PROXY STATEMENT

General

Our Board of Directors is soliciting the enclosed proxy in connection with our 2011 annual meeting of stockholders to be held on February 17, 2011, as well as in connection with any adjournments of that meeting. Our post office address is Sanderson Farms, Inc., P. O. Box 988, Laurel, Mississippi 39441. These materials are being mailed to stockholders and posted on-line at www.sandersonfarms.com/proxy on or about January 14, 2011.

Even if you submit a proxy, you may still attend the annual meeting in person, and you may revoke your proxy by voting in person at the meeting. You may also revoke your proxy before it is voted at the meeting in any of the following ways:

by filing with our Corporate Secretary a written notice of revocation;

by submitting to our Corporate Secretary a properly completed and signed proxy dated a later date;
or

by re-voting by Internet or by telephone before 11:59 PM on February 16, 2011 using the instructions contained in the enclosed materials, if telephone or Internet voting is available to you.

Unless you revoke your proxy, it will be voted at the meeting according to your instructions, as long as you have properly completed and submitted it to us.

If you properly complete and submit a proxy but you do not specify how your proxy should be voted, then: the proxy will be voted **FOR** the following proposals:

Proposal No. Description

1. The election of the nominees for Class A Director set forth in this Proxy Statement;
2. The approval of the Sanderson Farms, Inc. and Affiliates Amended and Restated Stock Incentive Plan;
3. The approval of the compensation of the Company's Named Executive Officers in a non-binding advisory vote; and
5. The ratification and approval of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2011; and
the proxy will be voted on Proposal No. 4 to hold future non-binding, advisory votes on executive compensation, like Proposal No. 3 above, every **THREE** years.

The Proxyholders named on the enclosed proxy card will vote all proxies in their discretion on all other matters that may properly come before the meeting. As of the date of this Proxy Statement, we have not received notice and we are not aware of any business to be transacted at the meeting other than the matters that are listed in the notice and described in this Proxy Statement.

If you hold shares of our common stock in your broker's name (sometimes called "street name" or "nominee name"), then you must provide voting instructions to your broker. If you do not provide instructions to your broker, your shares will not be voted on any matter on which your broker does not have discretionary authority to vote for you. Under federal law, your broker does not have the discretion to vote your shares in the election of directors or in matters relating to executive compensation. Therefore, if you do not give voting instructions to your broker, your shares will not be voted in Proposals 1, 2, 3 and 4. A vote that is not cast for this reason is called a "broker non-vote." We will treat broker non-votes as shares present for the purpose of determining whether a quorum is present at the meeting, but we will not consider them present for purposes of calculating the vote required on a particular proposal, nor will we count them as a vote FOR or AGAINST a matter or as an ABSTENTION on the proposal.

We are paying the cost of soliciting the proxies.

Our 2010 Annual Report accompanies this Proxy Statement, but is not to be considered a part of the proxy solicitation material. The record date for the annual meeting is December 28, 2010.

**PROPOSAL NO. 1
ELECTION OF DIRECTORS**

Our amended Articles of Incorporation provide that our Board of Directors shall be divided into three classes (Class A, Class B and Class C), with each class containing one-third, or as close to one-third as possible, of the total number of directors, and that the total number of directors shall be fixed by the Board of Directors in the By-Laws. The Board of Directors has fixed the number of directors at fifteen, resulting in there being five director positions in each class. One Class B director position is currently vacant. At each annual meeting of stockholders, directors constituting one class are elected for a three-year term. At the 2011 annual meeting, stockholders will elect five Class A Directors, whose terms will expire at the 2014 annual meeting.

The address of each director is Post Office Box 988, Laurel, Mississippi 39441.

Nominees for Class A Directors

The Board of Directors proposes for election as Class A Directors the five nominees listed below, each to serve as a Class A Director until the 2014 annual meeting or until his or her successor is elected and has qualified. Any vacancy on the Board of Directors may be filled either by the Board of Directors or by the stockholders, and the term of any director elected to fill a vacancy will expire at the next stockholders' meeting at which directors are elected.

Table of Contents

You may vote proxies in the enclosed form for the election as Class A Directors only the nominees named below or substitute nominees who may be named by the Board of Directors to replace any of the nominees who become unavailable to serve for any reason. No such unavailability is presently known to the Board of Directors. There are no arrangements or understandings relating to any person's service or prospective service as a Class A Director of the Company. No person listed below will be elected as a Class A Director unless such person receives the affirmative vote of the holders of a majority of the shares entitled to vote and represented (whether in person or by proxy) at the annual meeting at which a quorum is present. If more persons than the number of directors to be elected receive a majority vote, then those persons receiving the highest number of votes will be elected. The Proxyholders named in the accompanying proxy card will vote FOR the nominees listed below (or substitutes as stated above) unless otherwise directed in the proxy. Abstentions by holders of shares entitled to vote and represented at the meeting will be counted as shares present but not voting for the purposes of calculating the vote with respect to the election of Class A Directors. Broker non-votes will be treated as not present for purposes of calculating the vote with respect to the election of the Class A Directors, and will not be counted either as a vote FOR or AGAINST or as an ABSTENTION with respect thereto.

The following table lists the nominees for Class A Directors and shows, as of January 5, 2011, their respective beneficial ownership of common stock of the Company.

Board Qualifications and Biographical Information

As discussed more fully below under Corporate Governance Nominating and Governance Committee, we have sought director candidates with a diverse range of business, personal and geographic backgrounds, and the experience and perspective necessary to effectively oversee a multi-state operation of our size and type.

The following paragraphs identify the principal occupations of all continuing directors and nominees for director. We have also included the specific experience, qualifications, attributes or skills that led to the conclusion that the person should serve as a director in light of our business and structure. Except as otherwise indicated, each director has served for at least five years in the position shown.

John H. Baker, III is a native of Meridian, Mississippi and has been the sole proprietor of John H. Baker Interests, a real estate and development company in Houston, Texas, since 1968.

The Board believes Mr. Baker should serve as a director because of his extensive experience and contacts with both the Mississippi and Texas business communities, where a significant portion of our operations are located. Additionally, Mr. Baker is a successful entrepreneur who founded and has successfully grown and operated his own business. Mr. Baker has also been active in Mississippi and Texas state politics.

Fred Banks, Jr. has been a partner in the General Litigation Group in the Jackson, Mississippi office of the law firm of Phelps Dunbar LLP since 2001. Since 2008, he has been a non-equity senior partner with that firm. From 1991 to 2001, he was a Justice of the Mississippi Supreme Court, and at the time of his retirement from the court in 2001, he was serving as Presiding Justice. Before serving on the Mississippi Supreme Court, Mr. Banks served as a Circuit Court Judge in Hinds and Yazoo Counties, Mississippi for six years. From 1976 until 1985, he served in the Mississippi House of Representatives.

Table of Contents

The Board believes Mr. Banks should serve as a director because of extensive experience in law, both in the areas of business transactions and litigation, and because of his perspective on the legal landscape in Mississippi. Mr. Banks knowledge of Mississippi's corporate law under which the company is organized eminently qualifies him to serve as chair of the Board's Nominating and Governance committee. Mr. Banks has extensive contacts in Mississippi's legal and business communities, and is a visionary leader in numerous civic and philanthropic organizations.

John Bierbusse was employed by Duff and Phelps, Inc. from 1981 to 1987, and by A.G. Edwards from 1987 to 2004. Mr. Bierbusse served as Assistant Manager, Securities Research between 1999 and 2002 at A.G. Edwards, and as Manager, Research Administration from 2002 until his retirement in 2004. Mr. Bierbusse served on the New York Stock Exchange's Series 16 Test Committee from 2002 to 2007 and on the New York Stock Exchange's Research Analyst Qualification Examination Committee from 2003 to 2007. Mr. Bierbusse has been a Chartered Financial Analyst since 1987, and is currently retired.

The Board believes Mr. Bierbusse should serve as a director because of his experience as a financial analyst, particularly in the protein industry. He has extensive knowledge of the dynamics of poultry companies and the impact of grain markets and other external factors on the industry.

Lampkin Butts served from 1996 to 2004 as Vice President-Sales for the Company. On October 21, 2004, Mr. Butts was elected President and Chief Operating Officer of the Company. He began his career with our Company in 1973. Mr. Butts is a member of the Company's Executive Committee, which is a management committee, not a committee of directors.

The Board believes Mr. Butts should serve as a director because of his role as one of the top three executives in our Company and the extensive experience and insight he has gained from his 37-year tenure at Sanderson Farms. Mr. Butts' experience in most every aspect of our operations, including processing and sales, and his knowledge of our operations, contribute significantly to the Board. Mr. Butts has served in management capacities in every facet of our business, and that broad perspective is valuable to the Board.

Mike Cockrell has served, since 1993, as Treasurer and Chief Financial Officer for the Company. Before joining us, Mr. Cockrell was a shareholder and member of the law firm Wise Carter Child & Caraway, Professional Association, of Jackson, Mississippi. He is also a certified public accountant and was employed in the audit division of a public accounting firm from 1979 to 1980. Mr. Cockrell is a member of the Company's Executive Committee, which is a management committee, not a committee of directors.

The Board believes Mr. Cockrell should serve as a director because of his role as one of our top three executives and his 17 years of experience as the CFO of our Company. In addition, Mr. Cockrell oversees or has a key role in many aspects of our operations and administration that are not typical for chief financial officers of public companies, including investor relations, our grain purchasing strategy, legal affairs and risk management. As a result, he contributes a broad perspective on our operations to the Board process.

Toni D. Cooley founded and has been president of Systems Electro Coating, LLC, a tier one supplier to Nissan of electro coated frames and other vehicle components, since 2001. She has also served as president of Systems Consultants Associates, Inc., a management training and consulting firm established with the express purpose of assisting Jackson, Mississippi-based minority firms with capacity building, since 1993. Ms. Cooley is also co-owner of Systems IT, Inc., a new horizon computer learning center in Jackson, Mississippi. From 1992 to 1993, Ms. Cooley worked as an International Contract Administrator for the international sales team of the former Turner Broadcasting Systems. She is a director of Trustmark National Bank.

The Board believes Ms. Cooley should serve as a director because of her experience founding and significantly growing Systems Electro Coating in a very short period of time, as well as her experience in executive management. Her experience leading one of Mississippi's largest minority owned businesses provides to the Board a unique perspective on boardroom matters. Ms. Cooley's active involvement in the Mississippi business community has also been advantageous to the Board process.

Beverly Wade Hogan has served, since May 2002, as President of Tougaloo College in Jackson, Mississippi, a private, historically African-American, liberal arts college. Before becoming President of Tougaloo College, Ms. Hogan served for one year as Interim President. Before that, she served for ten years as a Commissioner for the Mississippi Workers Compensation Commission.

Table of Contents

The Board believes that Ms. Hogan should serve as a director because of her 25-year plus career in executive leadership, management and administration, and her experience and perspective on employment and training issues. In addition, the Board has benefitted from the experience and insight Ms. Hogan has gained from her active involvement in local, state and national civic affairs, and her work pioneering numerous Mississippi community programs.

Robert C. Khayat served as the Chancellor of the University of Mississippi from July 1995 until his retirement in July 2009. Before that, he served the university in various capacities, including as professor of law at the University of Mississippi School of Law from 1982 to 1995. Mr. Khayat served on the Board of Directors of Mississippi Power Company, a subsidiary of The Southern Company, and Mississippi Valley Title Insurance Company, until his retirement from both boards in 2009.

The Board believes Mr. Khayat should serve as a director because of his immense skill and experience as head of the University of Mississippi. During his 14-year tenure, he led a major transformation of the university that resulted in higher academic standards, tripled African-American enrollment, significantly higher private financial support and recognition of the university by many independent organizations as one of the country's leading public universities. Among countless other accomplishments, his efforts to re-brand Ole Miss culminated in unprecedented national attention from its successful bid, led by Mr. Khayat, to host the first 2008 U.S. presidential debate.

Phil K. Livingston served as President and Chief Executive Officer of Citizens National Bancshares, Inc. in Hammond, Louisiana, from its organization in 1983, until its merger into Deposit Guaranty Corporation on May 19, 1995. Mr. Livingston retired in 1998, but continued to serve as a banking consultant to AmSouth Corporation following his retirement until 2001.

The Board believes Mr. Livingston should serve as a director because of his extensive experience as a banking executive, in particular his experience in growing and selling one community bank, his involvement with several bank acquisitions and his involvement in the Louisiana and Mississippi business communities, where a large part of our operations are located. The Board has also benefitted from his experience with executive compensation matters and past work with compensation consultants.

Dianne Mooney founded and served as Executive Director and Senior Vice President of Southern Living at Home, a direct sales division of Southern Progress Corporation, from 1999 until her retirement in 2007. Ms. Mooney was directly responsible for the launch and record growth of this \$200 million division. Before that time, she was an employee of Southern Progress Corporation for over thirty years in various positions, including Vice President of Business Development and Vice President of Custom Publishing. Southern Progress Corporation is a division of Time, Inc.

The Board believes Ms. Mooney should serve as a director because of her vast experience in brand management and corporate growth at Southern Progress, as well as in marketing, market research, international sourcing, and new product development. In addition, Ms. Mooney brings to the Board significant experience in crisis and risk management.

Gail Jones Pittman has served, since its founding in 1979, as Chief Executive Officer of Gail Pittman, Inc., an entrepreneurial business creating individually hand-painted, semi-vitreous china dinnerware and home accessories. It is located in Ridgeland, Mississippi.

The Board believes that Ms. Pittman should serve as a director because of her success, skill, experience and perspective as a successful entrepreneur. Ms. Pittman is recognized by many as Mississippi's preeminent female business executive, and one of the South's most noted philanthropists. Her active involvement in the Mississippi business community brings a valuable perspective to the Board.

Charles W. Ritter, Jr. served, from 1967 to 2002, as President and a Director of the Attala Company, which is principally engaged in the business of milling and selling feed and corn meal. He now serves as a management consultant to the Attala Company. He has also served as President of JRS, Inc., a family owned real estate investment firm, since 1973. Mr. Ritter is a director of First M & F Corp. and Merchants & Farmers Bank, Kosciusko, Mississippi, and chairs the audit committee of First M & F Corp.'s Board of Directors. First M & F Corp. has a class of securities registered with the Securities and Exchange Commission.

The Board believes Mr. Ritter should serve as a director because of his experience in and knowledge of both the banking and grain industries. He is our longest serving outside director. Mr. Ritter contributes a broad business perspective to the Board of Directors as well as a long-term perspective on the evolution of our Company from a family business to a large, publicly held corporation. He knew personally the founders of our Company and brings an understanding of their long-term vision and core values to the Board table.

Joe F. Sanderson, Jr. served as President of the Company from November 1, 1989 to October 21, 2004, and has served as Chief Executive Officer since November 1, 1989 and as Chairman of the Board of Directors since January 8, 1998. Mr. Sanderson continues to serve as Chief Executive Officer and Chairman of the Board of Directors. Before his tenure as an executive officer of the Company, he was continuously employed by Sanderson Farms in numerous positions starting in 1969. Mr. Sanderson is a member of the Company's Executive Committee, which is a management committee, not a committee of directors. Mr. Sanderson's father, Joe Frank Sanderson, was one of the founders of our Company.

The Board believes Mr. Sanderson should serve as a director because of his outstanding leadership of our Company since 1989. Under his tenure, our Company has experienced tremendous growth, including growth in annual revenues from \$184 million in 1989 to almost \$2 billion in 2010, and in earnings per share from \$0.68 in 1989 to \$6.07 in 2010, and has opened five new plants. Mr. Sanderson is primarily responsible for the overall operation and strategic vision of our business, and as a result makes an invaluable contribution to the Board process.

Rowan H. Taylor served as President of Mississippi Valley Title Insurance Company from 1975 until 1989, and as Chairman of the Board and Chief Executive Officer of that company from 1989 until 1992. Until December 1, 2001, Mr. Taylor served as counsel to the Jackson, Mississippi law firm of Alston & Jones. Mr. Taylor served as an advisory director of Trustmark Corporation and Trustmark National Bank located in Jackson, Mississippi until his retirement from such position in 1995, and served as counsel for First American Title Insurance Company of Santa Ana, California until his retirement in 2002.

The Board believes Mr. Taylor should serve as a director because of his successful business career, his legal background and his active involvement and contacts in the Mississippi business community, which has been particularly helpful to the Board in identifying past director candidates. Mr. Taylor is also actively involved in Mississippi's civic, education and political communities, and brings to the Board table an institutional knowledge and deep understanding of the Company's history, its growth and its core values and principles.

Corporate Governance

Director Independence

Our Board of Directors has determined that the following directors are independent under the listing standards of The Nasdaq Stock Market: Ms. Cooley, Ms. Hogan, Ms. Mooney, Ms. Pittman, and Messrs. Baker, Banks, Khayat, Livingston, Ritter and Taylor.

Leadership Structure

Currently, Joe F. Sanderson, Jr. serves as both our Chief Executive Officer and the Chairman of the Board of Directors. The Board believes that Mr. Sanderson is best qualified to hold each of those positions and that it is in our stockholders' best interest that he do so because of his role overseeing all aspects of our operations, his 42 years of experience with our Company and his long-term vision for our strategic plan.

Table of Contents

Our By-Laws provide that if at any time the Chairman of the Board is also an officer of the Company, the independent directors must appoint a Lead Independent Director. The Lead Independent Director must be independent under the rules of The Nasdaq Stock Market and is appointed by the other independent directors for a one-year term.

He or she is responsible for:

presiding at all meetings of the Board of Directors at which the Chairman of the Board is not present, including executive sessions of the independent directors;

serving as a liaison between the Chairman of the Board and the independent directors;

approving information sent to the Board of Directors in preparation for meetings of the Board of Directors;

approving agendas for meetings of the Board of Directors and meeting schedules to ensure that there is sufficient time for discussion of all agenda items; and

being available for communications with our stockholders.

The Lead Independent Director also has the authority to call meetings of the independent directors.

The independent directors have appointed Phil K. Livingston as the Company's Lead Independent Director.

The Board of Directors believes that its leadership structure is appropriate because it strikes an effective balance between management and independent director participation in the Board process. The Lead Independent Director role helps to ensure greater communication between management and the independent directors. It also increases the independent directors' understanding of management decisions and Company operations and provides an additional layer of independent oversight of the Company.

Risk Oversight

The Board takes very seriously its oversight role in the Company's risk management. The Company's senior management committee, called the Executive Committee, is primarily responsible for managing the day-to-day risks of the Company's business, and is best equipped to assess and manage those risks. The Board receives reports on the Company's exposure to risk and its risk management practices from the senior managers of the Company's major divisions, including reports on the Company's biosecurity program, growth plans, information technology safeguards, financial and accounting controls and security measures, grain purchasing strategy, environmental compliance, human resources, legal matters and customer and product mix, among other things. The Board regularly receives updates about and reassesses the management of these risks throughout the year. In addition, the Board reviews the Company's risk disclosures in its draft periodic reports before they are filed and has the opportunity to question management about those risks. The Board is confident that the CEO, as the head of the Company's Executive Committee, will promptly report new material risks or material changes in the Company's risk profile to the Board. The Board also feels that, together with the CEO, it has cultivated a corporate culture and board leadership structure in which managers who report to the CEO and the other top officers of the Company have access to the Lead Independent Director and the other independent directors, and can communicate freely and candidly about risks to the Company.

Board Meetings and Committees of the Board

During our 2010 fiscal year, the Board of Directors held nine meetings, four of which were telephonic meetings. The Board of Directors strongly encourages all directors to attend the Company's annual meetings of stockholders, and all directors attended the 2010 annual meeting. The Board of Directors has appointed three standing committees: the Audit Committee, the Compensation Committee and the Nominating and Governance Committee. Each member of these committees is independent under the listing standards of The Nasdaq Stock Market. Every incumbent director attended at least 75% of the total of (i) all of the Board of Directors meetings held during the period for which he or she was a director and (ii) all of the meetings held by the committees of the Board on which he or she served (during the period in which he or she served).

The current charter of each committee of the Board of Directors is available in the Investor Relations section of our website at www.sandersonfarms.com.

Table of Contents

Nominating and Governance Committee

The members of the Nominating and Governance Committee are Ms. Hogan and Ms. Mooney (Vice Chair) and Messrs. Banks (Chair), Livingston, Ritter and Taylor. The committee considers all director candidates recommended for election to the Board of Directors. It also recommends all compensation paid to our non-employee directors, leads the Board in its annual self-evaluation and from time to time makes recommendations concerning our corporate governance policies. In fiscal 2010, the Committee held three meetings.

As noted above, the Nominating and Governance Committee considers potential nominees for director proposed by its members, members of the Board of Directors, our stockholders or management. Stockholders who are not also members of our Board of Directors or management should submit notice of their proposed nominees for director in writing to the Nominating and Governance Committee at the Company's general offices. That address is Post Office Box 988, Laurel, Mississippi 39441.

Stockholders should include the following information in their written notice:

The stockholder's name and address;

A representation that the stockholder is a holder of record or a beneficial owner (in which case evidence of such beneficial ownership must be submitted if requested by the Nominating and Governance Committee) of shares of the Company's common stock as of the date of the notice;

The name, age, business and residence addresses, and principal occupation and experience of each proposed nominee;

Such other information regarding each proposed nominee that the stockholder wishes the Nominating and Governance Committee to consider;

The consent of each proposed nominee to serve as director of the Company if elected; and

A representation signed by each proposed nominee that states that such proposed nominee meets all of the qualifications set forth in Article IV of our By-Laws, which requires that directors must be at least 21 years old and citizens of the United States.

Persons wishing to propose nominees for consideration at our annual meeting of stockholders must submit notice of their proposed nominee to the Nominating and Governance Committee no later than September 15 of the year prior to the annual meeting.

