, 2009, there was approximately \$167 million of total unrecognized compensation cost related to non-vested RSUs granted under our stock plans which is expected to be recognized over a weighted-average period of 1.8 years. Compensation expense related to RSUs was \$79, \$77 and \$47 million in 2009, 2008 and 2007, respectively.

Non-Employee Directors Plan Under the Directors Plan each new director receives a one-time grant of 3,000 restricted stock units that will vest on the fifth anniversary of continuous Board service.

The Directors Plan also provides for an annual grant to each director of options to purchase 5,000 shares of common stock at the fair market value on the date of grant. Options generally become exercisable over a four-year period and expire after ten years.

Note 21 Commitments and Contingencies

Environmental Matters

We are subject to various federal, state, local and foreign government requirements relating to the protection of the environment. We believe that, as a general matter, our policies, practices and procedures are properly designed to prevent unreasonable risk of environmental damage and personal injury and that our handling, manufacture, use and disposal of hazardous substances are in accordance with environmental and safety laws and regulations. However, mainly because of past operations and operations of predecessor companies, we, like other companies engaged in similar businesses, have incurred remedial response and voluntary cleanup costs for site contamination and are a party to lawsuits and claims associated with environmental and safety matters, including past production of products containing hazardous substances. Additional lawsuits, claims and costs involving environmental matters are likely to continue to arise in the future.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

With respect to environmental matters involving site contamination, we continually conduct studies, individually or jointly with other potentially responsible parties, to determine the feasibility of various remedial techniques. It is our policy to record appropriate liabilities for environmental matters when remedial efforts or damage claim payments are probable and the costs can be reasonably estimated. Such liabilities are based on our best estimate of the undiscounted future costs required to complete the remedial work. The recorded liabilities are adjusted periodically as remediation efforts progress or as additional technical, regulatory or legal information becomes available. Given the uncertainties regarding the status of laws, regulations, enforcement policies, the impact of other potentially responsible parties, technology and information related to individual sites, we do not believe it is possible to develop an estimate of the range of reasonably possible environmental loss in excess of our recorded liabilities. We expect to fund expenditures for these matters from operating cash flow. The timing of cash expenditures depends on a number of factors, including the timing of remedial investigations and feasibility studies, the timing of litigation and settlements of remediation liability, personal injury and property damage claims, regulatory approval of cleanup projects, remedial techniques to be utilized and agreements with other parties. The following table summarizes information concerning our recorded liabilities for environmental costs:

	Years Ended		
	December 31,		
	2009	2008	2007
Beginning of year	\$ 946	\$ 799	\$ 831
Accruals for environmental matters deemed probable and reasonably estimable	151	466	230
Environmental liability payments	(318)	(320)	(267)
Other adjustments		1	5
End of year	\$ 779	\$ 946	\$ 799

See Note 3, Repositioning and Other Charges, for more detail regarding accruals for environmental matters during 2009.

Environmental liabilities are included in the following balance sheet accounts:

	December 31,	December 31,
	2009	2008
Accrued liabilities	\$ 314	\$ 343
Other liabilities	465	603
	\$ 779	\$ 946

Although we do not currently possess sufficient information to reasonably estimate the amounts of liabilities to be recorded upon future completion of studies, litigation or settlements, and neither the timing nor the amount of the ultimate costs associated with environmental matters can be determined, they could be material to our consolidated

results of operations or operating cash flows in the periods recognized or paid. However, considering our past experience and existing reserves, we do not expect that these environmental matters will have a material adverse effect on our consolidated financial position.

New Jersey Chrome Sites The excavation and offsite disposal of approximately one million tons of chromium residue present at a predecessor Honeywell site located in Jersey City, New Jersey, known as Study Area 7 was completed in January 2010. We have also received approval of the United States District Court for the District of New Jersey for the implementation of related groundwater and sediment remedial actions, and are seeking the appropriate permits from state and federal agencies. Provisions have been made in our financial statements for the estimated cost of these remedies.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

The above-referenced site is the most significant of the twenty-one sites located in Hudson County, New Jersey that are the subject of an Administrative Consent Order (ACO) entered into with the New Jersey Department of Environmental Protection (NJDEP) in 1993 (the Honeywell ACO Sites). Remedial investigations and activities consistent with the ACO have also been conducted and are underway at the other Honeywell ACO Sites. We have recorded reserves for the Honeywell ACO Sites where appropriate under the accounting policy described above.

On May 3, 2005, NJDEP filed a lawsuit in New Jersey Superior Court against Honeywell and two other companies seeking declaratory and injunctive relief, unspecified damages, and the reimbursement of unspecified total costs relating to sites in New Jersey allegedly contaminated with chrome ore processing residue. The claims against Honeywell relate to the activities of a predecessor company which ceased its New Jersey manufacturing operations in the mid-1950s. Honeywell and the two other companies have agreed to settle this litigation with NJDEP, subject to Court approval. Under the settlement, Honeywell would pay \$5 million of NJDEP's past costs, as well as accept sole responsibility to remediate 24 of the 53 Publicly Funded Sites (i.e., those sites for which none of the three companies had previously accepted responsibility). Honeywell would also bear 50% of the costs at another 10 Publicly Funded Sites. We have recorded reserves for the Publicly Funded Sites where appropriate under the accounting policy described above.

We have entered into court-approved settlements of litigation filed in federal court against Honeywell and other landowners seeking the cleanup of chrome residue at groups of properties known as Study Areas 5, 6 South and 6 North of the Honeywell ACO Sites. The required remedial actions are consistent with our recorded reserves.

Dundalk Marine Terminal, Baltimore Chrome residue from legacy chrome plant operations in Baltimore was deposited as fill at the Dundalk Marine Terminal (DMT), which is owned and operated by the Maryland Port Administration (MPA). Honeywell and the MPA have been sharing costs to investigate and mitigate related environmental issues, and have entered into a cost sharing agreement under which Honeywell will bear 77 percent of the costs of developing and implementing permanent remedies for the DMT facility. The investigative phase is ongoing, after which the appropriate remedies will be identified and chosen. We have negotiated a Consent Decree with the MPA and Maryland Department of the Environment (MDE) with respect to the investigation and remediation of the DMT facility. The Consent Decree is being challenged in federal court by BUILD, a Baltimore community group, together with a local church and two individuals (collectively BUILD). In October 2007, the Court dismissed with prejudice BUILD's state law claims and dismissed without prejudice BUILD's RCRA claims regarding neighborhoods near the DMT facility. In August 2008, the Court held a hearing on the Company's motion to dismiss BUILD's remaining claims on the grounds that MDE is diligently prosecuting the investigation and remediation of the DMT. We are awaiting the Court's decision. We do not believe that this matter will have a material adverse impact on our consolidated financial position or operating cash flows. Given the scope and complexity of this project, it is possible that the cost of remediation, when determinable, could have a material adverse impact on our results of operations in the periods recognized.

Onondaga Lake, Syracuse, NY We are implementing a combined dredging/capping remedy of Onondaga Lake pursuant to a consent decree approved by the United States District Court for the Northern District of New York in January 2007. We have accrued for our estimated cost of remediating Onondaga Lake based on currently available information and analysis performed by our engineering consultants. Honeywell is also conducting remedial investigations and activities at other sites in Syracuse. We have recorded reserves for these investigations and activities where appropriate under the accounting policy described above.

Honeywell has entered into a cooperative agreement with potential natural resource trustees to assess alleged natural resource damages relating to this site. It is not possible to predict the outcome or duration of this assessment, or the

amounts of, or responsibility for, any damages.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Asbestos Matters

Like many other industrial companies, Honeywell is a defendant in personal injury actions related to asbestos. We did not mine or produce asbestos, nor did we make or sell insulation products or other construction materials that have been identified as the primary cause of asbestos related disease in the vast majority of claimants. Products containing asbestos previously manufactured by Honeywell or by previously owned subsidiaries primarily fall into two general categories: refractory products and friction products.

Refractory Products Honeywell owned North American Refractories Company (NARCO) from 1979 to 1986. NARCO produced refractory products (high temperature bricks and cement) that were sold largely to the steel industry in the East and Midwest. Less than 2 percent of NARCO's products contained asbestos.

