Supplemental Disclosure of Cash Flow Information

- o The Company paid no cash for interest during the six months ended February 28, 2006 and 2005 and \$392,311 and \$0 for income taxes during

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

the six months ended February 28, 2006 and 2005.

- o The Company issued 265,000 and 100,000 stock options during the six month periods ended February 28, 2006 and 2005, respectively, which resulted in an increase to Deferred Compensation of \$363,200 and \$15,750, respectively.
- o The Company had an income tax benefit from the exercise of stock options of \$555,567 during the six months ended February 28, 2006, which was recorded as an increase to additional paid-in capital and a reduction in income taxes payable.
- o The Company had an unrealized loss of \$8,278 during the six months ended February 28, 2006 on available-for-sale securities.

3

BSD MEDICAL CORPORATION Notes to Condensed Financial Statements

Note 1. Basis of Presentation

The accompanying unaudited condensed financial statements of BSD Medical Corporation as of February 28, 2006 and for the three and six months ended February 28, 2006 and 2005, have been prepared in accordance with U.S. generally accepted accounting principles for interim financial reporting and pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. These financial statements should be read in conjunction with the notes hereto, and the financial statements and notes thereto included in our annual report on Form 10-KSB for the year ended August 31, 2005.

All adjustments (consisting only of normal recurring adjustments) necessary for the fair presentation of our financial position as of February 28, 2006 and our results of operations, financial position and changes therein for the three and six months ended February 28, 2006 and 2005 have been included. The results of operations for the three and six months ended February 28, 2006 may not be indicative of the results for the year ending August 31, 2006.

Note 2. Recent accounting pronouncements

The Company accounts for stock-based compensation awards issued to employees using the intrinsic value measurement provisions of APB 25. Accordingly, no compensation expense has been recorded for stock options granted to employees with exercise prices greater than or equal to the fair value of the underlying common stock at the option grant date. On December 16, 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123R (revised 2004), "Share-Based Payment," which eliminates the alternative of applying the intrinsic value measurement provisions of APB 25 to stock compensation awards issued to employees. The new standard requires enterprises to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. That cost will be recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company has not yet quantified the effects of the adoption of SFAS

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

123R, but it is expected that the new standard will result in significant stock-based compensation expense. The pro forma effects on net loss and net loss per common share if the Company had applied the fair value recognition provisions of the original SFAS 123 on stock compensation awards (rather than applying the intrinsic value measurement provisions of APB 25) are disclosed in Note 6 below. Although the pro forma effects of applying the original SFAS 123 may be indicative of the effects of adopting SFAS 123R, the provisions of these two statements differ in some important respects. The actual effects of adopting SFAS 123R will be dependent on numerous factors including, but not limited to,

4

the valuation model chosen by the Company to value stock-based awards, the assumed award forfeiture rate, the accounting policies adopted concerning the method of recognizing the fair value of awards over the requisite service period, and the transition method (as described below) chosen for adopting SFAS 123R.

SFAS 123R will be effective for the Company beginning September 1, 2006, and requires the use of either the Modified Prospective Application Method or the Modified Retrospective Method. Under the Modified Prospective Method, SFAS 123R is applied to new awards and to awards modified, repurchased, or cancelled after the effective date. Additionally, compensation cost for the portion of awards for which the requisite service has not been rendered (such as unvested options) that are outstanding as of the date of adoption shall be recognized as the remaining requisite services are rendered. The compensation cost relating to unvested awards at the date of adoption shall be based on the grant-date fair value of those awards as calculated for pro forma disclosures under the original SFAS 123. Alternatively, companies may use the Modified Retrospective Application Method. This method may be applied to all prior years for which the original SFAS 123 was effective or only to prior interim periods in the year of initial adoption. If the Modified Retrospective Application Method is applied, financial statements for prior periods shall be adjusted to give effect to the fair-value-based method of accounting for awards on a consistent basis with the pro forma disclosures required for those periods under the original SFAS 123.

