Performance Summary	8

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

we hire new analysts, we require them to spend an average of one year in Boston to learn MFS" culture and to build relationships with their peers. We believe the interaction among our analysts is the key to making our collaborative process work towards delivering superior long term investment performance for our fund shareholders. Our analysts work out of four research offices in Boston, London, Singapore, and Tokyo and are assigned to specific regions and industries. They meet regularly with their colleagues to discuss the trends around the world affecting the companies they cover.

In addition, our equity and fixed-income analysts often visit company managements as a team. This collaboration is vital because of the different perspective they bring to their analysis. Because a company's stock price has tended to follow its earnings over time, our equity research analysts tend to focus on gauging earnings potential, a company's position within its industry and its ability to grow its market share. Conversely, our fixed income analysts will look at stability of a company's cash flow, the value of its assets, and its capital structure to gauge whether the company can generate enough free cash flow to pay off its debt. As a result of their collaboration, we believe we're able to see a more complete view of a company.

WORKING TOGETHER

Our portfolio managers also work closely with the analysts to select the most appropriate securities for their portfolios from the various recommendations made by the analysts. Opinions are exchanged and ideas are challenged so that each member of our team is involved in our investment process. In fact, our portfolio managers will be the first ones to tell you that many of their best ideas start with the research analysts. We believe our collaborative approach also provides us with an effective way to assess risk. Our portfolio managers are not discouraged from taking on an appropriate level of risk; however, we have rigorous guidelines to assure that the level of risk is measured and monitored and consistent with the investment philosophies of each of our portfolios. All told, we believe our culture empowers the members of our investment team to continue to do their best work and allows them to make better investment decisions.

As always, we appreciate your confidence in MFS and welcome any questions or comments you may have.

Respectfully,

/s/ Jeffrey L. Shames

MANAGEMENT REVIEW

[Photo of Peter C. Vaream]
Peter C. Vaream

Dear Shareholders,
For the six months ended April 30, 2003, the trust provided a total return of 13.21% based on its beginning and ending stock market prices and assuming the reinvestment of any distributions paid during the period.

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

The trust's total return based on its net asset value (NAV) was 9.78%. The trust's results compare with returns over the same period for the following benchmarks: 11.71% for the J.P. Morgan Non-Dollar Government Bond Index (the Morgan Index); 3.10% for the Lehman Brothers Government Bond Index; and 22.95% for the Lehman Brothers High Yield Bond Index.

The J.P. Morgan Non-Dollar Government Bond Index measures the performance of international government bonds. The Lehman Brothers Government Bond Index measures the performance of the U.S. government bond market. The Lehman Brothers High Yield Bond Index measures the performance of the high-yield bond market.

WAR CONCERNS DISCOUNTED LONG TERM

During the fourth quarter of 2002, economic growth worldwide continued to be anemic, increasing at a rate that was slightly below expectations. This year began the same way as war concerns over Iraq clouded most economic news, reducing short-term optimism.

But despite the geopolitical unrest in the Middle East, investor sentiment appeared to us to change during the period, as many on Wall Street decided to look ahead and discount the weak growth during the period. Instead of focusing on risk avoidance, many investors appeared to us to adopt a risk-seeking behavior.

As a result, certain parts of the bond market offered strong rates of return based on expectations of growth in future periods. Many of the higher-risk markets traded higher, notably high yield and emerging markets. Also, investment-grade corporate bonds bounced back sharply from the lows that we saw in October.

POSITIVE PERFORMERS

Generally, the trust's overall diversification and specific sector exposure to some of these rebounding areas, like high yield, emerging markets and high-grade corporate bonds, helped.

The top-performing issues in the trust during the period were German government bonds. What occurred in the United States was also going on internationally, as interest rates remained in a narrow channel, and the incremental yield that Germany offered when compared to the United States proved to be more attractive to investors.

A number of the best performers in the portfolio for the period were lower-quality debt issuers. The trust still focused on higher-quality bonds, but we did begin to add exposure to select lower-quality debt issuers because many of these issues were trading at depressed prices at the end of last year.

Focusing on lower-quality debt proved beneficial to the fund as many previously struggling sectors bounced back. One area in particular that did well during the period was the telecommunications sector, where an overexposure to communications companies TCI Communications and Paxson Communications helped the trust.

