EXPLANATORY NOTE

MarketAxess Holdings Inc. is filing this Amendment No. 1 on Form 10-K/A (this Amendment) to amend its Annual Report on Form 10-K for the fiscal year ended December 31, 2008 (the Form 10-K), as filed with the Securities and Exchange Commission (SEC) on March 3, 2009, for the purpose of including the information that was to be incorporated by reference to its definitive proxy statement relating to its 2009 Annual Meeting of Stockholders. The Registrant will not file its proxy statement within 120 days of its fiscal year ended December 31, 2008 and is therefore amending Part III, Items 10 through 14 of its Annual Report on Form 10-K as set forth below to include such information. We are also including as exhibits the certifications required under Section 302 of the Sarbanes-Oxley Act of 2002.

Except as otherwise expressly stated herein, this Amendment does not reflect events occurring after the date of the Form 10-K, nor does it modify or update the disclosure contained in the Form 10-K in any way other than as required to reflect the amendments discussed above and reflected below. Accordingly, this Amendment should be read in conjunction with the Form 10-K and the Company's other filings made with the SEC subsequent to December 31, 2008.

Unless the context requires otherwise, the terms MarketAxess, the Company, we, us and our refer to MarketAxess Holdings Inc. and its subsidiaries.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

Section 16(a) beneficial ownership reporting compliance

The members of our Board of Directors, our executive officers and persons who hold more than 10% of our outstanding Common Stock are subject to the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934, as amended, which requires them to file reports with respect to their ownership of our Common Stock and their transactions in such Common Stock. Based solely upon a review of (i) the copies of Section 16(a) reports that MarketAxess has received from such persons for transactions in our Common Stock and their Common Stock holdings for the 2008 fiscal year and (ii) the written representations of such persons that no annual Form 5 reports were required to be filed by them for the fiscal year, the Company believes that all reporting requirements under Section 16(a) for such fiscal year were met in a timely manner by its directors, executive officers and beneficial owners of more than 10% of its Common Stock, except that Mr. Burkhardt filed one late report that covered transactions on November 21, 2008 with respect to open-market purchases of shares of Common Stock.

Code of Conduct, Code of Ethics and other governance documents

The Board has adopted a Code of Conduct that applies to all officers, directors and employees, and a Code of Ethics for the Chief Executive Officer and Senior Financial Officers. Both the Code of Conduct and the Code of Ethics for the Chief Executive Officer and Senior Financial Officers, as well as any amendments to, or waivers under, the Code of Ethics for the Chief Executive Officer and Senior Financial Officers, can be accessed in the *Investor Relations Corporate Governance* section of our website at www.marketaxess.com.

You may also obtain a copy of these documents by writing to MarketAxess Holdings Inc., 140 Broadway, 42nd Floor, New York, New York 10005, Attention: Investor Relations.

Copies of the charters of our Board's Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee, as well as copies of the Company's Corporate Governance Guidelines, certificate of incorporation and bylaws, can be accessed in the *Investor Relations* / *Corporate Governance* section of our website.

Audit Committee

The Audit Committee of our Board of Directors reviews, acts on and reports to our Board of Directors with respect to various auditing and accounting matters, including the recommendation of our independent registered public accounting firm, the scope of the annual audits, the fees to be paid to the independent registered public accounting firm, the performance of the independent registered public accounting firm and our accounting practices. The Audit Committee currently consists of Messrs. Gomach (Chair), Casper and Hersch.

The Board of Directors has determined that each member of the Audit Committee is an independent director in accordance with NASDAQ listing standards and that Mr. Casper and Mr. Gomach are both Audit Committee financial experts, as defined by SEC guidelines and as required by the applicable NASDAQ listing standards.

Item 11. *Executive Compensation.*

COMPENSATION DISCUSSION AND ANALYSIS

Overview of compensation objectives and strategy for our Named Executive Officers

The compensation program for our Chief Executive Officer (*CEO*), Mr. McVey, our Chief Financial Officer (*CFO*), Mr. Rucker, and our two other executive officers who were serving as executive officers at the end of fiscal year 2008, our President, Mr. Millet, and our Chief Information Officer (*CIO*), Mr. Themelis (the named executive officers or *NEOs*), is designed to attract and retain the caliber of executives needed to ensure our continued growth and profitability. The primary objectives of the program are to:

- create long-term value for our stockholders;
- align personal performance and decision-making with stockholder value creation;
- reward our NEOs for their individual performance and their contribution to our overall financial performance;
- support our long-term growth objectives;
- encourage high potential individuals with significant and unique market experience to build a career at the Company;
- provide rewards that are competitive with organizations that compete for similarly skilled executives; and
- provide rewards that are cost-efficient and equitable to our NEOs and stockholders alike.

We are a hybrid company whose NEOs must combine an expertise of the fixed-income securities market with the knowledge and ability to create, implement and deliver technology-driven market solutions. Further, as we are a small firm with little overhead in support positions and maintain a relatively flat organization, our NEOs must have the

ability and desire to manage tactical details, they are expected to effectively communicate to and lead broad teams of employees across all levels of the organization and they must be able to think strategically and broadly. We have discovered that our business is particularly demanding on senior executives and those who can flourish in this environment are not easily found due to the unique and distinct competencies that are required for success. Accordingly, because of the challenges presented by the current market conditions and the potential impact of these market conditions on our ongoing operating results, and despite what may be more limited employment opportunities due to the downturn in the financial services industry, the Compensation Committee believes that our ability

Table of Contents

to retain our current high-performing team of seasoned NEOs to manage our business is critical to the Company's success.

The compensation programs for our NEOs are administered by the Compensation Committee of the Board of Directors. Working with management and our independent outside compensation advisors, the Compensation Committee has developed and continually reviews and revises a compensation and benefits strategy that rewards performance and behaviors to reinforce a culture that will drive our Company's long-term success.

We have a formal semi-annual planning and goal-setting process that is fully integrated into the compensation program, creating alignment between individual efforts, our results, and the financial awards that are realized by our NEOs as well as our general employee population.

In addition, the NEOs and other senior managers meet regularly in order to update corporate goals and initiatives based on corporate performance, changes in market conditions and potential emerging market opportunities. Individual strategic goals and objectives will change as a result of new or changed corporate initiatives.

To reflect the hybrid nature of our Company, our compensation structure has traditionally fused the high leverage cash model typical of the financial services industry (where base salaries are a smaller percentage of total cash income and annual incentives may easily exceed 100% of base salary) with the high risk/high reward equity model, characteristic of the technology industry that relies heavily on the use of equity-based awards. In addition to our base pay and annual incentive opportunities, we seek to promote a long-term commitment to the Company from our NEOs, as we believe that there is great value to the Company from the continuity that results in maintaining the same team of seasoned managers. Our team-focused culture and management processes are designed to foster this commitment. To support these objectives, long-term incentives for our NEOs have traditionally been granted as equity incentives, predominantly in the form of stock options and restricted stock. In addition, fiscal year 2008 was the first year that we granted our NEOs equity incentives in the form of performance shares.

The value realized from the equity incentive awards is dependent upon our performance and growth in our stock price. The vesting schedules and performance goals attached to these equity awards reinforce this long-term, performance-based orientation.

Role of the Compensation Committee

General

The Compensation Committee establishes our compensation policies, provides guidance for the implementation of those policies and determines the amounts and elements of compensation for our NEOs. The Compensation Committee's function is more fully described in its charter, which has been approved by our Board of Directors. The charter is available for viewing or download on our corporate website at www.marketaxess.com under the *Investor Relations-Corporate Governance* caption.

The Board of Directors has determined that each member of the Compensation Committee is an independent director in accordance with NASDAQ listing standards, a non-employee director under the applicable SEC rules and regulations and an outside director under the applicable tax rules.

The Compensation Committee consults with the compensation consultant when considering decisions concerning the compensation of the CEO. When considering decisions concerning the compensation of our NEOs other than the CEO, the Compensation Committee generally seeks the recommendations of both the CEO and the compensation consultant. All compensation decisions for our NEOs are ultimately made in the Compensation Committee's sole

discretion.

No NEO has a role in determining or recommending compensation for outside directors.

Use of Outside Advisors

In making its determinations with respect to compensation of our NEOs, the Compensation Committee retains the services of an independent outside compensation consultant. Through May 2008, the Compensation Committee had retained the services of Pearl Meyer & Partners (*PM&P*). The Compensation Committee's primary contact at

Table of Contents

PM&P left that firm in March 2008 and shortly thereafter joined Grahall Partners, LLC (*Grahall*). Effective in June 2008, the Compensation Committee ended its retention of PM&P and retained Grahall so that it could continue to receive the guidance of its lead consultant. Both Grahall and PM&P were retained directly by, and report directly to, the Compensation Committee.

With respect to 2008 compensation for our NEOs, the Compensation Committee retained PM&P to review and benchmark competitive market pay levels. In addition, PM&P assisted in the preparation of the Compensation Discussion and Analysis included in the proxy statement for our 2008 Annual Meeting of Stockholders and at the Compensation Committee's request commenced an analysis in relation to potential revisions to our peer group (as discussed in *Pay Levels and Benchmarking* below). In 2008, Grahall provided consulting services to the Compensation Committee with respect to compensation for, and the retention of, our NEOs and also completed the peer group review that was commenced by PM&P. In addition, Grahall provided the Board of Directors with recommendations for cash and equity compensation for our Non-Employee Directors.

The Compensation Committee annually reviews competitive compensation data, recent compensation trends, and any other relevant market data prepared by the compensation consultant.

The Compensation Committee has the authority to retain, terminate and set the terms of the relationship with any outside advisors who assist the Compensation Committee in carrying out its responsibilities.

