MVC Capital, Inc. (the Company)
Notes to Consolidated Financial Statements
July 31, 2007
(Unaudited)

1. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. Certain amounts have been reclassified to adjust to current period presentations. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended October 31, 2006, as filed with the United States Securities and Exchange Commission (the SEC) on January 10, 2007 (File No. 814-00201).

2. Consolidation

On July 16, 2004, the Company formed a wholly-owned subsidiary, MVC Financial Services, Inc. (MVCFS). MVCFS is incorporated in Delaware and its principal purpose is to provide advisory, administrative and other services to the Company, the Company's portfolio companies and other entities. MVCFS had opening equity of \$1 (100 shares at \$0.01 per share). The Company does not hold MVCFS for investment purposes and does not intend to sell MVCFS. In the consolidation, all intercompany accounts have been eliminated.

3. Investment Classification

As required by the Investment Company Act of 1940, as amended (the 1940 Act), we classify our investments by level of control. As defined in the 1940 Act, Control Investments are investments in those companies that we are deemed to Control. Affiliate Investments are investments in those companies that are Affiliated Companies of us, as defined in the 1940 Act, other than Control Investments. Non-Control/Non-Affiliate Investments are those that are neither Control Investments nor Affiliate Investments. Generally, under that 1940 Act, we are deemed to control a company in which we have invested if we own 25% or more of the voting securities of such company or have greater than 50% representation on its board. We are deemed to be an affiliate of a company in which we have invested if we own 5% or more and less than 25% of the voting securities of such company.

4. Concentration of Market Risk

Financial instruments that subjected the Company to concentrations of market risk consisted principally of equity investments, subordinated notes, and debt instruments, which represented approximately 72.58% of the Company's total assets at July 31, 2007. As discussed in Note 5, these investments consist of securities in companies with no readily determinable market values and as such are valued in accordance with the Company's fair value policies and procedures. The Company's investment strategy represents a high degree of business and financial risk due to the fact that the investments (other than cash equivalents) are generally illiquid, in small and middle market companies, and include entities with little operating history or entities that possess operations in new or developing industries. These investments, should they become publicly traded, would generally be (i) subject to restrictions on resale, if they were acquired from the issuer in private placement transactions; and (ii) susceptible to market risk.

Table of Contents**5. Portfolio Investments****For the Nine Month Period Ended July 31, 2007**

During the nine month period ended July 31, 2007, the Company made eight new investments, committing capital totaling approximately \$53.3 million. On June 19, 2007, the Company increased the bridge loan to BENI to \$2.0 million. The remaining available amount of \$1.7 million was immediately drawn.

Table of Contents

On July 24, 2007, the Company sold the common stock of Baltic Motors and SIA BM Auto (BM Auto). The amount received from the sale of the 60,684 common shares of Baltic Motors was approximately \$62.0 million, net of closing and other transaction costs, working capital adjustments and a reserve established by the Company to satisfy certain post-closing conditions requiring capital and other expenditures. Baltic Motors repaid all debt from the Company in full including all accrued interest. Total amount received from the repayment of the debt was approximately \$10.2 million including all accrued interest. The remaining \$51.8 million less the \$8.0 million cost basis of Baltic resulted in \$43.8 million recorded as realized gain. The difference between the \$51.8 million received from the Baltic equity and the carrying value at October 31, 2006 is \$30.6 million and the amount of the increase in net assets attributable to fiscal year 2007. The portion of the capital gain related to the equity investment made on June 24, 2004 (\$40.9 million), will be treated as long-term capital gain and the portion related to the equity investment made on September 28, 2006 (\$2.9 million) will be treated as a short-term capital gain. The amount received from the sale of the 47,300 common shares of BM Auto was approximately \$29.7 million, net of closing and other transaction costs, working capital adjustments and a reserve established by the Company to satisfy certain post-closing conditions requiring capital and other expenditures. The \$29.7 million less the \$8.0 million cost basis of BM Auto resulted in \$21.7 million recorded as a long term capital gain. The difference between the \$29.7 million received from the BM Auto equity and the carrying value at October 31, 2006 is \$21.7 million and the amount of the increase in net assets attributable to fiscal 2007.

As mentioned above, a reserve account of approximately \$3.0 million was created for post closing conditions that are required of the seller as a part of the purchase agreement. The cash held in the reserve account is held in Euros. At July 31, 2007, the balance of the reserve account was approximately \$2.9 million. Expenses such as finishing a road to a dealership and Latvian tax withholding payments, among other things have been estimated by management and will be paid from this account. This reserve account is owned and controlled by the Company. The Company has recorded the cash in the reserve account to its books denominated as foreign currency. It has also recorded a liability for the same amount so there is no impact to net asset value until all post closing conditions are met. The remaining cash, if any, will be converted to USD and recorded as long term capital gain. We do not anticipate any overages; however, if they occur it would reduce the capital gain that has already been recorded. Any difference recorded due to changes in exchange rates since the Euros were received will be recorded as currency gain (loss). During the interim, at each month end, the Euros will be valued based on that day's exchange rate and the liability will be adjusted to match the USD equivalent. Management believes all post closing conditions will be met before October 31, 2007.

On July 27, 2007, U.S. Gas repaid its bridge loan in full including accrued interest. The total amount received was approximately \$908,000.

During the nine month period ended July 31, 2007, the Valuation Committee increased the fair value of the Company's investments in Dakota common stock by approximately \$1.9 million, Octagon's membership interest by approximately \$1.6 million, SGDA common equity interest by approximately \$276,000 and preferred equity interest by \$350,000, PreVisor Inc. (PreVisor) common stock by \$1.7 million, Foliofn, Inc. (Foliofn) preferred stock by \$2.1 million, Vendio Services, Inc. (Vendio) preferred stock by \$6.1 million, and Vendio common stock by approximately \$15,000. In addition, increases in the cost basis and fair value of the loans to Impact Confections, Inc. (Impact), JDC Lighting, LLC (JDC), SP, Timberland, Amersham Corporation (Amersham), Marine Exhibition Corporation (Marine), Phoenix Coal Corporation (Phoenix), BP, Turf, Summit Research Labs, Inc. (Summit), and the Vitality and Marine preferred stock were due to the capitalization of payment in kind (PIK) interest/dividends totaling \$2,418,638. Also, during the nine month period ended July 31, 2007, the undistributed allocation of flow through income from the Company's equity investment in Octagon increased the cost basis and fair value of the Company's investment by \$140,084. The Valuation Committee also decreased the fair value of the Company's investment in Ohio during the nine month period ended July 31, 2007 by \$9.0 million.

Table of Contents

At July 31, 2007, the fair value of all portfolio investments was \$316.9 million with a cost basis of \$334.7 million. At July 31, 2007, the fair value and cost basis of portfolio investments made by the Company's former management team pursuant to the prior investment objective (Legacy Investments) was \$16.6 million and \$55.9 million, respectively, and the fair value and cost basis of portfolio investments made by the Company's current management team was \$300.3 million and \$278.8 million, respectively. At October 31, 2006, the fair value of all portfolio investments was \$275.9 million with a cost basis of \$286.9 million. At October 31, 2006, the fair value and cost basis of Legacy Investments was \$8.4 million and \$55.9 million, respectively, and the fair value and cost basis of portfolio investments made by the Company's current management team was \$267.5 million and \$231.0 million, respectively.

For the Year Ended October 31, 2006

During the year ended October 31, 2006, the Company made sixteen new investments, committing capital totaling approximately \$142.1 million. The investments were made in Turf (\$11.6 million), Strategic Outsourcing, Inc. (SOI) (\$5.0 million), Henry (\$5.0 million), BM Auto (\$15.0 million), Storage Canada (\$6.0 million), Phoenix (\$8.0 million), Harmony Pharmacy (\$200,000), Total Safety (\$6.0 million), PreVisor (\$6.0 million), Marine (\$14.0 million), BP (\$15.0 million), Velocitius (\$66,290), Summit (\$16.2 million), Octagon (\$17.0 million), BENI (\$2.0 million), and Innovative Brands (\$15.0 million).

The Company also made eight follow-on investments in existing portfolio companies committing capital totaling approximately \$24.2 million. During the year ended October 31, 2006, the Company invested approximately \$879,000 in Dakota by purchasing an additional 172,104 shares of common stock at an average price of \$5.11 per share. On December 22, 2005, the Company made a follow-on investment in Baltic Motors in the form of a \$1.8 million revolving bridge note. Baltic Motors immediately borrowed \$1.5 million from the note. On January 12, 2006, Baltic Motors repaid the loan, in full including all unpaid interest. The note matured on January 31, 2006 and has been removed from the Company's books. On January 12, 2006, the Company provided SGDA a \$300,000 bridge loan. On March 28, 2006, the Company provided Baltic Motors a \$2.0 million revolving bridge note. Baltic Motors immediately borrowed \$2.0 million from the note. On April 5, 2006, Baltic Motors repaid the amount borrowed from the note including all unpaid interest. The note expired on April 30, 2006 and has been removed from the Company's books. On April 6, 2006, the Company invested an additional \$2.0 million in SGDA in the form of a preferred equity security. On April 25, 2006, the Company purchased an additional common equity security in SGDA for \$23,000. On June 30, 2006, the Company provided Amersham a \$2.5 million second lien loan. On August 4, 2006, the Company invested \$750,000 in Harmony Pharmacy in the form of common stock. On September 28, 2006, the Company made another follow-on investment in Baltic Motors in the form of a \$1.0 million bridge loan and a \$2.0 million equity investment. On October 13, 2006, the Company made a \$10.0 million follow-on investment in SP in the form of an additional \$4.0 million in term loan B and \$6.0 million in a mezzanine loan. On October 20, 2006, the Company then assigned at cost, \$5.0 million of SP's \$8.0 million term loan B to Citigroup Global Markets Realty Corp. On October 24, 2006, the Company invested an additional \$3.0 million in SGDA in the form of a preferred equity security. On October 26, 2006, the Company invested an additional \$2.9 million in Velocitius in the form of common equity. The Company also provided Velocitius a \$260,000 revolving line of credit on October 31, 2006. Velocitius immediately borrowed \$143,614.

At the beginning of the 2006 fiscal year, the revolving credit facility provided to SGDA had an outstanding balance of approximately \$1.2 million. During December 2005, SGDA borrowed an additional \$70,600 from the credit facility. On April 28, 2006, the Company increased the availability under the revolving credit facility by \$300,000. The balance of the bridge loan to SGDA, which would have matured on April 30, 2006, was added to the revolving credit facility and the bridge loan was eliminated from the Company's books as a part of the refinancing. On August 25, 2006, the revolving credit facility was added to the term loan, and the terms remained unchanged. The balance of the term loan at October 31, 2006 was \$6.2 million.