Additionally, our exposure to the finance sector helped the trust's performance, given the firming of company balance sheets and the increased profitability of financial intermediaries. On a risk adjusted basis, the mortgage sector continued to be a very strong performer for the fixed-income sector. A strong housing market translated into increased mortgage lending that improved business profitability for many banks. The banks we held were well-capitalized, had a strong consumer base, and had fewer credit problems than many investors expected.

NEGATIVE CONTRIBUTORS

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

The trust's exposure to Fleming Companies was the major detractor to performance during the period. A food distributor in the high-yield market, Fleming Companies suffered from allegations of accounting improprieties and ultimately filed for bankruptcy.

Also, being underweight versus our benchmark in "supranational" debt (from the World Bank, for example) hurt performance.

Respectfully,

/s/ Peter C. Vaream

Peter C. Vaream
Portfolio Manager

The opinions expressed in this report are those of MFS and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based on market and other conditions, and no forecasts can be guaranteed.

It is not possible to invest directly in an index.

The portfolio is actively managed, and current holdings may be different.

PORTFOLIO MANAGER'S PROFILE

PETER C. VAREAM IS SENIOR VICE PRESIDENT OF MFS INVESTMENT MANAGEMENT (R) (MFS (R)) AND MANAGES THE INVESTMENT-GRADE BOND, GOVERNMENT SECURITIES AND GLOBAL GOVERNMENTS PORTFOLIOS OF OUR MUTUAL FUNDS, VARIABLE ANNUITIES AND INSTITUTIONAL ACCOUNTS. HE IS A MEMBER OF THE MFS FIXED INCOME STRATEGY GROUP.

PETER JOINED MFS IN 1992 AND BECAME A PORTFOLIO MANAGER IN 1993. PREVIOUSLY, HE WAS VICE PRESIDENT IN THE FIXED INCOME DEPARTMENT AT THE FIRST BOSTON CORP. FROM 1986 TO 1992. PRIOR TO THAT, HE SERVED AS A CORPORATE FINANCIAL ANALYST.

PETER EARNED A BACHELOR'S DEGREE IN FINANCE FROM NEW YORK UNIVERSITY. HE IS A MEMBER OF THE LEHMAN BROTHERS INDEX ADVISORY COUNCIL.

ALL PORTFOLIO MANAGERS AT MFS ARE SUPPORTED BY AN INVESTMENT STAFF OF OVER 160 PROFESSIONALS UTILIZING MFS ORIGINAL RESEARCH (R), A GLOBAL, COMPANY-ORIENTED, BOTTOM-UP PROCESS OF SELECTING SECURITIES.

In accordance with Section 23(c) of the Investment Company Act of 1940, the trust hereby gives notice that it may from time to time repurchase shares of the trust in the open market at the option of the Board of Trustees and on such terms as the Trustees shall determine.

OBJECTIVE: To provide a high level of current income through investments in fixed-income securities.

NEW YORK STOCK EXCHANGE SYMBOL: MMT

PERFORMANCE SUMMARY, BMARK, TITLE="PERFORMANCE SUMMARY":

(For the six months ended April 30, 2003)

NET ASSET VALUE PER SHARE

October 31, 2002	\$6.32
April 30, 2003	\$6.72

NEW YORK STOCK EXCHANGE PRICE

October 31, 2002	\$5.69
April 30, 2003 (high)*	\$6.25
November 15, 2002 (low)*	\$5.69
April 30, 2003	\$6.25

*For the period from November 1, 2002 through, April 30, 2003

NOTES TO PERFORMANCE SUMMARY

ALL RESULTS ARE HISTORICAL. INVESTMENT RETURN AND PRINCIPAL VALUE WILL FLUCTUATE, AND SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. MORE RECENT RETURNS MAY BE DIFFERENT FROM THOSE SHOWN. PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS.

KEY RISK CONSIDERATIONS

Investing in foreign and/or emerging markets securities involves risks relating to interest rates, currency exchange rates, economic, and political conditions.

Investments in high yield or lower-rated securities may provide greater returns but are subject to greater-than-average risk.

The portfolio may invest in derivative securities, which may include futures and options. These types of instruments can increase price fluctuation.

Because the portfolio invests in a limited number of companies a change in one security's value may have a more significant effect on the portfolio's value.

Government guarantees apply to the underlying securities only and not to the prices and yields of the portfolio.

These risks may increase share price volatility. See the prospectus for details.

NUMBER OF SHAREHOLDERS

As of April 30, 2003, our records indicate that there are 9,680 registered shareholders and approximately 38,500 shareholders owning trust shares in "street" name, such as through brokers, banks, and other financial intermediaries.