Anyone proposing nominees to the Nominating and Governance Committee should consider the minimum qualifications, skills and qualities that the Nominating and Governance Committee believes are necessary for a director of the Company, as follows:

significant business experience in production, preferably related to agriculture, or in marketing, finance, accounting or other professional disciplines;

prominence and a highly respected reputation in his or her profession;

a global business and social perspective;

a proven record of honest and ethical conduct, personal integrity and good judgment;

a commitment to congeniality with and mutual respect for other members of the Board and management;

concern for the long-term interests of our stockholders; and

significant time available to devote to Board activities and to enhance his or her knowledge of our industry.

Table of Contents

To date, the Board has ensured that these minimum qualifications were met by recommending to our stockholders only nominees whom our incumbent directors knew personally. In this way, the Board has had the benefit of reliable, first-hand reports about the nominees' personal integrity and reputation.

Although the Board does not have a formal policy on diversity with respect to the Board, it has worked hard to identify director candidates who represent a diverse range of personal and business backgrounds. The Board has identified such persons through directors' personal contacts in the local business communities where we operate. Board members currently reflect racial and gender diversity and our directors have worked in a variety of fields including finance, banking, law, higher education, heavy industry, agriculture, publishing and brand management. The Board has also endeavored to identify directors from the various communities in which our operations are located, including Mississippi, Louisiana and Texas. When searching for candidates for future Board positions, the Nominating and Governance Committee may focus its attention on candidates from Georgia and North Carolina, where our newer plants are located.

The Nominating and Governance Committee annually assesses its effectiveness at composing a diverse and qualified group of directors through an anonymous self-evaluation process. The full Board also has the opportunity to comment anonymously on the size and composition of the Board.

The Nominating and Governance Committee may interview candidates for nomination for election as director who are not incumbent directors. The Nominating and Governance Committee may elect to invite members of our management to participate in the interviews. When all interviews are complete, the Nominating and Governance Committee votes to determine a slate of nominees to be submitted to the Board of Directors. The Nominating and Governance Committee uses the same process to evaluate potential nominees proposed by stockholders as it uses to evaluate any other potential nominee.

Nothing in the committee's policies will prevent a stockholder from nominating persons for election as directors from the floor at any annual or special meeting of stockholders called for that purpose by following the advance notification procedures set forth in Article III of our By-Laws. These procedures are described under STOCKHOLDER PROPOSALS, Procedure in this Proxy Statement.

Audit Committee

The Audit Committee is established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the Audit Committee are Ms. Pittman and Ms. Mooney and Messrs. Baker (Vice Chair), Khayat, Livingston, and Ritter (Chair). The committee, among other things, appoints or replaces the independent auditors, reviews the scope of the independent auditors' audit, reviews our major accounting and financial reporting policies, practices and systems for compliance with applicable statutes and regulations, and reviews our internal auditing functions. The Audit Committee held nine meetings during fiscal 2010, five of which were telephonic meetings.

The Audit Committee has reviewed and discussed the audited financial statements with management, and the Audit Committee has discussed with the independent auditors the matters required to be discussed by the statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. SAS 61 requires the independent auditor to provide the Audit Committee with information regarding the scope and results of an audit that may assist the Audit Committee in overseeing management's financial reporting and disclosure process. The Audit Committee has received the written disclosures and the letter from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board, and has discussed with the independent accountants the independent auditors independence. Based on the review and discussions referred to above, the Audit Committee recommended that the audited financial statements for the fiscal year ended October 31, 2010 be included in our Annual Report on Form 10-K for that fiscal year for filing with the SEC.

Compensation Committee; Compensation Committee Interlocks and Insider Participation

The members of the Compensation Committee are Ms. Cooley, Ms. Hogan, Ms. Pittman (Vice Chair) and Messrs. Baker, Khayat, Livingston (Chair), Ritter and Taylor. The committee determines the philosophy, components, levels and terms of our executive compensation. In fiscal 2010, the Compensation Committee held five meetings, one of which was telephonic.

The committee's processes and procedures for the consideration and determination of executive pay, as well as the role of management and outside consultants in that process, are more fully described in the EXECUTIVE COMPENSATION section, below.

The Compensation Committee may form and delegate its authority to subcommittees consisting only of persons who are members of the Compensation Committee.

During fiscal 2010, none of the members of the Compensation Committee was an officer or employee of the Company and no member of the committee is a former officer of the Company. In addition, during fiscal 2010, none of our executive officers served on the board of directors of any entity whose directors or officers served on our Board of Directors.

Communications Between Stockholders and the Board of Directors

The Board of Directors has adopted a formal procedure that stockholders may follow to send communications to the Board of Directors. Stockholders may send communications to the Board by writing to:

Internal Audit Department
Sanderson Farms, Inc.
P. O. Box 988
Laurel, MS 39441-0988

Stockholders desiring to send a communication to the full Board of Directors should mark the envelope Attention: Board of Directors. Envelopes intended for a committee of the Board should be marked to the attention of the particular committee. Stockholders may also communicate with directors who are independent directors under the rules of The Nasdaq Stock Market by marking the envelope Attention: Independent Directors at the address given above.

We will forward all communications we receive as addressed on a quarterly basis, unless management determines by individual case that a communication should be forwarded more promptly. However, any stockholder communication concerning employee fraud or accounting matters will be forwarded as addressed, with a copy to the Audit Committee, immediately upon receipt.

Review and Approval of Certain Transactions

The Audit Committee's charter charges it with reviewing on an on-going basis certain transactions between the Company and its directors, officers, major stockholders and certain other persons for conflicts of interest. The types of transactions that are subject to this review are those related party transactions that must be disclosed in our proxy statement under the rules of the SEC. The Audit Committee must recommend to a special committee of qualified, independent directors whether or not the transaction should be approved. The special committee may retain independent legal, accounting or other advisors to advise it in this process. During our 2010 fiscal year, there were no transactions between the Company and related persons that required review by the Audit Committee or that required disclosure in this Proxy Statement.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, officers and persons who own more than 10% of our outstanding common stock to file with the SEC reports of changes in their ownership of our common stock. Officers, directors and greater than 10% stockholders are also required to furnish us with copies of all forms they file under this regulation. Based solely on a review of written information provided by these persons, our officers, directors and greater than 10% stockholders are in compliance with all Section 16(a) filing requirements, except that Ms. Pittman filed a late Form 4 on August 27, 2010 reporting her sale of 875 shares of common stock on December 9, 2009.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary

This Compensation Discussion and Analysis (CD&A) describes our compensation philosophies, factors considered in developing our compensation packages and the decision-making process followed in setting compensation for our Named Executive Officers during our 2010 fiscal year. It should be read in conjunction with the tables and accompanying narratives that follow. Other than our principal executive officer and principal financial officer, there are only two individuals at our Company who meet the definition of executive officer under SEC rules, and therefore our four executive officers are our only Named Executive Officers under the SEC's proxy statement rules. They are: Joe F. Sanderson, Jr., Chairman of the Board and Chief Executive Officer (CEO);

Lampkin Butts, President and Chief Operating Officer (COO);

Mike Cockrell, Treasurer and Chief Financial Officer (CFO); and

James A. Grimes, Secretary and Controller (Secretary).

The goal of this CD&A is to describe our executive compensation philosophies and programs with transparency and clarity. Our Compensation Committee met five times during the year and retained Towers Watson as its independent executive compensation consultant. We believe that our executive compensation programs reflect our Company's pay-for-performance philosophy, assist us in creating long-term value for our stockholders and are effective in retaining and motivating our current executives. Although we generally strive to appoint executives from within our Company, our compensation programs will allow us to attract top management candidates from outside our Company, should the need arise.

Sanderson Farms has always had a pay-for-performance culture. We expect top performance from our people every year and are willing to pay for that success. Accordingly, a substantial part of the compensation package for each Named Executive Officer is at risk and is only earned if performance so warrants. In addition to base salary, we offer our Named Executive Officers the opportunity to earn an annual bonus if certain performance goals are met, and we also grant long-term incentives to our Named Executive Officers to align their pay with the long-term success of our Company. Our long-term incentives have both a performance-based component, as well as a time-based element to assist us in retaining our management team. We encourage our Named Executive Officers, other members of management and our Board of Directors to follow our stock ownership guidelines. In addition, our executives participate in our Employee Stock Ownership Plan and can elect to participate in our Management Share Purchase Plan, which further aligns them with our stockholders.

We use a peer group and appropriate published surveys (based on appropriate industry and revenue size comparisons) to set compensation levels. We do not target our compensation levels at any particular point in the range established by data we gather, but we do consider the median of those markets as a general guide, along with a multitude of other factors, in setting our pay opportunity. However, with above-target performance, our Named Executive Officers can earn above-market pay.

For purposes of our annual bonus award plan, we measure operational performance using Agristats, a private industry benchmarking service that analyzes performance data submitted weekly by a significant majority of the poultry industry, and through earnings per share. Even if we meet the operational and earnings per share targets, executives will not receive payments under the bonus award plan unless we also meet a return on equity threshold. For our long-term performance share plan, we measure performance by return on sales and return on equity, and our stock price also factors into the final amount of the award to the Named Executive Officers.

In fiscal 2010, we benefitted from favorable market conditions and solid execution in our operations, and earned a record \$6.07 in earnings per share for the year. Overall chicken prices were higher during fiscal 2010 than during 2009, our volume of processed chicken was higher than in past years, and our costs for feed grains were lower than in 2009. We paid bonuses under our bonus award plan for 2010 equal to about 83% of the maximum bonus opportunity. We paid bonuses for fiscal 2009 at about 50% of the maximum opportunity.

Table of Contents

Two of our long-term performance share cycles were completed at the end of fiscal 2010. Performance shares granted for our 2008 fiscal year were earned and paid out at near the target level for the return on equity component of those awards. Performance shares granted for our 2009 fiscal year were earned at the maximum level for both the return on sales and the return on equity components, but are subject to an additional one-year vesting period and will be paid out at the end of fiscal 2011. There are two additional long-term performance share cycles currently in place under our long-term performance share plan, and the payouts on those awards, if achieved, will occur at the end of fiscal 2012 and 2013.

We completed a public offering of 2.3 million shares of our common stock in April 2010. Under the terms of our bonus program, the earnings per share targets used to determine the amount of the bonus awards were automatically adjusted to neutralize the effect of the additional shares. In addition, the Committee determined to neutralize the effect of the offering on our stockholders' equity when calculating our average return on equity for our fiscal 2008, 2009, 2010 and 2011 performance shares.

Finally, our CEO, at his request, received no equity awards under the long-term incentive program from its inception through our 2009 fiscal year. The Committee determined, and he agreed, that he again be considered for long-term incentive awards beginning in the 2010 fiscal year.

Principles and Objectives of the Executive Compensation Program

The main objectives of our executive compensation programs have been to reward outstanding performance by our executives appropriately and to ensure that management and stockholder interests are closely aligned. The Committee strives to structure compensation packages that create incentives for our executives to maximize stockholder value, rather than to maximize their individual pay. A significant portion of our executive compensation opportunity is related to factors that directly and indirectly influence stockholder value, including stock performance, earnings per share, operational performance, return on sales and return on equity.

Another significant factor in the Committee's decisions to make equity-based awards to our executives is stockholder dilution, and the Committee strives to minimize the dilutive effect of those awards on our stockholders. Our Board of Directors has also adopted a share repurchase program under which we may repurchase up to one million shares of our common stock, in part to offset the dilutive effect of our equity compensation plans.

We believe our executive culture is unique within our industry. Our management team is motivated by a strong tone from the top that has fostered our core mission to create returns for our stockholders. We believe our executives should be rewarded fairly for their loyalty to that mission, especially in years when we perform at the top of our industry.

Management, the Board of Directors and the Compensation Committee recognize that our business is cyclical and seasonal, and often times the level of profitability we achieve is significantly influenced by factors beyond our control. These factors include swings in the market prices for our primary product, fresh chicken, and our two primary input costs, corn and soybean meal. Accordingly, the Compensation Committee believes it is important to measure and reward outstanding performance as much by operational performance relative to our peers as in absolute dollars per share and other typical measuring tools. This concept of placing significant emphasis on operational performance relative to our peers permeates our overall compensation plans and philosophy.

We expect top-level performance from our management team even during downturns in our industry and during periods of Company expansion. Accordingly, the criteria that the Committee has established for our performance-based awards have been historically very challenging to achieve. Indeed, fiscal 2010 was the first year in which any of our performance shares were earned since the inception of the program in 2005. Nevertheless, even in years for which we have incurred a net loss, our Company has still performed better than most of our peers. The Committee has considered these factors in evaluating our compensation plans and has made adjustments to the plans or discretionary awards, described further below, to take into account our strong performance relative to the industry and our significant Company growth.

Table of Contents

The Committee intends to continue its strategy of employing compensation programs that emphasize performance-based incentive compensation. We have structured our executive compensation packages with an understanding of the cyclical nature of our business, and with a goal to achieve an appropriate balance between our short and long-term performance. We have also tried to balance the focus of our pay elements between our operational performance versus the industry and our financial performance on the one hand, and stockholder return on the other.

Benchmarking and Competitive Analyses

The Committee uses information gathered by analyzing the compensation levels and programs of a peer group and, in some cases, composite survey data compiled from companies of appropriate size and industry (although the survey data does not specifically identify contributing companies). The peer group serves as the chief point of comparison of the level and structure of executive pay, and is composed of companies similar to Sanderson Farms in size, industry, geographic location and/or performance. The Committee also uses data from a reference group of direct competitors that are considerably larger than Sanderson Farms as a comparator for components of executive pay, but not for pay levels. Selection of the peer and reference groups was based on the research of Towers Watson, with input from the Committee, the CEO, and the CFO.

The comparator groups yield information about the general level and components of pay for comparable executive positions at other companies. The Committee uses this information as a general guide in its deliberations, but it does not target our executive compensation levels at any point in the range established by the comparisons. Instead, the Committee bases its final decisions on its business judgment, which may be influenced by the median level of that range, as well as a variety of other factors discussed below. The companies comprising the comparator groups for fiscal years 2010 and 2011 are shown below:

 Cal-Maine Foods
 Central Garden & Pet Company
 Del Monte Foods

The Compensation Committee Process and the Role of Management and Compensation Consultants

Both management and the Compensation Committee recognize the importance of maintaining sound principles for the development and administration of compensation and benefit programs. Our Compensation Committee has taken steps to significantly enhance its ability to carry out its responsibilities effectively, as well as to ensure that the Company maintains strong links between executive pay and performance. Examples of actions that the Committee has taken in the past few years include:

Retained an independent compensation consultant, Towers Watson, to advise on executive and director compensation issues.

Met regularly in executive sessions with the compensation consultant and legal and accounting advisors without Company management present; and

Made significant changes to our executive and director compensation programs, including:

Establishing a peer group for primary comparisons of the level and structure of executive and director pay;

Establishing a broader reference group of companies with a business environment similar to ours to assist in comparing the elements of executive and director compensation (not levels of pay);

Developing a long-term incentive program for executives designed to offer a variety of equity-based awards that are linked to stockholder value, and making adjustments to the program where necessary to take into account our significant Company growth and strong performance relative to our peers;

Implementing incentive programs to promote increased Company stock ownership by management and non-employee directors;

Instituting share ownership guidelines for both management and non-employee directors;

Adopting a compensation recoupment policy for incentive-based compensation, discussed below;

Undertaking a formalized annual review of executive compensation packages with advice from the compensation consultant in light of market standards, company and industry performance and individual merit; and

Bringing the mix of the top officers' cash compensation closer to marketplace standards by increasing the maximum performance-based bonus award opportunity for the CEO from 100% to 150% of base salary, and for the COO and the CFO from 100% to 120% of base salary.

The Committee has the sole authority to retain or terminate Towers Watson (or any other compensation consultant) and to approve the consultant's fees and other terms and conditions of its engagement. In July 2009, as in prior years, the Committee engaged Towers Watson to review its executive compensation components and levels and recommend any changes for fiscal 2010 necessary to bring our programs in line with market standards. The Board or the Nominating and Governance Committee have also retained Towers Watson periodically, most recently in September 2009, to review the compensation of our outside directors. In December 2009, the Committee also retained Towers Watson on the recommendation of management to perform a limited review of the salary ranges of selected salaried employees, but the fees for this review were less than \$120,000. The Committee will take measures to ensure that any future engagement of Towers Watson by our Company does not impair Towers Watson's independence.

Typically, the Committee chairman meets with representatives from Towers Watson at the outset of any engagement to discuss the Committee's goals and objectives and to outline the parameters of the review that Towers Watson will undertake. The CFO is generally present for those meetings as a liaison with management, and Towers Watson uses the CFO to gather internal information necessary for its work. The Committee chairman also corresponds

with Towers Watson directly during an engagement as questions arise. Because the CEO is the Committee's chief source of information about the overall performance of the Company and of senior management, the Committee or its chairman may also meet privately with the CEO to inform him of the Committee's thinking on any particular issue and to get his feedback and recommendations. Although the CEO has substantial influence on the Company's compensation and could contact or meet with Towers Watson or the Committee if he chooses, he is usually not directly involved in the Committee's decision-making process or in meetings with Towers Watson.

Table of Contents

When compensation questions arise for the Committee's consideration, management is generally present for Towers Watson's presentations and to answer any questions by directors. However, when the Committee sets levels and components of compensation, management is ultimately excused from the meeting to permit the Committee to meet with Towers Watson and legal and accounting advisors in executive session and to vote. The Committee may ask the CEO to be present for the deliberations on the compensation of the other Named Executive Officers, but he is excused from the deliberations and vote on his own compensation.

Elements of Executive Compensation

The compensation of our executive officers consists of the following elements:

Base salary

Annual cash incentive (bonus) awards

Long-term equity incentive awards, including:

Restricted stock

Performance shares

Management share purchase rights

In-service and post-employment benefits

Perquisites

The Committee has used these elements of compensation to create a flexible package that reflects the cyclical nature of the poultry business and can reward both the short and long-term performance of the Company and the individual. Each item of compensation is considered individually, followed by consideration of the overall package, with the goal of treating executives equitably and rewarding outstanding performance. The Committee also considers how our executive pay compares to the peer and reference companies and to similar positions included in published survey data, with respect to both levels and components of total pay. Generally, the Committee does not consider the amounts realizable from prior compensation in setting future benefits. However, the Committee has restructured our long-term performance incentives to reflect more fairly the conditions in our industry when past awards have failed to vest because of cyclical downturns in the poultry market and inefficiencies stemming from our significant internal growth. This is discussed in more detail below.

The CEO's 2010 total compensation, as reported in the Summary Compensation Table below, was approximately 141% and 170%, respectively, higher than the total compensation for the COO and CFO because of his higher level of responsibility within our Company and his more pervasive influence over our performance. The compensation of the COO and CFO was likewise approximately 256% and 218%, respectively, higher than the Secretary's for the same reasons.

In 2009, we entered into employment agreements with the CEO, the COO and the CFO. Among other benefits, the agreements provide for a severance payment to be paid to the officers if:

before a change in control of our Company, the officers are terminated without cause, except in the case of poor performance;

at or after a change in control, the officers are terminated without cause; or

the officers resign for good reason.

The amount of the severance payments will be, in the case of Mr. Sanderson, three times, and in the case of Messrs. Butts and Cockrell, two times, the following amounts:

the officer's annual base salary in effect at the time of his termination, plus

fifty percent of the maximum bonus available to the executive under the Company's bonus program in effect for the year of termination.

Table of Contents

The Committee believes these benefits are important officer retention tools that will protect the Company and its stockholders against an unexpected departure of our most senior management. In addition, the commitment to pay severance is counterbalanced by an agreement from the officers not to disclose confidential information about us during and after their employment, and not to engage in certain competitive activity during their employment and for two years after the termination of their employment for any reason other than poor performance. The Committee also believed it was crucial to structure the agreements so that, except in the case of a change in control, the officers will not be paid severance if they are terminated for poor performance. In the context of a change in control, the severance is not payable unless the officer is subsequently terminated without cause. This is sometimes referred to as a double trigger. In the case of a merger or other transaction that would allow our stockholders to profit from a sale of control of our Company, such provisions can help ensure that management will not be distracted in the transaction negotiations by concerns that they will be arbitrarily terminated by new management without any economic protection after the change of control is complete.

The agreements are discussed further below in the narrative following the table entitled, Grants of Plan-Based Awards.

Base Salaries

Salaries are used to provide a fixed amount of compensation for the executive's regular work. The Committee reviews the salaries of the Named Executive Officers annually in October, with input from the outside compensation consultant, and makes final salary decisions at that time. Salary increases are based on an evaluation of Company performance, the individual's performance, and the individual's level of pay compared to the pay levels for similar positions in the peer group. Although the peer group suggests a range of competitive levels for base salaries, exact levels are determined by the Committee based on each executive's merit. The Committee also takes into account years of service, responsibilities, our future growth plans and our current ability to pay.

For fiscal year 2010, each of the named executive officers received a 4% salary increase. In determining the increase, the Committee took note of expected economic and market conditions for the 2010 fiscal year, as well as each executive's individual performance. For more information about the factors the Committee considered in setting fiscal 2010 compensation, see the subsection below entitled Evaluation of Executive Performance.

The effective date for salary increases typically is November 1 of each year. Salary increases can also occur upon an individual's promotion.

Annual Cash Bonus Awards

We maintain a bonus award plan under which our salaried employees, including the Named Executive Officers, are eligible for fiscal year-end cash incentive awards equal to a percentage of their base salary based on the Company's performance (Bonus Award Program). These awards are designed to reward short-term performance and the achievement of designated operational results. For officers and key management employees, the total award has two components: a percentage based on our achieving certain target earnings per share goals, and a percentage based on our operational performance versus our industry peers as measured by Agristats.