Pay Levels and Benchmarking

We seek to provide competitive compensation that is commensurate with performance. The compensation consultant works with our CEO and other managers of the Company to gather pertinent Company information, including but not limited to employee and officer listings, corporate financial performance, and the budget for the expensing of equity grants. The compensation consultant independently researches the performance and pay philosophy of our peer group and benchmarks executive and management positions using applicable survey data. The compensation consultant presents to the Compensation Committee the recommended compensation ranges for Total Direct Compensation (*TDC*), being comprised of base salary, cash bonus and long term equity incentives, for all of our NEOs. Corporate financial performance (year-over-year growth), individual performance, completion of corporate strategic goals, and the ability to incur the suggested compensation expenses factor heavily into the Compensation Committee's decision of where to position the executives in relation to the benchmark data and in relation to each other. Additionally, retention concerns are considered when making pay decisions.

At the end of 2007 for fiscal year 2008, we benchmarked our NEO base salaries with a peer group of financial technology companies. This was supplemented, as appropriate, with other pertinent survey data provided by several different applicable survey sources, including surveys conducted by McLagan Partners, Watson Wyatt and PM&P. As discussed below, we have not increased the base salaries of our NEOs since 2006. At the end of 2008 for fiscal year 2009, Grahall reviewed each NEO's benchmark data for variable compensation (both cash and equity) and developed an appropriate range of TDC for each individual that was presented to the Compensation Committee. Grahall used our peer group of financial technology companies and, as applicable, survey data from McLagan Partners, Mercer and CHiPS. The TDC range for each NEO was determined based on a number of factors, including: the NEO's role, responsibilities and expertise; the pay level for peers within the Company and in the market for similar positions; the level of competition that exists within the market for a given position; individual performance; and contribution to corporate financial performance, including the development and achievement of our long-term strategic goals and the enhancement of our franchise value. The Compensation Committee also considered the general economic climate and indications of pay levels from their colleagues in the financial services and technology industries.

After consideration of the foregoing data and the internal relationships within the group of NEOs at the Company, corporate financial performance, general individual performance of the individual s duties and responsibilities and the need to attract, motivate and retain an experienced and effective management team, the Compensation Committee determined the TDC levels for each NEO within the appropriate range. The Compensation Committee then determined which portion of the TDC for each NEO should consist of base salary, annual cash incentives and long-term equity incentive awards.

Table of Contents

Given the Company's unique position in its industry, we believe the benchmark data is extremely important in guiding the Compensation Committee in determining relevant pay levels and pay mix (the allocation of total pay among the different elements). The Compensation Committee uses the competitive data to help strike a favorable balance among cost management, wealth creation opportunity and retention, without creating undesirable and unnecessary incentives for executives to take risks that might inappropriately place the stockholders' investment at risk.

We generally target our NEOs' individual target total compensation level to be around the median of the market data for accomplishment of target performance. However, as discussed below, the base salary for each NEO is below market median.

The Compensation Committee assesses competitive market compensation using a number of sources. As mentioned above, one of the data sources used in setting competitive market levels for the NEOs is the information publicly disclosed by a peer group of financial technology companies (listed below), the composition of which is reviewed annually with the compensation consultant. While these companies may differ from us in terms of exact size and revenues, they are the closest matches available to us in terms of a comparable business model.

In 2008, the Compensation Committee updated our peer group by making the following changes: we replaced eSpeed with BGC Partners after the merger of those two companies; we removed International Securities Exchange after its acquisition by Deutsche Boerse (as public information regarding this company's pay levels and practices will no longer be available); and we no longer use TD Ameritrade, as that organization currently has substantially higher revenues and franchise value (as measured by market capitalization) than ours. The firms that were removed from the peer group were replaced by GFI Group Inc. and Intercontinental Exchange, Inc., as these firms' annual revenues are more in line with ours than firms such as TD Ameritrade. However, while TD Ameritrade is no longer included as a peer for purposes of determining pay levels for our NEOs, the Compensation Committee continued to consider TD Ameritrade's pay practices for purposes of providing reference points for how pay is delivered by competitors in our industry.

Our peer group of companies in the financial services technology marketplace currently includes:

BGC Partners, Inc. (successor)	Labranche & Co., Inc.
GFI Group Inc. (new)	Options Xpress Holdings, Inc.
Intercontinental Exchange, Inc. (new)	SWS Group, Inc.

As our business model is unique we are the only publicly-traded company whose core business is providing a multi-dealer electronic trading platform for credit products for client-to-dealer trading this peer group data is supplemented and blended with data from different compensation surveys. These surveys are selected based on their relevance to the specific position being evaluated.

In addition, the Compensation Committee also applies other factors in determining the level of incentive pay for our NEOs. For example, if the Company's ratio of compensation expense to gross revenues is greater than that of other companies in our peer group, the Compensation Committee may choose to reduce the amount of the annual incentive opportunity for our NEOs accordingly. The Compensation Committee believes this approach is typical in the financial services industry, and this comparison provides an additional data point regarding how our ratio of aggregate compensation expense as a proportion of overall expense compares to our own internal guidelines as well as the industry in which we compete. Since the NEOs' incentive payments are a part of the aggregate compensation expense, the Compensation Committee may reduce the NEOs' incentives in order to reduce this ratio or to allow for additional

incentive payments to the non-NEO employee population.

As noted above, notwithstanding our overall pay positioning objectives, pay opportunities for specific individuals vary based on a number of factors, such as scope of duties, tenure, institutional knowledge, individual performance, market conditions and the ability to retain the NEO, and/or the difficulty in recruiting a new executive who has the skill set required to be successful with the Company. Actual total compensation in a given year will vary above or below the

target compensation levels based on the attainment of corporate strategic and operating goals, individual performance, the creation of stockholder value and competitive threats.

Details of the Company's compensation structure for our NEOs

Pay Elements Overview

We utilize four main components of compensation for our NEOs:

base salary that reflects the particular individual's role and responsibilities, experience, expertise and individual performance;

annual variable cash performance awards that are designed to reward attainment of annual corporate financial goals and individual performance, and that allow cash compensation to fluctuate upwards or downwards, as appropriate, with individual and corporate performance;

long-term incentives, which in 2008 consisted of grants of restricted stock and performance shares; and

benefits and perquisites, offered to all employees, including healthcare benefits, life insurance and retirement savings plans; and disability plans in the U.S.

In addition to the foregoing elements, we have entered into employment agreements with the CEO and the President that provide for certain payments and benefits in the event of certain terminations of their employment or a change in control of the Company. See *Executive Compensation Potential termination or change in control payments and benefits* for additional detail on potential payments under specific events of termination or upon a change of control.

Pay Elements Details

Base Salary

The Company does not automatically increase base salary each year. Rather, the Compensation Committee reviews all components of remuneration and decides which, if any, elements of compensation should be adjusted or paid based on corporate and individual performance results and competitive benchmark data. This approach is in line with the Company's intention of offering compensation that is highly correlated with each executive's individual responsibilities and performance and with corporate financial performance.

The Compensation Committee performed its annual review of base salaries in 2007 and determined not to make any upwards adjustments in the base salaries for our NEOs for 2008. This reflects the Company's recognition of the challenging operating conditions in the current credit markets and the potential impact of these market conditions on our on-going operating results. It is also consistent with our compensation policy to carefully manage fixed expense. The Compensation Committee has also determined that the base salaries of our NEOs will not be increased for 2009.

Prior to 2007, the base salary for our NEOs was historically positioned at or above the median salary of the benchmarked data. However, as we have not adjusted NEO base salary since January 2006 and as the benchmark data has increased over time, our NEOs' base salaries are now generally lower than the applicable median base pay levels suggested by the benchmark data. We believe this offers the Company improved cost control, as lower base salaries permit us to manage fixed compensation costs, reduce benefits costs and emphasize variable pay, so that our compensation is more fully aligned with performance outcomes. Accordingly, the Compensation Committee believes that keeping base salaries constant is an effective method to reinforce our pay-for-performance philosophy.

Annual Variable Performance Awards Payable in Cash

Section 162(m) of the Code generally prohibits any publicly-held corporation from taking a Federal income tax deduction for compensation paid in excess of \$1 million in any taxable year to the CEO and any other executive officer (other than the CFO) employed on the last day of the taxable year whose compensation is required to be disclosed to stockholders under SEC rules, unless the plan and awards pursuant to which any portion of the compensation is paid meet certain requirements.

Table of Contents

To ensure the tax deductibility of any performance-based cash compensation awarded to the NEOs (other than our CFO) in 2008, the Compensation Committee adopted the 2008 Code Section 162(m) Performance Incentive Program (the *2008 162(m) Incentive Program*) which was approved by stockholders at the 2008 Annual Meeting. The 2008 162(m) Incentive Program was structured in a manner intended to qualify any performance-based cash compensation awarded to the NEOs (other than our CFO) as performance-based compensation eligible for deductibility under Code Section 162(m).

In 2008, the Company's aggregate bonus pool accrual for all employees (in which our CFO participated) (the *Employee Bonus Pool*) was equal to a minimum guaranteed accrual of \$3,000,000 (the *Minimum Accrual*) plus 30% of the Company's 2008 pre-tax operating income before cash bonus expense (the *Variable Accrual*). This accrual methodology differed from the methodology used in 2007. The 2007 minimum accrual was \$5,000,000 and the 2007 variable accrual rate was 25.1%. It was determined that the Minimum Accrual, which is guaranteed and not performance-based, should be lower and the Variable Accrual should be higher so that a higher percentage of the bonus accrual would be performance-based. By having a higher Variable Accrual and a lower Minimum Accrual, the bonus accrual would be lower if the Company does not meet its target performance goals and higher if the Company exceeds those targets. The mix was determined to create a fair balance between (a) the goal of creating appropriate annual performance incentives in order to retain and reward high performers and (b) expense management where any incremental cash bonus expense is only borne by the Company if financial performance is exceeded.