If you are a "street" name shareholder and wish to directly receive our reports, which contain important information about the trust, please write or call:

State Street Bank and Trust Company

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

Boston, MA 02205-5024
1-800-637-2304

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

MFS offers a Dividend Reinvestment and Cash Purchase Plan that allows you to reinvest either all of the distributions paid by the trust or only the long term capital gains. Purchases are made at the market price unless that price exceeds the net asset value (the shares are trading at a premium). If the shares are trading at a premium, purchases will be made at a discounted price of either the net asset value or 95% of the market price, whichever is greater. Twice each year you can also buy shares. Investments in any amount over \$100 can be made in January and July on the 15th of the month or shortly thereafter.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the plan on your behalf. If the nominee does not offer the plan, you may wish to request that your shares be re-registered in your own name so that you can participate.

There is no service charge to reinvest distributions, nor are there brokerage charges for shares issued directly by the trust. However, when shares are bought on the New York Stock Exchange or otherwise on the open market, each participant pays a pro rata share of the commissions. The automatic reinvestment of distributions does not relieve you of any income tax that may be payable (or required to be withheld) on the distributions.

To enroll in or withdraw from the plan, or if you have any questions, call 1-800-637-2304 any business day from 8 a.m. to 8 p.m. Eastern time. Please have available the name of the trust and your account and Social Security numbers. For certain types of registrations, such as corporate accounts, instructions must be submitted in writing. Please call for additional details. When you withdraw, you can receive the value of the reinvested shares in one of two ways: a check for the value of the full and fractional shares, or a certificate for the full shares and a check for the fractional shares.

++Annualized.

+++Not annualized.

(S)As required, effective November 1, 2001, the trust has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium accreting market discount on debt securities. The effect of this change for the year ended October 31, 2002 was to decrease net investment income per share and increase net realized and unrealized gains and losses per share. The impact of this change calculates to less than \$0.01 per share. In addition, the ratio of net investment income to average net assets decreased by 0.01%. Per share, ratios, and supplemental data for years prior to October 31, 2002 have not been restated to reflect this change in presentation.

See notes to financial statements.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

(1) Business and Organization

MFS Multimarket Income Trust (the trust) is a non-diversified trust that is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as a closed-end management investment company.

(2) Significant Accounting Policies

General - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The trust can invest in foreign securities. Investments in foreign securities are vulnerable to the effects of changes in the relative values of the local currency and the U.S. dollar

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

and to the effects of changes in each country's legal, political, and economic environment.

Investment Valuations - Equity securities in the fund's portfolio for which market quotations are available are valued at the last sale or official closing price on the primary market or exchange on which they are primarily traded or at the last quoted bid price for securities in which there were no sales during the day. If no sales are reported, as is the case for most securities traded over the counter, securities are valued on the basis of quotations obtained from brokers and dealers or on the basis of valuations furnished by a pricing service. Bonds and other fixed income securities (other than short-term obligations) of U.S. issuers in the fund's portfolio are valued at an evaluated bid price on the basis of quotes from brokers and dealers or on the basis of valuations furnished by a pricing service. Prices obtained from pricing services utilize both dealer-supplied valuations and electronic data processing techniques which take into account appropriate factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data without exclusive reliance upon quoted prices or exchange or over-the-counter prices, since such valuations are believed to reflect more accurately the fair value of such securities. Forward contracts and currency options will be valued using a pricing model taking into consideration market data from an external pricing source. Use of the pricing services has been approved by the Board of Trustees. All other securities (other than short-term obligations), futures contracts and options in the fund's portfolio for which the principal market is one or more securities or commodities exchanges (whether domestic or foreign) will be valued at the last reported sale price or at the settlement price prior to the determination (or if there has been no current sale, at the closing bid price) on the primary exchange on which such securities, futures contracts or options are traded; but if a securities exchange is not the principal market for securities, such securities will, if market quotations are readily available, be valued at current bid prices. Short-term obligations in the fund's portfolio are valued at amortized cost, which constitutes fair value as determined by the Board of Trustees. Short-term obligations with a remaining maturity in excess of 60 days will be valued upon dealer-supplied valuations. Portfolio investments for which market quotations are not readily available, or whose values have been materially affected by events occurring after the close of their primary markets, are valued at fair value as determined in good faith by or at the direction of the Board of Trustees.