Table of Contents

On December 21, 2005, Integral Development Corporation (Integral) prepaid its senior credit facility in full. The Company received approximately \$850,000 from the prepayment. This amount included all outstanding principal and accrued interest. The Company recorded no gain or loss as a result of the prepayment. Under the terms of the prepayment, the Company returned its warrants to Integral for no consideration.

Effective December 27, 2005, the Company exchanged \$286,200, of the \$3.25 million outstanding, of the Timberland junior revolving line of credit into 28.62 shares of common stock at a price of \$10,000 per share. As a result, as of July 31, 2006, the Company owned 478.62 common shares of Timberland and the funded debt under the junior revolving line of credit was reduced from \$3.25 million to approximately \$3.0 million.

Effective December 31, 2005, the Company received 373,362 shares of Series E preferred stock of ProcessClaims Inc. (ProcessClaims) in exchange for its rights under a warrant issued by ProcessClaims that has been held by the Company since May 2002. On January 5, 2006, the Valuation Committee increased the fair value of the Company's entire investment in ProcessClaims by \$3.3 million to \$5.7 million. Please see the paragraph below for more information on ProcessClaims.

On January 3, 2006, the Company exercised its warrant ownership in Octagon, which increased its existing membership interest. As a result, Octagon is now considered an affiliate of the Company.

Due to the dissolution of Yaga Inc. (Yaga), one of the Company's Legacy Investments, the Company realized losses on its investment in Yaga totaling \$2.3 million during the nine month period ended July 31, 2006. The Company received no proceeds from the dissolution of Yaga and the Company's investment in Yaga has been removed from the Company's books. The Valuation Committee previously decreased the fair value of the Company's investment in Yaga to zero and as a result, the Company's realized losses were offset by reductions in unrealized losses. Therefore, the net effect of the removal of Yaga from the Company's books on the Company's consolidated statement of operations and NAV at October 31, 2006, was zero.

On February 24, 2006, BP repaid its second lien loan from the Company in full. The amount of the proceeds received from the prepayment was approximately \$8.7 million. This amount included all outstanding principal, accrued interest, accrued monitoring fees and an early prepayment fee. The Company recorded no gain or loss as a result of the repayment.

On April 7, 2006, the Company sold its investment in Lumeta Corporation (Lumeta) for its carrying value of \$200,000. The Company realized a loss on Lumeta of approximately \$200,000. However, the Valuation Committee previously decreased the fair value of the Company's investment in Lumeta to \$200,000 and, as a result; the realized loss was offset by a reduction in unrealized losses. Therefore, the net effect of the Company's sale of its investment in Lumeta on the Company's consolidated statement of operations and NAV was zero.

On April 21, 2006, BM Auto repaid its bridge loan from the Company in full. The amount of the proceeds received from the repayment was approximately \$7.2 million. This amount included all outstanding principal, accrued interest and was net of foreign taxes withheld. The Company recorded no gain or loss as a result of the repayment.

On May 4, 2006, the Company received a working capital adjustment of approximately \$250,000 related to the Company's purchase of a membership interest in Turf. As a result, the Company's cost basis in the investment was reduced by \$250,000.

On May 30, 2006, ProcessClaims, one of the Company's Legacy Investments, entered into a definitive agreement to be acquired by CCC Information Services Inc. (CCC). The acquisition by CCC closed on June 9, 2006. As of June 9, 2006, the Company received net proceeds of approximately \$7.9 million. The gross

Table of Contents

proceeds were approximately \$8.3 million of which approximately \$400,000 or 5% of the gross proceeds were deposited into a reserve account for one year. Due to the contingencies associated with the escrow, the Company had not placed any value on the proceeds deposited in escrow and had not included such proceeds into the Company's NAV. The Company's total investment in ProcessClaims was \$2.4 million, which resulted in a capital gain of approximately \$5.5 million.

On July 27, 2006, SOI repaid their loan in full. The amount of the proceeds received from the prepayment was approximately \$4.5 million. This amount included all outstanding principal, accrued interest, and an early prepayment fee. The Company recorded no gain or loss as a result of the prepayment.

On August 25, 2006, Harmony Pharmacy repaid their loan in full. The amount of the proceeds received from the prepayment was \$207,444. This amount included all outstanding principal and accrued interest. The Company recorded no gain or loss as a result of the prepayment.

On August 25, 2006, SGDA's revolving credit facility was added to the term loan, increasing the balance of the term loan by \$1.6 million. The revolving credit facility was eliminated from the Company's books as a result of this refinancing.

Effective September 12, 2006, the Company exchanged \$409,091, of the \$3.0 million outstanding, of the Timberland junior revolving line of credit into 40.91 shares of common stock at a price of \$10,000 per share. Effective September 22, 2006, the Company exchanged \$225,000, of the \$2.6 million outstanding on the Timberland junior revolving line of credit into 22.5 shares of common stock at a price of \$10,000 per share. On September 22, 2006, Timberland borrowed \$500,000 from the junior revolving line of credit. As a result of these transactions, as of October 31, 2006, the Company owned 542.03 common shares of Timberland and the funded debt under the junior revolving line of credit was reduced from \$3.0 million to approximately \$2.8 million.

On October 2, 2006, Octagon bought-back a total of 15% equity interest from non-service members. This resulted in a sale of a portion of the Company's LLC member interest to Octagon for proceeds of \$1,020,018. The Company realized a gain of \$551,092 from this sale.

On October 2, 2006, Octagon repaid their loan and revolving credit facility from the Company in full. The amount of the proceeds received from the prepayment of the loan was approximately \$5.4 million. This amount included all outstanding principal, accrued interest, and a commitment fee on the revolving credit facility. The Company recorded a gain as a result of these prepayments of approximately \$429,000 from the acceleration of amortization of original issue discount.

On October 30, 2006, JDC repaid \$160,116 of principal on the senior subordinated debt.

During the year ended October 31, 2006, the Valuation Committee increased the fair value of the Company's investments in Baltic Motors common stock by \$11.6 million, Dakota common stock by approximately \$2.6 million, Turf's membership interest by \$2.0 million, Octagon's membership interest by approximately \$562,000, Ohio common stock by \$9.2 million, Foliofn preferred stock by \$5.0 million, Vendio preferred stock by \$700,000, ProcessClaims preferred stock by \$4.8 million and Vitality common stock and warrants by \$3.5 million and \$400,000, respectively. In addition, increases recorded to the cost basis and fair value of the loans to Amersham, BP, Impact, JDC, Phoenix, SP, Timberland, Turf, Marine, Summit and the Vitality and Marine preferred stock were due to the receipt of payment in kind interest/dividends totaling approximately \$2.2 million. Also during the year ended October 31, 2006, the undistributed allocation of flow through income from the Company's equity investment in Octagon increased the cost basis and fair value of the Company's investment by approximately \$279,000. During the year ended October 31, 2006, the Valuation Committee also decreased the fair value of the Company's equity investment in Timberland by \$1.0 million.

Table of Contents

Timberland also has a floor plan financing program administered by Transamerica Commercial Finance Corporation (Transamerica). As is typical in Timberland's industry, under the terms of the dealer financing arrangement, Timberland guarantees the repurchase of product from Transamerica, if a dealer defaults on payment and the underlying assets are repossessed. The Company has agreed to be a limited co-guarantor for up to \$500,000 on this repurchase commitment.

Commitments of the Company:

On February 16, 2005, the Company entered into a sublease (the Sublease) for a larger space in the building in which the Company's current executive offices are located, which expired on February 28, 2007. Effective November 1, 2006, under the terms of the Investment Advisory and Management Agreement with TTG Advisers (the Advisory Agreement), TTG Advisers is responsible for providing office space to the Company and for the costs associated with providing such office space. The Company's offices continue to be located on the second floor of 287 Bowman Avenue.

On April 27, 2006, the Company and MVCFS, as co-borrowers, entered into a new four-year, \$100 million credit facility (the Credit Facility) with Guggenheim as administrative agent for the lenders. At October 31, 2006, there was \$50.0 million in term debt and \$50.0 million on the revolving credit facility outstanding. During the nine months ended July 31, 2007, the Company's net repayments on the Credit Facility were \$50.0 million. As of July 31, 2007, there was \$50.0 million in term debt and no amount outstanding on the revolving credit facility. The proceeds from borrowings made under the Credit Facility are used to fund new and existing portfolio investments, pay fees and expenses related to obtaining the financing and for general corporate purposes. The Credit Facility will expire on April 27, 2010, at which time all outstanding amounts under the Credit Facility will be due and payable. Borrowings under the Credit Facility will bear interest, at the Company's option, at a floating rate equal to either (i) the LIBOR rate (for one, two, three or six months), plus a spread of 2.00% per annum, or (ii) the Prime rate in effect from time to time, plus a spread of 1.00% per annum. The Company paid a closing fee, legal and other costs associated with this transaction. These costs will be amortized evenly over the life of the facility. The prepaid expenses on the Balance Sheet include the unamortized portion of these costs. Borrowings under the Credit Facility will be secured, by among other things, cash, cash equivalents, debt investments, accounts receivable, equipment, instruments, general intangibles, the capital stock of MVCFS, and any proceeds from all the aforementioned items, as well as all other property except for equity investments made by the Company.

The Company enters into contracts with portfolio companies and other parties that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not experienced claims or losses pursuant to these contracts and believes the risk of loss related to indemnifications to be remote.

7. Certain Issuances of Equity Securities by the Issuer

On February 28, 2007, the Company completed its public offering of 5,000,000 shares of the Company's common stock at a price of \$16.25 per share. On March 28, 2007, pursuant to the 30-day over-allotment option granted by the Company to the underwriters in connection with the offering, the underwriters purchased an additional 158,500 shares of common stock at the purchase price of \$16.25 per share. The Company raised approximately \$78.4 million in net proceeds after deducting the underwriting discount and commissions and estimated offering expenses. The Company expects to use the net proceeds of the offering to fund additional investments and for general corporate purposes, including the repayment of debt.

Table of Contents**8. Management**

On November 6, 2003, Michael Tokarz assumed his positions as Chairman, Portfolio Manager and Director of the Company. From November 6, 2003 to October 31, 2006, the Company was internally managed. The Company entered into the Advisory Agreement, effective November 1, 2006, which provides for the Company to be managed externally by TTG Advisers, which is controlled by Mr. Tokarz.