The bonus pool accrual under the 2008 162(m) Incentive Program (in which our NEOs other than our CFO participated) was equal to 32.5% of the Variable Accrual (the *NEO Bonus Pool*). There was no minimum guaranteed accrual under the 2008 162(m) Incentive Program. The NEOs who participated in the 2008 162(m) Incentive Program were not eligible to receive any portion of the Minimum Accrual or any portion of the remaining 67.5% of the Variable Accrual. This formula had two objectives: to align employee bonuses with operating income, which correlates to earnings per share, and to use the operating leverage of our business to motivate employees. The percentages for the Employee Bonus Pool were determined by the Compensation Committee at the beginning of the year based on our target financial plan and the aggregate median of competitive cash bonus levels. The percentage for the NEO Bonus Pool was determined by the Compensation Committee based on the aggregate median benchmark data for the NEOs.

The maximum amount that could be earned from the NEO Bonus Pool by the NEOs who participated in the 2008 162(m) Incentive Program was established as a percentage of the NEO Bonus Pool and was determined based on the NEO's role, responsibilities, and expertise; comparable pay levels for peers within the Company, and in other companies for similar positions; the level of competition that exists within the market for a given position; and the NEO's ability to contribute to our financial performance and/or realization of our on-going strategic initiatives. The percentage of the NEO Bonus Pool that could be earned by Messrs. McVey and Millet was 35% each and the percentage for Mr. Themelis was 30%. Any amount of the NEO bonus not paid to the NEOs reverted to the general funds of the Company and the Employee Bonus Pool was increased by such amount.

In 2008, we did not set individual financial performance goals for the NEOs for achievement of incentive compensation, and there were no specific quantitative individual-level financial goals used to determine compensation. However, the Compensation Committee is apprised of the overall individual performance for each of the NEOs except the CEO, who reports to and is assessed by the full Board, and considers individual performance when determining where to position each NEO along the compensation data continuum that is developed for each position as part of its benchmarking exercise.

The actual level of cash bonus awards for each of the NEOs was determined in the context of our financial performance in 2008, each officer's individual strategic and qualitative accomplishments (as discussed below), comparative market data and all other components of the NEO's TDC. At the conclusion of the 2008 performance

period, the Compensation Committee determined the actual amount to be paid to each NEO and exercised its discretion to pay each executive an amount that was lower than the maximum amount permitted. A further discussion regarding the Compensation Committee's use of negative discretion appears below.

The CEO, President and CIO comprise the three individuals who participated in the Company's 2008 162(m) Incentive Program, and are the participants under the MarketAxess Holdings Inc. 2009 Code Section 162(m)

Table of Contents

Executive Performance Incentive Plan (the *2009 Incentive Plan*) (as discussed below) for the 2009 performance period. To determine participants in the 2008 162(m) Incentive Program and the 2009 Incentive Plan, the Company relied on Notice 2007-49 issued by the Internal Revenue Service (*IRS*), which provides that the covered employee group for tax years ending on or after December 15, 2006 consists only of the principal executive officer of the Company (the *PEO*) (which, in the case of the Company, is the Company's CEO) and the three most highly compensated officers for the tax year other than the PEO and the principal financial officer of the Company (the *PFO*) (which is our CFO). The PFO, therefore, is no longer a covered employee for purposes of determining compliance with Section 162(m) of the Internal Revenue Code and thus our CFO has not been included as a participant in either the 2008 162(m) Incentive Program or the 2009 Incentive Plan. Besides the CEO and CFO, the Company has only two other NEOs: Mr. Millet (our President) and Mr. Themelis (our CIO). Despite his exclusion from the 2008 162(m) Incentive Program and the 2009 Incentive Plan, our CFO's incentive opportunities and actual bonus pay determinations remain subject to the Compensation Committee's discretion.

The table below shows the actual payout amounts for each of the NEOs who participated in the 2008 162(m) Incentive Program in relation to the maximum they were allowed to receive from the NEO Bonus Pool. While \$1.95 million was accrued under the funding formula for the NEO Bonus Pool, the Compensation Committee reduced these potential payouts to an aggregate of \$1.45 million. A detailed discussion of the actual bonus payments awarded to each NEO, including the CFO, appears later in this section.

Beginning with the 2009 performance year, the Board of Directors adopted the 2009 Incentive Plan, which remains subject to stockholder approval at the 2009 Annual Meeting. The 2009 Incentive Plan is structured in a manner that is intended to meet the requirements of Code Section 162(m) in order to preserve our ability to take compensation expense deductions for annual cash bonuses that qualify as performance-based compensation. For 2009, the

Compensation Committee has adopted a program under the 2009 Incentive Plan for our NEOs (other than our CFO) that is identical to the 2008 162(m) Incentive Program, except that the 2009 NEO Bonus Pool will be funded based on 32.5% of a variable accrual of 27% of the Company's 2008 pre-tax operating income before cash bonus expense, as opposed to a variable accrual of 30% in 2008.

In addition, in 2009 the Board of Directors adopted the 2009 Employee Performance Incentive Plan (the *Employee Plan*) in which our CFO participates. The Employee Plan is not subject to stockholder approval and is substantially similar to the 2009 Incentive Plan except that awards granted under the Employee Plan are not intended to, and will not, comply with the performance-based compensation exception under Section 162(m) of the Code. The employee bonus pool for 2009 was implemented under the Employee Plan.

In light of the current global economic downturn and our understanding of current cash bonus trends, for 2009 the Compensation Committee decided to lower the Minimum Accrual to \$2,000,000 (from \$3,000,000 in 2008) and the Variable Accrual to 27% (from 30% in 2008).

Table of Contents

We believe the decrease in the cash bonus accrual is appropriate given the market uncertainty, and we believe that NEOs will be motivated to adopt a long-term perspective that aligns with their equity holdings. A detailed discussion regarding equity holdings appears in the *Pay Mix* section below. While the portion of the Variable Accrual that is allocated to the NEOs subject to the 2009 Incentive Plan (32.5%) has not changed, the Compensation Committee intends to continue to review the NEO incentive compensation program design for future years.

The maximum percentage of the NEO Bonus Pool that may be earned by an NEO also remains subject to the discretion of the Compensation Committee to reduce the amount allocated to an individual NEO on an annual basis. The Compensation Committee believes that the allocation of bonus pools among our NEOs for 2008 was appropriate, and for 2009 is appropriate, based upon the individual and aggregate data it has reviewed.

The achievement of year-over-year pre-tax operating income growth is moderately difficult to achieve, especially in the context of the current unprecedented turmoil in the credit markets, and requires revenue growth and prudent expense management. While we managed our expenses well in 2008, we did not achieve our targeted revenue growth in our core business, and therefore we did not achieve the year-over-year growth in operating income that we believed was possible. As such, the 2008 Employee Bonus Pool, and consequently the 2008 NEO Bonus Pool, was significantly lower than 2007 accrual levels. Specifically, the Employee Bonus Pool for 2008 was \$9 million as compared to \$13.4 million in 2007 (a 33% decrease). The Employee Bonus Pool for 2008 did not include the bonus obligations assumed by the Company in conjunction with its acquisition of Greenline Financial Technologies, Inc. (*Greenline*) in March 2008. Prior to our acquisition, Greenline, now a wholly-owned subsidiary of our wholly-owned subsidiary MarketAxess Technologies Inc., had established its own bonus pool and accruals were continued throughout 2008 separately from the Employee Bonus Pool. In 2009, Greenline will continue to maintain a bonus pool that will accrue separately from the Company's 2009 Employee Bonus Pool. No employees of Greenline are currently NEOs nor is it anticipated that any employee of Greenline will become an NEO.

For the 2008 fiscal year, the Compensation Committee had to balance our 2008 operating results, which were directly and negatively impacted by the unprecedented dislocation of the financial credit markets, with the accomplishment of our corporate and individual strategic goals and initiatives. In addition, the Compensation Committee focused on retention of the executive management team as continuity in leadership is critical during this difficult time and this team is well-suited to lead the Company through the financial crisis.

A summary of cash bonuses awarded to the NEOs for 2007 and 2008, and the relationship between the NEOs' cash bonus growth and stockholder value measured as earnings per share (*EPS*), is as follows:

Financial Results	2007 actual	2008 Actual	Year-over-Year Percentage Change
Operating Income (in thousands)	\$ 17,251	\$ 12,834	-26%
EPS	\$ 0.30	\$ 0.22	-27%
Bonus Payments (In thousands)			
CEO	\$ 800	\$ 500	-38%
President	\$ 800	\$ 450	-44%
CFO	\$ 275	\$ 225	-18%

CIO	\$	700	\$	500	-29%
-----	----	-----	----	-----	------

As the above chart illustrates, and consistent with the Compensation Committee's intention, the decrease in the percentage change of cash bonus payments for the NEOs for 2008 was generally greater than the percentage reduction in the Company's 2008 earnings when compared to 2007. With the exception of the CFO, our NEOs have the most influence of any of our employees over growing the revenues and profits of the Company. Revenues in our core business decreased as a result of the turbulent market conditions; however, the increased revenue from our technology services business and our acquisition of Greenline off-set this revenue decline so that year-over-year revenues were essentially flat (\$93.1 million in 2008 vs. \$93.6 million in 2007). Despite cutting expenses in our core business, expenses increased 5% overall, largely as a result of the Greenline acquisition. As such, without revenue growth, profits decreased, and the Compensation Committee exercised its discretion so that the cash performance

Table of Contents

bonuses of the NEOs, other than the CFO, were reduced accordingly. In the CFO's case, while his cash bonus was reduced year-over-year, it was not reduced to the same extent as the bonuses paid to the other NEOs, as the Compensation Committee felt that the CFO's performance is not linked to revenue generation and wanted to recognize the CFO's role in achieving significant cost reductions in a difficult operating environment.

