Form N-30D

December 26, 2002

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST
LETTER TO THE SHAREHOLDERS o OCTOBER 31, 2002

DEAR SHAREHOLDER:

During the 12 months ended October 31, 2002, U.S. economic indicators fluctuated between stronger and weaker growth. The economy continued to recover from recession and the aftermath of September 11. Real gross domestic product (GDP) accelerated to an annual rate of 5.0 percent in the first quarter of 2002. In the spring, the economy began to send mixed signals and the recovery lost momentum. Weakness in manufacturing and capital spending combined with corporate-accounting scandals and geopolitical turmoil to slow GDP to a 1.3 percent annual rate in the second quarter. The strongest consumer spending of the year and the restocking of inventories led to 4.0 percent annual growth in the third quarter.

As the economy gained strength in the first few months of 2002, a general consensus developed that the Federal Reserve Board would begin to tighten monetary policy and raise short-term interest rates. The bond market reacted to these concerns in March and yields rose. By late spring, however, the consensus shifted to favoring bonds as labor market and capital-spending indicators remained soft and new disclosures on corporate ethics spurred a flight to quality. Most importantly, the Federal Reserve changed its monetary policy bias from neutral toward one of easing. The market's expectations of eventual rate hikes were scaled back and bonds rallied. A mid-October surge in the equity markets created a downdraft in bond prices. However, renewed concerns about the economy helped bond prices improve by month-end. On November 6, 2002, the Federal Reserve lowered the federal funds rate from 1.75 to 1.25 percent. This marked the first change by the central bank in nearly one year.

MUNICIPAL MARKET CONDITIONS

The economic environment and unsettled equity markets lowered municipal yields to levels last seen in the 1960s. The yield on the 30-year insured municipal bond index ranged from a high of 5.43 percent in March to a low of 4.74 percent in September. The index yield stood at 4.96 percent at the end of October 2002. Throughout the period the slope of the municipal yield curve remained steep. The yield pickup for extending maturities from 1 to 30 years averaged 350 basis points.

The ratio of municipal yields as a percentage of U.S. Treasury yields is used as a gauge of the relative value of municipals. The ratio of 30-year insured municipal bond yields to 30-year Treasuries fell from 98 percent in December 2001 to 94 percent in March. As municipals lagged the summer rally in Treasuries, the ratio jumped to 102 percent in September but declined to 99 percent by the end of October. These levels imply that municipals are cheap relative to Treasuries.

State and local governments took advantage of lower interest rates to refinance outstanding debt in a manner similar to homeowners refinancing their mortgages. Refinancing activity contributed to a surge in municipal bond underwriting, and long-term volume increased 27 percent to a record \$292 billion in the

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST
LETTER TO THE SHAREHOLDERS o OCTOBER 31, 2002 CONTINUED

Edgar Filing: MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST - Form N-30D

first ten months of 2002. Refunding issues represented almost one-quarter of the total. California, Florida, New York, and Texas, the largest states in terms of issuance, represented 40 percent of the national volume. Issuance is on track to raise calendar year 2002's volume to more than \$325 billion.

PERFORMANCE

The net asset value (NAV) of Morgan Stanley Insured Municipal Income Trust (IIM) increased from \$15.42 to \$15.67 per share for the fiscal year ended October 31, 2002. Based on this change plus the reinvestment of tax-free dividends totaling \$0.8175 per share the Trust's total NAV return was 7.66 percent. IIM's value on the New York Stock Exchange (NYSE) decreased from \$14.13 to \$14.05 per share during the same period. Based on this change plus the reinvestment of tax-free dividends, IIM's total market return was 5.35 percent. On October 31, 2002, IIM's NYSE market price was at a 10.34 percent discount to its NAV.

2

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST LETTER TO THE SHAREHOLDERS o OCTOBER 31, 2002 CONTINUED

Monthly dividends for the fourth quarter of 2002 were declared in September. Beginning with the October payment the monthly dividend was increased from \$0.0675 to \$0.075 per share. The new dividend reflects the level of the Trust's undistributed net investment income and projected earnings power. The Trust's level of undistributed net investment income was \$0.187 per share on October 31, 2002, versus \$0.086 per share last year.

PORTFOLIO STRUCTURE

The Trust's total net assets of \$551 million, including Auction Rate Preferred Shares (ARPS), were diversified among 14 long-term sectors and 79 credits. At the end of October the portfolio's average maturity was 19 years. Average duration, a measure of sensitivity to interest-rate changes, was 4.9 years. The accompanying charts provide current information on the portfolio's credit enhancements, maturity distribution and sector concentrations. Optional call provisions by year and their respective cost (book) yields are also shown.

