UNION BANKSHARES, INC. AND SUBSIDIARY

Note 1. Basis of Presentation

The accompanying interim unaudited consolidated financial statements of Union Bankshares, Inc. (the Company) for the interim periods ended June 30, 2006 and 2005, and for the quarters then ended have been prepared in conformity with U.S. generally accepted accounting principles (GAAP), general practices within the banking industry, and the accounting policies described in the Company's Annual Report to Shareholders and Annual Report on Form 10-K for the year ended December 31, 2005. In the opinion of the Company's management, all adjustments, consisting only of normal recurring adjustments and disclosures necessary for a fair presentation of the information contained herein have been made. This information should be read in conjunction with the Company's 2005 Annual Report to Shareholders, 2005 Annual Report on Form 10-K, and current reports on Form 8-K. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full fiscal year ending December 31, 2006, or any other interim period.

Certain amounts in the 2005 consolidated financial statements have been reclassified to conform to the 2006 presentation.

Note 2. Commitments and Contingencies

In the normal course of business, the Company is involved in various legal proceedings. In the opinion of management, any liability resulting from such proceedings would not have a material adverse effect on the Company's financial condition or results of operations.

Edgar Filing: UNION BANKSHARES INC - Form 10-Q

Note 3. Per Share Information

Earnings per common share amounts are computed based on the weighted average number of shares of common stock outstanding during the period and reduced for shares held in treasury. The assumed conversion of available stock options does not result in material dilution.

Note 4. New Accounting Pronouncements

In June 2006, the FASB issued Interpretation No. 48 ("FIN 48") "Accounting for Uncertainty in Income Taxes," which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. FIN 48 provides guidance on the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the impact of this new standard to determine its effects, if any, on the Company's consolidated financial statements.

On March 17, 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets, an amendment of SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, with respect to the accounting for separately recognized servicing assets and servicing liabilities. The Statement requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in certain situations. It requires all separately recognized servicing assets and liabilities to be initially measured at fair value, if practicable. It permits an entity to choose either the amortization method or the fair value measurement method for each class of separately recognized servicing assets and liabilities and requires additional disclosures in the financial statements under the fair value measurement method. SFAS No. 156 is effective for fiscal years beginning after September 15, 2006, with early adoption permitted. The Company does not believe the adoption of SFAS No. 156 will have a material impact on the Company's financial position or results of operations but is still in the process of analyzing that impact.

Note 5. Stock Option Plan

In December 2005 the Company adopted SFAS No. 123R Share Based Payment using the modified prospective application. Under SFAS 123R, the Company must recognize as compensation expense the grant date fair value of stock-based awards over the vesting period of the awards. Prior to the adoption of SFAS No. 123R the Company accounted for its stock option plan in accordance with the provisions of APB Opinion No. 25, Accounting for Stock Issued to Employees as allowed under SFAS No. 123 Accounting for Stock-Based Compensation. Under APB Opinion No. 25, the Company provided pro

8

forma net income disclosures for employee stock-based awards granted on or after January 1, 1995 as if the fair value based method defined in SFAS No. 123 had been applied.

Had compensation cost been determined on the basis of fair value pursuant to SFAS No.123R, the effects on net income and earnings per common share for the three and six months ended June 30, 2005 would have been:

| Three Months Ended | Six Months Ended |
|--------------------|------------------|
| ----- | ----- |

Edgar Filing: UNION BANKSHARES INC - Form 10-Q

| | 2005 ----- | 2005 ----- |
|--|------------------------|------------------|
| | (Dollars in thousands) | |
| Net income as reported | \$1,433 | \$2,828 |
| Deduct: Total stock-based compensation expense determined under fair value based method for all awards, net of related tax effects | 0 | 0 |
| | ----- | ----- |
| Pro forma net income | \$1,433 ===== | \$2,828 ===== |
| Earnings per common share | | |
| As reported | \$ 0.31 | \$ 0.62 |
| Pro forma | \$ 0.31 | \$ 0.62 |

Note 6. Defined Benefit Pension Plan

Union Bank (Union), the Company's bank subsidiary, sponsors a non-contributory defined benefit pension plan covering all eligible employees. The plan provides defined benefits based on years of service and final average salary.

