FINANCIAL INSTITUTIONS INC Form 10-Q August 07, 2007

# UNITED STATES SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549 FORM 10-Q

### **DESCRIPTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

#### FOR THE QUARTERLY PERIOD ENDED June 30, 2007

#### **Commission File Number 0-26481**

(Exact Name of Registrant as specified in its charter)

NEW YORK 16-0816610

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification Number)

220 Liberty Street Warsaw, NY

14569

(Address of Principal Executive Offices)

(Zip Code)

Registrant s Telephone Number Including Area Code:

#### (585) 786-1100

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding twelve months (or for such shorter period that the Registrant was required to file reports) and (2) has been subject to such requirements for at least the past 90 days.

YES b NO o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check One):

Large Accelerated filer o Accelerated filer b Non-accelerated filer o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES o NO b

Indicate the number of shares outstanding of each of the issuer s classes of common stock, as of the latest practicable date.

CLASS Common Stock, \$0.01 par value OUTSTANDING AT AUGUST 1, 2007 11,116,939 shares

## FINANCIAL INSTITUTIONS, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

#### (1) Basis of Presentation

Financial Institutions, Inc. (FII), a bank holding company organized under the laws of New York State, and its subsidiaries (collectively the Company) provide deposit, lending and other financial services to individuals and businesses in Central and Western New York State. The Company is subject to regulation by certain federal and state agencies.

FII s primary subsidiary is its New York State-chartered Five Star Bank (100% owned) (FSB or the Bank). In addition, FII formerly qualified as a financial holding company under the Gramm-Leach-Bliley Act, which allowed the expansion of business operations to include a broker-dealer subsidiary, namely, Five Star Investment Services, Inc. (100% owned) (FSIS). During 2003, FII terminated its financial holding company status and now operates as a bank holding company. Future acquisition or expansion of non-financial activities may require prior Federal Reserve Bank (FRB) approval and will be limited to those that are permissible for bank holding companies. In February 2001, the Company formed FISI Statutory Trust I (100% owned) (FISI or the Trust) and capitalized the entity with a \$502,000 investment in the Trust's common securities. The Trust was formed to facilitate the private placement of \$16.2 million in capital securities (trust preferred securities). Effective December 31, 2003, the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 46. Consolidation of Variable Interest

provisions of Financial Accounting Standards Board (FASB) Interpretation No. 46, Consolidation of Variable Interest Entities, resulted in the deconsolidation of the Trust. The deconsolidation resulted in the derecognition of the \$16.2 million in trust preferred securities and the recognition of \$16.7 million in junior subordinated debentures and a \$502,000 investment in the Trust recorded in other assets in the Company s consolidated statements of financial condition.

In management s opinion, the interim consolidated financial statements reflect all adjustments necessary for a fair presentation. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year ended December 31, 2007. The interim consolidated financial statements should be read in conjunction with the Company s 2006 Annual Report on Form 10-K. The consolidated financial information included herein combines the results of operations, assets, liabilities and shareholders equity of FII and its subsidiaries. All significant inter-company transactions and balances have been eliminated in consolidation. Certain amounts in the prior periods consolidated financial statements are reclassified when necessary to conform to the current period s presentation.

The interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and prevailing practices in the banking industry. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, and the reported revenues and expenses for the period. Actual results could differ from those estimates. A material estimate that is particularly susceptible to near-term change is the allowance for loan losses.

For purposes of the consolidated statements of cash flows, cash and due from banks, federal funds sold, interest-bearing deposits in other banks and commercial paper due in less than 90 days are considered cash and cash equivalents.