In determining the CEO's cash bonus for 2008, the Compensation Committee primarily focused on corporate financial performance. While operating income, and as a result EPS, decreased from 2007, we were able to maintain revenues and strong free cash flow. In addition, the Compensation Committee factored in qualitative achievements, such as implementation of the Company's strategic initiatives. In 2008, the CEO was credited with the following achievements:

Increasing our trading network by expanding the dealer market making community and maintaining a strong fixed income institutional client base;

Negotiating and closing a \$35 million preferred share transaction with Technology Crossover Ventures and adding Robert Trudeau to the Board of Directors;

Adding innovative technology solutions such as Market Lists to address liquidity gaps in secondary credit markets;

Retention of senior management team and top performers;

Attracting and retaining a strong base of long-term shareholders;

Successfully managing through elevated business risks including dealer consolidation and failures, investment portfolio risk and declining dealer capital for market-making; and

Successful collaboration with the Board of Directors on the acquisition of Greenline, the preferred share transaction, adoption of a stockholder rights plan and identification and implementation of strategies for business expansion.

In determining the President's cash bonus, the Compensation Committee and CEO focused primarily on corporate financial performance. In addition to the financial successes outlined above, the President was credited with the following accomplishments:

Leading a focused effort to increase institutional client inquiries on the system;

Improving the firm's fee capture per million primarily through the North American regional dealer expansion and the development of execution services for institutional clients;

Spearheading the acquisition of Greenline and co-heading the assessment, due diligence and integration of Greenline into our existing business;

Successfully managing the on-boarding of 20 new dealer market-makers to the trading system;

Retaining a valuable base of large dealer clients and revenues during a tumultuous period in the financial community; and

Building momentum in additional product areas, most notably high-yield corporate bonds.

In determining the cash bonus compensation for the CFO, the Compensation Committee and CEO focused on corporate financial performance, which includes the metrics noted above as well as an increase in the free cash flow/net income multiple to 3.0 in 2008 from 2.3 in 2007. In addition, the CFO was credited with:

Leading the financial due diligence for the Greenline acquisition;

Leadership of the Company's Risk Management and Credit Committees;

Addition of direct responsibility for the Company's Investor Relations function; and

Managing our compliance with the requirements of the Sarbanes-Oxley Act of 2002 and all other regulatory reporting requirements.

Table of Contents

In addition to contributing to the financial performance of the Company through the revenues attributed to our technology services business and prudent expense management, our CIO was credited with:

Building on our reputation of trading system stability, user-friendliness, and client responsiveness;

Co-heading the assessment, due diligence and assimilation of Greenline in order to expand our product and service offerings within our technology services business. Success of this business is a part our ongoing strategy of diversifying our revenue streams; and

Prudent expense management in the (a) ongoing consolidation of technology staff, (b) implementation of other technical efficiencies and (c) successful integration of the Greenline and Trade West Systems acquisitions into our technology framework.

The Compensation Committee also reviewed each NEO's market benchmark data and then determined where, within the appropriate range, each NEO should be positioned. The role, responsibilities, individual contributions, and expertise of each NEO were considered in determining pay positioning relative to the benchmark data.

Finally, as stated above, retention and continuity of leadership also factored into the compensation decisions for all NEOs.

Long-term Incentives Equity-based Awards

The Company and the Compensation Committee believe that equity-based awards are an important factor in aligning the long-term financial interest of our NEOs and our stockholders. As such, on October 24, 2007, our Board adopted stock ownership guidelines for our executive officers that currently require our NEOs to own not less than a number of shares of Common Stock equal to or greater than the value set forth beside their names below, which equates to three times the CEO's base salary and two times the base salary of the other NEOs as calculated on the effective date of the policy:

CEO	\$ 1,200,000
President	\$ 600,000
CFO	\$ 400,000
CIO	\$ 400,000

Currently, all NEOs are in compliance with these guidelines and must remain in compliance throughout the NEO's employment with the Company. Newly-appointed executives will be subject to the same guidelines and will be required to be in compliance within five years of commencement of service. Importantly, under our ownership guidelines, only shares of Common Stock owned outright in any form, including shares purchased and held personally and vested restricted shares, count toward the minimum ownership requirement. All stock options, irrespective of whether they are vested or in the money, are specifically excluded, as are any unvested restricted shares. Compliance with the stock ownership guidelines is reviewed by the Compensation Committee on an annual basis.

Equity awards to our NEOs are determined in the same manner as cash bonuses: the budget for equity-related expenses, corporate financial performance, group and individual performance, benchmark data and retention requirements are factors in determining the equity award. Additionally, total planned cash compensation vs. benchmark data is considered when determining the size and type of equity grant.

The Compensation Committee uses the Black-Scholes option pricing model to value stock options and option expense in determining the financial impact of equity awards on the Company.

For performance year 2008, after having reduced the cash bonus amounts for the NEOs due to corporate financial performance, the Compensation Committee used equity as a retention and long-term reward tool. By doing so, the Compensation Committee was able to balance short-term repercussions (*i.e.*, a reduction in 2008 cash incentives due to lower 2008 corporate financial performance) with long-term motivation and incentives. Specifically, due to the vesting periods attached to the equity, retention increases because a NEO only profits if he continues his employment with the Company, and value is derived from the award only if the NEO is able to

Table of Contents

produce long-term profits for the Company. In addition, these rewards are tied to stockholder returns as the NEO only profits from the equity when stockholders profit from the Company's financial performance.

The Compensation Committee evaluates the use of equity-based awards and intends to continue to use such awards as part of designing and administering the Company's compensation program. Our NEOs have been granted stock options, restricted stock and performance shares (in 2008, as discussed below). Awards are generally granted to our NEOs at the time of hire and then annually at the end of each fiscal year for corporate, unit and individual performance.

Since 2006, our equity award policy has been to grant all year-end equity awards on January 15th of the following year (or the preceding business day if January 15th is not a business day). This insures that the timing of any option grants and the setting of the exercise price, which is the closing price per share of our Common Stock on the NASDAQ Stock Market on the date of grant, will not be arbitrary or subject to manipulation. However, the restricted stock awarded to the NEOs in January 2009 was actually granted on January 22, 2009, as the Compensation Committee had delayed the award so that it could evaluate certain tax issues regarding the potential issuance of the shares as restricted stock units, which could permit executives the opportunity to defer portions of their stock awards to a date later than the originally scheduled vesting date. After completing its review, the Compensation Committee determined that due to restrictions on the timing of deferral elections and certain other tax law requirements, the participants would not have sufficient flexibility in deferring income (which was the original intent) upon vesting of restricted stock units and opted to continue its practice of granting restricted stock without any deferral features. This delay in the grant date had no impact on the size of the grant or the value of the award, as the size and value were determined on January 15, 2009, consistent with our policy.

The expected value of the year-end equity award to each NEO is approved by the Compensation Committee prior to grant and is part of the process in determining TDC for each NEO. The actual grant amount (*i.e.*, number of shares or options) is approved by the Compensation Committee on or before the grant date. Grants to new executive officers are made on the date of hire and are approved by the Compensation Committee prior to hire.

In connection with commencement of his employment in 2006, our President received an incentive stock option award and a restricted stock award. A portion of the options vest in equal annual installments over a five-year period beginning on October 1, 2007. Additional options were subject to the achievement of certain performance metrics in calendar years 2007 and 2008. The performance metrics for these options, which were considered by the Compensation Committee to be stretch goals, were not satisfied, and therefore all of the options subject to both 2007 and 2008 performance were forfeited. The restricted stock award vests in equal annual installments over a five-year period beginning on October 1, 2007. As discussed elsewhere in this Annual Report on Form 10-K/A, certain portions of the stock option award and the restricted stock award may also vest upon certain terminations of the President's employment.

Beginning in 2008, the Compensation Committee also utilized performance shares in order to tie the long-term equity component of compensation more closely to stockholder returns. Specifically, the Compensation Committee implemented the use of performance shares to:

- replace some value of guaranteed restricted stock awards with a variable pay instrument that aligns with financial performance;

- manage stockholder dilution by using less shares than similar value stock option grants; and

- provide a balance between stock option upside and retention/downside protection of restricted stock.

The performance shares were structured in a manner intended to qualify as performance-based compensation eligible for deductibility under Code Section 162(m).

The Compensation Committee has approved two forms of performance share award agreements. One form is for use in connection with grants of performance share awards to the CEO and the President, and a second form is for use in connection with grants of performance share awards to all other performance award recipients, including our other NEOs. Each performance share award agreement provides for the grant of a target number of performance shares that will vest or be forfeited based on the level of our achievement, during the applicable performance period, of a level of pre-tax operating income per share of our Common Stock before payment of (a) cash bonuses for

Table of Contents

performance during the performance period and (b) expenses incurred in connection with the grant of all performance share awards for the performance period.

For each performance share earned, a participant will receive one share of restricted stock. Any restricted stock awarded to a participant will vest and become freely tradable in equal 50% installments on each of the second and third anniversaries of the grant date of the applicable performance share award. Certain portions of the performance shares or the restricted stock may also vest upon certain terminations of a participant's employment, or after the occurrence of a qualifying change in control.

In connection with their 2007 performance, in January 2008 the Compensation Committee approved grants for an aggregate of 122,120 performance shares to our NEOs for the 2008 performance period. As the performance target for 2008 was not achieved, all such performance shares expired and were unvested at the conclusion of 2008.

In January 2009 the NEOs were granted performance shares with respect to the 2009 performance period. These grants are 20% of the aggregate equity grant value granted to each NEO in January 2009 (the remaining percentage was granted as described below). The target performance metric under these awards is the Company's achievement during 2009 of pre-tax operating income of \$0.43 per share of the Company's Common Stock before payment of (a) cash bonuses for performance during 2009 and (b) expenses incurred in connection with the grant of all performance share awards for performance in 2009, based on the Board-approved 2009 financial plan of the Company. The actual amount that may be earned is based on the level of our achievement of the performance goal during 2009, as follows:

Achievement (percentage of target pre-tax operating income)	Less than 80%	Minimum 80%	Target 100%	Maximum 120% or more
Payout (percentage of shares)	0%	50%	100%	150%

Payout results are interpolated on a straight-line basis between 80% and 120% achievement of performance goals, and maximum payouts are capped at 150% of target. If the minimum percentage is not achieved, no portion of the performance share awards will be earned by the executives.

