Item 1.01. Entry into a Material Definitive Agreement

On June 23, 2015, Ashland Inc. (the “Company”) entered into a Credit Agreement (the “Credit Agreement”) among the Company, as Borrower, The Bank of Nova Scotia, as administrative agent, and each lender party thereto and the other agents party thereto. The Credit Agreement provides for a five-year senior unsecured revolving credit facility in an aggregate amount of \$1.2 billion (the “Revolving Credit Facility”), which includes a \$250 million letter of credit sublimit and a \$100 million swing line loan sublimit, and a five-year senior unsecured term loan facility in an aggregate principal amount of \$1.1 billion (the “Term Loan Facility”, and together with the Revolving Credit Facility, the “Senior Credit Facilities”). A portion of the proceeds of the Term Loan Facility were used to prepay all of the Company’s outstanding loans under the existing credit agreement dated as of March 14, 2013 (as amended, the “Existing Credit Agreement”), among the Company, The Bank of Nova Scotia, as administrative agent, each lender party thereto and the other agents party thereto. Proceeds from the Term Loan Facility were also used to repurchase in the Tender Offer (as defined below) a portion of the Company’s 3.000% Senior Notes due 2016, and proceeds will be used to fund certain underfunded pension obligations of the Company and for other general corporate purposes.

The Senior Credit Facilities are not guaranteed and are unsecured.

On June 23, 2015, after giving effect to the rollover of letters of credit outstanding under the Existing Credit Agreement, the Company had approximately \$1.128 billion of availability under the Revolving Credit Facility, which may be used to provide ongoing working capital and for other general corporate purposes.

At the Company’s option, loans issued under the Credit Agreement will bear interest at either LIBOR or an alternate base rate, in each case plus the applicable interest rate margin. Loans will initially bear interest at LIBOR plus 1.75% per annum, in the case of LIBOR borrowings, or at the alternate base rate plus 0.75%, in the alternative, through and including the date of delivery of a Compliance Certificate (as defined in the Credit Agreement) for the fiscal quarter ending June 30, 2015, and thereafter the interest rate will fluctuate between LIBOR plus 1.375% per annum and LIBOR plus 2.50% per annum (or between the alternate base rate plus 0.375% per annum and the alternate base rate plus 1.50% per annum), based upon the Company’s corporate credit ratings or the Consolidated Gross Leverage Ratio (as defined in the Credit Agreement) (whichever yields a lower applicable interest rate margin) at such time. In addition, the Company will initially be required to pay fees of 0.25% per annum on the daily unused amount of the Revolving Credit Facility through and including the date of delivery of a Compliance Certificate for the fiscal quarter ending June 30, 2015, and thereafter the fee rate will fluctuate between 0.175% per annum and 0.40% per annum, based upon the Company’s corporate credit ratings or the Consolidated Gross Leverage Ratio (whichever yields a lower fee rate).

The Senior Credit Facilities may be prepaid at any time without premium. The Term Loan Facility will amortize at a rate of 5% per annum in each of the first and second years after funding (payable in equal quarterly installments), 10% per annum in each of the third and fourth years after funding (payable in equal quarterly installments), and 5% per quarter for each of the first three calendar quarters during the fifth year after funding, with the outstanding balance of the Term Loan Facility to be paid on the fifth anniversary of funding.

The Credit Agreement contains usual and customary representations and warranties, and usual and customary affirmative and negative covenants, including limitations on liens of the Company, additional subsidiary indebtedness, restrictions on subsidiary distributions, investments, restricted payments, asset sales and mergers. The financial covenants include maintenance of a maximum consolidated leverage ratio (with certain step-downs) and a minimum consolidated interest coverage ratio. The Senior Credit Facilities also contain usual and customary events of default, including non-payment of principal, interest, fees and other amounts, material breach of a representation or warranty, non-performance of covenants and obligations, default on other material debt, bankruptcy or insolvency, material judgments, incurrence of certain material ERISA liabilities, impairment of loan documentation, and change of control.

The foregoing summary of the Credit Agreement does not purport to be complete and is subject to and qualified in its entirety by reference to the Credit Agreement, a copy of which is filed as Exhibit 10.1 hereto and incorporated herein by reference.

A copy of the news release announcing entry into the Credit Agreement is hereby incorporated by reference and attached hereto as Exhibit 99.1.

#### Item 1.02. Termination of a Material Definitive Agreement

On June 23, 2015, in connection with the closing of the Credit Agreement, the Company terminated all outstanding commitments under the Existing Credit Agreement and repaid all outstanding loans thereunder. As of June 23, 2015, the aggregate principal amount of the loans outstanding under the Existing Credit Agreement was \$40 million. All outstanding letters of credit under the Existing Credit Agreement were rolled over as letters of credit outstanding under the Credit Agreement.

#### Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

The information set forth under “Item 1.01. Entry into a Material Definitive Agreement” is incorporated herein by reference.

#### Item 8.01. Other Events

##### Tender Offer

A copy of the news release announcing the expiration of the Tender Offer is hereby incorporated by reference and attached hereto as Exhibit 99.2.

The remaining Notes will be redeemed on July 23, 2015 at a redemption price equal to (1) the greater of (x) 100% of the principal amount of the Notes and (y) the sum of the present values of the remaining scheduled payments of principal and interest on the Notes to be redeemed (exclusive of interest accrued to the redemption date) from the redemption date through the scheduled maturity date of the Notes, discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the treasury rate plus 50 basis points, plus (2) accrued and unpaid interest to, but not including, the redemption date.
