CHAIRMAN'S LETTER TO SHAREHOLDERS

Dear Shareholder,

I am very pleased to report that over the twelve-month period covered by this report, your Fund continued to provide you with attractive tax-advantaged income and capital appreciation potential. For more information on your Fund's performance, please read the Portfolio Managers' Comments, the Distribution and Share Price Information, and the Performance Overview sections of this report.

Portfolio diversification is a recognized way to try to reduce some of the risk that comes with investing. Since one part of your portfolio may be going up when another is going down, portfolio diversification may help smooth your investment returns over time. In addition to providing regular monthly income, an investment like your Fund may help you achieve and benefit from greater portfolio diversification. Your financial advisor can explain these potential advantages in more detail. I urge you to contact him or her soon for more information on this important investment strategy.

"PORTFOLIO DIVERSIFICATION IS A RECOGNIZED WAY TO TRY TO REDUCE SOME OF THE RISK THAT COMES WITH INVESTING."

As you look through this report, be sure to review the inside front cover. This contains information on how you can receive future Fund reports and other Fund information faster by using e-mails and the Internet. Sign up is quick and easy - just follow the step-by-step instructions.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Nuveen Investments Closed-End Funds (JTA)

PORTFOLIO MANAGERS' COMMENTS

The Fund features management by two affiliates of Nuveen Investments. The Fund's investments in dividend-paying common or preferred stocks are managed by NWQ Investment Management Company, LLC (NWQ), while the Fund's investments in senior corporate loans and other debt instruments are managed by Symphony Asset Management, LLC (Symphony). Jon Bosse, Chief Investment Officer of NWQ, leads the Fund's management team at that firm. He has more than 22 years of corporate finance and investment management experience.

The Symphony team is led by Gunther Stein and Lenny Mason, who have more than 25 years of combined investment management experience, much of it in evaluating and

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

purchasing senior corporate loans and other high-yield debt.

Here Jon, Gunther and Lenny talk about general market conditions, their management strategies and the performance of the Fund for the twelve-month period ended December 31, 2006.

WHAT WERE THE GENERAL ECONOMIC AND MARKET CONDITIONS YOU FACED DURING THIS ANNUAL REPORTING PERIOD ENDED DECEMBER 31, 2006?

Economic conditions throughout 2006 were generally favorable as a pronounced slowdown in the housing market was more than offset by stabilization in interest rates and energy prices, low unemployment and strong consumer confidence. During the first half of last year, the Federal Reserve hiked short-term interest rates four times, but as the second half of the year began, it became clearer that a pause in the interest rate tightening cycle was at hand. Through mid year, despite double-digit earnings gains, returns for the equity markets were relatively modest and bond returns were negative. However, after mid year with the Fed on hold, the U.S. stock market marched steadily to a series of multi-year highs spurred by corporate earnings which continued to come in above expectations. Equity markets shrugged off any concerns regarding housing, a slowdown in global/domestic growth, and an extended consumer. The supply/demand situation for common stocks stayed favorable as strong corporate balance sheets and cash flows funded acquisitions and share buybacks as well as attracted takeovers from private equity firms. Private equity firms initiated large numbers of leveraged buyouts seemingly with no limit to the size of any potential deal. Value stocks outperformed growth, and large and small capitalization stocks outpaced mid caps, for the year.

The leverage loan market was also a beneficiary of these macroeconomic conditions as it experienced a record year. The year was highlighted by record new issuance, record leveraged merger financing and record inflows into the leveraged loan asset class. Near historical low default rates contributed to continued spread tightening. The loan market's ability to efficiently digest record issuance surprised many skeptics. A flurry of

4

jumbo deals brought to market, including the largest LBO loan ever for HCA, demonstrated significant liquidity and depth in the loan market. The CSFB Leveraged Loan Index returned 2.01% during the fourth quarter and 7.33% for the year. As of the end of December, the Index had registered 50 consecutive months of positive returns.

As default rates remained low and performance remained consistent, investors were drawn to the loan asset class. Total loan volume for 2006 stood at \$408 billion, up 62% percent from 2005. Mergers and acquisitions and leveraged buyouts were the key drivers of overall loan-volume growth -- increasingly, large deals are being financed in the leveraged loan market, surpassing previous estimates of the maximum deal size thought possible. In 2006, total LBO lending topped \$122 billion, up from \$65 billion in 2005.

WHAT WAS YOUR STRATEGY IN MANAGING THE FUND DURING THE TWELVE-MONTH PERIOD ENDED DECEMBER 31, 2006?

For the equity portion of the Fund's portfolio, we continued to employ an opportunistic, bottom-up strategy that focused on identifying undervalued companies that possessed favorable risk/reward characteristics as well as emerging catalysts that we believed could unlock value or improve profitability. These catalysts included management changes, restructuring efforts, recognition of hidden assets, or a positive change in the underlying fundamentals. We also focused on downside protection, and paid a great deal of attention to a company's balance sheet and cash flow statement, not just the income statement.

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

We believed that cash flow analysis offers a more objective and truer picture of a company's financial position than an evaluation based on earnings alone.

During the course of the year, we increased our telecommunications/media exposure and also took new common stock positions in Caterpillar, General Electric, Motorola, Pfizer, and Stora Enso Oyj. Our analysis indicated that these companies possessed solid fundamentals, compelling valuations, and attractive risk/reward relationships.

