ABOUT ENERGY PARTNERS, LTD.

We are an independent oil and natural gas exploration and production company focused on the shallow to moderate depth waters of the Gulf of Mexico Shelf. We concentrate on the Gulf of Mexico Shelf region because that area provides us with favorable geologic and economic conditions, including multiple reservoir formations, regional economies of scale, extensive infrastructure and comprehensive geologic databases. We believe that this region offers a balanced and expansive array of existing and prospective exploration, exploitation and development opportunities in both established productive horizons and deeper geologic formations. As of December 31, 2002, we had estimated proved reserves of approximately 127.0 billion cubic feet of natural gas and 26.4 million barrels of oil, or an aggregate of approximately 47.5 million barrels of oil equivalent, with a present value of estimated pre-tax future net cash flows of \$608.3 million, and of estimated after-tax future net cash flows of \$476.9 million based upon year-end 2002 prices and a discount rate of 10%.

Since our incorporation in January 1998 by Richard A. Bachmann, our founder, chairman, president and chief executive officer, we have assembled a team of geoscientists and management professionals with considerable region-specific geological, geophysical, technical and operational experience. We have grown through a combination of exploration, exploitation and development drilling and multi-year, multi-well drill-to-earn programs, as well as strategic acquisitions of mature oil and natural gas fields in the Gulf of Mexico Shelf area, and in particular the acquisition of Hall-Houston Oil Company ("Hall-Houston") in early 2002.

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

Our strategy is to grow our reserves and production through a balanced investment program including low risk exploitation and development activities in and around our existing fields and moderate risk exploration activities in the shallow to moderate depth waters of the central region of the Gulf of Mexico Shelf. A limited amount of our exploration budget each year will be allocated to higher risk, higher potential exploration prospects in this region.

Our principal executive offices are located at 201 St. Charles Avenue, Suite 3400, New Orleans, Louisiana 70170. Our telephone number is (504) 569-1875. We also maintain a web site at www.eplweb.com which contains information about us, including links to our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and related amendments. Our web site and the information contained in it and connected to it shall not be deemed incorporated by reference into this prospectus supplement or in the accompanying prospectus.

COMPETITIVE STRENGTHS AND BUSINESS STRATEGY

TRACK RECORD OF RESERVE AND PRODUCTION GROWTH. Over the past three years, from December 31, 1999 to December 31, 2002, we have increased our estimated year-end proved reserves from 5.9 Mmboe to 47.5 Mmboe and increased our annual average daily production from 1,431 Boe to 17,173 Boe. This growth has been a result of our successful drilling activities and acquisitions of producing properties, including those of Hall-Houston.

LARGE PROSPECT INVENTORY AND HISTORY OF SUCCESSFUL DRILLING ACTIVITIES. As of June 30, 2003, we had more than 80 exploratory prospects and leads identified on our existing acreage. During 2002, we drilled 15 prospects and achieved an 80% success rate for these exploratory wells. We currently have budgeted to drill at least 24 prospects in 2003. As of October 31, 2003, we had drilled wells on eleven of these prospects, nine of which resulted in discoveries.

EXPERIENCED MANAGEMENT AND TECHNICAL TEAMS. Led by Richard A. Bachmann, our senior management and technical teams have extensive experience. As of June 30, 2003, our senior management team had an average of 25 years of oil and natural gas industry experience and beneficially owned 16% of our common stock. Our technical team at June 30, 2003 included 25 geoscientists and engineers with an average of 22 years of region specific experience in their technical fields.

S-3

GULF OF MEXICO SHELF FOCUS. By focusing on the Gulf of Mexico Shelf region, primarily in the waters offshore from Louisiana and Texas, we have been able to accumulate substantial geological and reservoir data and operating experience, which we believe provides us with a significant competitive advantage. We also believe that this region's extensive infrastructure and favorable geologic conditions with multiple known oil and natural gas producing reservoirs will allow us to achieve attractive returns on our investments.

RISK-BALANCED EXPLORATION, EXPLOITATION AND DEVELOPMENT PROGRAM. We intend to allocate approximately 65% of our capital budget on an annual basis to low risk exploitation and development activities, approximately 25% to moderate risk exploration opportunities and approximately 10% to higher risk, higher potential exploration opportunities. Our capital budget does not include acquisitions.

