NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Basis of Presentation

The condensed consolidated balance sheet as of October 31, 2007, the condensed consolidated statements of income and comprehensive income for the three and six months ended October 31, 2007 and 2006, the condensed consolidated statements of cash flows for the six months ended October 31, 2007 and 2006, and the condensed consolidated statement of stockholders' equity for the six months ended October 31, 2007 and 2006 have been prepared by the Company, without audit. In the opinion of management, all adjustments, which include only normal recurring adjustments, necessary to present fairly the financial position, results of operations, cash flows and changes in stockholders' equity at October 31, 2007 and for all periods presented have been made. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

H&R Block, the Company, we, our and us are used interchangeably to refer to H&R Block, Inc. or to H&R Block, Inc. and its subsidiaries, as appropriate to the context.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in our April 30, 2007 Annual Report to Shareholders on Form 10-K.

Operating revenues of the Tax Services and Business Services segments are seasonal in nature with peak revenues occurring in the months of January through April. Therefore, results for interim periods are not indicative of results to be expected for the full year.

Discontinued Operations Recent Developments

On April 19, 2007, we entered into an agreement to sell Option One Mortgage Corporation (OOMC) to Cerberus Capital Management (Cerberus). In conjunction with this plan, we also announced we would terminate the operations of H&R Block Mortgage Corporation (HRBMC), a wholly-owned subsidiary of OOMC.

On December 4, 2007, we agreed to terminate the agreement with Cerberus in light of the changing business environment for OOMC, as mutually acceptable alternatives for restructuring the original agreement could not be reached. We also announced that we would immediately terminate all remaining origination activities and pursue the sale of OOMC's loan servicing activities. OOMC had existing loan applications in its pipeline of \$69.4 million in gross loan principal amount at October 31, 2007. We believe that only approximately \$20 million to \$30 million of these loans will ultimately be funded, at which time our mortgage origination activities will cease. We believe a majority of these loans will be eligible for sale to Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac).

Termination of the mortgage lending activities of OOMC is expected to result in a pretax restructuring charge of \$74.8 million. The restructuring charge covers expected severance and lease termination costs, write-off of property, plant and equipment and related shutdown costs. Of the total restructuring charge, \$34.9 million was incurred in our second quarter ending October 31, 2007, with the remainder to be incurred primarily in our third quarter ending January 31, 2008. This charge, combined with the restructuring activities previously announced, brings our total restructuring charges for the three and six months ended October 31, 2007 to \$61.0 million and \$77.1 million, respectively.

Following the termination of its loan origination activities, OOMC will continue to carry out its servicing activities and collect servicing revenues as it does today. Because of the cessation of new originations, the volume of mortgage loans serviced will gradually decline as the aggregate principal amount of existing loans being serviced declines without replacement. The majority of servicing activities are carried out with respect to loans owned by third parties.

Table of Contents

We have estimated the fair values of the servicing business and other assets, which resulted in an additional asset impairment for the second quarter ending October 31, 2007 of \$123.0 million, bringing our total impairment recorded in discontinued operations to \$146.2 million for the six months ended October 31, 2007.

During fiscal year 2007, we also committed to a plan to sell two smaller lines of business and completed the wind-down of one other line of business, all of which were previously reported in our Business Services segment. One of these businesses was sold during the six months ended October 31, 2007. Additionally, during fiscal year 2007, we completed the wind-down of our tax operations in the United Kingdom, which were previously reported in Tax Services. As of October 31, 2007, these businesses are presented as discontinued operations and the assets and liabilities of the businesses being sold are presented as held-for-sale in the condensed consolidated financial statements. All periods presented have been reclassified to reflect our discontinued operations.

2. Earnings (Loss) Per Share

Basic and diluted loss per share is computed using the weighted average shares outstanding during each period. The dilutive effect of potential common shares is included in diluted earnings per share except in those periods with a loss from continuing operations. Diluted earnings per share excludes the impact of shares of common stock issuable upon the lapse of certain restrictions or the exercise of options to purchase 30.2 million shares and 30.7 million shares for the three and six months ended October 31, 2007, respectively, and 32.5 million shares for the three and six months ended October 31, 2006, as the effect would be antidilutive due to the net loss from continuing operations during each period.

The weighted average shares outstanding for the three and six months ended October 31, 2007 increased to 324.7 million and 324.3 million, respectively, from 321.7 million and 322.7 million for the three and six months ended October 31, 2006, respectively, primarily due the issuance of treasury shares related to our stock-based compensation plans.

During the six months ended October 31, 2007 and 2006, we issued 1.9 million and 1.8 million shares of common stock, respectively, pursuant to the exercise of stock options, employee stock purchases and awards of nonvested shares, in accordance with our stock-based compensation plans.

During the six months ended October 31, 2007, we acquired 0.2 million shares of our common stock, which represent shares swapped or surrendered to us in connection with the vesting of nonvested shares and the exercise of stock options, at an aggregate cost of \$5.7 million. During the six months ended October 31, 2006, we acquired 8.4 million shares of our common stock, of which 8.1 million shares were purchased from third parties with the remaining shares swapped or surrendered to us, at an aggregate cost of \$186.6 million.

During the six months ended October 31, 2007, we granted 5.0 million stock options and 0.9 million nonvested shares and units in accordance with our stock-based compensation plans. The weighted average fair value of options granted was \$4.53 for manager and director options and \$3.07 for options granted to our seasonal associates. At October 31, 2007, the total unrecognized compensation cost for options and nonvested shares and units was \$26.2 million and \$49.4 million, respectively.

3. Goodwill and Intangible Assets

Changes in the carrying amount of goodwill of continuing operations for the six months ended October 31, 2007 consist of the following:

(in 000s)

	April 30, 2007	Additions	Other	October 31, 2007
Tax Services	\$ 415,077	\$ 13,334	\$ 7,519	\$ 435,930
Business Services	404,888	356	(7,433)	397,811
	173,954	-	-	173,954

Amortization of intangible assets of continuing operations for the three and six months ended October 31, 2007 was \$15.0 million and \$30.5 million, respectively. Amortization of intangible assets of continuing operations for the three and six months ended October 31, 2006 was \$13.9 million and \$28.6 million, respectively. Estimated amortization of intangible assets for fiscal years 2008 through 2012 is \$45.7 million, \$22.0 million, \$19.4 million, \$17.6 million and \$14.9 million, respectively.

4. Borrowings

H&R Block Bank (HRB Bank) is a member of the Federal Home Loan Bank (FHLB) of Des Moines, which extends credit to member banks based on eligible collateral. At October 31, 2007, HRB Bank had FHLB advance capacity of \$428.9 million, and there was \$104.0 million outstanding on this facility. Mortgage loans held for investment of \$1.1 billion were pledged as collateral on these advances.

At October 31, 2007, we maintained \$2.0 billion in revolving credit facilities to support commercial paper issuance and for general corporate purposes. These unsecured committed lines of credit (CLOCs), and outstanding borrowings thereunder, have a maturity date of August 2010 and an annual facility fee in a range of six to fifteen basis points per annum, based on our credit ratings. Negative market conditions during our second fiscal quarter and recent credit rating downgrades continued to negatively impact the availability of commercial paper. As a result, during the current quarter we repaid our commercial paper borrowings with proceeds from the CLOCs, and had no outstanding commercial paper as of October 31, 2007. We had a combined \$1.6 billion outstanding under our \$2.0 billion in

available CLOCs as of October 31, 2007. These borrowings are included in long-term debt on our condensed consolidated balance sheet due to their contractual maturity date. The CLOCs, among other things, require we maintain at least \$650.0 million of Adjusted Net Worth, as defined in the agreement, on the last day of any fiscal quarter. On November 19, 2007, effective October 31, 2007, the CLOCs were amended to, among other things, require \$450.0 million of Adjusted Net Worth, for the fiscal quarters ending October 31, 2007 and January 31, 2008. Before the end of the second quarter, we initiated efforts to seek an amendment to the Minimum Net Worth Requirement (i) in light of the possibility that we might not have met the Minimum Net Worth Requirement for the fiscal quarter ended October 31, 2007, (ii) to obtain flexibility for purposes of negotiating a sale of OOMC, and (iii) in light of the possibility that, without the amendment, we would not be in compliance with the Minimum Net Worth Covenant as of January 31, 2008 without taking steps to raise additional capital. When financial results for the six months ended October 31, 2007 were finalized, we determined that we had an Adjusted Net Worth of \$544.3 million at October 31, 2007, primarily due to operating losses of our discontinued operations. Subsequent to October 31, 2007, we drew additional funds on the CLOCs to bring total borrowings to \$1.8 billion as of the date of this filing.

Table of Contents

In April 2007, we obtained a \$500.0 million credit facility to provide funding for the \$500.0 million of 8 1/2% Senior Notes which were due April 16, 2007. This facility matures on December 20, 2007. The facility was fully drawn at closing and is subject to various covenants that are similar to our primary CLOCs. We expect to refinance this facility when it matures.

5. Income Taxes

In June 2006, FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) was issued. The interpretation clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. The interpretation prescribes a recognition threshold and measurement attribute criteria for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

We adopted the provisions of FIN 48 on May 1, 2007 and, as a result, recognized a \$9.7 million decrease to retained earnings as of May 1, 2007. Total unrecognized tax benefits as of May 1, 2007 were \$133.3 million, of which \$89.0 million, on a gross basis, were tax positions that, if recognized, would impact the effective tax rate. Net unrecognized tax benefits that would impact the effective tax rate totaled \$50.0 million as of May 1, 2007.

We recognize interest and, if applicable, penalties related to unrecognized tax benefits as a component of income tax expense. As of May 1, 2007 we accrued \$36.6 million for the potential payment of interest and penalties. Interest was estimated by applying the applicable statutory rate of interest of each of the jurisdictions identified on uncertain tax positions.

In the second quarter, we accrued an additional \$2.4 million of interest & penalties related to our uncertain tax positions. As of October 31, 2007 we had unrecognized tax benefits of \$130.8 million. The primary change during the quarter was related to the expiration of statutes of limitations for various jurisdictions during the quarter. We have classified the liability for unrecognized tax benefits, including corresponding accrued interest, as long-term at October 31, 2007, which is included in other noncurrent liabilities on the condensed consolidated balance sheet. Amounts that we expect to pay within the next twelve months have been included in accounts payable, accrued expenses and other current liabilities on the condensed consolidated balance sheet.

Based upon the expiration of statutes of limitations, payments of tax and other factors in several jurisdictions, we believe it is reasonably possible that the total amount of previously unrecognized tax benefits may decrease by approximately \$8 million to \$9 million within twelve months of October 31, 2007.

We file a consolidated federal tax return in the United States and income tax returns in various state and foreign jurisdictions. We are no longer subject to U.S. federal income tax audits for years before 1999. The U.S. federal audit for years 1999 through 2003 is in its final stages. The Internal Revenue Service (IRS) has commenced an audit for the years 2004 and 2005. With respect to our Canadian operations, audits for tax years 1996 through 2001 have been completed and are in the final stages, and tax years 2002 and 2003 are currently under audit. With respect to state and local jurisdictions, with limited exceptions, H&R Block, Inc. and its subsidiaries are no longer subject to income tax audits for years before 1999.

6. Regulatory Requirements**Registered Broker-Dealer**

H&R Block Financial Advisors, Inc. (HRBFA) is subject to regulatory requirements intended to ensure the general financial soundness and liquidity of broker-dealers. At October 31, 2007, HRBFA's net capital of \$91.2 million, which was 20.0% of aggregate debit items, exceeded its minimum required net capital of \$9.1 million by \$82.0 million. During the three months ended October 31, 2007, HRBFA paid a dividend of \$37.5 million to Block Financial Corporation (BFC), its direct corporate parent.

The fair value of pledged securities at October 31, 2007 totaled \$57.9 million, an excess of \$6.0 million over the margin requirement.

Table of Contents**Banking**

HRB Bank and the Company are subject to various regulatory capital guidelines and requirements administered by federal banking agencies. Failure to meet minimum capital requirements can trigger certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on HRB Bank and the consolidated financial statements. All savings associations are subject to the capital adequacy guidelines and the regulatory framework for prompt corrective action. HRB Bank must meet specific capital guidelines that involve quantitative measures of HRB Bank's assets, liabilities and certain off-balance sheet items, as calculated under regulatory accounting practices. HRB Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors. HRB Bank files its regulatory Thrift Financial Report (TFR) on a calendar quarter basis.

Quantitative measures established by regulation to ensure capital adequacy require HRB Bank to maintain minimum amounts and ratios of tangible equity, total risk-based capital and Tier 1 capital, as set forth in the table below. In addition to these minimum ratio requirements, HRB Bank is required to continually maintain a 12.0% minimum leverage ratio as a condition of its charter-approval order through fiscal year 2009. This condition was extended through fiscal year 2012 as a result of a Supervisory Directive issued on May 29, 2007. See further discussion of the Supervisory Directive below. As of October 31, 2007, HRB Bank's leverage ratio was 14.8%.

As of September 30, 2007, our most recent TFR filing with the Office of Thrift Supervision (OTS), HRB Bank was a well capitalized institution under the prompt corrective action provisions of the Federal Deposit Insurance Corporation (FDIC). The five capital categories are: (1) well capitalized (total risk-based capital ratio of 10%, Tier 1 Risk-based capital ratio of 6% and leverage ratio of 5%); (2) adequately capitalized; (3) undercapitalized; (4) significantly undercapitalized; and (5) critically undercapitalized. There are no conditions or events since September 30, 2007 that management believes have changed HRB Bank's category.

The following table sets forth HRB Bank's regulatory capital requirements at September 30, 2007, as calculated in the most recently filed TFR:

(dollars in 000s)

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Total risk-based capital ratio ⁽¹⁾	\$ 186,851	28.5%	\$ 52,519	8.0%	\$ 65,649	10.0%
Tier 1 risk-based capital ratio ⁽²⁾	\$ 178,638	27.2%	n/a	n/a	\$ 39,389	6.0%
Tier 1 capital ratio (leverage) ⁽³⁾	\$ 178,638	14.6%	\$ 147,074	12.0%	\$ 61,281	5.0%
Tangible equity ratio ⁽⁴⁾	\$ 178,638	14.6%	\$ 18,384	1.5%	n/a	n/a

(1) Total risk-based capital divided by risk-weighted assets.

(2) Tier 1 (core) capital less deduction for low-level recourse and residual interest divided by risk-weighted assets.

(3) Tier 1 (core) capital divided by adjusted total assets.

(4) Tangible capital divided by tangible assets.

In conjunction with H&R Block, Inc.'s application with the OTS for HRB Bank, H&R Block, Inc. made commitments as part of our charter approval order (Master Commitment) which included, but were not limited to: (1) H&R Block, Inc. to maintain a three percent minimum ratio of adjusted tangible capital to adjusted total assets, as defined by the OTS; (2) maintain all HRB Bank capital within HRB Bank in accordance with the submitted three-year business plan; and (3) follow federal regulations surrounding intercompany transactions and approvals. H&R Block, Inc. fell below the three percent minimum ratio at April 30, 2007. We notified the OTS of our failure to meet this requirement, and on May 29, 2007, the OTS issued a Supervisory Directive. We submitted a revised capital plan to the OTS on July 19, 2007, in which we expected to meet the three percent minimum ratio at April 30, 2008. The OTS accepted our revised capital plan.

The Supervisory Directive included additional conditions that we will be required to meet in addition to the Master Commitment. The significant additional conditions included in the Supervisory Directive are as

Table of Contents

follows: (1) requires HRB Bank to extend its compliance with a minimum 12.0% leverage ratio through fiscal year 2012; (2) requires H&R Block, Inc. to comply with the Master Commitment at all times, except for the projected capital levels and compliance with the three percent minimum ratio, as provided in the fiscal year 2008 and 2009 capital adequacy projections presented to the OTS on July 19, 2007; (3) institutes reporting requirements to the OTS quarterly and monthly by the Board of Directors and management, respectively; and (4) requires HRB Bank's Board of Directors to have an independent chairperson and at least the same number of outside directors as inside directors. Operating losses of our discontinued operations for the first six months of fiscal year 2008 were higher than projected in our revised capital plan that was submitted to the OTS in July 2007. As a result, our capital levels are lower than those projections. H&R Block, Inc. continued to be below the three percent minimum ratio during our second quarter, and had adjusted tangible capital of negative \$644.4 million, and a requirement of \$177.5 million to be in compliance at October 31, 2007.

In November 2007, the OTS directed us to submit a new revised capital plan no later than January 15, 2008. At this time, we do not expect to be in compliance with the three percent minimum ratio at April 30, 2008. We do not expect to be in a position to repurchase treasury shares until sometime after fiscal year 2009. Achievement of the capital plan depends on future events and circumstances, the outcome of which cannot be assured. If we are not in a position to cure deficiencies and if operating results continue to be below our plan, a resulting failure could impair our ability to repurchase shares of our common stock, acquire businesses or pay dividends.

Failure to meet the conditions under the Master Commitment and the Supervisory Directive, including capital levels of H&R Block, Inc., could result in the OTS taking further regulatory actions, such as a supervisory agreement, cease-and-desist orders and civil monetary penalties. The OTS could also require us to sell assets, which could negatively impact our financial statements. At this time, the financial impact, if any, of additional regulatory actions cannot be determined.