On April 4, 2007, in accordance with the recommendation of the Nominating/Corporate Governance/Strategy Committee of the Company's board of directors, Mr. Warren E. Holsberg was appointed to serve on the Company's board of directors. On June 28, 2007, all of the Company's directors were re-elected to serve on the Board until the next annual meeting of stockholders.

Under the terms of the Advisory Agreement, TTG Advisers determines, consistent with the Company's investment strategy, the composition of the Company's portfolio, the nature and timing of the changes to the Company's portfolio and the manner of implementing such changes. TTG Advisers also identifies, and negotiates the structure of the Company's investments (including performing due diligence on prospective portfolio companies), closes and monitors the Company's investments, determines the securities and other assets purchased, retains or sells and oversees the administration, recordkeeping and compliance functions of the Company and/or third parties performing such functions for the Company. TTG Advisers' services under the Advisory Agreement are not exclusive, and it may furnish similar services to other entities. Pursuant to the Advisory Agreement, the Company is required to pay TTG Advisers a fee for investment advisory and management services consisting of two components—a base management fee and an incentive fee. The base management fee is calculated at 2.0% per annum of the Company's total assets excluding cash and the value of any investment by the Company not made in portfolio companies (Non-Eligible Assets) but including assets purchased with borrowed funds that are not Non-Eligible Assets. The incentive fee consists of two parts: (i) one part is based on our pre-incentive fee net operating income; and (ii) the other part is based on the capital gains realized on our portfolio of securities acquired after November 1, 2003. The Advisory Agreement provides for an expense cap pursuant to which TTG Advisers will absorb or reimburse operating expenses of the Company to the extent necessary to limit the Company's expense ratio (the consolidated expenses of the Company, including any amounts payable to TTG Advisers under the base management fee, but excluding the amount of any interest and other direct borrowing costs, taxes, incentive compensation and extraordinary expenses taken as a percentage of the Company's average net assets) to 3.25% in a given fiscal year. Please see Note 9—Incentive Compensation for more information.

9. Incentive Compensation

Effective November 1, 2006, Mr. Tokarz's employment agreement with the Company terminated and the obligations under Mr. Tokarz's agreement were superseded by those under the Advisory Agreement entered into with TTG Advisers. Pursuant to the Advisory Agreement, the Company pays an incentive fee to TTG Advisers which is generally: (i) 20% of pre-incentive fee net operating income and (ii) 20% of net realized capital gains (on our portfolio securities acquired after November 1, 2003). TTG Advisers is entitled to an incentive fee with respect to our pre-incentive fee net operating income in each fiscal quarter as follows: no incentive fee in any fiscal quarter in which our pre-incentive fee net operating income does not exceed the hurdle rate of 1.75% of net assets, 100% of our pre-incentive fee net operating income with respect to that portion of such pre-incentive fee net operating income, if any, that exceeds the hurdle rate but is less than 2.1875% of net assets in any fiscal quarter and 20% of the amount of our pre-incentive fee net operating income, if any, that exceeds 2.1875% of net assets in any fiscal quarter. Under the Advisory Agreement, the accrual of the provision for incentive compensation for net realized capital gains is consistent with the accrual that was required under the employment agreement with Mr. Tokarz.

Under internal management, Mr. Tokarz was entitled to compensation pursuant to his agreement with the Company, under which the Company was required to pay Mr. Tokarz incentive compensation in an amount equal to the lesser of (a) 20% of the net income of the Company for the fiscal year; or (b) the sum of (i) 20% of

Table of Contents

the net capital gains realized by the Company in respect of the investments made during his tenure as Portfolio Manager; and (ii) the amount, if any, by which the Company's total expenses for a fiscal year were less than two percent of the Company's net assets (determined as of the last day of the period).

At October 31, 2006, the provision for estimated incentive compensation was \$7,172,352. During the nine month period ended July 31, 2007, this provision was increased by a net amount of \$9,931,942 to \$17,104,294. The increase in the provision for incentive compensation during the nine month period ended July 31, 2007 was primarily a result of the sale of Baltic Motors and BM Auto for a combined realized gain of \$65.5 million, which was a \$52.3 million increase from the carrying value at October 31, 2006. The amount of the provision also reflects the Valuation Committee's determination to increase the fair values of five of the Company's portfolio investments (Dakota, Octagon, SGDA, PreVisor and Vitality) by a total of \$5.8 million and decrease the fair value of Ohio by \$9.0 million. During the year ended October 31, 2006, Mr. Tokarz was paid no cash or other compensation. However, on October 2, 2006, the Company realized a gain of \$551,092 from the sale of a portion of the Company's LLC membership interest in Octagon. This transaction triggered an incentive compensation payment obligation of \$110,218 to Mr. Tokarz, which was paid on January 12, 2007. After the increase in the provision due to the sale of Baltic Motors and BM Auto and the decrease in the provision due to the overall impact of the Valuation Committee's determinations and payment made to Mr. Tokarz, the balance of the incentive compensation provision, at July 31, 2007, was \$17,104,294. Pursuant to the Advisory Agreement, only after a realization event (as is defined under such agreement) and an audit of the financials for the relevant fiscal year is completed, may the incentive compensation be paid to TTG Advisers. In this regard, even though the Company has experienced a realization event as to Baltic Motors and BM Auto, the Company's incentive compensation payment obligation will only be triggered to the extent the Company has net realized capital gains for the fiscal year (in excess of any unrealized capital depreciation). During the nine month period ended July 31, 2007, there was no provision recorded for the net operating income portion of the incentive fee as pre-incentive fee net operating income did not exceed the hurdle rate.

10. Tax Matters

On October 31, 2006, the Company had a net realized capital loss carryforward of \$73,524,707 of which \$28,213,867 will expire in the year 2010, \$4,220,380 will expire in the year 2011, \$37,794,910 will expire in the year 2012 and \$3,295,550 will expire in the year 2013. To the extent future capital gains are offset by capital loss carryforwards, such gains need not be distributed. As of October 31, 2006, the Company had net unrealized capital losses of \$11,593,572. The gross unrealized capital losses totaled \$51,934,799. The total net realized capital loss carryforwards and gross unrealized capital losses at October 31, 2006 were \$125,459,506.

11. Dividends and Distributions to Shareholders

As a regulated investment company (RIC) under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code), the Company is required to distribute to its shareholders, in a timely manner, at least 90% of its investment company taxable and tax-exempt income each year. If the Company distributes, in a calendar year, at least 98% of its ordinary income for such calendar year and its capital gain net income for the 12-month period ending on October 31 of such calendar year (as well as any portion of the respective 2% balances not distributed in the previous year), it will not be subject to the 4% non-deductible federal excise tax on certain undistributed income of RICs.

Dividends and capital gain distributions, if any, are recorded on the ex-dividend date. Dividends and capital gain distributions are generally declared and paid quarterly according to the Company's policy established on July 11, 2005. An additional distribution may be paid by the Company to avoid imposition of federal income tax on any remaining undistributed net investment income and capital gains. Distributions can be made payable by the Company either in the form of a cash distribution or a stock dividend. The amount and character of income and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are due primarily to

Table of Contents

differing treatments of income and gain on various investment securities held by the Company, timing differences and differing characterizations of distributions made by the Company. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications and may affect the allocation between net operating income, net realized gain (loss) and paid in capital.

OVERVIEW

The Company is an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a business development company under the 1940 Act. The Company's investment objective is to seek to maximize total return from capital appreciation and/or income.

On November 6, 2003, Mr. Tokarz assumed his positions as Chairman and Portfolio Manager of the Company. He and the Company's investment professionals (who, effective November 1, 2006, provide their services to the Company through the Company's investment adviser, TTG Advisers) are seeking to implement our investment objective (*i.e.*, to maximize total return from capital appreciation and/or income) through making a broad range of private investments in a variety of industries.

The investments can include senior or subordinated loans, convertible debt and convertible preferred securities, common or preferred stock, equity interests, warrants or rights to acquire equity interests, and other private equity transactions. During the year ended October 31, 2006, the Company made sixteen new investments and eight additional investments in existing portfolio companies, committing capital totaling approximately \$166.3 million pursuant to our current investment objective. During the nine month period ended July 31, 2007, the Company made eight new investments and fourteen additional investments in existing portfolio companies, committing capital totaling approximately \$100.7 million.

Prior to the adoption of our current investment objective, the Company's investment objective had been to achieve long-term capital appreciation from venture capital investments in information technology companies. The Company's investments had thus previously focused on investments in equity and debt securities of information technology companies. As of July 31, 2007, 3.80% of the current value of our assets consisted of Legacy Investments. We are, however, seeking to manage these Legacy Investments to try and realize maximum returns. We generally seek to capitalize on opportunities to realize cash returns on these investments when presented with a potential liquidity event, *i.e.*, a sale, public offering, merger or other reorganization.

Our new portfolio investments are made pursuant to our current objective and strategy. We are concentrating our investment efforts on small and middle-market companies that, in our view, provide opportunities to maximize total return from capital appreciation and/or income. Under our investment approach, we are permitted to invest, without limit, in any one portfolio company, subject to any diversification limits required in order for us to continue to qualify as a RIC under Subchapter M of the Code.

We participate in the private equity business generally by providing privately negotiated long-term equity and/or debt investment capital to small and middle-market companies. Our financing is generally used to fund growth, buyouts, acquisitions, recapitalizations, note purchases, and/or bridge financings. We generally invest in private companies, though, from time to time, we may invest in public companies that may lack adequate access to public capital.

We may also seek to achieve our investment objective by establishing or investing in a subsidiary or subsidiaries that serve as a general partner or managing member to a private investment vehicle(s). Additionally, we may also acquire a portfolio of existing private equity or debt investments held by financial institutions or other investment funds should such opportunities arise.

Table of Contents**OPERATING INCOME**

For the Nine Month Periods Ended July 31, 2007 and 2006. Total operating income was \$18.5 million for the nine month period ended July 31, 2007 and \$12.4 million for the nine month period ended July 31, 2006, an increase of \$6.1 million.