#### (2) Recent Accounting Pronouncements

In February 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 155, Accounting for Certain Hybrid Financial Instruments. SFAS No. 155 amends SFAS No. 133 and SFAS No. 140, and improves the financial reporting of certain hybrid financial instruments by requiring more consistent accounting that eliminates exemptions and provides a means to simplify the accounting for these instruments. Specifically, SFAS No. 155 allows financial instruments that have embedded derivatives to be accounted for as a whole (eliminating the need to bifurcate the derivative from its host) if the holder elects to account for the whole instrument on a fair value basis. SFAS No. 155 is effective for all financial instruments acquired or issued in fiscal years beginning after September 15, 2006. The Company adopted this statement effective January 1, 2007 and adoption did not have an effect on its consolidated financial position, consolidated results of operations, or liquidity.

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets, an amendment of SFAS No. 140, which requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable and permits the entities to elect either fair value measurement with changes in

7

#### **Table of Contents**

fair value reflected in earnings or the amortization and impairment requirements of SFAS No. 140 for subsequent measurement. SFAS No. 156 is effective for fiscal years beginning after September 15, 2006. The Company adopted this statement effective January 1, 2007 and elected to continue using the amortization and impairment requirements of SFAS No. 140 for subsequent measurement of servicing assets, therefore adoption did not have an effect on its consolidated financial position, consolidated results of operations, or liquidity.

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted this statement effective January 1, 2007 and the required disclosures are included in Note 9. The adoption of FIN 48 did not have a material effect on the Company s consolidated financial position, consolidated results of operations, or liquidity.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing the asset or liability. The Company is required to adopt SFAS No. 157 for its fiscal year beginning after November 15, 2007. The Company plans to adopt this statement on January 1, 2008 and is currently assessing the impact that the adoption will have on its consolidated financial position, consolidated results of operations, or liquidity.

In September 2006, the FASB issued SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires companies to recognize the over-funded or under-funded status of a defined benefit postretirement plan (other than a multi-employer plan) as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The Company adopted this provision of SFAS No. 158 for the year ended December 31, 2006 and the required disclosures were included in Note 13 of the annual report on Form 10-K as filed on March 13, 2007. SFAS No. 158 also requires companies to measure the funded status of a plan as of the date of the company s fiscal year-end, with limited exceptions. The Company is required and plans to adopt this provision for the fiscal year ending December 31, 2008 and does not expect adoption to have a material effect on its consolidated financial position, consolidated results of operations, or liquidity.

In September 2006, the Emerging Issues Task Force (EITF) reached a final consensus on Issue No. 06-04, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split Dollar Life Insurance Arrangements (EITF 06-04). In accordance with EITF 06-04, an agreement by an employer to share a portion of the proceeds of a life insurance policy with an employee during the postretirement period is a postretirement benefit arrangement required to be accounted for in accordance with SFAS No. 106 or Accounting Principles Board Opinion (APB) No. 12, Omnibus Opinion 1967. Furthermore, the purchase of a split dollar life insurance policy does not constitute a settlement under SFAS No. 106 and, therefore, a liability for the postretirement obligation must be recognized under SFAS No. 106 if the benefit is offered under an arrangement that constitutes a plan or under APB No. 12 if it is not part of a plan. The provisions of EITF 06-04 are to be applied through either a cumulative-effect adjustment to retained earnings as of the beginning of the year of adoption or retrospective application. The Company is required to adopt this statement in its fiscal year beginning after December 15, 2007, with early adoption permitted. The Company plans to adopt this statement on January 1, 2008 and is currently assessing the impact that the adoption will have on its consolidated financial position, consolidated results of operations, or liquidity.

In September 2006, the EITF reached a final consensus on Issue No. 06-05, Accounting for Purchases of Life Insurance Determining the Amount That Could Be Realized in Accordance with FASB Technical Bulletin No. 85-4, Accounting for Purchases of Life Insurance (EITF 06-05). EITF 06-05 provides clarifying guidance on determining the amount that could be realized from a life insurance contract The provisions of EITF 06-05 are to be applied through either a cumulative-effect adjustment to retained earnings as of the beginning of the year of adoption or

retrospective application. EITF 06-05 is effective for fiscal years beginning after December 15, 2006. The Company adopted this statement effective January 1, 2007 and adoption did not have an effect on its consolidated financial position, consolidated results of operations, or liquidity.