We eliminated Dominion Resources, J Sainsbury, Merck & Company, and Sprint Nextel from the portfolio based on valuation concerns, and Albertsons Inc. and Kerr McGee Corp. after these companies received takeover offers. The Kerr McGee sell reduced our

5

overall energy exposure; however, we continue to have a favorable opinion of the group based on our analysis of global supply conditions for crude oil and natural gas and its impact on industry fundamentals, the outlook on company cash flow growth, and valuations. We also opportunistically increased our financial services stakes with additions to our positions of Aon, Citigroup, Fannie Mae, Hartford Financial Services, and IndyMac Bancorp.

During the year we continued to manage the senior corporate loans and other debt instruments portion of the portfolio using fundamental analysis to select loans that we believed offer strong asset coverage and attractive risk adjusted returns. Given the strength of the economy and the overall loan market we focused on avoiding loans we believed had not been structured properly as well as loans that we believed would have earnings volatility in a weakening economy. Given these views we continued to position the portfolio in a more conservative manner. We also tried to focus the portfolio on larger capitalization companies, as we believed that these companies might perform better than smaller companies over the course of a credit cycle.

During the year we avoided the loans of most automotive part suppliers as well as smaller homebuilders and land developers, even though many loans in both sectors traded at a discount throughout the year. We also avoided many smaller loans that were done to finance leveraged buyouts. We did not believe that there was sufficient incremental spread in many small loans to compensate for potential illiquidity and volatility if earnings should become challenged. Throughout the year we focused on adding high quality new-issue loans at par. Given the elevated trading levels of the marketplace we focused on the new issue market to buy loans.

We also continued to avoid the vast majority of second lien loans. Similar to smaller loans, we did not believe that second lien loans offered sufficient spread to compensate investors for potential volatility and lower recovery rates.

HOW DID THE FUND PERFORM?

Fund performance results, as well as the performance of a comparative benchmark, are shown in the accompanying table.

TOTAL RETURNS ON NET ASSET VALUE

For the twelve-months ended December 31, 2006

JTA	24.19%(1)
Comparative Benchmark(2)	20.14%

Past performance does not guarantee future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that a shareholder may have to pay on Fund distributions or upon the sale of Fund shares. See the Performance Overview Page for additional information.

As indicated in the accompanying table, the Nuveen Tax-Advantaged Total Return Strategy Fund posted positive results for the twelve-months ended December 31, 2006.

The equity portfolio had several positions that performed particularly well for the year, including a strong gain in Korean steel manufacturer, POSCO. The shares rose sharply on improving fundamentals in the steel industry brought on by ongoing consolidation trends. In the defense sector, our investments of Lockheed Martin and Raytheon outperformed due to benign political pressures and a healthy outlook for defense spending given improving international demand. Our equity investments in the energy sector also performed well - particularly in the first half of the year - as high oil prices and increased production volumes drove record earnings and cash flows.

1 The Fund elected to retain a portion of its realized long-term capital gains for the tax year ended December 31, 2006, and pay required Federal corporate income taxes on these gains. As reported on Form 2439, Common shareholders of record on December 29, 2006, must include their pro-rata share of these gains on their 2006 federal tax returns, and will receive a corresponding credit toward their taxes, or a tax refund, for their pro-rata share of the taxes paid by the Fund. The standardized total returns shown in the table do not include the economic benefit to Common shareholders of record of this tax credit/refund. The Fund's total return on NAV for the twelve months ended December 31, 2006, when this benefit is included is 25.75%.

2 The comparative benchmark designed to reflect the portfolio composition of JTA is calculated by combining: 1) 56% of the return of the Russell 3000 Value Index, which measures the performance of those Russell 3000 Index companies with lower price-to book ratios and lower forecasted growth values, 2) 16% of the return of the MSCI EAFE ex-Japan Value Index, a capitalization weighted index that selects the lower 50% of the price-to-book ranked value stocks traded in the developed markets of Europe, Asia and the Far East, excluding Japan, 3) 8% of the return of the Merrill Lynch DRD (dividends received deduction) Preferred Index, which consists of investment-grade, DRD-eligible, exchange-traded preferred stocks with one year or more to maturity, and 4) 20% of the return of the CSFB Leveraged Loan Index, which consists of approximately \$150 billion of tradable term loans with at least one year to maturity and rated BBB or lower. Index returns are not leveraged, and do not include the effects of any sales charges or management fees. It is not possible to invest directly in an index.

Our Utility investments benefited from a surge in demand for global utilities given their attractive yields and ongoing consolidation in the sector. Our

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

tobacco stocks gained on an improving litigation environment and stronger industry fundamentals, including favorable pricing and volumes. Finally, our energy investments outperformed as high oil prices and increased production volumes are driving strong earnings and cash flows.

In the senior loan component of the portfolio, one security that positively impacted the fund's performance during the twelve-month period was the Federal Mogul term loan position, which traded up during the period due to the expectation that the company would emerge out of bankruptcy soon.