7. Commitments and Contingencies

Changes in the deferred revenue liability related to our Peace of Mind (POM) program, the current portion of which is included in accounts payable, accrued expenses and other current liabilities and the long-term portion of which is included in other noncurrent liabilities in the condensed consolidated balance sheets, are as follows:

	(in 000s)	
Six Months Ended October 31,	2007	2006
Balance, beginning of period	\$ 142,173	\$ 141,684
Amounts deferred for new guarantees issued	1,067	1,178
Revenue recognized on previous deferrals	(46,388)	(48,694)
Balance, end of period	\$ 96,852	\$ 94,168

The following table summarizes certain of our other contractual obligations and commitments:

	(in 000s)	
As of	October 31, 2007	April 30, 2007
Commitment to fund Franchise		

Edgar Filing: H&R BLOCK INC - Form 10-Q

Equity Lines of Credit	\$	81,484	\$	79,628
Media advertising purchase obligation		37,749		37,749
Contingent business acquisition obligations		30,376		19,891

On November 1, 2006 we entered into an agreement to purchase \$57.2 million in media advertising between November 1, 2006 and June 30, 2009. We expect to make payments totaling \$20.6 million and \$17.2 million during fiscal years 2008 and 2009, respectively.

We routinely enter into contracts that include embedded indemnifications that have characteristics similar to guarantees, including obligations to protect counterparties from losses arising from the following: (a) tax, legal and other risks related to the purchase or disposition of businesses; (b) penalties and interest assessed by Federal and state taxing authorities in connection with tax returns prepared for clients; (c) litigation involving our directors and officers; and (d) third-party claims relating to various arrangements in the normal course of business. Typically, there is no stated maximum payment related to

Table of Contents

these indemnifications, and the term of indemnities may vary and in many cases is limited only by the applicable statute of limitations. The likelihood of any claims being asserted against us and the ultimate liability related to any such claims, if any, is difficult to predict. While we cannot provide assurance that such claims will not be successfully asserted, we believe the fair value of these guarantees and indemnifications is not material as of October 31, 2007.

8. Litigation and Related Contingencies**RAL Litigation**

We have been named as a defendant in numerous lawsuits throughout the country regarding our refund anticipation loan programs (collectively, RAL Cases). The RAL Cases have involved a variety of legal theories asserted by plaintiffs. These theories include allegations that, among other things, disclosures in the RAL applications were inadequate, misleading and untimely; the RAL interest rates were usurious and unconscionable; we did not disclose that we would receive part of the finance charges paid by the customer for such loans; untrue, misleading or deceptive statements in marketing RALs; breach of state laws on credit service organizations; breach of contract, unjust enrichment, unfair and deceptive acts or practices; violations of the federal Racketeer Influenced and Corrupt Organizations Act; violations of the federal Fair Debt Collection Practices Act and unfair competition regarding debt collection activities; and that we owe, and breached, a fiduciary duty to our customers in connection with the RAL program.

The amounts claimed in the RAL Cases have been very substantial in some instances. We have successfully defended against numerous RAL Cases, some of which were dismissed on our motions for dismissal or summary judgment, and others were dismissed voluntarily by the plaintiffs after denial of class certification. Other cases have been settled, with one settlement resulting in a pretax expense of \$43.5 million in fiscal year 2003 (the Texas RAL Settlement) and other settlements resulting in a combined pretax expense in fiscal year 2006 of \$70.2 million (the 2006 Settlements). We believe we have meritorious defenses to the remaining RAL Cases and we intend to defend them vigorously. There can be no assurances, however, as to the outcome of the pending RAL Cases individually or in the aggregate. Likewise, there can be no assurances regarding the impact of the RAL Cases on our financial statements. There were no significant developments regarding the RAL Cases during the fiscal quarter ended October 31, 2007.

Peace of Mind Litigation.

We are defendants in lawsuits regarding our Peace of Mind (POM) program (the POM Cases). The POM Cases are described below.

Lorie J. Marshall, et al. v. H&R Block Tax Services, Inc., et al., Civil Action 2003L000004, in the Circuit Court of Madison County, Illinois, is a class action case filed on January 18, 2002, that was granted class certification on August 27, 2003. Plaintiffs' claims consist of five counts relating to the POM program under which the applicable tax return preparation subsidiary assumes liability for additional tax assessments attributable to tax return preparation error. The plaintiffs allege that the sale of POM guarantees constitutes (i) statutory fraud by selling insurance without a license, (ii) an unfair trade practice, by omission and by cramming (i.e., charging customers for the guarantee even though they did not request it or want it), and (iii) a breach of fiduciary duty. In August 2003, the court certified the plaintiff classes consisting of all persons who from January 1, 1997 to final judgment (i) were charged a separate fee for POM by H&R Block or a defendant H&R Block class member; (ii) reside in certain class states and were charged a separate fee for POM by H&R Block or a defendant H&R Block class member not licensed to sell insurance; and (iii) had an unsolicited charge for POM posted to their bills by H&R Block or a defendant H&R Block class member. Persons who received the POM guarantee through an H&R Block Premium office and persons who reside in Alabama are excluded from the plaintiff class. The court also certified a defendant class consisting of any entity with names that include H&R Block or HRB, or are otherwise affiliated or associated with H&R Block Tax Services, Inc., and that sold or sells the POM product. The trial court subsequently denied the defendants' motion to certify class certification issues for interlocutory appeal. Discovery is proceeding. No trial date has been set.

There is one other putative class action pending against us in Texas that involves the POM guarantee. This case is being tried before the same judge that presided over the Texas RAL Settlement, involves the

Table of Contents

same plaintiffs attorneys that are involved in the Marshall litigation in Illinois, and contains similar allegations. No class has been certified in this case.

We believe the claims in the POM actions are without merit, and we intend to defend them vigorously. The amounts claimed in the POM actions are substantial, however, and there can be no assurances as to the outcome of these pending actions individually or in the aggregate. Likewise, there can be no assurances regarding the impact of these actions on our consolidated financial statements.

Electronic Filing Litigation

We are a defendant to a class action filed on August 30, 2002 and entitled *Erin M. McNulty and Brian J. Erzar v. H&R Block, Inc., et al.*, Case No. 02-CIV-4654 in the Court of Common Pleas of Lackawanna County, Pennsylvania, in which the plaintiffs allege that the defendants deceptively portray electronic filing fees as a necessary and required component of standard tax preparation services and do not inform tax preparation clients that they may (i) file tax returns free of charge by mailing the returns, (ii) electronically file tax returns from personal computers either free of charge or at significantly lower fees and (iii) be eligible to electronically file tax returns free of charge via telephone. The plaintiffs seek unspecified damages and disgorgement of all electronic filing, tax preparation and related fees collected during the applicable class period. Class certification was granted in this case on September 5, 2007. We believe the claims in this case are without merit, and we intend to defend them vigorously, but there can be no assurances as to its outcome.

Express IRA Litigation

On March 15, 2006, the New York Attorney General filed a lawsuit in the Supreme Court of the State of New York, County of New York (Index No. 06/401110) entitled *The People of New York v. H&R Block, Inc. and H&R Block Financial Advisors, Inc.* The complaint alleged fraudulent business practices, deceptive acts and practices, common law fraud and breach of fiduciary duty with respect to the Express IRA product and sought equitable relief, disgorgement of profits, damages and restitution, civil penalties and punitive damages. On July 12, 2007, the Supreme Court of the State of New York issued a ruling that dismissed all defendants other than H&R Block Financial Advisors, Inc. and the claims of common law fraud. We intend to defend this case vigorously, but there are no assurances as to its outcome.

In addition to the New York Attorney General action, a number of civil actions were filed against us concerning the Express IRA matter, the first of which was filed on March 17, 2006. Except for two cases pending in state court, all of the civil actions have been consolidated by the panel for Multi-District Litigation into a single action styled *In re H&R Block, Inc. Express IRA Marketing Litigation* in the United States District Court for the Western District of Missouri. We intend to defend these cases vigorously, but there are no assurances as to their outcome.

Securities Litigation

On April 6, 2007, a putative class action styled *In re H&R Block Securities Litigation* was filed against the Company and certain of its officers in the United States District Court for the Western District of Missouri. The complaint alleged, among other things, deceptive, material and misleading financial statements, failure to prepare financial statements in accordance with generally accepted accounting principles and concealment of the potential for lawsuits stemming from the allegedly fraudulent nature of the Company's operations. The complaint sought unspecified damages and equitable relief. On October 5, 2007, the court dismissed the complaint and granted the plaintiffs leave to re-file the portion of the complaint pertaining to the Company's financial statements. On November 19, 2007, the plaintiffs re-filed the complaint, alleging, among other things, deceptive, material and misleading financial statements and failure to prepare financial statements in accordance with generally accepted accounting principles. We intend to defend this litigation vigorously, but there are no assurances as to its outcome.

HRBFA Litigation

As reported previously, the NASD brought charges against HRBFA regarding the sale by HRBFA of Enron debentures in 2001. The hearing for this matter was concluded in August 2007, and post-hearing briefs were submitted

in October 2007. We intend to defend the NASD charges vigorously, although there can be no assurances regarding the outcome and resolution of the matter.

Table of Contents

RSM McGladrey Litigation

As part of an industry-wide review, the IRS is investigating tax-planning strategies that certain RSM McGladrey (RSM) clients utilized during fiscal years 2000 through 2003. Specifically, the IRS is examining these strategies to determine whether RSM complied with tax shelter reporting and listing regulations and whether such strategies were abusive as defined by the IRS. The IRS has indicated that it will assess a fine against RSM for RSM's alleged failure to comply with the tax shelter reporting and listing regulations. RSM is in discussions with the IRS regarding this penalty, which we believe will not have a material adverse effect on RSM's operations or on our consolidated financial statements. If the IRS were to determine that the tax planning strategies were inappropriate, clients that utilized the strategies could face penalties and interest for underpayment of taxes. Some of these clients are seeking or may attempt to seek recovery from RSM. There can be no assurance regarding the outcome and resolution of this matter. RSM EquiCo, Inc., a subsidiary of RSM, is a party to a putative class action filed on July 11, 2006 and entitled *Do Right's Plant Growers v. RSM EquiCo, Inc., RSM McGladrey, Inc., H&R Block, Inc. and Does 1-100, inclusive*, Case No. 06 CC00137, in the California Superior Court, Orange County. The complaint contains allegations regarding business valuation services provided by RSM EquiCo, Inc., including fraud, negligent misrepresentation, breach of contract, breach of implied covenant of good faith and fair dealing, breach of fiduciary duty and unfair competition and seeks unspecified damages, restitution and equitable relief. There can be no assurance regarding the outcome and resolution of this matter.

Other Litigation

We have from time to time been party to investigations, claims and lawsuits not discussed herein arising out of our business operations. These investigations, claims and lawsuits include actions by state attorneys general, other state regulators, individual plaintiffs, and cases in which plaintiffs seek to represent a class of others similarly situated. The amounts claimed in these claims and lawsuits are substantial in some instances, and the ultimate liability with respect to such litigation and claims is difficult to predict. Some of these investigations, claims and lawsuits pertain to RALs, the origination and servicing of mortgage loans, the electronic filing of customers' income tax returns, the POM guarantee program, and our Express IRA program and other investment products and RSM EquiCo, Inc. business valuation services. We believe we have meritorious defenses to each of these claims, and we are defending or intend to defend them vigorously, although there is no assurance as to their outcome. In the event of an unfavorable outcome, the amounts we may be required to pay in the discharge of liabilities or settlements could have a material adverse effect on our consolidated financial statements.

In addition to the aforementioned types of cases, we are parties to claims and lawsuits that we consider to be ordinary, routine litigation incidental to our business, including claims and lawsuits (Other Claims) concerning investment products, the preparation of customers' income tax returns, the fees charged customers for various products and services, losses incurred by customers with respect to their investment accounts, relationships with franchisees, denials of mortgage loans, contested mortgage foreclosures, other aspects of the mortgage business, intellectual property disputes, employment matters and contract disputes. We believe we have meritorious defenses to each of the Other Claims, and we are defending them vigorously. While we cannot provide assurance that we will ultimately prevail in each instance, we believe the amount, if any, we are required to pay in the discharge of liabilities or settlements in these Other Claims will not have a material adverse effect on our consolidated financial statements.

Table of Contents**9. Segment Information**

Information concerning our operations by reportable operating segment is as follows:

	Three Months Ended October 31,		Six Months Ended October 31,	
	2007	2006	2007	2006
	(in 000s)			
Revenues:				
Tax Services	\$ 90,804	\$ 81,984	\$ 160,667	\$ 147,642
Business Services	239,048	228,714	431,871	424,171
Consumer Financial Services	101,254	81,548	215,626	160,377
Corporate	3,718	3,837	7,869	6,663
	\$ 434,824	\$ 396,083	\$ 816,033	\$ 738,853
Pretax income (loss):				
Tax Services	\$ (199,149)	\$ (166,893)	\$ (371,438)	\$ (319,947)
Business Services	11,781	1,024	9,875	(5,943)
Consumer Financial Services	(9,081)	(2,318)	(2,875)	(5,387)
Corporate	(27,287)	(30,432)	(42,878)	(61,316)
Loss of continuing operations before tax benefit	\$ (223,736)	\$ (198,619)	\$ (407,316)	\$ (392,593)

As of October 31, 2007, the related financial results of OOMC, HRBMC and other smaller lines of business are presented as discontinued operations and the assets and liabilities of the businesses being sold are presented as held-for-sale in the condensed consolidated financial statements. All periods presented have been reclassified to reflect our discontinued operations. See note 11 for additional information.

10. New Accounting Pronouncements

In February 2007, Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115, (SFAS 159), was issued. This standard allows a company to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and financial liabilities on a contract-by-contract basis, with changes in fair value recognized in earnings. The provisions of this standard are effective as of the beginning of our fiscal year 2009. We are currently evaluating what effect the adoption of SFAS 159 will have on our consolidated financial statements.

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Instruments, (SFAS 157), was issued. The provisions of this standard include guidelines about the extent to which companies measure assets and liabilities at fair value, the effect of fair value measurements on earnings, and establishes a fair value hierarchy that prioritizes the information used in developing assumptions used when valuing an asset or liability. The standard also requires increased disclosure of these fair value estimates. The provisions of this standard are effective as of the beginning of our fiscal year 2009. We are currently evaluating what effect the adoption of SFAS 157 will have on our consolidated financial statements.

In September 2006, Emerging Issues Task Force Issue No. 06-4, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements (EITF 06-4) was issued. EITF 06-4 requires the recognition of a liability for an agreement with an employee to provide future postretirement benefits, as this obligation is not effectively settled upon entering into an insurance arrangement. The provisions of this standard are effective as of the beginning of our fiscal year 2009. We are currently evaluating what effect the adoption of EITF 06-4 will have on our consolidated financial statements.

In March 2006, Statement of Financial Accounting Standards No. 156, Accounting for Servicing of Financial Assets An Amendment of FASB Statement No. 140, (SFAS 156), was issued. The provisions of this standard require mortgage servicing rights to be initially valued at fair value. SFAS 156 allows servicers to choose to subsequently measure their servicing rights at fair value or to continue using the amortization method under SFAS 140. We adopted SFAS 156 on May 1, 2007. Upon adoption we

Table of Contents

identified mortgage servicing rights (MSRs) relating to all existing residential mortgage loans as a class of servicing rights and elected to continue to use the amortization method for these MSRs. Presently, this class represents all of our MSRs. See note 11 for additional information on our MSRs. The adoption of SFAS 156 did not have a material impact on our condensed consolidated financial statements.

In February 2006, Statement of Financial Accounting Standards No. 155, Accounting for Certain Hybrid Instruments An Amendment of FASB Statements No. 133 and 140 (SFAS 155), was issued. The provisions of this standard establish a requirement to evaluate all newly acquired interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation. The standard permits a hybrid financial instrument required to be bifurcated to be accounted for in its entirety if the holder irrevocably elects to measure the hybrid financial instrument at fair value, with changes in fair value recognized currently in earnings. We adopted SFAS 155 on May 1, 2007. Our residual interests typically have interests in derivative instruments embedded within the securitization trusts, which were previously excluded from evaluation. Concurrent with the adoption of SFAS 155, we elected to account for all newly-acquired residual interests on a fair value basis as trading securities, with changes in fair value recorded in earnings in the period in which the change occurs. Prior to adoption, we accounted for our residual interests as available-for-sale (AFS) securities with unrealized gains recorded in other comprehensive income. For residual interests recorded prior to the adoption of SFAS 155, we continue to record unrealized gains as a component of other comprehensive income. The adoption of SFAS 155 did not have a material impact on our condensed consolidated financial statements.

As discussed in note 5, we adopted the provisions of FIN 48 effective May 1, 2007.

11. Discontinued Operations

On April 19, 2007, we entered into an agreement to sell OOMC to Cerberus. In conjunction with this plan, we also announced we would terminate the operations of HRBMC, a wholly-owned subsidiary of OOMC. On December 4, 2007, we agreed to terminate the agreement in light of the changing business environment for OOMC, as mutually acceptable alternatives for restructuring the original agreement could not be reached. We also announced that we would immediately terminate all remaining origination activities and pursue the sale of OOMC's loan servicing activities. See additional discussion of recent developments in note 1.

During fiscal year 2007, we also committed to a plan to sell two smaller lines of business and completed the wind-down of one other line of business, all of which were previously reported in our Business Services segment. One of these businesses was sold during the six months ended October 31, 2007. Additionally, during fiscal year 2007, we completed the wind-down of our tax operations in the United Kingdom, which were previously reported in Tax Services. As of October 31, 2007, these businesses are presented as discontinued operations and the assets and liabilities of the businesses being sold are presented as held-for-sale in the condensed consolidated financial statements. All periods presented have been reclassified to reflect our discontinued operations.

