**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** continued

**Foreign Currency transactions:** Transactions in foreign currencies are measured and recorded in Singapore dollars using the exchange rate in effect at the date of the transaction. **Impairment of assets:** Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognised in income and expenditure statement for items of assets carried at cost. The recoverable amount is the higher of an asset's net selling price and value in use. The net selling price is the amount obtainable from the sale of an asset in an arm's length transaction. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit.

Reversal of an impairment loss recognised in prior years is recorded when there is an indication that the impairment loss recognised for an asset no longer exists or has decreased. The reversal is recorded in income and expenditure or as a revaluation increase.

**Stocks:** Stocks are stated at the lower of cost or estimated net realisable value calculated on weighted average basis. Net realisable value is the price at which the stocks can be realised in the normal course of business after allowing for the cost of realisation. Provision is made where necessary for obsolete, slow-moving and defective stocks.

**NOTES TO UNAUDITED PROFORMA  
CONDENSED COMBINED FINANCIAL STATEMENTS**

- (A) To record the purchase of SeaMap for \$2.9 million in cash and \$3.0 million issued in promissory notes payable to the former shareholders of SeaMap. This adjusted amount has been reduced from the actual purchase price of \$6.5 million to reflect the increase in net assets of SeaMap from the balance sheet date to the acquisition date of July 12, 2005. The difference between the purchase price and the fair value of assets acquired and liabilities assumed has been recorded as goodwill.

The following is a summary of the preliminary allocations of the aggregate adjusted purchase price to the estimated fair values of the assets acquired and liabilities assumed at the respective date of acquisition (in thousands):

Current assets	\$	3,186
Equipment	\$	82
Current liabilities		(2,692)
Long term debt		(3)
Goodwill		5,304
Acquisition costs	\$	39
Excess of purchase price over fair value of assets acquired and liabilities assumed	\$	5,916

Transaction costs of \$39,000 are included in the Unaudited Pro Forma Condensed Combined Balance Sheet. These one-time costs are not reflected in the Unaudited Pro Forma Condensed Combined Statements of Operations since the charges are non recurring in nature.

- (B) To record the increased interest expense associated with the \$3.0 million promissory notes bearing interest at 5 percent issued in connection with the acquisition.

Note: The pro forma results of operations do not include any anticipated combination benefits from the elimination of manufacturing, engineering, sales and administrative costs.