The earnings per share targets established under the Bonus Award Program are set each year, and reflect our growth and ability to generate earnings. We have experienced significant growth in production capacity over the past 15 years, and our ability to generate earnings has likewise grown significantly. As a result, the earnings per share targets established under the Bonus Award Program have moved higher to reflect our increased earnings capacity. We have historically performed at or near the top of the industry in operational measures, and the targets set for operational goals under the Bonus Award Program reflect our culture and expectations of achieving superior performance relative to our peers. However, it is possible that even if we operate at the top of the industry, we still might not achieve an acceptable level of profitability, due to factors such as the cyclical nature of the industry, external forces that influence profitability that are beyond the control of management, and our significant internal growth in recent years and resulting short-term inefficiencies. Therefore, unless we achieve at least an 8% return on average stockholders' equity (computed after taking into account any bonus to be paid), no payments are made under the Bonus Award Program even if the operational targets are reached, and payments are not cumulative.

Table of Contents

Generally, earnings per share targets are established by reference to our earnings per pound of poultry products sold during years of significant profitability. That is, our rate of earnings per pound in high performing years is applied to pounds we expect to produce and sell in the coming year. We also consider our five-year average return on sales and what earnings level would result in an acceptable return on average equity. Through this exercise, we establish a dollar earnings target that is then translated into an earnings per share target for purposes of the Bonus Award Program. While the Committee recognizes that there are many factors beyond the control of management that might affect our ability to achieve these results, it attempts to make the program competitive by awarding a relatively high percentage of salary payouts in years in which we achieve these aggressive targets. Likewise, the Committee sets aggressive targets when setting operational goals. Unless we operate in the top 30% of the industry in terms of operating profit per head of chickens sold, no operational awards are made. For participants to earn the top bonus, we must operate in the top 10% of the industry.

The following table shows, for fiscal 2010, the percentage of base salary that the Named Executive Officers were eligible to receive from each component of the bonus award:

2010 Bonus Award Opportunities

The following table shows, for fiscal 2010, the earnings per share objectives and the corresponding percentages of the earnings per share component of a participant's bonus award that could have been earned. The program provides that the earnings per share targets will be adjusted to reflect changes in the number of shares outstanding due to business combinations, recapitalizations, stock splits or other changes in our corporate structure. As discussed above, the earnings per share objectives below reflect such automatic adjustments to neutralize the effect of the 2.3 million new shares we issued in the common stock offering we completed in April 2010.

* Net of bonus and net of extraordinary, non-recurring income items not related to the fiscal year's operations. The per share return targets were calculated assuming 22,187,990 diluted shares outstanding.

The earnings per share component of the bonus award program is based on our net income net of the bonus. Our fiscal 2010 net earnings, after taking into account bonus accruals we made at the 100% bonus level, were \$6.07 per share. Therefore, the Named Executive Officers received 100% of the portion of their total bonus award that is based on earnings per share.

Table of Contents

The following table shows, for fiscal 2010, the performance objectives based on our performance versus our industry peers as reported by Agristats and the corresponding percentages of the operational component of a participant's bonus award that could have been earned:

2010 Bonus Awards Operational Performance Component

3		100%
4		66 2/3%
5		66 2/3%
6		33 1/3%
7		33 1/3%

For 2010, the Named Executive Officers received 66 2/3% of the portion of their total bonus award that is derived from operational performance.

The following table shows, for the 2010 fiscal year, the maximum percentages of base salary that the Named Executive Officers could have received under the Bonus Award Program, the percentage actually received based on the Company's actual 2010 performance and the dollar amount of actual awards. The actual cash awards are also shown in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table that follows this Compensation Discussion and Analysis. For fiscal 2010, the Company's actual performance reflected slightly more favorable market prices for poultry products than during fiscal 2009, an increase in the volume of pounds of poultry we sold compared with fiscal 2009, outstanding operational performance and lower grain prices compared with last year.

2010 Bonus Award Payments

Position	Maximum Bonus Award Opportunity as a Percentage of Base Salary	Percentage of Base Salary Actually Earned under Bonus Award Program	Dollar Amount of Actual Awards
CEO	150%	125.0%	\$ 1,516,440
COO	100%	83.3%	502,650
CFO	100%	83.3%	430,710
Secretary	50%	41.7%	101,865

Each January, the Committee reviews and reconsiders the Bonus Award Program, the maximum bonus opportunities, the performance criteria under the program and the earnings per share targets for the then-current fiscal year. As part of its review, it receives reports from the outside compensation consultant concerning the level of similar short-term cash incentives paid by the peer group companies. It also receives management's recommendations as to the appropriate targets for earnings per share and operational performance based on management's estimates of what would qualify as superior performance.

The Committee generally adopts the program in January for the current fiscal year. The parameters of the program and the performance criteria are then communicated to the participants. In general, once the Committee adopts the program, the bonus awards are determined solely according to the program criteria and are not subject to the discretion of the Committee. The program does provide that adjustments can be made to awards in the event of extraordinary operating conditions, errors in Agristats reporting or significant changes in the number of Agristats

participants, changes in law or accounting procedures or substantial and unforeseen fluctuations in sales pounds or dollars during the year. We have never made any such adjustments. Bonuses earned for a completed fiscal year are usually paid in December following the fiscal year.

Table of Contents***Long-Term Equity Incentive Awards***

Equity-based compensation and ownership ensures that our executive officers and directors have a continuing stake in the long-term success of the Company. Generally, the Committee considers equity incentive awards to the Named Executive Officers each October, after its annual evaluation of executive pay. The awards, if made, usually become effective in November at the start of the Company's new fiscal year.

Under the Stock Incentive Plan, the Board may grant restricted stock, performance shares, stock options, stock appreciation rights, phantom stock, management share purchase rights and other stock-based awards. Since its inception in 2005, awards to the Named Executive Officers under the plan have consisted of restricted stock, performance shares and management share purchase rights.

The Committee, with input from Towers Watson, has made specific grants by comparing the executive's current long-term incentive levels with the market range established by published survey and peer proxy data. Based on market studies, it has then identified a typical multiple of the average base salary for the individual's management level that his or her long-term incentives should represent. These multiples are reconsidered annually based on the then-current market data. For fiscal 2009, the multiple was 135% for the COO and CFO and 50% for the Secretary. The CEO's multiple was 250% in 2009, but he declined to participate in the program from the plan's inception through 2009, requesting instead that the Board permit him to have additional vacation time. For fiscal 2010, the Committee determined, and the CEO agreed, that he be considered for equity-based awards. The Committee used multiples for fiscal 2010 compensation of 120% for each of the CEO, COO and CFO, and 40% for the Secretary. (The CEO's multiple was half of the 240% that Towers Watson identified as typical for the market, in light of his receipt of additional vacation time in lieu of equity awards in prior years.) For fiscal 2011, the Committee used multiples of 265% for the CEO, 135% for the COO and the CFO, and 40% for the Secretary.

This calculation yields a target annual long-term incentive award level that is then converted into a recommended number of shares to be awarded using the approximate stock price quoted on Nasdaq at that time. As discussed above, the Committee also bases its final decisions as to the award level on factors such as individual merit, responsibilities, individual and Company performance, and the dilutive effect of the award on our stockholders. The Committee then divides the total recommended share award equally between performance shares and restricted stock.

All of our restricted stock and Management Share Purchase Plan agreements provide that stock awarded under those plans will become fully vested in the event of a change in control of our Company and fully or partially vested upon certain other events, as described more fully in the Potential Payments Upon Termination or Change-in-Control section below. These provisions were adopted because they are customary for equity incentive awards of those types and because the Board of Directors deemed them to be reasonable and fair to our management. In the context of a merger or other transaction that would allow our stockholders to profit from a sale of control of our Company, such provisions can help ensure that management will not be distracted in the transaction negotiations by concerns that the value of their awards will decline after the change of control is complete. The potential payments under these provisions played no part in the Committee's decisions regarding other elements of our executive compensation.

Restricted Stock

Shares of restricted stock are a promise to pay to the recipients actual shares of Sanderson Farms stock at the end of a vesting period when the restrictions lapse. The CEO, COO, CFO and Secretary and certain other salaried employees of the Company received restricted stock as part of their long-term incentive award in November 2009 for the 2010 fiscal year. These shares vest, in general, on the fourth anniversary of the award, as long as the holder remains continuously employed by us during the restricted period.

Recipients of restricted stock have all the rights of a stockholder of the Company, including the right to receive dividends, beginning on the grant date. In the event a recipient forfeits shares of restricted stock before such shares vest, the shares are cancelled.

Table of Contents

Performance Shares

Performance shares provide a material incentive to executives by offering potential increased stock ownership in the Company tied directly to our stockholders' return. The CEO, COO, CFO, Secretary and certain other salaried employees received performance share grants as part of their long-term incentive awards in November 2009. The performance share program entitles the holder to earn shares of Sanderson Farms common stock if we achieve certain relative levels of performance on stockholder return over a multi-year period following the grant, as long as the holder remains continuously employed by us until the end of the performance period and any additional vesting period. The length of the performance period reflects the cyclical nature of the poultry business, and is designed, generally, to measure our performance over an industry cycle. For awards granted for fiscal years before 2009, the performance period was three years, and beginning with the fiscal 2009 awards, the performance period is two years. In addition, beginning with the fiscal 2009 awards, there is an additional one-year vesting period after the shares are earned before they are paid out.

Performance shares carry no dividend or voting rights until they are issued after achievement of the performance objectives and the expiration of any additional vesting period.

The Board of Directors may pay earned and vested performance shares in cash, shares of Sanderson Farms common stock, or in a combination of both. Once the performance criteria are established and the awards are granted, the payment of earned shares is not subject to the discretion of the Committee or the Board.

Performance share awards are made in a target amount of shares based on our average return on equity (which we call ROE) and a target amount based on our average return on sales (which we call ROS). The award establishes three possible non-discretionary percentages of those target amounts that the recipient could actually receive, depending on our actual performance measured at the end of the performance period.

As a result, the performance criteria for fiscal 2010 awards were structured as follows:

2010 Performance Share Criteria

Measure	Weight	Threshold (50% Payout)	Target (100% Payout)	Maximum (200% Payout)
ROE	50%	9.7%	11.0%	20.6%
ROS	50%	3.0%	3.5%	4.7%

If our average ROE or average ROS is otherwise between the threshold and maximum percentages, the number of performance shares received will be calculated using a straight-line interpolation. If average ROE or ROS is less than the threshold, the recipient will not be entitled to receive any shares of the applicable target award.

The threshold level represents our median performance over the course of 18 historical two-year periods. The target level represents the 65th percentile of performance during the historical measurement period and the maximum level represents the 83rd percentile. Average ROE is equal to the mathematical average of the net return on average equity for each of the two years in the performance period. Net return on average equity is computed by adding together stockholders' equity at the beginning and end of each fiscal year on our audited financial statements and dividing by two. The resulting number is then divided into net income for the fiscal year as reported on our audited financial statements to reach net return on average equity for the year. Average ROS is equal to the mathematical average of the net return on net sales for the two years in the performance period. Net return on net sales is computed by dividing net income by net sales, as both numbers are reported on our audited financial statements for the year.

Table of Contents

Using the same methodology and 19 two-year periods, the performance criteria for the fiscal 2011 awards were established as follows:

2011 Performance Share Criteria

Measure	Weight	Threshold (50% Payout)	Target (100% Payout)	Maximum (200% Payout)
ROE	50%	9.6%	10.7%	19.8%
ROS	50%	2.8%	3.5%	4.6%

As discussed above, the Committee determined, pursuant to the provisions of the Stock Incentive Plan, to neutralize the effect of our April 2010 equity offering on our average ROE by providing that our total equity for each of the years in the performance period for the fiscal 2010 and 2011 awards will be reduced by \$115.1 million, which was the amount of the net proceeds of the equity offering.

Since the inception of the Stock Incentive Plan, we have granted six cycles of performance shares, one for each of the fiscal years from 2006 through 2011. None of our fiscal year 2006 and 2007 performance shares were earned. Fiscal 2010 was the first year in which any of our performance shares were earned, specifically, those granted for fiscal years 2008 and 2009, which had performance periods ending on October 31, 2010. The following table shows the performance criteria for these awards, our actual performance over the performance period, and the percentage of the awards actually earned. As discussed above, the Committee determined that for purposes of calculating the earned shares, our ending equity for our 2010 fiscal year would be reduced by \$115.1 million, the amount of the net proceeds of our 2010 equity offering.

(1) The Committee determined that the fiscal 2008 awards had been earned, and the earned shares were paid out, on December 13, 2010. The Committee also determined that the fiscal 2009 awards were earned on that date, but those awards are subject to an additional one-year vesting period before they will be paid out.

The following table shows the number of shares actually earned by each Named Executive Officer according to the percentage payouts reflected in the table above.

Position	Performance Period	Total Payout as Percentage of Target	Target Award (#)	Actual Shares Earned (#) ⁽¹⁾	Value on Payout Date ⁽²⁾ (\$)
CEO ⁽³⁾	11/1/2007 - 10/31/2010 11/1/2008 - 10/31/2010				
COO	11/1/2007 - 10/31/2010 11/1/2008 - 10/31/2010	47.09% 200%	11,638 9,800	5,480 19,600	\$ 232,790
CFO	11/1/2007 - 10/31/2010 11/1/2008 - 10/31/2010	47.09% 200%	11,638 9,800	5,480 19,600	\$ 232,790
Secretary	11/1/2007 - 10/31/2010 11/1/2008 - 10/31/2010	47.09% 200%	1,868 1,450	879 2,900	\$ 37,340

(1) This number is obtained by multiplying the percentage of the payout achieved for each of the two components of an award, adding the result and multiplying the resulting percentage by the target amount of shares. For example, for the COO's fiscal 2008 awards: $((94.18\% \times 50\%) + (0\% \times 50\%)) \times 11,638 = 5,480$.

(2) The Committee determined that the fiscal 2008 awards had been earned, and the earned shares were paid out, on December 13, 2010. The Committee also determined that the fiscal 2009 awards were earned on that date, but those awards are subject to an additional one-year vesting period before they will be paid out.

(3) The CEO, at his request, declined to participate in these awards.

Table of Contents**Management Share Purchase Rights**

Under our Management Share Purchase Plan, executive officers and other key employees may defer up to 15% of their annual base salaries and up to 75% of their bonuses earned under the Bonus Award Program for the purchase of restricted stock at the current market price. The Company matches 25% of the employee's contribution to the plan to purchase additional shares. The shares purchased or granted through the plan generally vest on the third anniversary of their acquisition by the participant. Recipients of the shares purchased or granted have all the rights of a stockholder during the restricted period. If the shares fail to vest, any dividends paid on the Company matched shares must be returned to us. In fiscal 2010, the COO was the only Named Executive Officer who participated in the plan. You can find more information about the plan in the narrative accompanying the Grant of Plan-Based Awards table, below.

In-Service and Post-Employment Benefits

As mentioned above, we believe strongly in aligning the interests of management with those of our stockholders. We were among the first in our industry to adopt an Employee Stock Ownership Plan, and each of the Named Executive Officers participates in the plan on the same basis as all of our other employees. Participants are automatically enrolled in the plan after one year of service and become fully vested after six years. We contribute funds to the plan in profitable years, and on October 31, 2010, we contributed \$9.0 million to the plan.

We also sponsor a 401(k) retirement plan that is available to all of our employees after one year of service. The Named Executive Officers participate on the same basis as all other employees. Eligible employees may contribute up to 15% of their salary to the plan on a pre-tax basis through payroll deductions. We began matching employee contributions to the plan in 2000, and will match 100% of an employee's contribution up to 3% of his or her salary, and 50% of such contribution that exceeds 3% but does not exceed 5% of his or her salary. Sanderson Farms common stock is not an investment option under the plan.

We also provide other benefits such as medical, dental and long-term/short-term disability (up to 66 2/3% of salary not exceeding \$270,000 per year in long-term disability payments) coverage, as well as vacation and other paid holidays. Beginning with our 2001 fiscal year, we began paying premiums on term life insurance policies for all employees who participate in our health plan. The death benefit under these policies equals the employee's annual salary, up to a maximum of \$100,000 and a minimum of \$50,000. These benefit programs are comparable to those provided at other large companies. They are designed to provide certain basic quality of life benefits and protections to our employees and at the same time enhance our attractiveness as an employer.

In 2008, the Committee adopted a Supplemental Disability Plan for the CEO. The plan provides that if the CEO becomes disabled as defined in our long term disability plan for all our salaried employees, he will receive a monthly benefit equal to 66 2/3% of his salary beginning one year from the date of disability until the date that he has received five years of payments or his 70th birthday, whichever occurs first, with a minimum of 12 months of payments. This is the same benefit that is provided to all participants in our long term disability plan who are 60 years or older. However, the Committee adopted the supplemental plan because our long term disability plan places an annual dollar limit on the benefit that participants can receive, which would have resulted, if the CEO became disabled at the time the supplemental plan was adopted, in a benefit to him of only 26% of his then current salary. The employment agreements that the Company entered into with the COO and CFO in 2009 made those officers participants in the supplemental plan, and, due to their current ages, the monthly benefit would be paid until those officers' 65th birthday, with a minimum of 12 months of payments.

The Company's portion of the cost of health benefits provided in the 2010 fiscal year for the Named Executive Officers was as follows:

2010 Health Benefits

Officer	Cost to Company of Active Health Benefits
CEO	\$ 7,202
COO	\$ 7,202
CFO	\$ 7,202

Secretary

\$ 7,202

The 401(k) contribution, health plan and life insurance premiums, as well as dividends paid on restricted stock and matching charitable contributions under our charitable gift program are ratified by the Committee in January of the year following the year for which they were made. The Board of Directors approves the annual ESOP contribution, if any, in October of each year.

All employees may elect to continue participating in our health benefit plan following their retirement, but they must pay 100% of the premium cost.

In rare instances, we have continued, because of the applicable circumstances, to pay the base salaries of certain key employees for a short period of time after their deaths. None of those employees served at any time as an executive officer of Sanderson Farms. However, the employment agreements we entered into with the CEO, COO and CFO in 2009 provide that we will continue to make base salary payments to their designated beneficiary or estate for a period of one year from the date of the officer's death.

Perquisites

We provide certain perquisites to our executives, which consist primarily of personal use of our Company aircraft by the CEO and his immediate family. This perquisite provides flexibility to the CEO and increases travel efficiencies, allowing more productive use of executive time, in turn allowing greater focus on Sanderson Farms-related activities. The Company also permits the COO and CFO to use Company aircraft in times of family or other emergencies. In some cases, the Company also permits and pays for the Named Executive Officers' spouses to accompany them on the corporate aircraft. We also reimbursed the CEO for the cost of the preparation of his annual income tax return during 2009, although since then we have discontinued that practice. The amounts of these perquisites are ratified by the Committee in January of the year following payment. More detail on our perquisites may be found in the narrative following the Summary Compensation Table, below.

Compensation Recoupment Policy

In 2010, the Committee adopted a policy requiring the Board or the Committee to seek to recoup incentive-based compensation paid to our directors, executive officers or other personnel whenever required by law or the rules of the Nasdaq Stock Market. In addition, the Board or the Committee, in its discretion, may determine, as a result of a restatement of our financial statements or misconduct that adversely affects us by a member of our management executive committee or a director, to take such actions it deems necessary or appropriate and in our best interests with respect to the executive committee member, or the director in the case of director misconduct, to address the restatement or misconduct. Such actions may include, to the extent permitted by law and our charter and By-Laws:

Requiring the executive or director to repay some or all of any incentive compensation paid, including bonus, performance shares or restricted stock;

Requiring the executive or director to repay gains realized on the exercise of stock options or the sale of vested stock;

Cancelling all or part of the executive's or director's incentive awards;

Adjusting the executive's or director's future cash or non-cash compensation or fees, as applicable;

Terminating the executive or seeking to remove the director; or

Initiating legal action against the executive or director.

The recoupment policy is in addition to the authority under the Stock Incentive Plan to cancel awards or recoup the value of shares in the event of detrimental activity by the participant.

Table of Contents**Stock Ownership Guidelines**

In October 2004, the Committee recommended and the Board of Directors adopted non-binding stock ownership guidelines for our management, in an effort to encourage increased ownership of our Company by key employees and directors. Towers Watson has periodically reviewed the guidelines and advised the Committee that they continue to be appropriate. We believe that these guidelines are reasonable to achieve and will be a long-term benefit to all of our stockholders by helping to align management and stockholder interests. They also encourage officers and directors to hold purchased shares and vested option shares, restricted stock and performance shares, as applicable, for long-term investment. Stock ownership includes stock owned directly, indirectly through the 401(k) plan or Employee Stock Ownership Plan, restricted stock, and earned or unearned performance shares. The guidelines are based on a multiple of base salary at 2005 levels and current director annual retainer fees, and are set forth in the table below. All of our Named Executive Officers and directors have exceeded the guidelines below.

Stock Ownership Guidelines

Position	Average Base Salary/Annual Retainer	Desired Ownership Multiple	Number of Shares (assuming \$45 per share)¹
CEO	\$ 800,000	6	107,000
COO, CFO	\$ 300,000	4	27,000
Secretary	\$ 170,000	3	11,000
Director	\$ 25,000	8	4,000

¹ In setting ownership guidelines in 2004, the committee used \$45 per share, which was the share price at the time. The numbers were rounded to the nearest one thousand shares.

It is Sanderson Farms' policy that our directors and all employees, including the Named Executive Officers, not trade their Sanderson Farms stock, other than shares underlying options, on a short-term basis (i.e., shares must be held for a minimum of six months). Additionally, employees and directors may not purchase Sanderson Farms stock on margin, nor may they buy or sell put or call options linked to Sanderson Farms stock.

Tax and Accounting Considerations

For income tax purposes, we may not deduct any portion of compensation that is in excess of \$1 million paid in a taxable year to the CEO, CFO, COO and Secretary, unless that compensation qualifies as performance-based compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended (referred to as the Code). Our Bonus Award Program and certain awards we may make under our Stock Incentive Plan, like the performance shares, are based on the Company meeting specified performance criteria. However, Section 162(m) of the Code requires that the performance criteria and material terms of these plans be approved by our stockholders every five years and comply with certain other requirements to meet the definition of performance-based and thus make the awards deductible. While the Committee generally strives to structure employee compensation in order to preserve maximum deductibility, it may from time to time make awards that do not meet the Code's definition of performance-based compensation. For example, we have not sought to qualify our Bonus Award Program under Section 162(m) because Section 162(m) would require us to remove certain discretionary features of the program that we believe are critical for management retention, and therefore are in the best interest of our stockholders.