When we sold the NARCO business in 1986, we agreed to indemnify NARCO with respect to personal injury claims for products that had been discontinued prior to the sale (as defined in the sale agreement). NARCO retained all liability for all other claims. On January 4, 2002, NARCO filed for reorganization under Chapter 11 of the U.S. Bankruptcy Code.

As a result of the NARCO bankruptcy filing, all of the claims pending against NARCO are automatically stayed pending the reorganization of NARCO. In addition, the bankruptcy court enjoined both the filing and prosecution of NARCO-related asbestos claims against Honeywell. The stay has remained in effect continuously since January 4, 2002. In connection with NARCO's bankruptcy filing, we paid NARCO's parent company \$40 million and agreed to provide NARCO with up to \$20 million in financing. We also agreed to pay \$20 million to NARCO's parent company upon the filing of a plan of reorganization for NARCO acceptable to Honeywell (which amount was paid in December 2005 following the filing of NARCO's Third Amended Plan of Reorganization), and to pay NARCO's parent company \$40 million, and to forgive any outstanding NARCO indebtedness to Honeywell, upon the effective date of the plan of reorganization.

We believe that, as part of the NARCO plan of reorganization, a trust will be established for the benefit of all asbestos claimants, current and future, pursuant to Trust Distribution Procedures negotiated with the NARCO Asbestos Claimants Committee and the Court-appointed legal representative for future asbestos claimants. If the trust is put in place and approved by the Court as fair and equitable, Honeywell as well as NARCO will be entitled to a permanent channeling injunction barring all present and future individual actions in state or federal courts and requiring all asbestos related claims based on exposure to NARCO products to be made against the federally-supervised trust. Honeywell has reached agreement with the representative for future NARCO claimants and the Asbestos Claimants Committee to cap its annual contributions to the trust with respect to future claims at a level that would not have a material impact on Honeywell's operating cash flows.

In November 2007, the Bankruptcy Court entered an amended order confirming the NARCO Plan without modification and approving the 524(g) trust and channeling injunction in favor of NARCO and Honeywell. In December 2007, certain insurers filed an appeal of the Bankruptcy Court Order in the United States District Court for the Western District of Pennsylvania. The District Court affirmed the Bankruptcy Court Order in July 2008. In August 2008, insurers filed a notice of appeal to the Third Circuit Court of Appeals. The appeal is fully briefed, oral argument took place on May 21, 2009, and the matter has been submitted for decision. We expect that the stay enjoining litigation against NARCO and Honeywell will remain in effect during the pendency of these proceedings.

Our consolidated financial statements reflect an estimated liability for settlement of pending and future NARCO-related asbestos claims as of December 31, 2009 and 2008 of \$1.1 billion. The estimated liability for

pending claims is based on terms and conditions, including evidentiary requirements, in definitive agreements with approximately 260,000 current claimants, and an estimate

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

of the unsettled claims pending as of the time NARCO filed for bankruptcy protection. Substantially all settlement payments with respect to current claims have been made. Approximately \$100 million of payments due pursuant to these settlements is due only upon establishment of the NARCO trust.

The estimated liability for future claims represents the estimated value of future asbestos related bodily injury claims expected to be asserted against NARCO through 2018 and the aforementioned obligations to NARCO's parent. In light of the uncertainties inherent in making long-term projections we do not believe that we have a reasonable basis for estimating asbestos claims beyond 2018. The estimate is based upon the disease criteria and payment values contained in the NARCO Trust Distribution Procedures negotiated with the NARCO Asbestos Claimants Committee and the NARCO future claimants' representative. Honeywell projected the probable number and value, including trust claim handling costs, of asbestos related future liabilities based upon experience of asbestos claims filing rates in the tort system and in certain operating asbestos trusts, and the claims experience in those forums. The valuation methodology also includes an analysis of the population likely to have been exposed to asbestos containing products, epidemiological studies to estimate the number of people likely to develop asbestos related diseases, NARCO claims filing history, the pending inventory of NARCO asbestos related claims and payment rates expected to be established by the NARCO trust. This methodology used to estimate the liability for future claims has been commonly accepted by numerous courts and resulted in a range of estimated liability for future claims of \$743 to \$961 million. We believe that no amount within this range is a better estimate than any other amount and accordingly, we have recorded the minimum amount in the range.

As of December 31, 2009 and 2008, our consolidated financial statements reflect an insurance receivable corresponding to the liability for settlement of pending and future NARCO-related asbestos claims of \$831 and \$877 million, respectively. This coverage reimburses Honeywell for portions of the costs incurred to settle NARCO related claims and court judgments as well as defense costs and is provided by a large number of insurance policies written by dozens of insurance companies in both the domestic insurance market and the London excess market. At December 31, 2009, a significant portion of this coverage is with insurance companies with whom we have agreements to pay full policy limits based on corresponding Honeywell claims costs. We conduct analyses to determine the amount of insurance that we estimate is probable of recovery in relation to payment of current and estimated future claims. While the substantial majority of our insurance carriers are solvent, some of our individual carriers are insolvent, which has been considered in our analysis of probable recoveries. We made judgments concerning insurance coverage that we believe are reasonable and consistent with our historical dealings with our insurers, our knowledge of any pertinent solvency issues surrounding insurers and various judicial determinations relevant to our insurance programs.

In the second quarter of 2006, Travelers Casualty and Insurance Company (Travelers) filed a lawsuit against Honeywell and other insurance carriers in the Supreme Court of New York, County of New York, disputing obligations for NARCO-related asbestos claims under high excess insurance coverage issued by Travelers and other insurance carriers. Approximately \$300 million of coverage under these policies is included in our NARCO-related insurance receivable at December 31, 2009. Honeywell believes it is entitled to the coverage at issue and expects to prevail in this matter. In the third quarter of 2007, Honeywell prevailed on a critical choice of law issue concerning the appropriate method of allocating NARCO-related asbestos liabilities to triggered policies. The plaintiffs appealed and the trial court's ruling was upheld by the intermediate appellate court in the second quarter of 2009. Plaintiffs' further appeal to the New York Appellate Division, the highest court in New York, was denied in October 2009. A related New Jersey action brought by Honeywell has been dismissed, but all coverage claims against plaintiffs have been preserved in the New York action. Based upon (i) our understanding of relevant facts and applicable law, (ii) the terms of insurance policies at issue, (iii) our experience on matters of this nature, and (iv) the advice of counsel, we believe that the amount due from Travelers and other insurance carriers is probable of recovery. While Honeywell expects to prevail in this matter, an adverse outcome could have a material impact on our results of operations in the

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

period recognized but would not be material to our consolidated financial position or operating cash flows.

Projecting future events is subject to many uncertainties that could cause the NARCO related asbestos liabilities or assets to be higher or lower than those projected and recorded. There is no assurance that the plan of reorganization will become final, that insurance recoveries will be timely or whether there will be any NARCO related asbestos claims beyond 2018. Given the inherent uncertainty in predicting future events, we review our estimates periodically, and update them based on our experience and other relevant factors. Similarly we will reevaluate our projections concerning our probable insurance recoveries in light of any changes to the projected liability or other developments that may impact insurance recoveries.

Friction Products Honeywell's Bendix friction materials (Bendix) business manufactured automotive brake parts that contained chrysotile asbestos in an encapsulated form. Existing and potential claimants consist largely of individuals who allege exposure to asbestos from brakes from either performing or being in the vicinity of individuals who performed brake replacements.