8

#### **Table of Contents**

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115. SFAS No. 159 allows entities to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and financial liabilities that are not otherwise required to be measured at fair value, with changes in fair value recognized in earnings as they occur. SFAS No. 159 also requires entities to report those financial assets and financial liabilities measured at fair value in a manner that separates those reported fair values from the carrying amounts of similar assets and liabilities measured using another measurement attribute on the face of the statement of financial condition. Lastly, SFAS No. 159 establishes presentation and disclosure requirements designed to improve comparability between entities that elect different measurement attributes for similar assets and liabilities. The Company is required to adopt SFAS No. 159 for its fiscal year beginning after November 15, 2007, with early adoption permitted if an entity also early adopts the provisions of SFAS No. 157. The Company plans to adopt this statement on January 1, 2008 and is currently assessing the impact the adoption will have on its consolidated financial position, consolidated results of operations, or liquidity.

#### (3) Earnings Per Common Share

Basic earnings per common share, after giving effect to preferred stock dividends, has been computed using weighted average common shares outstanding. Diluted earnings per share reflect the effects, if any, of incremental common shares issuable upon exercise of dilutive stock options.

Earnings per common share have been computed based on the following:

		nths Ended e 30,		ths Ended e 30,
(Dollars and shares in thousands, except per share amounts) Net income	2007 \$ 3,443	2006 \$ 5,374	2007 \$ 7,058	2006 \$ 9,113
Less: Preferred stock dividends	371	372	742	744
Net income available to common shareholders	\$ 3,072	\$ 5,002	\$ 6,316	\$ 8,369

Basic	\$ 0.27	\$ 0.44	\$ 0.56	\$ 0.74
Diluted The second of the seco	\$ 0.27	\$ 0.44	\$ 0.56	\$ 0.74

There were approximately 296,000 and 283,000 weighted average common stock equivalents from outstanding stock options for the three and six months ended June 30, 2007, respectively, that were not considered in the calculation of diluted earnings per share since their effect would have been anti-dilutive. There were approximately 289,000 and 286,000 weighted average stock options for the three and six months ended June 30, 2006, respectively, that were not considered in the calculation of diluted earnings per share since their effect would have been anti-dilutive.

#### (4) Stock Compensation Plans

The Company has a Management Stock Incentive Plan and a Director's Stock Incentive Plan (the Plans). Under the Plans, the Company may grant stock options to purchase shares of common stock, shares of restricted stock or stock appreciation rights to its directors and key employees. Grants under the Plans may be made up to 10% of the number of shares of common stock issued, including treasury shares. The exercise price of each option equals the market price of the Company's stock on the date of the grant. The maximum term of each option is ten years and the vesting period generally ranges between three and five years. During the six months ended June 30, 2007, 22,000 stock option awards were granted under the Plans, all of which were granted to directors. During the six months ended June 30, 2007, there were no restricted stock awards granted under the Plans.

ç

#### **Table of Contents**

Effective January 1, 2006, the Company adopted SFAS No. 123(R), Share-Based Payments, requiring the Company to recognize expense related to the fair value of the stock-based compensation awards. The following table presents the expense associated with the amortization of unvested stock compensation included in the consolidated statements of income for the periods indicated;

		Months Ended June 30,		onths Ended ine 30,
(Dollars and shares in thousands, except per share amounts)	2007	2006	2007	2006
Stock options:				
Management Stock Incentive Plan (1)	\$ 78	\$ \$ 55	\$ 171	\$ 198
Director Stock Incentive Plan (2)	179	9 206	200	244
Total amortization of unvested stock options	257	7 261	371	442
Restricted stock awards:				
Management Stock Incentive Plan (1)	20	5	50	
Total amortization of unvested stock options	20	6	50	
Total amortization of unvested restricted stock compensation	\$ 283	3 \$ 261	\$ 421	\$ 442

- (1) Included in salaries and employee benefits in the consolidated statements of income.
- (2) Included in other noninterest expense in the consolidated statements of income.