The Fund had several positions that constrained performance over this reporting period. In the equity portion, rising cost pressures, lowered aluminum contract pricing, and concerns regarding global economic growth contributed to a decline in our shares of

7

Alumina Limited, while paper stocks lagged due to margin pressures and weak demand characteristics in the forest product industry. After appreciating strongly at the beginning of the year, our shares of insurance broker Aon gave way and posted a modest decline for the year as the company lowered its earnings guidance from previous lofty expectations. Our recent purchase of Motorola also detracted from performance as the company reported that its revenues are being pressured because of a higher mix of lower priced, low-end handsets and greater price competition as the company expands its presence in emerging markets.

The Dividends-Received Deduction/Qualified Dividend Income, holdings of the fund lagged the index slightly as our overweighting in floating rate securities, as well as our underweighting in GSE-issued paper, caused a drag on relative performance as yields dropped in the second half of the year and Federal Home Loan Corporation and Federal National Mortgage Association preferred spreads tightened.

One additional position that had a negative impact on the portfolio was D.R. Horton, whose bonds traded down during the period due to the decrease in new home orders, investor concern about a severe slowdown in homebuilding activity, and increasing mortgage rates.

8

DISTRIBUTION AND SHARE PRICE INFORMATION

In addition to owning preferred stocks, the Fund has issued its own preferred shares, called FundPreferred(TM), and entered into a series of short-term borrowing arrangements. This FundPreferred and borrowing provides a degree of financial leverage that can enhance the Fund's returns and supplement the income available to pay common shareholder distributions, but also can increase share price volatility. This leveraging strategy provided incremental income and helped enhance shareholder distributions over this reporting period.

The Fund has a managed distribution policy designed to provide relatively stable monthly cash flow to investors. Under this policy, the Fund's monthly distributions will be paid from net investment income generated by its underlying investments as well as from net realized long-term capital gains and/or returns of capital, generally representing net unrealized capital gains. The Fund declared three monthly distribution increases during the twelve-month period; most recently in December to \$0.150 per share.

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

As of December 31, 2006, the Fund was trading at a 4.27% premium to its net asset value. This compared well with the average -5.56% discount the Fund exhibited over the course of the entire twelve-month reporting period.

We are providing you with information regarding your Fund's distributions. This information is as of December 31, 2006, and likely will vary over time based on the Fund's investment activities and portfolio investment value changes.

The Fund has a managed distribution program. The goal of a managed distribution program is to provide shareholders relatively consistent and predictable cash flow by systematically converting its expected long-term return potential into regular monthly distributions. As a result, regular distributions throughout the year will likely include a portion of expected long-term gains (both realized and unrealized), along with net investment income.

Important points to understand about the managed distribution program are:

- The Fund seeks to establish a relatively stable distribution rate that roughly corresponds to the projected total return from its investment strategy over an extended period of time. However, you should not draw any conclusions about the Fund's past or future investment performance from its current distribution rate.

9

- Actual returns will differ from projected long-term returns (and therefore the Fund's distribution rate), at least over shorter time periods. Over a specific timeframe, the difference between actual returns and total distributions will be reflected in an increasing (returns exceed distributions) or a decreasing (distributions exceed returns) fund net asset value.
- Each month's distributions are expected to be paid from some or all of the following sources:
 - net investment income (regular interest and dividends),
 - realized capital gains, and
 - unrealized gains, or, in certain cases, a return of principal (non-taxable distributions)
- A non-taxable distribution is a payment of a portion of the Fund's capital. When the Fund's returns exceed distributions, it may represent portfolio gains generated, but not realized as a taxable capital gain. In periods when the Fund's returns fall short of distributions, it will represent a portion of your original principal unless the shortfall is offset during other time periods over the life of your investment (previous or subsequent) when the fund's total return exceeds distributions.
- Because distribution source estimates are updated monthly during the year, based on the Fund's performance and forecast for its current fiscal year (which is the calendar year for the Fund), these estimates may differ from both the tax information reported to you in your Fund's 1099 statement provided at year end, as well as the ultimate economic sources of distributions over the life of your investment.

The following table provides information regarding the Fund's distributions and total return performance for the fiscal year ended December 31, 2006. The distribution information is presented on a tax basis rather than on a generally accepted accounting principles (GAAP) basis. This information is intended to help you better understand whether the Fund's returns for the specified time period was sufficient to meet the Fund's distributions.

RETENTION OF REALIZED LONG-TERM
CAPITAL GAINS

NOTICE CONCERNING RETENTION OF REALIZED LONG-TERM CAPITAL GAINS BY CERTAIN
NUVEEN CLOSED-END FUNDS

On December 15, 2006, the Nuveen Real Estate Income Fund (AMEX: JRS), Nuveen Diversified Dividend and Income Fund (NYSE: JDD), and Nuveen Tax-Advantaged Total Return Strategy Fund (NYSE: JTA) announced that each Fund would retain a portion of its realized long-term capital gains for the tax year ended December 31, 2006, and to pay required Federal corporate income taxes on these gains.

The Funds' Board of Trustees believes retaining realized long-term capital gains may benefit shareholders by enabling the Funds to better preserve and grow their capital base, providing the opportunity over time for more stable and/or growing distributions and share price, increased portfolio diversification and lower operating expenses, as well as greater flexibility in structuring and managing the Funds' investments.