From 1981 through December 31, 2009, we have resolved approximately 152,000 Bendix related asbestos claims. We had 129 trials resulting in favorable verdicts and 17 trials resulting in adverse verdicts. Four of these adverse verdicts were reversed on appeal, five verdicts were vacated on post-trial motions, three claims were settled and the remaining five have been or will be appealed. The claims portfolio was reduced in 2009 due to settlements, dismissals and the elimination of significantly aged (i.e., pending for more than six years), inactive (including claims for which the required medical and exposure showings have not been made) and duplicate claims. The following tables present information regarding Bendix related asbestos claims activity:

Claims Activity	Years Ended December 31,	
	2009	2008
Claims Unresolved at the beginning of year	51,951	51,658
Claims Filed	2,697	4,003
Claims Resolved	(34,708)	(3,710)
Claims Unresolved at the end of year	19,940	51,951
Disease Distribution of Unresolved Claims	December 31,	
	2009	2008
Mesothelioma and Other Cancer Claims	4,727	5,575
Other Claims	15,213	46,376
Total Claims	19,940	51,951

Honeywell has experienced average resolution values per claim excluding legal costs as follows:

Years Ended December 31,

	2009	2008	2007	2006
	(in whole dollars)			
Malignant claims	\$ 50,000	\$ 65,000	\$ 33,000	\$ 33,000
Nonmalignant claims	\$ 200	\$ 1,500	\$ 500	\$ 250

It is not possible to predict whether resolution values for Bendix related asbestos claims will increase, decrease or stabilize in the future.

Our consolidated financial statements reflect an estimated liability for resolution of pending and future Bendix related asbestos claims of \$566 and \$578 million at December 31, 2009 and 2008, respectively. Our liability for the estimated cost of future Bendix related asbestos claims is based on historic claims filing experience, disease classifications, expected resolution values, and historic dismissal rates. In the fourth quarter of each year we update our analysis of the estimated cost of

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

future Bendix related asbestos claims. We have valued Bendix pending and future claims using average resolution values for the previous four years (extended from three years). Changes in the tort system which began in 2006 refocused asbestos litigation on mesothelioma cases, making the four year period 2006 through 2009 representative for forecasting purposes. We will continue to update the expected resolution values used to estimate the cost of pending and future Bendix claims during the fourth quarter each year.

The estimated liability for future claims represents the estimated value of future asbestos related bodily injury claims expected to be asserted against Bendix over the next five years. In light of the uncertainties inherent in making long-term projections, as well as certain factors unique to friction product asbestos claims, we do not believe that we have a reasonable basis for estimating asbestos claims beyond the next five years. The estimate is based upon Bendix historical experience in the tort system for the four years ended December 31, 2009 with respect to claims filing and resolution values. The methodology used to estimate the liability for future claims has been commonly accepted by numerous courts. It is similar to that used to estimate the future NARCO related asbestos claims liability.

Honeywell currently has approximately \$1.9 billion of insurance coverage remaining with respect to pending and potential future Bendix related asbestos claims, of which \$172 and \$156 million are reflected as receivables in our consolidated balance sheet at December 31, 2009 and 2008, respectively. This coverage is provided by a large number of insurance policies written by dozens of insurance companies in both the domestic insurance market and the London excess market. Insurance receivables are recorded in the financial statements simultaneous with the recording of the liability for the estimated value of the underlying asbestos claims. The amount of the insurance receivable recorded is based on our ongoing analysis of the insurance that we estimate is probable of recovery. This determination is based on our analysis of the underlying insurance policies, our historical experience with our insurers, our ongoing review of the solvency of our insurers, our interpretation of judicial determinations relevant to our insurance programs, and our consideration of the impacts of any settlements reached with our insurers. Insurance receivables are also recorded when structured insurance settlements provide for future fixed payment streams that are not contingent upon future claims or other events. Such amounts are recorded at the net present value of the fixed payment stream.

On a cumulative historical basis, Honeywell has recorded insurance receivables equal to approximately 45 percent of the value of the underlying asbestos claims recorded. However, because there are gaps in our coverage due to insurance company insolvencies, certain uninsured periods, and insurance settlements, this rate is expected to decline for any future Bendix related asbestos liabilities that may be recorded. Future recoverability rates may also be impacted by numerous other factors, such as future insurance settlements, insolvencies and judicial determinations relevant to our coverage program, which are difficult to predict. Assuming continued defense and indemnity spending at current levels, we estimate that the cumulative recoverability rate could decline over the next five years to approximately 35 percent.

Honeywell believes it has sufficient insurance coverage and reserves to cover all pending Bendix related asbestos claims and Bendix related asbestos claims estimated to be filed within the next five years. Although it is impossible to predict the outcome of either pending or future Bendix related asbestos claims, we do not believe that such claims would have a material adverse effect on our consolidated financial position in light of our insurance coverage and our prior experience in resolving such claims. If the rate and types of claims filed, the average resolution value of such claims and the period of time over which claim settlements are paid (collectively, the Variable Claims Factors) do not substantially change, Honeywell would not expect future Bendix related asbestos claims to have a material adverse effect on our results of operations or operating cash flows in any fiscal year. No assurances can be given, however, that the Variable Claims Factors will not change.

Asbestos related liabilities	1,040	1,538
	\$ 1,694	\$ 1,709

Other Matters

We are subject to a number of other lawsuits, investigations and disputes (some of which involve substantial amounts claimed) arising out of the conduct of our business, including matters relating to commercial transactions, government contracts, product liability, prior acquisitions and divestitures, employee benefit plans, intellectual property, and health and safety matters. We recognize a liability for any contingency that is probable of occurrence and reasonably estimable. We continually assess the likelihood of adverse judgments of outcomes in these matters, as well as potential ranges of possible losses (taking into consideration any insurance recoveries), based on a careful analysis of each matter with the assistance of outside legal counsel and, if applicable, other experts. Included in these other matters are the following:

Allen, et al. v. Honeywell Retirement Earnings Plan Pursuant to a settlement approved by the U.S. District Court for the District of Arizona in February 2008, 18 of 21 claims alleged by plaintiffs in this class action lawsuit were dismissed with prejudice in exchange for approximately \$35 million and the maximum aggregate liability for the remaining three claims (alleging that Honeywell impermissibly reduced the pension benefits of certain employees of a predecessor entity when the plan was amended in 1983 and failed to calculate benefits in accordance with the terms of the plan) was capped at \$500 million. Any amounts payable, including the settlement amount, have or will be paid from the Company's pension plan. In October 2009, the Court granted summary judgment in favor of the Honeywell Retirement Earnings Plan with respect to the claim regarding the calculation of benefits. We continue to expect to prevail on the remaining claims in light of applicable law and our substantial affirmative defenses, which have not yet been considered fully by the Court. Accordingly, we do not believe that a liability is probable of occurrence and reasonably estimable with respect to these claims and we have not recorded a provision for the remaining claims in our financial statements.

Quick Lube On March 31, 2008, S&E Quick Lube, a filter distributor, filed suit in U.S. District Court for the District of Connecticut alleging that twelve filter manufacturers, including Honeywell, engaged in a conspiracy to fix prices, rig bids and allocate U.S. customers for aftermarket automotive filters. This suit is a purported class action on behalf of direct purchasers of filters from the defendants. Parallel purported class actions, including on behalf of indirect purchasers of filters, have been filed by other plaintiffs in a variety of jurisdictions in the United States and Canada.

The U.S cases have been consolidated into a single multi-district litigation in the Northern District of Illinois. We intend to vigorously defend the claims raised in these actions. The Antitrust Division of the Department of Justice notified Honeywell on January 21, 2010 that it has officially closed its investigation into possible collusion in the replacement auto filters industry.

Given the uncertainty inherent in litigation and investigations (including the specific matters referenced above), we do not believe it is possible to develop estimates of reasonably possible loss in excess of current accruals for these matters. Considering our past experience and existing accruals,

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

we do not expect the outcome of these matters, either individually or in the aggregate, to have a material adverse effect on our consolidated financial position. Because most contingencies are resolved over long periods of time, potential liabilities are subject to change due to new developments, changes in settlement strategy or the impact of evidentiary requirements, which could cause us to pay damage awards or settlements (or become subject to equitable remedies) that could have a material adverse effect on our results of operations or operating cash flows in the periods recognized or paid.

Warranties and Guarantees We have issued or are a party to the following direct and indirect guarantees at December 31, 2009:

	Maximum Potential Future Payments
Operating lease residual values	\$ 35
Other third parties financing	4
Unconsolidated affiliates financing	30
Customer financing	16
	\$ 85

We do not expect that these guarantees will have a material adverse effect on our consolidated results of operations, financial position or liquidity.