Set forth below is the target number of performance shares that may be awarded to our NEOs (*i.e.*, the number of performance shares that would be earned based upon achievement of 100% of the performance goal) and their value as of the date of grant:

	Performance Shares at 100% Achievement		Value of Performance Shares at 100% Achievement as of Date of Grant
CEO	48,848	\$	387,853
President	23,798	\$	188,956
CFO	5,636	\$	44,750
CIO	16,283	\$	129,287

For the remaining 80% of the equity award grants made to the NEOs in January 2009, the NEOs were given the choice under the Company's Flex Grant program to choose between the following two alternatives: (1) a 50%/50% split between options and restricted stock or (2) 100% in restricted stock. The trade-off of restricted stock to stock

options was determined at an appropriate level at which the accounting expense charged to the Company was unaffected by the executive's reward selection. The ratio of restricted stock to stock options granted was one to 1.6.

The Flex Grant program was implemented by the Compensation Committee to permit executives to have appropriate input into the composition of their reward structure, within appropriate limits designated by the Company. This equity program recognizes the unavoidable individual risk preferences that exist among executives and permits the Company to deliver more individualized awards with greater perceived value to the individual recipients without incurring additional actual expense or accounting cost to the Company.

The Flex Grant program gives the Compensation Committee the ability to control the alternatives made available to executives based on any criteria the Compensation Committee deems appropriate. In 2008, the Compensation Committee required that at least 50% of each NEO's equity award (excluding performance shares)

Table of Contents

be designated in restricted stock because the Compensation Committee wanted to increase the retentive nature of the NEOs' current equity holdings. This is in part due to the fact that a significant portion of stock option awards from previous years is currently significantly underwater, meaning the options have strike prices well above the Company's current share price, and thus provide little if any real retention of our NEOs.

By requiring NEOs to receive at least 50% of their 2009 equity grant (after the 20% allocation to performance shares) in restricted stock, the Compensation Committee believes their compensation is tied closely and appropriately to stockholder returns. In addition, the Compensation Committee believes that restricted stock promotes a long-term outlook on success vs. stock options, which recent research suggests may promote excessive risk-taking in search of potential short-term results at the expense of long-term price appreciation. Accordingly, the Compensation Committee seeks to balance the equity held by our NEOs. In 2009, all of the NEOs elected 100% of their equity award in restricted stock (after the allocation of performance shares) with time-based vesting of three years.

Further details on the 2008 year-end equity grants made in January 2009 and a discussion of TDC are included in the *Pay Mix* section below.

The Compensation Committee will continue to evaluate the mix of performance shares, restricted stock, stock options and other stock-based awards to align rewards for personal performance with stockholder value creation.

Pay Mix

For performance year 2008, the variable compensation portion of our NEOs' TDC was no less than 80%, except for the CFO, whose variable compensation was just below 70% of his TDC. The slightly lower percentage of variable compensation for our CFO is a function of his variable cash and incentive equity value being lower than that of the other NEOs. Therefore, on a percentage basis, his base, or fixed compensation, makes up a higher percentage of his TDC. His lower variable compensation is in line with market data for the CFO position. A summary of 2008 payments (comprised of 2008 base salary, 2008 year-end cash bonus and January 2009 equity grants for performance year 2008), with the percentages that are variable and fixed, is as follows:

	Fixed Compensation		Variable Compensation				Equity as a % of TDC	TDC
	Base	% of TDC	Cash Bonus	% of TDC	Performance Shares(1)	Restricted Stock(1)		
CEO	\$ 400,000	15%	\$ 500,000	19%	\$ 387,853	\$ 1,414,233	67%	\$ 2,702,086
President	\$ 300,000	18%	\$ 450,000	28%	\$ 188,956	\$ 688,986	54%	\$ 1,627,942
CFO	\$ 200,000	32%	\$ 225,000	36%	\$ 44,750	\$ 163,183	33%	\$ 632,933
CIO	\$ 200,000	15%	\$ 500,000	38%	\$ 129,287	\$ 471,414	46%	\$ 1,300,701

(1) Restricted stock vests over three years. Performance shares settle one year after grant, and vest over the following two years.

As stated in the section above titled *Annual Variable Performance Awards Payable in Cash*, the Compensation Committee considered the financial performance of the Company during a difficult market environment that existed

during 2008, individual contributions of each NEO (listed above) and retention concerns in making a determination as to the size of the equity grant and in targeting each NEO's TDC. The guidance for TDC was based on the benchmark data obtained from our peer group and other compensation surveys (see *Pay Levels and Benchmarking* above). The data selected for each NEO was individualized based on the NEO's position, role within the organization, scope of responsibilities and relative size of the Company. After adding the annualized value of previous multi-year grants, the CEO's and President's TDC fell above the benchmark median, but below the 75th percentile, and their TDCs dropped 21% and 20%, respectively, from 2007 levels. The TDCs for the CFO and CIO were generally at the benchmark median, and declined 21% and 15%, respectively, from 2007 levels.

As a significant portion of each NEO's compensation is awarded in equity and our NEOs are subject to stock ownership guidelines, we believe the NEOs are motivated to align personal performance and decision-making with stockholder value creation, and they are motivated to improve the financial results for the Company on a long-term basis. As such, and given the current market environment, we believe that the change in the 2009 cash bonus accrual

Table of Contents

methodology (*i.e.*, lower Minimum Accrual and lower Variable Accrual) is not a detriment to our NEOs and that it will not result in unnecessary short-term risk taking.

Other Benefits

We provide our NEOs with the same benefits offered to all other employees. The cost of these benefits constitutes a small percentage of each NEO's total compensation. In the U.S., key benefits include paid vacation; premiums paid for life insurance and short-term and long-term disability policies; a matching contribution to the NEO's 401(k) plan; and the payment of 80% of the NEO's healthcare premiums. We review these other benefits and perquisites on an annual basis and make adjustments as warranted based on competitive practices and our performance.

Risk Mitigation

We do not believe that the performance-based nature of our NEO compensation encourages excessive risk-taking by our NEOs that would potentially threaten the economic viability of the Company. Each component of performance-based compensation is subject to a cap on cash or the number of shares delivered. The performance criteria are designed to focus on performance metrics that deliver value to our stockholders and that focus on the health of our business. Further, as noted above, we have instituted stock ownership guidelines that require our NEOs to maintain a substantial ownership interest in the Company, further aligning their interests with those of our other stockholders while mitigating the chance of excessive risk-taking.

Compensation Committee Discretion

The Compensation Committee retains the discretion to decrease or eliminate all forms of incentive payouts based on its performance assessment, whether individual or Company-based. Likewise, the Compensation Committee retains the discretion to provide additional payouts and/or consider special awards for significant achievements, including but not limited to achieving superior operating results, strategic accomplishments and/or consummation of partnerships, acquisitions or divestitures.

Severance and change in control arrangements

In hiring and retaining executive level talent, the Compensation Committee believes that providing the executive with a level of security in the event of an involuntary termination of employment or in the event of a change in control is an important and competitive part of the executive's compensation package. We have entered into employment agreements with our CEO and President that provide for severance payments and benefits in the event of certain terminations of their employment. In addition, the terms of our equity grant award agreements with our CEO and President provide for accelerated vesting of their equity awards in the event of certain terminations of their employment or upon a change in control of the Company. The other NEOs are entitled to severance payments and benefits in the event of certain terminations of their employment under the MarketAxess Severance Pay Plan. Please see *Executive Compensation - Potential termination or change in control payments and benefits* below, for information regarding these payments and benefits.

Impact of Tax and Accounting

As a general matter, the Compensation Committee reviews and considers the tax and accounting implications of using the various forms of compensation employed by the Company.

When determining the size of grants to our NEOs and other employees under the Company's stock incentive plans, the Compensation Committee examines the accounting cost associated with the grants. Under FAS 123R, grants of stock

options, restricted stock, performance shares and other share-based payments result in an accounting charge for the Company. The accounting charge is equal to the fair value of the instruments being issued. For restricted stock and performance shares, the cost is equal to the fair value of the stock on the date of grant times the number of shares or units granted. For stock options, the cost is equal to the fair value determined using an option pricing model. This expense is amortized over the requisite service or performance period.

Code Section 162(m) generally prohibits any publicly-held corporation from taking a Federal income tax deduction for compensation paid in excess of \$1 million in any taxable year to the chief executive officer and any other executive officer (other than the chief financial officer) employed on the last day of the taxable year whose compensation is required to be disclosed to stockholders under SEC rules. Exceptions include qualified performance-based compensation, among other things. It is the Compensation Committee's policy to maximize the effectiveness of our executive compensation plans in this regard. Nonetheless, the Compensation Committee retains the discretion to grant awards (such as restricted stock with time-based vesting) that will not comply with the performance-based exception of 162(m) if it is deemed in the best interest of the Company to do so.

Notwithstanding anything to the contrary set forth in any of our previous or future filings under the Securities Act of 1933 or the Securities Exchange Act of 1934 that might incorporate this Annual Report on Form 10-K/A or future filings with the SEC, in whole or in part, the following report shall not be deemed to be soliciting material or filed with the SEC and shall not be deemed to be incorporated by reference into any such filing.