Repurchase Agreements - The trust may enter into repurchase agreements with institutions that the trust's investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. The trust requires that the securities collateral in a repurchase transaction be transferred to the custodian in a manner sufficient to enable the trust to obtain those securities in the event of a default under the repurchase agreement. The trust monitors, on a daily basis, the value of the collateral to ensure that its value, including accrued interest, is greater than amounts owed to the trust under each such repurchase agreement. The trust, along with other affiliated entities of Massachusetts Financial Services Company (MFS), may utilize a joint trading account for the purpose of entering into one or more repurchase agreements.

Foreign Currency Translation - Investment valuations, other assets, and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

attributable to foreign exchange rate movements on income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

Deferred Trustee Compensation - Under a Deferred Compensation Plan (the Plan) independent Trustees may elect to defer receipt of all or a portion of their annual compensation. Deferred amounts are treated as though equivalent dollar amounts had been invested in shares of the trust or other MFS trust selected by the Trustee. Deferred amounts represent an unsecured obligation of the trust until distributed in accordance with the Plan. Included in other assets and accrued expenses and other liabilities is \$68,050 of Deferred Trustee Compensation.

Written Options - The trust may write call or put options in exchange for a premium. The premium is initially recorded as a liability, which is subsequently adjusted to the current value of the option contract. When a written option expires, the trust realizes a gain equal to the amount of the premium received. When a written call option is exercised or closed, the premium received is offset against the proceeds to determine the realized gain or loss. When a written put option is exercised, the premium reduces the cost basis of the security purchased by the trust. The trust, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option. In general, written call options may serve as a partial hedge against decreases in value in the underlying securities to the extent of the premium received. Written options may also be used as part of an income producing strategy reflecting the view of the trust's management on the direction of interest rates.

Futures Contracts - The trust may enter into futures contracts for the delayed delivery of securities or currency, or contracts based on financial indices at a fixed price on a future date. In entering such contracts, the trust is required to deposit with the broker either in cash or securities an amount equal to a certain percentage of the contract amount. Subsequent payments are made or received by the trust each day, depending on the daily fluctuations in the value of the contract, and are recorded for financial statement purposes as unrealized gains or losses by the trust. The trust's investment in futures contracts is designed to hedge against anticipated future changes in interest or exchange rates or securities prices. Investments in interest rate futures for purposes other than hedging may be made to modify the duration of the portfolio without incurring the additional transaction costs involved in buying and selling the underlying securities. Investments in currency futures for purposes other than hedging may be made to change the trust's relative position in one or more currencies without buying and selling portfolio assets. Investments in equity index contracts or contracts on related options for purposes other than hedging, may be made when the trust has cash on hand and wishes to participate in anticipated market appreciation while the cash is being invested. Should interest or exchange rates or securities prices move unexpectedly, the trust may not achieve the anticipated benefits of the futures contracts and may realize a loss.

Forward Foreign Currency Exchange Contracts - The trust may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The trust may enter into forward foreign currency exchange contracts for hedging purposes as well as for non-hedging purposes. For hedging purposes, the trust may enter into

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

contracts to deliver or receive foreign currency it will receive from or require for its normal investment activities. The trust may also use contracts in a manner intended to protect foreign currency-denominated securities from declines in value due to unfavorable exchange rate movements. For non-hedging purposes, the trust may enter into contracts with the intent of changing the relative exposure of the trust's portfolio of securities to different currencies to take advantage of anticipated changes. The forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any gains or losses are recorded as unrealized until the contract settlement date. On contract settlement date, the gains or losses are recorded as realized gains or losses on foreign currency transactions.

Investment Transactions and Income - Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. All premium and discount is amortized or accreted for financial statement purposes in accordance with generally accepted accounting principles. All discount is accreted for tax reporting purposes as required by federal income tax regulations. Dividends received in cash are recorded on the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date. Some securities may be purchased on a "when-issued" or "forward delivery" basis, which means that the securities will be delivered to the trust at a future date, usually beyond customary settlement time.

Fees Paid Indirectly - The trust's custody fee is reduced according to an arrangement that measures the value of cash deposited with the custodian by the trust. This amount is shown as a reduction of total expenses on the Statement of Operations.

Tax Matters and Distributions - The trust's policy is to comply with the provisions of the Internal Revenue Code (the Code) applicable to regulated investment companies and to distribute to shareholders all of its net taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is provided.