Common shareholders of record on December 29, 2006 must include their pro-rata share of their Fund's retained gains on their 2006 federal income tax returns. They will be entitled to a corresponding federal income tax credit (or refund) of their pro rata share of taxes their fund paid on its retained gains. Common shareholders also will be entitled to increase their Fund investments' cost basis by the net amount of gains retained by the fund. Each Fund's net asset value on December 27, 2006 was reduced to reflect the accrual of the Fund's estimated tax liability as shown below.

Per share estimates of each Fund's retained long-term capital gains and corresponding Federal corporate income taxes paid are as follows:

PER SHARE JTA

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

Long-Term Capital Gain Retained	\$ 0.9383
Less Federal Income Taxes Paid by Fund	(0.3284)
NET LONG-TERM CAPITAL GAIN RETAINED	\$ 0.6099

Final amounts for retained gains and taxes paid were reported to shareholders of record on IRS Form 2439 in early 2007. These gains will not be reported on Form 1099-DIV, which only reflects realized capital gains actually distributed to shareholders and taxable in 2006. More details about these funds, as well as additional information on retained capital gains and related tax information are available on www.nuveen.com/cef.

- 1 Common Share Net Asset Value (NAV) reflects a downward adjustment, made subsequent to December 31, 2006, for the amount of the tax liability associated with the Fund's retention of a portion of its long-term capital gains and the Fund's payment of Federal corporate income tax thereon, and therefore differs from the NAV published shortly after that date. The Common Share Price is actual as of December 31, 2006, and did not reflect the knowledge of the subsequent adjustment to NAV.
- 2 Current Distribution Rate is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.
- 3 The Fund elected to retain a portion of its realized long-term capital gains for the tax year ended December 31, 2006, and pay required Federal corporate income taxes on these gains. As reported on Form 2439, Common shareholders of record on December 29, 2006, must include their pro-rata share of these gains on their 2006 federal tax returns, and will receive a corresponding credit toward their taxes, or a tax refund, for their pro-rata share of the taxes paid by the Fund. The standardized total returns shown above do not include the economic benefit to Common shareholders of record of this tax credit/refund. The Fund's corresponding average annual total returns on share price when this benefit is included are 37.15% and 18.92%, for the one-year and since inception periods, respectively. The Fund's corresponding average annual total returns on NAV when this benefit is included are 25.75% and 18.64%, for the one-year and since inception periods, respectively.

THE BOARD OF TRUSTEES AND SHAREHOLDERS
NUVEEN TAX-ADVANTAGED TOTAL RETURN STRATEGY FUND

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Nuveen Tax- Advantaged Total Return Strategy Fund (the "Fund") as of December 31, 2006, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the custodian, selling or agent banks and brokers or by other appropriate auditing procedures where replies from selling or agent banks or brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Nuveen Tax-Advantaged Total Return Strategy Fund at December 31, 2006, the results of its operations and cash flows for the year then ended, changes in its net assets for each of the two years in the period then ended, and the financial highlights for the periods indicated therein in conformity with U.S. generally accepted accounting principles.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Ratings (not covered by the report of independent registered public accounting firm) are based on the higher of Standard & Poor's or Moody's rating. Ratings below BBB by Standard & Poor's Group or Baa by Moody's Investor Service, Inc. are considered to be below investment grade.
- (3) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (4) Senior Loans in which the Fund invests generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate as referenced by the London Inter-Bank Offered Rate ('LIBOR'), or (ii) the prime rate as published by one or more major United States banks.
Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the termination of a Senior Loan.
- (5) At or subsequent to December 31, 2006, this issue was under the protection of the Bankruptcy Court.

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

- (6) Investment is eligible for the Dividends Received Deduction.
- (7) Position represents an unfunded Senior Loan commitment outstanding at December 31, 2006.
- (8) Negative value represents unrealized depreciation on Senior Loan commitment at December 31, 2006.
- (9) Borrowings payable as a percentage of total investments is (6.4)%.
- N/R Not rated.
- WI/DD Purchased on a when-issued/delayed delivery basis.
- ADR American Depositary Receipt.
- TBD Senior Loan purchased on a when-issued/delayed-delivery basis. Certain details associated with this purchase are not known prior to the settlement date of the transaction. In addition, Senior Loans typically trade without accrued interest and therefore an average coupon rate is not available prior to settlement. At settlement, if still outstanding, the Borrower or counterparty will provide the Fund with the final weighted average coupon rate and maturity date.

Notes to FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

Nuveen Tax-Advantaged Total Return Strategy Fund (the "Fund") is a diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended. The Fund's Common shares are listed on the New York Stock Exchange and trade under the ticker symbol "JTA." The Fund was organized as a Massachusetts business trust on October 1, 2003.