DISCIPLINED ACQUISITION STRATEGY. Many integrated and large independent energy companies are currently redirecting human and financial resources away from the Gulf of Mexico Shelf area to the deepwater Gulf of Mexico and other areas around the world that have more material growth potential relative to

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

their large existing asset bases. We believe this trend will continue and will provide us with opportunities to acquire Gulf of Mexico Shelf assets at attractive rates of return. Using the expertise of our senior management team, we have developed and refined an acquisition program designed to evaluate these opportunities. Our engineers and geoscientists who manage our core properties use their expertise and experience on the Gulf of Mexico Shelf to target attractive acquisition opportunities. Following an acquisition, our technical staff seeks to enhance the value of new assets through our proven development and exploitation program.

CONSERVATIVE FINANCIAL RISK MANAGEMENT PROGRAM. We believe the maintenance of a conservative financial structure will position us to capitalize on opportunities as we identify them. We use a number of approaches to limit our financial risk. First, we strive to limit annual capital spending for exploration, exploitation and development activities to discretionary cash flow from operations, which we define as operating cash flow before changes in working capital plus total exploration expenditures. We typically only use our bank credit facility to balance working capital fluctuations and to support acquisition activities. Second, we set conservative guidelines to limit total leverage using a number of metrics to gauge appropriate debt levels, including our debt to total capitalization ratio, cash flow coverage ratios and debt per Boe of proved reserves. Finally, we engage in an active commodity price hedging program.

OPERATIONAL CONTROL. We seek to retain operatorship of the majority of our properties. Operatorship provides us with the opportunity to exercise greater control over the cost, timing and nature of our exploration, exploitation and development activities as well as to influence the timing and cost of plugging and abandonment activities. As of June 30, 2003, we operated approximately 89% of our production.

OUR PRINCIPAL OIL AND NATURAL GAS PROPERTIES

At March 31, 2003, we had interests in 21 producing fields and 4 fields under development, all of which are located in the Gulf of Mexico Shelf region. These fields fall into three focus areas which we identify as our Eastern, Central and Western areas. The Eastern area is comprised of two fields, including the East Bay field. The Central area is comprised of five fields, three of which are contiguous and together cover most of the Bay Marchand salt dome. The Western area is comprised of 14 producing fields and 4 under development consisting primarily of those acquired in the Hall-Houston acquisition.

PRICE STABILIZATION AND SHORT POSITIONS

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representatives may engage in transactions that stabilize the price of common stock, such as bids or purchases to peg, fix or maintain that price.

If the underwriters create a short position in the common stock in connection with the offering, i.e., if they sell more shares than are listed on the cover of this prospectus, the representatives may reduce that short position by purchasing shares in the open market. Purchases of the common stock to stabilize its price or to reduce a short position may cause the price of the common stock to be higher than it might be in the absence of such purchases.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters makes any representation that the representatives or the lead managers will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

From time to time some of the underwriters have provided investment banking and other advisory services to us for which they have received customary compensation. RISK FACTORS

You should consider carefully the following factors, as well as those discussed elsewhere in this prospectus. In addition to the factors below, please refer to the disclosure contained in our latest annual report on Form 10-K for the fiscal year ended December 31, 2002. Please read "Items 1 & 2. Business and Properties -- Regulatory Matters" and "-- Additional Factors Affecting Business" in our latest annual report for these risk factors. Please also read "Where You Can Find More Information."

THE MARKET PRICE OF OUR COMMON STOCK COULD BE ADVERSELY AFFECTED BY SALES OF SUBSTANTIAL AMOUNTS OF OUR COMMON STOCK IN THE PUBLIC MARKETS.

Our largest stockholders, Evercore Capital Partners L.P. and affiliates ("Evercore"), Energy Income Fund, L.P. and Richard A. Bachmann, our chairman, president and chief executive officer, could sell a substantial number of shares of our common stock in the public market, either pursuant to exemptions afforded to affiliates under Rule 144 under the Securities Act of 1933, as amended (the "Securities Act") or pursuant to an effective registration statement. Evercore and Energy Income Fund, L.P. together sold approximately 3,600,000 shares in a public offering in April 2003 and Evercore sold an additional 2,500,000 shares in a public offering in August 2003 and may sell all of its remaining 4,544,572 shares pursuant to this prospectus. Affiliates may sell under Rule 144 of the Securities Act the greater of 1% of the number of shares of common stock then outstanding and the average weekly trading volume of our common stock on the New York Stock Exchange during the four calendar weeks preceding the filing of a required notice of such sale. Such sales by our largest stockholders, sales by other securityholders or the perception that such sales might occur, could have a material adverse effect on the price of our common stock or could impair our ability to obtain capital through an offering of equity securities.