Distributions to shareholders are recorded on the ex-dividend date. The trust distinguishes between distributions on a tax basis and a financial reporting basis and only distributions in excess of tax basis earnings and profits are reported in the financial statements as distributions from paid-in capital. Differences in the recognition or classification of income between the financial statements and tax earnings and profits, which result in temporary over-distributions for financial statement purposes, are classified as distributions in excess of net investment income or net realized gains. Common types of book and tax differences that could occur include differences in accounting for currency transactions, mortgage-backed securities, derivatives, defaulted bonds, capital losses, and amortization and accretion on debt securities.

The tax character of distributions declared for the years ended October 31, 2002 and October 31, 2001 was as follows:

	OCTOBER 31, 2002	OCTOBER 31, 2001

Distributions declared from:		
Ordinary income	\$35,951,308	\$41,366,841
Long-term capital gain	--	--
	-----	-----
	\$35,951,308	\$41,366,841
Tax return of capital	--	4,152,826
	-----	-----
Total distributions declared	\$35,951,308	\$45,519,667
	-----	-----

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

As of October 31, 2002, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Undistributed ordinary income	\$ 837,504
Undistributed long-term capital gain	--
Capital loss carryforward	(101,470,328)
Unrealized depreciation	(3,046,347)
Other temporary differences	(2,428,990)

For federal income tax purposes, the capital loss carryforward may be applied against any net taxable realized gains of each succeeding year until the earlier of its utilization or expiration.

(3) Transactions with Affiliates

Investment Adviser - The trust has an investment advisory agreement with Massachusetts Financial Services Company (MFS) to provide overall investment advisory and administrative services, and general office facilities.

The management fee is computed daily and paid monthly at an annual rate of 0.34% of the trust's average daily net assets and 5.40% of investment income.

The trust pays compensation to the Independent Trustees ("Trustees") in the form of both a retainer and attendance fees, and pays no compensation directly to its Trustees who are officers of the investment adviser, or to officers of the trust, all of whom receive remuneration for their services to the trust from MFS. Certain officers and Trustees of the trust are officers or directors of MFS and MFS Service Center, Inc. (MFSC). On January 1, 2002, the Trustees terminated the Independent Trustee unfunded defined benefit plan for active Trustees and converted it to an unfunded retirement benefit deferral plan for active Trustees. Under the new plan, the unfunded pension liability was converted into an equivalent value of notional shares of the trust that will fluctuate with the performance (at NAV) of the trust. Included in Trustees' compensation is a net increase of \$10,410 as a result of the change in the trust's pension liability under this plan and a pension expense of \$8,874 for inactive trustees for the six months ended April 30, 2003.

Administrator - The trust has an administrative services agreement with MFS to provide the trust with certain financial, legal, shareholder communications, compliance, and other administrative services. As a partial reimbursement for the cost of providing these services, the trust pays MFS an administrative fee at the following annual percentages of the trust's average daily net assets:

First \$2 billion	0.0175%
Next \$2.5 billion	0.0130%
Next \$2.5 billion	0.0005%
In excess of \$7 billion	0.0000%

Transfer Agent - MFSC acts as registrar and dividend disbursing agent for the Trust. The agreement provides that the Trust will pay MFSC an account

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

maintenance fee of no more than \$9.00 and a dividend services fee of \$0.75 per reinvestment and will reimburse MFSC for reasonable out-of-pocket expenses.

(4) Portfolio Securities

Purchases and sales of investments, other than purchased option transactions and short-term obligations, were as follows:

	PURCHASES	SALES
U.S. government securities	\$ 76,147,725	\$169,721,978
Investments (non-U.S. government securities)	\$ 312,054,137	\$233,096,434

The cost and unrealized appreciation and depreciation in the value of the investments owned by the trust, as computed on a federal income tax basis, are as follows:

Aggregate cost	\$ 532,585,079
Gross unrealized appreciation	\$ 37,907,916
Gross unrealized depreciation	(7,768,835)
Net unrealized appreciation	\$ 30,139,081

(5) Shares of Beneficial Interest

The trust's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. The Trustees have authorized 89,934,854 full and fractional shares of beneficial interest and have authorized the repurchase by the trust of up to 10% of its own shares of beneficial interest. 205,600 shares of beneficial interest were purchased by the trust during the six months ended April 30, 2003 at an average price per share of \$5.81 and a weighted average discount of 9.29% per share. The trust repurchased 294,300 shares of beneficial interest during the year ended October 31, 2002 at an average price per share of \$5.83 and a weighted average discount of 9.43% per share. Transactions in trust shares were as follows:

