NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS NMHG HOLDING CO. AND SUBSIDIARIES SEPTEMBER 30, 2003 (Tabular Amounts in Millions)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements include the accounts of NMHG Holding Co. ("NMHG Holding," the parent company), a Delaware corporation, and its wholly owned subsidiaries, NACCO Materials Handling Group, Inc. ("NMHG Wholesale") and NMHG Distribution Co. ("NMHG Retail") (collectively, "NMHG" or the "Company"). Intercompany accounts and transactions have been eliminated. NMHG Holding is a wholly owned subsidiary of NACCO Industries, Inc. ("NACCO"). The Company's subsidiaries operate in the lift truck industry. The Company manages its lift truck operations as two reportable segments: wholesale manufacturing and retail distribution.

Edgar Filing: NMHG HOLDING CO - Form 10-Q

NMHG designs, engineers, manufactures, sells, services and leases a comprehensive line of lift trucks and aftermarket parts and services marketed globally under the Hyster(R) and Yale(R) brand names. NMHG Wholesale includes the manufacture and sale of lift trucks and related service parts, primarily to independent and wholly owned Hyster and Yale retail dealerships. NMHG Retail includes the sale, leasing and service of Hyster and Yale lift trucks and related service parts by wholly owned retail dealerships and rental companies.

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position of the Company as of September 30, 2003 and the results of its operations for the three and nine month periods ended September 30, 2003 and 2002 and the results of its cash flows and changes in stockholder's equity for the nine month periods ended September 30, 2003 and 2002 have been included.

The balance sheet at December 31, 2002 has been derived from the audited financial statements at that date but does not include all of the information or notes required by accounting principles generally accepted in the United States for complete financial statements.

Operating results for the three and nine month periods ended September 30, 2003 are not necessarily indicative of the results that may be expected for the remainder of the year ending December 31, 2003. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2002.

Certain amounts in the prior period's Unaudited Condensed Consolidated Statement of Cash Flows have been reclassified to conform to the current period's presentation.

NOTE 2 - INVENTORIES

Inventories are summarized as follows:

	SEPTEMBER 30 2003 ----	DECEMBER 31 2002 ----
Manufactured inventories:		
Finished goods and service parts	\$ 122.6	\$ 99.9
Raw materials and work in process	127.4	110.3
	-----	-----
Total manufactured inventories	250.0	210.2
Retail inventories	27.6	23.4
	-----	-----
Total inventories at FIFO	277.6	233.6
LIFO reserve	(14.0)	(11.6)
	-----	-----
	\$ 263.6	\$ 222.0
	=====	=====

Edgar Filing: NMHG HOLDING CO - Form 10-Q

The cost of certain manufactured and retail inventories, including service parts, has been determined using the LIFO method. At September 30, 2003 and December 31, 2002, 63% and 64%, respectively, of total

7

inventories were determined using the LIFO method. An actual valuation of inventory under the LIFO method can be made only at the end of the year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations must necessarily be based on management's estimates of expected year-end inventory levels and costs. Because these estimates are subject to change and may be different than the actual inventory levels and costs at year-end, interim results are subject to the final year-end LIFO inventory valuation.

NOTE 3 - RESTRUCTURING CHARGES

The changes to the Company's restructuring accruals since December 31, 2002 are as follows:

Balance at December 31, 2002	\$ 9.3	\$ ---	\$.9	\$ 10.2 (a)

BALANCE AT SEPTEMBER 30, 2003	\$.4 =====	\$.2 =====	\$ --- =====	\$.6 =====

(a) The December 31, 2002 balance indicated in the table above does not include \$7.6 million in curtailment losses relating to pension and other post-retirement benefits which will not be paid until employees reach retirement age. These amounts were accrued in the fiscal year ended December 31, 2000 as part of the restructuring of the Danville, Illinois assembly plant. Final severance payments for the Danville restructuring plan were made in 2002.

NMHG 2002 RESTRUCTURING PROGRAM

As announced in December 2002, NMHG Wholesale is phasing out its Lenoir, North Carolina, lift truck component facility and restructuring other manufacturing and administrative operations, primarily its Irvine, Scotland, lift truck assembly and component facility. During the fourth quarter of 2002, NMHG Wholesale recognized a restructuring charge of approximately \$12.5 million pre-tax. Of this amount, \$3.8 million related to a non-cash asset impairment charge for a building, machinery and tooling, which was determined based on the then current market values for similar assets and broker quotes as compared to

Edgar Filing: NMHG HOLDING CO - Form 10-Q

the net book value of these assets; and \$8.7 million related to severance and other employee benefits to be paid to approximately 615 manufacturing and administrative employees. Payments began during the second quarter of 2003. As of September 30, 2003, payments of \$1.2 million were made to approximately 150 employees. Payments are expected to continue through 2005. In addition, \$0.3 million of the amount accrued at December 31, 2002 was reversed in the first nine months of 2003 as a result of a reduction in the estimate of employees eligible to receive severance payments. Included in the table above is \$0.9 million accrued for post-employment benefits. Approximately \$5.4 million of pre-tax restructuring related costs which were not eligible for accrual in December 2002, primarily related to manufacturing inefficiencies, were expensed in the first nine months of 2003 and are not shown in the table above. Of the \$5.4 million additional costs incurred during 2003, \$5.1 million is classified as cost of sales and \$0.3 million is classified as selling, general, and administrative expenses in the Unaudited Condensed Consolidated Statement of Operations for the nine months ended September 30, 2003.