The Fund seeks to provide a high level of after-tax total return consisting primarily of tax-advantaged dividend income and capital appreciation by investing primarily in a portfolio of dividend-paying common stocks that the Fund believes at the time of investment are eligible to pay dividends that qualify for favorable Federal income taxation at rates applicable to long-term capital gains ("tax-advantaged dividends"). The Fund will also invest to a more limited extent in preferred securities that are eligible to pay tax-advantaged dividends, as well as senior loans (both secured and unsecured), domestic corporate bonds, notes and debentures, convertible debt securities, and other

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

similar types of corporate instruments, including high yield debt securities, that are not eligible to pay tax-advantaged dividends.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

Exchange-listed securities are generally valued at the last sales price on the securities exchange on which such securities are primarily traded. Securities traded on a securities exchange for which there are no transactions on a given day or securities not listed on a securities exchange are valued at the mean of the closing bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. The prices of fixed-income securities and senior loans are generally provided by an independent pricing service approved by the Fund's Board of Trustees. When price quotes are not readily available, the pricing service or, in the absence of a pricing service for a particular investment, the Board of Trustees of the Fund, or its designee, may establish fair value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustee's designee. If it is determined that the market price for an investment is unavailable or inappropriate, the Board of Trustees of the Fund, or its designee, may establish fair value in accordance with procedures established in good faith by the Board of Trustees. Short-term investments are valued at amortized cost, which approximates market value.

The senior loans in which the Fund invests are not listed on an organized exchange and the secondary market for such investments may be less liquid relative to markets for other fixed income securities. Consequently, the value of senior loans, determined as described above, may differ significantly from the value that would have been determined had there been an active market for that senior loan.

Investment Transactions

Investment transactions are recorded on a trade date basis. Trade date for senior loans purchased in the "primary market" is considered the date on which the loan allocations are determined. Trade date for senior loans purchased in the "secondary market" is the date on which the transaction is entered into. Realized gains and losses from investment transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Fund maintains liquid assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At December 31, 2006, the Fund had outstanding when-issued/delayed delivery purchase commitments of \$1,496,250.

Investment Income

Dividend income is recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also includes paydown gains and losses. Fee income, if any, consists primarily of amendment fees. Amendment fees are earned as compensation for evaluating and accepting changes to the original loan agreement and are recognized when received.

Federal Income Taxes

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. The Fund intends to distribute substantially all of its investment company taxable income to shareholders. In any year when the Fund realizes net capital gains, the Fund may choose to distribute all or a portion of its net capital gains to shareholders, or alternatively, to retain all or a portion of its net capital gains and pay Federal corporate income taxes on such retained gains. During the tax year ended December 31, 2006, the Fund retained \$13,030,512 of realized long-term capital gains, and accrued a provision for Federal corporate income taxes of \$4,560,679, the net of which has been reclassified to Paid-in surplus.

Dividends and Distributions to Common Shareholders

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with Federal corporate income tax regulations, which may differ from U.S. generally accepted accounting principles.

The Fund makes monthly cash distributions to Common shareholders of a stated dollar amount per share. Subject to approval and oversight by the Fund's Board of Trustees, the Fund seeks to maintain a stable distribution level designed to deliver the long-term return potential of the Fund's investment strategy through regular monthly distributions (a "Managed Distribution Policy"). Total distributions during a calendar year generally will be made from the Fund's net investment income, net realized capital gains and net unrealized capital gains in the Fund's portfolio, if any. The portion of distributions paid from net unrealized gains, if any, would be distributed from the Fund's assets and would be treated by shareholders as a non-taxable distribution for tax purposes. If the Fund's total return on net asset value exceeds total distributions during a calendar year, the excess will be reflected as an increase in net asset value per share. In the event that total distributions during a calendar year exceed the Fund's total return on net asset value, the difference will be treated as a return of capital for tax purposes and will reduce net asset value per share. The final determination of the source and character of all distributions for the fiscal year are made after the end of the fiscal year and are reflected in the accompanying financial statements.

FundNotes

The Fund has issued and outstanding 3,120 Series F FundNotes, \$25,000 stated value per share, that mature on April 24, 2034. The interest rate paid by the Fund is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. For the fiscal year ended December 31, 2006, the average daily balance of FundNotes was \$78 million with an average annualized interest rate (including amortization of the FundNotes offering costs) of 4.73%.

FundPreferred Shares

The Fund has issued and outstanding 1,800 Series W FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. The dividend rate paid by the Fund is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period.

Derivative Financial Instruments

The Fund is authorized to invest in derivatives or other transactions for the purpose of hedging the portfolio's exposure to common stock risk, high yield credit risk, foreign currency exchange risk and the risk of increases in interest rates. Although the Fund is authorized to invest in such financial instruments, and may do so in the future, it did not invest in any such instruments during the fiscal year ended December 31, 2006.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Custodian Fee Credit

The Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on the Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Organization and Offering Costs

Costs incurred by the Fund in connection with its offering of FundNotes are recorded as a deferred charge which are being amortized over the 30 year life of the FundNotes and included with "FundNotes interest expense and amortization of offering costs" on the Statement of Operations.

Indemnifications

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

FINANCIAL STATEMENTS (continued)

2. FUND SHARES

During the fiscal year ended December 31, 2006, 32,694 shares were issued to shareholders due to reinvestment of distributions. The Fund did not engage in transactions in its own shares during the fiscal year ended December 31, 2005.

3. INVESTMENT TRANSACTIONS

Purchases and sales (excluding short-term investments) during the fiscal year ended December 31, 2006, aggregated \$140,181,278 and \$113,720,783, respectively.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and Federal income tax purposes are primarily due to the treatment of paydown gains and losses, recognition of premium amortization, and timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

on the Statement of Assets and Liabilities presented in the annual report, based on their Federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Fund.

At December 31, 2006, the cost of investments was \$430,647,633.