For the Nine Month Period Ended July 31, 2007

Total operating income was \$18.5 million for the nine month period ended July 31, 2007. The increase in operating income over the same period last year was primarily due to the increase in the number of investments that provide the Company with current income. The main components of investment income were the interest and dividend income earned on loans to portfolio companies and the receipt of closing and monitoring fees from certain portfolio companies by the Company and MVCFS. The Company earned approximately \$15.5 million in interest and dividend income from investments in portfolio companies. Of the \$15.5 million recorded in interest/dividend income, approximately \$2.4 million was payment in kind interest/dividends. The payment in kind interest/dividends are computed at the contractual rate specified in each investment agreement and added to the principal balance of each investment. The Company's debt investments yielded rates from 0% to 27%. Also, the Company earned approximately \$508,000 in interest income on its cash equivalents and short-term investments. The Company received fee income and other income from portfolio companies and other entities totaling approximately \$2.3 million and \$252,000, respectively.

For the Nine Month Period Ended July 31, 2006

Total operating income was \$12.4 million for the nine month period ended July 31, 2006. The increase in operating income over the same nine month period last year was primarily due to the increase in the number of investments that provide the Company with current income. For the nine month periods ended July 31, 2006 and 2005, the Company made 18 and 9 investments in portfolio companies, respectively. The main components of investment income were the interest and dividend income earned on loans to portfolio companies and the receipt of closing and monitoring fees from certain portfolio companies by the Company and MVCFS. The Company earned approximately \$7.3 million in interest and dividend income from investments in portfolio companies. Of the \$7.3 million recorded in interest/dividend income, approximately \$1.4 million was payment in kind interest/dividends. The payment in kind interest/dividends are computed at the contractual rate specified in each investment agreement and added to the principal balance of each investment. During the nine month period ended July 31, 2006, the Company reclassified dividend income received from Vitality totaling approximately \$900,000 to return of capital. The reclassification occurred due to the determination that Vitality will not have taxable earnings and profits for their fiscal year 2006. This reclassification to return of capital had no impact on the Company's net asset value. The Company's investments yielded rates from 7% to 17%. Also, the Company earned approximately \$2.0 million in interest income on its cash equivalents and short-term investments. The Company received fee income and other income from portfolio companies and other entities totaling approximately \$2.7 million and \$456,000, respectively. Included in other income is flow through income from limited liability companies and cash received from the Mentor Graphics multi-year earnout. Please see the Company's 2005 Annual Report on Form 10-K for more information regarding the Mentor Graphics earnout.

OPERATING EXPENSES

For the Nine Month Periods Ended July 31, 2007 and 2006. Operating expenses were \$20.7 million for the nine month period ended July 31, 2007 and \$10.2 million for the nine month period ended July 31, 2006, an increase of \$10.5 million.

Table of Contents***For the Nine Month Period Ended July 31, 2007***

Operating expenses were \$20.7 million or 9.05% of the Company's average net assets, when annualized, for the nine month period ended July 31, 2007. Significant components of operating expenses for the nine month period ended July 31, 2007, included the estimated provision for incentive compensation expense of approximately \$10.0 million, management fee of \$5.1 million, and interest expense and other borrowing costs of \$3.6 million. The estimated provision for incentive compensation expense is a non-cash, not yet payable, provisional expense relating to TTG Advisers' Advisory Agreement with the Company.

The \$10.5 million increase in the Company's operating expenses in the nine month period ended July 31, 2007 compared to the nine month period ended July 31, 2006, was primarily due to the \$5.3 million increase in the provision for estimated incentive compensation, the \$2.9 million increase in the Company's interest expense and other borrowings, and the \$2.3 million increase in the management fee expense compared to the facilities and employee compensation and benefits expense incurred when the Company was internally managed. It should be noted, in this regard, that the Advisory Agreement provides for an expense cap pursuant to which TTG Advisers will absorb or reimburse operating expenses of the Company to the extent necessary to limit the Company's expense ratio (the consolidated expenses of the Company, including any amounts payable to TTG Advisers under the base management fee, but excluding the amount of any interest and other direct borrowing costs, taxes, incentive compensation and extraordinary expenses taken as a percentage of the Company's average net assets) to 3.25% in a given fiscal year. In fiscal year 2006, when the Company was still internally managed and not subject to the expense cap, the expense ratio was 3.22% (taking into account the same carve outs as those applicable to the expense cap). For the nine month period ended July 31, 2007, the expense ratio was 3.07% (taking into account the same carve outs as those applicable to the expense cap).

Pursuant to the terms of the Advisory Agreement, during the nine month period ended July 31, 2007, the provision for incentive compensation was increased by a net amount of \$9,931,942 to \$17,104,294. The increase in the provision for incentive compensation during the nine month period ended July 31, 2007 primarily resulted from the sale of Baltic Motors and BM Auto for a combined realized gain of \$65.5 million, which was a \$52.3 million increase from the carrying value at October 31, 2006. The Valuation Committee also determined to increase the fair values of five of the Company's portfolio investments (Dakota, Octagon, SGDA, PreVisor and Vitality) by a total of \$5.8 million and decrease the fair value of Ohio by \$9.0 million. During the year ended October 31, 2006, Mr. Tokarz was paid no cash or other compensation. However, on October 2, 2006, the Company realized a gain of \$551,092 from the sale of a portion of the Company's LLC membership interest in Octagon. This transaction triggered an incentive compensation payment obligation of \$110,218 to Mr. Tokarz, which was paid on January 12, 2007. After the increase in the provision due to the sale of Baltic Motors and BM Auto and the decrease in the provision due to the Valuation Committee's determinations and payment made to Mr. Tokarz, the reserve balance at July 31, 2007 was \$17,104,294. This reserve balance of \$17,104,294 will remain unpaid until net capital gains are realized, if ever, by the Company. Pursuant to the Advisory Agreement, incentive compensation payments will be made only upon the occurrence of a realization event (such as the sale of shares of Baltic Motors and BM Auto). Without this reserve for incentive compensation, operating expenses would have been approximately \$10.7 million or 4.47% of average net assets when annualized as compared to 8.86%, which is reported on the Consolidated Per Share Data and Ratios, for the nine month period ended July 31, 2007. During the nine month period ended July 31, 2007, there was no provision recorded for the net operating income portion of the incentive fee as pre-incentive fee net operating income did not exceed the hurdle rate. Please see Note 9 Incentive Compensation for more information.

For the Nine Month Period Ended July 31, 2006

Operating expenses were \$10.2 million or 6.48% of the Company's average net assets, when annualized, for the nine month period ended July 31, 2006. Significant components of operating expenses for the nine month period ended July 31, 2006, included estimated provision for incentive compensation expense of approximately \$4.7 million, salaries and benefits of approximately \$2.2 million, insurance premium expenses of \$354,211, interest expense and other borrowing costs of \$683,590, legal fees of \$438,669 and facilities-related expenses of

Table of Contents

\$486,302. Estimated provision for incentive compensation expense is a non-cash, not yet payable, provisional expense relating to Mr. Tokarz's agreement with the Company.

The \$5.5 million increase in the Company's operating expenses in the nine month period ended July 31, 2006 compared to the nine month period ended July 31, 2005, was primarily due to the \$3.9 million increase in the provision for estimated incentive compensation. An increase in the number of employees needed to service the larger portfolio resulted in an increase of \$622,767 in salaries and benefits. Also, the Company's rent and other facility related expenses increased approximately \$175,540 primarily due to the Company's procurement of larger office space to accommodate the Company's increased number of employees. See Note 6 Commitments and Contingencies for more information.

The increase of approximately \$662,175 in the Company's interest expense and other borrowing costs in the nine month period ended July 31, 2006, was due to additional borrowings under the Credit Facility.

Pursuant to the terms of the Company's agreement with Mr. Tokarz, during the nine month period ended July 31, 2006, the provision for estimated incentive compensation was increased by \$4,717,061. The increase in the provision for incentive compensation resulted from the determination of the Valuation Committee to increase the fair value of five of the Company's portfolio investments: Baltic Motors, Dakota, Ohio, Octagon, and Vitality which are subject to the Company's agreement with Mr. Tokarz, by a total of \$22,546,929. This reserve balance of \$5,834,389 will remain unpaid until net capital gains are realized, if ever, by the Company. Pursuant to Mr. Tokarz's agreement with the Company, only after a realization event, may the incentive compensation be paid to him. Mr. Tokarz has determined to allocate a portion of his incentive compensation to certain employees of the Company. During the year ended October 31, 2005 and the nine month period ended July 31, 2006, Mr. Tokarz was paid no cash or other compensation. Without this reserve for incentive compensation, operating expenses would have been approximately \$5.49 million or 3.57% of average net assets when annualized as compared to 6.48% which is reported on the Consolidated Per Share Data and Ratios, for the nine month period ended July 31, 2006. Please see Note 8 Incentive Compensation for more information.

In February 2006, the Company renewed its Directors & Officers/Professional Liability Insurance policies at an expense of approximately \$459,000 which is amortized over the twelve month life of the policy. The prior policy premium was \$517,000.

REALIZED GAINS AND LOSSES ON PORTFOLIO SECURITIES

For the Nine Month Periods Ended July 31, 2007 and 2006. Net realized gains for the nine month period ended July 31, 2007 were \$65.8 million and \$3.0 million for the nine month period ended July 31, 2006, an increase of approximately \$62.8 million.

For the Nine Month Period Ended July, 2007

Net realized gains for the nine month period ended July 31, 2007 were \$65.8 million. The significant component of the Company's net realized gains for the nine month period ended July 31, 2007 was primarily due to the gain on the sale of Baltic and BM Auto. On July 24, 2007, the Company sold the common stock of Baltic Motors and BM Auto. The amount received from the sale of the 60,684 common shares of Baltic Motors was approximately \$62.0 million, net of closing and other transaction costs, working capital adjustments and a reserve established by the Company to satisfy certain post-closing conditions requiring capital and other expenditures. Baltic Motors repaid all debt from the Company in full including all accrued interest. Total amount received from the repayment of the debt was approximately \$10.2 million including all accrued interest. The remaining \$51.8 million less the \$8.0 million cost basis of Baltic resulted in \$43.8 million recorded as realized gain. The difference between the \$51.8 million received from the Baltic equity and the carrying value at October 31, 2006 is \$30.6 million and the amount of the increase in net assets attributable to fiscal year 2007. The portion of the capital gain related to the equity investment made on June 24, 2004 (\$40.9 million), will be treated as long-term capital gain and the portion related to the equity investment made on September 28, 2006 (\$2.9 million) will be treated as a short-term capital gain. The amount received from the sale of the 47,300 common shares of BM Auto was approximately \$29.7 million, net of closing and other transaction costs,

Table of Contents

working capital adjustments and a reserve established by the Company to satisfy certain post-closing conditions requiring capital and other expenditures. The \$29.7 million less the \$8.0 million cost basis of BM Auto resulted in \$21.7 million recorded as a long term capital gain. The difference between the \$29.7 million received from the BM Auto equity and the carrying value at October 31, 2006 is \$21.7 million and the amount of the increase in net assets attributable to fiscal 2007.