In connection with the disposition of certain businesses and facilities we have indemnified the purchasers for the expected cost of remediation of environmental contamination, if any, existing on the date of disposition. Such expected costs are accrued when environmental assessments are made or remedial efforts are probable and the costs can be reasonably estimated.

In the normal course of business we issue product warranties and product performance guarantees. We accrue for the estimated cost of product warranties and performance guarantees based on contract terms and historical experience at the time of sale. Adjustments to initial obligations for warranties and guarantees are made as changes in the obligations become reasonably estimable. The following table summarizes information concerning our recorded obligations for product warranties and product performance guarantees:

	Years Ended December 31,		
	2009	2008	2007
Beginning of year	\$ 417	\$ 396	\$ 363
Accruals for warranties/guarantees issued during the year	188	242	233
Adjustment of pre-existing warranties/guarantees	(7)	(34)	3
Settlement of warranty/guarantee claims	(191)	(187)	(203)

End of year	\$ 407	\$ 417	\$ 396
-------------	--------	--------	--------

Product warranties and product performance guarantees are included in the following balance sheet accounts:

	2009	2008
Accrued liabilities	\$ 382	\$ 385
Other liabilities	25	32
	\$ 407	\$ 417

Note 22 Pension and Other Postretirement Benefits

We sponsor both funded and unfunded U.S. and non-U.S. defined benefit pension plans covering the majority of our employees and retirees. Pension benefits for substantially all U.S. employees are

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

provided through non-contributory, qualified and non-qualified defined benefit pension plans. U.S. defined benefit pension plans comprise 76 percent of our projected benefit obligation. Non-U.S. employees, who are not U.S. citizens, are covered by various retirement benefit arrangements, some of which are considered to be defined benefit pension plans for accounting purposes. Non-U.S. defined benefit pension plans comprise 24 percent of our projected benefit obligation.

We also sponsor postretirement benefit plans that provide health care benefits and life insurance coverage to eligible retirees. Our retiree medical plans mainly cover U.S. employees who retire with pension eligibility for hospital, professional and other medical services. All non-union hourly and salaried employees joining Honeywell after January 1, 2000 are not eligible to participate in our retiree medical and life insurance plans. Most of the U.S. retiree medical plans require deductibles and copayments, and virtually all are integrated with Medicare. Retiree contributions are generally required based on coverage type, plan and Medicare eligibility. Honeywell has limited its subsidy of its retiree medical plans to a fixed-dollar amount for all future retirees and for more than half of its current retirees. This cap of retiree medical benefits under our plans limits our exposure to the impact of future health care cost increases. The retiree medical and life insurance plans are not funded. Claims and expenses are paid from our operating cash flow.

On May 1, 2009, Honeywell amended the U.S. retiree medical plan eliminating the subsidy for non-union employees who retire after September 1, 2009. Employees already retired or who retired on or before September 1, 2009 were not affected by this change. This plan amendment reduced the accumulated postretirement benefit obligation by \$180 million representing the elimination of benefits attributable to years of service already rendered by active non-union employees who are not eligible to retire and those eligible non-union employees who are assumed not to retire prior to September 1, 2009. This reduction in the accumulated postretirement benefit obligation will be recognized as part of net periodic postretirement benefit cost over the average future service period to full eligibility of the remaining active union employees still eligible for a retiree medical subsidy. This plan amendment also resulted in a curtailment gain of \$98 million in the second quarter of 2009 which was included as part of net periodic postretirement benefit cost. The curtailment gain represents the recognition of previously unrecognized prior service credits attributable to the future years of service of the employee group for which future accrual of benefits has been eliminated.

The estimated net loss and prior service cost for pension benefits that will be amortized from accumulated other comprehensive (income) loss into net periodic benefit cost in 2010 are expected to be \$706 and \$20 million, respectively. The estimated net loss and prior service (credit) for other postretirement benefits that will be amortized from accumulated other comprehensive (income) loss into net periodic benefit cost in 2010 are expected to be \$21 and \$(41) million, respectively.

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

Major actuarial assumptions used in determining the benefit obligations and net periodic benefit cost for our U.S. benefit plans are presented in the following table. For non-U.S. benefit plans, none of which was individually material, assumptions reflect economic assumptions applicable to each country.

	Pension Benefits			Other Postretirement Benefits		
	2009	2008	2007	2009	2008	2007
Actuarial assumptions used to determine benefit obligations as of December 31:						
Discount rate	5.75 %	6.95 %	6.50 %	5.25 %	6.00 %	5.90 %
Expected annual rate of compensation increase	4.50 %	4.50 %	4.50 %			
Actuarial assumptions used to determine net periodic benefit cost for years ended December 31:						
Discount rate	6.95 %	6.50 %	6.00 %	6.00 %	5.90 %	5.70 %
Expected rate of return on plan assets	9.00 %	9.00 %	9.00 %			
Expected annual rate of compensation increase	4.50 %	4.50 %	4.00 %			

To select a discount rate for our retirement benefit plans, we use a modeling process that involves matching the expected cash outflows of our benefit plans to a yield curve constructed from a portfolio of double A rated fixed-income debt instruments. We use the average yield of this hypothetical portfolio as a discount rate benchmark. The discount rate used to determine the other postretirement benefit obligation is lower principally due to a shorter expected duration of other postretirement plan obligations as compared to pension plan obligations.

Our expected rate of return on plan assets of 9 percent is a long-term rate based on historic plan asset returns over varying long-term periods combined with current market conditions and broad asset mix considerations. The expected rate of return is a long-term assumption and generally does not change annually.

Pension Benefits

Included in the aggregate data in the tables above are the amounts applicable to our pension plans with accumulated benefit obligations exceeding the fair value of plan assets. Amounts related to such plans were as follows:

	December 31,	
	2009	2008
Projected benefit obligations	\$ 17,159	\$ 14,713
Accumulated benefit obligations	\$ 16,102	\$ 14,012
Fair value of plan assets	\$ 12,999	\$ 11,125

The accumulated benefit obligation for our defined benefit pension plans was \$16.8 and \$14.3 billion at December 31, 2009 and 2008, respectively.

Our asset investment strategy focuses on maintaining a diversified portfolio using various asset classes in order to achieve our long-term investment objectives on a risk adjusted basis. Our actual invested positions in various securities change over time based on short and longer-term investment opportunities. To achieve our objectives, we have established long-term target allocations as follows: 60-70 percent equity securities, 10-20 percent fixed income securities and cash, 5-15 percent real estate investments, and 10-20 percent other types of investments. Equity securities include publicly-traded stock of companies located both inside and outside the United States. Fixed income securities include corporate bonds of companies from diversified industries, mortgage-backed securities, and U.S. Treasuries. Real estate investments include direct investments in commercial properties and

HONEYWELL INTERNATIONAL INC.
NOTES TO FINANCIAL STATEMENTS (Continued)
(Dollars in millions, except per share amounts)

investments in real estate funds. Other types of investments include investments in private equity and hedge funds that follow several different strategies. Our non-U.S. investment policies are different for each country, but the long-term investment objectives remain the same.

Our U.S. pension plans assets were \$10.3 and \$8.7 billion and our non-U.S. pension plans assets were \$3.5 and \$2.8 billion at December 31, 2009 and 2008, respectively. The fair values of our pension plans assets at December 31, 2009 by asset category are as follows:

	Total	Level 1	Level 2	Level 3
Equity securities:				
U.S. companies	\$ 5,181	\$ 5,099	\$ 82	\$
Non-U.S. companies	3,324	2,269	1,055	
Fixed income securities:				
Short-term investments	439	439		
Government securities	955	258	697	
Corporate securities	1,281		1,281	
Mortgage/Asset-Backed securities	357		357	
Insurance contracts	216		216	
Real estate investments	786	48		738
Other	1,226			1,226
	\$ 13,765	\$ 8,113	\$ 3,688	\$ 1,964

The following table summarizes changes in the fair value of Level 3 assets for the year ended December 31, 2009:

	Real estate investments	Other
Balance at December 31, 2008	\$ 1,001	\$ 1,161
Actual return on plan assets:		
Relating to assets still held at year-end	(331)	(46)
Relating to assets sold during the year	(4)	7
Purchases, sales and settlements	72	104
Balance at December 31, 2009	\$ 738	\$ 1,226

Our general funding policy for qualified pension plans is to contribute amounts at least sufficient to satisfy regulatory funding standards. In 2009, 2008 and 2007, we made voluntary contributions of \$740, \$242 and \$42 million, respectively, to our U.S. defined benefit pension plans primarily to improve the funded status of our plans. At December 31, 2009 and 2008, the fair value of our pension plans assets invested in Honeywell common stock was

\$1.1 billion and \$204 million, respectively. During 2010, we plan to make additional voluntary contributions of Honeywell common stock to our U.S. plans to improve the funded status of our plans. In 2010, we also expect to contribute approximately \$150 million to our non-U.S. defined benefit pension plans to satisfy regulatory funding standards and to fund benefits to be paid directly from Company assets.