Additionally, in connection with the acquisition of Hall-Houston Oil Company ("Hall-Houston"), we issued warrants and Series D exchangeable convertible preferred stock that as of September 30, 2003 can be exchanged or exercised for a total of up to approximately 8,290,000 shares of our common stock. All of the common stock underlying the warrants and Series D preferred stock are freely tradable upon resale pursuant to a prospectus filed with the Securities and Exchange Commission. Also in connection with our acquisition of Hall-Houston, we entered into an earnout agreement which, depending on the performance of the oil and natural gas properties subject to the agreement, could obligate us to issue up to \$40,000,000 market value of our common stock to the participants in the agreement, and such common stock is required to be publicly registered under the agreement.

THE MARKET PRICE OF OUR COMMON STOCK HAS EXPERIENCED SUBSTANTIAL VOLATILITY AND MAY CONTINUE TO DO SO IN THE FUTURE.

Since our initial public offering in November 2000 at a price of \$15.00 per share, the trading price for our common stock on the New York Stock Exchange has declined to \$11.62 as of October 20, 2003. The market price of our common stock may not exceed or even remain at current levels. The following factors may have an adverse impact on the market price of our common stock:

- lack of success in our drilling activities, including exploratory drilling;
- fluctuations in oil and natural gas prices;
- market conditions for oil and natural gas stocks;

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

- market conditions generally;
- governmental regulation; and
- fluctuations in our operating results.

1

CONTROL BY PRINCIPAL STOCKHOLDER.

Our principal stockholder, Evercore Capital Partners L.P., together with its affiliates ("Evercore"), beneficially owns approximately 14.1% of our outstanding shares of common stock and Evercore is entitled to nominate two of our nine directors. Evercore's approval is required to take a number of corporate actions, including making acquisitions, selling assets, adopting or amending capital and operating budgets, incurring indebtedness, increasing compensation, issuing our stock, declaring dividends, engaging in hedging transactions and entering joint ventures. As a result, Evercore is in a position to control or influence substantially the manner in which our business is operated and the outcome of stockholder votes on the election of directors and other matters. Our Stockholder Agreement, and Evercore's right to nominate two of our nine directors and approve such actions, terminates when Evercore and its affiliates own less than 10% of our outstanding common stock on a fully diluted basis.

PROVISIONS IN OUR ORGANIZATIONAL DOCUMENTS AND UNDER DELAWARE LAW COULD DELAY OR PREVENT A CHANGE IN CONTROL OF OUR COMPANY, WHICH COULD ADVERSELY AFFECT THE MARKET PRICE OF OUR COMMON STOCK.

The existence of some provisions in our organizational documents and under Delaware law could delay or prevent a change in control of our company, which could adversely affect the market price of our common stock. The provisions in our certificate of incorporation and bylaws that could delay or prevent an unsolicited change in control of our company include:

- the board of directors' ability to issue shares of preferred stock and determine the terms of the preferred stock without securityholder approval; and
- a prohibition on the right of securityholders to call meetings and a limitation on the right of securityholders to act by written consent and to present proposals or make nominations at securityholder meetings.

In addition, Delaware law imposes some restrictions on mergers and other business combinations between us and any holder of 15% or more of our outstanding common stock. Evercore is generally exempted from these provisions.

2

OUR COMPANY

We are an independent oil and natural gas exploration and production company focused on the shallow to moderate depth waters of the Gulf of Mexico Shelf. We concentrate on the Gulf of Mexico Shelf region because that area provides us with favorable geologic and economic conditions, including multiple reservoir formations, regional economies of scale, extensive infrastructure and comprehensive geologic databases. We believe that this region offers a balanced and expansive array of existing and prospective exploration, exploitation and

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

development opportunities in both established productive horizons and deeper geologic formations. As of December 31, 2002, we had estimated proved reserves of approximately 127.0 billion cubic feet of natural gas and 26.4 million barrels of oil, or an aggregate of approximately 47.5 million barrels of oil equivalent, with a present value of estimated pre-tax future net cash flows of \$608.3 million, and of estimated after-tax future net cash flows of \$476.9 million based upon year-end 2002 prices and a discount rate of 10%.

Since our incorporation in January 1998 by Richard A. Bachmann, our founder, chairman, president and chief executive officer, we have assembled a team of geoscientists and management professionals with considerable region-specific geological, geophysical, technical and operational experience. We have grown through a combination of exploration, exploitation and development drilling and multi-year, multi-well drill-to-earn programs, as well as strategic acquisitions of mature oil and natural gas fields in the Gulf of Mexico Shelf area, and in particular the acquisition of Hall-Houston in early 2002.