As mentioned above, a reserve account of approximately \$3.0 million was created for post closing conditions that are required of the seller as a part of the purchase agreement. The cash held in the reserve account is held in Euros. At July 31, 2007, the balance of the reserve account was approximately \$2.9 million. Expenses such as finishing a road to a dealership and Latvian tax withholding payments, among other things have been estimated by management and will be paid from this account. This reserve account is owned and controlled by the Company. The Company has recorded the cash in the reserve account to its books denominated as foreign currency. It has also recorded a liability for the same amount so there is no impact to net asset value until all post closing conditions are met. The remaining cash, if any, will be converted to USD and recorded as a long term capital gain. We do not anticipate any overages; however, if they occur it would reduce the capital gain that has already been recorded. Any difference recorded due to changes in exchange rates since the Euros were received will be recorded as currency gain (loss). During the interim, at each month end, the Euros will be valued based on that day's exchange rate and the liability will be adjusted to match the USD equivalent. Management believes all post closing conditions will be met before October 31, 2007.

On June 14, 2007, the Company received approximately \$451,000 as a final disbursement from the sale of Process Claims. This amount was deposited into a reserve account at the time of sale. Due to the contingencies associated with the escrow, the Company placed no value on the proceeds deposited in escrow.

The Company also realized a loss from the prepayment from Levlad on the second lien loan, which was purchased at a premium and thus resulted in a realized loss of approximately \$121,000.

For the Nine Month Period Ended July 31, 2006

Net realized gains for the nine month period ended July 31, 2006 were \$3.0 million. The significant component of the Company's net realized gain for the nine month period ended July 31, 2006 was primarily due to the gain on the sale of Process Claims.

During the nine month period ended July 31, 2006, the Company sold its investment in ProcessClaims and realized a gain of approximately \$5.5 million. The Company was entitled to receive approximately \$8.3 million in gross proceeds, of which approximately \$400,000 or 5% of the proceeds was deposited into a reserve account for one year. Due to the contingencies associated with the escrow, the Company had not presently placed any value on the proceeds deposited in escrow and has therefore not factored such proceeds into the Company's increased NAV.

The Company received notification of the final dissolution of Yaga. The Company received no proceeds from the dissolution of this company and the investment has been removed from the Company's books. The Company realized a loss of \$2.3 million as a result of this dissolution. The fair value of Yaga was previously written down to zero and therefore, the net effect of the removal of Yaga from the Company's books on the Company's consolidated statement of operations and NAV was zero.

On April 7, 2006, the Company sold its investment in Lumeta for its carrying value of \$200,000. The Company realized a loss on Lumeta of approximately \$200,000. However, the Valuation Committee previously decreased the fair value of the Company's investment in this company to \$200,000 and as a result, the realized loss was offset by a reduction in unrealized losses. Therefore, the net effect of the Company's sale of its investment in Lumeta on the Company's consolidated statement of operations and NAV was zero.

The Company also received a payout related to a former portfolio company, Annuncio, of approximately \$70,000.

Table of Contents**UNREALIZED APPRECIATION AND DEPRECIATION OF PORTFOLIO SECURITIES**

For the Nine Month Periods Ended July 31, 2007 and 2006. The Company had a net change in unrealized depreciation on portfolio investments of \$6.9 million for the nine month period ended July 31, 2007. The Company had a net change in unrealized appreciation on portfolio investments of \$26.4 million for the nine month period ended July 31, 2006.

For the Nine Month Period Ended July 31, 2007

The Company had a net change in unrealized depreciation on portfolio investments of \$6.9 million for the nine month period ended July 31, 2007. The net change in unrealized depreciation on investment transactions for the nine month period ended July 31, 2007, primarily resulted from the sale of Baltic Motors and BM Auto for a combined realized gain of \$65.5 million, which was a \$52.3 million increase from the carrying value at October 31, 2006. The Valuation Committee's decision to increase the fair values of the Company's investments in Dakota common stock by \$1.9 million, Octagon's membership interest by approximately \$1.6 million, SGDA's preferred equity by \$350,000 and common equity by approximately \$276,000, PreVisor common stock by \$1.7 million, Vendio preferred stock by \$6.1 million and common stock by \$15,000, Foliofn preferred stock by \$2.1 million, and Vitality preferred stock by approximately \$1.1 million and a decrease in the fair value of Ohio common stock by \$9.0 million, resulted in a net unrealized appreciation of \$6.1 million. The net increase of \$6.1 million in the fair values of the Company's investments determined by the Valuation Committee and the sale of Baltic Motors and BM Auto, with a \$52.3 million increase from the carrying value at October 31, 2006, was offset by the unrealized depreciation reclassification from unrealized to realized caused by the sale of Baltic Motors and BM Auto of \$65.5 million. These were the primary components for the unrealized depreciation of \$6.9 million for the nine month period ended July 31, 2007.

For the Nine Month Period Ended July 31, 2006

The Company had a net change in unrealized appreciation on portfolio investments of \$26.4 million for the nine month period ended July 31, 2006. The change in unrealized appreciation on investment transactions for the nine month period ended July 31, 2006 primarily resulted from the Valuation Committee's decision to increase the fair value of the Company's investments in Baltic common stock by \$7.8 million, Dakota common stock by approximately \$1.1 million, Octagon's membership interest by approximately \$562,000, Ohio common stock by \$9.2 million, ProcessClaims preferred stock by \$4.8 million and Vitality common stock and warrants by \$3.5 million and \$400,000, respectively. Other key components of the net change in unrealized appreciation was the \$2.5 million depreciation reclassification from unrealized to realized caused by the removal of Yaga and Lumeta and the \$4.8 million appreciation reclassification from the sale of ProcessClaims from the Company's books.

PORTFOLIO INVESTMENTS

For the Nine Month Period Ended July 31, 2007 and the Year Ended October 31, 2006. The cost of the portfolio investments held by the Company at July 31, 2007 and at October 31, 2006 was \$334.7 million and \$286.9 million, respectively, an increase of \$47.8 million. The aggregate fair value of portfolio investments at July 31, 2007 and at October 31, 2006 was \$316.9 million and \$275.9 million, respectively, an increase of \$41.0 million. The cost and aggregate fair value of cash and cash equivalents held by the Company at July 31, 2007 and at October 31, 2006 was \$112.8 million and \$66.2, respectively, an increase of approximately \$46.6 million.

For the Nine Month Period Ended July 31, 2007

During the nine month period ended July 31, 2007, the Company made eight new investments, committing capital totaling approximately \$53.3 million. The investments were made in WBS (\$3.2 million), Huamei (\$200,000), Levlad (\$10.1 million), Total Safety (\$4.5 million), MVC Partners (\$71,000), Genevac (\$14.0 million), Tekers (\$2.3 million), and U.S. Gas (\$18.9 million).

Table of Contents

The Company also made fourteen follow-on investments in existing portfolio companies committing capital totaling approximately \$47.4 million. On November 7, 2006, the Company invested \$100,000 in SGDA by purchasing an additional common equity interest. On April 16, 2007, the assets and liabilities of Safestone Technologies PLC were transferred to two new companies, Lockorder and Safestone Limited. The Company received 21,064 shares of Safestone Limited and 21,064 shares of Lockorder as a result of this corporate action. There was no change in the cost basis or fair value due to this transaction.

On May 1, 2007, Turf repaid its secured junior revolving note in full, including accrued interest. The total amount received from the prepayment was approximately \$1.0 million. There were no borrowings outstanding on the revolving note as of July 31, 2007.

On May 1, 2007, June 1, 2007, and July 1, 2007, the Company received \$111,111 on each payment date as principal payments from SP on Term Loan B.

On June 1, 2007 and July 5, 2007, Harmony borrowed \$600,000 and \$1.0 million, respectively, from the credit facility. Net borrowings during the nine month period ended July 31, 2007 were \$3.4 million, resulting in a balance outstanding of approximately \$3.4 million.

On June 19, 2007, the Company increased the bridge loan to BENI to \$2.0 million. The remaining available amount of \$1.7 million was immediately drawn.

On July 24, 2007, the Company sold the common stock of Baltic Motors and SIA BM Auto (BM Auto). The amount received from the sale of the 60,684 common shares of Baltic Motors was approximately \$62.0 million, net of closing and other transaction costs, working capital adjustments and a reserve established by the Company to satisfy certain post-closing conditions requiring capital and other expenditures. Baltic Motors repaid all debt from the Company in full including all accrued interest. Total amount received from the repayment of the debt was approximately \$10.2 million including all accrued interest. The remaining \$51.8 million less the \$8.0 million cost basis of Baltic resulted in \$43.8 million recorded as realized gain. The difference between the \$51.8 million received from the Baltic equity and the carrying value at October 31, 2006 is \$30.6 million and the amount of the increase in net assets attributable to fiscal year 2007. The portion of the capital gain related to the equity investment made on June 24, 2004 (\$40.9 million), will be treated as long-term capital gain and the portion related to the equity investment made on September 28, 2006 (\$2.9 million) will be treated as a short-term capital gain. The amount received from the sale of the 47,300 common shares of BM Auto was approximately \$29.7 million, net of closing and other transaction costs, working capital adjustments and a reserve established by the Company to satisfy certain post-closing conditions requiring capital and other expenditures. The \$29.7 million less the \$8.0 million cost basis of BM Auto resulted in \$21.7 million recorded

Table of Contents

as a long term capital gain. The difference between the \$29.7 million received from the BM Auto equity and the carrying value at October 31, 2006 is \$21.7 million and the amount of the increase in net assets attributable to fiscal 2007.

As mentioned above, a reserve account of approximately \$3.0 million was created for post closing conditions that are required of the seller as a part of the purchase agreement. The cash held in the reserve account is held in Euros. At July 31, 2007, the balance of the reserve account was approximately \$2.9 million. Expenses such as finishing a road to a dealership and Latvian tax withholding payments, among other things have been estimated by management and will be paid from this account. This reserve account is owned and controlled by the Company. The Company has recorded the cash in the reserve account to its books denominated as foreign currency. It has also recorded a liability for the same amount so there is no impact to net asset value until all post closing conditions are met. The remaining cash, if any, will be converted to USD and recorded as long term capital gain. We do not anticipate any overages; however, if they occur it would reduce the capital gain that has already been recorded. Any difference recorded due to changes in exchange rates since the Euros were received will be recorded as currency gain (loss). During the interim, at each month end, the Euros will be valued based on that day's exchange rate and the liability will be adjusted to match the USD equivalent. Management believes all post closing conditions will be met before October 31, 2007.