Benefit payments, including amounts to be paid from Company assets, and reflecting expected future service, as appropriate, are expected to be paid as follows:

2010	\$	1,106
2011		1,143
2012		1,161
2013		1,173
2014		1,189
2015-2019		6,219

HONEYWELL INTERNATIONAL INC.

Other Postretirement Benefits

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) provides subsidies for employers that sponsor postretirement health care plans that provide prescription drug coverage that is at least actuarially equivalent to that offered by Medicare Part D. The impact of the Act reduced other postretirement benefits expense by approximately \$11, \$21 and \$25 million in 2009, 2008 and 2007, respectively.

	December 31,	
	2009	2008
Assumed health care cost trend rate:		
Health care cost trend rate assumed for next year	8.0 %	8.0 %
Rate that the cost trend rate gradually declines to	5.0 %	5.5 %
Year that the rate reaches the rate it is assumed to remain at	2016	2014

The assumed health care cost trend rate has a significant effect on the amounts reported. A one-percentage-point change in the assumed health care cost trend rate would have the following effects:

	1 percentage point	
	Increase	Decrease
Effect on total of service and interest cost components	\$ 5	\$ (4)
Effect on postretirement benefit obligation	\$ 75	\$ (66)

Benefit payments reflecting expected future service, as appropriate, are expected to be paid as follows:

	Without Impact of Medicare Subsidy	Net of Medicare Subsidy
2010	\$ 206	\$ 192
2011	202	188
2012	186	171
2013	177	162
2014	168	154
2015-2019	726	660

Employee Savings Plans

We sponsor employee savings plans under which we match, in the form of our common stock, savings plan contributions for certain eligible employees. Shares issued under the stock match plans were 4.8, 4.9 and 3.7 million at a cost of \$158, \$220 and \$199 million in 2009, 2008 and 2007, respectively.

(Dollars in millions, except per share amounts)

Note 23 Segment Financial Data

We globally manage our business operations through four reportable operating segments serving customers worldwide with aerospace products and services, control, sensing and security technologies for buildings, homes and industry, automotive products and chemicals. Segment information is consistent with how management reviews the businesses, makes investing and resource allocation decisions and assesses operating performance. Our four reportable segments are as follows:

Aerospace is organized by customer end-market (Air Transport and Regional, Business and General Aviation and Defense and Space) and provides products and services which include auxiliary power units; propulsion engines; environmental control systems; engine controls; repair and overhaul services; hardware; logistics; electric power systems; flight safety, communications, navigation, radar and surveillance systems; aircraft lighting; management and technical services; advanced systems and instruments; and aircraft wheels and

brakes.

Automation and Control Solutions includes Products (controls for heating, cooling, indoor air quality, ventilation, humidification and home automation; advanced software applications for home/building control and optimization; sensors, switches, control systems and instruments for measuring pressure, air flow, temperature and electrical current; security, fire and gas detection; personal protection equipment; access control; video surveillance; and remote patient monitoring systems); Building Solutions (installs, maintains and upgrades systems that keep buildings safe, comfortable and productive); and Process Solutions (provides a full range of automation and control solutions

for industrial plants, offering advanced software and automation systems that integrate, control and monitor complex processes in many types of industrial settings).

Specialty Materials includes fluorocarbons, specialty films, advanced fibers, customized research chemicals and intermediates, electronic materials and chemicals, and catalysts and adsorbents.

Transportation Systems includes Honeywell Turbo Technologies (turbochargers and charge-air and thermal systems); and the Consumer Products Group (car care products including antifreeze, filters, spark plugs, and cleaners, waxes and additives); and Friction Materials (brake hard parts and other friction materials).

The accounting policies of the segments are the same as those described in Note 1. Honeywell's senior management evaluates segment performance based on segment profit. Segment profit is measured as business unit income (loss) before taxes excluding general corporate unallocated expense, other income (expense), interest and other financial charges, pension and other postretirement benefits (expense), stock compensation expense, repositioning and other charges and accounting changes. Beginning January 1, 2008, consistent with changes made to the measure of segment performance utilized by senior management, segment profit has been adjusted to exclude expense associated with restricted stock units (RSU) and to include equity income/(loss) of affiliated companies. Stock compensation expense, including RSU expense, totaled \$112 million for the year ended December 31, 2007. Equity income/(loss) of affiliated companies, included in other income (expense), totaled \$10 million for the year ended December 31, 2007. Both of these changes were applied on a prospective basis beginning January 1, 2008 and are not material to the following reportable segment data:

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF DIRECTORS AND SHAREOWNERS OF
HONEYWELL INTERNATIONAL INC.:

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a)(1.) present fairly, in all material respects, the financial position of Honeywell International Inc. and its subsidiaries at December 31, 2009 and 2008, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the index appearing under Item 15(a)(2.) presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control Over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 1 to the accompanying consolidated financial statements, in 2009 the Company retrospectively applied the accounting for noncontrolling interests and in 2007 changed the manner in which it accounts for income tax uncertainties.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

/s/ PricewaterhouseCoopers LLP

Florham Park, New Jersey

February 11, 2010

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not Applicable.

Item 9A. Controls and Procedures

Honeywell management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Annual Report on Form 10-K. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that such disclosure controls and procedures were effective as of the end of the period covered by this Annual Report on Form 10-K to ensure information required to be disclosed in the reports that Honeywell files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms and that it is accumulated and communicated to our management, including our Chief Executive Officer, our Chief Financial Officer and our Controller, as appropriate, to allow timely decisions regarding required disclosure. There have been no changes that have materially affected, or are reasonably likely to materially affect, Honeywell's internal control over financial reporting that have occurred during the period covered by this Annual Report on Form 10-K.

Management's Report on Internal Control Over Financial Reporting

Honeywell management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. Honeywell's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Honeywell's internal control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of Honeywell's assets;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of Honeywell's management and directors; and
- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of Honeywell's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of Honeywell's internal control over financial reporting as of December 31, 2009. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control - Integrated Framework*.

Based on this assessment, management determined that Honeywell maintained effective internal control over financial reporting as of December 31, 2009.

The effectiveness of Honeywell's internal control over financial reporting as of December 31, 2009 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which is

included in Item 8. Financial Statements and Supplementary Data.

Item 9B. Other Information

Not Applicable.

Part III.

Item 10. Directors and Executive Officers of the Registrant

Information relating to the Directors of Honeywell, as well as information relating to compliance with Section 16(a) of the Securities Exchange Act of 1934, will be contained in our definitive Proxy Statement involving the election of the Directors which will be filed with the SEC pursuant to Regulation 14A not later than 120 days after December 31, 2009, and such information is incorporated herein by reference. Certain other information relating to the Executive Officers of Honeywell appears in Part I of this Annual Report on Form 10-K under the heading "Executive Officers of the Registrant".

The members of the Audit Committee of our Board of Directors are: Scott Davis (Chair), Kevin Burke, Linnet Deily, George Paz, John R. Stafford, and Michael W. Wright. The Board has determined that Mr. Davis is the "audit committee financial expert" as defined by applicable SEC rules and that Mr. Davis, Ms. Deily and Mr. Paz satisfy the "accounting or related financial management expertise" criteria established by the NYSE. All members of the Audit Committee are "independent" as that term is defined in applicable SEC Rules and NYSE listing standards.