(1) The amounts reported reflect the dollar amount recognized for financial statement reporting purposes for the fiscal years ended December 31, 2008, 2007 and 2006, in accordance with FAS 123R, of awards of restricted stock or stock options and thus include amounts from awards granted in and prior to 2008, without regard to the estimated forfeiture related to service-based vesting conditions. Assumptions used in the calculation of this amount are included in footnote 12 to the Company's audited financial statements for the fiscal year ended December 31, 2008, included in the Company's Annual Report on Form 10-K filed with the SEC on March 3, 2009. These amounts reflect the Company's accounting expense for these awards and do not correspond to the actual amounts, if any, that will be recognized by the named executive officers.

(2) These benefits represent employer matching contributions to the Company's defined contribution plan and, in the case of Mr. Millet, reimbursement for legal fees in 2006.

(3) Mr. Millet's employment commenced in September 2006. His annualized base salary for 2006 was \$300,000.

(1) Represents the grant of an award pursuant to the MarketAxess Holdings Inc. 2008 Code Section 162(m) Performance Incentive Program (the *2008 Incentive Program*), which was adopted by the Compensation Committee on March 28, 2008 and approved by the stockholders of the Company at the 2008 annual meeting of stockholders on June 5, 2008. As such awards do not have a threshold or maximum payout, the amounts disclosed in the table reflect the amounts that would have been payable to Messrs. McVey, Millet and Themelis if the 2008 Incentive Program had been in effect during 2007.

(2) Reflects the number of performance shares that would vest based on the level of achievement by the Company of pre-tax operating income for the 2008 calendar year performance period. For each performance share earned, a participant would be awarded an equal number of shares of restricted stock that would vest and cease to be restricted stock in equal 50% installments on each of the second and third anniversaries of the date of grant of the

applicable performance share award. The Company failed to meet the pre-tax operating income per share target for 2008 and, accordingly, all of the performance share awards were forfeited.

- (3) Restricted stock awards vest in three equal annual installments beginning on the first anniversary date of the grant.
- (4) Stock option awards vest in three equal annual installments beginning on the first anniversary of the grant.
- (5) The exercise price for stock options granted was equal to the closing price of the Company's Common Stock on the date of grant.
- (6) The value of a restricted stock or stock option award is based on the fair value as of the grant date of such award determined pursuant to FAS 123R, and disregards estimates of forfeitures related to service-based vesting conditions. The proceeds to be paid to the individual following an exercise do not include the option exercise price, and the exercise price of option awards has not been deducted from the amounts indicated above. Regardless of the value placed on a stock option award on the grant date, the actual value of the stock option will depend on the market value of Common Stock at such date in the future when the stock option is exercised.

Table of Contents**Outstanding equity awards at fiscal year end**

The following table summarizes unexercised stock options, performance-based stock options with performance conditions that have not yet been satisfied and shares of restricted stock that have not vested and related information for each of our named executive officers as of December 31, 2008. The market value of restricted stock awards is based on the closing price of the Company's Common Stock on December 31, 2008 of \$8.16.

(1) For options granted prior to 2008, one-third of the options vest on the first anniversary of the grant date and the balance vests in 24 equal monthly installments thereafter. Options granted in 2008 vest in three equal annual installments. The options granted to Mr. Millet in 2006 vest in five equal annual installments. Stock options will vest and become exercisable in the event of certain terminations of employment or upon a change in control of the Company. See *Executive Compensation - Potential termination or change in control payments and benefits*

for additional information.

- (2) Each share of restricted stock represents one share of the Company's Common Stock that is subject to forfeiture if the applicable vesting requirements are not met. Shares of restricted stock granted prior to 2007 vest in five equal annual installments commencing on the first anniversary of the date of grant. Shares of restricted stock granted in 2007 and 2008 vest in three equal annual installments commencing on the first anniversary of the date of grant. Shares of restricted stock will vest in the event of certain terminations of employment or upon a change in control of the Company. See *Executive Compensation Potential termination or change in control payments and benefits* for additional information.

Table of Contents**Option exercises and stock vested**

The following table summarizes each exercise of stock options, each vesting of restricted stock and related information for each of our named executive officers on an aggregated basis during 2008.

(1) Value realized represents the market value on the date of exercise in excess of the exercise price.

(2) Value realized represents the market value on the date of vesting.

Employment agreements and severance arrangements with our named executive officers***Richard M. McVey Employment Agreement***

In May 2004, we entered into an employment agreement with Richard M. McVey. The employment agreement provides that Mr. McVey will be employed by us as President, Chief Executive Officer and Chairman of the Board of Directors, and his employment may be terminated by him or by us at any time. Mr. McVey's annual base salary under the agreement is \$300,000 per year, which amount was increased in 2006 to \$400,000. Mr. McVey is also eligible to receive an annual bonus in accordance with the Company's annual performance incentive plan as in effect from time to time and is entitled to participate in all benefit plans and programs available to our other senior executives, at a level commensurate with his position. In connection with the hiring of Mr. Millet, Mr. McVey agreed to waive his right to serve as President of the Company.

Mr. McVey's employment agreement provides for severance payments and benefits if his employment is terminated under various conditions. See *Executive Compensation - potential termination or change in control payments and benefits* below for a description of such payments and benefits.

For the purposes of Mr. McVey's agreements, Cause generally means his:

willful misconduct or gross negligence in the performance of his duties;

conviction of, or plea of guilty or *nolo contendere* to, a crime relating to us or any of our affiliates or any felony; or

material breach of his employment agreement or any other material written agreement with us.

For purposes of Mr. McVey's employment agreement, "Good Reason" generally means:

his no longer holding the title of President and Chief Executive Officer, or the failure of the Board to nominate him as a director or, once elected to the Board, the failure of the Board to elect him as Chairman;

a material diminution in his duties, authorities or responsibilities (other than as a result of his ceasing to be a director) or the assignment of duties or responsibilities materially adversely inconsistent with his then position;

our material breach of his employment agreement;

a relocation of his principal place of business of more than 50 miles; or

our failure to obtain a reasonably satisfactory written agreement from any successor to all or substantially all of our assets to assume and agree to perform our obligations under his employment agreement.

Mr. McVey elected not to exercise his right to resign for Good Reason for no longer holding the title of President in connection with Mr. Millet's appointment as President.

Table of Contents

For the purposes of Mr. McVey's agreements, "Change in Control" generally means:

an acquisition representing 50% or more of the combined voting power of our then outstanding securities;

a change in the majority of the members of our Board during any two-year period, unless such members are approved by two-thirds of the Board members who were members at the beginning of such period or members whose nominations were so approved;

our merger or consolidation, other than (a) a transaction resulting in our voting securities outstanding immediately prior thereto continuing to represent more than 50% of the combined voting power of our voting securities or such surviving entity immediately after such transaction or (b) a transaction effected to implement a recapitalization (or similar transaction) in which no person acquires more than 50% of the combined voting power of our then outstanding securities; or

our stockholders' approval of a plan of complete liquidation or the consummation of the sale or disposition of all or substantially all of our assets other than (a) the sale or disposition of all or substantially all of our assets to a beneficial owner of 50% or more of the combined voting power of our outstanding voting securities at the time of the sale or (b) pursuant to a spinoff type transaction of such assets to our stockholders.

T. Kelley Millet Employment Agreement

In September 2006, T. Kelley Millet commenced employment with us pursuant to an employment agreement entered into in August 2006. The agreement provides that Mr. Millet will be employed by us as President, and his employment may be terminated by him or by us at any time. Mr. Millet's base salary under the agreement is \$300,000 per year. Mr. Millet is also eligible to receive an annual bonus in accordance with the 2004 Annual Performance Plan. He is also entitled to participate in all benefit plans and programs available to our other senior executives, at a level commensurate with his position.

Mr. Millet's employment agreement provides for severance payments and benefits if his employment is terminated under various conditions. See *Executive Compensation - potential termination or change in control payments and benefits* below for a description of such payments and benefits.

For the purposes of Mr. Millet's agreement, "Cause" and "Change in Control" have the same meaning as provided above for Mr. McVey.

For purposes of Mr. Millet's agreement, "Good Reason" generally means:

any reduction in his title;

a material diminution in his duties, authorities or responsibilities or the assignment of duties or responsibilities materially adversely inconsistent with his then position;

our material breach of his employment agreement;

a relocation of his principal place of business of more than 50 miles; or

our failure to obtain a reasonably satisfactory written agreement from any successor to all or substantially all of our assets to assume and agree to perform our obligations under his employment agreement.

Severance Pay Plan

Messrs. Rucker and Themelis do not have employment agreements with us but are entitled to severance payments and benefits under the Company's Severance Pay Plan (the *Severance Plan*) in the event their employment is terminated by us for any reason other than a termination for Cause. The Severance Plan provides for up to 24 weeks of continued base salary and continued healthcare coverage based on the number of years of an employee's consecutive service with us prior to termination. On September 22, 2008, the Severance Plan was amended to include an additional bonus payments for any employee whose employment terminates between September 22, 2008 and January 15, 2009, equal to 50% of the employee's 2007 year-end bonus, prorated for the number of full calendar months (rounded up for service of at least one-half month) worked in calendar year 2008.

Table of Contents

Cause is generally defined in the Severance Plan as (i) an employee's act or omission resulting or intended to result in personal gain at our expense; (ii) an employee's misconduct; (iii) performance of duties by an employee in a manner we deem to be materially unsatisfactory; (iv) cause (or words of like import) as defined in an agreement between us and the employee; or (v) an employee's improper disclosure of proprietary or confidential information or trade secrets, or intellectual property that we are under a duty to protect.

As of December 31, 2008, Mr. Rucker had completed eight years of consecutive service with us and Mr. Themelis had completed four years of consecutive service with us. Had we terminated them without Cause on December 31, 2008, they would have been entitled to 24 and 16 weeks of continued base salary and continued healthcare coverage, respectively.