On July 27, 2007, U.S. Gas repaid its bridge loan in full including accrued interest. The total amount received was approximately \$908,000.

On October 13, 2006, the Company made a \$10.0 million follow-on investment in SP in the form of an additional \$4.0 million in term loan B and \$6.0 million in a mezzanine loan. On October 20, 2006, the Company then assigned at cost, \$5.0 million of SP's \$8.0 million term loan B to Citigroup Global Markets Realty Corp. On October 24, 2006, the Company invested an additional \$3.0 million in SGDA in the form of a preferred equity security. On October 26, 2006, the Company invested an additional \$2.9 million in Velocitius in the form of common equity. The Company also provided Velocitius a \$260,000 revolving line of credit on October 31, 2006. Velocitius immediately borrowed \$143,614.

At the beginning of the 2006 fiscal year, the revolving credit facility provided to SGDA had an outstanding balance of approximately \$1.2 million. During December 2005, SGDA borrowed an additional \$70,600 from the credit facility. On April 28, 2006, the Company increased the availability under the revolving credit facility by \$300,000. The balance of the bridge loan to SGDA, which would have matured on April 30, 2006, was added to the revolving credit facility and the bridge loan was eliminated from the Company's books as a part of the refinancing. On August 25, 2006, the revolving credit facility was added to the term loan, and the terms remained unchanged. The balance of the term loan at October 31, 2006 was \$6.2 million.

On December 21, 2005, Integral Development Corporation (Integral) prepaid its senior credit facility in full. The Company received approximately \$850,000 from the prepayment. This amount included all outstanding principal and accrued interest. The Company recorded no gain or loss as a result of the prepayment. Under the terms of the prepayment, the Company returned its warrants to Integral for no consideration.

Effective December 27, 2005, the Company exchanged \$286,200, of the \$3.25 million outstanding, of the Timberland junior revolving line of credit into 28.62 shares of common stock at a price of \$10,000 per share. As a result, as of July 31, 2006, the Company owned 478.62 common shares of Timberland and the funded debt under the junior revolving line of credit was reduced from \$3.25 million to approximately \$3.0 million.

Effective December 31, 2005, the Company received 373,362 shares of Series E preferred stock of ProcessClaims Inc. (ProcessClaims) in exchange for its rights under a warrant issued by ProcessClaims that has been held by the Company since May 2002. On January 5, 2006, the Valuation Committee increased the fair value of the Company's entire investment in ProcessClaims by \$3.3 million to \$5.7 million. Please see the paragraph below for more information on ProcessClaims.

On January 3, 2006, the Company exercised its warrant ownership in Octagon, which increased its existing membership interest. As a result, Octagon is now considered an affiliate of the Company.

Due to the dissolution of Yaga Inc. (Yaga), one of the Company's Legacy Investments, the Company realized losses on its investment in Yaga totaling \$2.3 million during the nine month period ended July 31, 2006. The Company received no proceeds from the dissolution of Yaga and the Company's investment in Yaga has been removed from the Company's books. The Valuation Committee previously decreased the fair value of the Company's investment in Yaga to zero and as a result, the Company's realized losses were offset by reductions in unrealized losses. Therefore, the net effect of the removal of Yaga from the Company's books on the Company's consolidated statement of operations and NAV at October 31, 2006, was zero.

On February 24, 2006, BP repaid its second lien loan from the Company in full. The amount of the proceeds received from the prepayment was approximately \$8.7 million. This amount included all outstanding principal, accrued interest, accrued monitoring fees and an early prepayment fee. The Company recorded no gain or loss as a result of the repayment.

On April 7, 2006, the Company sold its investment in Lumeta Corporation (Lumeta) for its carrying value of \$200,000. The Company realized a loss on Lumeta of approximately \$200,000. However, the Valuation Committee previously decreased the fair value of the Company's investment in Lumeta to \$200,000 and, as a result; the realized loss was offset by a reduction in unrealized losses. Therefore, the net effect of the Company's sale of its investment in Lumeta on the Company's consolidated statement of operations and NAV was zero.

On April 21, 2006, BM Auto repaid its bridge loan from the Company in full. The amount of the proceeds received from the repayment was approximately \$7.2 million. This amount included all outstanding principal, accrued interest and was net of foreign taxes withheld. The Company recorded no gain or loss as a result of the repayment.

On May 4, 2006, the Company received a working capital adjustment of approximately \$250,000 related to the Company's purchase of a membership interest in Turf. As a result, the Company's cost basis in the investment was reduced by \$250,000.

On May 30, 2006, ProcessClaims, one of the Company's Legacy Investments, entered into a definitive agreement to be acquired by CCC Information Services Inc. (CCC). The acquisition by CCC closed on June 9, 2006. As of June 9, 2006, the Company received net proceeds of approximately \$7.9 million. The gross proceeds were approximately \$8.3 million of which approximately \$400,000 or 5% of the gross proceeds were deposited into a reserve account for one year. Due to the contingencies associated with the escrow, the Company had not placed any value on the proceeds deposited in escrow and had not included such proceeds into the Company's NAV. The Company's total investment in ProcessClaims was \$2.4 million, which resulted in a capital gain of approximately \$5.5 million.

On July 27, 2006, SOI repaid their loan in full. The amount of the proceeds received from the prepayment was approximately \$4.5 million. This amount included all outstanding principal, accrued interest, and an early prepayment fee. The Company recorded no gain or loss as a result of the prepayment.

Portfolio Companies

During the nine month period ended July 31, 2007, the Company had investments in the following portfolio companies:

Table of Contents

Actelis Networks, Inc.

Actelis Networks, Inc. (Actelis), Fremont, California, a Legacy Investment, provides authentication and access control solutions designed to secure the integrity of e-business in Internet-scale and wireless environments.

At October 31, 2006 and July 31, 2007, the Company's investment in Actelis consisted of 150,602 shares of Series C preferred stock at a cost of \$5.0 million. The investment has been assigned a fair value of \$0.

Amersham Corp.

Amersham Corp. (Amersham), Louisville, Colorado, is a manufacturer of precision machined components for the automotive, furniture, security and medical device markets.

At October 31, 2006, the Company's investment in Amersham consisted of a \$2.5 million note, bearing annual interest at 10%. The note has a maturity date of June 29, 2010. The note had a principal face amount and cost basis of \$2.5 million. The Company's investment also included an additional \$2.6 million note bearing annual interest at 16% from June 30, 2006 to June 30, 2008. The interest rate then steps down to 14% for the period July 1, 2008 to June 30, 2010, steps down to 13% for the period July 1, 2010 to June 30, 2012 and steps down again to 12% for the period July 1, 2012 to June 30, 2013. The note has a maturity date of June 30, 2013. The note had a principal face amount and cost basis of \$2.6 million.

At October 31, 2006, the notes had a combined outstanding balance, cost, and fair value of \$5.1 million. The increase in the outstanding balance, cost and fair value of the loan, is due to the capitalization of payment in kind interest. These increases were approved by the Company's Valuation Committee.

Effective January 1, 2007, the interest rate on the \$2.6 million note bearing annual interest at 16% was increased to 19% due to Amersham violating a technical financial covenant. The Valuation Committee believes that Amersham is not a credit risk and will become compliant.

At July 31, 2007, the notes had a combined outstanding balance, cost, and fair value of \$5.5 million.

On July 24, 2007, the Company sold the common stock of Baltic Motors. The amount received from the sale of the 60,684 common shares of Baltic Motors was approximately \$62.0 million, net of closing and other transaction costs, working capital adjustments and a reserve established by the Company to satisfy certain post-closing conditions requiring capital and other expenditures. Baltic Motors repaid all debt from the Company in full including all accrued interest. Total amount received from the repayment of the debt was approximately \$10.2 million including all accrued interest. The remaining \$51.8 million less the \$8.0 million cost basis of Baltic resulted in \$43.8 million recorded as realized gain. The difference between the \$51.8 million received from the Baltic equity and the carrying value at October 31, 2006 is \$30.6 million and the amount of the increase in net assets attributable to fiscal year 2007. The portion of the capital gain related to the equity investment made on June 24, 2004 (\$40.9 million), will be treated as long-term capital gain and the portion related to the equity investment made on September 28, 2006 (\$2.9 million) will be treated as a short-term capital gain. As mentioned above, a reserve account of approximately \$3.0 million was created for post closing conditions that are required of the seller as a part of the purchase agreement. The cash held in the reserve account is held in Euros. At July 31, 2007, the balance of the reserve account from the sale of Baltic Motors and BM Auto was approximately \$2.9 million. Expenses such as finishing a road to a dealership and Latvian tax withholding payments, among other things have been estimated by management and will be paid from this account. This reserve account is owned and controlled by the Company. The Company has recorded the cash in the reserve account to its books denominated as foreign currency. It has also recorded a liability for the same amount so there is no impact to net asset value until all post closing conditions are met. The remaining cash, if any, will be converted to USD and recorded as a long term capital gain. We do not anticipate any overages; however, if they occur it would reduce the capital gain that has already been recorded. Any difference recorded due to changes in exchange rates since the Euros were received will be recorded as currency gain (loss). During the interim, at each month end, the Euros will be valued based on that day's exchange rate and the liability will be adjusted to match the USD equivalent. Management believes all post closing conditions will be met before October 31, 2007.

At July 31, 2007, the Company no longer held an investment in Baltic Motors.

BP Clothing, LLC

BP Clothing, LLC (BP), Pico Rivera, California, is a company which designs, manufactures, markets and distributes, Baby Phat(R), a line of women's clothing.

At October 31, 2006, the Company's investment in BP consisted of a \$10.0 million second lien loan, \$2.9 million term loan A, and \$2.0 million term loan B. The second lien loan bears annual interest at 14%. The second lien loan has a \$10.0 million principal face amount and was issued at a cost basis of \$10.0 million. The second lien loan's cost basis was subsequently discounted to reflect loan origination fees received. The maturity date of the second lien loan is July 18, 2012. The principal balance is due upon maturity. The \$2.9 million term loan A bears annual interest at LIBOR plus 4.25% or Prime Rate plus 3.25%. The \$2.0 million term loan B bears annual interest at LIBOR plus 6.40% or Prime Rate plus 5.40%. The interest rate option on the loan assignments is at the borrower's discretion. Both loans mature on July 18, 2011. The combined cost basis and fair value of the investments at October 31, 2006 was \$14.7 million and \$14.9 million respectively.