On April 15, 2005, the SEC issued release No. 33-8568, "Amendment to Rule 4-01(a) of Regulation S-X Regarding the Compliance Date for SFAS 123R." The amended rule permits calendar year registrants subject to oversight by the SEC to implement SFAS 123R at the beginning of its next fiscal year. The Company will implement SFAS 123R at the beginning of its next fiscal year (September 1, 2006).

In March, 2005, the SEC issued SAB No. 107 to simplify some of the implementation challenges of SFAS 123R. In particular, SAB 107 provides supplemental implementation guidance on SFAS 123R including guidance on valuation methods, classification of compensation expense, inventory capitalization of share-based compensation costs, income tax effects, disclosures in Management's Discussion and Analysis and several other issues. We will apply the principles of SAB 107 in conjunction with the adoption of SFAS 123R.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections," which replaces APB No. 20, "Accounting Changes," and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements." SFAS 154 applies to all voluntary changes in accounting principle, and changes the requirements for accounting and reporting a change in accounting principles. SFAS 154 requires retroactive application to prior periods' financial statements of a voluntary change in accounting principle unless it is impractical to do so. APB 20 previously required that most voluntary changes in accounting principle

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

be recognized with a cumulative effect adjustment in net income of the period of the change. SFAS 154 is effective for accounting changes made in annual periods beginning after December 15, 2005.

5

Note 3. Net Income Per Common Share

The computation of basic earnings per common share is based on the weighted average number of shares outstanding during the period. The computation of diluted earnings per common share is based on the weighted average number of shares outstanding during the period plus the weighted average common stock equivalents which would arise from the exercise of stock options outstanding using the treasury stock method and the average market price per share during the period. When common stock equivalents are anti-dilutive, they are not included.

The shares used in the computation of the Company's basic and diluted earnings per share are reconciled as follows:

	Three Months Ended February 28,		Six Months Ended February 28,
	2006	2005	2006
	----	----	----
Weighted average number of shares outstanding - basic	20,575,141	20,136,000	20,555,998
Dilutive effect of stock options	1,471,046	1,394,000	1,578,780
	-----	-----	-----
Weighted average number of shares outstanding - diluted	22,046,187	21,530,000	22,123,000
	=====	=====	=====

Note 4. Inventories

Inventories consisted of the following as of February 28, 2006:

Raw materials	\$ 713,109
Work in process	722,545
Reserve for obsolete inventory	(80,000)

	\$ 1,355,654
	=====

Note 5. Related Party Transactions

During the six months ended February 28, 2006 and February 28, 2005, the Company had sales of \$208,453 and \$496,060, respectively, to an entity controlled by a significant stockholder and member of the Board of Directors. These related party transactions represent 21.7% and 51% of total sales.

Note 6. Stock-Based Compensation

The Company accounts for stock options granted to employees under the recognition and measurement principles of Accounting Principles Board Opinion No. 25 (APB 25), Accounting for Stock Issued to Employees, and related

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

Interpretations, and has adopted the disclosure-only provisions of Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation. Accordingly, the difference between the exercise price and the

6

fair market value of the stock on the grant date has been recognized in the financial statements as expense. Had the Company's stock options been accounted for based on the fair value method of SFAS No. 123, the results of operations would have been reduced to the pro forma amounts indicated below for the -periods indicated below:

	Six Months Ended February 28, 2006		2005	Three M Febr 2006
Net income as reported	\$ 6,317,922	\$ 366,865	\$ 3,181,6	
Add: Stock based employee compensation expense included in reported net income net of related tax effects	\$ 56,300	9,508	19,6	
Deduct: Total stock based employee compensation expense determined under fair value based method for all awards, net of related taxes	\$ (170,798)	(103,089)		
Net income - pro forma	6,203,424	\$ 273,284	\$ 3,201,3	
Basic income per share as reported	\$.30	\$.02	\$.	
Diluted income per share as reported	\$.28	\$.02	\$.	
Basic income per share - pro-forma	\$.30	\$.02	\$.	
Diluted income per share - pro forma	\$.28	\$.01	\$.	