#### (5) Loans

Loans outstanding, including net unearned income and net deferred fees and costs of \$4.9 million and \$4.5 million at June 30, 2007 and December 31, 2006, respectively, are summarized as follows:

		$\Gamma$	ecember
	June 30,		31,
(Dollars in thousands)	2007		2006
Commercial	\$ 121,687	\$	105,806
Commercial real estate	246,032		243,966
Agricultural	53,375		56,808
Residential real estate	165,516		163,243

Consumer indirect Consumer direct and home equity	117,403 236,857		106,391 250,268
Total loans	940,870		926,482
Allowance for loan losses	(16,522)	(17,048)	
Loans, net	\$ 924,348	\$	909,434

The Company s significant concentrations of credit risk in the loan portfolio relate to a geographic concentration in the communities that the Company serves.

#### (6) Retirement and Postretirement Benefit Plans

The Company adopted SFAS No. 158 effective December 31, 2006, which required the over-funded or under-funded status of its defined benefit pension and postretirement benefit plans to be recognized as an asset or liability in the consolidated statements of financial condition. Future changes in the funded status of the defined benefit and postretirement plans will be recognized in the year in which the changes occur on a net of tax basis through comprehensive income or loss.

#### **Defined Benefit Pension Plan**

The Company participates in The New York State Bankers Retirement System, which is a defined benefit pension plan covering substantially all employees. The benefits are based on years of service and the employee s highest average compensation during five consecutive years of employment.

The defined benefit pension plan was closed to new participants effective December 31, 2006. Only employees hired on or before December 31, 2006 and who meet participation requirements on or before January 1, 2008 shall be eligible to receive benefits.

10

#### **Table of Contents**

Net periodic pension cost consists of the following components:

	Three Months Ended		Six Months Ended	
	June	e 30,	June	30,
(Dollars in thousands)	2007	2006	2007	2006
Service cost	\$ 374	\$ 432	\$ 749	\$ 863
Interest cost on projected benefit obligation	368	336	736	671
Expected return on plan assets	(477)	(467)	(954)	(933)
Amortization of net transition asset		(7)		(14)
Amortization of unrecognized loss	8	55	16	111
Amortization of unrecognized prior service cost	3	3	6	7
Net periodic pension cost	\$ 276	\$ 352	\$ 553	\$ 705

The Company s funding policy is to contribute, at a minimum, an actuarially determined amount that will satisfy the minimum funding requirements determined under the appropriate sections of Internal Revenue Code. The minimum required contribution is zero for the year ended December 31, 2007, however, the Company is considering making a discretionary contribution to the defined benefit pension plan during 2007.

#### **Postretirement Benefit Plan**

Prior to December 31, 2001, an entity acquired by the Company provided health and dental care benefits to certain retired employees who met specified age and service requirements through a postretirement health and dental care plan in which both the acquired entity and the retiree shared the cost. The plan was amended in 2001 to curtail eligible benefit payments to only retired employees and active participants who were fully vested under the plan.

#### (7) Commitments and Contingencies

In the normal course of business there are outstanding commitments to extend credit not reflected in the accompanying consolidated financial statements. These commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The Company uses the same credit policy to make such commitments as it uses for on-balance-sheet items. Unused lines of credit and loan commitments totaling \$266.2 million and \$258.6 million were contractually available at June 30, 2007 and December 31, 2006, respectively, and are not reflected in the consolidated statements of financial condition. Since commitments to extend credit and unused lines of credit may expire without being fully drawn upon, the amount does not necessarily represent future cash commitments.