Gross unrealized appreciation and gross unrealized depreciation of investments at December 31, 2006, were as follows:

Gross unrealized:	
Appreciation	\$93,443,663
Depreciation	(4,900,412)

Net unrealized appreciation (depreciation) of investments	\$88,543,251

The tax components of undistributed net ordinary income and net long-term capital gains at December 31, 2006, the Fund's tax year end, were as follows:

Undistributed net ordinary income *	\$ --
Undistributed net long-term capital gains	--

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

The tax character of distributions paid during the tax years ended December 31, 2006 and December 31, 2005, was designated for purposes of the dividends paid deduction as follows:

2006

Distributions from net ordinary income *	\$13,681,235
Distributions from net long-term capital gains **	10,235,261

2005

Distributions from net ordinary income *	\$12,615,936
Distributions from net long-term capital gains	12,174,921

*Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

**The Fund designated as a long-term capital gain dividend, pursuant to the Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings and profits of the Fund related to net capital gain to zero for the tax year ended December 31, 2006.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. ("Nuveen"), and a specific fund-level component, based only on the amount of assets within the Fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, is based upon the average daily Managed Assets of the Fund as follows:

AVERAGE DAILY MANAGED ASSETS	FUND-LEVEL FEE RATE
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For Managed Assets over \$2 billion	.6000

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of December 31, 2006, the complex level fee rate was .1845%.

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to preferred stock issued by or borrowings by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

(2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into Sub-Advisory Agreements with NWQ Investment Management Company, LLC ("NWQ") and Symphony Asset Management, LLC ("Symphony"). Nuveen owns a controlling interest in NWQ while key management of NWQ owns a non-controlling minority interest. Symphony is an indirect wholly owned subsidiary of Nuveen. NWQ manages the portion of the Fund's investment portfolio allocated to dividend-paying common stocks including American Depositary Receipts ("ADRs"). Symphony manages the portion of the Fund's investment portfolio allocated to senior loans and other debt instruments. NWQ and Symphony are compensated for their services to the Fund from the management fee paid to the Adviser.

The Fund pays no compensation directly to those of its Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Fund from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first eight years of the Fund's operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING JANUARY 31,		YEAR ENDING JANUARY 31,	
2004 *	.32%	2009	.32%
2005	.32	2010	.24
2006	.32	2011	.16
2007	.32	2012	.08
2008	.32		

* From the commencement of operations.

The Adviser has not agreed to reimburse the Fund for any portion of its fees and expenses beyond January 31, 2012.

FINANCIAL STATEMENTS (continued)

6. COMMITMENTS

Pursuant to the terms of certain of the variable rate senior loan agreements,

the Fund may have unfunded senior loan commitments. The Fund will maintain with its custodian, cash, liquid securities and/or liquid senior loans having an aggregate value at least equal to the amount of unfunded senior loan commitments. At December 31, 2006, the Fund had unfunded senior loan commitments of \$1,153,821.

7. SENIOR LOAN PARTICIPATION COMMITMENTS

With respect to the senior loans held in the Fund's portfolio, the Fund may: 1) invest in assignments; 2) act as a participant in primary lending syndicates; or 3) invest in participations. If the Fund purchases a participation of a senior loan interest, the Fund would typically enter into a contractual agreement with the lender or other third party selling the participation, rather than directly with the Borrower. As such, the Fund not only assumes the credit risk of the Borrower, but also that of the Selling Participant or other persons interpositioned between the Fund and the Borrower. At December 31, 2006, there were no such outstanding participation commitments.

8. BORROWINGS

On August 2, 2006, the Fund entered into a \$33 million revolving credit agreement with CITIBANK, N.A. On August 3, 2006, the Fund had borrowed the full \$33 million allowed under the revolving credit agreement. For the fiscal year ended December 31, 2006, the average daily balance of borrowings under the revolving credit agreement was \$13,652,055. The average annualized interest rate on such borrowings was 5.62%.

9. NEW ACCOUNTING PRONOUNCEMENTS

Financial Accounting Standards Board Interpretation No. 48

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Recent SEC guidance allows funds to delay implementing FIN 48 into NAV calculations until the fund's last NAV calculation in the first required financial statement reporting period. As a result, the Fund must begin to incorporate FIN 48 into its NAV calculation on June 29, 2007. At this time, management is continuing to evaluate the implications of FIN 48 and does not expect the adoption of FIN 48 will have a significant impact on the net assets or results of operations of the Fund.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, "Fair Value Measurements." This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this standard relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. As of December 31, 2006, the Fund does not believe the adoption of SFAS No. 157 will impact the financial statement amounts; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements included within the Statement of

Total returns are not annualized.

- The Fund elected to retain a portion of its realized long-term capital gains for the tax year ended December 31, 2006, and pay required Federal corporate income taxes on these gains. As reported on Form 2439, Common shareholders of record on December 29, 2006, must include their pro-rata share of these gains on their 2006 Federal tax returns, and will receive a corresponding credit toward their taxes, or a tax refund, for their pro-rata share of the taxes paid by the Fund. The standardized total returns shown above do not include the economic benefit to Common shareholders of record of this tax credit/refund. The Fund's corresponding 2006 total return on market value and net asset value when this benefit is included are 37.15% and 25.75%, respectively.