Our strategy is to grow our reserves and production through a balanced investment program including low risk exploitation and development activities in and around our existing fields and moderate risk exploration activities in the shallow to moderate depth waters of the central region of the Gulf of Mexico Shelf. A limited amount of our exploration budget each year will be allocated to higher risk, higher potential exploration prospects in this region.

Our principal executive offices are located at 201 St. Charles Avenue, Suite 3400, New Orleans, Louisiana 70170. Our telephone number is (504) 569-1875. We also maintain a web site at www.eplweb.com which contains information about us, including links to our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and related amendments. Our web site and the information contained in it and connected to it shall not be deemed incorporated by reference into this prospectus.

USE OF PROCEEDS

We will not receive any of the proceeds from the offer and sale of the shares of our common stock by the selling securityholders.

3

SELLING SECURITYHOLDERS

We have filed a registration statement, of which this prospectus forms a part, in order to permit the selling securityholders to resell to the public up to 4,544,572 shares of our common stock.

The following table sets forth certain information as of September 30, 2003 regarding beneficial ownership of our common stock by each selling securityholder. Beneficial ownership is determined in accordance with Securities and Exchange Commission rules and generally includes voting or investment power with respect to securities. Shares of our common stock that are issuable upon the exercise of outstanding options, warrants, conversion of preferred stock or exercise of other purchase rights are treated as outstanding for purposes of computing such selling securityholder's ownership, to the extent exercisable or convertible within sixty days of the date of this prospectus, but are not deemed outstanding for purposes of computing the ownership of any other selling securityholder.

PLAN OF DISTRIBUTION

The selling securityholders have not advised us of any specific plan for distribution of the shares offered hereby, but it is anticipated that the shares will be sold from time to time by the selling securityholders or by permitted pledgees, donees, transferees or other permitted successors in interest. Such sales by the selling securityholders may be made in any of the following manners:

- on the New York Stock Exchange in transactions pursuant to and in accordance with the rules of such exchange;
- in the over-the-counter market;
- in public or privately negotiated transactions;
- in transactions involving principals or brokers;
- in a combination of such methods of sale; or
- any other lawful methods.

Although sales of the shares are, in general, expected to be made at

Edgar Filing: ENERGY PARTNERS LTD - Form 424B5

market prices prevailing at the time of sale, the shares may also be sold at prices related to such prevailing market prices or at negotiated prices, which may differ considerably.

In offering the shares covered by this prospectus, each of the selling securityholders and any broker-dealers who sell the shares for the selling securityholders may be "underwriters" within the meaning of the Securities Act, and any profits realized by such selling securityholders and the compensation of such broker-dealers may be underwriting discounts and commissions.

Sales through brokers may be made by any method of trading authorized by any stock exchange or market on which the shares may be listed, including block trading in negotiated transactions. Without limiting the foregoing, such brokers may act as dealers by purchasing any or all of the shares covered by this prospectus, either as agents for others or as principals for their own accounts, and reselling such shares pursuant to this prospectus. The selling securityholders may effect such transactions directly, or indirectly through underwriters, broker-dealers or agents acting on their behalf. In connection with such sales, such broker-dealers or agents may receive compensation in the form of commissions, concessions, allowances or discounts, any or all of which might be in excess of customary amounts.

Each of the selling securityholders is acting independently of us in making decisions with respect to the timing, manner and size of each sale of shares. We have not been advised of any definitive selling arrangement at the date of this prospectus between any selling securityholder and any broker-dealer or agent.

To the extent required, the names of any agents, broker-dealers or underwriters and applicable commissions, concessions, allowances or discounts, and any other required information with respect to any particular offer of the shares by the selling securityholders, will be set forth in a prospectus supplement.

The expenses of preparing and filing this prospectus and the related registration statement with the Securities and Exchange Commission will be paid entirely by us. Shares of common stock covered by this prospectus also may qualify to be sold pursuant to Rule 144 under the Securities Act, rather than pursuant to this prospectus. The selling securityholders have been advised that they are subject to the applicable provisions of the Securities Exchange Act of 1934, as amended, including, without limitation, Rule 10b-5 thereunder.

Neither we nor the selling securityholders can estimate at the present time the amount of commissions or discounts, if any, that will be paid by the selling securityholders on account of their sales of the shares from time to time.

5

The aggregate maximum compensation that members of the NASD or independent broker-dealers will receive in connection with the sale of any securities pursuant to this prospectus and the registration statement of which it forms a part will not be greater than 8% of the gross proceeds of such sale.