The Company guarantees the obligations or performance of customers by issuing stand-by letters of credit to third parties. The risk involved in issuing stand-by letters of credit is essentially the same as the credit risk involved in extending loan facilities to customers, and they are subject to the same credit origination, portfolio maintenance and management procedures in effect to monitor other credit and off-balance-sheet products. Typically, these instruments have terms of five years or less and expire unused; therefore, the amount does not necessarily represent future cash requirements. Stand-by letters of credit totaled \$6.7 million and \$5.8 million at June 30, 2007 and December 31, 2006, respectively. As of June 30, 2007, the fair value of the stand-by letters of credit was not material to the Company s consolidated financial statements.

From time to time, the Company is a party to or otherwise involved in legal proceedings arising in the normal course of business. Management does not believe that there is any pending or threatened proceeding against the Company, which, if determined adversely, would have a material adverse effect on the Company s business, results of operations or financial condition.

#### (8) Supervision and Regulation

The supervision and regulation of financial and bank holding companies and their subsidiaries is intended primarily for the protection of depositors, the deposit insurance funds regulated by the FDIC and the banking system as a whole, and not for the protection of shareholders or creditors of bank holding companies. The various bank regulatory

agencies have broad enforcement power over bank holding companies and banks, including the power to impose substantial fines, operational restrictions and other penalties for violations of laws and regulations. In addition, payments of dividends by FSB to FII are limited or restricted in certain circumstances under banking regulations.

11

#### **Table of Contents**

The Company is also subject to varying regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material impact on the Company s consolidated financial statements.

For evaluating regulatory capital adequacy, companies are required to determine capital and assets under regulatory accounting practices. Quantitative measures established by regulation to ensure capital adequacy require the Company to maintain minimum amounts and ratios. The leverage ratio requirement is based on period-end capital to average adjusted total assets during the previous three months. Compliance with risk-based capital requirements is determined by dividing regulatory capital by the sum of a company s weighted asset values. Risk weightings are established by the regulators for each asset category according to the perceived degree of risk. As of June 30, 2007 and December 31, 2006, the Company and FSB met all capital adequacy requirements to which they are subject.

#### (9) Income Taxes

The Company adopted the provisions FIN 48 effective January 1, 2007. There was no cumulative effect adjustment related to the adoption of FIN 48. As of January 1, 2007, the Company s unrecognized tax benefits totaled \$50,000, of which \$32,000 would impact the Company s effective tax rate, if recognized or reversed. The Company is currently under examination by New York State and expects to conclude the examination during 2007, at which point the uncertain tax position would be resolved.

The tax years that remain subject to examination by major tax jurisdictions are as follows:

Federal 2003 - 2005 New York 2002 - 2005

The Company accounts for interest and penalties related to uncertain tax positions as part of its provision for federal and state income taxes. As of January 1, 2007, the Company had accrued \$17,000 of interest related to uncertain tax positions. As of June 30, 2007, the total amount of accrued interest was \$20,000.

#### (10) Subsequent Events

On July 25 2007, the Company s Board of Directors approved a new one-year \$5.0 million common stock repurchase program and canceled the remaining portion of the Company s one-year \$5.0 million stock repurchase program that was approved October 25, 2006. Under the previous program, the Company had purchased a total of 231,946 shares at an average price per share of \$20.22 for a total purchase price of \$4.691 million. Under the new program, stock repurchases may be made either in the open market or through privately negotiated transactions.

The Company is the owner and beneficiary of life insurance policies on a former officer of the Company who passed away in July 2007. The Company anticipates that proceeds from the policies will result in \$1.1 million in net income, or approximately \$0.10 per diluted common share, in the third quarter of 2007.

### Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act ), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act ), that involve substantial risks and uncertainties. When used in this report, or in the documents incorporated by reference herein, the words anticipate , believe , estimate , expect , intend , may , project , plasimilar expressions identify such forward-looking statements. Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements contained herein. There are a number of important factors that could affect the Company s forward-looking statements which include the quality of collateral associated with nonperforming loans, the ability of customers to continue to make payments on criticized or substandard loans, the impact of rising interest rates on customer cash flows, the inability to re-price existing loans or to replace older, lower-rate loans with newer, higher-rate loans, the impact of the yield curve, the speed or cost of resolving bad loans, the ability to hire and train personnel, the economic conditions in the area in which the Company operates, customer preferences, competition and other factors discussed in the Company s filings with the Securities and Exchange Commission. Many of these factors are beyond the Company s control.

#### **Table of Contents**

#### **GENERAL**

The principal objective of this discussion is to provide an overview of the financial condition and results of operations of the Company for the periods covered in this quarterly report. This discussion and tabular presentations should be read in conjunction with the accompanying consolidated financial statements and accompanying notes.

The Company s revenues are dependent primarily on net interest income, which is the difference between the income earned on loans and securities and the interest paid on deposits and borrowings. Revenues are also affected by service charges on deposits, ATM and debit card income, broker-dealer fees and commissions, mortgage banking income, gain or loss on the sale of securities, gain or loss on sale of loans held for sale, gain or loss on the sale and disposal of other assets and other miscellaneous noninterest income.

The Company s expenses primarily consist of the provision (credit) for loan losses, salaries and employee benefits, occupancy and equipment, supplies and postage, amortization of other intangible assets, computer and data processing, professional fees and services, other miscellaneous noninterest expense and income tax expense (benefit). Results of operations are also affected by the general economic and competitive conditions, particularly changes in interest rates, government policies and the actions of regulatory authorities.

#### **OVERVIEW**

Net income for the second quarter of 2007 was \$3.4 million, or \$0.27 per diluted share, compared with \$5.4 million, or \$0.44 per diluted share, for the same quarter last year. For the first six months of 2007 net income was \$7.1 million, or \$0.56 per diluted share, compared with \$9.1 million, or \$0.74 per diluted share, for the first six months of 2006. The decline in net income was primarily the result of a decline in net interest income and a decline in the credit for loan losses in comparison to the prior year on both a quarter-to-date and year-to-date basis. Net interest income was \$14.1 million for the second quarter of 2007, down \$1.0 million versus the second quarter of 2006. Net interest income was \$28.0 million for the six months ended June 30, 2007, down \$2.5 million in comparison to the same period in the prior year. Net interest margin declined 22 basis points, to 3.35%, for the second quarter of 2007 compared with the same quarter last year. On a year-to-date basis, net interest margin was down 23 basis points to 3.37% versus the prior year. The flat-to-inverted interest rate yield curve that prevailed throughout much of 2006 and continued into the first half of 2007, coupled with soft loan demand that makes replacement of lower-rate loans with new, higher-rate loans difficult, has had a negative effect on net interest margin, as have changes in our deposit mix that resulted in an increased cost of funds.

The Company experienced an increase of \$14.4 million in loans to \$940.9 million at June 30, 2007 compared to \$926.5 million at December 31, 2006. Commercial-related loans increased \$14.5 million over December 31, 2006, as a result of an extensive commercial business development program over the past year.

Asset quality showed continued improvement. Nonperforming assets were \$11.8 million at June 30, 2007, down \$5.3 million from December 31, 2006. Net loan charge-offs were \$239 thousand for the second quarter of 2007 or 10 basis points of average loans (annualized) and for the first six months of 2007 were \$373 thousand or 8 basis points of average loans (annualized).

#### CRITICAL ACCOUNTING POLICIES

The Company s consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America and are consistent with predominant practices in the financial services industry. Application of critical accounting policies, which are those policies that management believes are the most important to the Company s financial position and results, requires management to make estimates, assumptions, and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes and are based on information available as of the date of the consolidated financial statements. Future changes in information may affect these estimates, assumptions and judgments, which, in turn, may affect amounts reported in the consolidated financial statements.