In the first quarter of our 2006 fiscal year, we adopted Revised Statement of Financial Accounting Standards No. 123, Share-Based Payment (FAS 123(R)). FAS 123(R) requires all share-based payments to employees, including grants of employee stock options, restricted stock and performance shares, to be recognized in our income statement based on their fair values. Before the adoption of FAS 123(R), we accounted for share-based payments to employees using an intrinsic value method and, therefore, we generally recognized no compensation cost for employee stock options. Based upon the provisions of FAS 123(R), we are required to accrue stock-based compensation expense as it is earned. This change in accounting rules has influenced the Committee to make restricted stock and performance

share awards in lieu of option awards. Other factors that have made restricted stock and performance share awards more attractive than option awards include their generally smaller dilutive effect and the performance incentive they provide even in times when our stock price is depressed.

Evaluation of Executive Performance

In evaluating the performance of the individual Named Executive Officers before setting or adjusting compensation, the Committee and the Board of Directors do not rely solely on predetermined formulas. Rather, they focus on those officers' individual objectives. The Committee evaluates the CEO's performance in consultation with the Board, and it evaluates the other Named Executive Officers with the input of the CEO.

In 2009, the Committee and the Board based their decisions for fiscal 2010 compensation on the assessment of the Company's fiscal 2009 performance and the Named Executive Officers' objectives and strategies, as follows:

We successfully ramped up production at our Waco, Texas facility to 100% capacity in the third quarter of fiscal 2009.

Although market conditions continued to be difficult, including improved, but still historically high grain costs, a continued oversupply of fresh chicken during much of the year, a weak national economy and consumer demand worse than even 2008 levels, we earned \$3.99 per fully diluted share for fiscal 2009, and had the highest quarterly earnings in our Company's history of \$2.09 per fully diluted share for our third fiscal quarter.

After detailed study and analysis, management recommended and the Board approved the resumption of the development of our new poultry complex in Kinston, North Carolina. As a result of the strategic delay that management recommended in June 2008, the cost of the project was reduced and resulted in \$5.1 million of savings to the Company. The new plant will add 1.25 million head of chicken to our total processing volume and continues our plan of strategic growth.

We continued to outperform our peers, finishing in the top third of our industry as measured by Agristats, due primarily to our efficient, low-cost operations and the additional processing volume we gained from our new plants in Waco and Moultrie, Georgia.

Our CEO again demonstrated his exceptional leadership, highlighted by his vision for long term growth to build value for our stockholders. He continued to impress the investment community with his skill, including at our first ever investor conference held in October 2009.

Our COO led our successful effort to ramp up operations at our Waco plant to profitable levels more rapidly than our prior new plant start-ups, especially in light of hot weather conditions in Texas that typically result in lower bird weights.

Our CFO did an outstanding job of managing our balance sheet and continuing our conservative approach and favorable debt to capital ratio. In addition to his role overseeing our accounting, financial reporting, audit functions, and financial strategy as well as his participation in our grain purchasing strategy and capital raising, he heads or has a key role in areas that are not typical for chief financial officers of public companies, such as investor relations, legal affairs and risk management.

The CEO was pleased with the performance of the other senior officers and the Company's performance overall.

The Committee took note of the CEO's decision to be considered for long-term incentive awards, in contrast to prior years when he declined such awards.

The Committee also took into account Towers Watson's recommendation that no extraordinary market adjustments for the Named Executive Officers' compensation were needed for 2010.

In evaluating management's outstanding performance during fiscal 2009, the Committee determined that it would be appropriate and in the best interest of our stockholders to make a one-time, discretionary grant of restricted stock to

participants in the long-term incentive program. The consensus of the Committee and its advisors was that the Company performed remarkably well under extraordinary circumstances in the poultry and grain markets and the national economy. Moreover, management was able to achieve that performance even given the inefficiencies that naturally resulted from the opening of our new Waco and Moultrie complexes and the start of construction of our new Kinston, North Carolina complex.

Table of Contents

In light of these factors, in December 2009, the Committee approved a one-time grant of restricted stock for our management in an amount equal to 10% of the average base salary for an individual's management level, divided by an assumed stock price of \$38 per share, including for our Named Executive Officers as follows:

Discretionary Restricted Stock Grant

Position	Number of Shares of Restricted Stock	Grant Value of Restricted Stock Awards
CEO	3,100	\$ 130,014
COO	1,400	\$ 58,716
CFO	1,400	\$ 58,716
Secretary	530	\$ 22,228

Fifty percent of the shares granted vested immediately on the grant date. The remaining 50% vested on the first anniversary of the grant, so that the award was fully vested on December 21, 2010.

In 2010, the Committee considered the following factors in setting fiscal 2011 compensation:

Despite a weak national economy, soft demand for fresh chicken in food service markets, challenges in the export markets and relatively high grain prices compared with historical averages, we earned \$6.07 per share for fiscal year 2010, the highest annual earnings per share in our Company's history. While the Company has earned higher margins in the past, our record earnings during fiscal 2010 were due in large part to the additional pounds of poultry we processed as a result of our growth strategy and solid execution in our operations.

We continued to perform near the top of the industry in terms of operating profit per head of chickens processed because of increased processing volume and our low-cost, efficient operations, and finished in the top 20% of our industry as measured by Agristats.

We successfully completed an offering of our common stock in April 2010, our first public offering since our initial public offering in 1987. Our top three officers, particularly the CEO, were instrumental to the success of the offering.

The Committee was impressed with the CEO's leadership during 2010 and his vision for the long-term strategy of the Company.

Our CEO was pleased with the performance of the other Named Executive Officers and recommended that they receive above average pay, given the Company's outstanding performance in 2010.

Our COO continues to assume more responsibility for all of our operations, and successfully dealt with operational challenges such as extreme heat, which negatively impacts live operations and bird weights, which in turn results in fewer pounds processed and sold, and marketing challenges caused by interruptions in our export markets.

In addition to overseeing our financial, accounting, auditing, legal and administrative functions, our CFO continued to play a key role in many other aspects of our operations that are not typical for the CFO of a public company, as discussed above.

The Committee considered management's success during 2010 in completing on time and within budget the construction of our new poultry complex in Kinston, North Carolina, scheduled to begin operations in

January 2011.

The Committee took into account Towers Watson's recommendation that no extraordinary market adjustments for the Named Executive Officers' compensation were needed for 2011.

The Committee considered early indications that market conditions in fiscal 2011 may be challenging, due mainly to increasing market prices for feed grains, our largest input costs.

Because of a limit in our Stock Incentive Plan on the number of shares that may be granted as restricted stock, the Committee determined to consider an award of restricted stock to the CEO at its meeting in February 2011, following a vote by our stockholders at the 2011 annual meeting on whether to increase the restricted share limit in the plan, among other changes.

Table of Contents

Based on the assessment detailed above, the Committee approved the following compensation for the Named Executive Officers for fiscal 2011.

Fiscal 2011 Compensation Actions

Position	Salary	Increase	Number		Target Number of Performance Shares	Grant Value of Target Performance
			Percent	of Shares of Restricted Stock		
CEO	\$1,298,076	7%			35,750	\$1,500,785
COO	\$ 633,336	5%	8,500		8,500	\$ 356,830
CFO	\$ 542,700	5%	8,500		8,500	\$ 356,830
Secretary	\$ 256,704	5%	1,000		1,000	\$ 41,980

In addition to these elements of 2011 compensation, the Committee determined to increase the maximum bonus opportunity for the COO and the CFO under our Bonus Award Program beginning with the 2011 fiscal year from 100% to 120% of salary.

In December 2010, it was determined that due to an administrative error, we had exceeded the 562,500 share limit in our Stock Incentive Plan on the number of shares that may be granted as restricted stock, beginning with our November 1, 2009 grant. Therefore, the Committee determined on December 13, 2010 to rescind all of the restricted shares granted to participants on November 1, 2010.

In addition to the shares granted on November 1, 2010, we granted 26,461 restricted shares in excess of the plan limit, net of restricted shares that were either forfeited or withheld at the election of participants to pay tax obligations.

To address these 26,461 shares, the COO and CFO agreed as of December 13, 2010 that certain of their outstanding, unvested awards would be made contingent upon our stockholders approving the increase to the restricted stock limit in the Stock Incentive Plan at the 2011 annual meeting, as follows:

Officer	Shares Granted on December 21, 2009	Shares Granted on November 1, 2009	Shares Granted on January 29, 2009
COO	700	8,500	4,031
CFO	700	8,500	4,031

They also agreed they would not vote the shares listed in the table above at the annual meeting. If the stockholders do not approve the increased limit, the COO and CFO will return those shares to us and any dividends that have been paid with respect to them.

We expect that the Committee will re-grant the restricted shares it had originally intended to grant to the other plan participants on November 1, 2010, including the COO, CFO and Secretary, if the increased limit is approved.

Elements of compensation paid for the 2010 fiscal year are set forth in the Summary Compensation Table, below.

Table of Contents**Director Compensation**

The Nominating and Governance Committee is charged with recommending all cash and non-cash compensation of our non-employee directors. Towers Watson reviews and reassesses our director pay every other year and makes recommendations to the Nominating and Governance Committee. In fiscal 2010, our non-employee directors received cash fees for their service on the Board and its committees as set forth below:

Director Cash Fees

	Amount
Annual Stipend	\$ 25,000
Each Board of Directors meeting attended in person	\$ 7,500
Each telephonic Board of Directors or Board committee meeting attended	\$ 1,000 ⁽¹⁾
Each committee meeting attended in person, not in conjunction with a Board meeting	\$ 6,000
Received annually by Audit Committee Chair	\$10,000 annually
Received annually by other committee chairs	\$ 6,000 annually
Received annually by the Lead Independent Director	\$15,000 annually

¹ We also pay this fee to directors who join telephonic committee meetings by invitation, even though they are not committee members. If a telephonic committee meeting is held in conjunction with a telephonic full Board meeting, only one \$1,000 fee is paid for directors who participate in both calls.

Non-employee directors receive an annual grant of 2,300 shares of restricted stock, or 6,900 shares over the course of their three-year term. The annual grants have staggered one, two or three-year vesting periods, so that upon the expiration of a director's three-year term, he or she has 6,900 vested shares. These awards combined with the cash fees achieve an approximately 60-40 equity and cash pay mix.

In October 2009, the Nominating and Governance Committee recommended and the Board approved an annual allowance of up to \$5,000 for outside directors to attend continuing education seminars related to corporate board of directors service and other topics relevant to the Company. The chairman of our Nominating and Governance Committee must pre-approve the particular seminar requested by a director for reimbursement. In October 2010, the Nominating and Governance Committee recommended and the Board approved a \$5,000 increase in the allowance, so that the total annual allowance is now \$10,000.

Non-employee directors may participate in the Management Share Purchase Plan by deferring up to 100% of their director fees toward the purchase of restricted shares of Sanderson Farms common stock. The Company matches 25% of the director's contribution to purchase additional restricted shares. Restricted shares held through the plan generally vest on the third anniversary of their acquisition by the director, as long as, with respect to the matching portion, he or she has served on the Board continuously through that date.

Non-employee directors may also participate in the Company's medical plan, but they must pay 100% of the premium cost with after-tax dollars.

More information about the actual compensation paid to non-employee directors is set forth in the Director Compensation table, below.

¹ The amounts for Mr. Sanderson include the aggregate incremental cost to the Company of his personal use, or use by his immediate family, of Company and charter aircraft of \$58,607 for fiscal 2008, \$42,123 for fiscal 2009 and \$48,580 for 2010. These amounts were calculated by taking into account the direct variable operating cost of a personal trip on an hourly basis, including all costs that may vary by the hours flown, but excluding fixed costs incurred for the overall ownership and staffing of the aircraft. Variable costs include fuel and oil; travel, lodging and other expenses for the crew; the prorated amount of repairs and maintenance; catering; landing fees and permits; insurance required for a particular flight; crew overtime; telecommunication expenses; and the amount of any disallowed tax deductions associated with the personal use.

The amounts shown in this column also include the value of other travel expenses incurred by the spouses of Messrs. Sanderson and Butts while accompanying them on Company business of \$991 and \$2,797, respectively, for fiscal 2008, \$0 and \$1,820, respectively, for fiscal 2009 and \$47 and \$1,003, respectively, for fiscal 2010. The column also includes \$860 for the preparation of Mr. Sanderson's income tax return for fiscal 2009 and \$154 for a medical physical for Mr. Butts in fiscal 2010.

² The Board of Directors has authorized personal use of Company aircraft by the CEO and his family, and prior to 2009, agreed to reimburse him for taxes owed as a result of such use. The Company also paid, prior to 2009, certain payroll related taxes when due related to other officers' personal use of the aircraft in the case of family emergencies, but did not reimburse them for any income tax due as a result of such use. These amounts represent those reimbursements. Under IRS regulations, income may be earned and taxes owed by an officer even if the Company did not incur any aggregate incremental cost as a result of the officer's personal travel.

Participants under the plan purchase restricted shares of Company stock on the last business day of each calendar quarter with deferred salary, or on our annual bonus payment date with deferred bonus amounts, as described in the CD&A section, above. We match 25% of the participant's contribution in additional restricted shares on each purchase date. In fiscal 2010, Mr. Butts purchased 143 shares under the plan that are not reflected in the table above that had an average grant date fair value of \$42.16 per share.

Discussion of Summary Compensation and Grants of Plan-Based Awards Table

Performance shares granted for the 2010 fiscal year are subject to a two-year performance period and an additional one-year holding period. The number of shares actually paid out depends upon our achieving certain prescribed levels of return on equity and return on sales, as described above in the CD&A section. The Compensation Committee determined to neutralize the effect of our April 2010 common stock offering on our average return on equity by reducing our total equity for each of the years in the performance period by \$115.1 million, the net proceeds of the offering.

Shares of restricted stock granted under our restricted stock program vest generally on the fourth anniversary of the award, as long as the holder remains continuously employed by us during the restricted period. Fifty percent of the one-time, discretionary grant of restricted shares the Committee awarded on December 21, 2009 vested on the grant date, and the remaining 50% vested on December 21, 2010. See the CD&A section, above, for a discussion of certain agreements that the COO and CFO entered into with respect to their restricted stock granted on December 21, 2009 and November 1, 2009 as a result of our issuance of restricted shares in excess of a limit in our Stock Incentive Plan.

Shares of restricted stock granted as matching contributions under our Management Share Purchase Plan are subject to a three-year vesting period starting on the date they are acquired by the participant. The participant must remain continuously employed by us during the vesting period.

In 2009, we entered into employment agreements with the CEO, the COO and the CFO. The term of each agreement began September 15, 2009 and ends when the officer's employment terminates under the provisions of the agreement. Each agreement provides for the officer's fiscal 2009 salary and bonus to be paid in accordance with the levels and bonus program that we previously disclosed in our definitive proxy statement for our 2009 annual meeting of stockholders. The officers' compensation is reassessed annually.

The agreements provide for a severance payment to be paid to the officers if:

before a change in control of our Company, the officers are terminated without cause, except in the case of poor performance;

at or after a change in control, the officers are terminated without cause or

the officers resign for good reason.

Cause means, among other things, conviction of certain felonies, willful misconduct by the officer, failure or refusal by the officer to comply with our policies or a material breach by the officer of the employment agreement.

Good reason means, among other things, a material breach of the agreement by us, a reduction of the officer's base salary or bonus that is not part of a reduction program affecting all senior executives generally, the relocation of the officer's principal place of employment by more than 40 miles, or after a change in control, the alteration of the officer's position that results in a material diminution of his position.

The amount of the severance payments will be, in the case of Mr. Sanderson, three times, and in the case of Messrs. Butts and Cockrell, two times, the following amounts:

the officer's annual base salary in effect at the time of his termination, plus

fifty percent of the maximum bonus available to the executive under the Company's bonus program in effect for the year of termination.

In addition, the agreement provides, in the case of the officer's death, for the continuation of his annual salary payments for one year from the date of his death. The agreements for Messrs. Butts and Cockrell also designate them as participants in our Supplemental Disability Plan.

The agreements prohibit the officers from disclosing confidential information about us during and after their employment, and prohibit the officers from engaging in certain competitive activity during their employment and for two years after the termination of their employment for any reason other than poor performance.

Table of Contents

See the Potential Payments Upon Termination or Change-in-Control section, below, for a discussion of the impact of a change in control of our Company and certain other events, including competitive activity, on an officer's unearned performance shares or restricted stock. Dividends are paid at rates applicable to all our stockholders on performance shares once they are paid out. Dividends (at normal rates) are paid on shares of restricted stock as soon as the shares are issued to the officer.

Amounts that could have been earned for fiscal 2010 under our Bonus Award Program were determined by reference to our earnings per share and operational performance versus our peers as described in the CD&A section, above. Unless severance is payable under the provisions of the employment agreements described above, a participant must have been employed in a designated position at Sanderson Farms for nine months before the end of the fiscal year, and must have been employed on October 31 of the applicable fiscal year, to receive a bonus. However, if a Bonus Award Program participant dies, becomes disabled or retires before the end of the fiscal year, and if the participant had been employed at Sanderson Farms in a designated position for at least nine months, he or she will still receive a bonus award for the fiscal year (assuming the performance criteria are met). See the Potential Payments Upon Termination or Change-in-Control section, below, for a discussion of the impact of certain events on a participant's annual bonus award.

For fiscal 2010, salary accounted for the following percentages of each officer's total compensation:

Name	Salary as a Percentage of Total Compensation
Mr. Sanderson	33%
Mr. Butts	40%
Mr. Cockrell	38%
Mr. Grimes	58%

Butts and Cockrell own 1,264 and 846 restricted shares, respectively, that they purchased under the Management Share Purchase Plan with deferred salary and/or bonus amounts, valued at \$53,063 and \$35,515, respectively, as of October 31, 2010.

At the time the Board of Directors adopted the Stock Incentive Plan in February 2005, the Company had not made any awards under the Stock Option Plan, or any other long-term incentive or equity-based awards, for almost three years. Therefore, in March 2005 on the recommendation of the Committee, the Board made extraordinary grants of restricted stock to the Named Executive Officers to bring their long-term incentive levels in line with market standards. The amounts granted were based on competitive annual long-term values as seen in published surveys, and adjusted to reflect a two-year period. This special grant vests, in general, on March 3, 2015 (the tenth anniversary of the award) as long as the holder remains continuously employed by us during the restricted period. Subsequent grants of restricted stock including those made in November 2007 for the 2008 fiscal year, in January 2009 for the 2009 fiscal year, and in November 2009 for the 2010 fiscal year vest generally on the fourth anniversary of the award, as long as the holder remains continuously employed by us during the restricted period.

The restricted shares awarded in the one-time, discretionary grant on December 21, 2009 vested 50% on the date of grant, and the remaining 50% vested on December 21, 2010.

See the CD&A section, above, for a discussion of certain agreements that the COO and CFO entered into with respect to their restricted stock granted on December 21, 2009, November 1, 2009 and January 29, 2009 as a result of our issuance of restricted shares in excess of a limit in our Stock Incentive Plan.

The performance periods for performance shares end on the dates shown below.

Grant Date	Performance Period Ends
11/01/2007	10/31/2010
01/29/2009	10/31/2010*
11/01/2009	10/31/2011*

- * These shares are subject to an additional one-year vesting period after the expiration of the performance period before they are paid out.

The Compensation Committee formally determined on December 13, 2010 that the performance shares granted on November 1, 2007 were earned at near the target level for only the return on equity component of those awards, using a straight-line interpolation. The Committee also formally determined on December 13, 2010 that the performance shares granted on January 29, 2009 had been earned at the maximum level for both the return on equity and return on sales components of those awards. The January 29, 2009 awards are subject to an additional one-year time vesting period. However, because the Committee did not make those determinations or pay out any earned shares until after the fiscal year end, both grants of performance shares are reflected at the earned level as unearned shares still subject to vesting in the table above. For more information about how the earned shares were calculated, see the CD&A Section above. In accordance with Instruction 3 to Item 402(f)(2) of SEC Regulation S-K, the performance shares granted on November 1, 2009 are shown at the maximum amount based on our actual performance in fiscal 2010.

- ³ Values of equity awards are based on our closing stock price on the Nasdaq Stock Market of \$41.98 on October 29, 2010.

Restricted shares held in the Management Share Purchase Plan are purchased by the participant on the last business day of each calendar quarter with deferred salary. A participant may also defer a portion of his or her bonus to purchase restricted shares through the plan on the bonus payment date. We match 25% of the participant's contribution in additional restricted shares that we issue simultaneously with the purchased shares. Each share of restricted stock held in the plan vests fully on the third anniversary of its acquisition by the participant as long as the participant remains continuously employed by us, subject to certain exceptions that are described below under Potential Payments Upon Termination or Change-in-Control.

Potential Payments Upon Termination or Change-in-Control

In fiscal 2009, we entered into employment agreements with the CEO, COO and CFO. We have no other employment agreements with any other employees of our Company. However, our annual cash bonus and Stock Incentive Plan awards provide for accelerated payments in the circumstances described below, and we have company policies that provide for minimal severance payments for all our salaried employees generally. Except as described below, the Named Executive Officers receive no payments upon the termination of their employment or a change in control of Sanderson Farms that are not received by all salaried employees generally.

Employment Agreements

The term of each of our agreements with the CEO, COO and CFO began on September 15, 2009 and ends when the officer's employment terminates under the provisions of the agreement. Each agreement provides for the officer's fiscal 2009 salary and bonus to be paid in accordance with the levels and bonus program that we previously disclosed in our definitive proxy statement for our 2009 annual meeting of stockholders. The officers' compensation will be reassessed annually.

The agreements provide for a lump sum severance payment to be paid to the officers if:

before a change in control of our Company, the officers are terminated without cause, except in the case of poor performance;

at or after a change in control, the officers are terminated without cause or

the officers resign for good reason.