NMHG 2001 RESTRUCTURING PROGRAMS

During 2001, management committed to the restructuring of certain operations in Europe for both the Wholesale and Retail segments of the business. As such, NMHG Wholesale recognized a restructuring charge of approximately \$4.5 million pre-tax for severance and other employee benefits to be paid to approximately 285 direct and indirect factory labor and administrative personnel in Europe. As of December 31, 2002, payments of \$3.4 million to approximately 245 employees had been made and \$0.2 million of the amount originally accrued was reversed in 2002. Although the majority of the headcount

8

reductions were made by the end of 2002, final payments of \$0.9 million were made to 16 employees during the first nine months of 2003.

NMHG Retail recognized a restructuring charge of approximately \$4.7 million pre-tax in 2001, of which \$0.4 million related to lease termination costs and \$4.3 million related to severance and other employee benefits to be paid to approximately 140 service technicians, salesmen and administrative personnel at wholly owned dealers in Europe. As of December 31, 2002, severance payments of \$2.8 million had been made to approximately 110 employees. Although the majority of the headcount reductions were made by the end of 2002, during the first nine months of 2003, severance payments of \$0.4 million were made to seven employees. In addition, \$0.7 million of the amount accrued at December 31, 2002 was reversed in the first nine months of 2003 as a result of a reduction in the estimate of the total number of employees to receive severance as well as a reduction in the average amount to be paid to each employee. The remaining severance payments are expected to be completed during 2004. In addition, the lease impairment accrual was increased by \$0.2 million during 2003 as a result of additional lease expense.

NOTE 4 - ACCOUNTING FOR GUARANTEES

In November 2002, the Financial Accounting Standards Board ("FASB") issued Interpretation ("FIN") No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." FIN No. 45 requires guarantors to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee for those guarantees initiated or modified after December 31, 2002. However, certain guarantees, including product warranties and guarantees between parties under common control (i.e., parent and subsidiary), are not required to be recognized at fair value at inception. FIN No. 45 also requires additional disclosures of guarantees, including product warranties and

Edgar Filing: NMHG HOLDING CO - Form 10-Q

guarantees between parties under common control, beginning with interim or annual periods ending after December 15, 2002. Guarantees initiated prior to December 31, 2002 are not recognized as a liability measured at fair value per FIN No. 45, but are subject to the disclosure requirements. The Company has made the required disclosures in these financial statements. Also, the Company has recognized guarantees included within the scope of FIN No. 45 and initiated after December 31, 2002 as liabilities measured at fair value. The adoption of the fair value provisions of FIN No. 45 did not have a material impact on the Company's financial position or results of operations for the three or nine months ended September 30, 2003.

Under various financing arrangements for certain customers, including independently owned retail dealerships, NMHG provides guarantees of the residual values of lift trucks, or recourse or repurchase obligations such that NMHG would be obligated in the event of default by the customer. Terms of the third-party financing arrangements for which NMHG is providing a guarantee generally range from one to five years. Total guarantees and amounts subject to recourse or repurchase obligations at September 30, 2003 and December 31, 2002 were \$169.3 million and \$153.6 million, respectively. Losses anticipated under the terms of the guarantees, recourse or repurchase obligations, which are not significant, have been reserved for in the accompanying Unaudited Condensed Consolidated Financial Statements. Generally, NMHG retains a security interest in the related assets financed such that, in the event that NMHG would become obligated under the terms of the recourse or repurchase obligations, NMHG would take title to the assets financed. The fair value of collateral held at September 30, 2003 was approximately \$181.9 million, based on Company estimates. The Company estimates the fair value of the collateral using information regarding the original sales price, the current age of the equipment, the type of equipment and general market conditions that influence the value of both new and used forklift trucks.

NMHG has a 20% ownership interest in NMHG Financial Services, Inc. ("NFS"), a joint venture with GE Capital Corporation ("GECC"), formed primarily for the purpose of providing financial services to Hyster and Yale lift truck dealers and national account customers in the United States. NMHG's ownership in NFS is accounted for using the equity method of accounting. Generally, NMHG sells lift trucks through its independent dealer network or directly to customers. These dealers and customers may enter into a financing transaction with NFS or another unrelated third-party. NFS provides debt financing to dealers and lease financing to both dealers and customers. On occasion, the credit quality of the customer or concentration issues within GECC necessitate providing standby recourse or repurchase obligations or a guarantee of the residual value of the lift trucks purchased by customers and financed through NFS. At September 30, 2003, \$126.7 million of the \$169.3 million of guarantees discussed above related to transactions with NFS. In addition, in connection with the formation of the current joint venture agreement that expires in April 2004, NMHG also provides a guarantee to GECC for 20% of NFS' debt with GECC, such that NMHG would become liable under the terms of NFS' debt agreements with GECC in the case of default by NFS. At September 30, 2003, the amount of NFS' debt guaranteed by NMHG was \$101.2 million. NFS has not defaulted under the terms of this debt financing in the past and although there can be

9

no assurances, NMHG is not aware of any circumstances that would cause NFS to default in future periods.