Net periodic pension benefit cost for the three and six months ended June 30, 2006 and 2005 consisted of the following components:

| | Three Months Ended ----- | | Six Months Ended ----- | |
|---|-----------------------------|----------------|---------------------------|----------------|
| | 2006 ----- | 2005 ----- | 2006 ----- | 2005 ----- |
| | (Dollars in thousands) | | | |
| Service cost | \$132 | \$116 | \$242 | \$232 |

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

The following discussion and analysis by management focuses on those factors that had a material effect on Union Bankshares, Inc.'s (the Company's) financial position as of June 30, 2006, and as of December 31, 2005, and its results of operations for the three and six months ended June 30, 2006 and 2005. This discussion is being presented to provide a narrative explanation of the financial statements and should be read in conjunction with the financial statements and related notes and with other financial data appearing elsewhere in this filing and with the Company's Annual Report on Form 10-K for the year ended December 31, 2005. In the opinion of Company's management, the interim unaudited data reflects all adjustments, consisting only of normal recurring adjustments, and disclosures necessary to fairly present the Company's consolidated financial position and results of operations for the interim period. Management is not aware of the occurrence of any events after June 30, 2006, which would materially affect the information presented.

CAUTIONARY ADVICE ABOUT FORWARD LOOKING STATEMENTS

The Company may from time to time make written or oral statements that are considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may include financial projections, statements of plans and objectives for future operations, estimates of future economic performance and assumptions relating thereto. The Company may include forward-looking statements in its filings with the Securities and Exchange Commission (SEC), in its reports to stockholders, including this Quarterly Report, in other written materials, and in statements made by senior management to analysts, rating agencies, institutional investors, representatives of the media and others.

Forward-looking statements reflect management's current expectations and are subject to uncertainties, both general and specific, and risk exists that those predictions, forecasts, projections and other estimates contained in forward-looking statements will not be achieved. When management uses any of the words "believes," "expects," "anticipates," "intends," "plans," "seeks," "estimates", or similar expressions, they are making forward-looking statements. Many possible events or factors, including those beyond the control of management, could affect the future financial results and performance of the Company. This could cause results or performance to differ materially from those expressed in forward-looking statements. The possible events or factors that might affect forward-looking statements include, but are not limited to, the following:

- * uses of monetary, fiscal, and tax policy by various governments;
- * political, legislative, or regulatory developments in Vermont, New Hampshire, or the United States including changes in laws concerning accounting, taxes, banking, and other aspects of the financial services

Edgar Filing: UNION BANKSHARES INC - Form 10-Q

- industry;
- * developments in general economic or business conditions nationally, in Vermont, or in northern New Hampshire, including interest rate fluctuations, market fluctuations and perceptions, job creation and unemployment rates, ability to attract new business, and inflation and their effects on the Company or its customers;
- * changes in the competitive environment for financial services organizations, including increased competition from tax-advantaged credit unions;
- * the Company's ability to attract and retain key personnel;
- * changes in technology, including demands for greater automation which could present operational issues or significant capital outlays;
- * acts or threats of terrorism or war, and actions taken by the United States or other governments that might adversely affect business or economic conditions for the Company or its customers;
- * adverse changes in the securities market which could adversely affect the value of the Company's stock;
- * illegal acts of theft or fraud perpetuated against the bank or its customers;
- * unanticipated lower revenues or increased cost of funds, loss of customers or business, or higher

10

- operating expenses;
- * the failure of assumptions underlying the establishment of the allowance for loan losses and estimations of values of collateral and various financial assets and liabilities;
- * the amount invested in new business opportunities and the timing of these investments
- * the failure of actuarial, investment, work force, salary, and other assumptions underlying the establishment of reserves for future pension costs or changes in legislative or regulatory requirements;
- * future cash requirements might be higher than anticipated due to loan commitments or unused lines of credit being drawn upon or depositors withdrawing their funds;
- * assumptions made regarding interest rate movement and sensitivity could vary substantially if actual experience differs from historical experience which could adversely affect the Company's results of operations; and
- * the creditworthiness of current loan customers is different from management's understanding or changes dramatically and therefore the allowance for loan losses becomes inadequate.

When evaluating forward-looking statements to make decisions with respect to the Company, investors and others are cautioned to consider these and other risks and uncertainties and are reminded not to place undue reliance on such statements. Forward-looking statements speak only as of the date they are made and the Company undertakes no obligation to update them to reflect new or changed information or events, except as may be required by federal securities laws.