41

Table of Contents

Cause means, among other things, conviction of certain felonies, willful misconduct by the officer, failure or refusal by the officer to comply with our policies or a material breach by the officer of the employment agreement.

Good reason means, among other things, a material breach of the agreement by us, a reduction of the officer's base salary or bonus that is not part of a reduction program affecting all senior executives generally, the relocation of the officer's principal place of employment by more than 40 miles, or after a change in control, the alteration of the officer's position that results in a material diminution of his position.

The amount of the severance payments will be, in the case of Mr. Sanderson, three times, and in the case of Messrs. Butts and Cockrell, two times, the following amounts:

the officer's annual base salary in effect at the time of his termination, plus

fifty percent of the maximum bonus available to the executive under the Company's bonus program in effect for the year of termination.

If any severance payments are due, the officer is also entitled to the continuation of medical benefits that the officer would otherwise be eligible to receive as an active employee of the Company for 24 months or, if earlier, until such time as the officer becomes eligible for substantially similar benefits from a subsequent employer.

In addition, the agreement provides, in the case of the officer's death, for the continuation of his annual salary payments for one year from the date of his death according to the Company's regular payroll schedule.

The agreements prohibit the officers from disclosing confidential information about us during and after their employment, prohibit the officers from engaging in certain competitive activity with us during their employment and for two years after the termination of their employment for any reason other than poor performance and contain a mutual non-disparagement clause. The officers are also prohibited from soliciting the Company's customers and employees during their employment and for the two years after the termination of their employment for any reason.

If the officers breach the foregoing provisions, the agreements provide that they must return any portion of the severance payments we have already paid them and their entitlement to continued medical benefits ceases. We are also entitled to pursue other equitable and legal remedies such as restraining orders or damages.

Annual Cash Bonus Awards

If a Bonus Award Program participant dies, becomes disabled or retires before the end of the fiscal year, and if the participant had been employed in a designated position at Sanderson Farms for at least nine months, he or she will still receive a cash bonus award for the fiscal year (assuming the performance criteria are met). The participant's base salary during the portion of the fiscal year in which he or she was employed in the designated position is used to calculate the amount of the bonus award.

Restricted Stock

Restricted stock with a 10-year vesting period

If a change in control of our Company occurs, all unvested shares of restricted stock become fully vested. In August 2009, the Committee amended these awards to provide that they vest fully if a holder of restricted stock terminates employment with Sanderson Farms because of his death, disability or retirement, regardless of when those events may occur. Previously, vesting of the awards under those circumstances was only permitted when death, disability or retirement occurred after the fifth anniversary of the grant.

Restricted stock with a four-year vesting period

If a change in control of our Company occurs before the end of the restriction period, all shares of restricted stock become fully vested. In August 2009, the Committee amended or ratified all the then outstanding four-year restricted stock awards to provide that they also vest fully in the event of the holder's death, disability or retirement. For restricted stock granted after August 2009, if a holder dies, becomes disabled or retires during the restricted period, a pro rata percentage of the shares will immediately vest based on the number of years of the restricted period that have passed before the triggering event occurred, and the unvested portion is forfeited.

Table of Contents**Discretionary Restricted Stock Grant**

The agreements for restricted stock granted pursuant to the Committee's special, discretionary award in December 2009 provided that those awards would have vested fully in the event of the holder's death, disability or retirement or upon a change in control of our Company.

Shares Held in the Management Stock Purchase Plan

If an employee dies, retires or becomes disabled, or if there is a change in control of Sanderson Farms, in each case before the end of the restriction period, all unvested shares of restricted stock held through the plan become fully vested. If an employee's employment terminates for any other reason, then any unvested shares we granted to the employee through matching contributions are forfeited and dividends paid on those shares must be returned, and we have the right to repurchase all shares that the employee purchased through the plan with deferred salary or bonus at the price the employee paid for them, less the amount of dividends paid. If we do not exercise that right, the purchased shares will vest on the third anniversary of their acquisition.

Performance Shares

If a holder of unpaid performance shares dies, retires, or becomes disabled, or if there is a change in control of Sanderson Farms, the holder is entitled to receive a pro rata portion of the number of performance shares he would have been entitled to in proportion to the number of months he was employed during the performance period, assuming the performance criteria are met.

If the Board of Directors determines that a holder of restricted stock or performance shares has engaged in certain competitive activity against us while employed by us or during the two years after the holder's voluntary termination or termination by us for cause, then he or she forfeits all unvested shares of restricted stock and all unpaid performance shares. If restricted shares have already vested or performance shares have been issued, the holder must repay us the fair market value of the shares on their grant or issue date, respectively. In the case of the Management Share Purchase Plan, unvested shares of matching stock are forfeited and dividends paid on those shares must be returned, and we have the right to repurchase all shares that the employee purchased through the plan with deferred salary or bonus at the price the employee paid for them, less the amount of dividends paid. If Company matching shares have already vested, the holder must repay us the fair market value of the shares on the date they were issued and any dividends paid.

Company Severance Policy

We pay severance to all our salaried employees generally upon their termination of employment, except in cases of retirement, death or disability. We pay up to two weeks of severance to employees who resign after at least one year of service. If an employee is dismissed without cause, we pay two weeks of severance, plus one additional week for every year of the employee's service, up to three months.

The following tables show the payments that the Named Executive Officers would be entitled to in the event of (a) a change in control of Sanderson Farms, (b) termination without cause or for good reason, (c) retirement, (d) disability and (e) death, in each case assuming such event occurred on October 29, 2010, the last business day of our 2010 fiscal year, and based on the closing market price of our common stock on that day. The amounts shown do not include payments that would be payable to all salaried employees generally. For our fiscal year 2008 and 2009 performance shares, we have based the value of the shares on the actual number of those shares the Compensation Committee determined to be earned on December 13, 2010. For our fiscal year 2010 performance shares, we based the values on management's current belief that it is not probable that we will achieve the minimum level of ROE and ROS for that grant, such that none of those shares would be earned.

Compensation and Risk Management

In 2010, the Compensation Committee engaged Towers Watson to formally assess the level of risk arising from our compensation policies and practices. The Committee believes that Towers Watson was best equipped to perform this assessment because of the depth of their understanding and experience with the current executive compensation landscape for public companies.

Towers Watson reviewed our annual Bonus Award Program and Stock Incentive Plan and the following five factors related to our compensation process and design:

The extent of the oversight of our pay plans by top management and the Compensation Committee.

Whether the roles of management and the Committee in overseeing the alignment of our pay plans with our business goals and risk tolerance are clearly defined.

The extent of the balance in our plans between fixed and variable pay, cash and equity, short and long-term incentives, and overall company versus individual performance goals.

The presence of red flags in our plan design, such as steep incentive curves, unreasonable goals or thresholds, uncapped payouts, awards based solely on formulas, misalignment in the timing of payouts or undue focus on any one element of pay mix; compared with risk-mitigating features, such as exercise of the Committee's discretion, clawback policies and stock ownership requirements.

Whether performance criteria reflect risk and the use of capital, quality and sustainability of results and employee influence on meeting performance goals.

Based on this framework, Towers Watson concluded that our pay plans represent a low level of risk to our Company. In particular, they noted the following:

They consider that the Bonus Award Program has appropriate performance metrics and reasonable levels of potential payouts.

Awards under the bonus plan are not paid out until our independent audit is complete, thus providing a safeguard from manipulation.

The balance in our long-term incentive plan between performance-based pay and time-based restricted stock mitigates the potential for undue risk-taking, and the use of earnings per share and return on equity metrics focus the plan on profitable growth and efficient use of capital.

Our stock ownership guidelines are also a risk-mitigating factor.

Change in control benefits for our three senior officers assist with executive retention and mitigate the risk of a conflict of interest in the context of a potential acquisition of our Company.

The Board and the Committee regularly review and address our financial performance.

Based on Towers Watson's assessment and the Committee's independent analysis, the Committee has concluded that there are no risks arising from our compensation policies and practices that are reasonably likely to have a material adverse effect on us. In reaching this conclusion, the Committee has also considered the fact that our business is primarily driven by the performance of the commodities markets, specifically the markets for fresh chicken, corn and soybean meal. These markets are external to our business and therefore the Committee does not believe that our performance-based compensation promotes excessive or inappropriate risk-taking by our management. Likewise, our performance-based compensation programs do not encourage excessive risk-taking by individual employees or business units because the criteria underlying the plans are uniform for all participants, regardless of their seniority or division in our Company.

In addition, in 2010 the Board adopted a policy under which it has the discretion to, among other things, recoup the compensation of our senior management if we have a financial restatement or if the manager in question has engaged in misconduct adversely affecting the Company. This should further help to mitigate any risk associated with our compensation programs.

PROPOSAL NO. 2
SANDERSON FARMS, INC. AND AFFILIATES AMENDED AND RESTATED
STOCK INCENTIVE PLAN

The Compensation Committee is responsible for assessing our equity compensation programs and policies. As more specifically discussed in the Compensation Discussion and Analysis section of this Proxy Statement, the Committee believes that equity-based awards align our executives' interests with long-term stockholder interests, motivate and reward executives for achieving long-term results and help us retain key executives in a competitive market.

As part of its on-going review of our compensation programs, the Committee reviewed our Stock Incentive Plan in 2010. The plan was originally approved by our stockholders on February 17, 2005. Following its review, the Committee recommended that the full Board submit an amended and restated plan for consideration and approval by our stockholders at the 2011 annual meeting to make several changes to the current plan that it believes are consistent with the long-term interests of our stockholders. The primary changes are to increase the shares that may be issued under the plan by 1,250,000 shares, bringing the total shares issuable under the plan from 2,250,000 to 3,500,000 shares, and to increase the number of shares that may be granted in the form of restricted stock from 562,500 shares to 1,562,500 shares (unless based on the achievement of performance measures).

The Board adopted the Committee's recommendation on October 21, 2010. If the amended and restated plan is approved by our stockholders, the Committee expects to formally approve the amended and restated plan and recommend that the Board adopt the amended and restated plan at their respective meetings on February 17, 2011.

As discussed in the Compensation Discussion and Analysis section of this Proxy Statement, the Committee awarded restricted stock to officers and key employees on November 1, 2010. In December 2010, it was determined that due to an administrative error, we had exceeded the 562,500 share limit in our Stock Incentive Plan on the number of shares that may be granted as restricted stock, beginning with our November 1, 2009 grant. Therefore, the Committee determined on December 13, 2010 to rescind all of the restricted shares granted to participants on November 1, 2010.

In addition to the shares granted on November 1, 2010, we granted 26,461 restricted shares in excess of the plan limit, net of restricted shares that were either forfeited or withheld at the election of participants to pay tax obligations.

To address these 26,461 shares, the COO and CFO agreed as of December 13, 2010 that certain of their outstanding, unvested awards would be made contingent upon our stockholders approving the increase to the restricted stock limit in the Stock Incentive Plan at the 2011 annual meeting, as follows:

Officer	Shares Granted on December 21, 2009	Shares Granted on November 1, 2009	Shares Granted on January 29, 2009
COO	700	8,500	4,031
CFO	700	8,500	4,031

They also agreed they would not vote the 26,462 shares listed in the table above at the annual meeting. If the stockholders do not approve the increased limit, the COO and CFO will return those shares to us and any dividends that have been paid with respect to them. The agreements by the COO and the CFO, combined with the rescission of the November 1, 2010 restricted stock grant, also had the effect of assuring that we have sufficient plan shares to pay outstanding, unearned and unpaid performance shares at the maximum level, should they become payable at that level.

The Committee did not award restricted stock to the CEO on November 1, 2010, because it was clear that an award to the CEO would have exceeded the 562,500 share limit for restricted stock grants under the existing plan. If the stockholders approve the amended and restated plan, the Committee will consider a restricted stock award for fiscal 2011 for the CEO at its February 2011 meeting. At present, the Committee expects this award would be in the amount of 35,750 shares. In addition, we expect that the Committee will re-grant the approximately 87,000 restricted shares it had originally intended to grant to the other plan participants on November 1, 2010, including the COO, CFO and

Secretary, if the increased limit is approved.

Table of Contents

If the stockholders do not approve the amended and restated plan, then there will only be approximately 19,675 shares remaining for issuance under the existing plan. This number reflects the return to the plan of the 26,462 restricted shares that COO and CFO will be required to repay to us if the amended and restated plan is not adopted. It also assumes that all unearned and unpaid performance shares will be paid at the maximum level. Once the total share limit is reached, we will not be able to make further awards of shares under the existing plan unless prior awards or previously issued shares expire or are forfeited, cancelled, repurchased or prior awards are settled without the issuance of shares.

A summary of the material features of the amended and restated plan is below.

Overview

The principal amendments to the plan are:

To increase the number of shares that may be issued under the plan from 2,250,000 to 3,500,000;

To increase the number of shares that may be granted in the form of restricted stock from 562,500 to 1,562,500;

To modify the definition of "change in control" under the plan to provide that a change in control occurs upon the consummation of a business combination transaction, rather than upon stockholder approval of such a transaction;

To revise and clarify the manner in which shares used under the plan and shares remaining for issuance are counted. For example, currently, we add shares we have withheld to satisfy a participant's tax withholding obligation with respect to restricted stock, Management Share Purchase Plan ("MSPP") shares and performance shares to the number of shares available for future grants under the plan, but under the amended plan, those shares will be counted as used;

To delete a provision of the plan which permitted the grant of a tax benefit right entitling the holder to a cash payment to satisfy state and federal tax due upon the vesting of a plan award;

To clarify that stock appreciation rights granted under the plan cannot be repriced without stockholder approval. The plan already included a prohibition on decreasing the exercise price of an option without stockholder approval; and

To expand and clarify the performance criteria the attainment of which may determine the degree of payout or vesting of certain awards that are intended to qualify under the performance-based compensation exception to the deductibility limitations of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code").

Authorized Shares

As of January 5, 2011, 19,675 shares remained available for issuance under future plan awards, as discussed in more detail above. Awards granted under the plan as of January 5, 2011 consisted mainly of restricted stock, whether granted by the Company or acquired by participants under the MSPP provisions of the Stock Incentive Plan, and performance shares. We also had approximately 7,501 options outstanding under the plan at that date, which were issued under our old Stock Option Plan that we originally adopted in 1993. These options have a weighted average exercise price of \$12.37 and a weighted average remaining contractual term of 1.75 years. However, when we adopted the Stock Incentive Plan in 2005, the Board determined not to make any further awards under the old Stock Option Plan. We have not issued any options or stock appreciation rights under the Stock Incentive Plan since its adoption in 2005 and do not expect to issue those or any other types of awards under the plan, other than restricted stock or performance shares, in the foreseeable future.

The number of shares available for new awards under the plan may increase upon the expiration, cancellation, forfeiture or settlement of outstanding awards without the issuance of shares and the forfeiture, cancellation or repurchase of shares previously issued under the plan.

Table of Contents

The plan has been in effect since 2005 and we have not asked our stockholders to approve an increase in the number of shares authorized for issuance in the nearly six years it will have been in place at the time of the 2011 annual meeting. In addition, when we adopted the plan in 2005, we immediately reduced the total 2,250,000 shares issuable under the plan at that time by 1,077,624, the number of shares subject to stock options that we had issued under the old Stock Option Plan, net of forfeitures. Thus, at the plan's inception in 2005, there were only 1,172,376 shares available for issuance.

Summary of Amended and Restated Plan

The following is a summary of the material terms of the Amended and Restated Stock Incentive Plan (the "Plan"). This summary is not a complete description of all of the Plan's provisions, and is qualified in its entirety by the full text of the Plan, which is attached as Appendix A to this Proxy Statement.

Eligibility and Administration

Our directors, executive officers and other key employees who occupy responsible managerial and professional positions and who can make substantial contributions to our success may be selected by the Board to receive benefits under the Plan. Currently there are four executive officers, 86 other key employees and 11 non-employee directors who have been selected to receive awards.

Subject to the terms of the Plan, the Board has the discretion to determine the terms of each award and to administer and interpret the Plan and all related documents and agreements. The Plan provides that the Board may delegate some or all of its authority under the Plan to a committee consisting of two or more persons who are non-employee directors and qualify as "outside" directors under Section 162(m) of the Code. The Board has, in fact, delegated all of its authority over the Plan with respect to employees, including its authority to administer and interpret and make awards under the Plan, to the Compensation Committee of the Board of Directors. References below to the Board therefore include its Compensation Committee.

Types of Awards

The Plan allows the Board to grant the following types of awards:

Stock Options. Stock options entitle the holder to purchase shares of our common stock, upon exercise of the option on a date within the specified option term, at a specified exercise price. Stock options granted under the Plan may be options that are intended to qualify as "incentive stock options" within the meaning of Section 422 of the Code, or "non-qualified stock options." The exercise price for each option granted must not be less than 100% of the fair market value of the shares on the date of grant, and the term during which the option is exercisable must not exceed 10 years. To the extent that the aggregate fair market value of the shares underlying incentive stock options (valued as of the date an option is granted) that are exercisable by an option holder for the first time during any calendar year exceeds \$100,000, those options shall not qualify as incentive stock options.

Options granted under the Plan may specify that the option price is payable:

in cash;

in cash equivalents approved by the Board;

by the transfer to us of previously acquired shares;

by any combination of the foregoing methods; or

with any other consideration that the Board determines to be consistent with the Plan and applicable law.

Table of Contents

The Board may also allow cashless exercises to the extent permitted by law.

Stock Appreciation Rights. Stock appreciation rights entitle the holder to receive a payment equal to the spread between the exercise price of the right and the fair market value of the shares subject to the right on the date of exercise. The Board may grant stock appreciation rights in tandem with an option granted under the Plan or independently of an option. Tandem stock appreciation rights are subject to the same terms and conditions as the options to which they relate and exercise of a tandem stock appreciation right will require the holder to surrender the related option. The Board may make any payment pursuant to the exercise of stock appreciation rights in cash, shares or any combination thereof, in the Board's discretion.

Restricted Stock. An award of restricted stock entitles the recipient to a specific number of shares with restrictions that are intended to make the shares subject to a substantial risk of forfeiture under the Code during a specified restriction period. We may award restricted stock for the performance of past services or as an incentive for future services that will contribute materially to the successful operation of our Company. The Board must set forth the terms of any award of restricted stock, including the purchase price (if any) to be paid for the restricted stock, the restrictions applicable to the grant or vesting requirements, the length of the restriction period, and the rights of the recipient to vote or receive dividends with respect to the shares during any restriction period, in a restricted stock agreement. The Board may also make vesting of the award subject to performance measures (as discussed below) or provide that certain circumstances will result in termination or early termination of the restrictions on the shares.

Restricted Stock Units. Restricted stock units are like restricted stock except that shares are not issued immediately. Rather, the recipient is entitled to receive a number of shares, or cash equal to the fair market value of the shares (or an equivalent combination of shares and cash), on a specified date, subject to specific conditions, terms and restrictions imposed by the Board. The Board may provide for the recipient of restricted stock units to receive dividends or dividend equivalents on terms it sets forth in the related restricted stock unit agreement.

Performance Shares. Performance shares represent the right to receive an amount valued by reference to a number of shares, payable in cash or shares or a combination thereof, based upon the degree to which set performance measures are attained within a specified time period as determined by the Board and set forth in the related performance share agreement. The Board may further condition any grant of performance shares upon any restrictions it considers appropriate.

Phantom Stock Units. A phantom stock unit entitles the holder to convert a vested unit into property with a value equal to the difference between the award value (which is the fair market value of a share as of the date of grant of the unit) and the fair market value of a share on the conversion date. The Board must set forth in a phantom stock agreement the terms of any grant including the vesting schedule, the period during which the units must be converted, the award value and the form and timing of payments.

Share Purchase Rights. Share purchase rights allow the recipients to forego the receipt of all or a portion of cash compensation (including bonuses and, in the case of non-employee directors, directors' fees) and to receive such compensation in the form of shares or restricted stock units. The terms, conditions and restrictions of share purchase rights and any shares or restricted stock units purchased, as determined by the Board, are to be set forth in a share purchase agreement. The Board is permitted to obligate us to match a portion of the deferred compensation on terms and conditions it determines and sets forth in the share purchase agreement.

Other Stock-Based Awards. The Board may grant other stock-based awards, the value of which is based in whole or in part on the value of shares, to eligible recipients in amounts and upon terms consistent with the Plan and as determined by the Board.

Performance Measures

The Plan provides that the Board may make the degree of payout or vesting of certain awards dependent upon the Company attaining certain performance measures set forth in the Plan. The Board can set the targeted level of performance on an absolute basis or relative to a group of peer companies it selects, relative to internal goals or relative to performance levels attained in prior years. Any performance measures that the Board intends to qualify an award as performance-based compensation for purposes of the exception to the limitations on deductibility under Section 162(m) of the Code must be limited to one or more of the following performance goals or functions of these goals:

earnings

earnings per share

consolidated pre-tax earnings

Except in the case of an award intended to qualify under Section 162(m) of the Code, the Board may establish other performance measures that it considers appropriate or equitable. The Board may adjust the performance measures or the degree to which they must be attained in recognition of unusual or nonrecurring events affecting us or our financial statements or changes in applicable law or accounting principles. However, in the case of any awards intended to qualify under Section 162(m) of the Code, any adjustment must comply with that section.

Shares Available

If approved by the stockholders, 3,500,000 shares would be authorized for issuance under the Plan, of which no more than 1,562,500 could be issued in the form of restricted stock. The maximum number of stock options and stock appreciation rights that may be granted to any one participant in any one calendar year is 500,000, and the maximum number of all other share awards (or their equivalent value in cash, shares or other property) that may be granted in any one calendar year to any one participant is the higher of (i) 200,000 and (ii) the number of shares obtained by dividing 5,000,000 by the fair market value of a share on the respective dates of grant.

The following rules determine how the number of shares used for awards under the Plan are counted and therefore how they reduce the shares remaining available for awards under the Plan:

All shares issued upon exercise of an option, including any shares withheld for tax withholding purposes, are counted as used when an option is exercised for cash.