Financial Statement Presentation

We recorded impairments relating to the disposition of our mortgage business during the six months ended October 31, 2007 of \$144.7 million. We also recorded impairments relating to other discontinued businesses of \$1.5 million during the six months ended October 31, 2007. Additionally, during fiscal year 2007 we recorded impairments relating to the disposition of our mortgage businesses of \$345.8 million. At October 31, 2007, we had fully impaired the carrying value of goodwill and long-lived assets of our mortgage businesses. Cumulative impairments in excess of amounts related to the write-off of goodwill are reflected below as a valuation allowance as of October 31, 2007 relating to remaining assets held-for-sale. A similar amount, which totaled \$193.4 million, is included in the table below in other liabilities at April 30, 2007, as it represented an obligation under the April 2007 agreement with Cerberus.

Overhead costs previously allocated to discontinued businesses, which totaled \$1.4 million and \$2.7 million for the three and six months ended October 31, 2007, respectively, and \$3.4 million and \$6.4 million for the three and six months ended October 31, 2006, respectively, are now included in continuing operations.

Table of Contents

As provided by in EITF No. 87-24, Allocation of Interest to Discontinued Operations, we have allocated interest expense to our discontinued operations based on borrowings that are specifically attributable to these operations at a rate of LIBOR plus 250 basis points. Interest expense of \$24.3 million and \$42.8 million was allocated to discontinued operations for the three and six months ended October 31, 2007, respectively. Interest expense of \$5.0 million and \$8.7 million was allocated to discontinued operations for the three and six months ended October 31, 2006, respectively. The increase over the prior year is due to the significant operating losses, increased servicing advances and other working capital needs of our mortgage operations during the last nine months.

The major classes of assets and liabilities reported as held-for-sale are as follows:

	(in 000s)	
	October 31, 2007	April 30, 2007
Cash and cash equivalents	\$ 27,075	\$ 65,019
Cash and cash equivalents restricted	3,342	43,754
Residual interests in securitizations trading	1,367	72,691
Mortgage loans held for sale	70,214	101,567
Mortgage loans repurchase option	927,364	121,243
Servicing and related assets	821,387	445,354
Beneficial interest in Trusts	-	41,057
Residual interests in securitizations AFS	36,791	90,283
Mortgage servicing rights	199,596	253,067
Deferred tax assets, net	427,132	299,559
Prepaid expenses and other assets	59,845	213,365
Valuation allowance	(338,092)	-
 Assets held for sale	 \$ 2,236,021	 \$ 1,746,959
 Accounts payable, accrued expenses and deposits	 \$ 119,243	 \$ 248,983
Servicing advance facility	286,646	-
Mortgage loan repurchase liability	927,364	121,243
Other liabilities	29,954	245,147
 Liabilities directly associated with assets held for sale	 \$ 1,363,207	 \$ 615,373

The financial results of discontinued operations are as follows:

	(in 000s)			
	Three Months Ended October 31,		Six Months Ended October 31,	
	2007	2006	2007	2006

Revenue:

Gains (losses) on sales of mortgage assets, net	\$ (314,006)	\$ 37,908	\$ (556,021)	\$ 102,514

Table of Contents**Mortgage Loans**

We have entered into servicing agreements for loans we have securitized which include a removal of accounts provision that gives us the right, but not the obligation, to repurchase mortgage loans from the securitization trust. Rights under this provision can generally be exercised for loans that are 90 to 119 days delinquent. At the time this right becomes exercisable by us, Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities (SFAS 140) requires that we record both the mortgage loans on our balance sheet and an offsetting mortgage loan repurchase liability. Mortgage loans, and the corresponding liability, recorded pursuant to this accounting requirement totaled \$927.4 million at October 31, 2007 and \$121.2 million at April 30, 2007. We do not intend to exercise our right under these provisions and, therefore, these do not represent mortgage loans that we are required to sell or repurchase obligations we are required to fulfill. The gross principal amount of mortgage loans actually held for sale at October 31, 2007, totaled \$134.8 million. We have recorded valuation adjustments relating to these loans totaling \$64.6 million, resulting in net loans held for sale of \$70.2 million.

Mortgage Banking Activities

We originate mortgage loans and sell most non-prime loans the same day the loans are funded to qualifying special purpose entities (QSPEs or Trusts). The Trusts are not consolidated. The sale is recorded in accordance with SFAS 140. The Trusts purchase the loans from us using warehouse facilities. The total principal amount of mortgage loans held by the Trusts as of October 31, 2007 and April 30, 2007 was \$57.4 million and \$1.5 billion, respectively. The beneficial interest in Trusts was written down to zero October 31, 2007 compared to a balance of \$41.1 million at April 30, 2007.

Activity related to trading residual interests in securitizations consists of the following:

	(in 000s)	
Six Months Ended October 31,	2007	2006
Balance, beginning of period	\$ 72,691	\$ -
Additions (resulting from securitization of mortgage loans)	39,417	119,669
Cash received	-	(8,103)
Accretion	-	1,766
Change in fair value	2,367	(161)
	114,475	113,171
Residuals securitized in NIM transactions	(114,475)	(56,814)
Additions (resulting from NIM transactions)	41,705	-
Accretion	4,685	-
Change in fair value	(45,023)	-
Balance, end of period	\$ 1,367	\$ 56,357

We adopted SFAS 155 on May 1, 2007 and concurrently elected to account for all newly-acquired residual interests on a fair value basis, with changes in fair value recorded in earnings in the period in which the change occurs. Residual interests existing prior to the adoption of SFAS 155 will continue to be accounted for with unrealized gains

recorded in other comprehensive income.

Activity related to AFS residual interests in securitizations consists of the following:

	(in 000s)	
Six Months Ended October 31,	2007	2006
Balance, beginning of period	\$ 90,283	\$ 159,058
Additions (resulting from NIM transactions)	-	4,234
Cash received	(950)	(6,422)
Accretion	11,992	24,621
Impairments of fair value	(66,273)	(29,502)
Other	(460)	(1,672)
Change in unrealized holding gains or losses arising during the period	2,199	(1,351)
Balance, end of period	\$ 36,791	\$ 148,966

Table of Contents

We did not securitize any mortgage loans during the second quarter of fiscal year 2008. Cash flows from AFS residual interests of \$1.0 million and \$6.4 million were received from the securitization trusts for the six months ended October 31, 2007 and 2006, respectively, and are included in investing activities of discontinued operations in the condensed consolidated statements of cash flows.

The following transactions were treated as non-cash investing activities in the condensed consolidated statement of cash flows:

	(in 000s)	
Six Months Ended October 31,	2007	2006
Residual interest mark-to-market	\$ 2,602	\$ 8,157
Additions to residual interests	-	4,234
Transfer of loans from held for investment to held for sale	191,658	-

For residual interests recorded prior to the adoption of SFAS 155, aggregate unrealized gains on AFS residual interests not yet recognized in income totaled \$3.5 million at October 31, 2007, compared to \$1.3 million at April 30, 2007. These unrealized gains are recorded net of deferred taxes in other comprehensive income, and recognized in income either through accretion or upon further securitization or sale of the related residual interest. See additional discussion of our adoption of SFAS 155 in note 10.

Activity related to MSRs, which are initially measured at fair value and subsequently amortized and assessed for impairment, consists of the following:

	(in 000s)	
Six Months Ended October 31,	2007	2006
Balance, beginning of period	\$ 253,067	\$ 272,472
Additions	28,954	92,914
Amortization	(82,251)	(95,707)
Impairment of fair value	(174)	-
Balance, end of period	\$ 199,596	\$ 269,679

Estimated amortization of MSRs for fiscal years 2008 through 2012 is \$61.0 million, \$74.5 million, \$35.0 million, \$14.7 million and \$5.9 million, respectively. The fair value of MSRs at October 31, 2007 and April 30, 2007 was \$344.7 million and \$397.5 million, respectively.

In conjunction with our adoption of SFAS 156, we identified all of our residential mortgage loans as a class of servicing rights and elected to continue the amortization method. See additional discussion of our adoption of SFAS 156 in note 10. Servicing fees earned during the six months ended October 31, 2007 and 2006 totaled \$194.5 million and \$209.6 million, respectively, and are included in discontinued operations on our condensed consolidated income statements.

Edgar Filing: H&R BLOCK INC - Form 10-Q

As part of our loan servicing responsibilities, we are required to advance funds to cover delinquent scheduled principal and interest payments to security holders, as well as to cover delinquent tax and insurance payments and other costs required to protect the investors' interest in the collateral securing the loans. Generally, servicing advances are recoverable from either the mortgagor, the insurer of the loan or the investor through the non-recourse provision of the loan servicing contract. During the three months ended October 31, 2007 we entered into a facility to fund servicing advances. See additional discussion under Warehouse Facilities.

The key weighted average assumptions we used to estimate the cash flows and values of the residual interests initially recorded during the six months ended October 31, 2007 and 2006 are as follows:

Six Months Ended October 31,	2007	2006
Estimated credit losses	6.36%	3.33%
Discount rate	28.00%	18.24%
Variable returns to third-party beneficial interest holders	LIBOR forward curve at closing date	

Table of Contents

The key weighted average assumptions we used to estimate the cash flows and values of the residual interests and MSR's at October 31, 2007 and April 30, 2007 are as follows:

	October 31, 2007	April 30, 2007
Estimated credit losses residual interests	12.79%	5.04%
Discount rate residual interests	30.00%	24.82%
Discount rate MSR's	20.00%	20.00%
Variable returns to third-party beneficial interest holders	LIBOR forward curve at valuation date	

Estimated credit losses in the table above includes residual interests from all fiscal years with outstanding underlying loan balances using unpaid principal balances as part of the weighted average calculation. See credit losses table below for detailed information by fiscal year.

We originate both adjustable- and fixed-rate mortgage loans. A key assumption used to estimate the cash flows and values of the residual interests and MSR's is average annualized prepayment speeds. Prepayment speeds include voluntary prepayments, involuntary prepayments and scheduled principal payments. Prepayment rate assumptions used during the current fiscal quarter are as follows:

	Prior to Initial Rate Reset Date	Months Outstanding After Initial Rate Reset Date	
		Zero - 3	Remaining Life
Adjustable rate mortgage loans:			
With prepayment penalties	18%	38%	23%
Without prepayment penalties	18%	38%	23%
Fixed rate mortgage loans:			
With prepayment penalties	19%	22%	22%

For fixed-rate mortgages without prepayment penalties, we use an average prepayment rate of 22% over the life of the loans. Prepayment rate is projected based on actual paydown including voluntary, involuntary and scheduled principal payments.

Expected static pool credit losses are as follows:

Mortgage Loans Securitized in Fiscal Year							
Prior to 2002	2003	2004	2005	2006	2007	2008	

As of:							
October 31, 2007	-%	-%	-%	-%	-%	12.51%	13.59%
April 30, 2007	5.11%	2.57%	3.45%	5.48%	6.79%	6.41%	-
April 30, 2006	4.22%	2.13%	2.18%	2.48%	3.05%	-	-
April 30, 2005	4.01%	2.08%	2.30%	2.83%	-	-	-

Static pool credit losses are calculated by summing the actual and projected future credit losses and dividing them by the original balance of each pool of assets.

At October 31, 2007, the sensitivities of the current fair value of the residual interests and MSR's to 10% and 20% adverse changes in the above key assumptions are as presented in the following table. These sensitivities are hypothetical and should be used with caution. As the figures indicate, changes in fair value based on a 10% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also in this table, the effect of a variation of a particular assumption on the fair value of the retained interest is calculated without

Table of Contents

changing any other assumptions; in reality, changes in one factor may result in changes in another, which might magnify or counteract the sensitivities.

	(dollars in 000s)	
	Residual Interests Securitizations	MSRs
Carrying amount/fair value	\$ 38,158	\$ 199,596
Weighted average remaining life (in years)	8.7	1.5
Dollar impact on fair value:		
Prepayments (including defaults):		
Adverse 10%	\$ (2,698)	\$ (11,878)
Adverse 20%	(4,147)	(22,906)
Credit losses:		
Adverse 10%	\$ (12,475)	Not applicable
Adverse 20%	(16,158)	Not applicable
Discount rate:		
Adverse 10%	\$ (4,310)	\$ (8,334)
Adverse 20%	(7,787)	(16,038)
Variable interest rates:		
Adverse 10%	\$ 1,398	Not applicable
Adverse 20%	1,224	Not applicable

Increases in prepayment rates can generate a positive impact to fair value when reductions in estimated credit losses and increases in prepayment penalties exceed the adverse impact to accretion from accelerating the life of the residual interest. Given the current market volatility, the change in credit losses or discount rate could exceed the ranges in the table above and result in little or no value to the residuals interests.

Mortgage loans that have been securitized and mortgage loans held for sale at October 31, 2007 and April 30, 2007, past due sixty days or more and the related credit losses incurred are presented below:

	(in 000s)					
	Total Principal Amount of Loans Outstanding		Principal Amount of Loans 60 Days or More Past Due		Credit Losses (net of recoveries) Three Months Ended	
	October 31, 2007	April 30, 2007	October 31, 2007	April 30, 2007	October 31, 2007	April 30, 2007
Securitized mortgage loans	\$ 19,561,391	\$ 18,434,940	\$ 2,951,195	\$ 1,383,832	\$ 63,535	\$ 41,235
Mortgage loans in warehouse	57,378	1,456,078	-	-	-	-

Edgar Filing: H&R BLOCK INC - Form 10-Q

Total loans	\$ 20,680,911	\$ 20,186,226	\$ 3,939,470	\$ 1,586,773	\$ 100,390	\$ 146,207	

Table of Contents

Derivative Instruments

A summary of our derivative instruments as of October 31, 2007 and April 30, 2007, and gains or losses incurred during the three and six months ended October 31, 2007 and 2006 is as follows:

	(in 000s)					
	Asset (Liability) Balance at		Gain (Loss) For the Three Months Ended		Gain (Loss) For the Six Months Ended	
	October 31, 2007	April 30, 2007	October 31, 2007	2006	October 31, 2007	2006
Rate-lock equivalents	\$ (516)	\$ (987)	\$ 7,973	\$ (3,716)	\$ 472	\$ 4,030
Interest rate swaps	57	10,774	(2,669)	(33,447)	(21)	(20,267)
Put options on Eurodollar futures	-	1,212	-	(2,019)	942	(2,058)
Prime short sales	-	75	(546)	1,556	(448)	995
Forward loan sale commitments	-	-	(26,072)	9,576	-	2,493
	\$ (459)	\$ 11,074	\$ (21,314)	\$ (28,050)	\$ 945	\$ (14,807)

We discontinued our hedging activities during our second quarter, and therefore derivative instruments to which we were a party at October 31, 2007 were limited to loan applications deemed to be rate-lock equivalents. None of our derivative instruments were designated for hedge accounting treatment as of October 31, 2007 or April 30, 2007.

Commitments and Contingencies

We have commitments to fund mortgage loans to customers as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses. Commitments to fund mortgage loans totaled \$69.4 million at October 31, 2007 and \$2.4 billion at April 30, 2007. External market forces impact the probability of commitments being exercised, and therefore, total commitments outstanding do not necessarily represent future cash requirements. As of December 4, 2007, OOMC and HRBMC stopped accepting mortgage loan applications. Of the loan applications in our pipeline at October 31, 2007, we estimate only \$20 million to \$30 million will ultimately fund.

In the normal course of business, we maintain recourse with standard representations and warranties. Violations of these representations and warranties or early payment defaults by borrowers may require us to repurchase loans previously sold. Repurchased loans are normally sold in subsequent sale transactions. The following table summarizes our loan repurchase activity:

(dollars in 000s)

	Three Months Ended		Six Months Ended		Fiscal Year
	October 31,		October 31,		Ended
	2007	2006	2007	2006	April 30,
					2007
Loans repurchased from third parties	\$ 92,982	\$ 316,453	\$ 189,784	\$ 408,791	\$ 978,756
Repurchase reserves added during the period	\$ 172,670	\$ 47,225	\$ 329,966	\$ 139,962	\$ 388,733
Repurchase reserves added as a percent of originations	23.96%	0.68%	8.24%	0.93%	1.44%

A liability has been established related to the potential loss on repurchase of loans previously sold of \$85.9 million and \$38.4 million at October 31, 2007 and April 30, 2007, respectively. This reserve relates to potential losses that could be incurred as a result of early payment defaults or breaches of representations and warranties customary to the mortgage banking industry. On an ongoing basis, we monitor the adequacy of our repurchase liability, which is established upon the initial sale of the loans, and is included in liabilities held-for-sale in the condensed consolidated balance sheets. During the six months ended October 31, 2007, we increased our reserve for losses on representations and warranties repurchases as a result of rising repurchase trends. The portion of our reserve balance related to losses on representation and warrant repurchases totaled \$47.3 million and \$5.6 million at October 31, 2007 and April 30, 2007, respectively. We also continued to experience high levels of early payment defaults, resulting in significant

Table of Contents

actual and expected loan repurchase activity. In establishing our reserve for early payment defaults, we've assumed all loans that are currently delinquent and subject to contractual repurchase terms will be repurchased, and that approximately 6% of loans previously sold but not yet subject to contractual repurchase terms will be repurchased. Based on historical experience, we assumed an average 42% loss severity at October 31, 2007, compared to 38% at July 31, 2007 and 26% at April 30, 2007, on all loans repurchased and expected to be repurchased. At October 31, 2007, our repurchase reserve of \$85.9 million covered estimated future losses on the repurchase of loans with an outstanding principal balance of \$197.0 million.