The fair value of each stock option granted for the six months ended February 28, 2006 and 2005 is estimated on the date of grant using the Black-Scholes option pricing model using the following assumptions:

	2006	2005
Expected dividend yield	\$ -	\$ -
Expected stock price volatility	75%	84%
Risk-free interest rate	4.10%	3.32%
Expected life of options	4.84 years	10 years

The weighted average fair value of options granted during the six months ended February 28, 2006 and 2005 was \$3.56 and \$1.20, respectively.

Note 7. Gain on Sale of Investment in TherMatrix

On July 15, 2004, the Company's investment in an unconsolidated subsidiary (TherMatrix) was sold to American Medical Systems, Inc. (AMS). The

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

Company's portion of the initial payment from this sale, received in fiscal 2004, was approximately \$9 million, with additional payments contingent on the quarterly sales of TherMatrx through the fourth calendar quarter of 2005. During the quarter ended February 28, 2006, the Company received an additional payment from the sale of TherMatrx of \$5,667,196, to bring the total received to date as of February 28, 2006 to \$27,076,952. This amount is recorded as a gain and has been reflected as "other income" in the Statements of Operations.

7

Note 8. Subsequent Event

On March 6, 2006, the Company received an additional payment of approximately \$5.86 million from the earnout of TherMatrx, Inc. The amount of the payment was based on the level of sales of TherMatrx products during the fourth calendar quarter of 2005. This brings the total payments collected by the Company from the sale of TherMatrx to over \$32.9 million. This payment will be reflected in the "other income" section of the Company's Statements of Operations for the quarter ending May 31, 2006.

Note 9. Stockholders' Equity

During the six months ended February 28, 2006, 375,226 shares of common stock were issued for cash of \$137,160 and services of \$18,050.

8

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other parts of this report contain forward-looking statements that involve risks and uncertainties. Forward-looking statements can also be identified by words such as "anticipates," "expects," "believes," "plans," "predicts," and similar terms. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to; those discussed in the subsections entitled "Forward-Looking Statements" below. The following discussion should be read in conjunction with our consolidated financial statements and notes thereto included in this report. We assume no obligation to revise or update any forward-looking statements for any reason, except as required by law.

General

We develop, manufacture, market and service systems that deliver precision-focused radio frequency (RF) and microwave energy into diseased sites of the body, heating them to specified temperatures as required by a variety of medical therapies. Our business objectives currently are to commercialize our products developed for the treatment of cancer and to further expand our developments to treat other diseases and medical conditions.

While our primary developments to date have been cancer treatment systems, we also pioneered the use of microwave thermal therapy for the treatment of symptoms associated with enlarged prostate, and we are responsible for much of the technology that has successfully created a substantial new medical industry using that therapy. In accordance with our strategic plan, we

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

sold our interest in TherMatrx, Inc., the company established to commercialize our technology to treat enlarged prostate symptoms, to provide funding that we can utilize for commercializing our systems used in the treatment of cancer and in achieving other business objectives. We have received approximately \$33 million in earnout payments from the TherMatrx sale through March 6, 2006.

In spite of the advances in cancer treatment technology, over 40% of cancer patients continue to die from the disease in the United States, and cancer has now surpassed heart disease as the number one killer from all causes of death in the United States. Commercialization of our systems used to treat cancer (the BSD-2000 and BSD-500 families of products) is our most immediate business objective. Our cancer therapy systems are used in combination with existing cancer treatments to kill cancer with heat while boosting the effectiveness of radiation and chemotherapy through a number of biological mechanisms. Current and targeted cancer treatment sites for our systems include cancers of the prostate, breast, chestwall, head, neck, bladder, cervix, colon/rectum, esophagus, liver, pancreas, brain, bone, stomach and lung, including soft tissue sarcoma, melanoma, carcinoma, and basal cell carcinoma.