Only the shares actually issued, including shares withheld for taxes, are counted as used upon exercise of a stock appreciation right.

Only the net shares issued, including shares withheld for taxes, are counted as used when the participant tenders his or her own shares to pay for all or a portion of shares issuable upon exercise of an option, and the tendered shares will again become available for awards if they were issued upon the earlier exercise of an option.

Shares issued and withheld by the Company to satisfy a participant's tax withholding obligation with respect to any other award are counted as used.

Shares subject to an award are not counted as used unless and until they are actually issued and delivered to a participant. Therefore, shares that we reserve for issuance with respect to awards that expire, are forfeited or canceled or settled without the delivery of shares, or with respect to which performance terms are not met, will again become available for issuance under the Plan.

If we issue shares subject to an award under the Plan or the old Stock Option Plan but later reacquire them for reasons like forfeiture or repurchase of restricted stock or other award, those shares again become available for use under the Plan.

We must reserve one share for each restricted stock unit, phantom stock unit or other stock-based award that may be settled in shares. We must also reserve sufficient shares to allow for the issuance of the maximum number of shares that may be awarded under an agreement regarding performance shares. Any awards that may not be settled in shares do not require a reserve.

We must reserve one share for each share subject to an option or stock appreciation right that may be settled in shares. Stock appreciation rights that may not be settled in shares do not require a reserve.

If the exercise of a stock appreciation right causes a related stock option to terminate, then the shares issuable upon exercise of that option shall again be available for award under the Plan.

The Board may make appropriate adjustments to the number of shares available for issuance under the Plan or any award (as well as the other terms of an award) in response to changes in corporate capitalization, certain corporate transactions or certain other changes in our corporate structure in order to preserve, but not to increase, the benefits

provided to award recipients.

Table of Contents

Other Terms

Cancellation of Awards. The Board may provide in any award agreement that if the recipient of the award engages in any detrimental activity during his employment with us or within the following two years, then any unpaid or unexercised part of the award will be cancelled or otherwise limited. In addition, with respect to any exercised or paid award, we may require the recipient to return to us the excess of the fair market value of the shares subject to the award as of the date of exercise or receipt over the total price paid by the recipient (if any) for the shares. The Board has sole discretion to determine in good faith whether a recipient has engaged in a detrimental activity.

Rights as Stockholder, Transferability. Except as otherwise provided in the Plan or the applicable award agreement:

a holder of restricted stock has all of the rights of a stockholder with respect to those shares, including the right to vote and receive dividends and other distributions;

a holder of performance shares is entitled to dividends declared after the end of the performance period with respect to performance shares that have been earned but not distributed, and the holder has full voting rights with respect to those shares; and

a holder of any other award under the Plan generally has no rights as a stockholder with respect to any shares underlying that award before the date of issuance of a certificate for the shares.

Except as provided in the applicable award agreement, unvested, unexercised or unpaid awards are generally not transferable.

Acceleration. Subject to exemption from or compliance with the requirements of Code Section 409A governing nonqualified deferred compensation, the Board may provide in the award agreement for automatic accelerated vesting, lapse of any restrictions and any other rights upon the occurrence of events or conditions as specified in the applicable agreement, like a change in control. A change of control is defined in the Plan to include the acquisitions by certain persons or more than 50 percent of our then outstanding shares, certain specified business combinations, certain changes in our Board, or a complete liquidation or dissolution of our Company.

Amendment and Termination of the Plan. The Board may at any time terminate or amend the Plan, as long as the termination or amendment does not adversely affect the rights of any holder of an outstanding award without that holder's written consent. To the extent required by Section 162(m) of the Code, should the Board decide it is desirable to comply with its provisions, and to the extent otherwise required by law or applicable exchange listing rules, no amendment of the Plan will be effective without stockholder approval. Currently, the following amendments would require stockholder approval:

increasing the maximum number of shares which may be used under the Plan (other than increases made to adjust for recapitalization or changes in corporate structure, as described above);

extending the term of the Plan;

changing any Plan provisions relating to the class of employees who are eligible to receive awards under the Plan; or

changing performance measures or the maximum amount that can be paid to an employee upon their attainment, for purposes of Code Section 162(m).

The Board may, without consent of the stockholders or the affected holders, amend outstanding awards and the related agreements in response to changes in law or in any manner that does not adversely affect the holders and is consistent with the terms of the Plan.

In no event may the Board decrease the exercise price of any outstanding option or stock appreciation right without prior stockholder approval.

Table of Contents

We may not grant awards under the Plan later than ten years after our stockholders approve the Plan, but the Plan and all awards granted under the Plan before that date will remain in effect until they have been paid or terminated in accordance with their terms.

Miscellaneous Provisions. The Plan also contains other provisions, including provisions concerning the right of the Board to make non-uniform determinations under the Plan and to impose requirements relating to stock exchange, governmental agency or other approvals as conditions to the grant or exercise of awards under the Plan.

Federal Income Tax Consequences

The following is a summary of what we believe to be the likely federal income tax consequences to participants in the Plan who are United States taxpayers from the grant, vesting, exercise or disposition of awards and shares underlying awards. We intend, and this summary assumes, that all awards granted under the Plan either will be exempt from or will comply with the requirements of Section 409A of the Code regarding nonqualified deferred compensation such that its income inclusion and tax penalty provisions will not apply to the participants. The Plan and any awards made under the Plan will be administered consistently with this intent. In any case, a participant will be solely responsible and liable for the satisfaction of all taxes and penalties that may be imposed on a participant in connection with awards (including any taxes and penalties under Section 409A) and we will have no obligation to indemnify or otherwise hold a participant harmless from any such taxes or penalties.

Stock Options and Stock Appreciation Rights

A plan participant will not recognize taxable income for federal income tax purposes upon the grant of a nonqualified stock option, incentive stock option or stock appreciation right, and we will not be entitled to a deduction at that time.

When a participant exercises a nonqualified stock option, he or she will recognize ordinary income in an amount equal to the excess, if any, of the fair market value of the shares acquired on the date he or she exercises the option, over the total exercise price he or she paid for those shares. If the participant later sells shares he or she acquired pursuant to the nonqualified stock option, he or she will recognize either capital gain or loss equal to the difference between the proceeds of the sale of those shares and the fair market value of those shares on the date he or she exercised the option. Under current law, if the shares sold were held for more than one year, then any gain will be taxed at the applicable long-term capital gains rate, which is generally more favorable to individuals than the tax rate applicable to short-term gains and ordinary income.

In the case of an incentive stock option, the participant will not recognize any taxable income when he or she exercises the option. If, more than two years after the date of grant of an incentive stock option and more than one year after the transfer of the shares to the participant, the participant sells or otherwise disposes of shares he or she acquired when he or she exercised the option, the participant will recognize a long-term capital gain or loss on the difference between the proceeds of the sale or disposition and the total exercise price he or she paid for those shares. However, if the participant disposes of the shares sooner, then the portion of any gain equal to the difference between the lower of:

the fair market value of the shares on the date of exercise, or

the amount realized upon the disposition, and

the total exercise price paid for the shares disposed of

will be treated as ordinary income in the year of disposition, and the remainder will be treated as capital gain in that year. Dispositions made before the expiration of these holding periods and which result in this adverse tax treatment are referred to as disqualifying dispositions.

Table of Contents

Upon the exercise of a stock appreciation right, the participant recognizes ordinary income equal to the amount by which the fair market value of a share on the exercise date exceeds the exercise price of the stock appreciation right, multiplied by the number of shares with respect to which the participant exercises his or her stock appreciation right. To the extent that the participant receives all or part of this amount in equivalent shares of common stock rather than in cash, his or her basis in those shares will equal their fair market value on the date of their acquisition.

If a participant pays the exercise price of a nonqualified stock option with shares he or she already owns, he or she will recognize no taxable income with respect to those shares and to the same number of the new shares he or she receives. An equal number of the new shares he or she receives will have the same basis and holding period as the shares that he or she surrenders. The fair market value of the number of shares he or she receives in excess of the number of those he or she uses as payment will be included in his or her ordinary income as compensation. In addition, the basis in those excess shares will be their fair market value and the holding period for those shares will begin on the date of their acquisition.

The tax treatment to the participant is generally the same with respect to previously owned shares used to pay the exercise price of an incentive stock option and with respect to an equal number of shares received in exchange. However, the participant will recognize no taxable income on receipt of any excess shares and his or her basis in those shares will be zero. Nevertheless, if the participant uses shares previously received pursuant to an incentive stock option to pay the exercise price of another incentive stock option prior to the expiration of the holding periods described above, this use will be deemed a disqualifying disposition, resulting in the potentially adverse tax treatment described above.

If an option or stock appreciation right expires before it is exercised, the participant will not be able to recognize a loss.

In addition to the federal income tax consequences described above, the exercise of an incentive stock option may subject a participant to the alternative minimum tax, which is referred to as AMT, imposed on his or her alternative minimum taxable income reduced by an exemption amount. A participant's AMT income is his or her regular taxable income, plus or minus various items of adjustment, and plus various items of tax preference. When a participant exercises an incentive stock option, the difference between the fair market value of the shares received and the total exercise price paid for those shares is an item of adjustment for AMT purposes and thus will increase AMT income. However, the participant's basis in the shares, for purposes of computing the gain or loss on their subsequent disposition that generally must also be included in AMT income in the year of disposition (subject to special rules applicable to disqualifying dispositions), is increased by the amount included in AMT income upon exercise. For 2011, the exemption amount is \$74,450 for married persons filing jointly (half that amount for married persons filing separately) and \$48,450 for unmarried filers, but the exemption amount is phased out for individuals with higher AMT incomes (over \$150,000 for married persons filing jointly; over \$75,000 for married persons filing separately; and over \$112,500 for unmarried filers).

AMT is payable only to the extent that it exceeds the participant's regular tax. If a participant is required to pay AMT, the amount of such tax which is attributable to the incentive stock option adjustment is generally allowed as a credit against his or her regular tax liability in subsequent years.

There are no AMT consequences triggered by the exercise of a nonqualified stock option or a stock appreciation right.

Table of Contents***Restricted Stock, Restricted Stock Units, Performance Shares, Share Purchase Rights, and Other Stock-Based Awards***

The Board intends to make awards under the Plan initially non-transferable and subject to a substantial risk of forfeiture within the meaning of the Code. As a result, a plan participant should not be subject to current federal income tax at the time of receipt of restricted stock, restricted stock units, performance shares, share purchase rights or other stock-based awards, or on any base salary, bonus or annual retainer amounts that the participant elects to forego in exchange for restricted stock or restricted stock units. Rather, in the taxable year in which such restrictions lapse with respect to any shares issued to a participant in respect of any of the above awards, or in which unrestricted shares or cash or other property is issued or paid in respect of any such award, the participant will be subject to federal income tax, at ordinary income tax rates, on the amount by which the fair market value of the shares so issued or the cash or other property so paid, determined as of the date on which the restrictions lapse (or the date of issue or payment, in the case of cash or unrestricted shares or other property), exceeds the amount, if any, such participant previously paid for such shares (or the related award).

In the year that a participant subsequently sells shares or other property acquired under the Plan, he or she will realize capital gain (or loss) to the extent that the sales proceeds exceed (or are less than) the fair market value of such shares or other property on the date that their receipt triggered ordinary income tax liability; and the holding period for purposes of determining whether such gain (or loss) as short-term or long-term will commence on that date.

Phantom Stock Units

A holder of phantom stock units will not recognize taxable income for federal income tax purposes upon the award of the units, and we will not be entitled to a deduction at that time.

Upon the conversion of phantom stock units resulting in a payment to the holder of cash or unrestricted shares, the holder will recognize ordinary income in an amount equal to the excess, if any (the Conversion Gain), of the aggregate fair market value of the shares underlying the converted units as of the conversion date over the aggregate award values. (The award value of a unit is the fair market value of a share as of the date of grant of the unit.) To the extent that the holder receives the Conversion Gain in unrestricted shares of equivalent value (rather than in cash), the basis in those shares will equal their fair market value on the date of their acquisition. If the holder receives the Conversion Gain in non-transferable shares subject to a substantial risk of forfeiture within the meaning of the Code, however, his or her ordinary income tax liability will be delayed until the first taxable year in which those shares are transferable or are no longer subject to a substantial risk of forfeiture. The ordinary income that the holder will be required to recognize at that time will equal the excess, if any, of the fair market value of those shares over the corresponding award value, and his or her basis in those shares will equal their fair market value, in each case determined as of the date that they first become transferable or no longer subject to a substantial risk of forfeiture.

Tax Consequences to Us

Generally, we can deduct for federal income tax purposes only the amount included in a participant's ordinary income (if any) upon the participant's exercise of an option or stock appreciation right or upon his or her subsequent disposition of the underlying shares, subject to our compliance with applicable withholding and reporting requirements and subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code. With respect to other awards under the Plan, we likewise will generally be able to deduct for federal income tax purposes the amount included in a participant's ordinary income as a result of any taxable event with respect to an award, subject to the same limitations. The deduction will be allowed in the taxable year that such amount is includible in the participant's gross income.

Table of Contents

Section 162(m) of the Code generally provides that a company cannot deduct certain compensation in excess of \$1 million per year paid to its chief executive officer or any of its four other highest paid executive officers. Section 162(m) provides an exception to the deductibility limit, however, for qualified performance-based compensation, if certain requirements are satisfied, including shareholder approval of the material terms under which the compensation is paid. Shareholder approval of the Plan is intended to satisfy the approval requirements of Code Section 162(m) so that awards may continue to be structured to qualify for the performance-based compensation exception to the deductibility limit. The Plan nonetheless permits the making of awards that are not intended to qualify for the exception.

Compensation to employee participants resulting from awards under the Plan constitutes wages for purposes of the Federal Insurance Contributions Act and the Federal Unemployment Tax Act and thus will result in additional tax liability to us, generally with respect to each award at the time that such award is no longer subject to a substantial risk of forfeiture.

Tax Withholding

The Plan provides that we have the right to deduct or withhold from any cash or property payable to a participant under the Plan, or to require the participant to pay to us, an amount sufficient to satisfy any federal, state, local and foreign withholding requirements with respect to any taxable event arising as a result of the Plan, such as payments pursuant to or the lapse of restrictions with respect to awards (including withholding requirements under the Federal Insurance Contributions Act). With respect to withholding required upon the issuance of shares to a participant under the Plan, the participant may meet the withholding requirement by having us, if the Board consents, withhold shares with a fair market value as of the date the withholding obligation is incurred equal to the amount required to be withheld.

Other Requirements and Tax Consequences

This section contains only a summary of the current federal income tax treatment of certain stock-based incentive awards available under the Plan and does not cover all of the special rules and consequences, including rules allowing a participant under certain circumstances to elect to recognize ordinary income upon receipt of an award (and the related consequences), rules relating to participants subject to Section 16(b) of the Securities Exchange Act of 1934, or the state, local or foreign income or other tax consequences applicable to transactions involving such awards and the underlying shares.

Interest of Certain Persons in this Proposal

Our executive officers, three of whom are also directors, and our non-employee directors have an interest in the proposal to adopt the Amended and Restated Stock Incentive Plan because each is an eligible participant in awards under the Plan.

Plan Benefits

If the stockholders approve the Amended and Restated Stock Incentive Plan, the Committee will consider a restricted stock award to the CEO and will make a regular annual grant of 2,300 restricted shares to each of our non-employee directors following the 2011 annual meeting. We also expect that the Committee will consider re-granting the November 1, 2010 restricted shares that were rescinded. No other awards are currently under consideration.

The following table shows the awards made or expected to be made under the Amended and Restated Stock Incentive Plan for our 2011 fiscal year, including the rescinded restricted stock, if our stockholders approve the amended plan.

**PROPOSAL NO. 3
ADVISORY VOTE ON EXECUTIVE COMPENSATION**

Executive compensation is an important matter for our stockholders. The core of Sanderson Farms' executive compensation philosophy and practice continues to be to pay for performance. Our executive officers are compensated in a manner consistent with our strategy, sound corporate governance principles, and stockholder interests and concerns. We believe our compensation program is strongly aligned with the long-term interests of our stockholders. We urge you to read the Compensation Discussion and Analysis section of this proxy statement for additional details on our executive compensation, including our compensation philosophy and objectives and the 2010 compensation of the Named Executive Officers.

The Dodd-Frank Wall Street Reform and Consumer Protection Act, enacted in 2010, requires that our stockholders have a non-binding advisory vote on our executive compensation, also known as "Say on Pay." Therefore, we are asking stockholders to vote on the following proposal, which gives you the opportunity to endorse or not endorse our pay program for our Named Executive Officers by voting for or against the following resolution. This resolution is required pursuant to Section 14A of the Securities Exchange Act of 1934, as amended.

RESOLVED, that the stockholders approve the compensation of Sanderson Farms' Named Executive Officers as disclosed in its proxy statement relating to its 2011 Annual Meeting of Stockholders pursuant to the SEC's compensation disclosure rules, including the Compensation Discussion and Analysis, compensation tables, and the related disclosures under the caption "Executive Compensation."

As an advisory vote, this proposal is non-binding. Although the vote is non-binding, the Board of Directors and the Compensation Committee value the opinions of our stockholders, and will consider the outcome of the vote when making future compensation decisions for our Named Executive Officers.

For this proposal to be adopted, more votes must be cast in favor of it than votes cast against it. The Proxyholders named on the accompanying proxy card will vote FOR the proposal unless the stockholder directs otherwise. Abstentions and broker non-votes will not be counted as votes cast FOR or AGAINST the proposal.

The Board of Directors recommends that the stockholders vote FOR the proposal to approve the compensation of Sanderson Farms' Named Executive Officers as disclosed in its proxy statement relating to its 2011 Annual Meeting of Stockholders pursuant to the SEC's compensation disclosure rules.

PROPOSAL NO. 4

ADVISORY VOTE ON FREQUENCY OF EXECUTIVE COMPENSATION VOTE

The Dodd-Frank Wall Street Reform and Consumer Protection Act also requires that at least once every six years, stockholders must vote on whether the advisory Say on Pay vote should occur every year, every two years or every three years. Therefore, we are presenting the following proposal, which gives you the opportunity to inform us as to how often you wish us to include an advisory Say on Pay vote, like Proposal 3, in our proxy statement. You may also abstain from voting on this proposal. This resolution is required pursuant to Section 14A of the Securities Exchange Act of 1934, as amended.

RESOLVED, that a non-binding advisory vote of the stockholders on the compensation of Sanderson Farms Named Executive Officers pursuant to Section 14A of the Securities Exchange Act should be held every:

- year
- two years; or
- three years.

The Board of Directors believes that holding the vote every three years is appropriate, in light of our goal to tie our pay programs to the long-term performance of our Company. For example, our performance share, restricted stock and Management Share Purchase Plan awards are all contingent upon the satisfaction of multi-year performance or time-vesting conditions. We believe this long-term focus is particularly appropriate given the cyclical nature of our industry and the impact of forces external to our business on our results, in particular the commodities markets for fresh chicken and feed grains. Holding a Say on Pay vote more frequently than every three years would therefore not permit our stockholders to fully assess the effectiveness of our pay programs in incentivizing our executives to perform with the long-term interests of our stockholders in mind, rather than their own opportunity for short-term gain. Moreover, a vote every three years would give the Compensation Committee more time to understand a stockholder vote, engage in dialog with stockholders and respond to the results with meaningful changes to our compensation plans. **Therefore, the Board recommends that the stockholders vote to hold the advisory Say on Pay vote every THREE years.** If the stockholders adopt the Board's recommendation, we would hold the next Say on Pay vote at our 2014 annual meeting. Note, however, that you are not voting on whether to approve or disapprove the Board's recommendation, rather you are being asked to affirmatively select the option of every one, two or three years.

While our Board of Directors intends to carefully consider the stockholder vote resulting from the proposal, the final vote will not be binding on us and is advisory in nature.

We will treat the option selected by the plurality of the votes cast at the meeting as the option approved by the stockholders. The Proxyholders named on the accompanying proxy card will vote to hold the advisory Say on Pay vote every three years unless the stockholder directs otherwise. Abstentions and broker non-votes will not be counted as votes cast with respect to this proposal.

The Audit Committee preapproves all auditing services and permitted non-audit services (including the fees and terms of those services) to be performed for the Company by its independent auditor prior to engagement, subject to the de minimus exceptions for non-audit services permitted by the Securities Exchange Act of 1934 which are approved by the Audit Committee prior to the completion of the audit. The Audit Committee may form and delegate authority to subcommittees of one or more Audit Committee members, including authority to grant preapprovals of audit and non-audit services, provided that any decision of that subcommittee to grant preapproval is presented to the full Audit Committee at its next scheduled meeting. For fiscal 2010, the Audit Committee pre-approved all non-audit services performed by the independent auditors.

The Audit Committee of the Company's Board of Directors has selected the firm of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2011. Stockholder approval and ratification of this selection is not required by law or by the By-Laws of the Company. Nevertheless, the Board has chosen to submit it to the stockholders for their approval and ratification as a matter of good corporate practice. Of the shares represented and entitled to vote at the annual meeting (whether in person or by proxy), more votes must be cast in favor of than votes cast against the proposal to ratify and approve the selection of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2011, in order for this proposal to be adopted. The Proxyholders named in the accompanying proxy card will vote FOR the foregoing proposal unless otherwise directed therein. Abstentions and broker non-votes will not be counted either as a vote FOR or as a vote AGAINST the proposal to ratify and approve the selection of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2011. If more votes are cast AGAINST this proposal than FOR, the Board of Directors will take such decision into consideration in selecting independent auditors for the Company.

The Board of Directors recommends a vote FOR the approval and ratification of the selection of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2011.

The Board may adopt, amend and rescind such rules, regulations and procedures for the administration of this Plan as it deems appropriate.

(b) Subject to Article 17 of the plan, the Board may correct any defect, supply any omission or reconcile any inconsistency in the Plan or any Agreement in the manner and to the extent it shall deem desirable to carry it into effect.