NMHG provides a standard warranty on its lift trucks, generally for six to twelve months or 1,000 to 2,000 hours. In addition, NMHG sells extended warranty agreements which provide additional warranty up to three to five years or up to 3,600 to 10,000 hours. The specific terms and conditions of those warranties vary depending upon the product sold and the country in which NMHG does

Edgar Filing: NMHG HOLDING CO - Form 10-Q

business. Revenue received for the sale of extended warranty contracts is deferred and recognized in the same manner as the costs are incurred to perform under the warranty contracts, in accordance with FASB Technical Bulletin 90-1, "Accounting for Separately Priced Extended Warranty and Product Maintenance Contracts." The Company estimates the costs that may be incurred under its warranty programs, both standard and extended, and records a liability for such costs at the time product revenue is recognized. Factors that affect the Company's warranty liability include the number of units sold, historical and anticipated rates of warranty claims and the cost per claim. Additionally, NMHG maintains a quality enhancement program under which it provides for specially identified field product improvements in its warranty obligation. Accruals under this program are determined based on estimates of the potential number of claims to be processed and the cost of processing those claims. The Company periodically assesses the adequacy of its recorded warranty liabilities and adjusts the amounts as necessary.

Changes in the Company's current and long-term warranty obligations, including deferred revenue on extended warranty contracts, during the nine months ended September 30, 2003 are as follows:

Balance at December 31, 2002	\$	41.9
Warranties issued		23.4
Settlements made		(24.0)
Changes in estimates		(2.2)
Foreign currency effect		.3

BALANCE AT SEPTEMBER 30, 2003	\$	39.4
		=====

As part of its periodic review of warranty estimates, the Company reduced its warranty accrual by \$2.2 million during the nine months ended September 30, 2003, based on recent history of the volume of claims processed, the amount of those claims and expectations of future trends under its warranty programs. This adjustment is not necessarily indicative of future trends or adjustments that may be required to adjust the warranty accrual in future periods.

NOTE 5 - UNAUDITED CONDENSED CONSOLIDATING GUARANTOR AND NON-GUARANTOR FINANCIAL INFORMATION

The following tables set forth the unaudited condensed consolidating statements of operations for the three and nine month periods ended September 30, 2003 and 2002, the condensed consolidating balance sheets as of September 30, 2003 and December 31, 2002, and the condensed consolidating statements of cash flows for the nine month periods ended September 30, 2003 and 2002. The following information is included as a result of the guarantee of the Parent Company's Senior Notes by each of NMHG's wholly owned U.S. subsidiaries ("Guarantor Companies"). None of the Company's other subsidiaries has guaranteed the Senior Notes. Each of the guarantees is joint and several and full and unconditional. "NMHG Holding" includes the consolidated financial results of the parent company only, with all of its wholly owned subsidiaries accounted for under the equity method. Certain amounts in the prior periods' financial information have been reclassified to conform to the current period's presentation.

NACCO charges fees to its operating subsidiaries for services provided by NACCO's corporate headquarters. The amounts charged to NMHG were \$2.0 million and \$6.1 million for the three and nine month periods ended September 30, 2003, respectively. This compares with \$1.7 million and \$5.2 million for the three and nine month periods ended September 30, 2002, respectively.

NOTE 7 - ACCOUNTING CHANGES

On April 30, 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." SFAS No. 149 amends and clarifies accounting for derivatives and hedging based on decisions made: (a) previously as part of the Derivative Implementation Group process, (b) in connection with other FASB projects and (c) regarding other issues raised, including the characteristics of a derivative that contains a financing component. SFAS No. 149 is effective for contracts entered into or modified after June 30, 2003. The adoption of SFAS No. 149 did not have a material impact on the Company's financial position or its results of operations.

Edgar Filing: NMHG HOLDING CO - Form 10-Q

On May 15, 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity." SFAS No. 150 provides guidance on how an entity classifies and measures certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. SFAS No. 150 requires the recognition of a cumulative effect of a change in accounting transition adjustment for financial instruments existing at the adoption date. On October 29, 2003, the FASB deferred the application of the requirements of SFAS No. 150 as they apply to noncontrolling interests of a limited-life subsidiary. The adoption of the remaining provisions of SFAS No. 150 did not have a material impact on the Company's financial position or its results of operations.