CRITICAL ACCOUNTING POLICIES

The Company has established various accounting policies which govern the application of accounting principles generally accepted in the United States of America in the preparation of the Company's financial statements. Certain accounting policies involve significant judgments and assumptions by management which have a material impact on the reported amount of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities in the consolidated financial statements and accompanying related

Edgar Filing: UNION BANKSHARES INC - Form 10-Q

notes. The SEC has defined a company's critical accounting policies as the ones that are most important to the portrayal of the company's financial condition and results of operations, and which require the company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, the Company has identified the accounting policies and judgments most critical to the Company. The judgments and assumptions used by management are based on historical experience and other factors, which are believed to be reasonable under the circumstances. Because of the nature of the judgments and assumptions made by management, actual results could differ from estimates and have a material impact on the carrying value of assets, liabilities, or the results of operations of the Company.

The Company believes the allowance for loan losses is a critical accounting policy that requires the most significant judgments and estimates used in the preparation of its consolidated financial statements. In estimating the allowance for loan losses, management utilizes historical experience as well as other factors including the effect of changes in the local real estate market on collateral values, the effect on the loan portfolio of current economic indicators and their probable impact on borrowers and changes in delinquent, nonperforming or impaired loans. Changes in these factors may cause management's estimate of the allowance for loan losses to increase or decrease and result in adjustments to the Company's provision for loan losses in future periods. For additional information see, FINANCIAL CONDITION - Allowance for Loan Losses below. The Company also has other key accounting policies, which involve the use of estimates, judgments and assumptions that are significant to understanding the results including the liability for the defined benefit pension plan, valuation of deferred tax assets and analysis of potential impairment of investment securities. Although management believes that its estimates, assumptions and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

11

OVERVIEW

The Company's net income was \$1.53 million for the quarter ended June 30, 2006, compared with net income of \$1.43 million for the same period of 2005, or a 7.0% increase between years. The Company's net income for the six months ended June 30, 2006 was \$3.01 million, compared with net income of \$2.83 million for the same period of 2005, or a 6.3% increase between years. The year to date increase in net interest income of \$507 thousand was achieved despite a one-time negative adjustment of \$115 thousand (\$76 thousand, after-tax) to reflect the cumulative effect of inadvertent errors made in prior years on the accrual of interest for accounting purposes on certain loans. Interest rates have continued to rise throughout 2006 with two twenty-five basis point increases during both the first and second quarter. The Company had an increase in its net interest margin from 5.36% for the second quarter of 2005 to 5.46% for the second quarter of 2006. The net interest margin on a year to date basis grew from 5.36% for 2005 to 5.37% for 2006. The 2006 results also reflect the \$150 thousand provision for loan losses (\$105 thousand in the second quarter) compared to none in 2005. The increase in the provision for loan losses was mainly necessitated by the growth in commercial and residential real estate loans between years, a change in the composition of the loans within the portfolio and the down grading of three loan relationships to substandard. Also contributing to net income for the quarter was an increase in non-interest income of \$95 thousand compared to the second quarter of 2005. Income earned for the quarter was partially offset by the increase of \$174 thousand in non-interest expenses. For additional information see quarterly results analysis beginning on page 13. Regular quarterly cash dividends of \$0.26 per share were declared and paid in January and April 2006.

Edgar Filing: UNION BANKSHARES INC - Form 10-Q

The Company's total assets decreased from \$374.7 million at December 31, 2005, to \$362.8 million at June 30, 2006, a decrease of 3.2%. Deposits decreased from \$313.3 million at December 31, 2005 to \$296.7 million at June 30, 2006, or a decrease of 5.1%. This is a normal seasonal decrease for the Company as Vermont municipalities are required by State law to be out of debt, for tax anticipation borrowings, at least one day per year and the majority redeem their certificates of deposit and pay down their loans on June 30th each year.

Deposit generation to fund loan demand has become an area of focus as deposits, which provide a lower cost funding source than borrowings or other purchased funds, have declined during the first half of 2006. Loans and loans held for sale increased \$379 thousand, net of the sale of \$10.8 million in residential real estate loans during the first half of 2006. Average loans for the first six months of 2006 were \$308.4 million compared to the 2005 average of \$288.9 million reflecting the continuing high demand for loans despite rising interest rates. Investment securities available-for-sale decreased \$8.5 million, as maturities and sales in the investment portfolio were utilized to fund loan demand. The increase in loans was also funded by a decrease in interest bearing deposits in banks of \$1.9 million, a decrease in cash and cash equivalents of \$2.1 million, and an increase in Borrowed Funds of \$4.1 million.