Honeywell's Code of Business Conduct is available, free of charge, on our website under the heading "Investor Relations" (see "Corporate Governance"), or by writing to Honeywell, 101 Columbia Road, Morris Township, New Jersey 07962, c/o Vice President and Corporate Secretary. Honeywell's Code of Business Conduct applies to all Honeywell directors, officers (including the Chief Executive Officer, Chief Financial Officer and Controller) and employees. Amendments to or waivers of the Code of Business Conduct granted to any of Honeywell's directors or executive officers will be published on our website within five business days of such amendment or waiver.

Item 11. Executive Compensation

Information relating to executive compensation is contained in the Proxy Statement referred to above in "Item 10. Directors and Executive Officers of the Registrant," and such information is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Information relating to security ownership of certain beneficial owners and management and related stockholder matters is contained in the Proxy Statement referred to above in "Item 10. Directors and Executive Officers of the Registrant," and such information is incorporated herein by reference.

EQUITY COMPENSATION PLANS

As of December 31, 2009 information about our equity compensation plans is as follows:

Plan Category	Number of Shares to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column(a)) (c)
Equity compensation plans approved by security holders	50,478,928 (1)	\$ 38.58 (2)	33,052,271 (3)
Equity compensation plans not approved by security holders	714,223 (4)	N/A (5)	N/A (6)
Total	51,193,151	\$ 38.58	33,052,271

- (1) Equity compensation plans approved by shareowners that are included in column (a) of the table are the 2006 Stock Incentive Plan of Honeywell International Inc. and its Affiliates (the 2006 Stock Incentive Plan) (17,551,405 shares of Common Stock to be issued for options; 33,700

shares to be issued for stock appreciation rights (SARs); 7,408,460 restricted units subject to continued employment; and 1,121,639 deferred restricted units of earned and vested awards under prior plans that were approved by shareowners where delivery of shares has been deferred); the 2003 Stock Incentive Plan of Honeywell International Inc. and its Affiliates (the 2003 Stock Incentive Plan) (14,260,227 shares of Common Stock to be issued for options; 3,600 shares to be issued for SARs; and 652,656 restricted units subject to continued employment); the 1993 Stock Plan for Employees of Honeywell International Inc. and its Affiliates (8,724,616 shares of

Common Stock to be issued for options; 39,325 shares to be issued for SARs; and 383,300 restricted units subject to continued employment); the 2006 Stock Plan for Non-Employee Directors of Honeywell International Inc. (the Non-Employee Director Plan) (175,000 shares of Common Stock to be issued for options; 3,000 restricted units subject to continued services;) and the 1994 Stock Plan for Non-Employee Directors of Honeywell International Inc. (122,000 shares of Common Stock to be issued for options).

957,669 growth plan units were issued for the performance cycle commencing on January 1, 2007 and ending December 31, 2008 pursuant to the 2006 Stock Incentive Plan. The ultimate value of any growth plan award may be paid in cash or shares of Common Stock and, thus, growth plan units are not included in the table above. The ultimate value of growth plan units depends upon the achievement of pre-established performance goals during a two-year performance cycle relating to growth in earnings per share, revenue and return on investment. 50% of the payment related to these growth plan units was paid in 2009 and the remaining 50% will be paid in 2010, subject to active employment on the payment dates.

Because the number of future shares that may be distributed to employees participating in the Honeywell Global Stock Plan is unknown, no shares attributable to that plan are included in column (a) of the table above.

- (2) Column (b) does not include any exercise price for restricted units or growth plan units granted to employees or non-employee directors under equity compensation plans approved by shareowners. Restricted units do not have an exercise price because their value is dependent upon attainment of certain performance goals or continued employment or service and they are settled for shares of Common Stock on a one-for-one basis. Growth plan units are denominated in cash units and the ultimate value of the award is dependent upon attainment of certain performance goals.

- (3) The number of shares that may be issued under the 2006 Stock Incentive Plan as of December 31, 2009 is 30,000,541 which includes the following additional shares under the 2006 Stock Incentive Plan (or any Prior Plan as defined in the 2006 Stock Incentive Plan) that may again be available for

issuance: shares that are settled for cash, expire, are canceled, are tendered in satisfaction of an option exercise price or tax withholding obligations, are reacquired with cash tendered in satisfaction of an option exercise price or with monies attributable to any tax deduction enjoyed by Honeywell to the exercise of an option, and are under any outstanding awards assumed under any equity compensation plan of an entity acquired by Honeywell.

The number of shares that may be issued under the Honeywell Global Stock Plan as of December 31, 2009 is 2,754,730. This plan is an umbrella plan for five plans maintained solely for eligible employees of participating

non-U.S. countries. One sub-plan, the Global Employee Stock Purchase Plan, allows eligible employees to contribute between 2.2% and 8.8% of base pay from January through September of each year to purchase shares of Common Stock the following November at the fair market value on the date of purchase. Participant accounts are credited with matching shares equal to 20% of their contributions that are subject to continued employment for 3 years; provided that no matching shares will be credited to individuals participating in this plan during 2010. For 2009, Honeywell used Treasury shares to provide the shares under this plan.

Employees purchased and were credited with 167,751 shares of Common Stock in 2009.

Another sub-plan, the UK Sharebuilder Plan, allows an eligible UK employee to contribute a specified percentage of taxable earnings that is then invested in shares. The company matches those shares and dividends paid are used to purchase additional shares; provided that the Company temporarily reduced the match share to 50 percent in 2009. Matched shares are subject to a three-year vesting schedule. Shares taken out of the plan before five years lose their tax-favored status. For the year ending December 31, 2009, 145,079

shares were credited to participants accounts under the UK Sharebuilder Plan.

The remaining three sub-plans, Honeywell International Technologies Employees Share Ownership Plan (Ireland), the Honeywell Measurex (Ireland) Limited Group Employee Profit Sharing Scheme and the Honeywell Ireland Software Employees Share Ownership Plan, allow eligible Irish employees to contribute specified percentages of base pay, bonus or performance pay that are then invested in shares. Shares must be held in trust for at least two years and lose their tax-favored status if they are taken out of the plan before three years. For the year ending

December 31,
2009, 26,261
shares were
credited to
participants
accounts under
these three
plans.

The remaining
297,000 shares
included in
column (c) are
shares
remaining for
future grants
under the
Non-Employee
Director Plan.

- (4) Equity
compensation
plans not
approved by
shareowners
that are
included in the
table are the
Supplemental
Non-Qualified
Savings Plan
for Highly
Compensated
Employees of
Honeywell
International
Inc. and its
Subsidiaries,
the
AlliedSignal
Incentive
Compensation
Plan for
Executive
Employees of
AlliedSignal
Inc. and its
Subsidiaries,
and the
Deferred
Compensation

Plan for
Non-Employee
Directors of
Honeywell
International
Inc.

The
Supplemental
Non-Qualified
Savings Plan
for Highly
Compensated
Employees of
Honeywell
International
Inc. and its
Subsidiaries is
an unfunded,
non-tax
qualified plan
that provides
benefits equal
to the employee
deferrals and
company
matching
allocations that
would have
been provided
under
Honeywell's
U.S.
tax-qualified
savings plan if
the Internal
Revenue Code
limitations on
compensation
and
contributions
did not apply.
The company
matching
contribution is
credited to
participants
accounts in the
form of
notional shares
of Common

Stock.
Additional
notional shares
are credited to
participants
accounts equal
to the value of
any cash
dividends
payable on
actual shares of
Common
Stock. The
notional shares
are distributed
in the form of
actual shares of
Common Stock
when payments
are made to
participants
under the plan.

The
AlliedSignal
Incentive
Compensation
Plan for
Executive
Employees of
AlliedSignal
Inc. and its
Subsidiaries
was a cash
incentive
compensation
plan maintained
by AlliedSignal
Inc. This plan
has expired.
Employees
were permitted
to defer receipt
of a cash bonus
payable under
the plan and
invest the
deferred bonus
in notional
shares of
Common

Stock. The notional shares are distributed in the form of actual shares of Common Stock when payments are made to participants under the plan. No further deferrals can be made under this plan. The number of shares of Common Stock that remain to be issued under this expired plan as of December 31, 2009 is 46,046.