Our BSD-2000 systems are used to non-invasively treat cancers located deeper in the body, and are designed to be companions to the estimated 7,500 linear accelerators used to treat cancer through radiation globally and in combination with chemotherapy treatments. Our BSD-500 systems treat cancers on or near the body surface and those that can be approached through body orifices such as the throat, the rectum, etc., or through interstitial treatment in combination with interstitial radiation (brachytherapy). BSD-500 systems can be used as companions to our BSD-2000 systems, to the estimated 2,500 brachytherapy systems installed and with chemotherapy treatments.

We have received FDA approval to market our commercial version of the BSD-500 and have applied for FDA approval to sell the BSD-2000 in the United States. We have designed our cancer treatment systems such that together they are capable of providing complementary therapy for treatment of most solid tumors located in the body.

9

In this report it will be noted that we have substantially increased our emphasis on marketing, market preparation and sales efforts. This corresponds to our FDA submission for approval of the BSD-2000. Our objective is to prepare the market for our systems. We have also increased our efforts in the development of new products not announced.

Our common stock trades on the American Stock Exchange (AMEX) under the symbol "BSM."

Our accumulated deficit since inception decreased from \$8,751,454 as of August 31, 2005 to \$2,433,533 as of February 28, 2006 due to net income recorded during the six months ended February 28, 2006. We recorded after tax net income for the first six months of fiscal 2006 of \$6,317,922.

We recognize revenue from the sale of cancer treatment systems, the sale of parts and accessories related to the cancer treatment systems, the sale of software license rights, providing manufacturing services, training and support services. Product sales were \$821,739 and \$861,417 for the six months ended February 28, 2006 and 2005, respectively. Service revenue was \$138,804 and \$111,929 for the six months ended February 28, 2006 and 2005, respectively.

During the six month period ended February 28, 2006, we earned \$752,090, or 78.3%, of our revenue from sales to unrelated parties. These revenues consisted of product sales of \$644,805, consulting services of \$36,709,

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

service contracts of \$11,889, probes of \$20,285 and other miscellaneous revenue of \$ 38,402.

Cost of sales for the period ended February 28, 2006 includes, raw materials and labor costs of \$422,276 and overhead costs of \$238,954. Research and development expenses include expenditures for new product development and development of enhancements to existing products.

Critical Accounting Policies and Estimates

The following is a discussion of our critical accounting policies and estimates that management believes are material to an understanding of our results of operations and which involve the exercise of judgment or estimates by management.

Revenue Recognition. Revenue from the sale of cancer treatment systems is recognized when a purchase order has been received, the system has been shipped, the selling price is fixed or determinable, and collection is reasonably assured. Most system sales are F.O.B. shipping point; therefore, shipment is deemed to have occurred when the product is delivered to the transportation carrier. Most system sales do not include installation. If installation is included as part of the contract, revenue is not recognized until installation has occurred, or until any remaining installation obligation is deemed to be perfunctory. Some sales of cancer treatment systems may include training as part of the sale. In such cases, the portion of the revenue related to the training, calculated based on the amount charged for training on a stand-alone basis, is deferred and recognized when the training has been provided. The sales of our cancer treatment systems do not require specific customer acceptance provisions and do not include the right of return, except in cases where the product does not function as warranted by us. We provide a reserve allowance for estimated returns. To date, returns have not been significant.

Revenue from manufacturing services is recorded when an agreement with the customer exists for such services, the services have been provided, and collection is reasonably assured. Revenue from training services is recorded when an agreement with the customer exists for such training, the training services have been provided, and collection is reasonably assured. Revenue from service support contracts is recognized on a straight-line basis over the term of the contract.

Our revenue recognition policy is the same for sales to both related parties and non-related parties. We provide the same products and services under the same terms for non-related parties as with related parties. Sales to distributors are recognized in the same manner as sales to end-user customers.

10

Deferred revenue and customer deposits payable include amounts from service contracts as well as cash received for the sales of products, which have not been shipped.

Inventory Reserves. As of February 28, 2006, we have a reserve for potential inventory impairment recorded of \$80,000. We periodically review our inventory levels and usage, paying particular attention to slower-moving items.