Proprietary Information and Non-Competition Agreements

Each of the named executive officers has entered into, and is subject to the terms of, a Proprietary Information and Non-Competition Agreement with us that contains, among other things, (i) certain provisions prohibiting disclosure of our confidential information without our prior written consent, (ii) certain non-competition provisions that restrict their engaging in certain activities that are competitive with us during their employment and for one year thereafter, and (iii) certain non-solicitation provisions that restrict their recruiting, soliciting or hiring our nonclerical employees or consultants, or soliciting any person or entity to terminate, cease, reduce or diminish their relationship with us, during their employment and for two years thereafter.

Loans to executive officers of the Company

Prior to enactment of the Sarbanes-Oxley Act in July 2002, we made two loans to Richard M. McVey, our Chief Executive Officer and Chairman of our Board of Directors. We entered into restricted stock purchase agreements with Mr. McVey on June 11, 2001 and July 1, 2001, respectively, in connection with his compensation package. Pursuant to these agreements, we sold an aggregate of 289,581 shares of our Common Stock to Mr. McVey at a purchase price of \$3.60 per share. We loaned an aggregate of approximately \$1,042,488 to Mr. McVey to finance his purchase of these shares. Mr. McVey executed secured promissory notes with us to document these loans. These promissory notes bear interest at an average rate of 5.69% per annum. The principal and accrued interest on each of these promissory notes is due and payable as follows: (1) 20% of the principal and accrued interest is due on the sixth anniversary of the issuance date; (2) an equal amount is due on each of the seventh, eighth, ninth and tenth anniversaries of the issuance date; and (3) the balance is due on the eleventh anniversary of the issuance date. Mr. McVey may prepay all or any part of any note at any time without paying a premium or penalty. A portion of the promissory notes, representing 80% of the aggregate purchase price, is non-recourse and the remaining portion of the promissory notes, representing 20% of the aggregate purchase price, is full-recourse. As security for his obligations under the promissory notes, Mr. McVey has pledged the 289,581 shares of our Common Stock acquired by him under the restricted stock purchase agreements described above. During 2008, Mr. McVey made principal and interest payments aggregating \$293,400.

The loans described in the preceding paragraph were entered into prior to the passage of the Sarbanes-Oxley Act. Because of the prohibitions against certain loans under Section 402 of the Sarbanes-Oxley Act, we will not modify any of these outstanding loans, nor will we enter into new loans with any of our directors or executive officers, other than as permitted by applicable law at the time of the transaction.

Potential termination or change in control payments and benefits

Messrs. McVey and Millet are entitled to certain payments and benefits pursuant to their employment agreements and other agreements entered into between us and them upon a termination of their employment in certain circumstances or in the event of a Change in Control of the Company. Messrs. Rucker and Themelis do not have employment

agreements with us but are entitled to severance payments and benefits under the Severance Plan and pursuant to certain equity grants.

The following tables estimate the payments we would be obligated to make to each of our named executive officers as a result of his termination or resignation under the circumstances shown or, in the case of Mr. McVey and Mr. Millet, because of a Change in Control, in each case assuming such event had occurred on December 31, 2008.

Table of Contents

We have calculated these estimated payments to meet SEC disclosure requirements. The estimated payments are not necessarily indicative of the actual amounts any of our named executive officers would receive in such circumstances. The table excludes (i) compensation amounts accrued through December 31, 2008 that would be paid in the normal course of continued employment, such as accrued but unpaid salary, and (ii) vested account balances under our 401(k) Plan that are generally available to all of our salaried employees. Where applicable, the information in the table uses a price per share for our Common Stock of \$8.16, the closing price on December 31, 2008. In addition, where applicable, the amounts reflected for bonuses reflect the actual amounts paid to the named executive officers for 2008, since the hypothetical termination or Change in Control date is the last day of the fiscal year for which the bonus is to be determined.

Certain of the stock options granted to our named executive officers would have become vested under certain circumstances; however, the tables below do not reflect any value for such vesting, as the exercise prices of the stock options held by our named executive officers are greater than the market value of the Common Stock on December 31, 2008 and therefore would not have had any value on December 31, 2008. The performance share award agreements entered into between us and each of our named executive officers in January 2008 provided for vesting of the performance shares under certain circumstances; however, the tables below do not reflect any value for such vesting as the performance metrics for the 2008 performance share grants were not achieved and therefore such shares were forfeited.

CCPP and any such termination a *Change in Control Termination*), then he will receive continued payment of his base salary for 24 months following termination.

- (2) Mr. McVey's employment agreement provides that in the event of a Non-Change in Control Termination, he will receive an amount equal to his average annual cash bonus for the three years prior to termination (payable in 12 equal monthly installments), or two times such amount in the event of a Change in Control Termination (payable in 24 equal monthly installments).
- (3) Mr. McVey's employment agreement provides that we will pay the cost of continuation health coverage for up to 12 months following a Non-Change in Control Termination or for up to 18 months following a Change in Control Termination.
- (4) Pursuant to the Restricted Stock Agreement between us and Mr. McVey made as of January 31, 2006:

all unvested restricted shares will fully vest upon his death or disability;

subject to the last bullet below, 67,500 shares of restricted stock (or, if less, the entire unvested amount) will fully vest if we terminate his employment without Cause;

in the event of a Change in Control in which the holders of our Common Stock receive cash (a *Cash Transaction*), the portion of the restricted stock that is exchanged for cash will immediately vest prior to the Change in Control; and

in the event of a Change in Control in which any other consideration is paid (a *Non-Cash Transaction*), the portion of the restricted stock that is exchanged for such consideration will immediately vest upon a termination of his employment by us (or any successor) without Cause following such Change in Control.

- (5) Mr. McVey's employment agreement provides that if any payments or benefits paid or provided to him would be subject to, or result in, the imposition of the excise tax imposed by Section 4999 of the Internal Revenue Code, then the amount of such payments will be automatically reduced to one dollar less than the amount that subjects such payment to the excise tax, unless he would, on a net after-tax basis, receive less compensation than if the payment were not so reduced.

Director compensation

Each non-employee director receives an annual retainer of \$50,000. The Lead Independent Director receives a supplemental annual retainer of \$10,000 and the chairman of the Nominating and Corporate Governance Committee receives a supplemental annual retainer of \$7,500. The supplemental annual retainer for the chairman of the Audit Committee is \$15,000 and the supplemental annual retainer for the chairman of the Compensation Committee is \$10,000. In addition, each non-employee director receives \$1,500 for each meeting of our Board of Directors, \$2,000 for each meeting of the Audit Committee, and \$1,000 for each meeting of the Compensation Committee and the Nominating and Corporate Governance Committee that the director attends. In August 2008, we granted 4,225 shares of restricted stock and options to purchase 4,225 shares of our Common Stock to each non-employee director, other than Mr. Hernandez. One-half of these awards vested on November 30, 2008 and the balance vests on May 31, 2009. The exercise price of the stock options is equal to the fair market value of the stock

(\$9.72 per share) on the date of grant. These awards were made under the Company's 2004 Stock Incentive Plan (Amended and Restated Effective April 28, 2006) (the *Stock Incentive Plan*). The Board of Directors recommends, reviews and oversees the stock option plans for our non-employee directors. We expect to continue to compensate our non-employee directors with a combination of cash and equity awards.

Mr. Trudeau has informed the Company of his obligation to transfer to TCM VI Management, L.L.C. (*TCM VI*) any and all cash and equity compensation paid to him by the Company in his capacity as a director of the Company. Mr. Trudeau is a member of TCM VI. Mr. Trudeau has the sole voting and dispositive power over the shares of restricted stock and options granted to him; however, TCM VI owns 100% of the pecuniary interest therein. Mr. Trudeau disclaims beneficial ownership of such securities except to the extent of his pecuniary interest therein.

Prior to April 2009, Mr. Hernandez's employer, JPMorgan, did not permit Mr. Hernandez to receive compensation for his service as a director and therefore he received no cash payments or grants of restricted stock or stock options from us prior to such date. Effective April 2009, Mr. Hernandez receives compensation for his services as a director on the same terms as our other non-employee directors.

The Company and the Board of Directors believe that equity-based awards are an important factor in aligning the long-term financial interest of the non-employee directors and stockholders. As such, in October 2007 the Board of Directors adopted stock ownership guidelines for the non-employee directors requiring that they hold not less than a number of shares of Common Stock equal in value to two times the annual base cash retainer payable to a director, calculated as of the October 24, 2007 effective date of the policy. All non-employee directors must be in compliance within the later of three years from the effective date of the policy or three years after the director becomes a Board member, and the designated level of ownership must be maintained throughout the non-employee director's service with the Company. Only shares of Common Stock owned outright in any form, including shares purchased and held personally and vested restricted shares, count toward the minimum ownership requirement; unvested stock options and unvested restricted shares are excluded. Currently, all non-employee directors are in compliance, other than Mr. Burkhardt, who joined the Board in July 2007, Mr. Hernandez, who did not receive director compensation from the Company prior to April 2009, and Mr. Trudeau, who joined the Board in July 2008. Messrs. Burkhardt, Hernandez and Trudeau are expected to be in compliance within the required timeframe.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.**Security Ownership of Certain Beneficial Owners and Management**

The following table sets forth certain information regarding the beneficial ownership of the Company's Common Stock as of April 7, 2009 by (i) each person or group of affiliated persons known by us to beneficially own more than five percent of our Common Stock, (ii) each of our named executive officers, (iii) each of our directors and nominees for director and (iv) all of our directors and executive officers as a group.

The following table gives effect to the shares of Common Stock issuable within 60 days of April 7, 2009 upon the exercise of all options and other rights beneficially owned by the indicated stockholders on that date. Beneficial ownership is determined in accordance with Rule 13d-3 promulgated under Section 13 of the Securities Exchange Act of 1934, as amended, and includes voting and investment power with respect to shares. Percentage of beneficial ownership is based on 31,709,004 shares of Common Stock outstanding at the close of business on April 7, 2009. Except as otherwise noted below, each person or entity named in the following table has sole voting and investment

power with respect to all shares of our Common Stock that he, she or it beneficially owns.