In November 2002, the FASB issued Emerging Issues Task Force ("EITF") No. 00-21, "Accounting for Revenue Arrangements with Multiple Deliverables." EITF No. 00-21 addresses when and how an arrangement involving multiple deliverables should be divided into separate units of accounting, as well as how the arrangement consideration should be measured and allocated to the separate units of accounting in the arrangement. The Company prospectively adopted the provisions of EITF No. 00-21 on July 1, 2003 as required. The adoption of this standard did not have a material impact on the Company's financial position or results of operations.

NOTE 8 - ACCOUNTING STANDARDS NOT YET ADOPTED

In January 2003, the FASB issued FIN No. 46, "Consolidation of Variable Interest Entities." FIN No. 46 clarifies the application of Accounting Research Bulletin ("ARB") No. 51, "Consolidated Financial Statements" for certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN No. 46 requires that variable interest entities, as defined, should be consolidated by the primary beneficiary, which is defined as the entity that is expected to absorb the majority of the expected losses, receive a majority of the expected gains, or both.

At its October 8, 2003 meeting, the FASB amended FIN No. 46 to defer the adoption requirements until the first interim or annual period ending after December 15, 2003. Therefore, the Company will adopt FIN No. 46 for the reporting period beginning on October 1, 2003, as required. NMHG has an interest in a variable interest entity, NFS. The Company, however, has concluded that NMHG is not the primary beneficiary and the Company does not consider NMHG's variable interest to be significant. NMHG will continue to use the equity method to account for its 20% interest in NFS. The Company continues to review other entities with which NMHG is affiliated to determine if they meet the definition of a variable interest entity. The Company expects to complete its analysis and adopt FIN No. 46 during the fourth quarter of 2003.

NOTE 9 - EQUITY INVESTMENTS

NMHG has a 20% ownership interest in NFS, a joint venture with GECC, formed primarily for the purpose of providing financial services to Hyster and Yale lift truck dealers and national account customers in the United States. NMHG's ownership in NFS is accounted for using the equity method of accounting. See Notes 4 and 8.

NMHG has a 50% ownership interest in Sumitomo NACCO Materials Handling Company,

Edgar Filing: NMHG HOLDING CO - Form 10-Q

Ltd. ("SN"), a limited liability company which was formed primarily for the manufacture and distribution of Sumitomo-Yale branded lift trucks in Japan and the export of Hyster and Yale branded lift trucks and related components and service parts outside of Japan. NMHG purchases products from SN under normal trade terms.

Summarized financial information for these equity investments is as follows:

A reconciliation of NMHG Retail's federal statutory and effective income tax is as follows for the three and nine months ended September 30:

	THREE MONTHS		NINE MONTHS	
	2003	2002	2003	2002

Income tax provision (benefit)	\$ (3.7)	\$ (.6)	\$ (4.7)	\$ (3.1)
Effective rate	(a)	27.3 %	82.5%	32.0

(a) The effective tax rate for the three months ended September 30, 2003 is not meaningful.

During the third quarter of 2003, NMHG Retail reversed \$2.8 million in valuation allowances related to foreign net operating loss carryforwards. As a result of non-U.S. tax law changes, the Company now expects to utilize these foreign net operating loss carryforwards.

THIRD QUARTER OF 2003 COMPARED WITH THIRD QUARTER OF 2002

Edgar Filing: NMHG HOLDING CO - Form 10-Q

NMHG WHOLESALE: Revenues increased \$24.9 million, or 7.3%, to \$367.2 million in the third quarter of 2003 from \$342.3 million in the third quarter of 2002. The increase in revenues was primarily due to (i) a \$15.1 million increase as a result of improved unit volume worldwide, (ii) a \$13.0 million increase due to favorable foreign currency movements and (iii) \$4.7 million of other improvements primarily as a result of a shift in product mix to higher-priced lift trucks. These increases were partially offset by a \$7.9 million decrease in parts sales, as a result of a partial shift to direct ship sales, resulting in revenue recognition on a net rather than gross basis. Lift truck shipments increased 5.6% to 16,163 units in the third quarter of 2003 from 15,299 units in the third quarter of 2002.

Operating profit decreased \$5.8 million to \$7.1 million in the third quarter of 2003 from \$12.9 million in the third quarter of 2002. Operating profit as a percentage of revenues was 1.9% in the third quarter of 2003 versus 3.8% in the third quarter of 2002. The decrease in operating profit was due to a \$19.1 million increase in cost of goods sold and a \$11.6 million increase in selling, general and administrative expenses partially offset by increases in operating profit attributable to the \$24.9 million increase in revenues discussed above and improved parts margins. The increase in cost of goods sold was directly related to the increase in revenues and a \$2.6 million increase in restructuring charges as a result of additional expenses related to the previously announced phase-out of the Lenoir, North Carolina lift truck component facility. The total additional restructuring expenses recognized in the third quarter was \$2.9 million. These expenses were not eligible for accrual in 2002. See additional discussion of the NMHG Wholesale restructuring programs under the heading "NMHG Restructuring Plans" in this Form 10-Q. The increase in selling, general and administrative expenses was principally due to the timing of marketing programs and employee expenses and increased product development costs.

