The9 Limited Reports Third and Fourth Quarter 2010 Unaudited Financial Results

Shanghai, China April 7, 2011. The9 Limited (NASDAQ: NCTY) (The9), an online game operator and developer in China, announced its unaudited financial results for the quarters ended September 30 and December 31, 2010 today.

Financial Highlights:

Third Quarter 2010

Net revenues for the third quarter of 2010 increased by 4.8% quarter-over-quarter and increased by 4.3% year-over-year to RMB26.6 million (US\$4.0 million).

Net loss for the third quarter of 2010 increased by 4.1% quarter-over-quarter but decreased by 6.9% year-over-year to RMB68.5 million (US\$10.4 million).

Fourth Quarter 2010

Net revenues for the fourth quarter of 2010 increased by 8.2% quarter-over-quarter and increased by 37.7% year-over-year to RMB28.8 million (US\$4.4 million).

Net loss for the fourth quarter of 2010 increased by 322.3% quarter-over-quarter and increased by 40.8% year-over-year to RMB289.5 million (US\$43.9 million), which was mainly due to the non-cash impairment loss on an equity investment in a Korean online game developer and operator, amounting to RMB184.9 million (US\$28.0 million).

Management Comments:

Commenting on the results of the second half of 2010, Jun Zhu, Chairman and Chief Executive Officer of The9 said,

The second half of 2010 was a critical period for The9 to implement its global strategy. Thanks to the effort of all our employees, our global strategy has been thoroughly implemented in many aspects. First of all, our subsidiary based in California, Red 5 Studios, Inc. (Red 5), has been making good progress with Firefall, a promising and exciting FPS title expected to be launched in the U.S. in the fourth quarter of this year. Secondly, ShenXianZhuan, developed by our consolidated variable interest entity Hangzhou Fire Rain Network Technology Co., Limited (Fire Rain), will be launched in the domestic market in China in the third quarter of this year. Moreover, our mobile business has been gradually formed and we expect to launch The9 Game Center in the second quarter of this year. On top of that, our other new businesses started to generate more revenues, including web, SNS and IPTV games. Although today The9 is still incurring a loss, we hope to turn around in the near future as long as we stick to our global strategy.

Discussion of The9's Unaudited Third and Fourth Quarter 2010 Results

Revenues

For the third quarter of 2010, reported total net revenues were RMB26.6 million (US\$4.0 million), which increased by 4.8% compared to RMB25.4 million (US\$3.8 million) in the second quarter of 2010 and increased by 4.3% compared to RMB25.5 million in the third quarter of 2009. The quarter-over-quarter increase was primarily due to an increase in revenue stream from web and IPTV games which was partly offset by a slight decrease in revenue from several online games. The year-over-year increase was mainly due to the same reason.

For the fourth quarter of 2010, The9 reported total net revenues of RMB28.8 million (US\$4.4 million), which increased by 8.2% compared to RMB26.6 million (US\$4.0 million) in the third quarter of 2010 and increased by 37.7% compared to RMB20.9 million in the fourth quarter of 2009. The quarter-over-quarter increase was primarily due to increased revenue generated from the online game Kingdom Heroes 2 Online and web games. The year-over-year increase was primarily due to increased revenue generated from the online games World of Fighter and Kingdom Heroes 2 Online commercially launched this year, partly offset by a slight decrease in revenue from several other online games.

Gross Profit (Loss)

Gross profit for the third quarter of 2010 was RMB0.8 million (US\$0.1 million) compared to gross loss of RMB4.6 million (US\$0.7 million) in the second quarter of 2010 and gross loss of RMB8.1 million in the third quarter of 2009. The quarter-over-quarter difference was mainly because there was an impairment of prepaid royalties in the second quarter while there was no such impairment in the third quarter. The year-over-year difference was mainly contributed by the successful cost control in 2010.

Gross profit for the fourth quarter of 2010 was RMB1.6 million (US\$0.2 million) compared to gross profit of RMB0.8 million (US\$0.1 million) in the third quarter of 2010 and gross loss of RMB76.0 million in the fourth quarter of 2009. The significant gross loss in fourth quarter of 2009 was mainly due to the impairment of prepaid royalties, deferred costs and withholding tax of certain games while no such cost occurred in the fourth quarter of 2010.

Operating Expenses

For the third quarter of 2010, operating expenses were RMB79.0 million (US\$12.0 million), representing a 5.3% increase from RMB75.0 million (US\$11.4 million) in the second quarter of 2010 and a 27.7% decrease from RMB109.2 million in the third quarter of 2009. The quarter-over-quarter increase was primarily due to increased marketing expenses for Firefall and ShenXianZhuan, as well as increased general and administrative expenses mainly due to the increased overhead for Red 5. Those increases in expenses were partially offset by the decrease in share-based compensation. The year-over-year decrease was primarily due to the decrease in share-based compensation and professional fees included in general and administrative expenses.