Edgar Filing: MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST - Form N-30D

THE IMPACT OF LEVERAGING

As discussed in previous reports, the total income available for distribution to common shareholders includes incremental income provided by the Trust's outstanding ARPS. ARPS dividends reflect prevailing short-term interest rates on maturities normally ranging from one week to one year. Incremental income to common shareholders depends on two factors. The first factor is the amount of ARPS outstanding, while the second is the spread between the portfolio's cost yield and ARPS expenses (ARPS auction rate and expenses). The greater the spread and the amount of ARPS outstanding, the greater the amount of incremental income available for distribution to common shareholders. The level of net investment income available for distribution to common shareholders varies with the level of short-term interest rates. ARPS leverage also increases the price volatility of common shares and has the effect of extending portfolio duration.

During the fiscal year, ARPS leverage contributed approximately \$0.16 per share to common share earnings. The Trust's five ARPS series totaled \$155 million and represented 28 percent of total net assets. In January 2002, ARPS series 4 was extended until January 2004 at a yield of 2.47 percent. In July 2002, series 3 was extended until July 2004 at a yield of 2.20 percent. The yield on the Trust's three weekly series ranged between 0.90 and 2.47 percent.

LOOKING AHEAD

The Federal Reserve Board's cautious approach toward an eventual rate tightening earlier this year helped stabilize the fixed-income markets. In fact, the Fed's current willingness to be accommodative resulted in a major bond rally during the second and third calendar quarters. We believe that the yields on tax-exempt securities continue to favor municipal bonds as an attractive choice for tax-conscious investors. For many investors, the taxable equivalent yields available on municipal bonds offer a significant advantage.

3

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST
LETTER TO THE SHAREHOLDERS o OCTOBER 31, 2002 CONTINUED

The Trust's procedure for reinvestment of all dividends and distributions on common shares is through purchases in the open market. This method helps support the market value of the Trust's shares. In addition, we would like to remind you that the Trustees have approved a procedure whereby the Trust may, when appropriate, purchase shares in the open market or in privately negotiated transactions at a price not above market value or net asset value, whichever is lower at the time of purchase. The Trust may also utilize procedures to reduce or eliminate the amount of outstanding ARPS, including their purchase in the open market or in privately negotiated transactions. During the 12-month period ended October 31, 2002, the Trust purchased and retired 996,500 shares of common stock at a weighted average market discount of 8.17 percent.

We appreciate your ongoing support of Morgan Stanley Insured Municipal Income Trust and look forward to continuing to serve your investment needs.

Very truly yours,

/s/ Charles A. Fiumefreddo
Charles A. Fiumefreddo

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST
RESULTS OF ANNUAL MEETING

On October 23, 2002, an annual meeting of the Trust's shareholders was held for the purpose of voting on two separate matters, the results of which were as follows:

- (1) Election of Trustee by all shareholders:
 - Wayne E. Hedien
 - For 20,948,039
 - Withheld 727,571
- (2) Election of Trustee by preferred shareholders:
 - Manuel H. Johnson
 - For 2,597
 - Against 1

The following Trustees were not standing for reelection at this meeting: Michael Bozic, Charles A. Fiumefreddo, Edwin J. Garn, James F. Higgins, Michael E. Nugent and Philip J. Purcell.

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST NOTES TO FINANCIAL STATEMENTS o OCTOBER 31, 2002

1. ORGANIZATION AND ACCOUNTING POLICIES

Morgan Stanley Insured Municipal Income Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Trust's investment objective is to provide current income which is exempt from federal income tax. The Trust was organized as a Massachusetts business trust on March 12, 1992 and commenced operations on February 26, 1993.

The following is a summary of significant accounting policies:

A. VALUATION OF INVESTMENTS - Portfolio securities are valued by an outside independent pricing service approved by the Trustees. The pricing service uses both a computerized matrix of tax-exempt securities and evaluations by its staff, in each case based on information concerning market transactions and quotations from dealers which reflect the bid side of the market each day. The portfolio securities are thus valued by reference to a combination of transactions and quotations for the same or other securities believed to be comparable in quality, coupon, maturity, type of issue, call provisions, trading characteristics and other features deemed to be relevant. Short-term debt securities having a maturity date of more than sixty days at time of purchase are valued on a mark-to-market basis until sixty days prior to maturity and thereafter at amortized cost based on their value on the 61st day. Short-term debt securities having a maturity date of sixty days or less at the time of purchase are valued at amortized cost.