The Deferred Compensation Plan for Non-Employee Directors of Honeywell International Inc. provides for mandatory and elective deferral of certain payments to non-employee directors. Mandatory deferrals are invested in notional shares of Common Stock. Directors may also invest any elective deferrals in notional shares of Common Stock. Additional notional shares are credited to participant accounts equal to the value of any cash dividends payable on actual shares of Common Stock. Notional shares of Common Stock are converted to an equivalent amount of cash at the time the distributions are made from the plan to directors.

- (5) Column (b) does not include any exercise price for notional shares allocated to employees under Honeywell's equity compensation plans not approved by shareowners because all of these shares are notionally allocated as a matching contribution under the non-tax qualified savings plans or as a notional investment of deferred bonuses or fees under the cash incentive compensation and directors plans as described in note 4 and are only settled for shares of Common Stock on a one-for-one basis.
- (6) No securities are available for future issuance under the AlliedSignal Incentive Compensation

Plan for Executive Employees of AlliedSignal Inc. and its Subsidiaries and the Deferred Compensation Plan for Non-Employee Directors of Honeywell International Inc. The cash incentive compensation plan has expired. All notional investments in shares of Common Stock are converted to cash when payments are made under the directors plan. The amount of securities available for future issuance under the Supplemental Non-Qualified Savings Plan for Highly Compensated Employees of Honeywell International Inc. and its Subsidiaries is not determinable because the number of securities that may be issued under this plan depends upon

the amount
deferred to the
plan by
participants in
future years.

The table does
not contain
information for
employee
benefit plans of
Honeywell
intended to
meet the
requirements of
Section 401(a)
of the Internal
Revenue Code
and a small
number of
foreign
employee
benefit plans
that are similar
to such Section
401(a) plans.

Item 13. Certain Relationships and Related Transactions

Information relating to certain relationships and related transactions is contained in the Proxy Statement referred to above in Item 10. Directors and Executive Officers of the Registrant, and such information is incorporated herein by reference.

Item 14. Principal Accounting Fees and Services

Information relating to fees paid to and services performed by PricewaterhouseCoopers LLP in 2009 and 2008 and our Audit Committee's pre-approval policies and procedures with respect to non-audit services are contained in the Proxy Statement referred to above in Item 10. Directors and Executive Officers of the Registrant, and such information is incorporated herein by reference.

Part IV.**Item 15. Exhibits and Financial Statement Schedules**

	Page Number in Form 10-K
(a)(1.) Consolidated Financial Statements:	
Consolidated Statement of Operations for the years ended December 31, 2009, 2008 and 2007	50
Consolidated Balance Sheet at December 31, 2009 and 2008	51
Consolidated Statement of Cash Flows for the years ended December 31, 2009, 2008 and 2007	52
Consolidated Statement of Shareowners' Equity for the years ended December 31, 2009, 2008 and 2007	53
Notes to Financial Statements	54
Report of Independent Registered Public Accounting Firm	103

	Page Number in Form 10-K
(a)(2.) Consolidated Financial Statement Schedules:	
Schedule II Valuation and Qualifying Accounts	115

All other financial statement schedules have been omitted because they are not applicable to us or the required information is shown in the consolidated financial statements or notes thereto.

(a)(3.) Exhibits

See the Exhibit Index on pages 111 through 114 of this Annual Report on Form 10-K.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this annual report to be signed on its behalf by the undersigned, thereunto duly authorized.

EXHIBIT INDEX

Exhibit No.	Description
3(i)	Amended and Restated Certificate of Incorporation of Honeywell International Inc., as amended April 28, 2008 (incorporated by reference to Exhibit 3(i) to Honeywell's Form 8-K filed May 1, 2008)
3(ii)	By-laws of Honeywell International Inc., as amended September 26, 2008 (incorporated by reference to Exhibit 3(ii) to Honeywell's Form 8-K filed October 2, 2008)
4	Honeywell International Inc. is a party to several long-term debt instruments under which, in each case, the total amount of securities authorized does not exceed 10% of the total assets of Honeywell and its subsidiaries on a consolidated basis. Pursuant to paragraph 4(iii)(A) of Item 601(b) of Regulation S-K, Honeywell agrees to furnish a copy of such instruments to the Securities and Exchange Commission upon request.
10.1*	2003 Stock Incentive Plan of Honeywell International Inc. and its Affiliates (incorporated by reference to Honeywell's Proxy Statement, dated March 17, 2003, filed pursuant to Rule 14a-6 of the Securities and Exchange Act of 1934 and amended by Exhibit 10.1 to Honeywell's Form 8-K filed December 21, 2004, Exhibit 10.1 to Honeywell's Form 10-K for the year ended December 31, 2006 and Exhibit 10.1 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.2*	Deferred Compensation Plan for Non-Employee Directors of Honeywell International Inc., as amended and restated (incorporated by reference to Exhibit 10.2 to Honeywell's Form 10-Q for quarter ended June 30, 2003, and amended by Exhibit 10.1 to Honeywell's Form 8-K filed December 21, 2004 and Exhibit 10.2 to Honeywell's Form 10-K for the year ended December 31, 2005)
10.3*	Stock Plan for Non-Employee Directors of AlliedSignal Inc., as amended (incorporated by reference to Exhibit 10.3 to Honeywell's Form 10-Q for the quarter ended June 30, 2003 and amended by Exhibit 10.2 to Honeywell's Form 10-Q for the quarter ended June 30, 2007 and Exhibit 10.1 to Honeywell's Form 10-Q for the quarter ended September 30, 2008)
10.4*	1985 Stock Plan for Employees of AlliedSignal Inc. and its Subsidiaries, as amended (incorporated by reference to Exhibit 19.3 to Honeywell's Form 10-Q for the quarter ended September 30, 1991)
10.5*	Honeywell International Inc. Incentive Compensation Plan for Executive Employees, as amended and restated (incorporated by reference to Exhibit 10.5 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.6*	Supplemental Non-Qualified Savings Plan for Highly Compensated Employees of Honeywell International Inc. and its Subsidiaries, as amended and restated (incorporated by reference to Exhibit 10.6 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.7*	Honeywell International Inc. Severance Plan for Senior Executives, as amended and restated (incorporated by reference to Exhibit 10.7 to Honeywell's Form 10-K for the year ended December 31, 2008) and amended by the attached amendment (filed herewith)
10.8*	Salary and Incentive Award Deferral Plan for Selected Employees of Honeywell International Inc., and its Affiliates, as amended and restated (incorporated by reference to Exhibit 10.8 to Honeywell's Form 10-K for the year ended December 31, 2008)