For the fourth quarter of 2010, operating expenses were RMB118.7 million (US\$18.0 million), representing a 50.3% increase from RMB79.0 million (US\$12.0 million) in the third quarter of 2010 and a 17.7% decrease from RMB144.2 million in the fourth quarter of 2009. The quarter-over-quarter increase was primarily due to (i) the impairment of licensing fees and equipment, which amounted to RMB37.9 million (US\$5.7 million) in the fourth quarter of 2010, while no such impairment occurred in the third quarter of 2010; and (ii) the increase in share-based compensation for additional equity awards granted in the fourth quarter of 2010. The year-over-year decrease was primarily due to the decrease in impairment loss of licensing fees and equipment.

For the fourth quarter of 2010, share-based compensation was RMB8.5 million (US\$1.3 million), compared to RMB2.1 million (US\$0.3 million) in the third quarter of 2010 and RMB13.9 million in the fourth quarter of 2009. The quarter-over-quarter increase was primarily due to additional equity awards granted, which will vest if The9 achieves certain income performance targets and the Company believes the achievement is probable. The year-over-year decrease was primarily due to the full amortization of share-based compensation expense for certain vested stock options.

Interest Income

Interest income for the third quarter of 2010 was RMB5.6 million (US\$0.8 million), compared to RMB5.4 million (US\$0.8 million) in the second quarter of 2010 and RMB7.2 million in the third quarter of 2009. Interest income for the fourth quarter of 2010 was RMB5.8 million (US\$0.9 million), compared to RMB5.6 million (US\$0.8 million) in the third quarter of 2010 and RMB7.4 million in the fourth quarter of 2009. The quarter-over-quarter increase was primarily due to increase in bank interest rate. The year-over-year decrease of interest income was primarily due to decrease in cash balances.

Other (Expenses) Income, net

Other expenses for the third quarter of 2010 was RMB0.1 million (US\$0.02 million), compared to other expenses of RMB1.0 million (US\$0.2 million) in the second quarter of 2010 and other income of RMB56.0 million in the third quarter of 2009. Other expenses in the third and second quarters of 2010 mainly represented exchange loss. Other income in the third quarter of 2009 mainly represented a government subsidy amounting to RMB54.2 million.

Other income for the fourth quarter of 2010 was RMB22.6 million (US\$3.4 million), compared to other expenses of RMB0.1 million (US\$0.02 million) in the third quarter of 2010 and other income of RMB6.1 million in the fourth quarter of 2009. Other income in the fourth quarter of 2010 mainly represented a government subsidy amounting to RMB23.0 million (US\$3.5 million).

Impairment Loss on Investment

In the fourth quarter of 2010, we recognized an impairment loss on investment of RMB196.1 million (US\$29.7 million), while there was no such impairment loss in the third quarter of 2010 and RMB10.3 million in the fourth quarter of 2009. The impairment loss was mainly related to the equity investment in a Korean online game developer and operator that did not perform as satisfactorily as was expected. We are entitled to receive RMB 66.2 million (US\$10.0 million) from this Korean online game developer and operator as the investment price adjustment and wrote down the remaining carrying amount to its estimated fair value as of December 31, 2010.

Net (Loss) Income attributable to ordinary shareholders

For the third quarter of 2010, net loss attributable to ordinary shareholders was RMB68.5 million (US\$10.4 million), representing a 4.1% increase from the net loss attributable to ordinary shareholders of RMB65.8 million (US\$10.0 million) in the second quarter of 2010 and a 6.9% decrease from the net loss attributable to ordinary shareholders of RMB73.6 million in the third quarter of 2009.

Fully diluted loss per share and per ADS for the third quarter of 2010 was RMB2.73 (US\$0.41), compared with RMB2.62 (US\$0.40) in the second quarter of 2010 and RMB2.93 in the third quarter of 2009.

For the fourth quarter of 2010, net loss attributable to ordinary shareholders was RMB289.5 million (US\$43.9 million), which increased by 322.3% from the net loss attributable to ordinary shareholders of RMB68.5 million (US\$10.4 million) in the third quarter of 2010 and increased by 40.8% from the net loss attributable to ordinary shareholders of RMB205.5 million in the fourth quarter of 2009.

Fully diluted loss per share and per ADS for the fourth quarter of 2010 was RMB11.52 (US\$1.75), compared with RMB2.73 (US\$0.41) in the third quarter of 2010 and RMB8.18 in the fourth quarter of 2009.

Currency Convenience Translation

The conversion of Renminbi (RMB) into US dollars (US\$) in this press release is based on the noon buying rate in the City of New York for cable transfers in Renminbi per U.S. dollar as certified for customs purposes by the Federal Reserve Bank of New York as of December 30, 2010, which was RMB6.6000 to US\$1.00. The percentages stated in this press release are calculated based on the RMB amounts.

Measurement Period Adjustment on Purchase Accounting

In April 2010, we acquired a controlling interest in Red 5 and recognized preliminary provisional purchase price allocation amounts relating to acquired intangible assets, goodwill, deferred revenue, deferred tax liabilities and non-controlling interest. As of December 31, 2010, we received further information that existed on the acquisition date and completed our final purchase price allocations, which resulted in our provisional purchase price amounts being adjusted. Such adjustment are allowed pursuant to FASB Accounting Standards Codification 805, Business Combinations, in which companies may record preliminary provisional amounts which can be adjusted during the measurement period not exceeding one year from the acquisition date.