Net income increased \$0.8 million to \$1.6 million in the third quarter of 2003 from \$0.8 million in the third quarter of 2002. The decrease in operating profit discussed above was more than offset by two non-comparable charges taken in the third quarter of 2002: a \$3.0 million pre-tax charge for the impairment of certain investments in unconsolidated affiliates and a \$1.7 million pre-tax charge for (i) the mark-to-market of interest rate swap agreements that no longer qualified for hedge accounting following the refinancing of NMHG's debt in May 2002 and (ii) the recognition of previously deferred losses on these interest rate swap agreements. Additionally, NMHG Wholesale's net income for the third quarter of 2003 was positively effected by a \$0.9 million decrease in interest expense, primarily due to the cost of interest rate swap agreements prior to their termination during the third quarter of 2002, and a \$0.4 million decrease in income taxes primarily due to reductions in 2003's effective tax rates during the quarter ended September 30, 2003, as detailed in the tax reconciliation table above.

FINANCIAL REVIEW - continued

The worldwide backlog level increased to 20,100 units at September 30, 2003 from 18,700 units at September 30, 2002 and 19,400 units at June 30, 2003 primarily due to an increase in demand.

NMHG RETAIL (NET OF ELIMINATIONS): Revenues decreased \$2.6 million, or 6.0%, to \$40.7 million in the third quarter of 2003 from \$43.3 million in the third quarter of 2002. This decrease was primarily due to the January 3, 2003 sale of NMHG Retail's only wholly owned U.S. dealer, partially offset by higher revenues in Europe and Asia-Pacific principally resulting from foreign currency effects. NMHG Retail-Americas' revenues were \$6.4 million in the third quarter of 2002.

Edgar Filing: NMHG HOLDING CO - Form 10-Q

Operating loss for the third quarter of 2003 was \$1.3 million as compared with an operating profit of \$0.2 million in the third quarter of 2002. Operating profit (loss) as a percentage of revenues was (3.2%) in the third quarter of 2003 versus 0.5% in the third quarter of 2002. The decrease in operating profit was due to the \$2.6 million decrease in revenues discussed above and a \$1.8 million increase in cost of goods sold offset by a \$2.9 million decrease in selling, general and administrative expenses. The increase in cost of goods sold was primarily due to increased costs related to rental and service contracts as a result of increased repair and maintenance expenditures. This was partially offset by the favorable effect of selling the unprofitable wholly owned U.S. dealer, which had an operating loss of \$1.2 million in the third quarter of 2002.

Net income increased \$2.6 million to \$1.0 million in the third quarter of 2003 from a net loss of \$1.6 million in the third quarter of 2002 primarily due to a \$2.8 million tax benefit realized in the third quarter of 2003 in NMHG Retail's Asia-Pacific operations. As a result of non-U.S. tax law changes, NMHG now expects to utilize certain foreign net operating loss carryforwards previously reserved.

FIRST NINE MONTHS OF 2003 COMPARED WITH FIRST NINE MONTHS OF 2002

NMHG WHOLESALE: Revenues increased \$121.8 million, or 12.0%, to \$1,139.0 million in the first nine months of 2003 from \$1,017.2 million in the first nine months of 2002. The increase in revenues was primarily the result of a \$72.5 million increase in unit volume and \$54.6 million in favorable foreign currency movements. Unit shipments increased 9.0% to 50,576 units in the first nine months of 2003 as compared with 46,405 in the first nine months of 2002.

Operating profit increased \$3.8 million to \$36.3 million in the first nine months of 2003 from \$32.5 million in the first nine months of 2002. Operating profit was 3.2% of revenues in both the nine months ended September 30, 2003 and 2002. The increase in operating profit was the result of the \$121.8 million increase in revenues discussed above and increases attributable to a shift in mix to higher-margin lift trucks and improved margins on parts sales. These factors were partially offset by a \$94.0 million increase in cost of goods sold and a \$24.0 million increase in selling, general and administrative expenses. The increase in cost of goods sold was directly related to the increase in revenues and a \$4.3 million increase in restructuring charges. Restructuring charges increased primarily as a result of additional expenses related to the previously announced phase-out of the Lenoir, North Carolina lift truck component facility. These expenses were not eligible for accrual in 2002. See additional discussion of the NMHG Wholesale restructuring programs under the heading "NMHG Restructuring Plans" in this Form 10-Q. The increase in selling, general and administrative expenses was mainly due to increased marketing and product development expenses as well as unfavorable foreign currency effects, largely as a result of the weakening U.S. dollar against the euro.