OOMC has guaranteed up to a maximum amount equal to approximately 10% of the aggregate principal balance of mortgage loans held by the Trusts before ultimate disposition of the loans by the Trusts. This obligation can be called upon in the event adequate proceeds are not available from the sale of the mortgage loans to satisfy the current or ultimate payment obligations of the Trusts. We have not funded any amounts under this guarantee, however we have provided additional margin as the fair value of the loans has declined and subsequently written the beneficial interest in Trusts down to fair value. The total principal amount of Trust obligations outstanding as of October 31, 2007, April 30, 2007 and October 31, 2006 was \$57.4 million, \$1.5 billion and \$4.7 billion, respectively. The fair value of mortgage loans held by the Trusts as of October 31, 2007, April 30, 2007 and October 31, 2006 was \$42.8 million, \$1.5 billion and \$4.8 billion, respectively. At October 31, 2007 and April 30, 2007 we recorded liabilities of \$52,000 and \$30,000, respectively, for the estimated fair value of this guarantee obligation, which are included in liabilities held-for-sale in the condensed consolidated balance sheets. Under the warehouse agreements, we may be required to provide funds in the event of declining loan values, but only to the extent of the 10% guaranteed amount. Funds provided as a result of declining loan values at October 31, 2007 and 2006 totaled \$26.3 million and \$16.2 million, respectively. Of the amount provided as of October 31, 2007, \$11.3 million relates to our off-balance sheet warehouse facilities while the remaining \$15.0 million relates to our on-balance sheet facility.

Warehouse Facilities

Substantially all non-prime mortgage loans we originate are sold daily to the Trusts. The Trusts purchase the loans from us using committed off-balance sheet warehouse facilities, arranged by us, totaling \$1.5 billion in the aggregate. We also had an on-balance sheet facility with capacity of \$75.0 million, as discussed below. These facilities are subject to various OOMC performance triggers, limits and financial covenants, including tangible net worth, income and leverage ratios and may be subject to margin calls. We hold an interest in the Trusts equal to the difference between the fair value of the assets and cash proceeds, adjusted for contractual advance rates, received from the Trusts. This interest was valued at zero as of October 31, 2007. In addition to the margin call feature, loans sold to the Trust are subject to repurchase if certain criteria are not met, including loan default provisions. Unfavorable fluctuations in loan value are guaranteed up to 10% of the original principal.

Several warehouse lines were terminated during the second quarter of fiscal year 2008. As a result, OOMC had two committed warehouse facilities available as of October 31, 2007, representing aggregate borrowing capacity of \$1.5 billion. In November 2007 one facility was canceled, reducing our aggregate borrowing capacity to \$750.0 million. The remaining warehouse facility expires June 12, 2008, and will be sufficient to meet our loan origination funding needs through the expected termination date of our remaining origination activities.

OOMC is party to an on-balance sheet facility that may be used to fund delinquent and repurchased loans. During fiscal year 2008, this facility was amended to reduce the total capacity to \$75.0 million and extend the maturity to November 15, 2007. Loans totaling \$33.2 million were held on this facility at October 31, 2007, with the related loans and liability reported in assets and liabilities held-for-sale. OOMC was not in compliance with certain restrictive covenants relative to this facility and obtained waivers through November 15, 2007. This facility matured on November 15, 2007, and the outstanding balance was repaid.

On October 1, 2007, OOMC entered into a facility to fund servicing advances (the Servicing Advance Facility), in which the servicing advances are collateral for the facility. The Servicing Advance Facility provides funding of up to \$400.0 million to fund servicing advances through October 1, 2008, subject to

Table of Contents

various triggers, events or occurrences that could result in earlier termination, and bears interest at one-month LIBOR plus an additional margin rate. The Servicing Advance Facility is subject to a cross-default feature in which a default under OOMC's warehouse financing arrangement with the lender to fund non-prime originations would trigger a default under the Servicing Advance Facility. In addition, the Servicing Advance Facility terminates upon a change in control of OOMC, in which (i) a party or parties acting in concert acquire a 20% or more equity interest in OOMC or (ii) the Company does not own more than a 50% equity interest in OOMC. This on-balance sheet facility had a balance of \$286.6 million at October 31, 2007, with the related liability reported in liabilities held-for-sale. On November 16, 2007, this agreement was amended to increase the amount of funding available from \$400.0 million to \$750.0 million. We expect the volume of servicing advances to increase and, as a result, may need to increase the funding capacity of this facility or obtain other servicing advance financing.

Restructuring Charge

During fiscal year 2006, we initiated a restructuring plan to reduce costs within our mortgage operations. Restructuring activities continued through fiscal year 2008. On December 4, 2007, we announced the closure of our mortgage origination activities and expect to incur \$74.8 million in restructuring charges related to the closure. We incurred \$34.9 million of these costs in our second quarter, with the remainder to be incurred primarily in our third quarter of fiscal year 2008. Charges incurred during the six months ended October 31, 2007 totaled \$77.1 million, which included \$33.9 million in fixed asset write-offs, with the remainder included in other adjustments in the table below. These charges are included in the net loss from discontinued operations on our condensed consolidated income statements. Changes in our restructuring charge liability during the six months ended October 31, 2007 are as follows:

	(in 000s)				
	Accrual Balance as of April 30, 2007	Cash Payments	Other Adjustments	Accrual Balance as of October 31, 2007	
Employee severance costs	\$ 3,688	\$ (25,189)	\$ 30,335	\$ 8,834	
Contract termination costs	10,919	(3,526)	11,862	19,255	
	\$ 14,607	\$ (28,715)	\$ 42,197	\$ 28,089	

The remaining liability related to this restructuring charge is included in liabilities held-for-sale on our condensed consolidated balance sheet and relates to lease obligations for vacant space resulting from branch office closings and employee severance costs.

Table of Contents**12. Condensed Consolidating Financial Statements**

BFC is an indirect, wholly owned consolidated subsidiary of the Company. BFC is the Issuer and the Company is the Guarantor of the \$500.0 million credit facility entered into in April 2007, the Senior Notes issued on October 26, 2004, the CLOCs and other indebtedness issued from time to time. These condensed consolidating financial statements have been prepared using the equity method of accounting. Earnings of subsidiaries are, therefore, reflected in the Company's investment in subsidiaries account. The elimination entries eliminate investments in subsidiaries, related stockholders' equity and other intercompany balances and transactions.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

H&R Block is a diversified company delivering tax services and financial advice, investment, and banking services, and business and consulting services. For more than 50 years, we have been developing relationships with millions of tax clients and our strategy is to expand on these relationships. Our Tax Services segment provides income tax return preparation services, electronic filing services and other services and products related to income tax return preparation to the general public primarily in the United States, Canada and Australia. RSM McGladrey Business Services, Inc. (RSM) is a national accounting, tax and business consulting firm primarily serving mid-sized businesses. Our Consumer Financial Services segment offers investment services through H&R Block Financial Advisors, Inc. (HRBFA) and full-service banking through H&R Block Bank (HRB Bank).

Discontinued Operations – Recent Developments. On April 19, 2007, we entered into an agreement to sell Option One Mortgage Corporation (OOMC) to Cerberus Capital Management (Cerberus). In conjunction with this plan, we also announced we would terminate the operations of H&R Block Mortgage Corporation (HRBMC), a wholly-owned subsidiary of OOMC.

On December 4, 2007, we agreed to terminate the agreement with Cerberus in light of the changing business environment for OOMC, as mutually acceptable alternatives for restructuring the original agreement could not be reached. We also announced that we would immediately terminate all remaining origination activities and pursue the sale of OOMC's loan servicing activities. OOMC had existing loan applications in its pipeline of \$69.4 million in gross loan principal amount at October 31, 2007. We believe that only approximately \$20 million to \$30 million of these loans will ultimately be funded, at which time our mortgage origination activities will cease. We believe a majority of these loans will be eligible for sale to Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac).

Termination of the mortgage lending activities of OOMC is expected to result in a pretax restructuring charge of \$74.8 million. The restructuring charge covers expected severance and lease termination costs, write-off of property, plant and equipment and related shutdown costs. Of the total restructuring charge, \$34.9 million was incurred in our second quarter ending October 31, 2007, with the remainder to be incurred primarily in our third quarter ending January 31, 2008. This charge, combined with the restructuring activities previously announced, brings our total restructuring charges for the three and six months ended October 31, 2007 to \$61.0 million and \$77.1 million, respectively.

Following the termination of its loan origination activities, OOMC will continue to carry out its servicing activities and collect servicing revenues as it does today. Because of the cessation of new originations, the volume of mortgage loans serviced will gradually decline as the aggregate principal amount of existing loans being serviced declines without replacement. The majority of servicing activities are carried out with respect to loans owned by third parties. We have estimated the fair values of the servicing business and other assets, which resulted in an additional asset impairment for the second quarter ending October 31, 2007 of \$123.0 million, bringing our total impairment recorded in discontinued operations to \$146.2 million for the six months ended October 31, 2007.

During fiscal year 2007, we also committed to a plan to sell two smaller lines of business and completed the wind-down of one other line of business, all of which were previously reported in our Business Services segment. One of these businesses was sold during the six months ended October 31, 2007. Additionally, during fiscal year 2007, we completed the wind-down of our tax operations in the United Kingdom, which were previously reported in Tax Services. As of October 31, 2007, these businesses are presented as discontinued operations and the assets and liabilities of the businesses being sold are presented as held-for-sale in the condensed consolidated financial statements. All periods presented have been reclassified to reflect our discontinued operations.

See discussion of operating results under **Discontinued Operations**.

Table of Contents**TAX SERVICES**

This segment primarily consists of our income tax preparation businesses – retail, online and software. Additionally, this segment includes commercial tax businesses, which provide tax preparation software and educational materials to CPAs and other tax preparers.

Three months ended October 31, 2007 compared to October 31, 2006

Tax Services revenues increased \$8.8 million, or 10.8%, for the three months ended October 31, 2007 compared to the prior year.

Tax preparation fees increased \$5.2 million, or 11.8%, primarily due to improved performance in our Australian operations. This improvement was due to an increase in clients served and favorable changes in foreign currency exchange rates.

Other revenues increased \$2.8 million, primarily due to revenues resulting from commercial tax acquisitions.

Total expenses increased \$41.1 million, or 16.5%, for the three months ended October 31, 2007. Cost of services increased \$15.5 million, or 8.6%, from the prior year, primarily due to higher occupancy expenses. Occupancy expenses increased \$10.0 million, or 14.3%, primarily as a result of higher rent and utilities expenses due to a 3.6% increase in company-owned offices under lease and a 5.0% increase in the average rent. Other cost of services increased \$4.2 million, or 9.9%, due to additional supplies expense, related primarily to tax training schools. Cost of other revenues, selling, general and administrative expenses increased \$25.6 million, or 37.5%. This increase was primarily due to \$12.5 million of incremental bad debt expense related to our refund anticipation loan (RAL) program, which resulted from a larger number of refund claims denied by the Internal Revenue Service (IRS). The IRS made changes to its taxpayer fraud detection system and penalty collection practices for the 2007 tax season, both of which contributed to the increased expense. Corporate wages and amortization of intangible assets increased \$4.4 million and \$1.3 million, respectively, over the prior year due primarily to acquisitions. The pretax loss for the three months ended October 31, 2007 was \$199.1 million, compared to a loss of \$166.9 million in the prior year.

Six months ended October 31, 2007 compared to October 31, 2006

Tax Services revenues increased \$13.0 million, or 8.8%, for the six months ended October 31, 2007 compared to the prior year.

Tax preparation fees increased \$4.8 million, or 6.9%, primarily due to improved performance in our Australian operations. Other service revenues increased \$2.7 million, or 4.1%, primarily due to customer

Table of Contents

fees earned in connection with an agreement with HRB Bank for the H&R Block Emerald Prepaid MasterCard® program, under which, this segment shares in the revenues and expenses associated with the program. This increase was partially offset by a decline in revenues from our Peace of Mind (POM) guarantee, resulting from lower claims in the current year.

Other revenues increased \$5.1 million, primarily due to revenues resulting from commercial tax acquisitions. Total expenses increased \$64.5 million, or 13.8%, for the six months ended October 31, 2007. Cost of services increased \$29.4 million, or 8.4%, from the prior year, primarily due to higher occupancy expenses. Occupancy expenses increased \$17.4 million, or 12.6%, primarily as a result of higher rent and utilities expenses due to a 4.2% increase in company-owned offices under lease and a 4.0% increase in the average rent. Other cost of services increased \$11.2 million, or 12.4%, due primarily to \$5.2 million in additional corporate shared services, primarily related to information technology projects related to the upcoming tax season. In addition, we incurred \$4.6 million of additional supplies expense, related primarily to tax training schools.

Cost of other revenues, selling, general and administrative expenses increased \$35.2 million, or 30.3%. This increase was primarily due to \$12.5 million of incremental bad debt expense related to our RAL program, which resulted from a larger number of refund claims denied by the IRS. The IRS made changes to its taxpayer fraud detection system and penalty collection practices for the 2007 tax season, both of which contributed to the increased expense. Corporate wages and amortization of intangible assets increased \$10.2 million and \$3.0 million, respectively, over the prior year due primarily to acquisitions.

The pretax loss for the six months ended October 31, 2007 was \$371.4 million, compared to a loss of \$319.9 million in the prior year.

BUSINESS SERVICES

This segment offers middle-market companies accounting, tax and consulting services.

Table of Contents

Three months ended October 31, 2007 compared to October 31, 2006

Business Services revenues for the three months ended October 31, 2007 increased \$10.3 million, or 4.5%, over the prior year. Accounting, tax and consulting service revenues totaled \$203.6 million, up \$10.2 million, or 5.3%, from the prior year primarily due to a 4.2% increase in chargeable hours per person.

Total expenses were essentially flat for the three months ended October 31, 2007 compared to the prior year. Cost of services increased \$4.2 million, due primarily to an increase in compensation and benefits, which resulted from increases in both the number of employees and the average wage.

Cost of other revenues, selling, general and administrative expenses decreased \$4.5 million, or 9.1%, primarily due to decreases of \$3.4 million and \$2.4 million in external consulting and legal fees, respectively, partially offset by increased costs associated with our business development and marketing initiatives and corporate shared services.

Pretax income for the three months ended October 31, 2007 was \$11.8 million compared to income of \$1.0 million in the prior year.

Six months ended October 31, 2007 compared to October 31, 2006

Business Services revenues for the six months ended October 31, 2007 increased \$7.7 million, or 1.8%, over the prior year. Accounting, tax and consulting service revenues totaled \$366.4 million, up \$8.3 million, or 2.3%, from the prior year primarily due to a 2.0% increase in chargeable hours per person.

Other service revenues decreased from the prior year due to a decline in the number of business valuation projects, as this business phases out valuation services and focuses solely on capital market transactions.

Other revenues increased \$3.9 million, or 18.3%, due to increased sales of computer hardware and software products and additional fees received from our accounting network.

Total expenses decreased \$8.1 million, or 1.9%, for the six months ended October 31, 2007 compared to the prior year. Cost of services was essentially flat compared to the prior year, as a decrease in compensation and benefits was offset by increases in occupancy and other expenses. The decrease in compensation and benefits was primarily due to a change in organizational structure between the businesses we acquired from American Express Tax and Business Services, Inc. (AmexTBS) and the attest firms that, while not affiliates of our company, also serve our clients. As a result, we no longer record the revenues and expenses associated with leasing employees in these offices to the attest firms.

Cost of other revenues, selling, general and administrative expenses decreased \$7.5 million, or 7.7%, primarily due to decreases of \$7.1 million and \$4.8 million in external consulting and legal fees, respectively. Additional consulting fees were incurred in the prior year related to our marketing initiatives, and additional legal expenses were incurred in the prior year related to international acquisitions that were ultimately not completed. These decreases were partially offset by increased costs associated with our business development and marketing initiatives and corporate shared services.

Pretax income for the six months ended October 31, 2007 was \$9.9 million compared to a pretax loss of \$5.9 million in the prior year.

Table of Contents**CONSUMER FINANCIAL SERVICES**

This segment is primarily engaged in offering brokerage services, along with investment planning and related financial advice through HRBFA and full-service banking through HRB Bank. HRBFA offers traditional brokerage services, as well as annuities, insurance, fee-based accounts, online account access, equity research and focus lists, model portfolios, asset allocation strategies, and other investment tools and information. Recruitment and retention of productive financial advisors is critical to the success of HRBFA. HRB Bank offers traditional banking services including checking and savings accounts, home equity lines of credit, individual retirement accounts, certificates of deposit and prepaid debit card accounts. HRBFA utilizes HRB Bank for certain FDIC-insured deposits for its clients. HRB Bank has also historically purchased prime loans, as defined by Office of Thrift Supervision (OTS) guidelines, from OOMC and HRBMC in addition to prime loan purchases from third-party sellers. During the first quarter of fiscal year 2008, HRB Bank stopped purchasing prime loans from OOMC and HRBMC.

(1) Total revenues, less interest expense and loan loss reserves on mortgage loans held for investment.

Three months ended October 31, 2007 compared to October 31, 2006

Consumer Financial Services revenues, net of interest expense and provision for loan loss reserves, for the three months ended October 31, 2007 increased \$4.0 million, or 5.6%, over the prior year. Financial advisor production revenue, which consists primarily of fees earned on assets under administration and commissions on client trades, was up \$7.9 million, or 17.5%, from the prior year primarily due to higher annualized production per advisor driven by annuity and mutual fund transactions. The following table summarizes the key drivers of production revenue:

Three Months Ended October 31,	2007	2006
Client trades	240,615	215,289
Average revenue per trade	\$ 116.09	\$ 121.86
Ending balance of assets under administration (billions)	\$ 34.4	\$ 32.2
Annualized productivity per advisor	\$ 222,000	\$ 187,000

Other service revenues increased \$4.2 million due to a \$3.0 million increase in fees received on sweep accounts, and additional revenues from the H&R Block Prepaid Emerald MasterCard®.