(c) If the Company shall assume outstanding employee benefit awards or the right or obligation to make future such awards in connection with the acquisition of another corporation or business entity, the Board may, in its discretion, make such adjustments in the terms of Awards under the Plan as it shall deem appropriate.

(d) The Board shall be entitled to make such rules, regulations and determinations as it deems appropriate under the Plan in respect of any leave of absence taken by a Participant. Without limiting the generality of the foregoing, the Board shall be entitled to determine (i) whether or not any such leave of absence shall constitute a termination of employment within the meaning of the Plan or a separation from service within the meaning of Section 409A(a)(2) of the Code and (ii) the impact, if any, of any such leave of absence on Awards under the Plan theretofore made to any Participant who takes a leave of absence.

(e) All acts, determinations and decisions of the Board made or taken pursuant to grants of authority under the Plan or with respect to any questions arising in connection with the administration and interpretation of the Plan, including the severability of any and all of the provisions thereof, shall be in the Board's sole discretion and shall be conclusive, final and binding upon all parties, including the Company, its stockholders, Participants, Eligible Participants and their estates, beneficiaries and successors.

ARTICLE 4 SHARES SUBJECT TO THE PLAN

4.1 Number of Shares. (a) No further grants may be made under the Sanderson Farms, Inc. and Affiliates Stock Option Plan (as amended and restated as of February 28, 2002) (the Prior Plan), but awards made under the Prior Plan shall remain outstanding in accordance with their terms and the terms of the Prior Plan and Shares issued or reserved for issuance pursuant to outstanding awards under the Prior Plan shall count against the number of Shares otherwise available for issuance under the Plan. Subject to adjustment as provided in (b) below and in Section 4.3, the aggregate number of Shares which are available for issuance pursuant to all Awards under the Plan and awards under the Prior Plan (including Shares that are already issued or reserved for issuance) is 3,500,000 Shares (2,250,000 of which were approved by stockholders in 2005 and 1,250,000 of which will be added subject to approval by stockholders in 2011). Not more than 1,562,500 of the Shares issued under the Plan may be granted in the form of Restricted Stock (unless based on the achievement of Performance Measures). The aggregate number of Incentive Stock Options that may be issued under the Plan and the Prior Plan is 2,250,000. Such Shares shall be made available from Shares currently authorized but unissued or to the extent permitted by Applicable Law, from Shares acquired by the Company for the purposes set forth herein.

(b) The following rules shall apply for purposes of the determination of the number of Shares available for grant under the Plan:

(i) All the Shares issued upon exercise of an Option (including the Shares, if any, withheld for tax withholding requirements) shall be counted as used when cash is used as full payment for such Shares.

(ii) Only the Shares issued (including the Shares, if any, withheld for tax withholding requirements) as a result of exercise of a Stock Appreciation Right shall be counted as used.

(iii) Only the net Shares issued (including the Shares, if any, withheld for tax withholding requirements) shall be counted as used when Shares are used as full or partial payment for Shares issued upon exercise of an Option.

(iv) Shares tendered (either by actual delivery or attestation) by a Participant as payment for Shares issued upon exercise of an Option shall be available for subsequent issuance under the Plan if the Shares tendered were acquired by earlier exercise of an Option.

(v) Shares issued and withheld by the Company to satisfy the Participant's tax withholding obligation with respect to any Award shall be counted as used.

(vi) Shares subject to an Award shall not be counted as used unless and until they are actually issued and delivered to a Participant. Therefore, Shares reserved for issuance with respect to Awards that expire or are forfeited or canceled prior to issuance or are settled without the delivery of Shares, or with respect to which the performance terms are not met, shall again be available for issuance pursuant to another Award under the Plan. Also, if for any reason any Shares subject to an Award under the Plan or the Prior Plan are issued but are reacquired by the Company, for reasons including, but not limited to, a forfeiture or repurchase of Restricted Stock or other Award (Returned Shares), such Returned Shares shall again be available for issuance pursuant to another Award under the Plan.

(vii) The Board shall reserve one Share for each Restricted Stock Unit, Phantom Stock Unit or Other Stock-Based Award awarded that may be settled in Shares. The Board shall reserve Shares to allow for issuance of the maximum number of Shares that may be awarded under an Agreement with respect to Performance Shares. Any such Awards that may not be settled in Shares shall not require a reserve.

Table of Contents

(viii) The Board shall reserve one Share for each Share subject to an Option or a Stock Appreciation Right that may be settled in Shares. Stock Appreciation Rights that may not be settled in Shares shall not require a reserve. In addition, if a Stock Appreciation Right is granted in connection with an Option and the exercise of the Stock Appreciation Right results in the termination of the Option, the reserved Shares that otherwise would have been issued upon the exercise of such related Option will again be available for issuance pursuant to another Award under the Plan.

4.2 **Individual Limits**. Except to the extent the Board determines that an Award to a Named Executive Officer shall not comply with the performance-based compensation provisions of Code Section 162(m), the following rules shall apply to Awards under the Plan:

(a) **Options and SARs**. The maximum number of Options and Stock Appreciation Rights that, in the aggregate, may be granted in any one calendar year to any one Participant shall be 500,000.

(b) **Other Awards**. The maximum number of Shares of Restricted Stock, Performance Shares or Shares subject to Restricted Stock Units, Phantom Stock Units, Share Purchase Rights or Other Stock-Based Awards (or their equivalent value in cash, Shares or other property) that may be granted pursuant to Awards in any one calendar year to any one Participant shall be the higher of (i) 200,000 and (ii) the number of Shares obtained by dividing 5,000,000 by the fair market value of a Share on the respective dates of grant.

4.3 **Adjustment of Shares**. If any change in corporate capitalization, such as a stock split, reverse stock split, stock dividend, or any corporate transaction such as a reorganization, reclassification, merger or consolidation or separation, including a spin-off, of the Company or sale or other disposition by the Company of all or a portion of its assets, any other change in the Company's corporate structure, or any distribution to stockholders (other than a cash dividend) results in the outstanding Shares, or any securities exchanged therefor or received in their place, being exchanged for a different number or class of shares or other securities of the Company, or for shares of stock or other securities of any other corporation; or new, different or additional shares or other securities of the Company or of any other corporation being received by the holders of outstanding Shares; then appropriate adjustments shall be made by the Board to the following in order to preserve, but not to increase, the benefits intended to be provided to the Participants:

(a) the limitations on the aggregate number of Shares that may be awarded as set forth in Section 4.1, including, without limitation, with respect to Incentive Stock Options;

(b) the limitations on the aggregate number of Shares that may be awarded to any one single Participant as set forth in Section 4.2;

(c) the number and class of Shares that may be subject to an Award, and which have not been issued or transferred under an outstanding Award;

(d) the Option Price under outstanding Options and the number of Shares to be transferred in settlement of outstanding Stock Appreciation Rights; and

(e) the terms, conditions or restrictions of any Award and Agreement, including the price payable for the acquisition of Shares; provided, however, that all such adjustments made in respect of each Incentive Stock Option shall be accomplished so that such Option shall continue to be an incentive stock option within the meaning of Code Section 422.

ARTICLE 5 STOCK OPTIONS

5.1 **Grant of Options**. Options may be granted to Eligible Participants in such amounts and upon such terms as are consistent with this Plan, and at any time and from time to time, as shall be determined by the Board. The Board shall have sole discretion in determining the number of Shares subject to Options granted to each Participant. The Board may grant a Participant ISOs, NQSOs or a combination thereof, and may vary such Awards among Participants; provided that only an Employee may be granted ISOs.

Table of Contents

5.2 Agreement. Each Option shall be evidenced by an Agreement that shall specify the Option Price, the duration of the Option, the number of Shares to which the Option pertains and such other provisions as the Board shall determine in its sole discretion. The Option Agreement shall further specify whether the Award is intended to be an ISO or an NQSO. Any portion of an Option that is not designated as an ISO or that fails to meet the requirements of Section 422 of the Code (even if designated as an ISO) shall be an NQSO.

5.3 Option Price. The Option Price for each grant of an Option shall not be less than 100 percent of the Fair Market Value of a Share on the date the Option is granted.

5.4 Duration of Options. Each Option shall expire at such time as the Board shall determine at the time of grant; provided, however, that no Option shall be exercisable later than the tenth anniversary of its grant date.

5.5 Exercise of Options. Options granted under the Plan shall be exercisable at such times and be subject to such restrictions and conditions as the Board shall in each instance approve, including conditions related to the employment of or provision of services by the Participant with the Company or any Employer, which need not be the same for each grant or for each Participant. The exercise of any Option shall cancel a Tandem SAR, if any, proportionate in amount to the number of Shares purchased pursuant to the exercise of the Option.

5.6 Payment. Except as otherwise provided in the applicable Agreement, Options shall be exercised by the delivery of a written notice of exercise to the Company, setting forth the number of Shares with respect to which the Option is to be exercised, accompanied by full payment for the Shares. The Option Price upon exercise of any Option shall be payable to the Company in full, either: (a) in cash, (b) cash equivalent approved by the Board, (c) if approved by the Board, by tendering previously acquired Shares (or delivering a certification or attestation of ownership of such Shares) having an aggregate Fair Market Value at the time of exercise equal to the total Option Price (provided that the tendered Shares must have been held by the Participant for any period required by the Board), or (d) by a combination of (a), (b) and (c). The Board also may allow cashless exercises as permitted under Federal Reserve Board's Regulation T, subject to applicable securities law restrictions, or by any other means which the Board determines to be consistent with the Plan's purpose and Applicable Law.

5.7 Nontransferability of Options.

(a) Incentive Stock Options. No ISO granted under the Plan may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated by a Participant, other than by will or by the laws of descent and distribution of the state in which the Participant resided on the date of his death. Further, all ISOs granted to a Participant under the Plan shall be exercisable during his or her lifetime only by such Participant or by his guardian or legal representative.

(b) Nonqualified Stock Options. Except as otherwise provided in a Participant's Award Agreement with respect to transfers to Permitted Transferees (any such transfers being subject to Applicable Law), no NQSO granted under the Plan may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated by a Participant, other than by will or by the laws of descent and distribution of the state in which the Participant resided on the date of his death. Appropriate evidence of any transfer to Permitted Transferees shall be delivered to the Company at its principal executive office. If all or part of an Option is transferred to a Permitted Transferee, the Permitted Transferee's rights thereunder shall be subject to the same restrictions and limitations with respect to the Option as those of the Participant. Further, except as otherwise provided in a Participant's Award Agreement, all NQSOs granted to a Participant under the Plan shall be exercisable during his or her lifetime only by such Participant or by his guardian or legal representative.

5.8 Special Rules for ISOs. Notwithstanding the above, in no event shall any Participant who owns (within the meaning of Section 424(d) of the Code) stock of the Company possessing more than ten percent of the total combined voting power of all classes of stock of the Company be eligible to receive an ISO at an Option Price less than 110 percent of the Fair Market Value of a Share on the date the ISO is granted or be eligible to receive an ISO that is exercisable later than the fifth anniversary date of its grant. To the extent that a Participant is granted ISOs (under the Plan and all other incentive stock option plans of the Employer) which are first exercisable in any calendar year for Shares having an aggregate Fair Market Value (determined as of the date an Option is granted) that exceeds One Hundred Thousand Dollars, such Options shall be treated as NQSOs. For purposes of this Section 5.8, ISOs shall be taken into account in the order in which they were granted.

ARTICLE 6 STOCK APPRECIATION RIGHTS

6.1 **Grant of SARs.** A Stock Appreciation Right may be granted to an Eligible Participant in connection with an Option granted under Article 5 of this Plan or may be granted independently of any Option. A Stock Appreciation Right shall entitle the holder, within the specified period, to exercise the SAR and receive in exchange therefor a payment having an aggregate value equal to the amount by which the Fair Market Value of a Share on the date of exercise exceeds the exercise price, times the number of Shares with respect to which the SAR is exercised. A SAR granted in connection with an Option (a Tandem SAR) shall entitle the holder of the related Option, within the period specified for the exercise of the Option, to surrender the unexercised Option, or a portion thereof, and to receive in exchange therefor a payment having an aggregate value equal to the amount by which the Fair Market Value of a Share on the date of exercise exceeds the Option Price per Share, times the number of Shares under the Option, or portion thereof, which is surrendered.

6.2 **Tandem SARs.** Each Tandem SAR shall be subject to the same terms and conditions as the related Option, including limitations on transferability, and shall be exercisable only to the extent such Option is exercisable and shall terminate or lapse and cease to be exercisable when the related Option terminates or lapses. The grant of Stock Appreciation Rights related to ISOs must be concurrent with the grant of the ISOs. With respect to NQSOs, the grant either may be concurrent with the grant of the NQSOs, or in connection with NQSOs previously granted under Article 5, which are unexercised and have not terminated or lapsed.

6.3 **Payment.** The Board shall have sole discretion to determine in each Agreement whether the payment with respect to the exercise of an SAR will be in the form of all cash, all Shares, or any combination thereof. If payment is to be made in Shares, the number of Shares shall be determined based on the Fair Market Value of a Share on the date of exercise. If the Board elects to make full payment in Shares, no fractional Shares shall be issued and cash payments shall be made in lieu of fractional shares. The Board shall set forth in each Agreement in its sole discretion the timing of any payment due to the Participant by virtue of the exercise of SARs. Payment may be made in a lump sum, in annual installments or may be otherwise deferred as set forth in the Agreement; and the Board shall have sole discretion to determine whether any deferred payments may bear amounts equivalent to interest or cash dividends.

6.4 **Exercise of SARs.** Upon exercise of a Tandem SAR, the number of Shares subject to exercise under any related Option shall automatically be reduced by the number of Shares represented by the Option or portion thereof which is surrendered.

ARTICLE 7 RESTRICTED STOCK

7.1 Grant of Restricted Stock. Restricted Stock Awards may be made to Eligible Participants as a reward for past service or as an incentive for the performance of future services that will contribute materially to the successful operation of the Employer. Awards of Restricted Stock may be made either alone or in addition to or in tandem with other Awards granted under the Plan and may be current grants of Restricted Stock or deferred grants of Restricted Stock.

7.2 Restricted Stock Agreement. The Restricted Stock Agreement shall set forth the terms of the Award, as determined by the Board, including, without limitation, the purchase price, if any, to be paid for such Restricted Stock, which may be more than, equal to, or less than Fair Market Value and may be zero, subject to such minimum consideration as may be required by Applicable Law; the restrictions applicable to the grant or vesting of the Restricted Stock such as continued service or achievement of Performance Measures, the length of the Restriction Period and whether any circumstances, such as death, retirement, Disability, or a Change in Control, will shorten or terminate the Restriction Period; and rights of the Participant to vote or receive dividends with respect to the Shares during the Restriction Period.

Notwithstanding Section 3.4 of the Plan, a Restricted Stock Award must be accepted within a period of sixty (60) days, or such other period as the Board may specify, by executing a Restricted Stock Agreement and paying whatever price, if any, is required. The prospective recipient of a Restricted Stock Award shall not have any rights with respect to such Award, unless and until such recipient has executed a Restricted Stock Agreement and has delivered a fully executed copy thereof to the Board, and has otherwise complied with the applicable terms and conditions of such Award.

7.3 Nontransferability. Except as otherwise provided in this Article 7, no shares of Restricted Stock received by a Participant shall be sold, exchanged, transferred, pledged, hypothecated or otherwise disposed of during the Restriction Period.

7.4 Certificates. Upon an Award of Restricted Stock to a Participant, Shares of Restricted Stock shall be registered in the Participant's name (or an appropriate book entry shall be made). Certificates, if issued, may either be held in custody by the Company until the Restriction Period expires or until restrictions thereon otherwise lapse and/or be issued to the Participant and registered in the name of the Participant, bearing an appropriate restrictive legend and remaining subject to appropriate stop-transfer orders. If required by the Board, the Participant shall deliver to the Company one or more stock powers endorsed in blank relating to the Restricted Stock. If and when the Restriction Period expires without a prior forfeiture of the Restricted Stock subject to such Restriction Period, unrestricted certificates for such shares shall be delivered to the Participant; provided, however, that the Board may cause such legend or legends to be placed on any such certificates as it may deem advisable under the rules, regulations and other requirements of the Securities and Exchange Commission and any applicable federal or state law.

7.5 Dividends and Other Distributions. Except as provided in this Article 7 or in the Award Agreement, a Participant receiving a Restricted Stock Award shall have, with respect to such Restricted Stock Award, all of the rights of a stockholder of the Company, including the right to vote the Shares to the extent, if any, such Shares possess voting rights and the right to receive any dividends; provided, however, the Board may require that any dividends on such Shares of Restricted Stock shall be automatically deferred and reinvested in additional Restricted Stock subject to the same restrictions as the underlying Award, or may require that dividends and other distributions on Restricted Stock shall be paid to the Company for the account of the Participant. The Board shall determine whether interest shall be paid on such amounts, the rate of any such interest, and the other terms applicable to such amounts. In addition, with respect to Named Executive Officers, the Board may apply any restrictions it deems appropriate to the payment of dividends declared with respect to Restricted Stock such that the dividends and/or Restricted Stock maintain eligibility for the performance-based compensation exception under Code Section 162(m).

Table of Contents

7.6 Restricted Stock Units (or RSUs). Awards of Restricted Stock Units may be made to Eligible Participants in accordance with the following terms and conditions:

(a) The Board, in its discretion, shall determine the number of RSUs to grant to a Participant, the Restriction Period and other terms and conditions of the Award, including whether the Award will be paid in cash, Shares or a combination of the two and the time when the Award will be payable (i.e., at vesting, termination of employment, Change in Control or another date).

(b) Unless the Agreement provides otherwise, RSUs shall not be sold, transferred or otherwise disposed of and shall not be pledged or otherwise hypothecated.

(c) Restrictions upon RSUs awarded hereunder shall lapse at such time or times and on such terms and conditions as the Board may provide in the Agreement. Unless the Agreement provides otherwise, in the event of a Change in Control, all restrictions upon any RSUs shall lapse immediately and all such RSUs shall become fully vested in the Participant.

(d) The Agreement shall set forth the terms and conditions that shall apply upon the termination of the Participant's employment with the Employer (including a forfeiture of RSUs for which the restrictions have not lapsed upon Participant's ceasing to be employed) as the Board may, in its discretion, determine at the time the Award is granted. An Award of Restricted Stock Units may provide the holder thereof with dividends or dividend equivalents, payable in cash or in additional Restricted Stock Units (or a combination thereof), as determined by the Board, on a current or deferred basis. Such dividends or dividend equivalents may be subject to the same accrual, forfeiture, and payout restrictions as apply to dividends earned with respect to Restricted Stock, as set forth in Section 7.5 herein.

In the Performance Share Agreement, the Board shall set the Performance Measures in its discretion which, depending on the extent to which they are met, will determine the number of Performance Shares that will be paid out to the Participant. For purposes of this Article 8, the time period during which the Performance Measures must be met shall be called a Performance Period.

8.3 Earning of Performance Shares. Subject to the terms of this Plan and the applicable Agreement, after the applicable Performance Period has ended, the holder of Performance Shares shall be entitled to receive a payout of the number of Performance Shares earned by the Participant over the Performance Period, to be determined as a function of the extent to which the corresponding Performance Measures have been achieved.

8.4 Form and Timing of Payment of Performance Shares. Subject to the terms of this Plan and the applicable Agreement, the Board, in its sole discretion, may pay earned Performance Shares in the form of cash or in Shares (or in a combination thereof) which has an aggregate Fair Market Value equal to the value of the earned Performance Shares at the close of the applicable Performance Period. Such Shares may be granted subject to any restrictions deemed appropriate by the Board. The Board shall have sole discretion as to the timing of any payment made in cash or Shares, or a combination thereof. The determination of the Board with respect to the form and timing of payout of such Awards shall be set forth in the Award Agreement pertaining to the grant of the Award.

Except as otherwise provided in the Participant's Award Agreement, a Participant shall be entitled to receive any dividends declared subsequent to the end of the Performance Period with respect to earned grants of Performance Shares that have not yet been distributed to the Participant (such dividends shall be subject to the same accrual, forfeiture, and payout restrictions as apply to dividends earned with respect to Restricted Stock, as set forth in Section 7.5 herein). In addition, unless otherwise provided in the Participant's Award Agreement, a Participant shall be entitled to exercise full voting rights with respect to earned Performance Shares.

8.5 Nontransferability. Except as otherwise provided in a Participant's Award Agreement, Performance Shares may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated by a Participant, other than by will or by the laws of descent and distribution of the state in which the Participant resided on the date of his death. The Phantom Stock Agreement shall set forth the terms of the Phantom Stock Units, as determined by the Board, including, without limitation, the vesting schedule, the period during which the Phantom Stock Units must be converted, if at all, and the Award Value of each Phantom Stock Unit (which shall be the Fair Market Value of a Share as of the date of grant of the related Phantom Stock Unit).

Table of Contents

9.3 Amount, Form and Timing of Payment. Subject to the terms of this Plan and the applicable Agreement, a Phantom Stock Unit shall entitle the holder, within the specified conversion period, to convert vested Phantom Stock Units into property with a value equal to the difference between the Award Value and the Fair Market Value of a Share on the conversion date times the number of Phantom Stock Units converted. The Board, in its sole discretion, may pay the amount to which the holder is entitled in the form of cash or in Shares (or in a combination thereof). Shares issued in payment may contain such restrictions deemed appropriate by the Board. If payment is to be made in Shares, the number of Shares shall be determined based on the Fair Market Value of a Share on the date of conversion. If the Board elects to make full payment in Shares, no fractional Shares shall be issued and cash payments shall be made in lieu of fractional shares. The determination of the Board with respect to the form and timing of payout of Phantom Stock Units shall be set forth in the Award Agreement pertaining to the grant of the Award.