Net income increased \$3.7 million to \$12.6 million in the first nine months of 2003 from \$8.9 million in the first nine months of 2002. The increase in net income was due to the factors affecting operating profit discussed above as well as a \$3.8 million pre-tax decrease in the loss on interest rate swap agreements during the first nine months of 2002 due to (i) the inclusion in the year-to-date 2002 results of an expense for the mark-to-market of interest rate swap agreements that no longer qualified for hedge accounting following the refinancing of NMHG's debt in May 2002 and (ii) the recognition of previously deferred losses on these interest rate swap agreements. Additionally, the year-to-date 2002 results include a \$3.0 million pre-tax charge for the impairment of certain investments in unconsolidated affiliates. These factors were partially offset by a \$3.4 million increase in interest expense, including the amortization of deferred financing fees, and the inclusion in the

Edgar Filing: NMHG HOLDING CO - Form 10-Q

year-to-date 2002 results of a \$1.9 million tax benefit related to the recognition of previously generated losses in China.

NMHG RETAIL (NET OF ELIMINATIONS): Revenues decreased \$12.6 million, or 9.8%, to \$116.3 million in the first nine months of 2003 from \$128.9 million in the first nine months of 2002. The decrease in revenues was primarily due to the January 3, 2003 sale of NMHG Retail's only wholly owned U.S. dealer. Excluding the results of the Americas' operations, revenues increased \$6.6 million, primarily due to \$22.7 million in favorable foreign currency effects, partially offset by a \$5.6 million decrease in revenues from service contracts, \$3.4 million in reduced parts sales and \$2.9 million in lower used truck sales.

Operating loss decreased \$0.2 million to \$2.2 million in the first nine months of 2003 from \$2.4 million in the first nine months of 2002. Operating loss as a percentage of revenues was (1.9%) in both the nine months ended September 30, 2003 and September 30, 2002. The decrease in operating loss was primarily due to the \$3.9 million favorable effect of disposing of unprofitable wholly owned dealerships, including NMHG Retail's only wholly owned U.S. dealer, partially offset by a decrease in profits from the sale of used lift trucks and a decrease related to reduced service contract revenues.

Net loss decreased \$5.6 million to \$1.0 million in the nine months ended September 30, 2003 from a net loss of \$6.6 million in the first nine months of 2002. The decrease in net loss was primarily due to the \$2.8 million tax benefit realized at the Company's Asia-Pacific operations (see further discussion in the NMHG Retail section of the quarter-to-quarter comparison above) and a \$2.0 million decrease in interest expense.

NMHG RESTRUCTURING PLANS

NMHG 2002 RESTRUCTURING PROGRAM

As announced in December 2002, NMHG Wholesale is phasing out its Lenoir, North Carolina, lift truck component facility and restructuring other manufacturing and administrative operations, primarily its Irvine, Scotland, lift truck assembly and component facility. During the fourth quarter of 2002, NMHG Wholesale recognized a restructuring charge of approximately \$12.5 million pre-tax. Of this amount, \$3.8 million related to a non-cash asset impairment charge for a building, machinery and tooling, which was determined based on the then current market values for similar assets and broker quotes as compared with the net book value of these assets; and \$8.7 million related to severance and other employee benefits to be paid to approximately 615 manufacturing and administrative employees. Payments began during the second quarter of 2003. As of September 30, 2003, payments of \$1.2 million were made to approximately 150 employees. Payments are expected to continue through 2005. In addition, \$0.3 million of the amount accrued at December 31, 2002 was reversed in the first nine months of 2003 as a result of a reduction in the estimate of employees eligible to receive severance payments.

Approximately \$5.4 million of pre-tax restructuring related costs primarily related to manufacturing inefficiencies, which were not eligible for accrual in December 2002, were expensed in the first nine months of 2003. Of the \$5.4 million additional costs incurred during 2003, \$5.1 million is classified as cost of sales and the remaining \$0.3 million is classified as selling, general and administrative expenses in the Unaudited Condensed Consolidated Statement of Operations for the nine months ended September 30, 2003. Additional costs, not eligible for accrual, for severance and manufacturing inefficiencies are

Edgar Filing: NMHG HOLDING CO - Form 10-Q

expected to be approximately \$4.3 million for the remainder of 2003, \$8.5 million in 2004 and \$5.9 million in 2005. Initial net benefits from this restructuring program are expected to be realized in 2004 with a full twelve months of estimated annual pre-tax benefits of approximately \$14.8 million expected beginning in 2005. Although a majority of the projected savings is the result of a reduction in fixed factory costs, the overall benefit estimates could vary depending on unit volumes and the resulting effect on manufacturing efficiencies.

This restructuring program will allow the Company to re-focus its operating activities, including the manufacture of new product lines in Europe. As a result, the Company expects to receive government grants during 2003 through 2005 totaling approximately \$6.5 million. Of this total amount, \$0.8 million was recognized in the third quarter of 2003.