Table of Contents

Net interest income on banking activities increased \$3.3 million from the prior year due to an increase in mortgage loans held for investment, partially offset by an increase in deposits. The following table summarizes the key drivers of net interest revenue on banking activities:

(dollars in 000s)

Three Months Ended October 31,	Average Balance		Average Rate Earned (Paid)	
	2007	2006	2007	2006
Mortgage loans held for investment	\$ 1,194,567	\$ 612,055	6.85%	6.90%
Other investments	65,318	38,641	5.41%	5.39%
Deposits	964,809	492,315	(5.03)%	(5.40)%

We recorded a provision for loan losses of \$9.8 million during the current quarter, compared to \$0.4 million in the prior year. Our loan loss provision increased significantly during the current quarter as a result of declining collateral values due to declining residential home prices, and increasing delinquencies occurring in our portfolio during October and November of 2007. The residential mortgage industry has experienced similar trends in recent months. If adverse trends continue, we may be required to record additional loan loss provisions, and those losses may be significant.

Our loan loss reserve as a percent of mortgage loans was 1.40%, or \$15.5 million, at October 31, 2007, compared to 0.25%, or \$1.7 million, at October 31, 2006. Mortgage loans held for investment at October 31, 2007 totaled \$1.1 billion, \$807.1 million of which were purchased from OOMC and HRBMC. The average FICO score of our mortgage loans held for investment at October 31, 2007 was 717, with the loan-to-value average of 76.9% and average debt-to-income ratio of 34.3%, while the delinquency rate of mortgage loans more than thirty days past due was 1.96%. The delinquency rate declined from 3.00% at October 31, 2006, as non-performing loans originally purchased from OOMC were sold back to OOMC during fiscal year 2008.

Total expenses rose \$10.8 million, or 14.5%, from the prior year. Compensation and benefits increased \$6.3 million, or 19.4%, primarily due to higher commission and bonus payouts resulting from improved production revenue. Selling, general and administrative expenses increased \$4.6 million, or 20.0%, primarily due to gains on the disposition of certain assets recorded in the prior year.

The pretax loss for the three months ended October 31, 2007 was \$9.1 million compared to a prior year loss of \$2.3 million.

Six months ended October 31, 2007 compared to October 31, 2006

Consumer Financial Services revenues, net of interest expense and provision for loan loss reserves, for the six months ended October 31, 2007 increased \$26.3 million, or 18.3%, over the prior year.

Financial advisor production revenue was up \$19.2 million, or 20.8%, from the prior year primarily due to higher annualized production per advisor driven by annuity and closed-end fund transactions. The following table summarizes the key drivers of production revenue:

Six Months Ended October 31,	2007	2006
------------------------------	------	------

Edgar Filing: H&R BLOCK INC - Form 10-Q

Client trades	482,702	439,337
Average revenue per trade	\$ 126.34	\$ 117.18
Ending balance of assets under administration (billions)	\$ 34.4	\$ 32.2
Annualized productivity per advisor	\$ 237,000	\$ 197,000

Other service revenues increased \$13.9 million due to \$3.1 million in additional underwriting fees, a \$6.0 million increase in fees received on money market accounts, and additional revenues from the H&R Block Prepaid Emerald MasterCard®.

Table of Contents

Net interest income on banking activities increased \$7.0 million from the prior year due to an increase in mortgage loans held for investment, partially offset by an increase in deposits. The following table summarizes the key drivers of net interest revenue on banking activities:

(dollars in 000s)

Six Months Ended October 31,	Average Balance		Average Rate Earned (Paid)	
	2007	2006	2007	2006
Mortgage loans held for investment	\$ 1,266,719	\$ 496,472	6.78%	6.94%
Other investments	75,249	29,793	5.38%	5.22%
Deposits	1,034,852	369,942	(5.07)%	(5.31)%

We recorded a provision for loan losses of \$11.9 million during the current year, compared to \$1.7 million in the prior year. As discussed above, our provision for loan loss increased significantly due to adverse trends in residential home prices and mortgage loan delinquencies.

Total expenses rose \$23.8 million, or 15.9%, from the prior year. Compensation and benefits increased \$15.6 million, or 24.3%, primarily due to higher commission and bonus payouts resulting from improved production revenue.

Selling, general and administrative expenses increased \$8.4 million, or 18.2%, primarily due to gains on the disposition of certain assets recorded in the prior year.

The pretax loss for the six months ended October 31, 2007 was \$2.9 million compared to a prior year loss of \$5.4 million.

CORPORATE, INTEREST EXPENSE, OTHER INCOME AND INCOME TAXES ON CONTINUING OPERATIONS

Three months ended October 31, 2007 compared to October 31, 2006

The pretax loss recorded in our corporate operations for the three months ended October 31, 2007 was \$27.3 million compared to \$30.4 million in the prior year. The lower loss is primarily due to lower interest resulting from refinancing our \$500.0 million Senior Notes with a facility at a lower interest rate and less funds used in corporate operations than in the prior year. The prior year included borrowing for the payment of income taxes of \$122.6 million during the three months ended October 31, 2006.

Our effective tax rate for continuing operations was 39.2% and 39.1% for the three months ended October 31, 2007 and 2006, respectively. Our effective tax rate for discontinued operations was 33.6% and 44.7% for the three months ended October 31, 2007 and 2006, respectively. Our effective tax rate for discontinued operations for the full fiscal year ended April 30, 2007, was 34.5%. We expect that our effective tax rate for the full year ending April 30, 2008 for discontinued operations will approximate 37%.

Six months ended October 31, 2007 compared to October 31, 2006

The pretax loss recorded in our corporate operations for the six months ended October 31, 2007 was \$42.9 million compared to \$61.3 million in the prior year. The lower loss is primarily due to lower interest resulting from refinancing our \$500.0 million Senior Notes with a facility at a lower interest rate and less funds used in corporate operations than in the prior year. The prior year included borrowing for the payment of income taxes of \$313.0 million and the repurchase of treasury shares of \$180.9 million during the six months ended October 31, 2006.

Our effective tax rate for continuing operations was 39.6% and 39.2% for the six months ended October 31, 2007 and 2006, respectively. Our effective tax rate increased primarily due to changes in our estimated state tax rate. Our effective tax rate for discontinued operations was 37.0% and 44.9% for the six months ended October 31, 2007 and 2006, respectively.

Table of Contents**DISCONTINUED OPERATIONS**

Discontinued operations includes OOMC and HRBMC, mortgage businesses primarily engaged in the origination and acquisition of non-prime and prime mortgage loans, the sale and securitization of mortgage loans and residual interests, and the servicing of non-prime loans. Also included are the results of three smaller lines of business previously reported in our Business Services segment, as well as our tax operations in the United Kingdom previously reported in our Tax Services segment. Income statement data presented below is net of eliminations of intercompany activities.

The non-prime residential mortgage loan market has been adversely affected by a weakening housing market and increasing rates of delinquencies and defaults. Warehouse lenders have required significant margin calls from non-prime residential mortgage loan originators, including OOMC, due to declining values of non-prime residential mortgage loans and increasing levels of loans held for sale by lenders for longer periods of time due to softening secondary market conditions. We have been significantly and negatively impacted by the events and conditions impacting the broader non-prime residential mortgage loan market, resulting in significant impairments and operating losses during fiscal 2007 and 2008.

Three months ended October 31, 2007 compared to October 31, 2006

During the three months ended October 31, 2007, our mortgage loan originations were significantly reduced and on December 4, 2007, we announced we would terminate all remaining origination activities.

Conditions in the non-prime mortgage industry continued to be challenging during the three months ended October 31, 2007. Our mortgage operations, as well as the entire industry, were impacted by deteriorating conditions in the secondary market, where reduced investor demand for loan purchases, higher investor yield requirements and

increased estimates for future losses reduced the value of non-prime loans. Under these conditions non-prime originators generally reported significant increases in losses and many were unable to meet their financial obligations. During the second quarter we continued to tighten our underwriting standards, which had the effect of further reducing our loan origination volumes. Our origination volumes declined to \$720.6 million during the current quarter, down 89.6% from the prior year. Effective December 4, 2007, we ceased accepting new loan applications, although we will honor the loan commitments in our pipeline.

The pretax loss of \$551.2 million for the three months ended October 31, 2007 includes losses of \$2.7 million from our Business Services discontinued operations, with the remainder from our mortgage business. As discussed more fully below, mortgage results include \$172.7 million in loss provisions and repurchase reserves, impairments of residual interests of \$61.7 million and impairments relating to the valuation of remaining assets held for sale totaling \$123.0 million.

Table of Contents

The following table summarizes the key drivers of loan origination volumes and related gains on sales of mortgage loans:

	(dollars in 000s)	
Three Months Ended October 31,	2007	2006
Application process:		
Total number of applications	6,006	70,776
Number of sales associates ⁽¹⁾	439	2,466
Originations:		
Total number of loans originated	3,056	34,515
WAC	9.32%	8.75%
Average loan size	\$ 236	\$ 200
Total volume of loans originated	\$ 720,555	\$ 6,918,638
Direct origination and acquisition expenses, net	\$ 3,797	\$ 40,395
Revenue (loan value):		
Net gain on sale gross margin ⁽²⁾	(35.02)%	0.72%

(1) Includes all direct sales and back office sales support associates.

(2) Defined as gain on sale of mortgage loans (including gain or loss on derivatives, mortgage servicing rights and net of direct origination and acquisition expenses) divided by origination volume.

Gains on sales of mortgage assets decreased \$183.7 million from the prior year. This decrease resulted primarily from significantly lower origination volumes and loan sale premiums, and increases in loan loss reserves and impairments of residual interests.

During the second quarter, concerns about credit quality in the non-prime industry resulted in lower demand for non-prime loans and a higher yield requirement by investors that purchase the loans. As a result, during the quarter we originated mortgage loans that, by the time we sold them in the secondary market, were valued at less than par. Our second quarter net gain on sale gross margin was a negative 35.02%. Additionally, our loan sale premium declined to a negative 9.28% in the current quarter. We wrote down our beneficial interest in Trusts to zero as of October 31, 2007.

The disruption in the secondary market, coupled with declining credit quality and investors performing additional due diligence on loan pools, have caused unprecedented numbers of loans to be excluded from loan pools before the sale. During the current quarter, we increased our reserve for losses on representations and warranties repurchases as a result of rising repurchase trends. We also continued to experience high levels of early payment defaults, resulting in significant actual and expected loan repurchase activity. We recorded total loss provisions of \$172.7 million during the current quarter compared to \$47.2 million in the prior year. The provision recorded in the current quarter consists of \$44.2 million recorded on loans sold during the current quarter and \$128.5 million related to loans sold in the prior quarter. After we repurchased loans, we experienced higher severity of losses on those loans. Based on historical experience, we assumed an average 42% loss severity at October 31, 2007, compared to 26% at April 30, 2007, on loans repurchased and expected to be repurchased due to early payment defaults and violations of representations and warranties. See additional discussion of our reserves and repurchase obligations in Critical Accounting Policies and in note 11 to our condensed consolidated financial statements.

During the current quarter, the disruption in the secondary market also impacted our residual interests. We recorded impairments of residual interests of \$61.7 million due to higher expected credit losses resulting from the decline in performance of the underlying collateral and an increase in our discount rate assumption from 25% to 30%. Residuals interests at October 31, 2007 have a current carrying value of \$38.2 million.

During the current period, we recorded a net \$21.3 million in losses, compared to \$28.1 million in the prior year, related to our various derivative instruments, primarily related to forward loan commitments. We ceased all derivative activities during the quarter. See note 11 to the condensed consolidated financial statements.

Table of Contents

The following table summarizes the key metrics related to our loan servicing business:

	(dollars in 000s)	
Three Months Ended October 31,	2007	2006
Average servicing portfolio:		
With related MSR's	\$ 59,885,050	\$ 64,068,803
Without related MSR's	2,853,427	9,896,993
	\$ 62,738,477	\$ 73,965,796
Ending servicing portfolio:		
With related MSR's	\$ 58,203,629	\$ 63,904,746
Without related MSR's	2,747,371	9,115,001
	\$ 60,951,000	\$ 73,019,747
Number of loans serviced	340,233	427,590
Average delinquency rate	20.50%	8.69%
Weighted average FICO score	622	621
Weighted average interest rate (WAC) of portfolio	8.48%	8.06%
Carrying value of MSR's	\$ 199,596	\$ 269,679

Loan servicing revenues decreased \$20.6 million, or 18.1%, compared to the prior year. The decrease reflects a decline in our average servicing portfolio, which decreased 15.2%, to \$62.7 billion. Declines in our average servicing portfolio are primarily the result of a decline in the subservicing portfolio and significantly lower origination volumes, as discussed above. As a result of our decision to terminate remaining loan origination activities, loan servicing revenues are expected to continue to decline.

Total expenses for the three months ended October 31, 2007 increased \$116.5 million, or 50.5%, from the prior year, primarily due to asset impairments of \$123.0 million recorded in the current quarter. Cost of services decreased \$24.5 million primarily due to lower amortization of MSR's.

Cost of other revenues decreased \$9.8 million, primarily due to our ongoing restructuring plans. As a result, compensation and benefits declined due to lower staffing levels, although this reduction was partially offset by increased occupancy expenses as a result of early termination costs on leases.

See discussion of the termination of our agreement to sell OOMC in note 1 to the condensed consolidated financial statements and Part II, Item 1A, under Potential Sale Transaction.

Selling, general and administrative expenses increased \$27.7 million, or 40.7%, over the prior year, as restructuring charges recorded in the current quarter were partially offset by lower operating expenses resulting from prior year restructuring activities.

The pretax loss for the three months ended October 31, 2007 was \$551.2 million compared to a loss of \$64.2 million in the prior year. The loss from discontinued operations for the current period of \$366.2 million is net of tax benefits of \$185.0 million, and primarily includes income tax benefits related to OOMC.

Six months ended October 31, 2007 compared to October 31, 2006

The pretax loss of \$886.6 million for the six months ended October 31, 2007 includes losses of \$7.2 million from our Business Services discontinued operations, with the remainder from our mortgage business. As discussed more fully

below, mortgage results include \$330.0 million in loss provisions and repurchase reserves, impairments of residual interests of \$111.3 million and impairments of other assets totaling \$146.2 million.

Table of Contents

The following table summarizes the key drivers of loan origination volumes and related gains on sales of mortgage loans:

	(dollars in 000s)	
Six Months Ended October 31,	2007	2006
Application process:		
Total number of applications	34,780	144,512
Number of sales associates ⁽¹⁾	439	2,466
Originations:		
Total number of loans originated	16,138	74,187
WAC	8.75%	8.71%
Average loan size	\$ 248	\$ 202
Total volume of loans originated	\$ 4,006,036	\$ 14,970,583
Direct origination and acquisition expenses, net	\$ 21,524	\$ 92,960
Revenue (loan value):		
Net gain on sale – gross margin ⁽²⁾	(11.10)%	0.88%

(1) Includes all direct sales and back office sales support associates.

(2) Defined as gain on sale of mortgage loans (including gain or loss on derivatives, mortgage servicing rights and net of direct origination and acquisition expenses) divided by origination volume.

Gains on sales of mortgage assets decreased \$402.5 million from the prior year. This decrease resulted primarily from significantly lower origination volumes and loan sale premiums, and increases in loan repurchase reserves and impairments of residual interests.

During the current year, concerns about credit quality in the non-prime industry resulted in lower demand for non-prime loans and a higher yield requirement by investors that purchase the loans. As a result, during the current year we originated mortgage loans that, by the time we sold them in the secondary market, were valued at less than par. Our net gain on sale gross margin for the six months ended October 31, 2007 was a negative 11.10%.

Additionally, our loan sale premium declined 487 basis points to a negative 3.39% in the current year. We wrote down our beneficial interest in Trusts to zero as of October 31, 2007.

We recorded total loss provisions relating to the repurchase and disposition of loans previously sold of \$330.0 million during the current year compared to \$140.0 million in the prior year. The provision recorded in the current year consists of \$176.7 million recorded on loans sold during the current year and \$153.3 million related to loans sold in the prior year. Loss provisions as a percent of loan volumes increased 917 basis points over the prior year. After we repurchased the loans, we experienced higher severity of losses on those loans. Based on historical experience, we assumed an average 42% loss severity at October 31, 2007, compared to 26% at April 30, 2007, on loans repurchased and expected to be repurchased due to early payment defaults and violations of representations and warranties. See additional discussion of our reserves and repurchase obligations in *Critical Accounting Policies* and in note 11 to our condensed consolidated financial statements.

During the current year, the disruption in the secondary market also impacted our residual interests. We recorded impairments of residual interests of \$111.3 million due to higher expected credit losses resulting from the decline in performance of the underlying collateral and an increase in our discount rate assumption from 25% to 30%. As of October 31, 2007, substantially all residual interests from originations prior to January 2007 were written down to zero value. Residuals interests at October 31, 2007 have a current carrying value of \$38.2 million.

During the current period, we recorded a net \$0.9 million in gains, compared to net losses of \$14.8 million in the prior year, related to our various derivative instruments. We ceased all derivative activities during the current quarter. See note 11 to the condensed consolidated financial statements.