SGDA Sanierungsgesellschaft fur Deponien und Altastten mbH

SGDA Sanierungsgesellschaft fur Deponien und Altastten mbH (SGDA), Zella-Mehlis, Germany, is a company that is in the business of landfill remediation and revitalization of contaminated soil.

At October 31, 2006, the Company's investment in SGDA consisted of a term loan, common equity interest, and preferred equity interest. The term loan had an outstanding balance of \$6.2 million with a cost of \$6.0 million. The term loan bears annual interest at 7.0% and matures on August 25, 2009. The term loan was assigned a fair value of \$6 million. The common equity interest in SGDA had been assigned a fair value of \$338,551 which was its cost basis. The preferred equity interest had been assigned a fair value of \$5.0 million which was its cost basis.

On November 7, 2006, the Company invested an additional \$100,000 in SGDA by purchasing an additional equity interest.

During the nine month period ended July 31, 2007, the Valuation Committee increased the fair value of the Company's common equity interest by approximately \$121,000 and preferred equity interest by \$475,000.

At July 31, 2007, the term loan had an outstanding balance of \$6.2 million with a cost of \$6.0 million. The term loan was assigned a fair value of \$6.0 million. The increase in the cost and fair value of the loan is due to the accretion of the market discount of the term loan. These increases were approved by the Company's Valuation Committee. The common equity interest in SGDA has been assigned a fair value of \$560,000 with a cost basis of \$438,551. The preferred equity interest has been assigned a fair value of \$5.5 million with a cost basis of \$5.0 million.

SIA BM Auto

SIA BM Auto (BM Auto), Riga, Latvia, is a company focused on the importation and sale of BMW vehicles and parts throughout Latvia, a member of the European Union.

At October 31, 2006 the Company's investment in BM Auto consisted of 47,300 shares of common stock at a cost and fair value of \$8.0 million.

On July 24, 2007, the Company sold the common stock of BM Auto. The amount received from the sale of the 47,300 common shares of BM Auto was approximately \$29.7 million, net of closing and other transaction costs, working capital adjustments and a reserve established by the Company to satisfy certain post-closing conditions requiring capital and other expenditures. The \$29.7 million less the \$8.0 million cost basis of BM Auto resulted in \$21.7 million recorded as a long term capital gain. The difference between the \$29.7 million received from the BM Auto equity and the carrying value at October 31, 2006 is \$21.7 million and the amount of the increase in net assets attributable to fiscal 2007. As mentioned above, a reserve account of approximately \$3.0 million was created for post closing conditions that are required of the seller as a part of the purchase agreement. The cash held in the reserve account is held in Euros. At July 31, 2007, the balance of the reserve account from the sale of Baltic Motors and BM Auto was approximately \$2.9 million. Expenses such as finishing a road to a dealership and Latvian tax withholding payments, among other things have been estimated by management and will be paid from this account. This reserve account is owned and controlled by the Company. The Company has recorded the cash in the reserve account to its books denominated as foreign currency. It has also recorded a liability for the same amount so there is no impact to net asset value until all post closing conditions are met. The remaining cash, if any, will be converted to USD and recorded as a long term capital gain. We do not anticipate any overages; however, if they occur it would reduce the capital gain that has already been recorded. Any difference recorded due to changes in exchange rates since the Euros were received will be recorded as currency gain (loss). During the interim, at each month end, the Euros will be valued based on that day's exchange rate and the liability will be adjusted to match the USD equivalent. Management believes all post closing conditions will be met before October 31, 2007.

At July 31, 2007, the Company no longer held an investment in BM Auto.

Effective November 1, 2006, under the terms of the Investment Advisory and Management Agreement with TTG Advisers (the Advisory Agreement), TTG Advisers is responsible for providing office space to the Company and for the costs associated with providing such office space. The Company s offices continue to be located on the second floor of 287 Bowman Avenue.

On April 27, 2006, the Company and MVCFS, as co-borrowers, entered into a new four-year, \$100 million credit facility (the Credit Facility) with Guggenheim as administrative agent for the lenders. At October 31, 2006, there was \$50.0 million in term debt and \$50.0 million on the revolving credit facility outstanding. During the nine months ended July 31, 2007, the Company s net repayments on the Credit Facility were \$50.0 million. As of July 31, 2007, there was \$50.0 million in term debt and no amount outstanding on the revolving credit facility. The proceeds from borrowings made under the Credit Facility are used to fund new and existing portfolio investments, pay fees and expenses related to obtaining the financing and for general corporate purposes. The Credit Facility will expire on April 27, 2010, at which time all outstanding amounts under the Credit Facility will be due and payable. Borrowings under the Credit Facility will bear interest, at the Company s option, at a floating rate equal to either (i) the LIBOR rate (for one, two, three or six months), plus a spread of 2.00% per annum, or (ii) the Prime rate in effect from time to time, plus a spread of 1.00% per annum. The Company paid a closing fee, legal and other costs associated with this transaction. These costs will be amortized evenly over the life of the facility. The prepaid expenses on the Balance Sheet include the unamortized portion of these costs. Borrowings under the Credit Facility will be secured, by among other things, cash, cash equivalents, debt investments, accounts receivable, equipment, instruments, general intangibles, the capital stock of MVCFS, and any proceeds from all the aforementioned items, as well as all other property except for equity investments made by the Company.

The Company enters into contracts with portfolio companies and other parties that contain a variety of indemnifications. The Company s maximum exposure under these arrangements is unknown. However, the Company has not experienced claims or losses pursuant to these contracts and believes the risk of loss related to indemnifications to be remote.

Subsequent Events

On August 1, 2007, Phoenix repaid its second lien loan in full including all accrued interest and fees. Total amount received from the repayment was approximately \$8.4 million.

Table of Contents

On August 3, 2007 and August 30, 2007, Octagon made payments of \$500,000 towards its revolving credit facility.

On August 10, 2007, Forrest Mertens, a representative of the Company, resigned from the board of Phoenix. The Company still has board observance rights.

On August 15, 2007, Velocitius borrowed approximately \$57,000 on revolving line of credit I and \$65,000 from revolving line of credit II.

On August 20, 2007, the Company contributed an additional \$47,276 in MVC Partners in the form of a limited liability company interest.

On August 27, 2007, Timberland borrowed \$500,000 under their revolving credit facility.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Historically the Company has invested in small companies, and its investments in these companies are considered speculative in nature. The Company's investments often include securities that are subject to legal or contractual restrictions on resale that adversely affect the liquidity and marketability of such securities. As a result, the Company is subject to risk of loss which may prevent our shareholders from achieving price appreciation, dividend distributions and return of capital.

Financial instruments that subjected the Company to concentrations of market risk consisted principally of equity investments, subordinated notes, and debt instruments, which represent approximately 72.58% of the Company's total assets at July 31, 2007. As discussed in Note 5 Portfolio Investments, these investments consist of securities in companies with no readily determinable market values and as such are valued in accordance with the Company's fair value policies and procedures. The Company's investment strategy represents a high degree of business and financial risk due to the fact that the investments (other than cash equivalents) are generally illiquid, in small and middle market companies, and include entities with little operating history or entities that possess operations in new or developing industries. These investments, should they become publicly traded, would generally be: (i) subject to restrictions on resale, if they were acquired from the issuer in private placement transactions; and (ii) susceptible to market risk. At this time, the Company's investments in short-term securities are in 90-day Treasury Bills, which are federally guaranteed securities, or other high quality, highly liquid investments. The Company's cash balances, if not large enough to be invested in 90-day Treasury Bills or other high quality, highly liquid investments, are swept into designated money market accounts.

In addition, the following risk factors relate to market risks impacting the Company.

Investing in private companies involves a high degree of risk.

Our investment portfolio generally consists of loans to, and investments in, private companies. Investments in private businesses involve a high degree of business and financial risk, which can result in substantial losses and accordingly should be considered speculative. There is generally very little publicly available information about the companies in which we invest, and we rely significantly on the due diligence of the Company's investment team to obtain appropriate information in connection with our investment decisions.

Our investments in portfolio companies are generally illiquid.

We generally acquire our investments directly from the issuer in privately negotiated transactions. Most of the investments in our portfolio (other than cash or cash equivalents) are typically subject to restrictions on resale or otherwise have no established trading market. We may exit our investments when the portfolio company has a liquidity event, such as a sale, recapitalization or initial public offering. The illiquidity of our investments may adversely affect our ability to dispose of equity and debt securities at times when it may be otherwise advantageous for us to liquidate such investments. In addition, if we were forced to immediately liquidate some or all of the investments in the portfolio, the proceeds of such liquidation could be significantly less than the current fair value of such investments.

Substantially all of our portfolio investments are recorded at fair value and, as a result, there is a degree of uncertainty regarding the carrying values of our portfolio investments.

Pursuant to the requirements of the 1940 Act, because our portfolio company investments do not have readily ascertainable market values, we record these investments at fair value in accordance with Valuation Procedures adopted by our board of directors.

At July 31, 2007, approximately 72.60% of our total assets represented portfolio investments recorded at fair value. There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while

Table of Contents

employing a consistently applied valuation process for the types of investments we make. We specifically value each individual investment and record unrealized depreciation for an investment that we believe has become impaired, including where collection of a loan or realization of an equity security is doubtful. Conversely, we will record unrealized appreciation if we have an indication (based on an objective development) that the underlying portfolio company has appreciated in value and, therefore, our equity security has also appreciated in value, where appropriate. Without a readily ascertainable market value and because of the inherent uncertainty of fair valuations, fair value of our investments may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

Pursuant to our Valuation Procedures, our Valuation Committee (which is currently comprised of three independent directors) reviews, considers and determines fair valuations on a quarterly basis (or more frequently, if deemed appropriate under the circumstances). Any changes in valuation are recorded in the statements of operations as Net unrealized gain (loss) on investments.

Economic recessions or downturns could impair our portfolio companies and harm our operating results.

Many of the companies in which we have made or will make investments may be susceptible to economic slowdowns or recessions. An economic slowdown may affect the ability of a company to engage in a liquidity event. These conditions could lead to financial losses in our portfolio and a decrease in our revenues, net income and assets.

Our overall business of making private equity investments may be affected by current and future market conditions. The absence of an active mezzanine lending or private equity environment may slow the amount of private equity investment activity generally. As a result, the pace of our investment activity may slow, which could impact our ability to achieve our investment objective. In addition, significant changes in the capital markets could have an effect on the valuations of private companies and on the potential for liquidity events involving such companies. This could affect the amount and timing of any gains realized on our investments.