NMHG 2001 RESTRUCTURING PROGRAMS

During 2001, management committed to the restructuring of certain operations in Europe for both the Wholesale and Retail segments of the business. As such, NMHG Wholesale recognized a restructuring charge of approximately \$4.5 million pre-tax for severance and other employee benefits to be paid to approximately 285 direct and indirect factory labor and administrative personnel in Europe. As of December 31, 2002, payments of \$3.4 million to approximately 245 employees had been made and \$0.2 million of the amount originally accrued was reversed in 2002. Although the majority of the headcount reductions were made by the end of 2002, final payments of \$0.9 million were made to 16 employees during the first nine months of 2003. As a result of the reduced headcount in Europe, NMHG Wholesale realized pre-tax cost savings primarily from reduced employee wages and benefits of \$6.9 million for the first nine months of 2003 and estimates pre-tax savings of \$2.3 million for the remainder of 2003. Annual pre-tax cost savings of \$9.2 million are expected to continue subsequent to 2003 as a result of this program. Although a majority of the projected savings is the result of a reduction in fixed factory costs, the overall benefit estimates could vary depending on unit volumes and the resulting effect on manufacturing efficiencies or due to changes in foreign currency rates.

NMHG Retail recognized a restructuring charge of approximately \$4.7 million pre-tax in 2001, of which \$0.4 million related to lease termination costs and \$4.3 million related to severance and other employee benefits to be paid to approximately 140 service technicians, salesmen and administrative personnel at wholly owned dealers in Europe. As of December 31, 2002, severance payments, net of currency effects, of \$2.8 million had been made to approximately 110 employees. Although the majority of the headcount reductions were made by the end of 2002, during the first nine months of 2003, severance payments of \$0.4 million were made to seven employees. In addition, \$0.7 million pre-tax of the amount accrued at December 31, 2002 was reversed in the first nine months of 2003 as a result of a reduction in the estimate of the total number of employees to receive severance as well as a decrease in the average amount to be paid to each employee. The remaining severance payments are expected to be completed during 2004. In addition, the lease impairment accrual was increased by \$0.2 million during 2003 as a result of additional lease expense. Cost savings primarily from reduced employee wages, employee benefits and lease costs of approximately \$2.3 million pre-tax were realized in the first nine months of 2003 and are expected to be approximately \$0.8 million pre-tax for the remainder of 2003 related to this program. Annual pre-tax cost savings of \$3.1 million are expected to continue subsequent to 2003. Estimated benefits could be reduced by additional severance payments, if any, made to employees above the statutory or

Edgar Filing: NMHG HOLDING CO - Form 10-Q

contractually required amount that was accrued in 2001 or due to changes in foreign currency rates.

LIQUIDITY AND CAPITAL RESOURCES

Expenditures for property, plant and equipment were \$14.5 million for NMHG Wholesale and \$3.9 million for NMHG Retail during the first nine months of 2003. These capital expenditures included tooling for new products, machinery, equipment and lease and rental fleet. It is estimated that NMHG Wholesale's capital expenditures for the remainder of 2003 will be approximately \$11.9 million, of which approximately \$1.2 million relates to the NMHG 2002 restructuring program, primarily for new tooling and equipment. NMHG Retail's capital expenditures for the remainder of 2003 are not expected to be significant. Planned expenditures for the remainder of 2003 include tooling for new products, capital expenditures arising as a result of the manufacturing restructuring programs and replacement of machinery and equipment. The principal sources of financing for these capital expenditures will be internally generated funds and bank borrowings.

Since December 31, 2002, there have been no significant changes in the total amount of NMHG's contractual obligations or commercial commitments, or the timing of cash flows in accordance with those obligations, as reported in the Company's 10-K for the year ended December 31, 2002.

During 2002, NMHG issued \$250.0 million of 10% unsecured Senior Notes that mature on May 15, 2009. The Senior Notes are senior unsecured obligations of NMHG Holding Co. and are guaranteed by substantially all of NMHG's domestic subsidiaries. NMHG Holding Co. has the option to redeem all or a portion of the Senior Notes on or after May 15, 2006 at the redemption prices set forth in the Indenture governing the Senior Notes. The proceeds from the Senior Notes were reduced by an original issue discount of \$3.1 million.

FINANCIAL REVIEW - continued

Additionally, NMHG has a secured, floating-rate revolving credit facility which expires in May 2005. Availability under the revolving credit facility is up to \$175.0 million and is governed by a borrowing base derived from advance rates against the inventory and accounts receivable of the borrowers, as defined in the revolving credit facility. Adjustments to reserves booked against these assets, including inventory reserves, will change the eligible borrowing base and thereby impact the liquidity provided by the facility. At September 30, 2003, the borrowing base under the revolving credit facility was \$94.1 million, which reflects reductions for the commitments or availability under certain foreign credit facilities and for an excess availability requirement of \$15.0 million. Borrowings outstanding under this facility were \$13.9 million at September 30, 2003. Therefore, at September 30, 2003, the excess availability under the revolving credit facility was \$80.2 million. The floating rate of interest applicable to this facility on September 30, 2003 was 5.875%, including the applicable floating rate margin.

In addition to the amount outstanding under the Senior Notes and the revolving credit facility, NMHG had borrowings of approximately \$33.4 million outstanding at September 30, 2003 under various foreign working capital facilities and other domestic term loans.