9.4 Nontransferability of Award. Except as otherwise provided in a Participant's Award Agreement, Phantom Stock Units may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated by a Participant, other than by will or by the laws of descent and distribution of the state in which the Participant resided on the date of his death. ARTICLE 10 OTHER STOCK-BASED AWARDS

10.1 Terms of Other Stock-Based Awards. Other Stock-Based Awards may be granted to Eligible Participants, in such amounts and upon such terms as are consistent with this Plan, and at any time and from time to time, as shall be determined by the Board. An Other Stock-Based Award is an award, the value of which is based in whole or in part on the value of Shares, that is not an Award specified in Article 5, 6, 7, 8 or 9 of the Plan. Other Stock-Based Awards may be awards of Shares or may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on or related to, Shares (including, without limitation, securities convertible or exchangeable into or exercisable for Shares), as determined by the Board, consistent with the purposes of the Plan. The Board may provide that such Awards are payable in cash or Shares (or a combination thereof). Shares issued in payment may contain such restrictions deemed appropriate by the Board. If payment is to be made in Shares, the number of Shares shall be determined based on the Fair Market Value of a Share on the date that payment is due pursuant to the applicable Agreement. If the Board elects to make full payment in Shares, no fractional Shares shall be issued and cash payments shall be made in lieu of fractional shares. The determination of the Board with respect to the form and timing of payout of Other Stock-Based Awards shall be set forth in the Award Agreement pertaining to the grant of the Award.

10.2 Dividend Equivalents. An Other Stock-Based Award may provide the holder thereof with dividends or dividend equivalents, payable in cash or in Shares (or a combination thereof), as determined by the Board, on a current or deferred basis. Such dividends or dividend equivalents may be subject to the same accrual, forfeiture, and payout restrictions as apply to dividends earned with respect to Restricted Stock, as set forth in Section 7.5 herein.

10.3 Nontransferability of Award. Except as otherwise provided in a Participant's Award Agreement, Other Stock-Based Awards may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated by a Participant, other than by will or by the laws of descent and distribution of the state in which the Participant resided on the date of his death. Further, except as otherwise provided in a Participant's Award Agreement, a Participant's rights under an Award shall be exercisable during the Participant's lifetime only by the Participant or the Participant's guardian or legal representative.

ARTICLE 11 MANAGEMENT SHARE PURCHASE PLAN

11.1 Share Purchase Rights. Share Purchase Rights may be granted to Participants upon such terms as are consistent with this Plan, and at any time and from time to time, as shall be determined by the Board. Share Purchase Rights allow Eligible Participants to forego the receipt of all or a portion of cash compensation (including bonuses and, in the case of non-employee Directors, annual retainers and meeting fees) and to receive such compensation in the form of Shares or Restricted Stock Units. Such Shares or RSUs available for purchase will be subject to any restrictions deemed appropriate by the Board, as set forth in the Share Purchase Agreement.

11.2 Share Purchase Agreement. When the Board determines to award Share Purchase Rights to an Eligible Participant, it shall deliver a Share Purchase Agreement to the Eligible Participant setting forth all of the terms, conditions and restrictions related to the Award, including the amount of compensation that the Eligible Participant may defer for the Share or RSU purchase, the price per Share or RSU to be paid, the vesting schedule, and the time within which the Eligible Participant must accept the Award. The Agreement shall also set forth the terms of any Company matching contribution to be paid in the form of additional Shares or RSUs. The Award shall be accepted by execution and delivery of the Share Purchase Agreement in the form and by the time determined by the Board.

11.3 Repurchase Option. The Share Purchase Agreement may grant the Company an option to repurchase Shares or RSUs that have not vested, exercisable upon the voluntary or involuntary termination of the purchaser's service with the Company for any reason (including death or disability). The purchase price for Shares or RSUs so repurchased shall be the original price paid by the Participant and may be paid by cancellation of any indebtedness owed by the Participant to the Company.

11.4 Transferability. Rights to purchase Shares or RSUs under a Share Purchase Agreement shall be transferable by the Participant only upon such terms and conditions as are set forth in the Share Purchase Agreement; provided, however, that the transferability of Shares or RSUs purchased pursuant to the Agreement shall remain subject to any restrictions applicable to those Shares or RSUs as set forth in the Share Purchase Agreement.

ARTICLE 12 PERFORMANCE MEASURES

Until the Board proposes for stockholder vote and stockholders approve a change in the general Performance Measures set forth in this Article 12, the attainment of which may determine the degree of payout and/or vesting with respect to Named Executive Officers' Awards that are intended to qualify under the performance-based compensation provisions of Code Section 162(m), the Performance Measure(s) to be used for purposes of such Awards shall be chosen from among the following: earnings, earnings per share, consolidated pre-tax earnings, net earnings, operating income, EBIT (earnings before interest and taxes), EBITDA (earnings before interest, taxes, depreciation and amortization), gross margin, revenues, revenue growth, market value added, economic value added, return on equity, return on investment, return on assets, return on net assets, return on capital employed, return on sales, total stockholder return, profit, economic profit, capitalized economic profit, after-tax profit, pre-tax profit, cash flow measures, cash flow return, sales, sales volume, inventory turnover ratio, stock price, cost, and/or unit cost, or any function of any of the foregoing factors. The Board can establish other Performance Measures for performance Awards granted to Eligible Participants that are not Named Executive Officers. For any Performance Period, the targeted level or levels of performance with respect to chosen Performance Measures may be established on an absolute basis or relative to a group of peer companies selected by the Board, relative to internal goals or relative to levels attained in prior years.

The Board shall be authorized to make adjustments in performance based criteria or in the terms and conditions of other Awards in recognition of unusual or nonrecurring events affecting the Company or its financial statements or changes in Applicable Law or accounting principles. The Board shall also have the discretion to adjust the determinations of the degree of attainment of the pre-established Performance Measures. Notwithstanding the foregoing, with respect to Awards which are intended to qualify for the performance-based compensation exception from the deductibility limitations of Code Section 162(m), and which are held by Named Executive Officers, (i) the amount of compensation payable under any such Award may not be adjusted upward, but the Board shall retain the discretion to adjust such Awards downward, and (ii) the Board may not adjust any such Award's targeted level of attainment of Performance Measures after the first 90 days of the Award's Performance Period, except, in either case, as a result of adjustments permitted by this paragraph and Code Section 162(m) and the regulations promulgated

thereunder.

If applicable tax and/or securities laws change to permit Board discretion to alter the governing Performance Measures without obtaining stockholder approval of such changes, the Board shall have sole discretion to make such changes without obtaining stockholder approval. In addition, if the Board determines that it is advisable to grant Awards which shall not qualify for the performance-based compensation exception from the deductibility limitations of Code Section 162(m), the Board may make such grants without satisfying the requirements of Code Section 162(m).

ARTICLE 13 BENEFICIARY DESIGNATION

Each Participant under the Plan may, from time to time, name any beneficiary or beneficiaries (who may be named contingently or successively) to whom any benefit under the Plan is to be paid in case of his or her death before he or she receives any or all of such benefit. Each such designation shall revoke all prior designations by the same Participant, shall be in a form prescribed by the Board, and will be effective only when filed by the Participant in writing with the Board during the Participant's lifetime. In the absence of any such designation, benefits remaining unpaid at the Participant's death shall be paid to the Participant's estate.

ARTICLE 14 DEFERRALS

To the extent set forth in the Agreement evidencing an Award, the Board may permit or require a Participant to defer under this Plan or to a separate deferred compensation arrangement of the Company such Participant's receipt of the payment of cash or the delivery of Shares that would otherwise be due to such Participant by virtue of the exercise of an Option, SAR, or Share Purchase Right, the lapse or waiver of restrictions with respect to Restricted Stock, the conversion or vesting of Restricted Stock Units or Phantom Stock Units or the satisfaction of any requirements or goals with respect to Performance Shares or Other Stock-Based Awards. If any such deferral election is required or permitted, the Board shall, in its sole discretion, establish rules and procedures for such payment deferrals.

Notwithstanding anything in this Plan or any Agreement to the contrary, however, with respect to all compensation deferred under this Plan or any Agreement within the meaning of Section 409A(a)(1)(A) of the Code (other than Options lacking any deferral feature other than the feature that the Option holder has the right to exercise the Option in the future), whether by action of the Board or by the election of the Participant, this Plan incorporates and makes applicable to such deferred compensation the requirements of paragraphs (2), (3) and (4) of Section 409A(a) of the Code. If changes are made to Section 409A of the Code or regulations are promulgated thereunder, in either case to permit greater flexibility with respect to any Awards under the Plan that constitute deferred compensation, the Board may, subject to the requirements of Article 17, make any adjustments it deems appropriate.

ARTICLE 15 WITHHOLDING

15.1 Tax Withholding. The Company shall have the power and the right to deduct or withhold from any cash or property payable to a Participant under the Plan, or require a Participant to remit to the Company, an amount sufficient to satisfy Federal, state, and local taxes, domestic or foreign, required by law or regulation to be withheld with respect to any taxable event arising as a result of this Plan.

15.2 Share Withholding. With the consent of the Board, with respect to withholding required upon the exercise of Options, SARs or Share Purchase Rights, upon the lapse of restrictions on Restricted Stock, or upon any other taxable event arising from the Company's obligation to issue or transfer Shares to a Participant under the Plan, the Participant may satisfy the withholding requirement by having the Company withhold Shares having a Fair Market Value on the date the withholding obligation is incurred equal to the amount of tax required to be withheld with respect to the transaction, as determined by the Board. All such elections shall be subject to any restrictions or limitations that the Board, in its sole discretion, deems appropriate.

ARTICLE 16 FOREIGN EMPLOYEES

In order to facilitate the making of any grant of Awards under this Plan, the Board may provide for such special terms for Awards to Participants who are foreign nationals or who are employed by the Company or any Employer outside of the United States of America as the Board may consider necessary or appropriate to accommodate differences in local law, tax policy or custom, which special terms may be contained in an Appendix attached hereto. Moreover, the Board may approve such supplements to or amendments, restatements or alternative versions of this Plan as it may consider necessary or appropriate for such purposes, without thereby affecting the terms of this Plan as in effect for any other purpose, and the Secretary or other appropriate officer of the Company may certify any such document as having been approved and adopted in the same manner as this Plan. No such special terms, supplements, amendments or restatements, however, shall include any provisions that are inconsistent with the terms of this Plan as then in effect unless this Plan could have been amended to eliminate such inconsistency without further approval by the shareholders of the Company.

ARTICLE 17 AMENDMENT AND TERMINATION

17.1 Amendment of Plan. The Board may at any time terminate or from time to time amend the Plan in whole or in part, but no such action shall adversely affect any rights or obligations with respect to any Awards previously granted under the Plan, unless the affected Participants consent in writing. To the extent required by Applicable Law, no amendment shall be effective unless approved by the stockholders of the Company at an annual or special meeting. To the extent the Board deems it desirable to maintain the Plan's eligibility for the benefits of Code Section 162(m) or 422, the Board shall obtain stockholder approval of any Plan amendment to the extent necessary to comply with those provisions.

17.2 Amendment of Award Agreement. The Board may, at any time, without further action by the stockholders and without consent of or receiving further consideration from the affected Participants, amend outstanding Awards and Award Agreements in response to, or to comply with changes in, Applicable Law. To the extent not inconsistent with the terms of the Plan, the Board may, at any time, amend an outstanding Agreement in a manner that is not unfavorable to the Participant without the consent of such Participant. The Board may amend Awards and Award Agreements otherwise with the written consent of the Participant. Notwithstanding the above provision, the Board shall not have the authority to decrease the Option Price of any outstanding Option or the exercise price of any outstanding SAR, or to permit the exchange of any Option or SAR for an Option or SAR with a lower Option Price or exercise price, except in accordance with Section 4.3, without the prior approval of the holders of a majority of the Company's Shares present in person or by proxy and voting at a duly called meeting of the stockholders of the Company.

17.3 Termination of Plan. No Awards shall be granted under the Plan later than 10 years after the Effective Date; provided, however, that the Plan and all Awards made under the Plan prior to such date shall remain in effect until such Awards have been satisfied or terminated in accordance with the Plan and the terms of such Awards.

17.4 Cancellation of Awards. The Board may provide in the Award Agreement that if a Participant engages in any Detrimental Activity (as defined below) during the period that a Participant is employed by the Company or during the two year period following the Participant's voluntary termination of employment or his termination by the Company for Cause (as defined in Section 2.5 above), the Board may, notwithstanding any other provision in this Plan to the contrary, (i) cancel, rescind, suspend, withhold or otherwise restrict or limit any unexpired, unexercised, unpaid or deferred Award as of the first date the Participant engages in the Detrimental Activity, unless sooner terminated by operation of another term of this Plan or any other Agreement, and (ii) with respect to any exercised or paid Award, require the Participant, upon 30 days' written notice from the Company, to return to the Company, in immediately available funds, the excess of the fair market value of the Shares subject to the Award as of the date of exercise or receipt over the total price paid by the Participant for such Shares.

For purposes of this Section, engaging in Detrimental Activity means that the Participant, without the prior written consent of the Board, directly or indirectly, as employee, agent, consultant, stockholder, director, co-partner or in any other individual or representative capacity, owns, operates, manages, controls, engages in, invests in or participates in any manner in, acts as a consultant or advisor to, renders services for, or otherwise assists any person or entity that directly or indirectly engages in, the business of producing, marketing, distributing or selling poultry or processed

food products anywhere that the Company is then doing business. Detrimental Activity shall not include the passive investment by the Participant in publicly traded common equity of any entity that is engaged

in the business of producing, marketing, distributing or selling poultry or processed food products so long as such investment does not exceed two percent of the outstanding common equity of such entity. The determination of whether a Participant has engaged in Detrimental Activity shall be determined by the Board in good faith and in its sole discretion, and any such determination by the Board shall be final and binding on the Participant. The Board may in any Agreement change the definition of Detrimental Activity to the extent necessary to comply with Applicable Law.

17.5 Adjustments Upon Change in Control and Other Events. Subject to compliance with the applicable requirements of paragraphs (2), (3) and (4) of Section 409A(a) of the Code in the case of any Award that constitutes compensation deferred under the Plan within the meaning of Section 409A(a)(1) of the Code, the Board may provide in the Agreement for any Award for automatic accelerated vesting, lapse of any restrictions and any other rights upon the occurrence of a Change in Control of the Company or upon the occurrence of other events as specified in the Agreement, which rights may or may not be conditioned on a successor corporation's failure to assume the Award or issue an equivalent award.

ARTICLE 18 MISCELLANEOUS PROVISIONS

18.1 Restrictions on Shares. All certificates for Shares delivered under the Plan shall be subject to such stop-transfer orders and other restrictions as the Board may deem advisable under Applicable Law, and the Board may cause a legend or legends to be placed on any such certificates to make appropriate reference to such restrictions. In making such determination, the Board may rely upon an opinion of counsel for the Company.

18.2 Rights of a Stockholder. Except as otherwise provided in Article 7 of the Plan and in the Restricted Stock Agreement, each Participant who receives an Award of Restricted Stock shall have all of the rights of a stockholder with respect to such Shares, including the right to vote the Shares to the extent, if any, such Shares possess voting rights and receive dividends and other distributions. Except as provided otherwise in the Plan or in an Agreement, no Participant awarded an Option, Stock Appreciation Right, Restricted Stock Unit, Phantom Stock Unit, Performance Share, Other Stock-Based Award or Share Purchase Right shall have any right as a stockholder with respect to any Shares covered by such Award prior to the date of issuance to him or her of a certificate or certificates for such Shares.

18.3 No Implied Rights. Nothing in the Plan or any Award granted under the Plan shall confer upon any Participant any right to continue in the service of the Employer, or to serve as a Director thereof, or interfere in any way with the right of the Employer (except as it may otherwise be limited by a written agreement between the Company and the Participant) to terminate the Participant's employment or other service relationship for any reason at any time. Unless agreed by the Board, no Award granted under the Plan shall be deemed salary or compensation for the purpose of computing benefits under any employee benefit plan, severance program, or other arrangement of the Employer for the benefit of its employees. No Participant shall have any claim to an Award until it is actually granted under the Plan. To the extent that any person acquires a right to receive payments from the Company under the Plan, such right shall, except as otherwise provided by the Board, be no greater than the right of an unsecured general creditor of the Company.

18.4 Non-Uniform Determinations. The Board's determinations under the Plan (including without limitation determinations of the Eligible Participants to receive Awards, the form, amount and timing of such Awards, the terms and provisions of such Awards and the Agreements evidencing Awards) need not be uniform and may be made by it selectively among Participants and Eligible Participants, whether or not such persons are similarly situated.

18.5 Compliance with Laws.

(a) To the extent that the Board intends an Award to qualify as performance-based compensation for purposes of Section 162(m)(4)(C) of the Code, it must be granted subject to the achievement of Performance Measures as described in Article 12 of the Plan and all other requirements of said Code Section 162(m)(4)(C) must be satisfied. In addition, if changes are made to Code Section 162(m) to permit greater flexibility with respect to any Awards under the Plan, the Board may, subject to the requirements of Article 17, make any adjustments it deems appropriate.

(b) The Plan and the grant of Awards shall be subject to all Applicable Law and to such approvals by any United States government or regulatory agency as may be required. Any provision herein relating to compliance with Rule 16b-3 under the Exchange Act shall not be applicable with respect to participation in the Plan by Participants who are not Insiders.

(c) Notwithstanding any other provision of the Plan, the Company shall have no liability to deliver any Shares under the Plan or make any other distribution of the benefits under the Plan unless such delivery or distribution would comply with all Applicable Laws (including, without limitation, the requirements of the Securities Act of 1933).

(d) Each Award under the Plan shall be subject to the requirement that, if at any time the Board shall determine that (i) the listing, registration or qualification of the Shares subject or related thereto upon any securities exchange or under any Applicable Law, or (ii) the consent or approval of any government regulatory body, or (iii) an agreement by the grantee of an Award with respect to the disposition of Shares, is necessary or desirable as a condition of, or in connection with, the granting of such Award or the issue or purchase of Shares thereunder, such Award may not be consummated in whole or in part unless such listing, registration, qualification, consent, approval or agreement shall have been effected or obtained free of any conditions not acceptable to the Board.

(e) As a condition to the issuance or transfer of any Shares pursuant to any Award, the Board may require the Participant to represent and warrant at the time of such issuance or transfer that the Shares are being acquired only for investment and without any current intention to sell or distribute such Shares, if, in the opinion of counsel for the Company, such a representation is advisable.

18.6 Successors. The terms of the Plan shall be binding upon the Company, and its successors and assigns.

18.7 Tax Elections. Each Participant agrees to give the Board prompt written notice of any election made by such Participant under Code Section 83(b) or any similar provision thereof.

18.8 Legal Construction.

(a) **Severability.** If any provision of this Plan or an Agreement is or becomes or is deemed invalid, illegal or unenforceable in any jurisdiction, or would disqualify the Plan or any Agreement under any law with respect to which the Plan is intended to qualify, , such provision shall be construed or deemed amended to conform to Applicable Law or, if it cannot be construed or deemed amended without, in the determination of the Board, materially altering the intent of the Plan or the Agreement, it shall be stricken and the remainder of the Plan or the Agreement shall remain in full force and effect.

(b) **Compliance with Section 409A of the Code.** All Awards granted under the Plan are intended to be either exempt from the requirements of Section 409A of the Code or, if not exempt, to satisfy the requirements of Section 409A (including the Treasury Department guidance and regulations issued thereunder), and the Plan shall be administered, construed and interpreted in accordance with such intent. If the Board determines that an Award, Agreement, payment, transaction or any other action or arrangement contemplated by the provision of this Plan would, if undertaken, cause a Participant to become subject to any additional taxes or other penalties under Section 409A, then unless the Board specifically provides otherwise, such Award, Agreement, payment, transaction or other action or arrangement shall not be given effect to the extent that it causes such result and the related provision of the Plan or Agreement will be deemed modified or, if necessary, suspended in order to comply with the requirements of Section 409A of the Code to the extent determined appropriate by the Board, in each case without the consent of or

notice to the Participant. In any case, a Participant will be solely responsible and liable for the satisfaction of all taxes and penalties that may be imposed on a Participant in connection with Awards (including any taxes and penalties under Section 409A) and the Company will have no obligation to indemnify or otherwise hold a Participant harmless from any or all of such taxes or penalties.

In addition, notwithstanding any other provision of the Plan or an Agreement to the contrary, the Company will not pay or accelerate the payment of any amount that constitutes deferred compensation within the meaning of Section 409A in violation of Section 409A. To the extent any amount of deferred compensation would otherwise vest and become payable upon a Change in Control or upon a Disability, as set forth herein or in an Agreement, any such Award may vest but payment shall not be accelerated unless the Change in Control also satisfies the definition of change in the ownership change in the effective control and/or change in the ownership of a substantial portion of the assets of the Company as those terms are defined in Treasury Regulations Section 1.409A-3(i)(5) (or such other regulation or guidance issued under Section 409A) or the Disability also satisfies the definition of disability as that term is defined in Treasury Regulations Section 1.409A-3(i)(4) (or such other regulation or guidance issued under Section 409A).

Any amount that constitutes deferred compensation within the meaning of Section 409A and is payable under the Plan or an Agreement solely by reason of a Participant's termination of employment shall be payable only if the Participant has experienced a separation from service within the meaning of Section 409A (or the regulations or guidance issued under Section 409A), provided that if the Participant is a specified employee within the meaning of Section 409A at the time of such separation from service, as determined by the Board in accordance with Section 409A, no payments shall be made before the six-month anniversary of the Participant's separation from service, at which time all payments that would otherwise have been made during such six-month period shall be paid to the Participant in a lump sum.

(c) Gender and Number. Where the context admits, words in any gender shall include the other gender, words in the singular shall include the plural and words in the plural shall include the singular.

(d) Governing Law. To the extent not preempted by federal law, the Plan and all Agreements hereunder shall be construed in accordance with and governed by the laws of the State of Mississippi.

18.9 Plan Year. The Plan Year shall be a calendar year.

IN WITNESS WHEREOF, this Plan is executed as of this the ____ day of _____, 2011.