Product Warranty. We provide product warranties on our BSD-500 and BSD-2000 systems. These warranties vary from contract to contract, but generally consist of parts and labor warranties for one year from the date of sale. To date, expenses resulting from such warranties have not been material. We record

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

a warranty expense at the time of each sale. This reserve is estimated based on prior history of service expense associated with similar units sold in the past.

Allowance for Doubtful Accounts. We provide our customers with payment terms that vary from contract to contract. Our allowance for doubtful accounts at February 28, 2006 was \$42,500. Bad debt expense for the six months ended February 28, 2006 was \$0. We perform ongoing credit evaluations of our customers and maintain allowances for possible losses. Allowance estimates are recorded on a customer-by-customer basis and are determined based on the age of the receivable, compliance with payment terms, and prior history with existing clients.

Results of Operations

Three Months Ended February 28, 2006 Compared to the Three Months Ended February 28, 2005

Revenue. Revenue for the three months ended February 28, 2006 was \$439,376 compared to \$715,413 for the three months ended February 28, 2005, a decrease of \$276,037, or approximately 39%. The decrease in total revenue was primarily due to a decrease in sales to related parties. Our revenue can fluctuate significantly from period to period because our sales, to date, have been based upon a relatively small number of systems, the sales price of each being substantial enough to greatly impact revenue levels in the periods in which they occur. Sales of a few systems can cause a large change in our revenue from period to period.

We earned \$196,586, or approximately 45%, of our revenue in the three months ended February 28, 2006 from sales to related parties as compared to \$488,906, or 68.33%, in the three months ended February 28, 2005. All of the related party revenue in the 2006 period was from sales of systems and component parts to Medizin-Technik. Sales to Medizin-Technik may fluctuate significantly from period to period because our sales, to date, have been based upon a relatively small number of systems, the sales price of each being substantial enough to greatly impact revenue levels in the periods in which they occur. Sales of a few systems can cause a large change in the revenue from period to period.

In the three months ended February 28, 2006, we earned \$242,790, or 55%, of our revenue from sales to unrelated parties, as compared to \$226,507, or 32%, for the three months ended February 28, 2005. These revenues consisted of product sales of \$200,000, consulting services of \$32,064, service contracts of \$7,094, probes of \$2,362 and other miscellaneous revenue of \$1,270.

Gross Profit. Gross profit for the three months ended February 28, 2006 was \$135,645, or 31% as compared to \$340,454, or 48% of total product sales for the three months ended February 28, 2005. Because we have not had employee layoffs due to the specialized nature of our employees and because of the fixed costs associated with production, declining sales during the six months ended February 28, 2006 resulted in increased costs for inventory and a decreased - gross profit percentage.

Selling General and Administrative Expenses. Selling, general and administrative expenses increased to \$1,169,707 in the three months ended February 28, 2006, up from \$459,280 for the three months ended February 28, 2005, an increase of \$710,427, or 155%. This increase was primarily due to an

increase in sales and marketing costs of \$645,151 supporting new product sales.

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

We also incurred higher consulting costs related to preparation of FDA submissions, higher legal and accounting costs and an increase in compensation expense related to the issuance of stock options. Payroll costs also increased as a result of wage and salary raises, the addition of new employees and fewer BSD employees working as consultants for American Medical Systems, Inc.

Research and Development Expenses. Research and development expenses were \$334,739 for the three months ended February 28, 2006, as compared to \$191,283 for the three months ended February 28, 2005, an increase of \$143,456, or 75%, primarily due to an increase in payroll and consulting costs associated with increased emphasis on the development of new products.

Interest income. Interest income increased to \$304,590 for the three months ended February 28, 2006, as compared to \$86,905 for the three months ended February 28, 2005, due to the significantly higher levels of cash and available-for-sale securities resulting from the sale of our investment in TherMatrx.

Net income Net income for the three months ended February 28, 2006 was \$3,181,679 after an income tax expense of \$1,686,471, as compared to net income of \$871,202 for the three months ended February 28, 2005. The increase in the net income was primarily due to a payment of \$5,667,196 received during the period ended February 28, 2006, from the sale of our investment in TherMatrx and the increase in interest income.