Table of Contents

The following table summarizes the key metrics related to our loan servicing business:

	(dollars in 000s)	
Six Months Ended October 31,	2007	2006
Average servicing portfolio:		
With related MSR's	\$ 61,651,132	\$ 63,802,118
Without related MSR's	2,948,495	10,107,535
	\$ 64,599,627	\$ 73,909,653
Ending servicing portfolio:		
With related MSR's	\$ 58,203,629	\$ 63,904,746
Without related MSR's	2,747,371	9,115,001
	\$ 60,951,000	\$ 73,019,747
Number of loans serviced	340,233	427,590
Average delinquency rate	17.89%	8.01%
Weighted average FICO score	622	621
Weighted average interest rate (WAC) of portfolio	8.41%	7.99%
Carrying value of MSR's	\$ 199,596	\$ 269,679

Loan servicing revenues decreased \$32.1 million, or 14.4%, compared to the prior year. The decrease reflects a decline in our average servicing portfolio, which decreased 12.6%, to \$64.6 billion. Declines in our average servicing portfolio are primarily the result of a decline in the subservicing portfolio and significantly lower origination volumes, as discussed above. As a result of our decision to terminate remaining loan origination activities, loan servicing revenues are expected to continue to decline.

Total expenses for the six months ended October 31, 2007 increased \$105.1 million, or 23.1%, from the prior year, primarily due to asset impairments of \$146.2 million recorded in the current year. Cost of services decreased \$41.2 million primarily due to lower amortization of MSR's.

Cost of other revenues decreased \$26.9 million, primarily due to our ongoing restructuring plans. As a result, compensation and benefits declined due to lower staffing levels, although this reduction was partially offset by increased occupancy expenses as a result of early termination costs on leases.

See discussion of the termination of our agreement to sell OOMC in note 1 to the condensed consolidated financial statements and Part II, Item 1A, under Potential Sale Transaction.

Selling, general and administrative expenses increased \$27.0 million, or 20.8%, over the prior year, as restructuring charges recorded in the current year were partially offset by lower operating expenses resulting from prior year restructuring activities.

The pretax loss for the six months ended October 31, 2007 was \$886.6 million compared to a loss of \$88.9 million in the prior year.

The loss from discontinued operations for the current period of \$558.9 million is net of tax benefits of \$327.6 million, and primarily includes income tax benefits related to OOMC. Losses from discontinued operations during fiscal year 2007 totaled \$808.0 million, net of tax benefits of \$425.0 million, including tax benefits related to OOMC of

\$374.6 million. Although the tax position associated with deferred tax benefits of discontinued businesses will more likely than not be sustained, there is a level of uncertainty associated with the amount of benefit. We believe the net deferred tax asset at October 31, 2007 is, more likely than not, realizable.

FINANCIAL CONDITION

These comments should be read in conjunction with the condensed consolidated balance sheets and condensed consolidated statements of cash flows found on pages 1 and 3, respectively.

CAPITAL RESOURCES & LIQUIDITY BY SEGMENT

Our sources of capital primarily include cash from operations, issuances of common stock and debt. We use capital primarily to fund working capital requirements, pay dividends and acquire businesses. Our Tax Services and Business Services segments are highly seasonal and therefore require the use of cash to fund operating losses during the period May through December. Our mortgage operations have incurred significant operating losses in recent quarters, also requiring the use of cash and working capital.

Table of Contents

Given the likely availability of a number of liquidity options, including our unsecured committed lines of credit (CLOCs), we believe, that in the absence of unexpected developments, our existing sources of capital at October 31, 2007 are sufficient to meet our operating needs.

Cash From Operations. Cash used in operating activities for the first six months of fiscal 2008 totaled \$942.1 million, compared with \$1.2 billion for the same period of the prior fiscal year. The change was due primarily to lower income tax payments and income tax refunds of \$71.7 million received during the six months ended October 31, 2007, which resulted primarily from the significant operating losses of our discontinued operations in the first half of fiscal year 2008.

Issuance of Common Stock. We issue shares of common stock, in accordance with our stock-based compensation plans, out of treasury shares. Proceeds from the issuance of common stock totaled \$17.2 million and \$17.4 million for the six months ended October 31, 2007 and 2006, respectively.

Dividends. Dividends paid totaled \$90.5 million and \$84.2 million for the six months ended October 31, 2007 and 2006, respectively.

Share Repurchases. There are 22.4 million shares remaining under share repurchase authorizations at October 31, 2007. We purchase shares on the open market in accordance with existing authorizations, subject to various factors including the price of the stock, our ability to maintain liquidity and financial flexibility, securities laws restrictions, internally and regulatory targeted capital levels and other investment opportunities.

The OTS requires us to maintain a three percent minimum ratio of adjusted tangible capital to adjusted total assets. Due to significant losses in our mortgage operations during fiscal year 2007, we did not meet this minimum capital requirement at April 30, 2007. Due to continued losses in our mortgage operations during fiscal year 2008, we do not expect to be in compliance at April 30, 2008. We do not expect to be in a position to repurchase shares until sometime after fiscal year 2009.

Debt. In April 2007, we obtained a \$500.0 million credit facility to provide funding for the \$500.0 million of 8 1/2% Senior Notes which were due April 16, 2007. This facility matures on December 20, 2007, at which time we anticipate it will be refinanced.

Market conditions and recent credit-rating downgrades have negatively impacted our ability to issue commercial paper. As a result, we had no commercial paper outstanding at October 31, 2007, compared to \$1.0 billion at October 31, 2006. As an alternative to commercial paper issuance, we have been borrowing under our CLOCs to support working capital requirements arising from off-season operating losses in our Tax Services and Business Services segments and operating losses from our mortgage businesses. We had \$1.6 billion outstanding under our CLOCs at October 31, 2007. Subsequent to October 31, 2007, we drew additional funds on the CLOCs to bring total borrowings to \$1.8 billion. See additional discussion in *Commercial Paper Issuance and Other Borrowings* and note 4 to the condensed consolidated financial statements.

Restricted Cash. We hold certain cash balances that are restricted as to use. Cash and cash equivalents restricted totaled \$237.2 million at October 31, 2007 compared to \$332.6 million at April 30, 2007. Consumer Financial Services held \$220.0 million of this total segregated in a special reserve account for the exclusive benefit of its broker-dealer clients. Our Consumer Financial Services segment also held \$15.5 million on deposit at the Federal Reserve Bank, as HRB Bank is now required to maintain a certain amount of cash in a non-interest-bearing account balance to meet specific reserve requirements.

Segment Cash Flows. A condensed consolidating statement of cash flows by segment for the six months ended October 31, 2007 is as follows:

(in 000s)

	Tax	Business	Consumer		Discontinued	Consolidated
	Services	Services	Financial	Corporate ⁽¹⁾	Operations	H&R Block
			Services			

Cash provided by (used
in):

Operations	\$ (338,699)	\$ (17,569)	\$ 44,822	\$ (315,062)	\$ (315,617)	\$ (942,125)
Investing	(39,152)	(8,425)	84,295	(23,583)	9,596	22,731
Financing	(42,114)	(1,823)	(327,296)	554,892	200,812	384,471
Net intercompany	427,797	14,618	139,201	(686,825)	105,209	-

- (1) Income tax payments, net of refunds of \$71.7 million received during the six months ended October 31, 2007, are included in Corporate.

Table of Contents

Net intercompany activities are excluded from investing and financing activities within the segment cash flows. We believe that by excluding intercompany activities, the cash flows by segment more clearly depicts the cash generated and used by each segment. Had intercompany activities been included, those segments in a net lending situation would have been included in investing activities, and those in a net borrowing situation would have been included in financing activities.

Tax Services. Tax Services has historically been our largest provider of annual operating cash flows. The seasonal nature of Tax Services generally results in a large positive operating cash flow in the fourth quarter. Tax Services used \$338.7 million in its current six-month operations to cover off-season costs and working capital requirements. This segment used \$39.2 million in investing activities primarily related to capital expenditures and acquisitions, and used \$42.1 million in financing activities related to book overdrafts.

Business Services. Business Services funding requirements are largely related to receivables for completed work and work in process. We provide funding sufficient to cover their working capital needs. This segment used \$17.6 million in operating cash flows during the first six months of the year to cover off-season costs and working capital requirements. Business Services used \$8.4 million in investing activities primarily related to capital expenditures.

Consumer Financial Services. In the first six months of fiscal year 2008, Consumer Financial Services provided \$44.8 million in cash from its operating activities primarily due to the timing of cash deposits that are restricted for the benefit of its broker-dealer clients and net income generated during the period. The segment also provided \$84.3 million in investing activities primarily from principal payments received on mortgage loans held for investment and used \$327.3 million in financing activities due primarily to FDIC-insured deposits held at HRB Bank. HRB Bank is a member of the Federal Home Loan Bank (FHLB) of Des Moines, which extends credit to member banks based on eligible collateral. At October 31, 2007, HRB Bank had FHLB advance capacity of \$428.9 million, and there was \$104.0 million outstanding on this facility. Mortgage loans held for investment of \$1.1 billion were pledged as collateral on these advances.

Discontinued Operations. These operations have historically generated cash as a result of the sale and securitization of mortgage loans and residual interests, and as residual interests begin to cash flow. Our discontinued operations used \$315.6 million in cash from operating activities primarily due to losses during the six months ended October 31, 2007. Operating cash flows of discontinued operations in the table above includes the net loss from discontinued operations of \$558.9 million. Cash provided by financing activities of \$200.8 million reflects the proceeds from a servicing advance facility, as discussed below, less the repayment of an on-balance sheet securitization.

On October 1, 2007, OOMC entered into a facility to fund servicing advances (the Servicing Advance Facility), in which the servicing advances are collateral for the facility. The Servicing Advance Facility provides funding of up to \$400.0 million to fund servicing advances through October 1, 2008, subject to various triggers, events or occurrences that could result in earlier termination, and bears interest at one-month LIBOR plus an additional margin rate. The Servicing Advance Facility is subject to a cross-default feature in which a default under OOMC's warehouse financing arrangement with the lender to fund non-prime originations would trigger a default under the Servicing Advance Facility. In addition, the Servicing Advance Facility terminates upon a change in control of OOMC, in which (i) a party or parties acting in concert acquire a 20% or more equity interest in OOMC or (ii) the Company does not own more than a 50% equity interest in OOMC. This on-balance sheet facility had a balance of \$286.6 million at October 31, 2007, with the related liability reported in liabilities held-for-sale. In light of increased delinquencies of mortgage loans that we service and the corresponding increase in the amount of servicing advances we are required to make, we amended the facility on November 16, 2007 to increase the amount of funding available from \$400.0 million to \$750.0 million. We expect mortgage loan delinquencies and corresponding servicing advance requirements will continue to increase, and that we will in turn need to further increase the size of our servicing advance facility or obtain other servicing advance financing.

Due to market conditions, OOMC had significant borrowings on its line of credit from Block Financial Corporation (BFC), its direct corporate parent. BFC provides a line of credit of at least \$150 million for working capital needs. There is no commitment to fund any further operations of OOMC.

See discussion of changes in the off-balance sheet arrangements of our discontinued operations below.

Table of Contents**OFF-BALANCE SHEET FINANCING ARRANGEMENTS**

Several warehouse lines were terminated during the second quarter of fiscal year 2008. As a result, OOMC had two committed warehouse facilities available as of October 31, 2007, representing aggregate borrowing capacity of \$1.5 billion. In November 2007 one facility was canceled, reducing our aggregate borrowing capacity to \$750.0 million. The remaining warehouse facility expires June 12, 2008, and will be sufficient to meet our loan origination funding needs through the expected termination date of our remaining origination activities.

OOMC is party to an on-balance sheet facility that may be used to fund delinquent and repurchased loans. During fiscal year 2008, this facility was amended to reduce the total capacity to \$75.0 million and extend the maturity to November 15, 2007. Loans totaling \$33.2 million were held on this facility at October 31, 2007, with the related loans and liability reported in assets and liabilities held-for-sale. OOMC was not in compliance with certain restrictive covenants relative to this facility and obtained waivers through November 15, 2007. This facility matured on November 15, 2007, and the outstanding balance was repaid.

Other than the changes outlined above, there have been no material changes in our off-balance sheet financing arrangements from those reported at April 30, 2007 in our Annual Report on Form 10-K.

COMMERCIAL PAPER ISSUANCE AND OTHER BORROWINGS

The following chart provides the debt ratings for BFC as of October 31, 2007 and April 30, 2007:

	October 31, 2007			April 30, 2007		
	Short-term	Long-term	Outlook	Short-term	Long-term	Outlook
Fitch ⁽¹⁾	F2	BBB+	Negative	F1	A	Stable
Moody's	P2	Baa1	Negative	P2	A3	Negative
S&P	A3	BBB-	Negative	A2	BBB+	Negative
DBRS	R-1(low)	A(low)	Negative	R-1(low)	A	Stable

⁽¹⁾ Short-term rating of F3 and long-term rating of BBB effective December 6, 2007.

At October 31, 2007, we maintained \$2.0 billion in revolving credit facilities to support issuance of commercial paper and for general corporate purposes. These CLOCs, and borrowings thereunder, have a maturity date of August 2010 and an annual facility fee in a range of six to fifteen basis points per annum, based on our credit ratings. Negative market conditions and recent credit-rating downgrades have negatively impacted our ability to issue commercial paper. As a result, during the current quarter we repaid our commercial paper borrowings with proceeds from the CLOCs, and had no outstanding commercial paper as of October 31, 2007. We had a combined \$1.6 billion outstanding under our \$2.0 billion in available CLOCs as of October 31, 2007. These borrowings are included in long-term debt on our condensed consolidated balance sheet due to their contractual maturity date. The CLOCs, among other things, require we maintain at least \$650.0 million of Adjusted Net Worth, as defined in the agreement, on the last day of any fiscal quarter. On November 19, 2007, effective October 31, 2007, the CLOCs were amended to, among other things, require \$450.0 million of Adjusted Net Worth, for the fiscal quarters ending October 31, 2007 and January 31, 2008. Before the end of the second quarter, we initiated efforts to seek an amendment to the Minimum Net Worth Requirement (i) in light of the possibility that we might not have met the Minimum Net Worth Requirement for the fiscal quarter ended October 31, 2007, (ii) to obtain flexibility for purposes of negotiating a sale of OOMC, and (iii) in light of the possibility that, without the amendment, we would not be in compliance with the Minimum Net Worth Covenant as of January 31, 2008 without taking steps to raise additional capital. When financial results for the six months ended October 31, 2007 were finalized, we determined that we had an Adjusted Net Worth

of \$544.3 million at October 31, 2007, primarily due to operating losses of our discontinued operations. Other than the changes outlined above, there have been no material changes in our commercial paper program and other borrowings from those reported at April 30, 2007 in our Annual Report on Form 10-K.

CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS

We adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) on May 1, 2007. Total unrecognized tax benefits as of May 1, 2007 were \$133.3 million, of which \$89.0 million, on a gross basis, were tax positions that, if recognized, would impact the effective tax rate. We have classified the liability for unrecognized tax benefits as long term in the condensed consolidated balance

Table of Contents

sheet. We are unable to determine when, and if, unrecognized tax positions will result in obligations requiring future cash payments. See note 5 to the condensed consolidated financial statements for additional information.

Other than the change outlined above, there have been no material changes in our contractual obligations and commercial commitments from those reported at April 30, 2007 in our Annual Report on Form 10-K.

REGULATORY ENVIRONMENT

In March 2006, the OTS approved the federal savings bank charter of HRB Bank. HRB Bank commenced operations on May 1, 2006, at which time H&R Block, Inc. became a savings and loan holding company. As a savings and loan holding company, H&R Block, Inc. is subject to regulation by the OTS. Federal savings banks are subject to extensive regulation and examination by the OTS, their primary federal regulator, as well as the FDIC. In conjunction with H&R Block, Inc.'s application with the OTS for HRB Bank, H&R Block, Inc. made commitments as part of our charter approval order (Master Commitment) which included, but were not limited to: (1) H&R Block, Inc. to maintain a three percent minimum ratio of adjusted tangible capital to adjusted total assets, as defined by the OTS; (2) maintain all HRB Bank capital within HRB Bank in accordance with the submitted three-year business plan; and (3) follow federal regulations surrounding intercompany transactions and approvals. H&R Block, Inc. fell below the three percent minimum ratio at April 30, 2007. We notified the OTS of our failure to meet this requirement, and on May 29, 2007, the OTS issued a Supervisory Directive. We submitted a revised capital plan to the OTS on July 19, 2007, in which we expected to meet the three percent minimum ratio at April 30, 2008. The OTS accepted our revised capital plan.

The Supervisory Directive included additional conditions that we will be required to meet in addition to the Master Commitment. The significant additional conditions included in the Supervisory Directive are as follows: (1) requires HRB Bank to extend its compliance with a minimum 12.0% leverage ratio through fiscal year 2012; (2) requires H&R Block, Inc. to comply with the Master Commitment at all times, except for the projected capital levels and compliance with the three percent minimum ratio, as provided in the fiscal year 2008 and 2009 capital adequacy projections presented to the OTS on July 19, 2007; (3) institutes reporting requirements to the OTS quarterly and monthly by the Board of Directors and management, respectively; and (4) requires HRB Bank's Board of Directors to have an independent chairperson and at least the same number of outside directors as inside directors.

Operating losses of our discontinued operations for the first six months of fiscal year 2008 were higher than projected in our revised capital plan that was submitted to the OTS in July 2007. As a result, our capital levels are lower than those projections. H&R Block, Inc. continued to be below the three percent minimum ratio during our second quarter, and had adjusted tangible capital of negative \$644.4 million, and a requirement of \$177.5 million to be in compliance at October 31, 2007.

In November 2007, the OTS directed us to submit a new revised capital plan no later than January 15, 2008. At this time, we do not expect to be in compliance with the three percent minimum ratio at April 30, 2008. We do not expect to be in a position to repurchase treasury shares until sometime after fiscal year 2009. Achievement of the capital plan depends on future events and circumstances, the outcome of which cannot be assured. If we are not in a position to cure deficiencies and if operating results continue to be below our plan, a resulting failure could impair our ability to repurchase shares of our common stock, acquire businesses or pay dividends.