The Company has numerous accounting policies, of which the most significant are presented in Note 1 of the notes to consolidated financial statements included in the Company s Annual Report on Form 10-K as of December 31, 2006, dated March 13, 2007, as filed with the Securities and Exchange Commission. These policies, along with the disclosures presented in the other financial statement notes and in this discussion, provide information on how

#### **Table of Contents**

significant assets, liabilities, revenues and expenses are reported in the consolidated financial statements and how those reported amounts are determined. Based on the sensitivity of financial statement amounts to the methods, assumptions, and estimates underlying those amounts, management has determined that the accounting policies with respect to the allowance for loan losses, goodwill and defined benefit pension plan require particularly subjective or complex judgments important to the Company s consolidated financial statements, results of operations, and, as such, are considered to be critical accounting policies as discussed below.

Allowance for Loan Losses: The allowance for loan losses represents management s estimate of probable credit losses inherent in the loan portfolio. Determining the amount of the allowance for loan losses is considered a critical accounting estimate because it requires significant judgment and the use of subjective measurements including management s assessment of the internal risk classifications of loans, changes in the nature of the loan portfolio, industry concentrations and the impact of current local, regional and national economic factors on the quality of the loan portfolio. Changes in these estimates and assumptions are reasonably possible and may have a material impact on the Company s consolidated financial statements, results of operations or liquidity.

A loan is considered impaired when, based on current information and events, it is probable that a creditor will be unable to collect all amounts of principal and interest under the original terms of the agreement or the loan is restructured in a troubled debt restructuring. Accordingly, the Company evaluates impaired commercial and agricultural loans individually based on the present value of future cash flows discounted at the loan s effective interest rate, or at the loan s observable market price or the net realizable value of the collateral if the loan is collateral dependent. The majority of the Company s loans are secured.

Loans, including impaired loans, are generally classified as nonaccruing if they are past due as to maturity or payment of principal or interest for a period of more than 90 days (120 days for consumer loans), unless such loans are well-collateralized and in the process of collection. Loans that are on a current payment status or past due less than 90 days may also be classified as nonaccruing if repayment in full of principal and/or interest is uncertain. For additional discussion related to the Company s accounting policies for the allowance for loan losses, see the section titled Analysis of the Allowance for Loan Losses.

<u>Goodwill</u>: Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets prescribes the accounting for goodwill and intangible assets subsequent to initial recognition. The provisions of SFAS No. 142 discontinue the amortization of goodwill and intangible assets with indefinite lives. Instead, these assets are subject to at least an annual impairment review, and more frequently if certain impairment indicators are in evidence. Changes in the estimates and assumptions are reasonably possible and may have a material impact on the Company s consolidated financial statements, results of operations or liquidity. During the fourth quarter of 2006, the Company evaluated goodwill for impairment using a discounted cash flow analysis and determined no impairment existed. There were no material events or transactions that occurred subsequent to that evaluation that indicates any impairment at the current period end.

<u>Defined Benefit Pension Plan</u>: Management is required to make various assumptions in valuing its defined benefit pension plan assets and liabilities. These assumptions include, but are not limited to, the expected long-term rate of return on plan assets, the weighted average discount rate used to value certain liabilities and the rate of compensation increase. The Company uses a third-party specialist to assist in making these estimates and assumptions. Changes in these estimates and assumptions are reasonably possible and may have a material impact on the Company s consolidated financial statements, results of operations or liquidity.

14

#### SELECTED FINANCIAL DATA

The following tables present certain information and ratios that management of the Company considers important in evaluating performance:

	At	At or For the Three Months Ended June 30,		
(Dollars in thousands, except per share amounts)		2007		2006
Per common share data:				
Net income basic	\$	0.27	\$	0.44
Net income diluted	\$	0.27	\$	0.44
Cash dividends declared	\$	0.11	\$	0.08