	SIX MONTHS ENDED APRIL 30, 2003		YEAR ENDED OCTOBER 31, 2002	
	SHARES	AMOUNT	SHARES	AMOUNT
Treasury shares reacquired	(205,600)	\$(1,193,600)	(294,300)	\$(1,717,045)
Net decrease	(205,600)	\$(1,193,600)	(294,300)	\$(1,717,045)

(6) Line of Credit

The trust, and other affiliated funds participate in an \$800 million unsecured line of credit provided by a syndication of banks under a line of credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the bank's base rate. In addition, a commitment fee, based on the average daily unused portion of the line of credit, is allocated among the participating funds at the end of each quarter. The commitment fee allocated to the trust for the six months ended April 30, 2003 was \$2,393. The trust had no borrowings during the period.

Edgar Filing: MFS MULTIMARKET INCOME TRUST - Form N-CSR/A

(7) Financial Instruments

The trust trades financial instruments with off-balance-sheet risk in the normal course of its investing activities in order to manage exposure to market risks such as interest rates and foreign currency exchange rates. These financial instruments include forward foreign currency exchange contracts and futures contracts. The notional or contractual amounts of these instruments represent the investment the trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

There were no outstanding financial instruments with off-balance-sheet risk at the end of the period.

Written Option Transactions

	NUMBER OF CONTRACTS	PR RE

U.S. Treasury Notes	June, 2003	285	Short

At April 30, 2003, trust had sufficient cash and/or securities to cover any margin requirements under these contracts.

(8) Change in Accounting Principle

As required, effective November 1, 2001, the fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium and accreting market discount on debt securities. The cumulative effect of this accounting change had no impact on total net assets of the fund, but resulted in a \$3,979,555 reduction in cost of securities and a corresponding \$3,979,555 decrease in net unrealized depreciation, based on securities held by the fund on November 1, 2001.

The effect of this change for the year ended October 31, 2002 was to increase net investment income by \$42,664, increase net unrealized depreciation by \$522,757, and decrease net realized losses by \$565,421. The Statement of Changes in Net Assets and Financial Highlights for prior periods has not been restated to reflect this change in presentation.

MFS(R) MULTIMARKET INCOME TRUST

The following tables present certain information regarding the Trustees and officers of the Trust, including their principal occupations, which, unless specific dates are shown, are of more than five years" duration, although the titles may not have been the same throughout.

Assistant Treasurer
Massachusetts Financial
Services Company, Senior Vice
President

The Trust holds annual shareholder meetings for the purpose of electing Trustees, and Trustees are elected for fixed terms. The Board of Trustees currently is divided into three classes, each having a term of three years. Each year the term of one class expires. Each Trustee's term of office expires on the date of the third annual meeting following the election to office of the Trustee's class. Each Trustee will serve until next elected or his or her earlier death, resignation, retirement or removal.

Messrs. Shames, Ives, Perera and Poorvu, and Ms. Smith have served in their capacity as Trustee of the Trust continuously since originally elected or appointed. Messrs. Ballen and Gutow have each served as a Trustee of the Trust since August 1, 2001. Messrs. Cohn, Sherratt and Smith, and Ms. O'Neill, were elected by shareholders and have served as Trustees of the Trust since January 1, 2002. Mr. Parke has served as a Trustee of the Trust since January 1, 2002.

Each of the Trust's Trustees and officers holds comparable positions with certain other funds of which MFS or a subsidiary is the investment adviser or distributor and, in the case of the officers, with certain affiliates of MFS. Each Trustee serves as a board member of 112 funds within the MFS Family of Funds.

The Statement of Additional Information contains further information about the Trustees and is available without charge upon request, by calling 1-800-225-2606.

MANAGEMENT INVESTMENT COMPANIES.

If applicable, not applicable at this time. Applicable for annual reports filed on or after July 1, 2003.

ITEM 8. [RESERVED]

ITEM 9. CONTROLS AND PROCEDURES.

- (a) Based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this Form N-CSR, the registrant's principal financial officer and principal executive officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) There were no significant changes in the registrant's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

ITEM 10. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable.
- (b) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2): Attached hereto.

[If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)) and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for the purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: Attached hereto.][The submission of Section 906 certifications has been proposed by the SEC, but has not yet been finalized. The SEC has encouraged issuers to submit Section 906 certifications as an exhibit to Form N-CSR until the final rule has been adopted. Please see Proposed Rule: Certification of Disclosure in Certain Exchange Act Reports, Release No. 33-8212 (March 21, 2003)].

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