NMHG believes that funds available under the revolving credit facility, other available lines of credit and operating cash flows will provide sufficient liquidity to meet its operating needs and commitments arising during the next twelve months and until the expiration of NMHG's revolving credit facility in

Edgar Filing: NMHG HOLDING CO - Form 10-Q

May 2005.

NMHG's capital structure is presented below:

	SEPTEMBER 30 2003	DECEMBER 31 2002
	-----	-----
Total net tangible assets	\$ 374.7	\$ 362.8
Goodwill and other intangibles at cost	495.2	487.7
	-----	-----
Net assets before amortization of goodwill and other intangibles	869.9	850.5
Accumulated goodwill and other intangibles amortization	(145.7)	(142.3)
Total debt	(316.5)	(324.8)
Minority interest	(.3)	(1.1)
	-----	-----
Stockholder's equity	\$ 407.4	\$ 382.3
	=====	=====
Debt to total capitalization	44%	46%

The increase in total net tangible assets of \$11.9 million was primarily due to a \$41.6 million increase in inventory primarily as a result of the timing of production, assembly of components, and shipments of finished goods due to the implementation of the 2002 restructuring program, and a \$36.8 million increase in trade and intercompany accounts receivable due to increased volume. These increases were partially offset by a \$31.1 million decrease in cash, primarily as a result of the reduction of debt, a \$14.6 million increase in trade and intercompany accounts payable primarily as a result of timing of payments, an \$8.6 million decrease in net assets as a result of the sale of NMHG Retail's only wholly owned U.S. dealer on January 3, 2003 and an \$8.6 million decrease in property, plant and equipment. Stockholder's equity at September 30, 2003 increased \$25.1 million as a result of net income of \$11.6 million, a favorable foreign currency translation adjustment of \$18.1 million and a \$0.4 million favorable adjustment to the deferred loss on hedges. These increases were partially offset by a dividend to NACCO of \$5.0 million.

EFFECTS OF FOREIGN CURRENCY

NMHG operates internationally and enters into transactions denominated in foreign currencies. As such, the Company's financial results are subject to the variability that arises from exchange rate movements. The effects of foreign currency fluctuations on revenues, operating profit and net income (loss) are addressed in the discussion of operating results above.

OUTLOOK

NMHG WHOLESALE

NMHG Wholesale expects overall lift truck shipments to increase in the fourth quarter of 2003 compared with the fourth quarter of 2002. While global market prospects remain uncertain, lift truck markets in the Americas are anticipated to continue to improve gradually in the last quarter of 2003. Markets in Europe and Asia-Pacific are expected to remain relatively flat. Markets are expected to improve moderately in 2004.

Edgar Filing: NMHG HOLDING CO - Form 10-Q

NMHG Wholesale expects that fourth quarter results will continue to be reduced by ongoing costs for a product development program that is anticipated to mature in 2004-2006 and additional costs related to the Lenoir, North Carolina and Irvine, Scotland manufacturing restructuring programs announced in December 2002. In 2004, high product development and introduction costs are expected to continue and manufacturing restructuring costs are anticipated to decline.

NMHG RETAIL

NMHG Retail expects to continue its programs to improve the performance of its wholly owned dealerships for the remainder of 2003 and in 2004 as part of its objective to achieve and sustain at least break-even results. In future periods, the Company does not expect to recognize a tax benefit of the magnitude realized in the third quarter of 2003.

The statements contained in this Form 10-Q that are not historical facts are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are made subject to certain risks and uncertainties, which could cause actual results to differ materially from those presented in these forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Such risks and uncertainties with respect to the Company's operations include, without limitation:

(1) changes in demand for lift trucks and related aftermarket parts and service on a worldwide basis, especially in the U.S. where the Company derives a majority of its sales, (2) changes in sales prices, (3) delays in delivery or changes in costs of raw materials or sourced products and labor, (4) delays in manufacturing and delivery schedules, (5) exchange rate fluctuations, changes in foreign import tariffs and monetary policies and other changes in the regulatory climate in the foreign countries in which NMHG operates and/or sells products, (6) product liability or other litigation, warranty claims or returns of products, (7) delays in or increased costs of restructuring programs, (8) the effectiveness of the cost reduction programs implemented globally, including the successful implementation of procurement initiatives, (9) customer acceptance of, changes in costs of, or delays in the development of new products, (10) acquisitions and/or dispositions of dealerships by NMHG, and (11) the uncertain impact on the economy or the public's confidence in general from terrorist activities and the impact of the situation in Iraq.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES: The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. An evaluation was carried out under the supervision and with the participation of the Company's management, including the Principal Executive Officer and the Principal Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, these officers have concluded that the Company's disclosure controls and procedures are effective.

CHANGES IN INTERNAL CONTROLS: Subsequent to the date of their evaluation, there

Edgar Filing: NMHG HOLDING CO - Form 10-Q

have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls, including any corrective action with regard to significant deficiencies and material weaknesses.