Results of Operations

Six Months Ended February 28, 2006 Compared to the Six Months Ended February 28, 2005

Revenue. Revenue for the six months ended February 28, 2006 was \$960,543, compared to \$973,346 for the corresponding period in fiscal 2005, a decrease of \$12,803 or approximately 1%. The decrease in total revenue was primarily due to a decrease in sales to related parties. Sales to Medizin-Technik totaled \$208,453 as compared to \$496,060 for the corresponding period -, in fiscal 2005. Dr. Gerhard Sennewald, one of our directors, is a stockholder, executive officer and a director of Medizin-Technik GmbH. Our revenue can fluctuate significantly from period to period because our sales, to date, have been based upon a relatively small number of systems, the sales price of each being substantial enough to greatly impact revenue levels in the periods in which they occur. Sales of a few systems can cause a large change in our revenue from period to period. Product sales decreased to \$644,805 for the six months ended February 28, 2006, as compared to \$645,960 for the corresponding periods of fiscal 2005.

In the six months period ended February 28, 2006, we derived \$208,453, or 22% of our revenue as compared to \$496,060, or 51%, of our revenue in six months ended February 28, 2005, from sales to related parties. All of the related party revenue in the 2006 period was from sales of BSD systems and component parts to Medizin-Technik. For the six months ended February 28, 2006 and 2005, all of the related party revenue was for sales to Medizin-Technik. Sales to Medizin-Technik may fluctuate significantly from period to period due to the high cost of a BSD-2000 or BSD-500 system. Sales increases of one or two systems can have a material effect on our revenue.

In the six months ended February 28, 2006, we derived \$752,090, or 78% of our revenue to sales to non-related parties compared to \$477,286, or 49% for the corresponding period of fiscal 2005. Our fiscal 2006 non-related party revenue consisted of product sales of approximately \$644,805. The balance of our non-related party revenue consisted of consulting services of approximately \$36,709, service contracts of approximately \$11,937, probes of approximately

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

\$20,285 and miscellaneous revenue of \$38,354.

12

Gross Profit. Gross profit for the six months ended February 28, 2006 was \$299,313, or 31% as compared to \$328,016, or 34% of sales in the corresponding period in fiscal 2005. The decline in gross profit margin was primarily due to the cost of excess production employees resulting from the significant decrease in sales during our second fiscal quarter. Because we have not had employee layoffs and because of the fixed costs associated with production, as our sales declined, it resulted in the lower gross profit margin in the six months ended February 28, 2006.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased to \$2,223,822 in the six months ended February 28, 2006, from \$838,698 for the corresponding period of fiscal 2005, an increase of \$1,385,124, or 165%. Our sales and marketing costs increased from approximately \$125,000 in the six months ended February 28, 2005 to approximately \$1,172,937 in the six months ended February 28, 2006 due to increased head count and to higher sales and marketing costs due to greater emphasis on sales and marketing. Legal and accounting costs increased from approximately \$88,000 in the 2005 period to approximately \$154,000 in the 2006 period, reflecting the use of legal counsel in preparation for the shareholders meeting and the review of the Form 10-QSB, 10-KSB and proxy statements, as well as fees incurred in connection with tax consulting and planning. Shareholder relations costs increased from approximately \$42,000 in the 2005 period to approximately \$50,000 in the 2006 period reflecting costs incurred in connection with our annual shareholders meeting and the issuance of various press releases. Consulting costs increased from approximately \$46,000 to approximately \$172,000 from the 2005 period to the 2006 period, respectively. This is due to the use of consultants in marketing efforts and in efforts to file the FDA approval application.

Research and Development Expenses. Research and development expenses were \$564,904 for the six months ended February 28, 2006, as compared to \$374,880 for the corresponding period in fiscal 2005, an increase of \$190,024, or 51%, primarily due to an increase in payroll and consulting costs associated with increased emphasis on the development of new products.

Interest income. Interest income increased to \$549,213 in the six months ended February 28, 2006 as compared \$157,498 for the six months ended February 28, 2005, due to the significantly higher levels of cash on hand resulting from the sale of our shares in TherMatrx.