Failure to meet the conditions under the Master Commitment and the Supervisory Directive, including capital levels of H&R Block, Inc., could result in the OTS taking further regulatory actions, such as a supervisory agreement, cease-and-desist orders and civil monetary penalties. The OTS could also require us to sell assets, which could negatively impact our financial statements. At this time, the financial impact, if any, of additional regulatory actions cannot be determined.

See additional discussion related to this requirement in Part II, Item 1A, under Regulatory Environment Banking. HRBFA is subject to regulatory requirements intended to ensure the general financial soundness and liquidity of broker-dealers. At October 31, 2007, HRBFA's net capital of \$91.2 million, which was 20.0% of aggregate debit items, exceeded its minimum required net capital of \$9.1 million by \$82.0 million. During the three months ended October 31, 2007, HRBFA paid a dividend of \$37.5 million to BFC, its direct corporate parent.

Table of Contents

The Alternative Minimum Tax (AMT) was enacted in 1969 to ensure that a small number of high-income taxpayers could not use special tax deductions to substantially eliminate their tax. Because this initial legislation was not indexed for inflation, an increasing number of taxpayers are becoming subject to AMT. Congressional action is pending which would modify the AMT legislation to limit the number of affected taxpayers for the 2007 tax year. Until such time as pending Congressional action becomes law, the IRS has indicated it may need to postpone processing of tax returns scheduled to begin in mid-January 2008, and has further stated it will need approximately seven weeks to revise and test forms reflecting changes that result from the legislation. Delays by the IRS in return-processing may result in a shifting of Tax Services revenues from our fiscal third quarter to our fourth quarter, could potentially result in a decline in the number of tax returns we prepare during the 2008 fiscal year, and could cause us to incur additional operating expenses. The ultimate outcome of pending Congressional action and the ultimate effect to our business and financial results is uncertain.

Other than the items discussed above, there have been no material changes in our regulatory environment from those reported at April 30, 2007 in our Annual Report on Form 10-K.

CRITICAL ACCOUNTING POLICIES

The following discussion is an update to previous disclosure regarding certain of our critical accounting policies and should be read in conjunction with the complete critical accounting policies disclosures included in our Annual Report on Form 10-K for the year ended April 30, 2007. For all of our critical accounting policies, we caution that future events rarely develop precisely as forecasted, and estimates routinely require adjustment and may require material adjustment.

Valuation of Mortgage Loans Held for Investment

Determining the allowance for credit losses for loans held for investment requires us to make estimates of losses that are highly uncertain and requires a high degree of judgment.

We record an allowance representing our estimate of credit losses inherent in our portfolio of loans held for investment at the balance sheet date. The majority of our estimated credit loss is evaluated for mortgage loans on a pooled basis. We stratify the loan portfolio based on our view of risk associated with various elements of the pool and assign estimated loss rates based on those risks. Loss rates are based on historical experience, our assessment of economic and market conditions and loss rates of comparable financial institutions. We review non-performing loans individually and record loss estimates typically based on the value of the underlying collateral. Changes in our estimates can affect our operating results.

Our loan loss provision increased significantly during the current quarter as a result of declining collateral values due to declining residential home prices, and increasing delinquencies occurring in our portfolio during October and November of 2007. The residential mortgage industry has experienced similar trends in recent months. If adverse trends continue, we may be required to record additional loan loss provisions, and those losses may be significant. Our loan loss reserve as a percent of mortgage loans was 1.40% at October 31, 2007, compared to 0.35% at April 30, 2007. Mortgage loans held for investment at October 31, 2007 totaled \$1.1 billion, \$807.1 million of which were purchased from OOMC and HRBMC.

Gains on Sales of Mortgage Assets

Variations in the assumptions we use affect the estimated fair values and the reported net gains on sales. Losses on sales of mortgage loans totaled \$115.7 million for the six months ended October 31, 2007 compared to gains of \$286.8 million for the six months ended October 31, 2006.

Our repurchase reserves relate to potential losses that could be incurred related to the repurchase of sold loans or indemnification of losses as a result of early payment defaults or breaches of other representations and warranties customary to the mortgage banking industry.

Loans are repurchased due to a combination of factors, including delinquency and other violations of representations and warranties. In whole loan sale transactions, we guarantee the first payment to the purchaser. If this payment is not collected, it is referred to as an early payment default.

For early payment default-related losses, the amount of losses we expect to incur depends primarily on the frequency of early payment defaults, the rate at which defaulted loans subsequently become current on payments (cure rate), the propensity of the buyer of the loans to demand recourse under the loan sale

Table of Contents

agreement and the severity of loss incurred on loans which have been repurchased. The frequency of early payment defaults, cure rates and loss severity may vary depending on the creditworthiness of the borrower and economic factors such as home price appreciation and interest rates. To the extent actual losses related to repurchase activity are different from our estimates, the value of our repurchase reserves will increase or decrease. See note 11 to our condensed consolidated financial statements under Commitments and Contingencies.

Declining credit quality coupled with increasing early payment defaults, caused investors in our loans to become increasingly more likely to execute on first payment default provisions available to them in loan sale agreements. Investors have also begun performing additional due diligence on loans pools, causing unprecedented numbers of loans to be excluded from loan pools before the sale. During the six months ended October 31, 2007, we increased our reserve for losses on representations and warranties repurchases as a result of rising repurchase trends. The portion of our reserve balance related to losses on representation and warrant repurchases totaled \$47.1 million and \$5.6 million at October 31, 2007 and April 30, 2007, respectively. We also continued to experience high levels of early payment defaults, resulting in significant actual and expected loan repurchase activity. We recorded total loss provisions of \$330.0 million during the current year compared to \$140.0 million in the prior year. The provision recorded in the current year consists of \$176.7 million recorded on loans sold during the current period and \$153.3 million related to loans sold in the prior year. At October 31, 2007, we assumed that substantially all loans that failed to make timely payments according to contractual early payment default provisions will be repurchased, and that approximately 6% of loans will be repurchased from sales that have not yet reached the contractual date upon which repurchases can be determined. Based on historical experience, we assumed an average 42% loss severity, up from 26% at April 30, 2007, on all loans repurchased and expected to be repurchased as of October 31, 2007. The increase in our loan repurchase liability was primarily due to the increase in our loss severity assumption.

Based on our analysis as of October 31, 2007, we estimated our liability for recourse obligations to be \$85.9 million. The sensitivity of the recourse liability to 10% and 20% adverse changes in loss assumptions is \$8.6 million and \$17.2 million, respectively.

Valuation of Residual Interests

We use discounted cash flow models to determine the estimated fair values of our residual interests. We develop our assumptions for expected credit losses, prepayment speeds, discount rates and interest rates based on historical experience. Variations in our assumptions could materially affect the estimated fair values, which may require us to record impairments. In addition, variations will also affect the amount of residual interest accretion recorded on a monthly basis.

We recorded impairments totaling \$111.3 million in our condensed consolidated income statements for the six months ended October 31, 2007. During the current year, we increased our discount rate assumption from 25% to 30% as a result of continued uncertainty and volatility in the market and higher investor yield requirements. See note 11 to our condensed consolidated financial statements and Part I, Item 3 for additional discussion.

FORWARD-LOOKING INFORMATION

In this report, and from time to time throughout the year, we share our expectations for our future performance. These forward-looking statements are based upon current information, expectations, estimates and projections regarding the Company, the industries and markets in which we operate, and our assumptions and beliefs at that time. These statements speak only as of the date on which they are made, are not guarantees of future performance, and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results could materially differ from what is expressed, implied or forecast in these forward-looking statements. Words such as believe, will, plan, expect, intend, estimate, approximate, and similar expressions may identify such forward-looking statements.

RECONCILIATION OF NON-GAAP FINANCIAL INFORMATION

We report our financial results in accordance with generally accepted accounting principles (GAAP). However, we believe certain non-GAAP performance measures and ratios used in managing the business may provide additional

meaningful comparisons between current year results and prior periods. Reconciliations to GAAP

Table of Contents

financial measures are provided below. These non-GAAP financial measures should be viewed in addition to, not as an alternative for, our reported GAAP results.

Banking Ratios

(dollars in 000s)

	Three Months Ended October 31,		Six Months Ended	
	2007	2006	October 31,	2006

==
ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Item 7A of our Annual Report on Form 10-K for fiscal year 2007 presents discussions of market risks that may impact our future results. The following risk factors should be read in conjunction with that discussion.

Interest Rate Risk and Credit Spreads – Non-prime Originations. Interest rate changes and credit spreads impact the value of the loans underlying our beneficial interest in Trusts, on our balance sheet or in our origination pipeline, as well as residual interests in securitizations and MSR's.

At October 31, 2007, there were \$57.4 million of loans held in the Trusts and the value of our beneficial interest in Trusts was written down to zero. At October 31, 2007, we had \$997.6 million of mortgage loans held for sale on our balance sheet. Of this total, \$134.8 million loans were repurchased from whole loan investors or the Trusts, and are recorded net of a \$64.6 million allowance for loan losses. The remaining \$927.4 million were loans accrued as they hit optional repurchase triggers, but that we do not intend to repurchase. A corresponding liability for these loans was also recorded at October 31, 2007. Changes in interest rates and other market factors including credit spreads may result in a change in value of our beneficial interest in Trusts and mortgage loans held for sale.

We are impacted by changes in loan sale prices including interest rates, credit spreads and other factors. We are exposed to interest rate risk and credit spreads associated with commitments to fund approved loan applications of \$69.4 million, subject to conditions and loan contract verification.

During fiscal year 2008, we discontinued our use of derivative activities. Changes in credit spread are derived from investor demand and competition for available funds. Investor demand can be impacted by sector performance and loan collateral performance. Sector performance factors include the stability of the industry and individual competitors. Uncertainty regarding the ability of the industry as a whole to meet repurchase obligations could impact credit spread demands by investors. Loan collateral performance or anticipated performance can be driven by actual performance of the collateral or by market-related factors impacting the industry as a whole. On December 4, 2007, we announced we would immediately terminate all remaining loan

Table of Contents

origination activities. We believe that only approximately \$20 million to \$30 million of these loans will ultimately be funded, at which time our mortgage origination activities will cease. We believe a majority of these loans will be eligible for sale to Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac).

Residual Interests. Relative to modeled assumptions, an increase or decrease in interest rates would impact the value of our residual interests. Residual interests bear the interest rate risk embedded within the securitization due to an initial fixed-rate period on the loans versus a floating-rate funding cost. Residual interests also bear the ongoing risk that the floating interest rate earned after the fixed period on the mortgage loans is different from the floating interest rate on the bonds sold in the securitization.

We enter into interest rate caps and swaps to mitigate interest rate risk associated with mortgage loans that will be securitized and residual interests that are classified as trading securities because they will be sold in a subsequent NIM transaction. The caps and swaps enhance the marketability of the securitization and NIM transactions. An interest rate cap represents a right to receive cash if interest rates rise above a contractual strike rate, its value therefore increases as interest rates rise. The interest rate used in our interest rate caps and the floating rate used in swaps are based on LIBOR. At October 31, 2007 we had no assets or liabilities recorded related to interest rate caps. We did not securitize any mortgage loans and ceased derivative activities, both during the quarter ended October 31, 2007.

Sensitivity Analysis. The sensitivities of certain financial instruments to changes in interest rates as of October 31, 2007 are presented below. The following table represents hypothetical instantaneous and sustained parallel shifts in interest rates and should not be relied on as an indicator of future expected results.

	Carrying Value at October 31, 2007	Basis Point Change					
		-300	-200	-100	+100	+200	+300
Mortgage loans held for investment	\$ 1,082,301	\$ 32,567	\$ 27,315	\$ 19,403	\$ (21,031)	\$ (44,299)	\$ (66,980)
Mortgage loans held for sale	997,578	43,783	28,873	14,251	(13,581)	(25,144)	(34,812)
Residual interests in securitizations	38,158	(2,566)	(2,202)	(1,344)	1,388	2,337	1,662

The table above addresses changes in interest rates only. See additional discussion of the impact of changes in the markets and the impact to our financial condition and results of operations in note 11 to the condensed consolidated financial statements.

There have been no other material changes in our market risks from those reported at April 30, 2007 in our Annual Report on Form 10-K.

== ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As of the end of the period covered by this Form 10-Q, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures. The controls evaluation was done under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer. Based on this

evaluation, we have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

==
PART II OTHER INFORMATION

==
ITEM 1. LEGAL PROCEEDINGS

The information below should be read in conjunction with the information included in note 8 to our condensed consolidated financial statements.

RAL Litigation. We reported in our annual report on Form 10-K for the year ended April 30, 2007, certain events and information regarding lawsuits regarding the RAL Cases. The RAL Cases have involved a variety of legal theories asserted by plaintiffs. These theories include allegations that, among other things, disclosures in the RAL applications were inadequate, misleading and untimely; the RAL interest rates were usurious and unconscionable; we did not disclose that we would receive part of the finance charges paid by the customer for such loans; untrue, misleading or deceptive statements in marketing RALs; breach of state laws on credit service organizations; breach of contract, unjust enrichment, unfair and deceptive acts or practices; violations of the federal Racketeer Influenced and Corrupt Organizations Act; violations of the federal Fair Debt Collection Practices Act and unfair competition regarding debt collection activities; and that we owe, and breached, a fiduciary duty to our customers in connection with the RAL program.

The amounts claimed in the RAL Cases have been very substantial in some instances. We have successfully defended against numerous RAL Cases, some of which were dismissed on our motions for dismissal or summary judgment, and others were dismissed voluntarily by the plaintiffs after denial of class certification. Other cases have been settled, with one settlement resulting in a pretax expense of \$43.5 million in fiscal year 2003 (the Texas RAL Settlement) and other settlements resulting in a combined pretax expense in fiscal year 2006 of \$70.2 million (the 2006 Settlements). We believe we have meritorious defenses to the remaining RAL Cases and we intend to defend them vigorously.

There can be no assurances, however, as to the outcome of the pending RAL Cases individually or in the aggregate. Likewise, there can be no assurances regarding the impact of the RAL Cases on our financial statements. There were no significant developments regarding the RAL Cases during the fiscal quarter ended October 31, 2007.

Peace of Mind Litigation. *Lorie J. Marshall, et al. v. H&R Block Tax Services, Inc., et al.*, Civil Action 2003L000004, in the Circuit Court of Madison County, Illinois, is a class action case filed on January 18, 2002, that was granted class certification on August 27, 2003. Plaintiffs' claims consist of five counts relating to the Peace of Mind (POM) program under which the applicable tax return preparation subsidiary assumes liability for additional tax assessments attributable to tax return preparation error. The plaintiffs allege that the sale of POM guarantees constitutes (i) statutory fraud by selling insurance without a license, (ii) an unfair trade practice, by omission and by cramming (i.e., charging customers for the guarantee even though they did not request it or want it), and (iii) a breach of fiduciary duty. In August 2003, the court certified the plaintiff classes consisting of all persons who from January 1, 1997 to final judgment (i) were charged a separate fee for POM by H&R Block or a defendant H&R Block class member; (ii) reside in certain class states and were charged a separate fee for POM by H&R Block or a defendant H&R Block class member not licensed to sell insurance; and (iii) had an unsolicited charge for POM posted to their bills by H&R Block or a defendant H&R Block class member. Persons who received the POM guarantee through an H&R Block Premium office and persons who reside in Alabama are excluded from the plaintiff class. The court also certified a defendant class consisting of any entity with names that include H&R Block or HRB, or are otherwise affiliated or associated with H&R Block Tax Services, Inc., and that sold or sells the POM product. The trial court subsequently denied the defendants' motion to certify class certification issues for interlocutory appeal. Discovery is proceeding. No trial date has been set.

There is one other putative class action pending against us in Texas that involves the POM guarantee. This case is being tried before the same judge that presided over the Texas RAL Settlement, involves the same plaintiffs' attorneys that are involved in the Marshall litigation in Illinois, and contains similar allegations. No class has been certified in this case.

We believe the claims in the POM actions are without merit, and we intend to defend them vigorously. The amounts claimed in the POM actions are substantial, however, and there can be no assurances as to the outcome of these

pending actions individually or in the aggregate. Likewise, there can be no assurances regarding the impact of these actions on our consolidated financial statements.

Table of Contents

Electronic Filing Litigation. We are a defendant to a class action filed on August 30, 2002 and entitled *Erin M. McNulty and Brian J. Erzar v. H&R Block, Inc., et al.*, Case No. 02-CIV-4654 in the Court of Common Pleas of Lackawanna County, Pennsylvania, in which the plaintiffs allege that the defendants deceptively portray electronic filing fees as a necessary and required component of standard tax preparation services and do not inform tax preparation clients that they may (i) file tax returns free of charge by mailing the returns, (ii) electronically file tax returns from personal computers either free of charge or at significantly lower fees and (iii) be eligible to electronically file tax returns free of charge via telephone. The plaintiffs seek unspecified damages and disgorgement of all electronic filing, tax preparation and related fees collected during the applicable class period. Class certification was granted in this case on September 5, 2007. We believe the claims in this case are without merit, and we intend to defend them vigorously, but there can be no assurances as to its outcome.

Express IRA Litigation. On March 15, 2006, the New York Attorney General filed a lawsuit in the Supreme Court of the State of New York, County of New York (Index No. 06/401110) entitled *The People of New York v. H&R Block, Inc. and H&R Block Financial Advisors, Inc.* The complaint alleged fraudulent business practices, deceptive acts and practices, common law fraud and breach of fiduciary duty with respect to the Express IRA product and sought equitable relief, disgorgement of profits, damages and restitution, civil penalties and punitive damages. On July 12, 2007, the Supreme Court of the State of New York issued a ruling that dismissed all defendants other than H&R Block Financial Advisors, Inc. and the claims of common law fraud. We intend to defend this case vigorously, but there are no assurances as to its outcome.