Reinvest Automatically
EASILY AND CONVENIENTLY

NUVEEN EXCHANGE-TRADED CLOSED-END FUNDS
DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Closed-End Fund allows you to conveniently reinvest

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

dividends and/or capital gains distributions in additional fund shares

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market, however, if shares begin trading at or above net asset value during the purchase period, the Fund will issue new shares at the greater of the net asset value or 95% of the then current market price. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

DISTRIBUTION INFORMATION

Nuveen Tax-Advantaged Total Return Strategy Fund (JTA) designates 73.75% of dividends declared from net investment income as dividends qualifying for the 70% dividends received deduction for corporations and 94.21% as qualified dividend income for individuals under the Jobs and Growth Tax Relief Reconciliation Act of 2003.

CEO CERTIFICATION DISCLOSURE

The Fund's Chief Executive Officer has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

The Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

MARKET YIELD: Market yield is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Funds' cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. [There were no amendments to or waivers from the Code during the period covered by this report.] The registrant has posted the code of ethics on its website at www.nuveen.com/etf. (To view the code, click on the Investor Resources drop down menu box, click on Fund

Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen Tax-Advantage Total Return Strategy Fund

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

(1) "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

(2) "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under "Audit Fees".

(3) "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.

(4) "All Other Fees" are the aggregate fees billed for products and services other than "Audit Fees", "Audit Related Fees", and "Tax Fees".

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

(1) The amounts reported for the Fund under the column heading "Tax Fees" represents amounts billed to the Adviser exclusively for the preparation for the Fund's tax return, the cost of which is borne by the Adviser. In the aggregate, for all Nuveen funds for which Ernst & Young LLP serves as independent registered public accounting firm, these fees amounted to \$288,000 in 2006 and \$282,575 in 2005.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Lawrence H. Brown, Jack B. Evans, William J. Schneider and Eugene S. Sunshine.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Adviser has engaged NWQ Investment Management Company, LLC ("NWQ") and Symphony Asset Management, LLC ("Symphony") (NWQ and Symphony are also collectively referred to as "Sub-Advisers") as Sub-Advisers to provide discretionary investment advisory services. As part of these services, the Adviser has also delegated to each Sub-Adviser the full responsibility for proxy voting and related duties in accordance with the Sub-Adviser's policy and procedures. The Adviser periodically will monitor each Sub-Adviser's voting to ensure that they are carrying out their duties. The Sub-Advisers' proxy voting policies and procedures are summarized as follows:

NWQ

NWQ's Proxy Voting Policies and Procedures apply to securities held in client accounts over which NWQ Investment Management Company, LLC ("NWQ") has voting authority. NWQ shall vote proxies in respect of securities owned by or on behalf of a client in the client's best interests and without regard to the interests of NWQ or any other client of NWQ. NWQ has a Proxy Voting Committee to supervise the proxy voting process, including the identifying material conflicts of interest. Unless the Proxy Voting Committee otherwise determines (and documents the basis for its decision) or as otherwise provided below, the Proxy Voting Committee shall cause proxies to be voted in a manner consistent with the recommendations or guidelines of an independent third party proxy service or other third party. In most cases, NWQ has adopted the guidelines of and will generally vote in accordance with the recommendations of Institutional Shareholder Services, Inc. As a general matter, unless otherwise restricted NWQ reserves the right to override the applicable Recommendations or Guidelines in any situation where it believes that following such Recommendations or Guidelines is not in its clients' best interests.

Where any material conflict of interest has been identified and the matter is covered by the applicable Recommendation or Guidelines, the Proxy Voting Committee shall cause proxies to be voted in accordance with the applicable Recommendation or Guidelines. Where any material conflict of interest has been identified and the matter is not covered by the applicable Recommendation or Guidelines, NWQ may (i) vote in accordance with the recommendation of an alternative independent third party (who may be a proxy voting service) or (ii) disclose the conflict to the client, obtain the client's consent to vote, and make the proxy voting determination itself (and document the basis for the decision).

NWQ may determine not to vote proxies in respect of securities of any issuer if it determines it would be in its clients' overall best interests not to vote. NWQ may decline to vote proxies where the voting would in NWQ's judgment result in some other financial, administrative, legal or regulatory disability or burden to NWQ or the client (such as blocking subsequent purchases or imputing control with respect to the issuer). To the extent that NWQ receives proxies for securities that are transferred into a client's portfolio that were not recommended or selected by NWQ and are sold or expected to be sold promptly in an orderly manner ("legacy securities"), NWQ will generally refrain from voting such proxies.

NWQ shall retain required records relating to the voting of proxies and shall provide a client with information on how NWQ voted proxies on behalf of the client as requested.

SYMPHONY

Symphony uses the proxy voting services of Institutional Shareholder Services ("ISS"). The ISS Proxy Voting Services provide Symphony and its clients with an independent source of proxy voting research and services. The use of ISS is designed to offer client-centered proxy voting which minimizes conflicts of interests between Symphony's interests and those of its clients.