Our borrowers may default on their payments, which may have an effect on our financial performance.

We may make long-term unsecured, subordinated loans, which may involve a higher degree of repayment risk than conventional secured loans. We primarily invest in companies that may have limited financial resources and that may be unable to obtain financing from traditional sources. In addition, numerous factors may adversely affect a portfolio company's ability to repay a loan we make to it, including the failure to meet a business plan, a downturn in its industry or operating results, or negative economic conditions. Deterioration in a borrower's financial condition and prospects may be accompanied by deterioration in any related collateral.

Our investments in mezzanine and other debt securities may involve significant risks.

Our investment strategy contemplates investments in mezzanine and other debt securities of privately held companies. Mezzanine investments typically are structured as subordinated loans (with or without warrants) that carry a fixed rate of interest. We may also make senior secured and other types of loans or debt investments. Our debt investments are typically not rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade quality (rated lower than Baa3 by Moody's or lower than BBB- by Standard & Poor's, commonly referred to as "junk bonds"). Loans of below investment grade quality have predominantly speculative characteristics with respect to the borrower's capacity to pay interest and repay principal. Our debt investments in portfolio companies may thus result in a high level of risk and volatility and/or loss of principal.

We may not realize gains from our equity investments.

When we invest in mezzanine and senior debt securities, we may acquire warrants or other equity securities as well. We may also invest directly in various equity securities. Our goal is ultimately to dispose of such equity

Table of Contents

interests and realize gains upon our disposition of such interests. However, the equity interests we receive or invest in may not appreciate in value and, in fact, may decline in value. In addition, the equity securities we receive or invest in may be subject to restrictions on resale during periods in which it would be advantageous to resell. Accordingly, we may not be able to realize gains from our equity interests, and any gains that we do realize on the disposition of any equity interests may not be sufficient to offset any other losses we experience.

Our investments in small and middle-market privately-held companies are extremely risky and you could lose your entire investment.

Investments in small and middle-market privately-held companies are subject to a number of significant risks including the following:

Small and middle-market companies may have limited financial resources and may not be able to repay the loans we make to them. Our strategy includes providing financing to companies that typically do not have capital sources readily available to them. While we believe that this provides an attractive opportunity for us to generate profits, this may make it difficult for the borrowers to repay their loans to us upon maturity.

Small and middle-market companies typically have narrower product lines and smaller market shares than large companies. Because our target companies are smaller businesses, they may be more vulnerable to competitors' actions and market conditions, as well as general economic downturns. In addition, smaller companies may face intense competition, including competition from companies with greater financial resources, more extensive development, manufacturing, marketing and other capabilities, and a larger number of qualified managerial and technical personnel.

There is generally little or no publicly available information about these privately-held companies. Because we seek to make investments in privately-held companies, there is generally little or no publicly available operating and financial information about them. As a result, we rely on our investment professionals to perform due diligence investigations of these privately-held companies, their operations and their prospects. We may not learn all of the material information we need to know regarding these companies through our investigations.

Small and middle-market companies generally have less predictable operating results. We expect that our portfolio companies may have significant variations in their operating results, may from time to time be parties to litigation, may be engaged in rapidly changing businesses with products subject to a substantial risk of obsolescence, may require substantial additional capital to support their operations, finance expansion or maintain their competitive position, may otherwise have a weak financial position or may be adversely affected by changes in the business cycle. Our portfolio companies may not meet net income, cash flow and other coverage tests typically imposed by their senior lenders.

Small and middle-market businesses are more likely to be dependent on one or two persons. Typically, the success of a small or middle-market company also depends on the management talents and efforts of one or two persons or a small group of persons. The death, disability or resignation of one or more of these persons could have a material adverse impact on our portfolio company and, in turn, on us.

Small and middle-market companies are likely to have greater exposure to economic downturns than larger companies. We expect that our portfolio companies will have fewer resources than larger businesses and an economic downturn may thus more likely have a material adverse effect on them.

Small and middle-market companies may have limited operating histories. We may make debt or equity investments in new companies that meet our investment criteria. Portfolio companies with limited

Table of Contents

operating histories are exposed to the operating risks that new businesses face and may be particularly susceptible to, among other risks, market downturns, competitive pressures and the departure of key executive officers.

Investments in foreign debt or equity may involve significant risks in addition to the risks inherent in U.S. investments.

Our investment strategy may result in some investments in debt or equity of foreign companies (subject to applicable limits prescribed by the 1940 Act). Investing in foreign companies can expose us to additional risks not typically associated with investing in U.S. companies. These risks include exchange rates, changes in exchange control regulations, political and social instability, expropriation, imposition of foreign taxes, less liquid markets and less available information than is generally the case in the United States, higher transaction costs, less government supervision of exchanges, brokers and issuers, less developed bankruptcy laws, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility.

The market for private equity investments can be highly competitive. In some cases, our status as a regulated business development company may hinder our ability to participate in investment opportunities.

We face competition in our investing activities from private equity funds, other business development companies, investment banks, investment affiliates of large industrial, technology, service and financial companies, small business investment companies, wealthy individuals and foreign investors. As a regulated business development company, we are required to disclose quarterly the name and business description of portfolio companies and the value of any portfolio securities. Many of our competitors are not subject to this disclosure requirement. Our obligation to disclose this information could hinder our ability to invest in certain portfolio companies. Additionally, other regulations, current and future, may make us less attractive as a potential investor to a given portfolio company than a private equity fund not subject to the same regulations. Furthermore, some of our competitors have greater resources than we do. Increased competition would make it more difficult for us to purchase or originate investments at attractive prices. As a result of this competition, sometimes we may be precluded from making certain investments.

Complying with the RIC requirements may cause us to forego otherwise attractive opportunities.

To qualify as a RIC for U.S. federal income tax purposes, we must satisfy tests concerning the sources of our income, the nature and diversification of our assets and the amounts we distribute to our shareholders. We may be unable to pursue investments that would otherwise be advantageous to us in order to satisfy the source of income or asset diversification requirements for qualification as a RIC. In particular, to qualify as a RIC, at least 50% of our assets must be in the form of cash and cash items, Government securities, securities of other RICs, and other securities that represent not more than 5% of the Company's total assets and not more than 10% of the outstanding voting securities of any issuer. The Company has from time to time held a significant portion of its assets in securities that exceed 5% of the Company's total assets or more than 10% of the outstanding securities of an issuer, and compliance with the RIC requirements may adversely affect our ability to make additional investments that represent more than 5% of our total assets or more than 10% of the outstanding voting securities of the issuer. Thus, compliance with the RIC requirements may hinder our ability to take advantage of investment opportunities believed to be attractive.

Our common stock price can be volatile.

The trading price of our common stock may fluctuate substantially. The price of the common stock may be higher or lower than the price you pay for your shares, depending on many factors, some of which are beyond our control and may not be directly related to our operating performance. These factors include the following:

Table of Contents

price and volume fluctuations in the overall stock market from time to time;

significant volatility in the market price and trading volume of securities of business development companies or other financial services companies;

volatility resulting from trading in derivative securities related to our common stock including puts, calls, long-term equity participation securities, or LEAPs, or short trading positions;

changes in regulatory policies or tax guidelines with respect to business development companies or RICs;

actual or anticipated changes in our earnings or fluctuations in our operating results or changes in the expectations of securities analysts;

general economic conditions and trends;

loss of a major funding source; or

departures of key personnel.

We are subject to market discount risk.

As with any stock, the price of our shares will fluctuate with market conditions and other factors. If shares are sold, the price received may be more or less than the original investment. Whether investors will realize gains or losses upon the sale of our shares will not depend directly upon our NAV, but will depend upon the market price of the shares at the time of sale. Since the market price of our shares will be affected by such factors as the relative demand for and supply of the shares in the market, general market and economic conditions and other factors beyond our control, we cannot predict whether the shares will trade at, below or above our NAV. Although our shares have recently traded at a premium to our NAV, historically, our shares, as well as those of other closed-end investment companies, have frequently traded at a discount to their NAV, which discount often fluctuates over time.

Changes in interest rates may affect our cost of capital and net investment income.

Because we may borrow money to make investments, our net investment income before net realized and unrealized gains or losses, or net investment income, may be dependent upon the difference between the rate at which we borrow funds and the rate at which we invest these funds. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income. In periods of sharply rising interest rates, our cost of funds would increase, which could reduce our net investment income. We may use a combination of long-term and short-term borrowings and equity capital to finance our investing activities. We may utilize our short-term credit facilities as a means to bridge to long-term financing. Our long-term fixed-rate investments are financed primarily with equity and long-term fixed-rate debt. We may use interest rate risk management techniques in an effort to limit our exposure to interest rate fluctuations. Such techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act.

Our ability to use our capital loss carryforwards may be subject to limitations.

If we experience a shift in the ownership of our common stock (e.g., if a shareholder acquires 5% or more of our outstanding shares of common stock, or if a shareholder who owns 5% or more of our outstanding shares of common stock significantly increases or decreases its investment in the Company), our ability to utilize our

Table of Contents

capital loss carryforwards to offset future capital gains may be significantly limited. Further, in the event that we are deemed to have failed to meet the requirements to qualify as a RIC, our ability to use our capital loss carryforwards could be adversely affected.

The war with Iraq, terrorist attacks, the Middle East crisis and other acts of violence or war may affect any market for our common stock, impact the businesses in which we invest and harm our operations and our profitability.

The war with Iraq, its aftermath and the continuing occupation of Iraq are likely to have a substantial impact on the U.S. and world economies and securities markets. The nature, scope and duration of the war and occupation cannot be predicted with any certainty. Furthermore, terrorist attacks may harm our results of operations and your investment. We cannot assure you that there will not be further terrorist attacks against the United States or U.S. businesses. Such attacks and armed conflicts in the United States or elsewhere may impact the businesses in which we invest directly or indirectly, by undermining economic conditions in the United States. Losses resulting from terrorist events are generally uninsurable.

Item 4. Controls and Procedures

(a) As of the end of the period covered by this quarterly report on Form 10-Q, the individual who performs the functions of a Principal Executive Officer (the CEO) and the individual who performs the functions of a Principal Financial Officer (the CFO) conducted an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended). Based upon this evaluation, our CEO and CFO concluded that our disclosure controls and procedures are effective and provide reasonable assurance that information required to be disclosed in our periodic SEC filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

(b) There have been no changes in our internal control over financial reporting that occurred during the fiscal quarter ended July 31, 2007, which have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