B. ACCOUNTING FOR INVESTMENTS - Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Realized gains and losses on security transactions are determined by the identified cost method. Discounts are accreted and premiums are amortized over the life of the respective securities. Interest income is accrued daily.

Edgar Filing: MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST - Form N-30D

C. FEDERAL INCOME TAX POLICY - It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable and nontaxable income to its shareholders. Accordingly, no federal income tax provision is required.

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS - Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations which may differ from generally accepted accounting principles. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed net investment

19

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST NOTES TO FINANCIAL STATEMENTS o OCTOBER 31, 2002 CONTINUED

income and net realized capital gains for financial reporting purposes but not for tax purposes are reported as dividends in excess of net investment income or distributions in excess of net realized capital gains. To the extent they exceed net investment income and net realized capital gains for tax purposes, they are reported as distributions of paid-in-capital.

E. USE OF ESTIMATES - The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

2. INVESTMENT MANAGEMENT AGREEMENT

Pursuant to an Investment Management Agreement with Morgan Stanley Investment Advisors Inc. (the "Investment Manager"), the Trust pays a management fee, calculated weekly and payable monthly, by applying the annual rate of 0.35% to the Trust's weekly net assets including preferred shares.

3. SECURITY TRANSACTIONS AND TRANSACTIONS WITH AFFILIATES

The cost of purchases and proceeds from sales of portfolio securities, excluding short-term investments, for the year ended October 31, 2002 aggregated \$92,424,658 and \$131,199,040, respectively. Included in the aforementioned are sales of \$2,937,720 with other Morgan Stanley Funds, which are affiliates of the Investment Manager.

Morgan Stanley Trust, an affiliate of the Investment Manager, is the Trust's transfer agent. At October 31, 2002, the Trust had transfer agent fees and expenses payable of approximately \$8,850.

The Trust has an unfunded noncontributory defined benefit pension plan covering all independent Trustees of the Trust who will have served as independent Trustees for at least five years at the time of retirement. Benefits under this plan are based on years of service and compensation during the last five years of service. Aggregate pension costs for the year ended October 31, 2002 included in Trustees' fees and expenses in the Statement of Operations amounted to \$6,309. At October 31, 2002, the Trust had an accrued pension liability of \$47,223 which is included in accrued expenses in the Statement of Assets and

Edgar Filing: MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST - Form N-30D

Liabilities.

4. PREFERRED SHARES OF BENEFICIAL INTEREST

The Trust is authorized to issue up to 1,000,000 non-participating preferred shares of beneficial interest having a par value of \$.01 per share, in one or more series, with rights as determined by the Trustees, without approval of the common shareholders. The Trust has issued Series 1 through 5 Auction Rate Preferred Shares ("Preferred Shares") which have a liquidation value of \$50,000 per share plus the redemption premium, if any, plus accumulated but unpaid dividends, whether or not declared, thereon to the date of distribution. The Trust may redeem such shares, in whole or in part, at the original purchase price of \$50,000 per share plus accumulated but unpaid dividends, whether or not declared, thereon to the date of redemption.

20

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST
 NOTES TO FINANCIAL STATEMENTS o OCTOBER 31, 2002 CONTINUED

Dividends, which are cumulative, are reset through auction procedures.

SERIES	SHARES*	AMOUNT IN THOUSANDS*	RATE*	RESET DATE	RANGE OF DIVIDEND RATES**
1	400	\$20,000	1.55%	11/04/02	1.10% - 2.05%
2	900	45,000	1.65	11/04/02	1.35 - 2.47
3	1,000	50,000	2.20	07/12/04	2.20 - 2.95
4	400	20,000	2.47	01/05/04	2.47 - 2.79
5	400	20,000	1.65	11/04/02	0.90 - 2.05

* As of October 31, 2002.

** For the year ended October 31, 2002.

Subsequent to October 31, 2002 and up through December 6, 2002, the Trust paid dividends to each of the Series 1 through 5 at rates ranging from 1.15% to 2.95% in the aggregate amount of \$386,034.

The Trust is subject to certain restrictions relating to the preferred shares. Failure to comply with these restrictions could preclude the Trust from declaring any distributions to common shareholders or purchasing common shares and/or could trigger the mandatory redemption of preferred shares at liquidation value.

The preferred shares, which are entitled to one vote per share, generally vote with the common shares but vote separately as a class to elect two Trustees and on any matters affecting the rights of the preferred shares.