In order to monitor how ISS votes client proxies, Symphony has established a Proxy Voting Review Committee (the "Committee"). The Committee is composed of Symphony's Chief Operating Officer and its Chief Investment Officer. Each year, the Committee reviews ISS proxy voting policies and practices to determine whether such policies and practices are consistent with Symphony's fiduciary duty to the clients for whom Symphony is responsible for voting proxies. During the year, the Committee review how ISS votes on specific issues. From time to time, the Committee discusses the proxy voting process with representatives of ISS in order to ensure that Symphony's client interests are being protected. When Symphony disagrees with ISS' policies with respect to certain issues, Symphony will direct the voting of its clients' proxies according to what Symphony believes is the best interests of its clients.

Clients who have questions about how particular proxies are voted for their account may request such information from Symphony by calling (415) 676-4000.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Adviser has engaged Symphony Asset Management, LLC ("Symphony") and NWQ Investment Company, LLC ("NWQ") (Symphony and NWQ are also collectively referred to as "Sub-Advisers") as Sub-Advisers to provide discretionary investment advisory services with respect to the registrant's investments in senior loans and other debt instruments and equity investments, respectively. The following section provides information on the portfolio managers at each Sub-Adviser:

POTENTIAL MATERIAL CONFLICTS OF INTEREST

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

As described above, the portfolio manager may manage other accounts with investment strategies similar to the Fund, including other investment companies and separately managed accounts. Fees earned by the sub-advisers may vary among these accounts and the portfolio managers may personally invest in some but not all of these accounts. In addition, certain accounts may be subject to performance-based fees. These factors could create conflicts of interest because a portfolio manager may have incentives to favor certain accounts over others, resulting in other accounts outperforming the Fund. A conflict may also exist if a portfolio manager identified a limited investment opportunity that may be appropriate for more than one account, but the Fund is not able to take full advantage of that opportunity due to the need to allocate that opportunity among multiple accounts. In addition, the portfolio manager may execute transactions for another account that may adversely impact the value of securities held by the Fund. However, the sub-advisers believe that these risks are mitigated by the fact that accounts with like investment strategies managed by a particular portfolio manager are generally managed in a similar fashion, subject to exceptions to account for particular investment restrictions or policies applicable only to certain accounts, differences in cash flows and account sizes, and other factors. In addition, each sub-adviser has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

ITEM 8 (a) (3). Fund Manager Compensation

Symphony investment professionals receive competitive base salaries and participate in a bonus pool which is tied directly to the firm's operating income with a disproportionate amount paid to the managers responsible for generating the alpha. The bonus paid to investment personnel is based on acumen, overall contribution and strategy performance. However, there is no fixed formula which guides bonus allocations. Bonuses are paid on an annual basis. In addition, investment professionals may participate in an equity-based compensation pool.

POTENTIAL MATERIAL CONFLICTS OF INTEREST

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one account. More specifically, portfolio managers who manage multiple accounts are presented with the following potential conflicts:

- The management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of each account. NWQ seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio managers focus on a particular investment discipline. Most accounts managed by a portfolio manager in a particular investment strategy are managed using the same investment models.
- If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one account, an account may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible accounts. To deal with these situations, NWQ has adopted procedures for allocating portfolio transactions across multiple accounts.
- With respect to many of its clients' accounts, NWQ determines which broker to use to execute transaction orders, consistent with its duty to seek best execution of the transaction. However, with respect to certain other accounts, NWQ may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular broker. In these cases, NWQ may place separate, non-simultaneous, transactions for a Fund and other accounts which may temporarily affect the market price of the security or the execution of the transactions, or both, to the detriment of the Fund or the other accounts.
- The Fund is subject to different regulation than other pooled investment vehicles and other accounts managed by the portfolio managers. As a consequence of this difference in regulatory requirements, the Fund may not be permitted to engage in all the investment techniques or transactions or to

Edgar Filing: NUVEEN TAX ADVANTAGED TOTAL RETURN STRATEGY FUND - Form N-CSR

engage in these transactions to the same extent as the other accounts managed by the portfolio managers. Finally, the appearance of a conflict of interest may arise where NWQ has an incentive, such as a performance-based management fee, which relates to the management of some accounts, with respect to which a portfolio manager has day-to-day management responsibilities.

NWQ has adopted certain compliance procedures which are designed to address these types of conflicts common among investment managers. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

ITEM 8 (a) (3). Fund Manager Compensation

NWQ's portfolio managers participate in a highly competitive compensation structure with the purpose of attracting and retaining the most talented investment professionals and rewarding them through a total compensation program as determined by the firm's executive committee. The total compensation program consists of both a base salary and an annual bonus that can be a multiple of the base salary. The portfolio manager's performance is formally evaluated annually and based on a variety of factors. Bonus compensation is primarily a function of the firm's overall annual profitability and the individual portfolio manager's contribution as measured by the overall investment performance of client portfolios in the strategy they manage relative to the strategy's general benchmark for one, three and five year periods (as applicable), as well as an objective review of stock recommendations and the quality of primary research, and subjective review of the professional's contributions to portfolio strategy, teamwork, collaboration and work ethic.

The total compensation package includes availability of equity-like incentive for purchase (whose value is determined by the increase in profitability of NWQ over time) made to most investment professionals. Additionally, the portfolio managers have been provided compensation in conjunction with signing long-term employment agreements. NWQ is a subsidiary of Nuveen Investments, Inc., which has augmented this incentive compensation annually through individual awards of a stock option pool, as determined through a collaborative process between Nuveen Investments and the NWQ executive committee.