Net income. Net income after taxes for the six months ended February 28, 2006, was \$6,317,922 as compared with a net income of \$366,865 for the corresponding period of fiscal 2005. The increase in the net income was primarily due to payments of \$11,550,120 during the 2006 period from the sale of our shares in TherMatrx and the increase in interest income.

Fluctuation in Operating Results. Our results of operations have fluctuated in the past and may fluctuate in the future from year to year as well as from quarter to quarter. Revenue may fluctuate as a result of factors relating to the demand for thermotherapy systems and component parts supplied by us to TherMatrx, market acceptance of our BSD hyperthermia systems, changes in the medical capital equipment market, changes in order mix and product order configurations, competition, regulatory developments and other matters. Operating expenses may fluctuate as a result of the timing of sales and marketing activities, research and development and clinical trial expenses, and general and administrative expenses associated with our potential growth. For these and other reasons described elsewhere, our results of operations for a

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

particular period may not be indicative of operating results for any other period.

Liquidity and Capital Resources

Our accumulated deficit since inception decreased from \$8,751,454 as of August 31, 2005 to \$2,433,533 as of February 28, 2006, due to net income of \$6,317,922 recorded during the six months ended February 28, 2006. We have historically financed our operations through cash from operations, licensing of

13

technological assets, issuance of common stock and through the sale of our investments in spinoff operations. We have received additional payments and expect to receive additional payments as a result of the sale of our TherMatrx shares. These payments were contingent on the product sales that TherMatrx achieved through December 31, 2005. We believe these payments and the payments yet to be received will contribute significantly to our future capital resources.

During the three months ended February 28, 2006, we used \$1,814,527 in operating activities. The cash used in operating activities was mainly the result of the exclusion of TherMatrx gain, an increase in income taxes payable of \$3,239,505, an increase in accounts payable of \$121,753, an increase in accrued expenses of \$282,460, a decrease in accounts receivable of \$20,330, and an increase in inventory of \$221,301. Our investing activities for the six months ended February 28, 2006 generated net cash of \$1,440,181, relating mainly to the proceeds received from the sale of our investment in TherMatrx of \$11,550,120 offset by the purchase of available-for-sale securities of \$9,948,404 and the purchase of certain property and equipment of \$161,535. Total cash decreased from \$908,674 at August 31, 2005 to \$671,489 at February 28, 2006, primarily as a result of cash used in operations and an increase in investments.

We expect to use the payments from the sale of our TherMatrx shares, including any contingent payments, for general corporate purposes, including the sales and marketing effort for our FDA approved cancer therapy products, supporting the FDA application for our cancer therapy products under investigational status, the development of new products used in medical therapy and the possible acquisition of new companies or technology.

We expect to incur additional expenses related to the commercial introduction of our systems, due to additional participation at trade shows, expenditures on publicity, additional travel, increased sales salaries and commissions and other related expenses. In addition, we anticipate that we will incur increased expenses related to seeking governmental and regulatory approvals for our products, during fiscal 2006 in excess of fiscal 2005.

We believe our current cash and cash equivalents and securities that are available for sale will be sufficient to finance our operations through fiscal 2006.

FORWARD-LOOKING STATEMENTS

With the exception of historical facts, the statements contained in sections entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which reflect our current expectations and beliefs regarding our future results of operations, performance and achievements. These statements are subject to risks and uncertainties and

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

are based upon assumptions and beliefs that may or may not materialize. These forward-looking statements include, but are not limited to, statements concerning:

- o our anticipated financial performance and business plan;
- o our expectations regarding the commercial introduction of our systems;
- o our expectations and efforts regarding receipt of FDA approvals relating to the BSD-2000 system;
- o our technological developments for the BSD-500 and BSD-2000 systems;
- o our ability to successfully develop our technology for new applications and the expense of such developments;
- o our development or acquisition of new technologies;
- o the amount of expenses we will incur for the commercial introduction of our systems;