5. COMMON SHARES OF BENEFICIAL INTEREST

Transactions in common shares of beneficial interest were as follows:

Edgar Filing: MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST - Form N-30D

	SHARES	PAR
	-----	-----
Balance, October 31, 2000	27,191,713	\$27
Treasury shares purchased and retired (weighted average discount 8.88%)*	(907,700)	(
	-----	-----
Balance, October 31, 2001	26,284,013	26
Treasury shares purchased and retired (weighted average discount 8.17%)*	(996,500)	(
	-----	-----
Balance, October 31, 2002	25,287,513	\$25
	=====	=====

* The Trustees have voted to retire the shares purchased.

21

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST
 NOTES TO FINANCIAL STATEMENTS o OCTOBER 31, 2002 CONTINUED

6. FEDERAL INCOME TAX STATUS

During the year ended October 31, 2002, the Trust utilized approximately \$5,576,000 of its net capital loss carryover. At October 31, 2002, the Trust had a net capital loss carryover of approximately \$504,000 which will be available through October 31, 2004 to offset future capital gains to the extent provided by regulations.

As of October 31, 2002, the Trust had temporary book/tax differences primarily attributable to book amortization of discount on debt securities and dividend payable to preferred shareholders and permanent book/tax differences attributable to tax adjustments on debt securities sold by the Trust. To reflect reclassifications arising from the permanent differences, accumulated undistributed net investment income was charged and accumulated net realized loss was credited \$25,139.

7. DIVIDENDS TO COMMON SHAREHOLDERS

On September 24, 2002, the Trust declared the following dividends from net investment income:

AMOUNT PER SHARE	RECORD DATE	PAYABLE DATE
-----	-----	-----
\$ 0.075	November 8, 2002	November 22, 2002
\$ 0.075	December 6, 2002	December 20, 2002

8. EXPENSE OFFSET

The expense offset represents a reduction of the custodian fees for earnings on cash balances maintained by the Trust.

9. RISKS RELATING TO CERTAIN FINANCIAL INSTRUMENTS

Edgar Filing: MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST - Form N-30D

The Trust may invest a portion of its assets in residual interest bonds, which are inverse floating rate municipal obligations. The prices of these securities are subject to greater market fluctuations during periods of changing prevailing interest rates than are comparable fixed rate obligations.

At October 31, 2002, the Trust held positions in residual interest bonds having a total value of \$30,302,169, which represents 7.7% of the Trust's net assets applicable to common shareholders.

10. CHANGE IN ACCOUNTING POLICY

Effective November 1, 2001, the Trust has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies, as revised, related to premiums and discounts on debt securities. The cumulative effect of this accounting change had no impact on the net assets of the Trust, but resulted in a \$110,763 increase in the cost of securities and a corresponding increase to undistributed net investment income based on securities held as of October 31, 2001.

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST
NOTES TO FINANCIAL STATEMENTS o OCTOBER 31, 2002 CONTINUED

The effect of this change for the year ended October 31, 2002 was to increase net investment income by \$17,252; increase unrealized appreciation by \$7,887 and decrease net realized gains by \$25,139. The Statement of Changes in Net Assets and the Financial Highlights for prior periods have not been restated to reflect this change.

11. CHANGE IN FINANCIAL STATEMENT CLASSIFICATION FOR PREFERRED SHARES

In accordance with the provisions of EITF D-98, "Classification and Measurement of Redeemable Securities", effective for the current reporting period, the Trust has reclassified its Preferred Shares out of the composition of net assets section on the Statement of Assets and Liabilities. In addition, dividends to preferred shareholders are now classified as a component of operations on the Statement of Operations, the Statement of Changes in Net Assets and the Financial Highlights. Additionally, the categories of investments on the Portfolio of Investments are shown as a percentage of net assets applicable to common shareholders. Prior year amounts have been reclassified to conform to this period's presentation. This change has no impact on the net assets applicable to common shareholders of the Trust.

See Notes to Financial Statements

MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST
INDEPENDENT AUDITORS' REPORT

TO THE SHAREHOLDERS AND BOARD OF TRUSTEES OF
MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST:

We have audited the accompanying statement of assets and liabilities of Morgan Stanley Insured Municipal Income Trust (the "Trust"), including the portfolio

Edgar Filing: MORGAN STANLEY INSURED MUNICIPAL INCOME TRUST - Form N-30D

of investments, as of October 31, 2002, and the related statements of operations for the year then ended and changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2002, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Morgan Stanley Insured Municipal Income Trust as of October 31, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Deloitte & Touche LLP
 New York, New York
 December 9, 2002

2002 Federal Tax Notice (unaudited)

For the year ended October 31, 2002, all of the Trust's dividends from net investment income received by both common and preferred shareholder classes were exempt interest dividends, excludable from gross income for Federal income tax purposes.