Exhibit No.	Description
10.9*	1993 Stock Plan for Employees of Honeywell International Inc. and its Affiliates, as amended (incorporated by reference to Exhibit A to Honeywell's Proxy Statement, dated March 10, 1994, filed pursuant to Rule 14a-6 of the Securities and Exchange Act of 1934, and amended by Exhibit 10.1 to Honeywell's Form 8-K filed December 21, 2004, Exhibit 10.9 to Honeywell's Form 10-K for the year ended December 31, 2006, Exhibit 10.3 to Honeywell's Form 10-Q for the quarter ended June 30, 2007 and Exhibit 10.9 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.10*	Honeywell International Inc. Supplemental Pension Plan, as amended and restated (incorporated by reference to Exhibit 10.10 to Honeywell's Form 10-K for the year ended December 31, 2008) and amended by the attached amendment (filed herewith)
10.11*	Employment Separation Agreement and Release between J. Kevin Gilligan and Honeywell International Inc. dated February 10, 2004 (incorporated by reference to Honeywell's Form 10-K for year ended December 31, 2003)
10.12*	Honeywell International Inc. Supplemental Executive Retirement Plan for Executives in Career Band 6 and Above, as amended and restated (incorporated by reference to Exhibit 10.12 to Honeywell's Form 10-K for the year ended December 31, 2008) and amended by the attached amendment (filed herewith)
10.13*	Honeywell Supplemental Defined Benefit Retirement Plan, as amended and restated (incorporated by reference to Exhibit 10.13 to Honeywell's Form 10-K for the year ended December 31, 2008) and amended by the attached amendment (filed herewith)
10.14*	Letter between David J. Anderson and Honeywell International Inc. dated June 12, 2003 (incorporated by reference to Exhibit 10.26 to Honeywell's Form 10-Q for the quarter ended June 30, 2003 and amended by Exhibit 10.14 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.15*	Employment Separation Agreement and Release between Richard F. Wallman and Honeywell International Inc. dated July 17, 2003 (incorporated by reference to Exhibit 10.2 to Honeywell's Form 10-Q for the quarter ended September 30, 2003)
10.16*	Honeywell International Inc. Severance Plan for Corporate Staff Employees (Involuntary Termination Following a Change in Control), as amended and restated (incorporated by reference to Exhibit 10.16 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.17*	Employment Agreement dated as of February 18, 2002 between Honeywell and David M. Cote (incorporated by reference to Exhibit 10.24 to Honeywell's Form 8-K filed March 4, 2002, and amended by Exhibit 10.3 to Honeywell's Form 10-Q for the quarter ended September 30, 2008 and Exhibit 10.17 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.18*	2003 Stock Incentive Plan for Employees of Honeywell International Inc. and its Affiliates Award Agreement (incorporated by reference to Exhibit 10.1 to Honeywell's Form 8-K filed February 7, 2005)
10.19*	2003 Stock Incentive Plan for Employees of Honeywell International Inc. and its Affiliates Restricted Unit Agreement (incorporated by reference to Exhibit 10.21 to Honeywell's Form 10-K for the year ended December 31, 2005)
10.20*	2003 Stock Incentive Plan for Employees of Honeywell International Inc. and its Affiliates Growth Plan Agreement (incorporated by reference to Exhibit 10.22 to Honeywell's Form 10-K for the year ended December 31, 2005)
10.21*	Stock Plan For Non-Employee Directors of Honeywell International Inc. Option Agreement (incorporated by reference to Exhibit 10.1 to Form 8-K filed April 29, 2005)

Exhibit No.	Description
10.22*	Deferred Compensation Agreement dated August 4, 2006 between Honeywell and David M. Cote (incorporated by reference to Exhibit 10.22 to Honeywell's Form 10-K for the year ended December 31, 2006) and amended by the attached amendment (filed herewith)
10.23*	Letter Agreement dated July 27, 2001 between Honeywell and Larry E. Kittelberger (incorporated by reference to Exhibit 10.23 to Honeywell's Form 10-K for the year ended December 31, 2006, and amended by Exhibit 10.23 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.24*	Honeywell Supplemental Retirement Plan (incorporated by reference to Exhibit 10.24 to Honeywell's Form 10-K for the year ended December 31, 2006)
10.25*	Pittway Corporation Supplemental Executive Retirement Plan (incorporated by reference to Exhibit 10.25 to Honeywell's Form 10-K for the year ended December 31, 2006 and amended by Exhibit 10.25 to Honeywell's Form 10-K for the year ended December 31, 2008) and amended by the attached amendment (filed herewith)
10.26*	2006 Stock Incentive Plan of Honeywell International Inc. and Its Affiliates, as amended and restated (incorporated by reference to Exhibit 10.26 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.27*	2006 Stock Incentive Plan of Honeywell International Inc. and Its Affiliates Form of Option Award Agreement (incorporated by reference to Exhibit 10.2 to Honeywell's Form 10-Q for the quarter ended March 31, 2009)
10.28*	2006 Stock Incentive Plan of Honeywell International Inc. and Its Affiliates Form of Restricted Unit Agreement (incorporated by reference to Exhibit 10.1 to Honeywell's Form 10-Q for the quarter ended March 31, 2009)
10.29*	2006 Stock Incentive Plan of Honeywell International Inc. and Its Affiliates Form of Growth Plan Agreement (incorporated by reference to Exhibit 10.5 to Honeywell's form 10-Q for the quarter ended June 30, 2006)
10.30*	2006 Stock Incentive Plan of Honeywell International Inc. and Its Affiliates Form of Performance Share Agreement (incorporated by reference to Exhibit 10.30 to Honeywell's Form 10-K for the year ended December 31, 2006)
10.31*	2006 Stock Plan for Non-Employee Directors of Honeywell International Inc., as amended and restated (incorporated by reference to Exhibit 10.31 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.32*	2006 Stock Plan for Non-Employee Directors of Honeywell International Inc. Form of Option Agreement (incorporated by reference to Exhibit 10.7 to Honeywell's Form 10-Q for the quarter ended June 30, 2006)
10.33*	2006 Stock Plan for Non-Employee Directors of Honeywell International Inc. Form of Restricted Stock Agreement (incorporated by reference to Exhibit 10.8 to Honeywell's Form 10-Q for the quarter ended June 30, 2006)
10.34*	2006 Stock Plan for Non-Employee Directors of Honeywell International Inc. Form of Restricted Unit Agreement (incorporated by reference to Exhibit 10.34 to Honeywell's Form 10-K for the year ended December 31, 2008)
10.35*	2007 Honeywell Global Employee Stock Plan (incorporated by reference to Honeywell's Proxy Statement, dated March 12, 2007, filed pursuant to Rule 14a-6 of the Securities and Exchange Act of 1934)
10.36*	Letter Agreement dated July 20, 2007 between Honeywell and Roger Fradin (incorporated by reference to Exhibit 10.1 to Honeywell's Form 10-Q for the quarter ended September 30, 2007) and amended by the attached amendment (filed herewith)

Exhibit No.	Description
10.37	Amended and Restated Five Year Credit Agreement dated as of May 14, 2007 by and among Honeywell International Inc., the banks, financial institutions and other institutional lenders parties thereto, Citicorp USA, Inc., as administrative agent, Citibank International PLC, as swing line agent, JPMorgan Chase Bank, N.A., as syndication agent, Bank of America, N.A., Barclays Bank PLC, Deutsche Bank AG New York Branch and UBS Loan Finance LLC, as documentation agents, and Citigroup Global Markets Inc. and J.P. Morgan Securities Inc., as joint lead arrangers and co- book managers (incorporated by reference to Exhibit 10.1 to Honeywell s 8-K filed May 18, 2007)
10.38	Purchase and Sale Agreement between Catalysts, Adsorbents and Process Systems, Inc., and Honeywell Specialty Materials, LLC, dated September 30, 2005 (incorporated by reference to Exhibit 10.23 to Honeywell s Form 10-Q for the quarter ended September 30, 2005)
10.39	Stock Purchase Agreement by and between Honeywell International Inc. and M&F Worldwide Corp. (incorporated by reference to Exhibit 2.1 to Honeywell s Form 8-K filed November 1, 2005)
10.40	Stock Purchase Agreement dated April 3, 2008 by and among Honeywell International Inc., Safety Products Holdings, Inc., the selling shareholders party thereto, and Odyssey Investment Services, L.L.C. (incorporated by reference to Exhibit 10.1 to Honeywell s Form 8-K filed April 7, 2008)
10.41	Stock and Asset Purchase Agreement dated June 9, 2008, by and between Honeywell International Inc. and BE Aerospace, Inc. (incorporated by reference to Exhibit 10.1 to Honeywell s Form 8-K filed June 11, 2008)
12	Statement re: Computation of Ratio of Earnings to Fixed Charges (filed herewith)
21	Subsidiaries of the Registrant (filed herewith)
23	Consent of PricewaterhouseCoopers LLP (filed herewith)
24	Powers of Attorney (filed herewith)
31.1	Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (filed herewith)
31.2	Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (filed herewith)
32.1	Certification of Principal Executive Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (filed herewith)
32.2	Certification of Principal Financial Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (filed herewith)
101.INS	XBRL Instance Document (furnished herewith)
101.SCH	XBRL Taxonomy Extension Schema (furnished herewith)
101.CAL	XBRL Taxonomy Extension Calculation Linkbase (furnished herewith)
101.DEF	XBRL Taxonomy Extension Definition Linkbase (furnished herewith)
101.LAB	XBRL Taxonomy Extension Label Linkbase (furnished herewith)
101.PRE	XBRL Taxonomy Extension Presentation Linkbase (furnished herewith)

The Exhibits identified above with an asterisk (*) are management contracts or compensatory plans or arrangements.