14

- o our anticipation that we will incur increased expenses related to seeking governmental and regulatory, approvals for our products during fiscal 2006 in excess of fiscal 2005;
- o our expectation that related party revenue will continue to be a significant portion of our total revenue;
- o our belief that sales of BSD-500 and BSD-2000 systems will increase through our future sales and marketing efforts;
- o our assumption that we will receive contingent payments, and the amount of such payments, in connection with the sale of our TherMatrx shares; and
- o our belief that payments received in connection with the sale of our TherMatrx shares will contribute significantly to our future capital resources;
- o our anticipated use of proceeds from the sale of our TherMatrx shares; and
- o our belief that our current cash, investments and cash received from the sale of our TherMatrx shares will be sufficient to finance our operations through fiscal 2006.

15

We wish to caution readers that the forward-looking statements and our operating results are subject to various risks and uncertainties that could cause our actual results and outcomes to differ materially from those discussed or anticipated, including the factors set forth in the section entitled "Risk Factors" included in our Annual Report on Form 10-KSB for the year ended August 31, 2005 and our other filings with the Securities and Exchange Commission. We also wish to advise readers not to place any undue reliance on the forward-looking statements contained in this report, which reflect our beliefs and expectations only as of the date of this report. We assume no obligation to update or revise these forward-looking statements to reflect new events or circumstances or any changes in our beliefs or expectations, other than as required by law.

Item 3. Controls and Procedures

a. Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based upon that evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were not effective and adequately designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms. We have identified deficiencies that existed in the design or operation of our internal control over financial reporting. The deficiencies relate to the preparation of our provision for income taxes and related income tax footnote disclosures, and the lack of formal procedures to identify and apply new accounting pronouncements and related disclosures. These deficiencies were detected in the review process and have been appropriately recorded and disclosed in this Form 10-QSB. We are in the process of improving our internal control and related disclosures in an effort to remediate these deficiencies through improved supervision and training of our accounting staff. These deficiencies have been disclosed to our audit committee and to our auditors. Additional effort is needed to fully remedy these deficiencies and we are continuing our efforts to improve and strengthen our control processes and procedures. Our management, audit committee, and directors will continue to work with our auditors and other outside advisors to ensure that our controls and procedures are adequate and effective.

b. Changes in internal controls.

16

During the fiscal quarter covered by this report, there has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

17

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4: Submission of Matters to a Vote of Security Holders

The Company's Annual Meeting of Shareholders was held on February 13, 2006. Of the 20,519,632 shares of common stock outstanding and entitled to vote at the meeting, 14,096,138 shares were present, either in person or by proxy. The following proposals were submitted to a vote of security holders at the meeting;

Edgar Filing: BSD MEDICAL CORP - Form 10QSB

1. To elect six members of the Board of Directors to serve until the next annual meeting of the Company and their successors have been duly appointed and are qualified.
2. To approve and ratify an amendment to the 1998 Director Stock Plan to extend the term of the plan and to increase the compensation paid to directors under the plan.
3. To ratify the selection of Tanner LC as the Company's independent registered public accounting firm for the fiscal year ending August 31, 2006.

The above proposals were approved and the results of the voting are summarized in the following table:

Proposal	For	Against	Withheld	Abst
-----	---	-----	-----	-----
1. Elect Board of Directors:				
o Paul F. Turner	14,019,420	--	76,718	
o Hyrum A. Mead	14,027,420	--	68,718	
o Gerhard W. Sennewald	14,018,820	--	77,318	
o Steven G. Stewart	14,062,120	--	34,018	
o Michael Nobel	14,070,120	--	26,018	
o Douglas P. Boyd	14,062,120	--	34,018	
2. Approve and ratify an amendment to the 1998 Director Stock Plan	13,930,382	163,906	--	23
3. Ratify selection of Tanner LC as independent registered public accounting firm	14,076,780	8,335	--	11

Item 5. Other Information

None.

18

Item 6. Exhibits

The following exhibits are filed as part of this report:

Exhibit No.	Description of Exhibit
-----	-----
31.1	Certification Required Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification Required Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1	Certification Required Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
32.2	Certification Required Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
