Report of Independent Registered Public Accounting Firm

The Board of Directors
Iowa Farm Bureau Federation

We have audited the accompanying statements of net assets available for benefits of the Farm Bureau 401(k) Savings Plan as of December 31, 2005 and 2004, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2005 and 2004, and the changes in its net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year as of December 31, 2005) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. This supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Farm Bureau 401(k) Savings Plan
Notes to Financial Statements (continued)

1. Description of the Plan

Farm Bureau 401(k) Savings Plan (the Plan) is a defined contribution plan which is designed to provide retirement benefits. The Plan covers substantially all employees of the Iowa Farm Bureau Federation and affiliated companies, FBL Financial Group, Inc., the Arizona Farm Bureau Federation, the New Mexico Farm and Livestock Bureau, the Minnesota Farm Bureau Federation, the South Dakota Farm Bureau Federation, the Utah Farm Bureau Federation, the Kansas Farm Bureau and the Nebraska Farm Bureau Federation (collectively, the Companies). Participants may contribute a portion of their compensation, pre-tax, to the Plan. The maximum amount contributed is determined by each participating company, currently set at 50% for all of the Companies, and additional limits are imposed by the Internal Revenue Service. Certain participating companies match employee contributions up to 4% of eligible compensation. Certain participating companies make non-elective contributions from 5% to 7% of eligible compensation.

Employer-matching contributions for certain participating companies are invested in FBL Financial Group, Inc. common stock through ownership of units of a pooled investment trust. Participants own units of this trust rather than directly owning the stock. Participants are immediately fully vested in such contributions.

The Plan also allows for participants to borrow money from the Plan subject to certain provisions.

On termination of service, the participant may elect to receive either a lump-sum amount equal to the value of the account or equal installment payments over a period of time not to exceed the life expectancy of the participant.

Wells Fargo Bank N.A. is the Plan's trustee and provides recordkeeping services to the Plan.

Although they have not expressed an intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA.

The foregoing description of the Plan provides only general information. A more complete description of the Plan's provisions may be obtained from the Plan administrator.

2. Significant Accounting Policies

Investments in mutual funds are stated at fair market value, based on the latest quoted market price. The pooled investment trust is stated at fair market value, based on the latest quoted market price of the investments (principally common stock of FBL Financial Group, Inc.) held within the fund. Investment in the group flexible premium deferred annuity, which is considered a fully benefit-responsive contract, is valued at contract value (including earnings attributed to the investment). Contract value approximates fair value.

Notes receivable from participants are stated at the unpaid principal balance plus accrued interest, which approximate fair value. The interest rate used is the Wells Fargo prime lending rate at the origination of the loan. Interest rates on loans outstanding at year end ranged from 4.00% to 10.25% at December 31, 2005 and 2004.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

3. Investments

Contributions are invested in affiliated and unaffiliated mutual funds, a group flexible premium deferred annuity sponsored by or offered by the Companies and, as discussed above, a pooled investment trust which invests primarily in the common stock of FBL Financial Group, Inc. Participants may select the investments in which to invest their contributions. The mutual funds invest primarily in common stocks, fixed income, high quality corporate bonds, debt securities of the United States Government and short-term money market instruments. Participants electing to have contributions deposited into the group flexible premium deferred annuity receive interest at a rate determined by management of Farm Bureau Life Insurance Company, with a guaranteed minimum rate of 3%. These rates vary based upon the investment experience of the general account of Farm Bureau Life Insurance Company. The interest rate credited to these contributions was 4.10% during 2005 and ranged from 4.10% to 4.35% during 2004. Participants who elect to purchase units in the pooled investment trust do so at the market price of the units when the trade is executed.

All investments are considered participant directed.

During 2005 and 2004, the Plan's investments (including investments purchased, sold and held during the year) increased in fair value as follows:

	Year Ended December 31,	
	2005	2004
Mutual funds	\$ 3,920,536	\$ 4,716,758
Pooled investment trust	1,715,437	1,187,932
	\$ 5,635,973	\$ 5,904,690

Group flexible premium deferred annuity	15,448,775	14,190,312

* The FBL Financial Group, Inc. common stock is owned indirectly through investment in a pooled investment trust. The Plan had open investment trades totaling \$795,464 at December 31, 2005 and \$141,284 at December 31, 2004, which were settled during January of the next year. The receivables for pending investment trades have been reflected in the statements of net assets available for benefits.

Notes to Financial Statements (continued)

4. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated November 6, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan was amended subsequent to the IRS determination letter. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. The Plan Sponsor will take all steps, if any, to maintain the Plan's qualified status.

5. Administrative and Operating Expenses

The Companies pay substantially all administrative and operating expenses of the Plan.