Unless otherwise indicated, the address of each beneficial owner listed below is c/o MarketAxess Holdings Inc., 140 Broadway, 42nd Floor, New York, New York 10005.

Item 13. *Certain Relationships and Related Transactions, and Director Independence.***Certain Relationships and Related Transactions**

Our related parties include our directors, director nominees, executive officers and holders of more than five percent of the outstanding shares of our Common Stock. Set forth in this section is information concerning transactions with our related parties.

Principal stockholder broker-dealer clients

JPMorgan, one of our broker-dealer clients, owns more than five percent of the outstanding shares of our Common Stock. See *Security Ownership of Certain Beneficial Owners and Management*. For the year ended December 31, 2008, \$5.9 million, or 6.4% of our total revenues, were generated by JPMorgan.

We have separate agreements with each of our broker-dealer clients, including JPMorgan. These agreements govern each such broker-dealer's access to, and activity on, our electronic trading platform. The term of the agreements is

generally three years, with automatic annual renewal thereafter unless notice to terminate is given by a party at least 30 days prior to automatic renewal. Under each agreement, the broker-dealer is granted a worldwide, non-exclusive and non-transferable license to use our electronic trading platform. The broker-dealer agrees to supply us, on a non-exclusive basis, with indicative prices and quantities of a minimum number of fixed-income instruments for our inventory pages. We may only provide the pricing and other content provided by a broker-dealer to those of our institutional investor clients approved by the broker-dealer to receive such content. Additionally, institutional investors must be approved by a broker-dealer before being able to engage in transactions on our platform. These agreements also provide for the fees and expenses to be paid by the broker-dealers for their use of our electronic trading platform.

Indemnification agreements

We have entered into an indemnification agreement with each of our outside directors. The indemnification agreements and our certificate of incorporation and bylaws require us to indemnify our directors and officers to the fullest extent permitted by Delaware law.

Registration rights agreement

JPMorgan, along with certain other holders of our Common Stock, are party to our sixth amended and restated registration rights agreement. Stockholders who are a party to this agreement are provided certain rights to demand registration of shares of Common Stock and to participate in a registration of our Common Stock that we may decide to do, from time to time. Generally, we have agreed to pay all expenses of any registration pursuant to the registration rights agreement, except for underwriters' discounts and commissions.

Robert W. Trudeau

Mr. Trudeau is a member of TCM VI which is the sole general partner of TCV VI and a general partner of TCV MF. Mr. Trudeau and TCM VI share voting and dispositive power with respect to the shares of Series B Preferred Stock, and the shares of Common Stock that the Series B Preferred Stock may be converted into, beneficially owned by the TCV VI Funds. Mr. Trudeau and TCM VI disclaim beneficial ownership of any shares held by the TCV VI Funds except to the extent of their respective pecuniary interests therein. Mr. Trudeau holds options to purchase 4,225 shares of Common Stock, of which 2,113 shares are fully vested and exercisable, and 2,111 shares of Common Stock. Mr. Trudeau has the sole voting and dispositive power over the options, any shares of Common Stock issuable upon the exercise of the options, and the shares of Common Stock held directly by him; however, TCM VI owns 100% of the pecuniary interest in such options, any shares to be issued upon exercise of such options and the shares of Common Stock held directly by Mr. Trudeau. In addition, as more fully discussed under *Corporate Governance and Board Matters - Director Compensation*, Mr. Trudeau receives an annual retainer for his service as a director.

Director Independence

The Board of Directors has determined that seven of our nominees for director, Messrs. Burkhardt, Casper, Gomach, Hersch, Markowitz, Rohatyn, and Steinhardt, as well as Mr. Trudeau, who was elected to the Board of Directors by the holders of the Series B Preferred Stock pursuant to the terms thereof, currently meet the independence requirements contained in the NASDAQ listing standards and applicable tax and securities rules and regulations. None of these directors has a relationship with the Company or its subsidiaries which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Each of these directors is independent as defined within the meaning of the NASDAQ listing standards. In compliance with the NASDAQ listing standards, we have a Board of Directors comprised of a majority of independent directors.

The NASDAQ listing standards have both objective tests and a subjective test for determining who is an independent director. The objective tests state, for example, that a director is not considered independent if he is an employee of the Company or is a partner in or executive officer of an entity to which the Company made, or from which the Company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenue for that year. The subjective test states that an independent director must be a person who lacks a relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

None of the non-employee directors were disqualified from independent status under the objective tests. In assessing independence under the subjective test, the Board took into account the standards in the objective tests, and reviewed and discussed additional information provided by the directors and the Company with regard to each director's business and personal activities as they may relate to MarketAxess management. Based on all of the foregoing, as required by the NASDAQ listing standards, the Board made a substantive determination as to each of the eight independent directors that no relationship exists which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. After reviewing the relationship between the Company and Mr. Hernandez's employer, JP Morgan Chase & Co. (JPMorgan), the Company has decided not to treat

Mr. Hernandez as an independent director for purposes of the NASDAQ listing standards and applicable SEC rules. In making this determination, the Board considered that JPMorgan represented less than 10% of the Company's annual revenue in each of 2008, 2007 and 2006, and has from time to time provided certain investment banking services to the Company, including acting as an underwriter of our initial public offering in 2004.

Table of Contents

The Board has not established categorical standards or guidelines to make these subjective determinations, but considers all relevant facts and circumstances.

In addition to Board-level standards for director independence, the directors who serve on the Audit Committee each satisfy standards established by the SEC providing that to qualify as independent for purposes of membership on the Audit Committee, members of audit committees may not accept directly or indirectly any consulting, advisory or other compensatory fee from the Company other than their director compensation. Also, each of the directors who serve on the Compensation Committee has been determined to be a non-employee director for purposes of the applicable SEC rules and regulations and an outside director for purposes of the applicable tax rules.

In making its independence determinations, the Board considered transactions occurring since the beginning of 2006 between the Company and entities associated with the independent directors or members of their immediate family. In each case, the Board determined that, because of the nature of the director's relationship with the entity and/or the amount involved, the relationship did not impair the director's independence. The Board's independence determinations included reviewing the following relationships:

Mr. Casper was previously an executive officer of FFTW, which represented less than 1% of the Company's annual revenue in each of the past three years. FFTW is a wholly-owned subsidiary of BNP Paribas, which represented less than 10% of the Company's annual revenue in each of the past three years.

Mr. Hersch was previously an employee, but not an executive officer, of Bear, Stearns & Co., Inc., which represented less than 5% of the Company's annual revenue in each of the past three years.

Mr. Rohatyn is an executive officer of TRG Management L.P., the investment manager of the TRG Global Opportunity Master Fund, Ltd. TRG Global Opportunity Master Fund, Ltd. represented less than 1% of the Company's annual revenue in each of the past three years.

Mr. Steinhardt was previously an employee, but not an executive officer, of JPMorgan, which represented less than 10% of the Company's annual revenue in each of the past three years.

Item 14. *Principal Accounting Fees and Services.*

Audit and other fees

The aggregate fees billed by our independent registered public accounting firm, PricewaterhouseCoopers LLP (PwC), for professional services rendered in connection with the audit of our annual financial statements set forth in our Annual Report on Form 10-K for the years ended December 31, 2008 and 2007 and the audit of our broker-dealer subsidiaries' annual financial statements, as well as fees paid to PwC for tax compliance and planning and other services, are set forth below.

Except as set forth in the following sentence, the Audit Committee, or a designated member thereof, preapproves 100% of all audit, audited-related, tax and other services rendered by PwC to the Company or its subsidiaries. The Audit Committee has authorized the Chief Executive Officer and the Chief Financial Officer to purchase permitted non-audit services rendered by PwC to the Company or its subsidiaries up to and including a limit of \$10,000 per service and an annual limit of \$20,000.

Immediately following the completion of each fiscal year, the Company's independent registered public accounting firm shall submit to the Audit Committee (and the Audit Committee shall request from the independent registered public accounting firm), as soon as possible, a formal written statement describing: (i) the independent registered

public accounting firm's internal quality-control procedures; (ii) any material issues raised by the most recent internal quality-control review or peer review of the independent registered public accounting firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the independent registered public accounting firm, and any steps taken to deal with any such issues; and (iii) all relationships between the independent registered public accounting firm and the Company, including at least the matters set forth in Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees), in order to assess the independent registered public accounting firm's independence.

Table of Contents

Immediately following the completion of each fiscal year, the independent registered public accounting firm also shall submit to the Audit Committee (and the Audit Committee shall request from the independent registered public accounting firm), a formal written statement of the fees billed by the independent registered public accounting firm to the Company in each of the last two fiscal years for each of the following categories of services rendered by the independent registered public accounting firm: (i) the audit of the Company's annual financial statements and the reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q or services that are normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings or engagements; (ii) assurance and related services not included in clause (i) that are reasonably related to the performance of the audit or review of the Company's financial statements, in the aggregate and by each service; (iii) tax compliance, tax advice and tax planning services, in the aggregate and by each service; and (iv) all other products and services rendered by the independent registered public accounting firm, in the aggregate and by each service.

Set forth below is information regarding fees paid by the Company to PwC during the fiscal years ended December 31, 2008 and 2007.

Fee Category	2008	2007
Audit Fees(1)	1,359,823	1,358,785
Tax Fees(2)	29,450	61,800
Audit Related Fees	12,577	
All Other Fees	3,251	3,651
Total	\$ 1,405,102	\$ 1,424,236

- (1) The aggregate fees incurred include amounts for the audit of the Company's consolidated financial statements (including fees for the audit of our internal controls over financial reporting) and the audit of our broker-dealer subsidiaries' annual financial statements.
- (2) The aggregate fees incurred for tax services include amounts in connection with tax compliance and tax consulting services.