In addition to the New York Attorney General action, a number of civil actions were filed against us concerning the Express IRA matter, the first of which was filed on March 17, 2006. Except for two cases pending in state court, all of the civil actions have been consolidated by the panel for Multi-District Litigation into a single action styled *In re H&R Block, Inc. Express IRA Marketing Litigation* in the United States District Court for the Western District of Missouri. We intend to defend these cases vigorously, but there are no assurances as to their outcome.

Securities Litigation. On April 6, 2007, a putative class action styled *In re H&R Block Securities Litigation* was filed against the Company and certain of its officers in the United States District Court for the Western District of Missouri. The complaint alleged, among other things, deceptive, material and misleading financial statements, failure to prepare financial statements in accordance with generally accepted accounting principles and concealment of the potential for lawsuits stemming from the allegedly fraudulent nature of the Company's operations. The complaint sought unspecified damages and equitable relief. On October 5, 2007, the court dismissed the complaint and granted the plaintiffs leave to re-file the portion of the complaint pertaining to the Company's financial statements. On November 19, 2007, the plaintiffs re-filed the complaint, alleging, among other things, deceptive, material and misleading financial statements and failure to prepare financial statements in accordance with generally accepted accounting principles. We intend to defend this litigation vigorously, but there are no assurances as to its outcome.

Other Claims and Litigation. As reported previously, the NASD brought charges against HRBFA regarding the sale by HRBFA of Enron debentures in 2001. The hearing for this matter was concluded in August 2007, and post-hearing briefs were submitted in October 2007. We intend to defend the NASD charges vigorously, although there can be no assurances regarding the outcome and resolution of the matter.

As part of an industry-wide review, the IRS is investigating tax-planning strategies that certain RSM McGladrey (RSM) clients utilized during fiscal years 2000 through 2003. Specifically, the IRS is examining these strategies to determine whether RSM complied with tax shelter reporting and listing regulations and whether such strategies were abusive as defined by the IRS. The IRS has indicated that it will assess a fine against RSM for RSM's alleged failure to comply with the tax shelter reporting and listing regulations. RSM is in discussions with the IRS regarding this penalty, which we believe will not have a material adverse effect on RSM's operations or on our consolidated financial statements. If the IRS were to determine that the tax planning strategies were inappropriate, clients that utilized the strategies could face penalties and interest for underpayment of taxes. Some of these clients are seeking or may attempt to seek recovery from RSM. There can be no assurance regarding the outcome and resolution of this matter. RSM EquiCo, Inc., a subsidiary of RSM, is a party to a putative class action filed on July 11, 2006 and entitled *Do Right's Plant Growers v. RSM EquiCo, Inc., RSM McGladrey, Inc., H&R Block, Inc. and Does 1-100, inclusive*, Case No. 06 CC00137, in the California Superior Court, Orange County. The complaint contains

Table of Contents

allegations regarding business valuation services provided by RSM EquiCo, Inc. including fraud, negligent misrepresentation, breach of contract, breach of implied covenant of good faith and fair dealing, breach of fiduciary duty and unfair competition and seeks unspecified damages, restitution and equitable relief. There can be no assurance regarding the outcome and resolution of this matter.

We have from time to time been party to investigations, claims and lawsuits not discussed herein arising out of our business operations. These investigations, claims and lawsuits include actions by state attorneys general, other state regulators, individual plaintiffs, and cases in which plaintiffs seek to represent a class of similarly situated customers. The amounts claimed in these claims and lawsuits are substantial in some instances, and the ultimate liability with respect to such litigation and claims is difficult to predict. Some of these investigations, claims and lawsuits pertain to RALs, the origination and servicing of mortgage loans, the electronic filing of customers' income tax returns, the POM guarantee program, and our Express IRA program and other investment products and RSM EquiCo, Inc. business valuation services. We believe we have meritorious defenses to each of these claims, and we are defending or intend to defend them vigorously, although there is no assurance as to their outcome. In the event of an unfavorable outcome, the amounts we may be required to pay in the discharge of liabilities or settlements could have a material adverse effect on our consolidated financial statements.

In addition to the aforementioned types of cases, we are parties to claims and lawsuits that we consider to be ordinary, routine litigation incidental to our business, including claims and lawsuits (Other Claims) concerning investment products, the preparation of customers' income tax returns, the fees charged customers for various products and services, losses incurred by customers with respect to their investment accounts, relationships with franchisees, denials of mortgage loans, contested mortgage foreclosures, other aspects of the mortgage business, intellectual property disputes, employment matters and contract disputes. We believe we have meritorious defenses to each of the Other Claims, and we are defending them vigorously. While we cannot provide assurance that we will ultimately prevail in each instance, we believe the amount, if any, we are required to pay in the discharge of liabilities or settlements in these Other Claims will not have a material adverse effect on our consolidated financial statements.

==

ITEM 1A. RISK FACTORS

Item 1A of our Annual Report on Form 10-K for fiscal year 2007 presents risk factors that may impact our future results. In light of recent developments in the mortgage, housing and secondary markets, the following risk factors should be read in conjunction with that discussion.

Potential Sale Transaction. In fiscal year 2007, we entered into an agreement to sell OOMC. On December 4, 2007, we agreed to terminate the agreement in light of the changing business environment for OOMC, as mutually acceptable alternatives for restructuring the original agreement could not be reached. We also announced that we would immediately terminate all remaining origination activities and pursue the sale of OOMC's loan servicing activities.

Following the termination of its loan origination activities, OOMC will continue to carry out its servicing activities and collect servicing revenues as it does today. Because of the cessation of new originations, the volume of mortgage loans serviced will gradually decline as the aggregate principal amount of existing loans being serviced declines without replacement. The majority of servicing activities are carried out with respect to loans owned by third parties. We have estimated the fair values of the servicing business and other assets, which resulted in an additional impairment for the second quarter ending October 31, 2007 of \$123.0 million. Although we are actively pursuing the sale of our remaining loan servicing activities, it is possible that we will be unsuccessful in selling or selling at a price that does not result in further impairment.

Liquidity and Capital. We use capital primarily to fund working capital requirements, pay dividends and acquire businesses.

Market conditions and recent credit-rating downgrades have negatively impacted our ability to issue commercial paper. As a result, we had no commercial paper outstanding at October 31, 2007. As an alternative to commercial paper issuance, we have been borrowing under our unsecured revolving committed lines of credit (CLOCs) to support working capital requirements arising from off-season operating losses in our Tax Services and Business Services

segments and operating losses from our mortgage businesses. We had

Table of Contents

borrowings totaling \$1.6 billion outstanding under our CLOCs at October 31, 2007, of a total borrowing capacity of \$2.0 billion. Subsequent to October 31, 2007, we drew additional funds on the CLOCs to bring total borrowings to \$1.8 billion as of the date of this filing.

The CLOCs, among other things, require we maintain at least \$650.0 million of Adjusted Net Worth, as defined in the agreement, on the last day of any fiscal quarter. On November 19, 2007, effective October 31, 2007, the CLOCs were amended to, among other things, require \$450.0 million of Adjusted Net Worth, for the fiscal quarters ending October 31, 2007 and January 31, 2008. Before the end of the second quarter, we initiated efforts to seek an amendment to the Minimum Net Worth Requirement (i) in light of the possibility that we might not have met the Minimum Net Worth Requirement for the fiscal quarter ended October 31, 2007, (ii) to obtain flexibility for purposes of negotiating a sale of OOMC, and (iii) in light of the possibility that, without the amendment, we would not be in compliance with the Minimum Net Worth Covenant as of January 31, 2008 without taking steps to raise additional capital. When financial results for the six months ended October 31, 2007 were finalized, we determined that we had an Adjusted Net Worth of \$544.3 million at October 31, 2007, primarily due to operating losses of our discontinued operations.

A further disruption in credit markets, or a violation of covenants under our CLOCs, could adversely affect our access to these funds. In addition, it is possible that the borrowing capacity under our CLOCs may not be sufficient to meet our financing needs. To meet our future financing needs we may be required issue additional debt or equity securities. As part of our loan servicing responsibilities, we are required to advance funds to cover delinquent scheduled principal and interest payments to security holders, as well as to cover delinquent tax and insurance payments and other costs required to protect the investors' interest in the collateral securing the loans. Generally, servicing advances are recoverable from either the mortgagor, the insurer of the loan or the investor through the non-recourse provision of the loan servicing contract. In light of increased delinquencies of mortgage loans that we service, the amount of funds we are required to advance on a monthly basis has been increasing. Servicing advances and related assets totaled \$821.4 million, \$510.2 million and \$445.4 million at October 31, 2007, July 31, 2007 and April 30, 2007, respectively. We expect the volume of servicing advances to increase, although we cannot know the volume of servicing advances that are likely to be required in any given period.

Delinquencies and corresponding servicing advances increase significantly when adjustable rate mortgages (ARMs) initially reset. At October 31, 2007 OOMC serviced 340.2 million mortgage loans, of which approximately 63% are ARMs. OOMC is actively working with borrowers to minimize delinquencies, including modifying loans and notifying borrowers of upcoming rate changes prior to their reset date.

On October 1, 2007, OOMC entered into a facility to fund servicing advances, which provides funding of up to \$400.0 million. On November 16, 2007, this agreement was amended to increase the amount of funding available from \$400.0 million to \$750.0 million. To meet our servicing advance obligations, we may need to increase the size of our facility that funds servicing advances, obtain other servicing advance financing or sell portions of our mortgage servicing rights. It is possible that we (i) may not be able to obtain additional servicing advance financing, (ii) may not be able to sell mortgage servicing rights within a timeframe that would allow us to reduce our servicing advance obligations on a timely basis or (iii) may be forced to sell mortgage servicing rights at prices that will result in further impairment.

In April 2007, we obtained a \$500.0 million credit facility to provide funding for the \$500.0 million of 8 1/2% Senior Notes which were due April 16, 2007. This facility matures on December 20, 2007. We have a signed commitment to extend \$250.0 million of this to the end of April 2008. We have also received a verbal credit approval to extend the remaining \$250.0 million, with a paydown schedule from January 31, 2008 to February 28, 2008. See additional discussion in note 4 to the condensed consolidated financial statements.

Market and Credit Risks. Our day-to-day operating activities of originating and selling mortgage loans have many aspects of interest rate risk. Additionally, the valuation of our retained residual interests and mortgage servicing rights includes many estimates and assumptions made by management surrounding interest rates, prepayment speeds and credit losses. Variation in interest rates or the factors underlying our assumptions could affect our results of operations.

Conditions in the non-prime mortgage industry continued to be challenging into fiscal year 2008. Our mortgage operations, as well as the entire industry, were impacted by deteriorating conditions in the secondary market, where reduced investor demand for loan purchases, higher investor yield requirements and increased

Table of Contents

estimates for future losses reduced the value of non-prime loans. Under these conditions non-prime originators generally reported significant increases in losses and many were unable to meet their financial obligations. Conditions in the non-prime mortgage industry resulted in significant losses in our mortgage operations during fiscal year 2007 and 2008. The mortgage industry continues to be extremely volatile, which could result in further impairments to our residual interests and loans held for sale, or further losses as a result of obligations to repurchase loans previously sold.

We held mortgage loans for investment totaling \$1.1 billion at October 31, 2007. The overall credit quality of mortgage loans held for investment is impacted by the strength of the U.S. economy and local economic conditions, including residential housing prices. Economic trends that negatively affect housing prices and the job market could result in deterioration in credit quality of our mortgage loan portfolio and a decline in the value of associated collateral. As discussed above, future ARM resets could also lead to increased delinquencies in our mortgage loans held for investment. Recent trends in the residential mortgage loan market reflect an increase in loan delinquencies and declining collateral values. As a result of similar trends in our loan portfolio, we recorded loan loss provisions totaling \$9.8 million during the quarter ended October 31, 2007.

To the extent that market conditions remain volatile, or fail to improve, our mortgage business may continue to incur operating losses and asset impairments. See additional discussion of the performance of our mortgage operations in Part I, Item 2, under Discontinued Operations. If adverse trends in the residential mortgage loan market continue, including adverse trends in our mortgage loan portfolio specifically, we could incur additional significant loan loss provisions.

Regulatory Environment Banking. H&R Block, Inc. is subject to a three percent minimum ratio of adjusted tangible capital to adjusted total assets, as defined by the OTS. We fell below the three percent minimum ratio at April 30, 2007. We notified the OTS of our failure to meet this requirement, and on May 29, 2007, the OTS issued a Supervisory Directive. We submitted a revised capital plan to the OTS on July 19, 2007, in which we expected to meet the three percent minimum ratio at April 30, 2008. The OTS accepted our revised capital plan.

The Supervisory Directive included additional conditions that we will be required to meet in addition to the Master Commitment. The significant additional conditions included in the Supervisory Directive are as follows: (1) requires HRB Bank to extend its compliance with a minimum 12.0% leverage ratio through fiscal year 2012; (2) requires H&R Block, Inc. to comply with the Master Commitment at all times, except for the projected capital levels and compliance with the three percent minimum ratio, as provided in the fiscal year 2008 and 2009 capital adequacy projections presented to the OTS on July 19, 2007; (3) institutes reporting requirements to the OTS quarterly and monthly by the Board of Directors and management, respectively; and (4) requires HRB Bank's Board of Directors to have an independent chairperson and at least the same number of outside directors as inside directors.

Operating losses of our discontinued operations for the first half of fiscal year 2008 were higher than projected in our revised capital plan that was submitted to the OTS in July 2007. As a result, our capital levels are lower than those projections. H&R Block, Inc. continued to be below the three percent minimum ratio during our second quarter, and had adjusted tangible capital of negative \$644.4 million, and a requirement of \$177.5 million to be in compliance at October 31, 2007.

In November 2007, the OTS directed us to submit a new revised capital plan no later than January 15, 2008. At this time, we do not expect to be in compliance with the three percent minimum ratio at April 30, 2008. We do not expect to be in a position to repurchase treasury shares until sometime after fiscal year 2009. Achievement of the capital plan depends on future events and circumstances, the outcome of which cannot be assured. If we are not in a position to cure deficiencies and if operating results continue to be below our plan, a resulting failure could impair our ability to repurchase shares of our common stock, acquire businesses or pay dividends.

Failure to meet the conditions under the Master Commitment and the Supervisory Directive, including capital levels of H&R Block, Inc., could result in the OTS taking further regulatory actions, such as a supervisory agreement, cease-and-desist orders and civil monetary penalties. The OTS could also require us to sell assets, which could negatively impact our financial statements. At this time, the financial impact, if any, of additional regulatory actions cannot be determined. See note 6 to the condensed consolidated financial statements for additional information.

Table of Contents

Regulatory Environment Tax Services. The Alternative Minimum Tax (AMT) was enacted in 1969 to ensure that a small number of high-income taxpayers could not use special tax deductions to substantially eliminate their tax. Because this initial legislation was not indexed for inflation, an increasing number of taxpayers are becoming subject to AMT. Congressional action is pending which would modify the AMT legislation to limit the number of affected taxpayers for the 2007 tax year. Until such time as pending Congressional action becomes law, the IRS has indicated it may need to postpone processing of tax returns scheduled to begin in mid-January 2008, and has further stated it will need approximately seven weeks to revise and test forms reflecting changes that result from the legislation. Delays by the IRS in return-processing may result in a shifting of our revenues from our fiscal third quarter to our fourth quarter, could potentially result in a decline in the number of tax returns we prepare during the 2008 fiscal year, and could cause us to incur additional operating expenses. The ultimate outcome of pending Congressional action and the ultimate effect to our business and financial results is uncertain. Other than the items discussed above, there have been no material changes in our risk factors from those reported at April 30, 2007 in our annual Report on Form 10-K.

==
ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES

A summary of our purchases of H&R Block common stock during the second quarter of fiscal year 2008 is as follows:

(shares in 000s)

	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Number of Shares that May Be Purchased Under the Plans or Programs ⁽²⁾
August 1 - August 31	4	\$ 19.62	-	22,352
September 1 - September 30	6	\$ 19.89	-	22,352
October 1 - October 31	5	\$ 21.91	-	22,352

(1) We purchased 14,667 shares in connection with the funding of employee income tax withholding obligations arising upon the exercise of stock options or the lapse of restrictions on nonvested shares.

(2) On June 9, 2004, our Board of Directors approved the repurchase of 15.0 million shares of H&R Block, Inc. common stock. On June 7, 2006, our Board approved an additional authorization to repurchase 20.0 million shares. These authorizations have no expiration date.

==
ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Our annual meeting of shareholders was held on September 6, 2007, at which three Class III directors were elected to serve three-year terms and the proposals set forth below were submitted to a vote of shareholders. The number of votes cast for, against or withheld, the number of abstentions, and the number of no votes (if applicable) for the election of directors and each proposal were as follows:

Election of Class III Directors

Edgar Filing: H&R BLOCK INC - Form 10-Q

Nominee	Votes FOR	Votes WITHHELD	Votes AGAINST
Donna R. Ecton	44,912,204	3,969,823	1,135,597
Louis W. Smith	44,805,117	4,102,772	1,109,734
Rayford Wilkins, Jr.	44,888,139	4,267,254	862,228
Richard C. Breeden	232,776,544	153,052	688,316
Robert A. Gerard	226,255,916	6,688,437	673,557
L. Edward Shaw	226,230,116	6,699,269	688,526

Ratification of the Appointment of KPMG LLP as our Independent Accountants for the fiscal year ended April 30, 2008

Votes For	279,695,522
Votes Against	2,659,133
Abstain	1,280,878
